Mario D. Cardinale

Barbara Murphy

Superintendent

Business Administrator/Board Secretary

The Honorable President, Members Of the School District and Citizens of Butler Borough Butler Public Schools County of Morris Butler, New Jersey 07405

Dear Board Members:

The comprehensive annual financial report of the Butler Borough School District (District) for the fiscal year ended June 30, 2018, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Butler Public Schools. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditor's Report, Management's Discussion and Analysis and basic financial statements including the government-wide financial statements presented in accordance with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements – and Management Discussion and Analysis – for State and Local Governments". The basic financial statements also include individual fund financial statements, Notes to the Financial Statements and Required Supplementary Information (RSI). The statistical section includes selected financial and demographic information, generally presented on a multiyear basis. The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards; and New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: Butler Borough School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 13. All funds of the District are included in this report. The Butler Borough Public Schools and all its schools constitute the District's reporting entity. Butler Borough School District is governed by a ten-member Board of Education, nine members of which are elected by District constituents to serve alternating 3-year terms, and one member from its sending district, Bloomingdale, who is appointed on an annual basis by the Bloomingdale Board of Education.

The District provides a full range of educational services and programs appropriate to grade levels pre-school handicapped/K through 12. These include regular, as well as special education for handicapped youngsters. The

District currently operates one elementary, one middle and one high school, and completed the 2017-2018 fiscal year with an average daily enrollment of 1,161.2 students. This enrollment is a 2.6% decrease over the previous year as shown in the ten-year period below. It is expected that the district's enrollment will remain steady or decrease slightly over the next five years. The District received high school students from Bloomingdale, in Passaic County, on a tuition basis. These students comprised 47.09% of the high school enrollment in the 2017-2018 school year.

	Average Daily Enrollment	
<u>Fiscal Year</u>	Student Enrollment	Percent Change
2017-18	1,161.2	-2.6%
2016-17	1,191.7	3.07%
2015-16	1,156.2	1%
2014-15	1,144.7	1.85%
2013-14	1,123.9	(2.09%)
2012-13	1,147.9	2.3%
2011-12	1,122.0	(0.81%)
2010-11	1,131.2	(4.85%)
2009-10	1,188.8	1.22%
2008-09	1,174.5	(2.35%)

2) ECONOMIC CONDITION AND OUTLOOK: The Butler School District encompasses approximately 2.08 square miles. The District is located in the northeastern section of Morris County. Butler was incorporated as a borough by an act of the New Jersey Legislature on March 13, 1901, from portions of Pequannock Township. As of the 2010 United States Census, there were 7,539 people, 3,031 households, and 1,976 families residing in the borough. The High School consists of 3 buildings, built in 1902, 1922, and 1937 respectively. Richard Butler Middle School was built in 1954. Aaron Decker School was built in 1966. The Borough's total assessed valuations for fiscal year 2017 were \$822,133,350. Residential properties account for 92.5% of the assessed valuations, and the median home value was \$252,827. The District is in a strong economic position as indicated by its AA long term rating. The District's primary funding sources are property tax revenue, tuition received from Bloomingdale for their High School students, and state aid. As a result of a significant surplus at the end of the year, the district was able to add approximately \$245,000 to its Capital Reserve Fund.

3) MAJOR INITIATIVES (Capital Improvements): District: In 2017-2018, the district completed a two year Energy Savings Improvement Plan, whereby the energy savings realized from the project fully funded the projects themselves. The Energy Conservation Measures included districtwide LED lighting upgrades and occupancy sensors, building envelop upgrades, PC power management, plug load controls, walk in cooler controls, and replacement boilers at the High School and Richard Butler Middle School. The High School Auditorium underwent a complete renovation and the boilers at Aaron Decker School were replaced.

4) MAJOR INITIATIVE (ACADEMIC): District:

Butler High School students continue to maintain high levels of performance on a variety of standardized testing – including NJ State required standardized tests in Language Arts Literacy, Mathematics, and Science, various Advanced Placement (AP) tests, SAT (SAT I and SAT II). We are currently analyzing district results from the 2018 PARCC tests. Preliminary analysis indicates growth on a districtwide basis. BHS experienced a high participation rate by our student population. All students in the class of 2019 are on course to satisfy the state standardized testing graduation requirements through PARCC or alternate assessments as outlined by the NJDOE.

Our students at Butler High School continue to gain local, state, and county recognition with regard to achievement in the areas of academics, the arts, and athletics. For the Class of 2018, 86% went on to two or four year colleges or post-secondary technical schools. During the 2017-2018 school year, our high school students also worked in the computer lab using IXL software, and SAT preparation software to target weaknesses on specific instructional areas in Math and Language Arts/Literacy. We have completed a 1:1 Chromebook initiative planned at Butler High School and will continue with this in grades 3-12 for the 2018-2019 school year.

In addition, during the 2017-2018 school year, the district continued a specialized "Freshman Studies" program, focusing on career education, communication, and team building skills, the development of long range "Career and College Readiness" planning skills, financial literacy, and 21st century technological skills.

Richard Butler School is a grade 5-8 middle school where the primary mission is to provide a safe and secure educational environment that promotes academic excellence and nurtures the social and emotional well-being of all students. Richard Butler School is committed to small class size, personalized instruction, in-class support, and opportunities for both group and individual student recognition. The delivered curriculum is based upon the New Jersey Student Learning Standards. The curriculum enables students to achieve academic success by being selfdirected, self-disciplined, and responsible learners. All through the collaborative process, the faculty continuously plans for engaging and challenging lessons for students and works to integrate the curriculum within the various subject matters to provide our students with opportunities to develop skills necessary to acquire, synthesize, and utilize information. A Basic Skills program 5-8 is offered to supplement our Language Arts and Math classes. The school also offers a Resource Center setting, both "pull out" and "in class", in addition to a smaller class setting for students in need of Special Education. In addition to the core academic courses, the students at Richard Butler School have quarter courses to enrich their education. Art, Music, Study Skills (Library Science), and Academic Technology are the course offerings. World Languages in both French and Spanish are offered in grades 6, 7, and 8. In Grade 5, Spanish is integrated into the daily curriculum. Students are also provided an opportunity to participate in an Instrumental Music program. Students in this program take lessons on a rotating schedule and perform in school concerts throughout the year along with playing in special community events. Technology continues to be an integral part of instruction at the Richard Butler School. The computer lab provides time for all students to receive a quarter course as well as serve as an open lab enabling the faculty to bring classes to integrate technology into their content areas. Every student in grades 5-8 carries a Chromebook with them throughout the day. This has allowed teachers and students to integrate more technology into their teaching and learning on a daily basis. Along with academic development, Richard Butler School focuses on the social and emotional needs of each student. Richard Butler School has counselors available on a daily basis to help any student in crisis. Students participate in different social and emotional programs throughout the year. Richard Butler School also provides students extra-curricular activities such as student government, yearbook, chess club, TREPS, T.R.A.C.K., and interscholastic boys and girls basketball.

