November 21, 2016

Honorable President and Members of the Board of Education Monroe Township School District County of Middlesex, New Jersey

Dear Board Members:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) of the Monroe Township School District (District) for the fiscal year ended June 30, 2016. This CAFR includes the District's Basic Financial Statements prepared in accordance with Governmental Accounting Standards Board Statement (GASB) 34. The District is required to adopt this financial reporting model which we believe will provide all users of this document with useful financial and statistical information. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education ("The Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. This report will provide the taxpayers of the Monroe Township School District with comprehensive financial data in a format enabling them to gain an understanding of the School District's financial affairs.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a table of contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the School District.
- The Financial Section begins with the Independent Auditors' Report and includes the Managements Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the School District's financial position and operating results, and other schedules providing detailed budgetary information.
- The Statistical Tables (Section) includes selected data on Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information and Operating Information of the School District, generally presented on a multi-year basis.

The Single Audit Section – The District is required to undergo an annual audit in conformity with the provisions of the Title 2 US Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit including the independent auditor's report on compliance for each major federal and state program and report on internal control over compliance along with findings and questioned costs if any, is included in the single audit section of this report.

1) <u>SCHOOL DISTRICT ORGANIZATION</u>: Located in Middlesex County, the Monroe Township School District receives children from Monroe Township grades Pre K through 12 and Jamesburg Borough for grades 9 through 12. The district provides education to 6,334 students. Regarding Monroe Township, the municipality contains a land area of approximately 41.94 square miles.

An elected 10 member Board of Education including the Jamesburg representative member (The "Board") serves as the policy maker for the School District. The Board adopts an annual budget and directly approves all expenditures which serve as the basis for control over and authorization for all expenditures of School District tax money.

The Superintendent is the Chief Executive Officer of the School District, responsible to the Board for total educational and support operations. The Board Secretary is the Chief Financial Officer of the School District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the School District, acting as custodian of all School District funds, and investing idle funds as permitted by New Jersey law.

2) <u>REPORTING ENTITY</u>: Monroe Township School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement 14. All funds of the District are included in this report. The Monroe Township Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular, vocational and special education. The District completed the 2015-2016 fiscal year with an average daily enrollment of 6,492 students which is 158 students above the previous year's average daily enrollment. The following details the changes in the average daily enrollment of the District over the last teb (10) years.

Fiscal Year	Average Daily Enrollment	Percent Change
2015 - 16	6,492	2.50%
2014 - 15	6,334	3.21%
2013 - 14	6,137	1.74%
2012 - 13	6,032	2.81%
2011 - 12	5,867	3.64%
2010 - 11	5,661	2.83%
2009 - 10	5,505	2.30%
2008 - 09	5,381	4.74%
2007 - 08	5,137	4.05%
2006 - 07	4,937	5.69%

3) <u>MAJOR INITIATIVES</u>: The Monroe Township Board of Education commits itself to all children by preparing them to reach their full potential and to function in a global society through a preeminent education. The Monroe Public Schools in collaboration with the members of the community shall ensure that all children receive an exemplary education by well-trained committed staff in a safe and orderly environment. Our belief is that all decision are made on the premise that children come first.

The district is experiencing huge growth in our enrollment which challenges our classrooms. The State of NJ has revised the New Jersey Common Core Standards and we are revising our curriculum to adhere to those standards as well as incorporating College and Career Ready Practices. All classrooms use resources and curriculum to prepare students for statewide assessment as well as prepare students for college and career. Additional offerings include but are not limited to an evolving definition of balanced literacy and readers and writers workshop models, a developing online formative assessment system, and the continuation of a 1:1 iPad learning device environment at our high school. Technology is available and utilized throughout the K-12 classrooms and teachers follow the technology standards to ensure that all students are introduced and have adequate time to practice skills. The Gifted and Talented program for grades K-8 will continue in 2016-2017 which includes after school programs for eligible students as well as the inclusion of the cluster grouping program from grades three through five. The district revised and wrote 50 curricula for courses to align to the new standards. Additionally, the use of formative assessments such as DRA2 and online assessments will allow our teachers to prepare their instruction appropriately to meet the needs of each individual learner. At the high school level, we are focusing efforts to partner with colleges and corporations to bring opportunities to our students. Throughout our district, teachers focus on integration of subject areas through STEM, Science, Technology, Engineering, and Mathematics.

The Monroe Township School District hires new teachers each year primarily due to growing enrollment. We have developed and implemented the mentoring/induction program which provides five tiers of support: 1) All new novice teachers attend a structured four-day New Teacher Orientation and receive instruction in planning, preparation, classroom management, instructional strategies, and district policies; 2) All new novice teachers receive an experienced mentor and all mentors receive formal training on adult learning theory and mentoring techniques; 3) New teachers attend the district-wide New Teacher Roundtables once a month; 4) The district staff developers conduct informal classroom observations and feedback sessions for every new teacher; 5) All new novice teachers participate in a five-day structured professional development program throughout the year that addresses specific concerns related to the first year of teaching. All teachers stay together as a professional learning for all non-certified staff including substitute teachers, paraprofessionals and bus drivers.

The district is continuing a major initiative in the form of AVID which stands for Advancement Via Individual Determination. Each word is an integral part of guiding our students towards being ready for a rich college experience if they choose this path in their lives. The program focuses heavily on literacy skills that will enable students to become stronger learners. There are several specific strategies that can be used by all teachers with our students that will be in place throughout the school year. These include the use of Cornell Note-Taking, WICOR (Writing, Inquiry, Collaboration, Organizational, and Reading) strategies, and Costa's levels of questioning (comparable to Bloom's taxonomy of how people learn). The success of the program is based on 11 essentials that need to be implemented for AVID to be successful in a school district. They are as follows:

- i. Students are selected from the middle and would benefit from AVID support to improve their academic records and begin college preparation.
- ii. Student and teacher participation is voluntary.
- iii. The school is committed to full implementation: AVID is scheduled as an academic elective.
- iv. AVID students are enrolled in a rigorous curriculum.
- v. A strong, relevant writing and reading curriculum is a basis for learning in the AVID elective class.
- vi. Inquiry is used as a basis for instruction in the AVID classroom.
- vii. Collaboration is used as a basis for instruction in the AVID classroom.
- viii. Trained tutors regularly facilitate student access to rigorous curriculum using AVID methodologies.
- ix. Program implementation and student progress are monitored through the AVID Data System and results are analyzed to ensure success.
- x. The school or district identifies resources for program costs, supports the Essentials, participates in certification, and commits to AVID staff development.
- xi. Active, interdisciplinary site teams collaborate on issues of access to and success in rigorous college preparatory classes.

