Honorable President and Members of the Board of Education Fairfield Township School District Cumberland County, New Jersey

Dear Board Members:

The Comprehensive Annual Financial Report of the Fairfield Township Public School District for the fiscal year ended June 30, 2016, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general-purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), "Audits of States, Local Governments, and Non-Profit Organizations" and the State Treasury Circular Letter 15-08 OMB,, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

#### 1. <u>REPORTING ENTITY AND ITS SERVICES:</u>

The Fairfield Township Public School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Board (GASB) as established by Statement No. 14. All funds and account groups of the District are included in this report. The Fairfield Township Board of Education and its two schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 8. These include regular, as well as special education for handicapped youngsters.

The District completed the 2015-2016 fiscal year with a June enrollment of 662 students, which is an increase of 36 students from the previous year's enrollment of 626. The following details the changes in the student enrollment of the District over the last ten years.

Fiscal <u>Year</u>	Student <u>Enrollment</u>	Percent <u>Change</u>
2015-16	662.0	5.75%
2014-15	626.0	.96%
2013-14	620.0	3.00%
2012-13	602.0	(1.79)%
2011-12	613.0	(.32)%
2010-11	616.0	5.21%
2009-10	585.5	(6.42)%
2008-09	625.7	3.27%
2007-08	605.9	4.21%
2006-07	581.4	9.55%

#### 2. ECONOMIC CONDITION AND OUTLOOK:

Fairfield Township continues to be a rural community whose main business remains agriculture. The economic condition of the community is hindered by a poor ratable base and the reality that only 54% of the community property is taxable. The remaining 46% is either wetlands or property under restriction by Federal and State authority.

Single family housing permits grew significantly in 2006 for the first time in many years, but real growth remains quite limited and the reality of any increased tax base is offset by additional State and non-profit purchases. As a result, the community shares in the County problems of high unemployment and a high welfare presence. The fact that there are two large prisons in the area makes the hope of further growth speculative.

#### 3. MAJOR INITIATIVES:

Preschool: Our preschool program continues to grow due to the positive relationships and rapport built with families and the community. Research has proven that Early Childhood programs have the potential to positively impact our children. The NJ state approved Creative Curriculum offers students a program that offers enrichment and hands on inquiry based experiences in Language Arts, Mathematics, Science, Social Studies, Social emotional skills, and developmentally pertinent physical activities to promote health and wellness. According to feedback from the NJ state liaison and NEER, FTS continues to meet and exceed expectations.

Math: Fairfield Twp School strives to meet and exceed state and district achievement expectations. The district works closely with constituent districts and Cumberland Regional high school to ensure that the math curriculum is aligned to NJ standards and can meet the rigor of PARCC expectations. Throughout the school year, students participate in end of cycle benchmarks to track their progress and monitor student progress. Teachers meet bi-monthly to review data and plan various interventions and strategies to assist gifted and/or struggling learners. We have implemented various professional workshops to FTS staff to ensure that staff can provide and implement best teaching strategies in their instructional practices. Students in 8th grade that qualify are able to participate in an Algebra I course before attending high school in preparation for AP or Algebra at the high school level. The district also offers a summer enrichment and intervention program to prepare students for the academic rigor via the upcoming school year at FTS, high school, or technical school.

We have implemented various professional workshops to FTS staff to ensure that staff can provide and implement best teaching strategies in their instructional practices. The district also offers a summer enrichment and intervention program to prepare students for the academic rigor via the upcoming school year at FTS, high school, or technical school.

Child Study Team and Special Education: In 2016-2017, the district formed a shared services contract with Hopewell Crest for their Child Study Team Director. Throughout the summer, the Hopewell CST director collaborated with the Fairfield team to recruit, interview, and select the 2016-2017 CST staff as well as develop two SE classroom programs. The district has hired a full-time school psychologist, contracted with a social worker (3-4 days a week), and learning disabled teacher consultant(s) (8-10 hours a week). Over the course of the next month the CST will continue to review polices, IEPs, and prepare PD presentations that will orientate the district staff to in-house CST and SE programs.

Facilities: Fairfield Township School facilities accommodate students in grades PK-8. In addition, the district re-opened the athletic field during the 2015-2016 school years. The field offers additional physical educational program activities such as tennis, basketball, track, soccer, and other sports related activities. In addition, the field is open to the community after school hours and this has strengthened the relationship with the community.

Information Technology: The vision of Fairfield Township School is to implement a technology model that articulates the use of technology in all aspects of the school district. This includes classrooms that are interactive, flexible and ready for collaboration, audiovisual equipment, teaching aides and high-speed networks to enhance learning and the classroom experience. Fairfield's vision includes' the use of mobile laptop carts in the classroom to enhance instruction. Fairfield Township will use educational software, web-based resources and instructional technology research for curriculum integration. As part of the technology initiatives Fairfield Township have begun working towards these goals over the summer

## 4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

#### 5. **BUDGETARY CONTROLS:**

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2016.

#### 6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

#### 7. DEBT ADMINISTRATION:

On December 8, 2009, the voters of the school district approved a referendum to construct an addition, as well as undertake various improvements, acquire equipment and make renovations to the elementary school. The total amount approved was \$3,984,772, of which \$1,984,772 was funded by a grant from the State of New Jersey and the remaining \$2,000,000 was funded through the issuance of bonds at various interest rates. Principal payments of bonds in the amount of \$85,000 were made during the 2014-15 fiscal year and \$85,000 in 2015-16, resulting in a balance in bonds payable as of June 30, 2016 of \$1,555,000.

On September 15, 2014 the District refunded \$3,150,000 in Bonds Payable from the March 15, 2004 Construction of the new Elementary/Middle School, resulting in a net savings of \$56,000. Principal payments in the amount of \$275,000 were made during the 2015-16, resulting in a balance in these bonds payable as of June 30, 2016 of \$2,570,000.

#### 8. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 3. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

#### 9. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

#### 10. OTHER INFORMATION:

**Independent Audit** - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nightlinger, Colavita and Volpa, Pa. was appointed by the Board. In addition to meeting the requirements set forth in State statutes, the audit also was designed to meet the requirements of the Title 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey Treasury Circular 15-08 OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditor's report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's report related specifically to the single audit are included in the single audit section of this report.

