Honorable President and
Members of the Board of Education
Deerfield Township School District
County of Cumberland
Rosenhayn, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Deerfield Township School District for the fiscal year ended June 30, 2016 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Deerfield Township Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly, the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statement and schedules, as well as auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 and NJ Treasury Circular OMB 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

The Deerfield Township School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the District are included in this report. The Deerfield Township Board of Education and the school district constitute the reporting entity.

The District provides a full range of educational services appropriate to grade levels PK through 8. These include regular as well as special education for children with special needs.

The District completed the 2015-16 fiscal year with an enrollment of 327 students, which is a 7 student decrease from the previous year's enrollment. The following details the changes in the student enrollment of the District over the last twelve years.

AVERAGE DAILY ENROLLMENT

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2015-16	327	(2.10)
2014-15	334	0.91
2013-14	331	(4.61)
2012-13	347	(3.61)
2011-12	360	(3.49)
2010-11	373	(3.12)
2009-10	385	6.94
2008-09	360	0.56
2007-08	358	(4.02)
2006-07	373	8.75
2005-06	343	1.78
2004-05	337	

2. MAJOR INITIATIVES:

The Leadership Team, consisting of the Chief School Administrator, Assistant Principal, instructional coaches, and the School Business Administrator collaborate with teachers as active learners during professional development. The professional learning environment includes professional learning communities, grade level meetings, and staff meetings. Professional reflection is focused on student achievement as determined by student behaviors and teacher behaviors. Consequently, possibilities result for the school community to be on the cutting edge of pedagogy and thereby, enhance student learning. Over the past few years, our district has focused on the delivery of instruction driven by the revised NJ Core Curriculum Content Standards. Recently, new teaching techniques and strategies have facilitated the implementation of the Common Core in aligning with our district curriculum. Because of this implementation we have continued to improve upon the differentiation of instruction, increase literacy skills and math fluency, create formative assessments, evaluate data for use in addressing student growth and goals, as

well as encourage the use of technology as a tool to increase student achievement. Turnkey training and professional collegiality have occurred more frequently. Individual professional development plans, the district professional development plan, and Smart Goals ensure the pursuit of teaching excellence.

Teaching initiatives have primarily focused on differentiation of instruction across all content areas and grade levels with specific emphasis in math and language arts, benchmarking, data analyses, and behavior modification through the Positive Behavior Support in Schools (PBSIS) initiative. Deerfield Township School has a full-time literacy coach, a full-time math coach, and a student support/behavioral interventionist. Staff will continue training in the use of student information and data analyses to accurately assess individual student needs, and to align and modify teaching strategies to benefit each learner. These practices have allowed us to provide better instruction, assessments, and implementation and alignment to the Common Core.

3. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring compliance with applicable laws and regulations related to those programs. This internal control procedure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

4. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt services fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be included as re-appropriation are reported as reservations of fund balance at June 30, 2015.

5. ACCOUNTING SYSTEM AND REPORTS:

The Districts accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in “Notes to the Financial Statements,” Note 1.

6. FINANCIAL INFORMATION AT FISCAL YEAR END:

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general fund, special revenue fund, and debt service fund revenues for the fiscal year ended June 30, 2016 and the amount and percentage of increases in relation to prior revenues.

Revenue	Prior Year Amount	Amount	Percent of Total	Increase/ (Decrease) for June 30, 2016	Percent of Increase/ (Decrease)
Local Sources	\$2,698,428.	\$2,691,881.	44.37%	(\$6,547.)	0.24%
State Sources	3,013,866.	3,115,971.	51.36%	102,105.	3.28%
Federal Sources	\$222,220.	259,449.	4.28%	37,229.	14.35%
Total	\$5,934,514.	\$6,067,301.	100.00%	\$132,787.	2.16%

The following schedule presents a summary of general fund, special revenue and debt service fund expenditures for the fiscal year ended June 30, 2016 and the percentage of increases and decreases in relation to prior year amounts.

