December 2, 2016

The Honorable President and Members of the Board of Education Parsippany-Troy Hills School District County of Morris, New Jersey

Dear Board Members and Constituents:

The Comprehensive Annual Financial Report of the Parsippany-Troy Hills School District (the "District") for the fiscal year ended June 30, 2016, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, (designed to complement Management's Discussion and Analysis and should be read in conjunction with it), the District's organizational chart, a roster of officials and a list of professionals that provide services to the District. The financial section includes the Independent Auditors' Report, the Management's Discussion and Analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected economic and demographic information, generally presented on a multi-year basis and is unaudited. The District is required to undergo an annual single audit in conformity with the provisions of the Federal Uniform Guidance and New Jersey's OMB Circular NJOMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Information related to this single audit, including the auditors' reports on the internal control over compliance and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, are included in the single audit section of this report.

1) <u>REPORTING ENTITY AND ITS SERVICES</u>: The Parsippany-Troy Hills School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board ("GASB") in codification section 2100. All funds and the government-wide financial statements of the District are included in this report. The Parsippany-Troy Hills School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre K through 12. These include general as well as special education for handicapped children. Considerable emphasis is placed on an ESL program serving appropriate students, while both a basic skills and a gifted and talented program are in place to meet students' needs. The District completed the 2015-2016 fiscal year with an enrollment of 7,014 students, which is an increase of 55 students from the previous year's enrollment.

The following details the changes in the student enrollment of the District over the past five years:

| Average Daily Enrollment |                    |                |  |  |  |  |
|--------------------------|--------------------|----------------|--|--|--|--|
| Fiscal Year              | Student Enrollment | Percent Change |  |  |  |  |
|                          |                    |                |  |  |  |  |
| 2015-2016                | 7,014              | 0.79%          |  |  |  |  |
| 2014-2015                | 6,959              | -0.78%         |  |  |  |  |
| 2013-2014                | 7,014              | -3.52%         |  |  |  |  |
| 2012-2013                | 7,270              | 1.00%          |  |  |  |  |
| 2011-2012                | 7,267              | 1.10%          |  |  |  |  |

2) <u>ECONOMIC CONDITION AND OUTLOOK</u>: The District, along with many other public school districts in the State, faces difficult future economic situations with its major funding sources being property tax revenue and state aid. While expenditures for employee health care, special education costs and contractual salaries continue to increase well above 2%, the District is limited to a 2% tax levy cap. The district's administration is closely monitoring the cost of operations and continues to explore cost efficiencies.

3) <u>MAJOR INITIATIVES</u>: The Parsippany-Troy Hills School District continues a regular and on-going program of curriculum development and revision. The curriculum is directly aligned with the New Jersey Core Curriculum Content Standards and the national Common Core Curriculum Standards with proficiencies designed to enhance student performance and enable each student to achieve growth within each content area. New and continuing instructional materials and programs to meet the requirements of PARCC, the Common Core State Standards, the appropriate New Jersey Core Curriculum Content Standards and the Next Generation Science Standards are being added throughout the District.

In order to provide students with an instructional environment in which they can thrive, the District has developed a program for professional staff development that encourages self-directed professional growth in specifically targeted areas of instruction. The success of any professional development activity in public education can only be measured in terms of the accomplishments of students. It is with this in mind that the District continues its initiatives in differentiating instruction based on the aptitudes and abilities of the students in the classroom while providing students with opportunities to demonstrate, through authentic assessment, their capacities in each content area. The district's strong, collaborative relationship with Montclair State University Network for Educational Renewal affords an opportunity for professional development experiences related to district initiatives and state-wide initiatives.

It is in the cultural, social, and economic diversity of the Parsippany-Troy Hills School District that the District finds its strengths and its challenges. To accommodate individual student needs, programs such as English as a Second Language and support activities in basic skills and assistance to those children with special needs are an ongoing focus. In order to address the cost of special education out-of-district tuition, the school district has developed a plan to return students to the school district when the return is feasible under the requirements of the child's Individual Education Plan (IEP). It is envisioned that this decision will save the District considerable funds in restricting the growth in the out-of-district tuition account and will enhance the instructional opportunities for those children who will now be able to be educated in the community where they live.

4) <u>INTERNAL ACCOUNTING CONTROLS</u>: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control environment is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to major federal and state award programs, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

5) <u>BUDGETARY CONTROLS</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as assigned fund balance at June 30, 2016.

6) <u>ACCOUNTING SYSTEM AND REPORTS</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements," Note 1.

7) <u>OTHER INFORMATION</u>: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Wiss & Company, LLP was selected by the Board's audit committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Guidance and State OMB Circular Letter OMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. The auditors' report on the basic financial statements and required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

8) <u>ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Parsippany-Troy Hills School District Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial and accounting staff.

Respectfully submitted,

LeRoy Seitz, Ed. D. Interim Superintendent

#### Independent Auditors' Report

Honorable President and Members of the Board of Education Parsippany-Troy Hills School District Parsippany, New Jersey County of Morris

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Parsippany-Troy Hills School District, County of Morris, New Jersey (the "District"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

WISS & COMPANY, LLP

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2016 and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the schedule of funding progress – post-employment healthcare benefit plan, the schedule of employer contributions - post-employment healthcare benefit plan, schedule of the District's proportionate share of the net pension liability-PERS, schedule of District contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, and are also not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information

directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

#### Parsippany-Troy Hills School District Management's Discussion and Analysis

Year ended June 30, 2016

As management of the Parsippany-Troy Hills School District, we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the year ended June 30, 2016. We encourage readers to consider the information presented, in conjunction with additional information that we have furnished in our letter of transmittal.

Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain comparative information between the current fiscal year and the prior fiscal year is presented in the MD&A as required by GASB Statement No. 34.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements**. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred inflows of resources, liabilities and deferred outflows of resources of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave).

The government-wide financial statements can be found on pages 21 - 22 of this report.

**Fund financial statements**. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds**. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund and special revenue fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 23 - 25 of this report.

**Proprietary funds**. The District maintains one proprietary fund type, consisting of two enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for the operations of its food service and adult and community education programs.

The basic enterprise fund financial statements can be found on pages 26 - 28 of this report.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District uses trust funds to account for the activity of the private-purpose scholarship fund and unemployment compensation trust fund.

The District uses agency funds to account for resources held for student activities and groups, and payroll related liabilities. The basic fiduciary fund financial statements can be found on pages 29 - 30 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 31 - 69 of this report.

**Required Supplementary Information (RSI).** The District is required to present certain supplementary information for its participation in a Post-Employment Healthcare Plan and the Public Employees' Retirement System ("PERS") and Teachers' Pension and Annuity Fund ("TPAF"). Schedules of the District's proportionate share of the PERS net pension liability, contributions made to this program and a schedule of the State's proportionate share of the net pension liability related to TPAF are reported as required supplementary information and can be found on pages 70 - 75 of this report.

**Other information**. The combining statements referred to earlier in connection with governmental funds are presented immediately following the RSI. Combining and individual fund statements and schedules can be found on pages 76 - 118 of this report.

#### **Financial Highlights**

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. However, in the case of the District, it does not adequately reflect the District's position. Governmental activities liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$11,070,907 (net position deficit) for the fiscal year ended June 30, 2016. Governmental activities net position decreased in the current year by \$2,144,848.

The following table provides a summary of net position relating to the District's governmental and business-type activities at June 30, 2016 and 2015:

#### Governmental activities

The decrease in current and other assets is mainly attributable to the decrease in cash held with fiscal agents which is a result of proceeds received from the Energy Savings Improvement Plan (ESIP) in the prior year being spent in the current year.

Capital assets, net increased due to the additions to building and building improvements relating primarily to the ESIP and other lease funded capitalized expenses.

The increase in the deferred outflows of resources is the result of the recording of the current year loss on the refunding of debt offset by the amortization of both the current and prior year's losses and the pension deferral component related to GASBs 68 and 71.

Current liabilities increased due to an increase in the current portion of obligations offset by a decrease in accounts payable, accrued expenses and unearned revenue.

The net pension liability recorded as of June 30, 2016 is the result of the provisions of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial

Reporting for Pensions (GASB 68) and Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment to GASB Statement No. 68 (GASB 71).

Long-term liabilities decreased mainly due to the scheduled repayment of serial bonds payable and capital leases.

The largest portion of the District's net position is its net investment in capital assets. Restricted net position includes those that are subject to restrictions (e.g., for capital projects capital reserve, emergency reserve and excess fund balance in the general fund). Restricted net position decreased during the year ended June 30, 2016 resulting from a decrease in net position restricted for capital projects.

Unrestricted net position decreased as compared to the prior year, mainly as a result of the current year provisions of GASBs 68 and 71.

#### Business-type activities

The business-type activity net position for the year ended June 30, 2016 of \$2,151,603 increased from the prior year mainly due to the positive operating results in the 2016 fiscal year of its Adult and Community Education Program.

#### **Changes in Net Position**

**Government-wide activities**. The key elements of the District's changes in net position for the years ended June 30, 2016 and 2015 follow. The following table provides a summary of changes in net position relating to the District's governmental and business-type activities at June 30, 2016 and 2015:

#### Governmental activities

Property tax revenues increased due to an increase in the school tax levy.

The increase in unrestricted federal and state aid is mainly the result of receiving additional state aid in 2016 as compared to the previous year, mainly attributable to the on-behalf pension benefits paid for by the State on behalf of the District.

#### Business-type activities

Overall, the net position of the business-type activities increased by \$463,820 due to positive 2016 operating results. The District continued to utilize the services of an outside food service management company instead of operating the food service operations in-house.

#### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the General Fund, Special Revenue Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2016, and the increases in relation to prior year. The Capital Projects Fund has been excluded as amounts vary substantially from year to year.

| Revenue         | Amount        | Percent<br>of Total | Increase<br>from 2015 | Percent of<br>Increase |
|-----------------|---------------|---------------------|-----------------------|------------------------|
| Local sources   | \$128,956,293 | 84.74%              | \$ 3,658,914          | 2.92%                  |
| State sources   | 20,547,750    | 13.50               | 2,418,134             | 13.34                  |
| Federal sources | 2,678,852     | 1.76                | 577,269               | 27.47                  |
| Total           | \$152,182,895 | 100.00%             | \$ 6,654,317          | 4.57%                  |

The increase in local sources is mainly attributable to the increase in the local tax levy.

The increase in state sources is mainly attributable to an increase in state aid during the current year as compared with the prior year, mainly from the on-behalf pension benefits paid by the State on behalf of the District.

The increase is federal sources is due to increases in IDEA and Title I, Title II and Title III in the current year compared to prior year.

The following schedule presents a summary of General Fund, Special Revenue Fund and Debt Service Fund expenditures for the fiscal year ended June 30, 2016, and the increases and decreases related to the prior year. The Capital Projects Fund has been excluded as amounts vary substantially from year to year.