#### 11. ACKNOWLEDGMENTS:

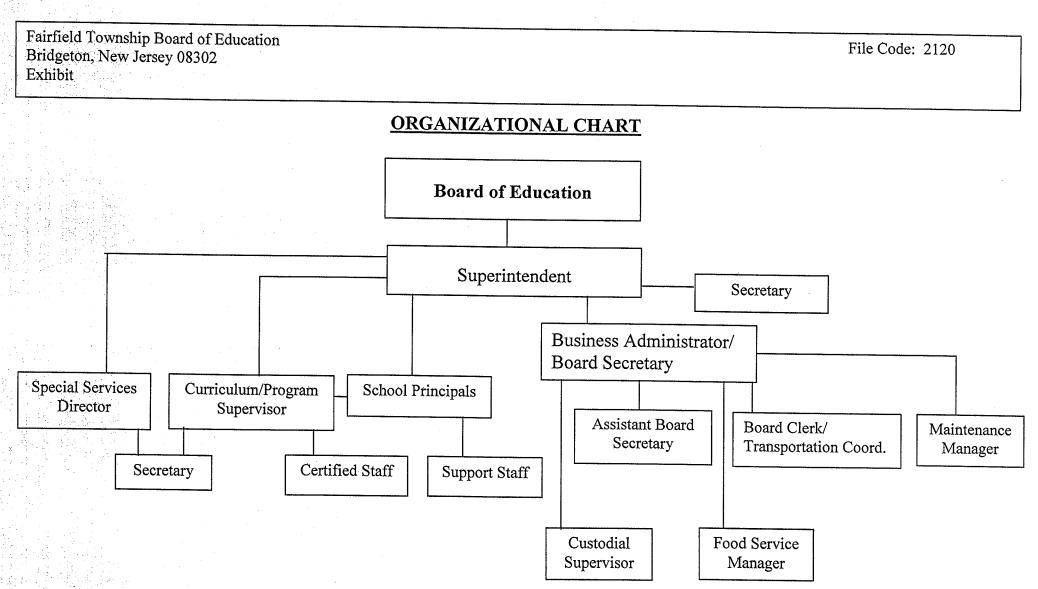

We would like to express our appreciation to the members of the Fairfield Township School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the public school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff. We received the complete cooperation from Nightlinger, Colavita & Volpa, P.A. and appreciate the courtesies extended to us.

#### **INDEPENDENT AUDITOR'S REPORT**

The Honorable President and Members of the Board of Education Fairfield Township School District County of Cumberland, New Jersey

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Fairfield Township School District in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Fairfield Township School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Fairfield Township Board of Education in the County of Cumberland, State of New Jersey, as of June 30, 2016, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, schedule of the School District's proportionate share of the net pension liability and schedule of the School District's contributions, identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fairfield Township Board of Education's basic financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual non-major fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated November 23, 2016 on our consideration of the Fairfield Township Board of Education's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governments Auditing Standards* in considering Fairfield Township Board of Education's internal control over financial reporting and compliance.

Respectfully submitted,

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### UNAUDITED

The discussion and analysis of Fairfield Township Public School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

#### **Financial Highlights**

Key financial highlights for 2016 are as follows:

- The assets of the School District exceeded its liabilities at the close of the fiscal year ended June 30, 2016 by \$6,946,056.
- Total net position of governmental activities totaled \$6,614,808.
- General revenues accounted for \$7,457,463 in revenue, or 61.6% of all revenues. Program specific revenues in the form of charges for services, operating grants, contributions and capital grants accounted for \$4,648,073 or 38.4% to total revenues of \$12,105,536.
- Total net position of governmental activities increased by \$317,686, made up of changes in cash and cash equivalents, cash deposited with the state as fiscal agent, various receivables and various liabilities.
- The School District had \$11,264,728 in governmental expenses, of which \$4,648,073 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily Federal and State aid) of \$6,009,367 were adequate to provide for governmental activity programs resulting in a positive change in net position of \$317,686.
- The General Fund had \$7,847,437 in revenues, offset by \$7,807,719 in expenditures and net transfers of \$477. As a result, the General Fund balance increased by \$40,195 over 2015. This increase was anticipated by the Board of Education.

#### Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Fairfield Township School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Fairfield Township School District, the General Fund is by far the most significant fund.

#### Reporting the School District as a Whole

#### Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The Statement of Net Position and the Statement of Activities helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the School District as a whole, the financial positions of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities All of the School District's programs and services are reported here including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-type Activities This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

#### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

The analysis of the School District's major (all) funds begins on page 23. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

#### **Governmental Funds**

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

#### **Enterprise Fund**

The enterprise fund uses the same basis of accounting as business-type activities; therefore these statements are essentially the same.

#### The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

#### **Governmental Activities**

The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the School District operations. The District's total governmental revenues were \$7,457,463 for the fiscal year ended June 30, 2016. Program specific revenues comprised 38.4% of revenues for governmental activities and property taxes made up 10.4% federal, state and local grants accounted for another 49.6% and 1.6% was for other revenue. The Statement of Activities shows the cost of program services and the program specific revenues offsetting those services.

Table 3 shows a comparison of the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Total Expenses	\$ 11,264,728 \$	7,139,777	\$ 9,793,849	\$ 7,267,198

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Curriculum and staff development includes expenses related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District.

Extracurricular activities includes expenses related to student activities provided by the School district which are designated to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Other includes unallocated depreciation and amortization.

#### **Business-Type Activities**

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

- ✤ Food service revenues exceeded expenses by \$76,483.
- Charges for services represent \$64,863 of revenue. This represents amount paid by patrons for daily food services.
- Federal and state reimbursements for meals, including payments for free and reduced lunches and donated commodities were \$458,289.

#### The School District's Funds

Information about the School District's major funds starts on page 23. These funds are accounted for using the modified accrual basis of accounting. All governmental funds (i.e., general fund, special revenue fund, capital projects and debt service fund presented in the fund-based statements) had total revenues of \$10,542,179 and expenditures of \$10,544,105. The net change in fund balance for the year was a decrease of \$1,926, which includes funding \$36,027 in debt service costs.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds (excluding capital projects) for the fiscal year ended June 30, 2016, and the amount and percentage of increases and decreases in relation to prior year revenues.

Revenue		Amount	Percent of Total	Increase (Decrease) from 2015	Percent Increase (Decrease)
Local Sources	\$	1,447,441	13.7% \$	141,759	11%
State Sources		8,512,291	80.7%	329,000	4%
Federal Sources	_	582,447	5.5%	(41,308)	-7%
Total	\$	10,542,179	100.0% \$	429,451	4%

The increase in Local Sources is attributed to increases in the tax levy of \$30,160, tuition of \$55,669 and other miscellaneous revenues of \$60,317 offset by a decrease of \$4,387 in interest earned.

The increase in State Sources is attributed to increases in Special Projects grants of \$232,863 and various State Public Aid categories of \$134,897, less \$38,760 in SDA Capital Project Grant revenue.

The decrease in Federal Sources is attributed various decreases in federal grant awards of \$41,308.

