Honorable President and  
Members of the Board of Education  
Gloucester Township School District  
Camden County, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Gloucester Township School District for the fiscal year ended June 30, 2018 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and questioned costs, are included in the single audit section of this report.

### **REPORTING ENTITY AND ITS SERVICES:**

The Gloucester Township School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds of the District are included in this report. The Gloucester Township Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular, as well as special education for handicapped youngsters. The District completed the 2017-2018 fiscal year with an average daily enrollment of 6,324.19 students, which is 35.7 students less than the previous year's average enrollment.

The following details the changes in the student enrollment of the District over the last ten years.

2017-18	6,324.2	-0.56%
2016-17	6,359.9	-0.44%
2015-16	6,388.2	-2.23%
2014-15	6,534.0	-3.19%
2013-14	6,749.5	-2.77%
2012-13	6,941.8	-1.19%
2011-12	7,025.3	-4.29%
2010-11	7,340.3	-1.19%
2009-10	7,428.9	-1.41%
2008-09	7,535.3	-1.13%
2007-08	7,621.2	-1.70%
2006-07	7,753.2	

**ECONOMIC CONDITION AND OUTLOOK:**

With each passing quarter, the New Jersey economy has been gaining vigor after being a notable laggard relative to peers as recently as a year ago. At 1.5% year to year, job growth so far this year has nearly closed the gap with the national average. This improved performance is expected to continue, with New Jersey’s economy forecast to grow by 2% this year – roughly double last year’s pace. Professional & business services and healthcare are primed to do some of the heavy lifting. These two sectors remain important job contributors. Besides the broader support to its healthcare industry from a graying population, the New Jersey economy should also capitalize on the growth of related high value-add industries. Corporate tax cuts and faster drug approval rates will help reinvigorate the large concentration of drug companies within the state. Additional encouraging signs are emerging in the life sciences and research space. Employment in scientific research is expanding at a rate of 1.6%, which makes it the firmest print since 2009.

Other sectors, such as education and leisure & hospitality, are also expected to lend a helping hand. The educational services industry is currently on a hiring spree, with payrolls up 7% – the fastest pace since 1999. Meanwhile, improved income growth in the broader region will continue to drive demand for tourism activities. Decent income growth prospects typically augur well for the housing sector, but the performance of New Jersey’s housing market has been mixed recently. Homes are indeed taking fewer days to sell compared to a year ago and supply is shrinking for both regular and foreclosed inventory. But actual sales have slowed (up only 1% so far this year versus 10% last year) and price momentum has weakened. The recent lull is further corroborated by falling starts and construction jobs. Tax changes appear to be playing a role, given price weakness in a few counties that were highly reliant on the previously offered tax deductions. The impact of tax changes will fade in time, but housing will still have to contend with higher interest rates down the road. Home price gains are projected to run at a tepid 2.5% rate over the forecast horizon.

Improved economic activity should benefit state revenues in the near term. But, longer-term fiscal conditions will remain a sore spot. Rising state pension liabilities and health-care costs will make for some difficult choices ahead. A bump in spending in the most recent budget was accompanied by tax hikes on filers and businesses earning over \$5 million \$1 million, respectively. Furthermore, the growth boost from recent federal fiscal stimulus is likely to soon wane. These fiscal pressures, combined with the strain on labor supply from an ageing population, will likely constrain real GDP growth in New Jersey to a more moderate 1.4% rate by 2020.

Elevated trade tensions pose some risk to the forecast, particularly if the tariff rate on Chinese goods increases to 25% next year. New Jersey is one of the more exposed East Coast states as measured by the value of imports emanating from China relative to state GDP. Supply chain disruptions could jeopardize progress in manufacturing and logistics, which are expected to remain important job contributors.

#### **INTERNAL ACCOUNTING CONTROLS:**

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

#### **BUDGETARY CONTROLS:**

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as assignments of fund balance at June 30, 2018.

#### **ACCOUNTING SYSTEM AND REPORTS:**

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

**CASH MANAGEMENT:**

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

**RISK MANAGEMENT:**

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

**BUSINESS OPERATIONS:**

The Gloucester Township School District is unique in that it actively finds ways to reduce administrative costs through joint purchasing, shared services and cooperative pricing agreements with neighboring school districts and municipalities.

The School District acts as lead agency for the purchase of Waste Removal and commodities for the regional high school district and the municipality. The District also participates in a statewide consortium for the purchase of electricity, natural gas, and telephone services.

In addition, the District continues to realize savings for the taxpayers by acting as lead agency for the joint purchasing system that has been in existence for the past nineteen years. This jointure provides purchasing services for the elementary school district, the regional high school district, the local municipality, and other surrounding school districts.

