# WOODBURY HEIGHTS BOARD OF EDUCATION 100 ACADEMY AVENUE WOODBURY HEIGHTS, NJ 08097

January 24, 2019

Honorable President and Members of the Board of Education Woodbury Heights School District Gloucester County, New Jersey

#### **Dear Board Members:**

The comprehensive annual financial report of the Woodbury Heights School District (District) for the fiscal year ended June 30, 2018, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the Management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart, and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), "Audits of State and Local Governments," and the New Jersey State OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: Woodbury Heights School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by Statement No. 14. All funds and account groups of the District are included in this report. The Woodbury Heights Board of Education and its school constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels Kindergarten through six. These include regular, as well as special education for handicapped students.

The District finished the 2017-2018 fiscal school year with a resident enrollment of 231 students, which is an increase of five (5) students enrolled from the previous year.

#### 1) REPORTING ENTITY AND ITS SERVICES (CONTINUED):

#### Average Daily Enrollment

2008-2009	235.0	.69%

- **2) ECONOMIC CONDITION AND OUTLOOK:** The Borough of Woodbury Heights is experiencing a period of minimal development and little expansion. The trend is expected to continue through the short term. The Borough is also experiencing a period of moderate housing sales. The state and national economy are reflected in the employment base of the area. Municipal leaders are working diligently with Gloucester County Office of Economic Development to replace lost businesses and commercial ratables.
- 3) MAJOR INITIATIVES: During the 2017-2018 school year, the Woodbury Heights School staff focused on three District objectives: 1) to build capacity of all teachers in aligning their lesson plans and assessments with the Next Generation Science Standards; 2) to develop a school-wide, standardized writing plan, including common vocabulary and strategies, across all grade levels and subject areas; and 3) to increase integration of technology applications and initiatives into daily practice to improve instructional practice and student achievement. To achieve these objectives, the District supports the following allocation of resources: professional development and release time for curriculum alignment and development in the areas of science and writing. Measures of Academic Progress (MAP) testing continues to be purchased for student benchmark assessment. The District continues to employ the services of a technology coach to work with classroom teachers. Chrome book and iPad purchases enable students to integrate technology into every subject area.

The Board continues to focus its efforts on reducing costs to the District and community by increasing shared services. These services are contracted through Gateway Regional High School and include: business office, purchasing, cafeteria, child study team, and curriculum. This sharing of services allows the District to enjoy a quality education program while realizing significant financial benefit.

The Board has inquired about creating more space in the District by expanding the front entrance. The additional building would be for educational space and office space as well as creating a more secure and inviting front entrance to the District. The architect and engineering firm has continuously met with the Board of Education, administrators as well as stakeholders in the community to proceed.

**4) INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District 4) are protected from loss, theft or misuse, and to ensure that adequate accounting data is

**4) INTERNAL ACCOUNTING CONTROLS (CONTINUED):** compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the District Management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

**5) BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the General Fund, the Special Revenue Fund, and the Debt Service Fund. Project-length budgets are approved for the capital improvements accounted for in the Capital Projects Fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2018.

- **6) ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.
- **7) DEBT ADMINISTRATION:** At June 30, 2018, the District's outstanding debt issues included \$232,516 of General Obligation Bonds.
- 8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 1. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- **9) RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, hazard and theft insurance on property and contents, and fidelity bonds through the Gloucester, Salem, and Cumberland County Joint Insurance Fund. Now in its sixteenth year of operations, the JIF is performing well, meeting and/or exceeding expectations.

- 10) OTHER INFORMATION: Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Petroni & Associates LLC was selected by the Woodbury Heights Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), "Audits of State and Local Governments," and the New Jersey OMB's Circular 15-08 "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid." The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.
- **11) ACKNOWLEDGMENTS:** We would like to express our appreciation to the members of the Woodbury Heights School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

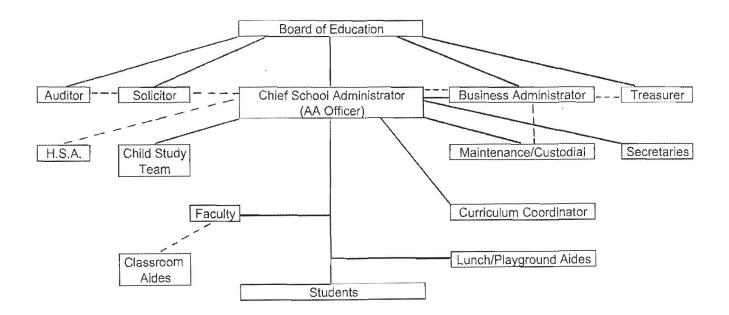

Respectfully submitted,

#### INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Woodbury Heights School District 100 Academy Avenue Woodbury Heights, New Jersey 08097

#### Report on the Financial Statements

We have audited the accompanying financial statements of the Governmental Activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Woodbury Heights School District, in the County of Gloucester, State of New Jersey, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Governmental Activities, each major fund, and the aggregate remaining fund information of the Woodbury Heights Board of Education as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Woodbury Heights Board of Education's basic financial statements. The combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), the schedule of state financial assistance as required by NJ OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by the Uniform Guidance, and the schedule of state financial assistance as required by NJ OMB's Circular 15-08 Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid, is the responsibility of management and was derived from

and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, as required by the Uniform Guidance, and the schedule of state financial assistance as required by NJ OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 24, 2019, on our consideration of the Woodbury Heights Board of Education's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* in considering Woodbury Heights Board of Education's internal control over financial reporting and compliance.

Required Supplementary Information – Part I

#### WOODBURY HEIGHTS SCHOOL DISTRICT Management's Discussion and Analysis Fiscal Year Ended June 30, 2018

Unaudited

The discussion and analysis of Woodbury Heights School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

#### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term and long-term* information about the District's *overall* financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.
- Governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about activities the District operates like business.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

#### **Financial Highlights**

Key financial highlights for 2018 are as follows:

- \* General revenues accounted for \$4,303,787 in revenue or 90 percent of all revenues.
- \* Program specific revenues, in the form of charges for services, grants, and contributions accounted for \$492,840 or 10 percent of total revenues of \$4,754,667.
- \* The School District had \$4,888,255 in expenses; only \$492,840 of these expenses were offset by program specific charges for services, grants or contributions.
- \* Among governmental funds, the General Fund had \$4,268,873 in revenues and the General Fund's fund balance increased \$266,798 over 2017.

#### **Using this Comprehensive Annual Financial Report (CAFR)**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Woodbury Heights School District as a financial whole; an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

#### **Using this Comprehensive Annual Financial Report (CAFR) (Continued)**

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For Governmental Funds, these statements tell how services were financed in the short-term as well as what remains for future spending.

The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Woodbury Heights School District, the General Fund is by far the most significant fund.

#### Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and ask the question, "How did we do financially during 2018?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those positions. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- \* Governmental Activities All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation, and extracurricular activities.
- \* Business-Type Activity This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Latchkey Enterprise Fund is reported as a business activity.

#### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's Governmental Funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

#### **Governmental Funds**

The School District's activities are reported in Governmental Funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to

#### **Governmental Funds (Continued)**

cash. The Governmental Fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental Fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

The relationship (or differences) between Governmental Activities (reported in the Statement of Net Position and the Statement of Activities) and Governmental Funds is reconciled in the financial statements.

#### **Enterprise Fund**

The Enterprise Fund uses the same basis of accounting as Business-type Activities; therefore, these statements are essentially the same.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

#### The School District as a Whole

The Statement of Net Position provides the perspective of the School District as a whole. Net positions may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District's net position for 2018, with comparative data from 2017.

The District's combined net position was \$(10,079,635). This was a decrease from the prior year. This was mainly due to a prior period adjustment of OPEB liability in the amount of \$(10,724,009) required by adoption of GASB Statements No. 75 (See Note 21 in the Notes to the Financial Statements).

Table 2 shows changes in net position for fiscal year 2018, with comparative data from 2017.

#### **Governmental Activities**

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the School District operations. Property taxes made up 57% of revenues for Governmental Activities for the Woodbury Heights School District for fiscal year 2018. The District's total revenues were \$4,754,667 for the year ended June 30, 2018. Federal, state, and local grants accounted for another 41.8% of revenue.

The total cost of all programs and services was \$4,888,255. Instruction comprises 44.2% of District expenses.

#### **Business-type Activities**

Revenues for the District's Business-type Activity (Latchkey program) were comprised of charges for services and federal and state reimbursements.

- \* Income was less than expenditures by \$2,934.
- \* Charges for services represent \$41,960 of revenue.

#### **Statement of Activities**

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services for the year 2018, with comparative data for 2017. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law. Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

#### The School District's Funds

All Governmental Funds (i.e., General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$4,754,667 and expenditures were \$4,487,869.

#### **General Fund Budgeting Highlights**

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal 2018 year, the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to tightly control program budgets but provide flexibility for program management.

• Transfers between budgetary line accounts to prevent overruns.

This fiscal year was completed utilizing a zero based budgeting process as implemented by the Board of Education and Administration. This process allowed us to more accurately account for our expenditures by school. Principals became more aware of their appropriation limitations and managed their individual school budgets effectively.

The General Fund revenues exceeded expenditures and other financing sources of the School District for the year by \$266,798.

#### **Capital Assets**

At the end of the fiscal year the School District had \$512,040 invested in land, building, furniture and equipment, and vehicles. Table 4 shows fiscal year 2018 balances compared to 2017.

Table 4

Overall capital assets decreased \$64,715 from the previous year. For more detailed information, please refer to the Notes to the Financial Statements.

#### **Debt Administration**

At June 30, 2018, the School District had \$259,779 of outstanding debt. Of this amount, \$27,263 is for compensated absences and \$232,516 is for serial bonds for the school HVAC project.

#### For the Future

The Woodbury Heights School District is in good financial condition presently. The District is proud of its community support of the public schools. A major concern is the sustained enrollment of the District with the increased reliance on local property taxes. However, future finances are not without challenges as the community continues to grow and State funding is uncertain.

In conclusion, the Woodbury Heights School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2018

Total net change in fund balances - Governmental Funds (from B-2)

\$ 253,642

Amounts reported for Governmental Activities in the Statement of Activities (A-2) are different because:

Capital outlays are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation expense Capital outlays

\$ (64,715) None

(64,715)

Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position and is not reported in the Statement of Activities.

Bond principal

25,000

In the Statement of Activities, certain operating expenses, e.g., compensated absences are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount the difference is an addition to the reconciliation.

2,939

Pension contributions are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the contributions are adjusted for actuarial valuation adjustments.

38,332

OPEB contributions are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the contributions are adjusted for actuarial valuation adjustments.

#### **NOTES TO THE FINANCIAL STATEMENTS**

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Introduction

The Woodbury Heights School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials who are responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education of Woodbury Heights School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to Governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing Governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in (GAAP) and used by the District are discussed below.

#### A. Reporting Entity

The Woodbury Heights School District is a Type II District located in the County of Gloucester, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in grades PreK-6.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting</u> Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's Board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

#### B. Basic Financial Statements – District-Wide Statements

The District's basic financial statements include both District-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds.) Both the District-wide and fund financial statements categorize primary activities as governmental. The District's general, special revenue, capital projects, and debt service are classified as Governmental Activities. Fiduciary Funds are excluded from the Government-wide financial statements.

In the District-wide Statement of Net Position the Governmental Activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts: invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. Basic Financial Statements – District-Wide Statements (Continued)

The District-wide Statement of Activities reports both the gross and net costs of each of the District's functions. The functions are also supported by general government revenues (property taxes, tuition, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenue, operating, and capital grants. Program revenues must be directly associated with the function (regular instruction, special education, student and instruction related services, etc.). Operating grants include operating specific and discretionary (either operating or capital) grants while the capital grants column reflects capital specific grants.

The net costs (by function) are normally covered by general revenue (property taxes, tuition, interest income, etc.).

The District does not allocate indirect costs such as depreciation expense, on-behalf TPAF Pension contributions, and reimbursed TPAF Social Security Contributions.

The District-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

#### C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The emphasis in fund financial statements is on the major funds in either the Governmental or Business-type Activities categories. Non-major funds by category are summarized into a single column. GASB 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements. The State of New Jersey Department of Education (NJDOE) has elected to require New Jersey Districts to treat each Governmental Fund as a major fund in accordance with the option in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District's Fiduciary Funds are presented in the fiduciary fund financial statement by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the District-wide statements.

The District reports the following Governmental Funds:

#### **GOVERNMENTAL FUNDS**

The focus of the Governmental Funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the Governmental Funds of the District:

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **GOVERNMENTAL FUNDS (CONTINUED)**

**General Fund** - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay Subfund.

As required by the New Jersey State Department of Education, the District included budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings, and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

**Special Revenue Fund** - The Special Revenue Fund is used to account for the proceeds of specific revenue from state and federal governments, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

**Capital Projects Fund** - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

**Debt Service Fund** - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

#### FIDUCIARY FUNDS

The Fiduciary Fund category is comprised of Trust and Agency Funds. Trust Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governments and therefore are not available to support District's programs. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

#### D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported on the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Basis of Accounting (Continued)

Both Governmental Activities in the District-wide financial statements and the Fiduciary Fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental funds financial statements are reported on the modified accrual basis of accounting. Under this method, revenues are recorded when they become both susceptible to accrual; i.e. both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenue from federal, state, or other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, claims and judgments, and compensated absences, are recorded when due.

#### E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the county office for approval and are approved as long as the District budget is within State mandated CAP's, there is no public vote on the budget. If the budget exceeds State mandated CAP's, the voters have an opportunity to approve or reject the budget at the regular election held in November. Budgets are prepared using the modified accrual basis of accounting, except for the Special Revenue Fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in NJAC 6:23-2(g). Budget amendments/transfers of appropriations may be made by School Board resolution at any time during the fiscal year and are subject to two-thirds majority vote by the School Board and, under certain circumstances, require approval by the County Superintendent of Schools. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grants accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### F. Encumbrances

Under encumbrance accounting purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in Governmental Funds, other than Special Revenue Fund, are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

#### G. Cash and Cash Equivalents

Cash and cash equivalents include petty cash, change funds, cash in banks, money market accounts, and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

For purposes of determining cash equivalents the District considers all investments with an original maturity of three months or less as cash equivalents.

New Jersey School Districts are limited to the types of investments and types of financial institutions they may invest in. New Jersey statute (NJSA 18A:20-37) provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

NJSA 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks), and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least 5% of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

#### H. Inventories

Inventories are recorded as expenditures during the year of purchase.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### I. Interfund Transactions

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayment from funds responsible for particular expenditures/ Expenses, to the funds that initially paid for them, are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/ payables. These amounts are eliminated in the Statement of Net Assets, except for amounts due between Governmental and Agency Funds, which are presented as internal balances.

#### J. Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the assets' lives are not capitalized. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the estimated useful lives;

	Estimated
Asset Class	Useful Lives
Site improvements	20
Building & improvements	20-50
Machinery & equipment	7-20

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and underground pipes. Such items are considered to be part of the cost of buildings or other improvable property.

#### K. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Government Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and negotiated agreement with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave that is expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the School District's past experience of making termination payments. Salary-based payments for the employer's share of social security and Medicare taxes are included.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### K. Compensated Absences (Continued)

For the District-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the Governmental Funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

#### L. Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

#### M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, Governmental Fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full, from current financial resources; are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from Governmental Funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

#### N. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Funds are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both Restricted and Unrestricted Funds are available.

#### O. Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

**Non-spendable** - The non-spendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### O. Fund Balance (Continued)

**Restricted** - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions or constraints are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

**Committed** - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

**Assigned** - The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes.

**Unassigned** - The unassigned fund balance classification is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District considers Restricted Funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of Committed Funds, then Assigned Funds, and finally Unassigned Funds, as needed.

#### P. Revenues

Substantially all Governmental Fund revenue is accrued. Property taxes are susceptible to accrual and under New Jersey State statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable." Subsidies and grants to Proprietary Funds, which finance either capital or current operations, are reported as non-operating revenue based on GASB No. 33. In applying GASB No. 33 to grant revenues, the provider recognizes liabilities and expenses and recipient recognizes receivables and revenue when the applicable eligibility requirements are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Q. Expenditures

Expenses are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

#### R. Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

#### S. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

#### T. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

#### **U.** Recent Accounting Pronouncements Not Yet Effective

In November 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 83, "Certain Asset Retirement Obligations." This statement, which is effective for fiscal periods beginning after June 15, 2018, will not have any effect on the District's financial reporting.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, "Fiduciary Activities." This statement, which is effective for fiscal periods beginning after December 31, 2018, will not have any effect on the District's financial reporting.

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, "Leases." This statement, which is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the District's financial reporting.

In April 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 88, "Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements." This statement, which is effective for fiscal periods beginning after June 15, 2018. Management has not yet determined the impact of this Statement on the financial statements.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### U. Recent Accounting Pronouncements Not Yet Effective (Continued)

In June 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 89, "Accounting for Interest Costs Incurred Before the End of a Construction Period." This statement, which is effective for fiscal periods beginning after December 15, 2019. Management has not yet determined the impact of this Statement on the financial statements.

In August 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 90, "Majority Equity Interests-an Amendment of GASB Statements No. 14 and No. 61." This statement which is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the District's financial reporting.

#### **NOTE 2: CASH AND CASH EQUIVALENTS**

Custodial Credit Risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's policy is based on New Jersey statutes requiring cash to be deposited only in New Jersey banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA), or in qualified investments established in NJSA 18A:20-37 that are treated as cash equivalents. The carrying amount of the District's cash and cash equivalents at June 30, 2018 and 2017, was \$1,332,513 and \$1,096,794 respectively. As of June 30, 2018 and 2017, \$0 of the District's bank balance of \$1,439,742 and \$1,179,227 respectively, was exposed to Custodial Credit Risk.

During the fiscal year, the District participated in the New Jersey Cash Management Fund. The fund is governed by regulations of the State Investment Council, who prescribe standards designed to insure the quality of investments in order to minimize risk to the Fund participants. Deposits with the New Jersey Cash Management Fund are not subject to custodial credit risk as defined above. As of June 30, 2018, the District had deposits in the amount of \$84,753 in the New Jersey Cash Management Fund.

#### **NOTE 3: INVESTMENTS**

**Interest Rate Risk** - The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, NJSA 18A:20-37 limits the length of time for most investments to 397 days.

**Credit Risk** - NJSA 18A:20-37 limits District investments to those specified in the Statutes. The type of allowable investments are: Bonds of the United States of America or of the District or the local units in which the District is located; obligations of federal agencies not exceeding 397 days; Government Money Market Mutual Funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

**Concentration of Credit Risk** - The District places no limit on the amount the District may invest in any one issuer.

#### **NOTE 4: RECEIVABLES**

Receivables at June 30, 2018, consisted of Intergovernmental and other receivables. All receivables are considered collectible in full. A summary of the principal items of the receivables are as follows:

	Gov	ernmental

#### NOTE 7: GENERAL LONG-TERM DEBT

Bonds are authorized in accordance with State law by the voters of the District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are General Obligation Bonds.

Permanently funded debt as of June 30, 2018, consisted of the following:

\$377,516 General Obligation Refunding Bonds dated March 1, 2011, payable in annual installments through March 1, 2026. Interest is paid semi-annually at the rate of 3.85% per annum. The balance remaining at June 30, 2018, was \$232,516.

#### **Long-Term Obligation Activity**

Changes in long-term obligations for the fiscal year ended June 30, 2018, are as follows:

As of June 30, 2018, the Board had no authorized but not issued debt.

#### Other

Interest paid on debt issued by the District is exempt from federal income tax. Because of this, bond holders are willing to accept a lower interest rate than they would on taxable debt. The District temporarily reinvests the proceeds of such debt in higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this as arbitrage.

Earnings in excess of the yield on the debt issue are rebated to the federal government based on the requirements in the Internal Revenue Code. Arbitrage rebate payable represents amounts due to the Internal Revenue Service for interest earned on unspent bond proceeds that exceeds legally allowable returns.

#### NOTE 7: GENERAL LONG-TERM DEBT (CONTINUED)

#### Other (Continued)

Rebatable arbitrage liabilities related to District debt are not recorded in Governmental Funds. There is no recognition in the balance sheet or income statement until rebatable amounts are due and payable to the federal government. Thus, rebatable arbitrage liabilities related to governmental debt will be accrued as incurred at least annually (at fiscal year-end) on the District-wide financial statements.

For the year ended June 30, 2018, it is not necessary for the Board to establish a liability for arbitrage rebate.

#### **NOTE 8: PENSION FUNDS**

**Description of Plans** - All required employees of the District are covered by either the Public Employees' Retirement System, (PERS) or the Teachers' Pension and Annuity Fund (TPAF), cost-sharing, multiple-employer defined benefit pension plans, which have been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295 or can be accessed on the internet at: <a href="http://www.state.nj.us/treasury/pensions/financial-reports.shtml">http://www.state.nj.us/treasury/pensions/financial-reports.shtml</a>.

**Teachers' Pension and Annuity Fund (TPAF)** - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of NJSA 18A:66 to provide retirement benefits, death, disability, and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing, multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners and employees of the Department of Education who have titles that are unclassified, professional, and certified.

**Public Employees' Retirement System (PERS)** - The Public Employees' Retirement System (PERS) was established as of January 1, 1955, under the provisions of NJSA 43:15A to provide retirement, death, disability, and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing, multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

**Funding Policy** - The contribution policy is set by NJSA 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997, and NJSA 18:66 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Effective with the first payroll to be paid on or after October 1, 2011, the

#### NOTE 8: PENSION FUNDS (CONTINUED)

**Funding Policy (Continued)** - employee contributions for TPAF and PERS increased from 5.5% of employee's annual compensation, as defined, to 6.5%. Subsequent increases will be phased in over 7 years (each July 1) to bring the total pension contribution rate to 7.5% as of July 1, 2018. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for, cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. The current TPAF and PERS rate is 7.2% of covered payroll. The District's contributions to PERS for the years ending June 30, 2018, 2017, and 2016, were \$18,271, \$21,770, and \$24,192, respectively, equal to the required contributions for each year.

During the fiscal year ended June 30, 2018, the State of New Jersey contributed \$406,019, to the TPAF for normal and post-retirement benefits on behalf of the District. Also, in accordance with NJSA 18A:66-66, the State of New Jersey reimbursed the District \$130,773 during the year ended June 30, 2018, for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. These amounts have been included in the financial statements, and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB 27.

The District's total payroll for the year ended June 30, 2018, was \$2,323,271. Covered payroll was \$169,857 for PERS and \$1,740,812 for TPAF for the year ended June 30, 2018.

For the year ended June 30, 2018, the District recognized pension expense of \$1,709. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	De	eferred	D	eferred)
	Out	tflows of	In	flows of
	Re	sources	Re	esources

\$21,770 reported as deferred outflows of resources related to pensions resulting from school district project contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Defined Contribution Retirement Program** - The Defined Contribution Retirement Program (DCRP) is a cost-sharing, multiple-employer defined contribution pension fund which was established on July 1, 2007, under provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (NJAC 43:15C-1 et seq.). The DCRP provides eligible members and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provision are established by NJSA 43:15C-1 et seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right, under the current law, to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, state statute also requires the return to the normal rate when such surplus pension assets no longer exist. In addition to the employee contributions, the School District's contributes amounts for each pay period to Prudential Financial, not later than the fifth business day after the date on which the employee is paid for that pay period. The School District's contributions for the year ending June 30, 2018, was \$5,022 for covered employees.

#### **NOTE 9: POST-EMPLOYMENT BENEFITS**

P.L. 1987, c.384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. The cost of these benefits is funded

#### NOTE 9: POST-EMPLOYMENT BENEFITS (CONTINUED)

through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a Board of Education or county college with 25 years of service. (GASB Cod. Sec. 2300.106(g).

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB No. 75.

#### **Employees Covered by Benefit Terms**

At June 30, 2018, the following employees were covered by the benefit terms:

#### • TPAF Participant Retirees

As of June 30, 2017, there were 112,966 retirees receiving post-retirement medical benefits and the State contributed \$1.39 billion on their behalf.

#### • PERS Participant Retirees

The State paid \$238.9 million toward Chapter 126 benefits for 209,913 eligible retired members in Fiscal Year 2017.

#### **Total OPEB Liability**

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASB No. 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the Board of Education/Board of Trustees. Note that actual numbers will be published in the NJ State's CAFR at: <a href="https://www.nj.gov/treasury/omb/publications/archives.shtml">https://www.nj.gov/treasury/omb/publications/archives.shtml</a>.

Actuarial assumptions and other imputes. The total OPEB liability in the June 30, 2017, actuarial valuation reported by the State in the State's most recently issued CAFR was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Inflation 2.50%

Salary increases Differs by pension group (e.g. - PERS, TPAF).

See Actuarial Assumptions in the Notes to Required Supplementary Information - Note 4.

Discount rate 3.58%

#### NOTE 9: POST-EMPLOYMENT BENEFITS (CONTINUED)

#### **Total OPEB Liability (Continued)**

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Bond index.

Mortality rates were based on the RP-2014 headcount-weighted mortality table for healthy and disabled lives with fully generational mortality improvement projections from the central year using Scale MP-2017.

The actuarial assumptions used in the June 30, 2016 valuation were based on the result of an actuarial experience study for the period July 1, 2016 through June 30, 2017.

### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the Woodbury Heights Board of Education recognized OPEB expense of \$380,172 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75 and in which there is a special funding situation.

In accordance with GASB No. 75, the Woodbury Heights Board of Education proportionate proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of share of deferred outflows of resources and deferred inflows of resources. At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB from the following sources:

	Deferred Outflows of Resources	erred Inflows Resources
Changes of assumptions Changes in proportion and differences between District		\$ 1,167,983

#### NOTE 10: DEFERRED COMPENSATION

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plan, which is administered by the entity listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning, Inc. Siracusa Equi-Vest

#### **NOTE 11: COMPENSATED ABSENCES**

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and that are not contingent on a specific event that is outside the control of the employer and employee is accrued as the employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and negotiated agreements with the various employee unions.

The liability for vested compensated absences is recorded in the District-wide *Statement of Net Position*. The current portion of the compensated absence balance is not considered material to the Governmental Funds total liabilities and, is therefore not shown separately from the amount due in more than one year.

#### **NOTE 12: LABOR CONTRACTS**

As of June 30, 2018, the District has a total of approximately 68 employees. Of this total, approximately 29 employees are represented by the Woodbury Heights Education Association whose union agreement will expire on June 30, 2020.

#### **NOTE 13: RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

#### **Property and Liability Insurance:**

The District maintains commercial insurance coverage for property, liability, student accidents, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. Any potential liability of the District, with respect to loss claims, would be equal to the deductibles associated with policies and events which may exceed coverage limits. There have been no significant reductions in insurance coverage amounts.

#### NOTE 14: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Woodbury Heights Board of Education by inclusion of \$1 in the original 2000-2001 annual capital outlay budget, for the accumulation of funds, for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual General Fund budget, certified for taxes or by transfer by board resolution at year-end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to NJSA 19:60-2. Pursuant to NJAC 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2017 to June 30, 2018, fiscal year, is as follows:

Beginning balance - July 1, 2017	\$ 150,005
Deposits approved by resolution	87,000
Interest earned	 469
Ending balance - June 30, 2018	\$ 237,474

The LRFP balance of local support costs of uncompleted capital projects at June 30, 2018, is \$238,215.

#### **NOTE 15: FUND BALANCE APPROPRIATED**

Restrictions of fund balances of Governmental Funds are established to either (1) satisfy legal covenants that require a portion of the fund balance to be segregated or (2) identify the portion of the fund balance that is not appropriate for future expenditures.

The District follows the State of New Jersey's minimum fund balance policy for New Jersey Public School Districts (NJSA 18A:7F-7). Pursuant to that policy, an undesignated fund balance of 2% of the general fund budget or \$250,000, whichever is greater may be maintained.

Specific classifications of fund balance are summarized below:

#### Restricted

General Fund - In accordance with NJSA 18A:7F-7, \$930,738 is restricted as excess surplus (\$377,950 of the total restricted amount has been appropriated and included as anticipated revenue for the year ending June 30, 2018).

Capital Projects Fund – The Capital Projects Fund balance as of June 30, 2018, was \$29,933.

#### NOTE 15: FUND BALANCE APPROPRIATED (CONTINUED)

#### **Assigned**

General Fund - The District has appropriated and included as an anticipated revenue for the year ended June 30, 2019, \$0 of General fund balance as of June 30, 2018. As of June 30, 2018, the District had \$6,965 of encumbrances outstanding for purchase orders and contracts signed by the District, but not completed, as of the close of the fiscal year.

Debt Service Fund - The Debt Service Fund balance as of June 30, 2018, was \$1.

#### Unassigned

General Fund - As of June 30, 2018, a balance of \$155,292 of fund balance was unassigned.

#### NOTE 16: CALCULATION OF EXCESS SURPLUS

The designation of Reserve Fund Balance - Excess surplus is a required calculation pursuant NJSA 18A:7F-7, as amended. New Jersey School Districts are required to reserve General Fund, fund balance at the fiscal year-end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2018, is \$930,738.

#### **NOTE 17: CONTINGENT LIABILITIES**

The District participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

It is the opinion of the administration and legal counsel, that there exists no litigation or contingent liability that may be pending against the Woodbury Heights School District that would have a material or adverse effect on the Board or the financial position of the District.

#### **NOTE 18: ECONOMIC DEPENDENCY**

The District is heavily reliant on state aid and local tax levy to fund the District's operations. State sources accounted for approximately 36% of the District's 2017-2018 General Fund revenue, while local tax levy accounted for approximately 63%.

#### **NOTE 19: TAX ABATEMENTS**

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements and that potential must be disclosed in these

#### **NOTE 19: TAX ABATEMENTS (CONTINUED)**

financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because NJSA 54:4-75 and NJSA 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district Board of Education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at NJSA 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Borough of Woodbury Heights did not have any tax abatements for the year ended December 31, 2017.

#### **NOTE 20: SUBSEQUENT EVENTS**

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2018 and January 24, 2019, the date that the financial statements were available to be issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

#### NOTE 21: CHANGE IN ACCOUNTING PRINCIPLE

During the year beginning July 1, 2017, the District adopted the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" whose primary objective is to improve accounting and financial reporting for postemployment benefits other than pensions (OPEB). These statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures for OBEB.

The effect of this change was to decrease fiscal year ended June 30, 2017, net position by \$10,724,009 which is the prior period adjustment of net OPEB liability. Financial statements for the fiscal year ended June 30, 2017, have not been restated and the cumulative effect of the change totaling \$10,724,009 is shown as a one-time debit to net position in the fiscal year ended June 30, 2018, Statement of Activities.

The data in the above schedule represents the allocation of the State of New Jersey's obligation *on behalf* of the District.

The Teachers' Pension and Annuity Fund (TPAF) On-behalf Payments is a Cost Sharing, Multi-Employer Defined Benefit Plan with a Special Funding Situation - 100% Legal Obligation of the State of New Jersey (State).

Since the State is the only entity with a legal obligation, the District's proportionate share percentage determined under paragraph 48 of GASB No. 68 is zero percent. Accordingly, the District did not recognize any portion of the TPAF collective net pension liability on the Statement of Net Position (A-1). Also on the A-1, and for the same reasons, the District did not recognize any portion of TPAF collective deferred outflows of resources and TPAF deferred inflows of resources.

The total pension liability for the June 30, 2017, measurement date was determined by an actuarial valuation as of July 1, 2016, which was rolled forward to June 30, 2017. The actuarial valuation used the following actuarial assumptions:

Inflation rate 2.25%

Salary increases:

Through 2026 1.65-4.15% based on age Thereafter 2.65-5.15% based on age

Investment rate of return 7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Tables for male and female active participants. For local employees, mortality tables are setback 2 years for males and 7 years for females. In addition, the table provides for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

#### WOODBURY HEIGHTS SCHOOL DISTRICT NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

#### NOTES RELATED TO OTHER POST-EMPLOYMENT BENEFITS

#### **NOTE 3: CONTRIBUTIONS**

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with NJSA 52:14-17.32f. According to NJSA 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in or retires on a disability pension from one or more of the following plans: the Teacher's Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011, will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

#### **NOTE 4: ACTUARIAL ASSUMPTIONS**

The total nonemployer OPEB liability as of June 30, 2017, was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The total nonemployer OPEB liability as of June 30, 2016, was determined by an actuarial valuation as of June 30, 2016. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%
Salary increases (TPAF):	
Through 2026	1.55 – 4.55% based on years of service
Thereafter	2.00 - 5.45% based on years of service
Salary increases (PERS):	
Through 2026	2.15 – 4.15% based on age
Thereafter	3.15 – 5.15% based on age

Pre-retirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Post-retirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2016, valuation were based on the results of actuarial experience studies for the periods July 1, 2012 – June 30, 2015 and July 1, 2011 – June 30, 2014, for TPAF and PERS, respectively.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### **Independent Auditor's Report**

Honorable President and Members of the Board of Education Woodbury Heights School District 100 Academy Avenue Woodbury Heights, New Jersey 08097

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the Governmental Activities, each major fund, and the aggregate remaining fund information of the Woodbury Heights School District, in the County of Gloucester, State of New Jersey, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Woodbury Heights School District's basic financial statements, and have issued our report thereon dated January 24, 2019.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Woodbury Heights School District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Woodbury Heights School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Woodbury Heights School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE REQUIRED BY UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AUDIT REQUIREMENTS FOR FEDERAL AWARDS (UNIFORM GUIDANCE), AND NEW JERSEY OMB'S CIRCULAR 15-08

#### **Independent Auditor's Report**

The Honorable President and Members of the Board of Education Woodbury Heights School District 100 Academy Avenue Woodbury Heights, New Jersey 08063

#### Report on Compliance for Each Major State Program

We have audited the Woodbury Heights School District's compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Woodbury Heights School District's major state programs for the year ended June 30, 2018. Woodbury Heights School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Woodbury Heights School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit* 

Requirement for Federal Awards (Uniform Guidance); and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid. Those standards, Uniform Guidance and New Jersey OMB's Circular 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Woodbury Heights School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Woodbury Heights School District's compliance.

#### Opinion on Each Major State Program

In our opinion, the Woodbury Heights School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2018.

#### Report on Internal Control Over Compliance

Management of Woodbury Heights School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Woodbury Heights School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with New Jersey OMB's Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Woodbury Heights School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB's Circular 15-08. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedules of Expenditures of Federal Awards and State Financial Assistance Required by the Uniform Guidance and New Jersey OMB's Circular 15-08

We have audited the financial statements Woodbury Heights School District as of and for the year ended June 30, 2018, and have issued our report thereon dated January 24, 2019, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by the Uniform Guidance and New Jersey OMB's Circular 15-08 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditure of federal awards and state financial assistance are fairly stated in all material respects in relation to the financial statements as a whole.

#### WOODBURY HEIGHTS SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2018

#### **NOTE 1: GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Woodbury Heights School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

#### NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting. These basis of accounting are described in Note 1 to the Board's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200 - *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid.* Therefore, some amounts presented in these schedules may differ from amounts presented in or used in the preparation of the basic financial statements.

#### NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of one or more deferred June state aid payments in the current budget year, which is mandated pursuant to NJSA 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes the one or more state aid June payments in the current budget year, consistent with NJSA 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$2,200 for the General Fund and \$0 for the Special Revenue Fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the General and Special Revenue Funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

#### WOODBURY HEIGHTS SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2018

#### NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONTINUED)

	Federal	State	Total
General fund		\$ 1,537,638	\$ 1,537,638
Special revenue fund	\$ 129,905	320,975	450,880
	\$ 129,905	\$ 1,858,613	\$ 1,988,518

#### NOTE 4: RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

#### NOTE 5: OTHER

The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the District for the year ended June 30, 2018. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2018.

### NOTE 6: ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT MAJOR PROGRAM DETERMINATION

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefit Contributions are excluded from State single audit major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amounts subject to State single audit and major program determination.

#### **NOTE 7: INDIRECT COST RATE**

The Woodbury Heights School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

### NOTE 8: ADJUSTMENTS TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

The adjustment of \$1,144 for lead testing for school's aid represents the amount expended in the prior fiscal year and reimbursed to the District in the current fiscal year.

The adjustment of \$200 for nonpublic transportation aid is the cancellation of a prior year receivable balance.

The adjustment of \$12,955 for IDEA Part B, Basic grant award is the cancellation of a prior year receivable balance.