Aaron Decker School is a Pre-K - 4 elementary school where a combination of strong academic programs alongside a proactive SEL environment supports the development of the whole child. At Aaron Decker School, the New Jersey State Learning Standards are delivered in a supportive environment at each grade level. Grade level teams plan lessons and review data frequently to keep the continuum of learning and growth moving forward. Aaron Decker School offers an inclusive environment at all grade levels where differentiated instruction and support staff provide the necessary modifications for all to succeed. The programs are flexible and accommodate the needs of all types of learners. A Basic Skills program K-4 is offered to supplement our Language Arts and Math classes. The school also offers a Resource Center setting, both "pull out" and "in class", in addition to a smaller class setting for students in need of Special Education. The goal is to accommodate all in the least restrictive environment. The preschool program is a full day program and offers ABA instruction as well as Speech, Occupational Therapy, and Physical Therapy. These classes also provide an opportunity for our preschool children with disabilities to work alongside their more typically developing peers. The benefits are evident as the students remain in district and move to the Kindergarten program. Technology is infused throughout the entire curriculum. Each student in grade 3 and grade 4 has a Chromebook to use daily to enhance learning. Teachers use smart boards, document cameras and many web based programs to deliver instruction and support the differentiation of all instruction.

Special Education students also receive a high quality education and demonstrate significant levels of achievement in English, Math, Social Studies and Science. Supportive services programs provide students with an opportunity to participate in and experience success in mainstream academic classes. All district schools also offer special education programs through replacement instruction classes. For the 2017-2018 school year, the district continued many initiatives including teacher training, professional development and technology.

Teacher training, or Professional Development, will be provided for both regular education and special education faculty. Faculty in grades Pre-K through 12 will be training in Blended and Flipped Learning techniques, as well as being offered a continued focus on student well-being / mental health topics. With upgraded electronic computer

software, high school students will also be using SAT instructional software, on-line diagnostic and predictive testing software, as well as differentiated reading software.

The district has an agreement with two state approved special education private schools, Inclusive Learning Academy (ILA) and North Jersey Academy for Inclusion which operate self-contained classes on two campuses, Richard Butler Middle School and Butler High School. These offer a program alternative for our students in district. Furthermore, the district has contracted with Northern Regional Education Services Commission to create the Skyland Program for wheelchair bound/medically fragile students.

Special education students in grades 3 through 12 are using instructional software in both special education and regular education classrooms aimed at increasing levels of student learning as shown in math and language arts literacy scores. The district continues to offer self-contained classes (PSD, MHD, LLD), as well as replacement (RC) and supportive services for students experiencing regular education mainstream classes throughout all grades in the district.

5) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived: and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

6) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Butler Board of Education. Annual appropriate budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project length budgets are approved for the capital improvements and are accounted for in the Capital Projects Fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reserves of fund balance at June 30.

The District participates in several shared services agreements in order to procure goods and services in the most cost efficient means possible to assure savings to the taxpayer: The A.C.E.S. (Alliance for Competitive Energy Service program), organized by NJSBA, NJASBO and NJASA, is utilized for the provision of natural gas; Educational Data Services, Inc., the Morris County cooperative purchasing service, is utilized for District educational, office and custodial supplies and maintenance services. The Board participates in ACT (Alliance for Competitive Telecommunications) program for discounted telecommunications services; and SAIF (School Alliance Insurance Fund) and NJSIG (New Jersey Schools Insurance Group), pooled insurance groups for property, liability and workers compensation insurance.

<u>7) ACCOUNTING SYSTEM AND REPORTS:</u> The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements".

8) POLICY CHANGES: There were no significant policy changes in 2017-2018.

9) OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ferraioli, Wielkotz, Cerullo & Cuva, CPA's, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards; and New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditors' report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

The District's ongoing upgrades to all of its buildings insures that its physical plant is able to accommodate the District's current and anticipated future student population needs, and meet all current building safety standards and building codes. The District deems the current available capital reserve funds adequate to meet future capital needs as they arise.

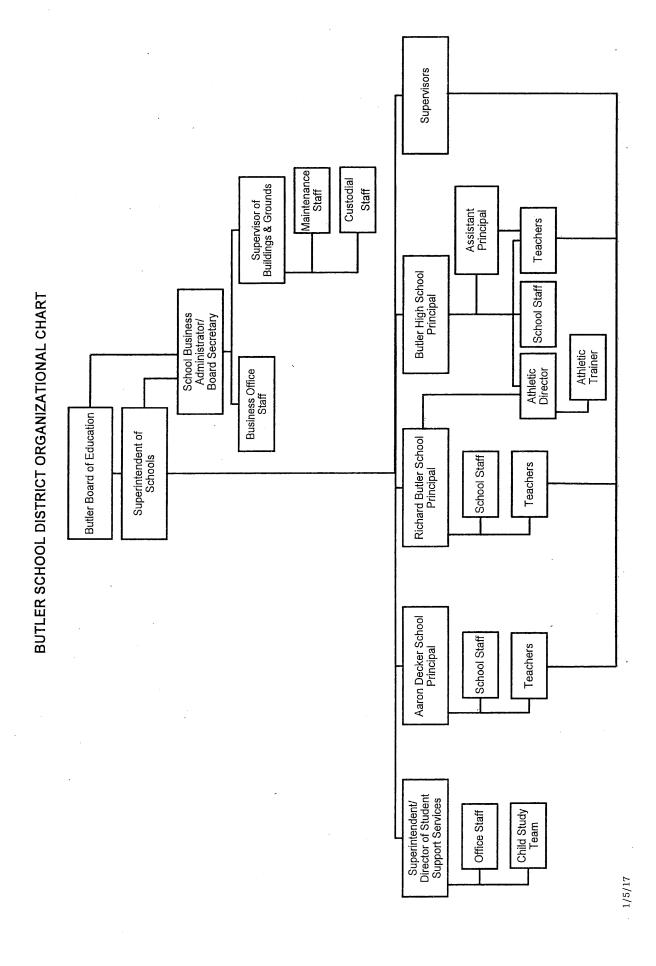

Long-Term Financial Planning- The District intends to prepare future budgets within the two percent tax cap levy plus allowable exceptions if applicable, as mandated by the State of New Jersey. Additionally, the District continually monitors its ability to refinance its outstanding long-term obligations to capitalize on favorable market conditions.

10) AWARDS: Butler High School was honored to be on the 8th Annual Honor Roll for AP courses. The award means that more students are participating and performing well on the AP exams. The District received a Certificate of Excellence in Financial Reporting from ASBO International for the June 30, 2017 audit.

11) ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Butler Borough School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Mario Cardinale Superintendent ∕Barbara Murphy Business Administrator

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Borough of Butler School District County of Morris, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Borough of Butler School District, in the County of Morris, State of New Jersey, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Honorable President and Members of the Board of Education Page 2.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Butler Board of Education, in the County of Morris, State of New Jersey, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the basic financial statements in 2018, the Board adopted Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (an Amendment of GASB Statement No. 45). Our opinions are not modified to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, Schedules Related to Accounting and Reporting for Pensions and Schedules Related to Accounting and Reporting for Other Post-Employment Benefits identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing

Honorable President and Members of the Board of Education Page 3.

the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Butler Board of Education's basic financial statements. The introductory section, combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the schedule o expenditures of state financial assistance as required by N.J. OMB Circular 15-08 and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the schedule o expenditures of state financial assistance as required by N.J. OMB Circular 15-08 are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the schedule o expenditures of state financial assistance as required by N.J. OMB Circular 15-08 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical data section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Honorable President and Members of the Board of Education Page 4.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2019 on our consideration of the Borough of Butler Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough of Butler Board of Education's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION PART I

BUTLER BOROUGH PUBLIC SCHOOL DISTRICT BUTLER BOROUGH

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

The discussion and analysis of the Butler Borough Public School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for the 2017-2018 fiscal year are as follows:

- ◆ The School District had \$31,679,117 in expenses (see A-2 District-wide Statement of Activities, Governmental Activities); \$4,706,358 of these expenses were offset by program specific charges for services, grants or contributions. General revenues, comprised of primarily property taxes, Federal and State Aid in the amounts of \$17,170,590 and \$10,049,881 respectively, were adequate to provide for these programs.
- ♦ The General Fund had \$26,472,388 in revenues and \$27,774,949 in expenditures. The General Fund's fund balance increased by \$202,270 over 2018. (see B-2 Statement of Revenues, Expenditures and Changes in Fund Balance-Governmental Funds)

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Butler Borough Public School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Butler Borough Public school district, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during the 2018 fiscal year?" The Statement of Net Position and the Statement of Activities helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's Net Position and changes in that position. This change in net position is important because it tells the reader that, for the school district as a whole, the financial positions of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental activities All of the School District's programs and services are reported here including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activities This service is provided on a charge for goods or services basis to recover all
 the expense of the goods or services provided. The Food Service enterprise fund is reported as a
 business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School district's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and the Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements will essentially match the information provided in statements for the District as a whole.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements.