We have currently become certified at both of our sites as we begin to look at school wide implementation over the next several years at the elementary, middle and high school levels. Our goal is to train all teachers in the AVID strategies as they use best practices to engage and instruct students.

The district is moving forward with its STEAM initiative. Our supervisor of fine and technical arts, in collaboration with the high school teachers, has obtained certification with Project Lead the Way (PLTW), the nation's leading provider of science, technology, engineering, and math (STEM) programs. Through world-class K-12 curriculum, high-quality teacher professional development, and outstanding partnerships, PLTW is helping students develop the skills needed to succeed in the global economy. We are looking to coordinate our curriculum to include STEAM projects throughout the disciplines.

During the 2015-2016 school year, the Monroe Township School District continued its' professional development program for all staff. The program is differentiated to meet the needs of teachers at different career stages. The program included 18 year-long structured courses for our teachers and a strong induction program for our first, second, and third year teachers. Teaching staff with four or more years experience are allowed to develop classroom-based, instructionally focused projects. Project structures include Peer-Coaching, Lesson Study, Action Research, and self-created projects. They complete a summary form at the end of the year to describe what they learned, how it impacted their students, and any changes they plan for the coming school year. Coaching and ongoing professional development for our administrative team is critical towards the successful implementation of the above-mentioned initiatives.

4) <u>FINANCIAL INFORMATION</u>: Internal Accounting and Budgetary Control: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. The internal control system is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to major federal and state awards, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project-length budgets are approved for the capital improvements accounted in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at fiscal year end.

5) <u>DEBT ADMINISTRATION</u>: Under provisions of New Jersey statutes, school districts may not incur indebtedness greater than 4% of the average equalized valuation of taxable property. At June 30, 2016 the District's outstanding debt issues are well below the legal debt margin. The District continues to be committed to providing the debt rating agencies and all other interested parties with annual audited financial statements and other pertinent credit information relevant to our outstanding securities.

6) <u>FINANCIAL STATUS</u>: The Business Administrator and the Finance Committee continue to guide the District with fiscal prudence while working within the limitations imposed by the state's 2% cap on the annual increase of the tax revenue collected from Monroe Township. The business office utilizes purchasing co-operatives, state contracts and bids to purchase the materials needed to operate the District at the lowest possible price.

7) <u>INDEPENDENT AUDIT</u>: State statutes require an annual audit by independent certified public accountants. Gerard Stankiewicz CPA, PSA of the firm of Samuel Klein and Company was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Title 2 US *Code of Federal Regulations* (CFR) *Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* The auditor's reports related specifically to the single audit are included in the single audit section of this report.

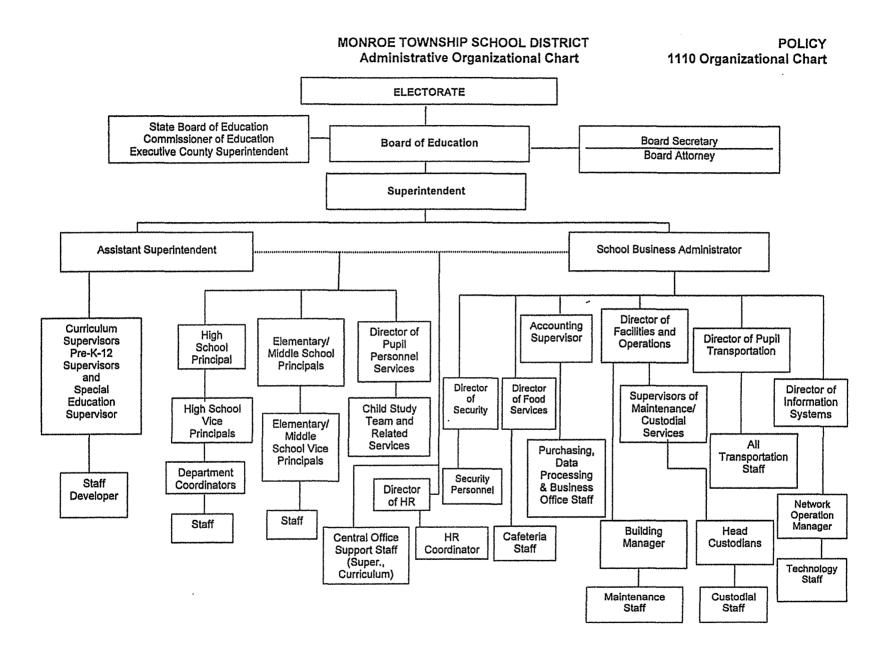

8) <u>ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Monroe Township School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. Additionally, the preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Dr. Michael G. Kozak Superintendent of Schools

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Monroe Township Board of Education County of Middlesex, New Jersey

Report on the Financial Statement

We have audited the accompanying financial statements of the governmental activities, the business type activities each major fund and the aggregate remaining fund information of the Board of Education of the Monroe Township School District, County of Middlesex, State of New Jersey, as of and for the year ended June 30, 2016 and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities each major fund and the aggregate remaining fund information of the Board of Education of the Monroe Township School District, as of June 30, 2016, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis and Budgetary Comparison Information and schedule of the District's proportionate share of the net pension liability-PERS, schedule of District contributions, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Monroe Township School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Division of Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by US Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Audits of States, Local Governments, and Non-Profit Organizations* and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid,* respectively, and the other information such as the introductory and statistical sections are presented for purposes of addition such as the introductory and statistical sections.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

The accompanying combining statements and the Schedule of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining statements and Schedule of Expenditures of Federal Awards and State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information identified above has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2016, on our consideration of the Board of Education of the Monroe Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Monroe Township School District internal control over financial reporting compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

UNAUDITED

Management's Discussion and Analysis

The discussion and analysis of Monroe Township School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34- Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain comparative information between the current year (2015-2016) and the prior year (2014-2015) is required to be presented in MD&A. The District has elected to prepare comparative data which includes prior year's financial statements.