The increase in instruction and undistributed is mainly attributable to the increase in salaries and an increase in the on-behalf post-retirement benefit contributions paid by the State on behalf of the District offset by a reduction of health benefit expenditures due to the increased contributions from employees related to Chapter 78.

The increase in capital outlay is attributable to the District's additional capital leases which were entered into in fiscal year 2016.

#### **General Fund Budgetary Highlights**

Budgetary transfers were made between budgetary line items and approved by the Board for various reasons including:

- Total instruction regular programs an increase of \$842,819 is a result of having to reorganize and hire more staff as a result of the change in the Middle School schedule.
- Total special education resource room/center a decrease of \$484,218 is due to the reallocation of teacher assignments.
- Total undistributed instruction an increase of \$355,669 is due to students who attend out of district schools moving into the district after the budget was struck.
- Total other support service students extra services an increase of \$581,681 is due to an increase in one-to-one paraprofessionals.
- Total undistributed instruction security a decrease of \$337,956 is due to the Director of Security and elementary school security guard positions not being filled.
- Total equipment, facilities and construction services an increase of \$933,891 is due to the purchase of additional technology and maintenance equipment.

There were also certain variances between the final budget and the actual expenditures that are explained below:

- Total instruction regular programs a positive variance of \$360,206 is the result of cutting back on general supplies and purchasing of text books due to budget constraints.
- Total undistributed expenditures custodial services a positive variance of \$454,872 is the result of natural gas and electrical costs which was less than anticipated.

#### **Capital Assets**

At the end of the fiscal years ended June 30, 2016 and 2015, the District had \$77,686,512 and \$72,252,663, respectively, invested in land, construction in progress, land improvements, building and building improvements and machinery and equipment, net of accumulated depreciation or amortization.

The increase in land improvements, building and building improvements and machinery and equipment is mainly due to additions exceeding depreciation expense during the 2016 fiscal year. The decrease in construction in progress is due to the project completion relating to the ESIP and other lease activity.

For more detailed information, please refer to Note 4 to the basic financial statements.

#### **Debt Administration**

At June 30, 2016, the District had \$58,913,510 of outstanding long-term liabilities. Of this amount, \$1,057,271 is for compensated absences; \$38,222,807 of serial bonds including an unamortized premium on bonds of \$4,752,807; \$639,398 is for other post-employment retirement benefits payable; and \$18,994,034 is for capital leases.

For more detailed information, refer to Note 5 of the basic financial statements.

#### **Economic Factors and Next Year's Budget**

The fiscal outlook in the near term is a concern for most school districts and municipalities, including this one. Top-down changes in funding will require flexibility and very careful planning at the local level. With the continued uncertainty from the State of New Jersey's budget crisis, the adoption of a budget that maintains educational services at a higher level becomes more and more difficult. The District will continue to employ prudent and responsible fiscal practices to maintain its sound financial condition.

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect the financial health in the future:

- 1. The District entered into an ESIP during the 2014 fiscal year and expects to receive cost savings as the program is implemented.
- The Board continues its focus on technological upgrades and advancements in instructional opportunities for students and staff. There are increased budgetary allocations though lease purchase to upgrade computers and technology on all educational levels in the District. The District is infusing technological instructional tools by providing Ipads to all incoming freshmen.
- 3. The District achieved a three year settlement with the teachers' union (PTHEA). The District is currently in negotiations with the administrators' union (APSA), the paraprofessionals' union (PTHESA) and the maintenance, custodial and bus drivers' union (International Association of Industrial Workers-Local 32). The collective bargaining agreement for APSA expired on June 30, 2015 and the collective bargaining agreements for PTHESA and Local 32 expired on June 30, 2016. At the time these financial statements were being prepared it was difficult to estimate the outcome of these negotiations or when they may be achieved.
- 4. The District continues to maintain its facilities. In the 2015-2016 school year, the district partially replaced two elementary school roofs, added additional security equipment at all schools and turfed the athletic field at each high school.

All of the above factors were considered in preparing the District's 2016-17 fiscal year budget.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Parsippany-Troy Hills School District finances for all those with an interest in the government's finances. Amounts reported for *governmental activities* in the statement of net position (A-1) are different because: Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of the assets is \$111,013,844 and the accumulated depreciation is \$33,935,782. 77,078,062 Accrued interest on long-term debt is not due and payable in the current period and therefore is not reported as a liability in the funds. (789,679) Deferred pension costs in governmental activities are not financial resources and are therefore not reported in the funds. 9,005,665 Losses arising from the issuance of refunding bonds that are a result of the difference in the carrying value of the refunded bonds and the new bonds are deferred and amortized over the life of the new bonds. 2,385,142 Net pension liability is not due and payable in the current period and therefore the liability and related deferred outflows and inflows, are not reported in the funds. (49,572,491) Accrued pension contributions for the June 30, 2016 plan year end are not paid with current economic resources and are therefore not reported as a liability in the funds, but are included in accounts payable in the government-wide Statement of Net Position. (1,717,911) Long-term liabilities, including bonds payable, capital leases, premiums on bonds, other post employment benefits payable liabilities and compensated absences are not due and payable in the current period and therefore are not reported as liabilities in the funds. ## Notes to the Basic Financial Statements

Year ended June 30, 2016

## 1. Summary of Significant Accounting Policies

The financial statements of the Parsippany-Troy Hills School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

## A. Reporting Entity

The financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board of Education ("Board") consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the Parsippany-Troy Hills School District in Parsippany, New Jersey. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of <u>Governmental Accounting and Financial Reporting Standards</u> is whether:

## A. Reporting Entity (continued)

- the organization is legally separate (can sue or be sued on their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board;
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District; or
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District does not have any component units.

