September 15, 2016

Mr. Glen Moramarco and Members of the Board of Education 1 Lincoln Avenue Haddonfield, NJ 08033

Dear Mr. Moramarco and Board of Education Members:

The Comprehensive Annual Financial Report (CAFR) of the Haddonfield School District for the fiscal year ended June 30, 2016, is hereby submitted. This CAFR includes the District's Basic Financial Statement prepared in accordance with Governmental Accounting Standards Board Statement 34. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of federal regulations, cost principals, and audit requirements for federal awards (uniform guidance): and the State of New Jersey Circular OMB15-08. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. **REPORTING ENTITY AND ITS SERVICES**: The Haddonfield School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the District are included in this report. The Haddonfield Board of Education and all its schools constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels Pre-K to 12. These services include but are not limited to, Regular Instructional Programs, Technology Education, Reading Recovery, Character Education and Special Education Programs for handicapped students. The District completed the 2015-2016 fiscal year with an average daily enrollment of 2,661 students, which is an increase of 52 students from the previous year's enrollment.

Annual Financial Report

The following details the changes in student enrollment of the District over the last ten years.

Average Daily Enrollment

| FiscalYear | StudentEnrollment | Percent Change |
|-------------------|--------------------------|----------------|
| 2015-16 | 2661 | 2.0 % |
| 2014-15 | 2609 | 1.4 % |
| 2013-14 | 2573 | 1.0 % |
| 2012-13 | 2547 | 1.8 % |
| 2011-12 | 2503 | 1.5 % |
| 2010-11 | 2465 | 0.6 % |
| 2009-10 | 2451 | 1.7 % |
| 2008-09 | 2410 | 1.1 % |
| 2007-08 | 2385 | (0.9) % |
| 2006-07 | 2406 | 0.5 % |

2. <u>ECONOMIC CONDITION AND OUTLOOK</u>: Haddonfield is a small historic community located ten miles east of Philadelphia in Camden County, New Jersey. Haddonfield is 2.6 square miles in area, and its population was 11,593 in the 2010 Census Report. The town is served by a PATCO high-speed line connection which links Haddonfield to center city Philadelphia, the City of Camden, and the New Jersey shore area. Haddonfield is a town that has a central shopping thoroughfare (Kings Highway) that is lined with picturesque shops, wonderful restaurants, and many professional offices.

Many business, social, and professional organizations serve the community. Haddonfield has numerous churches of all denominations, and a myriad of volunteer organizations that help to make Haddonfield a thriving community.

Haddonfield is fully developed and it remains primarily a residential community. Much of the value of the borough's real estate lies with individual home owners. The Haddonfield School District is one of the best public school districts in New Jersey and one of the best school districts in the state and nation as acclaimed by numerous independent sources (Philadelphia Magazine, New Jersey Magazine, Newspaper Reports, U.S. News and World Report).

The quality of the schools has attracted families with school-aged children, which has resulted in an enrollment increase over the past few years. These increases in enrollment, combined with little financial support from the State of New Jersey or the Federal Government, has resulted in an average school tax increase of over 2% over the past five years. However, excellent budget management combined with important cash-saving efforts have significantly lowered the tax increase during the past two years to an average tax increase less than 2% per year.

Haddonfield School District is governed by a nine-member Board of Education elected at large to serve three year terms. Three members are elected each November during the General Election.

There are five schools in Haddonfield School District, whose students are served by a combined staff of 271 full time and 119 part-time positions. Our five schools are:

Three elementary schools serving grades pre-school through five. Central Elementary School, Elizabeth Haddon Elementary School and Tatem Elementary School.

One middle school serving grades six through eight: Haddonfield Middle School.

One comprehensive high school serving grades nine through twelve: Haddonfield High School-

- 95% percentage of Haddonfield Memorial High School Class of 2016 took SATs-
- Class of 2016 had a mean score of 1729 Math 588, Writing 567, Reading 574
- Class of 2016 had 96% graduating seniors continue their education in college
- Class of 2016 attending four year college or university 92%

Recognition has come regularly to HMHS to its stellar academic achievements:

- South Jersey Magazine's September 2016 issue ranked HMHS #1 in SAT scores, percent of students attending a 4-year college, and graduation rate. Haddonfield was also ranked #2 in Student-to-Faculty ratio.
- *US News and World Report* named Haddonfield Memorial High School 15th in State and #275 in the Nation in their 2014 rankings.
- *Philadelphia Magazine* has cited Haddonfield as one of the finest schools in the Philadelphia region on thirteen different occasions.
- The US Department of Education rated us a Blue Ribbon School in 2004.

Student enrollment is currently 2,692 students in total, with 2,672 students enrolled in Haddonfield School District with an additional 20 Special Education students sent on a tuition basis to private and public school special education programs. The total number of enrolled students includes 43 out of district students who pay tuition to Haddonfield School District to attend our excellent schools. The current demographic projections indicate a slight increase in future student enrollment.

3. MAJOR INITIATIVES: The major challenge currently facing Haddonfield School District is to maintain the excellent quality of its academic programs while having to finance approximately 95% of the entire budget through the primary revenue of local taxes with only minimal support from the State of New Jersey and the Federal Government. Haddonfield Memorial High School is consistently ranked in the top 1 percent of all high schools in the nation along with receiving Best in the State Athletic Honors each year. Haddonfield is the only school district in New Jersey to be awarded the prestigious ShopRite Cub award since its inception 15-years ago. In addition, Haddonfield School District has an outstanding performing arts program in which students are recognized on state and national levels for their exemplary talents and memorable performances.

This school-year, the district is continuing to focus on STEAM (Science, Technology, Engineering, Arts, and Mathematics) along with Critical Thinking curricular initiatives by way of enhancing Engineering, Computer Science, and Digital Learning opportunities. As a school-district, there are also continuing efforts to develop alternative sources of revenue, including grades 6-12 tuition program and international program, involving Chinese Students. Overall, the school-district raises over \$427,000 in tuition revenue.

Although there are fiscal restraints, the school-district continues to form partnerships with colleges and universities in order to expand its curricular opportunities. A number of the district's high school students have taken advantage of the Drexel University-Haddonfield School District partnership program with much success along with expanded student opportunities in partnership with Rowan University's Engineering School. Students learn what it is like to be an engineer, in the fields of electrical, civil, and environmental engineering. Students, also, receive college course credit for their participation in these unique STEAM related curricular programs.

In regard to building level initiatives, there have been several innovative program implementations, involving Computer Science related programs, STEAM clubs, advanced mathematics and science endeavors, and expanded Literacy Programs, incorporating 21st Century Learning with collaborative, student centered instructional techniques. Dynamic, technology driven libraries, throughout the school-district, enhance on-line learning and utilization of high-technology design and applications. In addition, Digital Learning and Citizenship along with utilizing Instructional Best Practices through Critical Thinking techniques is embedded throughout the district's professional development plan, organization, and implementation.

Character Building curricula, involving positive school culture, understanding diversity, and student leader peer support, are also key elements and components of the Haddonfield Curricula. Digital Learning is supported through district acquiring I-Pads and SMART Boards along with expanded on-line learning platforms through the school-district. Common Core initiatives and PARCC assessments are also efficiently supported and successful.

