(973) 571-2029 / (973) 571-6779 FAX WWW, VERONASCHOOLS. ORG MATTHEW LARCEY, TREASURER OF SCHOOL MONIES

Honorable President and Members of the Board of Education Verona Public Schools Verona, New Jersey 07044

Dear Board Members:

The comprehensive annual financial report of the Verona Public Schools for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rest with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Governmental Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the "Independent Auditor's Report".

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, and a list of principal officials. The financial section includes the independent auditor's report, management's discussion and analysis (MD&A), the basic financial statements including the district-wide financial statements. The basic financial statements also include individual fund financial statements, notes to the financial statements and required supplemental information (RSI). The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act as amended and the U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments" and the state Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) <u>REPORTING ENTITY AND ITS SERVICES:</u> Verona School District is an independent reporting entity within the criteria adopted by the GASB. All funds of the District are included in this report. The Verona Board of Education and all its schools constitute the District's reporting entity.

#### 1) REPORTING ENTITY AND ITS SERVICES (Continued)

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular, vocational, as well as special education programs for handicapped youngsters. The District completed the 2014-2015 fiscal year with an enrollment of 2,190 students, which is 3 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District for the last five years.

Fiscal <u>Year</u>	Student <u>Enrollment</u>	Percent <u>Change</u>
2010-2011	2,169	.79%
2011-2012	2,218	2.26%
2012-2013	2,184	-1.5%
2013-2014	2,193	+.41%
2014-2015	2,190	16%

2) <u>ECONOMIC CONDITION AND OUTLOOK:</u> The Township of Verona is a fully developed community, which has a middle class socio-economic character to it. The community is primarily residential in character; however, it does have intensive commercial use on Bloomfield Avenue and Pompton Avenue, which gives the Township an urban downtown shopping district. Industrial use is limited in nature.

#### 3) MAJOR INITIATIVES:

#### District Goals 2014-15

- 1. Implement the Marzano Teacher & Administrator Evaluation System along with Monthly Informal Visits to Classrooms
- 2. Facilitate the creation or revision of assessments and performance tasks that will be common to the department and that will reflect levels of complexity and depth of knowledge district goal.
- 3. Aligning and modifying curriculum writing in mathematics, science, engineering, and humanities.
- 4. Support and monitor Student Growth Objectives.
- 5. Creation of a Title Page for all curricula complete with mission statement, Standards 8 & 9, resources, etc.
- 6. Provide training for our administrators and new teachers on the Marzano Teacher and Administrator Evaluation System as well continue co-observations as administrators to promote consistency.
- 7. Professional learning/development for all staff via professional development days using the Administrative Team, guest speakers, and utilizing our new resource, GCN, Global Compliance Network.
- 8. Successfully monitor and implement K-4 Report Cards that were created by teachers, parents, and administrators.
- 9. Reading Workshop training will continue for our elementary general education and special education teachers K-4 and provide support for grades 5-7 ELA series.
- 10. Expand Dual Enrollment course opportunities (obtain college credits) for our high school students

4) INTERNAL ACCOUNTING CONTROLS: The administration of the district is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

The Board of Trustees has created a Finance Committee, comprised of two board members, Superintendent of Schools and the Business Administrator/Board Secretary, to oversee the fiscal policies, practices and budget controls of the District. The Committee meets on a monthly basis and reports to the full Board with the findings and recommendations.

5) <u>BUDGETARY CONTROLS</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general, the special revenue and the debt service funds. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

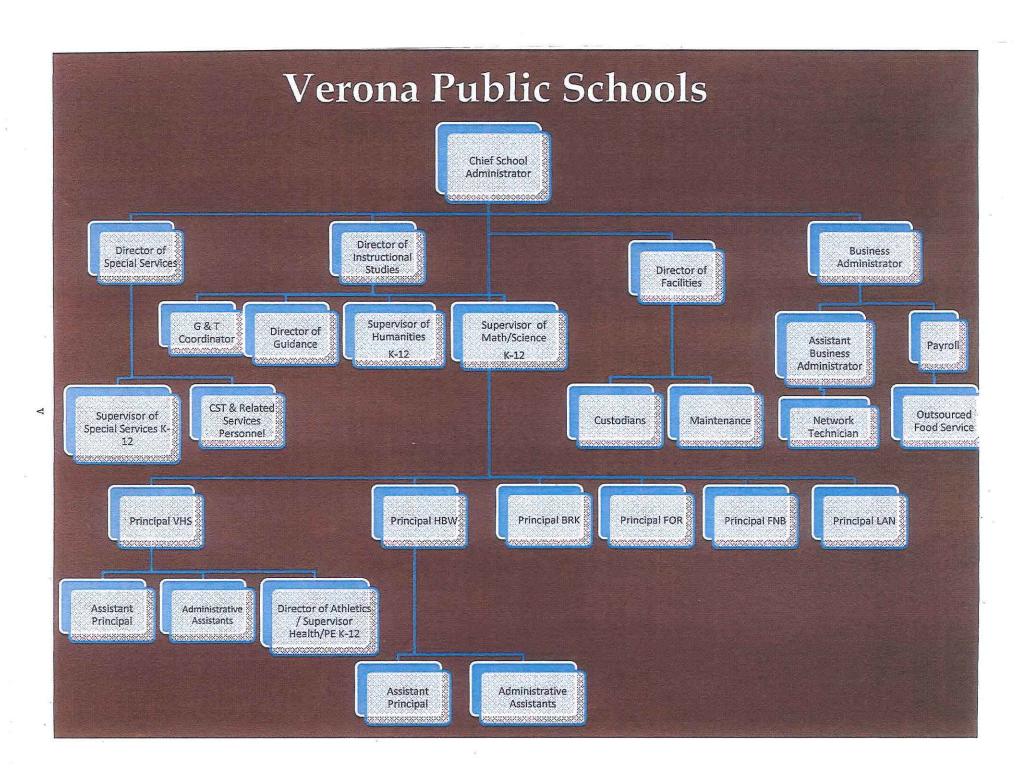

- 6) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect accounting principles generally accepted in the United States of America, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds, which are explained in "Notes to the Financial Statements".
- 7) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements". The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 8) <u>RISK MANAGEMENT:</u> The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

- 9) OTHER INFORMATION: Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Lerch, Vinci & Higgins, LLP, CPAs, was selected by the Board of Trustees. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of a single audit in accordance with OMB Circular A-133 and New Jersey OMB Circular 15-08. The auditors' report on the basic financial statements and individual fund financial statements and schedules are included in the financial section of this report. The auditors' report related specifically to the single audit is included in the single audit section of this report.
- 10) <u>ACKNOWLEDGMENTS:</u> We would like to express our appreciation to the members of the Verona Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Rui/Dionisio Superintendent Cheryl A. Nardino, CPA

Business Administrator/Board Secretary

#### INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Trustees Verona Board of Education Verona, New Jersey

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Verona Board of Education, as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Verona Board of Education as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

Adoption of New Accounting Pronouncement

As discussed in Note 1 to the financial statements, in the fiscal year ended June 30, 2015, the Verona Board of Education adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 68, <u>Accounting and Financial Reporting for Pensions</u>. Our opinion is not modified with respect to this matter.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Verona Board of Education's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, financial schedules, statistical section, schedule of expenditures of federal awards as required by U.S. Office of Management and Budget (OMB) Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, <u>and Non-Profit Organizations</u> and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08, <u>Single Audit Policy for Recipients of Federal Grants</u>, <u>State Grants and State Aid</u>, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Verona Board of Education

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated December 16, 2015 on our consideration of the Verona Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Verona Board of Education's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Management's Discussion and Analysis

This section of the Verona Board of Education's comprehensive annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2015. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

#### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2014-2015 fiscal year include the following:

- The net position of the Verona Board of Education at the close of the fiscal year was \$1,418,833.
- Overall revenues were \$42,887,477. General revenues accounted for \$32,758,228 or 76% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$10,129,249 or 24% of total revenues.
- The school district had \$42,947,688 in expenses for governmental activities; only \$9,725,720 of these expenses were offset by program specific charges, grants or contributions. General revenues (predominantly property taxes) of \$32,758,228 were adequate to provide funding for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$15,463,064.
- The General Fund fund balance at June 30, 2015 was \$1,093,514, a decrease of \$42,085 when compared with the beginning balance at July 1, 2014.