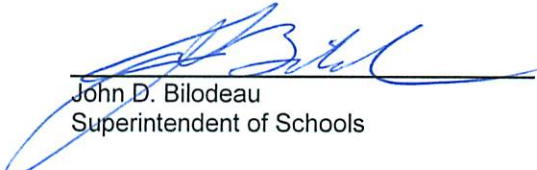

**INDEPENDENT AUDIT:**

State statutes require an annual audit by an independent public school accountant. The accounting firm of Bowman & Company LLP was selected by the Board's audit committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Guidance and New Jersey Circular 15-08-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.

The Auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

**ACKNOWLEDGEMENTS:**

We would like to express our appreciation to the members of the Gloucester Township Board of Education for providing an outstanding educational program that includes fiscal responsibility and accountability to the citizens and taxpayers of Gloucester Township. The preparation of this report could not have been accomplished without the assistance and information provided by an outstanding administrative team.

FINANCIAL SECTION

## **INDEPENDENT AUDITOR'S REPORT**

The Honorable President and  
Members of the Board of Education  
Gloucester Township School District  
County of Camden

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Gloucester Township School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Gloucester Township School District, in the County of Camden, State of New Jersey, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter***Adoption of New Accounting Principles*

As discussed in note 1 to the financial statements, during the fiscal year ended June 30, 2018, the School District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. The adoption of this new accounting principle required the School District to recognize a revenue and expense on the government-wide statement of activities for the State's proportionate share of the postemployment expense associated with the School District. The related disclosures for the implementation of this new accounting pronouncement are included in note 10 in the notes to financial statements. Our opinion is not modified with respect to this matter.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the School District's proportionate share of the net pension liability, schedule of the School District's pension contributions, and schedule of changes in the School District's total OPEB liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Gloucester Township School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Division of Administration and Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

22300

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 8, 2019 on our consideration of the Gloucester Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Gloucester Township School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Gloucester Township School District's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

The Honorable President and  
Members of the Board of Education  
Gloucester Township School District  
County of Camden

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Gloucester Township School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated February 8, 2019. Our report on the financial statements included an emphasis of matter paragraph describing the adoption of a new accounting principle.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Gloucester Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Gloucester Township School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Gloucester Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the Gloucester Township School District.

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the Gloucester Township School District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Gloucester Township School District, reporting the Gloucester Township School District's operation in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in short term as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about the activities that the Gloucester Township School District operates like businesses.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Table A-1 summarizes the major features of the Gloucester Township School District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

**Management's Discussion and Analysis (Continued)  
For the Fiscal Year Ended June 30, 2018**

**Government-wide Statements (Cont'd)**

The two government-wide statements report the Gloucester Township School District's net position and how they have changed. Net position – the District's assets and deferred outflows of resources, less deferred inflows of resources and liabilities – is a measure of the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether the financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are shown in two categories:

- *Governmental activities*- Most of the District's basic services are included here, such as regular and special education, transportation, administration, and maintenance. Aid from the State of New Jersey and from the Federal government along with local property taxes finances most of these activities.
- *Business-type activities*-The District charges fees to customers to help it cover the costs of certain services it provides. The District's Food Service Fund and Latchkey Program Fund are included here.

**Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds – focusing on the most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District uses other funds, established in accordance with the State of New Jersey Uniform Chart of Accounts, to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal funds).

The District has three kinds of funds:

- **Governmental funds** - Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- **Proprietary funds** - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements.
- **Fiduciary funds** – The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

- Program revenues were \$50,181,074.
  - ✓ Operating Grants & Contributions--\$46,115,567.
  - ✓ Charges for Services--\$4,065,507.

Total General Fund expenditures increased \$3,227,092, or 2.9% from the previous year. This increase was due primarily to costs associated with tuition, other instruction, administration and on-behalf pension payments. In addition, the District experienced increased costs related to instruction, pupil transportation and employee health benefits.

The Gloucester Township Board of Education values its fund balances as a vehicle for addressing unbudgeted and emergent needs that occur during the school year. The amounts of budgeted fund balance designated to support the subsequent year's budgets were \$10,339,252 for the 2018-19 school year and \$6,278,402 for the 2017-18 school year. These fund balances serve a two-fold purpose; (a) they are designated to assist the District in moderating local tax rate impacts from one fiscal year to the next; and (b) they finance capital improvements to the District's physical plant. By illustration, \$4,800,000 was budgeted during the 2018-19 school year and \$700,000 was budgeted for the 2017-18 school year for capital expenditures.

Gloucester Township Public Schools has been proactive in its establishment and use of restricted reserve funds to satisfy capital projects as well as emergent issues as the need arises.

During the course of fiscal year 2018, the District modified the General Fund Budget as needed to ensure no line item was projected to be over-expended.

**THE FUTURE OUTLOOK**

The Gloucester Township School District presently maintains a sound financial condition. However, without additional financial resources this financial condition could diminish. The State of New Jersey continues to cope with a consistent school aid formula which is equitable for all districts. With the exception of the 2018-19 State Aid increase, for the past several years state school aid has not grown and has essentially been flat for local school districts. Additionally, local school districts, by statute, cannot raise the local tax levy base by more than 102% of the previous year. This combination of flat funding from the state and local tax levy capping will, in time, result in appropriation reductions which ultimately will impact student performance.

