**2. ECONOMIC CONDITION AND OUTLOOK OF THE CITY OF EAST ORANGE**

The Board is located in the City of East Orange (the City), in the County of Essex within the State of New Jersey. The City has grown from a farmland region to a stable urban-suburban community since becoming an independent municipality in 1863. In 1909 East Orange was incorporated as a City, it measures approximately four square miles and the District is the second largest school District in Essex County based on student's enrollment.

The City has maintained a strong commercial and industrial base in part because of its strategic location at the intersection of the Garden State Parkway and Interstate Route 280, which connects with the nearby New Jersey Turnpike. Also, the City is part of a varied transportation network with several railroad stops along the New Jersey Transit rail route and approximately 21 bus routes, and convenient access to Newark Liberty International Airport, Port Newark and Port Elizabeth, New York City, and the New Jersey Meadowlands Sports Complex.

Although the City has some light manufacturing and large businesses such as Louis Berger International, the largest United States based planning firm in the international development market, its economy is based on retail and commercial centers that form the City's economic backbone. Other major businesses in the City are Verizon; American Eagle Water Company; PNC Bank; Wachovia Bank; Bank of America and Banco Popular. Also, there are a diverse array of lending and savings institutions and small businesses. In addition, the City has four business and main shopping areas: the Central Evergreen Arcade; Main Street; the Ampere Business district; and Brick Church Mall.

Located within the City are six secondary schools (three high schools and three middle schools), 10 elementary schools, two Early Childhood Centers for Preschool and Kindergarten, as well as, 2 alternative school programs. In and around the City are several technical, secretarial, and health care schools, which annually produce qualified, specialized office workers and health aides. Also, the East Orange General Hospital operates an established accredited nursing school. Additionally, Seton Hall University, Rutgers University, Montclair State University, the New Jersey Institute of Technology and the College of Medicine and Dentistry of New Jersey are all located in communities adjacent to the City.

The East Orange Public Library system serves as a Federal book depository and area reference center for suburban Essex County. More than 350,000 volumes are available at the main library and in several neighborhood branches.

A three-member Board of Water Commissioners appointed by the Mayor establishes water and sewer operations for the City. The City owns 2,236 acres in Florham Park, Livingston and Millburn on which are two covered reservoirs with a capacity of 10 million gallons. Presently there are 17 artesian wells also located in Florham Park, Livingston and Millburn, with a total peak capacity of 16 million gallons per day. Water interconnections have been made with the Commonwealth Water Company and the City of Newark for emergency usage. The City's sewer system is divided into three areas consisting of connections with the city of Newark, the Essex Union Joint Meeting and the Second River Joint Meeting. Flow is by gravity to all connections and the City has neither sewer treatment plants nor sewer pump stations.

The East Orange Department of Recreation operates and maintains approximately 54 acres of parks throughout the City and an 18-hole golf course at the East Orange Water Reserve in nearby Millburn.

The City operates a professionally staffed Health Department, which conducts clinics, educational programs, and inspections. East Orange General Hospital, a 200-physician and 211-bed facility, is located on Central Avenue in the heart of the City. Also, the Veterans Administration Medical Center located on a 32-acre tract serves 1.1 million veterans in New Jersey.

The East Orange Police Department employs approximately 254 police officers, reflecting the City's commitment to public safety and aggressive posture towards crime.

A variety of housing options are available ranging from small cottages to large high-rise apartments. There are several modern senior citizen high-rise complexes in the City, providing housing with security and health services to the region's elderly residents. Also, government, health-care hospital services are the principal tenants of the large-scale office space in the City.

The City offers a labor force of over 38,000 white and blue-collar workers. The largest employers are the federal and local governments; the Veterans Administration Medical Center; and East Orange General Hospital. However, the City continues to offer an ample supply of modern office space for new and expanding businesses.

#### **4. INTERNAL ACCOUNTING CONTROLS**

Management of the District is responsible for establishing and maintaining a system of internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. Internal control is designed to provide reasonable, but not absolute, assurance that GAAP objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be achieved; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to funded programs. Each funded grant has a program manager assigned to facilitate the program. This internal control is also subject to periodic evaluation by District administration.

As part of the District's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to Federal and State financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

#### **5. BUDGETARY CONTROLS**

The District also maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of School Estimate. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2019.

## 6. ACCOUNTING SYSTEM AND REPORTS

The District's accounting records reflect GAAP, as promulgated by the GASB. Under this model, the District's basic financial statements include district-wide statements, consisting of a statement of net assets and a statement of activities. These statements present information about the District as a whole and recognize revenues and expenses based on the accrual method of accounting. The accounting system of the District is organized on the basis of funds. These funds are explained in the Financial Section - Notes to the Financial Statements, Note 1, of this report.