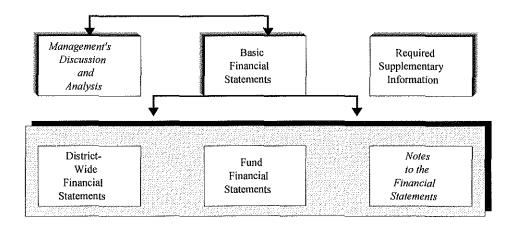

#### Management's Discussion and Analysis

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
  - The governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
  - Proprietary funds statements offer short-term and long-term financial information about the activities the district operated like businesses.
  - Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The various parts of this annual report are arranged and related to one another as follows:

#### Management's Discussion and Analysis

The table below summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Major Features of the District-Wide and Fund Financial Statements

	District-Wide	Fund	Financial Statements	
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as regular and special education and building maintenance.	Activities the district operates similar to a private business: food service enterprise fund	Instances in which the district administers resources on behalf of someone else, such as unemployment, payroll agency, and student activities
Required financial statements	Statements of net position Statement of activities	Balance Sheet Statement of revenues, expenditures and changes in fund balances	Statement of net position Statement of revenues, expenses, and changes in net position Statement of cash flows	Statements of fiduciary net position, Statement of changes in fiduciary net position
Accounting Basis and Measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of assets deferred outflows/inflows of resources liability information	All assets, deferred outflows/inflow, liabilities, both financial and capital, short-term and long-term	Generally assets and deferred outflows of resources expected to be used up and liabilities and deferred inflows of resources that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and deferred outflows of resources and liabilities, both financial and capital, and short-term and long- term	All assets, deferred outflows/inflows of resources and liabilities.both short-term and long term funds do not currently contain capital assets.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or Paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and dedications during the year, regardless of when cash is received or paid.

#### District-wide financial statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position — the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources — is one way to measure the District's financial health or position.

#### Management's Discussion and Analysis

#### District-wide financial statements (continued)

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in two categories:

- Governmental Activities Most of the District's basic services are included here, such
  as regular and special education, transportation, administration and plant operations and
  maintenance. Property taxes and state aid finances most of these activities.
- Business Type Activities These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The District's Food Service Fund and VSEA Fund are included under this category.

#### Fund financial statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

#### The District has three kinds of funds:

- Governmental Funds Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.
- *Proprietary Funds* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.

#### Management's Discussion and Analysis

#### Fund financial statements (continued)

Enterprise Funds —These funds are established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has two enterprise funds.

• Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

#### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

#### Other Information

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for the general, special revenue and debt service funds. A budgetary comparison statement has been provided for these funds as required supplementary information. The required supplementary information can be found following the notes to the financial statements.

Combining statements and schedules are presented immediately following the major budgetary comparisons.

#### DISTRICT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets were more than liabilities by \$1,418,833 as of June 30, 2015. The following schedule summarizes this analysis as of June 30, 2015 and 2014.

#### Management's Discussion and Analysis

By far the largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### Management's Discussion and Analysis

Governmental Activities. The District's total governmental activities' revenues, which includes State and Federal grants, were \$42,483,948 for the fiscal year ended June 30, 2015. Property taxes of \$31,859,449 represented 75% percent of revenues. Another significant portion of revenues came from State aid; total State, Federal and formula aid was \$10,172,173. Other sources of miscellaneous income includes items such as tuition from other LEAs, interest, rentals, prior year refunds, etc.

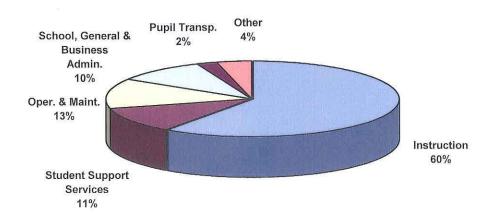

The total cost of all governmental activities programs and services was \$42,947,688. The District's expenses are predominantly related to educating and caring for students. Instruction totaled \$25,622,972 (60%) of total expenditures. Student and instruction related support services, total \$4,765,457 or (11%) of total expenditures.

Total governmental activities expenses and transfers out surpassed revenues decreasing net position \$471,984 from the previous year.

Revenues by Source- Governmental Activities For Fiscal Year 2015

Expenses by Type- Governmental Activities For Fiscal Year 2015

#### Management's Discussion and Analysis

Total and Net Cost of Governmental Activities. The District's total cost of services was \$42,947,688. After applying program revenues, derived from charges for services of \$175,340 and operating and capital grants and contributions of \$9,550,380; the net cost of services of the District is \$33,221,968.

#### **Total and Net Cost of Governmental Activities**

Total	\$ 42,947,688	\$ 36,491,937	\$ 33,221,968	\$ 31,637,516		

**Business-Type Activities** – The District's total business-type activities revenues were \$403,529 for the fiscal year ended June 30, 2015. Charges for services accounted for 99% of total revenues. Operating grants and contributions accounted for 1% of total revenue for the year.

The total cost of all business-type activities programs and services was \$428,138. The District's expenses are related to Food Service and VSEA programs provided to all students, teachers and administrators within the District.

Total business-type activities expenses surpassed revenues and transfers in decreasing net position by \$16,365 over the previous year.

#### Management's Discussion and Analysis

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$15,463,064. At June 30, 2014 the fund balance was \$14,874,913.

Revenues for the District's governmental funds were \$38,761,076, while total expenses were \$41,711,574.

**General Fund** - The General Fund is the chief operating fund of the District and includes the primary operations in providing educational services to students from pre-kindergarten through grade 12 including pupil transportation activities and capital outlay projects.

The following schedule presents a summary of General Fund Revenues.

	Fiscal Year Ended June 30 <u>, 2015</u>		Fiscal Year Ended June 30, 2014		Amount of Increase Decrease)	Percent Increase (Decrease)	
Local Sources:							
Property Taxes	\$	29,231,861	\$	28,496,254	\$ 735,607	2.58%	
Tuition		175,340		150,042	25,298	16.86%	
Miscellaneous		256,206		354,072	(97,866)	-27.64%	
State Sources		4,328,370		3,937,063	 391,307	9.94%	
Total General Fund Revenues	\$_	33,991,777	\$	32,937,431	\$ 1,054,346	<u>3.20%</u>	

Local property taxes increased 2.58% over the previous year. State aid revenues increased \$391,307. This increase is attributed primarily to an increased TPAF pension contribution. Tuition revenues increased by approximately \$25,000.

#### Management's Discussion and Analysis

The following schedule presents a summary of General Fund expenditures.

	Fiscal Year Ended <u>June 30, 2015</u>		Fiscal Year Ended ane 30, 2014	Amount of Increase Decrease)	Percent Increase (Decrease)	
Instruction	\$	21,787,602	\$ 20,676,179	\$ 1,111,423	5.38%	
Support Services		12,147,518	11,988,457	159,061	1.33%	
Debt Service		64,394	82,448	(18,054)	-21.90%	
Capital Outlay	<u></u>	26,104	 62,277	 (36,173)	0.00%	
Total Expenditures	<u>\$</u>	34,025,618	\$ 32,809,361	\$ 1,216,257	<u>3.71</u> %	

Total General Fund expenditures increased \$1,216,257 or more than 4% from the previous year.

In 2014-2015 General Fund expenditures and other financing uses exceeded revenues and other financing sources by \$42,085. As a result, total fund balance decreased to \$1,093,514 at June 30, 2015. After deducting statutory transfers and reserves, the unassigned fund balance increased from \$323,021 at June 30, 2014 to \$339,749 at June 30, 2015.

**Special Revenue Fund** - The Special Revenue Fund includes all restricted Federal and State sources utilized in the operations of the district in providing educational services to students with special needs.

Revenues of the Special Revenue Fund were \$709,557 for the fiscal year ended June 30, 2015. Federal sources accounted for the majority of Special Revenue Fund's revenue which represented 78% of the total revenue for the year.

Total Special Revenue Fund revenues decreased \$49,738 from the previous year.

Expenditures of the Special Revenue Fund were \$709,557. Instructional expenditures were \$522,068 or 74% of total expended for the fiscal year ended June 30, 2015.

Capital Projects Fund – The capital project revenues and other financing sources exceeded expenditures and other financing uses by \$609,538 increasing fund balance to \$14,348,519 at June 30, 2015. The increase is primarily due to the receipt of lease proceeds for energy savings incentive programs and the acquisition of chrome books in the amount of \$3,200,000 and \$175,000, respectively.

#### **Proprietary Funds**

The District maintains an Enterprise Fund to account for activities that are supported in part through user fees.