The over-reliance on property taxes to support the schools in Gloucester Township is an annual concern for both the Board of Education and its Administration. Recent budgets have been benefited from the infusion of millions of dollars of unassigned fund balance which were a direct result of a Board of Education which has been committed to financial excellence for many years. The Board of Education's system for financial planning, budgeting and capital improvements is well regarded. The Board of Education is committed to continually improving upon its fiscal management processes and to meeting the challenges of the future.

 Reconciliation of the Statement of Revenues, Expenditures  
 and Changes in Fund Balances of Governmental Funds  
 to the Statement of Activities  
 For the Fiscal Year Ended June 30, 2018

Total Net Change in Fund Balances - Governmental Funds	\$	387,474.61
<p>Amounts reported for governmental activities in the statement of activities (A-2) are different because:</p>		
<p>Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.</p>		
Depreciation Expense	\$	(2,101,957.30)
Capital Outlays (Exclusive of SDA Debt Service Aid Assessment)		<u>1,094,633.45</u>
		(1,007,323.85)
<p>Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.</p>		
		3,175,000.00
<p>The issuance of long-term debt (bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
		53,128.54
<p>The Internal Service Fund is used by management to charge the costs of providing student transportation services to the district and other school districts. This amount is the change in net position for the Internal Service fund, exclusive of any gain/(loss) on disposal of Internal Service Fund capital assets.</p>		
		267,668.93
<p>Interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. This amount is the net effect of the difference in the treatment of interest on long-term debt.</p>

Notes to Financial Statements  
For the Fiscal Year Ended June 30, 2018

---

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Gloucester Township of School District (the "School District") have been prepared to conform with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant of these policies.

**Description of the Financial Reporting Entity**

The School District is a Type II district located in the County of Camden, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education (the "Board"). The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three member's terms expire each year. The Superintendent is appointed by the Board to act as executive officer of the School District. The purpose of the School District is to educate students in grades K-8 at its eight elementary and three middle schools. The School District has an approximate enrollment at June 30, 2018 of 6,358.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards*, is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The financial statements include all funds of the School District over which the Board exercises operating control.

**Component Units**

In evaluating how to define the School District for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statements No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, and GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*. Blended component units, although legally separate entities, are in-substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and / or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Based upon the application of these criteria, the School District has no component units.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Government-wide and Fund Financial Statements**

The School District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the School District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the School District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Internal service funds are aggregated and presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property taxes are recognized as revenues in the year for which they are levied. The Camden County Board of Taxation is responsible for the assessment of properties, and the respective municipal tax collector is responsible for the collection of property taxes. Assessments are certified and property taxes are levied on January 1. Property tax payments are due February 1, May 1, August 1 and November 1. Unpaid property taxes are considered delinquent the following January 1 and are then subject to municipal lien. In accordance with New Jersey State Statute, the School District is entitled to receive moneys under an established payment schedule, and any unpaid amount is considered as an accounts receivable. The governing body of each municipality is required to pay over to the School District, within forty (40) days after the beginning of the school year, twenty percent (20%) of the moneys from school tax due. Thereafter, but prior to the last day of the school year, the municipality must pay the balance of moneys from school tax due for school purposes in such amounts as requested, with certain limitations, from time to time by the School District, within thirty days after each request.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Measurable means that the amount of revenue can be determined. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, tuition, reimbursable-type grants, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the School District.

The School District reports the following major governmental funds:

**General Fund** - The general fund is the primary operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, ad valorem tax revenues, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings, and the purchase of built-in equipment.

**Special Revenue Fund** - The special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

**Capital Projects Fund** - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes, serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, or from the general fund by way of transfers from capital outlay or the capital reserve account.

**Debt Service Fund** - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Proprietary funds are used to account for the School District's ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the internal service funds include salaries, benefits, administrative expenses, and other transportation related expenses. All items not meeting this definition are reported as nonoperating revenues and expenses.

The School District reports the following major proprietary funds:

**Enterprise Funds**

**Food Service Fund** - This fund accounts for the financial transactions related to the food service operations of the School District.

**Latchkey Fund** - This fund accounts for financial activity related to providing day care services for School District students before and after school and during the summer.

**Internal Service Funds**

**Transportation Services** – This fund has been established to account for the financing of transportation services provided by the Gloucester Township School District for use by the Black Horse Pike Regional School District, as well as for the Gloucester Township School District itself. Services are provided on a cost-reimbursement basis.

Additionally, the School District reports the following fund types:

Fiduciary funds are used to account for assets held by the School District on behalf of outside related organizations or on behalf of other funds within the School District. The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds.

