INDEPENDENT AUDITOR'S REPORT

Honorable President and
Members of the Board of Education
Borough of Mountainside School District
Union County, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey, the basic financial statements of the Board of Education of the Borough of Mountainside School District in the County of Union for the year ended June 30, 2016, and have issued our report thereon dated November 3, 2016.

As part of our audit, we performed procedures required by the New Jersey Department of Education, and the findings and results thereof are disclosed on the following pages, as listed in the accompanying table of contents.

This report is intended for the information of the Borough of Mountainside Board of Education's management and the New Jersey Department of Education. However, this report is a matter of public record and its distribution is not limited.

ADMINISTRATIVE FINDINGS
FINANCIAL, COMPLIANCE AND PERFORMANCE REPORTING

Scope of Audit

The audit covered the financial transactions of the Board Secretary/School Business Administrator, the activities of the Board of Education, and the records of the various funds and accounts under the auspices of the Board of Education.

The audit did not and could not determine the character of services rendered for which payment had been made nor could it determine the character, proper price or quantity of materials supplied for which claims had been passed. These details were necessarily covered by the approval of such claims. Revenues and receipts were established and verified as to sources and amount only insofar as the records permitted.

ADMINISTRATIVE PRACTICES AND PROCEDURES

Insurance

The District is a member of the School Alliance Insurance Fund, a joint insurance fund formed under the provisions of N.J.S.A. 18A:18:b-1 et seq. One of the objectives of a joint insurance fund is to provide a cost effective risk management program. This is accomplished through member risk retention, pooled risk retention through the fund, and the procurement of excess insurance coverage at premiums that reflect the combined purchasing power of all the fund members. The fund's risk management plan, which sets forth limits of coverage, individual member risk retention (per occurrence and aggregate), fund risk retention, is set forth on Exhibit J-20 of the District's CAFR. No attempt was made to determine the adequacy of coverage as part of this report. Adequacy of coverage is the responsibility of the Board of Education.

Official Bonds

The following position was covered by Surety Bonds:

Mr. Eric Larson, School Business Administrator/ Board Secretary	194,000.00
--	------------

The District has procured Blanket Dishonesty (Including Faithful performance) Bond coverage In the amounts of \$500,000 for each loss.

Tuition Charges

A comparison of tentative tuition charges and actual certified tuition charges was made. Tuition charges for the fiscal years 2014-2015 and 2015-2016 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined. During the 2010-2011 school year, a settlement with the receiving district was reached regarding tuition adjustments for the costs of certain special education programs provided by the receiving district. The settlement called for a total adjustment of \$330,000, payable in five (5) equal installments of \$66,000, commencing with the 2010-2011 school year. The fifth and final installment, due in July, 2015, was included in the 2015-2016 budget within the tuition accounts. Upon the certification of the 2013-14 tuition rates, an upward adjustment of \$469,596 was established as due to the receiving district.

ADMINISTRATIVE PRACTICES AND PROCEDURES (CONT'D.)

Tuition Charges (Cont'd.)

As a result of negotiations, this payment was spread over two budget cycles, commencing with the 2016-17 budget and is payable in two equal installments of \$234,798. Upon the certification of the 2014-15 tuition rates, an upward adjustment of \$558,768 was established as due to the receiving district. As a result of negotiations, this payment was spread over three budget cycles, commencing with the 2016-17 budget and is payable in installments of \$65,000, \$300,000 and \$193,768, respectively. Additionally, based upon preliminary calculations prepared by the School Business Administrator, it appears that both the estimated student count and the estimated cost per pupil utilized to establish the 2015-16 tuition rate with the receiving district underestimate actual amounts. The estimate of the tuition adjustment that may be required is \$170,000. The Business office has instituted procedures to assure that future tuition amounts are reflective of more precise estimates of students to be sent. While the estimated tuition adjustment for 2015-16 remains significant, it is considerably less than those of the prior two periods, and represents the best efforts of the District to fully appropriate annual tuition costs, within the restrictive provisions of the School Budget Laws.

FINANCIAL PLANNING, ACCOUNTING AND REPORTING

Examination of Claims

An examination of claims paid during the period under review did not indicate any discrepancies with respect to signatures, certification or supporting documentation.

