Lebanon Borough Board of Education

6 Maple Street Lebanon, New Jersey 08833

Bruce Arcurio Chief School Administrator Patricia Duell School Business Administrator

October 27, 2017

Honorable President and Members of the Board of Education Lebanon Borough School District County of Hunterdon, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Lebanon Borough School District for the fiscal year ended June 30, 2017 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidelines) and New Jersey OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

REPORTING ENTITY AND ITS SERVICES: Lebanon Borough School District is an independent reporting entity within the criteria adopted by the GASB as established by Statement No. 14. All funds of the District are included in this report. The Lebanon Borough Board of Education and its school constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 6. These include regular, as well as special education for handicapped youngsters. The District completed the 2016/17 fiscal year with an enrollment of 102 students, which is greater than the prior year finish. The following details the changes in the student enrollment of the District over the last ten years.

Average Daily Enrollment

Fiscal	Student	Percent
Year	Enrollment	<u>Change</u>
2016-17	102.0	3%
2015-16	99.0	8%
2014-15	92.0	0.0%
2013-14	92.0	10%
2012-13	84.0	2.5%
2011-12	82.1	9.6%
2010-11	75.0	(11.8%)
2009-10	85.0	1.05%
2008-09	81.0	(1.22%)
2007-08	82.0	0.00%

2.) ECONOMIC CONDITION AND OUTLOOK: Lebanon Borough is an established community and is experiencing some development and expansion. It is expected that the community will continue to prosper.

3.) MAJOR INITIATIVES:

- a. Emphasis on Core Curriculum Standards has resulted in:
 - Standardized test scores that exceed state and national averages
 - High testing achievement for those students taking the fourth grade New Jersey ASK Science Proficiency Test.
- b. All students receive special instructions in the following areas by teacher specialist: Technology, Art, Music, Gifted and Talented/Enrichment.
- c. Small class size allows staff to individualize classroom instruction.
- d. In-class instructional support for mainstreamed Special Education students.
- e. Staff development opportunities for all professional staff.
- **4.) INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP).

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2017.

- **ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.
- **7.) <u>FINANCIAL INFORMATION AT FISCAL YEAR-END:</u>** As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.
- **8.) CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Notes 1 and 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- **9.) RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

10.) OTHER INFORMATION:

A) Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Bedard, Kurowicki and Company CPA's, P.C. was selected by the Board of Education. In addition to meeting the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11.) ACKNOWLEDGMENTS:

We would like to express our appreciation to the members of the Lebanon Borough Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

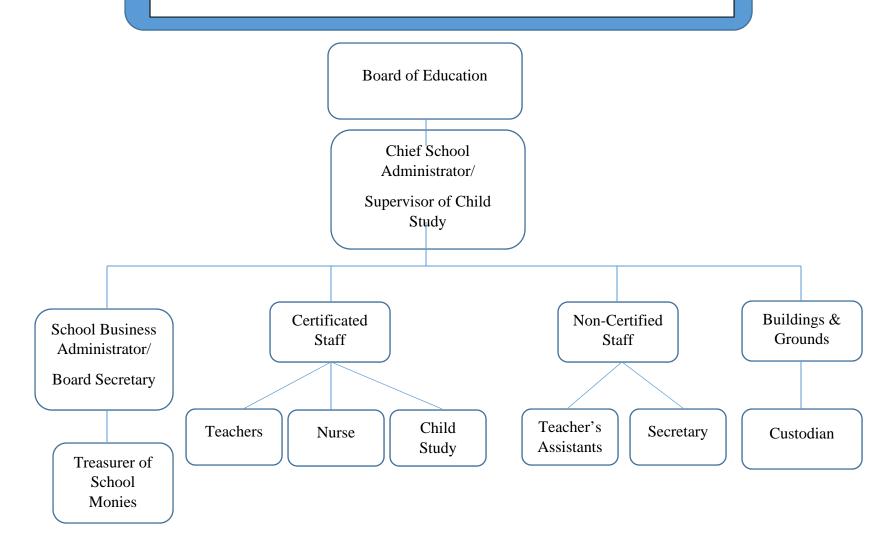

Respectfully submitted,

Patricia Duell

Independent Auditors' Report

Honorable President and Members of the Board of Education Lebanon Borough School District County of Hunterdon, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lebanon Borough School District (the District) in the County of Hunterdon, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lebanon Borough School District, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison Schedules, Schedules of the District's Proportionate Share of Net Pension Liability, and Schedules of the District's Pension Contributions, as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principals and Audit Requirements for Federal Awards and Schedule of Expenditures of State Financial Assistance required by New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid are also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual non-major fund financial statements, Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 27, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

The discussion and analysis of Lebanon Borough School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statement and financial statement to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2017 are as follows:

- In total, net position increased \$35,825 which represents a 1.63 percent increase from fiscal year 2016.
- General revenues accounted for \$3,525,355 in revenue or 96.73 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$119,267 or 3.27 percent to total revenues of \$3,644,622.
- Total assets of governmental activities increased by \$110,979 as cash and cash equivalents increased by \$246,998, receivables decreased by \$79,520 and capital assets decreased by \$56,499. Increases in deferred outflows of resources and long-term liabilities are related to public employee retirement system (PERS) pension activity between the current and prior period measurement dates.
- The School District had \$3,608,797 in expenses; only \$119,267 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$3,525,355 were adequate to provide for these programs.
- Among major funds, the General Fund had \$3,193,379 in revenues and other financing sources and \$2,916,536 in expenditures. The General Fund's balance increased \$276,843 over 2016.

Using this Generally Accepted Accounting Principles Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Lebanon Borough School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Lebanon Borough School District, the General Fund is by far the most significant fund.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2017?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial positions of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, and Capital Projects Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position) and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Table 1 provides a summary of the District's net position at 6/30/17 with comparisons to 6/30/16.