The School District maintains the following fiduciary funds:

**Agency Funds** - Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and / or other funds (i.e., payroll and student activities). The School District retains no equity interest in these funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District maintains the following agency funds: student activity fund and payroll fund.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

The School District maintains the following fiduciary funds (cont'd):

***Private-Purpose Trust Funds*** - Private-purpose trust funds are used to account for the principal and income for all other trust arrangements that benefit individuals, private organizations, or other governments. The School District maintains the following private-purpose trust funds:

***New Jersey Unemployment Compensation Insurance Trust Fund*** - Revenues consist of contributions that have been included in the annual budget of the School District, employee payroll withholdings, and interest income. Expenditures represent claims incurred for unemployment.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

**Budgets / Budgetary Control**

Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds, and are submitted to the county office of education. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012, to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only, and the special revenue fund. N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on exhibits C-1, C-2 and I-3, includes all amendments to the adopted budget, if any.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)****Budgets / Budgetary Control (Cont'd)**

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting, as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule, to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances - governmental funds. Note that the School District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows the modified accrual basis of accounting, with the exception of the aforementioned revenue recognition policy for the one or more June state aid payments.

**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign a portion of the applicable appropriation, is utilized for budgetary control purposes. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, are reflected on the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

**Cash, Cash Equivalents and Investments**

Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Inventories**

Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in the governmental fund financial statements is recorded as expenditures when purchased rather than when consumed

Inventories recorded on the government-wide financial statements and in the proprietary fund types are recorded as expenses when consumed rather than when purchased.

**Tuition Receivable**

Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

**Prepaid Expenses**

Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2018. The School District had no prepaid expenses for the fiscal year ended June 30, 2018.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as expenditures in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

**Short-Term Interfund Receivables / Payables**

Short-term interfund receivables / payables (internal balances) represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund within the School District, and that are due within one year. Such balances are eliminated in the statement of net position to minimize the grossing up of internal balances, thus leaving a net amount due between the governmental and business-type activities that are eliminated in the total government column. Balances with fiduciary activities are not considered to be internal balances; therefore, such balances appear on the statement of net position as accounts receivable.

**Capital Assets**

Capital assets represent the cumulative amount of capital assets owned by the School District. Purchased capital assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position and proprietary fund statement of net position. In the case of gifts or contributions, such capital assets are recorded at acquisition value at the time received.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Capital Assets (Cont'd)**

The School District's capitalization threshold is \$2,000.00. Other costs incurred for repairs and maintenance is expensed as incurred. All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	10-20 Years
Buildings and Improvements	10-50 Years
Equipment	4-10 Years

The School District does not possess any infrastructure assets.

**Deferred Outflows and Deferred Inflows of Resources**

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources, reported after total assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after total liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by the Governmental Accounting Standards Board (GASB) standards. The School District is required to report the following as deferred outflows of resources and deferred inflows of resources: loss on refunding of debt, defined benefit pension plans, and postemployment benefit plans.

**Tuition Payable**

Tuition charges for the fiscal years ended June 30, 2018 and 2017 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

**Unearned Revenue**

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

**Compensated Absences**

Compensated absences are payments to employees for accumulated time such as paid vacation, paid holidays, sick pay, and sabbatical leave. A liability for compensated absences that is attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Compensated Absences (Cont'd)**

The School District uses the termination method to calculate the compensated absences amount. The entire compensated absence liability is reported on the government-wide financial statements. The portion related to employees in the proprietary funds is recorded at the fund level. The current portion is the amount estimated to be used in the following fiscal year. Expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

**Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the governmental fund financial statements when due.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), and additions to/deductions from TPAF's and PERS' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Bond Discounts / Premiums**

Bond discounts / premiums arising from the issuance of long-term debt (bonds) are amortized over the life of the bonds, in systematic and rational method, as a component of interest expense. Bond discounts / premiums are presented as an adjustment of the face amount of the bonds on the government-wide statement of net position and on the proprietary fund statement of net position.

**Net Position**

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

***Net Investment in Capital Assets*** - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

***Restricted*** - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Net Position (Cont'd)**

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components (cont'd):

***Unrestricted*** - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**Fund Balance**

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

***Nonspendable*** - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

***Restricted*** - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

***Committed*** - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

***Assigned*** - The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position and standard operating procedures, approved by the Board of Education.

***Unassigned*** - The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Fund Balance (Cont'd)**

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned

**Interfund Activity**

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures / expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

**Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Impact of Recently Issued Accounting Principles****Recently Issued and Adopted Accounting Pronouncements**

The School District implemented the following GASB Statements for the fiscal year ended June 30, 2018:

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The adoption of this Statement required the School District to recognize a revenue and expense on the government-wide statement of activities for the State's proportionate share of the postemployment expense associated with the School District. In addition, the School District was required to include additional note disclosures (see note 10) and required supplementary information related to postemployment benefits.

