Honorable President and
Members of the Board of Education
Alloway Township School District
43 Cedar Street
Alloway, New Jersey 08001

Dear Board Members:

The comprehensive annual financial report of the Alloway Township School District for the fiscal year ending June 30, 2017, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart, and a list of principal officials. The financial section includes the independent auditor's report, MD&A, and the basic financial statements including the district-wide statements, fund statements, notes to the financial statements, required supplementary information, other than MD&A, including budgetary comparison schedules, and other supplementary information. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The Alloway Township School District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, "Audits of State and Local Governments," and the New Jersey OMB's Circular Letter 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid Payments." Information related to this single audit, including the auditor's reports on the internal control and compliance with applicable laws and regulations and findings and recommendations, if any, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES

The Alloway Township Board of Education and its one school (grades pre-K to 8), constitute the District's reporting entity. We completed the 2016-2017 school year with an average daily enrollment of 375, which is a slight decrease over the previous year.

2) ECONOMIC CONDITIONS AND OUTLOOK

Alloway Township encompasses thirty-four square miles, and is experiencing a period of low growth due to lack of jobs in the surrounding area, which is expected to continue with two results: 1) an increased tax base, and 2) a loss of land and the rural aspect, of which Alloway Township is famous. The above figures continue to reflect the economic condition of Alloway.

3) MAJOR INITIATIVES

Alloway Township values its unique heritage and is making revisions in an effort to increase student achievement. Alloway Township School District continues to support quality educational opportunities for all students in a changing community and world. Staff members are committed to provide excellent instruction to prepare our students for their place in the global economy of the 21st century. Curriculum renewal, quality staff development and implementation of best practices of instruction are in place for the upcoming school year. Reflecting on community responses to our survey, we are focusing on excellence for all students in an effort to increase number of students scoring in the Advanced Proficient category on the PARCC Assessment.

Major initiatives in the district focus on improving teacher practice and evaluation, and curriculum renewal. These initiatives include:

- * Implementation of an in-class support special education program at the lower levels.
- * Enhancement of a balanced literacy program including guided reading and Lucy Calkins writing program.
- * Use of PLC's to complete data analysis, determine needed curricular revisions, and enhance professional development.

Beside the traditional courses of study, our students are offered advanced mathematics in grades 7 and 8. We are able to offer two instructional periods of Spanish to 7th & 8th grade students on site by a certified World Language teacher. Our guided reading program is being expanded to include more resources that coordinate with our basic skills and response to intervention program.

Community and parental involvement are crucial to the success of our public schools. There are many opportunities available to parents, grandparents, and community members to be active participants in the daily activities of the school. Classroom teachers welcome volunteers to assist classroom activities. Volunteers are also invited to read a favorite book, share their occupation, and/or travel experiences with our students. Parent nights, special programs, and involvement in the Parent-Teacher Association are some other avenues for participation.

Alloway Township residents have been very supportive of advancing education for their young people. The community has provided support through a variety of means, not the least of which is our PTA which continually funds programs and activities for our children that would not otherwise be possible. The following Mission Statement was developed to guide school personnel, the community and Board of Education in making educational decisions:

3) MAJOR INITIATIVES (CONTINUED)

The Mission of the Alloway Township School District is:

- * To provide all students with an equal opportunity to achieve excellence and reach their full potential as lifelong learners.
- * To enable students to meet challenges with courage, conviction, and confidence.
- * To expect that all students shall master the skills stipulated in the New Jersey Student Learning Standards at all grade levels.
- * To provide quality programs through the dedication of committed, skilled teachers and administrators.
- * To maintain a staff of professional educators that supports the New Jersey Student Learning Standards and the New Jersey Standards for Professional Development.
- * To work collaboratively with parents to ensure a safe, orderly, caring, and supportive community for learning.

4) INTERNAL ACCOUNTING CONTROLS

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of the financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As a part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by voters of the municipality. Annual appropriated budgets are adopted for the General Fund, the Special Revenue Fund, and the Debt Service

Fund. Project-length budgets, though not applicable, would be approved for the capital improvements accounted for in the Capital Projects Fund. The final budget amount for the fiscal year is reflected in the financial section.