Other Information

In addition to the basic financial statements, this report also presents certain required supplementary information concerning the District's budget process. The district adopts an annual expenditure budget for General, Special Revenue and Debt Service Funds. A budgetary comparison statement has been provided for each of these funds as required supplementary information. The required supplementary information can be found following the Notes to the Financial Statements.

Combining Statements and schedules are presented immediately following the major budgetary comparisons if required.

Government-Wide Financial Analysis

The Statement of Net Position provides the perspective of the School District as a whole, showing assets and deferred outflows of resources versus liabilities and deferred inflows of resources and the difference between them (net position). Net position may, over time serve as a useful indicator of a government's financial position. In the case of the Butler Public Schools, assets and deferred outflows of resources exceeded liabilities by \$8,451,408 and \$7,902,149 at June 30, 2018 and 2017 respectively.

By far the largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment): less any related debt used to acquire those assets that is still outstanding. The district uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 provides a summary of the District's net position as of June 30, 2018, and 2017.

Table 1 Net Position June 30, 2018 and 2017

Governmental Activities

The District's total governmental activities' revenues, which include State and Federal Grants, were \$32,259,669 for the year ended June 30, 2018 a decrease of \$698,282 or 2.21% over the previous year. A significant amount of this decrease is attributable to the adjustment to the on-behalf TPAF contribution to recognize the actuarially determined amount that should have been contributed by the State on-behalf of the District. This adjustment which impacts both the revenue and expenses of the governmental activities was \$4,756,924. Property taxes of \$17,170,590 represent 62.32% of revenues. Another significant portion of revenues came from State, Federal and Tuition from Other LEAs; total State, Federal, Tuition from other LEAs was \$14,816,257. Another source of revenues is miscellaneous income, which includes items such as rentals, prior year refunds, interest, etc. which amounts to \$272,842 or less than 1% of total revenues.

The total cost of all governmental program and services was \$31,679,117. The District's expenses are predominantly related to educating and caring for students. Instruction totaled \$16,528,666 or 52.17% of total expenses. Support services totaled \$14,366,625 or 45.35% of total expenses. The remaining expenses relate to capital outlay, interest on long term debt, transfers to charter schools, and unallocated depreciation and amortization and total \$783,826 or 2.48% of total expenses.

Total governmental activities revenues surpassed expenses, increasing net position \$580,552 over the previous year.

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

- Food service revenues were greater than expenditures resulting in an increase in net position of \$19,963.
- ♦ Charges for services represent \$280,584 of revenue. This represents the amount paid by patrons for daily food services.
- ♦ Federal and state reimbursements for meals, including payments for free and reduced lunches, donated commodities and interest income was \$176,521, an increase of \$4,522 over 2017.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. A comparison to 2017 follows, as well as a description of the various expenditure areas.

Table 3

	Total Cost of Services 2018	Net Cost of Services 2018	Total Cost of Services 2017	Net Cost of Services 2017
Instruction	16,528,666	13,782,661	16,383,482	12,895,739
Support services				
Pupils and instructional staff	7,006,017	6,066,235	6,653,536	5,659,566
General administration, school administration, business	3,214,722	2,786,637	2,911,053	2,438,393
Operation and maintenance of facilities	3,060,034	2,467,548	2,979,830	2,301,084
Pupil transportation	1,085,852	1,085,852	858,588	858,588
Interest on Long Term Debt	12,543	12,543	12,543	12,543
Transfer to Charter School	24,342	24,342	24,343	24,343
Unallocated Depreciation	719,342	719,342	705,993	705,993
Capital Outlay - Non- depreciable	27,599	27,599	137,099	137,099
Total governmental expenses	\$31,679,117	\$26,972,759	\$30,666,466	\$25,033,347

The total cost for 2018 increased by \$1,012,651 from 2017, or 3.30%. This decrease is mainly attributed to the increase in indirect expenses allocated for employee benefits related to GASB No. 75.

The total net cost for 2018 is an increase of \$1,939,412 over 2017, or 7.75%. This value is again mainly attributed to the increase in indirect expenses allocated for employee benefits related to GASB No. 75.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities. Additionally, included are extracurricular activities, which include expenses related to student activities provided by the School district which are designed to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development. This section also includes Curriculum and staff development, which includes expenses related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

The School District's Funds

These funds are accounted for using the modified accrual basis of accounting. All governmental funds (i.e., general fund, special revenue fund, capital projects and debt service fund presented in the fund-based statements) had total revenues of \$27,483,125 and expenditures of \$29,910,315.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds (excluding capital projects) for the fiscal year ended June 30, 2018, and the amount and percentage of increases and decreases in relation to prior year revenues.

<u>Revenue</u>	<u>Amount</u>	Percent of Total	Increase/ (Decrease) <u>from 2017</u>	Percent Increase/ (Decrease) from 2017
Local Sources	21,726,656	79.05%	91,316	4.22%

Total	<u>29,910,315</u>	<u>100.00%</u>	<u>3,242,724</u>	

General Fund Budgeting Highlights

The School district's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of modified accrual and encumbrance accounting. The most significant budgeted fund is the General Fund. Refer to Exhibit C-1 – Budgetary Comparison Schedule.

During the course of the fiscal year 2018, the School District amended its General Fund budget as needed. The School district uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management when the need arises in such areas as:

- Staffing changes based on student needs.
- ♦ Additional costs for student transportation and out-of district tuitions both in regular education and special education.
- Accounting changes in maintenance and operations.
- Changes in appropriations to prevent budget overruns.

While the District's final budget for the general fund anticipated that revenues and expenditures would roughly equal, the actual results for the year show a surplus.

- ♦ Actual revenues appear to be \$3,043,453 more than expected, but once the reimbursement for TPAF pension and social security, which are not included in the budgeting process and only reported on the financial statements are removed, revenues actually increased by only \$256,469 over the budgeted amount. This was mainly attributable to a significant increase in Extraordinary Aid from the state.
- ♦ The actual expenditures appear to be \$3,255,382 higher than expected. Once again, after the removal of the TPAF reported numbers, as well as, the amount of expenditures relating to the lease purchase financing of boilers and lighting, expenditures are \$1,332,461 less than originally budgeted. This can be attributed to expenditures being less than projected in many areas including: special education − instruction; utilities; judgements against the district; and employee benefits.

