Dr. Marilyn J. Shediack, Assistant Superintendent

Ms. Erin Hill, Business Administrator/Board Secretary

November 30, 2016

Honorable President and Members of the Board of Education Sayreville School District County of Middlesex, New Jersey

**Dear Board Members:** 

The Comprehensive Annual Financial Report of the Sayreville School District ("District") for the fiscal year ended June 30, 2016 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Sayreville Board of Education ("Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all materials, respects and is reported in a manner designed to present fairly the financial position and results of operation of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart, a roster of principal officials and a list of consultants and advisors. The financial section includes the financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.

Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

REPORTING ENTITY AND ITS SERVICES: Sayreville School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Boards ("GASB"). All funds of the District are included in this report. The Sayreville Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular as well as special education for handicapped youngsters. The District completed the 2014/15 fiscal year with an enrollment of 6009 students which is 34 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last ten years:

#### **Average Daily Enrollment**

Fiscal Year	Student Enrollment	Increase (Decrease) Percent Change
2015/16	6069	1.00%
2014/15	6009	(.056%)
2013/14	6036	1.55%
2012/13	5944	(0.75%)
2011/12	5,989	1.34%
2010/11	5,910	(1.73%)
2009/10	6,014	3.64%
2008/09	5,803	1.13%
2007/08	5,738	1.00%
2006/07	5,681	(.82%)
2005/06	5,728	(.05%)
2004/05	5,759	.26%
2003/04	5,744	2.80%
2002/03	5,585	.79%
2001/02	5,541	1.67%
2000/01	5,450	2.35%
1999/00	5,325	2.15%

- 2. ECONOMIC CONDITION AND OUTLOOK: The Borough of Sayreville is a community which has experienced moderate but increasing growth over the past decade. Building room exists for residential dwellings, condominiums, commercial structures and light industry. The Borough is convenient to urban centers, manufacturing areas, several institutes of higher learning, and merchandise malls. The community has benefited from a healthy national economy by maintaining established small businesses and moderate expansion of commerce.
- 3. MAJOR INITIATIVES: Programs are being developed and implemented to improve student performance on high stakes state testing. This testing is part of the requirements of the ESEA Waiver. Steps are being taken to ensure that students in all schools meet Annual Progress Targets.
- 4. <u>INTERNAL ACCOUNTING CONTROLS:</u> Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles ("GAAP"). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:
  - a) The cost of a control should not exceed the benefits likely to be derived;
     and
  - b) The valuation of costs and benefits requires estimate and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to the federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. <u>BUDGETARY CONTROLS:</u> In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the General Fund, the Special Revenue Fund, and the Debt Service Fund. Project-length budgets are approved for the capital improvements accounted for in the Capital Projects Fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance account system is used to record outstanding purchase commitments on a line-item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2015.

- 6. <u>ACCOUNTING SYSTEM AND REPORTS:</u> The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board ("GASB"). The accounting system of the District is organized on the basis of funds. These funds are explained in Note 1 of the Notes to Financial Statements.
- 7. CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in Note 3 of the Notes to Financial Statements. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 8. <u>RISK MANAGEMENT:</u> The Board carries various forms of insurance including, but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.
- 9. <u>OTHER INFORMATION:</u> Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Samuel Klein and Company, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of

Uniform Guidance and State OMB Circular Letter 15-08. The auditor's report on the financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. <u>ACKNOWLEDGMENTS:</u> We would like to express our appreciation to the members of the Sayreville School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Dr. Richard R. Labbe

#### INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Sayreville Board of Education County of Middlesex Sayreville, New Jersey 08872

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Sayreville School District, County of Middlesex, State of New Jersey, as of and for the year ended June 30, 2016 and the related notes to financial statements, which collectively comprise the Board's basic financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Sayreville School District, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison Information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sayreville School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the Board of Education of the Sayreville School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sayreville School District's internal control over financial reporting and compliance.

//JOSEPH J. FACCONE

Licensed Public School Accountant #194

SAMUEL KLEIN AND COMPANY CERTIFIED PUBLIC ACCOUNTANTS

Newark, New Jersey November 30, 2016 **REQUIRED SUPPLEMENTARY INFORMATION - PART I** 

#### **DISTRICT MISSION STATEMENT**

The mission of the Sayreville Board of Education, an integral part of our diverse, involved community, is to meet the challenges of a changing society by offering a comprehensive education that will provide the opportunities for students to become well-rounded individuals who are able to think for themselves through consultation, cooperation and participation with that community.

#### Introduction

The above Mission Statement underscores the educational philosophy that was the heart of all the District's financial activities during the fiscal year ending June 30, 2016. Management's Discussion and Analysis of the District's financial results that follow will provide statement readers with some insight into this philosophy and its impact on the educational changes taking place within the District, as well as providing some understanding of the fiscal activities undertaken by the Board's administrative team to effect this change.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard board's (GASB) Statement No. 34 - Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued in June 1999. Certain comparative information between the current year (2015-2016) and the prior year (2014-2015) is required to be presented in the MD&A.

#### Using This Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements as well as notes to those statements. These statements are organized so that the reader can understand the Sayreville Public School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of the Sayreville Public School District, the General Fund is by far the most significant fund.

#### REPORTING THE SCHOOL DISTRICT AS A WHOLE

#### Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The Statement of Net Position and Statement of Activities help answer this question. These Statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

### REPORTING THE SCHOOL DISTRICT AS A WHOLE (Continued)

#### Statement of Net Position and the Statement of Activities (Continued)

These two Statements report the School District's net assets and changes in those assets. This change in net Position is important because it tells the reader that, for the School District as a whole, the financial positions of the School District have improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities All of the School District's programs and services are reported here, including, but not limited to Instruction, Support Services, Operation and Maintenance of Plant Facilities, Pupil Transportation and Extracurricular Activities.
- Business-Type Activities This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service and Adult School Enterprise Funds are reported as a business activity.

#### REPORTING THE SCHOOL DISTRICT'S MOST SIGNIFICANT FUNDS

#### **Fund Financial Statements**

Detailed information about the School District's major funds is presented and an analysis of the School District's major funds is included in the 2015-2016 Comprehensive Annual Financial Report as presented by the School District. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

#### **Governmental Funds**

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

#### **Enterprise Fund**

The Enterprise Fund uses the same basis of accounting as business-type activities; therefore these statements are essentially the same.

