October 8, 2016

Honorable President and
Members of the Board of Education
Westampton Township School District
County of Burlington, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Westampton Township School District (District) for the fiscal year ended June 30, 2016 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of federal regulations , cost principles, and audit requirements for federal awards(uniform guidance) ; and state of New Jersey Circular OMB15-08. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

Westampton Township School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the District are included in this report. The Westampton Township Board of Education and all its schools constitute the District's reporting entity.

Overview

The School District is a Type II district located in the County of Burlington ("County"), State of New Jersey. As a Type II school district, the School District functions independently through the Board. The Board is comprised of nine (9) members elected to three (3) staggered year terms. The purpose of the School District is to educate students in grades K-8.

Administration

The administration of the School District is the responsibility of the Superintendent of Schools. The Business Administrator and Board Secretary oversee the business functions and reports through the Superintendent to the Board.

Pupil Enrollment

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular and special education for identified handicapped students. The District completed the 2015-2016 fiscal year with an enrollment of 990 students, which is 15 students above the reported previous year's enrollment. The following details the changes in the student enrollments of the District over the last ten (10) years.

AVERAGE DAILY ENROLLMENT

<u>FISCAL YEAR</u>	<u>STUDENT ENROLLMENT</u>	<u>INCREASE/ DECREASE</u>	<u>PERCENT CHANGE</u>
2015-2016	990	15	1.5
2014-2015	975	(16)	(1.6)
2013-2014	991	(12)	(1.2)
2012-2013	1003	(7)	(.07)
2011-2012	1010	16	1.6
2010-2011	994	37	3.7
2009-2010	957	41	4.5
2008-2009	916	(15)	(1.6)
2007-2008	931	(7)	(0.7)
2006-2007	938	(24)	(2.5)

Facilities and Capacity

The following table outlines the facility of the School District and capacity thereof:

<u>Name of School</u>	<u>Date Constructed</u>	<u>Date of Last Major Renovations/ Additions</u>	<u>Grade Level</u>	<u>Capacity</u>
Holly Hills School	1967	1988	K-4	1,245
Westampton School	1955	1995	5-8	1,047

Employment

The following table provided the number of the instruction and non-instructional personnel employed by the School District from school year 2003-2004 through school year 2015-2016:

<u>School Year</u>	<u>Certified – Full Time</u>	<u>Non-Certified – Full Time</u>
2003-2004	93	22
2004-2005	86	23
2005-2006	88	22
2006-2007	87	22
2007-2008	88	24
2008-2009	91	21
2009-2010	91	28
2010-2011	80	24
2011-2012	83	28
2012-2013	83	28
2013-2014	82	26
2014-2015	84	7
2015-2016	88	17

2. ECONOMIC CONDITION AND OUTLOOK:

Housing growth within the community continues to be moderate. The real estate turnover rate has slowed with conditions throughout the country and particularly the Northeast. Currently, one housing development, Freedom Village, has added most of the 72 units to Westampton. This project will be completely built out within the year.

There are 2 additional housing developments that are in the planning stages: Ingerman will accommodate approximately 72 units and Woodmont will accommodate approximately 450 units. Neither of these developments have broken ground at this time. If these developments do materialize in the short-term, additional educational functional capacity will need to be reviewed for the possibility of housing the students that may come from these developments.

The community of Westampton is a K to 8 District that is served by two schools that are a source of great pride to this mid-sized community located in the heart of Burlington County. The Holly Hills School serves 487 students in grades K to 4, while the Westampton Middle School has an enrollment of 503 students in grades 5 through 8. The community of Westampton is a sending district to the Rancocas Valley Regional High School District and is proud of the fact that our students are active and vital participants in all of the programs offered at the Rancocas Valley Regional High School.

Location and Character

The Township of Westampton (“Township”) is a municipal corporation which was incorporated in 1850. The Township covers a land area of approximately 11.2 square miles in the northeastern section of the County, approximately 65 miles northwest of Atlantic City, 80 miles southwest of New York and 22 miles northeast of Philadelphia. The Township is readily accessible to these metropolitan areas on Route 295, the New Jersey Turnpike and the Atlantic City Expressway.

Utilities

Water and sewer service within the Township is provided by Mount Holly Water Company, Mount Holly Sewer Authority, and Willingboro Municipal Utilities Authority. All three entities bill its users directly for water and sewer service on a quarterly basis.

Public Services

The Township is protected by an approximately 21 member police force, with a 24-hour police dispatching network. One volunteer fire company provides fire protection. The Township provides once-a-week garbage collection to all residential and commercial properties. Communication services are provided by Verizon and AT&T. Natural gas and electric service is provided by Public Service and Gas Company.

Population

The following table outlines the population of the Township, the County and the State:

<u>Year</u>	<u>Township</u>	<u>County</u>	<u>State</u>
2010 Federal Census	8,813	448,728	9,149,799
2000 Federal Census	7,217	423,394	8,414,350
1990 Federal Census	6,004	395,066	7,730,188
1980 Federal Census	3,383	362,542	7,365,001
1970 Federal Census	2,680	323,132	7,171,112

Health Care Facilities

The only hospital located in the Township is Hampton Hospital, which is a mental health care facility. The closest hospital to service the Township is located in the adjoining

Township of Mount Holly. Virtual Health Memorial Hospital is a 369 bed facility. The hospital is part of the Virtua health system which includes West Jersey - Voorhees, West Jersey - Berlin, West Jersey - Marlton, and West Jersey – Camden, making up the state's largest multi-hospital group. Memorial Hospital has intensive care and progressive care units as well as a 24-hour emergency room.

Transportation

The major highways serving the Township are US Route 295, which runs from Trenton to the Delaware Memorial Bridge and the New Jersey Turnpike which runs North to South the entire length of New Jersey. Burlington – Mount Holly Road (Route 541) which bisects the Township runs in a north-south direction from Burlington County to Mount Holly, then continues via a by-pass through Lumberton, Medford Township and Tabernacle to intersect with Route 206 which connects with the Atlantic City Expressway in Hammonton.

A private bus service, Academy Lines, Inc., services the Township with several bus routes. The major routes provide access to Atlantic City and New York City.

Labor Force

The following table outlines employment information for the Township, the County and the State as of 2009:

	<u>Unemployment</u> <u>Rate</u>	<u>Total Labor</u> <u>Force</u>	<u>Total</u> <u>Employed</u>	<u>Total</u> <u>Unemployment</u>
Township	7.6%	4,230	3,910	320
County	8.5	241,797	221,132	20,665
State	9.6	4,551,307	4,113,111	438,196

While there are reported proposals for smaller developments of 100 homes or less, the possibility exists for additional court-mandated Affordable Housing. Their magnitudes are not quantifiable. In general the Township Master Plan, and significant local wetlands, discourages development beyond that which is identified above.

The Westampton Board of Education meets on the second Monday of each month at 7:00 PM. The meetings are held in the Media Center of the Westampton Middle School, 700 Rancocas Road. The members of the Board of Education ensure that each and every child is provided an education that challenges them academically and nurtures them socially. They are committed to accomplishing this in the most cost effective manner possible, a responsibility to the taxpayers that they take very seriously.

The school facilities are not only educational centers but also serve the community as the sites for a very comprehensive recreational program that is available to citizens of all ages. The continual use of our school facilities is only one example of the cooperative

working arrangement that exists between the elected political leaders of the community and the Westampton Board of Education.

The educational programs in Westampton continue to be served by an administrative, teaching and support staff that is committed to creating an educational environment which is focused on the following Mission Statement: The Westampton Township Public Schools will provide a high quality, age appropriate educational experience that empowers children to reach their academic potential, become well-rounded individuals, and develop a love for learning with a safe, secure, nurturing social and academic environment. The social environment is one which fosters: risk taking; development of positive self-esteem; individuality; respect for diversity; social consciousness; positive social interaction; and encourages students to expand their roles as active participants in their community and world.

In support of the Mission Statement, the Board of Education provides a wide variety of programs and services including a Special Education Program that is committed to educating all of our children in the “least restrictive environment”. Both of our schools provide a wide variety of services and extra-curricular programs that are designed to give every child opportunities to grow academically, athletically and socially.

3. **MAJOR INITIATIVES:**

Major School District initiatives during the 2015-2016 school year included the following:

- The District will continue to work with the township officials in an effort to plan any school modifications that may be needed as a result of new housing developments.
- Additional initiatives are in places which continue to focus on improving and enhancing the instructional programs that are already in place and have resulted in sustained student improvement with respect to meeting the state standards. Our budgets exceed adequacy, as defined by the state due to extending support services to children requiring added assistance in order to meet the state standards. This is reflected in class size as well as support staff budget to sustain the effort which has consistently received community support.
- Additionally, we have made a concerted effort to reduce out-of-district placements by offering in-class support and inclusion-based services to eligible students. Our community is nestled in the Rancocas Woods area which sprawls across 12 square miles. This encompasses several hazardous routes which necessitates transportation needs that may not be easily calculated in state formulas to ascertain adequacy spending.
- The District implemented a full-day Kindergarten and pre-K services program.

Westampton's budget has been developed to maintain existing programs and services which have proven to yield favorable results on state assessment and generate community support. The District continues to exercise discretion with its spending. Special emphasis has been placed on supporting educational programs that provide remediation and essential professional development. The budget is built with a focus on teaching and learning. Our guiding objective has been to continue the excellence for which our District is well known. With an eye on expanding our current kindergarten programs, resources have been devoted to enhancing early literacy, immediate identification of students with learning gaps and to close the achievement gaps wherever they may exist.

4. **INTERNAL ACCOUNTING CONTROLS:**

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurances recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits it requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District also is responsible for ensuring that an internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

5. **BUDGETARY CONTROLS:**

In addition to internal controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund.

Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as a re-appropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2016.

The District’s accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in “Notes to the Financial Statements”, Note 1.

7. **CASH MANGEMENT:**

The investment policy of the District is guided in large part by state statute as detailed in “Notes to the Financial Statements”, Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (“GUDPA”). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. **RISK MANGEMENT:**

The Board carries various forms of insurance including but not limited to general liability, automobile liability and comprehensive collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. **OTHER INFORMATION:**

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Inverso & Stewart, CPA’s, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements. The auditor’s report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of the report. The auditor’s reports related specifically to the single audit are included in the single audit section of the report.

10. **ACKNOWLEDGEMENTS:**

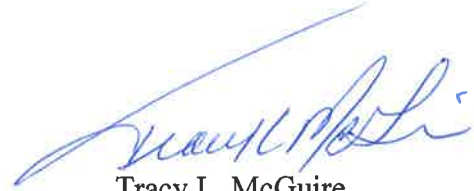

We would like to express our appreciation to the members of the Westampton Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation.

taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
of the Board of Education
Westampton Township School District
County of Burlington
Westampton Township, New Jersey

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Westampton Township School District, in the County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Westampton Township School District, in the County of Burlington, State of New Jersey, as of June 30, 2016, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Westampton Township School District's basic financial statements. The accompanying combining statements and related major fund supporting statements and schedules and Schedules of Expenditures of Federal Awards and State Financial Assistance, as required by U.S. Office of Management and Budget Title 2 U.S. Code of Federal Regulations Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey Treasury Circular OMB 15-08, as applicable, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and Schedules of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information described in the previous paragraph is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated October 7, 2016 on my consideration of the Westampton Township School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Westampton Township School District's internal control over financial reporting and compliance.

 County of Burlington
 Westampton Township, New Jersey

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Westampton Township School District, in the County of Burlington, State of New Jersey, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued my report thereon dated October 7, 2016.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Westampton Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Westampton Township School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

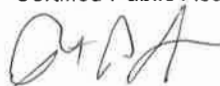

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Westampton Township School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Required Supplementary Information - Part I
Management's Discussion and Analysis

**Westampton Township School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016**

As management of the Board of Education of the Township of Westampton, New Jersey (School District), we offer readers of the School District's financial statements this narrative overview and analysis of the School District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets of the School District exceeded its liabilities at the close of the most recent fiscal year by \$5,715,188 (*net position*).
- Governmental activities have an unrestricted net position deficit balance of \$4,639,856. The accounting treatments in the governmental funds for compensated absences payable, net pension liability, accrued interest payable and the June state aid payments plus state statutes that prohibit school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance are primarily responsible for this deficit balance.
- The total net position of the School District increased by \$655,076 from the prior fiscal year-end balance. The increase is a net result of a decrease in the percentage of the budget expended during the year in comparison to the prior year and the payment of long-term debt.
- Fund balance of the School District's governmental funds increased by \$731,413 resulting in an ending fund balance of \$2,776,765. The majority of this increase is the result of the reduction in the budget expenditures.
- Business-type activities have unrestricted net position of \$174,714 which may be used to meet the School District's ongoing obligations of the enterprise-related activities (food services).
- The School District's long-term obligations increased by \$114,174 which includes a decrease of debt obligations and compensated absences and in increase in net pension liability.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. Comparison to the prior year's activity is provided in this document. The basic financial statements are comprised of three components: 1) District-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-wide Financial Statements

The *district-wide financial statements* are designed to provide the reader with a broad overview of the financial activities in a manner similar to a private-sector business. The district-wide financial statements include the statement of net position and the statement of activities.

The *statement of net position* presents information about all of the School District's assets and liabilities. The difference between the assets and liabilities is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the School District changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement even though the resulting cash flows may be recorded in a future period.

Both of the district-wide financial statements distinguish functions of the School District that are supported from taxes and intergovernmental revenues (*governmental activities*) and other functions that are intended to recover all or most of their costs from user fees and charges (*business-type activities*). Governmental activities consolidate governmental funds including the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund. Business-type activities consolidate the Food Service Fund.

Fund Financial Statements

Fund financial statements are designed to demonstrate compliance with finance-related requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific objectives. All of the funds of the School District are divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

Governmental funds account for essentially the same information reported in the governmental activities of the district-wide financial statements. However, unlike the district-wide financial statements, the governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the financing requirements in the near term.

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains four individual governmental funds. The major funds are the General Fund, the Special Revenue Fund, the Capital Projects Fund, and the Debt Service Fund. They are presented separately in the fund financial statements.

The School District adopts an annual appropriated budget for the General Fund, Special Revenue Fund and the Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with budgetary requirements.

Proprietary funds are used to present the same functions as the business-type activities presented in the district-wide financial statements. The School District maintains one type of proprietary fund - the Enterprise Fund. The fund financial statements of the enterprise fund provides the same information as the district-wide financial statements, only in more detail.

The School District's one enterprise funds (Food Service Fund) is listed individually and is considered to be a major fund.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the School District's programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also contains other supplementary information and schedules required by the New Jersey Audit Program, issued by the New Jersey Department of Education.

District-wide Financial Analysis

The assets of the School District are classified as current assets and capital assets. Cash, investments, receivables, inventories and prepaid expenses are current assets. These assets are available to provide resources for the near-term operations of the School District. The majority of the current assets are the results of the tax levy and state aid collection process.

Capital assets are used in the operations of the School District. These assets are land, buildings, improvements and equipment. Capital assets are discussed in greater detail in the section titled, Capital Assets and Debt Administration, elsewhere in this analysis.

Current and long-term liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, accrued interest expense on long-term debt, unearned revenues, and current debt obligations. The liquidation of current liabilities is anticipated to be either from currently available resources, current assets or new resources that become available during fiscal year 2017. Long-term liabilities such as long-term debt obligations and compensated absences payable will be liquidated from resources that will become available after fiscal year 2017.

The assets of the primary government activities exceeded liabilities by \$5,540,474 with an unrestricted deficit balance of \$4,639,856. As mentioned earlier, deficit unrestricted net position are primarily due to the accounting treatment for compensated absences payable, capital lease payable, accrued interest expense and the June state aid payments, and state statutes that prohibit school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance.

The net position of the primary government does not include internal balances.

A net investment of \$7,343,681 in land, improvements, buildings and equipment which provide the services to the School District's 975 public school students, represents 132.55% of the School District's net position.

Net position of \$2,836,649 has been restricted as follows:

Restricted for Future Budget Appropriations	\$ 1,133,862
Restricted for Future Debt Service Costs	29,470
Restricted for Future Capital Projects	1,061,805
Restricted for Subsequent Year's Budget	<u>611,512</u>
Total	<u>\$ 2,836,649</u>

Governmental Activities

Governmental activities increased the net position of the School District by 646,106 during the current fiscal year. Key elements of the increase in net position for governmental activities are as follows:

- Reduction of long term debt.
- Results of operations in the General Fund

Business-type Activities

Business-type activities increased the School District's net position by \$8,970. Key elements of the increase in net position for business-type activities are as follows:

- The Food Service program had a net profit in operations of \$8,970.

Financial Analysis of the Governmental Funds

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the School District's governmental funds reported a combined ending fund balance of \$2,776,765, an increase of \$731,413 in comparison with the prior year. The majority of the increase is due to moderate spending.

The deficit unassigned fund balance of \$52,930 for the School District at the end of the fiscal year represents the deficit unassigned fund balance in the General Fund (\$59,884) and the unassigned fund balance in the Debt Service Fund (\$6,954). The remainder of the fund balance is restricted to indicate that it is not available for new spending because it has already been committed, as follows: 1) restricted for future appropriation in accordance with state statutes (\$1,133,862), 2) restricted for future capital projects (\$1,061,805), 3) appropriated as a revenue source in the subsequent year's budget (\$611,512) in the General Fund and (\$6,954) in Debt Service.

The general fund is the chief operating fund of the School District. As discussed earlier, the minimal unassigned fund balance is due, primarily, to the accounting treatments of compensated absences payable, net pension liability, the June state aid payments, and state statutes that prohibit New Jersey school districts from maintaining more than 2% of its adopted budget as unassigned fund balance.

Special revenue fund revenues are generally recognized at the time that the outlays are identified; therefore no fund balances are normally generated.

General Fund Budgetary Highlights

There was an increase of \$338,766 between the original budget and the final amended budget, which is an approved withdrawal from Capital Reserve to Capital Outlay.

At the end of the current fiscal year, unassigned fund balance (budgetary basis) of the general fund was \$286,012, while total fund balance (budgetary basis) was \$3,093,191. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance (budgetary basis) and total fund balance (budgetary basis) to total general fund expenditures. Actual (budgetary basis) expenditures of the General Fund including other financing uses amounted to \$13,615,316. Unassigned fund balance (budgetary basis) represents 2.10% of expenditures while total fund balance (budgetary basis) represents 22.72% of that same amount.

Capital Assets and Debt Administration

The School District's investment in capital assets for its governmental and business-type activities as of June 30, 2016, totaled \$11,632,573 (net of accumulated depreciation). This investment in capital assets includes land, improvements, buildings, equipment and vehicles. The total decrease in the District's investment in capital assets for the current fiscal year was \$508,304, or a 4.18% decrease. The decrease is due to current year depreciation.

Capital Assets (net of accumulated depreciation) June 30, 2016 and 2015

	Governmental Activities		Business-Type Activities		District-Wide	
	2016	2015	2016	2015	2016	2015
Land	\$ 12,455	\$ 12,455			\$ 12,455	\$ 12,455
Const. in Progress					-	-
Site Improvements	108,215	120,042			108,215	120,042
Building and Building Improvements	11,358,998	11,824,251			11,358,998	11,824,251
Vehicles	16,120	16,120			16,120	16,120
Equipment	136,785	158,740	\$ -	\$ 9,269	136,785	168,009
Total	\$ 11,632,573	\$ 12,131,608	\$ -	\$ 9,269	\$ 11,632,573	\$ 12,140,877

Additional information on the School District's capital assets can be found in the notes to the basic financial statements (Note 5) of this report.

Long-term debt – During the fiscal year ended June 30, 2016, the School District had total bonded debt outstanding of \$4,288,892 backed by the full faith and credit of the School District. Additionally, the School District has long-term obligations for compensated absences in the amount of \$549,690.

General obligation bonds decreased \$490,834 in accordance with the annual payments due.

State statutes limit the amount of general obligation debt that the District may issue. At the end of the current fiscal year, the legal debt limit was \$34,333,443 and the legal debt margin was \$30,398,443.

Additional information on the School District's long-term obligations can be found in the notes to the basic financial statements (Note 7) of this report.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered and incorporated into the preparation of the School District's budget for the 2016-17 fiscal years.

- State aid has diminished over the last several years, failing to keep pace with the inflationary factors that impact our economic structure. This is a major impact on desirable programs due to the lack of adequate financial support. This makes it increasingly difficult to further develop or maintain, in certain instances, desired activities. Although the state marginally increased state aid to Westampton during this budget cycle, they did not bring aid up to the level of the previous years. Our challenge to keep educational costs low while faced with inflationary factors remains challenging.
- Schools are faced with increases in fixed costs such as insurance and utilities. This continues to put a significant burden on property taxpayers to come up with additional funds to maintain facilities and to cover fixed costs. This has resulted in our drawing down of existing fund balances in order to minimize the impact on local property owners. The School District is working toward building an adequate fund balance. For the last number of years the state has postponed the final aid payment. The restrictions on surplus create further financial issues for the District.
- The per pupil regular spending remains as one of the lowest in Burlington County. The administrative cost per pupil remains lower than the regional or District's approved budgeted per pupil cost. In excess of 85% of every dollar spent in the District goes directly to the schools for Instruction and student services. This leaves less than 15% to conduct all of the remaining necessary activities within the School District.
- The District continues to pursue all opportunities to enter into shared services agreements and has been successful in this area with the municipality and neighboring school districts.

Requests for Information

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Westampton Township School District Business Administrator, 700 Rancocas Road, Westampton, New Jersey, 08060, telephone number (609) 261-1969.

WESTAMPTON TOWNSHIP SCHOOL DISTRICT
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2016

Total Net Change in Fund Balances - Governmental Funds (from B-2)	\$	731,413
<p>Amounts reported for governmental activities in the statement of activities (A-2) are different because:</p>		
<p>Governmental Funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.</p>		
Depreciation expense	\$ (499,035)	
Fixed asset additions	<u> </u>	(499,035)
<p>Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.</p>		
		450,000
<p>Bond Premium arising from the issuance of the refunding school bonds is amortized in a systematic and rational manner over the duration of the related debt as a component of amortization.</p>		
		40,834
<p>Interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. This amount is the net effect of the difference in the treatment of interest on long-term debt.</p>		
		5,925
<p>Net differences between pension system contributions recognized in the fund statement of revenues, expenditures and changes in fund balances and the statement of activities.</p>		
		(105,967)
<p>In the statement of activities, certain operating expenses, (e.g. compensated absences) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+)</p>

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - The Westampton Township School District ("School District") is a Type II district located in the County of Burlington, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board of Education is comprised of nine members elected to three-year terms. These terms are staggered so that three member's terms expire each year. The purpose of the School District is to provide educational services for resident students in grades K through 8. Students in grades 9 through 12 attend the Rancocas Valley Regional High School District. The Westampton School District has an approximate enrollment at June 30, 2016 of 984 students.

The primary criteria for including activities within the School District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards* is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School district over which the Board exercises operating control.

Component Units – GASB Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, provide guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statements No. 14 and No. 39. In addition, GASB Statement No. 61, provides additional guidance for organizations that do not meet the financial accountability criteria for inclusion as component units but that nevertheless should be included because the primary government's management determines that it would be misleading to exclude them. There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the School District is not includable in any other reporting entity on the basis of such criteria.

Basis of Presentation

The basic financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

The School District's basic financial statements consists of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The statement of net position presents the financial condition of the governmental and business-type activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the general operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenues sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes or serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Funds - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those in the private sector.

Enterprise Funds - The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that all costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The School District's enterprise funds are:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net position) is segregated into investment in capital assets, net of related debt, and unrestricted net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds (Continued) - Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment	12 Years
Light Trucks and Vehicles	4 Years
Heavy Trucks and Vehicles	6 Years

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: trust funds and agency funds. Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds (i.e. payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has four fiduciary funds; an unemployment compensation trust fund, a private purpose scholarship fund, a student activity fund, and a payroll fund.

Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses) in net total position. The statement of cash flow provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days after fiscal year end.

Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues - Exchange and Non-exchange Transactions (Continued) - Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The School District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end; tuition, grants, fees, and rentals.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as unearned revenue. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets/Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for their approval. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23A-16.2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2 and Exhibit I-3, includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances – governmental funds. Note that the School District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services. Open encumbrances in governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Encumbrances (Continued) - Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, and all eligibility and time requirements satisfied are reflected on the balance sheet as unearned grant revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act (GUDPA), a multiple financial institution collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Tuition Receivable - Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Tuition Payable - Tuition charges for the fiscal years ended June 30, 2016 and 2015 were based on rates established by the receiving school district. These rates are subject to change when the actual costs have been determined.

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out basis.

The cost of inventories in governmental fund types is recorded as expenditures when purchased rather than when consumed, and is not recorded since any amounts are considered immaterial to the basic financial statements.

Inventories recorded in the government-wide financial statements and in the proprietary fund types are recorded as expenditures when consumed rather than when purchased.

Prepaid Expenses - Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2016.

In the governmental fund types, however, payments for prepaid items are fully recognized as an expenditure in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Deferred Outflows/Inflows of Resources - In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Short-Term Interfund Receivables / Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the School District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and the proprietary fund statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000.00. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Land and Improvements	10-20 years	N/A
Buildings and Improvements	10-50 years	N/A
Furniture and Equipment	5-20 years	12 years
Vehicles	5-10 years	4-6 years

Bond Discount and Bond Premium – Bond discount and bond premium arising from the issuance of the general obligation bonds are recorded as liabilities. They are amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. Bond discount and bond premium are presented as an adjustment of the face amount of the bonds.

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue – Unearned Revenue arises when assets are recognized before revenue recognition criteria have been satisfied and are recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the fund financial statements when due.

Net Position - Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net investment in capital assets - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or law or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

It is the School District's policy to apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance - The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash, such as inventories and prepaid amounts. The School District had no nonspendable fund balance at June 30, 2016.

Restricted - This fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed - This fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which for the School District is the Board of Education. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action imposing the commitment.

Assigned - This fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the Business Administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes.

Unassigned - This fund balance classification is the residual classification for the General Fund. It represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the School District's policy to spend restricted fund balances first. Likewise, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Operating and Non-Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for the food service program. Non-operating revenues principally consist of interest income earned on various interest bearing accounts and federal and state subsidy reimbursements for the food service program.

Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. There are no non-operating expenses.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Recently Issued Accounting Pronouncements In June 2015, the GASB issued Statement 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities. This Statement is effective for financial statements for periods beginning after June 15, 2016 and will not have any effect on the District's financial reporting.

In June 2015, the GASB issued Statement 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement also includes requirements to address financial reporting for assets accumulated for purposes of providing defined benefit OPEB through OPEB plans that are *not* administered through trusts that meet the specified criteria. This Statement is effective for financial statements for periods beginning after June 15, 2016. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

In June 2015, the GASB issued Statement 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This Statement is effective for financial statements for periods beginning after June 15, 2017. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In December 2015, the GASB issued Statement 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

In March 2016, the GASB issued Statement 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement amends Statements 67 and 68 to instead require the presentation of covered payroll, defined as the payroll on which contributions to a pension plan are based, and ratios that use that measure. Furthermore, this Statement clarifies that a deviation, as the term is used in Actuarial Standards of Practice issued by the Actuarial Standards Board, from the guidance in an Actuarial Standard of Practice is not considered to be in conformity with the requirements of Statement 67, Statement 68, or Statement 73 for the selection of assumptions used in determining the total pension liability and related measures. Also, this Statement clarifies that payments that are made by an employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68. It also requires that an employer's expense and expenditures for those amounts be recognized in the period for which the contribution is assessed and classified in the same manner as the employer classifies similar compensation other than pensions (for example, as salaries and wages or as fringe benefits). The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. Management is currently evaluating the impact of the adoption of this Statement on the School District's financial statements.

2. CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits – Custodial credit risk refers to the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Unit (GUDPA). Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings of funds that pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized. Of the School District's amount on deposit of \$3,359,973 as of June 30, 2016, \$250,000 was insured under FDIC and the remaining balance of \$3,109,973 was collateralized under GUDPA.

3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the New Jersey Department of Education, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J. A.C.6:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

3. CAPITAL RESERVE ACCOUNT (Continued)

The activity of the capital reserve for the July 1, 2015 to June 30, 2016 fiscal year is as follow:

Balance – July 1, 2015		\$ 900,000
Increased by:		
Board Resolution	\$ 500,000	
Interest earned	<u>571</u>	<u>500,571</u>
		1,400,571
Decreased by:		
Transfer by resolution		<u>338,766</u>
 Balance – June 30, 2016		 <u>\$ 1,061,805</u>

The June 30, 2016 capital reserve balance does not exceed the LRFP balance of local support costs of uncompleted projects.

4. ACCOUNTS RECEIVABLES

Accounts receivables at June 30, 2016 consisted of accounts (fees) and intergovernmental grants. All intergovernmental receivables are considered collectible in full due to the stable condition of State programs and the current fiscal year guarantee of federal funds.

Accounts receivable at June 30, 2016 for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Capital Projects Fund</u>	<u>Proprietary Fund</u>	<u>Total</u>
Intergovernmental					
State	\$ 56,460	\$ -	\$ 64,372	\$ 353	\$ 121,185
Federal				7,366	7,366
Other				<u>5,047</u>	<u>5,047</u>
 Total	 <u>\$ 56,460</u>	 <u>\$ -</u>	 <u>\$ 64,372</u>	 <u>\$ 12,766</u>	 <u>\$ 133,598</u>

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

5. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

	Balance June 30, 2015	Additions	Deletions	Balance June 30, 2016
Governmental Activities:				
Land	\$ 12,455	\$ -	\$ -	\$ 12,455
Total Capital Assets not being Depreciation	12,455	-	-	12,455
Land Improvements	562,342			562,342
Building and Improvements	19,534,707			19,534,707
Vehicles	161,192			161,192
Equipment	1,480,833			1,480,833
Total Historical Cost	21,751,529	-	-	21,751,529
Less Accumulated Depreciation:				
Land Improvements	(442,300)	(11,827)		(454,127)
Building and Improvements	(7,710,456)	(465,253)		(8,175,709)
Vehicles	(145,072)			(145,072)
Equipment	(1,322,093)	(21,955)		(1,344,048)
Total Accumulated Depreciation	(9,619,921)	(499,035)	-	(10,118,956)
 Governmental Activities Capital Assets, Net	 \$ 12,131,608	\$ (499,035)	\$ -	\$ 11,632,573
 Business-Type Activities:				
Equipment	\$ 185,389	\$ -	\$ -	\$ 185,389
Less - Accumulated Depreciation	(176,120)	(9,269)		(185,389)
Business-Type Activities Capital Assets, Net	\$ 9,269	\$ (9,269)	\$ -	\$ -

Depreciation expense in the amount of \$499,035 was charged to governmental functions as follows :

Function	Amount
Regular Instruction	\$ 349,324
General Administration	24,952
School Administration	24,952
Unallocated	99,807
 Total depreciation expense	 \$ 499,035

6. INVENTORY

Inventory in the food service fund at June 30, 2016 consisted of the following :

Food	\$ 8,372
Supplies	2,162
	\$ 10,534

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

7. LONG-TERM OBLIGATIONS

During the fiscal year ended June 30, 2016, the following changes occurred in long-term obligations:

	<u>Principal Outstanding June 30, 2015</u>	<u>Additions</u>	<u>Reductions</u>	<u>Principal Outstanding June 30, 2016</u>	<u>Due Within One Year</u>
Governmental Activities:					
Compensated Absences	\$ 572,626	\$ 78,506	\$ 101,442	\$ 549,690	\$ 21,424
General Obligation Bonds	4,385,000		450,000	3,935,000	450,000
Unamortized Premiums	394,726		40,834	353,892	40,834
Net Pension Liability	<u>3,889,010</u>	<u>627,944</u>		<u>4,516,954</u>	
	<u>\$ 9,241,362</u>	<u>\$ 706,450</u>	<u>\$ 592,276</u>	<u>\$ 9,355,536</u>	<u>\$ 512,258</u>

Bonds Payable - Bonds and loans are authorized in accordance with State law by the voters of the School District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the School District are as follows:

2015 Refunding Bonds dated January 28, 2015 in the amount of \$3,935,000 due in annual installments through March 1, 2025, bearing an interest rate of 2.00%.

As of June 30, 2016, principal and interest due on bonds outstanding is as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 450,000	\$ 135,250	\$ 585,250
2018	445,000	121,750	566,750
2019	440,000	108,400	548,400
2020	440,000	99,600	539,600
2021	435,000	86,400	521,400
2022-2025	<u>1,725,000</u>	<u>172,200</u>	<u>1,897,200</u>
	<u>\$ 3,935,000</u>	<u>\$ 723,600</u>	<u>\$ 4,658,600</u>

As of June 30, 2016 the School District had no authorizations to issue additional bonded debt.

Compensated Absences - Compensated absences will be paid from the fund from which the employees' salaries are paid.

8. OPERATING LEASES

At June 30, 2016, the School District had operating lease agreements in effect for copy machines. Total rental payments for such leases were \$20,282 for the fiscal year ended June 30, 2016. The future minimum lease payments for these leases are as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Amount</u>
2017	\$ 19,647

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS

Description of Plans – Substantially all of the School District's employees participate in one of the following pension plans which have been established by State statute, and are administered by the New Jersey Division of Pensions and Benefits (Division): the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS) or the Defined Contribution Retirement Program (DCRP). Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of New Jersey, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625-0295.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund is a cost-sharing contributory defined benefit pension plan which was established on January 1, 1955, under the provisions of N.J.S.A. 18A:66. The TPAF provides retirement, death and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 18A:66.

The contribution requirements of plan members are determined by State statute. In accordance with Chapters 113, 114, 115, P.L. 1997, plan members enrolled in the TPAF were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92 P.L. 2007 and Chapter 103, P.L. 2007, plan members were required to contribute 5.5% of their annual covered salary. For employees who were enrolled in the retirement system prior to July 1, 2007, the increase was effective with the payroll period that began immediately after July 1, 2007. Pursuant to the provisions of Chapter 78, P.L. 2011, effective October 1, 2011, the active member contribution rate was increased to 6.5%. An additional 1.0% increase is being phased-in over seven years beginning on July 1, 2012. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over the several preceding fiscal years.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For the year ended June 30, 2016, the District recognized pension expense of \$2,176,169 and revenue of \$2,176,169 for support provided by the State. Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the district.

The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

	06/30/15	06/30/14
Collective deferred outflows of resources	\$ 7,521,378,257	\$ 2,306,623,861
Collective deferred inflows of resources	554,399,005	1,763,205,593
Collective net pension liability (Non-Employer – State of New Jersey)	63,577,864,440	53,446,745,367
State's portion of the net pension liability that was associated with the district	35,640,423	31,756,337
State's portion of the net pension liability that was associated with the district as a percentage of the collective net pension liability	.0563892640%	.0594168405%

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Actuarial assumptions – The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation: 2.5%
Salary Increases: Varies based on experience
Investment Rate of Return: 7.90%

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2015 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	05.00%	0.53%
Government Bonds	01.75%	1.39%
Credit Bonds	13.50%	2.72%
Mortgages	02.10%	2.54%
Inflation-Indexed Bonds	01.50%	1.47%
High Yield Bonds	02.00%	4.57%
Equity Market	27.25%	5.63%
Foreign-Developed Equity	12.00%	6.22%
Emerging Markets Equity	06.40%	8.46%
Private Real Estate Property	04.25%	3.97%
Timber	01.00%	4.09%
Farmland	01.00%	4.61%
Private Equity	09.25%	9.15%
Commodities	01.00%	3.58%
Hedge Funds – MultiStrategy	04.00%	4.59%
Hedge Funds – Equity Hedge	04.00%	5.68%
Hedge Funds - Distressed	04.00%	4.30%

Discount rate. The discount rate used to measure the State's total pension liability was 4.13% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% as of June 30, 2015, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers (State of New Jersey) will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. Since the District has no proportionate share of the net pension liability, because of the special funding situation, the district would not be sensitive to any changes in the discount rate.

Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan which was established on January 1, 1955. The PERS provides retirement, death and disability, and medical benefits to certain qualified members. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employees' Retirement System were required to contribute 5% of their annual covered salary. Effective July 1, 2008, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. For employees enrolled in the retirement system prior to July 1, 2008, the increase is effective with the payroll period that begins immediately after July 1, 2008. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate was increased to 6.5%. An additional 1.0% increase is being phased-in over seven years beginning on July 1, 2012 and increases each subsequent July 1. The State Treasurer has the right under the current law to make temporary reductions in rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

The School District is billed annually for its normal contribution plus any accrued liability. The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

Fiscal Year	Normal Contributions	Adjustment	Accrued Liability	Non Contributory Life	Total Liability Paid by District
2016	\$ 29,287	\$ -	\$ 134,915	\$ 8,792	\$ 172,994
2015	28,507	-	131,869	10,862	171,238
2014	46,999	(18,041)	127,320	2,658	158,936

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

For the year ended June 30, 2016, the District recognized pension expense of \$264,890. At June 30, 2016, the District reported a liability of \$4,516,954 for its proportionate share of the PERS net pension liability and deferred outflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 107,759	\$ -
Changes of assumptions	485,085	
Net Difference between projected and actual earnings on pension plan investments		72,624
Changes in proportion		145,636
District contributions subsequent to the measurement date	157,171	
Total	\$ 750,015	\$ 218,260

\$157,171 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2016, the plan measurement date is June 30, 2015) will be recognized as a reduction of the net liability in the year ended June 30, 2016.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the year ended:	Net Deferred Outflows of Resources
2016	\$ 54,637
2017	54,637
2018	54,637
2019	125,573
2020	85,100
Total	\$ 374,584

Additional Information

Collective balances at June 30, 2015 and 2014 are as follows:

	6/30/2015	6/30/2014
Collective deferred outflows of resources	\$ 3,578,755,666	\$ 952,194,675
Collective deferred inflows of resources	\$ 993,410,455	\$ 1,479,224,662
Collective net pension liability	\$ 22,447,996,119	\$ 18,722,735,003
District's Proportion	.0201218565%	.0594168405%

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Actuarial assumptions – The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate: 3.04%
 Salary Increases:
 2012-2021: 2.15-4.40% based on age
 Thereafter: 3.15-5.40% based on age
 Investment Rate of Return: 7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	05.00%	01.04%
U.S. Treasuries	01.75%	01.64%
Investment Grade Credit	10.00%	01.79%
Mortgages	02.10%	01.62%
High Yield Bonds	02.00%	04.03%
Inflation Indexed Bonds	01.50%	03.25%
Broad US Equities	27.25%	08.52%
Developed Foreign Equities	12.00%	06.88%
Emerging Market Equities	06.40%	10.00%
Private Equity	09.25%	12.41%
Hedge Funds/Absolute Ret	12.00%	04.72%
Real Estate (Property)	02.00%	06.83%
Commodities	01.00%	05.32%
Global Debt ex US	03.50%	-0.40%
REIT	04.25%	5.12%

Discount rate. The discount rate used to measure the State's total pension liability was 4.90% as of June 30, 2015. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 3.8% as of June 30, 2015, based on the Bond Buyer Go20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability measured as of June 30, 2015, calculated using the discount rate of 4.90%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.90%) or 1 percentage point higher (5.90%) than the current rate:

	1% Decrease (3.90%)	Current Discount Rate (4.90%)	1% Increase (5.90%)
District's proportionate share of the net pension liability	\$ 5,614,021	\$ 4,516,954	\$ 3,597,181

Pension Plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

Fiscal Year	Total Liability	Paid by School District
2016	\$ 8,614	\$ 8,614
2015	5,335	5,335
2014	4,416	4,416

10. POST-RETIREMENT BENEFITS

The School District contributes to the New Jersey State Health Benefits Program (SHBP), a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SHBP was established to provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension issues a publicly available financial report that includes financial statements and required supplementary information for SHBP. That report may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

10. POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2015, there were 107,314 retirees receiving post-retirement medical benefits, and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in Fiscal Year 2015.

The State establishes the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contribution to the SHBP Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the year ended June 30, 2016 was \$550,264 equaled the required contributions. The State's contribution to the SHBP Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained from the Treasury website.

11. ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2016, the School District has recognized as revenues and expenditures \$462,126 of on-behalf payments made by the State of New Jersey for normal retirement costs related to TPAF and \$410,359 for employer's share of social security contributions for TPAF members, as calculated on their base salaries.

12. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters.

Property and Liability Insurance - The School District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

Joint Insurance Pool - The School District is a member of the Burlington County Insurance Pool Joint Insurance Fund. Insurance coverage as provided by the Fund can be found in the Statistical Section of this Comprehensive Annual Financial Report.

Annual contributions to the Fund are determined by the Fund's Board of Trustees. The School District is jointly and personally liable for claims insured by the Fund and its members during the period of its membership, including liability for supplemental assessments, if necessary. The Fund's Board of Trustees may authorize refunds to its members in any fund year for which contributions exceed the amount necessary to fund all obligations for that year.

The Fund publishes its own financial report which can be obtained by writing to: Burlington County Insurance Pool JIF, P.O. Box 449, Marlton, NJ 08053

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

12. RISK MANAGEMENT (Continued)

New Jersey Unemployment Compensation Insurance - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of School District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the School District's expendable trust fund for the current and previous two fiscal years:

<u>Fiscal Year</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2016	\$ 9	\$ 15,914	\$ 12,103	\$ 27,236
2015	\$ 6	24,099	997	23,416
2014	-	5,400	5,342	308

13. DEFERRED COMPENSATION

The School District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, available to all permanent School District employees, permit participants to defer a portion of their current salary to future years. Participation in the plans is optional. The deferred compensation is not available to the participants until termination, retirement, death, or an unforeseeable emergency occurs. The plan assets are held in trust for the benefit of the employee and are administered by a third party therefore they are not reflected on the financial statements of the School District.

14. COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g. unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees are granted varying amounts of vacation and sick leave in accordance with the School District's personnel policy. Upon termination, employees are paid for accrued vacation. The School District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the School District for the unused sick leave in accordance with the School District's agreements with the various employee unions.

The liability for vested compensated absences is recorded within those funds as the benefits accrued to the employees. As of June 30, 2016, the liability for compensated absences in the governmental activities was \$549,690.

15. CONTINGENCIES

The School District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the School District may be required to reimburse the grantor government.

At June 30, 2016, significant amounts of grant expenditures have not been audited by the granting agency, but the School District believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the School District. Additionally, unearned revenues are recognized in those funds that have received grant monies in advance of future, reimbursable expenditures.

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

16. INTERFUND BALANCES AND TRANSFERS

Interfund receivables/payables are recorded to cover temporary cash shortages and/or timing differences in the respective funds. There are no interfund balances that are not expected to be repaid by June 30, 2017. The following interfund balances were recorded on the various balance sheets as of June 30, 2016:

<u>Fund</u>	<u>Interfunds Receivable</u>	<u>Interfunds Payable</u>
General	\$ 74,342	\$ 47,304
Special Revenue		9,970
Capital Projects		64,372
Debt Service Fund	2	
Proprietary	47,302	
Total	\$ 121,646	\$ 121,646

17. DEFICIT UNASSIGNED FUND BALANCE

The School District has a deficit unassigned fund balance of \$59,884 in the General Fund as of June 30, 2016 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenues, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District can not recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the general and special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The School District deficit in the GAAP funds statements of \$59,884 is equal to or less than the June state aid payment.

18. DEFICIT UNRESTRICTED NET POSITION

As of June 30, 2016, a deficit of \$4,639,856 existed in the Unrestricted Net position of the Governmental Activities. A reconciliation of Unreserved Fund Balance reported on Exhibit B-1 to Unrestricted Net position reported on Exhibited A-1 as follows:

Balances, June 30, 2016:	
Fund Balance - Unassigned	\$ (59,884)
Liabilities:	
Accrued Interest Payable	(45,083)
Net Pension Differences	(3,985,199)
Compensated Absences	(549,690)
Unrestricted Net Position (Deficit)	\$ (4,639,856)

**Westampton Township School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2016**

19. FUND BALANCES

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund:

Excess Surplus – In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance - excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund, fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2016 is \$1,133,862 presented on the budgetary basis of accounting (Exhibit C-1). Additionally, \$553,371 of excess fund balance generated during the 2015-2016 fiscal year has been restricted and designated for utilization in the 2016-2017 budget.

Capital Reserve – As of June 30, 2016, the balance in the capital reserve account is \$1,061,805, all of which is restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan.

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund:

Designated for Subsequent Year's Expenditures – The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2016, \$58,141 of general fund balance.

Debt Service:

Designated for Subsequent Year's Expenditures – The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2016, \$22,516 of debt service fund balance.

UNASSIGNED

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund – As of June 30, 2016, the fund balance of the general fund was a deficit of \$59,884. The deficit is a result of the delay in the recording of the payment of state aid until the following fiscal year (See Note 17).

Debt Service – As of June 30, 2016, \$6,954 of debt service fund balance was unassigned.

Budgetary Comparison
For the Fiscal Year Ended June 30, 2016

**Explanation of Differences between Budgetary Inflows and Outflows and GAAP
Revenues and Expenditures**

	General Fund	Special Revenue Fund
Sources/inflows of resources		
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedules	\$ 14,363,946	\$ 444,758
Difference - budget to GAAP:		
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.		
State aid payment recognized for GAAP statements in current year, previously recognized for budgetary purposes.	321,725	
State aid payment recognized for budgetary purposes, not recognized for GAAP statements until the subsequent year.	(345,896)	
Total revenues as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	\$ 14,339,775	\$ 444,758
Uses/outflows of resources		
Actual amounts (budgetary basis) "total expenditures" from the budgetary comparison schedule	\$13,615,316	\$ 444,758
Differences - budget to GAAP		
Encumbrances for supplies and equipment ordered but not received is reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	\$ 13,615,316	\$ 444,758

**Westampton Township School District
Notes to Required Supplementary Information
Pension Schedules
For the Fiscal Year Ended June 30, 2016**

1. Teacher's Pension and Annuity Fund (TPAF)

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Changes of assumptions: Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

2. Public Employees' Retirement System (PERS)

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Changes of assumptions. Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

**REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT
ON THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL
ASSISTANCE AS REQUIRED BY NEW JERSEY TREASURY CIRCULAR OMB 15-08**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
of the Board of Education
Westampton Township School District
County of Burlington
Westampton Township, New Jersey

Report on Compliance for Each Major State Program

I have audited Westampton Township School District (School District), in the County of Burlington, State of New Jersey's compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major state programs for the fiscal year ended June 30, 2016. The School District's major state programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of state statutes, regulations, and the terms and conditions of its state financial assistance applicable to its state programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the School District's major state programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and New Jersey Treasury Circular OMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards and New Jersey Treasury Circular OMB 15-08 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major state program. However, my audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal and State Program

In my opinion, the Westampton Township School District, in the County of Burlington, State of New Jersey complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the fiscal year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the Westampton Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the New Jersey Treasury Circular OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Westampton Township School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Expenditures for federal awards were less than the single audit dollar threshold required by the Uniform Guidance and therefore were not subject to a single audit. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required the Office of School Finance, Department of Education, State of New Jersey and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of New Jersey Treasury Circular OMB 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08

I have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Westampton Township School District, in the County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements. I issued my report thereon dated October 7, 2016, which contained unmodified opinions on those financial statements. My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of state financial assistance as required by New Jersey Treasury Circular OMB 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

This report is intended for the information of the Board of Education and the New Jersey Department of Education.

The accompanying Notes to Schedules of Expenditures of Awards and Financial Assistance are an integral part of this schedule.

**Westampton Township School District
Notes to Schedules of Expenditures
of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2016**

I. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Westampton Township School District ("School District"). The School District is defined in Note 1 to the School District's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when the expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A. 18A:22-44.2*. For GAAP purposes, payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more of the June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is (\$24,171) for the general fund and \$000 for the special revenue fund. See Exhibit C-3, Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance expenditures are reported in the School District's basic financial statements on a GAAP basis as presented as follows:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>
General	\$ -	\$ 5,134,477	\$ 5,134,477
Special Revenue	414,835	29,923	444,758
Food Service	173,631	4,216	177,847
Total	<u>\$ 588,466</u>	<u>\$ 5,168,616</u>	<u>\$ 5,757,082</u>

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Notes to the Schedules of Expenditures
of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2016
(Continued)**

5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distribution, respectively. TPAF Pension Contributions represents the amount paid by the State on behalf of the School District for the year ended June 30, 2016. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2016.

6. MAJOR PROGRAMS

Major programs are identified in the Summary of Auditor's Results section of the Schedule of Findings and Questioned Costs.

WESTAMPTON TOWNSHIP SCHOOL DISTRICT