5) BUDGETARY CONTROLS (CONTINUED)

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of the fund balance at year-end.

6) ACCOUNTING SYSTEM AND REPORTS

The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds and account groups which are converted from governmental fund balances to net assets.

7) DEBT ADMINISTRATION

At June 30, 2017, the District's outstanding debt issues included \$1,645,000 of general obligation bonds. In October 2014, the District issued refunding obligation bonds of 2014 in the amount of \$2,075,000. The proceeds of this bond issue were placed in the District's Capital Projects Fund for use to provide capital improvements to the District's buildings and grounds. These improvements include construction of an addition to the existing school building, upgrades and renovations to existing areas, air conditioning of existing rooms, and the acquisition of school furniture and other equipment as necessary.

8) CASH MANAGEMENT

The investment policy of the District is guided in large part by the state statutes as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT

The Board carries various forms of insurance, including but not limited to general liability, automobile liability, comprehensive/collision, hazard and theft insurance on property and contents, school board liability, workmen's compensation, and fidelity bonds.

10) OTHER INFORMATION

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Petroni & Associates LLC, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1996, and the revised *Uniform Administrative Requirements, Costs Principles, Audit Requirements for Federal Awards (Uniform Guidance)*, and New Jersey OMB's Circular 15-08. The auditor's report on the basic financial statements is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGMENTS

We would like to express our appreciation to the members of the Alloway Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Alloway Township School District
43 Cedar Street
Alloway, New Jersey 08001

Report on the Financial Statements

We have audited the accompanying financial statements of the Governmental Activities, the Business-type Activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Alloway Township School District, in the County of Salem, State of New Jersey, as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the, Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the district's internal control. Accordingly, we express no such opinion. An audit also includes

evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Governmental Activities, the Business-type Activities, each major fund, and the aggregate remaining fund information of the Board of Education, Alloway, New Jersey, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Alloway Township Board of Education's basic financial statements. The combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulation (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, Audit Requirements for Federal Awards (Uniform Guidance)*, and the schedule of state financial assistance as required by NJ OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal and state awards, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial

statements, schedule of expenditures of federal awards, as required Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, Audit Requirements for Federal Awards (Uniform Guidance)*, and the schedule of state financial assistance as required by NJ OMB's Circular 15-08 *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2017, on our consideration of the Alloway Township Board of Education's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* in considering Alloway Township Board of Education's internal control over financial reporting and compliance.

**Alloway Township School District
Management's Discussion & Analysis
Fiscal Year Ended June 30, 2017
Unaudited**

This section of the Alloway Township School District's Comprehensive Annual Financial Report presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2017. Please read it in conjunction with the transmittal letter at the beginning of this report and the District's financial statement.

Overview of the Financial Statements

This annual report consists of three parts: Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term and long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the District-wide statements.
- The *governmental funds statements* tell how *basic services* such as regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds statements* offer *short-term and long-term* financial information about activities the District operates *like business*.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 below summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of Management's Discussion and Analysis highlights the structure and contents of each of the statements.

District-wide Financial Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net position* and how they have changed. Net position - the difference between the District's assets and liabilities - are one way to measure the District's overall financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

In the District-wide financial statements, the District's activities are divided into two categories:

- **Governmental Activities** - Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state aid finance most of these activities.
- **Business-type Activities** - The District charges fees to help it cover the costs of certain services it provides. The District's food service program and SACC program would be included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, (such as repaying its long-term debts or completing approved capital projects) or to show that it is properly using certain revenues (such as federal grants).

The District has four kinds of funds:

- **Governmental Funds** - Most of the District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out; and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.