Capital Assets

New capital asset purchases and construction in progress for the year totaled \$3,071,597. The District is nearing completion of the project to renovate the HS Auditorium, replace the Aaron Decker School Boiler and the district-wide abatement of asbestos. More information on capital assets may be found in Note 6 to the financial statements.

Debt Administration

At June 30, 2018 the School district had \$3,591,000 in outstanding bonded debt. Additional information may be found in Note 7 of the financial statements.

For the Future

The Butler Borough Public School District is in good financial condition. The District is proud of its community support of the public schools. However, future finances are not without challenges as expenses continue to grow and limitations are placed on total spending. The District is concerned with its increasing reliance on property taxes as state aid has remained flat and expenses have risen.

The District is committed to continuing its system of financial planning, budgeting and internal financial controls to meet the challenges of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School district's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information contact Patrick Tierney, School Business Administrator/Board Secretary at Butler Borough Board of Education, High School Annex Building, Butler, NJ 07405 or email at ptierney@butlerboe.org.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education of the Borough of Butler School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the board's accounting policies are described below.

A. Description of the School District and Reporting Entity

The Board of Education ("Board") of the Borough of Butler School District ("District") is an instrumentality of the State of New Jersey, established to function as an educational institution. The Borough of Butler School District is a Type II district located in the County of Morris, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of ten members elected to three-year terms. The purpose of the District is to educate students in grades K-12, as well as Butler's Grade 9-12. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

Governmental Accounting Standards Board publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency and a resulting financial benefit or burden relationship, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significance) should be included in the financial reporting entity. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include elementary schools and a middle school, located in the Borough of Butler. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Basis of Presentation

The Board's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (continued)

District-wide Financial Statements

The statement of net position and the statement of activities display information about the Board as a whole. These statements include the financial activities of the overall District, except for the fiduciary funds. The statements distinguish between those activities of the Board that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the Board at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the governmental activities and for the business-type activities of the Board. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Board, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Board.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - *government, proprietary*, and *fiduciary* - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models. The various funds of the Board are grouped into the categories governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions of the Board are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Board's governmental funds:

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (continued)

GOVERNMENTAL FUNDS (continued)

General Fund - The General Fund is the general operating fund of the Board. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the Board includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from sale of bonds, lease purchases and other revenues.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

PROPRIETARY FUNDS

The focus of Proprietary Fund measurement is upon determination of net income, changes in net position, financial position and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. Proprietary funds are classified as enterprise or internal service. The following is a description of the Proprietary Funds of the Board:

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (continued)

PROPRIETARY FUNDS (continued)

Enterprise Funds - The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the Board is that the costs (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the Board has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The Board's Enterprise Fund is comprised of the Food Service Fund.

Internal Service Fund

The Internal Service Fund has been established to account for the financing of the Morris County Academy of Law and Public Safety, which is located at Butler High School, provided by Morris County School of Technology for use by various other districts within the County of Morris, as well as for Butler School District itself. Services are provided on a cost-reimbursement basis.

FIDUCIARY FUNDS

Fiduciary Fund - Fiduciary Fund reporting focuses on net position and changes in net position. The Fiduciary Funds are used to account for assets held by the Board on behalf of individuals, private organizations, other governments and/or other funds. Fiduciary Funds include the Unemployment Compensation Insurance Fund, Student Activities Fund and Payroll Agency Fund.

C. Measurement Focus

District-wide Financial Statements

The District-wide statements (i.e., the statement of net position and the statement of activities) are prepared using the economic resources measurements focus and the accrual basis of accounting. All assets and liabilities associated with the operation of the Board are included on the statement of net position, except for fiduciary funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus (continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the District-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the District-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Board finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The District-wide financial statements and the financial statements of the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

1. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, investment earnings and miscellaneous revenues.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting (continued)

Revenues - Exchange and Non-exchange Transactions (continued)

2. Property Taxes

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May I of the fiscal year. When unpaid taxes or any municipal lien, or part thereof, on real property, remains in arrears on the 11th day of the 11th month of the fiscal year levied, the collector in the municipality shall subject to the provisions of the New Jersey Statutes enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

3. Tuition Revenues and Expenditures

<u>Tuition Revenues</u> - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

<u>Tuition Expenditures</u> - Tuition charges for the fiscal years 2016-2017 and 2017-2018 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

4. Proprietary Funds, Operating and Non-Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund and of the Academy for Law and Public Safety enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Budgets/Budgetary Control

Annual appropriated budgets are adopted in the spring of the preceding year for the general, and special revenue funds. The budgets are submitted to the county superintendents office for approval. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2(g)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the Board has received advances, are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the Board has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Revenues/Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

I. Tuition Payable

Tuition charges were established by the receiving district. The charges are subject to adjustment when the final costs have been determined.

J. Inventories

On District-wide financial statements, inventories are presented at cost, which approximates market on a first-in, first-out basis and are expensed when used.

On fund financial statements inventories are valued at cost, which approximates market, using the first-infirst-out (FIFO) method. Inventories of proprietary funds consist of food and goods held for resale, as well as supplies, and are expensed when used.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

K. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2018, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

L. Short-Term Interfund Receivables/Payables

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

M. Capital Assets

General capital assets are those assets not specifically related to activities reported in the enterprise fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the district -wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activity column of the District-wide statement of net position and in the fund.

All capital assets acquired or constructed during the year are recorded at actual cost. Donated fixed assets are valued at their estimated fair market value on the date received. The capital assets acquired or constructed prior to June 30, 1993 are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Donated capital assets are valued at their estimated fair market value on the date received. The Board maintains a capitalization threshold of \$2,000. The Board does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives

	Governmental	Business-Type
	Activities	Activity
<u>Description</u>	Estimated Lives	Estimated Lives
Sites and Improvements	20 years	N/A
Building and Improvements	7-50 years	N/A
Furniture, Equipment and Vehicles	5-20 years	5-20 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

N. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the Board and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Board and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

For the District-wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

O. Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Unearned revenue in the special revenue fund represents cash that has been received but not yet earned. See Note 1(F) regarding the special revenue fund.

P. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the District-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgements, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds, long-term obligations, and capital leases that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Q. Accounting and Financial Reporting for Pensions

In fiscal year 2015, the District implemented GASB 68. This Statement amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and interperiod equity and creating additional

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Accounting and Financial Reporting for Pensions (continued)

transparency. This Statement replaces the requirement of Statement No. 27, *Accounting for Pension by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

R. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has only two items that qualify for reporting in this category, deferred amounts from refunding debt-and deferred amounts related to pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies in this category, deferred amounts related to pension.

S. Fund Balances:

Fund balance is divided into five classifications based primarily on the extent to which the Board is bound to observe constraints imposed upon the resources in the governmental funds. The classifications are as follows:

- **Nonspendable fund balance** includes amounts that are not in a spendable form (inventory, for example) or are required to be maintained intact (the principal of an endowment fund, for example).
- Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers (for example, grant providers), constitutionally, or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use). Effectively, restrictions may be changed or lifted only with the consent of resource providers.

<u>Excess Surplus - Designated for Subsequent Year's Expenditures</u> - This restriction was created in accordance with NJSA 18A:7F-7 to represent to June 30, 2017 audited excess surplus that was appropriated in the 2018-2019 original budget certified for taxes.

<u>Excess Surplus</u> - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2018 audited excess surplus that is required to be appropriated in the 2018-2019 original budget certified for taxes.

<u>Capital Reserve</u> - This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 3.)