## B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, enterprise funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements. The New Jersey Department of Education requires all funds be reported as major to promote consistency among school districts in the State of New Jersey.

## C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, capital leases, pension liabilities, and other post-employment benefits, are recorded only when payment is due.

Property taxes, interest, and state equalization monies associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered measurable and available when the District receives cash.

The District has reported the following major governmental funds:

*General Fund*: The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

*Special Revenue Fund*: The District maintains one special revenue fund, which includes the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes, other than debt service or capital projects.

*Capital Projects Fund*: The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure for capital outlays, including the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from an Energy Savings Improvement Program (ESIP) capital lease and state aid, and temporary notes or bond proceeds that

are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

*Debt Service Fund:* The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned to an expenditure for the principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary funds:

*Food Service Enterprise Fund*: The food service enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Adult and Community Education Enterprise Fund: The adult and community education enterprise fund accounts for all revenues and expenses pertaining to recreational, academic and vocational curriculum offered to residents. The adult and community education enterprise fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Additionally, the District reports the following fund types:

Fiduciary funds of the District include the unemployment compensation and private purpose scholarship trust funds and agency funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the District.

*Trust and Agency Funds*: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

*Trust Funds*: These unemployment compensation and private purpose scholarship funds are accounted for in essentially the same manner as governmental funds. The unemployment compensation fund is used to account for contributions from employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. The private purpose scholarship fund is utilized to provide scholarships to students and to account for the related transactions.

Agency Funds (Payroll and Student Activity Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) fees charged to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District enterprise funds are charges for sales of food and tuition. Operating expenses for the enterprise funds include the cost of sales, costs of providing education programs, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports unearned revenue on its balance sheet and statements of net position. Unearned revenue also arises when resources are received by the District before it has legal claim to them, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and statements of net position and revenue is recognized.

Ad Valorem (Property) taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to the school district the entire balance of taxes in the amount certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable." The County Board of Taxation is responsible for the assessment of properties and the Township Tax Collector is responsible for collection of taxes. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

## **D.** Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the county office for review and approval and are approved by the Board of Education members. Budgets are prepared using the modified accrual basis of accounting and the special revenue fund uses a non-GAAP budget (budgetary basis). The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referred in N.J.A.C. 6A:23. The over expenditure in the general fund is due to the inclusion of the non-budgeted on behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over expenditures. All budget amendments must be approved by School Board resolution. Budget amendments were made during the year ended June 30, 2016 and were not significant.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States with the exception of the legally mandated revenue recognition of the last state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Open encumbrances at year-end are reappropriated in the subsequent year's budget. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

#### E. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, amounts on deposit and short-term investments with original maturities of three months or less.

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and Statement No. 72, *Fair Value Measurement and Application*. The Board classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments and are stated at cost. All other investments are stated at fair value.

#### F. Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

#### G. Inventories

Inventories, which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. At June 30, 2016, the unused USDA commodities of \$2,850 are reported as unearned revenue in the Enterprise Fund.

#### H. Capital Assets

Capital assets, which include land, construction in progress, property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or through estimation procedures performed by an independent appraisal company. Donated capital assets are valued at their estimated fair value on the date of donation.

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Depreciable capital assets of the District are depreciated using the straight line method. The following estimated useful lives are used to compute depreciation:

|                                 | Estimated Useful<br>Life |
|---------------------------------|--------------------------|
| Buildings                       | 50 years                 |
| Site Improvements               | 20 years                 |
| Furniture and Equipment         | 10 to 15 years           |
| Computer and Related Technology | 5 years                  |
| Vehicles                        | 8 years                  |

See Note 4 for additional information regarding capital assets.

## I. Accrued Salaries and Wages

Certain District employees who provided services to the District over the ten-month academic year have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that these earned but not disbursed amounts be retained in a separate bank account. As of June 30, 2016, the amount earned by these employees but not disbursed was \$2,375,061 and is included in liabilities – summer escrow payable in the fiduciary fund.

## J. Deferred Loss on Defeasance of Debt

The deferred loss on refunding arising from the issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest and other charges on long-term debt. The amortization expense for the year ended June 30, 2016 amounted to \$224,573 and the remaining balance at June 30, 2016 is \$2,385,142.

#### K. Compensated Absences

A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District uses the "vesting method" for estimating its accrued sick and vacation leave liability.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. The amount recorded represents those individuals who have reached retirement age for payment. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the government-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components- the amount due within one year and the amount due in more than one year. The liability for vested compensated absences of the District is recorded in the government-wide financial statements amounted to \$1,057,271 at June 30, 2016. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## L. Unearned Revenue

Unearned revenue in the general fund represents energy rebates collected in advance and in the special revenue fund represents cash received from federal grants, which has been received but not yet earned and in the adult and community education enterprise fund, represents tuition and fees paid in advance.

## M. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount on a refunding.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as either capital projects fund or debt service fund expenditures in the year of issuance.