Fund Financial Statements (Continued)

- **Proprietary Funds** - Services for which the District charges a fee are generally reported in Proprietary Funds. Proprietary Funds are reported in the same way as the District-wide statements. In fact, the District's *Enterprise Funds* (one type of Proprietary Fund) are the same as its Business-type Activities, but provide more detail and additional information, such as cash flow.
- **Internal Service Funds** - (the other kind of Proprietary Fund) are optional and utilized to report activities that provide supplies and services for other District programs and activities and for other Districts. The District currently has Internal Service Funds for shared business services, child study team services and shared superintendent services.
- **Fiduciary Funds** - The District is the trustee, or *fiduciary*, for assets that belong to others, such as the Student Activity Fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

Governmental Activities

Revenues for governmental activities were \$9,333,381, while total expenses amounted to \$9,282,223 and a transfer of \$29,000 to food service (See Exhibit A-2). This resulted in an increase in net position in Governmental Activities of \$22,158 compared to (\$39,874) for 2016.

Overall, the District's financial position can be credited to increased revenue and controlling expenses due to the impending state budget crisis, and the District securing grants to supplement local and state funding.

Business-type Activities

Revenues of the District's Business-type Activities (food and nutrition services and after school child care) were comprised of charges for services, federal and state reimbursements, and investment earnings:

- Business-type Activities revenues exceeded expenditures by \$15,282.
- Charges for services represent \$144,171 of revenue. This represents amounts paid by patrons.
- Federal and state reimbursements include payments for free & reduced lunches and special milk and donated commodities were \$44,488.

Financial Analysis of the District's Funds

Fund balance had an increase of \$137,220 over the prior year.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into two categories:

- Transfers of available funds into the capital account.
- Transfers between budgetary line accounts to prevent overruns.

The District's final budget anticipated utilizing \$177,735 in fund balance, prior year encumbrances rolled forward to FY 2017 of \$39,996 decreased by a budgeted interest on capital reserve of \$2,000 for this fiscal period. <p>Capital outlays are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.</p>

NOTES TO FINANCIAL STATEMENTS

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

The Alloway Township School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials who are responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education of Alloway Township School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB).

The more significant accounting policies established in (GAAP) and used by the District are discussed below.

A. Reporting Entity

The Alloway Township School District is a Type II District located in the County of Salem, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in grades K-8.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's Board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

B. Government-wide Statements

The School District's basic financial statements include both Government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds.) Both the Government-wide and fund financial statements categorize primary activities as either Governmental or Business-type. The District's general, special revenue, capital projects, and debt service are classified as Governmental Activities. The District's food service and childcare programs are classified as Business-type Activities.

In the Government-wide Statement of Net Position, both the Governmental and Business-type Activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis which recognizes all long-term assets and receivables

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide Statements (Continued)

as well as long-term debt and obligations. The District's net position are reported in three parts: invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

The Government-wide Statement of Activities reports both the gross and net costs of each of the District's functions and Business-type Activities (food service and childcare). The functions are also supported by general government revenues (property taxes, tuition, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenue, operating, and capital grants. Program revenues must be directly associated with the function (regular instruction, vocational programs, student and instruction related services, etc.) or Business-type Activities. Operating grants include operating specific and discretionary (either operating or capital) grants while the capital grants column reflects capital specific grants.

The net costs (by function or Business-type Activity) are normally covered by general revenue (property taxes, tuition, interest income, etc.).

The District does not allocate indirect costs such as depreciation expense, on-behalf of Teachers' Pensions and Annuity Fund (TPAF) Pension contributions, and TPAF Social Security Contributions.

The Government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. The Government-wide statements do not include fiduciary activity.

C. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The District reports the following Governmental Funds:

GOVERNMENTAL FUNDS

The focus of the Governmental Funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the Governmental Funds of the District.

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay Subfund.

As required by the New Jersey State Department of Education, the District included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Fund Financial Statements (Continued)

General Fund (Continued) - outlays for long-lived improvements, as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes, and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings, and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from state and federal governments, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

PROPRIETARY FUNDS

The focus of the Proprietary Funds measurement is upon the determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to business in the private sector. The following are descriptions of the Proprietary Funds of the District:

Enterprise Funds - The Enterprise Funds account for all revenues and expenses pertaining to the Board's operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods or services on a continuing basis are financed or recovered primarily through user charges.

