December 1, 2017

Honorable President and Members of the Board of Education South River School District South River, NJ 08882

Dear Board Members:

The comprehensive annual financial report of the South River School District (the "District") for the fiscal year ended June 30, 2017 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the South River Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical tables and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditors' report thereon. The statistical tables section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and in addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08. Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. **REPORTING ENTITY AND ITS SERVICES:** The District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds of the District are included in this report. The South River Board of Education and all its schools constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels K through 12. These include regular, vocational as well as special education for disabled youngsters. The District completed the 2017 fiscal year with an enrollment of 2,210 students, which is 8 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last seven years.

Average Daily Enrollment

Fiscal Year Ending June 30,	Student <u>Enrollment</u>	Percent Increase/(Decrease)
2017	2,210	(0.4%)
2016	2,218	(2.6%)
2015	2,277	(2.0%)
2014	2,323	(0.3%)
2013	2,329	0.4%
2012	2,319	(0.7%)
2011	2,336	(0.3%)

- 2. **ECONOMIC CONDITION AND OUTLOOK:** South River is a community that has little to no ratables to establish a firm tax base to support its education program. There is an attempt to revitalize the downtown district and there are several new housing developments that have been approved and will add not only to the tax base but, more importantly, to the educational costs. The town receives funds as a result of a shared Host Community Benefits program for the Edgeboro Landfill. Land available for additional industrial development is not plentiful.
- 3. **MAJOR INITIATIVES:** South River Public Schools have continued to provide Internet access parent link to every student in the District to enhance our ability to utilize distance learning activities with our students and their parents.

Our scholastic aptitude tests continue to meet state averages, with the mean SAT writing score of 502 and the mean SAT math score of 497. Eighty-six percent (86%) of our 2017 graduates went on to further education; forty-seven percent (47%) of them to four-year institutions.

Moreover, we continue to attempt to maintain our class size at a reasonable level and have every student use technology as an educational tool.

Finally, we continue to provide new programs or have enhanced our existing programs that tie into the State Contents Standards established by the New Jersey Department of Education and to assist in No Child Left Behind.

4. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, as well as to determine that the District has complied with applicable laws and regulations.

- 5. <u>BUDGETARY CONTROLS:</u> In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. These amounts to be reappropriated are reported as reservations of fund balance at June 30, 2017.
- 6. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds as explained in the "Notes to the Financial Statements", Note 2.
- 7. <u>DEBT ADMINISTRATION:</u> The School District had outstanding debt as of June 30, 2017 of \$10,013,000. The remaining annual maturity schedule for principal as well as annual interest payments are detailed in the "Notes to Financial Statements", Note 8.
- 8. <u>FINANCIAL STATUS:</u> The Business Administrator and the Board of Education continue to guide the District with fiscal prudence while working within the limitations imposed by the state's 2% cap on the annual increase of the tax revenue collected from the Borough of South River. The business office utilizes purchasing co-operatives, state contracts and bids to purchase the materials needed to operate the District at the lowest possible price.

9. **OTHER INFORMATION:**

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. Gerard Stankiewicz, CPA, PSA of the accounting firm of Samuel Klein and Company, Certified Public Accountants, was selected by the Board's Finance Committee. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08. The auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

10. ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the South River Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

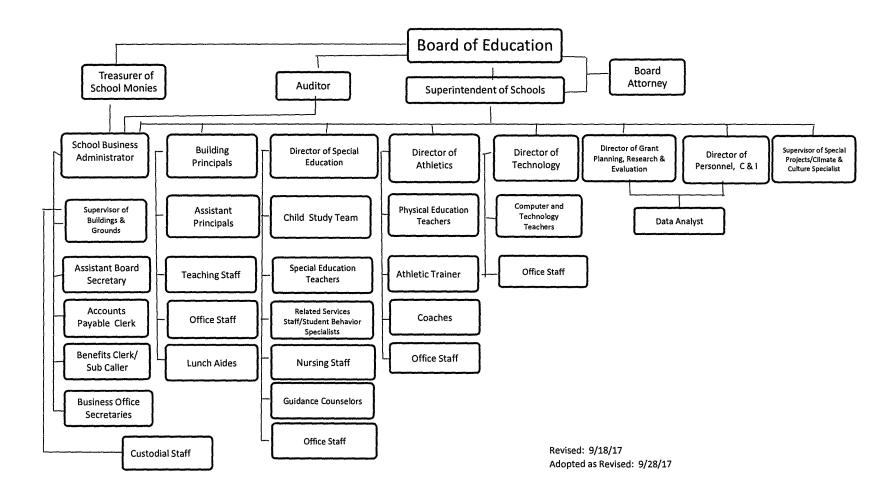

Sylvia Zircher

Superintendent of Schools [Effective July 1, 2017]

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education South River Borough Board of Education County of Middlesex, New Jersey

Report on the Financial Statement

We have audited the accompanying financial statements of the governmental activities, the business type activities each major fund and the aggregate remaining fund information of the Board of Education of the South River Borough School District, County of Middlesex, State of New Jersey, as of and for the year ended June 30, 2017 and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities each major fund and the aggregate remaining fund information of the Board of Education of the South River Borough School District, as of June 30, 2017, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis and Budgetary Comparison Information and schedule of the District's proportionate share of the net pension liability – PERS, schedule of District contributions, schedule of the State's proportionate share of the net pension liability associated with the District – TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of South River School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Division of Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by US Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Audits of States, Local Governments, and Non-Profit Organizations* and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, respectively, and the other information such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

The accompanying Combining and Individual Fund Statements, Long-term Debt Schedules and the Schedule of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Combining and Individual Fund Statements, Long-term Debt Schedules and Schedule of Expenditures of Federal Awards and State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information identified above has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2017, on our consideration of the Board of Education of the South River Borough School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Borough of South River School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the South River Borough School District internal control over financial reporting compliance.

December 1, 2017

Honorable President and Members of the Board of Education South River School District South River, NJ 08882

Dear Board Members:

Management's Discussion and Analysis

The discussion and analysis of South River School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999. Certain comparative information between the current year (2016-2017) and the prior year (2015-2016) is required to be presented in MD&A. The District has elected to prepare comparative data which includes prior year's financial statements.

Overview of Financial Statements

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and supplementary information and other information in addition to the basic financial statements themselves.

Financial Highlights

Key financial highlights for 2017 are as follows:

In total, net position totaled \$25,718,359 which represents \$384,834 or 1.47% decrease from 2016 net position as adjusted, which is attributed to a higher level of revenues and an increase in expenditures.

General revenues accounted for \$40,027,452 or 94.24% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, accounted for \$2,448.454 or 5.76% of total revenues of \$42,475,906.

