Commissioner New Jersey Department of Education 100 Riverview Executive Plaza CN 500 Trenton, NJ 08625

#### Dear Commissioner:

The Comprehensive Annual Financial Report of the Philip's Academy Charter School for the fiscal period ended June 30, 2016, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the school. To the best of our knowledge and belief, the data presented in this report are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the school. All disclosures necessary to enable the reader to gain an understanding of the school's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter and list of principal officials. The financial section includes the general-purpose financial statements and schedules, as well as the auditor's report. The statistical section includes audited data from the school's first six fiscal years. The school is required to undergo an annual single audit in conformity with the requirements of 2 CFR 200-Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (U.S. Uniform Guidance), "Audits of State and Local Governments and Non-Profit Organizations," and the State Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditors' reports on internal control and compliance with applicable laws and regulations and findings and recommendations is included in the single audit section of this report.

1) <u>REPORTING ENTITY AND ITS SERVICES</u> The Philip's Academy Charter School constitutes an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds and account groups of the entity are included in this report.

Philip's Academy Charter School commenced the 2015/2016 school year with 376 students. The school served 252 students from kindergarten to the fifth grade and 124 students from the sixth to eighth grade.

**2) ENROLLMENT OUTLOOK:** Philip's Academy Charter School projected 378 students for the 2016/2017 school year. As of October 15, 2016, enrollment for the 2016/2017 school year is 376 students.

#### 3) MAJOR ACCOMPLISHMENTS

#### **ACADEMIC HIGHLIGHTS**

Philip's Academy's 2015/2016 graduates matriculated to the following competitive secondary schools:

#### **Private Day and Boarding:**

George School - 2

Girard College - 1

Madeira School - 1

Morristown Beard School - 2

Newark Academy - 3

Oaknoll School - 1

Pomfret - 1

Westminster School -1

Seton Hall Prep- 1

Total 13

These graduates will receive \$421,125 in financial aid.

#### **Parochial Schools:**

Hudson Catholic – 1

Pope John XXIII Regional – 1

Oueen of Peace – 5

St. Benedict's -2

St. Peter's Prep – 2

Union Catholic – 2

Total - 13

#### **Competitive Public and Charter High Schools:**

Cicely Tyson -2

Columbia High School – 2

Newark Collegiate Academy – 2

Newark Early College HS Program – 1

Newark Tech - 1

Randolf High School - 1

Total - 9

#### **NJASK Testing in Science 2016**

Philip's Academy exceeded the average performance for New Jersey Schools statewide, Newark Charter Schools and Newark Public Schools. Students in grade 4 reached Advanced Proficiency or Proficiency:

Science 98%

#### **Demand for Seats at Philip's Academy**

Although we had the third highest demand as a first choice among Newark charter schools, Philip's had the second highest demand per seat as a first choice school overall. There are currently over 635 students on our waiting list.

#### **ADMINISTRATIVE HIGHLIGHTS**

- This year PACS underwent its first annual review as a sponsor of the National School Lunch Program (NSLP). There were no significant findings.
- PACS received an unmodified opinion on its second state audit as a public school.
- 4) <u>INTERNAL ACCOUNTING CONTROLS:</u> Management of the Charter School is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the school are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits to be derived: and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the school also is responsible for ensuring that an adequate control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the school management.

As part of the school's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the school has complied with applicable laws and regulations.

5) <u>BUDGETARY CONTROLS:</u> In addition to internal accounting controls, the school maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the school and the State of New Jersey. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount as amended for the fiscal period is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balances at June 30, 2016.

- 6) ACCOUNTING SYSTEM AND REPORTS: The Charter Schools' accounting records reflect generally accepted accounting principles, as promulgated by the Government Accounting Standards Board (GASB). The accounting system of the school is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.
- 7) **FINANCIAL INFORMATION AT FISCAL PERIOD–END:** As demonstrated by the various statements and schedules included in the financial section of report, the school has met its responsibility for sound financial management. The following schedule presents a summary of the general fund and special revenue fund for the fiscal period ended June 30, 2016.

Revenue	Amount	<b>Percent of Total</b>
Local	\$948,935	18%
State	3,839,290	73%
Special Revenue	199,085	4%
Misc.	15,056	1%
Enterprise Fund	\$292,110	4%
Total	\$5,294,476	100%

The following schedule presents a summary of the general fund, special revenue fund and debt service fund expenditures for the fiscal period ended June 30, 2016.

Expenditures	Amount	Percent of Total
Current - General Fund	\$4,617,722	91%
Special Revenue	199,085	4%
Enterprise Fund	292,110	5%
Total	\$5,108,917	100%

8) <u>CASH MANAGEMENT:</u> The investment policy of the school is guided in large part by the state Statute as detailed in "Notes to the Financial Statements," Note 2. The school had adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with failed banking institutions in New Jersey. The law requires governmental units to deposit funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) <u>RISK MANAGEMENT:</u> The school carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, and hazard and theft insurance on property and contents.

#### 10) OTHER INFORMATION:

<u>Independent Audit</u> – State statutes require an annual audit by an independent Certified Public Accountant or Registered Municipal Accountant. The Accounting firm of Scott J. Loeffler, CPA was selected by the Charter School.

In addition to meeting the requirements set forth in the state statutes, the Charter School is required to undergo an annual single audit in conformity with the provisions of the *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the New Jersey OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid. Information related to this single audit, including the auditor's report on internal control and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

The auditor's report on the basic financial statements and specific required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

Respectfully submitted,

Miguel Brito Executive Director Migdalia Dale School Business Administrator Board Secretary

#### **Independent Auditor's Report**

The Honorable Chairman and Members of the Board of Trustees Philip's Academy Charter School County of Essex Newark, New Jersey

#### **Report on the Financial Statements**

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Trustees of the Philip's Academy Charter School, County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Philip's Academy Charter School's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management,

as well as evaluating the overall presentation of the financial statements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

#### **Opinion**

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Philip's Academy Charter School as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis and Budgetary Comparison Information* as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

My audit was conducted for the, purpose of forming opinions on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying supplementary information which consists of the introductory section, combining and individual fund financial statements and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by the *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the provisions of New Jersey Department of the Treasury Circular Letter 15-08 OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, and are not a required part of the basic financial statements.