The District's Enterprise Funds are comprised of the Food Service Fund and Child Care.

Internal Service Fund - The Internal Service Fund accounts for the financing of services provided by one department to other departments of the School District, or to other governments on a cost-reimbursement basis.

FIDUCIARY FUNDS

Fiduciary Funds are used to report assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governments and therefore not available to support District programs. The reporting focus is on net position. Changes in net position are reported using accounting principles similar to Proprietary Funds.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**C. Fund Financial Statements (Continued)
FIDUCIARY FUNDS (CONTINUED)**

The emphasis in fund financial statements is on the major funds in either the Governmental or Business-type Activities categories. Non-major funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements.

The District's Fiduciary Funds are presented in the fiduciary fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the Government-wide statements.

The Fiduciary Funds include Student Activity Fund, Payroll, and Payroll Agency Funds which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported on the financial statements. It also related to the timing of the measurement made regardless of the measurement focus applied.

Both Governmental and Business-type Activities in the Government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The Governmental Funds financial statements are reported on the modified accrual basis of accounting. Under this method, revenues are recorded when they become both susceptible to accrual; i.e. both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, claims, and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Proceeds of general obligation long-term debt, if any, is recognized when due.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Cash and Cash Equivalents

Cash and cash equivalents include petty cash, change funds, cash in banks, money market accounts, and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury agency obligations and

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Cash and Cash Equivalents (Continued)

certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

For purposes of determining cash equivalents, the District considers all investments with an original maturity of three months or less as cash equivalents.

New Jersey School Districts are limited to the types of investments and types of financial institutions they may invest in. New Jersey statute (NJSA 18A:20-37) provides a list of permissible investments that may be purchased by New Jersey School Districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

NJSA 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks), and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least 5% of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

F. Inventories

Inventories in the General Fund consist of expendable supplies held for the District's use and are carried at cost using first-in first-out method. Inventories in the Enterprise Fund are valued at cost, which approximates market, using first-in, first-out method. Inventory in the Food Service Fund at June 30, 2017, consisted of the following:

Food - commodities	\$ 1,405
Food	296
	<u>\$ 1,701</u>

The value of federal donated commodities are reflected in Schedule A (required by Single Audit Law of 1984) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

G. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical costs or estimated historical cost. Donated capital assets are valued at their estimated fair market value on the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is computed using the straight-line method over the estimated useful lives:

G. Capital Assets (Continued)

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Site improvements	15-20
Building & improvements	20-50
Machinery & equipment	5-20

GASB No. 34 requires the District to report and depreciate new infrastructure assets. Infrastructure assets include roads, parking lots, underground pipe, etc. Neither their historical costs nor related depreciation has historically been reported in the financial statements. The District has included infrastructure assets in the current fiscal year.

H. Revenues

Substantially all Governmental Fund revenue is accrued. Property taxes are susceptible to accrual and under New Jersey state statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable." Subsidies and grants to Proprietary Funds, which finance either capital or current operations, are reported as non-operating revenue. In respect to grant revenues, the provider recognizes liabilities and expenses and recipient recognizes receivables and revenue when the applicable eligibility requirements, including requirements are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

I. Expenditures

Expenses are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

J. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted in the period in which such services are rendered or in which such events take place.

In Governmental Funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as expenditures and fund liability, in the fund, that will pay for the compensated absences. The remainder of the compensated absence liability is reported in the District-wide financial statements as a Governmental Activity.

In Proprietary and similar Trust Funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Interfund Receivables/Payables

Transfers between Governmental and Business-type Activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in Governmental Funds and after non-operating revenues/expenses in the enterprise fund. Repayment from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the Statement of Net Assets, except for amounts due between governmental and business-type activities or Governmental and Agency Funds, which are presented as internal balances.