Expenditures	 Amount	Percent of Total	Increase (Decrease) 2015	Percent Increase (Decrease)
Current:				
Instruction	\$ 3,855,221	36.6% \$	(5,869)	-0.2%
Undistributed Expenditures	5,693,994	54.0%	194,215	3.5%
Capital Outlay	483,484	4.6%	192,626	66.2%
Debt Service:				
Principal	360,000	3.4%	(25,000)	-6.5%
Interest	151,406	1.4%	31,171	25.9%
Total	\$ 10,544,105	100% \$	387,143	3.8%

The following schedule presents a summary of General Fund, Special Revenue Fund and Debt Service Fund Expenditures for the fiscal year ended June 30, 2016

The decrease in current – instruction is attributed to decreases in regular instruction of \$27,725 and other special instruction of \$229, and other instruction of \$15,841 offset by increases in special instruction of \$37,926.

The increase in current – undistributed expenditures is attributed to increased tuition of \$79,906, student and instruction services of \$82,043, central services of \$14,705, security of \$2,282, employee benefits of \$130,952 and pupil transportation of \$2,349 offset by decreases in plant maintenance of \$39,975, and administrative expenses of \$78,047,

The increase in capital outlay is attributed to decreases in capital project spending of \$185,765 and equipment costs of \$6,861.

Debt Service decreased due to payment of scheduled interest and principal on existing bonds.

#### **General Fund Budgeting Highlights**

The School District's Budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of modified accrual and encumbrance accounting. The most significant budgeted fund is the General Fund.

During the course of the fiscal year 2016, the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management in the following areas:

- ✤ Staffing changes based on student needs.
- \* Additional costs for student transportation both in regular education and special education.
- Accounting changes in maintenance and operations.
- Changes in appropriations to prevent budget overruns.

While the District's final budget for the general fund anticipated that revenues and expenditures would equal with the appropriation of \$344,359 in fund balance, the actual results for the year show an increase in fund balance of \$63,551.

- Actual revenues were \$139,209 more than expected, which excludes TPAF pension and social security of \$865,391.
- The actual expenditures were \$268,224 less than expected, which excludes the on-behalf state aid payments for TPAF pension and social security of \$865,391.

#### **Capital Assets**

At the end of the fiscal year 2016, the School District had \$12,743,020 invested general in land, buildings, furniture and equipment, and vehicles and food service equipment. Table 4 shows fiscal 2016 balances compared to 2015.

· · · ·	2016	2015

Totals \$	12,743,020 \$	12,747,527

# Table 4Capital Assets (Net of Depreciation) at June 30

Overall capital assets decreased \$4,507 from fiscal year 2015 to fiscal year 2016. Acquisitions of capital assets were \$351,930 in general equipment, offset by depreciation expenses for the year of \$357,092, as calculated and a report prepared by an outside contractor. There was also a minor adjustment of \$655.

#### **Debt Administration**

At June 30, 2016, the School District had \$4,295,106 as outstanding debt. Of this amount \$170,106 is for compensated absences and \$4,125,000 for bonds for school construction.

On September 30, 2003, the voters of Fairfield Township approved the construction of a new school in the amount of \$16,158,947 of which \$10,677,079 (68.56%) was funded by the State of New Jersey, \$500,868 was funded by Capital Reserve of the School District and \$4,981,000 was funded by the issuance of Serial Bonds.

On December 8, 2009, the voters approved a referendum to construct an addition as well as undertake various improvements and renovations to the Fairfield Township Elementary School. Also included was the acquisition of the necessary equipment and any associated site work. The total cost of the project is \$3,984,772, of which \$1,984,772 will be funded by a grant from the State of New Jersey and \$2,000,000 was funded by the issuance of Serial Bonds on March 25, 2010. The initial interest payment of \$31,397.71 was paid on September 1, 2010 and the initial principal payment of \$70,000 was paid on March 1, 2011.

On September 15, 2015, the District refunded \$3,150,000 in Bonds payable from the March 15, 2004 Construction of the new Elementary/Middle School, resulting in a net savings of \$56,000.

At June 30, 2016, the School District's overall legal debt margin was \$8,891,833 and the unvoted debt margin was \$4,766,833 or 54%.

The purpose of serial bond debt of the district is as follows:

#### For the Future

Fairfield Township School District has planned and will be implementing a number of initiatives reflective of our continued development and implementation of best practice instructional strategies and instructional delivery to students during the 2015-2016 that will flow through to the 2016-2016 school year. While funding is always a concern to all school districts it has an especially significant impact to districts such as Fairfield. In our rural setting with limited ratables and a significant percentage of economically disadvantaged families our students face complicated situations that may impact negatively on their learning. It is our hope that the State will continue to fund programs at or above the level they currently have funded. We as a district will continue our efforts in being proactive to secure necessary funding. We also will be expanding our efforts and program parameters to reach out to parents/guardians and the community to promote increased family and community involvement. Further we are committed to assist our families as needed in completing forms that can provide them with the resources they need as part of our school district family.

For the future, our goal is to continue to create an environment that is conducive to student learning. We will continue to provide professional development to empower staff in implementing best practice based instruction and student assessment. We will continue to promote student success through targeted instruction. We will implement a professional staff evaluation instrument (Charlotte Danielson's, Framework for Teaching model) that is among those evaluation instruments sanctioned by the State of New Jersey. Increased proficiency in the areas of ELA and mathematics continues to be a paramount goal. Further, we continue to refine, revise and implement a student behavior system the increases positive behavior recognition. We will also continue our efforts in working to create an environment where parents/guardians feel comfortable in working with the administration and staff to promote student success.

Our summer school program for students provides instruction in mathematics and ELA core standards and also provides both a breakfast and lunch program to those attending. This program also includes a culminating field trip activity. Another planned initiative is an after school tutorial program with transportation provided. During the school year from early December to May we have developed an after school tutorial program with student transportation that once again targets instructional areas of math and language.

In working toward these goals, we continue to rely on local, state and federal funding. Funding is our most pressing need to enable us to reach these goals. Fairfield Township School District's "Mission" is to continue efforts in "Pursuing Educational Excellence. Our community and Board of Education remain committed to providing the best educational opportunities for all of our students.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Janecia Smith, School Business Administrator at Fairfield Township Board of Education, 375 Gouldtown Woodruff Road, Bridgeton, NJ 08302.

# **REQUIRED SUPPLEMENTARY INFORMATION – PART II**

# NOTE 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Fairfield Township School District is organized as a Type II District under the Constitution of the State of New Jersey. The District operates under a locally elected Board form of government consisting of nine members elected to three-year terms, which are staggered. The District provides educational services as authorized by state and federal guidelines.

The District serves an area of forty-two square miles. It is located in Cumberland County and provides education for all of Fairfield Township's grades K through 8. The District currently operates two instructional buildings with the administrative offices in the primary school building. The Fairfield Township School District had an approximate enrollment at June 30, 2016 of 662 students.

