ISLAND HEIGHTS BOARD OF EDUCATION

November 13, 2017

Honorable President and Members of the Board of Education Island Heights School District County of Ocean Island Heights, NJ 08732

Dear Board Members:

The comprehensive annual financial report of the Island Heights School District for the fiscal year ended June 30, 2017 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Island Heights Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present the financial position and results of operations of the various funds and account groups of the Island Heights school district. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

The comprehensive annual financial report is presented in four sections. These are:

Introductory Financial Statistical Single audit

The introductory section includes this transmittal letter, the district's organizational chart and a list of principal officials. The financial section includes the general-purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented in multi-year basis.

The district is required to undergo an annual single audit in conformity with the provisions of "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to the single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. Reporting Entity and Its Services:

The Island Heights School District is an independent reporting entity within the criteria adopted by the GASB, as established by NCGA Statement No. 3. All funds and account groups of the district are included in this report. The Island Heights Board of Education and the Island Heights Grade School constitute the district's reporting entity.

The Island Heights School District provides a full range of educational services and programs, which are appropriate for grades Kindergarten through Grade Six. These services and programs include regular, as well as, special education for handicapped pupils. The district completed the 2016-17 fiscal year with an enrollment

of 126 pupils housed in the Island Heights Grade School, and 2 pupil enrolled in an out-of-district placement for special education pupils. The June 2017 enrollment was the same at 126 and 3 out of district as compared to the official data collected for the ASSA report submitted on October 15, 2017. The following enrollment information shows the enrollments recorded on the ASSA reports for each October 15th for the past five years.

Fiscal Year (as of 10/15)	•	
2016-17	126	+9%
2015-16	120	₩
2014-15	120	+9%
2013-14	109	-9%
2012-13	120	+9%

2. Economic Conditions and Outlook:

The Borough of Island Heights is limited in land for building purposes. The current land use in the 0.6 square mile borough is primarily for single-family residences. There are no subdivisions where new small businesses are being developed. Most of the remaining lots are suitable only for homes. Zoning in the borough of Island Heights prohibits multi-family dwellings. The population of the borough in 1990 was 1,750 and has only grown to 1751 as of the 2000 census. There are limited businesses in Island Heights and the majority of tax ratables are collected from the homeowners. As a result of the lack of employment in the borough of Island Heights, most wage earners living in Island Heights are employed outside of Island Heights. Because of the lack of business tax ratables, and the slow growth of new homes, the present trend of collecting most of the tax ratables from homeowners is expected to continue in the future.

3. Major Initiatives:

The Island Heights Grade School passed a referendum in March 2016 to renovate the grade school. The roof was completed in the summer of 2016. The main part of the renovation began in June 2017 which included new HVAC, new windows, new flooring, new interior doors, new generator and new bathrooms and will be completed in September 2017 in time for the beginning of school.

The Island Heights Grade School serves students with a full range of educational services for students in Kindergarten through sixth grade. The school is a true community school, rich in parent involvement. The school strives to provide the foundation of skills upon which children can build. Our students are provided with learning experiences, which stimulate logical and critical thinking, creativity, problem solving, decision making, and communication, mathematical skills, a love of the arts and a growing awareness of self and others. Island Heights Grade School is committed to continuous improvement, providing a learning environment, which promotes responsibility, self-reliance, confidence in oneself, good citizenship and a sense of community. Our programs enable students to reach their full potential, as they transition to middle school.

At our school we have 125 students, a staff of 14 full-time teachers and 4 part-time teachers and 2 paraprofessionals. We provide child study team services for students ages three through the sixth grade. Also, a full time counselor provides individual, small group and classroom lessons addressing topics such as character education and builtying. All of our students walk or are transported to school in a small, quaint and caring community.

Various afterschool activities are offered to the students in Island Heights Grade School. These programs are taught by talented staff members and are conducted before or after school. Examples of these activities include academic assistance program, robotics/lego Clubs, band, performing arts and visual arts clubs, running club and various seasonal sports activity clubs.

Island Heights also offers a SAIL program which serves our Gifted and Talented population as well as a STARS program which serves our students in need of Basic Skills instruction. We also offer lessons in STEAM

education to all grade levels in the areas of Science, Technology, Engineering, Arts and Mathematics. The staff at Island Heights is fully committed to offering an outstanding educational program to all of our students which instills a lifelong love of learning.

4. Internal Accounting Controls:

Management of the district is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The Island Heights Board of Education Business Administrator, Frank Frazee, has become fully trained in the GAAP procedures and has been the key person in establishing GAAP for the Island Heights Grade School.

The internal control structure is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurances recognizes that:

- A. The cost of a control should not exceed the benefits likely to be derived; and,
- B. The valuation of the costs and benefits requires estimated and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the district management.

Each year before September 30th, the Island Heights Grade School submits data and information to the Bureau of Child Nutrition Program, N.J. Department of Agriculture, Trenton, NJ, in the form of a school nutrition program agreement. For the past five years, our agreements have been approved. We are currently waiting approval for the current school year.

The internal operation of the school lunch program was monitored during the 2011-12 school year. No recommendations were made, with which we have complied. In 2004-05 the IASA Consolidated Grant became known as the NCLB (No Child Left Behind) Grant. The district filed the application for the IDEA Grant and the grant was awarded to the district. Title I funds were issued to the district in the 2015-16 school year.

As a part of the district's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

5. Budgetary Controls:

In addition to internal accounting controls, the district maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the borough of Island Heights. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects funds. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance account system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance as of June 30th each year.

6. Accounting System and Reports:

The district's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the district is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7. Debt Administration

On June 30, 2017, the district had an outstanding debt of \$353,000 from bonds issued in May 2003. These bonds will be fully paid in May 2022. The district also has new debt outstanding of \$2,992,000 which was issued in June 2016 and will be fully paid in June 2037.