L. Accrued Salaries and Wages

None of the School District's employees who provide services to the District over the ten month academic year have the option to have their salaries evenly disbursed during the entire twelve month year.

M. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budgets are submitted to the county office for approval and are approved as long as the District budget is within State mandated CAP's, there is no public vote on the budget. If the budget exceeds State mandated CAP's, the voters have an opportunity to approve or reject the budget at the regular election held in November. Budgets are prepared using the modified accrual basis of accounting, except for the Special Revenue Fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in NJAC 6:23-2(g). Budget amendments/transfers of appropriations must be made by School Board resolution at any time during the fiscal year and are subject to two-thirds majority vote by the School Board and under certain circumstances require approval by the County Superintendent of Schools. All budget amendments presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The Capital Projects Fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year-end.

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Budgets/Budgetary Control (Continued)

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grants accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

N. Encumbrances

Under encumbrance accounting purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in Governmental Funds, other than Special Revenue Fund, are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

O. Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

P. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, Governmental Fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources; are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from Governmental Funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Q. Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

S. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

T. Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

U. Fund Balance Reserves

Fund Balance - The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Non-spendable - The non-spendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other Governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

U. Fund Balance Reserves (Continued)

Assigned - The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the Business Administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes.

Unassigned - The unassigned fund balance classification is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both Restricted and Unrestricted Fund balances are available, the District considers Restricted Funds to have been spent first. When an expenditure is incurred for which Committed, Assigned, or Unassigned Fund balances are available, the District considers amounts to have been spent first out of Committed Funds, then Assigned Funds, and finally Unassigned Funds, as needed.

NOTE 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy is based on New Jersey statutes requiring cash to be deposited only in New Jersey banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA) or in qualified investments established in NJSA 18A:20-37 that are treated as cash equivalents. The carrying amount of the District's cash and cash equivalents at June 30, 2017 and 2016, was \$853,862 and \$716,200. As of June 30, 2017 and 2016, \$0 of the District's bank balance of \$924,612 and \$867,728, respectively, was exposed to Custodial Credit Risk.

NOTE 3: INVESTMENTS

As of June 30, 2017 and 2016, the District did not have any investments.

Interest Rate Risk - The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, NJSA 18A:20-37 limits the length of time for most investments to 397 days.

Credit Risk - NJSA 18A:20-37 limits District investments to those specified in the statutes. The type of allowable investments are: Bonds of the United States of America or of the District or the local units in which the District is located; obligations of federal agencies not exceeding 397 days; Government money market mutual funds; the State of New Jersey Cash Management Plan; local Government investment pools; or repurchase of fully collateralized securities.

A capital reserve account was established by the Board of Education by inclusion of \$5,000 on September 28, 2000, for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual

General Fund budget certified for taxes or by transfer by board resolution at year-end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to NJSA 19:60-2. Pursuant to NJAC 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The June 30, 2017, LRFP balance does not exceed the capital reserve balance.

Bonds Authorized But Not Issued

As of June 30, 2017, the Board has \$0 of bonds authorized but not issued.

Advanced Refunding

On October 16, 2014, the District issued Refunding School Bonds in the amount of \$2,075,000, with interest rates varying from 2% to 4% to advance refund the school bonds, term series 2005 in the amount of \$1,996,000, with interest rates varying from 4% to 4.25%. After paying issuance costs, the net proceeds were used to purchase U.S. Government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are called. The school bonds, term series 2005 were called for redemption on March 1, 2016. The advance refunding met the requirements for an in-substance debt defeasance and the bonds were removed from the District's financial statements. As a result of the advance refunding, the District recognized an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$107,798.

Other

Interest paid on debt issued by the District is exempt from federal income tax. Because of this, bond holders are willing to accept a lower interest rate than they would on taxable debt. The District temporarily reinvests the proceeds of such debt in higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this as arbitrage. Earnings in excess of the yield on the debt issue are rebated to the federal government based on the requirements in the Internal Revenue Code. Arbitrage rebate payable represents amounts due to the Internal Revenue Service for interest earned on unspent bond proceeds that exceeds legally allowable returns.