Total position of governmental activities decreased by \$428,207 as cash and cash equivalents decreased by \$742,914, receivables increased by \$29,052 and liabilities increased by \$856,100.

The District had \$43,164,511 in expenses; only \$2,448,454 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes and state aid) of \$40,027,452 were adequate to provide for these programs.

Among major funds, the General Fund had \$32,360.495 in revenues and \$32,530,877 in expenditures. The General Fund's fund balance decreased \$170,382 over 2016, which was caused by an increase in expenditures. The General Fund's fund balance is \$1,689,518 inclusive of the Capital Reserve Fund balance of \$270,477.

Using this Comprehensive Annual Financial Report (CAFR)

The annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the District, presenting both an aggregate view of the District's finances and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the South River School District, the General Fund is by far the most significant.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

This document contains all funds used by the District to provide programs and activities, viewing the District as a whole and reports the culmination of all financial transactions. The report answers the question "How We Did Financially During Fiscal Year 2017". The Statement of Net Position and the Statement of Activities provides the summary. The statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. This change in net position is important because they report on whether the District's financial position has improved or diminished.

In the Statement of Net Position and the Statement of Activities, the District is divided into two kinds of activities:

Governmental activities — All of the District's programs and services are reported here including, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Business-Type Activities — This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service Enterprise Fund is reported as a business activity.

Reporting the District's Most Significant Funds

Fund Financial Statement

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund, special revenue fund and debt service fund to demonstrate compliance with this budget

The basic governmental fund financial statements can be found on pages 27-29 of this report.

Proprietary Funds

The District maintains one proprietary fund type. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the operations of its food service program, child care initiative and Falcon Care

The basic proprietary fund financial statements can be found on pages 30-32 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District uses agency funds to account for resources held for student activities and groups and payroll related liabilities. The fiduciary fund financial statements can be found on pages 33-34 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found on pages 35 to 79 of this report.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The Statement of Net Position provides the financial perspective of the District as a whole.

Table 1 provides a comparative summary of the School District's net position for 2017 and 2016.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred inflows and outflows and liabilities of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flow. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The Government-wide financial statements can be found on pages 25 and 26 of this report.

The Statement of Net Position provides the financial perspective of the District as a whole. Table 1 provides a comparative summary of the School District's net position for 2017 and 2016.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$25,313,750 at the close of fiscal 2017. The following table provides a summary of net position at June 30, 2017 and 2016 relating to the District's governmental and business-type activities:

Table 1 – Comparative Statement of Net Position

The District's combined net position were \$25,718,359 on June 30, 2017. This is a decrease of \$384,833, or 1.47% from the prior year.

The largest portion of the District's net position is its net investment in capital assets (e.g., land, construction-in-progress, buildings and improvements, and machinery, equipment and vehicles), less any related debt (bonds payable) used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (namely, property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Capital assets, net increased from the prior year due to the amount of new additions associated with the District's capital projects having exceeded the amount of depreciation of capital assets in the current year.

Long-term liabilities decreased due to the scheduled payment of principal on debt.

Unrestricted net position decreased by \$131,861 which was caused primarily by utilization of construction grant proceeds and adjustments to pension obligation.

Table 2 shows the comparative change in net position from fiscal year 2017 and 2016.

Governmental Activities

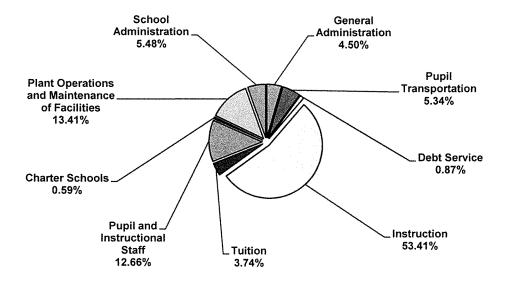

Revenue for Fiscal Year 2017

The total revenues of the governmental activities for the year ended June 30, 2017 were \$41,435,978. Property taxes as approved by the District made up \$16,444,319 or 39.69% of revenues for governmental activities for the fiscal year 2017. Federal, state and local grants accounted for \$23,386,786, another 56.44%.

Expenses for Fiscal Year 2017

The total cost of all programs and services was \$42,167,956. Instruction comprises 53.41% of the District's expenses.

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

Food service revenues exceeded expenses by \$43,373 as charges for services represent \$377,711 or 36.32% of revenue. This represents the amount paid by patrons for daily food service and catering.

Federal and state reimbursements for meals including payments for free and reduced lunches and donated commodities were \$662,217 or 63.68% of revenue.

Governmental Activities

The Comparative Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Table 3 - Comparative Statement of Activities

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Extracurricular activities includes expenses related to student activities provided by the District which are designed to provide opportunities for students to participate in school and public events for the purpose of motivation, enjoyment, skill improvement, school spirit and leadership.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, to school curricular and athletic activities and field trips as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the District.

General Fund Budgetary Highlights

The District budget is prepared according to New Jersey Statutes. The most significant budgeted fund is the general fund. During the fiscal year, there were several differences between the original budget and the final amended budget as a result of transfers being applied to certain line items. These transfers were made between line items as part of the normal process as permitted by State guidelines. Readers should refer to Section C of the financial report for comparisons between actual and budgeted amounts.

Described on the next page are explanations for variations in revenues and expenditures for certain lines where the modified budgeted amounts differ from the original budget by significant amounts. All other fluctuations were considered immaterial and no explanations were deemed required.

Revenue

Miscellaneous revenues of \$147,418 exceeded the anticipated amount of \$40,001 by \$107,417 due primarily to refunds from prior year expenditures mostly in the area of health insurance.

Expenditures

- Regular programs instruction in total final budget exceeded the original by \$79,965, or .97%. Actual expenditures of \$8,117,817 represented 99.03% of budget. This was caused additional expenditures for teachers grades 1-12.
- Total instructional expenditures final budget exceeded the original by \$308.860, or 2.51%. Actual total instructional expenditures of \$12,304,071 or 97.55%. The increase in the budget was caused by additional need for teacher throughout the District.
- Undistributed required maintenance final budget was higher than original by \$155,388 or 16.67% due to anticipated extra support for school being lower than anticipated.
- Undistributed unallocated benefits employee benefits budget after modified was lower by \$560,711, or 9.92% lower than anticipated health benefit were the principal cause.
- Total undistributed expenditures in total were lower than the final budget by \$806,816, or 4.73%. Expenditures net of on behalf payments were \$16,135,632, or 95% of final budget. This was aided by favorable health benefits and other support services extra at the level anticipated.

The District's Funds

Information about the District's major funds starts on page 21. These funds are accounted for using the modified accrual basis of accounting. All governmental funds, except for capital projects, had total revenues of \$35,380,178 and expenditures of \$35,583,145.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a comparative summary of the revenues of the governmental funds exclusive of the capital projects fund for the fiscal year ended June 30, 2017, and the amount of increases and decreases in relation to prior year revenues.