#### **FINANCIAL HIGHLIGHTS**

Key financial highlights for the fiscal year 2016 are as follows:

- The assets of the Sayreville Board of Education exceeded its liabilities at the close of the fiscal year by \$18,833,785 (net position). However, the amount available to meet the District's ongoing obligations (unrestricted) was \$(23,096,317).
- The District's total net position increased \$1,018,501.
- General revenues accounted for \$85,790,360 in revenue or 89.6 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, accounted for \$9,992,459 or 10.4 percent to total revenues of \$95,782,819.
- The school District had \$106,134,924 in expenses for governmental activities; only \$9,992,459 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$85,790,360 were adequate to provide for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$4,646,899.
- The General Fund had \$88,367,294 in revenues and \$87,205,625 in expenditures. The General Fund's balance's increased \$1,346,469 from the previous year to \$1,300,045.
- The General Fund budgetary fund balance at the close of the current fiscal year was \$6,570,446 which represented an increase of \$1,289,113 from the previous year.

#### THE SCHOOL DISTRICT AS A WHOLE

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

The following provides a summary of the School District's Net Position for 2016 and 2015:

### Net Position As of June 30, 2016 and 2015

	Governmental Activities		Business-Ty	pe Activities	Total			
	2016	2015	2016	2015	2016	2015		
Current and Other Assets Capital Assets	\$ 9,915,530 82,044,823	\$ 7,708,209 83,804,316	\$ 542,080	\$ 506,031	\$ 10,457,610 82,044,823	\$ 8,214,240 83,804,316

Unrestricted	(23,371,315)	(23,545,422)	274,998	292,132	(23,096,317)	(23,253,291)		
Total Net Position	\$ 18,558,787	\$ 17,523,152	\$ 274,998	\$ 292,132	\$ 18,833,784	\$ 17,815,283		

By far, the largest portion of the District's net assets reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### SAYREVILLE SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### UNAUDITED (Continued)

### THE SCHOOL DISTRICT AS A WHOLE (Continued)

The following shows the Changes in Net Position for fiscal years 2016 and 2015:

### Change in Net Assets For the Years Ended June 30, 2016 and 2015

Governmental Activities - The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the School District operations. Property taxes of \$60,525,205 and \$58,960,419 made up 64% and 64% of the revenues for governmental activities for the Sayreville Board of Education for fiscal years ended June 30, 2016 and 2015, respectively. The District's total revenues were \$94,456,047 and \$91,935,181 for the fiscal years ended June 30, 2016 and 2015, respectively. Federal, state and local aid and grants accounted for another \$33,322,126 and \$32,210,421 representing 35% and 35% of total governmental activities revenues for the fiscal years ended June 30, 2016 and 2015, respectively.

The total cost of all programs and services were \$94,243,044 and \$115,361,976 for the fiscal years ended June 30, 2016 and 2015, respectively. Instruction comprised \$37,358,612 (40%) and \$69,966,804 (61%) of District expenses for the fiscal years ended June 30, 2016 and 2015, respectively.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these funds.

#### **Governmental Activities (Continued)**

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities. Extracurricular activities includes expenses related to student activities provided by the School district which are designed to provide opportunities for students to participate in school events, public events or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Student and instruction related services include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development. Curriculum and staff development includes expenses relating to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

General administration, school administration, central services and administrative information technology include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges for debt of the School District.

**Business-Type Activities** - Revenues for the District's business-type activities (food service and adult school programs) were comprised of charges for services and federal and state reimbursements.

- Food service and adult school expenses exceeded revenue by \$17,134 and expenses exceeded revenues by \$2,604 for the years ended June 30, 2016 and 2015, respectively.
- Charges for services represent \$1,378,147 and \$1,153,184 of revenue for the fiscal years ended June 30, 2016 and 2015. This represents amounts paid by patrons for daily food sales (78% and 91%) and program fees (22% and 9%) for the adult school.
- Federal and state reimbursements for food service meals, including payments for free and reduced lunches and donated commodities were \$1,326,773 and \$1,269,588 for the fiscal years ended June 30, 2016 and 2015, respectively.
- Total expenses were \$2,572,054 and \$2,425,376 for the fiscal years ended June 30, 2016 and 2015, respectively.

#### THE SCHOOL DISTRICT'S FUNDS

Information about the School District's major funds is included in the 2015-2016 Comprehensive Annual Financial Report as presented by the School District. These funds are accounted for using the modified accrual basis of accounting. All governmental funds (i.e., General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund presented in the fund-based statements) had total revenues of \$94,456,047 and \$91,935,181 and expenditures of \$94,243,044 and \$93,562,093 for the fiscal years ended June 30, 2016 and 2015, respectively. As the District completed the year, its governmental funds reported a combined fund balance of \$4,646,899 an increase of \$363,003 from last year's fund balance of \$4,283,896.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The General Fund includes the primary operations of the District in providing educational services to students from Kindergarten through Grade 12 including pupil transportation and capital outlay activities. The following schedules present a summary of the revenues of the General Fund for the fiscal years ended June 30, 2016 and 2015, and the amount and percentage of increases or decreases in relation to prior year revenues.

	<u>2016</u>	<u>2015</u>	Amount of Increase (Decrease)	Percent Increase (Decrease)
Local Sources: Property Taxes Other	\$ 60,525,205 608,716	\$ 58,960,419 764,340	\$ 1,564,786 (155,625)	2.7% -20.4%
State Sources	30,968,223	29,772,717	1,195,506	4.0%
Federal Sources	2,353,903	2,437,704	(83,801)	-3.4%
	\$ 94,456,047	\$ 91,935,181	\$ 2,520,867	2.7%

Overall, General Fund revenues increased 2.7% during the current school year. The increase in Local Sources is attributable to a tax increase of 2.7% to fund District operations and tuition revenues earned during the current year. The net increase in State Sources is due mainly to the addition of State Aid. Federal Sources decreased due to less revenue not available in the 2015 - 2016 school years.

#### THE SCHOOL DISTRICT'S FUNDS (Continued)

The following schedule presents a summary of General Fund expenditures for the fiscal years ended June 30, 2015 and 2014:

	2016	2015	Increase (Decrease)	Increase (Decrease)
Instruction	\$ 37,358,612	\$ 36,315,314	\$ 1,043,298	2.9%
Support Services	51,669,109	50,300,459	1,368,650	2.7%
Debt Service	3,738,793	3,729,380	9,413	0.3%
Capital Outlay	1,476,530	3,216,940	(1,740,410)	-54.1%
	\$ 94,243,043	\$ 93,562,093	\$ 680,951	0.7%

Overall District expenditures during the current year remained relatively unchanged from the previous year. Instructional contractual salaries for teachers specifically in the Basic Skills function and other District personnel increased over the previous year.

The increase in Support Services is attributable to a moderate increase in tuition related expenditures.

The decrease in capital outlay is attributed to the completion of construction projects from the previous year.

#### **GENERAL FUND BUDGETING HIGHLIGHTS**

The School District's budget is prepared according to New Jersey Law, and is based on accounting for certain transactions on a basis of modified accrual and encumbrance accounting. The most significant budgeted fund is the General Fund.