## 7. CASH MANAGEMENT

The investment policy of the District is guided in large part by state statute as detailed in the Financial Section - Notes to the Financial Statements, Note 2, of this report. The District utilizes a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

## 8. RISK MANAGEMENT

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, fidelity bonds, student insurance, and errors and omissions (see Exhibit J-20 in the statistical section of this report).

## 9. SERVICE EFFORTS AND ACCOMPLISHMENTS

Through the development of the Transformation Plan for East Orange Campus High School [EOCHS], twelve Career and Technical Education Pathways were established. The Transformation Plan has resulted in enhancements in student choices of career or college majors, completion of college level course work through its Dual College Enrollment Initiative with Essex County College as well as significant improvements in Attendance, Discipline. The school also offers Vocational Student Organizations as vital components of the CTE curriculum Pathways. Students are able to enhance their experiences in their CTE course of study in Future Business Leaders of America, Distributive Education Clubs of America, Business Professionals of America, Technology Students Association, and Family, Career, and Community Leaders of America. Students in these co-curricular offerings have the opportunity to compete at the local, state, and national levels.

In addition, students can enroll in several Advanced Placement courses including Biology, Calculus AB, English Language and Composition, English Literature and Composition, United States History, and United States Government and Politics, French and Spanish Language and Culture.

The STEM High School has also established strong academic and co-curriculum opportunities for students in the fields of science. These include FIRST - Robotics national competitions, summer study programs at Rutgers and NJIT, and industry partnerships and sponsorships for academic programs. It was designated a Bronze Award School in the US News Report Issue.

Finally, the district's Visual and Performing Arts Middle/ High School continues to be recognized as one of the country's outstanding performing and fine arts schools. The school was awarded bronze status during 2015 through 2019 by US News. Tyson.

**10. OTHER INFORMATION**

State statutes require an annual audit by independent Certified Public Accountants (CPAs) or Registered Municipal Accountants. The Board has selected the accounting firm of Lerch, Vinci & Higgins, LLP to perform the District's annual audit for 2018 - 2019.

**11. ACKNOWLEDGMENTS**

We would like to express our appreciation to the members of the Board of Education of the City of East Orange for their concern in providing fiscal accountability to the citizens and taxpayers of the school District and hereby, contributing their full support to the development and maintenance of our financial operation. ## INDEPENDENT AUDITOR'S REPORT

Honorable President and Members  
of the Board of Trustees  
East Orange Board of Education  
East Orange, New Jersey

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Orange Board of Education, a component unit of the City of East Orange as of and for the fiscal year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Orange Board of Education as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

## *Other Matters*

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension information and other postemployment benefits information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Orange Board of Education's basic financial statements. The introductory section, combining fund financial statements, financial schedules, statistical section, schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the East Orange Board of Education.

The combining fund financial statements, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

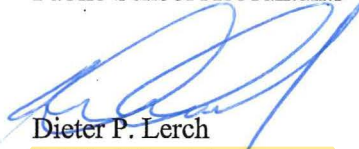

The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with Government Auditing Standards, we have also issued our report dated November 26, 2019 on our consideration of the East Orange Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the East Orange Board of Education's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the East Orange Board of Education's internal control over financial reporting and compliance.

Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current year (2018-2019) and the prior year (2017-2018) is required to be presented in the MD&A.

**FINANCIAL HIGHLIGHTS**

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The financial section of the annual report consists of four parts – Independent Auditors' Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual* parts of the District, reporting the District's operations in *more detail* than the district-wide statements.
  - The *governmental funds statements* tell how basic services were financed in the *short term* as well as what remains for future spending.
  - *Proprietary funds* statements offer *short-term* and *long-term* financial information about the activities the district operated like *businesses*.
  - *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others to whom the resources belong.

The financial statements also include *notes* that explain the information in the statements and provide more detailed data. The illustration below shows how the various parts of this annual report are arranged and related to one another.

**District-wide financial statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, liabilities and deferred outflows/inflows. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets/deferred outflows and liabilities/deferred inflows – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in two categories:

- *Governmental activities* – Most of the District's basic services are included here, such as regular and special education, transportation, administration and plant operations and maintenance. Property taxes and state aids finance most of these activities.
- *Business type activities* – These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The District's Food Service Fund is included under this category.

**Fund financial statements**

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and debt covenants.
- The District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

EAST ORANGE, NEW JERSEY**

**Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2019**

**Fund financial statements (continued)**

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements.

*Enterprise Funds* – This fund is established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has one enterprise fund for the operation of the Food Service (Cafeteria) program.

- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

**Notes to the financial statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the financial statements.

**Other Information**

In addition to the financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's budget process. The District adopts an annual expenditure budget for the general, special revenue and debt service funds. A budgetary comparison statement has been provided for the general and special revenue funds as required supplementary information. The required supplementary information can be found following the notes to the financial statements.

Combining statements and schedules are presented immediately following the major budgetary comparisons.