During the current period, the controls over the processing of disbursements were tested to assure that all requisite documentation and necessary approvals had been obtained prior to the placing of claims on bill lists for Board approval. No exceptions were noted. Audit tests of issued checks indicated that at least two authorized manual signatures were affixed to any disbursement check not previously approved by the Board of Education. Manual checks were minimal during the period under audit.

Payroll Account

The Board maintained the Net Payroll and Agency Account method for the depositing and payment of its payrolls. The net payrolls from all sources are deposited in the payroll account and all payroll deductions, together with the Board's share, are deposited to the agency account.

All payrolls were approved by the Superintendent and were certified by the President of the Board and the Board Secretary/School Business Administrator. Tests were made of these records with no exceptions noted.

Audit tests of the time and attendance records and personnel files indicated that District employees were paid at the proper rates and in the proper amounts. Audit tests also indicated that the District had procedures in place to ensure the timely enrollment of all employees who are entitled to membership in the state-sponsored pension systems, and tests of employees whose payroll records indicated that no pension deductions were being withheld indicated that the employee was not eligible in every instance. Tests of the payroll records also indicated that employee contributions for a share of the costs of their health benefits were withheld at the proper rates based upon the provisions of the governing statute and the terms of collective bargaining agreements.

FINANCIAL PLANNING, ACCOUNTING AND REPORTING

Payroll Account (Cont'd.)

Previous findings relating to the timely reconciliation of the payroll and agency bank accounts were corrected during the current period.

As noted in prior reports, the District utilizes an external service organization for the processing of payrolls, and identified a significant component of the Mountainside School District's internal control function exercised by this service organization. In accordance with applicable auditing standards we requested a report from an independent accountant on the service organization's controls placed in operation and the results of tests (if any) of the operating effectiveness of the controls. In response, the District received such a report that identifies the service organization's controls and opines that such controls are suitably designed to achieve the specified control objectives and have been placed in operation as of June 30, 2016. The terms and conditions under which the District's payroll processing agency provided its services were formalized into a written contractual agreement which was presented to, and approved by the Board of Education.

TPAF Reimbursement to the State for Federal Salary Expenditures

No salaries for TPAF eligible employees were charged to state or federal grant programs during 2015-16. Accordingly, no reimbursement to the State for the amount of any such expenditure charged to the current year's Final Report for all federal awards for the District to reimburse the State for the TPAF Pension and Social Security payments made by the State on-behalf of the school district was required.

Reserve for Encumbrances, Liability (Current) for Accounts Payable

A review of outstanding issued purchase orders was made as of June 30, for goods not yet received or services not yet rendered and it was determined that no blanket purchase orders were included in the balance of the reserves for encumbrances. The use of blanket orders during the school year included recurring costs such as energy and utilities. Other use of blanket orders were based on operating efficiencies, and controls over their utilization were good.

The budgetary accounting process and the records and reports generated by the accounting system continued to function as designed during the current period. Tests of the records indicated that expenditures/expenses were recorded in the appropriate accounting period and that all amounts payable at the close of the year based upon delivery of goods and/or performance of services had been charged against the current year budget appropriations.

Classification of Expenditures

The coding of expenditures was tested for proper classification in accordance with N.J.A.C. 6A: 23-2.2(f) as part of our test of transactions of randomly selected expenditure items. We also reviewed the coding of all expenditures included in our compliance and single audit testing procedures. In addition to randomly selecting a test sample, our sample selection specifically targeted administrative coding classifications to determine overall reliability and compliance with N.J.A.C. 6A: 23-8.2. As a result of the procedures performed we found no discrepancies in the classification of expenditures and no additional procedures were deemed necessary to test the propriety of the expenditure classification.

FINANCIAL PLANNING, ACCOUNTING AND REPORTING (CONT'D.)

Travel

Tests were performed to determine the existence of required policy documents and the District's compliance with same with respect to the timely approval and appropriate reimbursement rates for approved travel. No exceptions were noted.

