## Introductory Section

KIMBERLY J. SCHNEIDER, Ed.D. Superintendent

www.mcts.edu

November 28, 2017

Honorable President and Members of the Board of Education of the Area Vocational-Technical Schools of Mercer County Hamilton, New Jersey 08690

Dear Board Members and Constituents:

The Comprehensive Annual Financial Report (CAFR) of the Area Vocational-Technical Schools of Mercer County (District) as of and for the year ended June 30, 2017, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and government-wide financial statements of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The CAFR is presented in four sections: Introductory, Financial, Statistical and Single Audit. The Introductory section includes this Transmittal Letter (designed to complement Management's Discussion and Analysis and should be read in conjunction with it), the District's Organizational Chart list of Principal Officials and a list of independent auditors and advisors. The Financial section includes the Independent Auditors' Report, Management's Discussion and Analysis, basic financial statements and related footnotes and schedules. The Statistical section includes selected financial and demographic information, generally presented on a multi-year basis and is unaudited. The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and the New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid Payments." A federal single audit was not required in the 2017 fiscal year as federal expenditures did not exceed \$750,000. Information related to this single audit, including the auditors' report on internal control and compliance with applicable laws and regulations and findings and questioned costs, is included in the Single Audit section of this report.

#### 1. REPORTING ENTITY AND ITS SERVICES:

The District is considered fiscally dependent upon County Government; therefore, it is an entity that must report under the Government Accounting Standards Board (GASB) Statement No. 34. All funds and the government-wide financial statements of the District are included in this report.

The District provides a full range of educational services appropriate to grade levels 9 to 12 in full-time academies and grades 11 to 12 in shared-time secondary programs, adult, and post-secondary programs. These include regular vocational, as well as, vocational special education

for handicapped students. The District completed the 2016-2017 fiscal year with an average daily enrollment of 977 students. Following are the District's average daily enrollments over the last five (5) years:

#### Average Daily Enrollment

Fiscal Year	Student Enrollment
2016-2017	977
2015-2016	887
2014-2015	883
2013-2014	883
2012-2013	847

#### 2. ECONOMIC CONDITION AND OUTLOOK:

The District is primarily a shared-time vocational-education delivery system serving all of the secondary public and non-public school districts in Mercer County and has a full-time Health Science Academy (HSA), a full-time Science, Technology, Engineering and Mathematics (STEM) Academy and a full-time Culinary Academy to better meet the needs of the students and industry. The District was formed in 1968 as a result of a resolution passed by the Mercer County Board of Chosen Freeholders. Under the auspices of a seven-member Board of Education, the District also sponsors a comprehensive adult and post-secondary vocational-technical program.

The District is currently operating two secondary schools and one post-secondary school. The Assunpink Center houses both the full time HSA Academy, as well as, shared-time programs and the Sypek Center operates a full time Culinary Academy, as well as, shared-time vocational-technical facilities serving 11<sup>th</sup> and 12<sup>th</sup> grade students and other out-of-school youth who require entry-level career training. The Career Prep Program, located on the West Windsor Campus of the Mercer County Community College, is also a shared-time educational program designed to serve 12<sup>th</sup> grade students who are seeking careers in Theatre, Dance, Professional Cooking, Business, Technology, Exercise Science, Criminal Justice, Fire Science and Radio & TV Production which are sponsored by the school district. The STEM Academy is also located on the Mercer County Community College campus.

The Health Careers Center (HCC) is a post-secondary educational facility designed to serve individuals who are interested in pursuing careers in practical nursing, medical assisting, massage therapy, and other allied health careers. Part-time adult evening programs are available at the Assunpink and HCC. The Adult Evening School currently maintains approximately 25 different occupational programs at various levels, in the areas of apprenticeship, business, trade and industry, health, and wastewater management.

The District also serves as the local educational agency for the Thomas J. Rubino Academy, an alternative high school which serves all of Mercer County. The alternative education program is designed to offer structure different from the traditional form of education to assist students in realizing their life goals and choices, talents, abilities, and career interests. The education services for the alternative program are provided by Camelot Educational Resources LLC, an educational service provider to assist New Jersey's public schools, private schools, and state agencies to meet their ever-increasing needs and demands. The education program is delivered at the Alfred Reed School in Ewing, New Jersey through an inter-local agreement with the Mercer County Special Services School District. During the 2016-2017 school year, the average student enrollment in the alternative education program was 95.

The District acquires its funding from federal, state, county, and local sources. As per the 2016-17 budget of \$13,746,368, approximately 49% of the budget is supported by county tax, 18% by state aid, 3% by federal/state special revenue aid, and 30% from tuition, fees, miscellaneous income and through the addition of fund balance.

Mercer County is home of a wide range of industries including education, health services, business services, leisure and hospitality. The highly skilled workforce includes those in the professional, scientific and technical services industries.

Mercer County is projected to add 15,935 jobs from 2014 to 2024. Professional, scientific, and technical services (+7,829 or +32.0%) is projected to experience the most employment growth, followed by healthcare and social services (+5,733 or +17.6%), accommodation and food services (+2,272), and retail trade (+1,806). Total employment in the county is projected to grow by 6.3 percent, slightly lower than the statewide rate of 6.5 percent. The state unemployment rate in June 2 017 was 4.2%; while the Mercer County unemployment rate was 3.8% for the same period.

Area Vocational-Technical Schools of Mercer County is striving to align programs and prepare students to meet the demands of today and the future through additional Career Prep and full-time Academy Programs for students to earn the credentials for high school and beyond in conjunction with Mercer County Community College, business and industry apprenticeships and partnerships.

The District experienced an increase in enrollment during the 2016-2017 school year. The District cannot accurately forecast future enrollment. While the District does not anticipate a significant change in enrollment for the 2017-2018 school year, the District is aware that requirements for controlling out of District placements from sending districts and the 2% cap on the sending district's tax levy increases have the potential to impact future enrollment.

#### 3. MAJOR INITIATIVES:

#### **Capital Project Initiatives:**

The conversion from a shared-time facility to a full-time facility still remains an ongoing capital improvement project as part of the Long-Range Facility Plan. It has become more evident that "full-time" career and technical education programs will offer students an integrated academic and technical comprehensive educational program. The design schematics for the proposed full-time educational program will include specialized laboratory facilities and academic classrooms for career programs in six (6) distinct academies: STEM, Culinary, Design and Construction, Transportation, Criminalistics, and Health Sciences. The academy concept incorporates innovative approaches to education such as flexible scheduling, integrated curriculum, industry-school mentorship and partnership, technology, project-based research experiences, and internships. After success implementation of a full-time Academy in Health Science, the district completed a second year of the STEM Academy and first year of the Culinary Academy.

The District buildings range in age from 43 to 106 years old. The District is committed to the continued maintenance and repair of the buildings. During the 2016-2017 school year, the District had ongoing capital projects which included the ROD project which provides for the replacement of existing fire alarm systems at both the Assunpink and Sypek Centers. HVAC upgrades to replace classroom unit ventilators and shop air handlers were also completed at both campuses. The District continues to update and replace shop doors and provide for security upgrades as part of the original ROD scope.

Additional ongoing projects include, network infrastructure improvements, burglar alarm replacement at all district sites and perimeter security upgrades to limit unauthorized access to the facilities. In addition, the District is beginning the preliminary curriculum and educational specification scope for anticipated new construction and remodeling that will occur at Sypek and Assunpink, as MCTS transitions to accommodate a full-time career academy.

