Honorable President and
Members of the Board of Education
Bethlehem Township School District
940 Iron Bridge Road
Asbury, NJ 08802

Dear Members of the Board of Education:

The Comprehensive Annual Financial Report (CAFR) of the Township of Bethlehem Public School District for the fiscal year ended June 30, 2018, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in the auditor's report are accurate in all material respects and are reported in a manner designed to fairly present the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The CAFR is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart, and a list of principal officials. The financial section includes the general-purpose financial statements, management's discussion and analysis, and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multiyear basis. The District is required to undergo an annual single audit in conformity with the provisions of the 1996 Single Audit Act and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations, and findings and recommendations, is included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

The Township of Bethlehem Public School District is an independent reporting entity within the criteria adopted by GASB (Governmental Accounting Standards Board) established by Statement No. 14. All funds and account groups of the District are included in this report. The Township of Bethlehem Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 8.

These services include general as well as special education (grades K through 8) programs. The District completed the 2017-2018 fiscal year with an in-district enrollment of 379 students, which is 17 (4.70%) students more than the previous year's enrollment. The following details the changes in the student enrollment of the District over a ten-year period. These figures do not include those students sent out of district for special education placements.

Average Daily Enrollment

Fiscal Year	Student Enrollment	Percent Change
2017-2018	379	4.7
2016-2017	362	-6.7
2015-2016	388	-10.8
2014-2015	402	-10.8
2013-2014	454	-2.0
2012-2013	460	-10.1
2011-2012	512	- 5.2
2010-2011	540	- 2.7
2009-2010	555	- 5.3
2008-2009	586	- 4.5

2. ECONOMIC CONDITION AND OUTLOOK:

As noted above, the District has had a declining enrollment. The enrollment decline in our district is consistent with the overall decline in Hunterdon County. As a result, we have tried to attract more students through School Choice as well as implementation of a full day kindergarten program. This year, we enrolled five School Choice students and, unfortunately, the NJDOE has capped our Choice enrollment at four students for the 2015-16 school year. We have had to place at least 10 students on our waiting list.

3. MAJOR INITIATIVES:

Our most important initiative this year and in the foreseeable future is our 1:1 iPad program. This year, grades two through eight received iPads from the District and are using them during the school day. Students in grades six through eight may also use their iPads at home.

4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (G.A.A.P.). An internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as a re-appropriation of fund balances in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2018.

6. ACCOUNTING SYSTEM AND REPORTS:

A District's accounting records must reflect generally accepted principles, as promulgated by the Governmental Accounting Standards Board (G.A.S.B.). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

An effective and efficient system of internal controls is essential to accurate, timely reporting of all relevant transactions on an accounting system and the resultant administrative and external reports generated from that system.

7. FINANCIAL INFORMATION AT FISCAL YEAR-END:

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibilities for sound financial management. The following schedule presents a summary of the general fund, special revenue fund, and debt service fund revenues for the fiscal year ended June 30, 2018, and the amount and percentage of increase/(decrease) in relation to the prior year.

Revenue	2017-2018 Amount	Percent of Total	Increase (Decrease) From 2016-17	Percent of Increase (Decrease)
Local Sources	7,509,094	71.61%	58,027	0.78%
State Sources	2,814,728	26.84%	219,481	8.46%
Federal Sources	<u>162,888</u>	<u>1.55%</u>	<u>25,326</u>	<u>18.41%</u>
Totals	<u>\$ 10,486,710</u>	<u>100.0%</u>	<u>\$302,834</u>	<u>2.97%</u>

The following schedule presents a summary of the general fund, special revenue fund, and debt service fund expenditures for the fiscal year ended June 30, 2018, and the amount and percentage of increase/ (decrease) in relation to the prior year.

Expenditures	2017-2018 Amount	Percent of Total	Increase (Decrease) From 2016-17	Percent of Increase (Decrease)
Current Expense	9,657,110	93.89%	379,980	4.10%
Capital Outlays	96,301	0.94%	57,212	146.36%
Special Revenues	168,043	1.63%	30,481	22.16%
Debt Service	<u>364,375</u>	<u>3.54%</u>	<u>550</u>	<u>0.15%</u>
Totals	<u>\$ 10,285,829</u>	<u>100.0%</u>	<u>\$468,23</u>	<u>4.77%</u>

8. DEBT ADMINISTRATION:

During the 2017-2018 school year, the District retired \$225,000.00 of the principal balance on its 2015 Refunding Bonds. These bonds were issued in response to favorable market conditions, and management initiated an effort to refund these bonds, culminating in a successful refunding which closed on September 23, 2015. This refunding will provide over \$525,000.00 of debt service savings over the life of the bonds, which equals 9.8% of the net present value (NPV) of the refunded debt service requirement. The State of New Jersey requires a minimum of 3% NPV savings, so our transaction produced more than three times the minimum savings benchmark established by the state. Savings will be realized in every school year through 2030.

9. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 1. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was initially enacted in 1970 to protect Governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act. 2009 amendments to the Act established a sliding collateralization scale for public depositories accepting governmental deposits that is based upon the capitalization level of the depository.

10. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to, general liability and comprehensive collision, hazard and theft insurance on property and contents, and fidelity bonds. Exhibit J-20 provides a summary of the coverage amounts and deductibles.

11. OTHER INFORMATION:

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Hodulik & Morrison, P.A. was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act and the related New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of the report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

12. ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Township of Bethlehem Board of Education for taking initiative to provide fiscal accountability to the taxpayers of the District and thereby contributing their full support to the development and maintenance of our financial operation. Further, the preparation of this report could not have been accomplished without the efficient and dedicated services of our business office staff members.

Respectfully Submitted,

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Township of Bethlehem School District
County of Hunterdon, New Jersey

REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Township of Bethlehem School District, in the County of Hunterdon, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the district's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making these risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that our audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Township of Bethlehem School District, in the County of Hunterdon, State of New Jersey, as of June 30, 2018 and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

EMPHASIS OF MATTER

As discussed in Notes 1 and 6 to the financial statements, during the fiscal year ending June 30, 2018, the Township of Bethlehem School District implemented the provisions of Statement Number 75 of the Governmental Accounting Standards Board (GASB 75). GASB 75 changed the measurement criteria and reporting provisions relating to the District's proportionate share (if any), of the annual expense and net liability of the post-retirement employee benefits other than pensions (OPEB) of plans in which its employees are enrolled. As the State of New Jersey is solely responsible for the funding of all local education agency OPEB plans for the provisions of health benefits, and the Township of Bethlehem School District offers no additional OPEB plans, no additional disclosures were required to the accompanying statement of net position. The accompanying statement of activities discloses the allocated expense of the OPEB plan, and an equal revenue to reflect the existing Special Funding Situation, for the year based upon GASB 75 implementation. Note 6 of the Notes to the Financial Statements also discloses the District's proportionate share, for information purposes only, of the state sponsored OPEB Plan. Our Opinion is not modified with respect to this matter.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, including the Notes thereto, and pension plan information, including the Notes thereto, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Bethlehem School District's basic financial statements as a whole. The accompanying other supplementary information, consisting of the combining and individual fund financial statements, and long-term debt schedules, as listed in the table of contents, the schedules of federal and state financial assistance, required by New Jersey OMB Circular 15-08, and the other information, including the introductory section and the statistical section are presented for purpose of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements, long-term debt schedules and the schedules of federal and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, long-term debt schedules and the schedule of state financial assistance are fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2019 on our consideration of the Township of Bethlehem School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* in considering the Township of Bethlehem School District's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION & ANALYSIS (MD&A)
June 30, 2018

The Township of Bethlehem School District (the "District") discussion and analysis is designed to provide an overview of the District's financial activities for the year ended June 30, 2018, identify changes in the District's financial position, identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

The focus of the Management Discussion and Analysis (MD&A) is on current year activities, resulting changes and currently known facts. The MD&A should be read in conjunction with the Transmittal Letter and the District's Financial Statements.