**DISTRICT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$178,335,470 as of June 30, 2019 and \$164,711,638 as of June 30, 2018.

By far the largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A small portion of the District's Net Position, five percent, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is in a negative position and is a result of how the district expenses its long-term liabilities for governmental activities such as Certificates of Participation, interlocal agreements, net pension liability and compensated absences on the District-wide Financial Statements. These long-term liabilities are recorded and expensed for governmental activities at the time the liabilities are incurred regardless of when payment is due. However, the revenue for these long-term liabilities of governmental activities is not raised until these liabilities are included in the District budget when Certificates of Participation, interlocal agreements, net pension liability and compensated absences for governmental activities are due and payable.

**Governmental Activities.** The District's total governmental activities' revenues, which includes State and Federal grants, were \$309,323,334 and \$314,905,816 for the years ended June 30, 2019 and June 30, 2018, respectively. Property taxes of \$24,168,761 and \$23,176,532 represented 7% and 7% of the revenues for the fiscal years ended June 30, 2019 and 2018, respectively. Another significant portion of revenue came from unrestricted State aid and Federal aid of \$168,141,004 and \$171,447,807 which represented 54% and 54% of the revenues for the fiscal years ended June 30, 2019 and 2018, respectively. Revenues from operating grants and contributions of \$97,942,315 and \$115,930,855 represented 32% and 37% of the revenues for the fiscal years ended June 30, 2019 and 2018, respectively. Capital grants and contributions of \$17,499,731 and \$2,987,676 represented 6% and 1% of the revenues for the fiscal year ended June 30, 2019 and 2018, respectively. In addition, other income is earned which includes revenues such as interest, prior year refunds and other miscellaneous items.

The total cost of all governmental activities programs and services were \$295,688,161 and \$322,432,113 for the years ended June 30, 2019 and 2018. The District's expenses are predominantly related to educating and caring for students. Instruction totaled \$181,358,540 and \$197,556,260 (61% and 61%) of total expenditures for the fiscal years ended June 30, 2019 and 2018, respectively. Student support services, totaled \$110,655,544 and \$121,118,849 (37% and 38%) of total expenditures and interest on long-term debt totaled \$3,674,077 and \$3,757,004 (2% and 1%) of total expenditures for the fiscal years ended June 30, 2019 and 2018, respectively.

Total governmental activities revenues and transfers for the year ended June 30, 2019 surpassed expenses, increasing net position by \$13,653,173 over the previous year from \$163,892,573 at June 30, 2018 to \$177,527,746 at June 30, 2019.

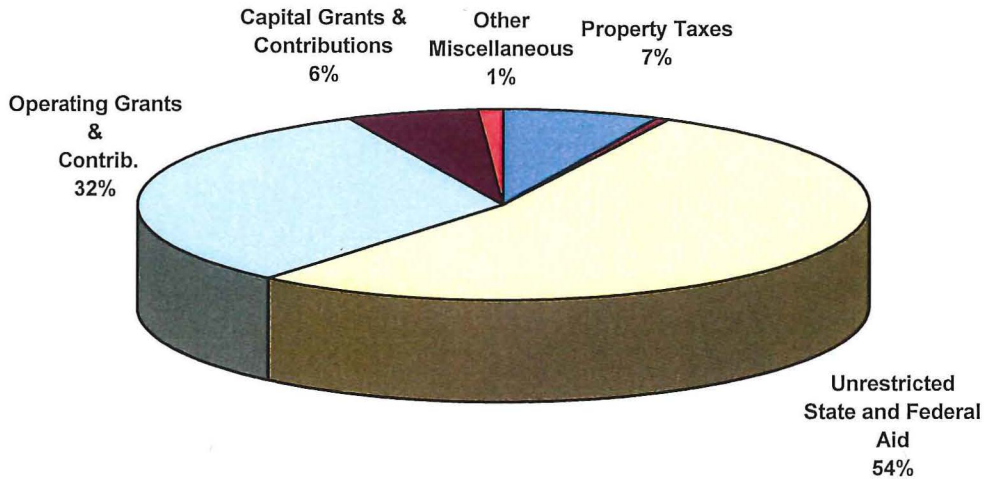

The cost of all *governmental* activities this year was \$295,688,161 a decrease of \$26,743,952 or 8% over the previous year. The cost of governmental activities were funded by the following program and general revenues:

- The federal and state governments subsidized certain programs with grants and contributions of \$97,942,315 (exclusive of capital projects), a decrease of \$17,988,540. The state contributions from the Educational Facilities Construction and Financing Aid Program which financed capital project costs increased \$14,512,055 from the previous year and the District realized decreases from Federal and State sources for unrestricted formula aid of \$3,306,803.
- The decrease in Federal and State grants and contributions was primarily the result of decreased accruals for TPAF and PERS OPEB contributions as a result of the implementation of GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pension.
- District's costs in the amount of \$24,168,761 were provided from property taxes. The property taxes levied in 2019 increased \$992,229.
- Other general revenues totaling \$1,334,733 were provided from miscellaneous local sources.