Statement No. 85, *Omnibus 2017*. This Statement addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The adoption of this Statement had no impact on the basic financial statements of the School District.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)****Impact of Recently Issued Accounting Principles (Cont'd)****Recently Issued Accounting Pronouncements**

The GASB has issued the following Statements that will become effective for the School District for fiscal years ending after June 30, 2018:

Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The Statement will become effective for the School District in the fiscal year ending June 30, 2020. Management is currently evaluating whether or not this Statement will have an impact on the basic financial statements of the School District.

Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Statement will become effective for the School District in the fiscal year ending June 30, 2021. Management is currently evaluating whether or not this Statement will have an impact on the basic financial statements of the School District.

**Note 2: CASH AND CASH EQUIVALENTS**

**Custodial Credit Risk Related to Deposits** - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled agency funds such as salary withholdings, and student activity funds, or funds that may pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized.

As of June 30, 2018, the School District's bank balances of \$18,698,200.24 were exposed to custodial credit risk as follows:

Insured by FDIC and GUDPA	\$ 18,500,528.07
Uninsured and Uncollateralized	<u>197,672.17</u>
Total	<u>\$ 18,698,200.24</u>

**Note 3: CAPITAL RESERVE ACCOUNT**

A capital reserve account was originally established by the School District by inclusion of \$1,000.00 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2017 to June 30, 2018 fiscal year is as follows:

Beginning Balance, July 1, 2017		\$ 7,324,485.81
Increased by:		
Interest Earnings	\$ 11,370.48	
Deposits:		
Board Resolution - June 11, 2018	500,000.00	
Budgeted Increase	<u>1,531,521.00</u>	
		<u>2,042,891.48</u>
		9,367,377.29
Decreased by:		
Withdrawals:		
Budget Appropriation - Transfer to Capital Projects Fund		<u>700,000.00</u>
Ending Balance, June 30, 2018		<u>\$ 8,667,377.29</u>

The June 30, 2018 capital reserve balance does not exceed the LRFP balance of local support costs of uncompleted projects. The withdrawals from the capital reserve were for use in Department of Education approved facilities projects, consistent with the School District's LRFP.

**Note 4: ACCOUNTS RECEIVABLE**

Accounts receivable at June 30, 2018 consisted of intergovernmental awards and refunds, tax levy and charges, fiduciary funds interfunds and various miscellaneous fees. All intergovernmental receivables are considered collectible in full due to the stable condition of federal and state programs, the current fiscal year guarantee of federal funds, and the regulated budgetary control of governmental entities in New Jersey.

Accounts receivable as of fiscal year end for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

<u>Fund</u>	<u>Intergovernmental</u>				<u>Fiduciary</u>	<u>Other</u>	<u>Total</u>

The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 366, P.L. 2001) was 10%. Employer contribution amounts are based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability.

**Actuarial Assumptions**

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2017. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	<b><u>TPAF</u></b>	<b><u>PERS</u></b>
Inflation	2.25%	2.25%
Salary Increases:		
2012-2021	Varies Based on Experience	-
Through 2026	-	1.65% - 4.15% Based on Age
Thereafter	Varies Based on Experience	2.65% - 5.15% Based on Age
Investment Rate of Return	7.00%	7.00%
Period of Actuarial Experience Study upon which Actuarial Assumptions were Based	July 1, 2012 - June 30, 2015	July 1, 2011 - June 30, 2014

**Note 9: PENSION PLANS (CONT'D)****Actuarial Assumptions (Cont'd)**

For TPAF, pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

For PERS, pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. Mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

For TPAF and PERS, in accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in TPAF's and PERS's target asset allocation as of June 30, 2017 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Absolute Return/Risk Mitigation	5.00%	5.51%
Cash Equivalents	5.50%	1.00%

**Note 9: PENSION PLANS (CONT'D)****Actuarial Assumptions (Cont'd)**

**Discount Rate** - The discount rates used to measure the total pension liability at June 30, 2017 were 4.25% and 5.00% for TPAF and PERS, respectively. For TPAF and PERS, the respective single blended discount rates were based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates for TPAF and PERS assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 40% of the actuarially determined amount for TPAF and PERS and the local employers contributed 100% of the actuarially determined amount for PERS. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2036 for TPAF and 2040 for PERS. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2036 for TPAF and 2040 for PERS, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**Sensitivity of School District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate**

**Teachers' Pension and Annuity Fund (TPAF)** - As previously mentioned, TPAF, has a special funding situation where the State pays 100% of the School District's annual required contribution. As such, the proportionate share of the net pension liability as of June 30, 2017, the pension plans measurement date, attributable to the School District is \$0, and the State of New Jersey's proportionate share of the net pension liability, attributable to the School District, using a discount rate of 4.25%, as well as using a discount rate that is 1% lower or 1% higher than the current rates used is as follows:

	<b>1% Decrease <u>(3.25%)</u></b>	<b>Current Discount Rate <u>(4.25%)</u></b>	<b>1% Increase <u>(5.25%)</u></b>
School District's Proportionate Share of the Net Pension Liability	\$ -	\$ -	\$ -