## N. Net Position

Net position represents the difference between assets, deferred inflows of resources, deferred outflows of resources and liabilities in the government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net positions are reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

#### **O.** Fund Balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below.

- 1) Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- 4) Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- 5) Unassigned includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

Of the \$11,080,314 of fund balances in the General Fund at June 30, 2016, \$1,590,271 has been restricted in the capital reserve account, \$263,208 has been restricted in the emergency reserve account, \$2,974,649 has been restricted for excess surplus-prior year, \$3,600,000 has been classified as assigned

## O. Fund Balances

fund balance designated for subsequent years expenditures, \$189,641 of encumbrances is assigned to other purposes, \$12,751 has been classified as assigned fund balance designated for subsequent years expenditures - SEMI and \$2,437,043 is unassigned.

The Capital Projects Fund has \$336,192 of fund balance at June 30, 2016 that has been restricted for capital projects.

The Debt Service Fund has \$37,309 of restricted fund balance at June 30, 2016.

## P. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has two items that qualify for reporting in this category, including deferred losses from the refunding of debt and deferred amounts related to pensions. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

## **R. On-Behalf Payments**

Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security and post-retirement medical pension contributions for certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. Additionally, revenues and expenses related to on-behalf pension contributions in the government-wide financial statements have been increased by \$17,136,704 to adjust for the full accrual basis expense incurred by the State of New Jersey during the most recent measurement period. The amounts are not required to be included in the District's annual budget.

#### S. Calculation of Excess Surplus

The designation for restricted fund balance excess surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The District did not generate excess fund balance during the 2016 fiscal year. The District also has prior year excess fund balance in the amount of \$2,974,649 which was utilized in the 2016-17 fiscal year budget.

#### T. GASB Pronouncements

#### GASB Pronouncements implemented in the 2016 Fiscal Year

In February, 2015, GASB issued Statement No. 72, *Fair Value Measurement and Application* ("GASB 72"). The objective of this Statement is to provide guidance for applying fair value for certain assets and liabilities and disclosures related to all fair value measurements. The requirements of this Statement mandate the use of valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. The requirements of this Statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. The District has adopted GASB No. 72 during the year ended June 30, 2016 and it did not have a significant impact on the District's financial statements.

#### **Recently Issued Accounting Pronouncements**

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* ("GASB No. 75"). The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local government employers about financial support for OPEB that us provided by other entities. The Statement will become effective for the District in the 2018 fiscal year and the District has determined that the entire liability will be recorded in the financial statements.

GASB Statement No. 77, *Tax Abatement Disclosures* ("GASB No. 77"). This Statement requires governments that enter into tax abatement agreements to disclose certain information about the agreements. The Statement will become effective for the District in the 2017 fiscal year. Management has not yet determined the impact of this Statement on financial statement note disclosures.

## **U. Subsequent Events**

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2016 and December 2, 2016, the date that the financial statements were available for issuance, for possible disclosure and recognition in the financial statement, and other than as disclosed below, no items have come to the attention of the District that would require disclosure.

On July 13, 2016, the District entered into a \$440,000 capital equipment lease. The lease carries an interest rate of 1.76% and requires annual payments through July 1, 2020.

## 2. Reconciliation of Government-Wide and Fund Financial Statements

# Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, other post-employment benefits, capital leases and compensated absences payable are not due and payable in the current period and therefore are not reported in the funds. The details of this \$58,913,510 difference are as follows:

| Bonds payable   | \$ 33,470,000 |
|---|---------------|
| Premium on bonds  | 4,752,807     |
| Other post-employment benefit payable                     | 639,398       |
| Capital leases payable                                    | 18,994,034    |
| Compensated absences                                      | 1,057,271     |

## 3. Deposits and Investments

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection

Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

## Notes to the Basic Financial Statements (continued)

Year ended June 30, 2016

## 3. Deposits and Investments (continued)

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units. New Jersey statutes require that school districts deposit funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund (NJCMF) and New Jersey Asset and Rebate Management Fund (NJARM).

New Jersey statutes (GUDPA) require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows.

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

At June 30, 2016, the carrying amount of the District's deposits was \$15,834,743 and the bank balance was \$18,199,555. Of the bank balance, \$250,000 of the District's cash deposits on June 30, 2016 was secured by federal depository insurance. The New Jersey GUDPA covered the bank balance of \$14,553,733. \$3,395,822 of the bank balance of the District's agency accounts are not covered by GUDPA. In addition, the District has restricted cash held with fiscal agents in the amount of \$5,199 related to capital leases where the funds are currently held by the lessor.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the District's operating cash accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging

## 3. Deposits and Investments (continued)

financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name.

The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

#### Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds and other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the School District.
- d. New Jersey Cash Management Fund and New Jersey Asset and Rebate Management Fund.

## New Jersey Asset and Rebate Management Fund and New Jersey Cash Management Fund

In order to maximize liquidity, the District utilizes the New Jersey Asset and Rebate Management Fund ("NJARM") and New Jersey Cash Management Fund ("NJCMF") as its investments.

The NJARM, which is an investment pool managed by Public Financial Management Company. NJARM allows governments within the state to pool their funds for investment purposes and the Security and Exchange Commission (SEC) does not restrict the pool. Earnings are allocated to all participants based upon shares held in the pool and distributed on the last day of each month. In addition, the fair value of the District's portion of the pool is the same as the value of its shares. Agencies that participate in the NJARM typically earn returns that mirror short-term investments rates. Monies can be freely added or withdrawn from the NJARM on a daily basis without penalty. At June 30, 2016, the District's balance was \$325,019 with NJARM.