**Business-Type Activities (Continued)**

The business-type activities revenues and transfers for the year ended June 30, 2019 were less than expenses decreasing net position by \$11,341 from the previous year from \$819,065 at June 30, 2018 to a net position of \$807,724 at June 30, 2019.

- Some of the cost was paid by users of the District's food service program for a total of \$912,311 an increase of \$137,504 (18%). This increase was the result of an increase in the number of non-student meals served and an increase in special events during the year.
- The Federal and State governments subsidized the food service program with grants and contributions of \$6,091,198 in 2019 and \$6,084,698 in 2018, an increase of \$6,500 (less than 1%). This minimal increase is a result of an increase in the number of reimbursable student meals served during the year.

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a *combined* fund balance of \$26,706,902 for the year ended June 30, 2019 compared to \$5,406,119 for the year ended June 30, 2018. This increase was primarily the result of the change in fund balance of the General Fund which increased \$5,142,987 from the previous year and change in the Capital Projects Fund which increased \$15,779,013, primarily as a result of the funding related to the energy savings improvement program. Unassigned fund balance of the General Fund remained in a deficit position at June 30, 2019 of \$14,320,718 a deficit increase of \$435,874 from the previous year. The General Fund deficit is the result of the State's deferral of certain state aid payments in the amount of \$18,226,096 which are budgeted for the current fiscal year (2018/2019) by the District but provided for and recorded as a payable in the subsequent fiscal year by the State in their 2019/2020 fiscal year budget. A portion of fund balance was designated for use in the District's 2019/2020 General Fund budget in the amount of \$7,190,372. The remainder of the General Fund fund balance is nonspendable, \$227,224, as it represents supplies and materials on hand at year end or restricted to indicate that it is not available for new spending because it has been committed 1) to liquidate contracts and purchase orders of the prior period \$2,645,772; 2) capital reserves \$5,741,312; 3) maintenance reserve of \$2,500,000; \$500,000 which was designated for use in the 2019/2020 General Fund budget; and 4) reserve for register audit recoveries \$1,003,550.

The following schedule presents a summary of General Fund expenditures.

	June 30,		Amount of Increase (Decrease)	Percent Change
	<u>2019</u>	<u>2018</u>		
Instruction	\$ 135,317,321	\$ 135,264,671	\$ 52,650	0%

Total Expenditures	<u>\$ 229,934,263</u>	<u>\$ 232,352,997</u>	<u>\$ (2,418,734)</u>	-1%

Total General Fund expenditures decreased \$2,418,734 or 1% from the previous year. The net decrease in 2018/2019 can be attributed to decreased expenditures for special education, general administrative, custodial services, workmen's compensation and health benefit costs and increased on behalf contributions paid by the State in the amount of \$3,881,789.

In Fiscal Year 2019 General Fund revenues and other financing sources were greater than expenses and other financing uses increasing fund balance by \$5,142,987 from the previous year. After deducting nonspendable, restricted and assigned fund balance, the unassigned fund deficit increased \$435,874 from \$13,884,844 at June 30, 2018 to \$14,320,718 at June 30, 2019. As discussed earlier the deficit is the result of the State deferral of certain state aid payments at year end totaling \$18,226,096 in the General Fund.

**Special Revenue Fund** - The Special Revenue Fund includes all restricted Federal, State and Local sources utilized in the operations of the district in providing educational services to students.

The Special Revenue Fund expenditures and other financing uses equaled the revenues and other financing sources.

Revenues of the Special Revenue Fund were \$29,656,835 and \$28,781,427 for the years ended June 30, 2019 and 2018. State sources accounted for the majority of Special Revenue Fund's revenue which represented 65% and 69% of the total revenues for the years ended June 30, 2019 and 2018.

**Special Revenue Fund (Continued)**

Total Special Revenue Fund revenues increased \$875,408 or 3% from the previous year. State sources decreased \$539,224 or 3%, while Federal sources increased \$1,507,305 or 17%. The local grants increased \$92,673.

Expenditures of the Special Revenue Fund were \$26,774,715 and \$25,521,368 for the fiscal years ended June 30, 2019 and 2018. Instructional expenditures were \$19,443,506 and \$19,261,402 or 73% and 75% and expenditures for the support services were \$6,969,079 and \$6,257,456 or 26% and 25% of total expended for the years ended June 30, 2019 and 2018. In addition the Special Revenue Fund contributed \$3,536,670 and \$3,260,059 in 2019 and 2018 to the General Fund as a contribution for School Based Budget expenditures.