#### **Reporting Entity:**

As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the district is to educate students in grades K-8.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is whether:

- > the organization is legally separate (can sue or be sued in their own name)
- > the District holds the corporate powers of the organization
- > the District appoints a voting majority of the organization's board
- > the District is able to impose its will on the organization
- > the organization has the potential to impose a financial benefit/burden on the District
- > there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. New Accounting Standards:

The district adopted the following GASB statements:

GASB No. 80 - Blending Requirements for Certain Component Units - an Amendment of GASB No. 14: The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial Reporting Entity, as amended. This Statement is effective for fiscal years beginning after June 15, 2015. The adoption of GASB 80, did not impact the financial statements of the School District.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## A. New Accounting Standards (Continued):

- GASB No. 79 Certain External Investment Pools and Pool Participants: This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. The specific criteria address (1) how the external investment pool transacts with participants; (2) requirements for portfolio maturity, quality, diversification, and liquidity; and (3) calculation and requirements of a shadow price. This Statement is effective for fiscal years beginning after June 15, 2015. The adoption of GASB 79, will impact the financial statements of the School District.
- GASB Statement No. 78 Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans: The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. This Statement is effective for fiscal years beginning after December 15, 2015. The adoption of GASB 78, did not impact the financial statements of the School District.
- GASB No. 77, Tax Abatement Disclosures: This Statement requires governments that enter into tax abatement agreements to disclose certain information about the agreements. This Statement is effective for fiscal years beginning after December 15, 2015. The adoption of GASB 77, did not impact the financial statements of the School District
- GASB No. 76 The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments: The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement is effective for fiscal years beginning after June 15, 2015. The adoption of GASB 76, did not impact the financial statements of the School District.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. New Accounting Standards (Continued):

- GASB No. 73 Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68: The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement is effective for fiscal years beginning after June 15, 2015. The adoption of GASB 73, did not impact the financial statements of the School District.
- GASB No. 72 Fair Value Measurement and Application: This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. This Statement is effective for fiscal years beginning after June 15, 2015. The adoption of GASB 72, did not impact the financial statements of the School District.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB No. 82 Pensions an Amendment of GASB No. 67, No. 68 and No. 73: The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions for Pensions for Pensions for Pensions of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. Management is evaluating the potential impact of the adoption of GASB 82 on the School District's financial statements.
- GASB No. 81 Irrevocable Split-Interest Agreements: The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. Management is evaluating the potential impact of the adoption of GASB 81 on the School District's financial statements.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# A. New Accounting Standards (Continued):

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions: The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The requirements of this Statement will be effective for reporting periods beginning after June 15, 2017. Management is evaluating the potential impact of the adoption of GASB 75 on the School District's financial statements.
- GASB No. 74 Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans: The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The requirements of this Statement will be effective for reporting periods beginning after June 15, 2016. Management is evaluating the potential impact of the adoption of GASB 74 on the School District's financial statements.

## **B.** Basis of Presentation:

The District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

<u>District-wide Statements</u>: The statement of net position and the statements of activities display information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **B.** Basis of Presentation:

The statement of net position presents the financial condition of the governmental and business-type activities of the District at the fiscal year end while the statement of activities presents a comparison between direct expenses and program revenues for each different business-type activity of the District and for each function of the District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses-expenses of the District related to the administration and support of the District's programs, such as personnel and accounting-are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state formula aid, are presented as general revenues.

<u>Fund Financial Statements</u>: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – *governmental, proprietary,* and *fiduciary* – are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting.

#### **B.** Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### **B.** Fund Accounting (Cont'd):

#### **GOVERNMENTAL FUND**

<u>General Fund</u>: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

<u>Special Revenue Fund</u>: The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

**Debt Service Fund:** The debt service fund is used to account for the accumulation of resources for and the payment of, principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

#### **B. Fund Accounting: (Cont'd)**

#### **PROPRIETARY FUND TYPE**

The focus of Proprietary Fund measurement is on determination of net income, financial position and cash flows. The applicable generally accepted accounting principles are similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

**Enterprise (Food Service) Fund:** The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or non-current, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund Equipment 7-20 Years

#### FIDUCIARY FUND TYPES

<u>**Trust and Agency Funds</u>** - The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.</u>

**Expendable Trust Fund** - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Expendable Trust Funds include Unemployment Compensation Insurance and a scholarship fund.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### **B.** Fund Accounting: (Cont'd)

## FIDUCIARY FUND TYPES (Cont'd)

<u>Nonexpendable Trust Fund</u> - A nonexpendable trust fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal.

<u>Agency Funds (Payroll and Student Activities Fund)</u> - Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

#### C. Basis of Accounting and Measurement Focus:

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

*District-wide, Proprietary* and *Fiduciary Fund Financial Statements*: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the enterprise fund and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under the New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# C. Basis of Accounting and Measurement Focus: (Cont'd)

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989. The accrual basis of accounting is used for measuring financial results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recorded in the accounting period in which they are earned and expenses are recorded at the time liabilities are incurred.

## **D.** Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds, which are submitted to the county office. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012 and to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2 (f) 1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3. The Board of Education did not make any material supplemental budgetary appropriations during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1 and C-2, include all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the General fund Budgetary Comparison schedule and the Special Revenue Fund Budgetary Comparison Schedule to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### **D.** Budgets/Budgetary Control: (Cont'd)

Note that the School District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows the modified accrual basis, with the exception of the recognition policy for the last state aid payment.

#### **E. Encumbrance Accounting:**

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

#### F. Tuition Receivable:

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

#### **<u>G. Tuition Payable:</u>**

Tuition charges for the fiscal years 2013-14, 2014-15 and 2015-16 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

#### H. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# I. Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

#### J. Assets, Liabilities and Equity:

<u>Interfund receivables/payables</u> represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

#### **Inventories**

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method and is expended when used. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2016. Included below is Commodity Food Inventory of \$4,367.

Inventory in the Food Service Fund at June 30, 2016 consisted of the following:

Food	\$ 7,575
Supplies	1,747
	\$ <u>9,322</u>

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1986, as revised) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

<u>Capital Assets</u> - General fixed assets acquired or constructed during the year are recorded at actual cost. Donated fixed assets are valued at their estimated fair market value on the date received. The general fixed assets acquired or constructed prior to June 30, 2016 are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. General fixed assets are reflected as expenditures in the applicable governmental funds, and the related assets are reported in the Statement of Net Assets. Expenditures that enhance the asset or significantly extend the useful life of the asset are considered improvements and are added to the fixed asset's currently capitalized cost. The cost of normal repairs and maintenance are not capitalized.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

## J. Assets, Liabilities and Equity: (Cont'd)

Capital assets are depreciated in the district-wide financial statements using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Site Improvement	20
School Building	30-50
Building Improvements	20
Equipment	5-10

# K. Compensated Absences:

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies and negotiated contracts. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits are cumulative and payable upon retirement according to contract terms.