Financial Highlights

The District's governmental activities net position increased by \$103,784 as reflected in Table 2, Changes in Net Position. This increase is primarily attributable to favorable budgetary variances (budget v. actual) of \$200,880. This increase was enhanced by reductions to long-term liabilities that exceeded depreciation expense, but was partially offset by a significant increase of \$147,125 in the accrued pension obligations allocated to the District by the Public Employees Retirement System (PERS). The District's business-type activity expenses exceeded related revenues by \$11,549. The District entered into a "break-even" contract with its food service management company for the year, and as a result, the reported net loss is comprised of depreciation and equipment repair expenses, which are excluded from the contractual "break-even" formula. The breakdowns of the governmental and business-type activity amounts are reflected in Schedule A-2 of the District-wide Financial Statements. The District's General Fund reported an increase in Fund Balance of \$201,318 for the year as reflected in Schedule B-2 of the District-wide Financial Statements.

Understanding the Annual Report

New Jersey state law and administrative code require that school districts follow Generally Accepted Accounting Principles (GAAP.) The format focuses on the district as a whole (government-wide financial statements) and refocuses the fund financial statements on major funds. Major funds are defined as those in which total assets and liabilities or revenues and expenditures/expenses are 10% or more of the total assets and liabilities or revenues and expenditures/expenses of all funds of that type (governmental, proprietary, etc.) and at least 5% of the assets and liabilities or revenues and expenditures/expenses for all governmental and enterprise funds combined.

Government-Wide Financial Statements

The government-wide financial statements (see financial statements A-1 and A-2) are designed to be corporate-like in that all government and business-type activities are consolidated into columns, which add to a total for the district. The focus of the Statement of Net Position is designed to be similar to a bottom line for the district and its governmental and business type activities. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations.

The Statement of Activities is focused on both the gross and net costs of various activities (including governmental and business-type), which are provided by the government's general tax and other revenues. This statement is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business type activities. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. As required by accounting principles generally accepted in the U.S and New Jersey state law and regulation, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and balances of spendable resources available at the end of the fiscal year. This is the manner in which the District's financial plan (budget) is typically developed. The flow and availability of current financial resources is a clear and appropriate focus of any analysis of a government. The financial statements include reconciliations of the differences between the fund balance of the governmental funds and the net position of the governmental activities in the government-wide financial statements (Exhibit B-1) and a reconciliation of the differences between the net changes in government fund balances and the change in net position in the government-wide financial statements (Exhibit B-3).

The proprietary funds consist of a major program (food services enterprise fund). Proprietary funds are used to account for activities and programs that are financed primarily through user fees. The activity reported in the proprietary funds utilizes the same basis of accounting as that of the business-type activities reported in the government-wide financial statements. The "Total" column on the business-type fund financial statements is the same as the business-type column on the government-wide financial statements.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the programs of the district. The district's fiduciary funds include the student activities fund, the payroll agency fund, and the employee benefit flexible spending trust fund.

The District as a Whole

Table I reflects the condensed Statement of Net Assets. In this statement the District is divided into two kinds of activities:

Governmental Activities-These activities consist of instruction and those services, which support instruction such as maintenance, transportation and administration.

Business-Type Activities- These activities consist of the District's cafeteria operations, childcare program, summer camp program and summer enrichment program. Each of the aforementioned programs and the cafeteria charge fees for the services provided that are intended to cover most or all of the cost of services provided.

The condensed Statement of Net Position reflects assets, deferred outflows of resources, liabilities and deferred inflows of resources of the District on an accrual basis of accounting. This statement, which reflects the District's net financial position, is a yardstick of measuring the District's net worth. It means that if the District were forced to liquidate on June 30, 2018 and sell all its assets at book value, the District would be unable to pay all known bills and liabilities, including long-term bonds and lease obligations. This condition is the direct result of the implementation of Statement Number 68 of the Governmental Accounting Standards Board (GASB), which was implemented during the 2014-15 fiscal year and required recognition of the District's proportionate share of the net pension liability of the New Jersey Public Employees Retirement System. The recognition of this liability of \$2.1 million at the close of the 2017-18 fiscal year has resulted in a deficit in total net position of \$561,363.

The results of this year's operations of the District's Governmental Activities and Business-type Activities are reported in the Statement of Activities (Exhibit A-2). Table 2, below, takes the information from that financial statement, rounds off the numbers, and rearranges them slightly so you can see the District's total revenues and expenses for the year.

Increase (Decrease) in Net Position	\$103,784	\$177,995	\$(11,549)	\$(779)	\$92,235	\$177,216

During FY 2018 the net position of the District's governmental activities increased by \$103,784. Favorable budget variances and reductions to long term debt, excluding accrued pension liabilities, amounted to \$1,241,286. This amount is reduced by depreciation expense (net) of \$202,058, increases to the actuarially calculated Net Pension Liability allocated to the District of \$145,189 and minor adjustments to accrued liabilities of \$2,238 to arrive at the increase in net position. The net position of the food service (business-type) activities decreased by \$11,549 in the current fiscal period.

Although the District’s contract with its food management company contains “break even” provisions, the contract does not cover depreciation expense and equipment maintenance and repairs, which are the responsibility of the District. Those costs are responsible for the reported operating deficits. The food service fund has been operating at a small deficit for several years. At June 30, 2018, the unrestricted net position of the food service fund was \$11,300.

The balances generated in current operations were primarily driven by savings throughout the budget. Exhibit C-1 provides a breakdown of the budget line items included in the District’s approved 2017-2018 budget and the variances in actual revenues and expenditures. Revenue realization for the 2017-2018 school year increased for governmental activities when compared to the 2016-2017 school year. As shown in Table 3, the Tax needed to support the District’s budget decreased by 0.01% for the 2017-2018 school year. The actual dollar value of this decrease in the tax levy was \$438. Non-tax revenues of the District remain a small percentage of total revenues, however, unrestricted non-tax local revenues increased by \$58,465 during the current year. State revenue source increases reflect higher TPAF benefit costs paid by the State on the District’s behalf.

The Cost of Governmental Funds Activities (see Table 3) this year was \$10.28 million or a 4.77% increase from the preceding year. The primary drivers for this increase were the facilities repair and replacement costs, administrative costs, tuition and fringe benefits. Although reported costs for employee benefits increased by \$220,179, the actual costs funded by the District budget increased by \$79,096 during the 2017-18 school year. An increase in the amount of “on-behalf” benefits payments made by the State of New Jersey for TPAF social security, pension, and post-retirement health care costs, which by statute are the state’s responsibility make up the difference “On-behalf” payments, which are reported as both revenues and expenditures, increased by \$141,084 during the current period.

