November 8, 2019

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District County of Hunterdon, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Delaware Valley Regional High School District (the "District") for the fiscal year ended June 30, 2019, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditors' Report, management's discussion and analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected economic and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, are included in the single audit section of this report.

<u>1) REPORTING ENTITY AND ITS SERVICES</u>: Delaware Valley Regional High School District is an independent reporting entity within the criteria adopted by the GASB in codification section 2100. All funds of the District are included in this report. The Delaware Valley Regional High School Board of Education constitutes the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels 9 through 12. These include regular, vocational and special education services. The District completed the 2018-2019 fiscal year with an enrollment of 760 students, which is 71 students below the previous year's enrollment and represents a decrease of 8.86%.

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 2 November 8, 2019

2) <u>ECONOMIC CONDITION AND OUTLOOK</u>: The Delaware Valley Regional High School District is composed of five municipalities: Alexandria Township, Frenchtown Borough, Holland Township, Kingwood Township, and Milford Borough. Primarily rural/residential, the area contains a relatively small number of businesses to support the tax base. The State of New Jersey continues to not fully fund the state aid formula for local school districts.

Since the completion of Route 78, the commuter population has migrated westward into the Delaware Valley Region, primarily into Alexandria and Kingwood Townships. As a result, over the last few decades, the residential population, including school age children, has been increasing, until recent years. In 1975, the 89 square miles comprising the Regional District contained about 11,800 residents. By 1990, that number had increased to 14,612. According to the official data from the 2010 U.S. Census, the Delaware Valley Regional was comprised of 16,680 people broken down by municipalities as follows:

| Alexandria Township | - | 4,938 |
|---------------------|---|-------|
| Frenchtown Borough | - | 1,373 |
| Holland Township | - | 5,291 |
| Kingwood Township | - | 3,845 |
| Milford Borough | - | 1,233 |

The local elementary districts are reporting reduced levels of enrollment, which is starting to affect the high school enrollment. A recent survey indicated that the Delaware Valley Regional High School will experience a 20% reduction in enrollment over the next several years. With that in mind the District has conducted a demographic study and formed an Educational Long-Range Planning Committee that involved the community and other stakeholders to establish the vision for the future of the District. The areas of concentration and evaluation included a comprehensive evaluation of programs, finances, and facilities including technology.

3) MAJOR INITIATIVES: The Delaware Valley Regional High School is proud of its ability to offer a comprehensive high school program including many co-curricular offerings as well as a competitive athletic program and stellar performing arts program. Declining enrollments are still a concern even though the worst has been realized in this area. The outcome of the Educational Long-Range Plan identified some facility needs and support to expand program offerings. There were several facility items that were identified; however, we are choosing to focus on roof replacement and upgrading the four science labs. Two of the four science labs have been renovated with the intention of completing the remaining two chemistry labs during the summer of 2019. A roof replacement and restoration project has been initiated.

There is an expectation that the roof upgrades will be completed over a 3-year period. Contracts to replace the auditorium seats and flooring have also been awarded.

The District is also excited about the different academic partnerships and programs that are being developed and implemented. Dual enrollment programs with Raritan Valley Community College and Seton Hall University were implemented during the 2017/2018 school year with expansions planned in the future. The District is also developing and preparing to roll out academy programs using Project Lead the Way Curriculum. Areas of focus for the academy programs include, Computer Science and Engineering, Bio-Medical, Environmental Science and Performing Arts.

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 3 November 8, 2019

<u>4) INTERNAL ACCOUNTING CONTROLS</u>: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to major federal and state award programs, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by a vote of the Board of Education. Annual appropriated budgets are adopted for the general, special revenue and debt service funds. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at fiscal year-end are either canceled or are included as reappropriations of fund balance in the subsequent fiscal year. Those amounts to be reappropriated are reported as restrictions, commitments and assignments of fund balance at June 30, 2019.

<u>6) ACCOUNTING SYSTEM AND REPORTS</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements", Note 1.

7) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Basic Financial Statements", Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

<u>8) RISK MANAGEMENT</u>: The Board carries various forms of insurance, including, but not limited to, general liability, excess liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. A schedule of insurance coverage is found on Exhibit J-20.

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 4 November 8, 2019

9) OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nisivoccia, LLP, CPA's, was selected by the Board's finance committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* The auditor's report on the basic financial statements and specific required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit and Government Auditing Standards are included in the single audit section of this report.

<u>10) ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Delaware Valley Regional High School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial and accounting staff.

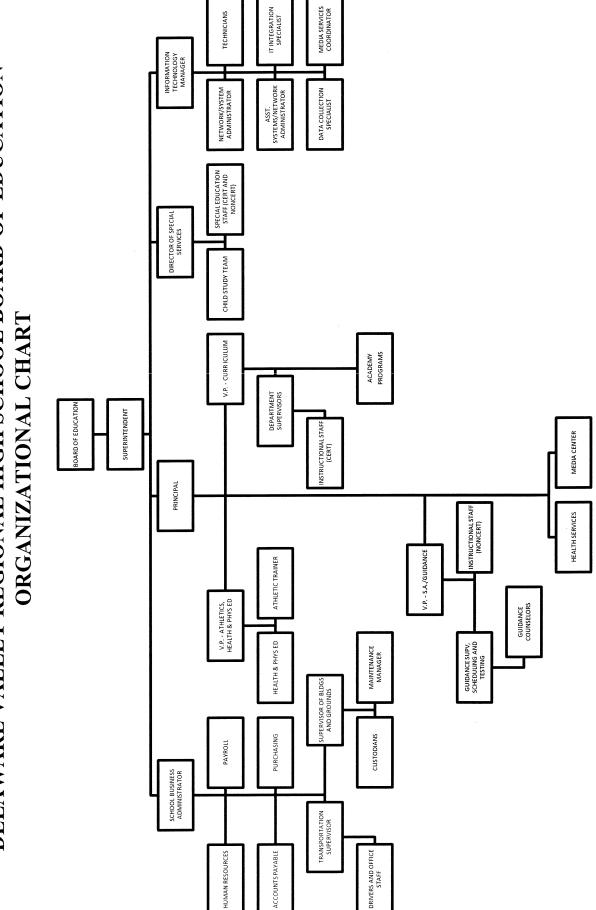

Respectfully submitted,

. Hasserbach

Independent Auditors' Report

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District County of Hunterdon, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Delaware Valley Regional High School District (the "District") in the County of Hunterdon, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Delaware Valley Regional High School District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, which follows this report, the pension and post-employment benefit schedules in Exhibits L-1 through L-5 and the related notes and the budgetary comparison information in Exhibits C-1 through C-3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying other supplementary schedules and the schedules of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and the other information, such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 3

The accompanying other supplementary schedules and the schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary schedules and the schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying other information such as the introductory and statistical sections has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT FRENCHTOWN, NEW JERSEY MANAGEMENT DISCUSSION AND ANALYSIS FOR FISCAL YEAR ENDED JUNE 30, 2019 (UNAUDITED)

This section of Delaware Valley Regional High School's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2019. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more* detail than the District-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds* statements offer *short* and *long-term* financial information about the activities the District operates like a business, such as food services.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1

Organization of Delaware Valley Regional High School District's Financial Report

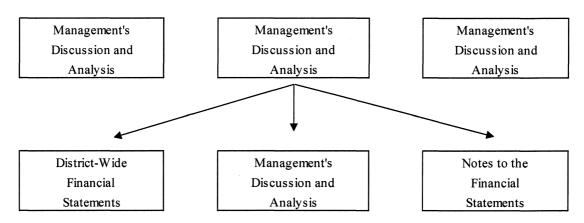

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

Figure A-2

Major Features of the District-Wide and Fund Financial Statements

| | | Fu | nd Financial Statemen | ts |
|---|--|---|---|--|
| | District-Wide Statements | Governmental Funds | Proprietary Funds | Fiduciary Funds |
| Scope | Entire District (except fiduciary funds) | The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance | Activities the District operates similar to private businesses: food, transportation, summer enrichment and technology | Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities |
| Required Financial Statements | Statement of net position Statement of activities | Balance sheet Statement of revenue, expenditures, and changes in fund balances | Statement of net position Statement of revenue, expenses, and changes in net position Statement of cash flows | Statement of fiduciary net position Statement of changes in fiduciary net position |
| Accounting Basis and Measurement Focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | Accrual accounting and economic resources focus |
| Type of Asset/Liability Information | All assets and liabilities, both financial and capital, short-term and long-term | Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included | All assets and liabilities, both financial and capital, short-term and long-term | All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can |
| Type of Inflow/Outflow Information | All revenue and expenses during the year, regardless of when cash is received or paid | Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable | All revenue and expenses during the year, regardless of when cash is received or paid | All additions and deductions during the year, regardless of when cash is received or paid |

District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows and inflows and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets, deferred outflows and inflows and liabilities – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities*: The District charges fees to help it cover the costs of certain services it provides. The District's food, transportation, summer enrichment and technology services are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that is it properly using certain revenue (such as federal grants).

The District has three kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on {1} how cash and other financial assets that can readily be converted to cash flow in and out, and {2} the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.
- *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows.
- *Fiduciary funds*: The District is the trustee, or *fiduciary*, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Districtwide and fund financial statements. The notes to the basic financial statements can be found immediately following the fund financial statements.

Financial Analysis of the District as a Whole

Net Position. The District's combined net position was \$10,323,686 on June 30, 2019, \$1,230,266 or 13.53% more than it was the year before (See Figure A-3). Net position from governmental activities increased \$909,856 and net position from business-type activities increased by \$320,410 (See Figure A-4). Net investment in capital assets increased \$718,748, restricted net position decreased \$1,526,997 and unrestricted net position increased \$2,038,688.

Condensed Statement of Net Position

Financial Analysis of the District as a Whole

Changes in Net Position shows the cost of program services and the revenues of the District on a comparative schedule (Figure A-4). The net investment in capital assets increased \$718,748 mainly due to capital additions in governmental and business-type activities along with serial bonds maturities and capital lease maturities in the governmental and business-type activities, which was offset by new capital leases entered into in the governmental and business-type activities as well as depreciation expense in the governmental and business-type activities. The decrease in restricted net position of \$1,526,997 is mainly due to withdrawals related to the capital, maintenance and emergency reserves offset by interest earnings, a deposit at year end to the capital reserve as well as unexpended funds returned from the Capital Projects Fund. The increase in unrestricted net position is due primarily to the expenses related to certain capital projects as well as changes in the net pension liability and related deferred inflows and outflows.

Governmental Activities

The governmental activities financial position of the District increased by 10.51%. However, maintaining existing programs related to regular pupil enrollment and the provision of a multitude of special programs and services for disabled pupils place great demands on the District's resources. During the past several years, numerous veteran teachers have retired and have been replaced by teachers of less experience. Such changes have generated significant salary savings, but these have not been sufficient enough to provide for increased special education programs and increased health benefit costs. As a result, the five municipalities in the regional district were subject to a tax increase in fiscal 2019.

Due to the constraints placed upon the District by legislation, it is crucial that the District examine its expenses carefully. Increasing parental and student demands for new activities and programs must be evaluated thoroughly.

Figure A-5 presents the cost of several major District activities: instruction, pupil & instructional services, administration & business, maintenance & operations, transportation, capital outlay and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions:

Figure A-5

| | Total Cost | of Services | Net Cost of | of Services |
|------------------------------|---------------|---------------|---------------|---------------|
| | 2019 | 2019 2018 | | 2018 |

| Other | 6,220 | 548 | 6,220 | 548 |
| Total | \$ 24,266,025 | \$ 23,915,617 | \$ 17,567,672 | \$ 16,093,564 |

Net Cost of Governmental Activities

Business-Type Activities

Net position in the District's business-type activities increased by \$320,410. (Refer to Figure A-4). Factors contributing to these results included:

- Food Service Fund net position decreased by \$11,788.
- Transportation Fund net position increased by \$342,276 due primarily to changes in the net pension liability and related deferred inflows and outflows and decreases in depreciation. There continues to be a limited pool of bus drivers.
- Technology Service Fund net position decreased by \$10,078 due to changes in the net pension liability and related deferred inflows and outflows.

Financial Analysis of the District's Funds

The District's financial position in the General Fund decreased primarily due to use of capital reserve funds for capital projects. There were also changes in the student population and difficult economic times which have affected fund balance. Expenditures during the recent year increased.

Difficult economic times have had a direct impact upon the District's revenue sources. The District has had a multiyear practice of utilizing funds from the unassigned fund balance to reduce the tax levy. Ratables in the five municipalities of the Regional District show little growth; thus generating concern for the local tax levy in the future.

All of these factors are likely to continue for the next several years. To maintain a stable financial position, the District must continue to practice sound fiscal management. Due to sizeable balances in the past year's budget expenditures, the District has been able to allocate fund balance to minimize the increase in the local tax levy.

General Fund Budgetary Highlights

Over the course of the year, the District revised its annual operating budget several times. These budget amendments consisted of changes made within budgetary line items for changes in school-based needs for programs, supplies and equipment.

The District's Long-Term Liabilities increased by \$35,951, on a district-wide basis. (See Note 9 to the basic financial statements for more detailed information about the District's long-term liabilities.)

Factors Bearing on the District's Future

The Delaware Valley Regional High School District is in satisfactory financial condition at this time. The School District is proud of its community support of the public schools. The School District has continued to grow its program offerings for its students while being sensitive to the taxpayers. One of the areas the District will continue to explore is the sharing of services with its constituent K-8 Districts. The District has a reliance on local property taxes which is a main source of funding. A future concern is the announcement and passage of legislation that will redistribute state aid. Delaware Valley Regional High School is slated to lose a significant amount of state aid under the new legislation.

In conclusion, the Delaware Valley Regional High School District has committed itself to financial excellence for many years. Further, the District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the School Business Administrator, in the office of the Delaware Valley Regional High School Board of Education, 19 Senator Stout Road, Frenchtown, New Jersey 08825.

| <u>DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT</u> <u>RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES</u> <u>OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES</u> <u>FOR THE FISCAL YEAR ENDED JUNE 30, 2019</u> | Total Net Change in Fund Balances - Governmental Funds (from B-2) | Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because: Capital outlays are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period. | In the Statement of Activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+). | In the Statement of Activities, interest on long-term debt in the Statement of Activities is accrued, regardless of when due. In the Governmental Funds, interest is reported when due. | Capital leases entered into by the District are an other financing source in the governmental funds, but the acquisition increases long- term liabilities in the Statement of Net Position and is not reported in the Statement of Activities. | Repayments of capital leases and bond principal are expenditures in the Governmental Funds, but the repayments reduce Long-Term Liabilities in the Statement of Net Position and are not reported in the Statement of Activities. | The Governmental Funds report the effect of bond premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. | The net pension liability reported in the statement of activities does not require the use of current financial resources and is not reported as an expenditure in the Governmental Funds: | Change in Net Pension Liability Changes in Deferred Outflows Changes in Deferred Inflows | Change in Net Position of Governmental Activities (A-2) |

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of Delaware Valley Regional High School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents. (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization. (3). The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Basis of Presentation:

District-Wide Financial Statements:

The statement of net position and the statement of activities present financial information about the District's governmental and business type activities. These statements include the financial activities of the overall District in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

District-Wide Financial Statements (Cont'd)

Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary* - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources not accounted for and reported in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. GAAP, as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expenses by board resolution.

<u>Special Revenue Fund:</u> The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

<u>Capital Projects Fund:</u> The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, funds appropriated from the General Fund, and from aid provided by the state to offset the cost of approved capital projects.

<u>Debt Service Fund</u>: The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

The District reports the following proprietary funds:

<u>Enterprise Funds</u>: The Enterprise Funds account for all revenue and expenses pertaining to the Board's Food Service Fund, Transportation Service Fund, Summer Enrichment Fund and Technology Service Fund operations. The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the recipients on a continuing basis are financed or recovered primarily through user charges.

Additionally, the District reports the following fund type:

<u>Fiduciary Funds</u>: The Fiduciary Funds are used to account for assets held by the District on behalf of others and includes the Student Activities Fund, Payroll Agency Fund, Flexible Spending Trust Fund, Unemployment Compensation Insurance Trust Fund and Private Purpose Scholarship Trust Fund.

C. Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus and Basis of Accounting (Cont'd)

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

It is the District's policy, that when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, to apply restricted resources first followed by unrestricted resources. Similarly, within unrestricted fund balance, it is the District's policy to apply committed resources first followed by assigned resources and then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budget for the fiscal year ended June 30, 2019 was submitted to the County office and was approved by a vote of the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

D. Budgets/Budgetary Control: (Cont'd)

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize these payments in the GAAP financial statements.

The Capital Projects Fund budgetary revenue differs from GAAP revenue due to a difference in the recognition of SDA grants receivable. These grants are recognized on the budgetary basis in full at the time of the award but are recognized on the GAAP basis as they are expended and requested for reimbursement.

E. Cash and Cash Equivalents and Investments:

Cash and cash equivalents include petty cash and cash in banks. Certificates of deposit with maturities of one year or less when purchased are stated at cost.

The District generally records investments at fair value and records the unrealized gains and losses as part of investment income. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statue requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the governmental units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

F. Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which are presented as internal balances.

G. Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

H. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as restricted, committed and/or assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund for which the District has received advances are reflected in the balance sheet as unearned revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund, are recorded as expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2019.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

K. Capital Assets:

Capital assets acquired or constructed are recorded at historical cost including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets are valued at acquisition value. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the District-wide statements and proprietary funds are on the following page.

| | Estimated Useful Life |
|-------------------------------------|-----------------------|
| Buildings and Building Improvements | 50 Years |
| Site Improvements | 20 Years |
| Machinery, Furniture and Equipment | 10 to 15 Years |
| Buses and Other Vehicles | 8 Years |

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures in the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

L. Long Term Liabilities:

In the District-wide and enterprise fund statements of net position, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise funds. Bond premium and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses.

M. Accrued Salaries and Wages:

The District allows employees who provide services to the District over a ten-month academic year the option to have their salaries evenly disbursed over the entire twelve month year. New Jersey statutes require that these earned undisbursed amounts be retained in a separate bank account. As of June 30, 2019, the amount earned by these employees but not disbursed was \$282,480.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

N. Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by GASB. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the district-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

O. Unearned Revenue:

Unearned revenue in the Special Revenue Fund represents cash which has been received but not yet earned. See Note 1(D) regarding the Special Revenue Fund.

P. Fund Balance Appropriated:

<u>General Fund:</u> Of the \$2,019,920 General Fund balance at June 30, 2019, \$13,954 is restricted for current year excess surplus, and will be included as anticipated revenue for the fiscal year ended June 30, 2021. \$97,671 is assigned for encumbrances; \$200,000 is assigned for subsequent year's expenditures; \$1,099,538 is restricted in the capital reserve account; \$127,800 is restricted in the maintenance reserve account; \$194,719 is restricted in the emergency reserve account; and \$286,238 is unassigned which is \$383,379 less than the calculated budgetary unassigned fund balance due to the last two June state aid payments, which are not recognized on the GAAP basis until the fiscal year ended June 30, 2020.

<u>Capital Projects Fund:</u> The \$2,338,945 fund balance in the Capital Projects Fund at June 30, 2019, is committed.

<u>Calculation of Excess Surplus:</u> In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, C.73 (S1701) the designation for Restricted Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District had excess surplus at June 30, 2019 as detailed above.

The District's unassigned fund balance in the General Fund is less on a GAAP basis than the budgetary basis by \$383,379 as reported in the fund statements (modified accrual basis). P.L. 2003, C.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last two state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

P. Fund Balance Appropriated (Cont'd)

For intergovernmental transactions, GASB requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the school district cannot recognize the June state aid payments on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the June state aid payments and not the fund balance reported on the fund statement which excludes the June state aid payments.

Q. Deficit Net Position/Fund Balances:

The District had a deficit in unrestricted net position in governmental activities and in business-type activities. The deficit in unrestricted governmental activities net position is primarily due to the net pension liability and related deferred inflows and outflows as well as the compensated absences liability. The deficit in unrestricted business-type activities net position is due primarily to the net pension liability and related deferred inflows. The District also had deficits in the Transportation and Technology Service Enterprise Funds unrestricted net positions due primarily to the net pension liability and related deferred inflows. These deficits do not indicate that the District is in financial difficulties and is a permitted practice under generally accepted accounting principles.

R. Net Position:

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources.

A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period. The District had deferred outflows of resources at June 30, 2019 related to pensions.

The District had deferred inflows of resources at June 30, 2019 related to pensions.

Net position is displayed in three components - net investment in capital assets; restricted and unrestricted.

The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position.

The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

<u>R. Net Position</u> (Cont'd)

The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

S. Fund Balance Restrictions, Commitments and Assignments:

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. The committed fund balance classification includes amounts that can be used only for the specific purposes determined for a formal action of the District's highest level of decision-making authority. Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Unassigned fund balance is the residual classifications. In other funds, the unassigned classifications should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts has been restricted, committed or assigned.

Fund balance restrictions have been established for a capital reserve, a maintenance reserve and an emergency reserve.

The District Board of Education has the responsibility to formally commit resources for specific purposes through a motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body. The Board of Education must also utilize a formal motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body in order to remove or change the commitment of resources. The District had committed resources in the Capital Projects Fund at June 30, 2019.

The assignment of resources is generally made by the District Board of Education through a motion or a resolution passed by a majority of the Members of the Board of Education. These resources are intended to be used for a specific purpose. The process is not as restrictive as the commitment of resources and the Board of Education may allow an official of the District to assign resources through policies adopted by the Board of Education. The District has assigned resources for year-end encumbrances and amounts designated for subsequent year's expenditures in the General Fund at June 30, 2019.

T. Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activity of the respective Enterprise Funds. For the School District, these revenues are sales for the food service program and charges and fees for the Transportation and Technology Service Funds. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the respective Enterprise Fund.

U. Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

<u>U. Revenue - Exchange and Nonexchange Transactions</u> (Cont'd)

Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end. Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest and tuition.

V. Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

W. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of New Jersey Public Employees' Retirement System (PERS) and the State of New Jersey Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the PERS's and TPAF's net position have been determined on the same basis as they are reported by the PERS and the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Pension Plan investments are reported at fair value.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk - In accordance with its cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk – The Board limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed in the Investments section of this note.

Custodial Credit Risk - The District does not have a formal policy with respect to custodial credit risk. However, the District ensures that District funds are only deposited in financial institutions in which NJ school districts are permitted to invest their funds.

Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit funds in the State of New Jersey Cash Management Fund.

New Jersey Statues require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit.

In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Investments (Cont'd)

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located.
- (5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the "Local Authorities Fiscal Control Law", P.L. 1983, c.313 (C.40A:5A-1 et seq.). Other bonds or obligations having a maturity date not more than 397 days from the date of purchase may be approved by the Division of Investment in the Department of the Treasury for investment by local units;
- (6) Local government investment pools;
- (7) Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4); or
- (8) Agreements for the repurchase of fully collateralized securities if:
 - (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection a. or are bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the requirements of the "Local Authorities Fiscal Control Law," P.L. 1983, c. 313 (C.40A:5A-1 et seq.).;
 - (b) the custody of collateral is transferred to a third party;
 - (c) the maturity of the agreement is not more than 30 days;
 - (d) the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C.17:9-41); and
 - (e) a master repurchase agreement providing for the custody and security of collateral is executed; or
- (9) Deposit of fund in accordance with the following conditions:
 - (a) The funds are initially invested through a public depository as defined in section 1 of P.L. 1970, c. 236 (C.17:9-41) designated by the school district;

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Investments (Cont'd)

- (b) The designated public depository arranges for the deposit of the funds in deposit accounts in one or more federally insured banks, savings banks or savings and loan associations or credit unions for the account of the school district;
- (c) 100 percent of the principal and accrued interest of each deposit is insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund;
- (d) The designated public depository acts as custodian for the school district with respect to these deposits; and
- (e) On the same date that the school district's funds are deposited pursuant to subparagraph (b) of this paragraph, the designated public depository receives an amount of deposits from customers of other financial institutions, wherever located, equal to the amounts of funds initially invested by the school district through the designated public depository.

As of June 30, 2019, cash and cash equivalents of the District consisted of the following:

| | Cash and Cash | Restricted Cash and Cash | |
|-------------------|------------------|-----------------------------|--------------|
| | Equivalents | Equivalents | Total |
| Checking Accounts | \$ 4,139,175 | \$ 1,422,057 | \$ 5,561,232 |
| | \$ 4,139,175 | \$ 1,422,057 | \$ 5,561,232 |

During

the period ended June 30, 2019, the District did not hold any investments. The carrying amount of the Board's cash and cash equivalents and investments at June 30, 2019, was \$5,561,232 and the bank balance was \$5,885,557.

NOTE 4. CAPITAL RESERVE ACCOUNT

A Capital Reserve Account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Capital Reserve Account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a District can increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts, or both. A District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to

NOTE 4. CAPITAL RESERVE ACCOUNT (Cont'd)

The activity of the Capital Reserve Account for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

| Beginning Balance at July 1, 2018 | \$ 2,504,708 |
|---|-----------------|
| Interest Earnings | 3,890 |
| Unexpended Funds Returned - Capital Projects Fund | 30,102 |
| Unexpended Funds - Capital Outlay | 68,156 |
| Deposit by Board Resolution June 24, 2019 | 700,000 |
| Budgeted Withdrawal | (2,207,318) |
| Ending Balance at June 30, 2019 | \$ 1,099,538 |

The balance in the Capital Reserve Account at June 30, 2019 does not exceed the local support costs of uncompleted capital projects in the District's approved Long Range Facilities Plan ("LRFP"). The withdrawals from the Capital reserve Account were for use in DOE approved facilities projects, consistent with the District's LRFP.

NOTE 5. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account established by Board resolution. These funds may be used for specific activities necessary for the purpose of keeping a school facility open and safe for use or in its original condition, and for keeping its constituent buildings systems fully and efficiently functional and for keeping their warranties valid but cannot be used for routine or capital maintenance. The purpose of the reserve is to provide funds for anticipated expenditures required to maintain a building.

Pursuant to N.J.A.C. 6A:26A-4.2 funds may be deposited into the maintenance reserve account at any time by board resolution to meet the required maintenance of the District by transferring unassigned general fund balance or by transferring excess unassigned general fund balance that is anticipated to be deposited during the current year in the advertised recapitulation of balances of the subsequent year's budget that is certified for taxes. Funds may be withdrawn from the maintenance reserve account and appropriated into the required maintenance account lines at budget time or any time during the year by Board resolution for use on required maintenance activities by school facility as reported in the comprehensive maintenance plan. Funds withdrawn from the maintenance reserve account. In any year that maintenance reserve account funds are withdrawn, unexpended required maintenance appropriations, up to the amount of maintenance reserve account funds withdrawn, shall be restored to the maintenance reserve account at year-end. At no time, shall the maintenance reserve account have a balance that exceeds four percent or the withdrawal is included in the original budget certified for taxes to finance school security improvements pursuant to N.J.S.A. 18A:7G-6(c)1.

If the account exceeds this maximum amount at June 30, the excess shall be restricted and designated in the subsequent year's budget. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

NOTE 5. MAINTENANCE RESERVE ACCOUNT (Cont'd)

The activity of the Maintenance Reserve Account for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

| Beginning Balance at July 1, 2018 | \$ 208,300 |
|-----------------------------------|---------------|
| Budgeted Withdrawal | (80,500) |
| Ending Balance at June 30, 2019 | \$ 127,800 |

NOTE 6. EMERGENCY RESERVE ACCOUNT

An emergency reserve account was established by the Delaware Valley Regional High School District for the accumulation of funds for use as unanticipated general fund expenditures in subsequent fiscal years. The emergency reserve account is maintained in the general fund and its activity is included is included in the general fund annual budget.

The emergency reserve is restricted to be used to accumulate funds in accordance with N.J.S.A. 18A:7F-41c(1) to finance unanticipated general fund expenditures required for a thorough and efficient education. Unanticipated means reasonably unforeseeable and shall not include additional costs caused by poor planning. The maximum balance permitted at any time in this reserve is the greater of \$250,000 or 1% of the general fund budget not to exceed one million dollars. Deposits may be made to the emergency reserve account by board resolution at year end of any unanticipated revenue or unexpended line item appropriation or both. The Department has defined year end for the purpose of depositing surplus into reserve accounts as an amount approved by the district board of education between June 1st and June 30th. Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of four percent or the withdrawal is included in the original budget certified for taxes to finance school security improvements pursuant to N.J.S.A. 18A:7G-6(c)1.

The activity of the Emergency Reserve Account for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

| Beginning Balance at July 1, 2018 | \$ 250,000 |
|--|---------------|
| Transfer authorized by Board Resolution July, 30, 2018 | (55,281) |
| Ending Balance at June 30, 2019 | \$ 194,719 |

NOTE 7. TRANSFERS TO CAPITAL OUTLAY

During the year ended June 30, 2019, the District transferred \$22,209 to capital outlay accounts for the acquisition of equipment which does not require approval of the County Superintendent.

(Continued)

NOTE 8. CAPITAL ASSETS

Capital asset balances and activity for the fiscal year ended June 30, 2019 were as follows:

| 1 | Beginning | · · · , · · · · · · · · · · · · · · · · · · · | Decreases/ | Ending |
|---|--------------|--|--------------|--------------|
| | Balance | Increases | Adjustments | Balance |
| Governmental Activities: | | | | |
| Capital Assets not being Depreciated: | | | | |
| Sites (Land) | \$ 36,845 | * 100 | | \$ 36,845 |
| Construction in Progress | | \$ 189,752 | \$ (28,697) | 161,055 |
| Total Capital Assets not being Depreciated | 36,845 | 189,752 | (28,697) | 197,900 |
| Capital Assets being Depreciated: | | | | |
| Site Improvements | 2,883,045 | 22,856 | | 2,905,901 |
| Buildings and Building Improvements | 21,421,783 | 1,575,252 | 28,697 | 23,025,732 |
| Machinery and Equipment | 1,679,270 | 24,748 | | 1,704,018 |
| Buses and Other Vehicles | 19,000 | 35,728 | | 54,728 |
| Total Capital Assets being Depreciated | 26,003,098 | 1,658,584 | 28,697 | 27,690,379 |
| Governmental Activities Capital Assets | 26,039,943 | 1,848,336 | | 27,888,279 |
| Less Accumulated Depreciation for: | | | | |
| Site Improvements | (1,528,160) | (88,444) | | (1,616,604) |
| Buildings and Building Improvements | (9,768,702) | (351,146) | | (10,119,848) |
| Machinery and Equipment | (833,070) | (100,440) | | (933,510) |
| Buses and Other Vehicles | (19,000) | (4,466) | | (23,466) |
| Total Accumulated Depreciation | (12,148,932) | (544,496) | | (12,693,428) |
| Governmental Activities Capital Assets, | | | | |
| Net of Accumulated Depreciation | \$13,891,011 | \$ 1,303,840 | \$ - 0 - | \$15,194,851 |
| Business Type Activities: | | | | |
| Capital Assets Being Depreciated: | | | | |
| Construction in Progress | | \$ 1,189,919 | | \$ 1,189,919 |
| Buildings and Building Improvements | \$ 374,000 | | | 374,000 |
| Furniture and Equipment | 515,978 | 23,263 | | 539,241 |
| Buses & Other Vehicles | 5,067,373 | 513,184 | \$ (147,658) | 5,432,899 |
| Less Accumulated Depreciation | (3,477,861) | (265,177) | 147,658 | (3,595,380) |
| Business Type Activities Capital Assets, | | | | |
| Net of Accumulated Depreciation | \$ 2,479,490 | \$ 1,461,189 | \$ -0- | \$ 3,940,679 |
| Total Governmental/Business-type Activities | \$16,370,501 | \$ 2,765,029 | \$ - 0 - | \$19,135,530 |

NOTE 8. CAPITAL ASSETS (Cont'd)

Depreciation expense was charged to governmental functions as follows:

| Regular Instruction | \$ 181,443 |
|--|---------------|
| Special Education Instruction | 38,216 |
| Other Instruction | 8,256 |
| Student and Instruction Related Services | 164,350 |
| General Administrative Services | 13,569 |
| School Administrative Services | 16,973 |
| Central Services | 13,941 |
| Plant Operations and Maintenance | 59,852 |
| Pupil Transportation | 47,896 |
| Total Depreciation | \$ 544,496 |

The District expended \$1,379,671 towards construction projects in progress and transferred \$28,697 of completed capital projects to depreciable capital assets during the fiscal year. As of June 30, 2019, the District has \$2,338,945 in active construction projects.

NOTE 9. LONG-TERM LIABILITIES

During the fiscal year ended June 30, 2019, the following changes occurred in liabilities reported in the district-wide financial statements:

| | Balance 6/30/2018 | Issued/ Accrued | Matured/ Retired | Balance 6/30/2019 | |
|--------------------------------|----------------------|--------------------|---------------------|----------------------|--|
| Governmental Activities: | | | | | |
| Capital Lease Payable | \$ 454,285 | \$ 2,731,053 | \$ 478,335 | \$ 2,707,003 | |
| Serial Bonds Payable | 530,000 | | 530,000 | | |
| Unamortized Bond Premium | 32,244 | | 32,244 | | |
| Net Pension Liability | 6,702,956 | | 1,051,007 | 5,651,949 | |
| Compensated Absences Payable | 869,428 | 8,484 | | 877,912 | |
| Total Governmental Activities | \$ 8,588,913 | \$ 2,739,537 | \$ 2,091,586 | \$ 9,236,864 | |
| Business-Type Activities: | | | | | |
| Capital Leases Payable | \$ 999,051 | \$ 508,317 | \$ 570,252 | \$ 937,116 | |
| Net Pension Liability | 3,483,907 | | 546,268 | 2,937,639 | |
| Compensated Absences Payable | 103,092 | | 3,797 | 99,295 | |
| Total Business-Type Activities | \$ 4,586,050 | \$ 508,317 | \$ 1,120,317 | \$ 3,974,050 | |

NOTE 9. LONG-TERM LIABILITIES (Cont'd)

A. Bonds Payable:

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds and will be liquidated through the Debt Service Fund.

On April 17, 2012, the District issued refunding school bonds of \$3,075,000 with interest rates ranging from 2.00% to 4.00% to refund \$3,134,000 of 2003 Construction and Equipment Additions and Renovations bonds with interest rates ranging from 3.30% to 4.00%. The bonds mature on January 15, 2013 through 2019 and are non-callable. The net proceeds from the issuance of the general obligation bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the 2003 school bonds were called on January 15, 2013. The refunding met the requirements of an in-substance debt defeasance and the school bonds were removed from the School's government-wide financial statements.

The District had no bonds outstanding as of June 30, 2019 as, the bonds finally matured during the fiscal year ended June 30, 2019

B. Unamortized Bond Premium:

The unamortized bond issuance premium of the governmental fund types is recorded in the noncurrent liabilities. The District had no unamortized bond issuance premium as of June 30, 2019.

C. Bonds Authorized But Not Issued:

There were no bonds authorized but not issued as of June 30, 2019.

D. Compensated Absences:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities and will be liquidated by the General Fund. No portion of the compensated absences balance of the governmental funds at June 30, 2019 is currently payable; therefore, the long-term portion of compensated absences is \$877,912.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2019, the liability for compensated absences in the Transportation Enterprise Fund is \$99,295 and will be liquidated by this fund. No portion is currently payable.

NOTE 9. LONG-TERM LIABILITIES (Cont'd)

E. Capital Leases:

The District has capital leases related to technology equipment, school buses and other transportation vehicles as well as a window replacement project. The District has entered into capital leases totaling \$4,633,980 of which \$1,926,977 has been liquidated as of June 30, 2019 for governmental activities. The District has entered into capital leases totaling \$2,340,004 of which \$1,402,888 has been liquidated as of June 30, 2019 for business-type activities. A schedule of the future minimum lease payments under these capital leases, and the present value of the net minimum lease payments at June 30, 2019 is as follows:

| Fiscal Year Ending June 30, | | vernmental Activities | iness-Type ctivities |
|--------------------------------|---------------------------------|--------------------------|-------------------------|
| 2020 | | \$ 632,298 | \$ 591,656 |
| 2021 | | 597,182 | 245,357 |
| 2022 | | 597,182 | 134,200 |
| 2023 | | 536,182 | |
| 2024 | | 536,181 | |
| | | 2,899,025 | 971,213 |
| Les | s: Amount representing interest | (192,022) | (34,097) |
| Present Value of Net N | Ainimum Lease Payments | \$ 2,707,003 | \$ 937,116 |

The current portion for governmental leases is \$572,424 and the long-term portion is \$2,134,579. The current portion for business-type leases is \$571,099 and the long-term portion is \$366,017. The General Fund will liquidate the governmental activities capital leases and the Transportation Enterprise Fund will liquidate the business-type activities capital leases.

F. Net Pension Liability:

The Public Employees' Retirement System's (PERS) net pension liability of the governmental activities is recorded in the current and long-term liabilities and will be liquidated by the General Fund. The PERS net pension liability of the business-type activities is recorded in the current and long-term liabilities and will be liquidated by the Transportation and Technology Services Funds. The current portion of the net pension liability at June 30, 2019 is \$-0- and the long-term portion is \$8,589,588 (\$5,651,949 and \$2,937,639 for governmental and business-type activities, respectively). See Note 10 for further information on the PERS.

NOTE 10. PENSION PLANS

Substantially all of the Board's employees participate in one of the two contributory, defined benefit public employee retirement systems: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employee's Retirement System (PERS) of New Jersey; or the Defined Contribution Retirement Program (DCRP).

A. Public Employees' Retirement System (PERS)

Plan Description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about the PERS, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at <u>www.state.nj.us/treasury/pensions/financial-reports.shtml</u>.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS. The following represents the membership tiers for PERS:

Tier

Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a members retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 50 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing members. The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability is being paid by the employer

NOTE 10. PENSION PLANS (Cont'd)

<u>A. Public Employees' Retirement System (PERS)</u> (Cont'd)

<u>Contributions</u> (Cont'd)

in level annual payments over a period of 15 years, which began with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. District contributions to PERS amounted to \$433,930 for 2019.

The employee contribution rate was 7.50% effective July 1, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District's liability was \$8,589,588 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 which was rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2018, the District's proportion was 0.043%, which was a decrease of 0.00014% from its proportion measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$652,996. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources on the following page.

NOTE 10. PENSION PLANS (Cont'd)

| | | | \$ 2,512,918 | \$ (3,204,217) |

Amounts reported as deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts including changes in proportion and the district contribution subsequent to the measurement date) related to pensions will be recognized in pension expense as seen on the following page:

NOTE 10. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

| Fiscal Year Ending June 30, | Total |
|--------------------------------|----------------|
| 2019 | \$ 59,615 |
| 2020 | (82,540) |
| 2021 | (591,876) |
| 2022 | (513,046) |
| 2023 | (164,282) |
| | \$ (1,292,129) |

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017 which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions:

| Inflation Rate | 2.25% |
|---------------------------|---------------------------|
| Salary Increases: | |
| Through 2026 | 1.65 - 4.15% based on age |
| Thereafter | 2.65 - 5.15% based on age |
| Investment Rate of Return | 7.00% |

Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and a generational approach based on the Conduent modified 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward one year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions,

NOTE 10. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Actuarial Assumptions (Cont'd)

the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected_returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS' target asset allocation as of June 30, 2018 are summarized in the table on the following page.

| | | Long-Term |
|----------------------------------|------------|---------------|
| | | Expected Real |
| | Target | Rate of |
| Asset Class | Allocation | Return |
| | | |
| Risk Mitigation Strategies | 5.00% | 5.51% |
| Cash Equivalents | 5.50% | 1.00% |
| U.S. Treasuries | 3.00% | 1.87% |
| Investment Grade Credit | 10.00% | 3.78% |
| High Yield | 2.50% | 6.82% |
| Global Diversified Credit | 5.00% | 7.10% |
| Credit Oriented Hedge Funds | 1.00% | 6.60% |
| Debt Related Private Equity | 2.00% | 10.63% |
| Debt Related Real Estate | 1.00% | 6.61% |
| Private Real Asset | 2.50% | 11.83% |
| Equity Related Real Estate | 6.25% | 9.23% |
| U.S. Equity | 30.00% | 8.19% |
| Non-U.S. Developed Market Equity | 11.50% | 9.00% |
| Emerging Markets Equity | 6.50% | 11.64% |
| Buyouts/Venture Capital | 8.25% | 13.08% |

NOTE 10. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Discount Rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer Go 20 Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based upon the contribution rate in the most recent fiscal year. The local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The figure on the following page presents the District's proportionate share of the collective net pension liability as of June 30, 2018 calculated using the discount rate as disclosed below, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

| | June 30, 2018 | | |
|--|---------------|---------------|--------------|
| | 1% | Current | 1% |
| | Decrease | Discount Rate | Increase |
| | (4.66%) | (5.66%) | (6.66%) |
| District's proportionate share of the Net Pension Liability | \$ 10,800,418 | \$ 8,589,588 | \$ 6,734,844 |

Pension plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial statements.

B. Teachers' Pension and Annuity Fund (TPAF)

Plan Description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF), is a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement

NOTE 10. PENSION PLANS (Cont'd)

B. Teachers' Pension and Annuity Fund (TPAF) (Cont'd)

Plan Description (Cont'd)

incentive (ERI) contributions. The TPAF is administered by the State of New Jersey Division of Pensions and Benefits (the Division). For additional information about the TPAF, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensionsfinancial-reports.shtml.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

| Tier | Definition |
|------|--|
| 1 | Members who were enrolled prior to July 1, 2007 |
| 2 | Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008 |
| 3 | Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010 |
| 4 | Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011 |
| 5 | Members who were eligible to enroll on or after June 28, 2011 |
| | - |

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a members retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing members. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which included the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

NOTE 10. PENSION PLANS (Cont'd)

B. Teachers' Pension and Annuity Fund (TPAF) (Cont'd)

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in a accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers, such as the District. This note discloses the portion of the District's total proportionate share of the net pension liability that is associated with the District. During the fiscal year ended 2019, the State of New Jersey contributed \$1,289,381 to the TPAF for normal pension benefits on behalf of the District, which is less than the contractually required contribution of \$2,376,394

The employee contribution rate was 7.50% effective July 1, 2018. Subsequent increases after October 1, 2011 were being phased in over 7 years effective on each July 1st to bring the total pension contribution rate to 7.5% of base salary as of July 1, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the State's proportionate share of the net pension liability associated with the District was \$40,763,914. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 which was rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2018, the District's proportion was 0.064%, which was a decrease of 0.00016% from its proportion measured as of June 30, 2017.

| District's Proportionate Share of the Net Pension Liability | \$ -0- |
|---|------------------|
| State's Proportionate Share of the Net Pension Liability Associated with the District | 40,763,914 |
| Total | \$ 40,763,914 |

For the fiscal year ended June 30, 2019, the State recognized pension expense on behalf of the District in the amount of \$2,376,394 and the District recognized pension expense and revenue for that same amount in the fiscal year ended June 30, 2019 financial statements.

The State reported collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) related to pensions from the table on the following page.

NOTE 10. PENSION PLANS (Cont'd)

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017 which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

| Inflation Rate | 2.25% |
|---------------------------|--------------|
| Salary Increases: | |
| 2011-2026 | 1.55 - 4.55% |
| Thereafter | 2.00 - 5.45% |
| Investment Rate of Return | 7.00% |

Pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from a base year of 2006 using a 60 year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant White Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60 year average of improvement rates based on Social Security data from 1953 to 2013. Disabled mortality rates were based on the RP-2006 Disabled Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

NOTE 10. PENSION PLANS (Cont'd)

B. Teachers' Pension and Annuity Fund (TPAF) (Cont'd)

Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected_returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2018 are summarized in the following table:

| | | Long-Term |
|----------------------------------|------------|----------------|
| | Target | Expected Real |
| Asset Class | Allocation | Rate of Return |
| Risk Mitigation Strategies | 5.00% | 5.51% |
| Cash Equivalents | 5.50% | 1.00% |
| U.S. Treasuries | 3.00% | 1.87% |
| Investment Grade Credit | 10.00% | 3.78% |
| High Yield | 2.50% | 6.82% |
| Global Diversified Credit | 5.00% | 7.10% |
| Credit Oriented Hedge Funds | 1.00% | 6.60% |
| Debt Related Private Equity | 2.00% | 10.63% |
| Debt Related Real Estate | 1.00% | 6.61% |
| Private Real Asset | 2.50% | 11.83% |
| Equity Related Real Estate | 6.25% | 9.23% |
| U.S. Equity | 30.00% | 8.19% |
| Non-U.S. Developed Market Equity | 11.50% | 9.00% |
| Emerging Markets Equity | 6.50% | 11.64% |
| Buyouts/Venture Capital | 8.25% | 13.08% |

Discount Rate – TPAF

The discount rate used to measure the total pension liability was 4.86% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer Go 20 Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based upon the contributions. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

NOTE 10. PENSION PLANS (Cont'd)

B. Teachers' Pension and Annuity Fund (TPAF) (Cont'd)

Sensitivity of the State's Proportionate Share of the Net Pension Liability Associated with the District to Changes in the Discount Rate

The table on the following page presents the State's proportionate share of the net pension liability associated with the District as of June 30, 2018 calculated using the discount rate as disclosed above, as well as what the State's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

Pension Plan Fiduciary Net Position - TPAF

Detailed information about the TPAF's fiduciary net position is available in the separately issued TPAF financial statements.

C. Defined Contribution Retirement Program (DCRP)

Prudential Financial jointly administers the DCRP investments with the NJ Division of Pensions and Benefits. If an employee is ineligible to enroll in the PERS or TPAF, the employee may be eligible to enroll in the DCRP. DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of 5.50% for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution.

For DCRP, the District recognized pension expense of \$35,676.87 for the fiscal year ended June 30, 2019. Employee contributions to DCRP amounted to \$65,407.10 for the fiscal year ended June 30, 2019.

NOTE 11. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report. Health benefits are provided to employees through Horizon Blue Cross Blue Shield.

Property and Liability Insurance

The District is a member of the New Jersey Schools Insurance Group (the "NJSIG"). The NJSIG provides the property, general liability, automobile coverage, and workers compensation insurance coverage for its members. The NJSIG is a risk-sharing public entity risk pool that is both an insured and self-administered group of school districts established for the purpose of providing low-cost insurance coverage for its members in order to keep local property taxes at a minimum. Each member appoints an official to represent their respective district for the purpose of creating a governing body from which officers for the NJSIG are elected.

As a member of the NJSIG, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the NJSIG were to be exhausted, members would become responsible for their respective shares of the NJSIG's liabilities.

The NJSIG can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. In accordance with Statement No. 10 of the Governmental Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared.

Selected, summarized financial information as of June 30, 2019 was not available as of the date of this report. Selected, summarized financial information as of June 30, 2018 is as follows:

| | NJ Schools Insurance Group | |
|------------------------|-------------------------------|--------------|
| | | aranee Group |
| Total Assets | \$ | 342,337,056 |
| Net Position | \$ | 82,580,855 |
| Total Revenue | | 133,258,299 |
| Total Expenses | | 129,340,074 |
| Change in Net Position | \$ | 3,918,225 |
| Members Dividends | \$ | -0- |

Financial statements for the NJSIG are available at the Executive Director's Office:

New Jersey Schools Insurance Group 6000 Midlantic Drive Suite 300 North Mount Laurel, NJ 08054 (609) 386-6060

NOTE 11. RISK MANAGEMENT (Cont'd)

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

A summary of the District and employee contributions, interest, reimbursements to the State for benefits paid and balance of the District's Unemployment Fiduciary Fund for the current and previous two years follows:

| | Er | nployee | | | | |
|-------------|-----|---------------------------|----|------------|----|---------|
| | Cor | ntributions | A | Mount | | Ending |
| Fiscal Year | anc | and Interest Reimbursed B | | Reimbursed | | Balance |
| 2018-2019 | \$ | 19,032 | \$ | 25,846 | \$ | 138,089 |
| 2017-2018 | | 23,707 | | 16,622 | | 144,903 |
| 2016-2017 | | 23,061 | | 33,974 | | 137,818 |

NOTE 12. ECONOMIC DEPENDENCY

The Board of Education receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Board of Education's programs and activities.

NOTE 13. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

| <u>403(b) Plans:</u> | <u>457(b) Plans:</u> |
|----------------------|----------------------|
| AXA Equitable | AXA Equitable |
| Lincoln Investments | Lincoln Investments |
| Met Life | Met Life |

NOTE 14. COMMITMENTS AND CONTINGENCIES

Litigation

The District is periodically involved in pending lawsuits and estimates that the potential claims resulting from any litigation and not covered by insurance would not materially affect the District's financial statements.

NOTE 14. COMMITMENTS AND CONTINGENCIES (Cont'd)

Grant Programs

The District participates in federal and state assisted grant programs. The programs are subject to program compliance audits by grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

Encumbrances

At June 30, 2019, there were encumbrances as detailed below in the governmental funds:

| | | Total | | | |
|--------|--------------------------|--------------------|--|--|--|
| eneral | Governmental | | | | |
| Fund | Funds | | | | |
| 97.671 | \$ | 97,671 | | | |
| | eneral Fund 97,671 | eneral Gov Fund | | | |

NOTE 15. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances existed as of June 30, 2019:

| Fund | Interfund Receivable | | nterfund ayable |
|---------------------------------|-------------------------|---------|--------------------|
| General Fund | \$ 12,416 | | |
| Capital Projects Fund | | \$ | 7,416 |
| Fiduciary Fund - Payroll Agency | | | 5,000 |
| | \$ 12,416 | \$ | 12,416 |

The interfund receivable in the General Fund is comprised of a prior year interfund advanced to the Net Payroll account which was not settled as well as interest earned in the Capital Projects Fund due to the General Fund.

NOTE 16. TAX CALENDAR

Property taxes are levied by the District's constituent municipalities as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10. Taxes are collected by the constituent municipalities and are remitted to the District on a predetermined mutually agreed-upon schedule.

NOTE 17. ACCOUNTS PAYABLE

Accounts payable recorded in the District's Governmental and Business-Type activities as of June 30, 2019 consisted of the following:

| | Governme | ntal | Funds |] | District | | | Bus | iness-Type |
|---------------------|-----------|------|--------|-------|--------------|---------|------------|-----|------------|
| | | S | pecial | Co | ntribution | | Total | A | ctivities |

| New Jersey | | | | \$ | 306,587 | | 306,587 | | 139,034 |
| | \$159,884 | \$ | 3,440 | \$ | 306,587 | \$ | 469,911 | \$ | 152,512 |

NOTE 18. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

State Health Benefit Program Fund – Local Education Retired (including Prescription Drug Program Fund)

General Information about the OPEB Plan

Plan Description and Benefits Provided

The District is in a "special funding situation", as described in GASB Codification Section P50, in that OPEB contributions and expenses are legally required to be made by and are the sole responsibility of the State of New Jersey, not the District.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for the State Health Benefit Local Education Retired Education Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in GASB Codification Section P50. The State Health Benefits Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

NOTE 18. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Cont'd)

<u>State Health Benefit Program Fund – Local Education Retired (including Prescription Drug Program Fund)</u> (Cont'd)

Plan Description and Benefits Provided (Cont'd)

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits, if any, is the responsibility of the individu

al education employers.

Employees Covered by Benefit Terms

At June 30, 2017, the plan membership consisted of the following:

| Inactive Plan Members or Beneficiaries Currently Receiving Benefit Payments | 145,050 |
|---|---------|
| Active Plan Members | 217,131 |
| Total | 362,181 |

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The total nonemployer OPEB liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016 which was rolled forward to June 30, 2017.

Actuarial Assumptions and Other Inputs

The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

| Inflation Rate | 2.50% | | |
|-------------------|------------------------------|--------------|--|
| | TPAF/ABP | PERS | |
| Salary Increases: | | | |
| Through 2026 | 1.55 - 4.55% | 2.15 - 4.15% | |
| | based on years of service | based on age | |
| Thereafter | 2.00 - 5.45% | 3.15 - 5.15% | |
| | based on years of service | based on age | |

NOTE 18. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Cont'd)

<u>State Health Benefit Program Fund – Local Education Retired (including Prescription Drug Program Fund)</u> (Cont'd)

Actuarial Assumptions and Other Inputs (Cont'd)

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 - June 30, 2015 and July 1, 2011 – June 30, 2014 for TPAF and PERS, respectively.

100% of all retirees who currently have healthcare coverage are assumed to continue with that coverage. 100% of active members are considered to participate in the Plan upon retirement, having a coverage blend of 85% and 15% in PPO and HMO, respectively.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female Mortality Table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Post-retirement mortality rates were based on the RP-2006 Headcount-Weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using MP-2017 scale.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits and health maintenance organization (HMO) medical benefits, trend rate is initially 5.8% and decreases to a 5.0% long term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long term rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years

Discount Rate

The discount rates for June 30, 2018 and 2017 were 3.87% and 3.58%, respectively, a change of +.29%. This represents the municipal bond rate as chosen by the State of New Jersey Division of Pensions and Benefits. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019 the District recognized OPEB expense of \$1,581,664 as determined by the State of New Jersey Division of Pensions and Benefits. This expense and the related offsetting revenue are for benefits provided by the State through a defined benefit OPEB plan that meets the criteria in GASB Codification Section P50, in which there is a special funding situation.

In accordance with GASB Codification Section P50, as the District's proportionate share of the OPEB liability is \$-0-, there is no recognition of the allocation of the proportionate share of the deferred inflows and outflows of resources. At June 30, 2018 the State had deferred outflows of resources and deferred inflows of resources related to OPEB associated with the District from the following sources:

| | Year of Deferral | Original Amortization Period in Years | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|---------------------|--|--------------------------------------|-------------------------------------|

SCHEDULE OF CHANGES IN THE STATE'S PROPORTIONATE SHARE OF THE TOTAL OPEB LIABILITY **ASSOCIATED WITH THE DISTRICT AND REATELD RATIOS**

LAST TWO FISCAL YEARS UNAUDITED

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT REQUIRED SUPPLEMENTARY INFORMATION SCHEDULES

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2019 (UNAUDITED)

A. PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Benefit Changes

There were none.

Changes of Actuarial Assumptions

The discount rate changed from 5.00% as of June 30, 2017 to 5.66% as of June 30, 2018. The municipal bond rate changed from 3.58% to 3.87%.

The mortality rates utilized in the July 1, 2016 valuation were as follows: Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members and a one year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward one year for females).

The mortality rates utilized in the July 1, 2017 valuation were as follows: Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of for future improvements in mortality from 2012 to 2013 using Projection Scale AA and a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward one year for females).

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2019 (UNAUDITED)

B. TEACHERS' PENSION AND ANNUITY FUND

Benefit Changes

There were none.

Changes of Actuarial Assumptions

The discount rate changed from 4.25% as of June 30, 2017 to 4.86% as of June 30, 2018. The municipal bond rate changed from 3.58 to 3.87%.

The salary increases in the July 1, 2016 valuation were as follows: 2012-2021 and thereafter – varies based on experience. The salary increases in the July 1, 2017 valuation are as follows: 2011-2026 - 1.55% - 4.55% and thereafter – 2% - 5.45%.

The mortality rates utilized in the July 1, 2016 valuation were as follows: Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The mortality rates utilized in the July 1, 2017 valuation were as follows: Pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from a base year of 2006 using a 60 year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant White Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60 year average of improvement rates based on Social Security data from 1953 to 2013. Disabled mortality rates were based on the RP-2006 Disabled Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

C. State Health Benefit Local Education Retired Employees OPEB Plan

Benefit Changes

There were none.

Changes of Actuarial Assumptions

The discount rate changed from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018.

The mortality rates in the valuation as of June 30, 2017 were based on the following:

Preretirement mortality rates were based on the RP-2014 Headcount-Weighted Healthy Employee Male/Female Mortality Table with fully generational mortality improvement projections from the central year using MP-2017 scale. Postretirement mortality rates were based on the RP-2014 Headcount-Weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2019 (UNAUDITED)

C. State Health Benefit Local Education Retired Employees OPEB Plan (Cont'd)

Changes of Actuarial Assumptions (Cont'd)

The mortality rates in the valuation as of June 30, 2018 were based on the following:

Pre-retirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female Mortality Table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Post-retirement mortality rates were based on the RP-2006 Headcount-Weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using MP-2017 scale.

The health care trend rates in the valuation as of June 30, 2018 were based on the following:

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount initially is 5.8% and decreases to a 5.0% long term trend rate after eight years. For self-insured post 65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long term rate after eight years. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long term rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The assumed Medicare Advantage trend rate is 4.5% in all future years.