<u>Capital Projects</u> - Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

<u>Debt Service</u> - Represents fund balance restricted specifically for the repayment of long-term debt principal and interest in the Debt Service Fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

S. Fund Balances: (continued)

- Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the Board's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.
- Assigned fund balance comprises amounts *intended* to be used by the Board for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

<u>Year-End Encumbrances</u> - Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

<u>Designated for Subsequent Year's Expenditures</u> - This designation was created to dedicate the portion of fund balance appropriated in the adopted 2018-2019 District budget certified for taxes.

• Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. If another governmental fund has a fund balance deficit, then it will be reported as a negative amount in the unassigned classification in that fund. Positive unassigned amounts will be reported only in the general fund.

T. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Board or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Board applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

U. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Board, these revenues are sales for food service and program fees. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund.

V. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

W. Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, medical and dental benefits and TPAF on-behalf contributions were allocated based on salaries of that program. Changes in compensating absences have not been allocated and have been reported as unallocated benefits on the Statement of Activities. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities as unallocated depreciation. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

X. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reports, amounts and disclosures. Accordingly, actual results could differ from those estimates.

Y. Recent Accounting Pronouncements

The Government Accounting Standards Board issued <u>GASB Statement No. 75</u>, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement applies to government employers who provided OPEB plans to their employees and basically parallels GASB Statement 68 and replaces GASB Statement 45. The Statement is effective for fiscal years beginning after June 15, 2017 and was implemented by the District for the year ended June 30, 2018.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Y. Recent Accounting Pronouncements (continued)

In March 2016, the Government Accounting Standards Board issued <u>GASB Statement No. 81</u>, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The District does not believe this Statement will have any effect on future financial statements.

In November 2016, the Government Accounting Standards Board issued <u>GASB Statement No. 83</u>, *Certain Asset Retirement Obligations*. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflows of resources for asset retirement obligations (AROs). The District does not believe this Statement will have any effect on future financial statements.

In January 2017, the Government Accounting Standards Board issued <u>GASB Statement No. 84</u>, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus on the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify component units and postemployment benefit arrangements that are fiduciary activities. The District is currently evaluating the effects, if any, this Statement may have on future financial statements.

In March 2017, the Government Accounting Standards Board issued <u>GASB Statement No. 85</u>, *Omnibus 2017*, which addresses practice issues that have been identified during the implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues relating to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The District implemented this statement for the year ended June 30, 2018.

In May 2017, the Governmental Accounting Standards Board issued <u>GASB Statement No. 86</u>, *Certain Debt Extinguishment Issues*, which improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. The District had no transactions of this type for the year ended June 30, 2018.

In June 2017, the Government Accounting Standards Board issued <u>GASB Statement 87</u>, Leases, which improves accounting and financial reporting for leases by governments. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the fundamental principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after December 15,2019. The District is currently reviewing what effect, if any, this Statement may have on future financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Y. Recent Accounting Pronouncements (continued)

In March 2018, the Government Accounting Standards Board issued <u>GASB Statement No. 88</u>, Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placement. The objective of this Statement is to improve consistency in the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt. This Statement is effective for reporting periods beginning after June 15, 2018. The District believes this may impact the disclosures relating to debt in the notes to the financial statements.

NOTE 2. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Districts policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 18A:20-37 that are treated as cash equivalents. As of June 30, 2018, \$-0- of the District's bank balance of \$4,658,941 was exposed to custodial credit risk.

Investments

Investment Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 18A:20-37 limits the length of time for most investments to 397 days.

Credit Risk

New Jersey Statutes 18A:20-37 limit school district investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America; bonds or other obligations of the school districts or bonds or other obligations of the local unit or units within which the school district is located; obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk

The district places no limit on the amount the District may invest in any one issuer.

NOTE 3. RECEIVABLES

Receivables at June 30, 2018 consisted of accounts and intergovernmental. All receivables are considered collectible in full. A summary of the principal items of receivables follows:

	Governmental Fund Financial Statements	Internal Service <u>Fund</u>	Enterprise <u>Fund</u>	District Wide Financial Statements
State Aid Federal Aid	\$453,617	\$ -	\$ 815 26,851	\$454,432 26,851
Interfunds	21,751	-	20,031	-
Other	450,197		-	450,197
Gross Receivables Less: Allowances	<u>925,565</u>		27,666	931,480
for Uncollectables Total Receivables, Net	<u>-</u> \$925,565	<u>-</u> <u>-</u>	\$27,666	- \$931,480

NOTE 4. INTERFUND BALANCES AND ACTIVITY

Balance due to/from other funds at June 30, 2018 consists of the following:

Due to General Fund from the Special Revenue Fund for short term loans. \$\frac{\$21,751}{}\$

It is anticipated that all interfunds will be liquidated within the fiscal year.

During the year ended June 30, 2018, there was a transfer of \$293,894 from the General Fund to the Capital Projects Fund to fund the local share of Capital Projects.

NOTE 5. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2018 was as follows:

Governmental Activities:	Balance 6/30/17	Additions	Retirements	Adjustments	Balance 6/30/18
Capital Assets, Not Being Depreciated					
Construction in Progress	741,309	671,082	-		1,412,391
Total Capital Assets, Not Being Depreciated	741,309	671,082	<u> </u>	CO. Transport	<u>1,412,391</u>
Capital Assets Being Depreciated					
Building & Improvements Site Improvements	16,077,595 3,567,838	2,206,647 123,539	-	- -	18,284,242 3,691,376

Net Business-Type Activity Capital Assets, Net	<u>56,987</u>	<u>(5,732)</u>	-	<u>50,953</u>	102,208

NOTE 5. CAPITAL ASSETS (continued)

Depreciation expense was charged to functions as follows:

Instruction:

Regular Education	\$ 4,612
Special Education	6,113
Student & Instruction Related Services	24,865
School Administrative Services	264
Plant Operations and Maintenance	23,635
Unallocated	601,818
Total Depreciation Expense	\$661,307

NOTE 6. LONG-TERM OBLIGATION ACTIVITY

Changes in long-term obligations for the fiscal year ended June 30, 2018 were as follows:

	Balance June 30, 2017	Increases	Retired	Balance June 30, 2018	Due Within One Year	Long-Term Portion
Capital Leases Compensated	43,522	1,797,859	90,957	17,750,424	108,956	1,641,468
Absences Payable Net Pension	502,382	_	66,036	436,346	-	436,346
Liability -PERS	6,409,425	- ,	1,688,202	4,721,223	-	4,721,223
School Bonds of 2009 Refunding School	2,031,000	-	200,000	1,831,000	201,000	1,630,000
Bonds of 2012	2,045,000		285,000	1,760,000	<u>295,000</u>	<u>1,465,000</u>
	11,031,329	1,797,859	<u>2,330,195</u>	10,498,993	604,956	<u>9,894,037</u>

For the governmental activities, the liabilities for compensated absences, capital leases and net position liability are generally liquidated by the general fund.

A. Bonds Payable

The Board issued General Obligation Bonds to provide funds for the acquisition and construction of major capital facilities and other capital assets.

Bonds are authorized in accordance with State Law by the voters of the District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are General Obligation Bonds.