The NJCMF is an investment pool administered by the State of New Jersey, Department of the Treasury and issues separate reports that can be obtained directly from the Department of Treasury. It invests pooled monies from various State and non-State agencies in primarily short- term investments. The pooled shares are equal to the value of the District's shares. These investments include: U.S. Treasuries, short- term Commercial Paper, U.S. Agency Bonds, Corporate Bonds, and Certificates of Deposit. Agencies that participate in the NJCMF typically earn returned that mirror short- term investment rates. Monies can be freely added or withdrawn from the NJCMF on a daily basis without penalty. At June 30, 2016 the District's balance with NJCMF was \$1,003,270.

## Notes to the Basic Financial Statements (continued)

#### 3. Deposits and Investments (continued)

*Custodial Credit Risk*: Pursuant to GASB 40, the NJARM and NJCMF, which are a pooled investment, is exempt from custodial credit risk exposure. The District does not have a policy for custodial credit risk.

*Credit Risk*: The District does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government. NJARM or NJCMF are not rated by a rating agency.

*Concentration of Credit Risk:* The District places no limit on the amount the District may invest in any one issuer. At June 30, 2016, all of the District's investments were invested in the NJARM and NJCMF.

*Interest Rate Risk*: The District does not have a policy to limit interest rate risk. The average maturity of the District's investments in the NJARM and NJCMF are less than one year.

All of the District's investments are classified as cash equivalents at June 30, 2016.

#### 6. Pension Plans

#### **Description of Systems**

Substantially all of the District's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employers.

#### **Teachers' Pension and Annuity Fund**

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage.

Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55<sup>th</sup> of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined compensation for the highest five fiscal years' compensation for the highest five fiscal years' compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

#### Public Employee's Retirement System

The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system.

Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55<sup>th</sup> of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of

credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

#### **Defined Contribution Retirement Plan**

DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

### **Funding Policy**

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in annually through July 2018 that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

The District's actuarially determined contributions to PERS amounted to \$1,898,568, \$1,804,750, and \$1,968,936 for the fiscal years ended June 30, 2016, 2015 and 2014, respectively. During the year ended June 30, 2016, the State of New Jersey contributed \$9,826,665 to the TPAF for post-retirement medical benefits and other pension and insurance costs on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$4,236,382 during the year ended June 30, 2016 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the government-wide and fund financial statements. The employee and employer contributions for the DCRP for the year ended June 30, 2016 were \$191,917 and \$104,755, respectively. For the year ended June 30, 2015, the employee and employer contributions for the DCRP were \$65,144 and \$15,930, respectively. For the year ended June 30, 2014, the employee and employer contributions for the DCRP were \$28,811 and \$8,595, respectively.

#### 6. Pension Plans (continued)

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

#### Public Employee's Retirement System (PERS)

At June 30, 2016, the District reported a liability of \$49,572,491 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2014, which was rolled forward to June 30, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2015, the District's proportion was 0.2208325889 percent, which was an increase of 0.0019119709 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized full accrual pension expense of \$3,603,474 in the government-wide financial statements. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

#### **Additional Information**

#### Actuarial Assumptions

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate            | 3.04%                        |
|---------------------------|------------------------------|
| Salary increases          |                              |
| 2012-2021                 | 2.15 - 4.40%<br>based on age |
| Thereafter                | 3.15 - 5.40%<br>based on age |
| Investment rate of return | 7.90%                        |

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

#### Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

#### Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expecting future real rates of return by the target asset

#### Discount rate

The discount rate used to measure the total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was

### Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2015 was \$354,121,149. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2015, the State's proportionate share of the TPAF net pension liability associated with the District was 0.5602804165% percent, which was an increase of 0.0003744615% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized on-behalf pension expense and revenue in the government wide financial statements of \$21,622,284 for contributions incurred by the State.

#### Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate<br>Salary increases | 2.50%                      |
|------------------------------------|----------------------------|
| 2012-2021                          | Varies based on experience |

| Investment rate of return          | 7.90%                      |

#### Mortality Rates

Mortality rates were based on the RP-2000 Health Annuitant Mortality Tables for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

#### Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2015 are summarized in the following table:

#### Discount Rate

The discount rate used to measure the total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the State's proportionate share of the net pension liability associated with the District to changes in the discount rate

The following presents the State's proportionate share of the net pension liability associated with the District as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the State's proportionate share of the net pension liability associated with the District would be if it were calculated using a discount rate that is 1-percentage-point lower (3.13 percent) or 1-percentage-point higher (5.13 percent) than the current rate:

#### 7. Post-Retirement Benefits

#### **Funding Policy**

P.L. 1987, chapter 384 and P.L. 1990, chapter 6 required Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, chapter 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees. As of June 30, 2015, there were 107,314 retirees eligible for post-retirement medical benefits and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program (ABP) who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2015.

#### **Funding Policy (continued)**

The State will set the contribution rate based on the *annual required contribution of the employers* (ARC), an amount actuarially determined in accordance with parameters of GASB 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the SHBP Fund for TPAF retirees' post-retirement benefits on behalf of the District for the years ended June 30, 2016, 2015 and 2014 were \$5,341,085, \$4,808,669 and \$3,883,666, respectively, which equaled the required contributions for each year. The State's contributions to the SHBP Fund for PERS retirees' post-retirement benefits on behalf of the SHBP Fund for PERS retirees' post-retirement benefits on behalf or made available by the State of New Jersey.