#### **Program Initiatives:**

- The District completed its first year of the full-time Academy of Culinary Arts and second year of the full-time STEM Academy.
- The District completed the National Automotive Technician's Education Foundation NATEF certification for five Auto Shops.
- Planning and implementation of a Science Lab and Food Science Lab at the Arthur R. Sypek Center began during the 2016-2017 school year.
- Began the planning of the Culinary Wing at the Arthur R. Sypek Center.
- Expansion of collaborative partnerships to develop student centered programs in higher education, business/industry, and labor and government in order to meet the future demands of the economy and workforce requirements.
- Increased HCC and Adult Evening School program options to include Certified Nursing Assistant (CNA) Certification, Barbering and additional technical skills programs for home owners and novice learners.

#### 4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control environment designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control environment is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (a) the cost of a control should not exceed the benefits likely to be derived; and (b) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that an adequate internal control environment is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control environment is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control environment, including that portion related to Federal and State financial assistance programs, as well as, to determine that the District has complied with applicable laws and regulations.

#### 5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of School Estimate. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance on June 30, 2017.

#### 6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect GAAP as promulgated by the GASB. The accounting system of the District is organized on the basis of funds and a government-wide presentation is also included. These funds and government-wide statements are explained in "Notes to the Basic Financial Statements," Note 1.

#### 7. FINANCIAL INFORMATION AT FISCAL YEAR-END:

As demonstrated by the various statements and schedules included in the financial section of the report, the District continues to meet its responsibility for sound financial management. Financial summaries and detail should be reviewed in the Management's Discussion and Analysis for the Fiscal Year ended June 30, 2017.

#### 8. DEBT ADMINISTRATION:

At June 30, 2017, the District had no outstanding debt other than obligations under capital leases.

#### 9. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Basic Financial Statements," Note 3. The District has adopted a Cash Management Plan which requires it to deposit public funds in public depositories protected from a loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking . institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the act.

#### 10. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard, pollution, IT and theft insurance on property and contents, and fidelity bonds.

#### 11. OTHER INFORMATION:

**Independent Audit** – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Board selected the accounting firm Wiss and Company, LLP. In addition to meeting the requirements set forth in state statutes, the audit

also was designed to meet the requirements of the Federal Uniform Guidance and New Jersey OMB Circular 15-08. The auditors' report on the basic financial statements and footnotes, combining and individual fund statements and schedules is included in the financial section of this report. The auditors' report related specifically to the single audit is included in the single audit section of this report.

Awards – The District had applied to the Association of School Business Officials (ASBO) International for the "Certificate of Excellence in Financial Reporting" for its Comprehensive Annual Financial Report for the fiscal years ended June 30, 2014, June 30, 2015 and June 30, 2016 and was granted the award. In order to be awarded this certificate, the District published an easily readable and efficiently organized Comprehensive Annual Financial Report and satisfied both generally accepted accounting principles and applicable legal requirements.

We believe that our current Comprehensive Annual Financial Report continues to meet the Program's rigorous requirements, and we are submitting it to ASBO to determine its eligibility for the fiscal year 2016-2017 award.

#### ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Area Vocational-Technical Schools of Mercer County Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial staff.

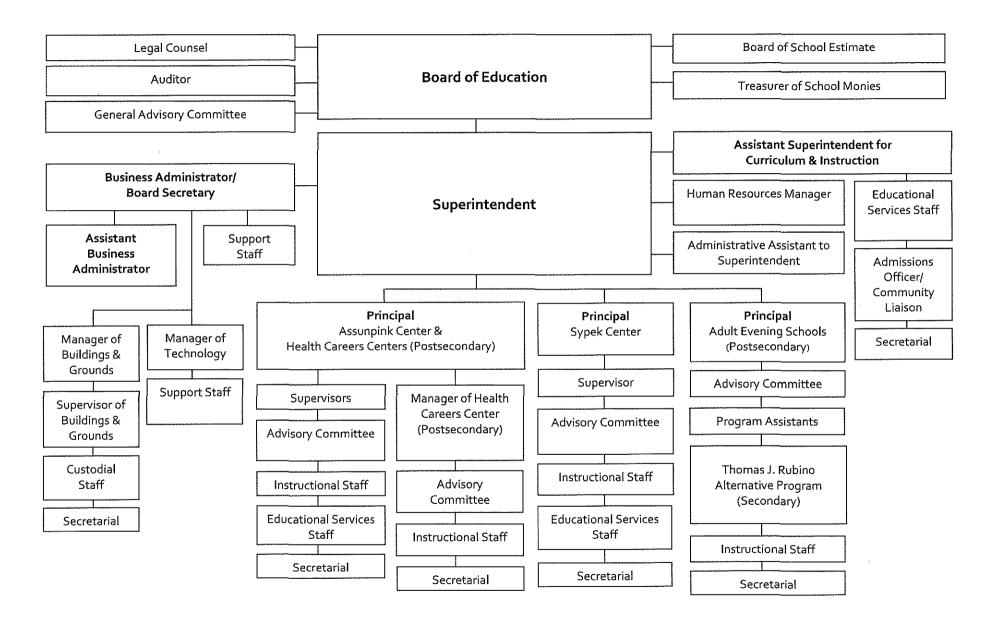

Respectfully submitted:

-Kingberly J. Schneider, Ed.D. Superintendent

## **Financial Section**

#### Independent Auditors' Report

Honorable President and Members of the Board of Education Area Vocational-Technical Schools of Mercer County School District Hamilton, New Jersey County of Mercer

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Area-Vocational Technical Schools of Mercer County School District, in the County of Mercer, New Jersey (the "District"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating overall presentation financial the of the statements.

11

354 Eisenhower Parkway, Suite 1850 Livingston, NJ 07039 973.994.9400 We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of the District's proportionate share of the net pension liability-PERS, schedule of District contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, such as the combining and individual fund financial statements, long-term debt schedules and schedules of expenditures of federal awards and state financial assistance, as required by New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid,* and the other information, such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## Required Supplementary Information – Part I Management's Discussion and Analysis

#### AREA VOCATIONAL-TECHNICAL SCHOOLS OF MERCER COUNTY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2017

Management's Discussion and Analysis (MD&A) of the Area Vocational-Technical Schools of Mercer County School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements, notes to the basic financial statements and additional information in the transmittal letter to enhance their understanding of the District's financial performance.

Management's Discussion and Analysis is Required Supplementary Information specified in the Governmental Accounting Standards Board (GASB) Statement No. 34 - Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

#### **Financial Highlights**

Key financial highlights for 2017 are as follows:

- In total, net position increased by \$13,623 from 2016.
- Total assets of governmental activities decreased by \$42,440. Deferred outflow of resources increased \$2,170,991 as a result of the effects of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions and Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date an amendment to GASB Statement No. 68.
- Total liabilities of governmental activities increased by \$2,329,167, which was largely related to an increase in the net pension liability of \$3,140,520 at June 30, 2017. This was partially offset by a decrease in non-current liabilities for \$1,014,843 due to principal payments on capital leases made by the District.
- General revenues accounted for \$12,696,346 of revenue or 69.1% of all revenues. Program specific revenues in the form of tuition and other fees accounted for \$4,637,123 or 25.3% of total revenues of \$18,364,824.
- Total expenses for all programs was \$18,351,201, including expenses of \$1,347,325 for allocated depreciation. Expenses in the amount of \$5,182,044 were offset by specific tuition and operating grants and contributions. General revenues (primarily county tax levy and state and federal aid) of \$12,696,346 were adequate to provide for the balance of these programs, exclusive of the charge for depreciation.
- The General Fund had \$13,846,656 in revenues and \$13,287,578 in expenditures. The General Fund's fund balance increased \$559,666 from 2016.

• The activity in the Special Revenue Fund decreased from the prior year, experiencing a decrease in revenue from state sources of \$126,377, offset by an increase from federal sources of \$51,592. In addition, there was a decrease in local sources of \$600.

#### Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of basic financial statements and notes to those basic statements. These statements are organized so the reader can understand the Area Vocational-Technical Schools of Mercer County District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The three (3) components that comprise the District's basic financial statements are: government-wide financial statements; fund financial statements; and notes to the basic financial statements. The CAFR also contains required and supplementary information in addition to the basic financial statements themselves.