Total Special Revenue Fund expenditures increased \$1,253,347 or 7% from the previous year. Instructional expenditures increased \$182,104 or 1% while support services expenditures increased \$711,623 or 11%. Capital outlay expenditures increased \$359,620.

**Capital Projects Fund** – The Capital Projects Fund includes all revenue sources utilized for major capital projects of the District. The capital projects fund revenues and other financing sources exceeded expenditures and other financing uses by \$15,779,013 resulting in a fund balance of \$21,716,934 at June 30, 2019. As previously stated, this increase was the result of funding related to the interlocal agreement with the City for the energy savings program. Of the fund balance at June 30, 2019 \$5,936,293 was restricted for the payment of 1998 capital lease obligations. The remaining restricted fund balance of \$15,780,641 was restricted and available to fund capital improvement projects, primarily the energy savings program.

Revenues of the Capital Projects Fund were \$17,870,041 and \$3,299,201 for the years ended June 30, 2019 and 2018. State sources which represent 98% and 91% of the total revenues for each respective year are funded by the School Development Authority (SDA). The enactment of the "Educational Facilities Construction and Financing Act", the School Development Authority (SDA) funds all construction and improvement projects over \$500,000. Thus the need for the district to finance major capital projects through the issuance of debt has been virtually eliminated.

Other financing sources of the Capital Projects fund were \$16,580,000 of Energy Savings Obligation Refunding Bonds which were issued by the City on behalf of the District. The District entered into an interlocal agreement to repay the City the principal and interest on any obligations issued by the City for the energy savings improvement program. A premium of \$2,034,318 was also realized in the sale, which will also be utilized to fund the project.

Expenditures of the capital projects fund were \$20,392,363 and \$2,987,676 for the years ended June 30, 2019 and 2018. The increase in expenditures during the year represented the increased activity from various improvements and renovations completed by the SDA in the amount of \$14,512,055 and \$2,892,632 which represented the first installment due to Honeywell for the energy savings improvement program.

**Debt Service Fund** – The debt service fund includes all revenue sources restricted for the payment of long-term debt of the district.

The Debt Service Fund revenues and other financing sources exceeded the expenditures by \$378,783 resulting in a fund balance of \$2,456 compared to a fund balance deficit of \$376,327 in the previous year.

Transfers in from the Capital Projects Fund were \$312,983 and \$310,487 for the years ended June 30, 2019 and 2018 and represented interest earnings reserved for the payment of capital lease obligations.

Expenditures of the Debt Service Fund were \$5,690,000 and \$5,690,000 for the years ended June 30, 2019 and 2018. Expenditures represented the repayment of principal and interest of the 1998 certificates of participation issued under a lease-purchase agreement.

**Proprietary Funds**

The District maintains an Enterprise Fund to account for activities which are supported in part through user fees.

**Enterprise Fund** - The District uses an Enterprise Fund to report activities related to the Food Services program. The District's Enterprise Fund provides the same type of information found in the district-wide financial statements, business-type activities, but in more detail. Factors concerning the finances of this Fund have already been addressed in the discussion of the District's business-type activities.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The District's budget is prepared according to New Jersey Department of Education guidelines and is based on accounting for certain transactions on the budgetary basis of revenues, expenditures and encumbrances. The most significant difference between the budgetary basis of accounting and generally accepted accounting principles is the legally mandated revenue recognition of certain deferred state aid payments for budgetary purposes only. The most significant budgetary fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times through appropriation transfers between budget line items.

During the year budgetary revenues and other financing sources exceeded budgetary expenditures and other financing uses resulting in an increase in budgetary fund balance of \$5,466,377 over the previous year. After deducting nonspendable, restricted and assigned fund balance of \$19,308,230, the unassigned fund balance decreased from \$4,017,862 at June 30, 2018 to a fund balance of \$3,905,378 at June 30, 2019 which represented a decrease of \$112,484.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

While many factors influence the district's future, the availability of State funding, needed capital improvements and the economy will have the most impact on educational and fiscal decisions in the future.

Many factors were considered by the District's administration during the process of developing the fiscal year 2019-2020 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs.

These indicators were considered when adopting the budget for fiscal year 2019-2020. Budgeted expenditures in the General Fund decreased by \$1,931,762 to \$206,370,088 in fiscal year 2019-2020.

RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF  
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES  
WITH THE DISTRICT-WIDE STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**Total net change in fund balances - governmental funds (Exhibit B-2)** **\$ 21,300,783**

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, for governmental activities, the costs are shown in the statement and allocated over their estimated useful lives as annual depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays	\$ 20,853,391	
Depreciation Expense	<u>(10,762,935)</u>	10,090,456

In the statement of activities, interest on debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due.

Accrued Interest		(143,870)
------------------	--	-----------

The issuance of long-term debt (e.g. interlocal agreements, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Debt Issued		
Interlocal Agree. - Energy Savings Program Proc.	(16,580,000)	
Interlocal Agree. - Prem.on Energy Savings Proc.	<u>(2,034,318)</u>	(18,614,318)

Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and does not affect the statement of activities.