Comparative Summary of Revenues

		2016-20)17		2015-2	Increase/ (Decrease)		
	-		Percent	•••		Percent	fro	m 2015-2016
Revenue		<u>Amount</u>	of Total		<u>Amount</u>	of Total	<u>tc</u>	2016-2017
Local Sources	\$	16,647,662	47.05%	\$	16,826,324	47.97%	\$	(178,662)
State Sources		17,131,612	48.43%		16,756,987	47.78%		374,625
Federal Sources	_	1,600,904	4.52%	-	1,492,254	4.25%		108,650
	\$_	35,380,178	100.00%	\$_	35,075,565	100.00%	\$	304,613

The decrease in Local Sources is attributed to a decrease in miscellaneous revenue.

The increase in State Sources is attributed to an increase in general fund state aid in the form of onbehalf payment.

The decrease in Federal Sources is caused by the fact that more funding was provided in 2017.

The following schedule presents a comparative summary of governmental fund expenditures exclusive of the capital projects fund for the fiscal year ended June 30, 2017, and the amount of increases and decreases in relation to prior year expenditures.

Comparative Summary of Expenditures

		2016-2	2017		2015-2	(Decrease)		
Expenditures		<u>Amount</u>	Percent of Total	•	Amount	Percent of Total		om 2015-2016 o 2016-2017
Instruction Undistributed	\$	13,457,005	37.82%	\$	13,409,673	38.43%	\$	47,332
Expenditures		20,189,472	56.74%		18,860,539	54.05%		1,328,933
Capital Outlay		188,602	0.53%		137,100	0.39%		51,502
Debt Service		1,499,605	4.22%		2,290,186	6.57%		(790,581)
Charter Schools	-	248,461	0.69%		199,526	0.56%		48,935
	\$_	35,583,145	100.00%	\$_	34,897,024	100.00%	\$_	686,121

The increase in Current – Instruction is attributed to the increased costs of salaries for teachers and the increased costs of other instructional programs and supplies.

The increase in Undistributed Expenditures relates to increases in special education tuition and health benefits and other employee benefits.

The increase in capital outlay is primarily due to a budgeted increase from the prior year.

General Fund Budgeting Highlights

The District's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of the fiscal year 2017, the District amended its general fund budget as needed. The District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management. Transfers from one program to another must be approved by the Business Administrator, Superintendent and Board of Education. Transfers were necessitated during the year were not significant in consideration of specific line items; however, a provision for unemployment was made for pending reduction of staff and retirement sick pay.

While the District final budget for the general fund anticipated that revenues and expenditures would roughly equal, the actual results for the year shows a surplus decrease of 4119,977caused primarily by an increase in expenses.

Capital Assets

At the end of the fiscal year 2017, the School District had \$58,937,638 invested in land, buildings, furniture and equipment and vehicles. Table 4 shows fiscal 2017 balances compared to 2016.

Table 4 - Capital Assets (Net of Depreciation) at June 30

Refer to Notes to Financial Statements Note 7 for more detailed information.

Overall capital assets (net) increased from fiscal year 2016 to fiscal year 2017. The increase in capital assets is primarily due to fixed asset additions in excess of annual depreciation.

Debt Administration

At the end of the fiscal year 2017 and 2016, the School District had outstanding debt as follows:

Table 5 – Debt Administration

	 June 30,						
	 <u>2017</u>		<u>2016</u>				
Capital Leases Compensated Absences Serial Bonds	\$ 182,757 453,645 10,013,000	\$	271,726 442,998 11,158,000				
Totals	\$ 10,649,402	\$	11,872,724				

Refer to Notes to Financial Statements Note 8 for more detailed information.

For the Future

The District is sufficiently funded to meet the educational and capital requirements. Over the past few years, the District has repeated the practice of designating fund balance to offset tax increases in spite of reduction of state aid. In the past, this has been a viable option to soften the burden of reduced state aid revenue.

The primary concern the District faces is the Borough of South River's inability to increase the tax base. The town is primarily residential with very few commercial ratables; thus the burden of taxes levied by the District falls squarely on the homeowners. As a result of a 2012 storm, the town has lost approximately \$7 million in tax ratables.

The Borough's tax base remains relatively flat and in light of the fact the town is at full build (which means there is no space available for future development which would increase the ratable base), the probability of significant tax increase on the average homeowner next year is very likely. Additionally, the cost of three major bond issues, \$6.1 million in 2003, \$7.05 million in 2012 and \$2.4 million in 2015, cost the District nearly \$1.5 million per year for debt service.

In closing, the District's Board of Education practices long term financial planning. The District is proud of its system for budgeting and internal financial controls. Moreover, the Administration is determined to address the educational needs of the students while delivering a responsible budget to the taxpavers.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional information, you may contact Kenneth J. Kokoszka, School Business Administrator/Board Secretary at the South River Board of Education, 15 Montgomery Street, South River, NJ 08882.

Respectfully submitted,

SylviaZircher [\]

Superintendent of Schools

[Effective July 1, 2017]

Kenneth J. Kokoszka

Board Secretary/School Business Administrator

BOROUGH OF SOUTH RIVER SCHOOL DISTRICT COUNTY OF MIDDLESEX

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Total Net Change in Fund Balances - Governmental Funds

\$ (2,581,818.86)

Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciated expense. This is the amount by which capital outlays exceeded depreciation in the period.

 Capital outlay
 \$ 2,567,858.10

 Depreciation expense
 (1,688,344.62)

 Capital assets, other
 7,078.38

886.591.86

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.

1,145,000.00

Governmental funds report the effect of premiums and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the premiums on bonds.

Amortization of premium

29,908.72

Governmental funds report the effect of defeasances and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the deferred loss of refunding.

Amortization of deferred loss (11,341.96)

In the statement of activities, interest on noncurrent debt in the statement of activities is accrued, regardless of when due. In the government funds, interest is reported when due; when the accrued interest is decreased, the difference is a reduction in the reconciliation.

2,352.09

Repayment of lease principal is an expenditure in the governmental funds, but the payment reduces noncurrent debt in the statement of net position and is not reported in the statement of activities.

88,969.87

Net pension obligation related to PERS which is attributable to June 30, 2016 not reported in governmental funds; however, it is reported in the statement of activities

(274,649.00)

In the statement of activities, certain operating expenses, e.g. compensated absences (sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.

(10,647.00)

Construction Grants are reported in governmental funds as revenues, however, in the Statement of Activities grant awards are not recognized as revenue until expended.

297,427.26

Change in Net Position of Governmental Activities (A-2)

(428,207.02)

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The South River Borough School District (the "District") is a Type II district located in the County of Middlesex, State of New Jersey. As a Type II district, the District functions independently through a Board of Education (the "Board"). The Board is comprised of nine (9) members elected to three-year staggered terms. The purpose of the District is to educate students in grades K-12. The District had an approximate enrollment at June 30, 2017 of 2,210 students.

A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the District's accounting policies are described below.

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Basis of Presentation (Continued)

1. Government-Wide Financial Statements (Continued)

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment that are classified in the Capital Outlay subfund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

1. Governmental Funds (Continued)

General Fund (Continued)

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

<u>Special Revenue Fund</u> – The Special Revenue Find is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u> – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs. This fund is not applicable in this fiscal year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

2. Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the District:

<u>Enterprise Fund</u> – The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on the statement of net position. Their reported fund equity (net position) is segregated into net investment in capital assets and unrestricted net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net position.

Depreciation of all exhaustive capital assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives of the equipment used in the operations of the Enterprise Funds are approximately 10 years.

3. Fiduciary Funds

<u>Trust and Agency Funds</u> – The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Private Purpose Scholarship Funds

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. The Expendable Trust Fund includes the Unemployment Compensation Insurance Fund and five (5) scholarship funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

3. Fiduciary Funds (Continued)

Private Purpose Scholarship Funds (Continued)

Nonexpendable Trust Fund - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. The District presently has two (2) scholarship fund assets that can be deemed as nonexpendable Trust Fund types.

<u>Agency Funds</u> – Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. Agency Funds are custodial in nature and do not involve measurement of results of operations. Agency Funds include payroll and student activities funds.

4. Noncurrent Debt

Noncurrent liabilities expected to be financed from governmental funds are accounted for in the General Noncurrent Debt, not in the governmental funds. This includes the outstanding principal balance on capital leases.

C. Measurement Focus

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement on Net Position.

2. Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the statement of net position. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus (Continued)

2. Fund Financial Statements (Continued)

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Fund equity (i.e., net position) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net position.

Fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the winter of each year for the general, special revenue, and debt service funds. The budgets are approved and voted on by the Board of Education of the District, submitted to the County office for approval and if determined to be within the allowable tax levy cap and within the allowable appropriation cap, become effective upon the holding of a public hearing and final adoption by the District. In accordance with P.L. 2011, c.202, which became effective 17, 2012, the district elected to move the annual School Board election to the date of the November general election thereby eliminating the vote on the annual base budget. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year subject to the limitation of N.J.A.C 6A:23A-2.3 (et seq.). All budget amendments must be approved by School Board resolution and certain others require approved by the County Superintendent of Schools. Budgetary transfers were made during the current year in accordance with statutory guidelines. The amendments made by the District were part of the normal course of operations.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America (GAAP) with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The over-expenditures related to on-behalf payments in the general fund are due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. There amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. <u>Budgets/Budgetary Control (Continued)</u>

The following presents a reconciliation of the general fund revenue and special revenue fund revenue from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

		General Fund	Special Revenue Fund
Sources/inflows of resources:			
Actual amounts (budgetary basis) "revenues" from the			
budgetary comparison schedules.	\$	32,384,373.71 \$	1,552,663.09
Difference - budget to GAAP:			
Grant accounting budgetary basis differs from GAAP in			
that encumbrances are recognized as expenditures,			
and the related revenue is recognized.			
June 30, 2016		None	None
June 30, 2017		None	None
State aid payment recognized for GAAP statements in the			
current year, previously recognized for budgetary purposes.		1,265,029.00	None
State aid payment recognized for budgetary purposes,			
not recognized for GAAP statements.		(1,283,793.00)	None
Total revenues as reported on the statement of revenues,			
expenditures and changes in fund balances - governmental funds.	\$_	32,365,609.71 \$	1,552,663.09
Uses/outflows of resources:			
Actual amounts (budgetary basis) "total expenditures"			
from the budgetary comparison schedule.	\$	32,530,877.03 \$	1,552,663.09
Differences - budget to GAAP:			
Encumbrances for supplies and equipment ordered but			
not received are reported in the year the order is placed			
for budgetary purposes, but in the year supplies are			
received for financial reporting purposes.			
June 30, 2016		None	None
June 30, 2017		None	None
Total expenditures as reported on the statement			
of revenues, expenditures and changes in fund			
balances - governmental funds.	\$	32,530,877.03 \$	1,552,663.09

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Assets, Liabilities and Equity

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Cash equivalents are defined as short-term, highly liquid securities that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with original maturities of three (3) months or less meet this definition. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

2. <u>Inventories and Prepaid Expenses</u>

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2017.

3. Allowance for Uncollectible Accounts

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

4. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

5. Tuition Payable

Tuition charges for the fiscal years 2015-2016 and 2016-2017 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

6. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

7. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,000.00. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

7. Capital Assets (Continued)

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives
School Buildings	50 years
Building Improvements	20 years
Electrical/Plumbing	30 years
Vehicles	8 years
Office and Computer Equipment	5-10 years
Instructional Equipment	10 years
Grounds Equipment	15 years
Food Service Equipment	7-20 years

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

9. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

9. Compensated Absences (Continued)

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

10. Accrued Liabilities and Noncurrent Obligations

All payables, accrued liabilities and noncurrent obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

11. Deferred Loss on Refunding of Debt

Deferred loss on refunding arising from the issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. (Refer to Note 8-D).

12. Net Position

GASB Statement Number 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position became effective for financial statements for periods beginning after December 15, 2011 and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The adoption of this statement resulted in a change in the presentation of the statement of net position to what is now referred to as the statement of net position and the term "net assets" is changed to "net position" throughout the financial statements. Net Position represents the difference between assets, deferred outflows, deferred inflows and liabilities in the government-wide financial statements. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any noncurrent debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

13. Unearned (Deferred) Revenue

Unearned revenue in the special revenue fund represents federal and state grants that have been received but not yet earned.

14. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

15. Fund Balance Reserves

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five (5) categories, as defined below:

- a. Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, noncurrent receivables and corpus of any permanent funds.
- b. Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers or through enabling legislation.
- c. Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revised or changes the specified use by taking the same action (resolution) taken to originally commit these funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

15. Fund Balance Reserves (Continued)

- d. Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Interest is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- e. Unassigned includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a position unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

16. Proprietary Funds Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the School District enterprise fund, (the Food Service) are charges to customers for sales of food service.

Operating expenses for enterprise funds include the cost of sales and services, administrative expense and depreciation on Capital Assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

17. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey social security and post-retirement medical pension contributions for the certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the District's annual budget.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

18. Non-Monetary Transactions

Commodities received under the Federal Food Distribution Program are received by the district and are recorded as nonoperating revenue when received in the food service enterprise fund at market value. The use of the commodities is included in cost of sales.