Expenditures	Prior Year Amount	Amount	Percent of Total	Increase/ (Decrease) for June 30, 2016	Percent of Increase/ (Decrease)
Current Expense:					
Instruction	\$2,265,585.	\$2,191,789.	36.09%	(\$73,796.)	-3.37%

Total	\$5,834,936.	\$6,073,170.	100.00%	\$238,234.	3.92%

7. DEBT ADMINISTRATION:

At June 30, 2016 the District's outstanding debt issues included \$1,090,000 School Refunding Bonds used to pay off school serial bonds and \$107,795 in Capital Leases.

8. CASH MANAGEMENT:

The investment procedure of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories, protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act.

9. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to, general liability, automobile liability, hazard and theft insurance on property and contents, and fidelity bonds.

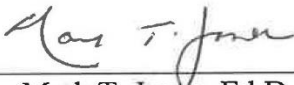

10. OTHER INFORMATION:

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Triantos and Delp, CPA, LLC was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 and NJ Treasury Circular OMB 15-08. The auditor’s report on the general purpose financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor’s reports related specifically to the single audit are included in the single audit section of this report.

11. ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Deerfield Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Deerfield Township School District
County of Cumberland, New Jersey

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Deerfield Township School District in the County of Cumberland, in the State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

(Continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Deerfield Township Board of Education in the County of Cumberland, State of New Jersey, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, Schedules Related to Accounting and Reporting for Pension, and Notes to the Required Supplemental Information on pages 37 through 50 and 51 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Deerfield Township Board of Education's basic financial statements. The accompanying schedule of expenditures of federal awards as required by Title 2 U.S Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, (Uniform Guidance)*, and schedule of expenditures of state awards as required by New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid* are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying introductory information, statistical sections, combining and individual non-major fund financial statements are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining and individual non-major fund financial statements, schedule of expenditures of federal awards, and schedule of expenditure of state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining and individual non-major fund financial statements, schedule of expenditures of federal awards, and schedule expenditures of state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT
(Continued)

The introductory informational and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2016 on our consideration of the Deerfield Township Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Deerfield Township Board of Education's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Deerfield Township Board of Education's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2016. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district.

- The first two statements are *district-wide financial statements* that provide both *short-term and long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in more detail than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short* and *long-term* financial information about the activities of the district operates *like businesses*.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the type of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how it has changed. Net position - the difference between the District's assets and deferred outflows and liabilities and deferred inflows - is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school building and other facilities.

In the district-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities* - Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities* - The District charges fees to help it cover the cost for certain services it provides. The District's food services program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State Law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like completing approved capital projects) or to show that it is properly using certain revenues (like federal grants).

The District has four kinds of funds:

- *Governmental Fund* - Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information with the governmental funds statements that explains the relationship (or differences between them).
- *Proprietary funds* - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. In fact, the District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flow.
- *Internal service funds* (the other kind of proprietary fund) are utilized to report activities that provide supplies and services for the District's other programs and activities and for other Districts (student transportation).
- *Fiduciary funds* - The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (in thousands)

Net assets.

The District's *combined* net assets are \$2,192 on June 30, 2016 (see Table A-1). Approximately 3% of the total net assets are from business-type activities. The balance of the total net assets, 97%, are attributed to governmental activities.

Changes in net assets in thousands of dollars.

The District's total revenues are \$6,980 for the fiscal period ending June 30, 2016 (see Table A-2). Property taxes and state formula aid accounted for 74% of the District's revenue. 19% is derived from state and federal aid for specific programs, and the remainder, 7% from fees charged for services and miscellaneous resources.

The District's expenses are predominantly related to educating and caring for students 47%. The purely administrative activities of the District accounted for 7% of total costs. Salary increases due to contractual agreements for teachers and other educational staff are included in the instruction-related costs.

Governmental Activities

Revenues for the District's governmental activities amounted to \$6,782. Total expenses amounted to \$6,860. The decrease in net assets in governmental activities was (\$78) for 2016.