#### **Reporting the School District as a Whole**

#### **Government-wide Activities**

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longerterm view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Area Vocational-Technical Schools of Mercer County School District, the General Fund is by far the most significant fund.

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016-17?" The Statement of Net Position and the Statement of Activities helps answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two (2) statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the District has the following distinct kinds of activity:

 Governmental Activities – All of the District's programs and services, aside from the District's operation of its alternative high school, are reported here including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

• Business-Type Activities – All revenues and expenses pertaining to the operation of the Rubino Academy, the District's alternative high school, is reported here.

The government-wide financial statements are Schedules A-1 and A-2.

#### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

The analysis of the District's major (all) funds is included in the 2016-17 Comprehensive Annual Financial Report as presented by the District. Fund financial statements provide detailed information about the District's major funds. All of the funds of the District can be divided into three (3) categories: governmental funds, proprietary funds and fiduciary funds. The fund financial statements are utilized for District financial decision making.

#### **Governmental Funds**

The District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The District maintains three (3) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund, special revenue fund and capital projects fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund and special revenue fund. Budgetary comparison statements have been provided as required supplementary information for the general fund and supplementary information for the special revenue fund to demonstrate compliance with this budget. The basic governmental fund financial statements are Schedules B-1, B-2 and B-3.

#### **General Fund**

The general fund is the main operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$498,096, while total fund balance was \$3,945,347. The fund balance increased \$559,666 during the current fiscal year primarily due to an increase in tuition.

#### **Special Revenue Fund**

The special revenue fund is the fund that accounts for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditures for specified purposes. During the current fiscal year, the District expended \$519,946 from federal sources and \$24,975 from state sources.

#### **Capital Projects Fund**

The District uses the capital projects fund to account for financial resources to be used for the acquisition or construction of major capital projects (other than those financed by proprietary funds and trust funds). During the current fiscal year, the District expended \$1,216,085 for improvements to both the Assunpink and Sypek Centers.

#### **Enterprise Fund**

The District maintains one enterprise fund, which is a proprietary fund type. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the operations of its Alternative High School, the Rubino Academy, which is considered to be a major fund of the District. The basic enterprise fund financial statements are Schedules B-4, B-5 and B-6.

#### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District uses trust funds to account for the activity in its private-purpose scholarship fund and unemployment compensation trust fund. The District uses agency funds to account for resources held for student activities and groups and payroll-related liabilities. The basic fiduciary fund financial statements are Schedules B-7 and B-8.

#### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 34 through 67 of this report.

#### **Required Supplementary Information and Other Information**

The District is required to present certain supplementary information for its participation in the Public Employees' Retirement System ("PERS") and Teachers' Pension and Annuity Fund ("TPAF"). Schedules of the District's proportionate share of the PERS net pension liability, contributions made to this program and a schedule of the State's proportionate share of the net pension liability related to TPAF are reported as required supplementary information and can be found on pages 68-71 of this report. The individual and combining statements referred to earlier in connection with governmental funds are presented immediately following the required

supplementary information to the financial statements. Combining and individual fund statements and schedules can be found on pages 72-87 of this report.

#### The School District as a Whole

The Statement of Net Position provides the perspective of the District as a whole. Net position may serve as an indicator of a government's financial position. However, as noted earlier, net position is not the primary basis for decision making for each budget cycle. The District's financial position is the product of several financial transactions including the net results of activities, the increase and decrease of compensated absences and capital leases, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table provides a summary of the District's net position as of June 30, 2017 and 2016:

Net Position

			Jur	ne 30, 201		016			
	Governmental			Business-type					
		Act	ivities			Activit	ties	Total	1
		2017	:	2016	2017		2016	2017	2016
Current and other assets	\$	5,090,917	\$	5,253,724	\$248,7	34	\$179,375	\$5,339,701	\$5,433,099
Capital assets, net	_	28,026,276		27,905,909				28,026,276	27,905,909
Total assets		33,117,193		33,159,633	248,7	34	179,375	33,365,977	33,339,008
Deferred Outflow of Resources		3,698,569		1,527,578				3,698,569	1,527,578
Current liabilities and other		1,609,850		1,406,360	246,9	76	128,527	1,856,826	1,534,887
Net pension liability		10,137,263		6,996,743				10,137,263	6,996,743
Long-term liabilities		8,330,616		9,345,459				8,330,616	9,345,459
Total liabilities		20,077,729		17,748,562	246,9	76	128,527	20,324,705	17,877,089
Defened Inflows of Resources		171,388		434,667				171,388	434,667
Net position:									
Net investment in capital assets		19,222,712		18,177,214				19,222,712	18,177,214
Restricted		4,254,896		4,459,879				4,254,896	4,459,879
Unrestricted (deficit)	_	(6,910,963)		(6,133,111)	1,8	08	50,848	(6,909,155)	(6,082,263)
Total net position	\$	16,566,645	\$	16,503,982	\$ 1,8	08	\$ 50,848	\$ 16,568,453 \$	16,554,830

Total assets increased by \$26,969. The majority of the increase resulted from an increase in accounts receivable related to tuition.

Total liabilities increased by \$2,447,616. The District's long-term liabilities decreased \$1,014,843 and current and other liabilities increased \$321,939. The decrease in long-term liabilities is due to the District making annual principal payments on capital leases. The increase in current liabilities is due to an increase in unearned revenue related to funds received from the SDA. The net pension liability increased by \$3,140,520, deferred outflow of resources increased \$2,170,991 and deferred inflow of resources decreased by \$263,279 all of which are a result of the effects of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions* and Governmental Accounting Standards Board Statement No. 71, *Pension Transition for* 

Contributions Made Subsequent to the Measurement Date – an amendment to GASB Statement No. 68.

Unrestricted net position, the part of net position that can be used to finance day-to day activities, without constraints, established by grants or legal requirements of the District, decreased by \$826,892. The Net Position for Business-Type Activities is \$1,808 at June 30, 2017.

The following table provides a comparison of government-wide changes in net position for the 2017 and 2016 fiscal years:

	Governm	nental	Busine	ss-type		
	Activi	ties	Activ	Activities		al
	2017	2016	2017	2016	2017	2016

Change in net position	62,663	1,170,725	(49,040)	30,140	13,623	1,200,865
Net position - beginning	16,503,982	15,333,257	50,848	20,708	16,554,830	15,353,965
Net position - ending	\$ 16,566,645	\$ 16,503,982	\$ 1,808	\$ 50,848	\$ 16,568,453	\$ 16,554,830

Changes in Net Position Years ended June 30, 2017 and 2016

Charges for services include tuition and registration fees for full-time academies, shared-time programs, and alternative school. The decrease in tuition for Business-type Activities is mainly attributable to decreased enrollment at the Rubino Academy.

County Appropriations/Taxes increased due to an increase in the county tax levy.

#### **Financial Analysis of the District's Funds**

The District uses funds to control and manage money for particular purposes. The Fund's basic financial statements allow the District to demonstrate its stewardship over and accountability for resources received from the County of Mercer, State of New Jersey and other entities. These statements also allow the reader to obtain more insight into the financial workings of the District, and assess further the District's overall financial health.

As the District completed the fiscal year ended June 30, 2017, it reported a general fund balance of \$3,945,347, which is an increase of \$559,666 from the prior year. The Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities, Schedule B-3, presents the reader with a detailed explanation of the increase in fund balance for the fiscal year.

#### Governmental Funds (Schedules B-1 and B-2)

Governmental funds are accounted for using the modified accrual basis of accounting. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of resources. Such information is essential in assessing the District's financing requirements.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility of sound financial management. The following schedules represent revenues and expenditures from a New Jersey budgetary viewpoint. The first schedule presents a summary of the revenues of the General Fund and Special Revenue Fund for the fiscal year ended June 30, 2017, and the amount and percentage of increases and decreases in relation to prior year revenues.