Table 1 Net Position

	Fiscal Ye	ear Ended	Variance		
	6/30/17	6/30/16	Dollars	%	
Assets					
Current and other assets	\$ 889,098	\$ 721,675	\$ 167,423	23.20	
Capital assets	1,897,687	1,954,445	(56,758)	(2.90)	
Total assets	2,786,785	2,676,120	110,665	4.14	
Deferred outflows of resources					
Deferred amount on pension activity	410,260	173,863	236,397	135.97	
Liabilities					
Long-term liabilities	944,578	618,098	326,480	52.82	
Other liabilities	5,023	7,916	(2,893)	(36.55)	
Total liabilities	949,601	626,014	323,587	51.69	
Deferred outflows of resources					
Deferred amount on pension activity	12,579	24,929	(12,350)	(49.54)	
Net position					
Net investment in capital assets	1,897,687	1,954,445	(56,758)	(2.90)	
Restricted	609,275	469,860	139,415	29.67	
Unrestricted	(272,097)	(225,265)	(46,832)	(20.79)	
Total net position	\$ 2,234,865	\$ 2,199,040	\$ 35,825	1.63	

Total assets increased \$110,665. Cash and cash equivalents increased by \$246,943 receivables decreased by \$79,520 and capital assets decreased by \$56,758. Unrestricted net position, the part of net position that can be used to finance day-to-day activities without constraints established by grants or legal requirements of the School District, decreased by \$46,832.

The negative balance in unrestricted net position is not a negative reflection on the District's financial condition, but is the result of reporting required by GASB Statement No. 68 Accounting and Financial

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Reporting for Pensions which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

Table 2 provides a summary of the District's changes in net position in the fiscal year 2017 with comparisons to fiscal year 2016.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Governmental Activities

Property taxes made up 71 percent of revenues for governmental activities for the Lebanon Borough School District for fiscal year 2017. The Board of Education and School Administrators work diligently to provide a through and efficient education to the students of Lebanon Borough School District within the constraints of laws governing school district operations.

Instruction and student support services comprise 84 percent of District expenses. Administration, Buildings and Grounds maintenance and other employer related expenses account for the remaining 16 percent.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements. Comparisons to fiscal year 2016 have been made.

Table 3 provides a summary of the School District's cost of governmental services in 2016 and 2017.

Table 3
Cost of Governmental Services

	Total Cost	of Services	Net Cost of Services		
	6/30/17	6/30/16	6/30/17	6/30/16	
Instruction	\$1,792,621	\$ 1,421,834	\$1,683,045	\$1,366,907	
Support services					
Tuition	633,971	490,732	633,971	490,732	
Student and instructional staff	598,406	643,825	589,820	619,790	
General and business administration	269,930	386,294	269,359	384,053	
School administration	1,277	1,271	1,274	1,263	
Plant operations and maintenance	241,928	220,065	241,808	219,945	
Pupil transportation	69,933	58,341	69,933	58,341	
Milk service	731	980	320	600	
Total expenses	\$3,608,797	\$3,223,342	\$3,489,530	\$3,141,631	

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Pupil Transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Extracurricular activities include expenses related to student activities provided by the School District which are designed to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Interest and fiscal charges involved the transactions associated with the payment of interest and other related charges to debt of the School District.

The dependence upon tax revenues is apparent. For all activities local tax revenue support is 71.4 percent. The community, as a whole, is the primary support of the Lebanon Borough School District.

The School District's Funds

These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$3,143,884 and expenditures of \$2,973,513. The net positive change in fund balance for all major funds was \$170,371. The most significant negative change was in the Capital Projects Fund, which experienced a decrease of \$106,472. This was a result of the remaining state aid revenue received being offset by the transfer of funds back to the capital reserve account for completion of capital projects.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal 2017 year, the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management.

For the General Fund, budget basis revenue was \$2,831,291 or \$22,072 above original budgeted estimates of \$2,809,219. This difference was due primarily to an increase in miscellaneous revenue and the receipt of extraordinary special education costs aid.

The General Fund revenues and other financing sources of the School District was greater than expenditures by approximately \$276,286. The excess in revenues and other financing sources was due primarily to a transfer from the capital projects fund to the capital reserve account returning the local share of transferred funds for completed capital projects that were reduced in scope from originally budgeted amounts.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Capital Assets

At the end of the fiscal year 2017, the School District had \$1,897,687 invested in land, buildings, furniture and equipment.

Table 4 provides a summary of the School District's capital assets net of depreciation at 6/30/17 with comparisons to 6/30/16.

Table 4
Capital Assets at Year-end
(Net of Depreciation)

	Fiscal Year Ended				Variance			
	6/30/17		6/30/16		Dollars		%	
Land	\$	10,503	\$	10,503	\$	-	-	
Construction in progress		12,782		8,140		4,642	57.03	
Buildings and improvements		1,835,556	1	,891,585		(56,029)	(2.96)	
Furniture and equipment		38,846		44,217		(5,371)	(12.15)	
Total	\$	1,897,687	\$ 1	,954,445	\$	(56,758)	(2.90)	

Overall, capital assets decreased \$56,758 from fiscal year 2016 to fiscal year 2017. Increases in capital acquisitions (primarily building improvements) were offset by depreciation expenses during the fiscal year.

Debt Administration

At June 30, 2017, the School District had \$944,578 of long-term liabilities consisting of compensated absences and PERS net pension liability.

At June 30, 2017, the School District's overall legal debt margin was \$8,306,449 and the unvoted debt margin was \$8,306,449.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017 Unaudited

Table 5 provides a summary of the District's long-term liabilities at 6/30/17 with comparisons to 6/30/16.

Table 5
Long-term Liabilities at Year-End

		Fiscal Year Ended				Variance		
	(6/30/17		6/30/16		Dollars	%	
PERS net pension liability	\$	892,529	\$	557,824	\$	334,705	60.00	
Compensated absences		52,049		60,274		(8,225)	(13.65)	
Total	\$	944,578	\$	618,098	\$	326,480	52.82	

For the Future

The Lebanon Borough School District is in good financial condition presently. A major concern is the increased reliance on local property taxes. Future finances are not without challenges as expenses continue to grow and state funding is stagnant.