The liability for vested compensated absences of governmental fund types is recorded in the general long-term debt account group. The current portion of the compensated absences balance is not considered material to the applicable funds total liabilities, and is therefore not shown separately from the long-term liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund type is recorded within those funds as the benefits accrue to employees. As of June 30, 2016 no liability existed for compensated absences in the proprietary fund types.

#### L. Unearned Revenue:

Unearned revenue in the Special Revenue Fund represents cash, which has been received but not yet earned.

#### M. Operating Revenues and Expenses:

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

# N. Allocation of Indirect Expenses:

The District reports direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are not reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

# **O. Accrued Liabilities and Long-term Obligations:**

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the Statement of Net Assets.

# P. Fund Equity:

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

# **<u>Q. Comparative Data/Reclassifications:</u>**

Comparative total data for the prior year has been presented in order to provide an understanding of changes on the District's financial position and operations. However, comparative data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

#### **R. Management Estimates:**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of revenues and expenditures/expenses during the reporting period. Accordingly, actual results could differ from those estimates.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### S. Extraordinary and Special Items:

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the year.

#### T. Net Position:

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### **U. Fund Balance Reserves:**

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

# V. Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end. Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned.

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or for the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

# NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

## V. Revenues – Exchange and Non-exchange Transactions: (Cont'd)

On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

#### W. Lease Acquisition Costs:

As part of any long-term lease agreement, providing for the use of school buildings, payments constituting professional lease acquisition and other related professional fees will expensed when incurred in accordance with GASB Statement No. 65. There were no such leases for the year ended June 30, 2016.

# NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity for any discount or premium. The Board classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

#### Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

# NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONT'D)

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

#### Investments:

New Jersey statutes permit the Board to purchase the following types of securities:

- a.) Bonds or other obligations of or guaranteed by the United States.
- b.) Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives, which have a maturity date not greater than twelve months from the date of purchase.
- c.) Bonds or other obligations of the school district.
- d.) <u>New Jersey Cash Management Fund</u> New Jersey the School Districts are permitted to participate in the New Jersey Cash Management Fund. The Fund is governed by regulations of the State Investment Council, who prescribe standards designed to insure the quality of investments in order to minimize risk to the Funds participants. Deposits with the New Jersey Cash Management Fund are not subject o custodial credit risk as defined above. At June 30, 2016, the District had no funds on deposit with the New Jersey Cash Management Fund.

As of June 30, 2016, cash and cash equivalents and investments of the District consisted of the following:

	-	and Cash ivalents
Checking accounts Fiscal Agent account	\$	619,823 0
C C	\$	619,823

As of June 30, 2016, the District had no other investments.

<u>Custodial Credit Risk</u> – Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 t seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local government agencies. The program is administered by the Commissioner of the NJ Department of Banking and Insurance. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA.

# NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONT'D)

#### Custodial Credit Risk (Cont'd)

As of June 30, 2016, the School District's bank balance of \$2,342,917 was exposed to custodial credit risk as follows:

Insured	\$ 250,000
Uninsured and collateralized with	,
securities held by pledging financial institutions	<u>2,342,917</u>
Total	\$ <u>2,592,917</u>

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

<u>Credit Risk</u> - Credit risk is the risk that an issuer of an investment will not fulfill its obligations. The District does not have a policy that restricts investment choices beyond Title 18A:20-37.

## NOTE 4. OPERATING LEASES

The District has entered into operating leases for copying equipment. During the year beginning July 1, 2016, there was one existing lease on copiers for a term of five years. The future minimum lease payments are as follows:

2016-2017	\$ 23,988
2017-2018	23,988
2018-2019	23,988
2019-2020	23,988

#### A. Bonds Payable:

General obligation Bonds are authorized in accordance with State law by the voters of the municipality through referendums and retired in serial installments within the statutory period of usefulness.

On September 15, 2015, all of the outstanding callable principle, on the School Bonds originally issued on January 15, 2004, was refunded in the amount of \$3,206,000. The refunding bonds were issued in the amount of \$3,150,000, with the difference being funded by a portion of the related bond sale premium.

As of June 30, 2016, there exists a balance of outstanding principal in the 2010 and refunded 2004 bond issues totaling \$4,125,000. Of this amount, there is a reduction of \$56,000, resulting from the refunding on September 15, 2015. Combined Principal and interest due on the two serial bond issues outstanding as of June 30, 2016 are as follows:

# NOTE 6. GENERAL LONG-TERM DEBT (CONT'D)

## **B.** Bonds Authorized But Not Issued:

As of June 30, 2016, the Board had no bonds authorized but not issued.

# C. Capital Leases Payable:

The District had no capital leases during the fiscal year ended June 30, 2016.

# NOTE 7. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Township of Fairfield Board of Education by the original 1994-95 annual capital outlay budget, which was certified for taxes, for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes, or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both.

A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A.19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

In the 2001-02 school-year, the District established a Capital Reserve Account by board resolution.

During the 2014-15 school-year, the District transferred \$337,314 into the Capital Reserve account and appropriated this amount in the 2015-16 school-year. All of this amount was spent, with the exception of \$30,346, which was returned to Capital Reserve, as of June 30, 2016.

The LRFP balance of local support costs of uncompleted capital projects at June 30, 2016 is \$844,237.

# NOTE 8. MAINTENANCE RESERVE

A Maintenance Reserve account was established by the Township of Fairfield Board of Education by resolution in the 2008-09 school-year. At June 30, 2015 there was a balance of \$27,500 in Maintenance Reserve, of which \$17,500 was appropriated as revenue in the 2015-16 budget, resulting in a balance of \$10,000 as of June 30, 2016.

#### NOTE 9. PENSION PLANS

**Description of Plans** - All required employees of the School District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

<u>Teachers' Pension and Annuity Fund (TPAF)</u> - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the School District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at a fair value.

For the year ended June 30, 2016, the District recognized pension expense of \$1,318,346 and revenue of \$1,318,346 for support provided by the State. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Public Employees' Retirement System</u> - The Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit plan which was established as of January 1, 1955. The PERS provides retirement, death, disability and medical benefits to certain qualified members. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employees' Retirement System were required to contribute 5.5% of their annual covered salary. Effective July 1, 2011, however, in accordance with Chapter 78, P.L. 2011, plan members are required to contribute 5.5% of their annual covered salary. For employees enrolled in the retirement system prior to July 1, 2007, the increase is effective with the payroll period that begins immediately after July 1, 2007. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

# NOTE 9. PENSION PLANS (CONT'D)

<u>Public Employees' Retirement System (Cont'd)</u> - The School District is billed annually for its normal contribution plus any accrued liability. The School's contributions, which equal the required contribution for each fiscal year, were as follows:

Public Employees Retirement System										
Fiscal Year	C	Normal ontribution		Accrued Liability		Total Liability		Funded b State	У	Paid by District
2016	\$	13,319	\$	61,354	\$	74,673	\$	N/A	\$	74,673

# Vesting and Benefit Provisions

<u>Teachers' Pension and Annuity Fund</u> - The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

**Public Employees' Retirement System** - The vesting and benefit provisions are set by N.J.S.A.43:15A and 43:3B. The PERS provides retirement, death and disability benefits. All benefits vest after 8 to 10 years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the PERS.