During the course of the 2015 / 2016 school year, the School District amended its General Fund budget as needed. The School District uses program-based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management. Amendments are made during the year for:

- Staffing changes based on student needs.
- Changes in facility maintenance and operation needs.
- Changes in appropriations to prevent budget overruns.

#### **GENERAL FUND BUDGETING HIGHLIGHTS (Continued)**

While the District's final budget for the General Fund anticipated that revenues and expenditures would roughly equal with the use of \$3,500,000 of prior year unreserved/undesignated budgetary fund balance, the actual results for the year ended June 30, 2016 revealed an increase of \$1,289,113 in budgetary surplus funds in 2016 respectively. The total unreserved/undesignated fund balance (budgetary basis) at June 30, 2016 was \$6,570,446 compared to \$5,281,333 at June 30, 2015.

#### **CAPITAL ASSETS**

At the end of the fiscal years 2016 and 2015, the School District has \$82,044,823 and \$83,804,316 invested in land, construction-in-progress, buildings, leasehold improvements, and furniture and equipment vehicles. Depreciation charges for the fiscal years 2016 and 2015 were \$2,937,490 and \$2,855,591 for governmental activities, respectively and none for business-type activities, respectively. The following is a comparison of the June 30, 2016 and 2015 balances.

Capital Assets at June 30, 2016 and 2015

	Governmental Activities			Bus	Business-Type Activities			Total			
		2016		<u>2015</u>	20	16	<u>2015</u>		2016		2015

Less: Accumulated											
Depreciation		45,606,085)	_	(42,668,595)	(55	2,902)	(552,90	2)	(46,158,987)	_	(43,221,497)
Total	\$	82,044,823	\$	83,804,316	\$		\$	<u> </u>	82,044,823	\$	83,804,316

Additional information on the District's capital assets can be found in the Notes to the Basic Financial Statements.

#### LONG-TERM LIABILITIES

At June 30, 2016, the School District had \$44,966,946 as outstanding debt consisting of \$43,609,096 bonds (net of unamortized premium and loss on refunding) for school construction, \$795,546 Lease Purchase Agreements and \$562,303 compensated absences. The following is a comparison of the June 30, 2016 and 2015 balances:

### Outstanding Long-Term Liabilities at June 30, 2016 and 2015

	Governmental Activities			
	<u>2015</u>	2015		
General Obligation Bonds Payable, Net Capital Leases Payable	\$ 43,609,096	\$ 45,633,792 5,441		
Lease Purchase Agreements	795,546	1,352,753		
Compensated Absences	562,303	923,130		
Total	\$ 44,966,946	\$ 47,915,117		

Additional information on the District's long-term liabilities can be found in the Notes to the Basic Financial Statements.

#### FOR THE FUTURE

We continue to strive for excellence within the Sayreville Public Schools. While we have much work to do, we are proud of the outcomes our students produced in 2015-16. In fact, we will be entering the third and final year of the first of several Vision 2030 Strategic Action Plans, in which over the past two years we have utilized to implement significant changes that we are now beginning to see have both enhanced student achievement and improved the efficiency of our business operation. For example, we implemented several new software systems, such as Aesop, InfoSnap, IEP Direct, 504 Direct, and RTIm Direct to more efficiently collect, manage, and analyze student and staff data. In the 2016-17 school year, we will implement a new software called Link-It, which will manage and analyze all our student assessment data, as well as allow our teachers to create computer-based assessments. We will also be installing a new state of the art phone system, and each certified staff member in the district will have subscription to a virtual desktop, which will provide them access to their documents and our district servers on any device when in or out of the district.

Academically, we will implement a new standards-based report card in kindergarten through 2<sup>nd</sup> grade and will loop all of 2015-16 kindergarten students into 1<sup>st</sup> grade with their kindergarten teachers. Likewise, our teachers will continue to develop, post, and share their lesson plans electronically using Oncourse, which will also once again serve as our electronic platform for certificated staff observations and evaluations, as well as the production of professional development plans and student growth objectives. In addition, we will continue to integrate language arts literacy with social studies and science with mathematics in Liberal Arts and STEM blocks of instructions. To coincide with that, our students in kindergarten through 3<sup>rd</sup> grade will continue to attend media arts special classes (computers). Our students in the middle and high school will enter their second year in our revised grades 6-12 math continuum, and will soon be doing the same in our new science continuum, which now includes curricula aligned with the Next Generation Science Standards. Finally, to better enrich and support the extension of learning before and after school for our students in preschool through 8<sup>th</sup> grade, we have contracted with a new academically-based before and after care patron called Springboard Education for the 2016-17 school year.

### FOR THE FUTURE (Continued)

To address the needs of our students with disabilities and those general education students that might be atrisk of not succeeding, in 2015-16 we launched Literacy and Math Academy small group supplemental tutoring in grades K-8, adopted Project Read as our alternative literacy development program for students with severe reading discrepancies, and will be providing all students in Kindergarten through 5<sup>th</sup> grade with a subscription to ST Math, a research proven effective math intervention, as well as IXL Math for 2016-17. In 2015-16 we also restructured our special education program continuum in order to educate more students with disabilities in the least restrictive environment, and as result are now educating more students with disabilities with typically developing peers than ever before in Sayreville. As a matter of fact, for 2016-17 we reduced the number of students being educated in private out of district schools by about 25%. Finally, in 2015-16 we infused a response to intervention methodology into our existing intervention and referral services (I&RS) and in 2016-17 will be doing the same in special education programs to accelerate and closely monitor the progress of all at-risk students in the district, and as referenced above, will continue to utilize the RTIm Direct software to assist us in this endeavor.

For our higher level learners, we revised our Talented and Academically Gifted Program entrance criteria for 2016-17 and required and paid for all of our students taking Advanced Placement courses to take the Advance Placement Test in the spring, which resulted in more students taking and achieving an average score of 3-5 than ever before in Sayreville. In fact, thanks to the outstanding work of our teachers and students, our AP test scores increased significantly in most subject areas, especially English Language Arts, Mathematics, and Social Studies. Furthermore, based upon our preliminary 2015-16 PARCC results, compared to 2014-15, the number of students in all tested grades district wide who met or exceeded expectations increased in both ELA and mathematics, especially in grades 3-5.

To enhance the social and emotional development, as well as the academic development of our students, we staffed a full time guidance counselor in each elementary school for 2015-16 and we will have two counselors in the Samsel Upper Elementary School for 2016-17, while also continuing to provide the same level of counseling at the middle school and high school. Likewise, we began providing a 21<sup>st</sup> Century Skills related arts class to our kindergarten students one time per week in 2015-16 and will be doing the same for all students in grades 1-5 at least one time per month in 2016-17. In the high school, we contracted with an organization called Effective School Solutions for 2015-16 in order to assist our students with school phobia/anxiety or any other condition that might adversely impact their attendance or overall performance. Furthermore, we will be piloting a new character education program for 2016-17 in the elementary schools called Responsive Classroom, and a web-based character education curriculum called Stand Up and Say No to Bullying in the middle school.

#### CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the funds it receives. If you have questions on this report or need additional financial information, please contact Erin Hill, School Business Administrator/Board Secretary at Sayreville Board of Education, 150 Lincoln Street, South Ambov. New Jersey 08879 or send an email to Erin.Hill@sayrevillek12.net.

# SAYREVILLE SCHOOL DISTRICT RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2016

<u>B-3</u>

	Ref.		
Total Net Change in Fund Balances - Governmental Funds	B-2		\$ 363,003.39
Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:  Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.			
Depreciation Expense Capital Outlays, net of capital lease principal payments		\$(2,937,490.00) 1,177,997.43	(1,759,492.57)
Repayment of Debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.			
Serial Bonds Capital Leases, Net Lease Purchase Agreements, Net		2,070,000.00 5,441.23 557,206.86	
Lease Fulchase Agreements, Net			2,632,648.09
Governmental Funds report the effect of issuance costs, premiums, and the loss on refunding when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.			
Amortization of Loss on Refunding Bonds Amortization of Original Issue Premium		(63,186.00) 17,882.00 (22,124.00)	
Amortization of Issuance Costs		(22,124.00)	(67,428.00)
Pension contributions are reported in governmental funds as expenditures. However, in the statement of activities, the contributions are adjusted for actuarial valuation adjustments, including service and interest cost, administrative costs, investment returns, and experience/assumption. This is the amount by which net position liability and deferred inflows/			
outflows related to pension changed during the period.			(509,077.00)
Decrease in Compensated Absences			360,826.69
Decrease in Accrued Interest Payable			15,155.21
Change in Net Position of Governmental Activities	A-2		\$ 1,035,635.81

NOTES TO THE FINANCIAL STATEMENTS

#### SAYREVILLE SCHOOL DISTRICT

#### NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Sayreville Borough School District (the "District") is a Type II District located in the County of Middlesex, State of New Jersey. As a Type II District, the District functions independently through a Board of Education (the "Board"). The Board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in grades K - 12. The District had an approximate enrollment at June 30, 2016 of 6,069 students.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- . the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the District's accounting policies are described below.

#### A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

#### 1. Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

#### A. Basis of Presentation (Continued)

#### 1. Government-Wide Financial Statements (Continued)

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### 2. Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

#### B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

#### 1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

#### B. Fund Accounting (Continued)

#### 1. Governmental Funds (Continued)

#### General Fund (Continued)

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

<u>Special Revenue Fund</u> - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u> - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u> - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

<u>Permanent Fund</u> - The Permanent Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. Resources are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting entity's programs - that is, for the benefit of the school district. The District presently has no resources that are considered permanent funds.

#### 2. Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Fund of the District:

<u>Enterprise Fund</u> - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund and the Adult School.

#### B. Fund Accounting (Continued)

#### 2. Proprietary Fund Type (Continued)

#### Enterprise Fund (Continued)

All Proprietary Funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total position) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary Fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Depreciation of all exhaustive fixed assets used by Proprietary Funds is charged as an expense against their operations. Accumulated depreciation is reported on Proprietary Fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund:
Machinery and Equipment
Adult School:
Equipment

5 - 12 Years

5 Years

<u>Internal Service Funds</u> - These funds may be used to report any activity that provides goods or services to other funds, departments or agencies of the primary entity and its component units, or to other governments, on a cost-reimbursement basis. In addition, internal service funds are used only if the reporting school district is the predominant participant in the activity. The District does not currently utilize any Internal Service Funds.

#### 3. Fiduciary Funds

Fiduciary Fund reporting focuses on net position and changes in net position. They are used to account for assets held in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. There are four fiduciary fund types - pension (and other employee benefit) trust funds, investment trust funds, private-purpose trusts and agency funds. The overarching rule for these funds is that they should never be used to report resources that can be used for programs of the reporting district.

<u>Unemployment Insurance Trust</u> - The SUI Fund is an employee benefit trust fund which accounts for resources held and administered while acting in a fiduciary capacity for individuals or other government agencies. Assets are held in trust for members of the defined contribution plan.

<u>Scholarship Fund</u> - This is a private-purpose trust fund under which principal and income benefit individuals, private organizations or other governments. It is a default fund type for assets held in trust for others outside the reporting district.

<u>Agency Funds</u> - Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. These funds are custodial in nature and do not involve measurement of results of operations. Agency Funds include payroll and student activities funds.

#### B. Fund Accounting (Continued)

#### 4. Long-Term Debt

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt, not in the governmental funds. This includes serial bonds outstanding that are expected to be financed from governmental funds, the outstanding principal balance on capital leases, lease-purchase agreements, compensated absences, claims and judgments, early retirement incentive programs and rebatable arbitrage.

#### C. Measurement Focus

#### 1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement of Net Position.

#### 2. Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total position) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

Fiduciary funds are reported using the economic resources measurement focus.

#### D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

#### D. Basis of Accounting (Continued)

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

#### E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the County Office for approval. Budgets which meet the tax levy cap requirements do not require voter approval. Budgets which exceed the tax levy cap require voter approval for the excess amount at the November election. Budgets are prepared using the modified accrual basis of accounting, except for the Special Revenue Fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year subject to the limitation of N.J.A.C. 6A:23A-2.3 (et seq.).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General Fund Revenue and Special Revenue Fund Revenue from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

#### E. Budgets/Budgetary Control (Continued)

	General <u>Fund</u>	Special Revenue Fund
Sources/Inflows of Resources:  Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule.	\$ 88,371,092.55	\$2,349,810.95
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		(9,524.24)
Difference - Budget-to-GAAP: State aid payment recognized for budgetary purposes not recognized for GAAP statements - current year.	(2,065,345.00)	
State aid payment not recognized for budgetary purposes, recognized for GAAP statements - prior year.	2,061,546.00	
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds.	\$ 88,367,293.55	\$2,340,286.71
Uses/Outflows of Resources: Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule.	\$ 87,266,779.56	\$2,349,810.95
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		(9,524.24)
Pension expensed recognized for GAAP but not for budgetary purposes.	(61,155.00)	-
Total expenditures as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds.	\$ 87,205,624.56	\$2,340,286.71

#### F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the Special Revenue Fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end. There were open encumbrances recorded in the Special Revenue Fund as of June 30, 2016 in the amount of \$9,524.24.