Budgetary Transfers

During the current period, we noted a significant volume of budgetary transfers presented to the Board of Education for approval. Audit tests indicated that the need for these transfers was based upon the inability of the District to include contingency funds in its operating budgets. The budget spending variance in the 2015-2016 budget was once again favorable. The existing regulatory environment has effectively transformed the budget from a planning document into a legal spending limit. In order to avoid forced cuts to spending in future years, the District must, at a minimum, regenerate the amounts of fund balance budgeted in the prior year. During 2015-16, the District budgeted \$576,314 of fund balance. The adopted budget for 2016-17 calls for the utilization of \$680,383 of fund balance. The favorable budgetary variance of \$601,971 successfully regenerated enough fund balance to sustain the 2016-17 budget and also permitted the Board to set aside \$300,000 as Tuition Reserves, which are intended to fund a portion of the tuition adjustment payable in the 2017-18 budget. Unanticipated tuition adjustments could easily eliminate a large portion of favorable variances going forward. When unforeseen expenses or cost increases occur, management is required to "find" funds in other budget accounts to cover these contingencies and exigencies. At June 30, 2016, the District reported a budgetary basis net unrestricted general fund balance of \$384,418.64, which is equal to 2% of 2015-16 expenditures as adjusted in accordance with the governing regulations.

Investment of Idle Funds

During the 2015-16 school year, interest rates remained at historic lows, and interest earnings on general funds was negligible. However, a new depository is being utilized for the proceeds of the District's 2014 Bonds to maximize investment earnings on these funds. A total of \$27,673.83 of interest was earned on the Bond Referendum account during 2015-16 and was transferred to the general fund. The total interest earned on the referendum bond proceeds that has been utilized to minimize property taxes is \$65,439.74.

Board Secretary's Records

The official minute record was awaiting binding during the period our audit was performed, and as such, was not in a condition that we would deem sufficient for a required permanent record. However, assuming that the minute records, including all attachments thereto, are ultimately bound into hard covered record books, they would meet all statutory requirements. A similar condition was noted during our previous examination, and the binding of those documents did occur during the current period.

The District reinstated the position of Treasurer for the 2015-2016 school year, and timely and accurate monthly Treasurer's reports were on file in the office of the School Business Administrator.

FINANCIAL PLANNING, ACCOUNTING AND REPORTING (CONT'D.)

Elementary and Secondary Education Act (E.S.E.A.)/Improving America's Schools Act (I.A.S.A.) as reauthorized by the No Child Left Behind Act of 2001

The E.S.E.A./NCLB financial exhibits are contained within the Special Revenue Section of the CAFR. This section of the CAFR documents the financial position pertaining to the projects under Title II of the Elementary and Secondary Education Act as amended and reauthorized. Additional federal funding was received for I.D.E.A. Part B Basic and Preschool programs.

Other Special Federal and/or State Projects

The District's did not operate any State Special Projects during the 2015-2016 school year.

The financial exhibits are contained within the Special Revenue section of the CAFR, which documents the financial position pertaining to the aforementioned special projects on a grant accounting budgetary basis and reports the financial position of the fund on a GAAP basis at June 30, 2016.

T.P.A.F. Reimbursement

Our audit procedures included a test of the biweekly reimbursement forms filed with the Department of Education for district employees who are members of the Teachers Pension and Annuity Fund. No exceptions were noted. The payroll software produces reports of T.P.A.F. employees and covered salaries, and calculates the amounts of reimbursements to be sought. Tests of these reports yielded no exceptions.

SCHOOL PURCHASING PROGRAMS

Contracts and Agreements Requiring Advertisement for Bids

N.J.S.A. 18A: 18A-3 states"

"a. When the cost or price of any contract awarded by the purchasing agent in the aggregate, does not exceed in a contract year the total sum of \$17,500.00, the contract may be awarded by a purchasing agent when so authorized by resolution of the board of education without public advertising for bids and bidding therefore, except that the board of education may adopt a resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotes. If the If the purchasing agent is qualified pursuant to subsection b. of section 9 of P.L. 1971, c.198 (C.40A: 11-9) the board of education may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by general delegation of the power to negotiate and award such contracts pursuant to this section."