All schools continue to be involved in the new teacher and principal evaluation programs along with Achieve New Jersey state mandated programs. Haddonfield is a lighthouse school-district in terms of leading these types of initiatives and providing professional development for surrounding school-districts in sharing and identifying teaching Best Practices. Haddonfield School District continues to have an exemplary professional development program featuring numerous educational experiences for our professional staff members along with the district's support staff as well. The State of New Jersey has recognized Haddonfield School District's professional development program as one of the best in the state and colleagues from surrounding school districts are invited to take part in the district's professional development programs. During this professional development time period, Haddonfield School District teachers and administrators, along with experts in the field, develop and present professional learning opportunities on a wide variety of topics.

Due to the intense professional development, the commitment of the staff, and community support, Haddonfield students continue to excel on standardized tests, including SAT's, GEPA, NJASK, PARCC, and Advanced Placement Exams that are among the highest in the state and nation. The Haddonfield students' mean scores often equal or exceed the test scores of other school-districts, both public and private, and Haddonfield has a high percentage of students who are accepted to attend prestigious colleges and universities.

Haddonfield School District continues to excel in all areas of Academics, Extracurricular endeavors, and Arts programs. The community of Haddonfield has supported its students through community partnerships, parental involvement, volunteerism, and an overall commitment to the excellence of education. Residents of Haddonfield are extremely proud of our focus on Academia and the quality of education that Haddonfield School District provides.

4. <u>INTERNAL ACCOUNTING CONTROLS</u>: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, albeit minimal, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the

District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has compiled with applicable laws and regulations.

5. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the Borough. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balances in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

- 6. <u>CASH MANAGEMENT</u>: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 7. <u>RISK MANAGEMENT</u>: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.
- 8. OTHER INFORMATION: Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accounts. The accounting firm of Inverso & Stewart, LLC, performs the annual statutory audit of the Haddonfield Board of Education. In addition to meeting the requirements set forth in state statues, the audit also was designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations, cost principles, and audit requirements for federal awards (uniform guidance): and State of New Jersey Circular OMB15-08. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is in the financial section of this report. The auditor's report related specifically to the single audit is included in the single audit section of this report.

9. <u>ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Haddonfield Board of Education in providing fiscal accountability to the citizens and taxpayers of the Borough of Haddonfield.

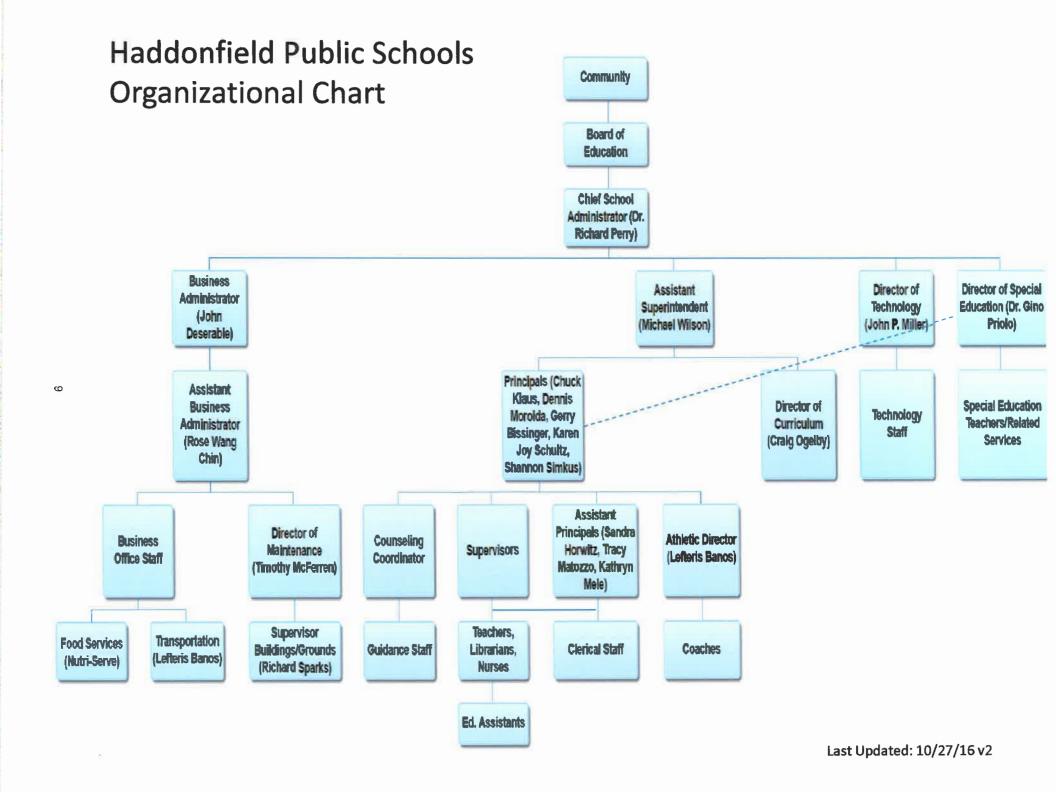

Respectfully submitted,

John J Deserable

Interim Business Administrator/Board Secretary

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education
Haddonfield School District
County of Camden
Haddonfield, New Jersey

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Haddonfield School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Haddonfield School District, in the County of Camden, State of New Jersey, as of June 30, 2016, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Haddonfield School District's basic financial statements. The accompanying combining statements and related major fund supporting statements and schedules and Schedules of Expenditures of Federal Awards and State Financial Assistance, as required by U.S. Office of Management and Budget Title 2 U.S. Code of Federal Regulations Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey Treasury Circular OMB 15-08, as applicable, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and Schedules of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information described in the previous paragraph is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report dated September 15, 2016 on my consideration of the Haddonfield School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Haddonfield School District's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Haddonfield School District County of Camden Haddonfield, New Jersey

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Haddonfield School District, in the County of Camden, State of New Jersey, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued my report thereon dated September 15, 2016.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Haddonfield School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Haddonfield School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Haddonfield School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey which are described in the accompanying *Schedule of Findings and Questioned Costs and Auditor's Management Report on Administrative Findings — Financial, Compliance and Performance* as findings no: 2016-001 and 2016-002.

The Haddonfield School District's Response to Findings

The Haddonfield School District's response to the findings identified in my audit are described in the accompanying *Schedule of Findings and Questioned Costs*. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Management's Discussion and Analysis

Haddonfield School District Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016

As management of the Board of Education of the Borough of Haddonfield, New Jersey (School District), we offer readers of the School District's financial statements this narrative overview and analysis of the School District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets of the School District exceeded its liabilities at the close of the most recent fiscal year by \$7,533,400 (net position).
- Governmental activities have an unrestricted net position deficit of \$7,492,346. The accounting treatments in the governmental funds for compensated absences payable, net pension liability, and the last two state aid payments, and the state statute that prohibits school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance are primarily responsible for this deficit balance.
- The total net position of the School District decreased by \$702,467, or an 8.53% decrease from the prior fiscal year-end balance. The majority of this decrease is attributable to the results of operations in the governmental funds.
- Fund balance of the School District's governmental funds decreased by \$1,020,280 resulting in an ending fund balance of \$3,418,658. This decrease is largely due to the results of operations in the general fund and capital projects fund.
- Business-type activities have unrestricted net position of \$72,580, which may be used to meet the School District's ongoing obligations of the food service operations and community education program.
- The School District's long-term obligations decreased by \$1,626,872 which is the result of an decrease in serial bonds, capital leases and compensated absences.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. Comparison to the prior year's activity is provided in this document. The basic financial statements are comprised of three components: 1) District-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-wide Financial Statements

The district-wide financial statements are designed to provide the reader with a broad overview of the financial activities in a manner similar to a private-sector business. The district-wide financial statements include the statement of net position and the statement of activities.