Enterprise Funds - The District uses the Enterprise Fund to report activities related to the Food Services program. The District's Enterprise Fund provides the same type of found in the district-wide financial statements, business-type activities, but in more detail. Factors concerning the finances of these Funds have already been addressed in the discussion of the District's business-type activities.

#### Management's Discussion and Analysis

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The District's budget is prepared according to New Jersey Department of Education guidelines, and is based on accounting for certain transactions on the basis of cash receipts, disbursements and encumbrances. The most significant budgetary fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. These budget amendments are detailed on Exhibits C-1 and C-2 of the CAFR.

#### CAPITAL ASSETS

The District's investment in capital assets for its governmental and business type activities as of June 30, 2015 amounts to \$41,196,824 (net of accumulated depreciation). The capital assets consist of land, land improvements, buildings, building improvements, computers, specialized machinery and various other types of equipment and construction in progress on the district's referendum. Depreciation charges for fiscal year 2014-2015 amounted to \$1,582,377 for governmental activities and \$11,322 for business-type activities.

### Capital Assets at June 30, 2015 and 2014 (Net of Accumulated Depreciation)

Additional information on the District's capital assets is presented in the Notes to the Financial Statements.

#### Management's Discussion and Analysis

#### LONG TERM LIABILITIES

At year end, the District's long-term liabilities consisted of compensated absences payable of \$1,589,773, bonds payable of \$40,080,000, capital leases/lease purchase agreements payable of \$3,377,620 and net pension liability of \$7,331,860 for a total of \$52,379,253.

Additional information of the District's long-term liabilities is presented in the Notes to the Financial Statements.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

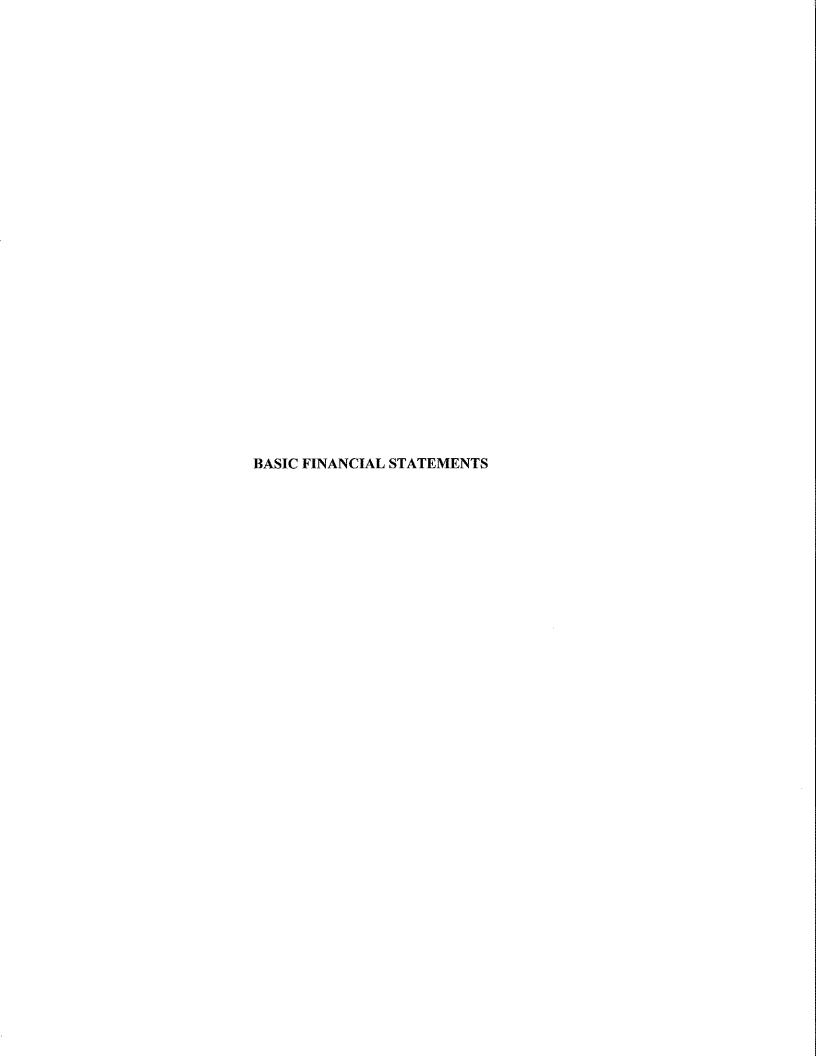

Currently, the District is in good financial condition. At June 30, 2015 the District has in excess of \$1.4 million of general fund surplus (Budgetary Basis). Everyone associated with Verona School District is grateful for the community support, as evidenced by the successful passage of the District's annual budget for the past seven consecutive years.

Many factors were considered by the District's administration during the process of developing the fiscal year 2015/2016 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs.

These indicators were considered when adopting the budget for fiscal year 2015-2016. Budgeted expenditures in the General Fund increased \$843,436 to \$31,835,792 in fiscal year 2015-2016.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information contact the School Business Administrator, Verona Board of Education, 121 Fairview Avenue, Verona, NJ 07044.

# VERONA BOARD OF EDUCATION RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2)	\$	588,151
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.  Depreciation Expense Capital Outlay  (1,582 2,511		928,637
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to		
governmental funds, while the repayment of the principal of long-term debt consumes the current		
financial resources of governmental funds. Neither transaction, however, has any effect on		
Statement of Activities (See Note 2B)		(1,934,415)
In the statement of activities, certain operating expense are masure by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid):		
	,435)	
Net Change in Pension Expense (84	1,763)	
		(112,198)
Interest on long-term debt in the statemeth of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities,		
however, interest expense is recognized as the interest accrues, regardless of when it is due.  Decrease in Accrued Interest		57,841
Change in Net Position of Governmental Activities (Exhibit A-2)	<u>\$</u>	(471,984)

NOTES TO THE FINANCIAL STATEMENTS

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

The Verona Board of Education (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of five elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Verona Board of Education this includes general operations, food service, Verona Summer Enrichment Academy (VSEA) and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

#### **B.** New Accounting Standards

During fiscal year 2015, the District adopted the following GASB statements:

- GASB 68, Accounting and Financial Reporting for Pensions. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria.
- GASB 71, Pension Transition for Contributions Made Subsequent to the Measurement Date an amendment of GASB Statement No. 68, should be applied simultaneously with the provisions of Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### B. New Accounting Standards (Continued)

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB 72, Fair Value Measurement and Application, will be effective beginning with the fiscal year ending June 30, 2016. This Statement addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.
- GASB 73, Accounting and Financial Reporting for Pensions and Related Assets that Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability.
- GASB 74, Financial Reporting for Postemployment Benefit Plans Other than Pension Plans, will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.
- GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, will be effective beginning with the fiscal year ending June 30, 2018. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.
- GASB 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, will be effective beginning with the fiscal year ending June 30, 2016. The objective of this Statement is to identify in the context of the current governmental financial reporting environment the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

# C. Basis of Presentation - Financial Statements

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the District's enterprise funds. Fiduciary funds are excluded from the district-wide financial statements.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# C. Basis of Presentation - Financial Statements (Continued)

#### **District-Wide Financial Statements**

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

# **Fund Financial Statements**

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and the food service enterprise fund to be major funds.

The District reports the following major governmental funds:

The general fund is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects and the child nutrition programs.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# C. Basis of Presentation - Financial Statements (Continued)

#### **Fund Financial Statements** (Continued)

The District reports the following major proprietary funds which are organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

The District reports the following non-major proprietary funds which are organized to be self-supporting through user charges:

The VSEA enterprise fund accounts for the activities of the Verona Summer Enrichment Academy which provides a continuum that bridges essential skills from one grade level to the next.

Additionally, the government reports the following fund types:

The *fiduciary trust fund* is used to account for resources legally held in trust for the state unemployment insurance claims, for private donations for scholarship awards, payroll related activities and student related activities which are supported and controlled by student organizations and clubs. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

#### Reclassifications

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

#### D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

#### 1. Cash, Cash Equivalents and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

#### 2. Receivables

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

#### 3. Inventories

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

#### 4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both district-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### 5. Restricted Assets

Certain assets are classified as restricted on the balance sheet because they are Lease-Purchase Agreements for capital projects.