The District’s Funds

The District’s Balance Sheet for Governmental Funds (statement B-1) reports a combined fund balance of \$2.658 million. The general fund portion of this balance includes an increase of \$201,318 which resulted from current year’s activities. This increase is the result of positive operating variances relative to budgetary anticipations. In the FY 2018-2019 budget, \$455,386 of fund balance has been included as an offset to local taxes. An additional \$351,849 is set-aside for FY 19-20 to stabilize the local tax levy on a GAAP basis.

General Fund Budgetary Highlights

The 2017-2018 revenues of the General fund amounted to \$9.954 million or a 2.81% increase from the prior year. No increase was reported in property taxes. Revenue from other local sources increased by \$58,464 or a 120.74%, while state aid increased by \$219,481 or 8.46%. As noted above, the increase in reported state aid is attributable to increased “on-behalf” payments.

The 2017-2018 expenditures of the General fund amounted to \$9,753 million, an increase of \$437,192 or 4.69%, from the prior year. This increase included \$220,179 of increased employee benefit costs, \$181,446 increased Special Education Instruction costs and \$108,554 of increased costs for Plant Operations and Maintenance, which were the largest cost drivers for the increase. Excluding In-Kind costs, which are not budgeted, the District underspent its available appropriation by \$300,055 in 2017-2018.

Capital Asset and Debt Administration

Capital Assets

At the end of 2017-18, the District had \$2,747,186 invested in capital assets as shown on Table 4, Capital Assets Net of Depreciation at June 30, 2018 and 2017. During 2017-2018, the District capitalized the costs of equipment and building improvements totaling \$73,416 in its governmental activities. Depreciation expense for 2017-2018 totaled \$275,474 for governmental activities. During the 2017-2018 school year, the \$225,000 of capital related debt retired was approximately equal to depreciation expenses and had no impact on the net position of the governmental activities.

Debt and Other Non-Current Liabilities

The District's non-current liabilities at June 30, 2018 and 2017 are shown in Table 5, Outstanding Debt and Other Non-Current Liabilities at Year-End. The District's only outstanding bond issue, the 2015 Refunding Bonds, carried a Moody's rating of AAA based upon the procurement of a municipal bond insurance policy issued by Financial Security Assurance Inc. Bonds which are rated AAA, are judged to be of the best quality. They carry the smallest degree of investment risk. The District remains well within the state allowable limit for debt issuance, which is limited to 3% of the average equalized value of taxable property within the District.

Economic Factors and Next Year's Budgets and Rates

The FY 18-19 operating budget was framed in an environment of stagnated state-aid and non-tax revenue and declining enrollments throughout much of Hunterdon County. The Township of Bethlehem Board of Education and District administration framed a budget, which reflected consideration of these factors as well as District educational and financial goals.

We will continue to look for opportunities to save taxpayer money while increasing the financial support to our educational and co-curricular programs.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2018

Total net change in fund balances - governmental funds (from B-2)		\$ 200,880.03
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the period.		
	Depreciation expense	(275,473.83)
	Capital Outlays	<u>73,416.28</u>
		(202,057.55)
Repayment of bond and lease obligation (long-term debt) principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.		225,000.00
In the statement of activities, the value of earned but unused compensated absences are accrued when it becomes, likely that these costs will be includable in employee termination payments, regardless of when due. In the governmental funds, compensated absence costs are reported in the accounting period in which they become due and payable. The net decrease in accrued compensated absences is an addition in the reconciliation. (+)		(15,116.98)
Interest on long-term debt in the statement of activities is accrued, In the governmental funds, interest is reported when due. The difference between interest accrued and interest paid is as follows:		
	Interest Paid	139,375.00
	Interest Accrued	<u>(137,137.50)</u>
		2,237.50
The difference between the face amount of the Refunded Bonds and the escrow deposit required to legally defease the bonds is recorded as decrease to fund balance in the governmental funds in the year of issuance, but is carried on the statement of net position and amortized over the life of the Bonds		
Amortization of Deferred Amount from Refunding		(4,335.27)
The premium received on the sale of bonds is recorded in the governmental funds as an addition to fund balance in the year of issuance, but is carried on the statement of net position and amortized in the statement of activities over the life of the bonds		
Amortization of Bond Premiums		42,365.12
Pension expenditures in the governmental funds are recognized when paid or payable from expendable available financial resources. In the statement of activities, pension costs are recognized on a full accrual basis utilizing actuarial valuations. The net amount by which actuarially calculated pension expense is more than the expenditure reported in the funds is a subtraction.		(145,189.00)

TOWNSHIP OF BETHLEHEM SCHOOL DISTRICT
COUNTY OF HUNTERDON, NEW JERSEY

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) of the Board of Education (Board) of the Township of Bethlehem School District (District) report information on all of the nonfiduciary activities of the primary government only. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. The District is not financially accountable for any legally separate component units, and no component units have been included in the government-wide financial statements.

B. Reporting Entity:

The Township of Bethlehem School District is a Type II district located in the County of Hunterdon, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of seven members elected to three-year terms. The purpose of the district is to educate students in grades K-8. High school students (grades 9-12) are enrolled in the North Hunterdon-Voorhees Regional High School District. The Township of Bethlehem School District had an enrollment of 370 students in grades K through 8 at the close of the 2017-18 school year.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. Any remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. State Aid in the form of Economic Development Authority Grants under EFCFA are also financial resources of this fund

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Permanent Fund – The Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the District's programs.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

D. Basis of Presentation - Fund Financial Statements (Cont'd.)

The District reports the following major enterprise funds:

Food Service Fund – The Food Service Fund is used to account for the activities of the cafeteria operations of the District.

The District also reports the following fiduciary fund types:

Agency Fund – The Agency Fund is used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds.

Employee Benefit Trust (Flexible Spending) – Employee Benefit Trust should be used to report resources that are required to be held in trust for members and beneficiaries of employee benefit plans.

Private Purpose Scholarship Trust – The Private Purpose Scholarship Trust should be used to report all trust arrangements under which principal and/or income benefit individuals, private organizations or other governments.

During the course of its normal operations, the District will have activity between funds (interfund activity) for various purposes. Any residual interfund balances at year end are reported as interfund accounts receivable/payable. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between funds included within governmental activities (the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, any interfund balances between business-type (enterprise) funds are eliminated so that only the net amount is included as internal balances in the business-type activities columns.

Further, interfund activity may occur during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. In the preparation of the government-wide financial statements, transfers between funds included as governmental activities are eliminated so that only net amounts of resources transferred from or to the governmental activities are reported. A similar treatment is afforded transfers of resources between enterprise funds for the preparation of business-type activity financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as current financial resources or economic resources. The basis of accounting refers to the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the fiscal period that the taxes are levied by the municipality(s) within which the District is domiciled. Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District recognizes the entire approved tax levy as revenue in the fiscal period for which they were levied.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Measurement Focus and Basis of Accounting (Cont'd.)

The District is entitled to receive moneys under an established payment schedule and any unpaid amount is considered to be an "accounts receivable". Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. State categorical aid revenues are recognized as District revenue during the fiscal period in which they are appropriated.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual basis accounting. Exceptions to this general rule include debt service, for which interest and principal expenditures in the Debt Service Fund are recognized on their due dates, and expenditures relating to compensated absences, claims and judgments, which are recorded in the period when payment becomes due. General capital asset acquisitions are recorded as expenditures in the governmental funds and are not capitalized. The issuance of long-term debt for capital purposes and capital lease obligations incurred to acquire general capital assets are reported as "other financing sources".