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 7: GENERAL LONG-TERM DEBT (CONTINUED)

Other (Continued)

Rebatable arbitrage liabilities related to District debt are not recorded in Governmental Funds. There is no recognition in the balance sheet or income statement until rebatable amounts are due and payable to the federal government. Thus, rebatable arbitrage liabilities, related to governmental debt, will be accrued as incurred at least annually (at fiscal year-end) on the District-wide financial statements.

For the year ended June 30, 2017, it is not necessary for the Board to establish a liability for arbitrage rebate.

Compensated absences are recorded as long-term liabilities due in more than one year.

NOTE 8: PENSION FUNDS/LIABILITY

The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provision are established by NJSA 43:15C-1 et seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, state statute also requires the return to the normal rate when such surplus pension assets no longer exist. In addition to the employee contributions, the School District's contributes amounts for each pay period to Prudential Financial, not later than the fifth business day after the date on which the employee is paid for that pay period. The School District's contributions for the years ending June 30, 2017, 2016, and 2015, were \$4,938, \$3,625, and \$5,177, for covered employees. NOTE 10: DEFERRED COMPENSATION

The Board offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Voya	Lincoln Investment Planning, Inc.
Equitable Life Insurance	MetLife

NOTE 11: POST-EMPLOYMENT BENEFITS

P.L. 1987, c.384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2016, there were 110,512 retirees receiving post-retirement medical benefits, and the State contributed \$1.37 billion on their behalf. The cost of these benefits is funded through contributions by the state in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The state is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The state paid \$231.2 million toward Chapter 126 benefits for 20,045 eligible retired members in Fiscal Year 2016.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained from the Treasury website at: <http://www.nj.gov/treasury/pensions/pdf/financial/2016divisioncombined.pdf>.

NOTE 12: COMPENSATED ABSENCES

The District accounts for compensated absences using the termination method (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits.

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 12: COMPENSATED ABSENCES (CONTINUED)

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. The District's policy permits employees to accumulate sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with District's agreements with the various employee unions. The District uses the vesting method to record the liability.

For the District-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components; (1) the amount due within one year and (2) the amount due in more than one year. The liability for compensated absences in the Governmental Fund at June 30, 2017, is \$114,823. The liability for compensated absences in the Food Service Fund at June 30, 2017, is \$4,050.

NOTE 13: EMPLOYEE BENEFITS

The District established and maintains a cafeteria plan for health benefits required by NJSA 18A:16-19.1 as amended by P.L. 2011, c.78, s.51. The District entered into a pre-tax benefits plan with AFLAC. The medical care reimbursement plan maximum amount for tenured staff as of July 1, 2011, was \$1,000 and \$525 for non-tenured staff.

NOTE 14: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance:

The District maintains commercial insurance coverage for property, liability, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section (Exhibit J-20) of this Comprehensive Annual Financial Report. During the fiscal year ended June 30, 2017, the District did not incur claims in excess of their coverage.

The District is a member of the New Jersey School Boards Association Insurance Group - ERIC – South. The purpose of this is to permit member Boards of Education to make use of their powers and resources by cooperating on a basis that will be of mutual advantage and to provide a procedure for development, administration, and provision of Risk Management Programs, a Joint Self Insurance Fund, Joint Insurance Purchases and related services for members and their employees for the following:

- Worker's Compensation and Employers Liability
- Automobile and Equipment Liability
- General Liability and Property Damage
- School Board Legal Liability
- Boiler and Machinery

NOTE 15: FUND BALANCE APPROPRIATED

Restrictions of fund balances of Governmental Funds are established to either (1) satisfy legal covenants that require a portion of the fund balance to be segregated or (2) identify the portion of the fund balance that is not appropriate for future expenditures.

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 15: FUND BALANCE APPROPRIATED (CONTINUED)

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available, unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District does not have a formal fund balance spending policy therefore the default spending order requires committed, assigned, and then unassigned to be used/spent first when expenditures are made.