The District follows the accounting provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* in accounting for its self-administered post-retirement benefit plan. This statement established guidelines for reporting costs associated with "other postemployment benefits" (OPEB). OPEB costs are calculated based on plan benefits (other than pensions), that the retired employees and their spouses have accrued as a result of their respective years of employment service. Statement No. 45 requires governments to account for other post-employment benefits, primarily health care, on an accrual rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the government-wide statement of activities when a future retiree earns their postemployment benefit rather than when they use their postemployment benefit. To the extent that an entity does not fund their actuarially required contribution, a postemployment benefit liability is recognized on the government-wide statement of net position over time. The requirements of this statement are being implemented prospectively, with the actuarially accrued liability for the benefits at June 30, 2009 (date of transition) being amortized over 30 years. Accordingly, for financial reporting purposes, no liability was reported for the postemployment health care benefits liability at the date of transition.

#### **Plan Description**

The District provides postemployment medical benefits, including prescription drug coverage, and vision and dental care, in accordance with state statute to participating retirees and their beneficiaries. As of June 30, 2016, the valuation date, approximately 6 retirees and 2 decedents (of surviving spouses) meet the eligibility requirements put forth in P.L. 1992, c126. The District sponsors and participates in a single-employer defined benefit OPEB plan. The OPEB plan is administered by the District and does not issue a stand-alone financial statement.

Individuals with a minimum of twenty years of service with the District and less than twenty-five years of service with the state of New Jersey are eligible for subsidized medical coverage. A minimum of twenty years of service is required for subsidized dental coverage with no migration to the state plan if exceeding twenty-five years of service.

#### Plan Description (continued)

The obligations of the plan members and the District are established by action of the District pursuant to applicable collective bargaining and employment agreements. The required contribution rates of the employer and members vary depending on the applicable agreement.

#### Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer. The District has engaged an actuary to calculate the ARC and related information per the provisions of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities (or funding excess) over a period not to exceed thirty years. An updated valuation was prepared for the 2016 fiscal year. The following table presents the components of the District's annual OPEB cost for the last three years, the amount actually contributed to the Plan and changes in the District's net OPEB obligation to the Plan:

#### Funded Status and Funding Progress (continued)

As of June 30, 2014, 2015 and 2016, the actuarial accrued liability for benefits was \$2,321,680 all of which was unfunded.

The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multi-year trend information that shows whether the value of plan assets is increasing or decreasing over time relative to the accrued liabilities for benefits.

#### **Actuarial Valuations**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future including assumptions about future employment, mortality and healthcare cost trends. Amounts determined regarding the funded status of the Plan and the annual required contributions of the District and Plan members are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the District and Plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In the June 30, 2014, 2015 and 2016 actuarial valuations, the liabilities were computed using the entry age method and level dollar amortization over 30 years of which there were 27 years remaining in the prior year and 26 years remaining this year. The actuarial assumptions include a 2% discount rate and an initial healthcare cost trend rate of 9% leveling off to 5% with 1% annual increments for health care and pharmacy benefits and 4% and 3% for dental and vision leveling off to 3%.

#### 8. Interfund Receivables and Payables

The total interfund accounts receivable and payable for the District at June 30, 2016 amounted to \$863,853 analyzed as follows:

| Fund  | Interfund<br>Receivable | Interfund<br>Payable  |
|---|-------------------------|-----------------------|
| General Fund<br>Special Revenue Fund<br>Capital Projects Fund | \$ 863,853              | \$ 443,001<br>420,852 |
| 1 5   | \$ 863,853              | \$ 863,853            |

#### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2016

#### 8. Interfund Receivables and Payables (continued)

The interfunds between the general fund and the special revenue and capital projects funds represent allocations of internally pooled cash from the general fund to liquidate a pooled cash deficit. All interfunds are expected to be liquidated within one year.

#### 9. Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

#### 10. Contingent Liabilities

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2016 may be impaired. In addition, the District is receiving funding from the New Jersey Schools Development Authority (NJSDA), in connection with its approved referendum projects. The costs associated with the funding received from the NJSDA are subject to a final review of eligible costs and compliance by the New Jersey Department of Education and the NJSDA. To the extent that the District has not complied with the rules and regulations governing the NJSDA funds or has not met the final eligible costs requirements, refunds of any money received may be required. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying combined financial statements for such contingencies.

The District is also involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the Board.

#### 11. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District obtains its health and dental coverage through Horizon Blue Cross Blue Shield and Delta Dental, respectively.

#### **Property and Liability Insurance**

The District maintains commercial insurance coverage for property, liability, student accident and surety bonds and does not retain risk of loss. There have been no significant reductions in insurance coverage from the prior year and no settlements have exceeded insurance coverages over the past three years. A complete schedule of insurance coverage can be found in the statistical section of this report.

The District is a member of the Pooled Insurance Program of New Jersey (the "Fund"). The public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. However, the District receives only workers' compensation coverage from the Fund. The Fund is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Fund are elected.

As a member of this Fund, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the Fund were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities. The Fund can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the membership body. In accordance with Statement No. 10 of the Governmental Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared.

The June 30, 2016 audit report for the Fund is not available as of the date of this report. Selected, summarized financial information for the Group as of June 30, 2015 (latest available) is as follows:

#### New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

The transfer from the capital projects fund to debt service fund represents interest earned.

#### 13. Deferred Compensation Plans

The Board offers its employees deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency.

A capital reserve account was established by the District by inclusion of \$150,000 on July 1, 1996 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line – item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

#### Notes to the Basic Financial Statements (continued)

#### 14. Capital Reserve Account (continued)

The balance in the capital reserve at June 30, 2016 did not exceed the balance of the local support costs of uncompleted capital projects in the District's approved LRFP. The withdrawals from the capital reserve account are for use in a DOE approved facilities project, consistent with the District's Long Range Facilities Plan. Of the \$1,590,271 balance at June 30, 2016, \$1,000,000 has been appropriated in the 2016-2017 budget.

