Honorable President and
Members of the Board of Education
Cherry Hill School District
Camden County
Cherry Hill, New Jersey 08034

Dear Board Members and Constituents:

The comprehensive annual financial report of the Cherry Hill Township School District (“District”) as of and for the year ended June 30, 2016 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Cherry Hill Township Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects. It is reported in a manner designed to present fairly the financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information at June 30, 2016, and the respective changes in financial position and cash flows, where applicable for the year then ended. All disclosures necessary to enable the reader to gain an understanding of the District’s financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter (designed to complement management’s discussion and analysis and should be read in conjunction with it), the District’s organizational chart, a list of principal officials and independent auditors and advisors. The financial section includes management’s discussion and analysis, the basic financial statements and schedules, as well as the auditor’s report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditor’s report on the internal control and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. THE REPORTING ENTITY AND ITS SERVICES: The Cherry Hill Township School District is an independent reporting entity within the criteria adopted by GASB Statement No. 14. All funds and the government-wide financial statements of the District are included in this report.

The Cherry Hill Township Board of Education and all its schools constitute the District’s reporting entity. The District consists of two high schools, one alternative high school program, three middle schools, twelve elementary schools, and one pre-school. The curriculum provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular, vocational, as well as, special education services to disabled youngsters.

The District occupies and maintains 1,696,737 square feet of building space and 370 acres of land.

The District completed the 2015-16 fiscal year with an average daily enrollment of 11,141 students, which is 103 students less than 2014-15 school year. The following details the changes in District enrollments over the last ten years.

Average Daily Enrollment		
Fiscal Year	Student Enrollment	Percent Change
2015-16	11,141	-0.92%
2014-15	11,244	-0.23%
2013-14	11,270	-0.89%
2012-13	11,371	0.06%
2011-12	11,298	-0.60%
2010-11	11,366	0.19%
2009-10	11,345	-1.07%
2008-09	11,469	-1.46%
2007-08	11,639	-0.41%
2006-07	11,687	-0.75%

2. INTERNAL CONTROL: Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. As a recipient of federal and state financial assistance, the District also is responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is also subject to periodic evaluation by the District management.

As part of the District’s single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal and state financial assistance

programs, as well as to determine that the District has complied with applicable laws and regulations.

3. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. These amounts to be re-appropriated are reported as reservations of fund balance as of June 30, 2016.

4. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds and the government-wide financial statements are explained in the "Notes to the Financial Statements," Note 1.

5. CASH MANAGEMENT: The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

6. RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, student accident and fidelity bonds.

7. OTHER INFORMATION: Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Wiss & Company LLP was appointed by the Cherry Hill Township Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Guidance and State of New Jersey Circular 15-08-OMB. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

8. ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Cherry Hill Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school District and thereby contributing their full support to the development and maintenance of our financial operation. We would also like to express our thanks to the many staff members who assisted in the preparation of this report. Their help was invaluable.

Independent Auditors' Report

Honorable President and Members
of the Board of Education
Cherry Hill Township School District
County of Camden
Cherry Hill, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Cherry Hill School District, County of Camden, New Jersey (the "District"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of the District's proportionate share of the net pension liability-PERS, schedule of District contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, and are also not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis
Year Ended June 30, 2016
(Unaudited)

As management of the Cherry Hill Township School District ("District"), we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the year ended June 30, 2016. We encourage readers to consider the information presented, in conjunction with additional information that we have furnished in our letter of transmittal.

Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Financial Highlights

Key financial highlights for fiscal 2016 are as follows:

- Total net position of the governmental activities and business-type activities is \$45,762,986 at June 30, 2016. It is comprised of both current and capital assets and deferred outflows of resources less deferred inflow of resources and current and outstanding long-term liabilities (Schedule A-1).
- General revenues accounted for \$220,844,784 of total revenue or 94 percent of all revenues. Program specific revenues in the form of charges for services, grants, aid, and contributions accounted for \$13,837,786 or 6 percent of total revenues of \$234,682,570 (Schedule A-2).
- The District had \$204,762,484 in governmental fund expenditures (Schedule B-2). Of that amount, the General Fund expenditures totaled \$190,490,364 including \$18,544,021 in State TPAF pension and social security contributions. Grant-related expenditures in the special revenue fund totaled \$5,555,446. Business-type activities expenses were \$5,783,752.
- The District maintains an internal service fund for the District's self-insured prescription plan in order to account for any claims incurred but not yet reported and to further maintain adequate cash flow to support the program. This fund had \$6,731,612 in contributions, \$4,591 in interest income, and \$6,840,892 in expenses for claims paid.
- The District commenced various capital projects during the year ended June 30, 2016. As a result, there was a transfer of \$83,974 from capital outlay to capital projects fund, as well as a transfer of \$1,975,918 from capital reserve to capital projects.
- The District transferred unrestricted funds during the year into restricted capital reserves in the amount of \$3,158,842 to fund future capital projects of the District to support the local share of various SDA approved projects.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Cherry Hill Township School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred outflows of resources, deferred inflows of resources and liabilities of the District, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund and the special revenue fund and as supplementary information for the debt service fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 22 - 24 of this report.