The statement of net position presents information about all of the School District's assets and liabilities. The difference between the assets and liabilities is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The statement of activities presents information showing how the net position of the School District changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement even though the resulting cash flows may be recorded in a future period.

Both of the district-wide financial statements distinguish functions of the School District that are supported from taxes and intergovernmental revenues (governmental activities) and other functions that are intended to recover all or most of their costs from user fees and charges (business-type activities). Governmental activities consolidate governmental funds including the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund. Business-type activities consolidate the Food Service Fund and the Community Education Program.

Fund Financial Statements

Fund financial statements are designed to demonstrate compliance with finance-related requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific objectives. All of the funds of the School District are divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds account for essentially the same information reported in the governmental activities of the district-wide financial statements. However, unlike the district-wide financial statements, the governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the financing requirements in the near term.

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, a reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains four individual governmental funds. The major funds are the General Fund, the Special Revenue Fund, the Capital Projects Fund, and the Debt Service Fund. They are presented separately in the fund financial statements.

The School District adopts an annual appropriated budget for the General Fund, Special Revenue Fund and the Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with budgetary requirements.

Proprietary funds are used to present the same functions as the business-type activities presented in the district-wide financial statements. The School District maintains one type of proprietary fund - the Enterprise Fund. The fund financial statements of the enterprise fund provides the same information as the district-wide financial statements, only in more detail.

The School District's two enterprise funds (Food Service Fund and Community Education Program Fund) are listed individually and are considered to be major funds.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the School District's programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also contains other supplementary information and schedules required by the New Jersey Audit Program, issued by the New Jersey Department of Education.

District-wide Financial Analysis

The assets of the School District are classified as current assets and capital assets. Cash, investments, receivables, inventories and prepaid expenses are current assets. These assets are available to provide resources for the near-term operations of the School District. The majority of the current assets are the results of the tax levy and state aid collection process.

Capital assets are used in the operations of the School District. These assets are land, buildings, improvements, equipment and vehicles. Capital assets are discussed in greater detail in the section titled, Capital Assets and Debt Administration, elsewhere in this analysis.

Current and long-term liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, accrued salaries and benefits, unearned revenues, and current debt obligations. The liquidation of current liabilities is anticipated to be either from currently available resources, current assets or new resources that become available during fiscal year 2016. Long-term liabilities such as long-term debt obligations and compensated absences payable will be liquidated from resources that will become available after fiscal year 2016.

The assets of the primary government activities exceeded liabilities by \$7,492,584 with an unrestricted deficit balance of \$7,492,346. The net position of the primary government does not include internal balances.

A net investment of \$12,153,719 in land, improvements, buildings, equipment and vehicles which provide the services to the School District's 2,997 public school students, represents over 163.58% of the School District's net position. Net position of \$1,153,874 has been restricted to provide resources for future capital expansion and renovation projects, \$400,000 for maintenance projects, \$1,029,403 has been restricted for budget appropriation and \$184,934 is restricted for debt service.

As mentioned earlier, deficit unrestricted net position is primarily due to the accounting treatment for compensated absences payable, net pension liability and the last two state aid payments, and state statutes that prohibit school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance.

Haddonfield School District Comparative Summary of Net Position As of June 30, 2016 and 2015

Governmental Activities

Governmental activities decreased the net position of the School District by \$614,007 during the current fiscal year. Key elements of the decrease in net position for governmental activities are as follows:

- Reduction of debt increased the net position of the School District by \$1,626,872 during the current fiscal year.
- Depreciation expense reduced net position by \$1,123,767.
- Results of operations in the General Fund decreased the net position by \$697,797.

Business-type Activities

Business-type activities decreased the School District's net position by \$88,460. Key elements of the decrease in net position for governmental activities are as follows:

The Food Service Fund had a net loss of \$67,993 and the Community Education Program had a net loss of \$20,467.

Financial Analysis of the Governmental Funds

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the School District's governmental funds reported a combined ending fund balance of \$3,418,658, a decrease of \$1,020,280 in comparison with the prior year. This decrease is primarily attributable to the results of operations in the general fund and capital projects fund.

The unassigned fund balance for the School District at the end of the fiscal year includes a combination of unassigned fund balance for the General Fund of \$650,447 and \$184,934 in the Debt Service Fund. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) as restricted cash reserved for future capital outlay expenditures of \$1,153,874, 2) as restricted for future maintenance projects of \$400,000, 3) \$564,555 appropriated as a revenue source for subsequent year's budgets, and 4) \$464,848 reserved for excess surplus.

The general fund is the chief operating fund of the School District. As discussed earlier, the balance in the unreserved fund balance is due, primarily, to the accounting treatment of the last state aid payment as discussed in the notes to the basic financial statements, and state statutes that prohibit New Jersey school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance.

General Fund Budgetary Highlights

There was no difference between the original budget and the final amended budget.

At the end of the current fiscal year, unreserved fund balance (budgetary basis) of the general fund was \$710,574 while total fund balance (budgetary basis) was \$3,479,315. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance (budgetary basis) and total fund balance (budgetary basis) to total general fund expenditures. Actual (budgetary basis) expenditures of the General Fund including other financing uses amounted to \$39,457,085. Unreserved fund balance (budgetary basis) represents 1.80% of expenditures while total fund balance (budgetary basis) represents 8.82% of that same amount.

Capital Asset and Debt Administration

The School District's investment in capital assets for its governmental and business-type activities as of June 30, 2016, totaled \$26,041,938 (net of accumulated depreciation). This investment in capital assets includes land, improvements, buildings, and equipment. The net decrease in the District's investment in capital assets for the current fiscal year was \$1,141,543 or a 4.20% decrease. The decrease is due to depreciation expense.

Capital Asset (net of accumulated depreciation) June 30, 2016 and 2015

Additional information on the School District's capital assets can be found in the notes to the basic financial statements (Note 5) of this report.

Long-term debt — During the fiscal year ended June 30, 2016, the School District had \$13,856,983 in serial bonds payable and \$1,201,180 in compensated absences.

State statutes limit the amount of general obligation debt that the District may issue. At the end of the current fiscal year, the legal debt limit was \$86,707,031. The available amount as of June 30, 2016 is \$73,177,031.

Additional information on the School District's long-term obligations can be found in the notes to the basic financial statements (Note 7) of this report.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered and incorporated into the preparation of the School District's budget for the 2016-17 fiscal year.

- For the 2016-17 fiscal year the School District will not be receiving a slight increase in state aid. The local tax levy in the General Fund increased by \$1,066,487 or 3.27%. Salaries continue to increase contractually; however, the District has managed to control costs. The 2016-17 General Fund Budget is \$899,122 less than the previous year or a 2.43% decrease.
- The tax rate increased from \$1.549 in 2015 to \$1.584 in 2016.