19. Allocation of Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is reported separately on the Statement of Activities. No expenses were allocated as "Indirect Expenses".

20. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

21. Accounting and Financial Reporting for Pensions

In fiscal year 2015, the District implemented GASB 68. This Statement amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirement of Statement No. 27, Accounting for Pension by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

21. Accounting and Financial Reporting for Pensions (Continued)

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events.

22. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Other Accounting Standards

The District is currently reviewing the following for applicability and potential impact on the financial statements:

 GASB Statement No. 75. Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB).

Effective Date: The provisions in Statement 75 are effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged. The District has not yet determined the impact of the Statement on its financial statements.

GASB Statement No. 83. Certain Asset Retirement Obligations. This Statement
addresses accounting and financial reporting for certain asset retirement obligations
(AROs). An ARO is a legally enforceable liability associated with the retirement of a
tangible capital asset. A government that has legal obligations to perform future
asset retirement activities related to its tangible capital assets should recognize a
liability based on the guidance in this Statement.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. The District does not expect this Statement to impact its financial statements.

• GASB Statement No. 84. Fiduciary Activities. This objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify component units and postemployment benefit arrangements that are fiduciary activities.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The District does not expect this Statement to impact its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Other Accounting Standards

GASB Statement No. 85. Omnibus 2017. This objective of this Statement is to address
practice issues that have been identified during implementation and application of certain
GASB Statements. This Statement addresses a variety of topics including issues related to
blending component units, goodwill, fair value measurement and application, and
postemployment benefits (pensions and other postemployment benefits [OPEB]).

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 27, 2017. The District does not expect this Statement to impact its financial statements.

GASB Statement No. 86. Certain Debt Extinguishment Issues. The primary objective of this
Statement is to improve consistency in accounting and financial reporting for in-substance
defeasance of debt by providing guidance for transactions in which cash and other monetary
assets acquired with only existing resources – resources other than the proceeds of
refunding debt – are placed in an irrevocable trust for the sole purpose of extinguishing debt.
This Statement also improves accounting and financial reporting for prepaid insurance on
debt that is extinguished and notes to financial statements for debt that is defeased in
substance.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 27, 2017. The District does not expect this Statement to impact its financial statements.

GASB Statement No. 87. Leases. The objective of this Statement is to better meet the
information needs of financial statement users by improving accounting and financial
reporting for leases by governments. This Statement increases the usefulness of
governments' financial statements by requiring recognition of certain lease assets and
liabilities for leases that previously were classified as operating leases and recognized as
inflows of resources or outflows of resources based on the payment provisions of the
contract.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

I. Subsequent Events

Management has reviewed and evaluated all events and transactions from June 30, 2017 through December 1, 2017, the date that the financial statements are issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents includes petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less. Cash equivalents are defined as sort-term, highly liquid securities that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with original maturities of three (3) months or less meet this definition.

Investments are stated at fair value, which is in excess of cost value. The District classifies securities that have original maturity date of more than three months from the date of purchase as investments. The District is in compliance with GASB Statement No. 3 as amended by GASB Statement No. 40.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

Investments

New Jersey statutes permit the District to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- Government money market mutual funds.
- Any federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- Bonds or other obligations of the school district or local unit of which the school district is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury.
- Local government investment pools.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

New Jersey Cash Management Fund — All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis. As of June 30, 2017, the District had \$137,918.83 on deposit with the New Jersey Cash Management Fund.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

Allocation of Cash and Cash Equivalents:

Unrestricted Restricted	\$ 4,807,952.16 270,476.64
	\$ 5,078,428.80

As of June 30, 2017, cash, cash equivalents and investment of all funds of the District consisted of the following:

·	Cash and Cash Equivalents
Cash and Cash Equivalents: Checking Accounts, interest bearing New Jersey Cash Management Fund (NJCMF)	\$ 4,940,509.97 137,918.83
	\$ 5,078,428.80
Reconciliation: Governmental Funds Proprietary Funds Fiduciary Funds	\$ 3,399,268.81 162,531.14 1,516,628.85
	\$ 5,078,428.80
Investment - Fiduciary - Restricted U.S. Treasury Note (Face Value \$16,000.00)	\$ 23,421.62

<u>Risk Analysis</u> – All of the balances were covered by either federal depository insurance or Government Unit Deposit Protection Act ("GUDPA") and are considered to have minimal custodial risk. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have concentration of credit risk.

4. CAPITAL RESERVE ACCOUNT

A Capital Reserve Account was established by Board Resolution and Budget Appropriation in a prior year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The combined Capital Reserve Account balance at June 30, 2017 is \$270,476.64 and is reflected in the General Fund.

The activity of the capital reserve for the July 1, 2016 to June 30, 2017 fiscal year is as follows:

Board Contributions:			
Prior to June 30, 2016	\$	393,773.26	
During fiscal year ended June 30, 2017		100,000.00	\$ 493,773.26
Interest Earnings:			
Prior to June 30, 2016	\$	1,822.38	
During fiscal year ended June 30, 2017		**	1,822.38
Withdrawals:			
Prior to June 30, 2016	\$	225,119.00	
During fiscal year ended June 30, 2017		_	225,119.00
Balance at June 30, 2017			\$ 270,476.64
During fiscal year ended June 30, 2017	<u></u>		

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to *N.J.A.C.* 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

5. INTERGOVERNMENTAL ACCOUNTS RECEIVABLE

Intergovernmental Accounts Receivable at June 30, 2017 consisted of Federal sources, State sources and State aid. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables follows:

A. Bonds Payable

Bonds are authorized in accordance with State law by the voters of the municipality(ies) through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds. As of June 30, 2017, the District had the following serial bonds outstanding.

General Serial Bonds:

\$7,005,000 General Obligation Bonds, Series 2011 -

District's share of improvements to the High School (9-12). Annual maturities of \$380,000 to \$550,000 through June 1, 2027 at interest rates ranging from 2.75% to 4.25%. The bonds maturing prior to June 1, 2021 are not subject to redemption prior to maturity. The bonds maturing on or after June 1, 2021 are subject to redemption prior to maturity at the option of the Board, in whole at any time or in part on any interest payment date on or after June 1, 2020.

\$ 5,330,000.00

\$3,845,000 of Refunding School Bonds, Series 2012 - Refinance \$3,953,000 of the General Obligation Bonds 2003. Annual maturities of \$385,000 to \$445,000 through June 1, 2023 at interest rates ranging from 3.0% to 4.0%. The bonds are not subject to redemption prior to maturity.