Overview of Financial Statements

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and supplementary information and other information in addition to the basic financial statements themselves.

Financial Highlights

Key financial highlights for 2015-2016 are as follows:

• The District was awarded \$2,755,488 in General Fund State Aid revenue which was unchanged from the 2014-2015 award and with the exception of additional awards for PARCC Readiness and Growth Aid totaling \$117,960, is the same as the 2013-2014 and 2012-2013 awards.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

UNAUDITED – (CONTINUED)

- Through the effective management of the budget, including significant cost savings measures recognized in the year ended June 30, 2016, the district was able to grow excess surplus by \$1,154,489 million dollars from the preceding year which, as per statute, carries over as a revenue source to the 17-18 budget.
- The District continues to experience consistent significant student enrollment growth. After a successful redistricting of students in September of 2015 which efficiently re-balanced the number of students in each elementary school attendance zone, The Board President formed an Ad Hoc Committee for Growth and Facilities named The Student Growth Advisory Committee. The six month community project concluded with its spokesman reporting to their recommendations to the Board and the Board adopting the following resolution on June 15th 2016: (1) Acknowledge receipt of the recommendations of the Student Growth Advisory Committee; and (2) Authorize and direct District Administration to engage in a limited design study for a potential referendum project, subject to further deliberations and recommendations by the Building & Grounds/Transportation Committee and the Finance Committee and ultimately for deliberation and consideration by the full Board.

Additionally, at the public meeting on July 27, 2016, after a recommendation by the Superintendent of Schools, The board adopted the following resolution: (1) Direct District Administration to proceed with referendum planning regarding the building of a new elementary school and a new middle school on the land, which will be transferred by the Township to the Board and an addition to the high school; and (2) Authorize District Administration to solicit proposals for the proposed referendum project from professionals, including the Board's Architect, Bond Counsel and Financial Advisor for further deliberations and recommendations by the Building & Grounds/Transportation Committee and the Finance Committee and ultimately for deliberation and consideration by the full Board.

- Although the constrictive tax levy cap has prevented many school districts in the State from budgeting for capital outlay projects within the budget, the District effectively managed to include a significant renovation to the Monroe Township Middle School creating eleven additional classrooms required for enrollment growth, as a capital outlay projects in the Budget with a total net budget cost of \$1,914,000. The District applied for a ROD Grant from the State of NJ which will could have reimbursed the District 40% of the eligible costs but the project was denied and consequently the entire renovation was paid for with District funds.
- The District eliminated all portable classroom trailers from use by the conclusion of the 2015-2016 school year. At the peak, eighty-nine portable classroom units were rented and deployed through the District and their elimination saves 1.5 million dollars per year in rental payments.
- Employee Health Insurance is one of the largest line items in most school districts budgets. Through very aggressive negotiations with insurance carriers, The District was successful in reducing the original proposal from Horizon from an 11.41% premium increase down to a 7.69% premium increase saving \$1,700,000 in costs and after employee contributions toward health insurance exceeding \$1,070,678 dollars, the net increase to the budget was only 2.8%.
- The District has recognized savings exceeding \$2,000,000 since entering into a cooperative purchasing management program in May of 2011.

- On June 30, 2015, the Board ended operations and closed the Monroe Employee Child Care Academy (MECA) proprietary fund which provided child care services to employees. The Board took this action for reasons of economy, budgetary considerations, restructuring of program components in the District and for other good cause.
- The Board resolved and directed administration to create an in-house before and after school program, named Falcon Care, which opened in September of 2015, as a new proprietary fund program. It complements the other remaining proprietary fund program, Early Childhood Enrichment. For the year ended June 30, 2016, Falcon Care and Early Childhood Enrichment programs had profit of \$414,111 and \$116,097 respectively which exceeded expectations.
- The District is in compliance with S1701 in regards to designated and undesignated reserves.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Monroe Township School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole school district, presenting both an aggregate view of the School District's finances and a longer term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of the Monroe School District, the General Fund is by far the most significant.

Reporting the School District as a Whole

Comparative Statement of Net Position and Comparative Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?". The Comparative Statement of Net Position and the Comparative Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and change to those position. This change in net position is important because it tells the reader that, for the school district as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Comparative Statement of Net Position and the Comparative Statement of Activities, the School District is divided into two kinds of activities:

Governmental Activities — All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Business Type Activities — This service is provided on a charge for goods or services basis to recover all the expenses of the goods and services provided. The Food Service and Childcare Initiative enterprise funds are reported as business activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund, special revenue fund and debt service fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 32-35 of this report.

UNAUDITED – (CONTINUED)

Proprietary Funds

The District maintains one proprietary fund type. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the operations of its food service program, child care initiative and Falcon Care.

The basic proprietary fund financial statements can be found on pages 36-38 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District uses agency funds to account for resources held for student activities and groups, unemployment compensation claims and payroll related liabilities. The fiduciary fund financial statements can be found on pages 39-40 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 41-92 of this report.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The Statement of Net Position provides the financial perspective of the District as a whole.

Table 1 provides a comparative summary of the School District's net position for 2016 and 2015.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred inflows and outflows and liabilities of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flow. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The Government-wide financial statements can be found on pages 30-31 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$11,527,482 at the close of fiscal 2016. The following table provides a summary of net position at June 30, 2016 and 2015 relating to the District's governmental and business-type activities:

The District's combined net position were \$13,567,066 on June 30, 2016. This is an increase of \$3,213,462, or 31.04% from the prior year.

The largest portion of the District's net position is its net investment in capital assets (e.g., land, construction-in-progress, buildings and improvements, and machinery, equipment and vehicles), less any related debt (bonds payable) used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (namely, property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Capital assets, net decreased from the prior year due to the amount of new additions associated with the District's capital projects being less than the amount of depreciation of capital assets in the current year.

Long-term liabilities decreased due to the scheduled payment of principal on debt.

Restricted net position remained ties mainly due to the net increase in the capital project reserve account of \$287,848.

Unrestricted net position decreased mainly due the reclassifying funds to the capital resources in the amount of \$1,213,190. General fund encumbrances at June 30, 2015 totaled \$1,149,971 as compared with \$230,012 at June 30, 2016.