#### Revenues Year Ended June 30, 2017

Revenue	<u>Amount</u>	Percent of <u>Total</u>	(I	Increase Decrease) rom 2016	Percent of Increase <u>(Decrease)</u>
Local sources	\$ 10,480,640	72.8%	\$	410,902	4.1%
State sources	3,390,991	23.6		(49,429)	(1.4)
Federal sources	 519,946	3.6		51,592	11.0
Total	\$ 14,391,577	100.0%	\$	413,065	3.0%

The increase in the local sources was mainly attributable to the increase in enrollment and general tuition fees. Federal sources increased primarily due to the District receiving additional grant funds. The decrease in State sources is primarily attributable to a decrease in state aid. The following schedule presents a summary of General Fund and Special Revenue Fund expenditures for the year ended June 30, 2017, and the amount and percentage of increases in relation to prior year expenditures:

#### Expenditures Year Ended June 30, 2017

<b>Expenditures</b>	Amount	Percent <u>of Total</u>	 ncrease <u>rom 2016</u>	Percent of <u>Increase</u>
Current:				
Instruction	\$ 3,785,752	27.4%	\$ 135,643	3.7%
Support services	7,024,582	50.8	638,285	10.0
Capital outlay	293,941	2.1	95,888	48.4
Debt Service – capital lease	1,265,148	9.1	9,109	0.7
Special schools	 1,463,076	10.6	31,508	2.2
Total	 13,832,499	100.0%	\$ 910,433	7.0%

The increase in instruction and support services is due to an increase in enrollment. The increase in capital outlay is due to construction in progress related to the science lab project that commenced in the current year as well as other capital additions.

#### **Capital Assets**

At the end of fiscal years 2017 and 2016, the District had \$28,026,276 and \$27,905,909, respectively invested in a broad range of capital assets, including construction in progress, buildings, furniture, vehicles, instructional equipment and other equipment. This amount is net of accumulated depreciation. Increases during the year represent additions to those categories, while decreases represent retirement of assets during the year, and depreciation of depreciable assets for the year. The table below shows the net book value of governmental activities capital assets at the end of the 2017 and 2016 fiscal years.

_	 2017	 2016
Construction in Progress	\$ 10,663,458	\$ 9,419,736
Buildings and Building Improvements	16,402,846	17,529,246
Machinery and Equipment	 959,972	 956,927
Total	\$ 28,026,276	\$ 27,905,909

#### **Capital Assets (Net of Depreciation)**

During the current fiscal year, \$1,471,542 of capital assets were capitalized as net additions. Increases in capital assets were offset by depreciation expense for the year. The District's capital additions for the 2016-17 fiscal year included site improvements to both Assunpink and Sypek Centers.

#### Long Term Debt/Liabilities

The District maintains a liability for vested compensated absences which is recorded in the government-wide financial statements. This liability is attributable to unused sick and vacation time that is due to employees at retirement or termination. Of the \$428,588 and \$398,603 liabilities at June 30, 2017 and 2016, respectively, \$1,000 and \$20,000 are due within one year, respectively.

In July 2011, the District entered into a long-term capital lease to obtain funding sources for an Energy Savings Improvement Plan (ESIP). The lease agreement requires the District to make annual principal and interest payments from its general fund budget. Of the \$8,135,000 liability at June 30, 2017, \$720,000 is due within one year.

In July 2015, the District entered into a long-term capital lease to obtain funding sources for a capital project. The lease agreement requires the District to make annual principal and interest payments from its general fund budget. Of the \$726,555 liability at June 30, 2017, \$238,527 is due within one year.

Governmental Activities						
	2017	2016				
Compensated Absences Payable	\$428,588	\$398,603				
ESIP Capital Lease	8,135,000	8,825,000				
Capital Lease	726,555	961,498				
Total	<u>\$ 9,290,143</u>	<u>\$ 10,185,101</u>				

For additional information on Capital Assets or Long Term Debt, see Notes 4 and 5, respectively, to the Basic Financial Statements.

#### **General Fund Budgetary Highlights**

The District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of the year, the District revises its budget as it attempts to take into consideration unexpected changes in revenues and expenditures. A schedule showing the District's original and final budget compared with actual operating results is provided in Section C of the CAFR, entitled Budgetary Comparison Schedules. The District generally did better than had been budgeted in its General Fund since it practices conservative budgetary practices in which revenues are forecasted very conservatively and expenditures are budgeted with worst-case scenarios in mind. The General Fund finished the fiscal year \$95,563 less than had been budgeted in terms of revenues and \$964,670 better in terms of expenditures. Both the revenues and appropriations were adjusted for \$931,603 of non-budgeted amounts reflected in the comparison schedule for reimbursed TPAF social security contributions, on-behalf TPAF pension contributions. TPAF post retirement medical contributions and TPAF non-contributory insurance contributions. Due to the high precision of the District's formulated budget, significant transfers between various account lines were not necessary.

#### **Economic Factors and Next Year's Budget**

For the 2016-17 school year, the Area Vocational-Technical Schools of Mercer County School District was able to sustain its general operating budget through the County Aid Levy, State Education Aid and Local Revenue Sources. Approximately 24% of the District's general fund revenue was from State Aid (Restricted and Not Restricted), while 49% of total general fund revenue was from the County Tax Levy. The balance of the general fund revenue was comprised of Tuition, Registration Fees and Miscellaneous Income.

The 2016-17 budget was adopted on April 5, 2016 by the County Freeholders. The District anticipates an increase in enrollment for the 2016-17 fiscal year but, due to the elective nature of its programs, the District cannot accurately forecast future enrollment. If the District were to experience a significant increase in enrollment with no appreciable increase in the County Tax Levy for future budgets, the District will be faced with the following alternatives: (a) reduce programs and services; (b) propose a Tuition Plan for the sending school districts; or (c) increase Tuition and other related fees for adult students.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional information, contact Dr. Kimberly J. Schneider, Superintendent at the Board of Education Area Vocational-Technical Schools of Mercer County, 1085 Old Trenton Road, Trenton, New Jersey 08690. Also, please visit our website to learn more about our District at <u>www.mcts.edu</u>.

**Basic Financial Statements** 

### Government-wide Financial Statements

The government-wide financial statements provide a financial overview of the District's operations. These financial statements present the financial position and operating results of all governmental activities and business-type activities as of and for the year ended June 30, 2017.

#### AREA VOCATIONAL-TECHNICAL SCHOOLS OF MERCER COUNTY SCHOOL DISTRICT GOVERNMENTAL FUNDS

#### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year ended June 30, 2017

Total Net Change in Fund Balances - Governmental Funds (B-2)			\$ (169,985)
Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:			
Capital additions for capital assets are reported in governmental funds as expenditures. However, on the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital additions, net exceeded depreciation expense and the loss on disposal of assets in the current fiscal year.			
Depreciation Expense	\$	(1,347,325)	
Capital Additions, net		1,471,542	
Loss on disposal of assets		(3,850)	120,367
The issuance of long - term debt (e.g. capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term liabilities and related items.			
Obligations under Capital Leases			924,943
In the Statement of Activities, interest on long-term debt is accrued, regardless of when In the governmental funds, interest is recorded when due. The decrease in accrued inter- from the prior year is an addition to the reconciliation.		·.	12,843
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental fune Pension Expense	ds.		(795,520)
In the Statement of Activities, certain operating expenses, e.g., compensated absences (vacation and sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an			(20.000)
addition to the reconciliation.			 (29,985)
Change in Net Position of Governmental Activities (A-2)			\$ 62,663

# Notes to the Basic Financial Statements

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies

The financial statements of the Area Vocational-Technical Schools of Mercer County School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are disclosed below.