"b. Commencing in the fifth year after the year in which P.L. 1999. c.440 takes effect, and every five years thereafter, the Governor, in consultation with the Department of Treasury, shall adjust the threshold amount and the higher threshold amount which the board of education is permitted to establish as set forth in subsection a. of this section to the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in N.J.S. 18A:18A-2, and shall round the adjustment to the nearest \$1,000. The Governor shall notify all local school districts of the adjustment no later than June 1 of every fifth year. The adjustment shall become effective on July 1, of the year in which it is made."

SCHOOL PURCHASING PROGRAMS (CONT'D.)

Contracts and Agreements Requiring Advertisement for Bids (Cont'd.)

“Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (1) of subsection a. of N.J.S.18A:18A-5 may be awarded for a period not exceeding 12 consecutive months.”

N.J.S.A. 18A:18A-4 states, Every contract or agreement for the performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the board of education to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this chapter or specifically by any other law.”

Effective July 1, 2015 and thereafter the bid thresholds in accordance with N.J.S.A. 18A:18A-2 (as amended) and 18A:18A-3(a) are \$40,000.00 (with a Qualified Purchasing Agent) and \$29,000.00 (without a Qualified Purchasing Agent), respectively. The law regulating bidding for public school student transportation contracts under N.J.S.A. 18A:39-3 is currently \$18,800 for 2015-16.

The Board of Education has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Solicitor's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Our tests did not reveal any instances of individual payments, contracts or agreements for the performance of work or the provision of goods or services in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A. 18A:18A-4, amended.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 18A:18A-5.

The system of records did not provide for an accumulation of purchases for which the school board used contracts entered into by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained.

The results of the audit indicated that the existing procurement policies and procedures were generally adequate to identify contemplated purchases that required additional procedures (quotes, bids, etc.) to comply with the provisions of the School Contracts Law, and no instances of non-compliance were identified by the audit.

School Food Service Fund

The school food service program was not selected as a major federal or state program. Furthermore, the program expenditures did not exceed \$100,000 in federal support. The financial transactions and statistical records of the school food services were reviewed. The financial accounts, meal count records and eligibility applications were reviewed on a test check basis. The Mountainside School District is a participant in the National School Lunch Program.

School Food Service Fund (Cont'd.)

The number of meals claimed for reimbursement was verified against sales and meal count records. Reimbursement vouchers were timely filed, and meals claimed were in agreement with meal count records.

Applications for free and reduced price meals were reviewed for completeness and accuracy. The number of free and reduced price meals claimed as served was compared to the number of valid applications on file, times the number of operating days, on a school by school basis.

The free and reduced price meal applications were reviewed for uniform administration throughout the school system. Required verification procedures for free and reduced price applications were reviewed for completeness and availability. No exceptions were noted.

Expenses consist of billings from a contractor engaged by the Board to administer the District's cafeteria operations plus additional costs for items such as repairs, which are paid directly by the District. All billings were fully itemized, and audit tests revealed no exceptions to the terms of the contract.

Amounts collected for food sales are deposited to a Board account. The appropriate revenue and expense records were maintained in order to substantiate the non-profit status of the school food service. Net cash resources did not exceed three months average expenditures.

Appropriate records were maintained to substantiate the non-profit status of the Food Service Fund. Net cash resources did not exceed three months average expenses.

U.S.D.A. commodities were received and separate inventory records were maintained by the contractor on a first-in, first-out basis.

We noted that the District has established an on-line prepayment system for its food service program and has acquired the requisite software to permit the tracking of account balances. However, the food management company (FMC) has not modified its monthly reporting to provide a tracking of monthly prepayment receipts, sales against these accounts, and proofs of the monthly balances (prepaid and overdrawn) reported by the software. We suggest that the FMC be contacted and that the necessary steps be taken to permit both the segregation of cash sales from prepayment transactions and a reporting of monthly prepayment account transactions and balances.

Exhibits reflecting Child Nutrition Program operations are included in the section entitled Enterprise Funds, Section G.

Student Activity Funds

Our audit of the student activity funds indicated that voucher systems were in use, and sincere efforts were made to obtain vendor affidavits in instances where amounts disbursed exceeded \$150. Managerial oversight of fund treasurers to ensure timely cash reconciliations and financial reporting was noted.