Governmental Activities

Revenues for Fiscal Year 2016

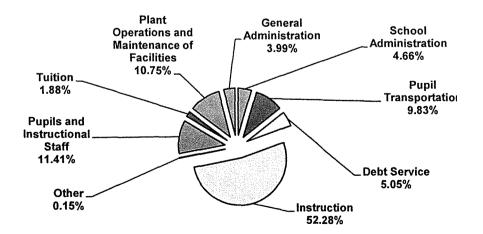

The unique nature of property taxes in New Jersey creates the legal requirement to annually seek voter approval for the School District operations. Property taxes of \$102,172,618 made up 76.41% of revenue for governmental activities for the Monroe School District for fiscal year 2016. Federal, state and local grants for operating purposes accounted for another \$24,988,693 or 18.69% of revenue.

The District's total revenues were \$133,707,634 for the year ended June 30, 2016.

Expenses for Fiscal Year 2016

The District's total cost of all programs and services was \$130,931,616 for the year ended June 30, 2016.

Business-Type Activities

Food Service

Revenues for the District's food service program were comprised of charges for services and federal and state reimbursements.

Food service revenues exceeded expenses by \$137,591.

Charges for services were \$2,103,508, or 79.61% of revenue. This represents amounts paid by Patrons for daily food service, as well as special functions.

Federal and state reimbursement for meals, including payments for free and reduced priced lunches was \$358,531 and donated commodities was \$180,335.

Childcare Initiative (ECE)

Revenues for the MECA and ECE were comprised of charges for services paid by employees.

ECE revenues exceeded expenses by \$115,518.

Charges for services represent \$406,093 or 99.77% of revenue. This represents amounts paid by employees for daily child care.

Falcon Care

Falcon Care was created by the Board as a successor program to the MECA, the year of inception of the program is 2015-2016. This fund was created as a successor to a program previously offered by BASC Network Inc. through a facilities lease agreement with the Board that ended June 30, 2015. The District Administration designed and implemented Falcon Care, a before and after school-care program for grades K through 5.

Revenues for Falcon Care were comprised of charges for services paid by employees of \$828,202.

Falcon Care revenues exceeded expenses by \$412,973.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$121,868,463 and expenditures exclusive of capital projects were \$120,112,342.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a comparative summary of the revenues of the general fund, special revenue fund and debt service fund for the fiscal years ended June 30, 2016 and June 30, 2015, and the amount of increase and decreases in relation to prior year revenues.

Comparative Summary of Revenues

		2015-2016			2014-2	Increase/(Decrease		
Revenue	_	Amount	Percent of Total		Amount	Percent <u>of Total</u>	from 2014-2015 to 2015-2016

	\$	121,868,066	100.00%	\$	114,119,127	100.00%	\$	7,748,939

Local revenues increased due to a tax levy increase, an increase in tuition and an increase in miscellaneous revenue.

Federal revenues increased due to reduction in special education students and other small grant reduced expenditures.

State revenue from all sources increased compared with 2015 due to a significant increase in the level in on-behalf post retirement payments.

Revenues

Actual miscellaneous revenue was in deficit of the modified budgeted amount by approximately \$22,428 or 5.18% as a result of a decrease in Use of Building fees.

Expenditures

- The modified budget for regular programs instruction decreased from the original budget by approximately \$1,164,032 or 3.71% as a result mostly of a decrease in salaries of teachers.
- The modified budget for tuition increased by \$300,000 or 12.84% as a result of a higher level of out of district placement.
- The modified budget for undistributed unallocated benefits decreased for the original budget by \$800,000 or 3.71% due to lower level health care cost.
- The modified budget for undistributed expenditures instruction decreased from the original budget by approximately \$300,000 or 17.89% as a result of a higher number of students sent to private schools for the disabled.
- The modified budget for undistributed expenditures transportation increased from the original budget by approximately \$619,890 or 9.68% as a result of additional students in the District.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

UNAUDITED - (CONTINUED)

Described below are explanations for variations in revenues and expenditures for certain lines where the modified budgeted amounts differ from the actual by significant amounts. All other fluctuations were considered immaterial and no explanations were deemed required.

General Fund Budgeting Highlights

The School District's budget is prepared in accordance with New Jersey Law, and is based on accounting for certain transactions on a cash basis of receipts, disbursements and encumbrances. The most significant fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent overexpenditures in specific line item accounts. These significant revisions include the special education, personnel services and transportation accounts due to increased student classifications, benefits cost increases, volatile petroleum prices and increased fleet.

Revenues

• Actual miscellaneous revenue was in excess of the modified budgeted amount by approximately \$22,428 or 5.18% as a result of a decrease in Use of Building Fees from the prior year.

Expenditures

- The actual amounts expended regular programs instruction were less than the final budget by approximately \$803,035 or 2.67% as a result mostly of a lower level for purchased services and general supplies of expenditures.
- The actual amounts expended for undistributed expenditures budget by approximately \$4,864,712 or 8.39% as a result mostly of the lower level of benefit charges.

Table 4 - Capital Assets (Net of Depreciation) at June 30

Refer to Notes to Financial Statements (Note 5) for more detailed information.

Overall capital assets (net) decreased by \$3,239,582 from fiscal year 2015 to fiscal year 2016. The decrease in capital assets is due to a significant decrease in depreciation expense and adjustments in excess of improvements.

Debt Administration

The School District had outstanding debt at June 30th as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

UNAUDITED – (CONTINUED)

For the Future

The Monroe Township School District is presently in good financial condition. The District is very proud and grateful of the community's support for its operations. A major District concern is the continued enrollment growth, which has prompted the deliberative process for a bond referendum. Another significant concern is the insufficient and inequitable State Aid funding which has put a burden on local taxpayers. The District continues to explore every opportunity to operate efficiently without compromising the vast student centered programs and services which are paying great dividends.

Contacting The School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. Questions regarding this report or if additional information is needed, kindly contact Mr. Michael C. Gorski, CPA, School Business Administrator/Board Secretary, at the Monroe Township School District, 423 Buckelew Avenue, Monroe Township, NJ 08831.