2,455,000.00

\$2,453,000 of General Obligation Bonds, Series 2015 - District's share of improvements to the schools. Annual maturities ranging from \$225,000 to \$450,000 commencing on June 1, 2017 through June 1, 2025 at net interest rates ranging from 1.5% to 2.5%. The bonds are not subject to redemption prior to maturity.

2,228,000.00

\$ 10,013,000.00

The Bonds are general obligations of the Board and are secured by a pledge of the full faith and credit of the Board for the payment of the principal thereof and the interest thereon and, unless paid from other sources, the Bonds are payable from ad valorem taxes to be levied on all taxable real property in the school district, without limitation as to rate or amount. The Bonds are additionally secured by the provisions of the New Jersey School Bond Reserve Act.

The District, in conjunction with the issuance of the Bonds, has agreed to undertake and provide certain information to Bondholders on a continuing basis. The Securities and Exchange Commission ("SEC") Rule 15c2-12(b)(5) "Continuing Disclosure" requirements, which the District has adopted, requires that various financial information about the District and the Municipality be provided annually to various information repositories. This requirement has been complied with for the year ended June 30, 2017.

B. Bonds and Notes Authorized But Not Issued

As of June 30, 2017 there were bonds and notes authorized but not issued of \$433,656.18 which will be reduced accordingly as the NJSDA (Capital Projects Fund) reimbursement funds are received. The authorization was approved as part of the referendum approved by the voters on February 10, 2015 for improvements to the high school.

The amount is equivalent to the balance due to the District for the project grant and is calculated as follows:

Grant Awarded	\$	2,768,981.68	
Less: Cash Receipts prior to June 30, 2016	\$ 1,380,611.06		
Cash Receipt for the period ended			
June 30, 2017	954,714.44		2,335,325.50
		-	
Balance		\$	433,656.18

C. Capital Lease Obligations Payable

The District is leasing equipment totaling \$743,389.00 under three (3) capital leases. The capital leases are for terms of five years. The following is a schedule of future minimum lease payments under the capital leases at June 30, 2017:

Governmental Funds:		<u>Payment</u>	Interest	<u>Total</u>

2012 Series	\$ 136,103	\$_	79,394_	\$	11,342	\$ 68,052

E. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees earn sick leave at the rate of one day for each month of service. Upon departure from the district, teachers who have obtained tenure and ten month support staff who have completed three or more years of employment shall be paid for accumulated sick leave at the rate of ¼ of the unused accumulated sick leave multiplied by 1/200 of the last annual contracted salary. Twelve month employees who have completed three or more years of employment shall be paid at the rate of ¼ of the unused accumulated sick leave multiplied by 1/240 of the last annual contracted salary.

For teachers employed after September 1, 1981, the sick leave payment shall be limited to no more than \$15,000.00. For all support staff employed after September 1, 1981, the sick leave payment shall be limited to no more than \$15,000.00.

Twelve month employees earn vacation, the carryover of which is limited to August 31, of the year following the time earned.

8. NONCURRENT DEBT (CONTINUED)

E. Compensated Absences (Continued)

The liability for vested compensated absences of the governmental fund types is recorded in the statement of net position in the current and noncurrent liabilities. The current portion of the compensated absence balance of the governmental funds is shown separately from the noncurrent liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2017 no liability existed for compensated absences in the proprietary fund types.

F. Operating Lease

The District leases various non-capitalized equipment that is deemed as an operating lease. The lease payment schedule is as follows:

Due Date November 1,		<u>Total</u>	<u>Principal</u>		Interest
2017	\$	53,968.94	\$ 51,383.04	\$	2,585.90
2018 2019		53,968.94 53,968.94	49,513.41 50,591.56		4,455.53 3,377.38
2020 2021	-	53,968.94 53,968.94	51,693.19 52,818.80	****	2,275.75 1,150.14
	\$_	269,844.70	\$ 256,000.00	\$	13,844.70

As of June 30, 2017 the District had \$255,500 on deposit with an escrow agent. The only expense of the fund was a \$500 administrative charge.

9. PENSION PLANS

Basic Financial Statements

<u>Description of Plans:</u> All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund that have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division of Pension issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund.

Teachers' Pension and Annuity Fund (TPAF)

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contribution, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66, TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

9. PENSION PLANS (CONTINUED)

Description of Plans (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Public Employees' Retirement System (PERS)

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PFRS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

9. PENSION PLANS (CONTINUED)

Description of Plans (Continued)

Public Employees' Retirement System (PERS) (Continued)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

<u>Funding Policy:</u> The contribution policy is set by New Jersey Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in over the next seven years that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a noncontributing employer of the TPAF.

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclosure the portion of the nonemployer contributing entities total proportionate share of the net pension liability that is associated with the local participating employer.

9. PENSION PLANS (CONTINUED)

Funding Policy (Continued)

During the year ended June 30, 2017 for TPAF, which is a cost sharing plan with special funding situations, the annual pension costs equals annual required contribution. For PERS, which is a cost sharing multi-employer pension plan, the annual pension costs differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

Three-Year Trend Information for PERS

Fiscal Year Ended June 30,	Ended Net Cost		Percentage of APC Contributed	Employee Contribution
2017	\$	190,458	100%	\$ 104,088
2016		198,134	100%	105,024
2015		186,101	100%	98,188

Three-Year Trend Information for TPAF (Paid on-behalf of the District)

Fiscal Year	 Pension Paid on-behalf of District								
Ended	Cost		APC		Total		Employee		TPAF
<u>June 30</u>	(APC)	<u>Co</u>	ntributed		On-Behalf of		Contribution		<u>FICA</u>
2017	\$ None		100%	\$	1,465,423	\$	985,872	\$	990,106
2016	None		100%		1,018,741		928,484		943,699
2015	None		100%		672,043		896,190		950,109

During the fiscal year ended June 30, 2017, the State of New Jersey contributed \$1,465,423 to the TPAF for normal pension. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$990,106 during the year ended June 30, 2017 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the individual fund statements and schedules as a revenue and expenditure in accordance with GASB 24.

9. PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employees Retirement System (PERS)

The information for PERS was abstracted from State of New Jersey Public Employees' Retirement System Schedules of Employer Allocations and Schedules of Pension Amounts by Employer as of June 30, 2016 Independent Auditor's Report dated April 6, 2017.

At June 30, 2017, the District reported a liability of \$6,349,516 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016 (the *Measurement Date*), and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined.