The investment policy of the district is guided in large part by State of New Jersey statutes as detailed in "Notes to the Financial Statements", Note 2. The district has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the governmental unit deposit protection act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the act.

8. Risk Management:

The Board of Bducation carries various forms of insurance, including, but not limited to, general liability, hazard and theft insurance on property and contents, and fidelity bonds.

9. Other Information:

Independent Audit: The State of New Jersey statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Robert A. Hulsart & Co., CPAs, was selected by the Island Heights Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also is designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements and New Jersey OMB Circular 15-08. The auditor's report on the general-purpose financial statements and combining individual fund statements and schedules is included in the financial section of this report. The auditor's reports relate specifically to the single audit and are included in the single audit section of this report.

10. Acknowledgments:

We would like to express our appreciation to the members of the Island Heights Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our staff.

Respectfully submitted,

Tirnothy Rehm Superintendent Frank J. Frazee, CPA Business Administrator

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Island Heights School District County of Ocean Island Heights, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Island Heights School District, in the County of Ocean, State of New Jersey, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Island Heights School District, in the County of Ocean, State of New Jersey, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standard generally accepted in the United States of America. In our opinion, the accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirement for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 13, 2017 on our consideration of the Island Heights's Board of Education internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Island Heights Board of Education's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION PART I

ISLAND HEIGHTS BOARD OF EDUCATION ISLAND HEIGHTS, NEW JERSEY MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

The discussion and analysis of the Island Heights Board of Education District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

The overall condition of all funds, instructional activities and business-type activities remains strong for the School District. All goals related to financial activities have been met and if revenue and expenditure patterns can be maintained, the resources for next year will be available.

Total spending for all our programs was \$2,675,278 for the school year 2016-17. Most of the School District's taxes and state aid programs funds were used to support the cost of services for regular instructional programs. State and federal aid in the amount of \$575,204 supported educational programs and the school district's taxes, grants and contributions were sufficient to cover all unfounded costs incurred in the school year 2016-17.

The total cost for the school year 2016-17 for current expense was \$2,454,590 which was an increase of \$270,397.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Island Heights Board of Education as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The funds financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Island Heights Board of Education, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

State of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2017?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets and liabilities using the account basis of accounting similar to the accounting used by most private-sector business. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader that, for the school district as a whole, the financial position of the school district has improved or diminished. The causes of this change may be the results of many factors, some financial and some not. Non-financial factors include the school district's property tax base, current laws in New Jersey restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two district kinds of activities:

- Government activities All of the School District's programs and services are reported here including
 instruction, support services, operation and maintenance of plant facilities, pupil transportation and
 extracurricular activities.
- Business-Type Activity This service is provided on all charge for goods or services basis to recover all
 the expenses of the goods or services provided. The Food Service and Material for Resale enterprise
 funds are reported as business activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the District's funds. The District uses many funds to account for a multitude of financial transactions. The District's governmental funds are the General Fund, Special Revenue Fund and Capital Projects Fund.

Governmental Funds

The District's activities are reported in governmental funds, which focus on how money flow into and out of those funds and the balances left at year-end available for spending in future years. These funds are reported using an accounting method called modified accrual account, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The Enterprise Fund uses the same basis of account as business type activities; therefore these statements are essentially the same.

The School District as a Whole

Recall that the state of Net Position provides the perspective of the School district as a whole.

Table 1 provides a summary of the School District's net position for 2017 and 2016.

Table l Net Position

Increase/Decrease) in Net Position	<u>\$ (39,178</u>)	107,726

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students.

General administration, school administration and business include expenses associated with administrative and financial supervision of the district.

Operation and maintenance of facilities activities involve keeping the school grounds, building and equipment in an effective condition.