**Note 9: PENSION PLANS (CONT'D)****Sensitivity of School District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate**

**Public Employees' Retirement System (PERS)** - The following presents the School District's proportionate share of the net pension liability at June 30, 2017, the plans measurement date, calculated using a discount rate of 5.00%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	<b>1% Decrease (4.00%)</b>	<b>Current Discount Rate (5.00%)</b>	<b>1% Increase (6.00%)</b>
School District's Proportionate Share of the Net Pension Liability	<u>\$ 38,761,887.00</u>	<u>\$ 31,245,277.00</u>	<u>\$ 24,983,010.00</u>

**Pension Plan Fiduciary Net Position**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the respective fiduciary net position of the TPAF and PERS and additions to/deductions from TPAF and PERS's respective fiduciary net position have been determined on the same basis as they are reported by TPAF and PERS. Accordingly, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For additional information about TPAF and PERS, please refer to the plan's Comprehensive Annual Financial Report (CAFR) which can be found at <http://www.nj.gov/treasury/pensions/gasb-notices.shtml>.

**Note 10: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)****STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN****General Information about the OPEB Plan**

**Plan Description and Benefits Provided** - The State Health Benefit Local Education Retired Employees Plan (the "OPEB Plan") is a multiple-employer defined benefit OPEB plan, with a special funding situation, that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75 - *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions*. The OPEB Plan is administered by the State of New Jersey Division of Pensions and Benefits (the "Division") and is part of the New Jersey State Health Benefits Program (SHBP). The Division issues a publically available financial report that includes financial statements and required supplementary information which can be obtained by writing to or at the following website:

State of New Jersey  
Division of Pensions and Benefits  
P.O. Box 295  
Trenton, New Jersey 08625-0295  
<https://www.nj.gov/treasury/pensions/financial-reports.shtml>

The OPEB Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

**Note 10: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONT'D)****STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN (CONT'D)****General Information about the OPEB Plan (Cont'd)**

**Contributions** - The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey (the "State") in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

**Employees Covered by Benefit Terms** - At June 30, 2018, the entire State Health Benefit Local Education Retired Employees OPEB Plan consisted of the following members.

Active Plan Members	223,747
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	142,331
Inactive Plan Members Entitled to but Not Yet Receiving Benefit Payments	<u>-</u>
	<u><u>366,078</u></u>

**Total Non-Employer OPEB Liability**

The State of New Jersey, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to the OPEB Plan for qualified retired TPAF, PERS, PFRS and ABP participants. The School District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the School District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. The State's proportionate share of the net OPEB liability associated with the School District as of June 30, 2018 was \$303,039,479.00. Since the OPEB liability associated with the School District is 100% attributable to the State, the OPEB liability will be referred to as the total Non-Employer OPEB Liability.

The total Non-Employer OPEB Liability was measured as of June 30, 2017, and was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The total Non-Employer OPEB Liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2016. For the June 30, 2017 measurement date, the State's proportionate share of the Non-Employer OPEB Plan Liability associated with the School District was 0.5649522230%, which was a decrease of 0.0031124781% from its proportion measured as of June 30, 2016.

**Actuarial Assumptions and Other Inputs** - The actuarial assumptions and other inputs vary for each plan member depending on the pension plan in which the member is enrolled. The actuarial valuation at June 30, 2016 used the following actuarial assumptions, applied to all periods in the measurement:

**Salary Increases –**

	<u>TPAF/ABP (1)</u>	<u>PERS (2)</u>	<u>PFRS (2)</u>
Through 2026	1.55% - 4.55%	2.15% - 4.15%	2.10% - 8.98%
Thereafter	2.00% - 5.45%	3.15% - 5.15%	3.10% - 9.98%

(1) - Based on years of service

(2) - Based on age

**Inflation Rate** - 2.50%.

**Mortality Rates** - Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

**Experience Studies** - The actuarial assumptions used in the June 30, 2016 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 - June 30, 2015, July 1, 2010 - June 30, 2013, and July 1, 2011 - June 30, 2014 for TPAF, PFRS and PERS, respectively.

**Health Care Trend Assumptions** - For pre-Medicare preferred provider organization (PPO) medical benefits, this amount initially is 5.9% and decreases to a 5.0% long-term trend rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to a 5.0% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

**Discount Rate** - The discount rate for June 30, 2017 and 2016 was 3.58% and 2.85%, respectively. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

**Note 12: RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

**Property and Liability Insurance** - The School District maintains commercial insurance coverage for property, liability, student accident, and surety bonds. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

**New Jersey Unemployment Compensation Insurance** - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of the activity of the School District's private-purpose trust fund for the unemployment claims for the current and previous two fiscal years:

<b><u>Fiscal Year</u></b> <b><u>Ended June 30,</u></b>	<b><u>Employee</u></b> <b><u>Contributions</u></b>	<b><u>Interest</u></b> <b><u>Income</u></b>	<b><u>Claims</u></b> <b><u>Incurred</u></b>	<b><u>Ending</u></b> <b><u>Balance</u></b>

**Self-Insurance Plan** - The School District has adopted a plan of self-insurance for workers' compensation insurance claims up to \$500,000.00 per any one accident. Claims greater than this amount are covered by an excess workers' compensation insurance policy. The records of the Administrator of the plan indicate \$239,709.00 of pending claims which have been recorded and are included in accounts payable as of June 30, 2018. Any additional funds required for claims in excess of these pending claims will be paid and charged to the 2018-2019 or future budgets.