Business-type Activities

The District's business-type activities amounted to \$198 and expenses were \$176. Factors contributing to these results included:

- Food Services: Contracted Service

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (in thousands)

The strong financial performance of the District as a whole is primarily reflected in its governmental funds. As the district completed the year, its governmental funds reported *combined* balances of \$577. Actual miscellaneous revenues exceeded the budgeted amounts in 2016. The District controlled expenditures.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments were of the following category:

- Transfers between budgetary line accounts to prevent overruns.

The District's final budget anticipated utilizing \$121 in fund balance and \$1 of prior year encumbrances to fund the appropriation plan for this fiscal period. Actual operations resulted in an increase of general fund balance of \$0.

Actual expenditures for capital outlay amounted to \$33 in the Operating Fund and \$0 in the Special Revenue Fund. This amount included the repayment of \$33 of existing capital lease principal payments.

CAPITAL ASSET AND DEBT ADMINISTRATION (in thousands)

Capital Assets

By the end of 2015, the District had invested \$7,552 in a broad range of capital assets, including school buildings, athletic facilities, computer and audiovisual equipment, and administrative offices. (see Table A-3) (more detailed information about capital assets can be found in Note 5 to the financial statements.) Total depreciation expense for the year was \$189 while building improvements and additions to equipment and furniture amounted to \$0.

Long-term Debt

At year end, the District had outstanding bonds in the amount of \$1,090 and capital leases payable of \$108. (More detailed information about long-term debt can be found in Note 7 to the financial statements.)

The state limits the amount of general obligation debt the District can issue to 3 percent of the equalized valuation of all taxable property held within the District. The current limit is \$5,910 of which \$4,820 is available for the issuance of debt.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The district has experienced an increase in the amount of students receiving free and reduced lunches. The change in population demographics may impact the academic needs of the students. With the "flatness" of state aid and a difficulty in the ability to raise additional funds, provisions for maintaining adequate programs for the students have become more challenging to fund. Additional staff and materials to assist students will need to be purchased cautiously.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2016

Total net changes in fund balances - governmental funds (from B-2)	\$	(869.)
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.		
	Depreciation expense \$	(189,433.)
	Capital outlays	<u>0.</u>
		(189,433.)
Adjustment to fixed assets		
Net increase/(decrease) in internal service fund		(5,367.)
Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets.

NOTES TO FINANCIAL STATEMENTS

**DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Deerfield Township School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A chief school administrator is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education (Board) of the Deerfield Township School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in GAAP and used by the District are discussed below.

A. Reporting Entity

The Deerfield Township School District is a Type II district located in the County of Cumberland, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The board is comprised of nine (7) members elected to three (3) year terms. The purpose of the district is to educate students in grades K-8. The Deerfield Township School District had an enrollment at June 30, 2016 of 327 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District had no component units.

B. Basic Financial Statements – Governmental Wide Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's general, special revenue, and debt service activities are classified as governmental activities. The District's food service program is classified as business-type activities.

In the governmental-wide Statement of Net Position, both the governmental and business-type activities column (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position are reported in three parts-invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities. The functions are also supported by general government revenues (property taxes, tuition, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (regular instruction, vocational programs, student & instruction related services, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, federal and state aid, interest income, etc.).

NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

B. Basic Financial Statements – Governmental Wide Financial Statements – (Continued)

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Fiduciary funds are not included in the government-wide statements.

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by a category are summarized into a single column. GASBS No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category of the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. The State of New Jersey Department of Education has mandated that all New Jersey School Districts must report all governmental funds as major, regardless of the fund meeting the GASB definition of a major fund. However, the criteria are applied to proprietary funds.

The following fund types are used by the District:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

- a. **General Fund:** The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

- b. **Special Revenue Fund:** The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.
- c. **Capital Projects Fund:** The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

C. Basic Financial Statements – Fund Financial Statements – (Continued)

- d. Debt Service Fund: The debt service fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

The details of the fund balances are included in the Governmental Funds Balance Sheet. When an expenditure is incurred for purposes for which both restricted or unrestricted fund balance is available, the District considers restricted funds to be spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balance are available, the District considers amounts to have been spent first out of committed, then assigned funds and finally unassigned funds as needed.

2. Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users of goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designated to recover similar costs. The District operates a food service fund to provide a child nutrition program for the students of the district.
- b. Internal Service Fund are used to charge costs for certain activities to individual funds or other governmental entities. The District's internal service fund comprised of the Child Study Team.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

C. Basic Financial Statements – Fund Financial Statements – (Continued)

3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position, and is reported using accounting principles similar to proprietary funds.

The District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.), and cannot be used to address activities or obligations of the government, these funds are not incorporated into the entity-wide statements.

All fund internal activity is eliminated when carried to the Government-wide statements.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

1. Accrual:

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

E. Financial Statement Amounts

1. Cash and Cash Equivalents:

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public funds in public depositories protected from loss under the provisions of the Government Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

**DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

E. Financial Statement Amounts – (Continued)

NJSA 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental units.

2. Investments:

Investments, including deferred compensation and pension funds, are stated at fair value, (quoted market price or the best available estimate). Interest earned on investments in the Capital Projects Fund is transferred to the general or debt service fund.

3. Inventories:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

4. Capital Assets:

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extended the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	20-50 years
Machinery and equipment	5-10 years
Improvements	10-20 years
Infrastructure Assets	50-65 years

Infrastructure assets include roads, parking lots, underground pipe, etc. The District includes all infrastructure assets as depreciable assets in the financial statements.

5. Revenues:

Substantially all governmental fund revenues are accrued. Property taxes are susceptible to accrual and under New Jersey State Statutes a municipality is required to remit to its school district the entire balance of taxes in the amount certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. Subsidies and grants to proprietary funds, which finance either capital or current operations are reported as non operating revenue. In respect to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and unearned revenue by the recipient. Program revenues are reported as reductions to expenses in the statement of activities.

**DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

E. Financial Statement Amounts – (Continued)

6. Expenditures:

Expenses are recognized when the related fund liability is incurred. Inventory costs other than those reported in the enterprise fund are reported in the period when inventory items are purchased, rather than in the period used.

7. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as both an expenditure and a fund liability in the fund that will pay for the compensated absences. The remainder of the compensated absences liability is reported in the District-wide Financial Statements as a Governmental Activity.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

8. Interfund Activity:

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefitting fund and reduces its related costs as reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

9. Budgets/Budgetary Control:

Annual appropriation budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and, as long as the District budget is within State mandated CAPs, there is no public vote on the budget. If the budget exceeds State mandated CAPs, the voters have an opportunity to approve or reject the budget at the regular election held in November. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23-2(g). Transfers of appropriations may be made by School Board resolution at any time during the fiscal year and are subject to two-thirds majority vote by the School Board and under certain circumstances require approval by the County Superintendent of Schools.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

**DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR FISCAL YEAR ENDED JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

E. Financial Statement Amounts – (Continued)

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

10. Tuition Receivables:

Tuition charges were established by the Boards of Education based on estimated costs. The nonresident tuition charge for fiscal years 2015/16 was \$48,583.

11. Tuition Payable:

Tuition charges for the fiscal years 2015/16 were based on rates established by the receiving district. These rates are subjected to change when the actual costs have been determined.

12. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those results.

13. Allocation of Costs:

In the government-wide statement of activities, the District has not allocated unallocated benefits to various programs.

14. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and Public Employee Retirement System (PERS) and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the TPAF and PERS. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

F. Recent Accounting Pronouncements Not Yet Effective

In February 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 72, "Fair Value Measurement and Application". This statement is effective for fiscal periods beginning after June 15, 2015 will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 73, "Accounting and Financial Reporting for Pension and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statement 67 and 68". This statement is effective for fiscal periods beginning after June 30, 2016, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". This statement is effective for fiscal periods beginning after June 30, 2016 establishes new accounting and financial reporting requirements for OPEB plans. It is anticipated that this statement will not have any effect on the District's financial reporting.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

F. Recent Accounting Pronouncements Not Yet Effective - (Continued)

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75, “Accounting and Financial Reporting for Postemployment Benefits Plans Other Than Pensions”. This statement is effective for fiscal periods beginning after June 30, 2017. Although not determinable, the impact of this statement on the net position of the entity is anticipated to be significant.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 76, “The Hierarchy of General Accepted Accounting Principles for State and Local Governments.” This statement is effective for fiscal periods beginning June 30, 2015, will not have any effect on the District’s financial reporting.

