Honorable President and
Members of the Board of Education
Lacey Township Board of Education
County of Ocean
200 Western Blvd.
Lanoka Harbor, New Jersey 08734

Dear Board Members:

The comprehensive annual financial report of the Lacey Township Board of Education for the fiscal year ended June 30, 2016, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Lacey Township Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditors report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act and Title 2 U.S. Code of Federal Regulations (DFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and the state Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) **REPORTING ENTITY AND ITS SERVICES:** Lacey Township Board of Education is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by GASB 23. All funds and account groups of the District are included in this report. The Point Lacey Township Board of Education and all its schools constitute the District's reporting.

The District provides a comprehensive full range of educational services appropriate to grade levels K through 12. These include regular, as well as special education for handicapped youngsters. The District completed the 2015-2016 fiscal year with an average daily enrollment of 4,176 students, which is 239 students below the previous year's enrollment. The following details the changes in the student enrollment of the District over the last five years.

Average Daily Enrollment

2010-2011	4,719	1.36%
2011-2012	4,783	-1.36%
2012-2013	4,718	-1.42%
2013-2014	4,563	-1.89%
2014-2015	4,415	-3.24%
2015-2016	4,176	-5.41%

2) **ECONOMIC CONDITION AND OUTLOOK:** A substantial portion of Lacey Township is still available for development but Pinelands Legislation passed in 1979 has limited residential construction west of the Garden State Parkway. Growth, however, as measured by new residential construction, has leveled off in the last few years. The Oyster Creek Nuclear Power Generating Plant, located in the community, has contributed funds to relieve taxes. Although many residents moved to Lacey to take advantage of the favorable tax scenario, the potential of the Oyster Creek Facility to contribute to tax relief has diminished in recent years. Lacey, however, continues to be a desirable place to live due to its still relatively low tax rate, its proximity to the water and its accessibility to major roadways such as the Garden State Parkway, Route 9, and Route 70, making it convenient for commuters.

3) **MAJOR INITIATIVES:** The State Department of Education conducted the Quality Single Accountability Continuum (QSAC) of the Lacey Township School District pursuant to the requirements of N.J.A.C. 6A:30. Upon completion of the QSAC process, the district was certified in July 2012, pursuant to N.J.A.C. 6A:30-4.1 ©, to continue operation as a public school district for a period of three years or until the district's next QSAC review.

4) **INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable

assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state awards, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital project fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2016.

6) ACCOUNTING SYSTEMS AND REPORTS: The District's accounting records reflect generally accepted accounting principles (GAAP), as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7) FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. Readers should refer to the Management's Discussion and Analysis for a summary of the financial statements in relation to the prior year.

8) DEBT ADMINISTRATION: At June 30, 2016, the District's outstanding debt issues included \$31,190,000 of general obligation bonds. In June 1989, the District issued \$8,492,000 in bonds to complete various renovations. In November 1996, the District issued \$16,790,000 in bonds to construct a new 7/8 grade school, the proceeds of which we placed in the District's Capital Projects Fund. In April 2001, the District issued general obligation bonds in the amount of \$24,722,000. The proceeds of this bond issue were placed in the District's Capital Projects Fund for use to provide funds for renovations, replacement and additions to the Lacey Township High School, and

elementary schools. In February 2005, the Board of Education had a partial refinancing of the 1996 Series Bonds. The Board issued \$10,095,000 of general obligation refunding bonds Series 2005 to retire \$11,290,000 of the Series 1996 Bonds. The refunding resulted in a net economic gain to the District of \$1,195,000, which will be recognized over the life of the reissue. In February 2006, the Board of Education had a partial refinancing of the 2001 Series Bonds. The Board issued \$24,625,000 of general obligation refunding bonds Series 2006 to retire \$23,370,000 of the Series 2001 Bonds. The refunding resulted in a net income gain to the district of \$976,896, which will be recognized over the life of the reissue. In May 2009, the District issued \$19,806,000 in Series 2009 Bonds for solar panels on all the schools, window replacement at Forked River and Lanoka Harbor Elementary Schools, roof replacement at Lanoka Harbor Elementary School and boiler replacements at Forked River Elementary. The proceeds of this bond were placed in the District's Capital Projects Fund. In 2016, the Board of Education had a refinancing of the Series 2006 bonds. The Board issued \$16,090,000 of general obligation refunding bonds Series 2016 to retire \$17,770,000 of the Series 2006 bonds.

9) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

10) RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

11) OTHER INFORMATION: Independent Audit: State statutes require an annual audit by independent certified public accountants or registered municipal accounts. The accounting firm of Jump, Perry and Company, L.L.P., was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1996, and the related Uniform Guidance and state Treasury Circular Letter 15-08. The auditor's reports on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

12) ACKNOWLEDGEMENTS: We would like to express our appreciation to the members of the Lacey Township Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our fiscal operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting.

Respectfully submitted,

Craig D. Wigley

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable President and
Members of the Board of Education
Lacey Township School District:
County of Ocean
Lanoka Harbor, New Jersey

Report of the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lacey Township School District in the County of Ocean, State of New Jersey, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lacey Township School District in the County of Ocean, State of New Jersey as of June 30, 2016 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as presented in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lacey Township School District's basic financial statements. The introductory section, combining fund financial statements and schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and are also not a required part of the basic financial statements.

The combining fund financial statements and schedules and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and schedules and the schedule of expenditures of federal and state awards are fairly stated, in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 14, 2016 on our consideration of the Lacey Township School District in the County of Ocean, State of New Jersey internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lacey Township School District in the County of Ocean, State of New Jersey internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION - PART I

Lacey Township Board of Education
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

Unaudited

The following discussion and analysis of the Board of Education of the Lacey Township School District's financial performance provides an overview of the District's financial activities for the year ended June 30, 2016. Please read it in conjunction with the letter of transmittal, beginning on page 1, and the financial statements, which begin on page 18.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic Financial Statements. The District's basic Financial Statements comprise three components: (1.) District-wide Financial Statements, (2.) Fund Financial Statements, and (3.) Notes to the Financial Statements. This report contains required supplementary information and other supplementary information in addition to the basic Financial Statements themselves.

District-wide Financial Statements: The District-wide Financial Statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private sector business.

The Statement of Net Position (A-1) presents information on all of the assets and liabilities of the District, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities (A-2) presents information showing how the net assets of the District changes during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements: A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary or fiduciary.

Governmental Funds - are used to account for essentially the same functions reported as governmental activities in the District-wide Financial Statements. However, unlike the District-wide Financial Statements, Governmental Fund Financial Statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluation the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the District-wide Financial Statements, it is useful to compare the information presented for governmental funds with similar statements. By so doing, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds: the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund. All are considered to be major funds. The basic governmental fund financial statements can be found as Exhibits B-1 through B-3 in this report.

Proprietary Funds - The District maintains one proprietary fund - an Enterprise Fund. The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the District is that the costs of providing the goods or services be financed through user charges. Included in the Enterprise Fund are the Food Services and Community Education. The basic Proprietary Fund statements can be found as Exhibits B-4 through B-6.

Fiduciary Funds - are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the District-wide Financial Statements because the resources of those funds are not available to support the District's own programs. The District uses trust and Agency Funds to account for resources held for student activities and groups and for payroll transactions. The basic Fiduciary Fund Statements can be found as Exhibit B-7.

Notes to the Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the District-wide and Fund Financial Statements. The notes to the Financial Statements can be found after the Fund Statements in this report.

District-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The following table provides a summary of net assets at June 30:

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget is comprised solely of the June 30, 2015 encumbrances, which 'roll-over' into the subsequent year's budget (2015-2016) and are added to the original budget appropriations.

Throughout the year, as necessary, budget transfers are effectuated between budget accounts to realign the 2015-2016 budget.

Capital Assets

At June 30, 2016, the District had net capital assets of \$44,938,381, a decrease of \$2,076,474 due primarily to 2015-2016 depreciation expense. The capital asset amount is comprised of: Buildings - \$85,005,521, machinery and equipment - \$21,048,681, and land & site improvements - \$163,472. These capital assets are shown net of accumulated depreciation of \$61,279,293.