For the Future

The Haddonfield School District is in very good financial condition presently. However, a major concern is maintaining aging buildings of the district with an increased reliance on local property taxes as state aid has remained stagnant. The Borough of Haddonfield is primarily a residential community, with very few large ratables; thus the burden is focused on homeowners to share the tax burden.

In conclusion, the Haddonfield School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

Requests for Information

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Haddonfield School District Business Administrator, One Lincoln Avenue, Haddonfield, New Jersey, 08033.

HADDONFIELD SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities for the Fiscal Year Ended June 30, 2016

| Total net change in fund balances - governmental funds (from B-2) | | \$ (1,020,280) |
|--|--------------------|----------------|
| Amounts reported for governmental activities in the statement of activities (A-2) are different because: | | |
| Capital outlays are reported in the governmental funds as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year. Depreciation expense Capital outlay | \$ (1,123,767) | (1,123,767) |
| Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is reported in the statement of activities. | | 1,380,000 |
| Governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are amortized in the statement of activities. | | 54,497 |
| Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is reported in the statement of activities. | | 4,570 |
| Net differences between pension system contributions recognized in the fund statement of revenues, expenditures and changes in fund balances and the statement of activities | | (37,803) |
| In the statement of activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation. | | (59,029) |
| Some expenses reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: | | 107 005 |
| Compensated absences | | 187,805 |
| Change in net position of governmental activities | | \$ (614,007) |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - The Haddonfield School District (District) is a Type II school district located in Camden County, New Jersey and covers an area of approximately 2.6 square miles. As a Type II school district, it functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three member's terms expire each year. The purpose of the District is to provide educational services for all of Haddonfield's students in grades K through 12. The Haddonfield School District has an approximate enrollment at June 30, 2016 of 2,601 students.

The primary criteria for including activities within the School District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School district over which the Board exercises operating control.

Component Units – GASB Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, provide guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statements No. 14 and No. 39. In addition, GASB Statement No. 61 provides additional guidance for organizations that do not meet the financial accountability criteria for inclusion as component units but that nevertheless should be included because the primary government's management determines that it would be misleading to exclude them. There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the School District is not includable in any other reporting entity on the basis of such criteria.

Basis of Presentation

The basic financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

The School District's basic financial statements consists of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The statement of net position presents the financial condition of the governmental and business-type activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements - During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the general operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenues sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes or serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Funds - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those in the private sector.

Enterprise Funds — The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that all costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds (Continued)

The School District's enterprise funds are:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Community Education Fund - This fund accounts for the financial activity related to providing adult school activities within the School District.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net position) is segregated into investment in capital assets, net of related debt, and unrestricted net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment 12 Years
Light Trucks and Vehicles 4 Years
Heavy Trucks and Vehicles 6 Years

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: trust funds and agency funds. Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds (i.e. payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has four fiduciary funds; an unemployment compensation trust fund, a flexible benefit program, a student activity fund, and a payroll fund.

Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days after fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The School District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end; tuition, grants, fees, and rentals.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as unearned revenue. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets/Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for their approval. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23A-16.2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2 and Exhibit I-3, includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances – governmental funds. Note that the School District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Encumbrances are a component of fund balance at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services. Open encumbrances in governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, and all eligibility and time requirements satisfied are reflected on the balance sheet as unearned grant revenue at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act (GUDPA), a multiple financial institution collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Tuition Receivable - Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Tuition Payable - Tuition charges for the fiscal years ended June 30, 2016 and 2015 were based on rates established by the receiving school district. These rates are subject to change when the actual costs have been determined.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out basis.

The cost of inventories in governmental fund types is recorded as expenditures when purchased rather than when consumed, and is not recorded since any amounts are considered immaterial to the basic financial statements.

Inventories recorded in the government-wide financial statements and in the proprietary fund types are recorded as expenditures when consumed rather than when purchased.

Prepaid Expenses - Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

In the governmental fund types, however, payments for prepaid items are fully recognized as an expenditure in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (non-allocation method). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Deferred Outflows/Inflows of Resources – In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Short-Term Interfund Receivables / Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the School District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and the proprietary fund statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued) - Depreciation is computed using the straight-line method over the following useful lives:

| Description | Governmental Activities Estimated Lives | Business-Type Activities Estimated Lives |
|----------------------------|---|--|
| Land and Improvements | 10-20 years | N/A |
| Buildings and Improvements | 10-50 years | N/A |
| Furniture and Equipment | 5-20 years | 12 years |
| Vehicles | 5-10 years | 4-6 years |

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and are recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the fund financial statements when due.

Bond Discount and Bond Premium – Bond discount and bond premium arising from the issuance of the general obligation bonds are recorded as liabilities. They are amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. Bond discount and bond premium are presented as an adjustment of the face amount of the bonds.

Net Position - Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted — Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or law or regulations of other governments.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

It is the School District's policy to apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted assets are available.

Fund Balance – The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash, such as inventories and prepaid amounts. The School District had no nonspendable fund balance at June 30, 2016.

Restricted — This fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed – This fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which for the School District is the Board of Education. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action imposing the commitment.

Assigned – This fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the Business Administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes.

Unassigned – This fund balance classification is the residual classification for the General Fund. It represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the School District's policy to spend restricted fund balances first. Likewise, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Operating and Non-Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for the food service program. Non-operating revenues principally consist of interest income earned on various interest bearing accounts and federal and state subsidy reimbursements for the food service program.

Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund-There are no non-operating expenses.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfunds – Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Recently Issued Accounting Pronouncements – In June 2015, the GASB issued Statement 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities. This Statement is effective for financial statements for periods beginning after June 15, 2016 and will not have any effect on the District's financial reporting.

In June 2015, the GASB issued Statement 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. This Statement also includes requirements to address financial reporting for assets accumulated for purposes of providing defined benefit OPEB through OPEB plans that are not administered through trusts that meet the specified criteria. This Statement is effective for financial statements for periods beginning after June 15, 2016. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

In June 2015, the GASB issued Statement 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This Statement is effective for financial statements for periods beginning after June 15, 2017. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements (Continued) - In December 2015, the GASB issued Statement 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

In March 2016, the GASB issued Statement 82, Pension Issues-an amendment of GASB Statements No. 67, No. 68, and No. 73. This Statement amends Statements 67 and 68 to instead require the presentation of covered payroll, defined as the payroll on which contributions to a pension plan are based, and ratios that use that measure. Furthermore, this Statement clarifies that a deviation, as the term is used in Actuarial Standards of Practice issued by the Actuarial Standards Board, from the guidance in an Actuarial Standard of Practice is not considered to be in conformity with the requirements of Statement 67, Statement 68, or Statement 73 for the selection of assumptions used in determining the total pension liability and related measures. Also, this Statement clarifies that payments that are made by an employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68. It also requires that an employer's expense and expenditures for those amounts be recognized in the period for which the contribution is assessed and classified in the same manner as the employer classifies similar compensation other than pensions (for example, as salaries and wages or as fringe benefits). The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

2. CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits – Custodial credit risk refers to the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Unit (GUDPA). Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School district in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings of funds that pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized. Of the School District's amount on deposit of \$6,153,096 as of June 30, 2016, \$268,498 was insured under FDIC and the remaining balance of \$5,884,598 was collateralized under GUDPA.