The workers' compensation insurance claims liability (incurred) is based on an analysis prepared by management, which is based on historical trends. The remaining claims liability (incurred) is based on an evaluation performed by the third-party administrator of the plan.

**Note 13: DEFERRED COMPENSATION**

The School District offers its employees a choice of four deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning, Inc.  
Syracusa Benefits Program  
Metlife  
Equitable Life Assurance Society

**Note 14: COMPENSATED ABSENCES**

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees who are employed for ten months are entitled to ten paid sick leave days per fiscal school year. School District employees who are employed for twelve months are entitled to twelve paid sick leave days per fiscal school year. Unused sick leave may be accumulated and carried forward to the subsequent years. School District employees are entitled to two personal days which may be carried forward to subsequent years. Generally, four vacation days not used during the fiscal school year may be carried forward to be used during the allowable vacation period in the subsequent year. Benefits paid in any future year will be calculated according to formulas outlined in the School Districts' agreements with the various employee unions and included in the current years' budget.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. At June 30, 2018, the liability for compensated absences reported on the government-wide statement of net position and on the proprietary fund statement of net position was \$2,236,075.71 and \$203,627.57, respectively.

**Note 15: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS**

The composition of interfund balances as of June 30, 2018 is as follows:

<u>Fund</u>	<u>Interfunds Receivable</u>	<u>Interfunds Payable</u>

Fiduciary		42,712.01
	<u>\$ 1,015,603.99</u>	<u>\$ 1,015,603.99</u>

The interfund receivables and payables above predominately resulted from payments made by certain funds on behalf of other funds. During the fiscal year 2019, the School District expects to liquidate such interfunds, depending upon the availability of cash flow.

**Note 15: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (CONT'D)**

Interfund Transfers:

	<u>Transfer In:</u>			
	<u>General Fund</u>	<u>Capital Projects Fund</u>	<u>Debt Service Fund</u>	<u>Internal Service Fund</u>

During the fiscal year ended June 30, 2018, the general fund transferred \$3,111,423.50 to the internal service proprietary fund for the local share of transportation expenditures made in the internal service fund and \$700,000.00 from the capital reserve to fund local capital projects. Finally, the capital projects fund transferred \$809.28 to the debt service fund for interest earned on deposits in the capital projects fund.

**Note 16: CONTINGENCIES**

**Grantor Agencies** - Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the School District expects such amount, if any, to be immaterial.

**Litigation** - The School District is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the School District, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

**Note 17: CONCENTRATIONS**

The School District depends on financial resources flowing from, or associated with, both the federal government and the State of New Jersey. As a result of this dependency, the School District is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations.

**Note 18: COMMITMENTS**

The School District had one construction project ongoing as of the fiscal year ended June 30, 2018 that is to continue into the subsequent fiscal year. This project, which is related to the capital projects fund, is as follows:

<u>Contract</u>	<u>Commitment Date</u>	<u>Amount Outstanding</u>
Ann Mullen Middle School Roof - Removal and Reinstallation of Solar Panels	4/16/18	<u>\$ 125,000.00</u>

**Note 19: FUND BALANCES****RESTRICTED**

As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

**General Fund**

**For Tuition** - In accordance with N.J.A.C. 6A:23A-3.1(f)(8), the School District has restricted fund balance in the amount of \$400,000.00 in a legal reserve for tuition adjustments. This restricted fund balance represents foreseeable future tuition adjustments up to a maximum of 10% of the estimated tuition cost of the respective contract year. As of June 30, 2018, \$200,000.00 and \$200,000.00 have been restricted for the contract years 2016-2017 and 2017-2018, respectively.

**For Excess Surplus** - In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance - excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The current year excess fund balance at June 30, 2018 is \$4,167,133.00 presented on the budgetary basis of accounting (Exhibit C-1). Excluding the last state aid payments not recognized on a GAAP basis, there is no current year excess fund balance reported on the balance sheet as of June 30, 2018. Additionally, \$5,339,252.00 of excess fund balance generated during 2016-2017 has been restricted at June 30, 2018 and is designated for utilization in the 2018-2019 budget.

**For Capital Reserve Account** - As of June 30, 2018, the balance in the capital reserve account is \$8,667,377.29. These funds are restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan (LRFP).