Respectfully submitted,

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES
AND CHANGE IN FUND BALANCE OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2015

Total Net Change in Fund Balance - Governmental Funds (from B-2)		\$	2,181,375.05
Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciated expense. This is the amount by which capital outlays exceeded depreciation in the period. Capital outlay \$ Depreciation expense Adjustment to prior year depreciation expense	2,713,989.75 (5,854,592.96) 12,107.54		(3,128,495.67)
Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases noncurrent liabilities in the statement of net position. Capital leases, current year			(666,000.00)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces noncurrent liabilities in the statement of net position and is not reported in the statement of activities.			4,795,000.00
Repayment of lease principal is an expenditure in the governmental funds, but the payment reduces noncurrent debt in the statement of net position and is not reported in the statement of activities.			587,292.63
Governmental funds report the effect of premiums and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the premiums on bonds. Amortization of premium			1,073,109.87
Governmental funds report the effect of defeasances and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the deferred loss of refunding. Amortization of deferred loss			(742,932.77)
In the statement of activities, interest on noncurrent debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The increase in accrued interest is an addition in the reconciliation.			(58,605.47)
Net pension obligation related to PERS which is attributable to June 30, 2015 not reported in governmental funds; however, it is reported in the statement of activities			(1,343,303.00)
In the statement of activities, certain operating expenses, e.g. compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation. NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Monroe Township School District (the "District") is a Type II district located in the County of Middlesex, State of New Jersey. As a Type II district, the District functions independently through a Board of Education (the "Board"). The Board is comprised of ten (10) members, nine (9) from the Township of Monroe are elected to three (3) year staggered terms and one (1) is appointed to an annual term from the Borough of Jamesburg (sending district). The purpose of the District is to educate students in grades K-12. The District had an approximate enrollment at June 30, 2016 of 6,492 students.

A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, childcare initiative and student related activities of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

1. <u>Government-Wide Financial Statements</u>

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Basis of Presentation (Continued)

1. <u>Government-Wide Financial Statements (Continued)</u>

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment that are classified in the Capital Outlay subfund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

1. <u>Governmental Funds (Continued)</u>

General Fund (Continued)

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund – The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

<u>**Permanent Fund**</u> - The Permanent Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal.

2. Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the District:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

2. Proprietary Fund Type (Continued)

Enterprise Fund – The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The District's Enterprise Fund consists of the following:

Food Service – This fund provides for the cafeteria operation in all schools within the school district.

<u>Childcare Initiative</u> – This fund provides childcare during work hours for district employees as well as an Early Childhood Enrichment (ECE) program.

Falcon Care – This fund was created as a successor to a program previously offered by BASC Network Inc. through a facilities lease agreement with the Board that ended June 30, 2015. The District Administrator designed and implemented Falcon Care, a before and after school-care program for grades K through 5.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their statement of net position. Their reported fund equity (net total position) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives of the equipment used in the operations of the Enterprise Funds are approximately 10 years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

3. Fiduciary Funds

Trust and Agency Funds – The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Private Purpose Scholarship Funds

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. The Expendable Trust Fund includes the Unemployment Compensation Insurance Fund, Family Leave Insurance Fund, Scholarship Funds and IPad Insurance Fund.

Nonexpendable Trust Fund - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal.

<u>Agency Funds</u> – Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. Agency Funds are custodial in nature and do not involve measurement of results of operations. Agency Funds include payroll and student activities funds.

C. <u>Measurement Focus</u>

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement of Net Position.

2. Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and change in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus

2. Fund Financial Statements (Continued)

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Fund equity (i.e., net total position) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

Fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general noncurrent debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the winter of each year for the general, special revenue, and debt service funds. The budgets are approved by the District, submitted to the County office for review and approval and if determined to be within the allowable tax levy cap and within the allowable appropriation cap, become effective upon the holding of a public hearing and final adoption by the District. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year subject to the limitation of N.J.A.C 6A:23A-2.3 (et seq.).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General Fund revenue and Special Revenue Fund revenue from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Change in Fund Balance - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Change in Fund Balance - All Governmental Fund Types.

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as unearned revenue at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Assets, Liabilities and Equity

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

G. Assets, Liabilities and Equity (Continued)

2. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

3. Allowance for Uncollectible Accounts

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

4. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

5. <u>Tuition Payable</u>

Tuition charges for the fiscal years 2014-2015 and 2015-2016 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

6. <u>Short-Term Interfund Receivables/Payables</u>

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

7. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,000.00. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

7. Capital Assets (Continued)

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method under the half year convention over the following useful lives:

Asset Class	Estimated Lives
School Buildings	50 years
Building Improvements	20 years
Electrical/Plumbing	30 years
Vehicles	6-8 years
Office and Computer Equipment	5-20 years
Instructional Equipment	5-15 years
Grounds Equipment	5-15 years
Food Service Equipment	7-20 years

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

9. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and employees that relate to future services, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

10. Accrued Liabilities and Noncurrent Obligations

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

11. Accrued Liabilities and Noncurrent Obligations

All payables, accrued liabilities and noncurrent obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

12. Deferred Loss on Refunding of Debt

Deferred loss on refunding arising from issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. (Refer to Note 7D)

G. Assets, Liabilities and Equity (Continued)

13. Net Position

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* became effective for financial statements for periods beginning after December 15, 2011 and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The adoption of this statement resulted in a change in the presentation of the statement of net position to what is now referred to as the statement of net position and the term "net assets" is changed to "net position" throughout the financial statements. Net Position represents the difference between assets, deferred outflows, deferred inflows and liabilities in the government-wide financial statements. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any noncurrent debt used to build or acquire the capital assets. Net position is reported as restricted in the government- wide financial statement- wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

14. Unearned Revenue

Unearned revenue in all funds represent program revenues that have been received but not yet earned.

15. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

16. Fund Balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five (5) categories, as defined below:

- a. Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, noncurrent receivables and corpus of any permanent funds.
- b. Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers or through enabling legislation.
- c. Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revised or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- d. Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Interest is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- e. Unassigned includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a position unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

17. Proprietary Funds Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the School District enterprise fund, (the Food Service) are charges to customers for sales of food service and for the Childcare Initiative and Falcon Care employees service fees. Operating expenses for enterprise funds include the cost of sales and services, administrative expense and depreciation on Capital Assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

18. <u>Rebatable Arbitrage</u>

Rebatable arbitrage results from investing the proceeds of borrowed funds either directly or indirectly into investments that are higher in yield than the bond yield incurred on the borrowed funds. In accordance with GASB 34, rebatable arbitrage is treated like a claim or judgment. All interest income is reported as revenue of the capital projects fund. The liability, if any, is recorded as an accrued arbitrage rebate.