3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

3. CAPITAL RESERVE ACCOUNT (Continued)

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the New Jersey Department of Education, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer at year end of any anticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:26-9.1(d), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

| Balance – July 1, 2015 | \$ | 1,718,481 |
|---------------------------------|-----------|-----------|
| Increased by: | | |
| Transfer by Board Resolution \$ | 1,000,000 | |
| Unspent appropriations | 65,695 | |
| Cancelled accounts payable | | |
| Interest Earned | 684 | 1,066,379 |
| | | 2,784,860 |
| Decreased by: | | |
| Budgeted Withdrawal | | 1,444,868 |
| | , | |
| Balance – June 30, 2016 | \$ | 1,339,992 |

The June 30, 2016 capital reserve balance does not exceed the LRFP balance of local support costs of uncompleted capital projects.

4. ACCOUNTS RECEIVABLES

Accounts receivables at June 30, 2016 consisted of accounts (fees) and intergovernmental grants. All intergovernmental receivables are considered collectible in full due to the stable condition of State programs and the current fiscal year guarantee of federal funds.

Accounts receivable at June 30, 2016 for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

| | General Fund | Capital Projects Fund | Revenue Funds | prietary Fund | / | Total |
|----------------------------------|-----------------------------|-----------------------------|-------------------------|----------------------|----------|--------------------|
| State Aid Federal Aid | \$ 240,210 | \$ 251,680 | \$ 7,028 199,369 | \$ 101 1,098 | \$ | 499,019 200,467 |
| Other Total Accounts Receivable | \$ 47,973 288,183 | \$ 251,680 | \$ 12,761 219,158 | \$ 3,817 5,016 | \$ \$ | 764,037 |

5. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

| Governmental Activities: Capital Assets, not being depreciated: Land Construction in progress Total capital assets, not being Depreciated 1,898,592 1,898,592 1,898,592 1,898,592 | |
|--|--|

Depreciation expense in the amount of \$1,123,767 was charged to governmental functions as follows:

| Function | Amount | | | | |
|----------------------------------|-----------------|--|--|--|--|
| Regular Instruction | \$ 786,637 | | | | |
| Plant Operations and Maintenance | 168,565 | | | | |
| Administration | 112,377 | | | | |
| Unallocated | 56,188 | | | | |
| Total depreciation expense | \$ 1,123,767 | | | | |

6. INVENTORY

Inventory in the Food Service Fund at June 30, 2016 consisted of the following:

| Food Supplies | \$ 3,829 2,536 |
|------------------|----------------------|
| | \$ 6.365 |

7. LONG-TERM OBLIGATIONS

During the fiscal year ended June 30, 2016, the following changes occurred in long-term obligations:

| | | Principal utstanding | | | | | | Principal utstanding | An | nounts Due Within |
|---------------------------------|----------|-------------------------|----|-----------------|----|-----------|----|-------------------------|----|----------------------|
| Governmental Activities: | <u>J</u> | uly 1, 2015 | A | <u>iditions</u> | Re | ductions | Ju | ne 30, 2016 | (| One Year |
| Other Liabilities: | | | | | | | | | | |

| General Obligation Bonds | | 7: | 31 | | - | | | | | |
| Principal | | 14,910,000 | | | | 1,380,000 | | 13,530,000 | | 1,290,000 |
| Unamortized Premiums | | 381,480 | | | | 54,497 | | 326,983 | - | 54,497 |
| Total | _ | 15,291,480 | _ | | | 1,434,497 | _ | 13,856,983 | | 1,344,497 |
| Total Governmental Activity | \$ | 22,981,857 | \$ | 980,974 | \$ | 1,626,872 | \$ | 22,335,959 | \$ | 1,344,497 |

Bonds Payable - Bonds and loans are authorized in accordance with State law by the voters of the District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are as follows:

2012 Refunding Bonds dated February 1, 2012 in the amount of \$7,545,000 due in annual installments through August 15, 2025 bearing interest rates ranging from 3.00% - 4.00%.

2015 Refunding Bonds dated May 29, 2015 in the amount of \$5,985,000 due in annual installments through August 1, 2021 bearing interest rates ranging from 0.40% - 4.00%.

Principal and interest due on bonds outstanding is as follow

| Year ending June 30, | Principal | | <u>Interest</u> | | Total | |
|----------------------|------------------|------------|-----------------|-----------|--------------|------------|
| 2017 | \$ | 1,290,000 | \$ | 478,038 | \$ | 1,768,038 |
| 2018 | | 1,325,000 | | 443,462 | | 1,768,462 |
| 2019 | | 1,365,000 | | 399,463 | | 1,764,463 |
| 2020 | | 1,420,000 | | 352,906 | | 1,772,906 |
| 2021 | | 1,470,000 | | 301,387 | | 1,771,687 |
| 2022-2025 | - | 6,660,000 | _ | 660,600 | - | 7,320,600 |
| | \$ | 13,530,000 | \$ | 2,636,156 | \$ | 16,166,156 |

As of June 30, 2016, the District had no authorized but not issued bonds.

Compensated Absences

Compensated absences will be paid from the fund from which the employees' salaries are paid.

8. OPERATING LEASES

At June 30, 2016, the District had operating lease agreements in effect for the following:

Copiers

Total operating lease payments made during the year ended June 30, 2015 and 2016 was \$103,812 and \$103,812 respectively. Future minimum lease payments are as follows:

| Year Ended | Amount | | | | |
|-------------------------------------|--------|---------|--|--|--|
| June 30, 2017 | \$ | 108,312 | | | |
| June 30, 2018 | | 108,312 | | | |
| June 30, 2019 | - | 39,104 | | | |
| Total future minimum lease payments | \$ | 255,728 | | | |

9. PENSION PLANS

Description of Plans – Substantially all of the School District's employees participate in one of the following pension plans which have been established by State statute, and are administered by the New Jersey Division of Pensions and Benefits (Division): the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS) or the Defined Contribution Retirement Program (DCRP). Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of New Jersey, Division of Pensions and Benefits. P.O. Box 295, Trenton, New Jersey, 08625-0295.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund is a cost-sharing contributory defined benefit pension plan which was established on January 1, 1955, under the provisions of N.J.S.A. 18A:66. The TPAF provides retirement, death and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 18A:66.

The contribution requirements of plan members are determined by State statute. In accordance with Chapters 113, 114, 115, P.L. 1997, plan members enrolled in the TPAF were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92 P.L. 2007 and Chapter 103, P.L. 2007, plan members were required to contribute 5.5% of their annual covered salary. For employees who were enrolled in the retirement system prior to July 1, 2007, the increase was effective with the payroll period that began immediately after July 1, 2007. Pursuant to the provisions of Chapter 78, P.L. 2011, effective October 1, 2011, the active member contribution rate was increased to 6.5%. An additional 1.0% increase is being phased-in over seven years beginning on July 1, 2012. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over the several preceding fiscal years.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

9. PENSION PLANS (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

For the year ended June 30, 2016, the District recognized pension expense of \$6,004,553 and revenue of \$6,004,553 for support provided by the State. Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the district.