Contacting the District's Financial Management

The District's Financial Report is designed to provide citizen groups, taxpayers, parents, students, other local officials, and investors and creditors with a general overview of the District's finances to show the District's accountability for the money it receives. Questions regarding this report can be addressed to Mr. Patrick S. DeGeorge, Business Administrator/Board Secretary, Lacey Township School District, 200 Western Boulevard, Lanoka Harbor, New Jersey 08734.

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2016

Total net change in fund balances - governmental funds (from B-2)	\$	243,576
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.		
Depreciation expense	(2,557,417)	
Capital outlays	<u>484,853</u>	(2,072,564)
In the Statement of Activities, the PERS pension expense is the amount paid plus net change in the Deferred Outflows, Deferred Inflows and pension liability as reported by the State of New Jersey		367,905
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.		2,810,000
In the Statement of Activities, the amortization of bond premiums is recorded as interest expense. In the governmental funds, the amortization is not recorded and this change had no effect.		178
In the Statement of Activities, the bond premium is reclassified as a liability. In the governmental funds, the premium is recorded as a source of funds.		(2,157,124)
In the Statement of Activities, the bond issuance costs are reclassified as an asset. In the governmental funds, the premium is recorded as a use of funds.		161,538
The receipt of bond principal is an other financing sources in the governmental funds, but it increases long-term liabilities in the statement of net position and should not be reported in the statement of activities.		(16,090,000)
The payment of bond principal is an other financing use in the governmental funds, but it decreases long-term liabilities in the statement of net position and should not be reported in the statement of activities.		17,770,000
In the Statement of Activities, the principal payments on capital leases are recorded as a reduction in the long-term liability. In the governmental funds, the payments is an expenditure.		112,175
New leases are not reflected in this funds financial statements as a liability, the purchase is recorded in the statement of activities.		(364,587)
In the Statement of Activities, the amortization of bond issuance costs are recorded as interest expense. In the governmental funds, the amortization is not recorded.		(8,077)
In the Statement of Activities, the remaining amortization of bond issuance costs was written off and recorded as an increase in interest expense in accordance with the change in accounting principles. In the governmental funds, the amortization is not recorded and this change had no effect.		(579,262)
In the statement of activities, certain operating expenses, e.g., compensated absences (sick leave) and special termination benefits (early retirement incentive) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used, essentially, the amounts actually paid.		<u>50,480</u>

Lacey Township School District

Notes to Financial Statements

For the Year Ended June 30, 2016

1. Summary of Significant Accounting Policies

The Financial statements of the Board of Education ("Board") of the Lacey Township School District ("District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity

The Lacey Township School District is a Type II district located in the county of Ocean, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of seven members elected to three-year staggered terms. The purpose of the District is to educate students in grades K-12. The Lacey Township School District had an approximate enrollment of 4,281 students at June 30, 2016.

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

B. Component Units

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The district-wide financial statements include all funds and account groups of the District over which the Board exercises operating control. The operations of the District include elementary schools, junior and senior high schools located in Lacey Township. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

C. District-Wide and Fund Financial Statements

The district-wide financial statements (the statement of net position and the statement of activities) report information of all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these district-wide statements. District activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

1. Summary of Significant Accounting Policies (Cont'd)

C. District-Wide and Fund Financial Statements (Cont'd)

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. The District does not allocate general government (indirect) expenses to other functions.

Net position is restricted when constraints placed on it are either externally imposed or imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds and similar component units, and major component units. However, the fiduciary funds are not included in the district-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The School District has Bond Costs which have been classified as a Deferred Outflow and the Bond Premium has been classified as a Deferred Inflow. The School District has employees that are enrolled in a defined benefit plan operated by the State of New Jersey which creates deferred outflows and inflows as described in Note 11.