NOTE 6. LONG-TERM OBLIGATION ACTIVITY (continued)

A. Bonds Payable (continued)

Outstanding Bonds Payable at June 30, 2018, consisted of the following:

<u>Issue</u>	Original Amount <u>Issued</u>	Issue <u>Date</u>	Interest Rates	Date of <u>Maturity</u>	Principal Balance at June 30, 2018
School Bonds of 2009 (Various School Renovations)	3,046,000	7/01/2009	2.00-4.00%	7/01/2024	\$1,831,000
Refunding Bonds of 2012	2,920,000	2/01/2012	2.00-2.56%	2/01/2024	1,760,000
(Refunding School Bonds of 2004)					\$3,591,000
Year ending June 30	<u>Principal</u>		Interest		Total
2019	\$496,000		\$104,309	\$	600,309
2020	550,000		91,019		641,019
2021	555,000		75,544		630,544
2022	560,000		59,144		619,144
2023	565,000		42,075		607,075
2024-2025	865,000		30,350		895,350

B. Bonds Authorized but not Issued

As of June 30, 2018, there were no Authorized but not Issued Bonds.

NOTE 7. CAPITAL LEASES PAYABLE

The District is leasing nine copiers with a lease term of five years ending February 2019. Additionally, in 2017-2018, the District financed boilers and lighting upgrades through a lease purchase agreement. Payments began in 2018 and will be made semi-annually thru 2017 with a stated rate of 2.99%. The following is a schedule of the future minimum lease payments under these capital leases and the present value of the net minimum lease payments at June 30, 2018:

P' - 1 Was Fu I' - I I - 20		A
Fiscal Year Ending June 30,		<u>Amount</u>
2019	\$	160,420
2020		107,365
2021		106,078
2022		106,886
2023		106,070
2024-2028		559,708
2029-2033		627,162
2034-2037		<u>553,195</u>
Total Minimum lease payables	2	2,326,884
Less: Amount representing interest		(576,460)
Present Value of Net Minimum Lease Payments	<u>\$1</u>	1,750,424

The General Fund will be used to liquidate the Capital Lease.

NOTE 8. PENSION PLANS

<u>Description of Plans</u> - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or reports can be accessed on the internet at: http://www.state.nj.us/treasury/pensions/annrpts_archive.htm.

NOTE 8. PENSION PLANS (continued)

<u>Teachers' Pension and Annuity Fund (TPAF)</u> - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 50 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

NOTE 8. PENSION PLANS (continued)

<u>Public Employees' Retirement System (PERS)</u> - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 50 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

NOTE 8. PENSION PLANS (continued)

<u>Defined Contribution Retirement Program</u>

Prudential Financial jointly administers the DCRP investments with the NJ Division of Pensions and Benefits. If an employee is ineligible to enroll in the PERS or PFRS, the employee may be eligible to enroll in the DCRP. DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of 5.50% for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution.

Contributions Requirements Fund Based Statements

The Board's contribution to PERS AND DCRP, equal to the required contributions for each year as reported in the fund based statements, were as follows:

Year Ending	<u>PERS</u>	<u>DCRP</u>
6/30/18	\$191,841	\$38,146
6/30/17	193,834	28,215
6/30/16	194,941	26,782

The State of New Jersey contribution to TPAF (paid on-behalf of the District) for normal and post retirement benefits have been included in the fund-based statements as revenues and expenditures in accordance with GASB 24, paragraphs 7 through 13, as follows:

		Post-Retirement		
Year	Pension	Medical	NCGI	Long-Term
Ending	Contributions	Contributions	<u>Premium</u>	Disability
6/30/18	\$1,256,248	\$831,074	\$30,486	\$1,630
6/30/17	967,798	835,614	35,066	1,986
6/30/16	665,977	832,497	33,175	-

In addition, the post-retirement medical benefits are included in the district-wide financial statements.

NOTE 8. PENSION PLANS (continued)

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$670,546 during the year ended June 30, 2018 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been included in the fund-based statements as revenues and expenditures in accordance with GASB 24, paragraphs 7 through 13.

<u>ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68</u>

Public Employees Retirement System (PERS)

At June 30, 2018, the District had a liability of \$4,721,223 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, actuarially determined. At June 30, 2017, the District's proportion was 0.0202815608 percent, which was a decrease of 0.0013593770 percent from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$191,841. At June 30, 2018, deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Difference between expected and actual experience	\$111,169	\$ -
Changes of assumptions	951,164	947,677
Net difference between projected and actual earnings		
on pension plan investments	32,148	-
Changes in proportion and differences between the District's	ŕ	
contributions and proportionate share of contributions		448,040
District contributions subsequent to the measurement date	<u>197,281</u>	
Total	<u>\$1,291,762</u>	<u>\$1,395,717</u>

The \$197,281 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2018, the plan measurement date is June 30, 2017) will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions (excluding changes in proportion) will be recognized in pension expense as follows:

NOTE 8. PENSION PLANS (continued)

ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68, (continued)

Public Employees Retirement System (PERS) (continued)

Year ended June 30:	
2018	\$111,142
2019	167,716
2020	101,627
2021	(135,165)
2022	(98,517)

Changes in Proportion

The previous amounts do not include employer specific deferred outflows of resources and deferred inflows of resources related to changes in proportion. These amounts should be recognized (amortized) by each employer over the average of the expected remaining service lives of all plan members, which is 5.48, 5.57, 5.72 and 6.44 years for 2017, 2016, 2015 and 2014 amounts, respectively.

Additional Information

Local Group Collective balances at June 30, 2017 and June 30, 2016 are as follows:

	June 30, 2017	June 30, 2016
Collective deferred outflows of resources	\$6,424,455,842	\$8,685,338,380
Collective deferred inflows of resources	5,700,625,981	870,133,595
Collective net pension liability	23,278,401,588	29,617,131,759
District's Proportion	0.0202815608%	0.0216409378%

NOTE 8. PENSION PLANS (continued)

ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68, (continued)

Public Employees Retirement System (PERS) (continued)

Actuarial Assumptions

The total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of July 1, 2016, which rolled forward to June 30, 2017. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation 2.25 Percent

Salary Increases:

Through 2026 1.65-4.15 Percent (based on age)

Thereafter 2.65-5.15 Percent (based on age)

Investment Rate of Return 7.00 Percent

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plans actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

NOTE 8. PENSION PLANS (continued)

<u>ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE</u> STATEMENTS PER - GASB NO. 68, (continued)

Public Employees Retirement System (PERS) (continued)

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Absolute return/risk mitigation	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U. S. Treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%
Public high yield	2.50%	6.82%
Global diversified credit	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%
Debt related private equity	2.00%	10.63%
Debt related real estate	1.00%	6.61%
Private real estate	2.50%	11.83%
Equity related real estate	6.25%	9.23%
U. S. Equity	30.00%	8.19%
Non-U. S. Developed markets equity	11.50%	9.00%
Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%

Public Employees Retirement System (PERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability was 5.00% and 3.98% as of June 30, 2017 and 2016, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 3.58% and 2.85% as of June 30, 2017 and 2016, respectively, based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contributions rate in the most recent fiscal year. The State contributed 30% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034, and the municipal bond rate was applied to projected benefit payments through 2034, and pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2016, respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 - percentage point lower or 1-percentage-point higher than the current rate:

		June 30, 2017				
	1%	At Current	1%			
	Decrease	Discount Rate	Increase			
	<u>4.00%</u>	<u>5.00%</u>	<u>6.00%</u>			
District's proportionate share of						
the pension liability	\$5,856,998	\$4,721,223	\$3,774,982			

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Public Employees Retirement System (PERS). The financial report may be accessed at www.state.nj.us/treasury/pensions.