The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

| | 06/30/15 | 06/30/14 |
|--|------------------|------------------|
| Collective deferred outflows of resources | \$ 7,521,378,257 | \$ 2.306,623,861 |
| Collective deferred inflows of resources | 554,399,005 | 1,763,205,593 |
| Collective net pension liability (Non-Employer – State of New Jersey) | 63,577,864,440 | 53,446,745,367 |
| State's portion of the net pension liability that was associated with the district | 98,340,169 | 82,218,714 |
| State's portion of the net pension liability that was associated with the district as a percentage of the collective net pension liability | .1555910196% | .1538329676% |

Actuarial assumptions – The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation: 2.5%

Salary Increases: Varies based on experience

Investment Rate of Return: 7.90%

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries.

9. PENSION PLANS (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2015 are summarized in the following table:

| | | Long-Term Expected |
|------------------------------|-------------------|---------------------|
| Asset Class | Target Allocation | Real Rate of Return |
| Cash | 05.00% | 0.53% |
| Government Bonds | 01.75% | 1.39% |
| Credit Bonds | 13.50% | 2.72% |
| Mortgages | 02.10% | 2.54% |
| Inflation-Indexed Bonds | 01.50% | 1.47% |
| High Yield Bonds | 02.00% | 4.57% |
| Equity Market | 27.25% | 5.63% |
| Foreign-Developed Equity | 12.00% | 6.22% |
| Emerging Markets Equity | 06.40% | 8.46% |
| Private Real Estate Property | 04.25% | 3.97% |
| Timber | 01.00% | 4.09% |
| Farmland | 01.00% | 4.61% |
| Private Equity | 09.25% | 9.15% |
| Commodities | 01.00% | 3.58% |
| Hedge Funds – MultiStrategy | 04.00% | 4.59% |
| Hedge Funds – Equity Hedge | 04.00% | 5.68% |
| Hedge Funds - Distressed | 04.00% | 4.30% |
| | 100.00% | |

Discount rate. The discount rate used to measure the State's total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% as of June 30, 2015, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers (State of New Jersey) will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. Since the District has no proportionate share of the net pension liability, because of the special funding situation, the district would not be sensitive to any changes in the discount rate.

Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan which was established on January 1, 1955. The PERS provides retirement, death and disability, and medical benefits to certain qualified members. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employees' Retirement System were required to contribute 5% of their annual covered salary. Effective July 1, 2008, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. For employees enrolled in the retirement system prior to July 1, 2008, the increase is effective with the payroll period that begins immediately after July 1, 2008. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate was increased to 6.5%. An additional 1.0% increase is being phased-in over seven years beginning on July 1, 2012 and increases each subsequent July 1. The State Treasurer has the right under the current law to make temporary reductions in rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

The School District is billed annually for its normal contribution plus any accrued liability. The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

| Fiscal Year | Normal tributions | Adjus | tment | Accrued Liability | Con | Non atributory Life | 3- | Total Liability Paid by District |
|----------------------|----------------------------------|-------|-------|-------------------------------------|-----|---------------------------|----|----------------------------------|
| 2016 2015 2014 | \$ 47,188 46,157 50,563 | \$ | | \$ 217,378 213,513 222,308 | \$ | 14,165 17,587 4,641 | \$ | 278,731 277,257 277,512 |

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For the year ended June 30, 2016, the District recognized pension expense of \$341,730. At June 30, 2016, the District reported a liability of \$7,277,796 for its proportionate share of the PERS net pension liability and deferred outflows of resources related to PERS from the following sources:

| | Ι | Deferred | Ι | Deferred |
|--|----|------------|----|-----------|
| | Οι | utflows of | Ir | nflows of |
| | R | esources | R | esources |
| Differences between expected and actual experience | \$ | 173,623 | \$ | |
| Changes of assumptions | | 781,577 | | |
| Net Difference between projected and actual earnings | | | | |
| on pension plan investments | | | | 117,013 |
| Changes in proportion | | н | | 613,892 |
| District contributions subsequent to the measurement | | | | |
| date | | 302,464 | | |
| | | | | |
| Total | \$ | 1,257,664 | \$ | 730,905 |

\$302,464 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2016, the plan measurement date is June 30, 2015) will be recognized as a reduction of the net liability in the year ended June 30, 2016.

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Lii- | |
|--------------|--------------|
| | Net Deferred |
| For the year | Outlows of |
| ended: | Resources |
| 2016 | \$ (33,924) |
| 2017 | (33,924) |

Additional Information

Collective balances at June 30, 2015 and 2014 are as follows:

| | 6/30/2015 | 6/30/2014 |
|---|----------------------|----------------------|
| Collective deferred outflows of resources | \$ 3,578,755,666 | \$ 952,194,675 |
| Collective deferred inflows of resources | \$ 993,410,455 | \$ 1,479,224,662 |
| Collective net pension liability | \$ 22,447,996,119 | \$ 18,722,735,003 |
| | | |
| District's Proportion | .0324206920% | .0336319567% |

Actuarial assumptions – The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate: 3.04% Salary Increases:

2012-2021: 2.15-4.40% based on age Thereafter: 3.15-5.40% based on age Investment Rate of Return: 7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries.

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

The long term expected rate of return was determined using a building block method n which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

| | | Long-Term Expected |
|----------------------------|-------------------|---------------------|
| Asset Class | Target Allocation | Real Rate of Return |
| Cash | 05.00% | 01.04% |
| U.S. Treasuries | 01.75% | 01.64% |
| Investment Grade Credit | 10.00% | 01.79% |
| Mortgages | 02.10% | 01.62% |
| High Yield Bonds | 02.00% | 04.03% |
| Inflation Indexed Bonds | 01.50% | 03.25% |
| Broad US Equities | 27.25% | 08.52% |
| Developed Foreign Equities | 12.00% | 06.88% |
| Emerging Market Equities | 06.40% | 10.00% |
| Private Equity | 09.25% | 12.41% |
| Hedge Funds/Absolute Ret | 12.00% | 04.72% |
| Real Estate (Property) | 02.00% | 06.83% |
| Commodities | 01.00% | 05.32% |
| Global Debt ex US | 03.50% | -0.40% |
| REIT | 04.25% | 5.12% |
| | 100.00% | |

Discount rate. The discount rate used to measure the State's total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.8% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability measured as of June 30, 2015, calculated using the discount rate of 4.90%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.90%) or 1 percentage point higher (5.90%) that the current rate:

| | Current | | | | | | |
|---------------------------------------|---------|-----------------------|-----------------------|-----------|------------------------|-----------|--|
| | | % Decrease (3.90%) | Discount Rate (4.90%) | | 1% Increase (5.90%) | | |
| District's proportionate share of the | 8= | | | | | | |
| net pension liability | \$ | 9,045,410 | \$ | 7,277,796 | \$ | 5,795,841 | |

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Pension Plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

| | | Total | P | aid by | | |
|-------------|----|----------|-----------------|--------|--|--|
| Year | L | iability | District | | | |
| 2016 | \$ | 21,988 | \$ | 21,988 | | |
| 2015 | | 19,976 | | 19,976 | | |
| 2014 | | 20,317 | | 20,317 | | |

10. POST-RETIREMENT BENEFITS

The School District contributes to the New Jersey State Health Benefits Program (SHBP), a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SHBP was established to provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension issues a publicly available financial report that includes financial statements and required supplementary information for SHBP. That report may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees receiving post-retirement medical benefits, and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

10. POST-RETIREMENT BENEFITS (Continued)

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in Fiscal Year 2015.