NOTE 2 - CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents includes petty cash, change funds, cash in banks and highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest.

Investments are stated at cost, or amortized cost, which approximates market. The Board classifies U.S. Treasury with Agency obligations and certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions in which they may invest. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts as follows:

- a.) Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b.) Bonds or any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c.) Bonds or other obligations of the school district.

School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. As of June 30, 2016, the District had no funds on deposit with the New Jersey Cash Management.

Deposits:

N.J.S.A. 17:9-41, et seq, establish requirements for the security of deposits of governmental units. The statutes require that school districts deposit public funds in public depositories secured in accordance with the Governmental Unit Deposit Protection Act, which is a multiple financial institution collateral pool enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories.

Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured.

All public depositories must pledge collateral, having a market value at least equal to 5% of the average daily balance of collected public funds on deposit, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to Governmental Units.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New Jersey, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

NOTE 2 - CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Deposits: (Cont'd)

The school district has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the Governmental Unit Deposit Protection Act and approves a list of authorized depository institutions based on an evaluation of solicited responses and presentation of GUDPA certifications provided by the financial institutions.

As of June 30, 2016, cash and cash equivalents in the fund financial statements of the District consisted of the following:

	Cash and Cash Equivalents
Checking account	\$ 515,296.
TOTAL	\$ 515,296.

Custodial Credit Risk:

Custodial credit presents a risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's formal policy regarding custodial credit risk is in compliance with N.J.S.A. 17:9-41 et seq. that the School District deposit all public funds in public depositories protected from loss under the provisions of GUDPA Act as previously described.

The District does not place a limit on the amount that may be invested in any one issuer. As of June 30, 2016, the District's bank balance of \$790,684 was insured or collateralized as follows:

Insured by Depository Insurance	\$ 250,066.
Collateralized under GUDPA	540,618.
TOTAL	\$ 790,684.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligations. The District does not have a policy that restricts investment choices beyond Title 18A:20-37.

NOTE 3 - CAPITAL RESERVE ACCOUNT

A capital reserve account was established by New Jersey school districts for the accumulation of funds for capital outlay expenditures in subsequent fiscal years. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget. Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Post-April, 2005 transfers must be in compliance with P.L.2005, C73 (S1701). Pursuant to N.J.A.C. 6A:23A-14.1(g) the balance in the account cannot at any time exceed the local support cost of uncompleted capital projects of \$778,082 as shown in the approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

Beginning Balance, July 1, 2015	\$ 108,961.
Interest earnings	0.

NOTE 4 - MAINTENANCE RESERVE

The Maintenance reserve account is used to accumulate funds for the required maintenance of a facility in accordance with the EFCFA (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701). Districts may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes (N.J.A.C. 6A:23-2.14) or by transfer by board resolution at year end of any anticipated revenue or unexpended line item appropriations, or both.

The activity of the maintenance reserve for the July 1, 2015 to June 30, 2016 year is as follows:

Beginning Balance July 1, 2015	\$ 171,263.
Deposits – Board Resolution	0.
Withdrawals – Approved 2015/2016 Budget	0.
Ending balance June 30, 2016	\$ 171,263.

The June 30, 2016 maximum maintenance reserve amount is \$354,274.

NOTE 8 – PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the reports can be accessed on the internet at <http://www.state.nj.us/treasury/pensions/annrptsarchive.htm>.

NOTE 8 – PENSION PLANS – (Continued)

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N. J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist. In addition to the employee contributions, the School District's contribution amounts for each pay period are required to be transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 6.92% and the PERS rate is 6.92% of covered payroll. The School District's contributions to TPAF for the years ending June 30, 2016, 2015 and 2014 are shown below and paid by the State of New Jersey on behalf of the board, equal to the required contributions for each year. The School District's contributions to PERS for the years ending June 30, 2016, 2015, and 2014 are shown below.

NOTE 8 – PENSION PLANS – (Continued)

Three-Year Trend Information for TPAF
(Paid on Behalf of the District)

Year	Pension	Post-Retirement Medical (PRM)	Total
<u>Funding</u>	<u>Contribution</u>	<u>Contribution</u>	<u>Contribution</u>
June 30, 2016	\$ 163,079.	\$ 194,182.	\$ 357,261.
June 30, 2015	114,221.	181,327.	295,548.
June 30, 2014	93,200.	152,814.	246,014.

During the fiscal years ended June 30, 2016, 2015 and 2014, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$171,679; \$169,428; and \$154,348; during the same fiscal years for the employer’s share of social security contributions for TPAF members as calculated on their base salaries. These amounts, which are not required to be budgeted, have been included in the financial statements, and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance in GASB 27.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees’ Retirement System (PERS) and the Police and Firemen’s Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78’s provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member’s final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee’s annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78’s effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems’ unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

NOTE 8 – PENSION PLANS – (Continued)

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor’s part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems. Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60th from 1/55th, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year’s salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a 1/7th of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State’s Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

NOTE 9 – PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

At June 30, 2016, the District reported a liability of \$854,517 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the District’s proportion was 0.0038066522%, which was a decrease of 13.91% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$38,561. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expended and actual experience	\$ 20,386.	
Changes of assumptions	91,768.	
Net difference between projected and actual earnings on pension plan investments		\$ 13,739.

NOTE 9 – PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS) – (Continued)

\$74,483 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (June 30, 2015) will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,		
2017	\$	16,193.
2018		16,193.
2019		16,193.
2020		25,801.
2021		14,590.
Total	\$	<u>88,970.</u>

Actuarial Assumptions

The collective total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions:

Inflation rate	3.04 %
Salary increases:	
2012-2021	2.15 – 4.40% based on age
Thereafter	3.15 – 5.40% based on age
Investment rate of return	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major assets class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of actuarially contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefits payments through 2033, and the municipal bond rate was applied to projected benefits payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 4.90%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (3.90%) or 1-percentage point higher (5.90%) than the current rate:

	1% Decrease (3.90%)	Current Discount Rate (4.90%)	1% Increase (5.90%)

NOTE 10 – TEACHERS’ PENSION AND ANNUITY FUND (TPAF)

At June 30, 2016, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$	0.
State's proportionate share of the net position liability associated with the District	\$	<u>13,353,249.</u>
Total	\$	<u>13,353,249.</u>

The net pension liability was measured as of June 30, 2015 and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2015, the District’s proportion was 0.00%, which was no change from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$815,336 and revenue of \$815,336 for support provided by the State.

Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State’s portion of the net pension liability associated with the district. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

	<u>06/30/2015</u>	<u>06/30/2014</u>
Collective deferred outflows of resources	\$ 7,522,890,856.	\$ 2,306,623,861.
Collective deferred inflows of resources	623,365,110.	1,763,205,593.
Collective net pension liability (nonemployer-State of New Jersey)	63,204,270,305.	53,446,745,367.
State’s portion of the net pension liability that was associated with the district	13,353,249.	9,834,266.
State’s portion of the net pension liability that was associated with the district as a percentage of the collective net pension liability	0.0211271305%	0.019459%

Actuarial assumptions

The total pension liability in the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by target asset allocation percentage and by adding expected inflation. Best estimate of arithmetic real rates of return for each major asset class included in TPAF’s target asset allocation as of June 30, 2015 are summarized in the following table:

Discount rate

The discount rate used to measure the total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of employers’ contribution. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the State as of June 30, 2015 calculated using the discount rate as disclosed above as well as what the State’s net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

At 1% Decrease (3.13%)	At current discount rate (4.13%)	At 1% Increase (5.13%)

NOTE 11 - POST RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers’ Pensions and Annuity Fund (TPAF) and the Public Employees’ Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees receiving post-retirement medical benefits, and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS, and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in Fiscal Year 2015.

GASB statement #45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The District does not provide post-employment benefits other than pension. Healthcare provided to eligible TPAF and PERS board of education retirees through the NJ State Health Benefits Program are paid by the State of New Jersey and as such, no district OPEB liability exists.

NOTE 12 - COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Government Accounting Standards Board Statement No. 16 (GASB 16), “Accounting for Compensated Absences”. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District’s personnel policy. Upon termination, employees are paid for accrued vacation. The District’s policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District’s agreements with the various employee unions.

The liability for vested compensated absences of the governmental activities is recorded as long-term debt in the district-wide statements. The current portion of the compensated absences balance is not considered material to the applicable funds total liabilities, and therefore, is not shown separately from the long-term liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2016, a liability existed for compensated absences in the Food Service Fund in the amount of \$0.

NOTE 13 - DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investments
Sircusa Benefits

NOTE 14 - RISK MANAGEMENT

The District is exposed to various types of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Contributory Method”.

The following interfund balances remained on the balance sheet at June 30, 2016.

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 2,287.	\$ 0.
Fiduciary Fund	331.	2,618.
	\$2,618.	\$2,618.

NOTE 16 - CONTINGENT LIABILITIES

The Board is involved in several claims and lawsuits incidental to its operation. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the District.

NOTE 17 - CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, c.73 (S1701), the designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30, if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years’ budget. The excess fund balance at June 30, 2016 is \$267,119.

NOTE 18 - DEFICIT FUND BALANCES

The District has a deficit fund balances of \$0 in the General Fund and \$(8,573) in the Special Revenue Fund as of June 30, 2016 as reported in the fund statements (modified accrual basis). *N.J.S.A.* 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more June state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payment(s) in the subsequent fiscal year, the school district cannot recognize the June state aid payment(s) on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payment(s), the General and Special Revenue Fund balance deficit does not alone indicate the district is facing financial difficulties.

Pursuant to *N.J.S.A.* 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the June payment(s) of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The District deficit in the GAAP funds statements of \$(8,573) is equal to (or) is less than the last state aid payments.

NOTE 19 - FUND BALANCE

NONSPENDABLE

As stated in Note 1, the nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. There are no nonspendable fund balances of the School district as of June 30, 2016.

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District’s fund balance are summarized as follows:

**DEERFIELD TOWNSHIP SCHOOL DISTRICT

NOTE 19 - FUND BALANCE – (Continued)

General Fund:

Excess Surplus: In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance – excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2016 is \$267,119; \$160,850 has been restricted and designated for utilization in the 2016-2017 budget.

Capital Reserve Account: As of June 30, 2016, the balance in the capital reserve account is \$108,961. These funds are restricted for the future approved capital projects of school facilities.

For Maintenance Reserve Account: As of June 30, 2016, the balance in the maintenance reserve account is \$171,263. These funds are restricted for the required maintenance of school facilities in accordance with Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c.73 (S1701).

COMMITTED

As stated in Note 1, the committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Other Purposes: As of June 30, 2016, the School District had \$1,014 of encumbrances outstanding for purchase orders and contracts signed by the School District but not completed as of the close of the fiscal year.

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

For Subsequent Year's Expenditures: The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2017; \$2,958 of general fund balance and \$2 of the debt service fund balance at June 30, 2016.

UNASSIGNED

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund:

As of June 30, 2016, the unassigned fund balance of the general fund was \$33,925.

Special Revenue Fund:

As of June 30, 2016, the unassigned fund balance in the special revenue fund was \$(8,573).

NOTE 20 - SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred from June 30, 2016 through November 18, 2016, the date that the financial statements were available to be issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

INFORMATION – Part III**

**DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
PENSION SCHEDULES
JUNE 30, 2016**

Note 1. Teachers' Pension and Annuity Fund (TPAF)

Changes of benefits terms. The vesting and benefits provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

Changes of assumptions. Mortality rates were based on the RP-2000 Health Annuitant Mortality for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active member are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvement for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

Note 2. Public Employees' Retirement System (PERS)

Changes of benefits terms. The vesting and benefits provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Changes of assumptions. Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

Note 3. Schedule of School District's Proportionate Share of the Net Pension Liability – PERS/TPAF and Schedule of Employer's Contribution for PERS/TPAF

The information presented in these required supplementary schedules was determined as part of the audit of the State of New Jersey Division of Pension and Benefits. Additional information for the pension schedules can be found in the notes to the financial statements.

PROPRIETARY FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the district’s board is that the costs of providing goods or services be financed through user charges.

Food Service Fund – This fund accounts for the operation of the food services program in the district.

Internal service funds are created to provide goods or services to other governmental operating units. The objective of an internal service fund is not to make a profit but to recover over a period of time the cost of providing goods or services.

Music and Speech Teachers Consortium – This fund provides professional services to other school districts within the Cumberland County area.

Child Study Team – This fund provides Child Study Team services to another school district in Cumberland County.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the pre-budget year net budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable
- b Rates for debt service are based on each year's requirements

Sources: Assessed value data used to estimate applicable percentages provided by County Board of Taxation.
 Debt outstanding data provided by each government unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Deerfield Twp. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

SINGLE AUDIT SECTION

K-1

REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Honorable President and
Members of the Board of Education
Deerfield Township School District
County of Cumberland, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Deerfield Township School District in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Deerfield Township Board of Education's basic financial statements, and have issued our report thereon dated November 18, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Deerfield Township Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Deerfield Township Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Deerfield Township Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Deerfield Township Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS, AND REPORT ON SCHEDULE OF EXPENDITURES OF STATE AWARDS, REQUIRED BY UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08

Independent Auditor's Report

Honorable President and
Members of the Board of Education
Deerfield Township School District
County of Cumberland, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Deerfield Township School District, in the County of Cumberland, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of Deerfield Township Board of Education's major state programs for the year ended June 30, 2016. Deerfield Township Board of Education's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Deerfield Township Board of Education's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance and New Jersey OMB's Circular 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Deerfield Township Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Deerfield Township Board of Education's compliance.

Opinion on Each Major State Program

In our opinion, the Board of Education of the Deerfield Township School District, in the County of Cumberland, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major state programs for the fiscal year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the Deerfield Township Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Deerfield Township Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with Uniform Guidance, and the New Jersey State Aid/Grant Compliance Supplement, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Deerfield Township Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and NJ OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance and Schedule of Expenditure of State Awards Required by the New Jersey OMB's Circular 15-08

We have audited the financial statements of Board of Education of Deerfield Township School District in the County of Cumberland, State of New Jersey as of and for the year ended June 30, 2016, and have issued our report thereon dated November 18, 2016, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as the whole. The accompanying schedule of expenditures of federal awards and schedule of expenditures of state awards, are presented for purposes of additional analysis as required by the Uniform Guidance and New Jersey OMB's Circular 15-08 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state awards are fairly stated in all material respects in relation to the financial statements as a whole.

DEERFIELD TOWNSHIP SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS
AND FINANCIAL ASSISTANCE
JUNE 30, 2016

NOTE 1 - GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Deerfield Township School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 - BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200 - *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of, the basic financial statements.

NOTE 3 - RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97 (A3521). For GAAP purposes, the payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(4,992) for the general fund and \$(1,500) for the special revenue fund. See the following schedule and Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

There are no differences in the reporting of the food service funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 0.	\$ 3,030,958.	\$ 3,030,958.
Special Revenue Fund	250,449.	85,013.	335,462.
Food Service Fund	130,222.	2,097.	132,319.
Total Financial Assis.	<u>\$ 380,671.</u>	<u>\$ 3,118,068.</u>	<u>\$ 3,498,739.</u>
