February 15, 2019

Honorable President, Members of the Board of Education, and Constituents City of Trenton School District County of Mercer, New Jersey

Dear Board Members and Constituents:

The Comprehensive Annual Financial Report (CAFR) of the Trenton School District ("District" or "TPS") as of and for the fiscal year ended June 30, 2018, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information at June 30, 2018 and the respective changes in financial position and cash flows, where applicable, for the year then ended. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The introductory section includes this transmittal letter (designed to complement management's discussion analysis and should be read in conjunction with it), the District's organizational chart, roster of officials, independent auditors, Meritorious Budget Award and the Certificate of Excellence Award in Financial Reporting. The financial section includes management's discussion and analysis, basic financial statements, required supplementary information and other information, as well as the auditors' report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis and is unaudited. The District is required to undergo an annual single audit in conformity with the Federal Uniform Guidance and the New Jersey OMB Circular Letter 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditors' reports on internal control and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

<u>1. Reporting Entity and Its Services</u>

The Trenton School District is an independent reporting entity within the criteria adopted by Governmental Accounting Standards Board (GASB). All funds and the government-wide financial statements of the District are included in this report. The Trenton School District and all its schools constitute the district's reporting entity. The District provides a full range of educational services appropriate for grade levels Pre-K through 12th grade. These services include regular, bilingual, special education, alternative and vocational education. The District completed the 2017-18 fiscal year with an average daily enrollment of 12,211 students, which is 883 more students than the previous year's average daily enrollment. The following chart details the change in the student enrollment of the District over the last ten years. These amounts may differ from the ASSA student count taken every October.

AVE	RAGE DAILY ENRO	<u>LLMENT</u> Percent Change
Fiscal	Student	Increase/
Year	Enrollment	(Decrease)
2018	12,211	7.80%
2017	11,328	2.94%
2016	11,005	(5.70%)
2015	11,670	(0.27%)
2014	11,701	14.31%
2013	10,027	(13.22%)
2012	11,353	3.22%
2011	10,987	(5.78%)
2010	11,662	5.00%
2009	11,539	(0.83%)

2. Economic Condition and Outlook

Government forms the single largest sector in Trenton. Other significant economic areas include manufacturing, trade, and services. Trenton's set of unique circumstances contributes to its continued growth: the city benefits from the spill-over of high technology industries and research centers located along Route 1; land costs, rent and taxes, yet Trenton remains an acceptable commute for much of the Northeast Corridor, and commitment by state and local government is high.

Trenton continues to be in the midst of both an economic renaissance, with new housing and commercial development across the city, and a demographic shift, as our city's Latino and other immigrant populations rapidly increase.

The Trenton School District is a public school district serving students in Pre-K through 12th grade from Trenton, in Mercer County, New Jersey, United States. The district has thirteen (13) elementary schools, four (4) middle schools and three (3) high schools (2 regular and 1 alternative). The schools are housed in twenty-one (21) district owned buildings and two (2) leased buildings. The district was formerly one of the thirty-one (31) Abbott Districts statewide classified by the New Jersey Department of Education as being in District Factor Group "A", the lowest of eight groupings. In the 2012 school year a waiver was implemented by the Department of Education in which LEA's were no longer identified as districts in need of improvement. Schools were classified as Priority Schools (lowest 5% of Title I participating and/or eligible Schools), Focus Schools (10% of Title I schools that contribute to the achievement gap) Reward Schools or Schools with no status. We currently have nine (9) Priority Schools, five (5) Focus Schools and five (6) Schools with no designation.

New Jersey Schools Development Authority (NJSDA) manages our Funded Construction Program. NJSDA has already expended over \$133M for prior District construction projects and has obligated \$150.5M to build a new Trenton Central High School with an anticipated opening fall 2019.

The \$133M consist of the following schools: \$24M for Kilmer Elementary, \$20M for Columbus Elementary School, both of which opened in September 2006, \$15M for Parker Elementary School which opened in September 2007, \$39M for Daylight/Twilight High School which opened September 2008 and \$35M for Martin Luther King School which opened in March 2010.

3. Education Programs

High Schools

High Schools reflect the lifestyle of a community that takes pride in its continuing tradition of academic and cultural achievement. Their academic programs, alternative options, and extracurricular activities expands learning beyond classroom boundaries. Each high school provides an educational environment that motivates students to learn and requires them to exercise imagination and sensibility in solving problems. Approximately 2,700 students may choose from courses offered in a program of studies that reflects a demanding and challenging curriculum. The high schools offer resources and technology that

allow faculty to provide interdisciplinary instruction with flexibility. The high schools offer sport teams, vocal and instrumental music, and many clubs/activities devoted to specialized interests.

Middle Schools

Middle Schools provide a comprehensive, developmentally responsive middle school experience based on the principles of middle level education outlined in the most current middle level research. The facilities and programs are uniquely designed to promote academic success. Central to our mission are the following goals: developing significant learning relationships with every student, providing a rigorous academic program, and creating opportunity for all students to explore a wide variety of offerings.

The core academic program, aligned with the New Jersey Student Learning Standards, consists of language arts, mathematics, science, social studies, and world language. The language arts program is integrated in its approach to literature and writing. The program promotes literacy and effective writing and oration skills. The mathematics modeling, and exploration, with skill development, thereby making mathematical concepts easier to learn and remember. The science program is based upon national and local standards and is designed to promote inquiry and critical thinking. Social studies deal with ancient civilizations, United

States history, and world cultures to develop critical thinking about how historical events shape modern perceptions and civilizations.

Health and physical education classes affirm the school's commitment to the concept of a healthy mind in a healthy body. Students may participate in choral, orchestra, and instrumental music programs that provide group and individual instruction. Comprehensive guidance and support services are available. The Media Center houses a collection of print, non-print, and online materials to support the curriculum, sustain student interest, and serve as a focal point for instruction and research. The computer technology curriculum helps students develop the research and presentation skills utilized throughout their academic program.

Elementary Schools

There are thirteen elementary schools which is a representative of the community's tremendous multicultural diversity. They provide a nurturing environment where students are empowered with academic and social skills to become enthusiastic lifelong learners. This is accomplished by working in close partnership with parents and the community to provide child-centered programs that recognize and built on the unique potential of each child. The school's primary goal is to build the foundations that will sustain and promote a life of learning. They also provide an educational program that challenges children to learn as they participate in meaningful real-world experiences. All elementary schools have established open communication and high expectations for children through worth wild programs including a variety of activities during American Education Week, Black History Month, Arts Festival, Literacy Night, and many other valuable opportunities for children and their families. Some schools have created a school community garden that is operated by the school's students, faculty, and families'. Faculty members nurture and engage students in current best practices, including responsive classroom, guided reading, application of brain research and multiple intelligences, as well as developmentally appropriate early childhood practices.

The curriculum emphasizes literacy, language learning, mathematical reasoning, critical thinking, problem solving and crosscultural understanding. The hallmark of these schools is a nurturing teaching staff that fosters lifelong learning skills for all students. All instructional practices are based on district curriculum, which provides for the teaching of literacy, mathematics, science, and provides for social studies, and social and emotional development.

<u>Other</u>

Curriculum review, revision, alignment and assessment are on-going throughout the year. Professional development and common staff planning time is one of the avenues by which the learning process is enhanced. Recognizing that success is relative but measureable, the District continues to emphasize staff professional development and offer students extended opportunities to improve.

The District will continue to support high quality preschool, English language learners and bilingual programs. We also continue to support the enhancement of the student information system, which serves as the infrastructure for a data-driven instructional management approach.

4. Awards

Certificate of Excellence Award (COE)

The International Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2017. This was the seventh year that the District has applied and received this prestigious award. In order to be awarded this certificate, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States and applicable legal requirements.

The Certificate is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Program's requirements and we are submitting it to ASBO to determine its eligibility for the fiscal year 2017-18 certificate. Approximately 3.7% of the 590 operating Districts in the State of New Jersey receive this award.

Meritorious Budget Award (MBA)

The Association of School Business Officials International (ASBO) has awarded Trenton Public School District its Meritorious Budget Award (MBA) for excellence in budget presentation during the 2017–18 budget year. This was the first year that the District applied and received this prestigious award.

The MBA promotes and recognizes excellence in school budget presentation and enhances school business officials' skills in developing, analyzing, and presenting a school system budget. After a rigorous review by professional auditors, the award is conferred only on school districts that have met or exceeded the program's stringent criteria. Under 1% of the 590 operating Districts in the State of New Jersey receive this award.

5. Major Operational or Financial Concerns

As a public entity with heavy reliance on federal and state taxes for its operations, there are always concerns over operational funding. Trenton's tighter purse strings on school funding statewide forces difficult decisions to be made locally. While Trenton Boards of Education has been adept at seeking alternative sources of revenues to mitigate its reliance on state dollars, it is still vulnerable to the vagaries of government decision making.

In the 2017-18 school year TPS currently paid \$38,294,105 in tuition payments to seven (7) charter schools with an enrollment of 2,478. The charter schools were as follows: Foundation, International, Pace, Paul Robeson, Trenton STEM, International Academy of Trenton and Village Charter.

The District has continued to manage its fund balance while the City's tax levy has increased 2% from the prior year.

6. Significant Budget Variance or Budget Modifications

During the year, operational budget variations arise and require attention. Areas most affected are vacancies, staff reassignment, student tuition placements and transportation. As the state grapples with its budget, the District will continue to develop responsible and comprehensive school budgets to meet student needs.

7. Internal Control

Management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles in the United States (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. Each function in the accounting and purchasing office is separated and performed by a person with the professional responsible to perform the task. There is no overlapping of duties.

The School Business Administrator is responsible for all duties as outlined in the administrative school code 6A:9b-12.7. Holders of this title are authorized to perform duties at the district level in the areas of financial budget planning and administration, financial accounting and reporting, insurance/risk administration and purchasing, facilities planning, construction and maintenance, personnel administration (positions control), administration of transportation, food service, and central data processing management with respect to enrollment and ASSA (school funding).

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by District management.

As part of the District's single audit, tests are made to determine the adequacy of internal control including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

8. Budgetary Controls

In addition to internal control, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund and the special revenue fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2018.

9. Accounting Systems and Reports

The District's accounting records reflect generally accepted accounting principles in the United States, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds.

10. Cash Management

The investment policy of the district is guided in large part by state statute as detailed in "Notes to Financial Statements," Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA").

GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

11. Other Information

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of P.K.F. O'Connor Davies was appointed by the Board to conduct the annual audit for the 2017-18 school year. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act, Federal Uniform Guidance and New Jersey OMB Circular Letter 15-08. The auditors' report on the basic financial statements and combined and individual fund statements and schedules is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

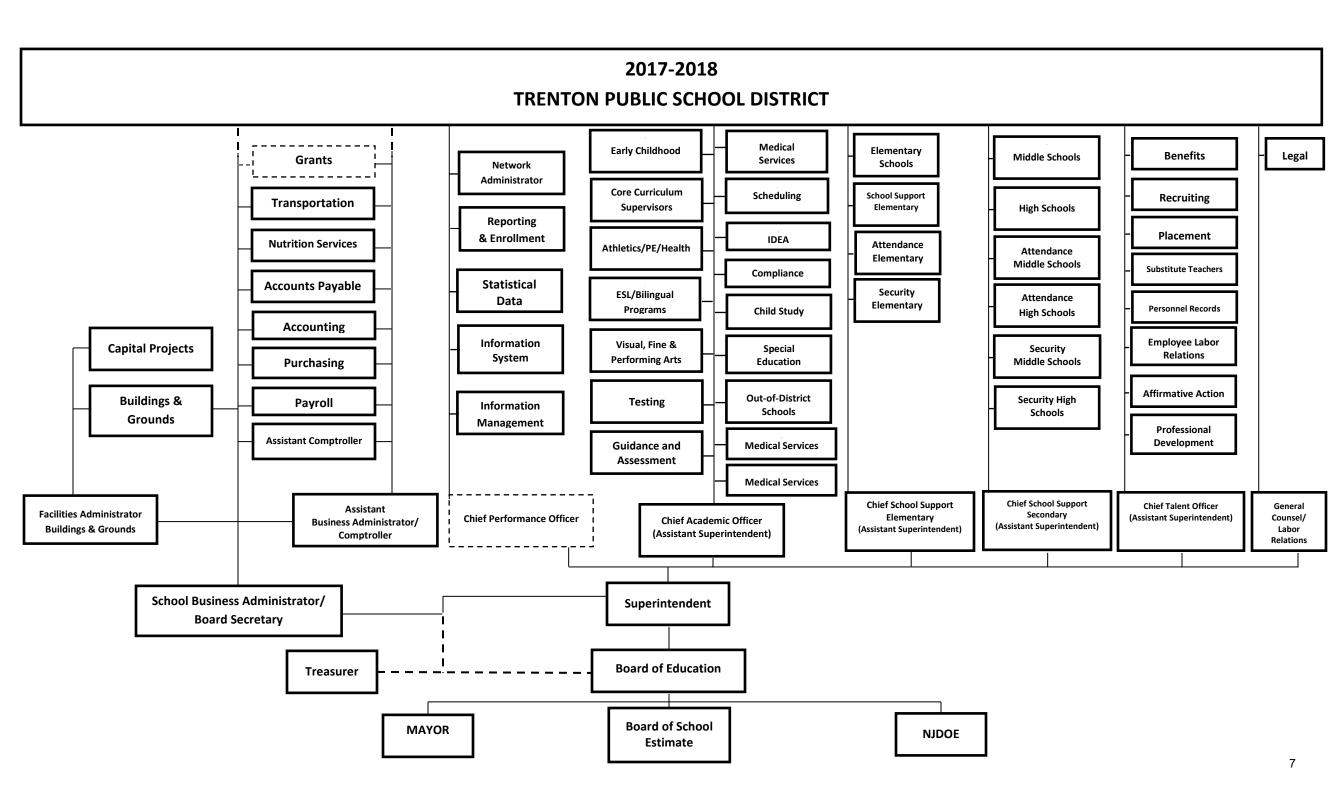

12. Acknowledgments

We would like to express our appreciation to the members of the Trenton School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Financial Section

Independent Auditors' Report

Honorable President and Members of the Board of Education Trenton School District County of Mercer, Trenton, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Trenton School District, County of Mercer, New Jersey (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedules of changes in the District's postemployment benefit liability and related ratios, schedule of the District's proportionate share of the net pension liability-PERS, the schedule of District contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements, school level schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis, as required by the Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB Circular 15-08, Single Audit Policy for

Honorable President and Members of the Board of Education Trenton School District

Page 3

Recipients of Federal Grants, State Grants and State Aid, respectively, and are also not a required part of the basic financial statements.

The combining and individual fund financial statements and school level schedules and the schedules of expenditures for federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the school level schedules and the schedules of expenditures for federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Trenton School District

Management's Discussion and Analysis

Year ended June 30, 2018

This section of the Trenton School District's (the "District") Comprehensive Annual Financial Report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2018. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*. Certain comparative information between the current year and the prior year is presented in the MD&A.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private–sector business.

The statement of net position (A-1) presents information on all of the assets, deferred inflows of resources and deferred outflows of resources and liabilities of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities (A-2) presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. earned but unused vacation leave).

The government-wide financial statements can be found on pages 23-24 of this report.

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, enterprise funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because of the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, special revenue fund and the capital projects fund, all of which are considered to be major funds. Individual fund data for each school following school based budgeting is also provided in the general fund detail statements elsewhere in this report.

These funds, with the exception of the capital projects fund, utilize a legally adopted annual budget. A budgetary comparison statement has been provided for the general fund and special revenue fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 25-27 of this report.

Proprietary fund. The District maintains one proprietary fund type, an enterprise fund. The enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the District is that the costs of providing goods or services be financed through user charges. The food services enterprise fund provides for the operation of food services in all schools within the District. The enterprise fund has been included within business-type activities in the government-wide financial statements. The basic proprietary fund financial statements can be found on pages 28-30 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

The District uses trust and agency funds to account for resources held for student activities and groups and for payroll transactions. The basic fiduciary fund financial statements can be found on pages 31-32 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 33-72 of this report.

Other required supplementary information. The schedule of funding progress and schedule of employer contributions related to the District's post-employment retirement healthcare benefit plan are presented immediately following the notes to the basic financial statements and can be found on pages 73-74 of this report. The schedule of the District's proportionate share of the schedule of post-employment benefits, net pension liability-PERS, the schedule of District contributions-PERS, the schedule of the State's proportionate share of the net pension liability associated with the District-TPAF and the notes to required supplementary information can be found on pages 75-77 of this report. The combining statements referred to earlier in connection with governmental and enterprise funds are presented thereafter. Combining and individual fund statements and schedules and school-level schedules can be found on pages 78-164 of this report.

Financial Highlights

Key financial highlights for the 2017-2018 fiscal year include the following:

Full accrual net position increased \$57,766,514 from 2017-2018 due to several key factors:

- This increase was primarily driven by the increase in net investment in capital assets of \$51,515,207. This significant increase relates to the \$56,154,824 from the School Development Authority to complete the project at the high school. This increase was partially offset by depreciation expense of \$6,657,693.
- The District continued for a third consecutive year to recognize a significant increase in expenses for payments to charter schools in 2017-2018. This amount totaled \$38,792,503, which was an increase of \$2,196,912 over the 2016-2017 charter school payments due to additional enrollments in the current year.
- The local tax levy of \$21,968,735 increased by \$430,760 due to a marginal increase in tax rates throughout the City of Trenton.

The General Fund fund balance, budgetary basis, (including the last state aid payments) increased \$7,634,791 from the prior fiscal year's balance of \$33,226,718 due to an increase in state aid of approximately \$2,000,000 and a reduction to certain expenditure lines following conservative spending practices.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The following table provides a comparative summary of net position relating to the District's governmental and business-type activities at June 30:

		2018			2017	
	Governmental Activities	Business Type- Activities	Total	Governmental Activities	Business Type- Activities	Total
Current and other assets	+,,	\$ 3,035,593 \$	36,711,732	\$ 22,861,758	\$ 3,325,919 \$	26,187,677
Capital assets, net	315,765,544	248,466	316,014,010	264,204,942	321,773	264,526,715
Total assets	349,441,683	3,284,059	352,725,742	287,066,700	3,647,692	290,714,392
Deferred outflows	23,085,484		23,085,484	36,154,871		36,154,871
Liabilities						
Current Liabilities	21,652,113	2,600,679	24,252,792	18,233,881	2,915,065	21,148,946
Net Pension Liability	66,203,363		66,203,363	96,389,178		96,389,178
Long Term Liabilities	13,250,066	41,921	13,291,987	13,920,481	39,090	13,959,571
Total liabilities	101,105,542	2,642,600	103,748,142	128,543,540	2,954,155	131,497,695
Deferred inflows	24,346,539		24,346,539	4,099,628		4,099,628
Net position: Net investment in						
capital assets	315,765,544	181,010	315,946,554	264,204,942	226,405	264,431,347
Restricted	32,245,405		32,245,405	25,195,913		25,195,913
Unrestricted (deficit)	(100,935,863)	460,449	(100,475,414)	(98,822,452)	467,132	(98,355,320)
Total net position	\$ 247,075,086	\$ 641,459 \$	247,716,545	\$ 190,578,403	\$ 693,537 \$	191,271,940

The significant increase to current and other governmental assets resulted primarily from the \$10,498,493 increase in the general fund cash balance. The increase was attributable to the following circumstances. There was an increase of approximately \$2,000,000 in state aid for the year ended June 30, 2018 from the prior year. Also as mentioned below, there is an increase to accounts payable of approximately \$3,000,000 at June 30, 2018, which made that cash available for the year ended June 30, 2018. Finally, as noted on exhibit B-2, there was an excess of revenues over expenditures in the amount of \$5,947,651. Since the District was very diligent on controlling expenditures, more cash became available at June 30, 2018.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment). The increase in capital assets, net is mainly due to the increase of construction in progress for the Trenton Central High School in the amount of \$56,154,824, offset by the depreciation expense incurred on depreciable assets in the amount of \$6,657,693

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The increase in the District's restricted net position is due to an increase in current year excess surplus. As mentioned previously, the general fund generated budgeted surplus over the prior year in the amount of \$7,634,791 which impacted the excess surplus in the current year.

The remaining deficit balance of unrestricted net position reflects long-term obligations not invested in capital assets. The deficit (negative) amount is mainly the result of liabilities for the other post-employment benefits, net pension liability, early retirement liability and compensated absences without an offsetting asset.

The increase in current liabilities resulted from an increase in general fund accounts payable of approximately \$3,000,000. This significant increase was caused by an influx over the prior year of May and June services rendered from various vendors in fiscal year ended June 30, 2018 but not yet paid.

The decrease in long-term liabilities is mainly attributable to compensated absence and early retirement liability payments.

At the end of the current fiscal year, the District is able to report a positive balance in total net position. The same situation held true for the prior fiscal year.

The decrease in the current and other assets reported in the Enterprise Fund is primarily due to less schools qualifying and receiving federal fresh fruits and veggies revenue. In the prior year, fourteen schools received this aid and in the current year only two schools received the aid.

The decrease in the current and other liabilities reported in the Enterprise Fund is related to a reduction in the amount due to the food service management company. The District had less outstanding invoices at June 30, 2018 than the prior year. All bills were paid subsequent to year-end.

The following table provides a comparative summary of the changes in net position relating to the District's governmental and business-type activities for the years ended June 30, 2018 and 2017:

Trenton School District

Net Position June 30,

Governmental activities. The increase in net position in the District's governmental activities is \$57,818,592 for the year ended June 30, 2018. The increase is a result of several factors as mentioned in the Financial Highlights on the previous page of this report.

The increase in federal and state aid not restricted to a specific purpose was impacted by Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions* and Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. TPAF revenue recognized on the full accrual basis from the GASB 68 calculation decreased from the direct result of the calculations performed by an actuarial valuation which determines the amount of revenues and related expenditures based on several factors including discount and mortality rates. In the prior year, the amount of TPAF revenue recognized from the result of this actuarial valuation was \$42,560,271. In the current year, only \$29,138,977 was recognized. As a result of these conditions, full accrual state aid decreased by \$8,814,782. This decrease was offset by the implementation of Governmental Accounting Standards Board Statement No. 75 in fiscal year ended June 30, 2018. As a result of the District's proportionate share of the State's OPEB liability, \$15,867,197 was recognized in state source revenue and related expenditures. The net effect of these two standards resulted in an increase to state aid in the amount of \$7,052,415.

In addition, the District realized an increase in the revenue and related expenses for capital projects in 2017-2018. This amount totaled \$56,175,368, which is an increase of \$25,952,658 over the 2016-2017 costs. This increase is mostly related to the construction in progress for the Trenton Central High School that is being built by the New Jersey Schools Development Authority.

Business-type activities. Overall, the net position of the business-type activities decreased by \$52,078 resulting from a reduction to fresh fruit and vegetable federal revenue from the prior year. For the year ended June 30, 2018 only two schools qualified for this federal aid compared to fourteen schools in the prior year.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds. The focus of the District's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The District's fund balance amounts are classified as either restricted or unassigned.

General Fund. The general fund is the main operating fund of the District. At the end of the current fiscal year, unassigned fund balance (deficit) was (\$12,464,930), while the total fund balance was \$19,780,475. The net change in total fund balance for the General Fund was an increase of \$7,560,879, which was mainly attributable to increased general state aid and available cash balances resulting from conservative spending practices. The deficit was strictly the result of the deferral of the last two state aid payments in the amount of \$21,081,034 to comply with P.L. 2009, c19 (S-21).

Special Revenue Fund. The special revenue fund is used to track the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes, other than debt service or capital projects. Revenue for the current fiscal year increased by \$1,510,917. This increase resulted from the following. First. there was an increase of approximately \$330,000 in Title I reimbursements from the prior year due to increases to supplies and materials and salaries. Secondly. the District was awarded \$363,625 for a new 2018 grant award, Temporary Emergency Impact Aid for Displace Students. Under the Emergency Impact Aid program, the U.S. Department of Education (Department) awards grants to eligible local educational agencies (LEAs) to assist with the cost of educating displaced students affected by declared emergencies from natural disasters. Finally, there was an increase of approximately \$750,000 for Preschool Education Aid. The majority of this increase resulting from a higher demand on preschool contracted services due to enrollment increases.

Capital Projects Fund. The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure for capital outlays, including the acquisition or construction of major capital facilities and other assets (other than those financed by proprietary funds). There were expenditures of \$56,751,254 in the current fiscal year compared to expenditures of \$30,222,710 in the prior year. This is mainly attributable to an increase in the amount of expenditures incurred by the New Jersey School Development Authority on-behalf of the District, mostly as a result of construction costs incurred for the Trenton Central High School building.

Proprietary Fund. The District's enterprise fund provides the same type of information found in the government-wide financial statements, but in more detail.

The net position of the food service program was \$641,459. This represents a decrease of \$52,078 from the 2016-2017 net position of \$693,537 which as described previously resulted from the current year loss of federal fresh fruit and vegetable income.

Financial Information at Fiscal Year-End

The following schedule presents a summary of the general fund and special revenue fund revenues for the fiscal year ended June 30, 2018 and the amount and percentage of increases and (decreases) in relation to prior year revenues. The Capital Projects Fund has been excluded as amounts can vary substantially from year to year.

Revenue	Amount	Percent of Total		Increase from 2017	Percent of Increase		
Local sources	\$ 23,174,7	69 7.1	%\$	293,577	1.3%		
State sources	289,475,7	07 89.0		5,266,080	1.3		
Federal sources	12,602,5	.92 3.9		382,877	3.1		
Total	\$ 325,253,0	68 100.0) \$	5,942,534	1.9%		

The increase in state sources is mainly attributable to the increase in the expenditures paid for by the State on-behalf of the District for TPAF post-retirement pension, medical contributions and long-term disability insurance and TPAF social security contributions. The following schedule presents a summary of general fund and special revenue fund expenditures for the fiscal year ended June 30, 2018 and the percentage of increases in relation to prior year amounts. The Capital Projects Fund has been excluded as amounts can vary substantially from year to year.

Expenditures		nditures Amount			(Decrease) Increase From 2017	Percent of (Decrease) Increase	_	
Current expenditures:								
Instruction	\$	80,532,577	25.3	%	\$ (1,306,589)	(1.6)	%	
Undistributed		196,454,981	61.8		8,349,197	4.4		
Capital Outlay		1,716,460	0.5		1,170,176	214.2		
Charter School		38,792,503	12.2		2,196,912	6.0		
Special Schools		266,837	0.1		61,445	29.9		
Total	\$	317,763,358	100.0	%	\$ 10,471,141	3.4	%	

The decrease of expenditures for instruction is mainly attributable to the continued decrease in enrollment as enrollment in charter schools continues to rise.

The increase of undistributed expenditures was attributable to the following events. There was an increase in the expenditures paid for by the State on-behalf of the District for TPAF post-retirement pension, medical contributions and long-term disability insurance and TPAF contributions in the amount of \$2,097,551. There was an increase of approximately \$1,300,000 in tuition to private schools- disabled in state due to a spike in enrollments. There was also an increase to health benefits of approximately \$1,900,000 resulting from increased rates and eligible employees. Additionally, there was an increase of approximately \$1,000,000 for transportation purchase in the current year.

The increase of expenditures for charter schools was the result of additional students attending charter schools in the current year.

General Fund Budgetary Highlights

\$79,467,066 of the general fund final budget was allocated directly to the schools to support school based budgets. \$2,554,383 of this amount was not expended largely due to the District's concentrated efforts to reduce spending.

The increase in budgeted general fund state aid in the amount of \$1,758,368 was due to the recognition of more aid awarded to the District by the State.

The transfer in to tuition to county special services in the amount of \$1,360,625 resulted from an increase in enrollment and related services. Consequently, there were transfers out from tuition to other school districts in the state-regular and tuition to other school districts in the state-special in the amounts of \$305,625 and \$902,000, respectively for a reduction to enrollment for those respective account lines.

The transfer in to required maintenance for school facilities in the amount of \$3,213,854 was made to account for the maintenance projects performed in the current year based on the comprehensive maintenance plan.

The transfer in from student transportation services - contracted services for special education students from vendors in the amount of \$1,500,000 and the transfer out from student transportation services – joint

agreements in the amount of \$1,000,808 resulted from outside contracted vendors hired to transport students that were outside the routes within certain joint agreements.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2018, the District has capital assets of \$316,014,010 net of depreciation, which includes school facilities, land, buildings, equipment and vehicles and construction in progress.

The following provides a summary of the capital assets held by the District at June 30, 2018 and 2017:

	Capital Assets (Net of Depreciation)								
	G	overnmental Activities		isiness-type Activities	G	overnmental Activities	В	usiness-type Activities	
		June 3	0, 20	18	June 30, 2017				
Non-depreciable assets:									
Site and site improvements	\$	15,354,677			\$	15,354,677			
Construction in progress		103,447,534				47,292,710			
Depreciable assets:									
Building and building improvements		192,995,891				198,312,611			
Machinery, equipment and vehicles		3,967,442	\$	248,466		3,244,944	\$	321,773	
Total capital assets, net	\$	315,765,544	\$	248,466	\$	264,204,942	\$	321,773	

Additional information on the District's capital assets can be found in Note 4 to the basic financial statements.

Debt Administration and Other Obligations

The District does not have any outstanding bond issues.

In fiscal year ended June 30, 2018, the District's governmental activities long-term liabilities decreased by \$31,556,038. The decrease is mostly due to the fact that the pension liability decreased \$31,138,490. The District has estimated \$2,620,506 of governmental activities long-term liabilities are due within one year. Of this amount, \$1,030,506 is estimated for compensated staff absences, and \$1,590,000 represents the next payment due on the District's Early Retirement pension liability. Additional information can be found in Note 5 to the basic financial statements.

Economic Factors and Subsequent Years' Budgets

The fiscal outlook in the near term is a concern for most school districts and municipalities, including this one. Top-down changes in funding will require flexibility and very careful planning at the local level. The District's tax levy has only increased by \$853,073 over the past decade and with the continued uncertainty related to the State of New Jersey's budget challenges and continued lower than expected tax collections, the adoption of a budget that maintains educational services at a higher level becomes more and more difficult. With the increase in health benefit costs and continued increase in the number students attending existing charter schools, future revenues will be required to sustain the rise in expenditures. The Trenton School District will continue to employ prudent and responsible fiscal practices to maintain its sound financial condition.

Requests for Information

This financial report is designed to provide a general overview of the Trenton District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Business Administrator, Trenton Public Schools, 108 North Clinton Avenue, Trenton, NJ 08609.

Basic Financial Statements

Government-wide Financial Statements

The government-wide financial statements provide a financial overview of the District's operations. These financial statements present the financial position and operating results of all governmental activities and business-type activities as of and for the year ended June 30, 2018.

The reconciliation of the fund balances of governmental funds to the net position of governmental activities in the statement of activities is presented in an accompanying schedule (B-3).

Trenton School District Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Year ended June 30, 2018

Total net change in fund balances - governmental funds (B-2)	\$ 7,489,710
Amounts reported for governmental activities in the statement of activities (A-2) are different because:	
Capital additions are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital assets exceeded depreciation in the period.	
Depreciation expens Capital additions	e \$ (6,657,693) 58,218,295 51,560,602
The payment of the District's Early Retirement pension liability (net) was recorded as an expenditure in the governmental funds, but the payment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.	1,540,000
In the statement of activities, interest on debt is accrued, regardless of when due. In the governmental funds, interest is reported when due.	9,883
Expenses reported in the statement of activities (A-2) that do not require the use of current financial resources, such as the obligation for postemployment benefits other than pensions, are not reported as expenditures in governmental funds.	130,086
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of	
financial resources used (paid).	(1,252,538)
Certain expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental fund Pension expense	s. (1,659,151)
Change in net position of governmental activities (A-2)	\$ 57,818,592

1. Summary of Significant Accounting Policies

The financial statements of the Board of Education of the Trenton School District (District) have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The District's significant accounting policies are described below:

A. Reporting Entity

The financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the Trenton School District. The District receives funding from local, state and federal government sources, and must comply with the requirements of these funding source entities.

The basic financial statements include all funds and accounts of the District over which the Board exercises operating control, including preschool, elementary, junior and senior high schools located in Trenton.

The District has no component units that are required to be included within the reporting entity, as set forth in Section 2100 of the GASB Codification of <u>Governmental Accounting and</u> <u>Financial Reporting Standards</u>.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary fund, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the proprietary fund (major fund) are reported as separate columns in the fund financial statements. The New Jersey Department of Education (NJDOE) requires New Jersey school districts to treat each governmental and proprietary fund as a major fund and each major individual fund to be reported in separate columns in the fund financial statements. The NJDOE believes the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Property taxes are recognized as revenue in the year for which they are levied. State equalization monies are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, pension obligations and claims and judgments, are recorded only when payment is due.

Property taxes, interest, and state equalization monies associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year.

The District has reported its major governmental funds as follows:

General Fund: The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund.

Special Revenue Fund: The District maintains one special revenue fund, which includes the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specified purposes.

Capital Projects Fund: The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure for capital outlays to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

The District reports its major enterprise fund as follows:

Food Service Fund: The enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Additionally, the District reports the following fiduciary fund types:

Fiduciary Funds of the District include the private purpose scholarship trust fund and agency funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the School District:

Trust and Agency Funds: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

Trust Fund: The private purpose scholarship fund is utilized to provide scholarships to students and to account for the related transactions. The trust fund is reported using the economic resources measurement focus.

Agency Funds (Payroll and Student Activity Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. The District maintains three agency funds including net payroll, payroll agency and student activity agency funds.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charged to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales of food. Operating expenses for enterprise funds include the cost of sales, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports unearned revenue on its balance sheets and statements of net position. Unearned revenue arises when resources are received by the District before revenue recognition criteria are met, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, the liability for unearned revenue is removed from the balance sheet and statement of net position and revenue is recognized.

Ad Valorem (property) taxes are susceptible to accrual, as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the uncollected amount is considered to be an "accounts receivable."

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

The County Board of Taxation is responsible for the assessment of properties and the City Tax Collector is responsible for collection of taxes. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

D. Budgets/Budgetary Control

Annual appropriated budgets are adopted each year for the general and special revenue funds. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23. All budget amendments must be approved by School Board resolution.

The over-expenditure in the general fund is due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States, with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Deposits and Investments

Cash and cash equivalents include petty cash, amounts on deposit, and short-term investments with original maturities of three months or less.

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*. The District classifies certificates of deposit which have original maturity dates of more than three months but less then twelve months from the date of purchase as investments and are stated at cost. All other investments are stated at fair value.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

F. Interfund Receivables/Payables – Fund Statements

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

G. Inventories

Inventories which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase. Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method and the District uses the consumption method for expensing inventory. At June 30, 2018, the unused Food Donation Program commodities of \$14,471 are reported as unearned revenue.

H. Capital Assets

Capital assets, which include land and property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or through estimation procedures performed to determine estimated historical cost. Land was valued at assessed value based upon information received from the City of Trenton. Donated capital assets are valued at their estimated acquisition value on the date of donation.

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized. Property, plant and equipment of the District is depreciated using the straight line method. The following estimated useful lives are used to compute depreciation.

I. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has one item that qualifies or reporting in this category, deferred amounts related to pensions. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

The District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

J. Accrued Salaries and Wages

Certain District employees, who provide services to the District over the ten month academic year, have the option to have their salaries disbursed during the entire twelve month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account. As of June 30, 2018, \$2,088,177 was earned by these employees but not disbursed and is reflected in the statement of fiduciary net position.

Additionally, the District has accrued for retroactive payments due to be paid to employees that had unsettled prior year expired contracts as of June 30, 2018. As of June 30, 2018 the District has accrued \$938,024 for various collective bargaining agreements that expired on June 30, 2012 and remained unsettled. These collective bargaining agreements are still in negotiations through the date of this report.

The District also has accrued at June 30, 2018 \$635,132 for part-time employee salaries and stipends for services rendered during the last two weeks of June 2018 that were not paid until the subsequent fiscal year.

K. Compensated Absences

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation.

Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after four years of service.

The liability for vested compensated absences of the District recorded in the government-wide financial statements amounted to \$10,630,572 at June 30, 2018. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Unearned Revenue

Unearned revenue in the special revenue fund represents cash which has been received but not yet earned. Unearned revenue in the food service enterprise fund represents unused food donation commodities and student deposits made for the use of purchasing food in a future period.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

M. Long-Term Obligations

In the government-wide financial statements, and the proprietary fund type in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise fund type statement of net position.

N. Fund Balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

- Non-spendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- 4) Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- 5) Unassigned includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

Of the \$19,780,475 of fund balance in the General Fund, \$15,264,301 has been restricted for excess surplus in the current year, \$295,141 has been restricted in the maintenance reserve account, \$16,685,963 of prior year excess surplus has been restricted for subsequent year's expenditures and \$(12,464,930) is unassigned.

O. Net Position

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* became effective for financial statements for periods beginning after December 15, 2011 and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The adoption of this statement resulted in a change in the presentation of the statement of net assets to what is now referred to as the statement of net position and the term "net assets" is changed to "net position" throughout the financial statements.

Net position represents the difference between assets, deferred inflows of resources, deferred outflows of resources and liabilities in the Government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net positions are reported as restricted in the Government-wide and fund financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

P. Management's Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Q. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security contributions and post-retirement pension benefits for members of the New Jersey Teachers Pension and Annuity Fund. Additionally, revenues and expenses related to on-behalf pension contributions in the government-wide financial statements have been increased by \$29,138,977 to adjust

Notes to the Basic Financial Statements

Year ended June 30, 2018

1. Summary of Significant Accounting Policies (continued)

for the full accrual basis expense incurred by the State of New Jersey during the most recent measurement period. The amounts are not required to be included in the District's annual budget.

R. Calculation of Excess Surplus

The designation for restricted fund balance - excess surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve fund balance of the general fund at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The District has excess fund balance at the end of the 2017-2018 fiscal year in the amount of \$31,950,264. Of this amount, \$16,685,963 has been appropriated in the 2018-2019 budget and the remaining \$15,264,301 will be appropriated in the 2019-2020 budget.

S. Tax Abatements

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements. Furthermore, if the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth. The City of Trenton has entered into a number of tax abatement agreements over the years. The amount of taxes abated during the 2018 fiscal year amounted to \$3,484,117 of which the District's tax rate is 18.55% of the total tax rate for the city.

Notes to the Basic Financial Statements

Year ended June 30, 2018

2. Reconciliation of Government-wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including the pension liability and compensated absences are not due and payable in the current period and therefore are not reported in the funds.

The details of this \$15,870,572 difference are as follows:

Pension liability	\$ 5,240,000
Compensated absences	10,630,572
Net adjustment to reduce fund balance-total governmental	
funds to arrive at net position – governmental activities	\$ 15,870,572

3. Deposits and Investments

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at last equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units. New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted

Notes to the Basic Financial Statements

Year ended June 30, 2018

3. Deposits and Investments (continued)

to deposit public funds in the State of New Jersey Cash Management Fund, New Jersey Asset and Rebate Management Fund and MBIA CLASS.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Operating cash accounts are held in the District's name by several commercial banking institutions. At June 30, 2018, the carrying amount of the District's deposits was \$33,158,706 and the bank balance was \$39,447,560. Of the bank balance, \$339,717 of the District's cash deposits on June 30, 2018 was covered by federal depository insurance. The New Jersey Governmental Unit Deposit Protection Act (GUDPA) covered the bank balance of \$34,166,508. \$3,866,654 held in the District agency accounts and \$1,074,681 of cash equivalents are not covered by GUDPA.

GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40") requires that the District disclose whether its deposits are exposed to custodial credit risk (risk that in the event of failure of the counterparty, the District would not be able to recover the value of its deposit or investment). Deposits are considered to be exposed to custodial credit risk if they are: uncollateralized (securities are not pledged to the depositor), collateralized with the securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the name of the District.

The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

As of June 30, 2018, the District had \$111,427 on deposit with a fiscal agent.

Notes to the Basic Financial Statements

Year ended June 30, 2018

3. Deposits and Investments (continued)

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

Bonds and other obligations of the United States or obligations guaranteed by the United States.

- a. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank which have a maturity date not greater than twelve months from the date of purchase.
- b. Bonds or other obligations of the School District.
- c. New Jersey Cash Management Fund (NJCMF) and New Jersey Asset and Rebate Management Fund (NJARM).

The following presents the components of investments held at June 30, 2018:

		Fair	Investment Maturities			
Investment Type		Value	Less than 1 year			
Mutual Funds Common Stock Money Market Accounts New Jersey Cash Management Fund Total Investment	\$	539,251 13,059 37,523 <u>1,034,158</u> 1,623,991	\$	539,251 13,059 37,523 1,034,158 1,623,991		
Less: Amounts reported as cash equivalents Total Investment	\$	(1,071,681) 552,310	\$	(1,071,681) 552,310		

Money market account monies are short-term investments. Monies can be freely added or withdrawn from the money market account on a daily basis without penalty.

The investments in mutual funds, common stock and money market accounts are recorded as investments in the student activity agency fund. These investments were donated to the District several years ago and are required by the donor to remain invested in the existing investments.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical

Notes to the Basic Financial Statements

Year ended June 30, 2018

3. Deposits and Investments (continued)

assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments are valued using Level 1 inputs.

New Jersey Cash Management Fund

In order to maximize liquidity, the District utilizes the New Jersey Cash Management Fund ("NJCMF"). The NJCMF is administered by the State of New Jersey, Department of the Treasury. It invests pooled monies from various State and non-State agencies in primarily short-term investments. The pooled shares are equal to the value of the District's shares. These investments include: U.S. Treasuries, short-term Commercial Paper, U.S. Agency Bonds, Corporate Bonds, and Certificates of Deposit. Agencies that participate in the NJCMF typically earn returns that mirror short-term investments rates. Monies can be freely added or withdrawn from the NJCMF on a daily basis without penalty. At June 30, 2018, the District's balance was \$1,034,158.

All investments in the Fund are governed by the regulations of the Investment Council, which prescribes specific standards designed to ensure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

Custodial Credit Risk: All of the District's investments are uncollateralized. Pursuant to GASB 40, the NJCMF, which is a pooled investment, is exempt from custodial credit risk exposure. The District does not have a policy for custodial credit risk for its investments.

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer. At June 30, 2018, no more than 5% of the District's investments were in any one security.

Credit Risk: The District does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government. NJCMF, mutual funds and money market accounts are not rated by a rating agency.

Interest Rate Risk: The District does not have a policy to limit interest rate risk, however, its practice is typically to invest in investments with short maturities.

Notes to the Basic Financial Statements

Year ended June 30, 2018

4. Capital Assets

The following schedule is a summarization of the governmental activities changes in capital assets for the year ended June 30, 2018.

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental activities:				
Capital assets, not being depreciated:				
Sites and Site Improvements (Land) Construction in progress	\$ 15,354,677 47,292,710	\$ 56,154,824		\$ 15,354,677 103,447,534

5. Long-Term Liabilities

General Obligation Bonds

The Trenton School District is currently a Type I School District. As mandated by State Statutes, all Type I debt service of the District is considered the direct obligation of the City of Trenton and therefore, is recorded within the City's financial statements and not on the School District's financial statements.

Notes to the Basic Financial Statements

Year ended June 30, 2018

5. Long-Term Liabilities (continued)

Changes in Long-Term Liabilities

During the year ended June 30, 2018, the following changes occurred in the long-term liabilities:

	 Restated Beginning Balance	Additions	F	Reductions	Ending Balance	_	Due within One Year
Governmental activities:							
Compensated absences payable	\$ 9,378,034	\$ 2,497,940	\$	1,245,402	\$ 10,630,572	\$	1,030,506
Early retirement pension bonds	 6,780,000			1,540,000	5,240,000		1,590,000
Subtotal	 16,158,034	2,497,940		2,785,402	15,870,572		2,620,506
Net pension liability	96,389,178			31,138,490	65,250,688		
OPEB	 1,082,761	4,370		134,456	952,675		
Governmental activity							
long-term liabilities	\$ 113,629,973	\$ 2,502,310	\$	34,058,348	\$ 82,073,935	\$	2,620,506
Business-type activities:							
Purchase agreement payable	\$ 95,368	\$ 32,714	\$	60,626	\$ 67,456	\$	25,535
	\$ 95,368	\$ 32,714	\$	60,626	\$ 67,456	\$	25,535

The General Fund is generally used to liquidate governmental activity long-term liabilities. The District expects to liquidate the purchase agreement payable with payments made from the District's enterprise fund – food service.

Early Retirement Pension Bonds

In accordance with New Jersey statutes, on March 13, 2003, the City of Trenton (Type I) issued taxable pension refunding bonds series 2003 B in the amount of \$19,945,000 (interest rates ranging from 1.8% to 5.4%) in order to fund the District's remaining Early Retirement Incentive Plan liability. These bonds were refunded on November 29, 2012, by the issuance of pension refunding bonds series 2012 B in the amount of \$12,690,000 (interest rates ranging from 0.996% to 3.491%). The bonds are maintained on the records of the City and the District is obligated to make principal and interest payments to the City through the 2022 fiscal year.

Notes to the Basic Financial Statements

Year ended June 30, 2018

5. Long-Term Liabilities (continued)

The annual requirements of the District are as follows:

Fiscal Year	Principal	Interest	Total
2019	\$ 1,590,000	\$ 161,437	\$ 1,751,437
2020	1,645,000	117,442	1,762,442
2021	1,700,000	66,595	1,766,595
2022	305,000	10,647	315,647
Total payments required	\$ 5,240,000	\$ 356,121	\$ 5,596,121

6. Pension Plans

Description of Systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

Teachers' Pension and Annuity Fund: The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for the highest five fiscal years of credited service.

Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

Public Employees' Retirement System: The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in over the next seven years that will bring the total pension contribution rate to 7.5% of employees' annual compensation.

Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

The District's actuarially determined contributions to PERS for the years ended June 30, 2018, 2017 and 2016 were, \$2,632,495, \$2,891,258, \$3,014,280 and, respectively, for each of the three years equal to the required contributions for each year.

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

During the year ended June 30, 2018, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the District \$5,547,379 for the employer's share of social security contributions for TPAF members as calculated on their base salaries and \$21,178,474 for post-retirement pension, medical and long-term disability insurance benefits on behalf of the District. These amounts have been included in the fund financial statements.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For the purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employee's Retirement System (PERS)

At June 30, 2018, the District reported a liability of \$65,250,688 for its proportionate share of the net pension liability, all of which is allocated to the District's governmental activities. The District's food service enterprise fund is outsourced to a third party food service Management Company. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2016, which was rolled forward to June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2017, the District's proportion was 0.2803057057 percent, which was a decrease of 0.0451450467 from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized full accrual pension expense of \$4,291,646 in the government-wide financial statements. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

		Deferred Outflows	Deferred Inflows		
	of	Resources	0	f Resources	
Differences between expected and actual experience	\$	1,536,428			
Changes of assumptions		13,145,765	\$	13,097,570	
Net difference between projected and actual earnings					
on pension plan investments		444,313			
Changes in proportion		5,845,140		11,248,969	
District contributions subsequent to the					
measurement date		2,113,838			
	\$	23,085,484	\$	24,346,539	

\$2,113,838 is reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2019	\$ 1,301,040
2020	2,168,555
2021	239,008
2022	(4,616,180)
Thereafter	 (2,467,316)
	\$ (3,374,893)

Actuarial Assumptions

The total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of July 1, 2016, which was rolled forward to June 30, 2017. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

	June 30,2017
Inflation Rate	2.25%
Salary Increase	
2021-2026	1.65 - 4.15%
	based on age
Thereafter	2.65 - 5.15%
	based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which bestestimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expecting future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2017 are summarized in the following table:

		Long-Term
	E	Expected Real
	Target	Rate of
Asset Class	Allocation	Return
Absolute return/risk mitigation	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%
Public high yield	2.50%	6.82%
Global diversified credit	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%
Debt related private equity	2.00%	10.63%
Debt related real estate	1.00%	6.61%
Private real asset	2.50%	11.83%
Equity related real estate	6.25%	9.23%
U.S. equity	30.00%	8.19%
Non-U.S. developed markets equity	11.50%	9.00%
Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%
	100.00%	

Discount Rate

The discount rate used to measure the total pension liability was 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.58% as of June 30, 2017 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 40% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040.

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	 At 1% Decrease (4.00%)		At Current Discount Rate (5.00%)		At 1% Increase (6.00%)
District's proportionate share of the net pension liability	\$ 80,947,907	\$	65,250,688	\$	52,172,959

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report for the State of New Jersey Public Employees Retirement System.

Additional Information

Collective balances of the Local Group at June 30, 2017 are as follows:

Deferred outflows of resources	\$ 6,424,455,842
Deferred inflows of resources	\$ 5,700,625,981
Net pension liability	\$ 23,278,401,588
District's Proportion	0.28030570570%

Collective pension expense for the Local Group for the measurement period ended June 30, 2017 is \$1,694,305,613.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at June 30, 2017, 2016, 2015 and 2014 is 5.48, 5.77, 5.72 and 6.44 years, respectively.

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2017 was \$606,163,391. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016, which was rolled forward to June 30, 2017. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2016, the State's proportionate share of the TPAF net pension liability associated with the District was 0.8990373373 percent, which was an increase of 0.0078937372 from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized on-behalf pension expense and revenue in the government wide financial statements of \$41,991,930 for contributions incurred by the State.

Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Rate Salary Increase 2012-2021 Thereafter Investment rate of return

2.25% Varies based on experience Varies based

on experience

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

Mortality Rates

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which bestestimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2017 are summarized in the following table:

Notes to the Basic Financial Statements

Discount Rate

The discount rate used to measure the total pension liability was 4.25% as of June 30, 2017. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2036. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2036, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Notes to the Basic Financial Statements

Year ended June 30, 2018

6. Pension Plans (continued)

Sensitivity of the State's proportionate share of the net pension liability associated with the District to changes in the discount rate

The following presents the State's proportionate share of the net pension liability associated with the District as of June 30, 2017 calculated using the discount rate as disclosed above as well as what the State's proportionate share of the net pension liability associated with the District would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	At 1% Decrease (3.25%)	D	At Current viscount Rate (4.25%)	At 1% Increase (5.25%)
State's proportionate share of the net pension liability associated with the District	\$ 720,141,123	\$	606,163,391	\$ 512,268,040

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

Additional Information

Collective balances of the State Group at June 30, 2017 are as follows:

Deferred outflows of resources	\$ 14,353,461,035
Deferred inflows of resources	\$ 11,992,821,439
Net pension liability	\$ 67,670,209,171
District's Proportion	0.8990373373%

Collective pension expense-Local Group for the plan for the measurement period ended June 30, 2017 is \$4,688,207,089.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at June 30, 2017, 2016, 2015 and 2014 is 8.3, 8.3, 8.3 and 8.5 years, respectively.

Notes to the Basic Financial Statements

Year ended June 30, 2018

7. Post-Retirement Benefits

Plan Description

The District contributes to the New Jersey State Health Benefits Program (the "SHBP"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SHBP provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SHBP. That report may be obtained by writing to Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

Funding Policy

Plan description and benefits provided P.L. 1987, c.384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post–retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

As the employer contributions for local government education employers are legally required to be funded by the State, this constitutes a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity.

The State is also responsible for the cost attributable P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program (APB) who retired from a board of education or county college with 25 years of service.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

Notes to the Basic Financial Statements

Year ended June 30, 2018

7. Post-Retirement Benefits (continued)

The State provides OPEB benefits through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Total OPEB Liability

The net OPEB liability from New Jersey's plan is \$53,639,841,858.

The following employees were covered by the benefit terms:

Local Education	June 30, 2016
Active Plan Members	223,747
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	142,331
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	-
Total Plan Members	366,078

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. The State's proportionate share of the net OPEB liability associated with the District as of June 30, 2017 was \$467,346,466, or 0.87%. Additional information can be obtained from the State of New Jersey's comprehensive annual financial report.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The total nonemployer OPEB liability as of June 30, 2017 was determined by actuarial valuation as of June 30, 2017. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Notes to the Basic Financial Statements

Year ended June 30, 2018

7. Post-Retirement Benefits (continued)

Inflation rate	2.50%	
	TPAF/ABP	PERS
Salary Increases:		
Through 2026	1.55 - 4.55%	2.15 - 4.15%
	based on years of service	based on age
Thereafter	2.00 - 5.45%	3.15 - 5.15%
	based on years of service	based on age

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based in the RP-2014 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-20014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvements projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the actuarial experience studies for the periods July 1, 2012 – June 30, 2015, July 30, 2013, and July 1, 2011 – June 30, 2014 for TPAF, PFRS, and PERS, respectively.

Healthcare Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount initially is 5.9% and decreases to a 5.0% long-term trend rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to a 5.0% long-term trend rate after eight years. For Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate

The discount rate for June 30, 2018 and 2017 was 3.58% and 2.85%, respectively. This represents the municipal bond return rate as chosen by the Division. The source is Bond Buyer Go 20-Bond Municipal

Notes to the Basic Financial Statements

7. Post-Retirement Benefits (continued)

Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

The following represents sensitivity of the State's proportionate share of the net OPEB liability associated with the District to changes in the discount rate and healthcare cost trend rate.

	1	1% Decrease (2.58%)		At Current iscount Rate (3.58%)	1% Increase (4.58%)
Net OPEB Liability (Allocable to the District and the responsibility of the State)	\$	554,773,972	\$	467,346,466	\$ 397,998,137

The following presents the State's proportionate share of the net OPEB liability associated with the District as of June 30, 2018 calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate:

	1	1% Decrease		ealthcare Cost Frend Rates	1% Increase
Net OPEB Liability (Allocable to the District and the responsibility of the State)	\$	384,347,290	\$	467,346,466	\$ 577,568,395

OPEB Expense and Deferred Outflows of resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized on-behalf OPEB expense and revenue in the government-wide financial statements of \$24,168,647 for OPEB expenses incurred by the State. Collective balances of the Education Group at June 30, 2018 are as follows:

Deferred outflows of resources	\$ 99,843,255
Deferred inflows of resources	\$ 6,443,612,287
Collective OPEB expense	\$ 3,348,490,523

Notes to the Basic Financial Statements

Year ended June 30, 2018

8. District Post-Retirement Benefits

General information about the OPEB Plan

In addition to the post-employment health benefit plan offered by the State, the District provides a single employer post-employment health benefits plan for 24 participants that elected to participate in the District's Early Retirement Plan through a single employer defined benefit healthcare plan. This single employer post-employment health benefits plan is closed to new entrants. The District followed the accounting provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.* This statement established guidelines for reporting costs associated with "other postemployment benefits" (OPEB). OPEB costs are calculated based on plan benefits (other than pensions), that the retired employees and their spouses have accrued as a result of their respective years of employment service.

Plan description and benefits provided. The District's post-employment retirement healthcare benefit plan provides health benefits to all retired District employees and their spouses that elected to participate in the Early Retirement Plan. The Plan is a comprehensive health benefits plan which pays for hospital services, doctor expenses and other medical related necessities which include prescription drugs, and mental health/substance abuse services, subject to provisions and limitations. The District administers the Plan through the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits and has the authority to establish and amend the benefits provisions offered. The Plan is not a separate entity or trust and does not issue stand alone financial statements.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Total OPEB Liability

The District's total OPEB liability of \$952,675 was measured as of June 30, 2018, and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other imputes. The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Inflation	3.00%
Salary increases	Not applicable
Discount rate	2.98%
Healthcare cost trend rate	3.60%
Retirees' share of benefit-related costs	None

The discount rate was based on the S&P Municipal Bond 20 Year High-Grade Rate Index.

Mortality rates were based on the RP-2014 Combined Annuitant Mortality Table for Males or females.

Notes to the Basic Financial Statements

Year ended June 30, 2018

8. District Post-Retirement Benefits (continued)

The actuarial assumptions used in the July 1, 2017 valuation were based in the results of an actuarial experience study for the period July 1, 2016 – June 30, 2017.

8. District Post-Retirement Benefits (continued)

OPEB Expense and Deferred Outflows of resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of \$4,370. At June 30, 2018, the District reported no deferred outflows of resources and deferred inflows of resources related to OPEB.

9. Contingent Liabilities

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2018 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying basic financial statements for such contingencies.

The District is also involved in several other claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a materially adverse effect on the financial position of the District.

10. Risk Management

The District maintains a risk management program, which self-insures worker's compensation claims of the District. The District contracts with a third-party administrator, the New Jersey School Boards Association Insurance Group, to provide claims administration and payment services. The District is no longer self-insured for worker's compensation claims. However, the District is responsible for satisfying claims outstanding.

As of June 30, 2018, incurred but not reported (IBNR) worker's compensation claims of \$134,448 have been accrued as a liability based upon an actuary's estimate.

In addition, the District has a limited risk management program for its health insurance and prescription expenses. This activity is reported in the general fund and includes an accrual for incurred but not reported (IBNR) health insurance claims in the amount of \$21,600 as of June 30, 2018, based upon an actuary's estimate.

Notes to the Basic Financial Statements

Year ended June 30, 2018

10. Risk Management (continued)

Changes in the funds incurred but not reported claims liability amount in fiscal years 2018, 2017 and 2016 were:

	o	ginning f Year ability	C C	urrent Year laims and hanges in Estimates	-	laim /ments	Balance at End of Year				
2017-18	\$	196,936	\$	(40,888)			\$	156,048			
2016-17 2015-16		196,936 204,054		(3,922) (3,922)	\$	3,922 3,196		196,936 196,936			

In addition, the District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds and does not retain risk of loss. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. There have been no significant reductions in insurance coverage from the prior year and no settlements have exceeded insurance coverage over the past three years.

11. Interfund Receivables and Payables

Individual fund interfund receivables and payable balances at June 30, 2018 are as follows:

	In	terfund	Interfund
Fund	Re	eceivable	Payable
General Fund	\$	735,875	
Special Revenue Fund			
Capital Projects Fund			\$ 564,386
Food Service Enterprise Fund			121,489
Trust and Agency Fund			50,000
	\$	735,875	\$ 735,875

The interfunds represent amounts loaned by the General Fund to the Capital Projects Fund, the Enterprise Fund – Food Service, and Trust and Agency Fund – Payroll Agency in order to satisfy current obligations. All interfunds are expected to be repaid within one year.

Notes to the Basic Financial Statements

Year ended June 30, 2018

12. Maintenance Reserve Account

A maintenance reserve account was established by the District by way of a Board approved resolution in the amount of \$10,000,000 in June 2012 for the accumulation of funds for use as maintenance expenditures in subsequent fiscal years. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the maintenance reserve account are restricted to maintenance projects in the District's approved Comprehensive Maintenance Plan (CMP). Upon submission of the CMP to the New Jersey Department of Education, the District may increase the balance in the maintenance reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line – item appropriation amounts, or both. The District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the account cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the July 01, 2017 to June 30, 2018 fiscal year is as follows:

Beginning balance, July 1, 2017	\$ 2,245,871
Deposit:	
Amount encumbered at June 30, 2017 and not utilized in	49,270
2017-18	49,270
Withdrawal:	
Approved by a resolution of the Board of	
Education	2,000,000
Ending balance, June 30, 2018	\$ 295,141

The balance in the maintenance reserve does not exceed four percent of the replacement cost of the school district's school facilities for the current year at June 30, 2018.

13. Construction Financing Act

The District's construction projects are being administered by the New Jersey Schools Development Authority (SDA) under the Educational Facilities Construction Financing Act. The SDA is responsible for the funding and management of the projects. The revenues and expenditures associated with these projects are reflected in the Capital Projects Fund.

Notes to the Basic Financial Statements

Year ended June 30, 2018

14. Deficit Fund Balances

The District has a deficit fund balance of \$12,464,930 in the General Fund and \$2,981,746 in the Special Revenue Fund as of June 30, 2018 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditures, asset, and liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability.

Since the State is recording the last two state aid payments in the subsequent fiscal year, the school district cannot recognize the last state aid payments on the GAAP financial statements until the year the State records the payable.

15. Deferred Compensation Plans

The Board offers its employees deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by ten separate administrators, permit participants to defer a portion of their salaries until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with the amounts, and all income attributable to these amounts are held in trust for the exclusive benefit of participating employees and their beneficiaries. During 2018, the District's employees contributed \$2,769,228 to these 403(b) plans.

16. Commitments

The District also has contracts with several vendors for goods and services that have not been received as of June 30, 2018. In the General Fund these encumbrances total \$3,108,974 and offset the unassigned deficit on the balance sheet.

17. Capital Leases

The District has a commitment to lease property under a capital lease agreement, with the intent to purchase this property at the end of the lease term, for a period of four years commencing on July 18, 2018 and terminating on July 31, 2022. The total capital lease payments are calculated as a fixed rent

Notes to the Basic Financial Statements

Year ended June 30, 2018

17. Capital Leases (continued)

percentage on an annual basis based on the building's basis on that date. Future minimum lease payments are estimated as follows:

		E	Beginning	Fixed	An	nual Fixed
	Lease Year		Basis	Rent %		Rent
-	2019	\$	20,000,000	8.22	\$	1,644,500
	2020		15,000,000	8.47		1,270,376
	2021		10,000,000	8.72		872,325
	2022		5,000,000	8.98		449,247

In addition to the above annual fixed rent payments, the District is required to pay \$5,000,000 as an annual payment due at the end of each lease year. These annual payments shall be credited against the \$20,000,000 purchase price. At the expiration of the lease term and upon completion of all required annual payments, the District may exercise its option to purchase the property in said lease agreement.

18. Change in Accounting Principle / Restatement

Effective in the fiscal year ended June 30, 2018, the District implemented Governmental Accounting Standards Board No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, replacing Governmental Accounting Standards Board No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

Since the Governmental Accounting Standards Board No. 75 requires the OPEB liability to be reported on the face of the financial statements rather than in the accompanying notes (as previously required by Statement 45, a restatement of prior year net position in the government-wide financial statements is required.

	G	overnmental
		Activities
Beginning Net Position - June 30, 2017	\$	190,578,403
Adjustments:		
Write-off OPEB Asset Balance		(239,148)

* The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, governments should present information for those years for which information is available.

Covered payroll information is not presented since the Teachers' Pension and Annuity Fund is a special funding situation in which the District does not make contributions to this plan.

Required Supplementary Information Part III

Budgetary Comparison Schedules

#### Trenton School District Note to Required Supplementary Information Budget to GAAP Reconciliation Year ended June 30, 2018

# Note A - Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

		General Fund	Special Revenue Fund
Sources/inflows of resources			
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule Difference - budget to GAAP:	[C-1, C-2]	\$ 282,673,140 \$	42,719,667
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.			
Current Year			(269,700)
Prior Year, net of cancellations			275,042
The last State aid payments are recognized as revenue for budgetary purposes, and differs from GAAP which does not recognize this revenue until the subsequent year when the			
State recognizes the related expense (GASB 33).		(21,081,034)	(2,981,746)
The prior year's last State aid payment is recognized for GAAP			
statements, not recognized for budgetary purposes.		 21,007,122	2,910,577
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds.	[B-2]	\$ 282,599,228 \$	42,653,840
Uses/outflows of resources			
Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	[C-1, C-2]	\$ 276,651,577 \$	42,719,667
Differences - budget to GAAP: Encumbrances (net) for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.			5,342
Transfers to other funds are presented as outflows of budgetary resources but are not expenditures			(1.010.05-)
for financial reporting purposes			(1,613,228)
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	[B-2]	\$ 276,651,577 \$	41,111,781

# **Statistical Section**

(Unaudited)

### Statistical Section Unaudited

### **Contents**

### **Financial Trends**

These schedules contain trend information to help the reader understand how the district's financial performance and well being have changed over time.

### **Revenue Capacity**

These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.

### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.

### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.

### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports (CAFR) for the relevant year.

Source: CAFR Schedule B-1 and District records.

Note 1: GASB #54 was implemented in the 2011 fiscal year, which required the presentations of fund balances to be reported in different classifications from those presented in prior years. Prior years have not been restated above and are not required to be.

Note 2: The deficits in the general fund and special revenue fund are the result of the last two state aid payments being deferred until the subsequent fiscal year. See notes to the basic financial statements for additional information.

Trenton District Direct Debt				 <u> </u>
Total direct and overlapping debt				\$ 172,898,231

Source City of Trenton Finance Office

- Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of The City of Trenton. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.
  - a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

Single Audit Section

# Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

The Honorable President and Members of the Board of Education Trenton School District County of Mercer Trenton, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Trenton School District, in the County of Mercer, State of New Jersey (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 15, 2019.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## The Honorable President and Members of the Board of Education Trenton School District

Page 2

of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report on Compliance For Each Major Federal and State Program and on Internal Control Over Compliance Required by the Uniform Guidance and New Jersey OMB Circular 15-08

Independent Auditors' Report

The Honorable President and Members of the Board of Education Trenton School District County of Mercer Trenton, New Jersey

# Report on Compliance for Each Major Federal and State Program

We have audited the Trenton School District's, in the County of Mercer, State of New Jersey (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2018. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

## Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and New Jersey OMB's Circular 15-08, *Single Audit Policy*

# The Honorable President and Members of the Board of Education Trenton School District

## Page 2

for Recipients of Federal Grants, State Grants, and State Aid. Those standards, Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

# **Opinion on Each Major Federal and State Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to previously that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2018.

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to previously. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or

## The Honorable President and Members of the Board of Education Trenton School District

Page 3

detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purposes.

N/A - Information not available. See accompanying notes to schedules of expenditures of federal awards and state financial assistance.

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2018

# 1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all expenditures of federal awards and state financial assistance programs of the District. The Board of Education is defined in Note 1 to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

# 2. Basis of Accounting

The accompanying schedules of expenditures of financial awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200-*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Therefore, some amounts presented in this schedule may differ from amounts presented, or used in the preparation of, the basic financial statements.

## 3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the fiscal year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

K-5 p. 2 (continued)

## Trenton School District

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2018

### 3. Relationship to Basic Financial Statements (continued)

The general fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the last two state aid payments in the current year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of the last two state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(73,912) for the general fund and \$(65,827) for the special revenue fund. See note to required supplementary information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds (C-3). Federal and State award revenues, including those contributed to school based budgets, are reported in the District's basic financial statements on a GAAP basis as follows:

	Federal	State	Total
Conorol fund	¢ 512.000	¢250 157 640	¢250,670,540
General fund	\$ 512,909	\$259,157,640	\$259,670,549
Special revenue fund	12,089,683	30,318,067	42,407,750
Capital projects fund		56,175,368	56,175,368
Enterprise fund	6,319,347	72,039	6,391,386
Total financial award revenues	\$18,921,939	\$345,723,114	\$364,645,053

# Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

### Year ended June 30, 2018

### 4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

### 5. Other

Revenues and expenditures reported under the Food Donation Program represent current year value received and current year distributions, respectively. TPAF Social Security Contributions represent the amount reimbursed by the State for the employer's share of Social Security for TPAF members for the year ended June 30, 2018.

The post retirement pension, medical benefits and long-term disability insurance received on-behalf of the District for the year ended June 30, 2018 amounted to \$21,178,474. Since on-behalf post retirement pension and medical benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB's Circular 15-08, however they are reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency.

The NJSDA is administering and constructing projects on behalf of the District. These expenditures are not subject to a Single Audit in accordance with New Jersey OMB's Circular 15-08, however they are reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency. The NJSDA expenditures incurred for the year ended June 30, 2018 amounted to \$56,175,368.

### 6. Indirect Costs

The District did not use the 10% de minimis indirect cost rate.

### 7. Adjustments

The adjustments presented on the schedule of state financial assistance represent cancelations of prior year liability and accounts receivable balances.