The District follows the State of New Jersey's minimum fund balance policy for New Jersey Public School Districts (NJSA 18A:7F-7). Pursuant to that policy, an undesignated fund balance of 2% of the General Fund budget or \$250,000, whichever is greater may be maintained.

Specific classifications of fund balance are summarized below:

Non-Spendable Fund Balance - The District had no non-spendable fund balance at June 30, 2017.

Restricted Fund Balance:

Capital Reserve Account - Of the \$547,726 balance in the capital reserve account at June 30, 2017, \$0 has been designated for utilization in the 2017-2018 budget. These funds are restricted for future capital outlay expenditures for projects in the School District's long range facilities plan.

Maintenance Reserve Account - The District had no maintenance reserve account at June 30, 2017. These funds are restricted for required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (NJSA 18A:7G-9) as amended by P.L. 2004, c.73 (S1701).

Excess Surplus - At June 30, 2017, excess surplus created in FY 2016 of \$170,692 will be utilized for expenditures in the 2017-2018 budget, while excess surplus created in FY 2017 of \$233,315 is restricted and will be utilized for budget expenditures in 2018-2019.

Debt Service Fund - At June 30, 2017, there was \$1 fund balance, \$0 will be utilized for expenditures in the 2017-2018 budget.

Committed Fund Balance - The District had no committed fund balance at June 30, 2017.

Assigned Fund Balance - At June 30, 2017, the District has assigned \$107,402 of general fund balance to expenditures in the 2017-2018 budget.

Unassigned Fund Balance - At June 30, 2017, the District has (\$929) of unassigned fund balance in the General Fund.

NOTE 16: CALCULATION OF EXCESS SURPLUS

The designation of Reserve Fund Balance - Excess surplus is a required calculation pursuant NJSA 18A:7F-7, as amended. New Jersey School Districts are required to reserve General Fund, fund balance at the fiscal year-end of June 30 if they did not appropriate a required

minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2017, is \$404,007.

NOTE 17: DEFICIT FUND BALANCES

The District has a deficit fund balance of \$929 (Exhibit B-1) in the General Fund as of June 30, 2017, as reported in the fund statements (modified accrual basis). NJSA 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, Districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one Government recognizes an asset, the other Government recognizes a liability.

Since the state is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payments on the GAAP financial statements until the year the state records the payable. Due to the timing difference of recording the last state aid payments, the General Fund balance deficit does not alone indicate that the District is facing financial difficulties.

Pursuant to NJSA 18A:22-44.2, any negative unassigned general fund balance that is reported as a direct result from a delay in the June payment(s) of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The District deficit in the GAAP statements of \$929 is less than the last state aid payments.

NOTE 18: ECONOMIC DEPENDENCY

The District is heavily reliant on state aid and local tax levy to fund the District operations. State sources funded approximately 51% of the District's 2016-2017 Governmental Fund revenue, while local tax levy accounted for approximately 45%.

NOTE 19: OPERATING LEASES

The District has commitments to lease copy machines under non-cancelable operating leases spanning 48 months. Monthly payments range from \$92-\$473 a month per machine. Total lease payments made during the year ended June 30, 2017, amounted to \$9,283. Future minimum lease payments are as follows:

June 30,	Amount
2018	\$ 6,783
2019	6,783
2020	565
	\$ 14,131

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 20: INTERFUND RECEIVABLES AND PAYABLES

There were no interfund balances remaining on the balance sheet at June 30, 2017.

NOTE 21: COMMITMENTS AND CONTINGENCIES

The School District participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The School District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures. It is the opinion of the administration and legal counsels, that there exists no litigation or contingent liability that may be pending against the Alloway Township School District that would have a material or adverse effect on the Board or the financial position of the District.

NOTE 22: TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because NJSA 54:4-75 and NJSA 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district Board of Education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at NJSA 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Township of Alloway did not have any tax abatements for the year ended December 31, 2016.