The District is a Type I school district located in Mercer County, New Jersey. The District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of appointed officials and is responsible for the fiscal control of the District. The Board is comprised of six members appointed to four year terms by the Mercer County Board of Chosen Freeholders, as well as, the Executive County Superintendent of Schools (statutory member). The operations of the District include two Vocational-Technical Schools and an Adult Health Career Center. The District is also the Local Educational Authority for an Alternative Education Program located in the Township of Ewing. There are no additional entities required to be included in the reporting entity under the criteria described here.

### A. Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it. The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the Area Vocational-Technical Schools of Mercer County School District in Hamilton, New Jersey.

The District receives funding from county, state, and federal government sources and must comply with the requirements of these funding source entities. The District is a component unit of Mercer County, however, the County reports its financial statements on a regulatory-basis of accounting which does not recognize or report component units.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

The District has no component units that are required to be included within the reporting entity, as set forth in Section 2100 of the GASB Codification of <u>Governmental Accounting and Financial</u> <u>Reporting Standards.</u>

### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, county appropriations and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The New Jersey Department of Education requires that all funds be reported as major to promote consistency among the school districts in the State of New Jersey.

### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues, to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, net pension liability and capital lease obligations are recorded only when payment is due.

County taxes, interest, and state aid associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when the District receives cash.

The District has reported the following major governmental funds:

*General Fund*: The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay subfund.

*Special Revenue Fund*: The District maintains one special revenue fund which includes the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes, other than capital projects.

*Capital Projects Fund*: The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets. The financial resources are derived mainly from approved county funds and capital leases.

The District reports the following major proprietary fund:

*Rubino Academy Enterprise Fund*: The Rubino Academy fund accounts for all revenues and expenses pertaining to the alternative high school's operations. The Rubino Academy enterprise fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing services to the students on a continuing basis are financed or recovered primarily through tuition charges.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

Additionally, the District reports the following fiduciary fund types:

Fiduciary Funds of the District include the Student Activities Agency Fund, Payroll Agency Fund, the Unemployment Compensation Trust Fund and Private-Purpose Scholarship Trust Fund. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the District.

*Trust and Agency Funds:* The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

*Trust Funds:* The unemployment compensation and private purpose scholarship trust funds are accounted for using the economic resources measurement focus. The unemployment compensation trust fund is used to account for contributions from the District and employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. The private-purpose scholarship trust fund is utilized to provide scholarships to students and to account for the related transactions.

Agency Funds (Payroll and Student Activity Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

The enterprise fund distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges for tuition. Operating expenses for the enterprise fund include purchases of professional – educational services, rental expenses, supplies and miscellaneous expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports unearned revenue on its statement of net position and balance sheet. Unearned revenue arises when resources are received by the District before it has legal claim to them, as when federal or state assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the statement of net position and balance sheet and revenue is recognized.

Ad Valorem (Property) taxes are susceptible to accrual as, under New Jersey State Statute, a County is required to remit to the school district the entire balance of taxes. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The County Board of Taxation is responsible for the assessment of properties. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

### D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general and special revenue funds. The budgets are submitted to the County Office and Board of School Estimates for approval. Budgets are prepared using the modified accrual basis of accounting, except the Special Revenue Fund. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referred in N.J.A.C. 6A:23. All budget amendments / transfers must be approved by Board resolution. All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally-authorized revisions of the annual budgets during the year). The over-expenditures in the general fund are due to the inclusion of the non-budgeted on behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent overexpenditures.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last two state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

### E. Cash and Cash Equivalents

Cash and cash equivalents include petty cash, amounts on deposit, money market accounts, short-term investments and certificates of deposit with original maturities of three months or less.

### F. Tuition Receivable / Payable

Tuition charges were established by the District based on estimated costs. The charges are subject to adjustment when the final costs are determined. These adjustments are recorded upon certification by the State Department of Education, which is usually one to two years following the contract year. The cumulative adjustments through June 30, 2017 which have not been recorded, are not determinable.

### G. Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

### H. Capital Assets

Capital assets, which include construction in progress, buildings and improvements and machinery and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost through estimation procedures performed

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

by an independent appraisal company. Donated capital assets are valued at their estimated fair market value on the date of donation.

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Capital assets, being depreciated, of the District are depreciated using the straight line method. The following estimated useful lives are used to compute depreciation:

Years
50
20
30
8
5-10
10
15

### I. Compensated Absences

A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District uses the "vesting method" for estimating its accrued sick and vacation leave liability.

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies and collective bargaining agreements. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after one year of service. Upon retirement, employees are paid by the District for the unused sick time in accordance with the District's agreements with the various employee unions.

Under terms of association agreements, employees earn vacation and sick leave in amounts varying with tenure and classification by the District for the unused sick leave in accordance with District agreements with the various employee unions.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

The liability for vested compensated absences of the District is recorded in the government-wide financial statements and includes salary related payments. As of June 30, 2017, a liability existed for compensated absences in the government-wide financial statements in the amount of \$428,588.

### J. Unearned Revenue

Unearned revenue in the general fund represents cash receipts received from tuition for future classes that have been received in advance. Unearned revenue in the capital projects fund represents cash receipts received from the State of New Jersey School Development Authority in excess of the state share of the state approved project for mechanical, electrical, security and general construction improvements and alterations to the Sypek Center Vocational School at June 30, 2017.

### K. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. Currently, the District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the District has one item that qualifies for reporting in this category, including deferred amounts related to pensions.

### L. Long-Term Obligations

Bonds are issued by the County pursuant to the provisions of Title 18A of the State of New Jersey Statutes and are required to be approved by the Mercer County Board of School Estimates. Type I School Bonds are issued by the County of Mercer and the proceeds are recorded in the records of the County. All debt service requirements for Type I School Bonds are provided for in the annual budgets of the County. All bonds are retired in serial instruments within the statutory period of usefulness.

The District has a long-term capital lease related to the Energy Savings Improvement Plan (ESIP) and a five year capital equipment lease. The lease agreements require the District to make annual principal and interest payments from its general fund budget.

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

#### 1. Summary of Significant Accounting Policies (continued)

### **M. Fund Balances**

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

- Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- 4) Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- 5) Unassigned includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

Of the \$3,945,347 of fund balance in the General Fund, \$66,604 are encumbrances assigned to other purposes, \$1,796,552 has been restricted in the capital reserve account, \$304,000 has been restricted for excess surplus – current year, \$1,280,095 has been restricted for excess surplus - prior year and \$498,096 is classified as unassigned.

### N. Calculation of Excess Surplus

The designation for restricted fund balance - excess surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve general fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. Excess surplus of \$1,280,095, which was generated during the 2016 fiscal year will be utilized in the 2017-18 budget. The current year excess surplus at June 30, 2017 was \$304,000, which will be utilized in the 2018-19 budget.

### **O.** Net Position

Net position represents the difference between assets, deferred inflows of resources, deferred outflows of resources, and liabilities in the government-wide and proprietary fund financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net positions are reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

### P. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 1. Summary of Significant Accounting Policies (continued)

### Q. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security contributions and post-retirement pension and medical contributions for certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. Additionally, revenues and expenses related to on-behalf pension contributions in the government-wide financial statements have been increased by \$1,653,195 to adjust for the full accrual basis expense incurred by the State of New Jersey during the most recent measurement period. The amounts are not required to be included in the District's annual budget.

### **R. GASB Pronouncements**

#### GASB Pronouncements implemented in the 2017 Fiscal Year

The GASB issued Statement 77, *Tax Abatement Disclosures* in August 2015. This Statement is intended to improve financial reporting by requiring disclosure of tax abatement information about a reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues. The requirements of this Statement are effective for financial statements for reporting periods beginning after December 31, 2015. As the District is not a taxing government, the Statement did not result in a change in the District's assets, revenues or fund balance. No additional disclosures are required for this school district since it is at the county level.