NOTE 8. PENSION PLANS (continued)

<u>ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68, (continued)</u>

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2018 was as follows:

Net Pension Liability:

District's proportionate share State's proportionate share associated with the District \$

60,114,231

\$60,114,231

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2017, the proportion of the TPAF net pension liability associated with the District was 0.0891590278%.

For the year ended June 30, 2018, the District recognized on-behalf pension expense and revenue of \$2,119,438 for contributions provided by the State in the District-Wide Financial Statements.

Actuarial Assumptions

The total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of July 1, 2016, which was rolled forward to June 30, 2017. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

NOTE 8. PENSION PLANS (continued)

ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68, (continued)

Teachers Pensions and Annuity Fund (TPAF) (continued)

Actuarial Assumptions (continued)

Inflation rate

2.25%

Salary Increases:

2012-2021

Varies based on experience

Thereafter

Varies based on experience

Investment Rate of Return

7.00%

Mortality Rates

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2017 are summarized in the following table:

NOTE 8. PENSION PLANS (continued)

<u>ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68, (continued)</u>

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Absolute return/risk mitigation	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U. S. Treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%
Public high yield	2.50%	6.82%
Global diversified credit	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%
Debt related private equity	2.00%	10.63%
Debt related real estate	1.00%	6.61%
Private real estate	2.50%	11.83%
Equity related real estate	6.25%	9.23%
U. S. Equity	30.00%	8.19%
Non-U. S. Developed markets equity	11.50%	9.00%
Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%

Discount Rate

The discount rate used to measure the total pension liability was 4.25% and 3.22% as of June 30, 2017 and 2016, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% and 2.85% as of June 30, 2017 and 2016, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State contributed 40% of the actuary determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2036. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2036, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Because the District's proportionate share of the net pension liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

NOTE 9. POST-RETIREMENT BENEFITS

General Information about the OPEB Plan

Plan Description and Benefits Provided

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994 Chapter 62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 Chapter 126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB No. 75.

Employees covered by benefits terms. At June 30, 2017, the following employees were covered by the benefit terms:

TPAF participant retirees:

As of June 30, 2017, there were 112,966 retirees receiving post-retirement medical benefits, and the State Contributed \$1.39 billion on their behalf.

PERS participant retirees:

The State paid \$238.9 million toward Chapter 126 benefits for 209,913 eligible retired members in Fiscal Year 2017.

NOTE 9. POST-RETIREMENT BENEFITS (continued)

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASB No. 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level for the State Health Benefit Local Education Retired Employee's Plan and is not specific to the board of education/board of trustees, and could be found at https://www.state.nj.us/treasury/pensions/GASBnotices OPEB.

The portion of the OPEB Liability that was associated with the District recognized at June 30, 2018 was as follows:

OPEB Liability:

District's proportionate share State's proportionate share associated with the District \$ -0-

50,814,554

\$50,814,554

Actual Assumptions and Other Imputes

The total OPEB liability in the June 30, 2017 actuarial valuation reported by the State in the State's Report of Total Nonemployer OPEB Liability for the State Health Benefit Local Education Retired Employee's Plan was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The total nonemployer OPEB liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2016. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate

NOTE 7. POST-RETIREMENT BENEFITS (continued)

initiation rate	1.5070	
	TPAF/ABP	PERS
Salary increases:		
Through 2026	1.55 - 4.55%	2.15 - 4.15%
, e	based on years of service	based on age
Thereafter	2.00 - 5.45%	3.15 - 5.15%
	based on years of service	based on age

2.50%

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Health Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2014 Headcount-Weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 – June 30, 2015, July 1, 2010 – June 30, 2013, and July 1, 2011 – June 30, 2014 for TPAF and PFRS, respectively.

(a) Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount initially is 5.9% and decreases to a 5.0% long-term trend rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to a 5.0% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

(b) Discount Rate

The discount rate for June 30, 2017 and 2016 was 3.58% and 2.85%, respectively. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

NOTE 9. POST-RETIREMENT BENEFITS (continued)

Sensitivity of Total Nonemployer OPEB Liability to Changes in the Discount Rate

Because the District's proportionate share of the OPEB liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

Sensitivity of the Total Nonemployer OPEB Liability to Changes in the Healthcare Cost Trend Rates:

Because the District's proportionate share of the OPEB liability is zero, consideration of potential changes in the healthcare cost trend rates is not applicable to the District.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2018, the board of education/board of trustees recognized on-behalf OPEB expense of \$2,709,692 in the district-wide financial statements as determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75 and in which there is a special funding situation.

In accordance with GASB No. 75, the Borough of Butler School District proportionate share of school retirees OPEB is zero; therefore, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

NOTE 10. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Equitable Life Assurance First Investors Great American Life Insurance Co. Lincoln Investment Planning, Inc. Lincoln National
Metlife Resources
Variable Annuity Life Insurance Co.

NOTE 11. RISK MANAGEMENT

The District is exposed to various risks of loss related to general liability, automobile coverage; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The Board has obtained insurance coverage to guard against these events to minimize the exposure to the District should they occur.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

The Butler School District is currently a member of the Pooled Insurance Program of N.J. (the "PIP"). The PIP provides their members with worker's compensation insurance. The PIP is a risk-sharing public entity risk pool that is both an insured and self administered group of school districts, established for the purpose of providing low-cost insurance coverage for their members in order to keep local property taxes at a minimum. Each member appoints an official to represent their respective district for the purpose of creating a governing body from which officers for the PIP are elected.

As a member of the PIP, the district could be subject to supplemental assessments in the event of deficiencies. If the assets of the PIP were to be exhausted, members would become responsible for their respective shares of the PIP's liabilities.

The PIP can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment relates to the total assessment of the membership body. In accordance with Statement No. 10 of the Government Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared. Financial Statements are available at the PIP's Administrator's Office, as follows:

Burton Agency (201) 664-0310 44 Bergen Street P. O. Box 270 Westwood, NJ 07675

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage

<u>New Jersey Unemployment Compensation Insurance</u> - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and previous two years:

NOTE 11. RISK MANAGEMENT (continued)

	Interest Earnings/	nterest Earnings/				
	District	Employee	Amount	Ending		
<u>Fiscal year</u>	Contributions	Contributions	Reimbursed	Balance		
2017-2018	\$247	\$20,863	\$ 7,632	\$130,323		
2016-2017	230	19,865	16,522	116,844		
2015-2016	214	19,219	11,651	113,271		

NOTE 12. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the District by inclusion of \$380,000 during the fiscal year ended June 30, 2001 and \$385,000 in subsequent years budgets for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). A district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to *N.J.A.C.* 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2017 to June 30, 2018 fiscal year is as follows:

Beginning balance, July 1, 2017	\$1,001,621
Capital Projects Excess Transferred back Budgeted Withdrawal from Capital Reserve Interest earnings	(293,028.) 914
Deposit: Board Resolution	<u>241,000</u>
Ending balance, June 30, 2018	<u>\$950,508</u>

The balance in the capital reserve account at June 30, 2018 does not exceed the balance of local support costs of uncompleted capital projects in its LFRP. Withdrawals from the capital reserve, where applicable, are for use in a DOE approved facilities project, consistent with the District's Long Range Facilities Plan.

NOTE 13. FUND BALANCE APPROPRIATED

General Fund [Exhibit B-1] - Of the \$3,948,376 General Fund fund balance at June 30, 2018, \$27,362 is reserved for encumbrances; \$2,253,198 is reserved as excess surplus in accordance with *N.J.S.A.* 18A:7F-7, \$1,147,309 of the total reserve for excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2019; \$950,508 has been reserved in the Capital Reserve Account; \$193,890 has been appropriated and included as anticipated revenue for the year ending June 30, 2019; and \$523,418 is unreserved and unassigned.