First implemented for the June 30, 2016 year-end, GASB Statement No. 72 Fair Value Measurement and Application, provides guidance for determining a fair value measurement for financial reporting purposes. The statement also provides guidance for applying fair value measurements. GASB Statement No. 72 paragraph 86 defines investment as, "a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash." SRECs are accounted for separately from the electricity savings that the solar system generates, providing an asset that the public school can exchange into spendable cash, another source of local revenue. Accordingly, beginning with the June 30, 2016 year-end, SRECs are subject to the financial reporting and footnote disclosure requirements of GASB Statement No. 72.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)

In June 2015, GASB issued Statement No. 74, Financial Reporting For Postemployment Benefits Other Than Pension Plans (Replaces GASB No. 43 and No. 57) and Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (Replaces GASB No. 45 and No. 57). The primary objective of these Statements is to improve accounting and financial reporting by state and local governments for postemployment benefits. It also improves information provided by state and local governmental employers about financial support for postemployment benefits that is provided by other entities. These Statements result from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for postemployment benefits with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The requirements of these Statements will improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports and will enhance its value for assessing accountability and interperiod equity by requiring recognition of the entire net postemployment benefit liability and a more comprehensive measure of benefits expense. The requirements of these Statements are effective for financial statements for periods beginning after June 15, 2016 (GASB No. 74) and June 15, 2017 (GASB No. 75). The effect of these new standards on the School District has not been measured.

District-Wide Statements - The district-wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These Statements include the financial activities of the overall District, except for fiduciary activities. All interfund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities, generally financed in whole or in part with fees charged to external customers.

Governmental Fund Financial Statements - The Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year-end. Principal revenue sources considered susceptible to accrual include federal and state grants, tuition and transportation. Other revenues are considered to be measurable and available only when cash is received by the state. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

E. Fund Accounting (Cont'd)

The accounts of the Lacey Township School District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. The various funds and accounts are grouped, in the financial statements in this report, into eight fund types within three broad fund categories and two account groups as follows:

Governmental Funds

General Fund - The general fund is the general operating fund of the Lacey Township School District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund. As required by the New Jersey Department of Education Lacey Township School District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, interest earnings and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for all proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

1. Summary of Significant Accounting Policies (Cont'd)

E. Fund Accounting (Cont'd)

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Proprietary Fund

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

Enterprise - The enterprise fund is used to account for the operations that are financed and operated in a manner similar to a private business enterprise. The costs of providing goods or services are financed primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the following:

- ◆ Food Service Fund - This fund accounts for the revenues and expenses pertaining to the District's cafeteria operations.
- ◆ Community Education - This fund accounts for the revenues and expenses pertaining to the District's community education program.

All Proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total position) is segregated into contributed capital and unreserved net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Revenues are divided into operating and non-operating revenues. Operating revenues consist of daily sales. Non-operating revenues consist of federal and state reimbursable revenues and interest income.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment & Vehicles	5 Years

1. Summary of Significant Accounting Policies (Cont'd)

E. Fund Accounting (Cont'd)

Fiduciary Funds

Fiduciary funds are used to account for assets held by a governmental entity for other parties (either as trustee or as an agent) and that cannot be used to finance the governmental entity's own operating programs which includes private purpose trust funds and agency funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the District:

Agency Funds are assets held by a governmental entity (either as trustee or as an agent) for other parties that cannot be used to finance the governmental entity's own operating programs. The District currently maintains Payroll funds as Agency Funds.

In accordance with GASB Statement 34, fiduciary funds are not included in the district-wide financial statements.

F. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and private purpose trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total position) is segregated into contributed capital and net position components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

1. Summary of Significant Accounting Policies (Cont'd)

F. Basis of Accounting (Cont'd)

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, private purpose trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and private purpose trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

G. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the County Office and are not voted upon in the annual school election. Budgets are prepared using the modified accrual basis of accounting, except for Special Revenue Fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C 6:20-2A.2(m)1. All budget amendments/transfers must be approved by Board resolution. Budget amendments during the year ended June 30, 2016 were insignificant.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund-types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

Lacey Township School District

For the Year Ended June 30, 2016

1. Summary of Significant Accounting Policies (Cont'd)

H. Encumbrances

Under Encumbrance Accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve and portion of the applicable appropriation. Open encumbrances in governmental funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances, are reflected in the Balance Sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

I. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. Statute 18A:2037 provides a list of permissible investments that may be purchased by school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

J. Investments

The required disclosures for investments carried at fair value on a recurring basis are detailed in Note 3. The Fair Value Measurements Topic of the Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date; Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; Level 3 inputs are unobservable inputs for the asset or liability. Management did not elect the fair value option for certain financial assets and financial liabilities, which were all eligible for the fair value option, since those instruments were not affected by changes in management's risk management and investment strategy.