Scholarship Funds

The District reported three scholarship funds in 2015-16. One is accounted for as a nonexpendable trust and two are accounted for as expendable trusts. The District has the requisite documentation on hand to substantiate the accounting treatment afforded each scholarship fund. Due to the declining interest rate structure, the expendable balance of the nonexpendable trust is less than the annual scholarship awards. This fund requires that a principal balance of \$100,000 be maintained, and in no circumstance should awards be made that reduce the balance below this amount without an agreement from the grantor to change the provisions of the trust. The District has ceased to award scholarships from this fund pending the reestablishment of the non-expendable trust corpus.

Application for State School Aid (A.S.S.A.)

Our audit included a test of information reported in the October 15, 2015 Application for State School Aid (ASSA) for on-roll, private schools for the handicapped, low-income and bilingual. We also performed a review of District procedures relating to its completion. The information on the A.S.S.A. was compared to the district workpapers without exception. The information that was included on the workpapers was verified without exception. The results of our procedures are presented in the Schedule of Audited Enrollments.

The district maintained workpapers on the prescribed state forms or their equivalent.

The district has adequate written procedures for the recording of student enrollment data

Pupil Transportation

Our procedures included a test of on-roll status reported in the October 15, 2015 District Report of Resident Transported Students (DRTRS). The information that was included on the DRTRS was verified to the DRTRS Eligibility Summary Report with no exceptions noted. The results of our procedures are presented in the Schedule of Audited Enrollments. Our procedures also included a review of transportation related contracts and purchases.

The minutes indicate Board approvals of transportation contracts with both public and private providers. Our tests of the individual route contracts, which are required to be prepared on a state mandated form and maintained on file, revealed no exceptions.

General Fixed Asset Record

The District had an inventory and valuation of its general fixed assets taken as of June 30, 2012. However, the records presented failed to include values for District owned lands. Furthermore, the building cost values included in the inventory report were clearly understated, as amounts reported were less than the cost of improvements made to the buildings in the last 10 years. Accordingly, management determined that the prior inventory, from 2006, with adjustments, was the more appropriate and accurate record of the fixed assets of the District as of June 30, 2016. Management must either perform a verification of the assets included on the adjusted 2006 inventory or contract for a new inventory and valuation of its capital assets to be performed during 2016-17, as the accuracy of the old inventory becomes suspect over time absent significant entries to retire assets whose estimated useful lives have been exceeded. Furthermore, the costs of the ongoing capital improvement program must be aggregated by school and project to permit the timely additions to capital asset accounts. Cost incurred for uncompleted projects should be recorded in a separate "Construction in Progress" account until each project or phase of a project is completed and placed into service.

SUMMARY OF RECOMMENDATIONS

None

Status of Prior Year Findings:

Not Applicable

ACKNOWLEDGMENT

During the course of our audit, we received the complete cooperation of all the officials of the school district, and we greatly appreciate the courtesies extended to us.

Respectfully submitted,

EXCESS SURPLUS CALCULATION

SECTION 1 - REGULAR DISTRICT

A. 2% Calculation of Excess Surplus

2015-2016 Total General Fund Expenditures per the CAFR "C-1"	\$ <u>16,859,696.58</u> (B)
Increased by Applicable Operating Transfers:	
Transfer from Capital Outlay to Capital Projects Fund	\$ <u>0.00</u> (B1a)
Transfer from Capital Reserve to Capital Projects Fund	\$ <u>0.00</u> (B1b)
Transfer from General Fund to SFR for Pre-K Regular	\$ <u>0.00</u> (B1c)
Transfer from General Fund to SFR for Pre-K Inclusion	\$ <u>0.00</u> (B1d)
Decreased by:	
On-Behalf TPAF Pension & Social Security	\$ <u>1,146,414.41</u> (B2a)
Assets Acquired Under Capital Leases	\$ <u>0.00</u> (B2b)
Adjusted 2015-16 General Fund Expenditures [(B)+(B1s)-B2s)]	<u>15,713,282.17</u> (B3)
2% of Adjusted 2015-2016 General Fund Expenditures [(B3) times .02]	\$ <u>314,265.64</u> (B4)
Enter Greater of (B4) or \$250,000	\$ <u>314,265.64</u> (B5)
Increased by: Allowable Adjustment*	\$ <u>70,153.00</u> (K)
Maximum Unassigned/Undesignated-Unreserved Fund Balance [(B5)+(K)]	\$ <u>384,418.64</u> (M)