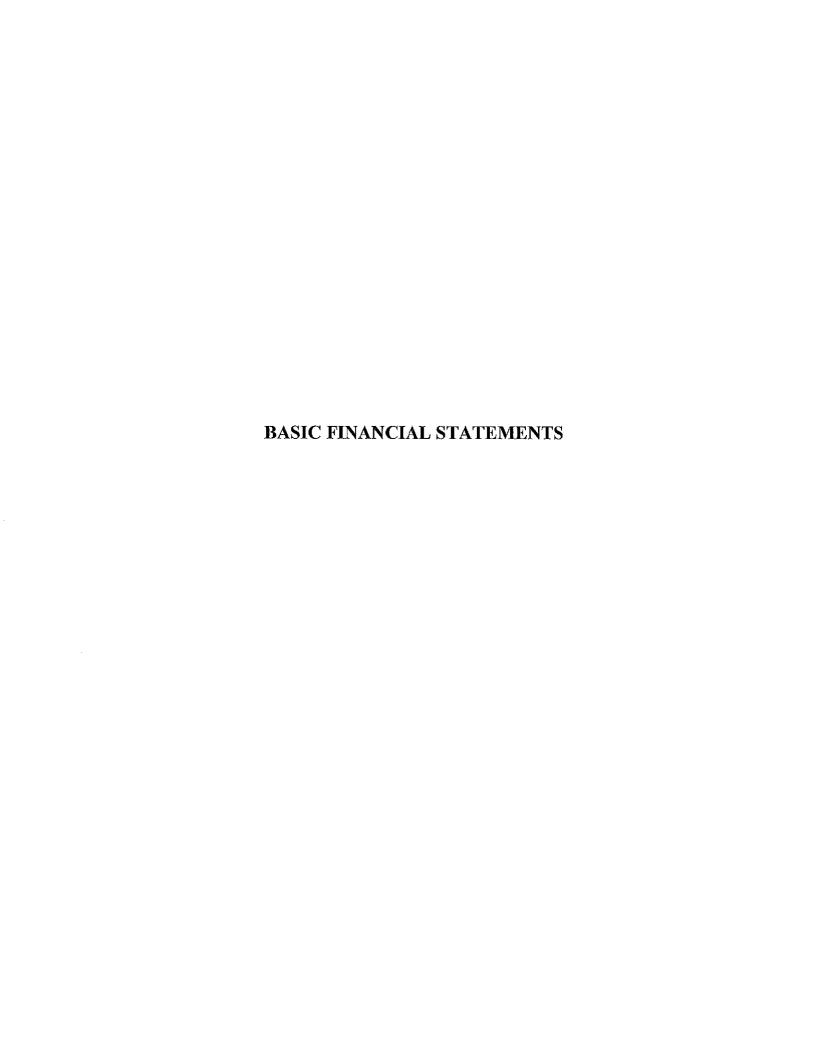

Analysis of Financial Position

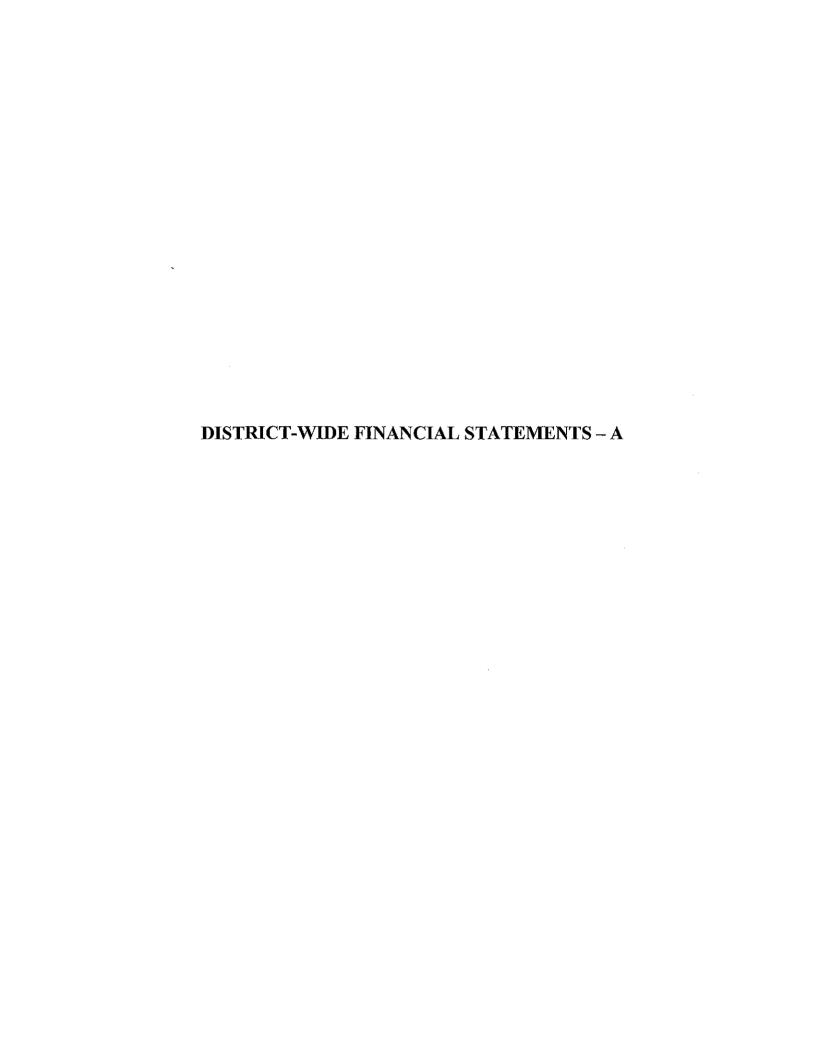

Depreciation expense GASB34 requires school districts for the first time to maintain a record of annual depreciation expense and accumulated depreciation. The net increase in accumulated depreciation expense is a reduction in net position. For fiscal year ended June 30, 2017 the net increase in accumulated depreciation was \$108,247. Depreciation expense is recorded on a straight-line basis over the estimated useful lives of assets. In accordance with generally accepted accounting principles (GAAP), depreciation expense is recorded based on the original cost of the asset less an estimated salvage value. One way to think of depreciation expense is that in order to maintain assets at the same level, acquisitions of capital outlay and capitalized major maintenance projects would have to equal the annual depreciation in assets during the year.

Student enrollment in the school district continues to increase which will continue to affect the district's future expenditures. Assessed valuations are continuing to grow, increasing the district's ability to maintain a stable tax rate.

The financial well being of the school district is tied in large measure to the state funding formula and the tax base. As long as the state fully funds state aid and the tax base continues to increase, the school district's tax rate should continue to be stable.

Original budget versus final budget. Over the course of the school year, the school board revised its budget as it attempts to deal with unexpected changes in revenue and expenditures. All transfers are approved by the Board of Education at their regular scheduled meetings.

AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2017

Total Net Change in Fund Balances - Governmental Funds (From B-2)	\$ 652,946
Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are Different Because: Capital Outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.	
Capital Outlay	2,378,537
Depreciation Expense	(108,247)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.	60,000
Issuance of Bonds increases long-term liabilities in the statement of net assets and is not reported in the statement of activities.	(2,992,000)
In the statement of activities, certain operating expenses as compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are	
reported when paid.	(22,769)
Contributions to the pension plan in the current fiscal year are deferred outflows of resources on the Statement of Net Position	73,215
Pension related deferrals	80,510
Change in net pension liability	(88,233)
In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental fund,	(10 F (5)
interest is reported when due.	 (68,763)
Change in Net Position of Governmental Activities	\$ (34,804)

BOARD OF EDUCATION

ISLAND HEIGHTS SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2017

NOTE 1: <u>Summary of Significant Accounting Policies</u>

The financial statements of the Board of Education (Board) of the Island Heights School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Government Accounting and Financial Reporting Standards</u>, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the District over which the Board exercises operating control. The operations of the District include an elementary school located in Island Heights Borough. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore the District is not includable in any other reporting entity on the basis of such criteria.

B. Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the government as a whole. These financial statements are constructed around the concept of a primary government as defined by GASB-14 (The Financial Reporting Entity) and therefore encompass the primary government and its component units except for fiduciary funds of the primary government and component units that are fiduciary in nature. Financial statements of fiduciary funds are not presented in the government-wide financial statements but are included in the fund financial statements.

B. Government-Wide Financial Statements (Continued)

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include (1) charges for services which report fees and other charges to users of the District's services and (2) operating grants and contributions. These revenues are subject to externally imposed restrictions to these program uses. Tax levies and other revenue sources not properly included with program revenues are reported as general revenues.

Fund Financial Statements

Fund financial statements are provided for governmental, proprietary and fiduciary funds. Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds.

C. <u>Measurement Focus, Basis of Accounting and Financial Statement</u> Presentation

The financial statements of the District are prepared in accordance with generally accepted accounting principles (GAAP). The District's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The government-wide and proprietary fund financial statements apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Proprietary and fiduciary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. County tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met. The Unemployment Trust Fund recognizes employer and employee contributions in the period in which contributions are due.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to apply current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for long-term pension and compensated absences, which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual includes Intergovernmental revenues, and the county tax levy. In general, other revenues are recognized when cash is received.

C. <u>Measurement Focus, Basis of Accounting and Financial Statement Presentation</u> (Continued)

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for food sales and for services provided to other governmental entities. Principles operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

D. Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental Fund Types

<u>General Fund</u>: The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund.

<u>Special Revenue Fund</u>: The District accounts for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally restricted to expenditures for specified purposes in the special revenue funds.

<u>Capital Projects Fund</u>: the capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

<u>Debt Service Fund</u>: The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

D. Fund Accounting (Continued):

Proprietary Fund Type

<u>Enterprise Fund</u>: To account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the District is that the costs of providing goods or services to the District on a continuing basis be financed or recovered primarily through user charges.

Fiduciary Fund Types

<u>Trust and Agency Funds</u>: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

<u>Unemployment Compensation Trust Fund</u>: The trust fund is used to account for assets held under the terms of a formal trust agreement. The District reimburses the costs of unemployment benefits paid by the New Jersey Department of Labor.

Agency Funds (Payroll and Student Activities Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

E. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the County office. Budgets are prepared using the modified accrual basis of accounting; the legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2017 were insignificant.

The Public School Education Act of 1975 limits the annual increase of any district's net current expense budget. The Commissioner of Education certifies the allowable amount for each district but may grant a higher level of increase if he determines that the sums so provided would be insufficient to meet the identified goals and needs of the district or that an anticipated enrollment increase requires additional funds.

The Commissioner must also review every proposed local school district budget for the next school year. He examines every item of appropriations for current expenses and budgeted capital outlay to determine their adequacy in relation to the identified needs and goals of the district. If, in his view, they are insufficient, the Commissioner must order remedial action. If necessary, he is authorized to order changes in the local district budget.

E. <u>Budgets/Budgetary Control (Continued)</u>:

Once a budget is approved, it can be amended by transfers or additional appropriation of fund balances by approval of a majority of the members of the Board. Amendments are presented to the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law. Individual transfers were not material in relation to the original appropriations. All uncommitted budget appropriations lapse at year-end.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis is recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

F. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Short-Term Interfund Receivables/Payables:

Short-Term interfund receivables/payables represents amounts that are owed, other than charges for good or services rendered to/from a particular fund in the District and that are due within one year.

H. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, are recorded as an expenditure during the year of purchase. The value of inventories remaining at the end of the fiscal year is not included on the balance sheet.

H. <u>Inventories and Prepaid Expenses (Continued)</u>

Enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2017.

I. Capital Assets and Depreciation

The District's property, buildings and improvements, equipment, vehicles, furniture and fixtures with useful lives of five years or more are stated at historical or estimated historical cost and are reported in the government-wide financial statements. Proprietary Fund capital assets are reported in its respective fund.

The District contracted with an outside service company during the 2016 fiscal year to provide a report with a comprehensive detail of capital assets and depreciation. The report included capital assets purchased during the 2016-2017 fiscal year and prior with a historical cost of \$2,000 or more. Accumulated depreciation prior to fiscal year 2017, fiscal year 2017 depreciation expense, total accumulated depreciation and book values were also provided. The costs of normal maintenance and repairs that do not add to the asset value or materially extend the useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts. Estimated useful lives, in years, for depreciable assets are as follows:

Buildings and Improvements	20 - 50
Equipment and Vehicles	5 - 20
Furniture and Fixtures	5 - 20

Capital asset activity for the year ended June 30, 2017 was as follows:

	Balance				Balance
	July 1, 2016	Additions	Adjust.	Retirements	June 30, 2017

Depreciation expense was charged to governmental functions as follows:
Unallocated

\$ 108,247

J. Compensated Absences

District employees are permitted, within certain limitations, to accrue vacation and sick leave in varying amounts under the Districts personnel policies and may be paid at a later date according to contractual agreements.

The liability for vested compensated absences of the governmental fund types is recorded in the government-wide financial statements as a non-current liability. Governmental funds report only matured compensated absences payable to currently terminating employees and are included in wages and benefits payable

K. <u>Deferred Revenue</u>

Deferred revenue in the general and special revenue funds represent cash which has been received but not yet earned. Deferred revenue in the general fund represents monies received for fiscal year 2017. See Note 1(F) regarding the special revenue fund.

L. Fund Equity

The governmental fund financial statements report reserved fund balance for amounts not available for appropriation or legally restricted for specified purposes. The general fund reserve for restricted purposes includes net assets relating to capital reserve (See Note 9).

NOTE 2: Cash and Cash Equivalents and Investments

Cash and cash equivalents includes petty cash, change funds, amounts in deposits, and short term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000.000.

NOTE 2: Cash and Cash Equivalents and Investments (Continued)

Investments

New Jersey statutes permit the District to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home
 Loan Bank, Federal National Mortgage Agency or any United
 States Bank for cooperatives which have a maturity date not greater
 than twelve months from the date of purchase.
- c. Bonds or other obligations of the school district.

As of June 30, 2017, cash and cash equivalents and investments of the District consisted of the following:

Cash and Cash
Equivalents
\$ 2,555,348

Checking, Money Market Accounts and Certificate of Deposit

During the period ended June 30, 2017, the District did not hold any investments. The carrying amount of the District's cash and cash equivalents at June 30, 2017 was \$2,555,348 and the bank balance was \$2,797,631. Of the bank balance, \$250,000 was covered by federal depository insurance.

Credit Risk Categories

All bank deposits and investments as of the balance sheet date are classified as to credit risk by the following two categories described below:

FDIC	\$ 250,000
GUPDA	_2,547,631

\$2,797,631

As of June 30, 2017, the District did not hold any long-term investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a formal policy for custodial credit risk.

The District had no uninsured deposits.

NOTE 3: General Long-Term Debt

During the fiscal year ended June 30, 2017, the following changes occurred in liabilities reported in the general long-term debt account group:

<u>Ju</u>	Balance ne 30, 2016	Additions	<u>Deletions</u>	Balance <u>June 30, 2017</u>	Long-Term <u>Portion</u>	2017-2018 Payment
Compensated			,			
Absences Payable	\$ 69,009	22,769		91,778	91,778	
Bonds Payable	413,000	2,992,000	60,000	3,345,000	3,178,000	167,000
Pension Liability	459,179	88,233	**************************************	547,412	547,412	, , , , , , , , , , , , , , , , , , ,
	<u>\$ 941,188</u>	3,103,002	(<u>60,000</u>)	<u>3,984,190</u>	3,817,190	<u>167,000</u>

A. Bonds Payable

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are of general obligation bonds, and the interest rates vary from 3.875% to 4.260%.

Principal and interest due on serial bonds outstanding is as follows:

	Principal	<u>Interest</u>	<u>Total</u>
Year Ending June 30,	-	•	-
2018	\$ 60,000	126,808	186,808
2019	167,000	86,035	253,035
2020	170,000	81,464	251,464
2021	170,000	76,835	246,835
2022	175,000	72,111	247,111
2023-2027	693,000	306,970	999,970
2028-2032	770,000	225,563	995,563
2033-2037	930,000	103,500	1,033,500
2038	210,000	3,150	213,150
	\$ 3,345,000	<u>1,082,436</u>	<u>4,427,436</u>

NOTE 4: Pension Plans

<u>Description of Plans</u> – All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teacher's Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF) – The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) – The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions – The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provide for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provision of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contribution. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - During the year ended June 30, 1997, legislation was enacted Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997), changed the asset valuation method from market related value to full-market value. This legislation also contains a provision to reduce the employee contribution rate by ½ of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the Districts' normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for TPAF and PERS were reduced.

<u>Funding Policy</u> — The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 6.78% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

Legislation enacted during 1993 provides early retirement incentives for certain members of TPAF and PERS who met certain age and service requirements and who applied for retirement between certain dates in the 1994 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500 per month for two years for employees at least age 60 with 10 years but less than 20 years of service. The Board will assume the increased cost for the early retirement as it affects their districts.

During the year ended June 30, 2017, the State of New Jersey contributed \$203,239 to the TPAF for post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$67,038 during the year ended June 30, 2017 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the general-purpose financial statements, and the combining and individual fund and account group statements and schedules as revenues and expenditure in accordance with GASB 34.

	<u>Three-Year Tre</u>	end Information for	<u>PERS</u>

Pension Expense Deferred Outflows/Inflows - PERS

For the year ended June 30, 2017, the District recognized pension expense of \$16,420. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	<u>of Resources</u>
Difference Between Expected and Actual Experience	\$ 10,180	
Changes of Assumptions	115,395	
Net Difference Between Projected and Actual Earnings		
on Pension Plan Investments	20,873	
Changes in Proportion and Differences Between District		
Contributions and Proportionate Share of Contributions	33,876	32,143
District Contributions Subsequent to the Measurement		
Date	<u>16,420</u>	
Total	<u>\$ 196,744</u>	<u>32,143</u>

\$196,744 reported as deferred outflows of resources related to pensions resulting from school district, charter school, or renaissance school project contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2017, the plan measurement date is June 30, 2016) will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Additional Information

Collective balances at December 31, 2016 and 2015 are as follows:

	Dec. 31, 2016	Dec. 31, 2015
Collective Deferred Outflows of Resources	\$ 196,744	123,529
Collective Deferred Inflows of Resources	32,143	7,383
Collective Net Pension Liability	547,412	459,179
District's Proportion	.00185%	.00205%

Components of Net Pension Liability

The components of the collective net pension liability of the participating employers as of June 30, 2016 were as follows:

	2016		
	State	Local	Total
Total Pension Liability	\$ 36,295,189,928	49,474,698,146	85,769,888,074
Plan Fiduciary Net Position	6,904,504,223	19,857,566,387	26,762,070,610
Net Pension Liability	<u>\$ 29,390,685,705</u>	29,617,131,759	<u>59,007,817,464</u>
Plan Fiduciary Net Position as a Percentage of the Total			
Pension Liability	19.02%	40.14%	31.20%
		2015	
	State	Local	Total
Total Pension Liability	\$ 31,614,118,524	43,109,580,038	74,723,698,562
Plan Fiduciary Net Position	<u>7,891,982,987</u>	20,661,583,919	<u>28,553,566,906</u>
Net Pension Liability	\$ 23,722,135,537	22,447,996,119	46,170,131,656
Plan Fiduciary Net Position as a Percentage of the Total			
Pension Liability	24.96%	47.93%	38.21%

The collective total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions:

Inflation Rate	3.08%
Salary Increases: Through 2026	1.65% - 4.15% Based on Age
Thereafter	2.65% – 5.15% Based on Age
Investment Rate of Return	7.65%

Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

Lang-Tarm

		Long-Term
		Expected
	Target	Real Rate
Asset Class	<u>Allocation</u>	<u>of Return</u>
Cash	5.00%	0.87%
U.S. Treasuries	1.50%	1.74%
Investment Grade Credit	8.00%	1.79%
Mortgages	2.00%	1.67%
High Yield Bonds	2.00%	4.56%
Inflation-Indexed Bonds	1.50%	3.44%
Broad US Equities	26.00%	8.53%
Developed Foreign Equities	13.25%	6.83%
Emerging Market Equities	6.50%	9.95%
Private Equity	9.00%	12.40%
Hedge Funds/Absolute Return	12.50%	4.68%
Real Estate (Property)	2.00%	6.91%
Commodities	0.50%	5.45%
Global Debt ex US	5.00%	-0.25%
REIT	5.25%	5.63%

Discount Rate

The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65% and a municipal bond rate of 2.85% as of June 30, 2016 based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal years. State employer contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2016, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

		2016	
		At Current	
	At 1%	Discount	At 1%
	<u>Decrease (3.90%)</u>	Rate (4.90%)	Increase (5.90%)

Teachers Pensions and Annuity Fund (TPAF)

Components of Net Pension Liability

The components of the net pension liability of the State as of June 30, 2016 and 2015 are as follows:

	2016	2015
Total Pension Liability	\$ 101,746,770,000	89,182,662,000
Plan Fiduciary Net Position	22,717,862,967	25,604,797,560
Net Pension Liability	\$ 79,028,907,033	63,577,864,440
Plan Fiduciary Net Position as a Percentage of the Total		
Pension Liability	22,33%	28.71%

State Proportionate Share of Net Pension Liability Attributable to District

	2016	<u> 2015</u>
District's Liability	\$ 6,631,223	5,378,663
District's Proportion	.00839%	.00846%

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.50%
Salary Increases: 2012-2021	Varies Based on Experience
Thereafter	Varies Based on Experience
Investment Rate of Return	7.65%

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvements on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2016 are summarized in the following table:

		Long-Term
		Expected
	Target	Real Rate
Asset Class	<u>Allocation</u>	<u>of Return</u>
US Cash	5.00%	0.39%
US Government Bonds	1.50%	1.28%
US Credit Bonds	13.00%	2.76%
US Mortgages	2.00%	2.38%
US Inflation-Indexed Bonds	1.50%	1.41%
US High Yield Bonds	2.00%	4.70%
US Equity Market	26.00%	5.14%
Foreign - Developed Equity	13.25%	5.91%
Emerging Markets Equity	6.50%	8.16%
Private Real Estate Property	5.25%	3.64%
Timber	1,00%	3.86%
Farmland	1.00%	4.39%
Private Equity	9.00%	8.97%
Commodities	0.50%	2.87%
Hedge Funds - MultiStrategy	5.00%	3.70%
Hedge Funds – Equity Hedge	3.75%	4.72%
Hedge Funds – Distressed	3.75%	3.49%

Discount Rate

The discount rate used to measure the total pension liability was 3.22% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65% and a municipal bond rate of 2.85% as of June 30, 2016 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State contributed 30% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2029. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2029, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the State as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	At Current		
	At 1% Decrease	Discount Rate	At 1% Increase
2016 (2.22%, 3.22%, 4.22%)	\$ 94,378,176,033	79,028,907,033	66,494,248,033
2015 (3.13%, 4.13%, 5.13%)	75,559,915,440	63,577,864,440	53,254,610,440

NOTE 5: Post-Retirement Benefits

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c. 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2016, there were 110,512 retirees receiving post-retirement medical benefits, and the State contributed \$1.37 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a prefunding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program (APB) who retired from a board of education or county college with 25 years of service. The State paid \$231.2 million toward Chapter 126 benefits for 20,045 eligible retired members in Fiscal Year 2016.

NOTE 6: Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the right to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

NOTE 6: Compensated Absences (Continued)

In the district-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2017, no liability existed for compensated absences in the Food Service Fund.

NOTE 7: Capital Reserve Account

A capital Reserve account was established by the Borough of Island Heights Board of Education for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Fund placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to *N.J.A.C.* 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2016 to June 30, 2017 fiscal year is as follows:

Beginning Balance, July 1, 2016

\$ 33,489

Ending Balance, June 30, 2017

\$ 33,489

NOTE 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current year and previous year:

NOTE 8: Risk Management (Continued)

	Employee	District		
Fiscal Year	<u>Contributions</u>	Contributions	Disbursed	Balance
2016-2017	\$ 11	0	458	38,688
2015-2016	7	12,000	11,434	39,134
2014-2015	0	0	3,705	38,561

NOTE 9: <u>Tuition Adjustments</u>

Regulations specify that tuition adjustments for any given school year shall be remitted/ received in the two following years after the tuition rate is certified. These adjustments have not been reflected on the June 30, 2017 financial statements.

NOTE 10: Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the District's programs and activities.

NOTE 11: Contingent Liabilities

The Board is involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect of the financial position of the District.

NOTE 12: 2% Calculation of Excess Surplus

2016-17 Total General Fund Expenditures Per the CAFR	\$ 2,449,131
Decreased by: On Behalf TPAF Pension and Social Security	(270,277)

Section 3	
<u>Detail of Other Restricted Fund Balance</u> Maintenance Reserve Capital Reserve	\$ 100,439 33,489

NOTE 13: Fund Balance Appropriated

General Fund — Of the \$515,509 General Fund fund balance at June 30, 2017, \$69,581 is reserved for encumbrances; \$33,489 has been reserved in the Capital Reserve Account; \$100,439 is maintenance reserve; \$62,000 is designated for subsequent year's expenditures and \$250,000 is unreserved and undesignated.