K. Tuition Receivable/Payable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

These adjustments are recorded upon certification by the State Board of Education, which is normally three years following the contract year. The cumulative adjustments through June 30, 2016, which have not been recorded, are not determinable.

L. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, are recorded as an expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method.

M. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year. All interfund receivables and payables between the governmental and proprietary funds have been eliminated in the district-wide statements.

N. Capital Assets

General capital assets acquired or constructed during the year are reported in the applicable governmental or business-type activities columns in the district-wide financial statements.

Lacey Township School District

N. Capital Assets (Cont'd)

Capital assets are defined by the District as assets, which have a cost in excess of \$2,000 at the date of acquisition and a useful life of one year or more. Donated capital assets are valued at their estimated fair market value on the date received. The general capital assets acquired or constructed were valued by an independent appraisal company. General capital assets, such as land and buildings, are valued at the historical cost basis and through estimated procedures performed by an independent appraisal company, respectively. General capital assets are reflected as expenditures in the applicable governmental funds. Depreciation expense is recorded in the district-wide financial statements as well as the proprietary fund. Capital assets are depreciated on the straight-line method over the assets' estimated useful life. There is no depreciation recorded for land and construction in progress. Generally estimated useful lives are as follows:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Machinery & Equipment	3-20
Building & Other Improvements	7-60
Infrastructure	30

O. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that is attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In the District-Wide financial statements, under governmental activities, compensated absences are reported as an expenditure and noncurrent liabilities.

P. Unearned/Deferred Revenue

Unearned/Deferred revenue in the special revenue fund represents cash which has been received but not yet earned.

Q. Accrued Liabilities and Long-Term Obligations

All Payables, Accrued Liabilities, and Long-Term Obligations are reported on the District-wide financial statements. In general, governmental fund payables are accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Bonds are recognized as a liability on the fund financial statements when due.

R. Deferred Outflow of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has only one item that qualifies for reporting in this category which is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunded debt results from the difference in the carrying value of the refunded debt and its acquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

S. Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- ◆ Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.
- ◆ Restricted – Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- ◆ Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

T. Fund Balance Reserves

The fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

Lacey Township School District

Notes to Financial Statements

For the Year Ended June 30, 2016

1. Summary of Significant Accounting Policies (Cont'd)

T. Fund Balance Reserves (Cont'd)

1) Nonspendable – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.

2) Restricted – includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

3) Committed – includes amounts that can be spent only for the specific purposes determined by a formal action of the government's highest level of decision-making authority.

4) Assigned – amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed.

5) Unassigned – includes all spendable amounts not contained in the other classifications.

U. Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. Cash and Cash Equivalents

The District is governed by the deposit and investment limitations of New Jersey state law. The deposits and investments held at June 30, 2016, and reported at fair value are as follows:

Type Deposits:	Carrying Value
Demand deposits	\$1,628,767
Total deposits	<u>\$1,628,767</u>

The District's cash and cash equivalents are reported as follows:

Governmental Activities	\$ 205,646

Custodial Credit Risk Related to Deposits

Custodial Credit Risk is the Risk that, in the event of a bank failure, the Board's deposit may not be recovered. Although the Board does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local governmental agencies. The program is administered by the Commissioner of the New Jersey Department of Banking and Insurance. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Public funds owned by the Board in excess of FDIC insured amounts are protected by GUDPA.

However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds, or funds that may pass to the Board relative to the happening of a future condition. Such funds are shown as Uninsured and Uncollateralized in the schedule below.

At June 30, 2016, the Board's bank balances of \$2,825,597 were exposed to Custodial Credit Risk as follows:

	<u>2016</u>
Insured	\$ 250,000
Uninsured and Uncollateralized	1,287,433
Collateralized in the District's Name under GUDPA	<u>1,288,164</u>
Total	<u>\$ 2,825,597</u>

3. Investments

Fair values of assets and liabilities measured on a recurring basis at June 30, 2016 are as follows:

4. Capital Reserve Account

A Capital Reserve Account was established by the Lacey Township School District by inclusion of \$500,000 approved by the Board of Education in June 2016. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Capital Reserve Account are restricted to Capital Projects in the District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a district may deposit funds at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Post-April 2004 transfers must be in compliance with P.L. 2004, C.73 (S1701). Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the Account cannot at any time exceed the local support costs of uncompleted Capital Projects in its approved LRFP.

