Financial, Compliance and Performance
For the Year Ended June 30, 2017

The Charter School Board of Trustees has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the contract year.

Where question arises as to whether any contract or agreement might result in violation of the statute, the Solicitor's opinion should be sought before a commitment is made.

Based on the results of our examination, we did not note any individual payments, contracts, or agreements made for the performance of any work or goods or services, in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A 18A18A-4, amended.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A 18A:A8A-5.

In as much as the system of records did not provide for an accumulation of payments for categories for the performance of any work or goods or services, the results of such accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

The system of records did not provide for an accumulation of purchases for which the Charter School used contracts entered into by the state Department of Purchase and Property pursuant to ch.114,P.L.1977, therefore, the extent of such purchases could not reasonably be ascertained.

School Food Service

The financial transactions and statistical records of the Charter School food services were maintained in satisfactory condition. The financial accounts, meal count records and eligibility applications were reviewed on a test-check basis.

The number of meals claimed for reimbursement was verified against sales and meal count records. As part of the claims review process the Edit Check Worksheet was completed. We noted that meals claimed agreed with meal count records. No exceptions noted. We also noted that the reimbursement claims were submitted/certified in a timely manner. Applications for free and reduced-price meals were reviewed for completeness and accuracy. The number of free and reduced-price meals claimed as served was compared to the number of valid applications on file, times the number of operating days, on a class by class basis. No exceptions noted. The free and reduced-price meals and free milk policy is uniformly administered throughout the Charter school. The required verification procedures for free and reduced-price applications were completed and available for review.

Expenditures were separately recorded as food, labor and other costs. Vendor invoices were reviewed and cost verified.
