INTRODUCTORY SECTION

AMY M. CAPRIOTTI, CPA
School Business Administrator/Board Secretary

November 7, 2016

Honorable President and
Members of the Board of Education
Bellmawr Public School District
256 Anderson Avenue
Bellmawr, NJ 08031

Dear Board Members:

The comprehensive annual financial report (CAFR) of the Bellmawr Public School District for the fiscal year ended June 30, 2016, is hereby submitted. This CAFR includes the District's basic financial statements prepared in accordance with Governmental Accounting Standards Board Statement 34. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designated to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections:

- The Introductory Section contains a letter of transmittal, an organizational chart of the District, a roster of principal officials, and a list of consultants and advisors;
- The Financial Section begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the basic financial statements, and notes providing an overview of the District's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the District, generally presented on a multi-year basis;
- The Single Audit Section – The District is required to undergo an annual audit in conformity with

the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditors' reports on the internal control structure and compliance with applicable laws and regulations, and findings and recommendations, if any, are included in the single audit section of this report.

Reporting Entity and Its Services

The Bellmawr Public School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the District are included in this report. The Bellmawr Board of Education and its three schools constitute the District's reporting entity.

The District continues to maintain a high quality of education. The District provides a full range of programs and services appropriate to grade levels Pre-K through 8. These include regular education, special education for students with disabilities, as well as basic skills improvement for lower functioning students. A variety of extra-curricular activities are offered to all students. The following details the changes in the student enrollment of the District over the last five years. The table presents the actual historical pupil enrollment as of October 15, for the school years 2011-12 through 2015-16.

<u>Fiscal</u>	<u>Student</u>
<u>Year</u>	<u>Enrollment</u>
2015-16	1,192
2014-15	1,161
2013-14	1,133
2012-13	1,114
2011-12	1,135

For fiscal year 2015-2016, the district administrative structure included a Superintendent, a Business Administrator/Board Secretary, three Principals, a Director of Curriculum & Instruction, a Supervisor of Student Services and a Director of Special Services . The seven-member Board of Education is an elected body consisting of seven members from Bellmawr. The Board of Education meets on the fourth Wednesday of each month for its work session meetings and the fourth Wednesday of each month for its regular Board meetings (with some exceptions). During its Board meetings, the Board determines district goals and priorities and conducts business of the Board of Education. Board meetings are open to the public with the work sessions beginning at 5:00 pm and the regular meetings beginning at 6:00 pm.

The District is committed to helping every student reach his or her individual potential, capabilities and goals, and in doing so, provides a stimulating physical and social environment which is designed to activate the appetite for learning and motivate the students to excel to their fullest potential. It is the

District philosophy that education must be flexible and oriented toward the future and that we must attempt to insure the fulfillment of the student's educational aspirations and their correlated growth characteristics. Our educational process shall continually be improved, expanded, and evaluated to meet the demands of the times. We must provide a physical and social environment which discovers, develops, and nurtures human talents, self-confidence, and critical thinking.

As society moves into the twenty-first century, we must challenge students to become critical, independent thinkers. Additionally, an emphasis has been placed on technology throughout the District through integration and immersion. The District has adopted the goals, objectives and proficiencies outlined in the Technology Plan.

Economic Condition and Outlook

Although the Bellmawr community is essentially fully developed, enrollments have been going up due to the opening of the new Early Childhood Center for preschool students. There is a trend toward younger families moving into the community as homes become available.

There is a major "light" industrial park located in the Borough, which includes a regional office of the United States Postal Service and sixty-two other wholesale and industrial businesses.

The Borough is situated directly between the NJ Turnpike, Interstate 295 and Routes 42, 30 and 168, making this a bustling area of commerce.

Goals and Objectives for 2015-2016

The District Goals were:

Mathematics

- To implement Go Math in grade 5 and to provide professional development for those teachers
- To utilize the diagnostic piece of the 6-8 grade math program

Science

- To rewrite the 6-8 science curriculum so it is aligned to the common core standards, to provide professional development for those teachers
- To explore STEM materials to be able to implement the new standards, professional development writing across the content areas.

English Language Arts

- To implement of Benchmark Reading grades 1-6; to provide professional development for those teachers.
- To implement Collections literacy program grades 7-8. to provide professional development for those teachers.
- To Implement READ 180 in grade 5 and 6, Resource Room in Bell Oaks and with the ELL population and professional development for the same.

Social Studies

- To revise and be ready to implement Common core aligned benchmarks through LINK It by September 2016

Technology

- To expand the 1:1 laptop initiative
- To provide professional development to teachers in technology integration

Academics

- To create a summer regression program for the lowest 20% of our population
- To ensure that 80% of fourth grade students are on grade level according to multiple measures: running records, DRA, CSA in Benchmark
- To see 5% growth on those students assigned to READ 180 in 5th and 6th grades.
- To successfully implement a full day early childhood program for three and four year olds.
- To utilize the Master Teacher to develop a comprehensive assessment system for the early childhood learning environment.

Assessment

- To utilize Link It as the online data collection system through the grades and the content areas.

Internal Accounting Controls

Management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District also is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal controls are also subject to periodic evaluation by the District management.

As part of the district's single audit described earlier, tests are made to determine the adequacy of the internal controls, including that portion related to Federal and State financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

Budgetary Controls

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget

amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at year end.

Accounting System and Reports

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

Management's Discussion and Analysis

GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the report of the independent auditors.

Cash Management

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District is required to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

Risk Management

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, workers compensation, hazard and theft insurance on property and contents, and surety bonds.

Independent Audit

State statutes require an annual audit by independent Certified Public Accountants or registered municipal accountants. The accounting firm of Bowman & Company LLP, was selected by the Board of Education. In addition to meeting the requirements set forth in the state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

Acknowledgements

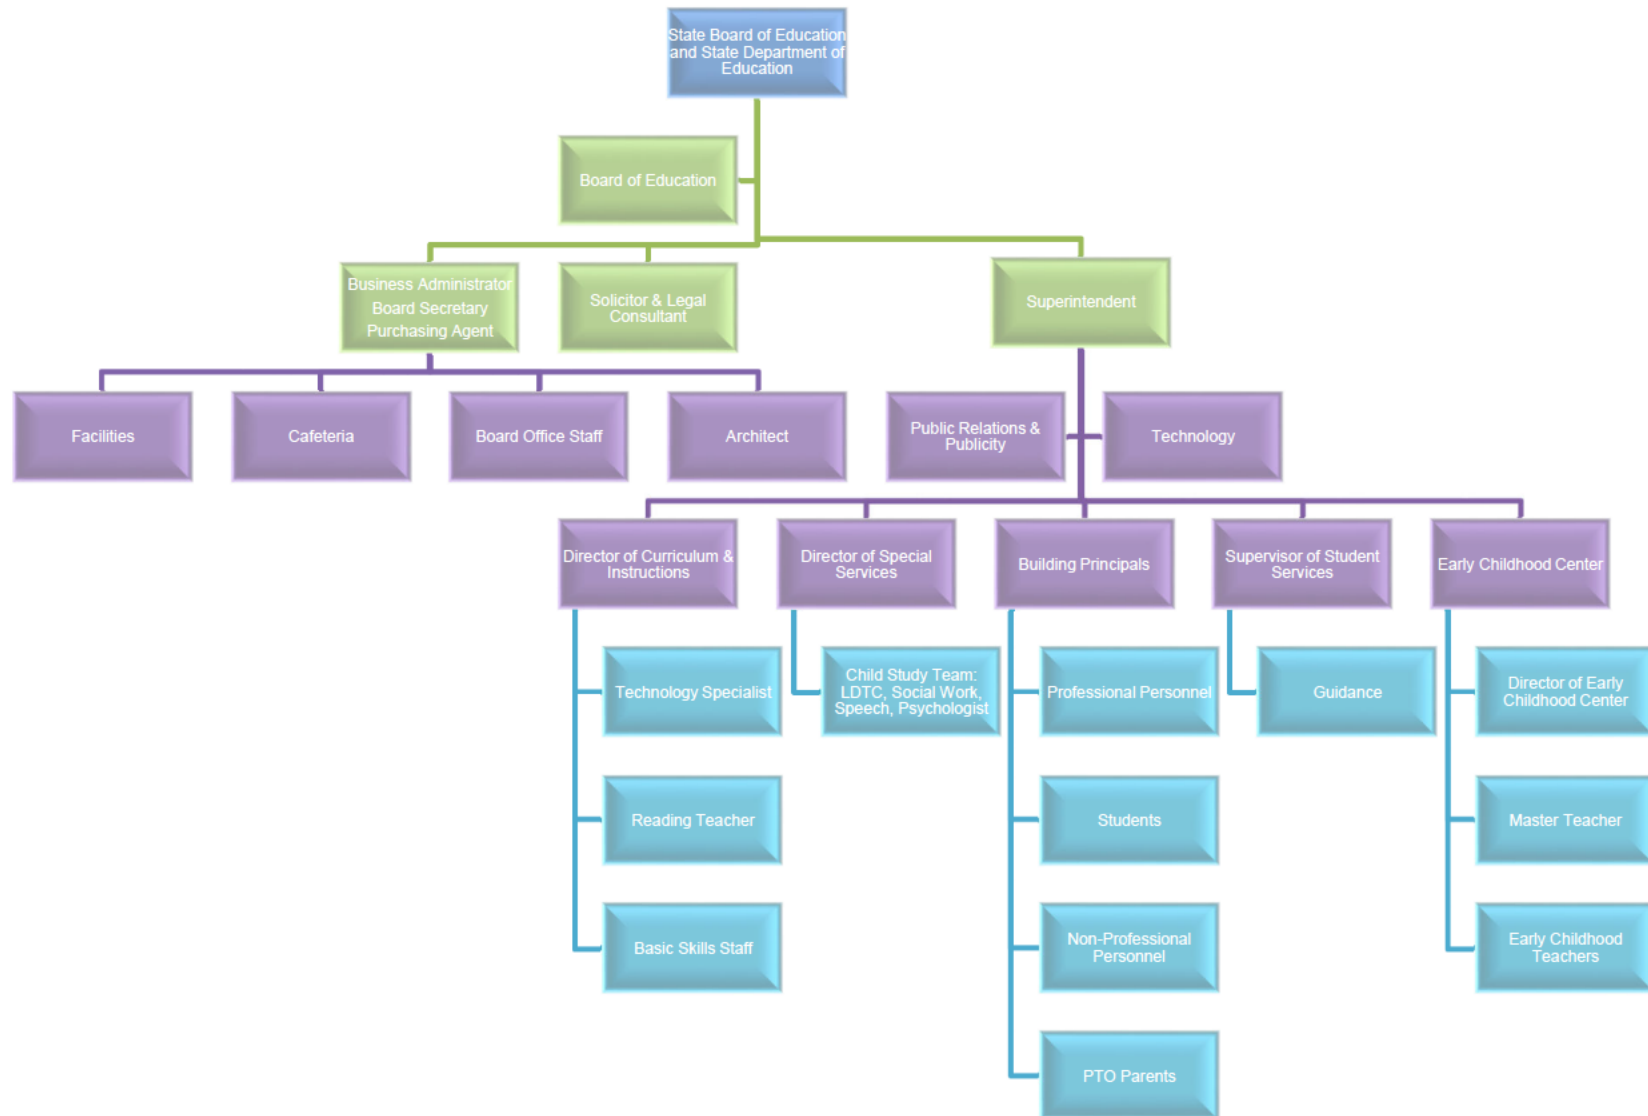

We would like to express our appreciation to the members of the Bellmawr Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the Bellmawr staff.

Respectfully submitted,

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Borough of Bellmawr School District
Bellmawr, New Jersey 08031

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Bellmawr School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Bellmawr School District, in the County of Camden, State of New Jersey, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

20500

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the School District's proportionate share of the net pension liability, and schedule of the School District's contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Bellmawr School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Division of Administration and Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

20500

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2016 on our consideration of the Borough of Bellmawr School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough of Bellmawr School District's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Borough of Bellmawr School District
Bellmawr, New Jersey 08031

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Bellmawr School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated November 7, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Borough of Bellmawr School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough of Bellmawr School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Bellmawr School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REQUIRED SUPPLEMENTARY INFORMATION
PART I

BOROUGH OF BELLMAWR SCHOOL DISTRICT

Management's Discussion and Analysis

Fiscal Year Ended June 30, 2016

(Unaudited)

As management of the Borough of Bellmawr School District (hereafter referred to as the "School District"), we offer readers of the School District's annual financial report this narrative overview and analysis of the financial activities for the fiscal year that ended on June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the information furnished in our letter of transmittal, notes to the basic financial statements, and financial statements to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34- Basic Financial Statements- and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current fiscal year (2015-2016) and the prior fiscal year (2014-2015) is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

- The net position of the School District, which represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources, totaled \$4,134,221.02 at the close of the current fiscal year. Of this amount, \$3,744,495.62 represents net position of governmental activities and \$389,725.40 for Business-Type activities. At June 30, 2015, these were \$2,943,146.22 and \$351,000.07 respectively.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of \$646,312.53, a decrease of \$1,845,667.76, in comparison with the prior fiscal year combined ending fund balances which were \$2,491,980.29.
- During the fiscal year ended June 30, 2015, the School District began a capital project for an early childhood addition to the Bellmawr Park School and appropriated \$2,755,896.00. During the fiscal year ended June 30, 2016, an additional \$450,682.00 was appropriated for the project from capital reserve \$167,859.14 and general fund capital outlay \$282,822.86. In total, the appropriations of \$3,206,578.00 were funded by capital reserve in the amount of \$1,898,018.14, general fund capital outlay in the amount of \$282,822.86, a capital lease in the amount of \$300,000.00 and funding from the State of New Jersey Regular Operating District Grant in the amount of \$725,737.00 which has been fully realized as of June 30, 2016. At the close of the current fiscal year, there is no fund balance in the capital projects fund. At June 30, 2015, the fund balance was \$1,695,443.05.
- For the fiscal year ended June 30, 2016, the School District continued to operate a before and after school program, Child-Centered Activities Reinforcing Excellence (C.A.R.E.) which had its first fully operational year during the fiscal year ended June 30, 2015. This enterprise fund, which is included in the Business-Type activities, had an ending net position of \$119,340.53, an increase of \$14,253.41 over the net position at June 30, 2015 of \$105,087.12.

USING THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

This comprehensive annual financial report consists of a series of financial statements. The statement of net position and the statement of activities provide information about the activities of the School District as a whole and present a longer-term view of the School District's finances. Fund financial statements for the governmental activities tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the School District's operations in more detail than the government-wide statements by providing information about the School District's most significant funds.

Reporting the School District as a Whole

One of the most important questions asked about the School District's finances is, "Is the School District as a whole better off or worse off as a result of the fiscal year's activities?" The statement of net position and the statement of activities report information about the School District as a whole and about its activities in a way that helps answer this question.

These statements include *all* assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current fiscal year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's *net position* and changes in it. You can think of the School District's net position - which represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources - as one way to measure the School District's financial health, or *financial position*. Over time, *increases or decreases* in the School District's net position is one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the School District's property tax base and the condition of the School District's capital assets, to assess the *overall health* of the School District.

Reporting the School District's Most Significant Funds

The fund financial statements provide detailed information about the most significant funds, not the School District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The School District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects fund, and debt service fund, which are all considered to be major funds.

The School District adopts an annual budget for its general fund, special revenue fund, and debt service fund. Budgetary comparison schedules have been provided to demonstrate compliance with these budgets.

Reporting the School District's Most Significant Funds (Cont'd)

Proprietary Funds - The School District maintains one type of proprietary fund; that being an enterprise fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The School District uses an enterprise fund to account for its food service and childcare programs.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food service and childcare programs, which are all considered to be major funds.

Fiduciary Funds - fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements - the notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

THE SCHOOL DISTRICT AS A WHOLE

During fiscal year 2016, the School District's net position increased by \$840,074.73 increasing from \$3,294,146.29 in fiscal year 2015 to \$4,134,221.02 in fiscal year 2016. In the analysis that follows, the focus is on the net position (Table A-1 and A-2) and changes in net position (Table A-3) of the School District's governmental activities and business-type activities.

Total assets increased by \$933,539.50. The overall cash position of the School District decreased by \$1,908,695.52 from June 30, 2015 as a result of fiscal year 2016 operations of governmental activities and business-type activities. Deferred outflows increased \$1,012,149.00 as a result of the School District's participation in various pension plans during the current fiscal year. In addition, during fiscal year 2016, capital assets (net) increased by \$2,684,783.27 as a result of the expenditures that included the previously mentioned early childhood addition.

Overall liabilities increased by \$1,220,884.77. The main contributor to the increase resulted from a net increase in long-term liabilities of \$1,181,849.51. This increase resulted from a net increase in net pension liability of \$1,518,668.00, net increase in compensated absences of \$16,762.92, a decrease as a result of budgeted payments on bonds payable of \$207,745.73 and capital leases of \$145,835.68.

Deferred inflows of resources decreased by \$115,271.00 as a result of the School District's participation in various pension plans during the current fiscal year.

The largest portion, or 184%, of the School District's total net position at the end of the current fiscal year reflects its net investment in capital assets (i.e., land, buildings, equipment, etc.), which totaled \$7,435,334.83. This component represents capital assets, net of accumulated depreciation, and net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets. The School District uses these assets to provide educational services to students and to carry out the operations of the business-type activities; consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional component of the School District's net position, or (8%), represents resources that are restricted, which totaled \$320,886.74. These amounts consist of amounts restricted for capital reserve.

The third and final component of net position is unrestricted. This component represents resources and uses that do not meet the criteria of the aforementioned two components of net position. At the end of the current fiscal year, the School District's unrestricted net position was a deficit of (\$3,786,429.30), or -92%.

THE SCHOOL DISTRICT AS A WHOLE (CONT'D)

During fiscal year 2016, the School District's total revenues increased by \$2,485,773.53, increasing from \$19,233,447.30 in fiscal year 2015 to \$21,719,220.83 in fiscal year 2016. The net increase in total revenues is largely attributable to the following:

- Operating grants and contributions increased by \$1,247,991.92. This increase resulted from increases in the amount recognized from TPAF Pension paid by the state and from a new grant, Preschool Expansion Aid in the Special Revenue Fund.
- Property taxes increased by \$365,337.00 to cover the costs associated with the payment of long-term debt in the form of bonds and capital leases.
- Federal and State restricted aid increased by \$580,589.60 as a result of the realization of the Regular Operating District Grant for the early childhood addition to Bellmawr Park School.

The largest concentration of total revenues of the School District for fiscal year 2016 consisted of property taxes, which represented 41% of total revenues, followed by operating grants 27%, unrestricted federal and state aid 25%, restricted state and federal aid 3%, capital grants .5% and other miscellaneous revenues .2%. Charges for services resulted from the sales of food and the provision of childcare services generated by the business-type activities were 2% of total revenues. Governmental activities rely heavily on federal and state aid and property taxes to fund general operations.

During fiscal year 2016, the School District's total expenses increased by \$2,246,405.37, increasing from \$18,632,740.73 in fiscal year 2015 to \$20,879,146.10 in fiscal year 2016. The net increase in total expenses is attributable to a net increase of expenses incurred for instruction \$299,769.23, a net increase for support services including tuition, employee benefits (including TPAF On-Behalf Payments) and plant operations \$1,776,874.23 and a net increase for expenditures in the business-type activities mainly from the operation of the childcare program \$161,122.64 and food services \$8,639.27.

The net cost of governmental activities is shown in Table A-4.

THE SCHOOL DISTRICT'S FUNDS

Governmental Funds

As the School District completed the fiscal year, its governmental funds reported a *combined* fund balance of \$646,312.53, which was less than last fiscal year's total of \$2,491,980.29. Of the aforementioned combined ending fund balances, an unassigned deficit fund balance existed in the amount of (\$65,055.60). The remainder of fund balance is restricted or assigned to indicate that it is not available for new spending because it has already been earmarked as follows: (1) restricted for capital reserve \$320,886.74, (2) restricted for debt service \$.70, (4) committed to liquidate contracts formally authorized by the Board of Education \$6,918.00, (5) assigned to liquidate contracts and purchase orders from fiscal year 2016 \$139,821.87, and (6) assigned in the budget for subsequent fiscal year expenditures \$243,740.82.

General Fund - The general fund is the general operating fund of the School District and is used to account for the inflows and outflows its of financial resources. The acquisition of certain capital assets, such as equipment, is accounted for in the general fund when it is responsible for the financing of such expenditures. At the end of the current fiscal year, the School District has no unassigned fund balance in the general fund as a result of the delay of the June state aid payments as explained in Note 1 Summary of Significant Accounting Policies.

During the current fiscal year, the fund balance of the School District's general fund decreased by \$160,286.11. The primary factors affecting the fund balance of the general fund are as follows:

- Total revenues (Table A-5) increased from fiscal year 2015 by \$784,652.11; the revenue sources primarily contributing to the increase were local property taxes (increase of \$399,184.00) and state sources (increase of \$391,229.24).
- Total expenditures (Table A-6) increased from fiscal year 2015 by \$929,261.56; the expenditures contributing to the increase were tuition, Student and Instruction Related Services and employee benefits, which increased by \$181,914.95, \$158,974.37 and \$123,621.92, respectively.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenue sources, such as state or federal government grants, that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Fiscal year 2016 activity resulted from the School District administering and operating programs funded by the following federal awards: Title I, Part A; Title II, Part A, Improving Teacher Quality; I.D.E.A. Part B, Basic and Preschool and Preschool Expansion Aid and state financial assistance: Preschool Education Aid. Total revenues were \$1,899,815.22 and total expenditures were \$1,889,753.82 from these programs which are comparable to the revenues and expenditures of the previous fiscal year of \$1,369,554.11 and \$1,385,650.61 respectively.

Capital Projects Fund - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes, serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, from capital leases or from the general fund by way of transfers from capital outlay or the capital reserve account.

Governmental Funds (Cont'd)

Capital Projects Fund (Cont'd)

For the fiscal year ended June 30, 2016, the School District had revenues and other financing sources that totaled \$1,103,845.30 from a Regular Operating District Grant from the New Jersey Economic Development Authority for \$725,737.00 of which the amount realized in the current fiscal year was \$653,163.30 and other financing sources in the form transfers from capital reserve \$167,859.14 and transfer from capital outlay \$282,822.86. The amount the grant realized previously was \$72,573.70. There were expenditures in the amount of \$2,799,288.35 during the current fiscal year and \$407,289.65 in the fiscal year ended June 30, 2015 for the Bellmawr Park School Early Childhood Addition.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. For the current fiscal year, the School District expended \$202,898.00 and \$102,519.00 representing the payment of principal, and interest, respectively. During the fiscal year ended June 30, 2015, these expenditures were \$175,000.00 and \$164,263.53 respectively. At the end of the current fiscal year, restricted fund balance in the debt service fund was \$.70.

Proprietary Funds

Food Service Fund - as the School District completed the fiscal year, the total net position of the food service fund was \$270,384.87, which was comprised of \$164,428.75 of net investment in capital assets and \$105,956.12 of unrestricted net position. During the fiscal year, the net position of the food service fund increased by \$24,471.92 from the balance at June 30, 2015 of \$245,912.95.

Child-Centered Activities Reinforcing Excellence (C.A.R.E.) Fund - as the School District completed the fiscal year, the total net position of this fund was \$119,340.53, which was unrestricted. During the fiscal year, the net position of this fund increased by \$14,253.41 from the balance at June 30, 2015 of \$105,087.12.

General Fund Budgetary Highlights

During the fiscal year, the School District had a budget modification for an appropriation of Capital Reserve to fund the local share of a state funded capital project.

The final budgetary basis revenue estimate was \$14,169,104.00, which was the same as the original budgeted estimate. Total budgeted revenues realized equaled \$16,035,285.77, which was \$1,866,181.77 in excess of the budget estimate, thus replenishing fund balance. This excess was directly attributable to the School District's on-behalf T.P.A.F. pension contributions (normal cost and post-retirement medical) and reimbursed T.P.A.F. social security contributions, which totaled \$1,671,804.12, the realization of \$20,106.30 of revenues from local sources, the realization of other state sources which totaled \$119,128.40 and the realization from federal sources of \$55,142.95 that were not budgeted.

The final budgetary basis expenditure appropriation estimate was \$15,208,851.58, which is an increase of \$167,859.14 over the original budgeted estimate. Actual expenditures were in excess of the final budget estimate by \$987,996.55. Since expenditures include the amounts recorded for T.P.A.F. social security contributions and T.P.A.F. pension contributions mentioned under revenue above which are not budgeted, this excess is not an overexpenditure of any appropriations.

Special Revenue Fund Budgetary Highlights

Differences between the original budget and the final modified budget totaled \$142,038.16 (increase in budgeted revenues and appropriations). The modifications resulted from approved increases in federal awards which were not known at the time the annual budget was adopted at the school board public hearing.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The School District's capital asset balance for its governmental and business-type activities as of June 30, 2016 amounted to a historical cost of \$16,423,878.80, or \$10,895,380.59 net of accumulated depreciation (see Table A-7). This balance of capital assets includes land, construction in progress, land improvements, buildings and building improvements, and equipment. Net capital assets increased by \$2,684,783.27 in fiscal year 2016 from fiscal year 2015.

CAPITAL ASSET AND DEBT ADMINISTRATION (CONT'D)

The primary factors affecting the net increase in net capital assets are as follows:

- The School District continued a capital project of an early childhood addition that began during the fiscal year ended June 30, 2015. During the current fiscal year, expenditure in the amount of \$2,799,288.35 and previously recorded construction in progress resulted in an increase in buildings and improvements of \$3,206,578.00.
- The purchase of various equipment, in the amount of \$141,995.37, was among the increases in capital assets for the fiscal year.
- Construction in progress for an ongoing land project in the amount of \$231,949.65.
- Depreciation expense for governmental and business-type activities were \$556,380.85 and \$10,238.28 respectively.

Additional information on the School District's capital assets can be found in note 6.

Long-term Debt

General Obligation Bonds. At the end of the current fiscal year, the School District had \$2,853,000.00 in general obligation bonds outstanding, a decrease of \$202,898.00 from last fiscal year – as shown in Table A-8. There is a premium associated with a 2013 bond issuance with a balance at June 30, 2016 of \$82,411.40 which is being amortized over the life of the bonds.

Capital Leases. At the end of the current fiscal year, the School District had capital leases totaling \$360,205.61 outstanding, a decrease of \$145,835.68 from last fiscal year – as shown in Table A-8.

Compensated Absences. At the end of the current fiscal year, the School Districts had a \$973,061.28 liability for compensated absences, an increase of \$16,762.92 from last fiscal year – as shown in Table A-8. This liability represents the School District's contractual obligation to compensate employees for accumulated unused sick leave entitlements upon retirement.

THE FUTURE OUTLOOK

The Bellmawr School District is presently in a strong financial condition. However, the future financing of public schools in the State of New Jersey is becoming very unpredictable and unsettling. This was demonstrated in recent years by the withholding of one or more state aid payment until after the close of the fiscal year, the State refusing to fully fund the educational formulas created by law imposing more unfunded mandates.

The over-reliance on property taxes to support the schools in Bellmawr is a concern faced by the Board of Education and Administration each year. The School District has been committed to financial excellence for many years. The School District's system for financial planning, budgeting and internal controls are well regarded. The School District is committed to continuing its sound fiscal management to meet the challenges of the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

BOROUGH OF BELLMAWR SCHOOL DISTRICT

Notes to Financial Statements
For the Fiscal Year Ended June 30, 2016

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Borough of Bellmawr School District (the "School District") have been prepared to conform with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant of these policies.

Description of the Financial Reporting Entity

The School District is a Type II district located in the County of Camden, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education (the "Board"). The Board is comprised of seven members elected to three-year terms. These terms are staggered so that two or three member's terms expire each year. The Superintendent is appointed by the Board to act as executive officer of the School District. The purpose of the School District is to educate students in grades PK through 8th at its three schools. The School District has an approximate enrollment at June 30, 2016 of 1,208.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards*, is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School District over which the Board exercises operating control.

Component Units

In evaluating how to define the School District for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statements No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*. Blended component units, although legally separate entities, are in-substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and / or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Component Units (Cont'd)**

Based upon the application of these criteria, the School District has no component units, and is not a component unit of another governmental agency.

Government-wide and Fund Financial Statements

The School District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the School District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the School District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Fiduciary funds are reported by fund type.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property taxes are recognized as revenues in the year for which they are levied. The Camden County Board of Taxation is responsible for the assessment of properties, and the respective municipal tax collector is responsible for the collection of property taxes. Assessments are certified and property taxes are levied on January 1. Property tax payments are due February 1, May 1, August 1 and November 1. Unpaid property taxes are considered delinquent the following January 1 and are then subject to municipal lien. In accordance with New Jersey State Statute, the School District is entitled to receive moneys under an established payment schedule, and any unpaid amount is considered as an accounts receivable. The governing body of each municipality is required to pay over to the School District, within forty (40) days after the beginning of the school year, twenty percent (20%) of the moneys from school tax due. Thereafter, but prior to the last day of the school year, the municipality must pay the balance of moneys from school tax due for school purposes in such amounts as requested, with certain limitations, from time to time by the School District, within thirty days after each request.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Measurable means that the amount of revenue can be determined. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, tuition, reimbursable-type grants, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the School District.

The School District reports the following major governmental funds:

General Fund - The general fund is the primary operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, ad valorem tax revenues, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings, and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes, serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, or from the general fund by way of transfers from capital outlay or the capital reserve account.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

Permanent Fund - The permanent fund is used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the School District's programs, that is, for the benefit of the School District or its students as a whole. The School District does not maintain a permanent fund.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Proprietary funds are used to account for the School District's ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All items not meeting this definition are reported as nonoperating revenues and expenses.

The School District reports the following major proprietary funds:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Child-Centered Activities Reinforcing Excellence (C.A.R.E.) Fund - This fund accounts for the financial activity related to the care of School District students before and after school.

Additionally, the School District reports the following fund types:

Fiduciary funds are used to account for assets held by the School District on behalf of outside related organizations or on behalf of other funds within the School District. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds.

The School District maintains the following fiduciary funds:

Agency Funds - Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and / or other funds (i.e., payroll and student activities). The School District retains no equity interest in these funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District maintains the following agency funds: student activity fund and payroll fund.

Private-Purpose Trust Funds - Private-purpose trust funds are used to account for the principal and income for all other trust arrangements that benefit individuals, private organizations, or other governments. The School District maintains the following private-purpose trust funds:

Mary E. Hare Memorial Scholarship Fund - Revenues consist of donations and interest income. Expenditures represent scholarships graduating 8th grade students, which are awarded in accordance with the trust requirements.

Betty Sheppard Memorial Fund - Revenues consist of donations and interest income. Expenditures represent the costs of maintaining the Betty Sheppard Special Education Summer Camp and for the constructing and maintaining of the Betty Sheppard Memorial Park in the courtyard at Bell Oaks School.

New Jersey Unemployment Compensation Insurance Trust Fund - Revenues consist of contributions that have been included in the annual budget of the School District, employee payroll withholdings, and interest income. Expenditures represent claims incurred for unemployment.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

Budgets / Budgetary Control

Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds, and are submitted to the county office of education. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012, to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only, and the special revenue fund. N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on exhibit C-1, exhibit C-2 and exhibit I-3 includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting, as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule, to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances - governmental funds. Note that the School District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows the modified accrual basis of accounting, with the exception of the aforementioned revenue recognition policy for the one or more June state aid payments.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign a portion of the applicable appropriation, is utilized for budgetary control purposes. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, are reflected on the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments

Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Inventories

Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in the governmental fund financial statements is recorded as expenditures when purchased rather than when consumed.

Inventories recorded on the government-wide financial statements and in the proprietary fund types are recorded as expenses when consumed rather than when purchased.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Tuition Receivable**

Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Prepaid Expenses

Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as expenditures in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Short-Term Interfund Receivables / Payables

Short-term interfund receivables / payables (internal balances) represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund within the School District, and that are due within one year. Such balances are eliminated in the statement of net position to minimize the grossing up of internal balances, thus leaving a net amount due between the governmental and business-type activities that are eliminated in the total government column. Balances with fiduciary activities are not considered to be internal balances; therefore, such balances appear on the statement of net position as accounts receivable.

Capital Assets

Capital assets represent the cumulative amount of capital assets owned by the School District. Purchased capital assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position and proprietary fund statement of net position. In the case of gifts or contributions, such capital assets are recorded at fair market value at the time received.

The School District's capitalization threshold is \$2,000.00. Other costs incurred for repairs and maintenance is expensed as incurred. All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Equipment	5 - 20 Years
Buildings and Improvements	5 - 50 Years
Land Improvements	20 Years

The School District does not possess any infrastructure assets.

Deferred Outflows and Deferred Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources, reported after total assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after total liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Deferred Outflows and Deferred Inflows of Resources (Cont'd)**

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by the Governmental Accounting Standards Board (GASB) standards. The School District is required to report the following as deferred outflows of resources and deferred inflows of resources:

Defined Benefit Pension Plans - The difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on pension plan investments, changes in the School District's proportion of expenses and liabilities to the pension as a whole, differences between the School District's pension contribution and its proportionate share of contributions, and the School District's pension contributions subsequent to the pension valuation measurement date.

Tuition Payable

Tuition charges for the fiscal years ended June 30, 2016 and 2015 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

Accrued Salaries and Wages

Certain School District employees who provide services to the School District over the ten-month academic year have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account. As of June 30, 2016, the amounts earned by these employees were disbursed to the employees' own individual financial institution.

Compensated Absences

Compensated absences are payments to employees for accumulated time such as paid vacation, paid holidays, sick pay, and sabbatical leave. A liability for compensated absences that is attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The School District uses the vesting method to calculate the compensated absences amount. The entire compensated absence liability, including the employer's share of applicable taxes, is reported on the government-wide financial statements. The portion related to employees in the proprietary funds is recorded at the fund level. The current portion is the amount estimated to be used in the following fiscal year. Expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the governmental fund financial statements when due.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), and additions to/deductions from TPAF's and PERS's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Bond Discounts / Premiums

Bond discounts / premiums arising from the issuance of long-term debt (bonds) are amortized over the life of the bonds, in systematic and rational method, as a component of interest expense. Bond discounts / premiums are presented as an adjustment of the face amount of the bonds on the government-wide statement of net position and on the proprietary fund statement of net position.

Net Position

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Fund Balance**

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned - The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position and standard operating procedures, approved by the Board of Education.

Unassigned - The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures / expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Impact of Recently Issued Accounting Principles**Recently Issued and Adopted Accounting Pronouncements**

For the fiscal year ended June 30, 2016, the School District adopted GASB Statement No. 72, *Fair Value Measurement and Application*. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The adoption of this Statement had no impact on the basic financial statements of the School District.

In addition, the School District adopted GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. The adoption of this Statement had no impact on the basic financial statements of the School District.

Lastly, the School District adopted GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The objective of this Statement is to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The adoption of this Statement had no impact on the basic financial statements of the School District.

Recently Issued Accounting Pronouncements

The GASB has issued the following Statements during the fiscal year ended June 30, 2016 which will become effective in future fiscal years as shown below:

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Impact of Recently Issued Accounting Principles (Cont'd)****Recently Issued Accounting Pronouncements (Cont'd)**

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The Statement will become effective for the School District in fiscal year 2018. Management has not yet determined the impact of this Statement on the basic financial statements of the School District.

Statement No. 77, *Tax Abatement Disclosures*. This Statement requires governments that enter into tax abatement agreements to disclose certain information about the agreements. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Statement No. 79, *Certain External Investment Pools and Pool Participants*. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Statement No. 80, *Blending Requirements for Certain Component Units an amendment of GASB Statement No. 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The Statement will become effective for the School District in fiscal year 2018. Management does not expect this Statement will have an impact on the basic financial statements of the School District.

Statement No. 82, *Pension Issues and amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The Statement will become effective for the School District in fiscal year 2017. Management does not expect this Statement will have a material impact on the basic financial statements of the School District.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled agency funds such as salary withholdings, and student activity funds, or funds that may pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized.

As of June 30, 2016, all of the School District's bank balances of \$1,146,433.52 were insured.

Note 3: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District by inclusion of \$1 on September 26, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

Beginning Balance July 1, 2015	\$ 167,859.14
Increased by:	
Deposits:	
Board Resolution (June 24, 2016)	<u>320,886.74</u>
	488,745.88
Decreased by:	
Withdrawals:	
Transfer to Capital Projects Fund -	
Local Share on State Funded Projects	<u>167,859.14</u>
Ending Balance June 30, 2016	<u><u>\$320,886.74</u></u>

The June 30, 2016 LRFP balance of local support costs of uncompleted projects at June 30, 2016 is \$2,116,008.60. The withdrawals from the capital reserve were for use in a Department of Education approved facilities projects, consistent with the School District's LRFP.

Note 4: ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2016 consisted of accounts (fees for services), intergovernmental awards / grants. All receivables are considered collectible in full due to the stable condition of federal and state programs, the current fiscal year guarantee of federal funds, and the regulated budgetary control of governmental entities in New Jersey.

Compensated Absences - As previously stated, compensated absences will be paid from the fund from which the employees' salaries are paid. Refer to note 15 for a description of the School District's policy.

Net Pension Liability - For details on the net pension liability, refer to note 9. The School District's annual required contribution to the Public Employees' Retirement System are budgeted and paid from the general fund on an annual basis.

Note 8: OPERATING LEASES

At June 30, 2016, the School District had an operating lease agreement in effect for a mail machine. The present value of the future minimum rental payments under the operating lease agreement is as follows:

<u>Fiscal Year</u> <u>Ending June 30,</u>	<u>Amount</u>
2017	<u>\$ 690.00</u>

Rental payments under operating leases for the fiscal year ended June 30, 2016 were \$2,760.00.

Note 9: PENSION PLANS

A substantial number of the School District's employees participate in one of the following defined benefit pension plans: the Teachers' Pension and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), which are administered by the New Jersey Division of Pensions and Benefits (the "Division"). In addition, several School District employees participate in the Defined Contribution Retirement Program, which is a defined contribution pension plan. This plan is administered by Prudential Financial for the Division. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

General Information about the Pension Plans**Plan Descriptions**

Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund is a cost-sharing multiple-employer defined benefit pension plan, with a special funding situation, which was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66. The State of New Jersey (the "State") is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The TPAF's designated purpose is to provide retirement benefits, death, disability and medical benefits to certain qualified members. Membership in the TPAF is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, who have titles that are unclassified, professional and certified. The TPAF's Board of Trustees is primarily responsible for the administration of the TPAF.

Public Employees' Retirement System - The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan which was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A. The PERS's designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the PERS is mandatory for substantially all full-time employees of the School District, provided the employee is not required to be a member of another state-administered retirement system or other state pensions fund or local jurisdiction's pension fund. The PERS's Board of Trustees is primarily responsible for the administration of the PERS.

Defined Contribution Retirement Program - The Defined Contribution Retirement Program is a multiple-employer defined contribution pension fund established on July 1, 2007 under the provisions of Chapter 92, P.L. 2007, and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et. seq.). The DCRP is a tax-qualified defined contribution money purchase pension plan under Internal Revenue Code (IRC) § 401(a) et seq., and is a "governmental plan" within the meaning of IRC § 414(d). The DCRP provides retirement benefits for eligible employees and their beneficiaries. Individuals covered under DCRP are employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees enrolled in SPRS or PFRS after May 21, 2010, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000.00 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010 who do not work the minimum number of hours per week required for tiers 4 or 5 enrollment, but who earn salary of at least \$5,000.00 annually.

Note 9: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Vesting and Benefit Provisions**

Teachers' Pension and Annuity Fund - The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 21, 2010
- 4 Members who were eligible to enroll after May 21, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Public Employees' Retirement System - The vesting and benefit provisions are set by N.J.S.A. 43:15A and 43:3B. The PERS provides retirement, death and disability benefits. All benefits vest after 10 years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the PERS.

The membership tiers for PERS are the same as previously noted for TPAF.

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Note 9: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Vesting and Benefit Provisions (Cont'd)**

Defined Contribution Retirement Program - Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and nonforfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and nonforfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

Contributions

Teachers' Pension and Annuity Fund - The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.06% in State fiscal year 2016. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2015, the State's pension contribution was less than the actuarial determined amount.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, *Accounting and Financial Reporting for Pensions*.

The School District's contractually required contribution rate for the fiscal year ended June 30, 2016 was 4.73% of the School District's covered payroll, of which 0.00% of payroll was required from the School District and 100.00% of payroll was required from the State of New Jersey. The School District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2016 because of the 100.00% special funding situation with the State of New Jersey.

Based on the most recent TPAF measurement date of June 30, 2015, the State's contractually required contribution, on-behalf of the School District, to the pension plan for the fiscal year ended June 30, 2016 was \$342,604.00, and was paid by April 1, 2016. School District employee contributions to the pension plan during the fiscal year ended June 30, 2016 were \$523,363.97.

Public Employees' Retirement System - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.06% in State fiscal year 2016. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 366, P.L. 2001) increased from 8.5% of base salary to 10%. Employers' contribution amounts are based on an actuarially determined rate. The School District's contribution amounts are based on an actuarially determined rate which included the normal cost and unfunded accrued liability.

Note 9: PENSION PLANS (CONT'D)**General Information About the Pension Plans (Cont'd)****Contributions (Cont'd)**

Public Employees' Retirement System (Cont'd) - The School District's contractually required contribution rate for the fiscal year ended June 30, 2016 was 11.01% of the School District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

Based on the most recent PERS measurement date of June 30, 2015, the School District's contractually required contribution to the pension plan for the fiscal year ended June 30, 2016 was \$181,103.00, and was paid by April 1, 2016. School District employee contributions to the pension plan during the fiscal year ended June 30, 2016 were \$70,625.82.

Defined Contribution Retirement Program - The contribution policy is set by N.J.S.A. 43:15C-3 and requires contributions by active members and contributing employers. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District contributes 3% of the employees' base salary, for each pay period, to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

For the fiscal year ended June 30, 2016, employee contributions totaled \$18,734.38, and the School District recognized pension expense of \$10,207.77. There were no forfeitures during the fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Teachers' Pension and Annuity Fund - At June 30, 2016, the School District was not required to report a liability for its proportionate share of the net pension liability because of a 100% special funding situation by the State of New Jersey.

The State's proportionate share of net pension liability, attributable to the School District is as follows:

School District's Proportionate Share of Net Pension Liability	-
State of New Jersey's Proportionate Share of Net Pension Liability Associated with the School District	\$ 40,292,040.00
	<u>\$ 40,292,040.00</u>

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. For the June 30, 2015 measurement date, the School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State of New Jersey, actuarially determined. At June 30, 2015, the School District proportion was 0.00% due to the 100% special funding situation with the State of New Jersey. For the June 30, 2015 measurement date, the State's proportionate share of the TPAF net pension liability associated with the School District was 0.0637489211%, which was an increase of 0.0016093149% from its proportion measured as of June 30, 2014.

Note 9: PENSION PLANS (CONT'D)**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)**

Teachers' Pension and Annuity Fund (Cont'd) - For the fiscal year ended June 30, 2016, the School District recognized \$2,460,192.00 in pension expense and revenue, in the government-wide financial statements, for the State of New Jersey on-behalf TPAF pension contributions. This pension expense and revenue was based on the pension plans June 30, 2015 measurement date.

Public Employees' Retirement System - At June 30, 2016, the School District reported a liability of \$4,728,683.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. For the June 30, 2015 measurement date, the School District's proportion was 0.0210650576%, which was an increase of 0.0039200463% from its proportion measured as of June 30, 2014.

For the fiscal year ended June 30, 2016, the School District recognized pension expense of \$497,636.00, in the government-wide financial statements. This pension expense was based on the pension plans June 30, 2015 measurement date.

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Expected and Actual Experience	\$ 112,810.00	
Changes of Assumptions	507,823.00	
Net Difference between Projected and Actual Earnings on Pension Plan Investments		\$ 76,028.00

Note 9: PENSION PLANS (CONT'D)**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)**

Public Employees' Retirement System (Cont'd) - \$106,395.00 included in deferred outflows of resources, will be included as a reduction of the net pension liability in the fiscal year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2017	\$ 285,071.00
2018	285,071.00
2019	285,072.00

Note 9: PENSION PLANS (CONT'D)**Actuarial Assumptions**

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	<u>TPAF</u>	<u>PERS</u>
Inflation	2.50%	3.04%
Salary Increases:		
2012-2021	Varies Based on Experience	2.15% - 4.40% Based on Age
Thereafter	Varies Based on Experience	3.15% - 5.40% Based on Age
Investment Rate of Return	7.90%	7.90%
Mortality Rate Table	RP-2000	RP-2000
Period of Actuarial Experience		
Study upon which Actuarial		
Assumptions were Based	July 1, 2009 - June 30, 2012	July 1, 2008 - June 30, 2011

For TPAF, mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements were based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

For PERS, mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

For TPAF and PERS, in accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in TPAF's and PERS's target asset allocation as of June 30, 2015 are summarized in the following tables:

Note 9: PENSION PLANS (CONT'D)**Actuarial Assumptions (Cont'd)**

Discount Rate - The discount rates used to measure the total pension liability were 4.13% and 4.68% for TPAF as of June 30, 2015 and 2014, respectively, and 4.90% and 5.39% for PERS as of June 30, 2015 and 2014, respectively. For TPAF and PERS, the respective single blended discount rates were based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates for TPAF and PERS assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members 2027 for TPAF and 2033 for PERS. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027 for TPAF and 2033 for PERS, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Note 9: PENSION PLANS (CONT'D)**Sensitivity of School District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate**

Teachers' Pension and Annuity Fund (TPAF) - As previously mentioned, TPAF, has a special funding situation where the State pays 100% of the School District's annual required contribution. As such, the proportionate share of the net pension liability as of June 30, 2015, the pension plans measurement date, attributable to the School District is \$0, and the State of New Jersey's proportionate share of the net pension liability, attributable to the School District, using a discount rate of 4.13%, as well as using a discount rate that is 1% lower or 1% higher than the current rates used is as follows:

	TPAF		
	1% Decrease (3.13%)	Current Discount Rate (4.13%)	1% Increase (5.13%)
School District's Proportionate Share of the Net Pension Liability	-	-	-
State of New Jersey's Proportionate Share of Net Pension Liability associated with the School District	\$ 47,885,583.00	\$ 40,292,040.00	\$ 33,749,748.00
	<u>\$ 47,885,583.00</u>	<u>\$ 40,292,040.00</u>	<u>\$ 33,749,748.00</u>

Public Employees' Retirement System (PERS) - The following presents the School District's proportionate share of the net pension liability at June 30, 2015, the plans measurement date, calculated using a discount rate of 4.90%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	PERS		
	1% Decrease (3.90%)	Current Discount Rate (4.90%)	1% Increase (5.90%)
School District's Proportionate Share of the Net Pension Liability	\$ 5,877,175.00	\$ 4,728,683.00	\$ 3,765,796.00
	<u>\$ 5,877,175.00</u>	<u>\$ 4,728,683.00</u>	<u>\$ 3,765,796.00</u>

Pension Plan Fiduciary Net Position

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the respective fiduciary net position of the TPAF and PERS and additions to/deductions from TPAF and PERS' respective fiduciary net position have been determined on the same basis as they are reported by TPAF and PERS. Accordingly, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For additional information about TPAF and PERS, please refer to the plan's Comprehensive Annual Financial Report (CAFR) which can be found at www.nj.gov/treasury/pensions/annrpts.shtml.

Note 10: STATE POST-RETIREMENT MEDICAL BENEFITS

P.L. 1987, c.384 of P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of postemployment medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of postemployment medical benefits for retired State employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees receiving postemployment medical benefits, and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retire from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2015.

Note 11: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

At June 30, 2016, the School District does not offer postemployment benefits.

Note 12: ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2016, the School District has recognized as revenues and expenditures on-behalf payments made by the State for normal costs and post-retirement medical costs related to TPAF, in the fund financial statements. The amounts recognized as revenues and expenditures in the fund financial statements for normal costs and post-retirement medical costs were \$520,303.00 and \$619,538.00, respectively.

Note 13: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The School District maintains commercial insurance coverage for property, liability, student accident, and surety bonds. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

Note 13: RISK MANAGEMENT (CONT'D)

New Jersey Unemployment Compensation Insurance (Cont'd) - The following is a summary of the activity of the School District's private-purpose trust fund for the unemployment claims for the current and previous two fiscal years:

<u>Fiscal Year</u> <u>Ended June 30,</u>	<u>School</u> <u>District</u> <u>Contributions</u>	<u>Employee</u> <u>Contributions</u>	<u>Interest</u> <u>Income</u>	<u>Claims</u> <u>Incurred</u>	<u>Ending</u> <u>Balance</u>
2016		\$ 14,238.18	\$ 268.63	\$ 4,271.75	\$ 116,230.08
2015		13,900.25	240.73	1,380.13	105,995.02
2014	\$ 379,024.50	17,212.59	285.80	401,145.26 ⁽¹⁾	93,234.17

(1) During the fiscal year ended June 30, 2014, the School District was notified that there were unpaid claims for unemployment in the School District's account with the New Jersey Department of Labor. The State of New Jersey garnished the School District's aid payments for these outstanding claims. This amount represents those garnishments and additional obligations incurred during the fiscal year ended June 30, 2014.

Joint Insurance Pool - The School District is a member of the School Alliance Insurance Fund. The Fund provides its members with the following coverage:

Workers' Compensation and Employer's Liability
 Liability other than Motor Vehicles
 Property Damage other than Motor Vehicles
 Motor Vehicles
 Employee Dishonesty Coverage
 School District Legal Liability
 Commercial Excess/ Umbrella Coverage

Contributions to the Fund, including a reserve for contingencies, are payable in two installments and are based on actuarial assumptions determined by the Fund's actuary. The Commissioner of Insurance may order additional assessments to supplement the Fund's claim, loss retention, or administrative accounts to assure the payment of the Fund's obligations.

The School District's agreement with the fund provides that the fund will be self-sustaining through member premiums. The fund self-insures some coverage and purchases reinsurance for many excess losses. Some coverage is group purchased from insurance carriers. See Exhibit J-20 in the statistical section for a detailed schedule of the School District's insurance coverage.

The Fund publishes its own financial report for the fiscal year ended June 30, 2016, which can be obtained from:

School Alliance Insurance Fund
 51 Everett Drive, Suite B-40
 West Windsor, New Jersey 08550

Note 14: DEFERRED COMPENSATION

The School District offers its employees a choice of four deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning, Inc.
The Equitable Life Assurance Company
Met Life
Oppenheimer Funds

Note 15: COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees who are employed for ten months are entitled to eleven paid sick leave days per fiscal school year. School District employees who are employed for twelve months are entitled to twelve paid sick leave days per fiscal school year. Unused sick leave may be accumulated and carried forward to the subsequent years. The accumulation of sick leave for part-time employees is based on hours not days. The method of calculation of accumulated sick leave for part-time employees is detailed in the School District's policies. Vacation days not used during the year may not be accumulated and carried forward. Benefits paid in any future year will be calculated according to formulas outlined in the School Districts' agreements with the various employee unions and included in the current years' budget.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. At June 30, 2016, the liability for compensated absences reported on the government-wide statement of net position was \$973,061.28. There is no liability for compensated absences in the proprietary funds.

Note 16: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2016 is as follows:

<u>Fund</u>	<u>Interfunds Receivable</u>	<u>Interfunds Payable</u>
General	\$ 1,290.78	
Fiduciary		1,290.78
	<u>\$ 1,290.78</u>	<u>\$ 1,290.78</u>

The interfund receivables and payables above predominately resulted from payments made by certain funds on behalf of other funds. During the fiscal year 2016, the School District expects to liquidate such interfunds, depending upon the availability of cash flow.

Note 16: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (CONT'D)

Interfund Transfers:

	<u>Transfer In:</u>
	Capital Projects Fund
<u>Transfer Out:</u>	
General Fund	\$ 450,682.00

Transfers from the General Fund to the Capital Projects Fund were for the local share of an approved state funded project. These transfers included \$167,859.14 from capital reserve and \$282,822.86 from capital outlay.

Note 17: CONTINGENCIES

Grantor Agencies - Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the School District expects such amount, if any, to be immaterial.

Note 18: CONCENTRATIONS

The School District depends on financial resources flowing from, or associated with, both the federal government and the State of New Jersey. As a result of this dependency, the School District is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations.

Note 19: COMMITMENTS

The School District had a construction project ongoing as of the fiscal year ended June 30, 2016 that is to continue into the subsequent fiscal year. This project, in the capital projects fund, is as follows:

<u>Contract</u>	<u>Commitment Date</u>	<u>Amount Outstanding</u>
Early Childhood Addition to Bellmawr Park School: Environmental Design Inc.	03/24/16	\$ 17,850.89

Note 20: DEFICIT FUND BALANCES

The School District has a deficit fund balance of \$65,055.60 in the special revenue fund as of June 30, 2016 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unassigned special revenue fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The School District deficit in the GAAP funds statements of \$65,055.60 is less than the June state aid payments.

Note 21: FUND BALANCES**RESTRICTED**

As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund

For Capital Reserve Account - As of June 30, 2016, the balance in the capital reserve account is \$320,886.74. These funds are restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan (LRFP).

Debt Service Fund - In accordance with N.J.A.C. 6A:23A-8.6, a district board of education shall appropriate annually all debt service fund balances in the budget certified for taxes unless expressly authorized and documented by the voters in a bond referendum. At June 30, 2016, the fund balance in the Debt Service Fund is \$.70 and has not been appropriated and included as an anticipated revenue in a subsequent year's budget.

COMMITTED

As stated in note 1, the committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which is the Board of Education. Specific commitments of the School District's fund balance are summarized as follows:

General Fund

Other Purposes - As of June 30, 2016, the School District had \$6,918.00 of encumbrances outstanding for a contract formally authorized by the Board of Education, but not completed, as of the close of the fiscal year.

Note 21: FUND BALANCES (CONT'D)**ASSIGNED**

As stated in note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund

For Subsequent Year's Expenditures - The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2017 \$208,540.55 of general fund balance at June 30, 2016.

The School District has amounts available to be appropriated and included as anticipated revenue in a subsequent year \$9,414.25 and \$25,786.02 of general fund balance at June 30, 2016, resulting from the Special Education Medicaid Initiative (SEMI) reimbursement received during the current and previous fiscal years for reimbursement of previous fiscal year expenditures.

Other Purposes - As of June 30, 2016, the School District had \$139,821.87 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

UNASSIGNED

As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund - As of June 30, 2016, the School District has no unassigned general fund balance.

Special Revenue Fund - As of June 30, 2016, the fund balance of the special revenue fund was a deficit of \$65,055.60, thus resulting in the fund balance classification of unassigned. The deficit is a result from a delay in the payment of state aid until the following fiscal year. As stated in note 19, since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties. The unassigned deficit on the GAAP financial statements of \$65,055.60 is less than the last state aid payment.

(1) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.

(2) Rates for debt service are based on each year's requirements.

(3) Revaluation

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any growth adjustments.

SINGLE AUDIT SECTION

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND
STATE OF NEW JERSEY CIRCULAR 15-08-OMB**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Borough of Bellmawr School District
Bellmawr, New Jersey 08031

Report on Compliance for Each Major Federal and State Program

We have audited the Borough of Bellmawr School District's, in the County of Camden, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2016. The School District's major federal and state programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance, and State of New Jersey Circular 15-08-OMB, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Borough of Bellmawr School District's, State of New Jersey, compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Borough of Bellmawr School District, in the County of Camden, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the Borough of Bellmawr School District, in the County of Camden, State of New Jersey, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal or state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State of New Jersey Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State of New Jersey Circular 15-08-OMB. Accordingly, this report is not suitable for any other purpose.

BOROUGH OF BELLMAWR SCHOOL DISTRICT
Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2016

Note 1: BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Borough of Bellmawr School District (hereafter referred to as the "School District"). The School District is defined in note 1 to the School District's basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance. Because these schedules present only a selected portion of the operations of the School District, it is not intended to and does not present the financial position and changes in operations of the School District.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting, with the following exceptions: programs recorded in the capital projects fund are presented on the modified accrual basis of accounting and programs recorded in the enterprise fund are presented using the accrual basis of accounting. These bases of accounting are described in note 1 to the School District's basic financial statements. Such expenditures are recognized following, as applicable, the cost principles contained in Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, wherein certain types of expenditures are not allowed or are limited as to reimbursement. The School District has elected not to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund, special revenue fund and capital projects fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, payments are not recognized until the subsequent budget year due to the State deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more June state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2. The capital projects fund is presented in the accompanying schedules on the modified accrual basis of accounting.

Note 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONT'D)

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is zero for the general fund and \$10,758.44 for the special revenue fund. See exhibit C-3, notes to required supplementary information, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Awards and financial assistance expenditures reported in the School District's basic financial statements on a GAAP basis are presented as follows:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>
General	\$ 72,343.95	\$ 6,961,542.52	\$ 7,033,886.47
Special Revenue	1,081,488.61	808,265.21	1,889,753.82
Capital Projects		2,799,288.35	2,799,288.35
Food Service	<u>401,986.44</u>	<u>5,709.72</u>	<u>407,696.16</u>
Total Awards and Financial Assistance	<u>\$ 1,555,819.00</u>	<u>\$ 10,574,805.80</u>	<u>\$ 12,130,624.80</u>

Note 4: RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5: ADJUSTMENTS

Amounts reported in the column entitled "adjustments" represent favorable differences incurred in the liquidation of encumbrances charged as budgetary basis expenditures in fiscal year 2014-2015 for \$608.32 in the Special Revenue Fund and for the cancellation of a receivable in the amount of \$47.05 in the Food Service Enterprise Fund for an amount not collectible from the State of New Jersey for the fiscal year ended June 30, 2014. Current year program revenue has been reduced as a result of this cancelled receivable.

Note 6: REIMBURSED AND ON-BEHALF PAYMENTS

During the fiscal year ended June 30, 2016, the School District was the recipient of federal and state assistance that represented either a reimbursement to the School District or payments made on-behalf of the School District. Revenues and expenditures reported under the federal food distribution program represent the current year value received and the current year distribution, respectively, of American-grown United States Department of Agriculture foods utilized in the School District's food service program. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year. Lastly, the School District has recognized as revenues and expenditures on-behalf payments made by the State for normal costs and post-retirement medical costs related to TPAF members.