The health care trend rates in the valuation as of June 30, 2017 were based on the following:

For pre-Medicare preferred provider organization (PPO) medical benefits and health maintenance organization (HMO) medical benefits, trend rate is initially 5.8% and decreases to a 5.0% long term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long term rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE NOTE TO RSI FOR THE FISCAL YEAR ENDED JUNE 30, 2019 UNAUDITED

Note A - Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures.

| | General Fund | | Special Revenue Fund |
|---|-----------------|---------|----------------------------|
| Sources/Inflows of Resources | | | |
| Actual Amounts (Budgetary Basis) "Revenue" | | | |
| from the Budgetary Comparison Schedule | \$ 21,227,778 | \$ | 271,616 |
| Difference - Budget to GAAP: | | | |
| Grant Accounting Budgetary Basis Differs from GAAP in that the | | | |
| Budgetary Basis Recognizes Encumbrances as Expenditures and | | | |
| Revenue While the GAAP Basis Does Not: | | | |
| Prior Year Encumbrances | | | 9,139 |
| Prior Year State Aid Payments Recognized for GAAP Purposes, not | | | |
| Recognized for Budgetary Statements | 397,649 | | |
| Current Year State Aid Payments Recognized for Budgetary | | | |
| Purposes, not Recognized for GAAP Statements | (383,379) | | |
| Total Revenues as Reported on the Statement of Revenues, Expenditures | | | |
| and Changes in Fund Balances - Governmental Funds | \$ 21,242,048 | \$ | 280,755 |
| | | | |
| Uses/Outflows of Resources: | | | |
| Actual Amounts (Budgetary Basis) "Total Outflows" from the | | | |
| Budgetary Comparison Schedule | \$ 23,106,379 | \$ | 271,616 |
| Differences - Budget to GAAP | | | |
| Encumbrances for Supplies and Equipment Ordered but | | | |
| Not Received are Reported in the Year the Order is Placed for | | | |
| Budgetary Purposes, but in the Year the Supplies are Received | | | |
| for Financial Reporting Purposes: | | | |
| Prior Year Encumbrances | | | 9,139 |
| Total Expenditures as Reported on the Statement of Revenues, | | | |
| Expenditures, and Changes in Fund Balances - Governmental Funds | \$ 23,106,379 | \$ | 280,755 |
| | | | <u> </u> |

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budget for the fiscal year ended June 30, 2019 was submitted to the County office and was approved by a vote by the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE NOTE TO RSI FOR THE FISCAL YEAR ENDED JUNE 30, 2019 UNAUDITED

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The Grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the June state aid payments for the current year. Since the State is recording the June state aid payments in the subsequent fiscal year, the school district cannot recognize these payments on the GAAP financial statements.

Exhibit I-3

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT BUDGETARY COMPARISON SCHEDULE DEBT SERVICE FUND

STATISTICAL SECTION (UNAUDITED)

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

| Contents | Exhibit |
|--|----------------|
| Financial Trends | |
| These schedules contain trend information to help the reader understand how | |
| the District's financial performance and well-being have changed over time. | J-1 thru J-5 |
| Revenue Capacity | |
| These schedules contain information to help the reader assess the factors | |
| affecting the District's ability to generate its property taxes. | J-6 thru J-9 |
| Debt Capacity | |
| These schedules present information to help the reader assess the affordability | |
| of the District's current levels of outstanding debt and the District's ability | |
| to issue additional debt in the future. | J-10 thru J-13 |
| Demographic and Economic Information | |
| These schedules offer demographic and economic indicators to help the reader | |
| understand the environment within which the District's financial activities take | |
| place and to help make comparisons over time and with other governments. | J-14 thru J-15 |
| Operating Information | |
| These schedules contain information about the District's operations and | |
| resources to help the reader understand how the District's financial information | |
| relates to the services the District provides and the activities it performs. | J-16 thru J-20 |
| | |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year.

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculation.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation Taxable.

b Rates for debt service are based on each year's requirements.

* Revaluation became effective.

- Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Alexandria, Frenchtown, Holland, Kingwood, and Milford. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.
 - ^a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the District's boundaries and dividing it by each unit's total equalized property value.

Sources: Assessed value data used to estimate applicable percentages provided by the Hunterdon County Board of Taxation; debt outstanding data provided by each governmental unit.

<u>Report on Internal Control Over Financial Reporting and</u> on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District County of Hunterdon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey (the "Department"), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Delaware Valley Regional High School District, in the County of Hunterdon (the "District") as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 8, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major State Program; Report on Internal Control Over Compliance

Independent Auditors' Report

The Honorable President and Members of the Board of Education Delaware Valley Regional High School District County of Hunterdon, New Jersey

Report on Compliance for Each Major State Program

We have audited the Board of Education of the Delaware Valley Regional High School District's (the "District's") compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major state programs for the fiscal year ended June 30, 2019. The District's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance") and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid.* Those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the District's compliance.

Honorable President and Members of the Board of Education Delaware Valley Regional High School District Page 2

Opinion on Each Major State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the fiscal year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey's OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance that a type of compliance with a type of compliance that a type of compliance over compliance is a deficiency or a combination of deficiencies, in internal control over compliance to ver compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance or NJOMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2019

NOTE 1. BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal and state awards (the "Schedules") include the federal and state grant activity of the Delaware Valley Regional High School District under programs of the federal and state governments for the fiscal year ended June 30, 2019. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance") and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Because the schedules present only a selected portion of the operations of the District, they are not intended to and do not present the financial position, changes in net position or cash flows of the District.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the accompanying schedules of expenditures of federal and state awards are reported on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented on the accrual basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3. INDIRECT COST RATE

The District has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 4. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreements to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last two state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes these payments are not recognized until the subsequent budget year due to the state deferral and recording of the last two state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Grant revenue in the capital projects fund is recognized on the budgetary basis in the fiscal year of award but is not recognized on the GAAP basis until expended and submitted for reimbursement.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$14,270 for the General Fund, \$9,139 for the special revenue fund, and \$1,022,889 for the capital projects fund. See Note 1D for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general, special revenue and capital projects funds. Awards and financial assistance revenue are reported on the Board's basic financial statements on a GAAP basis as presented on the following page.

NOTE 6. OTHER

Total Awards

TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2019. Revenue and expenditures reported under the Federal Food Distribution Program represent current year value received and current year distributions, respectively.

NOTE 7. NJ SCHOOLS DEVELOPMENT AUTHORITY (SDA) GRANTS

The District has an active grant awarded in the amount of \$1,041,770 from the Schools Development Authority (SDA) under the Educational Facilities Construction and Financing Act. As of June 30, 2019, the grant funds have been expended and submitted for reimbursement. The District realizes grant revenue in the Capital Projects Fund on the GAAP basis as it is expended and submitted for reimbursement.

During the fiscal year ended June 30, 2019, the District submitted for reimbursement and collected \$808,984 of SDA grant funds under the grant award. An amount of \$18,881 was cancelled on the award and \$213,905 is receivable.

DELAWARE VALLEY REGIONAL HIGH SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Summary of Auditors' Results:

- The Independent Auditors' Report expresses an unmodified opinion on the financial statements of the District.
- There were no material weaknesses or significant deficiencies disclosed during the audit of the financial statements as reported in the *Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards.*
- No instances of noncompliance material to the financial statements of the District which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
- There were no material weaknesses or significant deficiencies in internal control over major state programs disclosed during the audit as reported in the *Independent Auditors' Report on Compliance For Each Major State Program; Report on Internal Control Over Compliance.*
- The auditor's report on compliance for the major state programs for the District expresses an unmodified opinion on all major state programs.
- The District was not subject to the single audit provisions of the Uniform Guidance for the fiscal year ended June 30, 2019 as federal grant expenditures were less than the single audit threshold of \$750,000 identified in the Uniform Guidance.
- The audit did not disclose any audit findings which are required to be reported in accordance with New Jersey's OMB Circular 15-08 or 2 CFR 200.516(a) of the Uniform Guidance.
- The District's programs tested as major state programs for the current fiscal year consisted of the following:

| State: | Grant Number | Grant Period | Award Amount | Budgetary Expenditures |
|-----------------------------------|---------------------|-----------------|-----------------|---------------------------|
| State Aid Public: | | | | |
| Categorical Special Education Aid | 19-495-034-5120-089 | 7/01/18-6/30/19 | \$ 592,662 | \$ 592,662 |