#### **Recently Issued Accounting Pronouncements**

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB No. 75"). This Statement replaces the requirements of Statement 45 and the primary objective of this Statement is to improve accounting and reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local government employers about financial support for OPEB that is provided by other entities. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 30, 2017. Management has not yet determined the impact of the Statement on the financial statements.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### S. Subsequent Events

Management has reviewed and evaluated all events and transactions that occurred from June 30, 2017 through November 28, 2017, the date that the financial statements were issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

### 2. Reconciliation of Government-Wide and Fund Financial Statements

# Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including compensated absences and capital leases are not due and payable in the current period and therefore are not reported in the funds.

The details of this \$9,290,143 difference are as follows:

Compensated absences	\$ 428,588
Capital leases	 8,861,555
Net adjustment to reduce fund balance-total governmental	
funds to arrive at net position – governmental activities	\$ 9,290,143

### 3. Deposits and Investments

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, "Accounting and Financial Reporting for Certain Investments are and for External Investment Pools" and Statement No. 72 "Fair Value Measurement and Application." The Board classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments and are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. N.J.S.A. 17:9-41 et. seq. establishes the

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 3. Deposits and Investments (continued)

requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at last equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

#### **Deposits**

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund and New Jersey Asset and Rebate Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Operating cash accounts are held in the District's name by several commercial banking institutions. At June 30, 2017, the District's carrying amount of deposits was \$1,418,114 including funds held with fiscal agent and the bank balance was \$1,625,486. Of the bank balance, \$336,118 of the District's cash deposits on June 30, 2017 was secured by federal depository insurance. The New Jersey Governmental Unit Deposit Protection Act (GUDPA) covered the bank balance of \$1,208,564. \$80,744 held in the District agency accounts are not covered by GUDPA.

46

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 3. Deposits and Investments (continued)

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the District's operating cash accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name.

At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

### Investments

New Jersey statutes permit the District to purchase the following types of investments:

- a. Bonds and other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank which have a maturity date not greater than twelve months from the date of purchase.
- c. New Jersey Cash Management Fund and New Jersey Asset and Rebate Management Fund.

### New Jersey Cash Management Fund

In order to maximize liquidity, the District utilizes the New Jersey Cash Management Fund ("NJCMF") as its sole investment. The NJCMF is administered by the State of New Jersey, Department of the Treasury and issues a separate report that can be obtained directly from the Department of the Treasury. It invests pooled monies from various State and non-State agencies in primarily short-term investments. The fair value of the District's portion in the pool is the same as the fair value of the pool shares. These investments include: U.S. Treasuries, short-term Commercial Paper, U.S. Agency Bonds, Corporate Bonds, and Certificates of Deposit. Agencies that participate in the NJCMF typically earn returns that mirror short-term investment rates. Monies can be freely added or withdrawn from the NJCMF on a daily basis without penalty. At June 30, 2017, the District's balance was \$1,509,330 and is classified as cash equivalents due to its short-term nature.

## Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

#### 3. Deposits and Investments (continued)

All investments in the Fund are governed by the regulations of the Investment Council, which prescribes specific standards designed to ensure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

*Custodial Credit Risk:* The District does not have any investments that are exposed to custodial credit risk and does not have a policy for custodial credit risk.

*Credit Risk*: The District does not have any investments exposed to credit risk and does not have an investment policy regarding the management of credit risk.

*Concentration of Credit Risk:* The District places no limit on the amount the District may invest in any one issuer and does not have a policy for limiting the concentration of investments. At June 30, 2017, the District's investments were invested in the NJCMF.

*Interest Rate Risk*: The District does not have a policy to limit interest rate risk. The average maturity of the District's investments, the NJCMF, are less than one year.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

# 4. Capital Assets

The following schedule is a summarization of the governmental activities changes in capital assets for the year ended June 30, 2017:

		Beginning		<b>r</b>	ъ			Ending
Governmental Activities:		Balance		Increases	D	ecreases		Balance
Capital Assets, Not Being Depreciated:	٩	0 410 726	ŵ	1.0.40 500			æ	10 ((2 450
Construction in Progress		9,419,736	\$	1,243,722			\$	10,663,458
Total Capital Assets, Not Being Depreciated:		9,419,736		1,243,722				10,663,458
Capital Assets, Being Depreciated:								
Buildings & Building Improvements		36,365,062		26,325				36,391,387

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 4. Capital Assets (continued)

Depreciation expense was charged to functions/programs of the District as follows:

Regular Instruction	\$ 471,268
Special Education Instruction	200,164
Student and Instruction Related Services	199,308
General Administrative Services	85,865
School Administrative Services	100,605
Central Services	38,430
Administrative Information Technology	50,628
Plant operations and maintenance	198,159
Pupil Transportation	 2,898
	\$ 1,347,325

### 5. Long-Term Liabilities

During the year ended June 30, 2017, the following changes occurred in governmental activities long-term liabilities:

	]	Beginning Balance	ł	Additions	Reductions		Ending Balance		Due Within One Year	
Governmental Activities:	-									
Compensated Absences Payable	\$	398,603	\$	47,818	\$	17,833	\$	428,588	\$	1,000
Capital Leases		9,786,498		-		924,943		8,861,555		958,527
Subtotal	,,,,	10,185,101		47,818		942,776		9,290,143		959,527
Net pension liability		6,996,743		3,140,520		-		10,137,263		_
Governmental Activities										
Total long-term liabilities	\$	17,181,844	\$	3,188,338	\$	942,776	\$	19,427,406	\$	959,527

The District expects to liquidate the compensated absences, capital leases and the net pension liability with payments made from the District's general fund.

As of June 30, 2017, the District had no bonds payable and no authorized but not issued bonds or notes.

### **Energy Savings Improvement Plan**

The District maintains a capital lease through energy conservation measures and a solar project pursuant to an Energy Savings Improvement Plan ("ESIP"). The District has capitalized building and building improvements in an amount of \$11,200,000 as a result of this project. The District is

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 5. Long-Term Liabilities – (continued)

utilizing the savings from the energy plan to make the lease payments to PNC Equipment Finance, LLC.

#### First Niagara Capital Lease

The District entered into a \$1,200,000 capital lease in July 2015 with First Niagara Leasing, Inc. The lease is for a five year term expiring in February 2020 and carries an interest rate of 1.52%. The lease was issued to provide the local share of the state approved project for mechanical, electrical, security and general construction improvements and alterations to the Sypek Center Vocational School.

Principal and interest due on the capital leases outstanding are as follows:

	Amount
Year:	
2018	\$ 1,268,005
2019	1,215,767
2020	1,223,335
2021	985,793
2022 - 2026	4,853,589
2027	993,769
Total minimum lease payments	10,540,257
Less amounts representing interest	(1,678,702)
Present value of net minimum lease	
payments	\$ 8,861,555
-	

### 6. Pension Plans

#### **Description of Systems**

Substantially all of the District's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

#### 6. Pension Plans (continued)

#### **Teachers' Pension and Annuity Fund**

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55<sup>th</sup> of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

#### **Public Employee's Retirement System**

The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55<sup>th</sup> of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required

Year ended June 30, 2017

### 6. Pension Plans (continued)

supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

### **Funding Policy**

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased through July 2018 that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

During the year ended June 30, 2017, the State of New Jersey contributed \$665,043 to the TPAF for on-behalf medical, non-contributory insurance and pension and post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$266,560 during the year ended June 30, 2017 for the employer's share of social security contributions for TPAF members as calculated on their base salaries.