#### F. Encumbrances (Continued)

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

#### G. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited to the types of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks, (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

#### H. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the Enterprise Fund are recorded as an expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

#### I. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

#### J. Tuition Payable

Tuition charges for the fiscal years 2014-15 and 2015-16 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

#### K. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

#### L. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of two thousand. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Buildings and Improvements Furniture and Equipment Vehicles	20 - 40 Years 7 - 20 Years 8 Years

#### M. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

#### N. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

#### O. Net Position

The District has implemented GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. This statement defines net position as the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. This Statement provides guidance for reporting net position within a framework that includes deferred outflows of resources and deferred inflows of resources, in addition to assets and liabilities.

The District has implemented GASB No. 65, *Items Previously Reported as Assets and Liabilities.* This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period.

Net position is displayed in three components - net investment in capital assets; restricted and unrestricted.

The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position.

The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### P. Deferred Inflows

Deferred inflows in the special revenue fund represents cash that has been received but not yet earned. Deferred inflows in the General Fund represents prepaid fees collected for future programs.

#### Q. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

#### R. Fund Balance Reserves

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

#### S. Proprietary Funds Revenues and Expenses

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the School District enterprise fund (the Food Service) are charges to customers for sales of food service. Operating expenses for enterprise funds include the cost of sales and services, administrative expense and depreciation on Capital Assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### T. Rebatable Arbitrage

Rebatable arbitrage results from investing the proceeds of borrowed funds either directly or indirectly into investments that are higher in yield than the bond yield incurred on the borrowed funds. In accordance with GASB 34, rebatable arbitrage is treated like a claim or judgment. All interest income is reported as revenue of the Capital Projects Fund. The liability, if any, is recorded in the "Statement of Net Position".

#### U. Non-Monetary Transactions

Commodities received under the Federal Food Distribution Program are received by the District and are recorded as nonoperating revenue when received in the food service enterprise fund at market value. The use of the commodities is included in cost of sales.

#### V. Allocation of Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Employee benefits, including the employer's share of social security, worker's compensation and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is reported separately on the Statement of Activities. No expenses were allocated as "Indirect Expenses".

#### W. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

#### 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents includes petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months, but less than twelve months from the date of purchase, as investments. The District is in compliance with GASB Statement No. 3 as amended by GASB Statement No. 40.

#### Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less then \$25,000,000.

As of June 30, 2016, cash and cash equivalents (Deposits) of the District consisted of the following:

Checking and Money Market Accounts, Interest Bearing

\$4,294,145.95

Of the total amount, deposits of \$800,000.00 have been earmarked towards the Capital Reserve Account (See Note 4).

#### Investments

New Jersey statutes permit the District to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- Government money market mutual funds.
- Any federal agency or instrumentality obligation authorized by Congress that matures
  within 397 days from the date of purchase, and has a fixed rate of interest not dependent
  on any index or external factors.
- Bonds or other obligations of the school district or local unit of which the school district is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury.

#### 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

#### Investments (Continued)

- Local government investment pools.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

As of June 30, 2016, the Board had the following investments:

Fair <u>Value</u>

Investment Type:

MBIA Assets Management Program Investment
Fund (Government Securities)

#### 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by Resolution on September 28, 2000 by inclusion of \$100.00 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to *N.J.A.C.* 6:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follows:

Balance, July 1, 2015

\$283,864.74

Increase:

Transfers from Capital Projects
Transfer In per Board Resolution
Interest Earned

#### General Obligation Bonds

The Board issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities. The full faith and credit of the Board are irrevocably pledged for the payment of the principal of the bonds and the interest thereon.

Bonds payable at June 30, 2016 are comprised of the following issues:

\$10,000,000, 2006 Refunding Bonds, due in annual installments of \$540,000 to \$795,000 through March 1, 2027, interest at 4.00% to 4.125%.

\$10,000,000, 2007 Refunding Bonds, due in annual installments of \$615,000 to \$910,000 through March 1, 2027, interest at 4.00%.

\$28,725,000, 2012 Refunding Bonds, due in annual installments of \$1,000,000 to \$3,800,000 through July 15, 2030, interest at 2.375% to 5.00%.

\$28,320,000.00

\$43,855,000.00

The Board's schedule of principal and interest for long-term debt issued and outstanding is as follows:

Year				
Ending	Serial Bo	Serial Bonds		
<u>June 30,</u>	Principal	Interest	<u>Total</u>	
			1	
2017	\$ 2,155,000.00	\$ 1,595,205.02	\$ 3,750,205.02

	\$ 43,855,000.00	\$ 13,118,535.75	\$ 56,973,535.75	

#### Statutory Borrowing Power

The Board's remaining borrowing power under N.J.S. 18A:24-19, as amended, at June 30, 2016 was as follows:

4% of Equalized Valuation Basis (Municipal)

\$ 176,489,920.00

Less: Net Debt Issued

43,855,000.00

Remaining Borrowing Power

\$ 132,634,920.00

#### Prior-Year Defeasance of Debt

In prior years, the District defeased certain serial bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements.

#### Bonds Authorized but Not Issued

As of June 30, 2016, the Board had no authorized but not issued bonds.

#### Lease Purchase Agreements

The Board has entered into a lease purchase agreement with JPM Chase Bank for Technology upgrades. The details are as follows:

	\$812,021.58	\$16,475.20	\$795,546.38

#### 7. PENSION PLANS

#### Description of Plan

All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both systems will be assumed by the State of New Jersey should the systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P. O. Box 295, Trenton, New Jersey 08625.

#### Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related noncontributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

#### Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

#### Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6 for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Pension benefits for members enrolled in PERS after May 21, 2010 would be based on 1/60<sup>th</sup> of the average annual compensation for the last five years of service or any five fiscal years of membership that provide the largest benefit to the member of the member's beneficiary. Early retirement is available to those under age 60 with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above-mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55). The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the system.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

#### Significant Legislation

P.L. 2011, c. 78, effective June 28, 2011, made various changes to the manner in which TPAF and PERS operates and to the benefit provisions of those systems.

This new legislation's provisions impacting employee pension and health benefits include:

- New members of TPAF and PERS hired on or after June 28, 2011 (Tier 5 members), will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ to 1 percent for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the TPAF and PERS is increased from age 62 to 65 for Tier 5 members.
- Active member contribution rates will increase. TPAF and PERS active member rates increase
  from 5.5 percent of annual compensation to 6.5 percent plus an additional 1 percent phased-in
  over 7 years. For Fiscal Year 2012, the member contribution rates increased in October 2011.
  The phase-in of the additional incremental member contributions for TPAF and PERS members
  will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.

In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

#### Contribution Requirements

The contribution policy is set by New Jersey State Statutes and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. In accordance with the provisions of Chapter 78, P.L. 2011, employee pension contribution rates for TPAF and PERS is currently 7.06% of employees' annual compensation, as defined.