Proprietary funds. The District maintains proprietary fund types in the form of enterprise funds and one internal service fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for the operations of its food service and school age child care programs, each of which are considered major funds of the District. Enterprise funds provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund provides self-insurance services to other funds.

The proprietary fund financial statements can be found on pages 25 - 27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District uses agency funds to account for resources held for student activities and groups, unemployment compensation claims and payroll related liabilities. The fiduciary fund financial statements can be found on pages 28 - 29 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 30- 60 of this report.

Other information. The required supplementary information and combining statements referred to earlier in connection with governmental funds and proprietary funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found on pages 61 - 113 of this report.

The School District as a Whole

The Statement of Net Position provides the perspective of the District as a whole. Net position may serve as an indicator of a government's financial position. However, as noted earlier, net position is not the primary basis for decision making for each budget cycle.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table provides a summary of net position relating to the District's governmental and business-type activities as of June 30, 2016 and 2015:

The largest portion of the District's governmental activities net position is its net investment in capital assets, e.g. land, construction in progress, buildings and improvements, and furniture and equipment, less any related debt (general obligation bonds payable and capital leases) used to acquire those assets that are still outstanding, which amounts to \$70,986,464. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Deferred outflows of resources increased due to the large increase in pension deferrals based on actuarial calculations. Net pension liability increased as a result of changes of assumptions by the pension plan's actuary as well as changes in proportion of the allocation of the net pension liability. Long-term liabilities decreased mainly due to the payment of principal on debt. Deferred inflow of resources decreased due to the difference between the projected and actual earnings on pension plan investments.

Capital assets and the net position related to the net investment in capital assets increased mainly due to expenditures that were capitalized relating to various capital projects. Current liabilities increased mainly due to the LP2 capital lease balance remaining all being moved to short-term due to the early retirement payment of the lease balance on July 1, 2016.

An additional portion of the District's net position (restricted) represents resources that are subject to external restrictions on how they may be used, which total \$10,817,642 at June 30, 2016. The increase in restricted net position is a result of additional funds being deposited into the capital reserve account. The remaining balance of unrestricted net position may be used to meet the District's ongoing obligations to citizens and creditors.

Total net position for business-type activities increased by \$406,788 primarily as a result of the operations from the School Aged Child Care operations, due to the elimination of the usage fee charged by the District.

District activities. The key elements of the District's changes in net position for the years ended June 30, 2016 and 2015 are as follows:

The increase in grants and contributions not restricted to specific programs was related to the increase in special funding amounts for TPAF on-behalf pension and post-retirement medical. Property taxes increased \$3,437,725, which was within limits permitted by state regulations.

The increase in governmental activities expenses is mainly the result of an increase in instructional services and support services. The instructional services change was related to an increase in regular instruction in the amount of \$6,096,936 and special education instruction in the amount of \$2,006,337. In addition, the support services change was related to school administration expenses increasing \$1,906,979.

Business-type expenses decreased primarily due to the elimination of the SACC usage fee charged by the District.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The District's fund balance amounts are classified as restricted, assigned or unassigned.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the General Fund, Special Revenue Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2016, and the increases in relation to the prior year:

<u>Revenue</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase from 2015</u>	<u>Percent of Increase</u>
Local sources	\$163,917,287	80.4%	\$3,305,973	2.1%
State sources	35,451,481	17.4%	2,972,106	9.2%
Federal sources	4,507,230	2.2%	26,650	1.0%
Total	<u>\$203,875,998</u>	<u>100.0%</u>	<u>\$ 6,324,729</u>	<u>3.2%</u>

The increase in local sources is mainly related to the increase in the 2016 tax levy.

The increase in state sources is mainly related to increase in on-behalf TPAF pension contributions, as well as an increase in Extraordinary Aid.

The increase in federal sources is mainly due to the District receiving an increase in additional SEMI funds that were awarded to school districts during the year ended June 30, 2016. In addition, the District was awarded more funds for the IDEA and NCLB clusters.