# 6. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

Assets	<u>Years</u>
Site Improvements	20
Buildings	40
Building Improvements	20
Heavy Equipment	10
Office Equipment and Furniture	10
Computer Equipment	5

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

## 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Board has two items which arise only under the accrual basis of accounting that qualify for reporting in this category. One item is the deferred amounts on refunding of debt which results from the loss on a debt refunding reported in the district-wide statement of net position. Deferred amounts on debt refunding result from the loss on the transaction when the debt's reacquisition price is greater than the carrying value of the refunded debt. These amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. These amounts are deferred and amortized over future years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one item of this type which arises under the accrual basis of accounting. The item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; and (4) changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized over future years.

# 8. Compensated Absences

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused personal and sick leave benefits. A long-term liability of accumulated personal and sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds do not permit the accrual of unused personal and sick leave. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

#### 9. Pensions

In the district-wide financial statements, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems sponsored and administered by the State of New Jersey and additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

## 9. Pensions (Continued)

In the governmental fund financial statements, net pension liabilities represent amounts normally expected to be liquidated with expendable available financial resources for required pension contributions that are due and payable at year end. Pension expenditures are recognized based on contractual pension contributions that are required to be made to the pension plan during the fiscal year.

#### 10. Long-Term Obligations

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Gains and losses resulting from debt refundings are classified as deferred outflows of resources. Bond premiums are deferred and amortized over the life of the bonds using the effective interest method. Gains and losses resulting from debt refundings are also deferred and amortized over the life of the refunded bonds or new bonds whichever is less using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs (other than for prepaid insurance) are treated as an expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 11. Net Position/Fund Balance

#### **District-Wide Statements**

In the district-wide statements, there are three classes of net position:

- Net Investment in Capital Assets consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets or related debt also should be included.
- Restricted Net Position reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position any portion of net position not already classified as either net investment in capital assets or net position restricted is classified as net position unrestricted.

#### **Governmental Fund Statements**

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

#### 11. Net Position/Fund Balance (Continued)

#### **Governmental Fund Statements (Continued)**

<u>Restricted Fund Balance</u> – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Excess Surplus – Designated for Subsequent Year's Budget</u> - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2014 audited excess surplus that was appropriated in the 2015/2016 original budget certified for taxes.

<u>Excess Surplus</u> – This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2015 audited excess surplus that is required to be appropriated in the 2016/2017 original budget certified for taxes.

<u>Capital Reserve</u> – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures.

<u>Maintenance Reserve</u> — This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education.

<u>Capital Projects</u> - Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

<u>Debt Service</u> – Represents fund balance restricted specifically for the repayment of long-term debt principal and interest in the Debt Service Fund.

<u>Assigned Fund Balance</u> – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

<u>Designated for Subsequent Year's Budget</u> – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2015/2016 District budget certified for taxes.

<u>Unassigned Fund Balance</u> – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

# F. Revenues and Expenditures/Expenses

#### 1. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, investment earnings and miscellaneous revenues.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### F. Revenues and Expenditures/Expenses (Continued)

#### 2. Property Taxes

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1<sup>st</sup> in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

# 3. Tuition Revenues and Expenditures

<u>Tuition Revenues</u> - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

<u>Tuition Expenditures</u> - Tuition charges for the fiscal years 2013-2014 and 2014-2015 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

#### 4. Proprietary Funds, Operating and Non-Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund and of the VSEA enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and State subsidies for the food service operation are considered nonoperating revenues.

Debt Issued or Incurred:

#### NOTE 2 RECONCILIATION OF DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

# A. Explanation of certain differences between the governmental fund balance sheet and the district-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position—governmental activities as reported in the district-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details are as follows:

Bonds Payable	\$	40,080,000
Issuance Premium (to be amortized over life of debt)		3,538,313
Capital Leases/Lease Purchase Agreements		3,377,620
Compensated Absences Payable		1,589,773
Net Pension Liability		7,331,860
Net Adjustment to Reduce Fund Balance - Total Governmental Funds		
to Arrive at Net Position - Governmental Activities	<u>\$</u>	55,917,566

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the district-wide statement of activities

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details are as follows:

Door issued of medica.	
Capital Lease Financing	\$ (3,375,000)
Issuance of General Obligation Bonds	(24,635,000)
Issuance Premium	(3,538,313)
Principal Repayments:	
General Obligation Bonds	1,550,000
Capital Lease	62,478
Payment to Escrow Agent for Refunding	1,130,420
General Obligation Bonds Refunded	26,871,000
Net adjustment to decrease net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ (1,934,415)

#### NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

# A. Budgetary Information

In accordance with the requirements of the New Jersey Department of Education ("the Department"), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent for review and approval prior to adoption. Prior to the 2012/2013 budget year, the annual budget was required to be voted upon at the annual school election held on the third Tuesday in April. On January 17, 2012, Chapter 202 of the Laws of P.L. 2011 was approved which established procedures for moving the date of a school district's annual school election from April to the general election in November. Under the new law, districts that have their school board members elected in November no longer have to submit their budgets that meet levy cap requirements for voter approval beginning with the 2012/2013 budget year. Only a school board decision to exceed the tax levy cap would require voter approval for the additional amount on the November ballot. On January 17, 2012, the Board adopted a resolution to move its annual election to the date of the general elections in accordance with the law; therefore voter approval of the annual budget is not required.

Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2014/2015. Also, during 2014/2015 the Board increased the original budget by \$352,449. The increase was funded by grant awards and the appropriation of maintenance reserve funds. On October 7, 2014 the Board authorized and approved a budget modification transferring \$197,615 from the general fund maintenance reserve.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

# NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

# **B.** Excess Expenditures Over Appropriations

The following is a summary of expenditures in excess of available appropriations. The overexpended appropriations resulted in unfavorable variances.

	Final Budget	Actual	Unfavorable Variance
Special Revenue Fund			***************************************
Instruction-			
Salaries of Teachers	\$2,000	\$13,486	\$(11,486)

The above variances were offset with other available resources.

#### C. Deficit Fund Equity

The Food Service Enterprise Fund has a deficit in unrestricted net position of \$2,688 as of June 30, 2015. The District expects to eliminate this deficit through normal operations in the 2015/2016 fiscal year.

# D. Capital Reserve

A capital reserve account was established by the District. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2015 is as follows:

Balance, July 1, 2014	\$ 89,993
Balance, June 30, 2015	\$ 89,993

#### NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### E. Maintenance Reserve

A maintenance reserve account was established by the District. The accumulation of funds will be used for required maintenance of school facilities expenditures in subsequent fiscal years. The maintenance reserve is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the maintenance reserve are restricted to required maintenance activities for a school facility as reported in the comprehensive maintenance plan. A District may appropriate funds into the maintenance reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the reserve cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the fiscal year ended June 30, 2015 is as follows:

Balance, July 1, 2014		\$	197,615
Increased by:			
Deposits Approved by Board Resolution	154,000		
Return of Unexpended Funds	64,586		
			218,586
			416,201
Decreased by:			
Withdrawal Approved by Board Resolution		<del></del>	197,615
Balance, June 30, 2015		\$	218,586

The June 30, 2015 comprehensive maintenance plan indicated a maximum maintenance reserve amount of \$2,228,815. The withdrawals from the maintenance reserve were for use in required maintenance activities for school facilities.

# F. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund fund balance in excess of 2% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The excess fund balance at June 30, 2015 is \$435,230. Of this amount, \$249,987 was designated and appropriated in the 2015/2016 original budget certified for taxes and the remaining amount of \$185,243 will be appropriated in the 2016/2017 original budget certified for taxes.

#### NOTE 4 DETAILED NOTES ON ALL FUNDS

#### A. Cash Deposits and Investments

#### **Cash Deposits**

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2015, the book value of the Board's deposits were \$3,636,372 and bank and brokerage firm balances of the Board's deposits amounted to \$4,354,956. The Board's deposits which are displayed on the various fund balance sheets as "cash and cash equivalents" are categorized as:

# **Depository Account**

Insured \$ 4,354,956

<u>Custodial Credit Risk – Deposits</u> – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2015 the Board's bank balances were not exposed to custodial credit risk.

#### Investments

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located, Local Government investment pools, and agreements or the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2015, the Board had the following investments:

Investment Type:

U.S. Government Securities

Fair
Value

11,331,695

# NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

#### A. Cash Deposits and Investments (Continued)

#### **Investments** (Continued)

<u>Custodial Credit Risk – Investments</u> – For an investment, this is the risk, that in the event of the failure of the counterparty, the Board will not be able to recover the value of its investments or collateral securities that are held by an outside party. The Board does not have a policy for custodial risk. As of June 30, 2015, \$11,331,695 of the Board's investments was exposed to custodial credit risk as uninsured and uncollateralized investments.