The following represents the membership tiers for TPAF and PERS:

# **<u>Tier Definition</u>**

- 1 Members enrolled before July 1, 2007
- 2 Members eligible for enrollment on or after July 1, 2007 and before November 2, 2008
- 3 Members eligible for enrollment on or after November 2, 2008 and on or before May 21, 2010
- 4 Members eligible for enrollment after May 21, 2010 and before June 28, 2011
- 5 Members eligible for enrollment on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers I and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

# NOTE 9. PENSION PLANS (CONT'D)

#### **Contributions**

Teachers' Pension and Annuity Fund - The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.06% in State fiscal year 2016. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2015, the State's pension contribution was less that the actuarial determined amount. Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, Accounting and Financial Reporting for Pensions. The School District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2016 because of the 100.00% special funding situation with the State of New Jersey.

#### Trend Information for TPAF (Paid on-behalf of the School District)

Year <u>Funding</u>	Annual Pension <u>Cost (APC)</u>	Percentage of APC <u>Contributed</u>		Net Pension <u>Obligation</u>
6/30/16	\$ 610,700	100	%	\$ N/A
6/30/15	477,880	100		N/A
6/30/14	406,026	100		N/A

During the fiscal year ended June 30, 2016, the State of New Jersey contributed \$278,766 to the TPAF for pension contributions and \$331,934 for normal and post-retirement benefits on behalf of the School. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the School District \$254,691 during the year ended June 30, 2016 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

**Public Employees' Retirement System** - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.06% in State fiscal year 2016. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State Treasurer has the right under the current law to make temporary reductions in rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist. The School District's contribution amounts are based on an actuarially determined rate which included the normal cost and unfunded accrued liability.

# NOTE 9. PENSION PLANS (CONT'D)

# **Contributions (Continued)**

<u>Public Employees' Retirement System (Continued)</u> - Contributions to the pension plan from the School District were \$78,671 for the fiscal year ended June 30, 2016. Employee contributions were \$38,080 for the fiscal year ended June 30, 2016.

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows</u> of Resources Related to Pensions

<u>Teachers' Pension and Annuity Fund</u> - At June 30, 2016, the School District was not required to report a liability for its proportionate share of the net pension liability because of a 100% reduction for State of New Jersey pension support provided to the School District.

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2016. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State of New Jersey, actuarially determined.

**Public Employees' Retirement System** - At June 30, 2016, the School District reported a liability of 2,054,136 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2016. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2016, the School District's proportion was .0091506444%, which represents a .0002 decrease from the prior year.

For the fiscal year ended June 30, 2016, the School District recognized \$115,516 in the government-wide financial statements, for pension expense for PERS.

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows</u> of Resources Related to Pensions (Continued)

<u>Public Employees' Retirement System (Continued)</u> - At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

		Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	49,004	\$ 
Changes of assumptions		220,598	
Net difference between projected and actual earnings

contributions and proportionate share of contributions			87,723
District contributions subsequent to the measurement date	_	80,910	 
Total	\$	350,512	\$ 120,750

\$80,910 reported as deferred outflows of resources related to pensions will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	-	PERS
2017	\$	27,824
2018		27,824
2019		27,824
2020		27,824

# NOTE 9. PENSION PLANS (CONT'D)

**<u>Public Employees' Retirement System (Continued)</u>** - Collective Balances at June 30, 2015 and 2016 are as follows:

	 Actuarial Valuation Date						
	6/30/2015		6/30/2014				
Collective deferred outflows of resources	\$ 5,086,138,484	\$	1,032,618,058				
Collective deferred inflows of resources	\$ 478,031,236	\$	1,726,631,532				
Collective net pension liability	\$ 22,447,996,119	\$	18,722,735,003				
District's Proportion	0.0091506444%		0.0093970591%				

### **Actuarial Assumptions**

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	PERS	TPAF
Measurement Date	June 30, 2015	June 30, 2015
Actuarial Valuation Date	July 1, 2014	July 1, 2014
Interest Rate	7.90%	7.90%
Salary Scale (Based on Age):		
2012-2021	2.15% - 4.40%	Varies based
Thereafter	3.15% - 5.40%	on Experience
Inflation	3.04%	2.50%

For TPAF, mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements were based on Scale AA. Preretirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Postretirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

For PERS, mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

# NOTE 9. PENSION PLANS (CONT'D)

### **Actuarial Assumptions (Continued)**

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pension and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of returns for each major asset class included in TPAF's and PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

		PERS	TPAF						
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return					
Cash	5.00%	1.04%	5.00%	0.53%					
U.S. Treasuries	1.75%	1.64%	1.75%	1.39%					
Investment Grade Credit	10.00%	1.79%	13.50%	2.72%					
Mortgages	2.10%	1.62%	2.10%	2.54%					
High Yield Bonds	2.00%	4.03%	2.00%	4.57%					
Inflation-Indexed Bonds	1.50%	3.25%	1.50%	1.47%					
Broad US Equities	27.25%	8.52%	27.25%	5.63%					
<b>Developed Foreign Equities</b>	12.00%	6.88%	12.00%	6.22%					
Emerging Market Equities	6.40%	10.00%	6.40%	8.46%					
Private Equity	9.25%	12.41%	9.25%	9.15%					
Hedge Funds/Absolute Return	12.00%	4.72%	12.00%	14.57%					
Real Estate (Property)	2.00%	6.83%	4.25%	3.97%					
Commodities	1.00%	5.32%	1.00%	3.58%					
Timber	n/a	n/a	1.00%	4.61%					
Farmland	n/a	n/a	1.00%	4.61%					
Global Debt ex US	3.50%	-0.40%	n/a	n/a					
Real Estate (REITS)	4.25%	5.12%	n/a	n/a					
Total	100%		100%						

**Discount Rate** - The discount rate used to measure the total pension liability was 4.13% and 4.68% for TPAF as of June 30, 2015 and 2014, respectively, and 4.90% and 5.39% for PERS as of June 30, 2015 and 2014, respectively. For TPAF and PERS, these single blended discount rates were based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% and 4.29% as of June 30, 2015 and 2014, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/ Aa or higher. The projection of cash flows used to determine the discount rates for TPAF and PERS assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027 for TPAF and 2033 for PERS. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments after that date in determining the total pension liability.