The State establishes the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contribution to the SHBP Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the year ended June 30, 2016 was \$1,504,121 which equaled the required contributions. The State's contribution to the SHBP Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained from the Treasury website.

11. ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2016, the School District has recognized as revenues and expenditures \$1,263,200 of onbehalf payments made by the State of New Jersey for normal retirement costs related to TPAF and \$1,161,046 for employer's share of social security contributions for TPAF members, as calculated on their base salaries.

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters. The District has chosen to purchase insurance to transfer risk to outside parties.

Property and Liability Insurance – The District is a member of the Burlington County School Joint Insurance Fund (BCIPJIF), a public entity risk pool currently operating as a common risk management and insurance program. The District pays an actuarial determined annual assessment to BCIPJIF for its insurance coverage. Supplemental assessments may be levied to supplement the fund. The District has not been notified of any supplemental assessments.

In addition, the District carries commercial insurance for all other risks of loss, including employee health, accident insurance and public official surety bonds. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

A complete schedule of insurance coverage can be found in the "Statistical Section" of this report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Business Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

12. RISK MANAGEMENT (Continued)

New Jersey Unemployment Compensation Insurance (Continued) - The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior four years:

| Fiscal Year | virtual files over the earl files | | 249 II 50 900 000 | | DYD II SY 1995 7995 | | Interest Earned | Amount imbursed | Ending <u>Balance</u> |
|-------------|-----------------------------------|----|-------------------|----|---------------------|---------------|--------------------|--------------------|--------------------------|
| 2015-2016 | \$ 45,487 | \$ | 2 " | \$ | 905 | \$ 205,153 | \$ 386,041 | | |
| 2014-2015 | 21,277 | | 4 | | 884 | 18,752 | 554,802 | | |
| 2013-2014 | 30,049 | | E | | 1,272 | 17,662 | 541,393 | | |
| 2012-2013 | 22,780 | | (· | | 3,908 | 123,906 | 527,734 | | |
| 2011-2012 | 31,002 | | 244,867 | | 4,165 | 181,875 | 624,952 | | |

13. DEFERRED COMPENSATION

The School District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, available to all permanent School District employees, permit participants to defer a portion of their current salary to future years. Participation in the plans is optional. The deferred compensation is not available to the participants until termination, retirement, death, or an unforeseeable emergency occurs. The plan assets are held in trust for the benefit of the employee and are administered by a third party therefore they are not reflected on the financial statements of the School District.

14. COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g. unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees are granted vacation and sick leave in varying amounts in accordance with the School District's personnel policies. Unused sick leave may be accumulated carried forward to the subsequent years. Employees who retire from the School District shall be paid for unused sick leave in accordance with the School District's agreements with the various employee unions.

The liability for vested compensated absences is recorded within those funds as the benefits accrued to the employees. As of June 30, 2016, the liability for compensated absences in the governmental fund was \$1,201,180.

15. FLEXIBLE BENEFITS PROGRAM

The District offers its employees a Flexible Benefits Program. The purpose of the program is to provide a tax incentive for plan participants incurring health premium expenses, dependent care expenses and other medical expenses not covered by other insurance. The District, who is the plan administrator, has contracted with a third party administrator to act as its agent to furnish reimbursement services. The plan participants redirect a prescribed amount of their gross pay (tax-free) into a reimbursement account and then in-turn submit claims to a third party administrator for repayment. Because of Internal Revenue Service regulations, if at the end of any plan year unexpended funds remain, these funds will be forfeited by the participants and returned to the District.

15. FLEXIBLE BENEFITS PROGRAM (Continued)

The following is a summary of District contributions, employee contributions, reimbursements to the plan participants for benefits paid and the ending balance of the District's fiduciary fund for the current and prior four years.

| Fiscal Year | District Interest Contributions Earnings | | Employee Contributions | | Amount <u>Reimbursed</u> | | Ending <u>Balance</u> | | |
|-------------|--|---------|---------------------------|----|-----------------------------|----|--------------------------|----|---------|
| 2015-2016 | \$ | 102,383 | \$ 299 | \$ | 66,551 | \$ | 165,175 | \$ | 80,209 |
| 2014-2015 | | 162,488 | 144 | | 51,904 | | 284,311 | | 76,151 |
| 2013-2014 | | 8 | 1,127 | | 5 | | 210,844 | | 145,926 |
| 2012-2013 | | 165,600 | 2,227 | | 58,076 | | 102,595 | | 355,643 |
| 2011-2012 | | 132,000 | 2,058 | | 56,805 | | 174,512 | | 232,335 |

16. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables/payables are recorded to cover temporary cash shortages and/or timing differences in the respective funds. There are no interfund balances that are not expected to be repaid by June 30, 2016. The following interfund balances were recorded on the various balance sheets as of June 30, 2016:

| <u>Fund</u> | Interfund Receivable | Interfund <u>Payable</u> | | |
|------------------|-------------------------|-----------------------------|--|--|
| General | \$ 273,106 | \$ 2,321 | | |
| Special Revenue | | 228,694 | | |
| Capital Projects | | 184,434 | | |
| Debt Service | 184,434 | | | |
| Proprietary | 2,321 | | | |
| Fiduciary | | 44,412 | | |
| | \$ 459,861 | \$ 459,861 | | |

17. CONTINGENCIES

The School District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the School District may be required to reimburse the grantor government.

At June 30, 2016, significant amounts of grant expenditures have not been audited by the granting agency, but the School District believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the School District. Additionally, deferred revenues are recognized in those funds that have received grant monies in advance of future, reimbursable expenditures.

18. DEFICIT FUND BALANCES

The District has a deficit of \$186,118 in the Capital Projects Fund as of June 30, 2016. This deficit is the result of the District utilizing temporary financing to fund expenditures for certain capital projects. As the District permanently finances these appropriations the District will realize as revenues the proceeds of the financing. This deficit does not indicate that the District is facing financial difficulties and is a permitted practice under generally accepted accounting principles.

19. DEFICIT UNRESTRICTED NET POSITION

As of June 30, 2016, a deficit of \$7,492,346 existed in the Unrestricted Net Position of the Governmental Activities. A reconciliation of Unreserved Fund Balance reported on Exhibit B-1 to Unrestricted Net Position reported on Exhibited A-1 as follows:

| Balances June 30, 2016 | |
|---|-------------------|
| Fund Balance (Deficit) | |
| (Exclusive of Capital Projects and Debt Service Funds): | |
| Fund Balance – Unassigned | \$ 650,447 |
| Liabilities: | |
| Accrued Interest Payable | (190,576) |
| Net Pension Differences | (6,751,037 |
| Compensated Absences | (1,201,180) |
| Unrestricted Net Position (Deficit) | \$ (7,492,346) |

20. FUND BALANCES

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund:

Excess Surplus – In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund, fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2016 is \$464,848 presented on the budgetary basis of accounting (Exhibit C-1). Additionally, \$515,396 of excess fund balance generated during the 2014-2015 fiscal year has been restricted and designated for utilization in the 2016-2017 budget.