<u>Interest Rate Risk</u> – The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The fair value of the above-listed investment was based on quoted market prices.

Investment and interest earnings in the Capital Projects Fund are assigned to the Debt Service Fund in accordance with Board policy.

#### B. Receivables

Receivables as of June 30, 2015 for the district's individual major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

			Special		Capital		Food	
	<u>General</u>	]	<u>Revenue</u>		<b>Projects</b>	5	Service	<u>Total</u>
Receivables:

# NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

# C. Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue reported in the governmental funds were as follows:

Special Revenue Fund		
Unencumbered Grant Draw Downs	\$	7,011
Unencumbered Local Donations		37,998
Capital Project Fund		
Unrealized School Facilities Grants		1,999,253
Total Unearned Revenue for Governmental Funds	<u>\$</u>	2,044,262

# D. Capital Assets

Capital asset activity for the fiscal year ended June 30, 2015 was as follows:

	Balance,			Balance,
	July 1, 2014	Increases	<u>Decreases</u>	June 30, 2015

# **Construction and Other Significant Commitments** (Modify)

The District has the following active construction projects as of June 30, 2015:

<u>Project</u>	Remaining Commitment	
Network and Security Upgrades	\$	71,695
Energy Savings Initiative Program		2,256,487
District Generator Project		212,210
Exterior Door Project		430,025
Fire Alarm Replacement		23,650
Site Improvement and Resurfacing		598,000
Mechanical Upgrades		2,737,728
VHS Asbestos Abatement		111,500
Bleacher Project		191,013
General Construction Management	<u></u>	2,272,820
	\$	8,905,128

# E. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2015, is as follows:

# Due to/from other funds

Receivable Fund Payable Fund		A	mount
General Fund	Capital Projects Fund	\$	1,883
Food Service Fund	General Fund		5,259
Debt Service Fund	Capital Projects Fund		21,021
Total		<u>\$</u>	28,163

The above balances are the result of revenues earned or other financing sources received in one fund which are due to another fund and/or expenditures paid by one fund on behalf of another fund.

The District expects all interfund balances to be liquidated within one year.

# NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

	\$	20,698	\$	8,244	\$	28,942

The above transfers are the result of revenues earned and/or other financing sources received in one fund to finance expenditures in another fund.

#### F. Leases

# Capital Leases/Lease Purchase Agreements

The District has financed the acquisition of computer equipment, a maintenance vehicle, chrome books and various energy initiative programs totaling \$3,580,626 under capital leases/lease purchase agreements. The leases are for terms of 5 to 15 years.

The June 30, 2015 unexpended proceeds of \$2,242,126 from the energy initiative program and the chrome books are held with the Fiscal Agent.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2015 were as follows:

Year Ending June 30	Governmental <u>Activities</u>			
2016	\$	269,224		
2017		285,921		
2018		277,230		
2019		228,360		
2020		172,296		
2021-2030		2,736,487		
Total Minimum Lease Payments		3,969,518		
Less: Amount Representing Interest	*****	(591,898)		
Present Value of Minimum Lease Payments	\$	3,377,620		

# NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

# G. Long-Term Debt

# **General Obligation Bonds**

The Board issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities and other capital assets. The full faith and credit of the Board are irrevocably pledged for the payment of the principal of the bonds and the interest thereon.

Bonds payable at June 30, 2015 are comprised of the following issues:

\$33,971,000, 2006 School Bonds, due in annual installments of \$1,600,000 through March 1, 2016 interest at 4.375%	\$1,600,000
\$13,845,000, 2014 School Bonds, due in annual installments of \$400,000 to \$800,000 through May 1, 2034, interest at 2.500% - 3.500%	13,845,000
\$24,635,000, 2015 Refunding Bonds, due in annual installments of \$1,575,000 to \$1,685,000 through March 1, 2031, interest at 2.000% - 5.000%	<u>24,635,000</u>
Total	<u>\$40,080,000</u>

The Board's schedule of principal and interest for long-term debt issued and outstanding is as follows:

#### **Governmental Activities:**

Fiscal						
Year Ending	Serial Bonds					
<u>June 30,</u>		<u>Principal</u>		<u>Interest</u>		<u>Total</u>
2016	\$	2,000,000	\$	1,503,794	\$	3,503,794
2017		2,100,000		1,459,388		3,559,388
2018		2,175,000		1,399,013		3,574,013
2019		2,315,000		1,320,638		3,635,638
2020		2,405,000		1,238,163		3,643,163
2021-2025		11,990,000		4,826,764		16,816,764
2026-2030		12,210,000		2,342,397		14,552,397
2031		4,885,000		248,250		5,133,250
	\$	40,080,000	\$	14,338,407	<u>\$</u>	54,418,407

## NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

# G. Long-Term Debt (Continued)

#### Statutory Borrowing Power

The Board's remaining borrowing power under N.J.S. 18A:24-19, as amended, at June 30, 2015 was as follows:

4% of Equalized Valuation Basis (Municipal)

Less: Net Debt

\$ 87,978,322
40,080,000

Remaining Borrowing Power \$ 47,898,322

#### **Advance Refunding of Debt**

On March 13, 2015, the District issued \$24,635,000 in School District Refunding Bonds having an interest rate of 2.00% to 5.0%. These bonds were issued in order to advance refund certain principal maturities and certain interest payments of the 2006 School District Bonds of the District. The total bond principal defeased was \$26,871,000 and the total interest payments defeased was \$8,709,388. The net proceeds of \$28,001,420 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments. As a result, the advance refunding met the requirements of an in-substance debt defeasance and the refunded bond liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying amount of the old debt by \$1,130,420. This amount has been reported as Deferred Outflows of Resources on the financial statements and amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. This advance refunding was undertaken to reduce total debt service payments over the next 16 years by \$2,888,131 and resulted in an economic gain of \$2,377,513.

## H. Other Long-Term Liabilities

#### Changes in Long-Term Liabilities

Long-term liability activity for the fiscal year ended June 30, 2015, was as follows:

	Balance, July 1, 2014 (Restated)	<u>Additions</u>	Reductions	Balance, June 30, 2015	Due Within <u>One Year</u>	
Governmental Activities:						
Bonds Payable	\$ 43,866,000	\$ 24,635,000	\$ 28,421,000	\$ 40,080,000	\$ 2,000,000	
Add:						
Unamortized Premium		3,538,313	-	3,538,313		
	43,866,000	28,173,313	28,421,000	43,618,313	2,000,000	
Capital Leases/Lease Purchases/Agreement	65,098	3,375,000	62,478	3,377,620	191,970	
Compensated Absences	1,562,338	27,435	-	1,589,773	-	
Net Pension Liability	7,285,885	45,975		7,331,860	314,765	
Governmental Activity Long-Term Liabilities	\$ 52,779,321	\$ 31,621,723	\$ 28,483,478	\$ 55,917,566	\$ 2,506,735	

For the governmental activities, the liabilities for compensated absences, capital leases/lease purchase agreements and net pension liability are generally liquidated by the general fund.

#### NOTE 5 OTHER INFORMATION

## A. Risk Management

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District is a member of the Morris County Educational Services Commission Insurance Pool (MOCESCOM or the "Fund"). The Fund is a risk sharing public entity pool, established for the purpose of insuring against worker's compensation claims.

The relationship between the Board and the Fund is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The Board is contractually obligated to make all annual and supplementary contributions to the Fund, to report claims on a timely basis, cooperate with management, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by the Fund. Members have a contractual obligation to fund any deficit of the Fund attributable to a membership year during which they were a member.

MOCESCOM provides its members with risk management services, including the defense of and settlement of claims and to establish reasonable and necessary loss reduction and prevention procedures to be followed by the members. Complete financial statements of the Fund are on file with the School's Business Administrator.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

		Board tributions	Employee Contributions		Amount <u>Reimbursed</u>		Ending <u>Balance</u>	
2015			\$ 54,146	\$	51,993	\$	2,153	
2014			57,535		57,538		-	
2013	\$	43,006	6,720		49,723		3	

#### **B.** Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

Federal and State Awards – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2015, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

# NOTE 5 OTHER INFORMATION (Continued)

#### C. Federal Arbitrage Regulations

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2015, the District had no estimated arbitrage earnings due to the IRS.

# D. Employee Retirement Systems and Pension Plans

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all eligible Board employees:

**Public Employees' Retirement System (PERS)** – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. PERS is a cost sharing multi-employer defined benefit pension plan.

Teachers' Pension and Annuity Fund (TPAF) – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. TPAF is a cost sharing plan with special funding situations.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

**Defined Contribution Retirement Program (DCRP)** – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected, certain appointed officials, and certain Board employees not eligible for enrollment in PERS or TPAF. Effective July 1, 2007 membership is mandatory for such individuals with vesting occurring after one (1) year of membership. DCRP is a defined contribution pension plan.

#### **Other Pension Funds**

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

#### NOTE 5 OTHER INFORMATION (Continued)

#### D. Employee Retirement Systems and Pension Plans (Continued)

#### **Other Pension Funds (Continued)**

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at <a href="https://www.state.nj.us/treasury/pensions">www.state.nj.us/treasury/pensions</a>.

#### **Basis of Accounting**

The financial statements of the retirement systems are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the retirement systems. Benefits or refunds are recognized when due and payable in accordance with the terms of the retirement systems.

#### **Investment Valuation**

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290 or at www.state.nj/treasury/doinvest.

#### **Funding Status and Funding Progress**

As of July 1, 2013, the most recent actuarial valuation date, the aggregate funded ratio for all the State administered retirement systems including TPAF and PERS, is 62.8 percent with an unfunded actuarial accrued liability of \$51.0 billion. The aggregate funded ratio and unfunded accrued liability for the State-funded systems is 54.2 percent and \$37.3 billion, and the aggregate funded ratio and unfunded accrued liability for local PERS and Police and Firemen's Retirement System ("PFRS") is 75.4 percent and \$13.7 billion, respectively.

The funded status and funding progress of the retirement systems is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the retirement systems in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financing reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

#### NOTE 5 OTHER INFORMATION (Continued)

#### D. Employee Retirement Systems and Pension Plans (Continued)

#### **Actuarial Methods and Assumptions**

In the July 1, 2013 actuarial valuation, the projected unit credit was used as the actuarial cost method, and the five year average of market value was used as the asset valuation method for the retirement systems. The actuarial assumptions included (a) an investment rate of return for the retirement systems of 7.90 percent and (b) projected salary increases of 4.24 percent for the PERS and 3.33 percent for TPAF.

#### **Employer and Employee Pension Contributions**

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 6.9% for PERS, 6.9% for TPAF and 5.50% for DCRP of the employee's annual compensation.

#### **Annual Pension Costs (APC)**

Per the requirements of GASB Statement No. 27 Accounting for Pensions by State and Local Government Employees, for the fiscal year ended June 30, 2015 for TPAF, which is a cost sharing plan with special funding situations, the annual pension cost differs from the annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, the annual pension cost equals contributions made. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution.

During the fiscal years ended June 30, 2015, 2014 and 2013 the Board was required to contribute for PERS and DCRP and the State of New Jersey was required to contribute for TPAF for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

DDD 6	О			CDD
<u>PERS</u>		TPAF	<u> 1</u>	<u>DCRP</u>

310,742		993,857		5,608
\$	287,242	PERS \$ 322,831 \$ 287,242	\$ 322,831 \$ 797,906 287,242 664,993	<u>PERS</u> <u>TPAF</u> \$ 322,831 \$ 797,906 \$ 287,242 664,993

For fiscal years 2014/2015 and 2012/2013, the state contributed \$797,906 and \$993,857, respectively for normal cost pension, accrued liability and the NCGI premium. For fiscal year 2013/2014 the State did not contribute to the TPAF for accrued liability but did contribute \$664,993 for normal cost pension and NCGI premium.

The PERS contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure. The on-behalf TPAF contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB No. 24. The DCRP contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure, as well as, the district-wide financial statements (accrual basis) as an expense.

#### NOTE 5 OTHER INFORMATION (Continued)

#### D. Employee Retirement Systems and Pension Plans (Continued)

#### **Annual Pension Costs (APC) (Continued)**

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$1,146,188 during the fiscal year ended June 30, 2015 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been recognized in the district-wide financial statements (accrual basis) and the governmental fund financial statements (modified accrual basis) as a revenue and expense/expenditure in accordance with GASB No. 24.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

#### **Public Employees Retirement System (PERS)**

At June 30, 2015, the District reported in the statement of net position (accrual basis) a liability of \$7,331,860 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, actuarially determined. At June 30, 2014, the District's proportionate share was .03916 percent, which was an increase of .00104 percent from its proportionate share measured as of June 30, 2013.

For the fiscal year ended June 30, 2015, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$407,594 for PERS. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Changes of Assumptions	\$	230,553		
Net Difference Between Projected and Actual Earnings on Pension Plan Investments			\$	436,939
Changes in Proportion and Differences Between			Φ	430,939
District Contributions and Proportionate Share				
of Contributions		167,598		-
Total	\$	398,151	\$	436,939

2020		73,190
Thereafter		32,202
	\$	(38,788)

#### Actuarial Assumptions

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	<u>PERS</u>
Inflation Rate	3.01%
Salary Increases:	
2012-2021	2.15-4.40%
	Based on Age
Thereafter	3.15-5.40%
	Based on Age
Investment Rate of Return	7.90%
Mortality Rate Table	RP-2000
Period of Actuarial Experience	July 1, 2008 -
Study Upon Which Actuarial	June 30, 2011
Assumptions were Based	

Assumptions for mortality improvements are based on Society of Actuaries Scale AA.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Public Employees Retirement System (PERS) (Continued)

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2014 are summarized in the following table:

	Long-Term
Target	<b>Expected Real</b>
<b>Allocation</b>	Rate of Return
6.00%	0.80%
1.00%	2.49%
11.20%	2.26%
2.50%	2.17%
5.50%	4.82%
2.50%	3.51%
25.90%	8.22%
12.70%	8.12%
6.50%	9.91%
8.25%	13.02%
12.25%	4.92%
3.20%	5.80%
2.50%	5.35%
	Allocation  6.00% 1.00% 11.20% 2.50% 5.50% 2.50% 25.90% 12.70% 6.50% 8.25% 12.25% 3.20%

#### Discount Rate

The discount rate used to measure the total pension liabilities of the PERS plan was as follows:

<u>Plan</u>	<u>Discount Rate</u>
PERS	5.39%

#### NOTE 5 OTHER INFORMATION (Continued)

#### D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

#### Public Employees Retirement System (PERS) (Continued)

#### Sensitivity of Net Pension Liability

The following presents the District's proportionate share of the PERS net pension liability calculated using the discount rate of 5.39%, as well as what the District's proportionate share of the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.39 percent) or 1-percentage-point higher (6.39 percent) than the current rate:

	1% Decrease (4.39%)	Current Discount Rate (5.39%)	1% Increase (6.39%)
District's Proportionate Share of the PERS Net Pension Liability	\$ 9,223,700	\$ 7,331,860	\$ 5,743,193

The sensitivity analysis was based on the proportionate share of the District's net pension liability at June 30, 2014. A sensitivity analysis specific to the District's net pension liability was not provided by the pension system.

#### Pension Plan Fiduciary Net Position

Detailed information about the PERS pension plan's fiduciary net position is available in the separately issued financial report from the State of New Jersey, Department of the Treasury, Division of Pension and Benefits. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at <a href="https://www.state.nj.us/treasury/pensions">www.state.nj.us/treasury/pensions</a>.

<sup>\*</sup> The municipal bond return rate used is 4.29%. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

#### NOTE 5 OTHER INFORMATION (Continued)

#### D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

#### Teachers Pension and Annuity Fund (TPAF)

In accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions, the District is not required to recognize a net pension liability for TPAF. The State of New Jersey is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 68 is zero percent and the State's proportionate share is 100% for TPAF. Therefore, in addition, the District does not recognize any portion of the TPAF collective deferred outflows of resources and deferred inflows of resources.

For the fiscal year ended June 30, 2015, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$4,520,778 for TPAF. This amount has been included in the district-wide statement of activities (accrual basis) as a revenue and expense in accordance with GASB No. 24.

At June 30, 2015 the State's proportionate share of the net pension liability attributable to the District is \$84,014,664. The nonemployer allocation percentages are based on the ratio of the State's contributions made as an employer and nonemployer towards the actuarially determined contribution amount adjusted by locations who participated in the State early retirement incentives to total contributions to TPAF during the year ended June 30, 2014.

#### **Actuarial Assumptions**

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

	<b>TPAF</b>
Inflation Rate	2.50%
Salary Increases:	
2012-2021	Varies based
	on experience
Thereafter	Varies based
	on experience

#### E. Post-Retirement Medical Benefits

The State of New Jersey sponsors and administers the post-retirement health benefit program plans for school districts. The Plans are classified as either single employer plans or cost sharing multiple employer defined benefit plans depending on the plan the eligible employee is covered under.