The activity of the Capital Reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

6. Contingent liabilities

Grant Programs

The school district participates in federal awards and state financial assistance grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

The Board is involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the District.

9. Pension Plans

Description of Systems

All required employees of the District are covered by either the Public Employees' Retirement System ("PERS"), the Teachers' Pension and Annuity Fund ("TPAF") or the Defined Contribution Retirement Program (DCRP) which have been established by State statute and are administered by the New Jersey Division of Pension and Benefits ("Division"). Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes the financial statements and required supplementary information. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund ("TPAF")

The Teachers' Pension and Annuity Fund was established as of January 1, 1955 under the provision of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The TPAF is considered a cost-sharing multiple-employer plan with a special funding situation as, under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the System's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are classified, professional, and certified.

For the year ended June 30, 2016, the District recognized pension expense of \$2,219,100 and revenue of \$2,219,100 for support provided by the State on the fund financials. These amounts are not included in the district-wide financials as required by GASB 68.

Teachers' Pension and Annuity Fund ("TPAF") (Cont'd)

At June 30, 2016, the District has no deferred outflow, deferred inflows or pension liability for the TPAF plan as all future costs are to be incurred by the State of New Jersey. As detailed in GASB 68 the District's proportionate share of the deferred outflows of resources and deferred inflows of resources and pension liability is required to be disclosed. These items are not included on the district-wide financials. The District's proportionate share is 0.2777601437% of the total plan. The information below was provided from the State of New Jersey June 30, 2015 audit of the TPAF fund and has been adjusted to the District's proportionate share:

Public Employees' Retirement System ("PERS")

The Public Employees' Retirement System was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

For the year ended June 30, 2016, the District recognized pension expense of \$907,245. As detailed in GASB 68 the District's proportionate share of the deferred outflows of resources and deferred inflows of resources and pension liability is required to be disclosed and recorded. These items are included on the district-wide financials. The District's proportionate share is 0.1017494056% of the total plan. The information below was provided from the State of New Jersey June 30, 2015 audit of the PERS fund and has been adjusted to the District's proportionate share. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>

Discount Rate

The discount rate used to measure the total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% as of June 30, 2015, based on Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2016 and 2015 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease (3.90 %)	Current Discount Rate (4.90 %)	1% Increase (5.90 %)
District's proportionate share of the net pension liability	28,388,199	22,840,703	18,189,722

Vesting and Benefit Provisions**

The vesting and benefit provisions for PERS are set by the N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:66 for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years or service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 6.78% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution included funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

Contribution Requirements (Cont'd)**

There was a current year contribution to the TPAF post-retirement medical benefits made by the state of New Jersey on behalf of the Board in the amount of \$4,861,435. The State did not make any normal contributions on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$2,028,719 during the fiscal year ended June 30, 2016 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the general-purpose financial statements, and the combining individual fund and account group statements and schedules as revenues and expenditures in accordance with Governmental Accounting Standards.

Defined Contribution Retirement Plan (DCRP)

The Defined Contribution Retirement Plan is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A.43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

The District's contributions to the DCRP for June 30, 2016 were \$8,055. The District's liability for unpaid contributions at June 30, 2016 were \$2,327.

Related Party Investments – The Division of Pensions and Benefits does not invest in securities issued by the School District.

10. Post-Retirement Benefits

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits of those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees eligible for post-retirement medical benefits, and the State

contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2015.

11. Deferred Compensation

The Board offers its employees a choice of Deferred Compensation Plans created in accordance with Internal Revenue Code Section 403(b). The Plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the Plans are not available to employees until termination, retirement, death or unforeseeable emergency. The Plan administrators are as follows:

Lincoln Investments	Equitable
The Legend Group	Metropolitan Life Insurance Co

12. Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table below is a summary of the District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and the prior year.