NOTE 23: SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2017 and November 6, 2017, the date that the financial statements were issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

The data in the above schedule represents the allocation of the State of New Jersey's obligation on behalf of the District.

The Teachers' Pension and Annuity Fund (TPAF) On-behalf Payments is a Cost Sharing, Multi-Employer Defined Benefit Plan with a Special Funding Situation – 100% Legal Obligation of the State of New Jersey (State).

Since the State is the only entity with a legal obligation, the District's proportionate share percentage determined under paragraph 48 of GASB No. 68 is zero percent. Accordingly, the District did not recognize any portion of the TPAF collective net pension liability on the Statement of Net Position (A-1). Also on the A-1, and for the same reasons, the District did not recognize any portion of TPAF collective deferred outflows of resources and TPAF deferred inflows of resources.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - PART III

**ALLOWAY TOWNSHIP SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2017**

NOTE 1: CONTRIBUTIONS

The contribution policy for PERS is set by NJSA 15A and requires contributions by active members and contributing employers. The District's contribution amount was based on an actuarially determined rate which includes the normal cost and unfunded accrued liability.

NOTE 2: ACTUARIAL ASSUMPTIONS

The total pension liability for the June 30, 2016, measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. The total pension liability for the June 30, 2015, measurement date was determined by an actuarial valuation as of July 1, 2015. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	3.08%
Salary increases:	
Through 2026	1.65 – 4.15% based on age
Thereafter	2.65 – 5.15% based on age
Investment rate of return	7.65%

Pre-Retirement mortality rates were based on the RP-2000 Employee Pre-Retirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pension and Benefits financial report at: <http://www.nj.gov/treasury/pensions/employer-home.shtml>.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

The Honorable President and
Members of the Board of Education
Alloway Township School District
43 Cedar Street
Alloway, New Jersey 08001

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the Governmental Activities, the Business-type Activities, each major fund, and the aggregate remaining fund information of the Alloway Township School District, in the County of Salem, State of New Jersey, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Alloway Township School District's basic financial statements, and have issued our report thereon dated November 6, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Alloway Township School District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Alloway Township School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a

combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

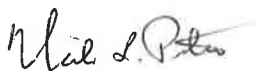

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Alloway Township School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey as item 2017-001.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable President and Members
of the Board of Education
Alloway Township School District
43 Cedar Street
Alloway, New Jersey 08001

Report on Compliance for Each Major State Program

We have audited the Alloway Township School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Alloway Township School District's major state programs for the year ended June 30, 2017. The Alloway Township School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Alloway Township School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), *New Jersey State Aid/Grant Compliance Supplement*, *Audits of States, Local Governments, and Non-Profit Organizations* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal

Grants, State Grants, and State Aid. Those standards, the Uniform Guidance and New Jersey OMB's Circular 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Alloway Township School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Alloway Township School District's compliance.

Opinion on Each Major State Program

In our opinion, the Alloway Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the Alloway Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Alloway Township School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with Uniform Guidance and New Jersey OMB's Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Alloway Township School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey OMB's Circular 15-08. Accordingly, this report is not suitable for any other purpose.

**Report on Schedules of Expenditures of Federal Awards and State Financial Assistance
Required by Uniform Guidance and New Jersey OMB's Circular 15-08**

We have audited the financial statements Alloway Township School District as of and for the year ended June 30, 2017, and have issued our report thereon dated November 6, 2017, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by Uniform Guidance and New Jersey OMB's Circular 15-08 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and state financial assistance is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1: GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include federal and state activity of the Board of Education, Alloway Township School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, is included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Awards and Financial Assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements 2 CFR 200-*Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards*, New Jersey OMB's Circular 15-08, *Audits of States, Local Governments, and Non-Profit Organizations* and the *New Jersey State Aid/Grant Compliance Supplement*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to NJSA 18A:22-44-.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The Special Revenue Fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes one or more June state aid payments in the current budget year, consistent with NJSA 18A:22-4-.2.