Lebanon Borough School District is primarily a residential community, with very few ratables; thus, the tax burden is focused on homeowners. During the budget process in the Spring, it was a concern to the Administration and Board of Education how future budgets would be financed; therefore, Board and Administration continually review all costs centers in the District.

In conclusion, the Lebanon Borough School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information contact Patricia Duell, School Business Administrator at tduell@lebanonschool.org.

DISTRICT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District.

Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2017

Total net changes in fund balances - governmental fund (from B-2)			\$ 170,371
Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:			
Capital outlays are reported in governmental funds as expenditure	es.		
However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expenses. This is the amount by which depreciation expenses exceeds capital outlay in the period: Capital outlays Depreciation expense	\$	25,894 (82,393)	(56,499)
Governmental funds report district pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.			(85,958)
In the Statement of Activities, compensated absences and early retirement benefits are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the			
reconciliation.			8,225
Change in net position of governmental activities			\$ 36,139

Note 1 - Summary of significant accounting policies

The financial statements of the Board of Education (Board) of the Lebanon Borough School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The basic financial statements include:

A Management's Discussion and Analysis (MD&A) providing an analysis of the Districts overall financial position and results of operations.

Basic financial statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting entity

The District is a Type II District located in the County of Hunterdon, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The Board is comprised of five members elected to three-year terms. The purpose of the District is to educate students in Grades K-8. The District had an approximate enrollment at June 30, 2017 of 102 students.

The primary criterion for including activities within the District's reporting entity as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- 1. The organization is legally separate (can sue or be sued in their own name).
- 2. The District holds the corporate powers of the organization.
- 3. The District appoints a voting majority of the organization's Board.
- 4. The District is able to impose its will on the organization.
- 5. The organization has the potential to impose a financial benefit/burden on the District.
- 6. There is a fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

Note 1 - Summary of significant accounting policies (continued)

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Changes in Net Position) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for Governmental Funds, Proprietary Funds, and Fiduciary Funds, even though the latter are excluded from the government-wide financial statements. The District has elected to treat all of its Governmental Funds as major funds and they are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary Fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post-employment healthcare benefits, are recorded only when payment is due.

Note 1 - <u>Summary of significant accounting policies (continued)</u>

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Property taxes, tuition and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. As under New Jersey State Statute, a municipality is required to remit to its School District the entire property tax balance, in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive money under the established payment schedule and the unpaid amount is considered to be accounts receivable. All other revenue items are considered to be measurable and available only when the District receives cash.

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or service, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, and unrestricted State Aids.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted, as they are needed.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance Capital Outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Note 1 - Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Resources for budgeted Capital Outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by Board resolution

Special Revenue Fund - The District accounts for the proceeds of specific revenue sources from State and Federal Government (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes in the Special Revenue Fund.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Additionally, the District reports the following fund types:

Proprietary Fund types

Proprietary Fund - The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

Enterprise Fund - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Milk Service Fund.

Note 1 - Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

All Proprietary Funds are accounted for on a current financial resources measurement focus. This means that all assets and liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (total net position) segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary Fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Depreciation of all exhaustive fixed assets used by Proprietary Funds is charged as an expense against their operations. Accumulated depreciation is reported on Proprietary Fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment 12 Years
Light trucks & vehicles 4 Years
Heavy trucks & vehicles 6 Years

Fiduciary fund types

<u>Trust and Agency Funds</u> - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The following is a description of the Trust and Agency Funds of the District:

Student Activities Agency Fund - This fund is used to account for funds derived from athletic events or other activities of pupil organizations and accumulated for payment of student group activities.

Payroll Agency Fund - This fund accounts for the withholding and remittance of employee salary deductions.

D. Budgets/budgetary control

Annual appropriated budgets are prepared in the Spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the County office and, if necessary, are voted upon at the annual school election in November. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line-item accounts within each fund. Line-item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum Chart of Accounts referenced in NJAC 6:20-2A.2(m)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2017 were insignificant.

Note 1 - Summary of significant accounting policies (continued)

D. Budgets/budgetary control (continued)

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in Governmental Funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

F. Tuition receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition payable

Tuition charges for the fiscal years 2016-2017 and 2015-2016 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Note 1 - Summary of significant accounting policies (continued)

H. Short-term interfund receivable and payables

Short-term interfund receivables and payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

I. Inventories and prepaid items

Inventories and prepaid items, which benefit future periods, other than those recorded in the Enterprise Fund are recorded as expenditures during the year of purchase.

J. Capital assets

Capital assets, which include land, land improvements, buildings and improvements, vehicles and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All reported capital assets, except for land and construction in progress, of the District are depreciated using the straight-line method over the following estimated lives:

Assets	Years
Buildings	50
Building improvements & portable classroom	50
Land improvements	20
Furniture	20
Communication & security systems equipment	20
Maintenance equipment	15
Musical instruments	10
Athletic equipment	10
Audio visual equipment	10
Office equipment	5 - 10
Computer equipment	5 - 10

K. Compensated absences

The District accounts for compensated absences (i.e., unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement Number 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Note 1 - Summary of significant accounting policies (continued)

K. Compensated absences (continued)

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the Districts' agreements with the various employee unions.

The liability for compensated absences was accrued using the vesting method, whereby the liability is calculated by vesting balances as of the balance sheet date for which a payment is probable. Salary related payments for the employer's share of Social Security and Medicare taxes are included.

For the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, in the fund financial statements, all of the compensated absences are considered long-term and therefore are not a fund liability. This represents a reconciling item between the fund and government-wide presentations.

L. Unearned revenue

Unearned revenue in the General Fund and Special Revenue Fund represents cash, which has been received but not yet earned. See Note 1 (E) regarding the Special Revenue Fund.

M. Long-term obligations

In the government-wide financial statements and in internal service fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

Note 1 - Summary of significant accounting policies (continued)

N. Net position

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

- Net investment in capital assets This component represents capital assets, net of
 accumulated depreciation, net of outstanding balances of borrowings used for the
 acquisition, construction, or improvement of those assets.
- Restricted Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by credits, grantors, or laws or regulations of their governments.
- Unrestricted Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Fund balances - Governmental Funds

In the fund financial statements, Governmental Funds report the following classifications of fund balance:

- Non-Spendable includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- Committed includes amounts that can only be used for specific purposes.
 Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.
- Assigned includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.
- Unassigned includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

Note 1 - Summary of significant accounting policies (continued)

O. Fund balances - Governmental Funds (continued)

When expenditure is incurred for purposes which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

P. Comparative data/reclassifications

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain immaterial amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

Q. Allocation of indirect expenses

Certain expenses, which have not been charged to a specific function in the District's fund financial statements, have been allocated to the functions for the government-wide statements. Employee benefits, on-behalf TPAF pension contributions, reimbursed TPAF Social Security contributions and compensated absences accruals have been allocated based on salaries by function. Depreciation expense which was not specifically identified by function has been allocated based on the current year expenses by function.

R. Deferred outflows/inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has one item that qualifies for reporting in this category, deferred amount on pension activity. In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amount on pension activity.

Note 2 - Tax assessments and property taxes

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Note 2 - <u>Tax assessments and property taxes (continued)</u>

Upon the filing of certified adopted budgets by the municipality, the municipality's local School Districts, and the County, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in NJSA 54:4 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date are subject to interest penalties of eight percent per annum on the first \$1,500 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500. Pursuant to Chapter 75, PL 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six percent of the amount of the delinquency. These interest and penalties are the highest permitted under the New Jersey statutes. Delinquent taxes are annually included in a tax sale in accordance with New Jersey statutes.

School taxes are guaranteed as to amount of collection by the municipality, the collection agency, and are transmitted to the School District in accordance with the Schedule of Tax Installments as certified by the School District's Board of Education on an annual basis.

Note 3 - Deposits and investments

Cash equivalents and investments - Cash and cash equivalents include petty cash, change funds, cash on deposit with public depositories. The District does not have any investments.

New Jersey governmental units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey governmental units. In addition, other state statutes permit investments in obligations issued by local authorities and other state agencies. The State of New Jersey does not place any limit on the amount that the District may invest with any one issuer.

New Jersey School Districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey School Districts.

Note 3 - Deposits and investments (continued)

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. The District does not have a policy for custodial credit risk. New Jersey statutes require that cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or funds that may pass to the District relative to the happening of a future condition.

N.J.S.A. 17:9-41 e.t. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured.

All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

As of June 30, 2017, the District's bank balances of \$933,775 were exposed to custodial credit risk as follows:

Insured by the Federal Deposit Insurance Corporation (FDIC)	\$ 250,000
Collateralized with securities held by pledging financial institutions	 683,775
Total bank balances	\$ 933,775

Deposits at June 30, 2017 appear in the financial statements as summarized below:

	\$	871,720
Ref		
<u>ICI.</u>		
B-1	\$	378,219

assets, net	\$	2,727	\$	259	\$		\$	2,468		

Note 4 - <u>Capital assets (continued)</u>

Depreciation expense was charged to governmental functions in the current year as follows:

Instruction	
Regular	\$ 43,869
Special education	5,837
Other special instruction	2,980
Other instruction	220
Support services	
Student & instruction	20,550
General & business administration	8,281
School administration	269
Plant operation & maintenance	 387
Total depreciation expense, governmental activities	\$ 82,393

Note 5 - Long-term debt

Long-term liability activity for the year ended June 30, 2017 is as follows:

	eginning Balance	A	dditions	Re	eductions	Ending Balance	 e Within ne Year
Governmental activities							
PERS net pension liability Compensated	\$ 557,824	\$	483,639	\$	148,934	\$ 892,529	\$ -
absences payable	60,274		(8,225)		-	52,049	8,074
Total governmental activities long-term liabilities	\$ 618,098	\$	475,414	\$	148,934	\$ 944,578	\$ 8,074

The general obligation bonded debt of the District is limited by state law to 3% of the average equalized assessed values of the total taxable property in the District for the past three years. The legal debt limit at June 30, 2017 is \$8,306,449. The General obligation debt at June 30, 2017, is \$0 resulting in a legal debt margin of \$8,306,449.

Note 6 - <u>Pension plans</u>

Description of systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF), Public Employees' Retirement System (PERS) and the Defined Contribution Retirement Program (DCRP). The PERS and TPAF systems are sponsored and administered by the State of New Jersey. The DCRP system is administered by Prudential Financial for the Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees Retirement System and Defined Contribution Retirement Program are considered cost sharing multiple-employer plans.

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS)

Plan description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by NJSA 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after 10-years of service, except for medical benefits, which vest after 25-years of service or under the disability provisions of PERS.

The following represents the membership Tiers for PERS:

Tier	Definition
1	Members enrolled prior to July 2007
2	Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective Tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25-years of service. Deferred retirement is available to members who have at least 10-years of service credit and have not reached the service retirement age for the respective Tier.

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Allocation methodology and reconciliation to financial statements

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the Schedule of Employer Allocations are applied to amounts presented in the Schedules of Pension Amounts by Employer. The allocation percentages for each group as of June 30, 2016 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal year ended June 30, 2016.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense excluding that attributable to employer-paid member contributions. The employer allocation percentages presented in the Division's Schedule of Employer Allocations and applied to amounts presented in the Schedule of Pension Amounts by Employer are based on the ratio of the contributions as an individual employer to total contributions to the PERS during the State fiscal year ended June 30, 2016. Employer allocation percentages have been rounded for presentation purposes, therefore amounts presented in the schedule of pension amounts by employer may result in immaterial differences.

Contributions

The contribution policy for PERS is set by NJSA 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2016, the State's pension contribution was less than the actuarial determined amount.

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Contributions (continued)

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The Actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15-years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The contribution rate was 7.20% effective July 1, 2016 and will increase annually on July 1st until eventually reaching 7.50% of base salary effective July 1, 2018.

Collective net pension liability and actuarial information

Components of net pension liability

Investment rate of return

The components of the District's allocable share of the net pension liability for PERS as of June 30, 2016 are as follows:

	 2016
Total pension liability	\$ 1,490,948
Plan fiduciary net position	 598,419
Net pension liability	\$ 892,529

Plan fiduciary net position as a percentage of the total pension liability

40.14%

7.65%

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	3.08%
Salary increases (based on age)	
Through 2026	1.65% - 4.15%
Thereafter	2.65% - 5.15%

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Collective net pension liability and actuarial information (continued)

Components of net pension liability (continued)

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-term expected rate of return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)
Collective net pension liability and actuarial information (continued)
Components of net pension liability (continued)

		Long-Term
	Target	Expected Rate
Asset Class	Allocations	of Return
Cash	5.00%	.87%
U.S. Treasuries	1.50%	1.74%
Investment Grad Credit	8.00%	1.79%
Mortgages	2.00%	1.67%
High Yield Bonds	2.00%	4.56%
Inflation-Indexed Bonds	1.50%	3.44%
Broad U.S. Equities	26.00%	8.53%
Developed Foreign Equities	13.25%	6.83%
Emerging Market Equities	6.50%	9.95%
Private Equity	9.00%	12.40%
Hedge Funds/Absolute Return	12.50%	4.68%
Real Estate (Property)	2.00%	6.91%
Commodities	0.50%	5.45%
Global Debt ex U.S.	5.00%	-0.25%
REIT	5.25%	5.63%

Discount rate

The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes taxexempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the rate in the most recent state fiscal year. State employer contributed 30% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plans fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the collective net pension liability of the District as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

	2016
At current discount rate (3.98%)	\$ 892,529
At a 1% lower rate (2.98%)	1,093,690
At a 1% higher rate (4.98%)	538,733

Collective deferred outflows of resources and deferred inflows of resources

At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	_	Deferred Outflows	_	eferred ıflows						
	of l	of Resources		of Resources		of Resources		of Resources		esources
Differences between expected and actual experience	\$	16,598	\$	-						
Changes of assumptions		184,884		-						
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between District contributions		34,033		-						
and proportionate share of contributions		147,571		12,579						
District contributions subsequent to the										
measurement date		27,174								
Total	\$	410,260	\$	12,579						

The amount reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date (i.e., for the school year ending June 30, 2017, the plan measurement date is June 30, 2016) of \$27,174 will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) for the year ended June 30, 2016:

	eginning Balance	I	ncreases	De	ecreases	Ending Balance
Deferred outflows of resources	-					
Changes of assumptions	\$ 88,788	\$	160,517	\$	47,823	\$ 201,482
Difference between						
projected and actual						
earnings on pension						
plan investments	(10,877)		50,112		5,202	34,033
Net of deferred outflows/(inflows)	\$ 77,911	\$	210,629	\$	53,025	\$ 235,515

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Collective deferred outflows of resources and deferred inflows of resources (continued) Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions (excluding employer specific amounts, deferrals from District contributions subsequent to the measurement date, and deferrals from change on proportion) will be recognized in pension expense as follows:

Year Ending June 30,	
2017	\$ 53,024
2018	53,024
2019	61,430
2020	51,610
2021	 16,427
Total	\$ 235,515

Pension expense

For the year ended June 30, 2017, the District recognized net pension expense of \$113,132 which represents the District's proportionate share of allocable plan pension expense of \$85,212, plus the net amortization of deferred amounts from changes in proportion of \$33,326, less other adjustments to the net pension liability of \$5,406. The components of allocable pension expense, which exclude amounts attributable to employer paid member contributions and pension expense related to specific liabilities of individual employers, for the District for the year ending June 30, 2016 are as follows:

Service cost	\$ 29,128
Interest on total pension liability	63,597
Member contributions	(15,097)
Administrative expense	482
Expected investment return net of investment expense	(45,828)
Pension expense related to specific liabilities of individual	(95)
employers	
Recognition of deferred inflows/outflows of resources	
Amortization of assumption changes or inputs	43,555
Amortization of expected versus actual experience	4,268
Amortization of projected versus actual investment	
earnings on pension plan investments	 5,202
Pension expense	\$ 85,212

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF)

Plan description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25-years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Tier	Definition
1	Members enrolled prior to July 2007
2	Members eligible to enroll on or after July 1, 2007 and prior to November 2,
	2008
3	Members eligible to enroll on or after November 2, 2008 and prior to May 22,
	2010
4	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective Tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25-years of service. Deferred retirement is available to members who have at least 10-years of service credit and have not reached the service retirement age for the respective Tier.

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Contributions

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the State fiscal year 2016, the State's pension contribution was less than the actuarial determined amount.

Special funding situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the Notes to the Financial Statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. During the State fiscal year ending June 30, 2016, the State of New Jersey contributed \$62,734 to the TPAF for normal pension benefits on behalf of the District.

The contribution rate was 7.20% effective July 1, 2016 and will increase annually on July 1st until eventually reaching 7.50% of base salary effective July 1, 2018.

For purposes of reporting required by GASB Statement No. 68, Accounting and Financial Reporting for Pensions, the State's proportionate share of the net pension liability attributable to the employer, employer pension expense and related revenue, non-employer contributions and their allocable proportionate percentage for the fiscal year ending June 30, 2016 is as follows:

State's proportionate share of net pension liability	\$ 6,196,691
District's proportionate share of net pension liability	-
Employer pension expense and related revenue	465,595
Non-employer contribution	62,734

.0078771796%

Allocable proportionate percentage

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Special funding situation (continued)

The components of the contractually required contribution, which exclude amounts related to specific liabilities of individual employers, for the State for the year ending June 30, 2016 are as follows:

Service cost	\$ 183,819
Interest on total pension liability	289,714
Member contributions	(59,726)
Administrative expense	1,080
Expected investment return net of investment expense	(148,321)
Pension expense related to specific liabilities of individual employers	(19)
Recognition of deferred inflows/outflows of resources	
Amortization of economic/demographic gains or losses	1,949
Amortization of assumption changes or inputs	182,265
Amortization of investment gains or losses	14,834
Pension expense	\$ 465,595

Collective net pension liability and actuarial information

Components of net pension liability

As detailed earlier, the District was not required to report a liability for its proportionate share of net pension expense for TPAF due to a special funding situation. The State's proportionate share of the net pension liability for TPAF as of June 30, 2016 is as follows:

	 2016
Total pension liability	\$ 7,978,009
Plan fiduciary net position	 1,781,318
Net pension liability	\$ 6,196,691

Plan fiduciary net position as a percentage of the total pension liability

22.33%

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Salary increases 2012 - 2021

Thereafter Varies
Investment rate of return

Varies based on experience Varies based on experience 7.65%

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Collective net pension liability and actuarial information (continued)

Components of net pension liability (continued)

Pre-retirement, post retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial study for the period July 1, 2012 to June 30, 2015.