	June 30,				
	<u>2016</u>	<u>2015</u>			
District Proportionate Share	0.0214386607 %	0.0241035270 %			
Difference - Increase	(0.0026648663)				

For the year ended June 30, 2017, the District recognized pension expense of \$465,107. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	 erred Outflows of Resources	 eferred Inflows of Resources
Changes of Assumptions	\$ 1,315,281	
Difference between expected and actual experience Net difference between projected and actual earnings	118,082	
on pension plan investments	242,113	
Changes in proportion		\$ 566,339
District contributions subsequent to the measurement date	 211,881	
Total	\$ 1,887,357	\$ 566,339

9. PENSION PLANS (CONTINUED)

Public Employees Retirement System (PERS) (Continued)

The \$1,887,357 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2017, the plan measurement date is June 30, 2016) will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	 <u>Amount</u>
2017	\$ 377,722
2018	377,722
2019	437,024
2020	367,164
2021	116,859

Additional Information

Collective balances are as follows:

	June 30, 2017					
(Measurement Date: June 30, 2016)						
\$ 8,685,338,300						
	870,133,595

0.0214386607 %

Collective deferred outflows of resources Collective deferred inflows of resources Collective net pension liability (Local Group) District's proportion (Local Group)

Actuarial Assumptions

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which rolled forward to June 30, 2016. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation 3.08 Percent

Salary Increases:

Through 2026 1.65-4.15 Percent (based on age) Thereafter 2.65-5.15 Percent (based on age)

Investment Rate of Return 7.65 Percent

9. PENSION PLANS (CONTINUED)

Public Employees Retirement System (PERS) (Continued)

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 (measurement date) are summarized in the following table:

9. PENSION PLANS (CONTINUED)

Public Employees Retirement System (PERS) (Continued)

Long-Term Rate of Return (Continued)

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Cash	5.00 %	0.87 %
U.S. Treasuries	1.50	1.74

Global Debt ex U.S.	5.00	-0.25
REIT	5.25	5.63
	<u>100.00</u> %	

Discount Rate

The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the *Bond Buyer* GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

9. PENSION PLANS (CONTINUED)

Public Employees Retirement System (PERS) (Continued)

Sensitivity of The Collective Net Pension Liability to Changes in the Discount Rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2016 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 -percentage point lower or 1- percentage-point higher than the current rate:

	June 30, 2016					
		At Current				
	•	1% Decrease 2.98%				
District's proportionate share						
of the pension liability	\$	7,780,591	\$	6,349,516	\$	5,168,040

Pension Plan Fiduciary Net Position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Public Employees Retirement System (PERS) or by visiting their website at www.state.nj.us/treasury/pensions/pers1.

Teachers Pensions and Annuity Fund (TPAF)

Data for the TPAF was abstracted from the State of New Jersey Teachers' Pension and Annuity Fund Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer and Nonemployer as of June 30, 2016 Independent Auditor's Reports dated July 13, 2017.

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2016 was as follows:

Net Pension Liability:
District's proportionate share
State's proportionate share associated with the District

None
\$ 100,095,950

9. PENSION PLANS (CONTINUED)

Teachers Pensions and Annuity Fund (TPAF) (Continued)

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2016, the proportion of the TPAF net pension liability associated with the District was .1272410992%.

	June 30,			
	<u>2016</u>	<u>2015</u>		
District Proportionate Share	0.1272410992 %	0.1243058644 %		
Difference - Increase	0.0029352348			

For the year ended June 30, 2017, the District recognized on-behalf pension expense and revenue of \$6,055,395 for contributions provided by the State.

Actuarial Assumptions

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation 2.50 Percent

Salary Increases:

2012-2021 Varies based on experience
Thereafter Varies based on experience

Investment Rate of Return 7.65 Percent

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

9. PENSION PLANS (CONTINUED)

Teachers Pensions and Annuity Fund (TPAF) (Continued)

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2016 are summarized in the table as follows:

with the District	\$ 120,087,829	\$ 100,557,250	\$ 84,608,012

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

Additional Information

Collective balances of the Local Group at June 30, 2016 are as follows:

Deferred outflows of resources	\$ 17,440,003,201
Deferred inflows of resources	\$ 195,027,919
Net pension liability	\$ 78,666,367,052
State's proportionate share associated with the District	0.1272410992

Collective pension expense-Local Group for the plan for the measurement period ended June 30, 2016 is \$5,915,082,626

10. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2016, there were 110,512 retirees eligible for post-retirement medical benefits and the state contributed \$1.37 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$231.20 million toward Chapter 126 benefits for 20,045 eligible retired members in fiscal year 2016.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with parameters of GASB 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to SHBP Fund for PERS retirees' post-retirement benefits on behalf of the District was not determined or made available by the State of New Jersey.

Three-Year Trend Information for TPAF Medical (Paid on-behalf of the District)

Post-Retirement Medical
\$ 1,221,031.00
1,066,869.00
840,014.00

11. DEFERRED COMPENSATION

The District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

AXA Equitable

Met Life

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance: The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance: The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior two years:

Fiscal Year Ended June 30	Interest <u>Earnings</u>	<u>!</u>	Board Contributions	!	Employee Contributions	Amount Reimbursed	Ending <u>Balance</u>
2017	\$ 769.63	\$	25,000.00	\$	31,018.68	\$ 45,764.90	\$ 155,906.28
2016	315.75		49,998.11		11,889.91	48,986.86	144,882.87
2015	72.29		40,000.00		4,763.06	15,448.63	131,665.96

<u>Health Benefits:</u> The Board of Education has procured medical insurance coverage for its employees under a monthly per employee premium (traditional plan).

Other Coverage: The Board has contracted with a commercial insurance company to provide coverage for various losses. The coverages are subject to various deductibles and coverage limits based on the type of policy coverage included. The coverages and its limits are detailed in the statistical section.

The Board also maintains surety bond coverage on key financial employees.

13. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2017:

	R	eceivable	Payable			
Governmental Funds: General Capital Projects	\$	1,035.45 -	\$	275.65		
Other Fund: Trust and Agency				759.80		

14. FUND BALANCE APPROPRIATED

General Fund - Of the \$1,689,517.54 General Fund fund balance at June 30, 2017, \$270,476.64 is restricted for the Capital Reserve Account; \$589,110.88 is restricted - excess surplus – designated for subsequent years expenditures and \$829,930.02 is assigned-designated for subsequent year's expenditures.

<u>Capital Projects Fund</u> – Of the \$229,946.15 Capital Projects Fund balance at June 30, 2017, all is restricted for capital projects.

<u>Debt Service Fund</u> – Of the \$38,377.56 Debt Service Fund balance at June 30, 2017, all is restricted for debt service.

15. CALCULATION OF EXCESS SURPLUS - BUDGETARY BASIS

In accordance with N.J.S.A. 18A:7F-7 as amended, the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. There was excess fund balance as a result of the fiscal year ended June 30, 2017 of \$240,462.37 and as a result of the fiscal year ended June 30, 2016 of \$589,110.88.

16. RECONCILIATION OF FUND BALANCES - GENERAL FUND

The Surpluses are Presented on a GAAP Basis and a Reconciliation to the Budget Basis as follows:		Assigned Designated for ubsequent Year's Expenditures	Ē	Reserve for Excess Surplus		Unassigned			
Balance on a Budget Basis on the General Fund Budgetary Basis Comparison	\$	960,889.12	\$	240,462.57	\$	912,371.33			
Less: Allocation of State Aid Payment of \$1,283,793.00 not Recognized on GAAP Basis	_	130,959.10	_	240,462.57	_	912,371.33			
Balances on a GAAP Basis on the Governmental Fund Balance Sheet	\$_	829,930.02	\$_	None	\$	None			

17. CONTINGENT LIABILITIES

- A. <u>Grant Programs</u> The school district participates in state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of those grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.
- **B.** Pending Litigation As of the date of this report, in the opinion of the Board Attorney and management, there was no litigation pending of which, in the event of an adverse or unfavorable outcome, would materially impair the financial position of the District.
- C. <u>Contractual Commitments</u> The District has contractual commitments at June 30, 2016 to various vendors, which are recorded in the capital projects fund as fund balance assigned for other purposes in the amount of \$200,000.00.

18. ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

19. NET POSITION - NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.

19. NET POSITION - NET INVESTMENT IN CAPITAL ASSETS (CONTINUED)

The net investment in capital assets of \$28,643,432.49 is calculated as follows:

	_	Amount						
		Governmental		Proprietary				
Capital assets, net of depreciation	\$	39,360,258.46	\$	302,187.76				
Bonds payable		(10,013,000.00)						
(used to build or acquire capital assets)								
Capital Lease Obligation -								
Proceeds (used to build or acquire capital assets)		(182,756.64)		(60,031.86)				
Grant receivable		(417,777.45)						
Less: Bond proceeds		(15,878.71)						
Adjustments		(5,921.30)						
Deferred loss on defeasance of debt		68,051.71						
Unamortized deferred premium	•	(149,543.58)	-					
	\$_	28,643,432.49	\$_	242,155.90				

20. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provision at N.J.S.A.18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Borough of South River provides for long-term tax exemptions, as authorized by New Jersey State Statutes. N.J.S.A. 40A:20-1 et seq. sets forth the criteria and mechanism by which property taxes can and are abated. The exemptions provided by the Borough of South River are for two (2) senior citizen housing projects and religious entities. Taxes abated include municipal, local school and county taxes.

The Borough of South River recognized revenue of \$70,342.65 from the annual service charge in lieu of payment of taxes in 2016 and taxes in 2017 that otherwise would have been due on these long-term tax exemptions amounted to \$303,698.81 based upon the assessed valuation of the long-term tax exemption properties. A portion of the \$233,356.18 tax abatement would have been allocated to the District.

STATISTICAL TABLES (SECTION)
(UNAUDITED)

SOUTH RIVER SCHOOL DISTRICT COUNTY OF MIDDLESEX INTRODUCTION TO STATISTICAL TABLES (SECTION) (UNAUDITED)

Contents	Exhibit
Financial Trends	J-1 to J-5
These schedules contain trend information to help the reader understand how the district's financial performance and well being have changed over time.	
Revenue Capacity	J-6 to J-9
These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.	
Debt Capacity	J-10 to J-13
These schedules contain information to help the reader assess the district's outstanding debt.	
Demographic and Economic Information	J-14 & J-15
These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.	
Operating Information	J-16 to J-20

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports (CAFR) for the relevant year.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- b Rates for debt service are based on each year's requirements.

Borough of South River District Direct Debt: Issued and outstanding - Bonds Authorized but not Issued - Bonds and Notes	\$	10,013,000 433,656	100% 100%	***************************************	10,446,656
Total direct and overlapping debt					46,921,481

Sources: Assessed value data used to estimate applicable percentages provided by the Middlesex County Board of Taxation. Debt outstanding data provided by each governmental unit.

Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of South River Borough. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Borough of South River Board of Education County of Middlesex, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance Department, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of South River Board of Education, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Borough of South River Board of Education's basic financial statements, and have issued our report thereon dated December 1, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the South River Borough School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the South River Borough School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that may not have been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education of the Borough of South River School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08

The Honorable President and Members of the Board of Education Borough of South River Board of Education County of Middlesex, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Borough of South River Board of Education's compliance with the types of compliance requirements described in the OMB Compliance Supplement and New Jersey State Aid/Grant Compliance supplement that could have a direct and material effect on each of District's major federal and state programs for the year ended June 30, 2017. The Borough of South River School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Borough of South River Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance); the New Jersey State Aid/Grant Compliance Supplement; the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey; and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, Uniform Guidance and NJOMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether on compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Borough of South River Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08 (CONTINUED)

We believe that our audit provides a reasonable basis for our unmodified opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Borough of South River Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Borough of South River Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of the Borough of South River Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Borough of South River Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey State Aid/Grant Compliance Supplement, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of South River Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NJOMB 15-08 (CONTINUED)

Purpose of Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purposes.

BOARD OF EDUCATION BOROUGH OF SOUTH RIVER SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE YEAR ENDED JUNE 30, 2017

1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Borough of South River School District. The information in this Schedule is presented in accordance with the requirements of Title 2, US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and NJOMB 15-08. The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules or expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this Schedule is presented in accordance with the requirements of Title 2, US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and NJOMB 15-08. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last two (2) state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last two (2) state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

BOARD OF EDUCATION BOROUGH OF SOUTH RIVER SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE (CONTINUED) YEAR ENDED JUNE 30, 2017

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONTINUED)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$18,764.00 for the General Fund. See Note 1 (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following:

		<u>Federal</u>		<u>State</u>	<u>Total</u>
General Fund	\$	158,012.80	\$	17,029,240.76	\$ 17,187,253.56
Special Revenue Fund		1,442,891.30		102,370.85	1,545,262.15
Capital Projects Fund				1,213,371.63	1,213,371.63
Food Service Fund		651,979.56	_	10,236.51	662,216.07
	\$_	2,252,883.66	\$_	18,355,219.75	\$ 20,608,103.41

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. FEDERAL AND STATE LOANS OUTSTANDING

The District had no loans outstanding payable to federal or state entities at June 30, 2017.

6. OTHER

The amount reported as TPAF Pension Contributions and Post Retirement Medical Contributions represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2017. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share social security contributions for TPAF members for the year ended June 30, 2017.

The State of New Jersey also makes TPAF post-retirement medical and pension contribution expenditures on-behalf of the District. These expenditures are not subject to New Jersey OMB Circular 15-08 because the contributions are made by the State directly and do not have any compliance related requirements, and therefore have not been included on the Schedule of State Awards, as directed by the funding agency.

7. INDIRECT COSTS

The District did not use the 10% di minimus indirect cost rate.