19. Non-Monetary Transactions

Commodities received under the Federal Food Distribution Program are received by the district and are recorded as nonoperating revenue when received in the food service enterprise fund at market value. The use of the commodities is included in cost of sales.

20. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey social security and post-retirement medical pension contributions for the certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the District's annual budget.

21. Allocation of Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Employee benefits, including the employer's share of social security, workers compensation, pension and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified and allocated by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is reported separately on the Statement of Activities. No expenses were allocated as "Indirect Expenses".

22. Accounting and Financial Reporting for Pensions

In fiscal year 2015, the District implemented GASB 68. This Statement amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirement of Statement No. 27, *Accounting for Pension by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. This statement is effective for periods beginning after June 15, 2014.

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

22. Accounting and Financial Reporting for Pensions (Continued)

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources and deferred inflows of resources related to determine the amounts of all deferred outflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

23. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

H. Other Accounting Standards

The District is currently reviewing the following for applicability and potential impact on the financial statements:

• GASB Statement No. 74. Financial Reporting for Postemployment Benefit Other Than Pension Plans.

Effective Date: The provisions in Statement 74 are effective for fiscal years beginning after June 15, 2016. Earlier application is encouraged. The District does not expect this Statement to impact its financial statements.

 GASB Statement No. 75. Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

Effective Date: The provisions in Statement 75 are effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged. The District does not expect this Statement to impact its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Other Accounting Standards (Continued)

• GASB Statement No. 76. The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.

Effective Date: The provisions in Statement 76 are effective for reporting periods beginning after June 15, 2015. Earlier application is encouraged. The District does not expect this Statement to impact its financial statements.

• GASB Statement No. 77. Tax Abatement Disclosures.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged. The District does not expect this Statement to impact its financial statements.

• GASB Statement No. 78. Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged. The District does not expect this Statement to impact its financial statements.

• GASB Statement No. 82. Pension Issues – an amendment of GASB Statements No. 67, No. 38 and No. 73

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 15, 2016 with certain exceptions, in which the measurement data of the pension liability is on or after June 15, 2017. Earlier application is encouraged. The District does not expect this statement to impact its financial statements

I. Subsequent Events

Management has reviewed and evaluated all events and transactions from June 30, 2016 through November 21, 2016, the date that the financial statements are issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents includes petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less. Cash equivalents are defined as sort-term, highly liquid securities that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with original maturities of three (3) months or less meet this definition.

Investments are stated at cost, which approximates market. The District classifies certificates of deposit that have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments. The District is in compliance with GASB Statement No. 3 as amended by GASB Statement No. 40.

A. Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

As of June 30, 2016, cash and cash equivalents (Deposits) of the District consisted of the following:

	<u>Cash</u>	and Cash Equivalents
New Jersey Cash Management Fund - NJCMF	\$	6,986,980.94
	\$	6,986,980.94
Reconciliation by Fund:

Proprietary		1,414,188.10
Fiduciary	<u></u>	646,033.39
	\$	15,407,981.31

Of the total amount deposits of \$975,000.00 has been earmarked towards the Capital Reserve Account (see Note 16).

<u>New Jersey Cash Management Fund</u> – All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis. As of June 30, 2016, the District had \$6,986,980.94 on deposit with the New Jersey Cash Management Fund.

Allocation of Cash and Cash Equivalents

Unrestricted	\$	13,786,947.92
Restricted		975,000.00
Fiduciary	_	646,033.39
	\$	15,407,981.31

Risk Analysis – The market value of the NJ ARM accounts approximate the carrying value. The NJ ARM accounts are invested in U.S. government securities (both U.S. Treasury and Federal Agency) and other permitted money market instruments and not exposed to custodial credit risk. The checking accounts were on deposit in a bank which had the Government Unit Deposit Protection Act coverage ("GUDPA") as of June 30, 2016 which minimizes credit risk.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

B. Investments

New Jersey statutes permit the District to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- Government money market mutual funds.
- Any federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- Bonds or other obligations of the school district or local unit of which the school district is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury.
- Local government investment pools.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

There were no securities held by the District that could be categorized as an investment as defined by GASB No. 3 as amended by GASB No. 40.

4. RECEIVABLES

A. Bonds and loans payable currently outstanding are summarized as follows: (Continued)

The Bonds are general obligations of the Board and are secured by a pledge of the full faith and credit of the Board for the payment of the principal thereof and the interest thereon and, unless paid from other sources, the Bonds are payable from ad valorem taxes to be levied on all taxable real property in the school district, without limitation as to rate or amount. The Bonds are additionally secured by the provisions of the New Jersey School Bond Reserve Act.

The District, in conjunction with the issuance of the Bonds, has agreed to undertake and provide certain information to Bondholders on a continuing basis. The Securities and Exchange Commission ("SEC") Rule 15c2-12(b)(5) "Continuing Disclosure" requirements, which the District has adopted, requires that various financial information about the District and the Municipality be provided annually to various information repositories. The requirement effective for the fiscal year ended June 30, 2015 has been complied with.

Bonds are authorized in accordance with State law by the voters of the Municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds.

Refer to Supplementary Schedule Exhibit I-2 for further detail.

F. Compensated Absence

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees earn sick leave at the rate of one day for each month of service. Upon departure from the district, teachers who have obtained tenure and ten month support staff who have completed three or more years of employment shall be paid for accumulated sick leave at the rate of ¼ of the unused accumulated sick leave multiplied by 1/200 of the last annual contracted salary. Twelve month employees who have completed three or more years of employment shall be paid at the rate of ¼ of the unused accumulated sick leave multiplied by 1/200 of the last annual contracted salary.