Certificate of Participation		5,690,000
------------------------------	--	-----------

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Accreted Value of Capital Appreciation Certificates		(3,530,207)
--	--	-------------

In the statement of activities, certain operating expenses - compensated absences and claims and judgements - are measured by the amounts earned or incurred during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid):

Claims and Judgements Payable	(340,251)	
Pension Expense (PERS)	(411,400)	
Pension Expense (ECPF)	(352,795)

**NOTES TO THE FINANCIAL STATEMENTS**

**EAST ORANGE BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The East Orange Board of Education (the “Board” or the “District”) is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of seven members appointed by the Mayor of the City of East Orange (the “City”) and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls. As a Type I School District, the Board does not have the authority to issue general obligation debt. Such debt is issued and repaid by the City for the District.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the East Orange Board of Education this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization’s governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization’s resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units however, the District is considered a component unit of the City of East Orange.

**B. New Accounting Standards**

During fiscal year 2019, the District adopted the following GASB statement as required:

- GASB No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement will improve financial reporting by providing users of financial statements with essential information that currently is not consistently provided. In addition, information about resources to liquidate debt and the risks associated with changes in terms associated with debt will be disclosed.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB No. 84, *Fiduciary Activities*, will be effective with the fiscal year ending June 30, 2020. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement established criteria for identifying fiduciary activities of all state and local governments.

**B. New Accounting Standards (Continued)**

- GASB No. 87, *Leases*, will be effective with the fiscal year ending June 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.
- GASB No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*, will be effective beginning with the fiscal year ending June 30, 2020. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

**C. Basis of Presentation - Financial Statements**

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the District's enterprise funds. Fiduciary funds are excluded from the district-wide financial statements.

**District-Wide Financial Statements**

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid, federal and state grants for school-based budgeting and other items not properly included among program revenues are reported instead as general revenues.

**C. Basis of Presentation - Financial Statements (Continued)**

**District-Wide Financial Statements (Continued)**

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**Fund Financial Statements**

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and enterprise funds to be major funds.

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects and the child nutrition programs.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

Additionally, the government reports the following fund types:

The *fiduciary trust funds* are used to account for resources legally held in trust for state unemployment insurance claims and for private donations. All resources of the funds, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

The *fiduciary agency funds* account for assets held by the District as an agent for student activities and for payroll deductions and withholdings. The funds for the student activities fund are solely for noninstructional student activities that are supported and controlled by student organizations and clubs for which school administration does not have management involvement. The payroll funds are held to remit employee withholdings to respective state, federal and other agencies.

**C. Basis of Presentation - Financial Statements (Continued)**

**Fund Financial Statements (Continued)**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as “internal balances”.

**Reclassifications**

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year’s presentation.

**D. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the Board’s policy to use restricted resources first, then unrestricted resources as they are needed.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

***1. Cash, Cash Equivalents and Investments***

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

***2. Receivables***

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

***3. Inventories***

Food Service Fund inventories, exclusive of the federal commodities, are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased. The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by the USDA. It is valued at estimated market prices by the USDA. The amount of unused commodities inventory at year-end is reported as deferred inflows of resources.

***4. Restricted Assets***

Certain assets are classified as restricted on the balance sheet because they are maintained in separate bank accounts and for repayment of certificates of participation, principal and interest.

***5. Capital Assets***

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Building Improvements	20-40
Equipment	7
Computer Equipment	5
Vehicles	5

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**

***6. Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Board has one item which arises only under the accrual basis of accounting that qualifies for reporting in this category. The item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. These amounts are deferred and amortized over future years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one type of item which arises only under the accrual basis of accounting that qualifies for reporting in this category. The item that qualifies for reporting in this category are the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; and (4) changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized over future years.

***7. Compensated Absences***

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused sick leave benefits. A long-term liability of accumulated sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds accrue accumulated sick leave and salary related payments in the period that they are earned. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

***8. Pensions***

In the district-wide financial statements and proprietary fund types in the fund financial statements, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems sponsored and administered by the State of New Jersey and additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In the governmental fund financial statements, net pension liabilities represent amounts normally expected to be liquidated with expendable available financial resources for required pension contributions that are due and payable at year end. Pension expenditures are recognized based on contractual pension contributions that are required to be made to the pension plan during the fiscal year.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

9. *Long-Term Obligations*

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

10. *Net Position/Fund Balance*

District-Wide Statements

In the district-wide statements, there are three classes of net position:

- **Net Investment in Capital Assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets or related debt also should be included.
- **Restricted Net Position** – reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** – any portion of net position not already classified as either net investment in capital assets or net position – restricted is classified as net position – unrestricted.

Governmental Fund Statements

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

**Nonspendable Fund Balance** – Amounts that are not in a spendable form (such as inventory) or are required to be maintained intact.

*Inventory* – Represents the portion of fund balance not available for future spending related to supplies and materials on hand at year end to be consumed in future periods.

**Restricted Fund Balance** – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

*Capital Reserve* – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 3 ).

Capital Lease Obligations – This restriction was created from proceeds of the lease purchase agreement certificates of participation held by the Trustee to offset final principal payments due on the certificates.

Capital Projects – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

Debt Service – Represents fund balance restricted specifically for the repayment of long-term debt principal and interest in the Debt Service Fund.

Maintenance Reserve – This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education. (See Note 3).

Maintenance Reserve - Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of maintenance reserve fund balance appropriated in the adopted 2019/2020 District budget certified for taxes

Legally Restricted – Register Audit Recoveries – This restriction was created to represent the amount recovered as a result of audits of the District's Application for State School Aid.

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Year-End Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2019/2020 District budget certified for taxes.

Unassigned Fund Balance – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

In the general operating fund and other governmental funds (capital projects and debt service fund types), it is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted (i.e., committed, assigned or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

**EAST ORANGE BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**

***11. Fund Balance Policies***

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the government that can, by adoption of a resolution or formal Board action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District has no committed fund balances at year end.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the School Business Administrator/Board Secretary to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**F. Revenues and Expenditures/Expenses**

***1. Program Revenues***

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, federal and state grants for school-based budgeting, investment earnings and miscellaneous revenues.

***2. Property Taxes***

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1<sup>st</sup> in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**F. Revenues and Expenditures/Expenses (Continued)**

**3. *Tuition Revenues and Expenditures***

*Tuition Revenues* - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

*Tuition Expenditures* - Tuition charges for the fiscal years 2017-2018 and 2018-2019 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

**4. *Proprietary Funds, Operating and Nonoperating Revenues and Expenses***

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and State subsidies for the food service operation are considered nonoperating revenues.

**A. Explanation of certain differences between the governmental fund balance sheet and the district-wide statement of net position**

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position– governmental activities as reported in the district-wide statement of net position. **NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Information**

In accordance with the requirements of the New Jersey Department of Education (“the Department”), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent and is approved by the Board of School Estimates.

Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2018/2019. Also, during 2018/2019 the Board increased the original budget by \$3,279,381. The increase was funded by additional surplus appropriated, grant awards and the reappropriation of prior year general fund encumbrances. During the fiscal year the Board authorized and approved the additional fund balance appropriation of \$385,661 from the general fund maintenance reserve on February 19, 2019.

**EAST ORANGE BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**A. Budgetary Information (Continued)**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

**B. Excess Expenditures Over Appropriations**

The following is a summary of expenditures in excess of available appropriations. The overexpended appropriations resulted in unfavorable variances.

**EAST ORANGE BOARD OF EDUCATION  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**C. Deficit Fund Equity**

The District has an unassigned fund deficit of \$14,320,718 in the General Fund as of June 30, 2019 as reported in the fund financial statements (modified accrual basis). NJSA 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record these delayed state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions", requires that intergovernmental transactions (revenue, expenditure, asset, liability) should be recognized in symmetry (i.e., if one government recognizes an asset, the other government recognizes a liability). Since the State of New Jersey is recording certain 2018/2019 budgeted state aid payments in the subsequent fiscal year, the school district cannot recognize such payments on the GAAP (fund) financial statements until the year the State records the payable. Due to the timing difference of recording these delayed state aid payments, the General Fund deficit does not alone indicate that the District is facing financial difficulties; however, unless the State of New Jersey budgets the delayed payments in future years, the District may also report fund deficits in the future.

Pursuant to NJSA 18A:22-44.2, any negative unreserved, undesignated (i.e., unassigned) general fund balance that is reported as a direct result of a delay in the payment of state aid until the following fiscal year, is not considered as a violation of New Jersey Statute or regulation and is not considered an item in need of corrective action. The District deficit in the GAAP (fund) financial statements of \$14,320,718 in the General Fund is less than the delayed state aid payments at June 30, 2019.

**D. Capital Reserve**

A capital reserve account was established by the District. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2019 is as follows:

Balance, July 1, 2018	\$ 3,741,312
Increased by:	
Deposits Approved by Board Resolution	<u>2,000,000</u>
Balance, June 30, 2019	<u>\$ 5,741,312</u>

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**E. Maintenance Reserve**

A maintenance reserve account was established by the District. The accumulation of funds will be used for required maintenance of school facilities expenditures in subsequent fiscal years. The maintenance reserve is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the maintenance reserve are restricted to required maintenance activities for a school facility as reported in the comprehensive maintenance plan. A District may appropriate funds into the maintenance reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the reserve cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the fiscal year ended June 30, 2019 is as follows:

Balance, July 1, 2018	\$ 1,395,654
Increased by:	
Deposit Approved by Board Resolution	<u>1,490,007</u>
	2,885,661
Decreased by:	
Approved in District Budget	<u>385,661</u>
Balance, June 30, 2019	<u>\$ 2,500,000</u>

The withdrawals from the maintenance reserve were for use in required maintenance activities for school facilities. \$500,000 of the maintenance reserve balance at June 30, 2019 was designated and appropriated for use in the 2019/2020 original budget certified for taxes.