Long-term expected rate of return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2016 are summarized in the following table:

		Long-Term
		Expected
	Target	Rate of
Asset Class	Allocations	Return
Cash	5.00%	.39%
U.S. Government Bonds	1.50%	1.28%
U.S. Credit Bonds	13.00%	2.76%
U.S. Mortgages	2.00%	2.38%
U.S. Inflation-Indexed Bonds	1.50%	1.41%
U.S. High Yield Bonds	2.00%	4.70%
U.S. Equity Market	26.00%	5.14%
Foreign Developed Equity	13.25%	5.91%
Emerging Market Equity	6.50%	8.16%
Private Real Estate Property	5.25%	3.64%
Timber	1.00%	3.86%
Farmland	1.00%	4.39%
Private Equity	9.00%	8.97%
Commodities	.50%	2.87%
Hedge Funds - Multi-Strategy	5.00%	3.70%
Hedge Funds - Equity Hedge	3.75%	4.72%
Hedge Funds - Distressed	3.75%	3.49%

Note 6 - <u>Pension plan (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Discount rate

The discount rate used to measure the total pension liability was 3.22% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the rate in the most recent state fiscal year. The State contributed 30% of the actuarially determined contributions. Based on those assumptions, the plans fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2029. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2029 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability

Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the net pension liability of the State as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

	 2016
At current discount rate (3.22%)	\$ 6,196,691
At a 1% lower rate (2.22%)	7,400,234
At a 1% higher rate (4.22%)	5,213,843

C. Defined contribution retirement program

The Defined Contribution Retirement Program (DCRP) was established under the provisions Ch. 92, PL 2007 and expanded under the provisions of Ch. 89, PL 2008 and Ch. 1, PL 2010 to provide eligible members with a tax sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Employees eligible to enroll in the program include the following: First, employees enrolled in the Public Employees Retirement System (PERS) or Teachers Pension and Annuity Fund (TPAF) on or after July 1, 2007 who earn salary in excess of maximum compensation limits. Also, employees otherwise eligible to enroll in the TPAF and PERS who do not earn the minimum salary (\$ 8,300 in 2017) but who earn salary of at least \$5,000 annually are eligible to participate. The program administrator, Prudential Financial, makes information regarding the program available on its New Jersey Defined Contribution Program Web Site: www.prudential.com/njdcrp.

Contribution rates for DCRP provide for employee contributions of 5.50% of annual contractual compensation as defined. The District's contribution to the DCRP for fiscal year 2017 was \$2,178.

Note 6 - Pension plan (continued)

D. Contribution requirements

During the year ended June 30, 2017, the State of New Jersey contributed \$82,292 to the TPAF for post-retirement medical benefits, \$3,453 for non-contributory insurance premiums, \$310 for long-term disability insurance and \$95,310 for pension costs on behalf of the Board. Also, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$68,161 during the year ended June 30, 2017 for the employer's share of Social Security contributions for TPAF members calculated on their base salaries. These amounts have been included in the financial statements and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB 68.

Note 7 - <u>Post-retirement benefits</u>

Chapter 384 of PL 1987 and Ch. 6 of PL 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25-years of credited service or on a disability retirement. PL 2007, Ch. 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2016, there were 110,512 retirees eligible for post-retirement medical benefits, and the State contributed \$1.37 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Ch. 62, PL 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning the fiscal year 1994.

The State is also responsible for the cost attributable to Ch. 126, PL 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a Board of Education or County College with 25-years of service. In fiscal year 2016, the State paid \$ 231.2 million toward Ch. 126 benefits for 20,045 eligible retired members.

GASB Statement 45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The District's only material OPEB obligation is for healthcare provided to eligible retirees through the NJ State Health Benefits Program.

Plan Description - The School District contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under NJSA 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code, SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

Note 7 - Post-retirement benefits (continued)

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. The School District adopted a resolution to participate in the SHBP. The State Health Benefits Commission is the executive body established by the statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 by visiting their website at (www.nj.gov/treasury/pensions).

Funding Policy - Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis. Information regarding the State's annual contributions, annual OPEB cost and net OPEB obligations is available through the State as noted in the previous paragraph.

Note 8 - <u>Deferred compensation</u>

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Equitable Midland National

Note 9 - Interfund receivable and payables

The composition of interfund balances as of June 30, 2017 is as follows:

	Rec	eivable	Payable		
Fund	F	Fund	Fund		
General Fund	\$	480	\$	-	
Payroll Agency Fund		-		480	
Total	\$	480	\$	480	

The balance due from the Payroll Agency Fund to the General Fund represents balances due to the General Fund within the Payroll Bank Accounts totaling \$ 480.

Note 10 - Contingent liabilities

The District is involved in various legal proceedings that are incidental to its operations. These legal proceedings are not likely to have a material adverse effect on the financial position of the School District.

Amounts received or are receivables from grantor agencies could be subject to audit and adjusted by grantor agencies. Any disallowed claims, including amounts already collected, may result in a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amount, if any, to be immaterial.

Note 11 - Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. There was no significant reduction in insurance coverage from coverage of the prior year. The District did not have any insurance settlements which exceeded insurance coverage for the past three years. A complete Schedule of Insurance Coverage can be found in the Statistical Section of the Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its NJ Unemployment Compensation Insurance under the "Contributory Method." Under this plan, the District is required to remit the entire employee deduction of unemployment compensation to the State. Any claims for unemployment are paid for by the State from those funds.