The District's actuarially determined contributions to PERS for each of the years ended June 30, 2017, 2016 and 2015 were \$304,074, \$267,967, and \$268,236, respectively.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For the purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 6. Pension Plans (continued)

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

#### Public Employee's Retirement System (PERS)

At June 30, 2017, the District reported a liability of \$10,137,263 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2015, which was rolled forward to June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2016, the District's proportion was 0.342277002 percent, which was an increase of 0.0030590266 from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized full accrual pension expense of \$1,099,594 in the government-wide financial statements. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources		Deferred Inflows		
Difference between expected and estual experience	<u>-01</u> \$		01 ]	<u>Aesources</u>	
Difference between expected and actual experience	Ф	188,522			
Changes of assumptions		2,099,899			
Net difference between projected and actual earnings					
on pension plan investments		386,543			
Changes in proportion and differences between					
District contributions and proportionate share of					
contributions		734,974	\$	171,388	
District contributions subsequent to the					
measurement date		288,631			
	\$	3,698,569	\$	171,388	

\$288,631 is reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

#### 6. Pension Plans (continued)

Year ended June 30:	
2018	732,474
2019	732,475
2020	823,235
2021	692,770
2022	 257,596
	\$ 3,238,550

#### Actuarial Assumptions

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate Salary increases through 2026	3.08% 1.65 - 4.15%
•	based on age
Thereafter	2.65 - 5.15%
	based on age
Investment rate of return	7.65%

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

#### Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tales provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014

### Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

#### 6. Pension Plans (continued)

projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA.

In addition, the tables for service retirements and beneficiaries of formers members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

### Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	5.00%	0.87%
U.S. Treasuries	1.50%	1.74%
Investment Grade Credit	8.00%	1.79%
Mortgages	2.00%	1.67%
High Yield Bonds	2.00%	4.56%
Inflation-Indexed Bond's	1.50%	3.44%
Broad US Equities	26.00%	8.53%
Developed Foreign Markets	13.25%	6.83%
Emerging Market Equities	6.50%	9.95%
Private Equity	9.00%	12.40%
Hedge Funds / Absolute Return	12.50%	4.68%
Real Estate (Property)	2.00%	6.91%
Commodities	0.50%	5.45%
Global Debt ex US	5.00%	-0.25%
REIT	5.25%	5.63%
	100.00%	

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 6. Pension Plans (continued)

### Discount rate

The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the actuarially determined contributions and the local employers contributed 30% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rated of return on plan investments was applied to projected benefit payments through 2034 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

# Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.98 percent) or 1-percentage-point higher (4.98 percent) than the current rate:

	At 1% At Current		At 1%		
	]	Decrease (2.98%)	Discount Rate (3.98%)		(ncrease (4.98%)
District's proportionate share of					
the net pension liability	\$	12,422,033	\$	10,137,263	\$ 8,250,988

### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report for the State of New Jersey Public Employees Retirement System.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 6. Pension Plans (continued)

## Additional Information

Collective balances of the Local Group at June 30, 2016 are as follows:

Collective deferred outflows of resources	\$	8,685,338,380
Collective deferred inflows of resources	\$	870,133,595
Collective net pension liability	\$	29,617,131,759
District's Proportion	0	.0342277002%

Collective pension expense for the Local Group for the measurement period ended June 30, 2016 is \$2,830,763,540.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2015 (the beginning of the measurement period ended June 30, 2016) is 5.57 years and 5.72 years for the measurement period ended June 30, 2015.

## Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2016 was \$26,823,024. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2016, the State's proportionate share of the TPAF net pension liability

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 6. Pension Plans (continued)

associated with the District was 0.0340971939 percent, which was a decrease of 0.0005458214 from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized on-behalf pension expense and revenue in the government-wide financial statements of \$2,015,377 for contributions incurred by the State.

## Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Salary increases	
2012-2021	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.65%

## Mortality Rates

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

## Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rangers are combined to produce the long-term expected rate of return

59

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

### 6. Pension Plans (continued)

by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2016 are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	<b>Real Rate of Return</b>
Cash	5.00%	0.39%
US Government Bonds	1.50%	1.28%

	100.00%	-

### Discount Rate

The discount rate used to measure the total pension liability was 3.22% as of June 30, 2016. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on

60

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 6. Pension Plans (continued)

the contribution rate in the most recent fiscal year. The State contributed 30% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2029. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2029, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the State's proportionate share of the net pension liability associated with the District to changes in the discount rate

The following presents the net pension liability of the State as of June 30, 2016 calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

		At 1%	At Current			At 1%		
		Decrease	Discount Rate			Increase		
		(2.22%)	(3.22%)			(4.22%)		
State's proportionate share of the net pension liability associated with the District	\$	32,032,685	\$	26,823,024	\$	22,568,664		

### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

### **Additional Information**

Collective balances of the Local Group at June 30, 2016 are as follows:

Deferred outflows of resources Deferred inflows of resources Net pension liability	\$	17,440,003,201 195,027,919 78,666,367,052
State's proportionate share associated with the District	-	0.0340971939%

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 6. Pension Plans (continued)

Collective pension expense of the Local Group for the plan for the measurement period ended June 30, 2016 is \$5,915,082,656.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2015 (the beginning of the measurement period ended June 30, 2016) is 8.3 years.

## 7. Post-Retirement Benefits

### Plan Description

The District contributes to the New Jersey School Employees Health Benefits Program ("SEHBP"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SEHBP provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The School Employees Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained by writing to Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

## **Funding Policy**

P.L. 1987, Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2016, there were 110,512 retirees receiving post-retirement medical benefits, and the state contributed \$1.37 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who

62

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

# 7. Post-Retirement Benefits (continued)

retired from a board of education or county college with 25 years of service. The State paid \$231.2 million toward Chapter 126 benefits for 20,045 eligible retired members in fiscal year 2016. The State Employees Health Benefits Program (SEHBP) Act is found in the New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SEHBP. That report may be obtained from the Treasury website.

The State will set the contribution rate based on the *annual required contribution of the employers* (ARC), an amount actuarially determined in accordance with parameters of GASB 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the SEHBP Fund for TPAF retirees' post-retirement medical benefits on behalf of the District for the years ended June 30, 2017, 2016 and 2015 were \$301,781, \$325,062, and \$287,958, respectively, which equaled the required contributions for each year. The State's contributions to the SEHBP Fund for PERS retirees' post-retirement benefits on behalf of the District or made available by the State of New Jersey.

# 8. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

# **Property and Liability Insurance**

The District maintains commercial insurance coverage for property, liability, student accident and surety bonds and does not retain risk of loss. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. There have been no significant reductions in insurance coverage from the prior year and no settlements have exceeded insurance coverage over the past three years.

## **New Jersey Unemployment Compensation Insurance**

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 8. Risk Management (continued)

The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's unemployment trust fund for the past three years:

		E	Board	Employee		Inter	est on		Amount	Ending
Fiscal Y	ear	Cont	ributions	Contributions		Investments		Paid		Balance
2016-1	7	\$	65,870	\$	2,445	\$	6	\$	40,644	\$ 37,337
2015-1	6		10,000		10,872		5		24,757	9,660
2014-1	5		18,000		10,733		4		21,495	13,540

## **Joint Insurance Pool**

The District is a member of the Burlington County Insurance Pool Joint Insurance Fund.

The Fund provides the District with the following coverage:

Property, Inland Marine and Automobile Physical Damage Boiler and Machinery Crime General and Automobile Liability Workers' Compensation Educators' Legal Liability Pollution Legal Liability

Annual contributions to the Fund are determined by the Fund's Board of Trustees. The District is jointly and personally liable for claims insured by the Fund and its members during the period of its membership, including liability for supplemental assessments, if necessary. The Fund's Board of Trustees may authorize refunds to its members in any fund year for which contributions exceed the amount necessary to fund all obligations for that year.