As a result of implementing Governmental Accounting Standards Board (GASB) Statement No. 43, Financial Reporting for Post-employment Benefit Plans Other than Pension Plans (OPEB), effective for Fiscal Year 2007, the State Health Benefits Program (SHBP), and the Prescription Drug Program (PDP), and Post-Retirement Medical (PRM) of the PERS and TPAF are combined and reported as Pension and Other employee Benefit Trust Funds in the State's Comprehensive Annual Financial Report (CAFR). Specifically, SHBP-State, and the PRM of the PERS are combined and reported as a Health Benefits Program Fund — State classified as a single employer plan. The SHBP-Local, PDP-Local, and the PRM of the TPAF-Local are combined and reported as Health Benefits Program Fund —Local Government classified as a cost-sharing multiple-employer plan in the State's CAFR. The post-retirement benefit programs had a total of 590 state and local participating employers and contributing entities for Fiscal Year 2014.

The State of New Jersey sponsors and administers the following health benefit programs covering certain state and local government employees, including those Board employees and retirees eligible for coverage.

Health Benefits Program Fund (HBPF) – Local Education (including Prescription Drug Program Fund) – The State of New Jersey provides paid coverage to members of the Teachers' Pension and Annuity Fund who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of P.L. 1992, c.126, the State also provides paid coverage to members of the Public Employees' Retirement System and Alternate Benefits Program who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for state paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare parts A and B by paying the cost of the insurance for themselves and their covered dependents. Also, education employees are eligible for the PDP coverage after 60 days of employment.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at <a href="https://www.state.nj.us/treasury/pensions">www.state.nj.us/treasury/pensions</a>.

#### NOTE 5 OTHER INFORMATION (Continued)

#### E. Post-Retirement Medical Benefits (Continued)

#### **Basis of Accounting**

The financial statements of the health benefit programs are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the health benefit programs. Benefits or refunds are recognized when due and payable in accordance with the terms of the health benefit programs.

#### Significant Legislation

P.L. 2011, c.78, effective October 2011, sets new employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to this new legislation's effective date with a minimum contribution required to be at least 1.5% of salary.

#### **Investment Valuation**

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair values.

#### **Funded Status and Funding Progress**

As of July 1, 2013, the most recent actuarial valuation date, the State had a \$53.0 billion unfunded actuarial accrued liability for other post-employment benefits (OPEB) which is made up to \$19.7 billion for state active and retired members and \$33.3 billion for education employees and retirees that become the obligation of the State of New Jersey upon retirement.

The funded status and funding progress of the OPEB includes actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the OPEB in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at the point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

#### **Actuarial Methods and Assumptions**

In the July 1, 2013, OPEB actuarial valuation, the projected unit credit was used as the actuarial cost method. The actuarial assumptions included an assumed investment rate of return of 4.50 percent.

#### NOTE 5 OTHER INFORMATION (Continued)

#### E. Post-Retirement Medical Benefits (Continued)

#### **Post-Retirement Medical Benefits Contributions**

P.L. 1987, c. 384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively to fund post-retirement medical benefits for those State employees and education employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2014, there were 103,432, retirees receiving post-retirement medical benefits and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State and in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

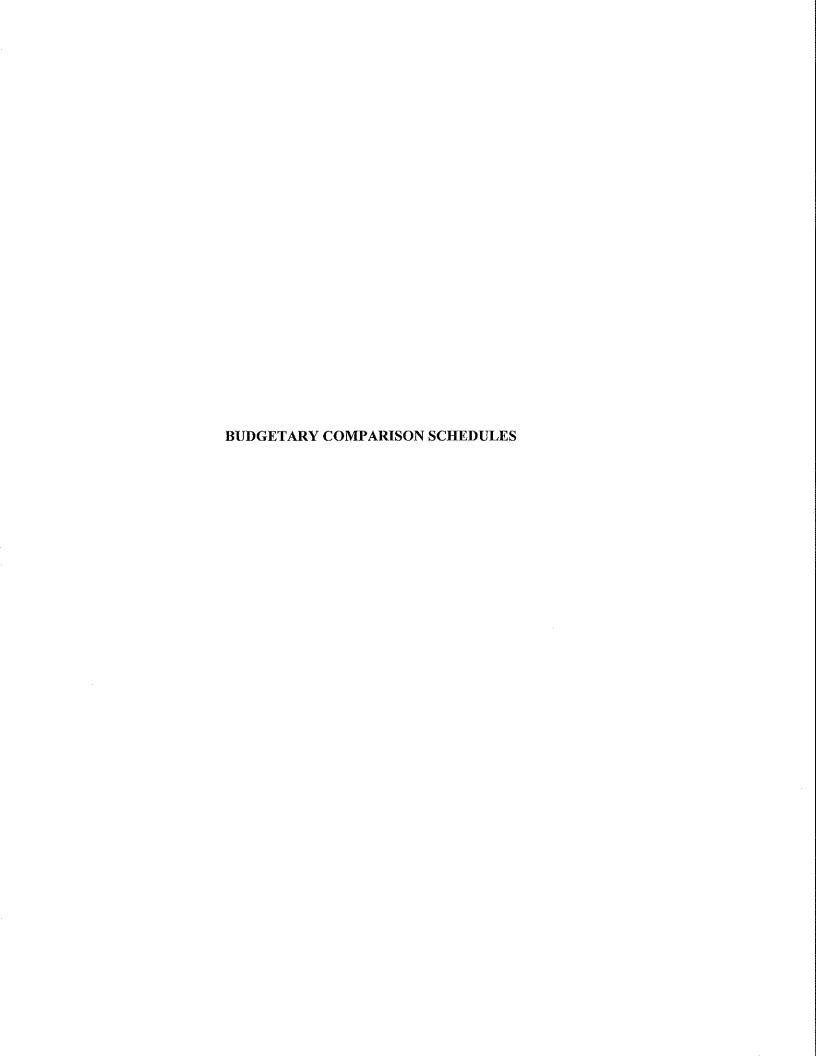

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014.

The State sets the contribution rate based on a pay as you go basis and not on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the fiscal years ended June 30, 2015, 2014 and 2013 were \$1,266,676, \$1,090,337 and \$1,123,801 respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

#### NOTE 6 RESTATEMENT

On July 1, 2014, the Verona Board of Education implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions. The Verona Board of Education has determined that the effect of implementing this accounting change on the financial statements previously reported as of and for the fiscal year ended June 30, 2014 was to recognize the District's proportionate share of the Public Employees' Retirement System's (PERS) net pension liability, deferred outflows of resources and deferred inflows of resources with a corresponding reduction in the unrestricted component of net position in the amount of \$7,285,885. The result of this restatement is to reduce total net position of Governmental Activities at June 30, 2014 from \$9,124,457 as originally reported to \$1,838,572 as adjusted for the effects of the change in accounting principle.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - PART II	

## VERONA BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

	General <u>Fund</u>		Special Revenue <u>Fund</u>
Sources/Inflows of Resources			
Actual revenue amounts (budgetary basis) (Exhibits C-1 and C-2)	\$ 34,017,827	\$	709,557
State Aid payment not recognized for GAAP purposes, not recognized for budgetary statements.  State Aid payment recognized for budgetary purposes,	306,666		
not recognized for GAAP statements.	(332,716)		-
Total revenues as reported on the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds (Exhibit B-2)  Uses/Outflows of Resources	\$ 33,991,777	<u>\$</u>	709,557
Actual expenditure amounts (budgetary basis) (Exhibits C-1 and C-2)	\$ 34,025,618	\$	709,557
Differences-Budget to GAAP  Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	 		-
Total expenditures as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds (Exhibit B-2)	\$ 34,025,618	\$	709,557

REQUIRED SUPPLEMENTARY INFORMATION - PART III	

## VERONA BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

#### **Public Employees Retirement System**

Last Two Fiscal Years\*
(Dollar amounts in thousands)

	2015			2014
District's Proportion of the Net Position Liability (Asset)		.03916%		.03812%
District's Proportionate Share of the Net Pension Liability (Asset)	\$	7,331,860	\$	7,285,885
District's Covered-Employee Payroll	\$	2,574,194	\$	2,649,102
District's Proportionate Share of the Net Pension Liability (Asset) as a Percentage of its Covered-Employee Payroll		285%		275%
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability		52.08%		48.72%

<sup>\*</sup> The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

This schedule is presented to illustrate the requirement to show information for 10 years in accordance with GASB Statement No. 68. However, until a full 10-year trend is compiled, the District will only present information for those years for which information is available.