The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. Entitlements are recorded as revenue when all eligibility requirements, including timing of funding appropriations, are met, subject to the 60-day availability requirement for collection. Interest and tuition revenues are considered susceptible to accrual and have been recognized as revenues of the current fiscal period, subject to availability. Expenditure driven grant revenues are recorded as qualifying expenditures are incurred and all other eligibility requirements have been met, subject to availability requirements. All other revenue items are considered measurable and available only when cash is received by the District.

The District's proprietary funds, employee benefit trust fund and private purpose scholarship trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

F. Budgets/Budgetary Control:

Annual budgets are adopted for the general, special revenue and debt service funds using a regulatory basis of accounting which differs from generally accepted accounting principles in one material respect; Budgetary revenues for certain nonexchange state aid transactions are recognized for budgetary purposes in the fiscal period prior to the period in which the state recognizes expenditures/expenses. The amounts of the adjustments needed to reconcile the budgetary basis to the GAAP based fund financial statements is set forth in the explanation of differences schedules which follow.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

F. Budgets/Budgetary Control: (Cont'd.)

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. Pursuant to changes in the Local District School Budget Law, statutorily conforming base budgets of Districts with annual school elections held in November (The District has chosen this option) are no longer required to be presented to the voters for approval on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. New Jersey statutes place limits on the Board's ability to increase budgeted expenditures through the appropriation of previously undesignated fund balance and requires the District to obtain additional approvals when budgetary transfers, measured using the advertised budgetary account totals rather than line-item totals, exceed certain thresholds. The Board of Education did not make any supplemental budgetary appropriations during the fiscal year that required additional approvals from oversight agencies.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Appropriations in the general and debt service funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods and services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances, for which the contracted performance is expected during the subsequent budget cycle, are legally restricted at year-end and are automatically re-appropriated and become part of the subsequent years' budget pursuant to state regulations.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial statements.

The following presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the Budgetary Comparison Schedules – General and Special Revenue Funds to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds.

G. Cash, Cash Equivalents and Investments:

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value, which are generally based on quoted market prices.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

G. Cash, Cash Equivalents and Investments (Cont'd.):

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. GUDPA was amended, effective July 1, 2010, by P.L. 2009, c. 326. The amendments provide a greater level of security protection for covered deposits by increasing collateralization requirements and revising the enforcement protocol to allow for timely response in the event that a member bank shows signs of stress.

Under the amended law, collateralization of GUDPA deposits up to 75% of New Jersey capital is based on a sliding scale that requires the minimum of 5% collateral for Well Capitalized institutions to a maximum of 120% collateral for Critically Undercapitalized institutions. All uninsured GUDPA deposits in excess of 75% of New Jersey capital require 100% collateral. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Receivable/Payable

Tuition charges for the fiscal years 2016-2017 and 2017-2018 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined. Adjustments were made to the preliminary rates originally established for the 2018-2019 school year based upon the certification of 2016-2017 rates.

I. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditures in the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

Payments made to vendors for services that will benefit periods beyond June 30, 2017 are recorded as prepaid items in both the government-wide and fund financial statements.

J. Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

K. Capital Assets:

Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$2,000.00 or more of initial, individual cost for capitalizing capital assets. The system for accumulation of fixed assets cost data does not provide the means for determining the percentage of assets valued at actual and those valued at estimated costs.

Capital assets are recorded in the District-wide financial statements, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Capital assets not being depreciated include land and may include construction in progress.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund:	
Equipment	15-20 Years

L. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued in the government-wide financial statements as the employees earn the rights to the benefits. Compensated absences that related to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place. The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences".

In the governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as a fund liability and expenditure in the fund that will pay for the compensated absence. The noncurrent portion for governmental funds is maintained separately and is a reconciling item between the fund and government-wide presentations.

Based upon existing personnel policies and collective bargaining agreements, employees are granted varying amounts of annual sick, personal and vacation leave. Sick leave may be accumulated for use in subsequent years and the right to a termination payment begins to vest with the employee after 10 years of service. Generally, terminal pay credit for unused sick leave is capped at 50% of the number of unused days earned, and with a maximum termination payment of 85% of the average annual base pay for the last three years of service.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

L. Compensated Absences Cont'd.):

Terminal pay is paid in three equal installments in July of the three years following separation from service.

Changes in the value of compensated absences earned and unused is more fully detailed in Note 4.

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Jersey Public Employees Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and will not be recorded as an outflow of resources (expenditure/expense) until that time. The District is reporting six items in the deferred outflow category; The Deferred Amount on Refunding, and Pension related items including the Change in Pension Assumptions, Difference in Pension Experience, Difference in Pension Earnings, Change in Pension Proportion/Proportionate Share and the amounts of pension payments made by the District subsequent to the pension measurement date. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is amortized over the shorter of the life of the refunded or refunding bonds. Deferred Outflows for pension related items result from changes in actuarial assumptions which increase the net pension liability, unfavorable economic differences between actual mortality rates and the actuarial tables used to measure the net pension liability, and increases in the District's proportion of the entire pension system and its proportionate share of the net pension liability. Deferred outflows for Subsequent pension payments reflects payments made by the District to the pension system subsequent to the date of the most recent measurement date, which was June 30, 2017.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element represents the acquisition of net position that applies to a future period(s) and will not be recorded as an inflow of resources (revenue) until that time. The District is not reporting any items in this category.

O. Unearned Revenue/Advances from Grantors:

Unearned revenue represents cash advances received relating to services (expenditures/expenses) that will be provided in a subsequent fiscal period. Similarly, for expenditure-driven grants, amounts advanced to the District in excess of the amounts expended and earned are recorded as advances from grantors.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

P. Other Post-Employment Benefits:

Pursuant to State Statute, the State Health Benefits Local Education Retirees Employees Plan was established to oversee the funding and payment of post-employment medical benefits for eligible LEA employees. This plan is a multi-employer defined benefit OPEB Plan that is administered on a pay-as-you-go basis. No assets are accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75. The Plan is a "Special Funding Situation" as defined in GASB Statement No. 75 as the State of New Jersey is solely responsible for funding the Plan's obligations (net of employee contributions). Accordingly, no net OPEB liability is reported on the District's Statement of Net Position. In the Statement of Activities, the District reports an annual OPEB expense and a corresponding revenue, equal to the allocated expense of the District as reported by the State.

Q. Net Position Flow Assumption (District-Wide and Proprietary Fund Financial Statements)

Periodically, the District may fund outlays for a particular purpose from both restricted resources, such as bond referendum proceeds and/or grant proceeds, and unrestricted resources. To determine the amounts of net position- restricted and unrestricted that should be reported in the government-wide and proprietary fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied. In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted net position prior to applying unrestricted net position to fund acquisition costs.

R. Fund Balance Flow Assumption (Governmental Fund Financial Statements)

Periodically, the District may fund outlays for a particular purpose from both restricted resources and unrestricted resources (the total of the committed, assigned and unassigned fund balance). To determine the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied. In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted fund balance prior to applying any component of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance, with unassigned fund balance applied last.