	<u>\$ 129,707</u>	<u>\$ 129,707</u>

14. Compensated Absences

The District accounts for compensated absences (e.g., sick leave) as directed by Governmental Accounting Standards. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions. The liability for vested compensated absences of the governmental fund types is recorded as a non-current liability in the governmental activities fund (see footnote 8).

15. Fund Balances

15. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L.2004, C.73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2016 is \$-. The excess fund balance at June 30, 2015 was \$-. Pursuant to the provisions of Executive Order No. 14, \$- of that amount was approved by the Commissioner of the Department of Education for withdrawal to address any budget shortfall in the general fund account group due to the 2015-16 withholding of state aid.

16. Uncertain Tax Positions

The school district had no unrecognized tax benefits at June 30, 2016. The school district files tax returns in the U.S. federal jurisdiction and New Jersey. The school district has no open year prior to June 30, 2013.

17. Subsequent Events

Management has evaluated subsequent events through November 14, 2016, the date the financial statements were available to be issued.

18. Prior Period Adjustment

During the year ended June 30, 2016 the beginning compensated absences payable balance has been restated to correct errors in reporting in the prior years. The net effect of the restatement was a decrease in compensated absences payable of \$2,124,589 and an increase in unrestricted net position of \$2,124,589.

Notes to Required Supplementary Information - Part III

For the Year Ended June 30, 2016

Assumptions

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	3.04 %
Salary increases: 2012-2021	2.15 - 4.40 % based on age
Thereafter	3.15 - 5.40 % based on age
Investment rate of return	7.90 %

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

SINGLE AUDIT SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable President and
Members of the Board of Education
Lacey Township School District
County of Ocean
Lanoka Harbor, New Jersey 08734

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Board of Education of the Lacey Township School District in the County of Ocean, State of New Jersey, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Board of Education of the Lacey Township School District basic financial statements, and have issued our report thereon dated November 14, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered of the Lacey Township School District in the County of Ocean, State of New Jersey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Board of Education of the Lacey Township School District in the County of Ocean, State of New Jersey's internal control. Accordingly, we do not express an opinion on the effectiveness of Board of Education of the Lacey Township School District internal control.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lacey Township School District financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW
JERSEY OMB CIRCULAR 15-08**

Honorable President and
Members of the Board of Education
Lacey Township School District
County of Ocean
Lanoka Harbor, New Jersey 08734

Report on Compliance for Each Major Federal and State Program

We have audited the Lacey Township School District's compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey OMB Circular 15-08 that could have a direct and material effect on each of Lacey Township School District's major federal programs for the year ended June 30, 2016. Lacey Township School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Lacey Township School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, the Uniform Guidance and the New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Lacey Township School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Lacey Township School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, Lacey Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of Lacey Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Lacey Township School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state programs to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the New Jersey OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.. Accordingly, we do not express an opinion on the effectiveness of Lacey Township School District's internal control over compliance.

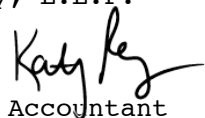

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey State OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Lacey Township School District

Notes to Schedules of Awards and Financial Assistance

June 30, 2016

1. General

The accompanying schedules of expenditures of award present the activity of all federal and state awards of the Board of Education, Lacey Township School District. The Board of Education is defined in Note 1(A) to the Board's general purpose financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies are included on the schedules of expenditures of federal and state awards.

2. Basis of Accounting

The accompanying schedules of expenditures of federal and state awards are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements.

3. Relationship to General Purpose Financial Statements

Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97.(A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

3. Relationship to General Purpose Financial Statements (continued)

Relationship to Basic Financial Statements (continued)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(2,196,456) for the general fund and \$231,741 for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the general and special revenue fund. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented below:

	<u>Federal</u>	<u>State</u>	<u>TPAF</u>	<u>Total</u>
General Fund	\$ 88,968	26,585,802	(4,861,435)	21,813,335
Special Revenue Fund	1,838,328	-	-	1,838,328

4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. Other

TPAF Social Security and Post Retirement/Medical Benefits Contributions represent the amounts reimbursed by the State for the employer's share of social security contributions and Post Retirement/Medical Benefits for TPAF members for the year ended June 30, 2016.

The TPAF post retirement/medical benefits expenditures are not subject to New Jersey OMB Circular 15-08.