# NOTE 9. PENSION PLANS (CONT'D)

# <u>Sensitivity of School District's Proportionate Share of Net Pension Liability to Changes in the</u> <u>Discount Rate</u>

<u>Teachers' Pension and Annuity Fund (TPAF)</u> - As indicated above, TPAF has a special funding situation where the State pays 100% of the School District's annual required contribution.

<u>Public Employees' Retirement System (PERS)</u> - The following presents the School District's proportionate share of the net pension liability at June 30, 2016 calculated using a discount rate of 4.90% for PERS, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	1%	Current	1%
	Decrease (3.9%)	Discount (4.9%)	Increase (5.9%)
District's proportionate share of the net pension liability	\$ 2,553,040	\$ 2,054,136	\$ 1,635,859

### Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued New Jersey Division of Pension and Benefits financial report. Information on where to obtain the report is indicated at the beginning of this note.

### NOTE 10. POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees.

As of June 30, 2015, there were 107,314 retirees receiving post-retirement medical benefits and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994 c 62. Funding of post retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in Fiscal Year 2015.

### NOTE 11. DEFERRED COMPENSATION

The Board offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are GWN Securities, Inc., Equitable, Lincoln Investment Planning and Prudential.

### NOTE 12. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2016.

Fund	Interfund <u>Receivable</u>	Interfund <u>Payable</u>
General Fund	\$203,533	\$208,987
Special Revenue Fund		105,043
Capital Project Fund	94,557	172,356
Debt Service Fund	172,356	65,883
Payroll Fund		32,343
Enterprise Fund	114,166	

### NOTE 13. RISK MANAGEMENT

The District participates in the Gloucester, Cumberland, and Salem School Districts Joint Insurance Fund (GCSSDJIF). The Fund pools together member District resources, and, through consultation with insurance professionals, purchases coverages, which include worker's compensation, property, general, automobile and school board legal liability, and boiler and machinery insurances.

As a member of the Fund, the Board is obligated for the prompt payment of any and all sums due to the Fund in accordance with its bylaws, statutes or regulations. However, the Board is not obligated for claims and expenses of another member District that are not covered by the Fund, or for that portion of any claim or liability which exceeds the Fund's limits of coverage.

A detailed schedule of the insurance coverages provided by the Fund is included in the statistical section of the District's Comprehensive Annual Financial Report.

### NOTE 14. LAND PURCHASE

On August 28, 1996 the Board completed the purchase of a 62-acre tract of land on Buckshutem Road. The Board's intention was to utilize the land as future school building site. The purchase price of the land was \$156,750, which was appropriated by the Board from fund balance and encumbered in the general fund during the 1995-96 fiscal year.

# NOTE 14. LAND PURCHASE (CONT'D)

With the choice of the Board-owned property on Gouldtown-Woodruff Road to build the new school also having adequate land for possible future expansion, the Buckshutem Road property became excess. On September 22, 2004, the DOE granted the Board request for approval to sell the Buckshutem Road property. When the pre-sale appraisal came in at only \$116,000, the Board elected to hold the property in anticipation of a future increase in value.

# **NOTE 15. LITIGATION**

According to the solicitor, the district is not involved in any lawsuits incidental to its operations, of which the total maximum exposure is considered material to the financial statements taken as a whole.

# NOTE 16. FUND BALANCE

### **General Fund**

Of the \$118,770 General Fund balance at June 30, 2016, \$9,040 is assigned for encumbrances; \$334,638 is restricted as Excess Surplus, of which \$0 has been appropriated and included as anticipated revenue for the year ended June 30, 2017; \$10,000 is restricted for Maintenance Reserve, of which \$0 has been appropriated and included as anticipated revenue for the year ended June 30, 2017; \$30,346 has been restricted for Capital Reserve, of which none has been assigned and appropriated as anticipated revenue for the year ended June 30, 2017; and (\$265,254) represents unassigned and an unrestricted deficit in fund balance. The above amounts exclude the 19th and 20th state aid payment received in July, 2016 in the amount of \$545,384.

### **Debt Service Fund**

Of the \$106,473 in Debt Service Fund balance at June 30, 2016, none has been assigned and appropriated and included as anticipated revenue for the year ended June 30, 2017.

# NOTE 17. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the NJ Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30, if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess surplus of \$334,638 is to be appropriated in the 2017-18 budget.

# NOTE 18. INVESTMENT IN CAPITAL ASSETS, NET OF RELATED DEBT

The balance in the investment of capital assets of \$8,571,365 on Exhibit A-1 reflects the allocation of the outstanding bonded debt as a liability, whereas the proceeds of the bonds will remain in the capital projects fund until such time as the project costs are expended. At that time, the costs are transferred into the heading of Capital Assets.

# **NOTE 19. DEFICIT FUND BALANCES**

The District had a deficit in Unrestricted fund balance of (\$265,254) in the General Fund and (\$146,244) in the Special Revenue Fund as of June 30, 2016 as reported in the fund statements (modified accrual basis). P.L. 2004, c.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budgeted purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year.

For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry i.e. if one government recognizes as asset, the other government recognizes a liability. Since the state is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the state records the payable. Due to the timing difference of recording the last state aid payment, the General and Special Revenue Fund balances do not alone indicate that the district is facing financial difficulties.

Pursuant to *N.J.S.A.* 18A:22-44.2, any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The District's general fund deficit is less than the last state aid payments of \$545,384 and the special revenue fund deficit of \$146,244 is equal to the last state aid payments.

End of Notes to the Financial Statements

# NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - PART III

### FAIRFIELD TOWNSHIP SCHOOL DISTRICT

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PART III Pension Schedules

For the Fiscal Year Ended June 30, 2016

# Teachers' Pension and Annuity Fund (TPAF)

*Changes of benefit terms.* The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

*Change of assumptions*. Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

### <u>Public Employees' Retirement System (PERS)</u>

*Changes of benefit terms.* The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

*Change of assumptions.* Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

# **OTHER SUPPLEMENTARY INFORMATION**

# SPECIAL REVENUE FUND DETAIL STATEMENTS

The Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

#### Note:

- NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the pre-budget year net budget by more than the spending growth limitation calculation.
- a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation Taxable.
- b) Rates for debt service are based on each year's requirements.

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Fairfield. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

#### FAIRFIELD TOWNSHIP SCHOOL DISTRICT INSURANCE SCHEDULE JUNE 30, 2016 (UNAUDITED)

The Board of Education of the Township of Fairfield is a member of the Gloucester, Cumberland, Salem School Districts Joint Insurance Fund (GCSSDJIF).

The GCSSDJIF is a Joint Insurance Fund as defined under the Provisions of NJSA 18A:18B 1-10. The Fund was formed by its member districts on July 1, 1998 to provide a long-term alternative to the conventional insurance market as a means of stabilizing the otherwise cyclical nature of insurance expenditures. It achieves this goal by pooling together member district resources, deciding on what insurance coverage/s it will offer and/or purchase and at what retention, and by hiring professionals to run the Fund.