For teachers employed after September 1, 1981, the sick leave payment shall be limited to no more than \$5,000.00. For all support staff employed after September 1, 1981, the sick leave payment shall be limited to no more than \$2,500.00. There is no limit for personnel employed prior to September 1, 1981.

7. NONCURRENT (LONG-TERM) DEBT (CONTINUED)

F. Compensated Absence (Continued)

Twelve month employees earn vacation, the carryover of which is limited to August 31, of the year following the time earned.

The liability for vested compensated absences of the governmental fund types is recorded in the statement of net position in the current and noncurrent liabilities. The current portion of the compensated absence balance of the governmental funds is shown separately from the noncurrent liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2016 no liability existed for compensated absences in the proprietary fund types.

8. OPERATING LEASES

The District is leasing computer and computer equipment. The unit prices of all individual items lease purchased are less than the capitalization threshold for fixed assets or do not qualify as capital assets and as a result, are classified as operating leases. The following is a schedule of the future minimum lease payments under the operating leases and the present value of the net minimum lease payments at June 30, 2016:

9. PENSION PLANS

Basic Financial Statements

Description of Plans: All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund that have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF): The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A.18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 61 and 62, respectively, with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Public Employees' Retirement System (PERS): The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 61 and 62, respectively with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

9. PENSION PLANS (CONTINUED)

Funding Policy: The contribution policy is set by New Jersey Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in over the next seven years that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

During the year ended June 30, 2016 for TPAF, which is a cost sharing plan with special funding situations, the annual pension costs equals annual required contribution. For PERS, which is a cost sharing multi-employer pension plan, the annual pension costs differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

Funding Policy (Continued)

During the fiscal year ended June 30, 2016, the State of New Jersey contributed \$3,132,287 for TPAF pension on-behalf (including NCGI premium) of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$3,036,522.00 during the year ended June 30, 2016 for the employer's share of social security contributions (FICA) for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the individual fund statements and schedules as a revenue and expenditure in accordance with GASB 24.

Legislation enacted during 1993 provided early retirement incentives for certain members of TPAF and PERS who met certain age and service requirements and who applied for retirement between certain dates in the 1994 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500.00 per month for two years for employees at least age 60 with 10 but less than 20 years of service. The Board assumed the increased cost for the early retirement as it affected their district.

Public Employees Retirement System (PERS)

The information for PERS was abstracted from State of New Jersey Public Employees' Retirement System Schedules of Employer Allocations and Schedules of Pension Amounts by Employer as of June 30, 2015 and 2014 Independent Auditor's Report dated April 14, 2016 and November 13, 2015 respectively.

At June 30, 2016 and June 30, 2015, the District reported a liability of \$36,752,775.00 and \$30,063,870.00 respectively for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined.

9. PENSION PLANS (CONTINUED)

For the year ended June 30, 2016, the District recognized pension expense of \$2,750,891.00. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows Deferred Inflows of Resources of Resources

The \$1,472,738.00 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2016, the plan measurement date is June 30, 2015) will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

District's proportion	0.1637240816 %	0.1605741339 %

Actuarial Assumptions

The collective total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which rolled forward to June 30, 2015. The total pension liability for the July 1, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation	3.04 Percent
Salary Increases:	
2012-2021	2.15-4.40 Percent (based on age)
Thereafter	3.15-5.40 Percent (based on age)
Investment Rate of Return	7.90 Percent

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback one year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback three years for males and setback one year for females) are used to value disabled retire.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 4.90% and 5.39% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% and 4.29% as of June 30, 2015 and 2014, respectively, based on the *Bond Buyer* GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of The Collective Net Pension Liability to Changes in the Discount Rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2015 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 - percentage point lower or 1- percentage-point higher than the current rate:

Teachers Pensions and Annuity Fund (TPAF)

Data for the TPAF was abstracted from the State of New Jersey Teachers' Pension and Annuity Fund Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer and Nonemployer as of June 30, 2015 and 2014 Independent Auditor's Reports dated July 28, 2016 and November 13, 2015, respectively.

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2015 was as follows:

Net Pension Liability:	
Districts proportionate share	None
State's proportionate share associated with the District	\$ 245,196,560.00
	\$ 245,196,560.00

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2015, the proportion of the TPAF net pension liability associated with the District was .3879430279%.

For the years ended June 30, 2016 and June 30, 2015, respectively, the District recognized on-behalf pension expense and revenue of \$14,971,458.00 and \$10,989,757.00, respectively for contributions provided by the State.

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2014. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Mortality Rates

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Preretirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement. The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Discount Rate

The discount rate used to measure the total pension liability was 4.13% and 4.68% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% and 4.29% as of June 30, 2015 and 2014, respectively, based on the *Bond Buyer* GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability,

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Because the District's proportionate share of the net pension liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

10. DEFINED CONTRIBUTION RETIREMENT PROGRAM

Description of System

The Defined Contribution Retirement Program (DCRP) was established on July 1, 2007 for certain public employees under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007. The program provides eligible members, with a minimum base salary of \$1,500.00 or more, with a tax-sheltered, defined contribution retirement benefit, in addition to life insurance and disability coverage. The DCRP is jointly administered by the Division of Pensions and Benefits and Prudential Financial.

If an eligible elected or appointed official will earn less than \$5,000.00 annually, the official may choose to waive participation in the DCRP for that office or position. This waiver is irrevocable.

This retirement program is a new pension system where the value of the pension is based on the amount of the contribution made by the employee and employer and adjusted for membership earnings or loses. It is a Deferred Compensation Program where the employee has a portion of tax deferred salary placed into an account that the employee manages through investment options provided by the employer.

The law requires that three classes of employees enroll in the DCRP, detailed as follows:

- All elected officials taking office on or after July 1, 2007, except that a person who is reelected to an elected office held prior to that date without a break in service may remain in the Public Employee's Retirement System (PERS).
- A Governor appointee with the advice and consent of the Legislature or who serves at the pleasure of the Governor only during that Governor's term of office.
- Other employees commencing service after July 1, 2007, pursuant to an appointment by an elected official or elected governing body which include the statutory untenured chief administrative officer such as the Business Administrator, County Administrator or Municipal or County Manager, Department Heads, Legal Counsel, Municipal or County Engineer, Municipal Prosecutor and the Municipal Court Judge.