#### Contribution Requirements (Continued)

Employers are required to contribute at an actuarially determined rate in both PERS and TPAF. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the TPAF and PERS. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premium. Under current statute, the school is a noncontributing employer of the TPAF.

#### Three-Year Trend Information for PERS

Year <u>Funding</u>	Annual Pension Cost (APC)	Net Cost to District	Percentage of APC <u>Contributed</u>
June 30, 2016	\$ 990,833.00	\$ 990,833.00	100%
June 30, 2015	962,950.00	962,950.00	100%
June 30, 2014	909,810.00	909,810.00	100%

#### Three-Year Trend Information for TPAF (Paid On-Behalf of the District)

			Post-
	Annual	Percentage	Retirement
Year	Pension	of APC	Medical
Funding	Cost (APC)	Contributed	<u>Benefits</u>
June 30, 2016	\$2,712,543.00	100%	\$ 3,229,889.00
June 30, 2015	1,862,564.00	100%	2,956,822.00
June 30, 2014	1,533,997.00	100%	2,515,179.00

During the fiscal year ended June 30, 2016, the State of New Jersey contributed \$2,712,543.00 to the TPAF for pension and \$3,229,889.00 for post-retirement medical benefits On-Behalf of the District School. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District School \$2,723,254.69 during the year ended June 30, 2016 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the general-purpose financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure in accordance with GASB 27.

#### Teachers' Pension and Annuity Fund (TPAF)

#### Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Teachers' Pension and Annuity Fund (TPAF) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The employer contributions for the district are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, the district (employer) is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the district (employer) does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the district. However, the State's portion of the net pension liability that was associated with the district was \$217,747,001, as measured on June 30, 2015 and \$193,804,230 as measured on June 30, 2014.

For the year ended June 30, 2016, the district recognized pension expense of \$13,295,415 and revenue of \$13,295,415 for support provided by the State. The measurement period for the pension expense and revenue reported in the district's financial statements (A-2) at June 30, 2016 is based upon changes in the collective net pension liability with a measurement period of June 30, 2014 through June 30, 2015. Accordingly, the pension expense and the related revenue associated with the support provided by the State is based upon the changes in the collective net pension liability between July 1, 2014 and June 30, 2015.

Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the district. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

June 30, 2014	June 30, 2015
\$ 2,306,623,861	\$ 7,521,378,257
1,763,205,593	554,399,005
53,446,745,367	63,204,270,305
193,804,230	217,747,001
0.3626118465%	0.3445131159%
	\$ 2,306,623,861 1,763,205,593 53,446,745,367 193,804,230

#### Actuarial Assumptions

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation:

2.5%

Salary Increases:

Varies Based on Experience

Investment Rate of Return:

7.90%

#### Teachers' Pension and Annuity Fund (TPAF) (Continued)

#### Actuarial Assumptions (Continued)

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

#### Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the TPAF's target asset allocation as of June 30, 2015 are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
US Cash	5.00%	0.53%
US Government Bonds	1.75%	1.39%
US Credit Bonds	13.50%	2.72%
US Mortgages	2.10%	2.54%
US Inflation-Indexed Bonds	1.50%	1.47%
US High Yield Bonds	2.00%	4.57%
US Equity Market	27.25%	5.63%
Foreign-Developed Equity	12.00%	6.22%
Emerging Markets Equity	6.40%	8.46%
Private Real Estate Property	4.25%	3.97%
Timber	1.00%	4.09%
Farmland	1.00%	4.61%
Private Equity	9.25%	9.15%
Commodities	1.00%	3.58%
Hedge Funds - MultiStrategy	4.00%	4.59%
Hedge Funds - Equity Hedge	4.00%	5.68%
Hedge Funds - Distressed	4.00%	4.30%

#### Teachers' Pension and Annuity Fund (TPAF) (Continued)

#### Discount Rate

The discount rate used to measure the total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of employers' contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

### Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Since the District has no proportionate share of the net pension liability because of the special funding situation, the district would not be sensitive to any changes in the discount rate. Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <a href="http://www.nj.gov/treasury/pensions/pdf/financial/gasb68-tpaf16.pdf">http://www.nj.gov/treasury/pensions/pdf/financial/gasb68-tpaf16.pdf</a>.

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml.

#### Public Employees' Retirement System (PERS)

#### Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$25,871,109 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2014. The District's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2015 and 2014. At June 30, 2015, the District's proportion was 0.1152490806%, which was a decrease of 0.0015591250% from its proportion measured as of June 30, 2014.

# Public Employees' Retirement System (PERS) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2016, the District recognized pension expense of \$1,530,847. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of <u>Resources</u>
Differences Between Expected and Actual Experience	\$ 617,194	\$
Changes of Assumptions	2,778,350	
Net Difference Between Projected and Actual Earnings on Pension Plan Investments		415,958
Changes in Proportion and Differences Between District Contributions and Proportionate Share of Contributions		766,762
District Contributions Subsequent to the Measurement Date	990,833	;
	\$ 4,386,377	\$ 1,182,720

The \$990,833 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2016 the plan measurement date is June 30, 2015) will be recognized as a reduction of the net pension liability measured as of June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	<u>Amount</u>
2016	\$ 542,434.78
2017	542,434.78
2018	542,434.78
2019	863,914.39
2020	488,367.86
Total	\$ 2,979,586.59

# Public Employees' Retirement System (PERS) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

# Additional Information:

Collective balances at June 30, 2014 and 2015 are as follows:

	June 30, 2014	June 30, 2015	
Collective Deferred Outflows of Resources	\$ 952,194,674	\$ 3,578,755,666	
Collective Deferred Inflows of Resources	1,479,224,662	999,410,455	
Collective Net Pension Liability (Nonstate -			
Local Group)	18,722,735,003	22,447,996,119	
District's Portion of Net Pension Liability	21,869,691	25,871,109	
District's Proportion %	0.1168082056%	0.1152490806%	

### Actuarial Assumptions

The collective total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions:

Inflation	3.04%
Salary Increases: 2012-2021 Thereafter	2.15% - 4.40% (Based on Age) 3.15% - 5.40% (Based on Age)
Investment Rate of Return	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

# Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

# Public Employees' Retirement System (PERS) (Continued)

Long-Term Rate of Return (Continued)

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	5.00%	1.04%
U.S. Treasuries	1.75%	1.64%
Investment Grade Credit	10.00%	1.79%
Mortgages	2.10%	1.62%
High Yields Bonds	2.00%	4.03%
Inflation Indexed Bonds	1.50%	3.25%
Broad U.S. Equities	27.25%	8.52%
Developed Foreign Markets	12.00%	6.88%
Emerging Market Equities	6.40%	10.00%
Private Equity	9.25%	12.41%
Hedge Funds/Absolute Returns	12.00%	4.72%
Real Estate (Property)	2.00%	6.83%
Commodities	1.00%	5.32%
Global Debt ex US	3.50%	-0.40%
REIT	4.25%	5.12%

# Discount Rate

The discount rate used to measure the total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>

The following presents the District's proportionate share of the net pension liability measured as of June 30, 2015, calculated using the discount rate of 4.90%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.90%) or 1-percentage-point higher (5.90%) than the current rate:

		Current	
	1% Decrease (3.90%)	Discount Rate(4.90%)	1% Increase (5.90%)
District's Proportionate Share of the Net Pension Liability	\$ 32,154,623	\$ 25,871,109	\$ 20,603,056

# Public Employees' Retirement System (PERS) (Continued)

### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Divisions of Pensions and Benefits financial report at <a href="http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml">http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml</a>.