NOTE 14 CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7 as amended, the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget.

The excess fund balance at June 30, 2018 is \$2,253,198. Of this amount, \$1,105,889 is the result of current year operation, and \$1,147,309 is the result of prior year operations.

NOTE 15. INVENTORY

Inventory in the Food Service Fund at June 30, 2018 consisted of the following:

Food \$5,097 Supplies <u>1,710</u>

\$6,807

The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by USDA. It is valued at estimated market prices by USDA. The amount of unused commodities at year end is reported on Schedule A as unearned revenue.

NOTE 16. RESTATEMENT

Net position for June 30, 2017 were restated to adjust capital assets net of depreciation for the updated fixed asset report, dated August 16, 2018. This resulted in restatement of net position as of June 30, 2018, as follow:

	Governmental <u>Activities</u>	Business-Type <u>Activities</u>
Net Position at June 30, 2017 Prior Period Adjustment of Capital Assets,	\$7,809,270	\$92,879
Net of Depreciation	(102,208)	_50,952
Net Position at June 30, 2017 (Restated)	<u>\$7,707,062</u>	<u>\$143,831</u>

NOTE 17. CONTINGENT LIABILITIES

<u>Grant Programs</u> - The school district participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

<u>Litigation</u> - District Counsel has informed us there is one matter they have been engaged to represent the Board which is pending or to which they have devoted substantial attention in the form of legal consultation involving claims by or against, or a contingent liability of, the Board of Education. The possible outcome has not been supplied to us.

NOTE 18. SUBSEQUENT EVENT

The District has evaluated subsequent events through January 23, 2019, the date which the financial statements were available to be issued and no other items were noted for disclosure.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PART II

BUTLER BOROUGH SCHOOL DISTRICT REQUIRED SUPPLEMENTARY INFORMATION BUDGET COMPARISON SCHEDULES BUDGET - TO - GAAP RECONCILIATION FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Note A - Explanation of Difference between Budgetary Inflows and GAAP Revenues and Expenditures

- · · · · · · · · · · · · · · · · · · ·		General Fund		Special Revenue Fund
Sources/Inflows of Resources	-	-		
Actual amounts (budgetary basis) "revenue"				
from the budgetary comparison schedule	[C-1]	26,473,992	[C-2]	408,214
Difference - budget to GAAP:				
The last State aid payment is recognized as revenue for budgetary purposes, and differs from GAAP which does not recognize this revenue until the subsequent year when the State recognized the related expense (GASB 33):				
State aid payment recognized for budgetary purposes, not recognized for GAAP statements until the subsequent year.		(182,490)		
State aid payment recognized for GAAP statements in the current year, previously recognized for budgetary purposes.		180,886		
Total revenue as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds.	[B-2] =	26,472,388	[B-2] =	408,214
Uses/Outflows of Resources Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	[C-1]	27,774,949	[C-2]	408,214
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	[B-2] =	27,774,949	[B-2]	408,214

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PART III

BUTLER BOROUGH SCHOOL DISTRICT Note to Required Schedules of Supplementary Information - Part III For the fiscal year ended June 30, 2017

PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

Change in benefit terms

None

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (2.85%) to the current measurement date (3.58%), resulting in a change in the discount rate from 3.98% to 5.00%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

TEACHERS PENSION AND ANNUITY FUND (TPAF)

Change in benefit terms

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (2.85%) to the current measurement date (3.58%), resulting in a change in the discount rate from 3.22% to 4.25%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

Note:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the pre-budget year net budget by more than the spending growth limitation calculation.

- **a** The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- **b** Rates for debt service are based on each year's requirements.

Total direct and overlapping debt			\$ 10,738,538	

Sources: Borough of Butler Finance Officer, Morris County Finance Office

and Utility Authorities

Note:

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Butler. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment. a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Borough of Butler School District County of Morris Butler, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of the Board of Education of the Borough of Butler School District, in the County of Morris, New Jersey, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 23, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit on the financial statements, we considered the Borough of Butler Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Butler Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough of Butler Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Butler Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards or the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY'S OMB CIRCULAR 15-08

Honorable President and Members of the Board of Education Borough of Butler School District County of Morris Butler, New Jersey

Report on Compliance for Each Major State Program

We have audited the Board of Education of the Borough of Butler School District in the County of Morris, New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplements* and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Borough of Butler Board of Education's major state programs for the fiscal year ended June 30, 2018. The Borough of Butler Board of Education's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Borough of Butler Board of Education's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and N.J. OMB Circular 15-08. Those standards, the Uniform Guidance and N.J. OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state

program occurred. An audit includes examining, on a test basis, evidence about the Borough of Butler Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Borough of Butler Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Borough of Butler Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the Borough of Butler Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Borough of Butler Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Borough of Butler Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and N.J. OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

NOTE 1. GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include the activity of all Federal and State Award programs of the Board of Education, Borough of Butler School District. The Board of Education is defined in Note 1 to the Board's financial statements. All Federal and State Awards received directly from federal and state agencies, as well as Federal Awards and State Financial Assistance passed through other government agencies is included on the Schedule of Expenditures of Federal Awards and State Financial Assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of Federal Awards and State Financial Assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 2 (C) and 2(D) to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and N.J. OMB Circular 15-08. Therefore, some amounts presented in this schedule may differ in amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A.18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A.18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(1,604) for the general fund and \$-0- for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (continued)

Additionally, as discussed further in Note 5, the State of New Jersey makes contributions on-behalf of the District for TPAF post-retirement medical and pension contributions. The total amount of these contributions during 2018 fiscal year was \$2,119,438.

Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as follows:

	<u>Federal</u>	<u>State</u>	Total
General Fund	\$ 54,331	\$5,239,256	\$5,293,587
Special Revenue Fund	402,864	-	402,864
Capital Projects Fund	-	-	-
Debt Service Fund	-	60,018	60,018
Food Service Fund	172,398	4,256	176,654
Total Financial Awards	<u>\$629,594</u>	<u>\$5,303,530</u>	\$5,933,123

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively.

The amount reported as TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2018.

The State of New Jersey also makes TPAF post-retirement medical and pension contribution expenditures on behalf of the District. These expenditures are not subject to New Jersey OMB Circular 15-08 because the contributions are made by the State directly and do not have any compliance related requirements, and therefore, have not been included on the Schedule of State Financial Assistance, as directed by the funding agency.

NOTE 6. INDIRECT COST RATE

The Borough of Butler School District has elected not to use the 10 percent de minimis Indirect Cost Rate as allowed under the Uniform Guidance.

NOTE 7. SCHOOLWIDE PROGRAM FUNDS

School wide programs are not separate federal programs as defined in Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Grant Guidance); amounts used in schoolwide programs are included in the total expenditures of the program contributing the funds in the Schedule of Expenditure of Federal Awards. The following funds by program are included in schoolwide programs in the school district.

<u>Program</u>	<u>Total</u>
Title I, Part A: Grants to Local Educational Agencies	\$92,271
Title II, Part A: Improving Teacher Quality State Grants	18,422
Title III: English Language Acquisition State Grants	9,182
Title IV, Part A: Student Support and Academic Enrichment	10,000
	ф100 0 7 .5
Total	<u>\$129,875</u>