The Fund's underwriting includes workers' compensation, property, general liability, automobile liability, crime, educator's legal liability, boiler and machinery, and pollution legal liability insurances.

The coverage provided to members of the GCSSDJIF for the period of July 1, 2015 to June 30, 2016 are as follows:

#### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### **INDEPENDENT AUDITOR'S REPORT**

The Honorable President and Members of the Board of Education Fairfield Township School District County of Cumberland, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Fairfield Township School District, in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Board of Education of the Fairfield Township's basic financial statements and have issued our report thereon dated November 23, 2016. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements as prescribed by the Office of School Finance, Department of Education, and State of New Jersey.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Fairfield Township Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fairfield Township Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fairfield Township Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be material weaknesses as labeled 2016-1, 2016-2, and 2016-3.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Fairfield Township Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed on instance of noncompliance, or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and are described in the accompanying schedule of findings and questioned costs as items labeled finding 2016-4.

#### Fairfield Township Board of Education's Response to Findings

Fairfield Township Board of Education's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Their response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, the Fairfield Township Board of Education, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

## REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES REQUIRED BY THE UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (UNIFORM GUIDANCE) AND NEW JERSEY OMB CIRCULAR 15-08

#### **INDEPENDENT AUDITOR'S REPORT**

The Honorable President and Members of the Board of Education Fairfield Township School District County of Cumberland, New Jersey

#### Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Fairfield Township School District, in the County of Cumberland, State of New Jersey, compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Fairfield Township School District's major federal and state programs for the fiscal year ended June 30, 2016. The Fairfield Township Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Fairfield Township Board of Education's major federal and state compliance based on our audit of the types of compliance requirements referred above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and as prescribed by the Office of School Finance, *Department of Education, State of New Jersey, Uniform Guidance* and New Jersey OMB 15-08. Those standards, Uniform Guidance and New Jersey OMB 15-08. Those standards, Uniform Guidance and New Jersey OMB 15-08. Those standards, uniform Guidance and New Jersey OMB 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Fairfield Township Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of Fairfield Township Board of Education's compliance with those requirements.

## **Opinion on Each Major Program**

In our opinion, the Board of Education of the Fairfield Township School District, in the County of Cumberland, State of New Jersey, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2016.

### **Report on Internal Control Over Compliance**

Management of the Fairfield Township School District's Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to major federal and state programs. In planning and performing our audit, we considered Fairfield Township Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance in accordance with Uniform Guidance and New Jersey OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Fairfield Township School District Board of Education's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal or state program will not be prevented or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a major federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey OMB 15-08.

This report is intended solely for the information and use of the audit committee, management, the Fairfield Township Board of Education, the New Jersey State Department of Education, other state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Township of Fairfield School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules of expenditures of federal awards and state financial assistance.

# NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200- *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey OMB 15-08. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

# NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with N.J.S.A. 18A:22-4.2

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$23,356) for the general fund and (\$6,094) for the special revenue fund. See Note 2 (The Notes to Required Supplementary Information) for reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statement on a GAAP basis as presented on the following page:

# Finding: 2016-1 (AMR Finding 2016-2)

#### Criteria or specific requirement:

It is considered necessary, as well as required, to record adjusting journal entries into the General Ledger and other journals within the accounting software.

#### **Condition:**

Numerous adjustments to the general ledger were required to be submitted as part of the audit.

#### **Context:**

There were several adjusting journal entries required to be identified and recorded subsequent to year-end financial close out.

#### Effect:

As a result of the above condition, adjusting journal entries were submitted to the Board Office, as of June 30, 2016.

#### Cause:

A necessary step to analyze the General Ledger account balances was omitted.

#### **Recommendation:**

Prior to the year-end close out of the accounting system, various adjustments should be identified and recorded in the general ledger.

#### Management's response:

Management is aware of the necessary procedures to be updated and followed.

# Section II - Financial Statement Findings (continued)

### Finding: 2016-2 (AMR Finding 2016-4)

#### Criteria or specific requirement:

N.J.S.A. 18A: 17-19 states that the chief school administrator or board designee other than the secretary shall prepare the monthly reconciliation of bank account statements and in conjunction with the secretary take any steps necessary to bring the cash record balance and reconciled bank balance into agreement prior to completion of the secretary's monthly report.

#### **Condition:**

The records of the Board Secretary were not in agreement with the reconciled cash balance as determined during the audit.

#### Context:

The aggregate cash balance of the Governmental Funds were not in agreement with the June 30, 2016 bank reconciliation.

#### Effect:

As a result of the above condition, adjusting journal entries were identified and submitted to the Board Office, as of June 30, 2016.

#### Cause:

There were numerous changes at the Board Secretary position, which adversely affected controls over bank reconciliation duties.

#### **Recommendation:**

All bank accounts should be properly reconciled and in agreement with the records of the Board Secretary.

#### Management's response:

Management is aware of the necessary procedures to be updated an followed.

# Section II - Financial Statement Findings (continued)

# Finding: 2016-3 (AMR Finding 2016-1)

#### Criteria or specific requirement:

In accordance with a complete internal control structure over payroll withholdings and deductions, the payroll agency ledger should be properly maintained.

#### **Condition:**

The payroll agency ledger was not properly maintained during the year, requiring numerous adjustments to be submitted for recording.

#### Context:

Numerous entries were recorded in the wrong account and the ledger was not reconciled to the bank account.

### Effect:

Internal control was not adequate over the documentation of payroll withholdings and deductions.

### Cause:

It did not appear that adequate training and supervision was devoted to the maintenance of the payroll agency ledger.

#### **Recommendation:**

Procedures to maintain the payroll agency ledger should be revised, in order to assure that the ledger is properly maintained and analyzed for accuracy. In addition, this task should be assigned to personnel that are properly trained and supervised.

#### Management's response:

Management is aware of the necessary procedures to be updated an followed.

## Section II - Financial Statement Findings (continued)

# Finding: 2016-4 (AMR Finding 2016-7)

### Criteria or specific requirement:

The New Jersey Department of Agriculture requires a School Food Authority to maintain a nonprofit School Food Service. The nonprofit status of the School Food Service is determined by evaluating net cash resources, which may not exceed three months average expenditures.

## **Condition:**

Net cash resources in the Food Service Fund exceeded three months average expenditures.

## **Context:**

Utilizing the USDA net cash resource calculation form, it was determined the District's net cash resources exceeded three months average expenditures by \$110,037, as of June 30, 2016.

## Effect:

Violation of New Jersey Department of Agriculture requirements.

## Cause:

Inadvertent oversight.

#### **Recommendation:**

The District should implement a corrective action plan to effectively reduce the net cash resources on hand in the Food Service Fund through capital expenditure or otherwise.

#### Management's response:

Management is aware of the necessary procedures to be updated an followed.