## VERONA BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF DISTRICT CONTRIBUTIONS

#### Public Employees Retirement System

Last Two Fiscal Years (Dollar amounts in thousands)

		2014		
Contractually Required Contribution	\$	322,831	\$	287,242
Contributions in Relation to the Contractually Required Contribution		322,831		287,242
Contribution Deficienty (Excess)	\$		\$	*
District's Covered-Employee Payroll	\$	2,574,194	\$	2,649,102
Contributions as a Persentage of Covered-Employee Payroll		13%		11%

This schedule is presented to illustrate the requirement to show information for 10 years in accordance with GASB Statement No. 68. However, until a full 10-year trend is compiled, the District will only present information for those years for which information is available.

## VERONA BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

#### Teachers Pension and Annuity Fund

Last Two Fiscal Years\*
(Dollar amounts in thousands)

	2015			2014		
District's Proportion of the Net Position Liability (Asset)		0%		0%		
District's Proportionate Share of the Net Pension Liability (Asset)	\$	-	\$			
State's Proportionate Share of the Net Pension Liability (Asset) Associated with the District	\$	84,014,664	\$	77,734,764		
Total	\$	84,014,664	\$	77,734,764		
District's Covered-Employee Payroll		14,991,957		14,603,136		
District's Proportionate Share of the Net Pension Liability (Asset) as a Percentage of its Covered-Employee Payroll		0%		0%		
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability		33.64%		33.76%		

<sup>\*</sup> The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

This schedule is presented to illustrate the requirement to show information for 10 years in accordance with GASB Statement No. 68. However, until a full 10-year trend is compiled, the District will only present information for those years for which information is available.

# VERONA BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF NET PENSION LIABILITY AND SCHEDULE OF DISTRICT CONTRIBUTIONS NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2015

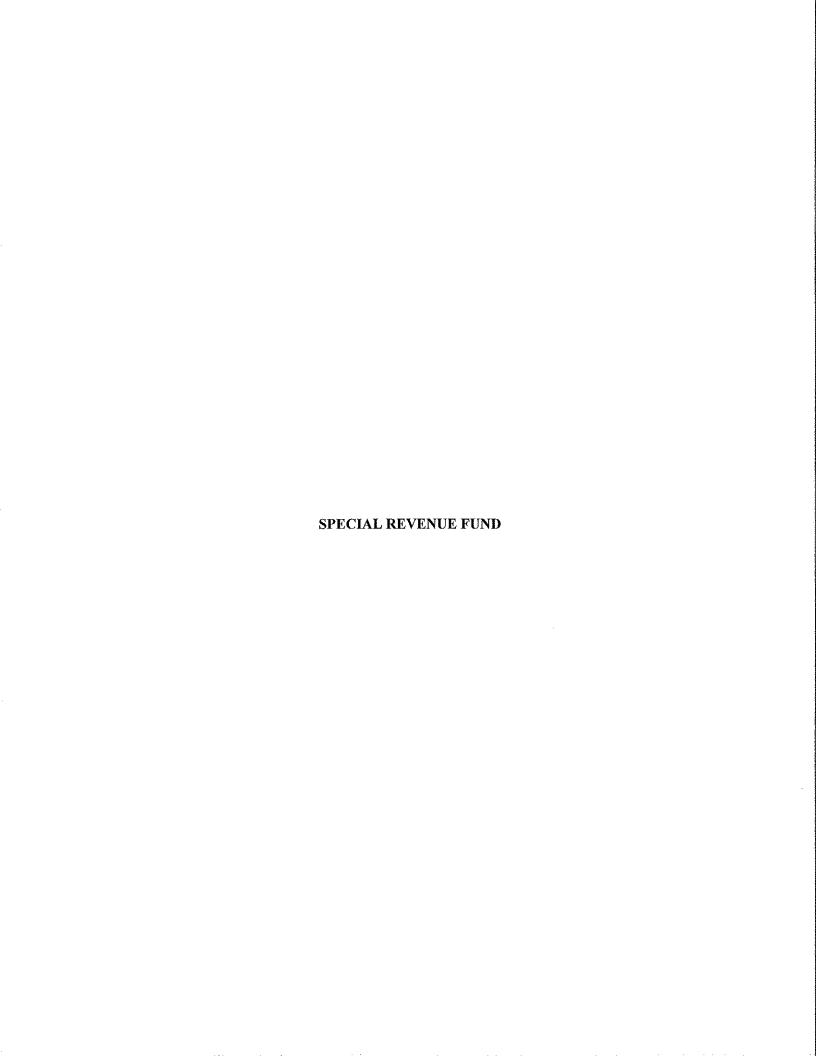

**Change of Benefit Terms:** 

None.

Change of Assumptions:

The discount rate changed from the District's rate as of June 30, 2014 to the District's rate as of June 30, 2015, in accordance with GASB

Statement No. 67.

#### STATISTICAL SECTION

This part of the Verona Board of Education's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

**Contents Exhibits Financial Trends** These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed J-1 to J-5 over time. **Revenue Capacity** These schedules contain information to help the reader assess the govern-J-6 to J-9 ment's most significant local revenue source, the property tax. **Debt Capacity** These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future. J-10 to J-13 **Demographic and Economic Information** 

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

J-14 and J-15

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs. J-16 to J-20

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Beginning with Fiscal Year 2012, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This Statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Reclassification of prior year fund balance amounts to comply with Statement No. 54 is not required.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Trustees Verona Board of Education Verona, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Verona Board of Education as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Verona Board of Education's basic financial statements and have issued our report thereon dated December 16, 2015.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Verona Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Verona Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Verona Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Verona Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u> and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

However, we noted certain matters that are not required to be reported under <u>Government Auditing Standards</u> that we reported to management of the Verona Board of Education in a separate report entitled, "Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance" dated December 16, 2015.

#### Verona Board of Education's Response to Findings

The Verona Board of Education's response to the finding identified in our audit is described in the schedule of findings and questioned costs. The Verona Board of Education's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Verona Board of Education's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Verona Board of Education's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

> REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY U.S. OMB CIRCULAR A-133 AND SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08

#### INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Trustees Verona Board of Education Verona, New Jersey

### Report on Compliance for Each Major Federal and State Program

We have audited the Verona Board of Education's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey OMB Circular 15-08 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Verona Board of Education's major federal and state programs for the fiscal year ended June 30, 2015. The Verona Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Verona Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; U.S. OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards and Circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Verona Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Verona Board of Education's compliance.

#### Opinion on Each Major Federal and State Program

In our opinion, the Verona Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2015.

## Report on Internal Control Over Compliance

Management of the Verona Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Verona Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with U.S. OMB Circular A-133 and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Verona Board of Education's internal control over compliance.

A <u>deficiency in internal control over compliance</u> exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A <u>material weakness in internal control over compliance</u> is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. <u>A significant deficiency in internal control over compliance</u> is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of U.S. OMB Circular A-133 and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

# Report on Schedule of Expenditures of Federal Awards Required by U.S. OMB Circular A-133 and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Verona Board of Education, as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements. We issued our report thereon dated December 16, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by U.S. OMB Circular A-133 and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

VERONA BOARD OF EDUCATION NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2015

#### **NOTE 1 GENERAL**

The accompanying schedules present the activity of all federal and state financial assistance programs of the Verona Board of Education. The Board of Education is defined in Note 1(A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

#### NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with requirements of U.S. OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations" and New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

#### NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$26,050 for the general fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

		<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund			\$ 4,328,370	\$ 4,328,370
Special Revenue Fund	\$	553,751	142,320	696,071
Capital Projects Fund			789,581	789,581
Debt Service Fund			621,793	621,793
Food Service Fund	*****	4,658	 -	 4,658
Total Financial Assistance	\$	558,409	\$ 5,882,064	\$ 6,440,473

VERONA BOARD OF EDUCATION NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2015

#### NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules may not necessarily agree with the amounts reported in the related federal and state financial reports due to timing differences between the District's fiscal year and grant program years.

#### NOTE 5 OTHER INFORMATION

TPAF Social Security contributions in the amount of \$1,146,188 represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2015. The amount reported as TPAF Pension System Contributions in the amount of \$797,906 and TPAF Post-Retirement Medical Benefits Contributions in the amount of \$1,266,676 represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2015.

#### NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amount subject to State single audit and major program determination.