Note 12 - Legal reserve accounts

A Capital Reserve Account was established by the District for the accumulation of funds for use as Capital Outlay expenditures in subsequent fiscal years. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Capital Reserve Account are restricted to capital projects in the Districts approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the Department of Education, a District may increase the balance in the Capital Reserve by appropriating funds in the annual General Fund budget certified for taxes. A District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to NJSA 19:60-2. Pursuant to NJAC 6A:26-9.1(d)1, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Note 12 - <u>Legal reserve accounts (continued)</u>

Beginning in fiscal year 2008, Districts are allowed as per NJSA 18A:7F-41(a) & 41(b) to deposit to the legal reserves by Board resolution during the month of June for any unanticipated revenue and/or unexpended line-item appropriation amounts. Pursuant to this State statute, the District deposited \$32,350 to their Maintenance Reserve Account and \$100,000 to their Tuition Reserve Account by Board resolution in June 2017 as summarized in the following schedule. The following schedule is a summarization of the Legal Reserve Accounts for the current year:

			Return		
Beginning	District	Interest	Unused		Ending

Note 13 - Fund balances - Budgetary basis

As described in Note 1 N-Fund Equity (Fund Balance) may be restricted, committed or assigned. An analysis of the General Fund balance on June 30, 2017 is as follows:

	 2017	
Restricted	 	
Capital Reserve account - Represents funds restricted to capital projects in the Districts long range facilities plan.	\$ 213,169	
Emergency Reserve account - Represents funds accumulated to finance unanticipated general fund expenditures required for a		
thorough and efficient education.	203,756	
Tuition Reserve account - Represents funds accumulated to finance for a foreseeable future tuition adjustment pursuant to N.J.A.C.	120,000	
6A:23A-17.1(f)	120,000	
Maintenance Reserve account - Represents funds accumulated for the required maintenance of a facility in accordance with the EFCFA (N.J.S.A. 18A:76-9)	72,350	
Committed	,	
Year-end encumbrance - Represents fund balance committed for purchase orders that have been issued but goods or services were not received as of June 30	33,014	
Unassigned		
Undesignated - Represents fund balance which has not been restricted or designated.	258,763	
Total fund balance	\$ 901,052	

LEBANON BOROUGH SCHOOL DISTRICT

Notes to the Financial Statements

Note 14 - <u>Subsequent events</u>

The District has evaluated subsequent events through October 27, 2017, which is the date the financial statements were available to be issued and no additional items were noted for disclosure.

Note 15 - Recent accounting pronouncements not yet effective

The following is a list of recent accounting pronouncements which are not yet effective as of the year end date of this report:

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This statement, which is effective for reporting periods beginning after June 15, 2017, is expected to have a material impact on the District's financial reporting.

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87 "*Leases*". This statement, which is effective for reporting periods beginning after June 15, 2019, is expected to have a material impact on the District's financial reporting.

Note 16 - Deficit balance in unrestricted net position

The District is reporting a deficit balance in unrestricted net position for governmental activities as of June 30, 2017 of \$273,276 on Schedule A-1 "Statement of Net Position". The deficit balance is not a negative reflection on the District's financial condition, but is the result of reporting required by GASB Statement No. 68 Accounting and Financial Reporting for Pensions which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

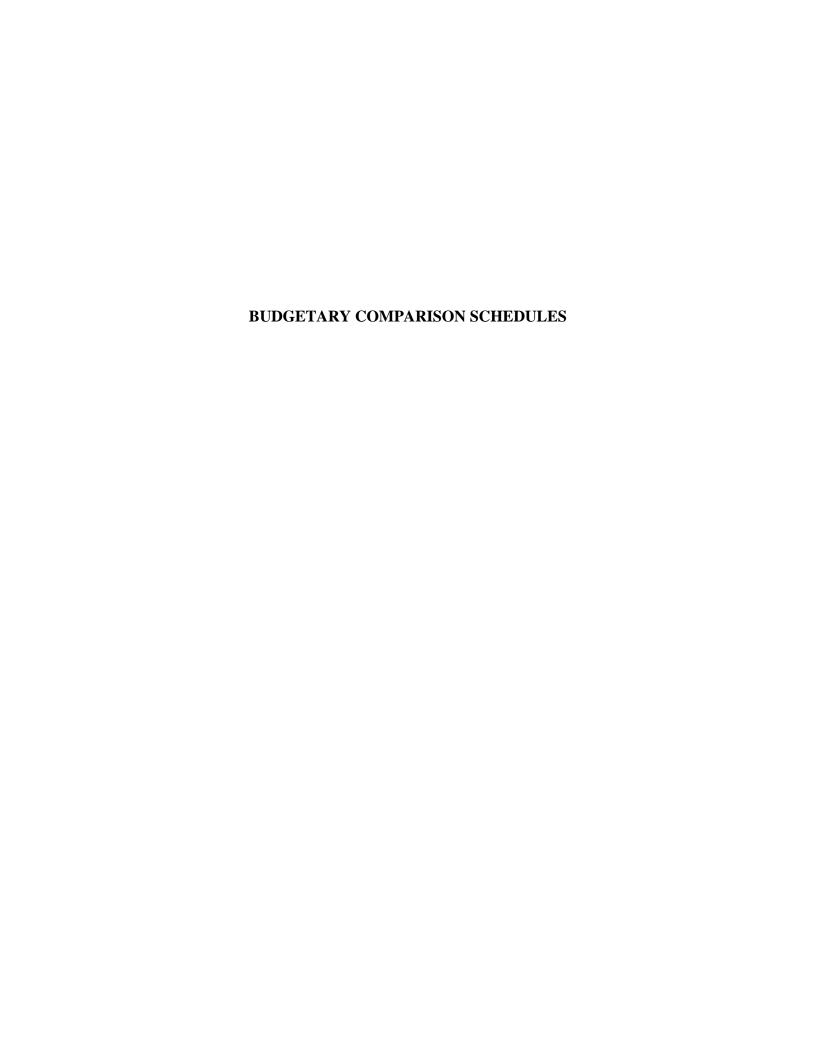

Note 17 - Lease obligations

Operating leases

As of June 30, 2017, the District had an operating lease for small information technology devices. The future minimum rental payments under the operating lease is as follows:

Fiscal Year Ending	Amount	Amount			
June 30, 2018	\$ 15,6	40			
June 30, 2019	15,6	40			
Total	\$ 31,2	80

LEBANON BOROUGH SCHOOL DISTRICT Notes to the Required Supplementary Information - Part III (Unaudited) June 30, 2017

Note 1 - Special funding situation - TPAF

The participating employer allocations included in the Supplemental Schedule of Employer Special Funding Allocations and the Supplemental Schedule of Special Funding Amounts by Employer for each local employer are provided as each local employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the pension expense allocated to the State of New Jersey (the State) under the special-funding situation and include their proportionate share of the net pension liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on actual contributions made to the Teachers' Pension and Annuity Fund allocated to employers based upon covered payroll and adjusted by expected State Early Retirement Incentive contributions for the respective fiscal year.

Note 2 - Changes in assumptions - TPAF

The discount rate decreased from 4.13% in State fiscal year 2015 to 3.22% in State fiscal year 2016. The inflation rate was 2.50% for State fiscal years 2015 and 2016.

Note 3 - Changes in assumptions - PERS

The discount rate decreased from 4.90% in State fiscal year 2015 to 3.98% in State fiscal year 2016. The inflation rate increased from 3.04% for State fiscal year 2015 to 3.08% for State fiscal year 2016.

SPECIAL REVENUE FUND

DETAIL STATEMENTS

The Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted expenditures for specific purposes.

NOTE: NJSA 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy when added to other components of the District's net budget may not exceed the pre-budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- (a) The District's basic tax rate is calculated from the A4F form which is submitted with the budget and the net valuation taxable.
- (b) Rates for debt service are based on each year's requirements.
 - * Revalued/Reassessed

See independent auditors' report.

LEBANON BOROUGH SCHOOL DISTRICT Direct and Overlapping Governmental Activities Debt As of December 31, 2016

Governmental Unit	Debt Outstanding	Estimated % Applicable (a)	Estimated Share of Overlapping Debt
Debt repaid with property taxes Municipality Regional High School County general obligation debt	\$ 4,668,673 755,000 75,793,752	100.00 3.42 1.31	\$ 4,668,673 25,793 995,343
Subtotal, overlapping debt			5,689,809
School district direct debt			
Total direct and overlapping debt			\$ 5,689,809

Sources: Assessed value data used to estimate applicable percentages provided by the County Board of Taxation. Debt outstanding data provided by each governmental unit.

NOTE: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the municipality. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Honorable President and Members of the Board of Education Lebanon Borough School District County of Hunterdon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the Governmental Activities, the Business-type Activities, and the aggregate remaining fund information of the Lebanon Borough School District, County of Hunterdon, the State of New Jersey, (the District), as of and for the year ended June 30, 2017, and the related Notes to the Financial Statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 27, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Lebanon Borough School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by The Uniform Guidance and New Jersey OMB Circular Letter 15-08

Honorable President and Members of the Board of Education Lebanon Borough School District County of Hunterdon, New Jersey

Report on Compliance for Each Major Federal Program and State Program

We have audited the Lebanon Borough School District's, (the District), compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the New Jersey OMB Circular Letter 15-08 that could have a direct and material effect on each of the District's major federal and New Jersey programs for the year ended June 30, 2017. Lebanon Borough School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major Federal and New Jersey programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and New Jersey OMB Circular 15-08. Those standards, the Uniform Guidance and OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Lebanon Borough School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and New Jersey programs for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of the Lebanon Borough School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Lebanon Borough School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

LEBANON BOROUGH SCHOOL DISTRICT Notes to the Schedules of Awards and Financial Assistance June 30, 2017

Note 1 - General

The accompanying Schedules of Financial Assistance present the activity of all Federal and State financial assistance programs of the Board of Education, Lebanon Borough School District. The Board of Education is defined in Note 1 (A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies, is included on the Schedule of Federal Financial Assistance.

Note 2 - Basis of accounting

The accompanying Schedules of Financial Assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting and those recorded in the Special Revenue Fund, which are presented using the budgetary basis of accounting. This basis of accounting are described in Notes 1 (C) and 1 (D) to the Board's financial statements.

Note 3 - Relationship of general-purpose financial statements

The financial statements present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying Schedules on the Modified Accrual Basis with the exception of the revenue recognition of the last State Aid payment in the current budget year, which is mandated pursuant to PL 2003, Ch. 97 (A3521). For GAAP purpose, payment is not recognized until the subsequent budget year due to the State deferral and recording of the last State Aid payment in the subsequent year. The Special Revenue Fund is presented in the accompanying Schedules on the Grant Accounting Budgetary Basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$557 for the General Fund and \$14,983 for the Capital Project Fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the General and Special Revenue Funds and Exhibit F-2 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the Capital Project Fund.

LEBANON BOROUGH SCHOOL DISTRICT Notes to the Schedules of Awards and Financial Assistance June 30, 2017

Note 3 - Relationship of general-purpose financial statements (continued)

Financial assistance revenues are reported in the Board's financial statements on a GAAP basis as follows:

	F	Federal	State	 Total
General Fund	\$	-	\$ 451,884	\$ 451,884
Special Revenue Fund		49,596	-	49,596
Capital Projects Fund			 5,533	5,533
Total	\$	49,596	\$ 457,417	\$ 507,013

Note 4 - Relationship to federal and state financial reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related Federal and State financial reports.

Note 5 - Other

The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the district for the year ended June 30, 2017. TPAF Social Security Contribution represents the amount reimbursed by the State for the employer's share of Social Security contributions for TPAF members for the year ended June 30, 2017.