Capital Reserve – As of June 30, 2016, the balance in the capital reserve account is \$1,339,992 which is restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan.

Maintenance Reserve Account – As of June 30, 2016, the balance in the maintenance reserve account is \$400,000. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701).

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund:

Other Purposes – At June 30, 2016 the School District has \$48,505 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

20. FUND BALANCES (Continued)

Capital Projects Fund:

Other Purposes – At June 30, 2016 the School District has \$809 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

Debt Service Fund:

Designated for Subsequent Year's Expenditures – The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2016, \$654 of debt service fund balance.

UNASSIGNED

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund – As of June 30, 2016, \$650,447 of general fund balance was unassigned.

Capital Projects Fund – As of June 30, 2016, the unassigned fund balance of the capital projects fund balance was a deficit \$186,927.

Debt Service Fund - As of June 30, 2016, \$184,934 of debt service fund balance was unassigned.

21. SUBSEQUENT EVENTS

On September 14, 2016, the District issued School Bonds in the amount of \$35,251,000. The bonds are being issued to undertake various capital improvements to the District's Schools. The bonds bear interest rates of 2.00% to 3.00% with principal maturities from September 1, 2018 through September 1, 2036.

Haddonfield School District Notes to Required Supplementary Information Pension Schedules For the Fiscal Year Ended June 30, 2016

1. Teacher's Pension and Annuity Fund (TPAF)

Changes of benefit term: The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Changes of assumptions: Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Preretirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

1. Public Employees' Retirement System (PERS)

Changes of benefit term: The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Changes of assumptions: Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

Source: Municipal Tax Collector

Note:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation Taxable.

b Rates for debt service are based on each year's requirements.

| Haddonfield School District Direct Debt | | | 15,496,000 |
| Total direct and overlapping debt | | | \$ 49,069,781 |

Sources: Assessed value data used to estimate applicable percentages provided by the Camden County Board of Taxation.

Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Haddonfield. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value. REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE AND SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE AS REQUIRED BY NEW JERSEY TREASURY CIRCULAR OMB 15-08

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Haddonfield School District County of Camden Haddonfield, New Jersey

Report on Compliance for Each Major Federal and State Program

I have audited Haddonfield School District (School District), in the County of Camden, State of New Jersey's compliance with the types of compliance requirements described in the *OMB Compliance Supplement*, and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2016. The School District's major federal and state programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal and state statutes, regulations, and the terms and conditions of its federal awards and state financial assistance applicable to its federal and state programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the School District's major federal and state programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and New Jersey Treasury Circular OMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Those standards, Uniform Guidance and New Jersey Treasury Circular OMB 15-08 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal and state program. However, my audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal and State Program

In my opinion, the Haddonfield School District, in the County of Camden, State of New Jersey complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the Haddonfield School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey Treasury Circular OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Haddonfield School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the New Jersey Treasury Circular OMB 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08

I have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Haddonfield School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements. I issued my report thereon dated September 15, 2016, which contained unmodified opinions on those financial statements. My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by the Uniform Guidance and schedule of expenditures of state financial assistance as required by New Jersey Treasury Circular OMB 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

This report is intended for the information of the Board of Education, the New Jersey Department of Education, and Federal awarding agencies.

The accompanying Notes to Schedules of Expenditures of Awards and Financial Assistance are an integral part of this schedule.

Haddonfield School District Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance For the Fiscal Year Ended June 30, 2016

I. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all federal awards and state financial assistance programs of the Board of Education, Borough of Haddonfield School District. The Board of Education is defined in Note I to the School Districts basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when the expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is (\$10,177) for the general fund and \$-0- for the special revenue fund. See Exhibit C-3, Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Expenditures from awards and financial assistance revenues are reported in the School District's basic financial statements on a GAAP basis as follows:

| | Federal | State | Total | | |
|-------------------------------------|------------|--------------|--------------|--|--|
| General Fund | \$ | \$ 5,086,436 | \$ 5,086,436 | | |
| Special Revenue Fund | 775,804 | 315,660 | 1,091,464 | | |
| Food Service Fund | 32,849 | 1,747 | 34,596 | | |
| Total Awards & Financial Assistance | \$ 808,653 | \$ 5,403,843 | \$ 6,212,496 | | |

Haddonfield School District Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance For the Fiscal Year Ended June 30, 2016 (Continued)

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the School District for the year ended June 30, 2016. TPAF Social Security Contributions represents the amount reimbursed by the State for the School District's share of social security contributions for TPAF members for the year ended June 30, 2016.

6. MAJOR PROGRAMS

Major programs are identified in the Summary of Auditor's Results section of the Schedule of Findings and Questioned Costs.

7. ADJUSTMENTS

Amounts reported in the column entitled "Adjustments" represent the following:

| | <u>F</u> | ederal |
|---------------------------------------|----------|--------|
| Cancelation of Accounts Receivable | \$ | 4,732 |
| Total | \$ | 4,732 |

Section 2 -- Schedule of Financial Statement Findings

This section identifies the significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the financial statements in accordance with Government Auditing Standards.

Finding #2016-001

Criteria or specific requirement:

N.J.A.C. 6A:23-16.12 and good internal control require supporting documentation for cash all receipt and disbursements.

Condition:

Community Education/Adult School cash receipts supporting documentation was not maintained and approvals were lacking for payment of instructors.

Context:

Community Education/Adult School receipts tested did not have supporting documentation and no approvals were available for instructors salaries.

Effect:

The District did not comply with N.J.A.C. 6A:23-16.12.

Cause:

Unknown.

Recommendation:

That supporting documentation is maintained for all Community Education/Adult School receipts and expenditures.

View of Responsible Officials and Planned Corrective Action:

The responsible officials agree with the finding and will address the matter as part of their corrective action plan.

Section 2 -- Schedule of Financial Statement Findings (Continued)

Finding #2016-002

Criteria or specific requirement:

The internal Revenue Service requires that all employee compensation is included in gross payroll.

Condition:

One employee was paid a stipend from the Middle School Activity Fund-

Context:

The Middle School Student Activity Fund paid a stipend of \$1,289.

Effect:

The District did not comply with Internal Revenue Service regulations-

Cause:

Unknown.

Recommendation:

That all employee compensation is included in gross payroll.

View of Responsible Officials and Planned Corrective Action:

The responsible officials agree with the finding and will address the matter as part of their corrective action plan.

Section 3 -- Schedule of Federal Awards and State Financial Assistance Findings and Questioned Costs

This section identifies audit findings required to be reported by 2 CFR 200 section .516 of the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award* and NJOMB Circular Letter 15-08, as applicable.

FEDERAL AWARDS:

No findings and/or questioned costs identified.

STATE AWARDS:

No findings and/or questioned costs identified.

HADDONFIELD SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR-YEAR AUDIT FINDINGS AND QUESTIONED COSTS AS PREPARED BY MANAGEMENT

This section identifies the status of prior year findings related to the basic financial statements and federal and state awards that are required to be reported in accordance with Chapter 6.12 of Government Auditing Standards, USOMB Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards and NJOMB's Circular 14-04 and/or 15-08, as applicable.

FINANCIAL STATEMENT FINDINGS

There were no prior year audit findings

FEDERAL AWARDS

There were no prior year audit findings.

STATE AWARDS

There were no prior year audit findings.
