Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made on a test basis as of June 30, for proper classification of orders as reserve for encumbrances and accounts payable.

Classification of Expenditures – General and Administrative

The coding of expenditures was tested for proper classification in accordance with N.J.A.C. 6A23-2.2(f) as part of our test of transactions of randomly selected expenditure items. We also reviewed the coding of all expenditures included in our compliance and single audit testing procedures. In addition to randomly selecting a test sample, our sample selection specifically targeted administrative coding classifications to determine overall reliability and compliance with N.J.A.C. 6A:23-8.3. As a result of the procedures performed, no errors were noted and no additional procedures were deemed necessary to test the propriety of expenditure classifications.

School Purchasing Programs

Contracts and Agreements Requiring Advertisement for Bids

N.J.S.A. 18A:18A-3 states:

a. "When the cost or price of any contract awarded by the purchasing agent in the aggregate, does not exceed in a contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent when so authorized by resolution of the Board of Education without public advertising for bids and bidding therefore, except that the Board of Education may adopt a resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. of section 9 of P.L.1971, c. 198 the Board of Education may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.

b. Commencing in the fifth year after the year in which P.L.1999, c. 440 takes effect and every five years thereafter, the Governor, in consultation with the Department of Treasury, shall adjust the threshold amount and the higher threshold amount which the Board of Education is permitted to establish as set forth in subsection a. of this section or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in N.J.S.A. 18A:18A-2, and shall round the adjustment to the nearest \$1,000. The Governor shall notify all local school districts of the adjustment no later than June 1 of every fifth year. The adjustment shall become effective on July 1 of the year in which it is made . . . ."

N.J.S.A. 18A:18A-4 states, "Every contract for the provision or performance of any goods or services the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the Board of Education to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this chapter or specifically by any other law . . . ."

Effective July 1, 2015, the bid thresholds in accordance with N.J.S.A. 18A:18A-2 and 18A:18A-3(a) are \$40,000 (with a Qualified Purchasing Agent) and \$29,000 (without a Qualified Purchasing Agent), respectively. The law regulating bidding for public school student transportation contracts under N.J.S.A. 18A:39-3 is currently \$19,000.

School Purchasing Programs (Cont'd)

Contracts and Agreements Requiring Advertisement for Bids (Cont'd)

The Board of Education has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Attorney's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed. General compliance was noted.

The results of our examination indicated that no individual payments, contracts, or agreements were made "for the performance of any work or the furnishing or hiring of any materials or supplies", in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A. 18A:18A-4.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 18A:18A-5.

The system of records did not provide for an accumulation of purchases for which the school board used contracts entered into by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained.

School Food Service

The school food service program was not selected as a major federal and/or state program. We inquired of school management, or the appropriate school food service personnel, as to whether the SFA had any Child Nutrition Program reimbursement overclaims or underclaims. No exceptions were noted.

We also inquired of school management, or appropriate school food service personnel, as to whether the SFA's expenditures of school food service revenues were limited to allowable direct and indirect costs. No exceptions were noted.

Non-program foods were purchased, prepared or offered for sale. The Statement of Revenue, Expenses and Changes in Net Position in the CAFR Schedule B-5 does separate program and non-program revenue and program and non-program cost of goods sold.

Finding

Net cash resources of the Food Service Fund exceeded three months average expenditures by approximately \$13,850. However, since the District has plans to purchase capital assets and upgrade meal choices in fiscal year 2018-2019, and reduce net cash resources as a result, a formal recommendation is not deemed necessary.

Student Body Activities

In planning and performing our audit of the financial statements of the Board, we considered the condition of the records of the Student Activities Fund for the purpose of expressing our opinion on the financial statements and not to provide specific assurance on the condition of the records. No exceptions were noted.

Application for State School Aid

Our audit procedures included a test of enrollments and related services reported in the October 13, 2017 Application for State School Aid (A.S.S.A.) for on-roll, bilingual education, private schools for the disabled and low income. We also performed a review of the District procedures related to its completion. The information on the A.S.S.A. was compared to the District workpapers without exception. The information that was included on the workpapers was verified on test basis without exception. The results of our procedures are presented in the Schedule of Audited Enrollments.

The District did maintain workpapers on the prescribed State forms or their equivalent.

The District has adequate written procedures for the recording of student enrollment data.

Pupil Transportation

Our audit procedures included a test of on-roll status reported in the 2017-2018 District Report of Transported Resident Students (DRTRS). The information that was included on the DRTRS was verified to the DRTRS Eligibility Summary Report without exception. The results of our procedures are presented in the Schedule of Audited Enrollments.

Our procedures also included a review of transportation related contracts and purchases. Based on our review, the District complied with proper bidding procedures and award of contracts. No exceptions were noted in our review of transportation related purchases of goods and services.

Facilities and Capital Assets

The Lafayette Township School District did not have any active SDA Grants as of June 30, 2018.

Travel Expenses

Travel regulations require each District to adopt a formal policy and procedure pertaining to travel and travel expense reimbursement for its employees and board members. The regulations include requirements for the District to establish a maximum travel amount for the year and to ensure that the maximum amount is not exceeded. The regulations also require that all travel must be pre-approved by the Board of Education and Superintendent and that a brief report detailing the key issues addressed at the travel event be submitted after the travel event has occurred.

A review of the District's travel expenses was made on a test basis for the fiscal year ended June 30, 2018 and overall compliance was noted.

Testing for Lead of all Drinking Water in Educational Facilities

The District did submit the annual Statement of Assurance to the NJ Department of Education, pursuant to N.J.A.C. 6:26-12.4(g).

Management Suggestions:

Purchasing Compliance

It has come to our attention that a number of school districts in New Jersey are being cited by the State Department of Education for the purchasing of goods or services prior to the issuance of an approved purchase order. We are taking this opportunity to reiterate to our clients that a valid, approved purchase order must be prepared prior to obligating the District to a purchase of goods or services to be in compliance with requirements of the State.

System and Organization Controls Reports

Many school districts contract with service providers to perform functions such as the processing of payroll and provision of food service management services. In conjunction with these services, the service provider will engage an auditor to perform a SOC 1 (System and Organization Controls) engagement which results in a SOC 1 report. There are two different types of SOC 1 reports - a Type 1 and a Type 2 report. Both report on the fairness of the presentation of management's description of the service organization's system and the design of the controls to achieve the related control objectives. The Type 1 report is through a specific period. The Type 2 report also reviews the operating effectiveness of the controls included in the description throughout a specified period. Included in the Type 2 report will be the individual controls, what was tested and the results of the testing.

We suggest that the District review these SOC 1 reports to determine if there are any exceptions noted in the opinion in the Independent Auditors' Report. Additionally, for SOC 1 Type 2 reports we suggest that the District review the test results related to the individual control testing to determine if there were any exceptions noted. If exceptions are noted in the report the District should contact the service provider and inquire what steps the service provider is taking to address these exceptions.

Status of Prior Year's Findings/Recommendations

The prior year recommendation regarding obtaining required approval signatures on payroll registers was resolved.