#### 15. Emergency Reserve Account

An emergency reserve account was established by the District by inclusion of \$322,000 on June 28, 2010 for the accumulation of funds for use as unanticipated general fund expenditures in subsequent fiscal years. The emergency reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The emergency reserve account is restricted to be used to accumulate funds in accordance with N.J.S.A. 18A:7F-41c(1) to finance unanticipated general fund expenditures required for a thorough and efficient education. Unanticipated means reasonably unforeseeable and shall not include additional costs caused by poor planning. The maximum balance permitted at any time in this reserve is the greater of \$250,000 or 1% of the general fund budget not to exceed one million dollars. Deposits may be made to the emergency reserve account by board resolution at year end of any unanticipated revenue or unexpended line item appropriation or both. The department has defined year end for the purpose of depositing surplus into reserve accounts as an amount approved by the District board of education between June 1<sup>st</sup> and June 30<sup>th</sup>. Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of four percent.

The emergency reserve balance at June 30, 2016 was \$263,208.

#### 16. Restricted Assets

The District has set aside cash and cash equivalents that are classified as restricted assets as they are restricted for use for future capital requirements and emergencies in the general fund.

#### 17. Commitments

The District has contractual commitments at June 30, 2016 to various vendors, for which \$189,641 is recorded in the general fund as fund balance assigned to other purposes.

The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

\* This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, governments should present information for those years for which information is available.

Covered payroll information is not presented since the Teachers' Pension and Annuity Fund is a special funding situation in which the District does not make a contribution to this plan.

See accompanying notes to required supplementary information.

The change in the reserved fund balance is the result of capital project fund expenditures incurred for projects in which the funding was received in prior years through the issuance of bonds.

This table was required with the implementation of GASB 44 in the 2005 fiscal year. This information is presented back to the year of implementation of GASB 34 and additional years will be added until ten years.

GASB 54 was implemented in the 2012 fiscal year, which required the presentation of fund balances to be reported in different classifications from those presented in prior years. (See footnote 1 in the basic financial statements). Prior years have not been restated above, nor are they required to be.

Sources: Assessed value data used to estimate applicable percentages provided by the Morris County Board of Taxation; debt outstanding data provided by each governmental unit.

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Parsippany-Troy Hills. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

**a** For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of Parsippany-Troy Hills Township's equalized property value that is within the Morris County's boundaries and dividing it by Morris County's total equalized property value.

# Single Audit Section

# Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

### Independent Auditors' Report

Honorable President and Members of the Board of Education Parsippany-Troy Hills School District Parsippany, New Jersey County of Morris

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Parsippany-Troy Hills School District, in the County of Morris, New Jersey (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 2, 2016.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report on Compliance For Each Major Federal and State Program and on Internal Control Over Compliance Required by the Uniform Guidance and New Jersey OMB 15-08

Independent Auditors' Report

Honorable President and Members of the Board of Education Parsippany-Troy Hills School District Parsippany, New Jersey County of Morris

# Report on Compliance for Each Major Federal and State Program

We have audited the Parsippany-Troy Hills School District, in the County of Morris, New Jersey (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2016. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

# Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Those standards, the Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable

assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

### **Opinion on Each Major Federal and State Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2016.

### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, we with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

# Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Parsippany-Troy Hills School District

Year ended June 30, 2016

### 1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all expenditures of federal awards and state financial assistance programs of the District. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

### 2. Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service enterprise fund and the capital projects fund which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules is presented in accordance with the requirements of 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Therefore, some of the amounts presented in this schedule may differ from amounts presented, or used in the preparation of, the basic financial statements.

### 3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison schedules and statements (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

### 3. Relationship to Basic Financial Statements (continued)

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, these payments are not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$1,871 for the general fund and \$8,993 for the special revenue fund. See Note to Required Supplementary Information (C-3) for a reconciliation of the budgetary basis to GAAP of accounting for the general and special revenue funds. Financial award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

|                                | Federal      | State        | Total        |
|--------------------------------|--------------|--------------|--------------|
| General Fund                   | \$ 88,647    | \$19,805,070 | \$19,893,717 |
| Special Revenue Fund           | 2,590,205    | 174,051      | 2,764,256    |
| Debt Service Fund              |              | 568,629      | 568,629      |
| Food Service Enterprise Fund   | 719,005      | 20,825       | 739,830      |
| Total financial award revenues | \$ 3,397,857 | \$20,568,575 | \$23,966,432 |

The adjustment to reconcile from budgetary basis accounts receivable to GAAP basis accounts receivable is \$2,427 for the special revenue fund. This is a result of recognizing encumbrances as expenditures on the budgetary basis but not the GAAP basis.

### 4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

### 5. Other

Revenues and expenditures reported under the Food Donation Program represent current year value of USDA commodities received and current year distributions, respectively. TPAF Social Security Contributions represent the amount reimbursed by the State for the employer's share of Social Security contributions for TPAF members for the year ended June 30, 2016.

The post retirement pension and medical benefits on-behalf of the District for the year ended June 30, 2016 amounted to \$9,826,665. Since on-behalf post retirement pension and medical benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB's Circular 15-08. However, they are required to be reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency.

In addition, The District did not utilize the 10% de minimis indirect cost rate.