The combining and individual fund financial statement information, and the schedules of expenditures of federal awards and state financial assistance required by the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the provisions of New Jersey Department of the Treasury Circular Letter 15-08 OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, respectively, are the responsibility of management and such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures

applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly presented, in all material respects, in relation to the basic financial statements as a whole.

The accompanying other information such as the introductory and statistical sections has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 2, 2016 on my consideration of the Philip's Academy Charter School's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Philip's Academy Charter School's internal control over financial reporting and compliance.

Licensed Public School Accountant No. 870

Scott J. Loeffler, CPA November 2, 2016 REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

This section of Philip's Academy Charter School annual financial report presents its discussion and analysis of the Board's financial performance during the fiscal period that ended on June 30, 2016. Please read it in conjunction with the transmittal letter at the front of this report and the Board's financial statements, which immediately follows this section.

#### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2015-16 fiscal period include the following:

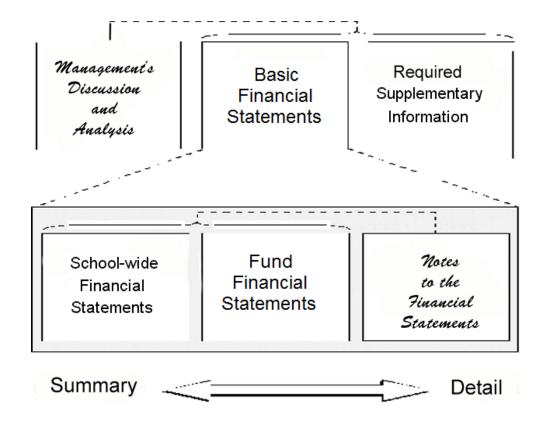

- Total Net Position (Deficit) was (\$482,224).
- The unrestricted General Fund balance at June 30, 2016 is \$485,609.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information that includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the Philip's Academy Charter School.

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Figure A-1. Required Components of the Board's Annual Financial Report

- The first two statements are school-wide financial statements that provide both short-term and long-term information about the Philip's Academy Charter School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Philip's Academy Charter School, reporting the Philip's Academy Charter School's operation in more detail than the school-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in short term as well as what remains for future spending.
- Proprietary funds statements offer short- and long-term financial information about the Food Service activities the Philip's Academy Charter School operates like businesses.

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

The financial statements also include notes that explain some of the information in the statements and provide data that are more detailed. Figure A-1 summarizes the major features of the Philip's Academy Charter School's financial statements, including the portion of the Philip's Academy Charter School's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 - Major Features of the School-wide and Financial Statements

	School-wide <u>Statement</u> s	Fund Financial St Governmental Funds	atements Proprietary Funds
Scope	Entire school (except fiduciary funds)	The activities of the Philip's Academy Charter School that are for the school operations and not proprietary or fiduciary, such as teachers' salaries, special education and building maintenance, food	Activities the Philip's Academy Charter School operates similar to private businesses: Internal service fund
Required financial statements	Statement of net position	service, and community education Balance sheet	Statement of net position
	Statement of activities	Statement of revenue expenditures and changes in fund balances	Statement of revenue, expenses, and changes in fund net position
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Statement of cash flows Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon there after; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long- term
Type of inflow/out flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

#### **School-wide Statements**

The school-wide statements report information about the Philip's Academy Charter School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Philip's Academy Charter School's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two school-wide statements report the Philip's Academy Charter School's net position and how they have changed. Net position – the difference between the Philip's Academy Charter School's assets and liabilities – are one way to measure the Philip's Academy Charter School's financial health or position.

In the school-wide financial statements, the Philip's Academy Charter School's activities are shown in two categories:

- Governmental activities- Most of the Philip's Academy Charter School's basic services are included here, such as regular and special education, transportation, administration, and community education. Property taxes and state aid finance most of these activities.
- Business-type activities- The Philip's Academy Charter School's Food Service Fund is included here.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the Philip's Academy Charter School's funds – focusing on its most significant or "major" funds – not the Philip's Academy Charter School as a whole.

Funds are accounting devices the Philip's Academy Charter School uses to keep track of specific sources of funding and spending on particular programs:

• Some funds are required by State law.

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

The Philip's Academy Charter School use other funds, established in accordance with the State of New Jersey Uniform Chart, to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal funds).

The Philip's Academy Charter School has three kinds of funds:

- Governmental funds- Most of the Philip's Academy Charter School's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Philip's Academy Charter School's programs. Because this information does not encompass the additional long-term focus of the school-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- **Proprietary funds** Services for which the Philip's Academy Charter School charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the school-wide statements.
- **Fiduciary funds** The Philip's Academy Charter School is the trustee, or *fiduciary*, for assets that belong to others such as scholarship fund, payroll and payroll agency funds, and student activity funds. The Philip's Academy Charter School is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Philip's Academy Charter School's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. I exclude these activities from the Philip's Academy Charter School's government-wide financial statements because the Philip's Academy Charter School cannot use these assets to finance its operations.

#### FINANCIAL ANALYSIS OF THE PHILIPS ACADEMY CHARTER SCHOOL AS A WHOLE

**Net position.** The Philip's Academy Charter School's net position (deficit) is (\$482,224) as of June 30, 2016. (See Table A-1).

Governmental

(\$482,224)

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

The Philip's Academy Charter School's financial position is the product of these factors:

- Special Revenue Federal Aid Revenues were \$199,085
- Special Revenue Federal Aid Expenditures were \$199,085
- General Fund Revenues were \$4,803,281.
- General Fund Expenditures were \$4,617,722.