S. Fund Balance Policies:

Fund balance of the governmental funds is reported in various categories based upon the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through actions to transfer amounts to legally restricted reserve accounts (capital, maintenance and emergency reserves), or actions to commit or assign fund balance.

The committed fund balance includes amounts that can only be used for the specific purposes determined by a formal action of the Board of Education. Commitments of fund balance remain in place until the committed fund balance is fully depleted or an amendatory action is taken by the Board of Education.

Assignments of fund balance are made by the Board of Education for specific purposes that do not the criteria to be classified as committed. The Board of education also assigns fund balance when it appropriates unrestricted/unassigned fund balance to bridge a gap between estimated revenue and appropriations in the subsequent year budget.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

S. Fund Balance Policies (Cont'd):

Unlike commitments, assignments are generally temporary in nature, and additional actions of the Board are generally not required to remove an assignment, whereas an action of the Board is essential to the modification or elimination of an unexpended committed fund balance.

T. District-Wide Financial Statement Classifications

1. Program Revenues – Amounts reported as program revenues include a) charges to customers or applicants who purchase, use or benefit from goods services or privileges provided by a given function or segment and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.
2. General Revenues – all taxes, including those designated for specific purposes such as debt service, are reported as general revenues. All other resources, including internally dedicated resources, unrestricted entitlements, and investment income are reported as general revenues.
3. Capital Assets – In the statement of net position, capital assets are reported, net of accumulated depreciation as assets of the governmental activities and business-type activities.
4. Long-term Debt - In the statement of net position, long-term debt is reported as a component of long-term liabilities of the governmental activities and business-type activities.
5. Net Investment in Fixed Assets – In the statement of Net Position, the net undepreciated value of capital assets, less the value of outstanding debt issued to purchase acquire or build those capital assets, is reported as Net Investment in Fixed assets as a component of net position for the governmental activities and business-type activities.

U. Proprietary Fund Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and products in connection with the primary purpose or function for which the fund was established. The District's Food Service proprietary fund reports operating revenues from the sales of lunches and a la carte items, and operating expenses include the costs of sales (food, supplies and labor), administrative costs and depreciation on capital assets. Revenues earned through the District's participation in the National School Lunch Program are classified as nonoperating revenues, notwithstanding the limitations on the pricing of Type A student lunches that is required for program participation.

W. Estimates:

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2. CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Township of Bethlehem Board of Education had the following depository accounts. All deposits are carried at cost plus accrued interest. The government does not have a deposit policy.

Depository Account	Bank Balance
Insured - FDIC	\$250,000.00
Insured – NJGUDPA (N.J.S.A.17:94.1)	<u>2,647,140.18</u>
Total Deposits	<u>\$2,897,140.18</u>

Custodial Credit Risk – Deposits- Custodial credit risk is the risk that in the event of a bank failure, the board’s deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2018, \$0.00 of the Board’s bank balance of \$2,897,140.18 was exposed to custodial risk. (See Note 1-G. relating to statutory mitigation of custodial risk in the event of a bank failure).

New Jersey Cash Management Fund – All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment’s existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the “Other-than-State” participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

As of June 30, 2018, the District had \$-0- on deposit with the New Jersey Cash Management Fund.

DISCLOSURE OF INFORMATION ABOUT CAPITAL ASSETS

The governmental fund balance sheet includes a reconciliation between fund balance- total governmental funds and net position-governmental activities as reported in the District-wide statement of net position. One item of that reconciliation explains that capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. An addition to the fund balance - total governmental funds is made to reflect the carrying value of the District's capital assets at year-end in the District-wide financial statements, which consisted of:

NOTE 4. LONG-TERM LIABILITIES

BETHLEHEM TOWNSHIP SCHOOL DISTRICT
 LONG TERM DEBT DISCLOSURE
DISCLOSURE OF INFORMATION ABOUT LONG TERM LIABILITIES

The governmental fund balance sheet includes a reconciliation between fund balance- total governmental funds and net position-governmental activities as reported in the District-wide statement of net position. One item of that reconciliation explains that Long-term liabilities, including bonds and judgments payable, are not due and payable in the current period and therefore are not reported liabilities in the governmental funds. A deduction to the fund balance - total governmental funds is made to reflect the carrying value of the District's long-term liabilities at year-end in the governmental activities of the District-wide financial statements.

Long-term debt liability activity for the year ended June 30, 2018 was as follows:

NOTE 5. PENSION PLANS

Description of Plans – The State of New Jersey, Division of Pension and Benefits (the Division) was created and exists pursuant to N.J.S.A. 52:18A to oversee and administer the pension trust and other postemployment benefit plans sponsored by the State of New Jersey (the State). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the plans terminate. Each defined benefit pension plan’s designated purpose is to provide retirement, death and disability benefits to its members. The authority to amend the provision of plan rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for the public Employees Retirement System (PERS) and the Teachers Pension and Annuity Fund (TPAF), once a Target Funded Ratio (TFR) is met, that will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation or final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committee will also have the authority to reactivate the cost of living adjustment (COLA) on pensions.

NOTE 5. PENSION PLANS (CONT'D)

Description of Plans (Cont'd)

However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a projection period. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for each of the plans. This report may be accessed via the Division of Pensions and Benefits website, at www.state.nj.us/treasury/pensions, or may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

A. PUBLIC EMPLOYEES RETIREMENT SYSTEM

The Public Employee Retirement System is a cost-sharing, multiple employer defined benefit pension plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the PERS Plan are as follows:

Plan Membership and Contributing Employers- Substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency are enrolled in PERS, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or other jurisdiction's pension fund. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2017:

Inactive plan members or beneficiaries currently receiving benefits	170,124
Inactive plan members entitled to but not yet receiving benefits	650
Active plan members	<u>254,685</u>
 Total	 <u>425,459</u>

Contributing Employers – 1,705

Significant Legislation - Chapter 19, P.L. 2009, effective March 17, 2009, provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State Fiscal Year 2009. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of PERS, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of PERS.

For the year ended June 30, 2018 the Board's total payroll for all employees was \$5,146,411. Total PERS covered payroll was \$668,514. Covered payroll refers to all compensation paid by the Board to active employees covered by the Plan.

NOTE 5. PENSION PLANS (CONT'D)

A. PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D.)

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A. 43:15 and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.20% in State fiscal year 2017 and increased to 7.34% for State fiscal year 2018, commencing July 1, 2017. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. Employers contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances and noncontributory death benefits. The School Board's cash basis contributions to the Plan for the years ended June 30, 2018 and 2017 were \$85,057 and \$87,298, respectively. School Board Contributions are due and payable in the fiscal period subsequent to plan year for which the contributions requirements were calculated.

The vesting and benefit provisions are set by N.J.S.A. 43:15. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 8, 2008
3	Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

A service retirement benefit of 1/55th of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, to tier 3 and 4 members before age 62 and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – At June 30, 2018, the School Board reported a liability of \$2,137,312 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on a projection of the Boards long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2017, the Boards proportion was 0.0091815%, which was a decrease of 0.0006451% from its proportion measure as of June 30, 2016.

NOTE 5. PENSION PLANS (CONT'D)

A. PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D.)

For the year ended June 30, 2018, the Board recognized pension expenses of \$230,246 in the statement of activities. At June 30, 2018 the Board reported deferred outflows of resources related to PERS pensions from the following sources:

	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>
Differences between expected and actual Experience		
Changes in assumptions	\$430,595	\$429,016
Net difference in Pension Experience	50,326	
Net difference between projected and actual earnings on Plan investments	14,554	
Changes in proportion and differences between Board contributions and proportionate share of contributions	260,269	
Board contributions subsequent to the measurement date	<u>85,444</u>	<u>114,972</u>
Total	\$2,471,441	\$543,988

The \$85,444 of deferred outflows of resources resulting from the Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,	
2019	(\$123,786.68)
2020	(\$143,166.92)
2021	(\$95,955.45)
2022	\$89,987.90
2023	\$61,165.15
Thereafter	\$0.00

Actuarial Assumptions- The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases (2012-2021)	1.65-4.15% Based on age
Thereafter	2.65-5.15% Based on age
Investment rate of return	7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA.

A.PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D.)

In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experiences will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Absolute Return/Risk Mitigation	5.00%	5.51%
Cash Equivalents	5.50%	1.00%
US Treasuries	3.00%	1.87%
Investment Grade Credit	10.00%	3.78%
Public High Yield	2.50%	6.82%
Global Diversified Credit	5.00%	7.10%
Credit Oriented Hedge Funds	1.00%	6.60%
Debt Related Private Equity	2.00%	10.63%
Debt Related Real Estate Property	1.00%	6.61%
Private Real Estate Property	2.50%	11.83%
Equity Related Real Estate	6.25%	9.23%
US Equities Market	30.00%	8.19%
Non-U.S. Developed Markets Equity	11.50%	9.00%
Emerging Market Equities	6.50%	11.64%
Buyouts/Venture Capital	8.25%	13.08%

Discount Rate – The discount rate used to measure the pension liabilities of PERS was 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State contributed 40% and Local Employers contributed 100% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

B. TEACHERS PENSION AND ANNUITY FUND

The Teachers Pension and Annuity Fund is a cost-sharing, multiple employer defined benefit pension plan with a special funding situation as defined in GASB Statement No. 68, by which the State of New Jersey (State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the TPAF Plan are as follows:

Plan Membership and Contributing Employers- Substantially all teachers or members of the professional staff of Local Education Agencies that are certified by the State Board of Examiners, and Employees of the Department of Education who have titles that are unclassified, professional and certified are enrolled in the TPAF. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2017:

Inactive plan members or beneficiaries currently receiving benefits	101,246
Inactive plan members entitled to but not yet receiving benefits	222
Active plan members	<u>140,563</u>
Total	<u>242,031</u>

Contributing Employers – 24.

NOTE 5. PENSION PLANS (CONT'D)

B. TEACHERS PENSION AND ANNUITY FUND (CONT'D.)

In addition to the State, who is the sole payer of regular employer contributions to the fund, TPAF's contributing employers include boards of education who elected to participate in the Early Retirement Incentive Program (ERIP) and are legally responsible to continue to pay towards their incurred liability.

Significant Legislation – Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of TPAF.

For the year ended June 30, 2018 the Board's total payroll for all employees was \$5,146,411. Total TPAF covered payroll was \$3,518,154. Covered payroll refers to all eligible compensation paid by the Board to active employees covered by the Plan, and does not include amounts not eligible under the plan.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contributions rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.20% in State fiscal year 2017 and increased to 7.34% for State fiscal year 2018, commencing July 1, 2017. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State of New Jersey contribution amount is based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability. For fiscal year 2018, the State's pension contribution was less than the actuarially determined amount.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65.

Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – The State of New Jersey is solely responsible for funding the normal pension obligations of the TPAF, including 100% of the obligations of LEAs within the State. Accordingly, the District does not report TPAF pension liabilities or deferred inflows and outflows of financial resources in its financial statements. Payments made by the State to the TPAF “on-behalf” of the LEAs are reported to the LEAs and reported as TPAF pension expenditures/expenses as made.

Three-Year Trend Information for TPAF (Paid on-behalf of the District, excluding post-retirement medical benefits which are reported in Note 6)

<u>Year</u> <u>Funding</u>	<u>Annual</u> <u>Pension</u> <u>Cost (APC)</u>	<u>Percentage</u> <u>of APC</u> <u>Contributed</u>	<u>Net Local</u> <u>Pension</u> <u>Obligation</u>

6/30/17	416,900.00	Unknown %	0
6/30/16	306,777.00	Unknown %	0

At June 30, 2017, the TPAF reported a net pension liability of \$67,423,605,859 for its Non-State Employer Member Group. The proportionate share of the State of New Jersey’s the net pension liability for the Non-State Employer Special Funding Group that is attributable to the District was \$24,990,083, or 0.0370643%.

Actuarial Assumptions- The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases (2012-2021)	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.00%

Pre-retirement, post-retirement and disability mortality rates were based upon the experience of TPAF members reflecting mortality improvement on a generational basis based upon a 60-year average of Social Security data from 1953 to 2013. The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF’s target asset allocation as of June 30, 2017 are summarized in the following table:

Discount Rate – The discount rate used to measure the total pension liability was 4.25% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State contributed 40% of the actuarially determined contributions. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2036. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2036, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of Net Pension Liability to Changes in the Discount Rate – the following presents the net pension liability of TPAF as of June 30, 2017 calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	<u>At 1% Decrease (3.25%)</u>	<u>At current discount rate (4.25%)</u>	<u>At 1% Increase (5.25%)</u>

C: DEFINED CONTRIBUTION RETIREMENT PLAN

The Defined Contribution Retirement Plan (DCRP) is a multiple employer defined contribution plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the DCRP are as follows:

Plan Membership and Contributing Employers- Enrollment in the DCRP is required for state or local officials, elected or appointed on or after July 1, 2007; employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010, who do not work the minimum number of hours per week required for tier 4 or tier 5 enrollment, but who earn salary of at least \$5,000 annually. At June 30, 2017, the membership in the DCRP, based on the information within the Division's database, was 43,516.

Contribution Requirement and Benefit Provisions - State and local government employers contribute 3% of the employee's base salary. Active members contribute 5.5% of base salary.

Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and non-forfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and non-forfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

C: DEFINED CONTRIBUTION RETIREMENT PLAN(CONT'D)

For the year ended June 30, 2018 the Board's total payroll for all employees was \$5,146,411. Total DCRP covered payroll was \$163,328. Covered payroll refers to all eligible compensation paid by the Board to active employees covered by the Plan, and does not include amounts not eligible under the plan. Board and employee contributions to the DCRP for the year ended June 30, 2018 were \$8,983 and \$4,900, respectively.

NOTE 6. POST-RETIREMENT BENEFITS**General Information about the OPEB Plan:***Plan Description and Benefits Provided:*

P.L. 1987, c.384 and P.L. 1990, c.6. required the Teachers' Pension and Annuity Fund (TPAF) and the Public Employees Retirement System (PERS), respectively, to fund post-retirement medical benefits for those members who retire after accumulating a minimum of 25 years of credited service or on a disability retirement. Pursuant to P.L. 2007, c.103, separate funds outside the pension plans were established for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. Pursuant to this Act, the State Health Benefits Local Education Retired Employees Plan (SHBLEREP) was established to oversee the funding and payment of post-employment medical benefits for eligible LEA employees. The SHBLEREP is a multiple employer defined benefit OPEB plan that is administered on a pay-as-you-go basis in accordance with P.L. 1994, c.62. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria set forth in paragraph 4 of GASB Statement No. 75. The SHBLEREP provides medical, prescription drug and Medicare Part B reimbursement to retirees and retiree dependents of local education employers.

Coverage is provided at no cost to members of the TPAF and PERS that had retired on a disability retirement or retired after accumulating 25 years of creditable service prior to June 28, 2011 and to those who had a minimum of 20 years of creditable service on June 28, 2011 and who subsequently retire after accumulating 25 years of credited service or on a disability retirement. Employees who had less than 20 years of creditable service on June 28, 2011 and subsequently retire after accumulating a minimum of 25 years of creditable service are required by Chapter 78, P.L. 2011 to contribute a percentage of the cost of their health care coverage in retirement. The percentage of the premium that will be the responsibility of the retiree is determined based upon the retiree's annual retirement benefit and level of coverage. Chapter 78 retirees opting for single will make contributions that escalate from 4.5% for annual retirement allowance under \$20,000 to 35.0% for annual retirement allowances exceeding \$110,000 per annum. Chapter 78 retirees opting for family coverage will range from 3.43% for annual retirement allowances under \$25,000 per annum to 35.0% for annual retirement allowances exceeding \$110,000 per annum.

The State is also responsible for the costs attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage.

Covered Retirees and State Contributions:

At June 30, 2017, there were approximately 112,966 TPAF retirees receiving State paid post-employment health benefits, and the State contributed \$1.39 billion on their behalf.

The State paid \$238.9 million toward Chapter 126 post-employment benefits for 20,913 eligible PERS retired members in Fiscal Year 2017.

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D)

Total OPEB Liability

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make contributions to OPEB for qualified retired SHBLEREP participants. The State of New Jersey's Total Non-employer OPEB Liability for the SHBLEREP was \$53,639,841,858 and \$57,831,784,184 at June 30, 2017 and 2016, respectively. The amounts of the State's Non-employer OPEB Liability that are attributable to employees and retirees of the Bethlehem Township School District was \$22,220,743 and \$24,063,167 at June 30, 2017 and 2016, respectively. These allocated liabilities represent 0.04% of the State's Total Non-employer OPEB Liability for each of the years reported. However, the Bethlehem Township School District's proportionate share percentage as determined in accordance with the provisions of paragraphs 193 and 203 to 205 of GASB Statement No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Based upon the preceding, the OPEB liability information that follows is reported at the State's level and does not reflect expenses and liabilities of the District that are required to be funded through annual District budgets.

Actuarial Assumptions and Other Inputs:

The total non-employer OPEB liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016 that was rolled forward to June 30, 2017. The total non-employer OPEB liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2016. The actuarial assumptions vary for each plan member depending upon the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.50%	
	<u>TPAF/ABP</u>	<u>PERS</u>
Salary Increases:		
Through 2026	1.55-4.55%	2.15-4.15%
	Based on Years of Service	Based on Age
Thereafter	2.00-5.45%	3.15-5.15%
	Based on Years of Service	Based on Age

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of actuarial experience studies for the periods July 1, 2012-June 30, 2015, and July 1, 2011-June 30, 2014 for TPAF and PERS, respectively.

Healthcare Trend Assumptions:

For pre-Medicare preferred provider organization (PPO) benefits, this amount is initially 5.9% per annum and decreases to a 5.0% long-term trend rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% per annum and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to a 5.0% long-term trend rate after eight years. For Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2018, in the Statement of Activities, the School District recognized OPEB expense of \$1,216,257. This amount was determined by the State of New Jersey as the District's allocated special funding share of the State's \$3,348,490,523 Total OPEB Non-employer Expense for the year ended June 30, 2017. These expense amounts represent calculations in accordance with GASB Statement No. 75 for the defined benefit OPEB Plan that is not operated through a trust that meets the criteria of paragraph 4 of the Statement and in which there is a special funding situation. As the State of New Jersey is the only entity with a legal responsibility to fund SHBLEREP OPEB obligations, the District's recognized OPEB expense is offset by Program Revenues/Operating Contributions in an equal amount in the Statement of Activities. Due to this special funding situation, there is no recognition of the allocation of the proportionate shares of deferred outflows of resources and deferred inflows of resources in the District's financial statements.

On-behalf Payments by the State of New Jersey for Retiree Health Benefits Costs:

As noted above, the State of New Jersey, pursuant to P.L. 1994, c. 62, administers the OPEB Plan on a pay-as-you-go basis. The following table sets forth the amounts of State contributions to the SHBLEREP allocated to the District for the last three years for post-employment medical costs. These amounts are reported in the governmental funds and budgetary comparison schedules as revenues and expenditures.

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District, along with other school districts, is a member of the New Jersey School Boards Association Insurance Group (NJSBAIG, or the "Fund"), a governmental joint insurance fund. NJSBAIG has adopted a formal risk management plan that involves a combination of District risk retention (through the use of per claim and aggregate per line deductibles), Fund retention of risk and the procurement of excess insurance and reinsurance through commercial reinsurers and the School Excess Liability Fund. A complete listing of the coverages provided by the Fund can be found in the statistical section of the Comprehensive Annual Financial Report. Surety bond coverage for the School Business Administrator is provided through the Fund. Audited financial information for the Fund Year ended June 30, 2018 included: Operating Revenue-\$129,340,074; Operating Expenses \$129,340,074; Unrestricted Net Position \$81,918,745, and Loss Reserves of \$216,538,000. Additional information relating to the fund can be found at <https://www.njsig.org/>.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contributory Method". Under this plan, the District is required to remit the entire employee withholding to the Commissioner of Labor together with an experience-based assessment on employee wages subject to withholding. During the 2017-2018 school year, the District recorded expenditures of \$21,000 for its assessment from the Department of Labor.

NOTE 8. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2018:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 21,807.71	\$ 1,961.59
Proprietary Funds	1,961.59	0.00

Total	\$ <u>25,300.83</u>	\$ <u>25,300.83</u>

NOTE 9: FUND BALANCE APPROPRIATED

General Fund - Of the \$2,830,145.67 General Fund balance at June 30, 2018 (Budgetary Basis), Legally restricted balances include \$1,090,286.66 of Capital Reserves; \$658,320.25 of Maintenance Reserves; and \$719,487.60 of excess surplus (Note 10), of which \$357,089.12 has been designated for 2018-2019 expenditures and \$362,398.48 which is legally restricted for use in the 2019-20 budget cycle. Of the unrestricted fund balance, \$2,305.63 is committed to the liquidation of open purchase orders from the 2017-2018 fiscal year, \$95,990.88 has been assigned to fund expenditures in the 2018-19 budget, and \$274,304.00 is unassigned. Unassigned fund balance is limited by statute to 2% of adjusted general fund expenditures, as defined therein, plus additional amounts attributable to certain unbudgeted state aid receipts.

The total General Fund balance must be reduced by \$171,462.00 of state aid that was realized as revenue on the budgetary basis but is not permitted under GAAP to arrive at the amounts reported as components of fund balance in the governmental fund financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 10: CALCULATION OF EXCESS SURPLUS

In accordance with *N.J.S.A. 18A:7F-7*, as amended by P.L. 2004, c.73 (S1701), the designation for Restricted Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund balance at the fiscal year end of June 30th if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year’s budget. There was \$357,089.12 of excess fund balance at June 30, 2018 that was appropriated as part of the 2018-2019 school budget, and based upon 2017-2018 operating results, the amount of \$362,398.48 was established as excess surplus and represents the minimum amount of fund balance that must be appropriated to finance estimated expenditures contained in the 2019-2020 budget.