# 9. Deferred Compensation

The District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457(b). The plans, which are administered by Lincoln Investment Planning, Inc., Met Life, and AXA Equitable permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency.

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 9. Deferred Compensation (continued)

Participants' rights under the plan are equal to those of general creditors in an amount equal to the fair market value of the deferred account of each participant. The District has no liability for losses under the plan. Since the District does not hold the assets in a trustee capacity, the related assets are not included in the District's Fiduciary Fund Financial Statements.

## 10. Interfund Receivables and Payables

The total interfund accounts receivables and payables for the District amounted to the following as of June 30, 2017:

Fund	Interfund Receivable	Interfund Payable
General Fund	\$ 321,757	
Special Revenue Fund		\$ 92,573
Capital Projects Fund		588
Rubino Academy Enterprise Fund		228,596
	\$ 321,757	\$ 321,757

The interfund receivable of \$321,757 in the General Fund is offset with an interfund payable in the Special Revenue Fund for \$92,573 and in the Rubino Academy Enterprise Fund for \$228,596, which represent funds advanced to these funds to cover temporary pooled cash shortages and in the Capital Projects Fund for \$588 which represents a transfer for interest earned on Cash Held with Fiscal Agents. All interfunds are expected to be repaid within one year.

# **11. Economic Dependency**

The District receives a substantial amount of its support from federal, state and county governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

# 12. Contingent Liabilities

The District is also involved in claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the District.

The District participates in numerous state and federal grant programs, which are governed by the various rules and regulations of the grantor agencies. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations

65

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 12. Contingent Liabilities (continued)

governing other federal and state grants; therefore, no provisions have been recorded in the accompanying basic financial statements for such contingencies.

## 13. Capital Reserve Account

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfers by a Board resolution at year end (June 1 and June 30) of any unanticipated revenue or unexpended line item appropriation amounts, or both. Pursuant to N.J.A.C. 6A:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2016 to June 30, 2017 fiscal year is as follows:

Beginning Balance, July 1, 2016	\$ 1,291,600
Interest Earnings	4,952
Deposits:	
Approved in June 2017 Board Resolution	500,000
Ending balance, June 30, 2017	\$ 1,796,552

At June 30, 2017, the amount deposited in the capital reserve account does not exceed the District's local share reported in its Long-Range Facility Plan.

### 14. Transfers

The following presents a reconciliation of transfers during the 2017 fiscal year:

Tra	nsfers	Transfers			
	In	(	Out		
\$	588		·		
		\$	588

# Notes to the Basic Financial Statements (continued)

Year ended June 30, 2017

## 14. Transfers (continued)

The transfer out of the capital projects fund to the general fund relates to a transfer of interest in the amount of \$588.

## 15. Commitments

The District has contractual commitments at June 30, 2017 to various vendors, which are recorded in the general fund as fund balance assigned to other purposes in the amount of \$66,604. The District also has contractual commitments at June 30, 2017 to various vendors recorded in the Capital Projects Fund in the amount of \$285,997. However, these commitments are not shown as fund balance assigned to other purposes because that would result in an unassigned deficit in the capital projects fund balance, which is not permissible under GASB 54.

## 16. Restricted Assets

The District has \$1,796,552 of capital reserve funds that are classified as restricted assets on the statement of net position in the General Fund because they are restricted by the District to be utilized for future capital projects that have been approved in the District's Long-Range Facility Plan.

## **17. Solar Renewable Energy Credits**

Solar Renewable Energy Credits are stated at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. The District sold 393 and 416 Solar Renewable Energy Credits on March 22, 2017 and August 16, 2017, respectively. The District realized revenue in both the Government-Wide and Fund financial statements of \$171,437.

		2017		2016		2015		
State's proportion of the net pension liability (asset) associated with the District - Local Group		0.0340971939%		0.0335513725%	0.0	313901977%		
District's proportionate share of the net pension liability (asset)	\$	-	\$	-	\$	-		
State's proportionate share of the net pension liability (asset) associated with the District	\$	26,823,024	\$	21,205,900	\$	16,777,039		
Total proportionate share of the net pension liability (asset) associated with the District	\$	26,823,024	\$	21,205,900	\$	16,777,039		
Plan fiduciary net position as a percentage of the total pension liability		28.71%		28.71%		33.64%		

The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

\* This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, governments should present information for those years for which information is available.

Covered payroll information is not presented since the Teachers' Pension and Annuity Fund is a special funding situation in which the District does not make contributions to this plan.

Statistical Section (Unaudited)

#### Statistical Section Unaudited

#### **Contents**

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the district's financial performance and well being have changed over time.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax. These schedules are not applicable to Area Vocational-Technical Schools of Mercer County School District as property taxes are not a revenue source for the district.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.

# Single Audit Section

## Report on Internal Control Over Financial Reporting and Report on Compliance and Other Matters Based on an Audit of Financial Statements Performed

in Accordance with Government Auditing Standards

## Independent Auditors' Report

Honorable President and Members of the Board of Education Area Vocational-Technical Schools of Mercer County School District Hamilton, New Jersey County of Mercer

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Area Vocational-Technical Schools of Mercer County School District, in the County of Mercer, New Jersey (the "District") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 28, 2017.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

100

354 Eisenhower Parkway, Suite 1850 Livingston, NJ 07039 973.994.9400 Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Report on Compliance For Each Major State Program And Report on Internal Control Over Compliance Required by New Jersey OMB Circular15-08

## Independent Auditors' Report

Honorable President and Members of the Board of Education Area Vocational-Technical Schools of Mercer County School District Hamilton, New Jersey County of Mercer

## **Report on Compliance for Each Major State Program**

We have audited the Area Vocational-Technical Schools of Mercer County School District's, in the County of Mercer, New Jersey (the "District") compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of its major state programs for the year ended June 30, 2017. The District's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the state statutes, regulations and the terms and conditions of its state awards applicable to its state programs.

## Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major state programs based on an audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of *New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Those standards and requirements and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

102

14 Penn Plaza, Suite 1010 New York, NY 10122 212.594.8155 354 Eisenhower Parkway, Suite 1850 Livingston, NJ 07039 973.994.9400

5 Bartles Corner Road Flemington, NJ 08822 908.782.7300 We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the District's compliance.

## **Opinion on Each Major State Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2017.

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in *internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance with a type of a state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

K.4 Schedule B

,

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2017

## 1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all expenditures of federal awards and state financial assistance programs of the District. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

#### 2. Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Therefore, some amounts presented in these schedules may differ from amounts presented, or used in the preparation of, the basic financial statements.

#### 3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the award year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

## Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

## Year ended June 30, 2017

## 3. Relationship to Basic Financial Statements

The general fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the two last state aid payments in the current year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes those payments are not recognized until the subsequent year due to the state deferral and recording of the last state aid payments in the subsequent year.

The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$1,775 for the general fund and \$661 for the special revenue fund. See note to required supplementary information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds (C-3). Federal and State award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

	Federal	State	Total
General Fund Special Revenue Fund	\$ 519,946	\$ 3,366,016 24,975	\$ 3,366,016 544,921
Capital Projects Fund		486,434	486,434
Total award revenues	\$ 519,946	\$ 3,877,425	\$ 4,397,371

## 4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

## Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2017

## 5. Other

TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of Social Security contributions for TPAF members for the year ended June 30, 2017.

The post retirement pension and medical benefits received on-behalf of the District for the year ended June 30, 2017 amounted to \$665,043. Since on-behalf post retirement pension and medical benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB Circular 15-08, as directed by the funding agency.

## 6. Adjustments

The adjustment presented in K-3 represents a payment to the grantor for excess funds received.

#### 7. Indirect Costs

The District did not use the 10% de minimis indirect cost rate.

## Schedule of Findings and Questioned Costs

Year ended June 30, 2017