# Table A-1 PHILIP'S ACADEMY CHARTER SCHOOL Statement of Net Position (Deficit) As of June 30, 2016

	<u>Total</u>
Current and Other Assets	\$4,510,776
Capital Assets (Including Business Activities)	0
Total Assets	\$4,510,776
Current Liabilities	544,144
Other Liabilities	4,448,856
Total Liabilities	4,993,000
Net Assets:	_
Invested In Capital Assets, Net of Related Debt	0
Restricted	0
Unrestricted	(482,224)
<b>Total Net Position (Deficit)</b>	(\$482,224)

Total Governmental and Business Activities revenues & beginning assets are adjusted by net adjusted expenditures resulting in a calculation of net position (deficit) of (\$482,224) as of June 30, 2016.

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Capital outlay		-	-	
Enterprise Fund		292,110	27,477	(264,633)
Total Expenditures	\$	5,316,394	\$ 4,501,756	\$ (814,638)

#### Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

#### UNRESERVED-UNDESIGNATED FUND BALANCE AS A PERCENTAGE OF EXPENDITURES

The following table shows the General Fund unreserved-undesignated fund balance.

# Table A-6 PHILIP'S ACADEMY CHARTER SCHOOL Changes in Net Position - School Wide For the Fiscal Year Ended June 30

General Fund	<u>2016</u>	<u>2015</u>	<u>2014</u>
Unreserved-Undesignated			
Fund Balance	485,609	300,050	75,111
Expenditures	5,316,394	4,501,756	4,443,590
Percentage	9.0%	6.7%	1.7%

The Philip's Academy Charter School values its fund balances as a vehicle for addressing unbudgeted and emergent needs that occur during the school year. The fund balance designated to support the subsequent years budget is \$485,609 for the 2016-17 school year.

#### FACTORS BEARING ON THE SCHOOL'S FUTURE

At the time these financial statements were prepared and audited, the Philip's Academy Charter School was aware of these existing circumstances that could significantly affect its financial health in the future:

- The State of New Jersey passed legislation which imposes a 2% cap on the underlying school District's tax levy.
- Future State Aid may be reduced due to the State's criteria utilized in calculating allocations of State Aid.

### CONTACTING THE PHILIP'S ACADEMY CHARTER SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Philip's Academy Charter School's finances and to demonstrate the Philip's Academy Charter School's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Philip's Academy Charter School, 342 Central Avenue, Newark, NJ 07103

BASIC FINANCIAL STATEMENTS
The basic financial statements provide a financial overview of the Philip's Academy Charter School's operations. These financial statements present the financial position and operating results of all funds as of June 30, 2016.

### Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2016

Total net change in fund balances - governmental funds (from B-2)	\$	185,559
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures.		
However, in the statement of activities, the cost of those assets is		
allocated over their estimated useful lives as depreciation expense. This is		
the amount by which capital outlays exceeded depreciation in the period. (Note 2)		
Depreciation expense	\$ -	
Capital outlays	 	
	\$	-
I can mayabla		0
Loan payable		U
Pension contributions are reported in governmental funds as expenditures; however, in the statement of activities, the contributions are adjusted for actuarial valuation adjustments, including service and interest costs, administrative costs, investment returns, and experience/assumption. This is the amount by which net pension liability and deferred inflows/outflows related to pension changed during the period.		
Change in net position of governmental activities	\$	185,559
		- ,

#### 1. <u>DESCRIPTION OF THE CHARTER SCHOOL AND REPORTING ENTITY</u>

Philip's Academy Charter School (the "Charter School") was incorporated in the State of New Jersey in 2012 as a non-for-profit corporation for the purpose of operating and maintaining a public school under a charter granted by the State of New Jersey, which promotes comprehensive educational reform by infusing innovation into the public education system. It is an instrumentality of the State of New Jersey, established to function as an education institution. The Charter School's Board of Trustees (the Board) is responsible for the fiscal control of the Charter School. A Chief Executive Officer (CEO) is appointed by Board and is responsible for the administrative control of the Charter School. Under the existing statutes, the Charter School's duties and powers include, but not limited to the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the Charter School are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Charter School. For the Charter School, this includes general operations, food service and student related activities of the Charter School.

The primary criterion for including activities within the Charter School's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the Charter School. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, and ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the Charter School over which the Board exercises operating control. Based on the aforementioned criteria, the Charter School has no component units to be included in the reporting entity. Further, the Charter School is not includable in any other reporting entity on the basis of such criteria.

The Philip's Academy Charter School Board of Trustees also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

Its mission is to establish a Charter School to serve as a neighborhood resource and as a model for other similar schools. The Philip's Academy Charter School is committed to achieving the New Jersey Core Curriculum Content Standards and producing high academic achievement by all students.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Philip's Academy Charter School is presented to assist in understanding the Charter School's financial statements and footnotes are a representation of the Charter School's management, who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles in the United States as applied to governmental units and have been consistently applied in the preparation of these financial statements.

The financial statements of the Philip's Academy Charter School (the "Charter School") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Governmental Accounting Standards Board publication, <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity.

The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility which includes financial interdependency and a resulting financial benefit or burden relationship, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources and significances) should be included in the financial reporting entity. The combined financial statements include all funds of the school over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the School is not includable in any other reporting entity on the basis of such criteria.

#### A Basis of Presentation

The Charter School's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

#### **Charter School Government-wide Financial Statements**

The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the Charter School, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School's governmental and business-type activities.

#### 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)</u>

Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Charter School, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Charter School.

The governmental activities generally are financed through federal and state awards, taxes and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

#### **Fund Financial Statements**

Fund financial statements of the Charter School are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Charter School. The New Jersey Department of Education (NJDOE) requires that all funds be reported as major, as it is considered important for public interest and to promote consistency among Charter Schools financial reporting in the State of New Jersey.

#### **B** Fund Accounting

The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Charter School at a more detailed level.