NOTE 11. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District of Township of Bethlehem Board of Education by inclusion of \$1.00 during fiscal year 2003 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district’s approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR), including the payment of debt service on such projects. Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to N.J.A.C. 6:23A-5.1 (d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted projects in its approved LRFP. During the 2017-18 School Year, \$8,117.58 of interest income was earned on the reserve balance, \$600,000.00 was transferred to the Reserve with the expressed approval of the Board of Education, and no balances were appropriated in either the 2017-2018 or 2019-2020 school budgets. The capital reserve balance at June 30, 2018 was \$1,090,286.66.

NOTE 12. OTHER RESERVE ACCOUNTS

Pursuant to enabling legislation and rulemaking, the District established a legally restricted Reserve Fund for Maintenance and Emergencies during the month of June, 2009. During the 2016-2017 school year, the Maintenance Reserve had the following activity:

Balance - June 30, 2017	\$652,807.46
Interest Income	<u>5,512.79</u>
Balance – June 30, 2018	<u>\$658,320.25</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 13. DEFICIT FUND BALANCES

The District did not report a deficit fund balance at June 30, 2018 or 2017 in its General Fund in the fund statements (modified accrual basis). P.L. 2003 c.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, ie., if one government recognizes an asset, the other government recognizes a liability. Since the District is not recording the last two state aid payments, and Extraordinary Aid, on the GAAP financial statements until the year the State records the payable, it is possible that a positive fund balance could be reported on a mandated budgetary basis while a deficit is reported on a GAAP basis based upon nonrecognition of revenue on the GAAP basis for the final state aid payment.

Pursuant to *N.J.S.A.* 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action.

NOTE 14. TUITION SETTLEMENTS

During the 2017-2018 school year, Bethlehem Township Board of Education entered into a settlement agreement relating to a lawsuit concerning special education tuition costs. An initial payment was made in March, 2018 pursuant to the agreement. A payment in the amount of \$25,000 was made in August 2018, in full and final settlement of the matter.

NOTE 15. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because *N.J.S.A.* 54:4-75 and *N.J.S.A.* 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at *N.J.S.A.* 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Division of Local Government Services, in the Department of Community Affairs, State of New Jersey, requires each municipality to submit annually a "User Friendly Budget", which, among other disclosures, includes a listing of all properties which have been granted tax abatements, including assessed values and any In-Lieu-Of-Tax-Payments made to the municipality. The 2018 User Friendly Budget for the Township of Bethlehem reported no tax abatements granted for calendar years 2017 or 2018.

NOTE 16. PENDING LITIGATION AND CONTINGENT LIABILITIES

At June 30, 2018, there was no litigation pending for which an unfavorable outcome with a material adverse impact on the net position of the District was anticipated.

NOTE 17. SUBSEQUENT EVENTS

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- a** The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- b** Rates for debt service are based on each year's requirements.
- c** Municipality - Includes Open Space and Library Tax, County- Includes Open Space Taxes.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses situated within the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

- a** For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
 REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
 AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
 ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
 of the Board of Education
 Township of Bethlehem School District
 County of Hunterdon, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Township of Bethlehem School District, in the County of Hunterdon, State of New Jersey, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the district's basic financial statements, and have issued our report thereon dated January 25, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board of Education of the Township of Bethlehem School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board of Education of the Township of Bethlehem School District's control. Accordingly, we do not express an opinion on the effectiveness of the Board of Education of the Township of Bethlehem School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education of the Township of Bethlehem School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

We noted other matters involving compliance and internal control over financial reporting that we have reported to the Board of Education of the Township of Bethlehem School District in a separate *Auditors' Management Report on Administrative Findings* dated January 25, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT
ON THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL
ASSISTANCE REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08**

Honorable President and Members
of the Board of Education
Township of Bethlehem School District
County of Hunterdon, New Jersey

Report on Compliance for Each Major Program

We have audited the compliance of the Township of Bethlehem School District, in the County of Hunterdon, State of New Jersey, with the types of compliance requirements described in the New Jersey Compliance Manual "State Grant Compliance Supplement" that could have a direct and material effect on each of Township of Bethlehem School District's major state programs for the year ended June 30, 2018. The Township of Bethlehem School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Township of Bethlehem School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards and New Jersey OMB's Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Township of Bethlehem School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination on the Township of Bethlehem School District's compliance.

Opinion on each Major State Program

In our opinion, the Township of Bethlehem School District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

The management of the Township of Bethlehem School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Township of Bethlehem School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with NJOMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Township of Bethlehem School District's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based upon the requirements of NJOMB Circular 15-08. Accordingly, this communication is not suitable for any other purpose.

BETHLEHEM TOWNSHIP SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF FINANCIAL ASSISTANCE
JUNE 30, 2018

NOTE 1. GENERAL

The accompanying schedules of expenditures of awards and financial assistance include the federal state award activity of the Board of Education of the Bethlehem Township School District. The Board of Education is defined in Note 1(A) to the Board's general-purpose financial statements (GASB 34 Model – basic financial statements). All state awards received directly from state agencies, as well as state assistance passed through other government agencies are included on the schedule of expenditures of state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal and state financial assistance are presented on the budgetary basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of NJOMB Circular 15-08, which requires compliance with the requirements of Title 2, US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) for state financial assistance programs. Therefore, some amounts presented in this schedule may differ from amounts present in, or used in the preparation of, the basic financial statements. The District does not charge any indirect costs to any state financial assistance program.

NOTE 3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment for categorical aid and the payment of extraordinary aid. These payments are required by state statute to be recorded as revenues on the budgetary basis, but do not meet the criteria set forth in GASB Statement No. 33 for revenue recognition in financial statements of the current period. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund accompanying schedules agree with amounts reported in the Board's general-purpose financial statements. The general-purpose financial statements present the special revenue fund on both a GAAP basis and a budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

NOTE 3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS (Cont'd.)

See Note 1 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Award and financial assistance revenues are reported in the Board's general-purpose financial statements on a GAAP basis as presented on the following page:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 0.00	\$ 2,814,727.91	\$ 2,814,727.91
Special Revenue Fund	162,888.00	0.00	162,888.00
Food Service Fund	<u>19,439.04</u>	<u>1,052.10</u>	<u>20,491.14</u>
Total Assistance	\$ <u>182,327.04</u>	\$ <u>2,815,780.01</u>	\$ <u>2,998,107.05</u>

NOTE 4. RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related state financial reports.

NOTE 5. OTHER

TPAF Post-Retirement Medical, Pension and Non-Contributory Insurance Premium Contributions represent the amount paid by the state on behalf of the District for the year ended June 30, 2018. These amounts are published by the State Division of Pensions annually, and the NJDOE has advised that these In-Kind programs are not to be subject to the state single audit mandate, and no audit procedures are required to be applied to these amounts. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2018, and are subject to the state single audit mandate. Federal Food Distribution Program revenues and expenditures represent the values of USDA commodities accepted and utilized, respectively.