### 8. DEFINED CONTRIBUTION RETIREMENT PROGRAM

# Description of System

The Defined Contribution Retirement Program (DCRP) was established on July 1, 2007 for certain public employees under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007. The program provides eligible members, with a minimum base salary of \$1,500.00 or more, with a tax-sheltered, defined contribution retirement benefit, in addition to life insurance and disability coverage. The DCRP is jointly administered by the Division of Pensions and Benefits and Prudential Financial.

If the eligible elected or appointed official will earn less than \$5,000.00 annually, the official may choose to waive participation in the DCRP for that office or position. This waiver is irrevocable.

As of May 21, 2010, the minimum base salary required for eligibility in the DCRP was increased to \$5,000.00.

This retirement program is a new pension system where the value of the pension is based on the amount of the contribution made by the employee and employer and through investment earnings. It is similar to a Deferred Compensation Program where the employee has a portion of tax deferred salary placed into an account that the employee manages through investment options provided by the employer.

The law required that three classes of employees enroll in the DCRP, detailed as follows:

- All elected officials taking office on or after July 1, 2007, except that a person who is reelected
  to an elected office held prior to that date without a break in service may remain in the Public
  Employees' Retirement System (PERS).
- A Governor appointee with the advice and consent of the Legislature or who serves at the pleasure of the Governor only during that Governor's term of office.
- Employees enrolled in the PERS on or after July 1, 2007 who earn salary in excess of established "maximum compensation" limits.
- Employees otherwise eligible to enroll in the PERS on or after November 2, 2008 who do not earn the minimum salary for PERS Tier 3, but who earn salary of at least \$5,000.00.
- Employees otherwise eligible to enroll in the PERS after May 21, 2010, who do not work the minimum number of hours per week required for PERS Tier 4 or Tier 5 enrollment (32 hours per week) but who earn salary of at least \$5,000.00 annually.

Notwithstanding the foregoing requirement, other employees who hold a professional license or certificate or meet other exceptions are permitted to remain to join or remain in PERS.

# 8. DEFINED CONTRIBUTION RETIREMENT PROGRAM (Continued)

### Contributions Required and Made

Contributions made by employees for DCRP are currently at 5.5% of their base wages. Member contributions are matched by a 3.0% employer contribution. The School District will begin making contributions during the 2016-2017 school year.

#### 9. POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees eligible for post-retirement medical benefits, and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program (ABP) who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in Fiscal Year 2015.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained from the Treasury website at:

http://www.nj.gov/treasury/pensions/pdf/financial/2015divisioncombined.pdf

## 10. COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

# 10. COMPENSATED ABSENCES (Continued)

The liability for vested compensated absences of the governmental fund types is recorded in the Statement of Net Position. The current portion of the compensated absences balance of the governmental funds is reported separately on the Statement of Net Position.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees.

### 11. DEFERRED COMPENSATION

The District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Thomas Seely
Variable Annuity Life Insurance Company
Vision Financial Services
VTA (American Skandia)
The Equitable
Lincoln Investment Planning, Inc.
Fidelity Investments
USAA Insurance Company
Vanguard

# 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District is a member of the School Alliance Insurance Fund (SAIF). The Group is a risk sharing public entity pool, established for the purpose of insuring against worker's compensation property, auto and general liability claims.

The relationship between the Board and the insurance fund is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The Board is contractually obligated to make all annual and supplementary contributions to the fund, to report claims on a timely basis, cooperate with the management of the fund, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by the fund. Members have a contractual obligation to fund any deficit of the fund attributable to a membership year during which they were a member.

SAIF provides its members with risk management services, including the defense of and settlement of claims and to establish reasonable and necessary loss reduction and prevention procedures to be followed by the members. Complete financial statements of the respective insurance funds are on file with the School's Business Administrator.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

# 12. RISK MANAGEMENT (Continued)

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

 	Employee Contributions	Interest	Amount Reimbursed	Ending <u>Balance</u>
\$ -	\$ 146,353.71	\$ 24.30	\$ 163,292.48	\$ 69,344.84
=	•	48.79 32.15	136,988.44 108,401.64	86,259.31 77,433.71
Contr	*	Contributions         Contributions           \$ -         \$ 146,353.71           -         145,765.25	Contributions         Contributions         Interest           \$ -         \$ 146,353.71         \$ 24.30           -         145,765.25         48.79	Contributions         Contributions         Interest         Reimbursed           \$ -         \$ 146,353.71         \$ 24.30         \$ 163,292.48           -         145,765.25         48.79         136,988.44

# 13. INTERFUND RECEIVABLES AND PAYABLES

The following are reflected as interfund receivables and payables on the various balance sheets at June 30, 2016:

	Interfund <u>Receivable</u>	Interfund <u>Payable</u>
General Fund Enterprise Fund	\$120,574.90	\$ 120,574.90
	\$120,574.90	\$120,574.90

#### 14. INVENTORY

Inventory in the Enterprise Fund for regular food and supplies at June 30, 2016 of \$50,520.57 is stated at lower of cost or market.

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1984) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

## 15. FUND BALANCE APPROPRIATED

**General Fund [Exhibit B-1]** - Of the \$4,505,101.20 General Fund fund balance at June 30, 2016, \$186,010.99 is reserved for encumbrances; \$800,000.00 has been reserved in the Capital Reserve Account; \$1,001.83 has been reserved in the Maintenance Reserve Account; \$3,567,411.52 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7 (\$2,885,000.00 of the total reserve for excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2017; and \$(49,323.14) is unreserved and undesignated.

<u>Debt Service Fund</u> - Of the \$10,005.75 Debt Service Fund balance at June 30, 2016, \$10,005.75 is unreserved and undesignated.

### 16. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18:7F-7, as amended by P.L. 2004, C.73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. Excess Surplus as of June 30, 2016 was \$682,411.52.

#### 17. DEFICIT FUND BALANCES

The District has a deficit fund balance of \$49,323.14 in the General Fund as of June 30, 2016 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event that a state school aid payment is not made until the following school budget year, districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payment(s) in the subsequent fiscal year, the school district cannot recognize the June state aid payment(s) (on the GAAP financial statements) until the year the State records the payable. Due to the timing difference of recording the June state aid payment(s), the General Fund balance deficit does not alone indicate that the district is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the June payment(s) of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The District deficit in the GAAP funds statements of \$49,323.14 is less than the last state aid payment.

# 18. CONTINGENT LIABILITIES

# A. <u>Litigation</u>

The District is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome of exposure to the Board from such litigation is either unknown or potential losses, if any, would not be material to the financial statements as they would be covered by the District's insurance policy. The District is also a defendant to one (1) tort claim notice related to a hurt student seeking \$1,000,000.00 in damages.

#### B. Unasserted Claims and Assessments

The Board was recently made aware of a series of incidents involving alleged hazing among football players at the Sayreville War Memorial High School during the month of September 2014. As a result of the alleged incidents, seven students were arrested. To date the Board has not yet received any formal notices of claims filed by any party related to these alleged incidents.

# C. Federal and State Awards

The School District participates in several federal and state grant and aid programs which are governed by various rules and regulations of the grantor agencies, therefore, to the extent that the School District has not complied with the rules and regulations governing the grants or aid, refunds of any money received may be required and the collectability of any related receivable at June 30, 2016 may be impaired. In the opinion of the management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants, therefore, no provisions have been recorded in the accompanying general purpose financial statements for such contingencies.

#### 19. SECONDARY MARKET DISCLOSURE

Solely for purposes of complying with Rule 1602-12 of the Securities and Exchange Commission, as amended and interpreted from time to time (the "Rule"), and provided that the Bonds are not exempt from the Rule and provided that the Bonds are not exempt from the requirements in accordance with Paragraph (d) of the Rule, for so long as the Bonds remain outstanding (unless the Bonds have been wholly defeased), the municipality shall provide for the benefit of the holders of the Bonds and the beneficial owners thereof various financial documents relating to the financial conditions of the Municipal Securities Rulemaking Board through the Electronic Municipal Access Data Port (the "MSRB").

# 20. RECONCILIATION OF FUND BALANCE - GENERAL FUND

The Surpluses are presented on a GAAP basis and a reconciliation from the budget basis to the GAAP basis is as follows:

	Unreserved and <u>Designated</u>
Balance on a Budget Basis on the General Fund Budgetary Basis Comparison	\$ 6,570,446.20
Less: Allocation of State Aid Payment of \$2,065,345.00 Not Recognized on a GAAP Basis	(2,065,345.00)
Balance on a GAAP Basis on the Governmental Fund Balance Sheet	\$ 4,505,101.20

## 21. SUBSEQUENT EVENT

The Sayreville Borough School District has evaluated subsequent events that occurred after the balance sheet date, but before November 30, 2016. No items were determined to require disclosure.

REQUIRED SUPPLEMENTARY INFORMATION - PART II

C. BUDGETARY COMPARISON SCHEDULES

# SAYREVILLE SCHOOL DISTRICT DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF DECEMBER 31, 2015 Unaudited

J-12

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable (a)	Estimated Share of Overlapping Debt
Debt Repaid with Property Taxes: Borough of Sayreville Middlesex County General Obligation Debt	\$ 34,342,268	100.00% 4.420%	\$ 34,342,268 23,456,466
Sub-Total Overlapping Debt			57,798,733
Sayreville School District Direct Debt (As of June 30, 2016)			43,855,000
Total Direct and Overlapping Debt			\$ 101,653,733

Sources: Assessed value data used to estimate applicable percentages provided by the Middlesex County Board of Taxation; debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Sayreville. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the District's boundaries and dividing it by each unit's total equalized property value.

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and Members of the Board of Education Sayreville Board of Education County of Middlesex Sayreville, New Jersey 08872

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Sayreville Board of Education, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Sayreville Board of Education's basic financial statements, and have issued our report thereon dated November 30, 2016.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sayreville School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sayreville School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Board of Education of the Sayreville School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF
EXPENDITURES OF FEDERAL AND STATE AWARDS REQUIRED BY UNIFORM ADMINISTRATIVE
REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL
AWARDS (UNIFORM GUIDANCE) AND NEW JERSEY OMB CIRCULAR 15-08

The Honorable President and Members of the Board of Education Sayreville Board of Education County of Middlesex Sayreville, New Jersey 08872

#### Report on Compliance for Each Major Program

We have audited the Sayreville Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2016. The Sayreville School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the Sayreville School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *New Jersey State Aid/Grant Compliance Supplement*, and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and New Jersey OMB's Circulars 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid (NJOMB 15-08)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Sayreville School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Sayreville School District's compliance.

#### Opinion on Each Major Federal and State Program

In our opinion, the Sayreville School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2016.

#### Report on Internal Control over Compliance

Management of the Sayreville School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Sayreville School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJOMB's 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Sayreville School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and NJOMB's 15-08. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedules of Expenditures of Federal and State Awards Required by the Uniform Guidance and New Jersey OMB's Circular 15-08

We have audited the financial statements of the Board of Education of the Sayreville School District as of and for the year ended June 30, 2016, and have issued our report thereon dated November 30, 2016, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by the Uniform Guidance and New Jersey OMB's Circular 15-08 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal and state awards is fairly stated in all material respects in relation to the financial statements as a whole.

#### SAYREVILLE SCHOOL DISTRICT

#### NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

#### YEAR ENDED JUNE 30, 2016

#### 1. GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance present the activity of all federal awards and state financial assistance programs of the Sayreville School District. The School District is defined in Note 1(A) to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed-through other government agencies is included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

#### 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Awards and Financial Assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 2 to the Board's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from amounts presented in or used in the preparation of the basic financial statements.

#### 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund and capital projects fund are presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(3,799.00) for the general fund and \$(9,524.24) for the special revenue fund. See Note 2 (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:

Food Service Fund	1,302,648.45	24,124.20	1,326,772.65
Total Awards and Financial Assistance	\$3,656,551.31	\$30,992,347.63	\$34,648,898.94

#### 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

#### 5. FEDERAL AND STATE LOANS OUTSTANDING

The District had no loans payable outstanding to federal or state entities at June 30, 2016,

#### 6. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions, respectively.

The amount reported as TPAF Post-Retirement Medical Benefit Contributions and Teacher's Pension contributions represents the amounts paid directly by the State On-Behalf of the District for the year ended June 30, 2016. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30 2016.

#### 7. ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-Behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions are not subject to a State single audit. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amount subject to State single audit and major program determination.

#### 8. DE MINIMIS INDIRECT COST RATE

The District has elected to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.