**For Maintenance Reserve Account** - As of June 30, 2018, the balance in the maintenance reserve account is \$747,729.90. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701).

**For Emergency Reserve** - As of June 30, 2018, the balance in the emergency reserve is \$666,146.22. These funds are restricted for the purpose of financing unanticipated general fund expenditures required for a thorough and efficient education in accordance with N.J.S.A. 18A:7F-41c(1). The balance of the restricted fund balance is not permitted to exceed \$250,000.00, or one percent (1%) of the School District's general fund budget up to a maximum of \$1,000,000.00, whichever is greater. Deposits may be made to the emergency reserve account at budget time, or by board resolution at year end of any unanticipated revenue or unexpended line item appropriation, or both. Withdrawals from the emergency reserve require approval by the Commissioner.

**Capital Projects Fund** - As of June 30, 2018, \$354,536.25 of capital projects fund balance is restricted for future capital expenditures.

**Debt Service Fund** - In accordance with N.J.A.C. 6A:23A-8.6, a district board of education shall appropriate annually all debt service fund balances in the budget certified for taxes unless expressly authorized and documented by the voters in a bond referendum. As of June 30, 2018, \$20,636.76 of debt service fund balance is restricted for future debt service expenditures, of which \$19,827.00 has been designated for utilization in the 2018-2019.

**Note 19: FUND BALANCES (CONT'D)****ASSIGNED**

As stated in note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

**General Fund**

**Other Purposes** - As of June 30, 2018, the School District had \$293,218.53 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

**UNASSIGNED**

As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

**General Fund** - As of June 30, 2018, \$2,360,108.02 of general fund balance was unassigned.

**Note 20: TAX ABATEMENTS**

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

The Township of Gloucester has entered into various property tax abatement agreements with properties having aggregate assessed valuations of \$95,456,000.00. Based on the School District's 2018 certified tax rate of \$1.147, abated taxes totaled \$1,094,880.32.

**Note 21: SUBSEQUENT EVENTS**

**Refunding Bonds (ESIP Project)** – On October 25, 2018, the School District issued \$9,385,000.00 in School Refunding Bonds to fund the School District's approved Energy Savings Improvement Program (ESIP). The Refunding Bonds were issued to provide funds which will be used to: (i) finance the costs of the installation of equipment at certain facilities owned by the School District (ESIP Project), as described in the School District's energy savings plan; and (ii) pay certain costs and expenses related to the issuance, sale and delivery of the Refunding Bonds. As required by School District law, the payments of the principal of and interest on the Refunding Bonds will be included in the School District's general fund budget, but are anticipated to be offset by the energy savings.

**Note 21: SUBSEQUENT EVENTS (CONT'D)**

**Refunding Bonds (ESIP Project) (Cont'd)** – Principal and interest due on the Refunding Bonds is as follows:

SINGLE AUDIT SECTION

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL  
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND  
STATE OF NEW JERSEY CIRCULAR 15-08-OMB**

**INDEPENDENT AUDITOR'S REPORT**

The Honorable President and  
Members of the Board of Education  
Gloucester Township School District  
County of Camden

**Report on Compliance for Each Major Federal and State Program**

We have audited the Gloucester Township School District's, in the County of Camden, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2018. The School District's major federal and state programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

***Management's Responsibility***

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance, and State of New Jersey Circular 15-08-OMB, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Gloucester Township School District's, in the County of Camden, State of New Jersey, compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the School District's compliance.

***Opinion on Each Major Federal and State Program***

In our opinion, the Gloucester Township School District, in the County of Camden, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2018.

### Report on Internal Control Over Compliance

Management of the Gloucester Township School District, in the County of Camden, State of New Jersey, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State of New Jersey Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State of New Jersey Circular 15-08-OMB. Accordingly, this report is not suitable for any other purpose.

**GLOUCESTER TOWNSHIP SCHOOL DISTRICT**  
Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance  
For the Fiscal Year Ended June 30, 2018

---

**Note 1: BASIS OF PRESENTATION**

The accompanying schedules of expenditures of federal awards and state financial assistance (“the schedules”) include federal and state award activity of the Gloucester Township School District (hereafter referred to as the “School District”). The School District is defined in note 1 to the School District’s basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules. Because these schedules present only a selected portion of the operations of the School District, it is not intended to and does not present the financial position and changes in operations of the School District.

**Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying schedules are presented using the budgetary basis of accounting, with the following exception: programs recorded in the enterprise funds are presented using the accrual basis of accounting. These bases of accounting are described in note 1 to the School District’s basic financial statements. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

**Note 3: INDIRECT COST RATE**

The School District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**Note 4: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS**

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, payments are not recognized until the subsequent budget year due to the State deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more June state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

**Note 4: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONT'D)**

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is (\$59,493.40) for the special revenue fund. See exhibit C-3, notes to required supplementary information, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Awards and financial assistance expenditures reported in the School District's basic financial statements on a GAAP basis are presented as follows:
