Financial Planning, Accounting and Reporting

Examination of Claims

An examination of claims paid during the period under review did not indicate any discrepancies with respect to signatures, certifications or supporting documentation.

Classification of Expenditures

The coding of expenditures was tested for proper classification in accordance with N.J.A.C. 6A:23A-16.2(f) as part of our test of transactions of expenditure items. We also reviewed the coding of all expenditures included in our compliance and single audit testing procedures. In addition to randomly selecting a test sample, our sample selection included administrative coding classifications to determine overall reliability and compliance with N.J.A.C. 6A:23A-8.3.

Payroll/Personnel

The net salaries of all employees of the Board were deposited in the Payroll Account. Employees' payroll deductions and employer's share of fringe benefits were deposited in the Payroll Agency Account.

Salary withholdings were promptly remitted to the proper agencies.

Finding – Our audit revealed the District was not monitoring state and federal tax remittances made by the payroll company on behalf of the District.

Recommendation – Procedures be implemented to ensure the District is monitoring the state and federal tax remittances made by the payroll company on behalf of the District.

Financial Planning, Accounting and Reporting (Continued)

Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made as of June 30, for goods not yet received or services not yet rendered to determine that no blanket purchase orders were included in the balance of the reserves for encumbrances. Also, unpaid purchase orders included in the balance of accounts payable were received for propriety and to determine that goods were received and services were rendered, as of June 30.

Finding (CAFR Finding 2018-001) – Our audit revealed that certain capital contracts were not encumbered when awarded.

Recommendation – Contracts should be encumbered when awarded and be properly classified as either reserve for encumbrance or accounts payable.

Board Secretary's Records

The financial records, books of account and minutes maintained by the Board Secretary were reviewed.

The prescribed contractual order system was followed.

Bids received were summarized in the minutes (N.J.S.A. 18A:18A-21).

Acknowledgement of the Board's receipt of the Board Secretary and Treasurer's monthly financial reports was included in the minutes with exceptions noted. The monthly certification of the availability of line item appropriations and fund balances were also approved.

Treasurer's Records

The Treasurer did perform cash reconciliations for all accounts required.

All cash receipts were promptly deposited.

Elementary and Secondary Education Act (E.S.E.A.), as amended by the Every Student Succeeds Act (ESSA)

Financial Planning, Accounting and Reporting (Continued)

T.P.A.F. Reimbursements

Our audit procedures included a test of the semi-monthly reimbursement forms filed with the Department of Education for district employees who are members of the Teachers Pension and Annuity Fund. No exceptions were noted.

School Purchasing Programs

Contracts and Agreements Requiring Advertisement for Bids

Effective July 1, 2015 and thereafter, the bid thresholds in accordance with N.J.S.A. 18A:18A-2 and 18A:18A-3(a) are \$40,000 (with a Qualified Purchasing Agent) and \$29,000 (without a Qualified purchasing Agent), respectively. The law regulating bidding for public school student transportation contracts under N.J.S.A. 18A:39-3 is currently \$19,000. The Board has designated the School Business Administrator as the qualified purchasing agent.

The Board of Education has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Board Attorney's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per <u>N.J.S.A.</u> 18A:18A-5.

The system of records did not provide for an accumulation of purchases for which the school board used contracts entered into by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained. Our examination did reveal, however, that purchases were made through the use of State contracts.

School Food Service

The financial transactions and statistical records of the school food services were maintained in good condition. The financial accounts, meal count records and eligibility applications were reviewed on a test-check basis. No exceptions were noted.

Cash receipts and bank records were reviewed for timely deposit. No exceptions were noted.

The District utilized a food service management company (FSMC) and is depositing and expending program monies in accordance with N.J.S.A. 18A:17-34 and 19-1 through 19-4.1. Provisions of the FSMC contract addendum were reviewed and audited. The FSMC contract includes an operating result provision which guarantees that the food service program will return a profit of at least \$25,000. The operating results provision has been met. All vendor discounts, rebates and credits from vendors and/or the FSMC were tracked and credited to the Food Service Account and reconciled to supporting documentation at least annually.

Expenditures should be separately recorded as food, labor and other costs. Vendor invoices were reviewed and costs verified. Inventory records on food and supply items were currently maintained and properly applied in determining the cost of food and supplies used.

4

School Food Service (Continued)

The cash disbursements records reflected expenditures for program related goods and services. The appropriate revenue and expenditure records were maintained in order to substantiate the non-profit status of the school food service.

Net cash resources did not exceed three months average expenditures.

The number of meals claimed for reimbursement was verified against sales and meal count records. As part of the claims review process the Edit Check Worksheet was completed. Reimbursement vouchers were timely filed, and meals claimed agreed the meal count records, as detailed on the Schedule of Meal Activity.

Applications for free and reduced price meals were reviewed for completeness and accuracy. The number of free and reduced price meals claimed as served did not exceed the number of valid applications on file, times the number of operating days, on a school-by-school basis. The free and reduced price meal and free milk policy is uniformly administered throughout the school system. The required verification procedures for free and reduced price applications were completed and available for review.

Finding (CAFR Finding 2018-002) – Our audit of free and reduced meal applications revealed instances where a valid application was not available for audit. In addition, two instances were noted where applications provided resulted in a change in eligibility, however that change in status was not recorded.

Recommendation – Free and reduced meal application be on file for all eligible students claimed and eligibility status be properly reported.

U.S.D.A. commodities were received and a separate inventory was maintained on a first-in, first-out basis.

The Statement of Revenues, Expenses, and Changes in Fund Net Position (CAFR Schedule B-5) does separate program and non-program revenue and program and non-program cost of goods sold.

Exhibits reflecting Child Nutrition Program operations are included in the section of the CAFR entitled Enterprise Funds.

Student Body Activity

The Board has a policy which clearly established the regulation of the student activity fund.

Application for State School Aid

Our audit procedures included a test of information reported in the October 13, 2017 Application for State School Aid (A.S.S.A.) for on-roll, private schools for the disabled, bilingual and low-income. We also performed a review of the District procedures related to its completion. The information on the A.S.S.A. was compared to District workpapers. The information on the workpapers was verified with exceptions noted. The results of our procedures are presented in the Schedule of Audited Enrollments.

The District maintained workpapers on the prescribed state forms or their equivalent.

The District has adequate written procedures for the recording of student enrollment data.

Pupil Transportation

Our audit procedures included a test of on roll status reported in the 2017-2018 District Report of Transported Resident Students (DRTRS). The information that was included on the DRTRS was verified to the DRTRS Eligibility Summary Report without exception. The results of our procedures are presented in the Schedule of Audited Enrollments.

5

Facilities and Capital Assets

Our procedures included a review of the SDA grant agreements for consistency with recording SDA revenue, transfer local funds from the General Fund or from the Capital Reserve Account and awarding of contracts for eligible facilities constructions. No transactions noted in the 2017/18 school year.

Testing for Lead of all Drinking Water in Educational Facilities

The school district adhered to all requirements of N.J.A.C. 26-1.2 and 12.4 related to the testing for lead of all drinking water in educational facilities.

The school district did submit the annual Statement of Assurance to the Department of Education, pursuant to N.J.A.C. 6A:26-12.4(g).