#### **Governmental Funds**

Governmental funds are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Charter Schools' major governmental funds:

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

**General Fund** - The General Fund is the primary operating fund of the Charter School. It is used to account for all financial resources except those that are legally or administratively required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey Department of Education, the Charter School included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of ground, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

**Special Revenue Fund** - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major Capital Projects, Debt Service or the Enterprise Funds) and local appropriations that legally restricted to expenditures for specified purposes.

*Capital Projects Fund* - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. As of June 30, 2016 there was no Capital Projects Fund.

#### **Proprietary Funds**

The focus of Proprietary Funds' measurement is upon determination of net income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are similar to business principles in the private sector. The following is a description of the Proprietary Funds of the Charter School:

Enterprise Funds - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the Charter School is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods and services to the students on a continuing basis be financed or recovered primarily through user charges; or where the Charter School has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

## 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or non-current, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenue) and decreases (expenses) in net total assets.

#### **Fiduciary Funds**

Fiduciary or trust and Agency Funds are used to account for assets held by the Charter School in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. This fund category includes:

**Trust Funds** - Expendable Trust Funds (unemployment compensation) are accounted for in essentially the same manner as the governmental funds. The unemployment compensation trust fund is used to account for contributions from employees and the employer (the Charter School) and interest earned on the balance as well as payments to the State for reimbursements of unemployment claims.

Agency Funds – Agency funds (Payroll, Health Benefits and Student Activity Fund) are used to account for the assets that the Charter School holds on behalf of others as their agent. Agency funds are custodial in nature and do not involved measurement of results of operations.

#### C Measurement Focus and Basis of Accounting

**Measurement focus** is a term used to describe "which" transactions are recorded within the various financial statements. **Basis of accounting** refers to "when" transactions are recorded regardless of the measurement focus applied.

#### **Measurement Focus**

On the government-wide statements of net position and the statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statement of these funds present increases (i.e., revenues and other financing sources), and decreases (i.e. expenditures and other financing use) during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

#### 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)</u>

All proprietary funds are accounted for on a flow economic resources measurement focus. With this measurement focus, the accounting adjectives are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flow. All assets and all liabilities, whether current or non-current, associated with their activities are included on the balance sheet. Fund equity (i.e., net total position) is classified as net position.

#### **Basis of Accounting**

In the government wide statement of net position and statements of activities, both governmental and business like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recognized when the liability, resulting from exchange and exchange like transactions, is incurred (i. e the exchange takes place).

In the fund financial statements, governmental fund and agency funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determine and "available" means collectible with the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental funds revenues.

#### **D** Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general and special revenue fund. The budgets are submitted to the County Office and the Education Commissioner for approval. Budgets except for the special revenue fund which is prepared using a non-GAAP budgetary basis, are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by Charter School Board resolution at any time during the fiscal year subject to the limitation of P.L. 2004 c73 (S1701). The Board of Trustees did not make any material supplemental budgetary appropriations during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)</u>

Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental funds types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognized the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow the presentation of GAAP basis financial reports.

#### E Cash, Cash Equivalent and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investment with a maturity of three months or less at the time of purchases and are stated at cost plus accrued interest. US Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchases are stated at cost. All other investments are stated at fair value.

New Jersey Charter Schools are limited as to the types of the investments and types of financial institution they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey Charter Schools.

Additionally, the Charter School has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from loss funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. established the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan Institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposit of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

#### F Short-Term Interfund Receivables/Payables

On the fund financial statements, receivables and payables resulting from short-term (due within one year) interfund loans are classified as interfund receivables/payables. Interfund balances within governmental activities and within business-type activities are eliminated on the Government Wide Statements of Net Position.

#### 2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)</u>

#### **G** Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase. Inventories in the proprietary funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method.

#### **H** Capital Assets

Capital assets, which include leasehold improvements, equipment, furniture & fixtures and vehicles are reported in the applicable governmental or business-type activities columns of the Government-wide financial statements. Capital assets are defined by the Charter School as assets with initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or through estimation procedures performed by an independent appraisal company.

The cost of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized. Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation of capital assets is computed and recorded by the straight-line method.

The school was an existing independent school prior to transitioning to Philip's Academy Charter School. The furniture and fixtures that the school utilizes is from the previous school and presently is now part of the building lease. Philip's Academy does not have ownership of the furniture and fixtures; therefore, there presently are no capitalized assets to depreciate.

#### I Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on specific event that is outside the control of the Charter School and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Charter School and its employees, are accounted for in the period in winch such services are rendered or in which such events take place.

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

The entire sick leave and vacation leave liabilities are reported on the school-wide financial statements.

The Charter School had no compensated absences as of June 30, 2016.

#### J Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, the non-current portion of compensated absences and mortgage payable (if any) that will be paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

#### **K** Deferred Revenue

Deferred Revenue represents funds which have been received but not yet earned.

There is no deferred revenue in the general or special revenue fund.

#### L Fund Balance and Equity

In February 2009, the GASB issued GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54"). GASB 54 is effective for periods beginning after June 15, 2010 and establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which government is bound to observe constraints imposed upon the use of resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

1. Nonspendable – includes amounts that cannot be spent because they either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- 2. Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3. Committed includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority.
- 4. Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed.
- 5. Unassigned includes all spendable amounts not contained in the other classifications.

When both restricted and unrestricted resources are available for use, it is the Charter School's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the Charter School first spends committed funds, then assigned funds, and finally, unassigned funds.

#### **M** Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the recorded amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### N On-Behalf Payments

Revenues and expenditures of the General Fund include payments made by the State of New Jersey for Pension and social security contributions for certified teacher members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the Charter School's annual budget.

#### O Net Position

A deferred outflow of resources is a consumption of net position by the Philip's Academy Charter School that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net position by the Philip's Academy Charter School that is applicable to a future reporting period. The Philip's Academy Charter School did not have any deferred inflows or outflows of resources at June 30, 2016.

Net position is displayed in three components - net investment in capital assets; restricted and unrestricted.

The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction, or improvement of those assets.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position.

The restricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### P New Accounting Standards

During the prior fiscal year 2015, the Charter School adopted the following GASB statements:

GASB 68, Accounting and Financial Reporting for Pensions: The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria.

GASB 71, Pension Transition for Contributions Made Subsequent to the Measurement Date- an amendment of GASB Statement No. 68, should be applied simultaneously with the provisions of Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

#### 3. <u>DEPOSITS AND INVESTMENTS</u>

New Jersey statutes require that Charter Schools deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Charter schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund (NJCMF), the New Jersey Arbitrage Rebate Management Fund (NJARM) and the M.B.I.A Class.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows: The market value of the collateral must equal at least 5% of the average daily balance of collected funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 3. <u>DEPOSITS AND INVESTMENTS (continued)</u>

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

The Charter School's cash and cash equivalents are classified below to inform financial statement users about the extent to which the Charter School's deposits and investments are exposed to custodial credit risk. As of June 30, 2016, the Charter School's carrying amount of deposits and investments are as follows:

	General Fund	Special Revenue	Enterprise Funds	Activity Funds	Total
Operating A/C	\$695,962	(\$58,600)	(\$91,751)	\$5,716	\$551,327

Operating cash accounts are held in the Charter School's name by one banking institution. At June 30, 2016, the Charter School's bank balance was \$551,327.

Of the bank balance, \$250,000 of the Charter School's cash deposits on June 30, 2016 were secured by federal deposit insurance and \$301,327 was covered by a collateral pool maintained by the bank as required by New Jersey statutes in accordance with the New Jersey Governmental Unit Deposit protection Act ("GUDPA").

GASB Statement No. 40 requires that the Charter School disclose whether its deposits are exposed to custodial risk (risk that in the event of failure of the counterparty, the Charter School would not be able to recover the value of its deposit or investment). In general, deposits are considered to be exposed to custodial risk by three categories described below:

#### Category 1

Insured or collateralized with securities held by the Charter School or by its agent in the Charter School's name.

#### Category 2

Collateralized with securities held by the pledging public depository's trust department or agent in the Charter School's name.

#### Category 3

Uncollateralized, including any deposits that are collateralized with securities held by the pledging public depository, or by its trust department or agent, but not in the Charter School's name.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 3. **DEPOSITS AND INVESTMENTS (continued)**

The Charter School does not have a policy for the management of the custodial risk, other than depositing all of its funds in banks covered by GUDPA.

#### **Investments**

New Jersey statutes permit the Charter School to purchase the following types of securities:

- 1. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- 2. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal national Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- 3. Bonds or other obligations of the Charter School.
- 4. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and MBIA CLASS.

As of June 30, 2016, the Charter School did not hold any investments.

#### 4. <u>LEASE RELATED PARTY TRANSACTIONS</u>

The school leases its premises under the terms of the renewable annual lease from Philip's Education Partners, Inc. a not for profit organization formed to support Philip's Academy Charter School. The rent expense for the current year was \$440,842. The rent covered the school premises and the full furniture and fixtures located throughout the school.

#### 5. <u>PENSION PLANS</u>

<u>Description of Plans</u> - All required employees of the Charter School are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate.

The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or on the internet at http://www.state.nj.us/treasury/pensions/annrprts.shtrnl.

#### 5. PENSION PLANS (continued)

<u>Teachers' Pension and Annuity Fund (TPAF)</u> - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple employer plan with a special funding situation, as under current statute, 100% of employer contributions are made by the State of New Jersey on behalf of the Charter School and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

<u>Summary of Significant Accounting Policies</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The employer contributions for the Charter Schools are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, the Charter School (employer) is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the Charter School (employer) does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the Charter School. However, the state's portion of the net pension liability that was associated with the Charter School was measured on June 30, 2015 was \$0 and \$0 as measured on June 30, 2014.

For the year ended June 30, 2016, the Charter School recognized pension expense of \$0 and revenue of \$0 for support provided by the State. The measurement period for the pension expense and revenue reported in the Charter School's financial statements (A-2) at June 30, 2016 is based upon changes in the collective net pension liability with a measurement period of June 30, 2014 through June 30, 2015. Accordingly, the pension expense and the related revenue associated with the support provided by the State is based upon the changes in the collective net pension liability between July 1, 2014 and June 30, 2015.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

In accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions, the Philip's Academy Charter School is not required to recognize a net pension liability for TPAF. The State of New Jersey is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the Philip's Academy Charter School Accordingly, the Philip's Academy Charter School proportionate share percentage determined under Statement No. 68 is 0.0% percent and the State's proportionate share is 100% of the net pension liability attributable to the Philip's Academy Charter School for TPAF. Therefore; in addition, the Philip's Academy Charter School does not recognize any portion of the TPAF.

Although the Charter School does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the Charter School. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

	6/30/2014	<u>6/30/2015</u>
Collective deferred outflows of resources	\$2,306,623,861	\$7,521,378,257
Collective deferred inflows of resources	\$1,763,205,593	\$554,399,005
Collective net pension liability (Nonemployer- State of New Jersey)	\$53,446,745,367	\$63,204,270,305
State's portion of the net pension liability that was associated with the Charter School as a percentage		
of the collective net pension liability	.0%	.0%

Actuarial assumptions - The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2014. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation: 2.5%

Salary Increases: Varies based on experience

Investment Rate of Return: 7.90%

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2014 are summarized in the following table:

A casta Class	Target	Long Term Expected Real
Assets Class	Allocation	Rate of Return
US Cash	5.00%	0.53%
US Government Bonds	1.75%	1.39%
US Credit Bonds	13.50%	2.72%
US Mortgages	2.10%	2.54%

#### 5. PENSION PLANS (continued)

Discount rate - The discount rate used to measure the State's total pension liability was 4.13% and 4.68% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.8% and 4.29% as of June 30, 2015 and 2014, respectively, based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers (State of New Jersey) will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit pay.

Sensitivity of the Charter School's proportionate share of the net pension liability to changes in the discount rate. Since the Charter School has no proportionate share of the net pension liability because of the special funding situation, the Charter School would not be sensitive to any changes in the discount rate. Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <a href="http://www.nj.gov/treasury/pensions/pdf/financial/gasb68-tpafl5.pdf">http://www.nj.gov/treasury/pensions/pdf/financial/gasb68-tpafl5.pdf</a>

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml

<u>Public Employees' Retirement System (PERS)</u> - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

Summary of Significant Accounting Policies - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred inflows of Resources Related to Pensions

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

At June 30, 2016, the Charter School had a liability of \$3,968,529 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014, which was rolled forward to June 30, 2015. The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2014. The Charter School's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2015 and 2014.

At June 30, 2015, the Charter School's proportion was. .017678%.

For the year ended June 30, 2016, the Charter School recognized pension expense of \$530,651. At June 30, 2016, the Charter School reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources.

Deferred Outflows of Resources	Deferred Inflows of Resources
\$426,188	\$
0	139,039
94,675	
2,808,170	341,288
151,990	
\$3,481,023	\$480,327
	Outflows of Resources  \$426,188  0 94,675  2,808,170  151,990

\$151,990 reported as deferred outflows of resources related to pensions resulting from the Charter School contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2016, the plan measurement date is June 30, 2014) will be recognized as a reduction of the net pension liability measured as of June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

	Year Ended June 30:
2016	152,280
2017	152,280
2018	152,280
2019	228,588
2020	129,193
Thereafter	
Total:	\$814,621

	6/30/14	6/30/15
Collective deferred outflows of resources	\$952,194,675	\$3,578,755,666
Collective deferred inflows of resources	\$1,479,224,662	\$993,410,455
Collective net pension liability (Non State- Local Group)	\$18,722,735,003	\$22,447,996,119
Charter schools proportion of net pension liability	0	3.968,529
Charter School proportion percentage	.0%	.017678%

Actuarial assumptions. The total pension liability in the July l, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.04%

Salary Increases:

2012-2012 2.12%-4.40% based on age Thereafter 3.15%-5.40% based on age

Investment Rate of Return 7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

The actuarial assumptions used in the July l, 2014 valuation were based on the results of an actuarial experience study for the period July l, 2008 to June 30, 2011.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

Assets Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	5.00%	1.04%
US Treasuries	1.75%	1.64%
Investment Grade Credit	10.00%	1.79%
Mortgages	2.10%	1.62%
High Yield Bonds	2.00%	4.03%
Inflation Indexed Bonds	1.50%	3.25%
Broad US Equities	27.25%	8.52%
Developed Foreign Equities	12.00%	6.88%
<b>Emerging Market Equities</b>	6.40%	10.00%
Private Equity	9.25%	12.41%
Hedge Funds/Absolute Return	12.00%	4.72%
Real Estate (Property)	2.00%	6.83%
Commodities	1.00%	5.32%
Global Debt ex US	3.50%	-0.40%
REIT	4.25%	5.12%

Discount rate. The discount rate used to measure the total pension liability was 4.90% and 5.39% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.8% and 4.29% as of June 30, 2015 and 2014, respectively, based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

## PHILIP'S ACADEMY CHARTER SCHOOL Notes to the Basic Financial Statements

## For the Fiscal Year Ended June 30, 2016

#### 5. PENSION PLANS (continued)

Sensitivity of the Charter School's proportionate share of the net pension liability to changes in the discount rate. The following presents the Charter School's proportionate share of the net pension liability measured as of June 30, 2015 and 2014, calculated using the discount rate of 4.9% and 5.39%, as well as what the Charter School's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.9%) or 1-percentage-point higher (5.9%) than the current rate:

	1% Decrease (3.9%)	Current Discount Rate (4.9%)	1% Increase (5.9%)
Charter School's proportionate share of the net pension liability	4,778,506	3,968,529	3,158,552

*Pension plan fiduciary net position*. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <a href="http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml">http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml</a>.

The sensitivity analysis was based on the proportionate share of the Charter School's net pension liability at June 30, 2015. A sensitivity analysis specific to the Charter School's net pension liability was not provided by the pension system.

<u>Defined Contribution Retirement Plan (DCRP)</u> - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-l et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N. J.S.A. 43:15C-l et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist.

**PERS and TPAF Vesting and Benefit Provisions** - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.38, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined.

#### 5. PENSION PLANS (continued)

Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years).

Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

<u>Significant Legislation</u> - Chapter 78, P.L. 2011, effective June 28, 2011, made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65. The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members. The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.

The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law. New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary. In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

#### 5. PENSION PLANS (continued)

<u>Contribution Requirements</u> - The contribution policy is set by N.J.S.A. 43: 15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 (PERS) and N.J.S.A. 18:66 (TPAF) requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 7.06% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 7.06% and the PERS rate is 7.06% of covered payroll.

During the fiscal year ended June 30, 2016, the State of New Jersey did contribute \$0 to the TPAF for post-retirement benefits on behalf of the Charter School. Also, in accordance with NJ.S.A. 18A:66-66 the State of New Jersey reimbursed the Charter School \$155,479 during the year ended June 30, 2016, for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. The PERS amounts have been included in the fund-based statements as pension expense and the TPAF on-behalf amounts have been included in fund-based statements as revenues and expenditures. The PERS and TPAF amounts have been modified and included in the Charter School's financial statements in accordance with GASB Statement No. 68.

#### 6. **POST RETIREMENT BENEFITS**

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees.

As of June 30, 2015, there were 107,314 retirees receiving post-retirement medical benefits and the State contributed \$1.25 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126 which provides employer paid health benefits to members of PERS, and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The state paid \$214.1 million toward Chapter 126 benefits for 19,056 eligible retired members in fiscal year 2014.

#### 7. <u>COMPENSATED ABSENCES</u>

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Charter School employees are granted varying amounts of vacation and sick leave in accordance with the Charter School's personnel policy.

Upon termination or upon retirement, employees are currently not paid for accrued vacation or unused sick and personal days. The Board of the Charter School is currently reviewing the exiting compensated absences policies with the intent of addressing the issues of accumulation and payments upon termination.

As of June 30, 2016, Charter School-wide compensated absences amounted to \$-0-.

#### 8. ECONOMIC DEPENDENCY

The Charter School receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if it were to occur, could have an effect on the Charter School's programs and activities.

#### 9. <u>CONTINGENT LIABILITIES</u>

The Charter School participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government.

If expenditures are disallowed due to noncompliance with grant program regulations, the Charter School may be required to reimburse the grantor government. As of June 30, 2016, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Charter School believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the Charter School.

The Charter School's attorney's letter advises that there is no litigation, pending litigation claims, contingent liabilities, unasserted claims for assessments or statutory violations which involved the Charter School and which might materially affect the Charter School's financial position.

#### 10. RISK MANAGEMENT

The Charter School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

**Property and Liability Insurance -** The Charter School maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (UNAUDITED) of this Comprehensive Annual Financial Report.

#### 11. RECEIVABLES

Receivables as of June 30, 2016 consisted of accounts, intergovernmental, grants and miscellaneous. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables are as follows:

	General	Special <u>Revenue</u>	Enterprise <u>Fund</u>	<u>Total</u>
Receivables:				
Accounts	<u>\$270,638</u>	<u>\$85,903</u>	<u>\$121,024</u>	<u>\$477,565</u>
Gross Receivables	<u>\$270,638</u>	<u>\$85,903</u>	<u>\$121,024</u>	<u>\$477,565</u>

#### 12. SUBSEQUENT EVENTS

The school has evaluated subsequent events occurring in the Independent Auditors Report of November 2, 2016, which is the date the financial statements were available to be issued. Based on this evaluation, the school has determined no subsequent events require disclosure in the financial statements.

#### 13. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences Between the Governmental Fund Balance Sheet (B-1) and the Government-wide Statement of Net Position (A-1).

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the Government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including deferred pension liability are not due and payable in the current period and therefore are not reported in the funds.

## Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

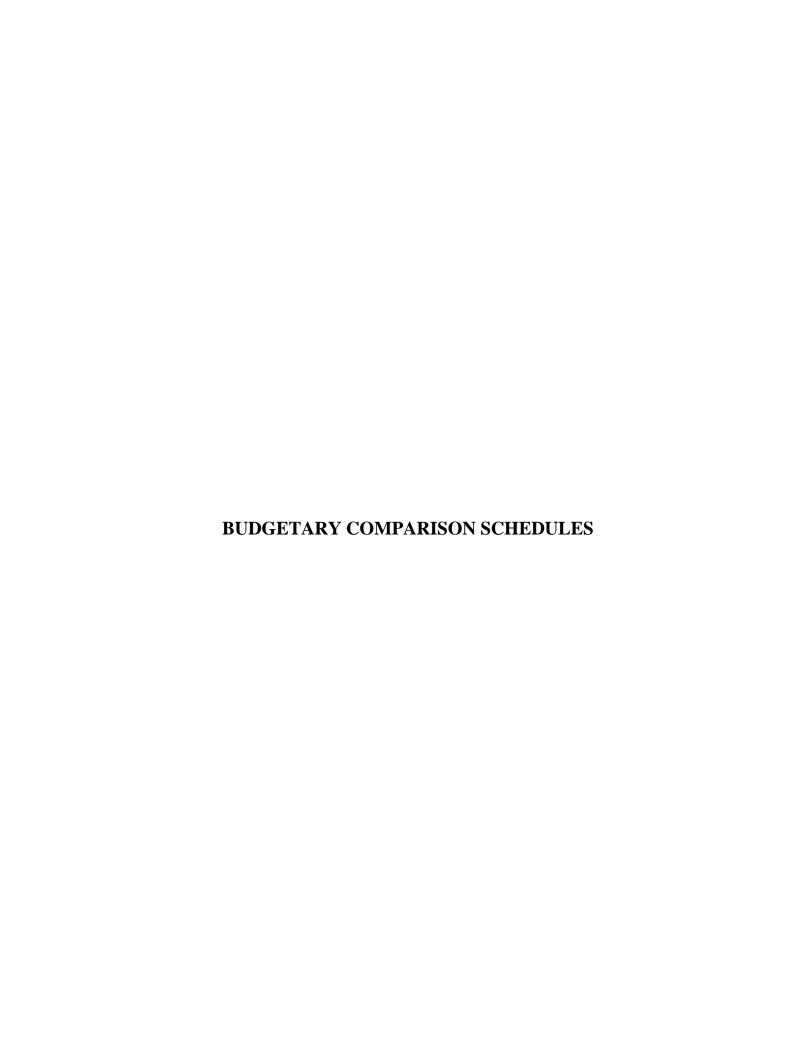

## 13. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

Explanation of Certain Differences Between the Governmental Fund Balance Sheet (B-1) and the Government-wide Statement of Net Position (A-1). (continued)

The reconciliation is as follows:

Fund balance per B-1	\$485,609
Cost of capital assets net accumulated depreciation	-0-
Pension deferred outflows	3,481,023
Pension deferred inflows	(480,327)
Deferred pension liability as of June 30, 2016	(3,968,529)
Net position (Deficit) (per A-1) as of June 30, 2016	(\$482,224)

## PHILIPS ACADEMY CHARTER SCHOOL SCHEDULE OF THE CHARTER SCHOOL PROPORTIONATE SHARE OF NET PENSION LIABILITY - TPAF FOR THE FISCAL YEARS ENDED JUNE 30

#### Teachers' Pension and Annuity Fund (TPAF)

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Charter School Proportion of the net pension liability (asset)**	N/A	N/A	N/A
Charter School Proportionate share of the net pension liability (asset)**			
State's proportionate share of the net pension liability			
(asset) associated with the Charter School	0	0	0
Total	0	0	0
Charter School Covered employee payroll	N/A	N/A	N/A
Charter School Proportionate share of the net pension liability (asset) as a			
percentage of its covered-employee payroll	N/A	N/A	N/A
Plan fiduciary net position as a percentage of the total pension liability	N/A	N/A	N/A

<sup>\*\*</sup>NOTE: TPAF is a special funding situation as defined by GASB Statement No. 68 in which the State of New Jersey is 100% responsible for contributions to the plan. Since the charter school (employer) does not contribute directly to the plan there is no net pension liability to report in the financial statements of the charter school.

# PHILIPS ACADEMY CHARTER SCHOOL NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PENSION SCHEDULES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### Public Employees' Retirement System (PERS)

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

*Changes of assumptions.* Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

#### Teachers' Pension and Annuity Fund (TPAF)

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Changes of assumptions. Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Preretirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

# SPECIAL REVENUE FUND Special Revenue Funds are used to account for the proceeds of special revenue resources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

#### **ENTERPRISE FUND**

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the cost of providing goods and services be financed through user charges or where the board has decided that periodical determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

**Food Service Fund** - The fund provides for the operation of food services in all schools.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Chairman and Members of the Board of Trustees Philip's Academy Charter School County of Essex Newark, New Jersey

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Philip's Academy Charter School ("the Charter School"), in the County of Essex, State of New Jersey, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued my report thereon, dated November 2, 2016.

#### **Internal Control Over Financial Reporting**

In planning and performing my audit of the financial statements, I considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, I do not express an opinion on the effectiveness of the Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any

deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter School's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR EDERAL AND STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND STATE OF NEW JERSEY OMG'S CIRCULAR LETTER 15-08

The Honorable Chairman and Members of the Board of Trustees Philip's Academy Charter School County of Essex Newark, New Jersey

#### **Compliance**

I have audited the Philip's Academy Charter School, in the County of Essex, State of New Jersey's ("the Charter School") with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major federal and state programs for the year ended June 30, 2016. The Charter School's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### **Auditors' Responsibility**

My responsibility is to express an opinion on compliance for each of the Charter School's major federal and state programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and New Jersey Department of the Treasury Circular Letter 15-08 OMB *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* 

Those standards, The Uniform Guidance and State of New Jersey Department of Treasury Circular 15-08-OMB require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal and state program. However, my audit does not provide a legal determination of the Charter School's compliance.

#### Opinion on Each Major Federal and State Program

In my opinion, the Charter School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state program for the year ended June 30, 2016.

#### **Report on Internal Control over Compliance**

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with The Uniform Guidance and State of New Jersey Department of Treasury Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of The Uniform Guidance and State of New Jersey Department of Treasury Circular 15-08-OMB. Accordingly, this report is not suitable for any other purpose.

# PHILIP'S ACADEMY CHARTER SCHOOL NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 1. GENERAL

The accompanying schedules of present the activity of all federal and state assistance programs of the Philip's Academy Charter School. The Board of Trustees is defined in the Notes to the school's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal assistance and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

#### NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the provisions of New Jersey Department of the Treasury Circular Letter 15-08 OMB *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Therefore, some amounts presented in the schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting revenue is not recognized until the subsequent year or expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis. The special revenue fund is presented in the accompanying schedules on the grant account budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The net adjustment to reconcile from the budgetary basis to GAAP basis is \$-0-. See Note 1 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the school's basic financial statements on a GAAP basis as follows:

# PHILIP'S ACADEMY CHARTER SCHOOL NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2016

The net adjustment to reconcile from the budgetary basis to GAAP basis is \$-0-. See Note 1 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Awards and financial assistance revenues are reported in the school's basic financial statements on a GAAP basis as follows:

	<b>Federal</b>	State	Total
General Fund	\$ -0-	\$ 4,788,225	\$ 4,788,225
Special Revenue Fund	199,185	-0-	199,185
Enterprise Fund	80,041	2,481	82,522
Total Awards and Financial Assistance	\$ 279,226	\$ 4,790,706	\$ 5,069,932

#### NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

#### NOTE 5. OTHER INFORMATION

The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the Charter School for the year ended June 30, 2016. TPAF Social Security Contributions of \$155,749 represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2016.

#### NOTE 6. ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the schools basic financial statements and the amount subject to State single audit and major program determination.

#### PART II – SCHEDULE OF FINANCIAL STATEMENT FINDINGS

This section identifies the significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements and abuse related to the financial statements in accordance with Government Auditing Standards and with audit requirements prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

No financial statement findings noted that are required to be reported under Government Auditing Standards.

### PART III – SCHEDULE OF FEDERAL AND STATE AWARD FINDINGS AND QUESTIONED COSTS

This section identifies the significant deficiencies, material weaknesses, and instances of noncompliance including questioned costs, related to the audit of major federal and state programs, as required by The Uniform Guidance and New Jersey OMB's Circular 15-08.

No federal and state award findings and questioned costs noted that are required to be reported in accordance of The Uniform Guidance or with NJOMB Circular 15-08.

#### PHILIP'S ACADEMY CHARTER SCHOOL SUMMARY OF SCHEDULE OF PRIOR-YEAR AUDIT FINDINGS AND QUESTIONED COSTS AS PREPARED BY MANAGEMENT FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **Status of Prior Year Findings**

This section identifies the status of prior-year findings related to the basic financial statements and federal and state awards that are required to be reported in accordance with Chapter 6.12 of *Government Auditing Standards*, U.S. Uniform Guidance (section .315(a)(b)) and New Jersey OMB's Circular 15-08.

In accordance with government auditing standards, my procedures included a review of all prior year recommendations. There were no prior year findings.