<u>\$ 133,928</u>

NOTE 14: <u>Calculation of Excess Surplus</u>

In accordance with *N.J.S.A.* 18A:7F-7, as amended, the designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget.

NOTE 15: Significant Accounting Pronouncements

In June 2009, the FASB issued FASB ASC 105, Generally Accepted Accounting Principles, which establishes the FASB Accounting Standards Codification as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the District has updated references to GAAP in its financial statements issued for the period ended June 30, 2017. The adoption of FASB ASC 105 did not impact the District's financial position or results of operations.

In May 2009, the FASB updated ASC 855, Subsequent Events, which is effective for reporting periods ending after June 15, 2009. ASC 855 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the financial statements are issued, or are available to be issued. The District adopted the amended sections of ASC 855 and it did not have an impact on the District's financial statements. The District evaluated all events or transactions that occurred after June 30, 2017 through November 13, 2017.

L-4

SCHEDULE OF THE SCHOOL DISTRICT'S CONTRIBUTIONS

$\underline{\textbf{TEACHER'S PENSION AND ANNUITY FUND (TPAF)}}$

LAST TEN FISCAL YEARS

This schedule is not applicable.

The School District is not required to make any contributions towards TPAF.

There is a special funding situation where the State of New Jersey pays 100% of the required contributions.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - PART III

L-5

FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Public Employee's Retirement System (PERS)

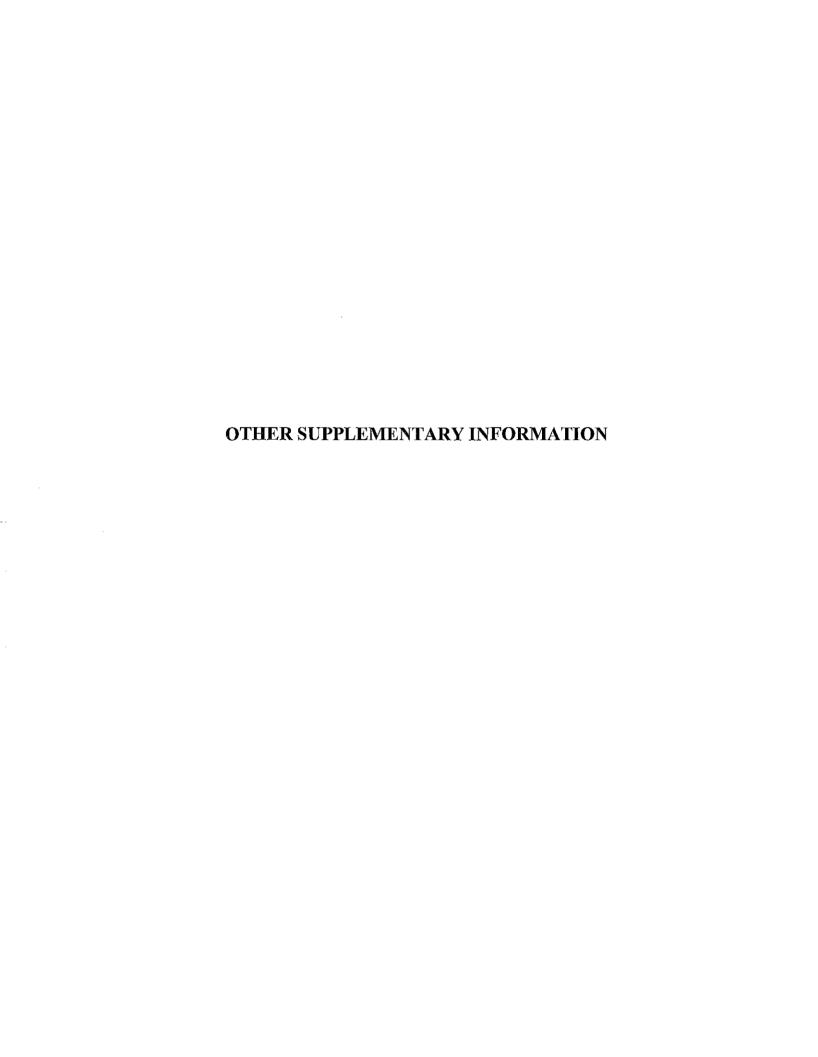

Changes in Benefit Terms - None

Changes in Assumptions – The discount rate changed from 4.90% as of June 30, 2015, to 3.98% as of June 30, 2016, in accordance with Paragraph 44 of GASB Statement No. 67.

Teachers' Pension and Annuity Fund (TPAF)