Notwithstanding the foregoing requirements other employees who hold a professional license or certificate or meet other exceptions are permitted to remain in PERS.

Contributions Required and Made

Contributions made by employees for DCRP are currently 5.5% of their base wages. Member contributions are matched by a 3.0% employer contribution. Contributions to the plan were as follows:

Fiscal Year Ended June 30	Employee	Employer
2016	\$ 62,012.40	\$ 23,482.40
2015	49,967.37	27,255.26
2014	14,431.85	7,831.29

11. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees eligible for post-retirement medical benefits and the state contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.10 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2015.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with parameters of GASB 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to SHBP Fund for PERS retirees' post-retirement benefits on behalf of the District was not determined or made available by the State of New Jersey.

13 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Property and Liability Insurance: The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

<u>New Jersey Unemployment Compensation Insurance</u>: The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior two years:

15. CAPITAL RESERVE ACCOUNT (CONTINUED)

The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund Annual Budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board Resolution at year end, if any, Unanticipated Revenue or Unexpended Line Item Appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to N.J.A.C. 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

16. FUND BALANCE APPROPRIATED

General Fund - Of the \$13,881,041.91 General Fund fund balance at June 30, 2016, \$975,000.00 is restricted for the Capital Reserve Account; \$5,010,411.03 is assigned – excess surplus (from 2014-2015) – designated for subsequent years expenditures, \$6,134,722.09 is restricted – excess surplus (from 2015-2016), \$30,481.36 is assigned for other purposes (encumbrances) and \$1,722,746.52 is unassigned, \$7,653.91 is assigned – ARRA/SEMI designated for subsequent year expenditures.

Debt Service Fund – Of the Debt Service Fund fund balance at June 30, 2016, \$256,728.11 is restricted for debt service.

17. CONTINGENT LIABILITIES AND COMMITMENTS

- A. <u>Grant Programs</u> The school district participates in federally and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.
- B. <u>Pending Litigation</u> There are matters pending which should not, in the event of an adverse ruling, result in a material significant impact on the district's financial condition.

C. Contractual Commitments

The District has contractual commitments at June 30, 2016 to various vendors, which are recorded in the general fund as fund balance assigned for other purposes in the amount of \$30,481.36.

18. CALCULATION OF EXCESS SURPLUS - BUDGETARY BASIS

In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. There was excess fund balance as a result of the 2014-2015 school year of \$5,010,411.03 and 2015-2016 school year of \$6,134,722.09.

19. RECONCILIATION OF FUND BALANCE – GENERAL FUND

The Surpluses are presented on a GAAP basis and reconciliation to the budget basis is follows:

		Total	
Balance on a Budget Basis on the General Fund Budgetary Basic Comparison - Reserve for Excess Surplus	\$	1,956,655.52	
Less: State Aid Payment not Recognized on a GAAP Basis	_	233,909.00	
	\$_	1,722,746.52	

20. ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

- Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.
 - a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
 - **b** Rates for debt service are based on each year's requirements.

Sources: Assessed value data used to estimate applicable percentages provided by the Middlesex County Board of Taxation. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Monroe Township. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Township of Monroe Board of Education County of Middlesex, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Monroe Board of Education, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Township of Monroe Board of Education's basic financial statements, and have issued our report thereon dated November 21, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Monroe Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Monroe Township School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education of the Township of Monroe School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School finance, Department of Education, State of New Jersey, and federal and state awarding agencies and passthrough entities in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08

The Honorable President and Members of the Board of Education Township of Monroe Board of Education County of Middlesex, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Township of Monroe Board of Education's compliance with the types of compliance requirements described in *the OMB Compliance Supplement* and *New Jersey State Aid/Grant Compliance supplement* that could have a direct and material effect on each of District's major federal and state programs for the year ended June 30, 2016. The Township of Monroe School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Township of Monroe Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America: the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance); the New Jersey State Aid/Grant Compliance Supplement; the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey; and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether on compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Township of Monroe Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08 (CONTINUED)

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Township of Monroe Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Township of Monroe Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the Township of Monroe Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Township of Monroe Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey State Aid/Grant Compliance Supplement, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Township of Monroe Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or compliance is a deficiency, or a combination of deficiencies, in internal control over compliance and state program that the prevented over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08 (CONTINUED)

Purpose of Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purposes.

BOARD OF EDUCATION TOWNSHIP OF MONROE SCHOOL DISTRICT, COUNTY OF MIDDLESEX NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2016

1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Township of Monroe School District. The information in this Schedule is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey State Aid/Grant Compliance Supplement (NJOMB 15-08). The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules of expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this Schedule is presented in accordance with the requirements of Title 2 US *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance and *New Jersey State Aid/Grant Compliance Supplement* (NJOMB 15-08). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year whereas for GAAP reporting revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A.18A:22-4.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last two (2) of twenty (20) state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A.18A:22-4.2.

BOARD OF EDUCATION TOWNSHIP OF MONROE SCHOOL DISTRICT, COUNTY OF MIDDLESEX NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE (CONTINUED) YEAR ENDED JUNE 30, 2016

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONTINUED)

The net adjustment to reconcile revenue from the budgetary basis to the GAAP basis was a decrease of \$12.741.00 for the general fund and none for the special revenue fund. See *Note* 1 (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented below:

	Federal		State		<u>Total</u>		
General Fund	\$ 73,137.94	\$	13,076,384.51	\$	13,149,522.45		
Special Revenue Fund	1,384,691.00				1,384,691.00		
Debt Service Fund			679,742.00		679,742.00		
Food Service Fund	 517,378.69		21,487.07		538,865.76		
Total Awards and Assistance	\$ 1,975,207.63	\$_	13,777,613.58	\$_	15,752,821.21		

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. FEDERAL AND STATE LOANS OUTSTANDING

The District had no loans outstanding.

6. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively.

The amount reported as TPAF Pension Contribution and Post Retirement Medical Contributions represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2016. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2016.

The State of New Jersey also makes TPAF post-retirement medical and pension contribution expenditures on-behalf of the District. These expenditures are not subject to New Jersey OMB Circular 15-08 because the contributions are made by the State directly and do not have any compliance related requirements, and therefore have not been included on the Schedule of State Awards, as directed by the funding agency.