SECTION 2

Total General Fund - Fund Balances @ 6/30/16 (Per CAFR Budgetary Comparison schedule/statement)	\$ <u>1,918,071.53</u> (C)
Decreased by:	
Reserve for Encumbrances	\$ <u>25,178.11</u> (C1)
Legally Restricted -Designated for Subsequent Year's Expenditures	\$ _____ (C2)
Excess Surplus - Designated for Subsequent Year's Expenditures **	\$ <u>253,165.05</u> (C3)
Other Reserved Fund Balances****	\$ <u>1,014,298.00</u> (C4)
Assigned Unreserved Fund Balance - Designated for Subsequent Year's Expenditures	\$ <u>192,419.95</u> (C5)
Total Unreserved/Undesignated Fund Balance [(C)-(C1)-(C2)-(C3)-(C4)-(C5)]	\$ <u>433,010.42</u> (U1)

SECTION 3

Restricted Fund Balance-Excess Surplus ***((U1-(M)) If negative enter -0- <u>Recapitulation of Excess Surplus as of June 30, 2016</u>	\$ <u>48,591.78</u> (E)
Reserved Excess Surplus-Designated for Subsequent Year's Expenditures**	\$ <u>253,165.05</u> (C3)
Reserved Excess Surplus*** (E)	\$ <u>48,591.78</u> (E)
Total Excess Surplus [(C3) +(E)]	\$ <u>301,756.83</u> (D)

Footnotes:

*Allowable adjustment to expenditures on line K must be as follows. This adjustment line (as detailed below) is to be utilized when applicable for:

(H) Federal Impact Aid. The passage of P.L. 2015, c. 46 amended NJSA 18A:7F-41 to permit a board of education to appropriate federal impact aid funds to establish or supplement a federal impact aid legal reserve in the general fund. Accordingly, for the year ending June 30, 2015, the Federal Impact Aid adjustment to expenditures is limited to the portion of Federal Impact Aid Section 8002 and 8003 received during the fiscal year and recognized as revenue on the General Fund Budgetary Comparison Schedule, but not transferred to the Federal Impact Aid Reserve-General (8002 or 8003) by Board resolution during June of the fiscal year under audit. Amounts transferred to the reserve are captured on line (C4).

(I) Sale and Leaseback (Refer to audit Program Section II, Chapter 10)

(J1) Extraordinary Aid

(J2) Additional Nonpublic School Transportation Aid

(J3) Recognized current year School Bus Advertising Revenue, and

(J4) Family Crisis Transportation Aid

Notes to auditor: Refer to audit Program Section II, Chapter 10 for restrictions on the inclusion of Extraordinary Aid, Family Crisis Transportation Aid, and Additional Non public School Transportation Aid

Detail of Allowable Adjustments

Impact Aid	\$ _____	(H)
Sale & Lease-back	\$ _____	(I)
Extraordinary Aid	\$ 52,029.00	(J1)
Additional Nonpublic School Transportation Aid	\$ 18,124.00	(J2)
Current year School Bus Advertising Rev. Recognized	\$ 0.00	(J3)
Family Crisis Transportation Aid	\$ _____	(J4)
Total Adjustments [(H)+(I)+(J1)+(J2)+(J3)]	\$ 70,153.00	(K)

** This amount represents the June 30, 2015 Excess Surplus (C3 above) and must be included in the Audit Summary Worksheet Line 90031.

*** Amount must agree to the June 30, 2015 CAFR and must agree to Audit Summary Worksheet Line 90030.

**** Amount for Other Reserved Fund Balances must be detailed for each source. Use in the excess surplus calculation of any legal reserve that is not state mandated or that is not legally imposed by any other type of government, such as the judicial branch of government, must have Departmental approval. District requests should be submitted to the Division of Finance prior to September 30.