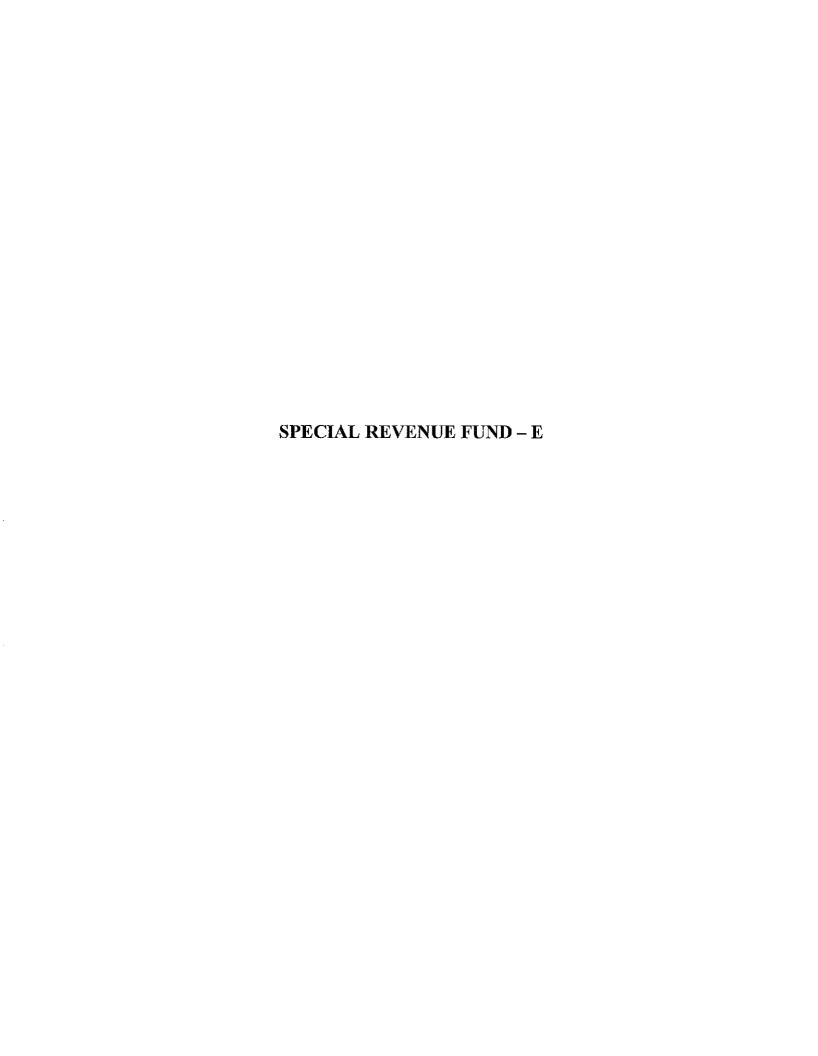

Changes in Benefit Terms - None

Changes in Assumption – The discount rate changed from 4.13% as of June 30, 2015, to 3.22% as of June 30, 2016, in accordance with Paragraph 44 of GASB Statement No. 67.

Total Direct & Overlapping Debt	 6,291,599.00

^{*}Overlapping debt as of December 31, 2014 Annual Debt Statements.

Sources: Assessed value data used to estimate applicable percentages provided by the Ocean County Board of Taxation.

Debt outstanding data provided by each governmental unit.

Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Anytown. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

The basic approach to estimating the applicable percentage of overlapping debt, as described in the Statement, is to divide the value of the revenue base within the overlapping geographic area by the total revenue base of the overlapping government, and multiply this ratio by the overlapping government's outstanding debt.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

K-1

Honorable President and Members of the Board of Education Island Heights School District County of Ocean Island Heights, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Island Heights Board of Education, County of Ocean, State of New Jersey as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Island Heights Board of Education, County of Ocean, State of New Jersey's basic financial statements, and have issued our report thereon dated November 13, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Island Heights Board of Education, County of Ocean, State of New Jersey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions of the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Island Heights Board of Education, County of Ocean, State of New Jersey's internal control. Accordingly, we do no express an opinion on the effectiveness of the Island Heights Board of Education, County of Ocean, and State of New Jersey's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Island Heights Board of Education, County of Ocean, State of New Jersey's financial statements are free from material misstatement, we performed tests of it compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

ROBERT A. HULSART AND COMPANY

BOARD OF EDUCATION

K-5

ISLAND HEIGHTS SCHOOL DISTRICT

NOTES TO SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE

JUNE 30, 2017

NOTE 1: General

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Island Heights School District. The Board of Education is defined in Note 1(A) to the Board's general-purpose financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal financial assistance.

NOTE 2: Basis of Accounting

The accompanying schedules of financial assistance are presented using the modified accrual basis of accounting. This basis of accounting is described in Note 1(C) to the Board's general-purpose financial statements.

NOTE 3: Relationship to General Purpose Financial Statements

The general-purpose financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to *N.J.S.A.* 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A.* 18A:22-4.2.

Awards and financial assistance revenues are reported in the Board's general purpose financial statements on a GAAP basis as presented below:

NOTE 3: Relationship to General Purpose Financial Statements

	General Fund	Food Service	Total
State Assistance Actual Amounts (Budgetary) "Revenues" from the Schedule of Expenditures of State Financial Assistance	\$ 569,860	89	569,949
Difference – Budget to "GAAP" Grant Accounting Budgetary Basis Differs from GAAP in that Encumbrances are Recognized as Expenditures and the Related Revenue is Recognized			
On Behalf Payments Recognized for GAAP Statements but Not Included in the Schedule of Expenditures of State Financial Assistance			
The Last State Aid Payment Is Recognized as Revenue for Budgetary Purposes, and Differs from GAAP Which does not Recognize This Revenue Until the Subsequent Year When the State Recognizes the Related Expense (GASB 33)	_(116)		(116)
Total State Revenue as Reported on the Statement of Revenues, Expenditures and Changes in Fund Balances	<u> </u>	<u>89</u>	<u>(110)</u> <u>569,833</u>

NOTE 3: Relationship to General Purpose Financial Statements (Continued)

	Special Revenue <u>Fund</u>	Food <u>Service</u>	<u>Total</u>
Federal Assistance Actual Amounts (Budgetary) "Revenues" from the Schedule of Expenditures of Federal Awards	\$ 61,596	2,562	64,158
Difference – Budget to "GAAP" Grant Accounting Budgetary Basis Differs from GAAP in that Encumbrances are Recognized as Expenditures and the Related Revenue is Recognized			
Total Federal Revenue as Reported on the Statement of Revenue, Expenditures, and Changes in Fund Balances	<u>\$ 61,596</u>	<u>2,562</u>	<u>64,158</u>

NOTE 4: Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5: Other

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state of behalf of the District for the year ended June 30, 2017. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2017.