The following schedule presents a summary of General Fund, Special Revenue Fund and Debt Service Fund expenditures for the fiscal year ended June 30, 2016 and the increases and decreases in relation to the prior year:

Expenditures				
Year Ended June 30, 2016				
<u>Expenditures</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from 2015</u>	<u>Percent of Increase (Decrease)</u>
Current expenditures:

Capital outlay	2,535,083	1.3%	(282,045)	(10.0) %
Transfers to charter schools	188,431	0.1%	3,746	2.0 %
Cost of issuance			(123,984)	(100.0) %
Debt service:

Interest	604,300	0.3%	(45,514)	(7.0) %
Total	<u>\$ 199,965,110</u>	<u>100.0%</u>	<u>\$ 4,224,014</u>	<u>2.2 %</u>

The majority of the increase is related to support services expenditures, which was mainly due to a \$2,772,605 increase in on-behalf TPAF pension contributions and reimbursed TPAF social security. In addition, health insurance costs increased \$783,209, as well an increase of \$338,880 related to tuition for students attending schools for the disabled and other LEAs for special education out-of-state.

General Fund Budgeting Highlights (Schedule C-1)

The District's budget is prepared according to New Jersey statutes. The most significant budgeted fund is the General Fund. The largest difference to the budget from the revenue perspective was due to an increase in the local tax levy approved by the District in the current year.

Fiscal discipline freed up funds in some budget areas, allowing selected budgetary transfers to be made between budgetary line items and approved by the Board. The most notable transfers made during the 2015-16 school year were to undistributed instruction for regular programs, specifically for purchased professional education services in the amount of \$1,203,907 and a transfer out of undistributed instruction for regular programs, specifically for other purchased services for \$858,367.

Capital Assets and Debt Administration

Capital Assets. At June 30, 2016, the District's governmental funds had capital assets of \$85,062,668 (net of accumulated depreciation), including land, construction in progress, school buildings and improvements, machinery, equipment and vehicles.

The District's governmental funds' capital assets, net of accumulated depreciation consisted of the following at June 30, 2016 and 2015:

	June 30	
	2016	2015
Land	\$ 9,057,980	\$ 9,057,980
Construction in progress	3,480,181	736,721
Land Improvements	1,337,369	1,460,957
Buildings and improvements	70,919,827	70,750,091
Machinery, equipment and vehicles	267,311	870,944
Total capital assets, net	<u>\$ 85,062,668</u>	<u>\$ 82,876,693</u>

More detailed information about the District's capital assets can be found in Note 5 to the basic financial statements.

Debt Administration and Long-term Liabilities. During the 2016 fiscal year, the District's governmental activities had outstanding long-term liabilities of \$18,927,339, of which \$7,648,666 was classified as the current portion. The legal debt margin at June 30, 2016 is \$313,974,559.

At June 30, 2016 and 2015, the District's long-term liabilities consisted of:

	June 30	
	2016	2015
Bonds payable, net of premiums	\$11,071,091	\$14,662,996
Lease obligations payable	4,511,357	6,410,821
Compensated absences payable	3,344,891	3,472,840
Total long-term liabilities	<u>\$18,927,339</u>	<u>\$24,546,657</u>

In addition, the District's net pension liability at June 30, 2016 and 2015, was \$52,547,073 and \$42,665,190, respectively.

More detailed information about the District's long-term liabilities and outstanding debt can be found in Note 6 to the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances to the Statement of Activities

Year ended June 30, 2016

Total net change in fund balances - governmental funds (from B-2)		\$ 723,634
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital additions are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions exceeded depreciation in the period.		
Depreciation expense	\$ (3,199,501)	
Capital asset additions	<u>5,385,476</u>	2,185,975
In the statement of activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. This represents the change from the prior year.		
		57,817
Governmental Funds report the effect of premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these transactions is as follows:		
Amortization of premium on bonds	276,905	
Amortization of deferred interest costs on bonds	<u>(57,372)</u>	219,533
The Internal Service Fund is used by the District to charge the costs of self insurance to other funds. The activity of this fund is included in the Statement of Activities.		
		(104,689)
The obligations of lease purchase agreements and the repayment of the principal on long-term debt consumes the current financial resources of governmental funds. These transactions, however, have no effect on net position.		
Repayment of long-term debt	3,315,000	
Payments on lease purchase agreements	<u>1,899,464</u>	5,214,464
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid).		
		127,948
Certain expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Pension expense		(1,815,572)
Change in net position of governmental activities (A-2)		<u>\$ 6,609,110</u>

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Description of the Reporting Entity - The Cherry Hill Township School District (hereafter referred to as the "District") is a Type II district located in the County of Camden, State of New Jersey. As a Type II district, the District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three members' terms expire each year. The purpose of the District is to educate students in grades kindergarten through twelfth at its nineteen schools. The District has an enrollment at June 30, 2016 of 11,123 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the District over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

Component Units - GASB Statement No. 14, *The Financial Reporting Entity*, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. The District had no component units as of or for the year ended June 30, 2016.

Basis of Presentation - The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described in this Note.

The District's basic financial statements consist of government-wide financial statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide and Fund Financial Statements - The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements. The New Jersey Department of Education requires that all funds be reported as major to promote consistency among school districts in the State of New Jersey.

Measurement Focus, Basis of Accounting and Financial Statement Presentation - The Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the enterprise funds and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, claims, pension benefits and postemployment healthcare benefits, are recorded only when payment is due.

Property taxes, interest and state formula aid associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year.

The District has reported the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the Capital Outlay sub-fund.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenues from the State and Federal Government, other than major capital projects, debt service, or the proprietary funds, and local appropriations that are restricted or committed to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for the acquisition or construction of major capital facilities, other than those financed by Proprietary Funds. The financial resources are derived from New Jersey Schools Development Authority grants, temporary notes, capital leases or serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of financial resources that are restricted, committed, or assigned to an expenditure for the payment of general long-term debt principal, interest and related costs of governmental funds.

Proprietary Funds - Proprietary funds are used to account for the District's ongoing activities, which are similar to those found in the private sector where the intent of the District is that the costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges, or where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The District has reported the following major proprietary funds:

Food Service Enterprise Fund - This fund accounts for the financial transactions related to the food service operations of the District. The stated intent of the food service enterprise fund is that the costs (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

School Age Child Care Enterprise Fund - This fund accounts for financial activity related to providing day care services for District students before school, after school, and during the summer. The school age child care enterprise fund accounts for all revenues and expenses in the operation of the program similar to a private business enterprise. The stated intent is that the cost of providing goods and services to the students on a continuing basis is financed or recovered primarily through charges for services and tuition charges for the school age child care enterprise fund.

Internal Service Fund (Self-Insurance) - The self-insurance internal service fund is used in order to account for any claims incurred but not yet reported and to further maintain adequate cash flow to support the prescription program.

Additionally, the District reports fiduciary funds, which focus on net position and changes in net position. The fiduciary fund category is split into two classifications: trust funds and agency funds. Agency funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds (i.e., payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District has four fiduciary funds, an unemployment compensation trust fund, a private-purpose scholarship fund, a student activity agency fund, and payroll agency fund. The following is a description of the fiduciary funds of the District.

Trust and Agency Funds - The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds or students within the District.

Trust Fund - The unemployment compensation and private purpose scholarship funds are accounted for using the economic resources measurement focus. The unemployment compensation fund is used to account for contributions from employees and the District and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. The private purpose scholarship fund is utilized to provide scholarships to students and to account for the related transactions.

Agency Funds (Payroll and Student Activity Fund) - Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

Basis of Accounting - Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Revenues - Exchange and Non-Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to the district the entire balance of taxes in the amount certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an 'accounts receivable.' The County Board of Taxation is responsible for the assessment of properties, and the Municipal Tax Collector is responsible for collection of taxes. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien. With the exception of the restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. The restricted formula aids are recorded in the special revenue fund in accordance with the Audit Program promulgated by the New Jersey Department of Education which requires that these grants be realized in an amount equal to program expenditures.

The District reports unearned revenue on its balance sheet and statements of net position. Unearned revenue arises when resources are received by the District before it has legal claim to them, as when federal or state assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and statements of net position and revenue is recognized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Expenses / Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as unearned revenue. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets / Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the county office. In accordance with P.L. 2011, c. 202, which became effective January 17, 2012, the District elected to move the April school Board election to the date of the November general election, thereby eliminating the vote on the annual base budget. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23-2.11. Budgetary transfers were made during the current year in accordance with statutory guidelines. The over-expenditure in the general fund is due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last two state aid payments for budgetary purposes only and the accounting for special revenue fund, as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budgets, as detailed on Exhibit C-1, Exhibit C-2, and Exhibit I-3 includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the General Fund Budgetary Comparison Schedule and the Special Revenue Fund Budgetary Comparison Schedule to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds. Note that the District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the last state aid payments.

YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Encumbrances - Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as a reduction of the accounts receivable or as unearned revenue at fiscal year-end. The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest.

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB). The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the Governmental Units.

Tuition Receivable - Tuition charges were established by the District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Tuition Payable - Tuition charges for the fiscal year ended June 30, 2016 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Interfund Receivables / Payables - Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as Internal Balances.

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method. Inventories are recorded as expenses when consumed rather than when purchased.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide Statement of Net Position and the Proprietary Fund Statement of Net Position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their estimated fair market value as of the date received. The District maintains a capitalization threshold of \$2,000. The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Land Improvements	10-20 Years	N/A
Buildings and Improvements	10-50 Years	N/A
Furniture and Equipment	5-20 Years	12 Years
Vehicles	5-10 Years	4-6 Years

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the government-wide financial statements.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Unearned revenue in the general fund and special revenue fund represents cash, which has been received but not yet earned and also includes outstanding encumbrances in the special revenue fund. Unearned revenue in the enterprise fund represents cash receipts from students for meals that have been received in advance, commodities received and in inventory, and fees for school age child care programs received in advance of the program offering.

Deferred Outflows/Inflows of Resources - In addition to assets, the statements of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has two items that qualify for reporting in this category, including deferred amounts from the refunding of debt and deferred amounts related to pensions.

In addition to liabilities, the statements of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources.

Deferred Loss on Refunding of Debt - Deferred loss on refunding of debt arising from the issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the shorter of the duration of the related debt or the new debt issued as a component of interest expense. The amortization expense for the year ended June 30, 2016 amounted to \$57,372. As of June 30, 2016, the District has recorded an unamortized balance of \$172,114 as a deferred outflow of resources.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Net Position - Net position represents the difference between assets, deferred outflows of resources, deferred inflows of resources and liabilities in the government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Fund Balance - GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

- 1) Nonspendable – includes amounts that cannot be spent because they are either (a) not spendable form of (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) Restricted - includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) Committed - includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- 4) Assigned – amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- 5) Unassigned - includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Of the \$17,478,545 of General Fund fund balance (B-1) at June 30, 2016, \$1,609,518 of encumbrances is assigned to other purposes, \$6,429,652 has been restricted for capital reserve (\$2,479,333 utilized in the 2017 fiscal year budget), \$6,169,638 has been classified as assigned fund balance designated for subsequent year's expenditures, \$39,094 has been designated as assigned fund balance for subsequent years expenditures pertaining to recognition of additional SEMI revenue, and \$3,230,642 is classified as unassigned. In accordance with the State of New Jersey Statutes, the fund balance estimated to be utilized in the subsequent year budget is not legally restricted and therefore has been classified in the balance sheet as fund balance designated for subsequent year's expenditures and is not restricted.

The Capital Projects Fund fund balance at June 30, 2016 is \$5,722,120, which is restricted for capital projects. The Debt Service Fund fund balance in the amount of \$7,200 is restricted for future debt service payments and was appropriated in the 2016-17 budget.

Calculation of Excess Surplus - In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for restricted fund balance -- excess surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The District did not generate excess fund balance during the 2015-2016 school year.

Implementation of GASB No. 72 - In February, 2015, GASB issued Statement No. 72, Fair Value Measurement and Application ("GASB 72"). The objective of this Statement is to provide guidance for applying fair value for certain assets and liabilities and disclosures related to all fair value measurements. The requirements of this Statement mandate the use of valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. The requirements of this Statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. The District has adopted GASB No. 72 during the year ended June 30, 2016. However, it did not have a significant impact on the financial statements.

GASB Pronouncements to be adopted in future years - GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* ("GASB No. 75"). The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local government employers about financial support for OPEB that is provided by other entities. The Statement will become effective for the District in the 2018 fiscal year. Management has not yet determined the impact of this Statement on the financial statements.

GASB Statement No. 77, *Tax Abatement Disclosures* ("GASB No. 77"). This Statement requires governments that enter into tax abatement agreements to disclose certain information about the agreements. The Statement will become effective for the District in the 2017 fiscal year. Management has not yet determined the impact of this Statement on financial statement note disclosures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Operating and Non-operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are sales for the food service program, tuition for the school aged child care program, and contributions toward the costs of prescription benefits. Non-operating revenues principally consist of interest income earned on various interest-bearing accounts and federal and state program revenues. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund.

Interfund Activity - Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

On-Behalf Payments - Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security and post-retirement pension and medical contributions for certified teacher and other members of the New Jersey Teachers Pension and Annuity Fund. Additionally, revenues and expenses related to on-behalf pension contributions in the government-wide financial statements have been increased by \$23,005,912 to adjust for the full accrual basis expense incurred by the State of New Jersey during the most recent measurement period. The amounts are not required to be included in the District's annual budget.

Subsequent Events - Management has reviewed and evaluated all events and transactions that occurred between June 30, 2016 through November 28, 2016 the date that the financial statements were issued and the effects of those that provide additional pertinent information about conditions that existed at the balance sheet date, have been recognized in accompanying financial statements. Subsequent to year end, the District paid off the remaining balance of \$3,180,497 of one of their existing lease purchase agreements (Lease Purchase #2).

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. The details of this \$18,927,340 difference are as follows:

Bonds payable	\$ 10,125,000
Lease purchase payable	4,511,357
Unamortized premium on bonds	946,091
Compensated absences	<u>3,344,892</u>
Net adjustment to reduce fund balance-total governmental funds to arrive at net position – governmental activities	<u>\$ 18,927,340</u>

NOTE 3 - CASH AND CASH EQUIVALENTS:

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

The District’s cash and cash equivalents are classified below to inform financial statement users about the extent to which a government’s deposits and investments are exposed to custodial credit risk. Pursuant to GASB Statement No. 40, “Deposit and Investment Risk Disclosures” (“GASB 40”), the District’s operating cash and money market accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk

NOTE 3 - CASH AND CASH EQUIVALENTS (CONTINUED):

(risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name.

The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

Operating cash accounts are held in the District's name by several commercial banking institutions. At June 30, 2016, the carrying amount of the District's deposits for all funds was \$25,389,867 and the bank balance was \$29,764,158. Of the bank balance, \$500,000 of the District's cash deposits on June 30, 2016 were secured by the federal depository insurance. The New Jersey Governmental Unit Deposit Protection Act (GUDPA) covered the bank balance of \$27,704,921. \$1,559,237 held in the District agency accounts are not covered by GUDPA. The remaining balance of \$550 relates to petty cash held by the school age child care program and is also not covered by GUDPA.

Custodial Credit Risk-Deposits: Custodial credit risk is the risk that in the event of a bank failure, the District's deposits, in the form of certificates of deposit, money market accounts and checking accounts, may not be returned to it.

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds and other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank, which have a maturity date not greater than twelve months from the date of purchase.
- c. New Jersey Cash Management Fund and New Jersey Asset and Rebate Management Fund.

The District did not hold any investments at June 30, 2016.

NOTE 4 - CAPITAL RESERVE ACCOUNT:

A capital reserve account was established by the District on September 26, 2000 by the inclusion of \$100 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes, the express approval of the voters has been obtained by either a separate proposal at budget time, by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2, or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. Pursuant to N.J.A.C. 6A:23-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

Beginning Balance July 1, 2015	\$	5,224,322
Increased by:		
Deposit approved by Board in June 2016		3,158,842
Interest Earnings		22,406
Decrease by:		
Budget Withdrawal		(1,975,918)
Ending Balance June 30, 2016	<u>\$</u>	<u>6,429,652</u>

Of this balance, \$2,479,333 has been budgeted in the District's 2016-17 approved budget.

The June 30, 2016 balance in the capital reserve account did not exceed the local support costs of uncompleted capital projects in the LRFP.

NOTE 7 - PENSION PLANS:

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Public Employees Retirement System - The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008,

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Funding Policy - The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in annually through July 2018 that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

During the year ended June 30, 2016, the State of New Jersey contributed \$12,992,896 to the TPAF for post-retirement pension and medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$5,551,125 during the year ended June 30, 2016 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the government-wide and fund financial statements.

The Board's actuarially determined contributions to PERS for each of the years ended June 30, 2016, 2015, and 2014 were \$2,012,491, \$1,878,602, and \$1,673,326, respectively, equal to the required contributions for each year.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For the purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employee's Retirement System (PERS)

At June 30, 2015, the District reported a liability of \$52,547,073 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2014, which was rolled forward to June 30, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2015, the District's proportion was 0.2340835817 percent, which was an increase of 0.0062045343 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized full accrual pension expense of \$1,815,572 in the government-wide financial statements. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,253,589	
Changes of assumptions	5,643,136	
Net difference between projected and actual earnings on pension plan investments		\$ 844,856

District contributions subsequent to the measurement date	1,988,690	
	\$ 10,635,112	\$ 844,856

\$1,988,690 is reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions applied to all periods included in the measurement:

Inflation rate	3.04%
Salary increases	
2012-2021	2.15 - 4.40%
	based on age
Thereafter	3.15 - 5.40%
	based on age
Investment rate of return	7.90%

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

Discount rate

The discount rate used to measure the total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2015 calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.90 percent) or 1-percentage-point higher (5.90 percent) than the current rate:

Collective pension expense for the Local Group for the measurement period ended June 30, 2015 is \$1,481,308,816.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at June 30, 2015 and 2014 is 5.72 and 6.44 years, respectively.

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2015 was \$473,915,061. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2015, the State's proportionate share of the TPAF net pension liability associated with the District was 0.7498149389, which was a decrease of 0.0035799393 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized on-behalf pension expense and revenue in the government-wide financial statements of \$28,936,781 for contributions incurred by the State.

Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Salary increases	
2012-2021	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.90%

Mortality Rates

Mortality rates were based on the RP-2000 Health Annuitant Mortality Tables for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Discount Rate

The discount rate used to measure the total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Plan Description

The School District contributes to the New Jersey State Employees Health Benefits Program (the "SEHBP"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SEHBP provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Employees Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP.

Funding Policy

P.L. 1987, chapter 384 and P.L. 1990, chapter 6 required Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, chapter 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees eligible for post-retirement medical benefits and the State contributed \$1.25 billion on their behalf.

The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2015.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with parameters of GASB 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the SEHBP Fund for TPAF retirees' post-retirement benefits on behalf of the District for the years ended June 30, 2016, 2015 and 2014 were \$7,062,027, \$6,435,367, and \$5,225,760, respectively, which equaled the required contributions for each year. The State's contributions to the SEHBP Fund for PERS retirees' post-retirement benefits on behalf of the District was not determined or made available by the State of New Jersey.

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 8 - POSTEMPLOYMENT BENEFITS (CONTINUED):

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. There have been no significant reductions in insurance coverage from the prior year and no settlements have exceeded insurance coverage over the past three years.

Self-Insurance - The District is self-insured for prescription benefits and has established an internal service fund to account for its self-insurance activities. The accrued liability for unpaid prescription claims of \$228,000 has been recorded in the financial statements for Incurred But Not Reported Claims (IBNR), which is subject to modification and/or assessment of existing or additional claims. The IBNR liability for prescription benefits has been calculated by the District based on actual enrollment, the statute of limitations in reporting a claim, and actual claims reported. In addition, the District has unrestricted \$216,548 for future prescription claims.

NOTE 9 - RISK MANAGEMENT:

Changes in the Incurred but Not Reported claims liability amount in fiscal years 2016, 2015, and 2014 were:

	Beginning of Year Liability	Current Year Claims and Changes in Estimates	Reduction Due To Claim Payments	Less Change In IBNR Liability	Balance at End of Year
2015-16	\$ 82,000	\$ 6,840,892	\$ 6,840,892	\$ 146,000	\$ 228,000
2014-15	231,000	6,293,752	6,293,752	149,000	82,000
2013-14	231,000	5,317,232	5,317,232	-	231,000

The District has estimated the short-term liability to be \$228,000, which approximates the District's recent claims history for prescription claims.

NOTE 10 - DEFERRED COMPENSATION:

The District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by various insurance companies, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with the amounts, and all income attributable to these amounts are held in trust for the exclusive benefit of participating employees and their beneficiaries.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 11 - INTERFUND RECEIVABLES AND PAYABLES:

The following interfund balances were recorded on the various balance sheets as June 30, 2016:

Fund	Interfunds Receivable	Interfunds Payable
General Fund	\$ 696,509	\$ 193,078
Special Revenue Fund		419,769
Capital Projects Fund		217
S.A.C.C. Enterprise Fund		237
Internal Service Fund	193,078	276,286
	\$ 889,587	\$ 889,587

The general fund interfund payable and internal service fund receivable is an additional board contribution to fund prescription claims in the Internal Service Fund. The interfund payable in the Internal Service Fund and the related interfund receivable in the general fund pertains to the June 2016 payment made by the general fund and thus the funding is owed back to the general fund.

The interfund payable in the Special Revenue Fund represents eliminating Special Revenue Fund pooled cash deficit caused by the timing of receiving federal monies.

The interfund payable in the Capital Projects Fund is the \$217 of interest that was not turned over to General Fund as of June 30, 2016.

The interfund payable in the Enterprise Fund for \$237 is related to postage charges made in the General Fund on behalf of SACC.

All interfunds are expected to be liquidated within the year, which was paid subsequent to June 30, 2016.

NOTE 12 – ECONOMIC DEPENDENCY:

The District receives support from federal and state governments. A significant reduction in the level of support, if this were to occur, would have an effect on the District’s programs and activities.

CHERRY HILL TOWNSHIP SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2016

NOTE 13 – CONTINGENT LIABILITIES:

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2016 may be impaired. In addition, the District is receiving funding in the form of grants from the New Jersey Schools Development Authority, (NJSDA), in connection with its capital projects. The costs associated with the funding received from the NJSDA are subject to a final review of eligible costs and compliance by the New Jersey Department of Education and the NJSDA. To the extent that the District has not complied with the rules and regulations governing the NJSDA funds or has not met the final eligible cost requirements, refunds of any money received may be required and the collectability of any related receivable at June 30, 2016 may be impaired. In the opinion of the District’s management, there are no significant contingent liabilities relating to compliance with the rules and regulations or final eligible cost requirements governing the respective grants or funding; therefore, no provisions have been recorded in the accompanying basic financial statements for such contingencies.

The District is involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the Board.

NOTE 14– TRANSFERS - RECONCILIATION:

The following presents a reconciliation of transfers during the 2016 fiscal year:

	Transfers In	Transfers Out
General Fund	\$ 100,392	\$ 2,059,892
Capital Projects Fund	2,059,892	100,392
	\$ 2,160,284	\$ 2,160,284

The transfer of \$2,059,892 from the general fund to the capital projects fund represents the transfer of funds from the capital outlay and capital reserve accounts in the amounts of \$83,974 and \$1,975,918, respectively, for use for ongoing capital projects. Additionally, \$100,392 is related to expenditures incurred in the General Fund for SDA expenditures, in which the Capital Projects Fund refunded the General Fund for these expenditures.

NOTE 15 –COMMITMENTS:

The District has contractual commitments at June 30, 2016 to various vendors, which are recorded in the general fund as fund balance assigned to other purposes in the amount of \$1,609,519. There was \$2,908,718 of contractual commitments at June 30, 2016 to vendors related to the ongoing construction projects in the capital projects fund that is reported as part of fund balance restricted for capital projects.

The change in the capital projects fund fund balance is the result of the substantial completion of capital projects during fiscal year ended June 30, 2013.

GASB 54 was implemented in the 2011 fiscal year, which required the presentation of fund balances to be reported in different classifications from those presented in prior years (see footnote 1 in the basic financial statements). Prior years have not been restated above, nor are they required to be.

Single Audit Section

Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards*

Independent Auditors' Report

Honorable President and
Members of the Board of Education
Cherry Hill Township School District
Cherry Hill, New Jersey
County of Camden

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Cherry Hill Township School District, in the County of Camden, New Jersey (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 28, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Federal and State Program and
on Internal Control Over Compliance Required by the
Uniform Guidance and New Jersey OMB Circular 15-08

Independent Auditors' Report

Honorable President and
Members of the Board of Education
Cherry Hill Township School District
Cherry Hill, New Jersey
County of Camden

Report on Compliance for Each Major Federal and State Program

We have audited the Cherry Hill Township School District's, in the County of Camden, New Jersey (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2016. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred.

An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purposes.

The accompanying notes to schedules of expenditures of federal awards and state financial assistance are an integral part of this statement.

Cherry Hill Township School District
Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance

Year ended June 30, 2016

1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all federal and state financial assistance of the Cherry Hill Township School District (District). The District is defined in Note 1 to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies are included on the schedules of expenditures of federal awards and state financial assistance.

2. Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200-*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Therefore, some amounts presented in these schedules may differ from amounts presented, or used in the preparation of, the basic financial statements.

3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements and schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the fiscal year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made. The general fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the two last state aid payments in the current year, which is mandated pursuant to NJSA 18A:22-44.2.

Cherry Hill Township School District
Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance
Year ended June 30, 2016

3. Relationship to Basic Financial Statements (continued)

For GAAP purposes those payments are not recognized until the subsequent year due to the state deferral and recording of the last state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payments in the current budget year, consistent with NJSA 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$7,506 for the general fund and \$169,292 for the special revenue fund. See note to required supplementary information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. The adjustment to reconcile from budgetary basis accounts receivable to GAAP basis accounts receivable is \$23,740 for the special revenue fund. This is a result of recognizing encumbrances as expenditures on the budgetary basis but not the GAAP basis. Federal and State award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

	Federal	State	Total
General Fund	\$ 268,009	\$ 33,249,906	\$33,517,915
Special Revenue Fund	4,239,221	1,078,667	5,317,888
Capital Projects Fund		1,605,722	1,605,722
Debt Service Fund		1,122,908	1,122,908
Food Service Enterprise Fund	1,322,820	30,648	1,353,468
School Age Child Care Enterprise Fund		45,463	45,463
Total award revenues	<u>\$5,830,050</u>	<u>\$37,133,314</u>	<u>\$42,963,364</u>

4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Cherry Hill Township School District

Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance

June 30, 2016

5. Other

Revenues and expenditures reported under the Food Donation Program represent current year value received and current year distributions, respectively. TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of Social Security contributions for TPAF members for the year ended June 30, 2016.

The post retirement pension and medical benefits received on-behalf of the District for the year ended June 30, 2016 amounted to \$12,992,896. Since on-behalf post retirement pension and medical benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB Circular 15-08, however, they are required to be reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency.

6. Indirect Costs

The District did not use the 10% de minimis indirect cost rate.