**NOTE 5 OTHER INFORMATION**

**A. Risk Management**

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District has established a worker's compensation plan for its employees. Transactions related to the plan are accounted for in the General Fund. The District funds the entire cost of the plan. Claims are paid directly by the plan with any excess benefit being reimbursed through a Re-Insurance Agreement. A contingent liability exists with respect to reinsurance, which would become an actual liability in the event the reinsuring company may not be able to meet their obligations to the District under existing reinsurance agreements.

Estimates of claims payable and of claims incurred, but not reported (IBNR) at June 30, 2019, are reported as claims and judgments payable and accrued liability for insurance claims, respectively. These estimates were determined based on claim information supplied by the claims administrator and actuary. The unpaid claims liability of \$6,588,595 reported at June 30, 2019 is based on the requirements of the Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the balances of claims liabilities for the workmen's compensation and liability plans for the fiscal years ended June 30, 2019 and 2018 are as follows:

	<u>Year Ended</u>	
	<u>June 30, 2019</u>	<u>June 30, 2018</u>

The District is a member of the New Jersey School Insurance Group (NJSIG). The Group is a risk sharing public entity pool, established for the purpose of insuring against claims.

The relationship between the Board and the insurance group is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The Board is contractually obligated to make all annual and supplementary contributions to the group, to report claims on a timely basis, cooperate with the management of the group, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by the group. Members have a contractual obligation to fund any deficit of the group attributable to a membership year during which they were a member.

NJSIG provides its members with risk management services, including the defense of and settlement of claims and to establish reasonable and necessary loss reduction and prevention procedures to be followed by the members. Complete financial statements of the respective insurance funds are on file with the School's Business Administrator.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

<u>Year Ended</u> <u>June 30,</u>	<u>District</u> <u>Contributions</u>	<u>Employee</u> <u>Contributions</u>	<u>Amount</u> <u>Reimbursed</u>	<u>Ending</u> <u>Balance</u>
2019	\$ 450,000	\$ 246,784	\$ 343,348	\$ 1,697,729
2018	300,000	309,883	511,635	1,341,768
2017	450,000	256,929	589,960	1,243,489

**B. Contingent Liabilities**

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

**Federal and State Awards** – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2019, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

**C. Federal Arbitrage Regulations**

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2019, the District has not estimated its arbitrage earnings due to the IRS, if any.

This provision was extended by Chapter 1, P.L. 2010, effective May 21, 2010, to new employees (Tier 2) of the PFRS and new employees who would otherwise be eligible to participate in PERS and do not earn the minimum salary required or do not work the minimum required hours but earn a base salary of at least \$5,000 are eligible for participation in the DCRP. **Other Pension Funds**

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits ("Division"), issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

**Plan Amendments**

The authority to amend the provisions of the above plans rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for TPAF and PERS, once a Target Funded Ratio (TFR) is met. The Pension Plan Design Committees will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation of final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committees will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a 30-year projection period.

**Measurement Focus and Basis of Accounting**

The financial statements of the retirement systems are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the pension trust funds. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

**Investment Valuation**

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of the retirement systems. Prudential retirement is the third-party administrator for the DCRP and provides record keeping, administrative services and investment options. Investment transactions are accounted for on a trade or investment date basis. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex-dividend date. The net increase or decrease in the fair value of investments includes the net realized and unrealized gains or losses on investments.

The State of New Jersey, Department of the Treasury, Division of Investment issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290 or at [www.state.nj.us/treasury/doinvest](http://www.state.nj.us/treasury/doinvest).

**Collective Net Pension Liability**

The collective net pension liability of the participating employers for local PERS at June 30, 2018 is \$19.7 billion and the plan fiduciary net position as a percentage of the total pension liability is 53.60%. The collective net pension liability of the State funded TPAF at June 30, 2018 is \$63.81 billion and the plan fiduciary net position as a percentage of total pension liability is 26.49%.

The total pension liabilities were determined based on actuarial valuations as of July 1, 2017 which were rolled forward to June 30, 2018.

**Actuarial Methods and Assumptions**

In the July 1, 2017 PERS and TPAF actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary's report and are included here in this note to the financial statements. The pension systems selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 68. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

**Employer and Employee Pension Contributions**

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan members and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.50% for PERS, 7.50% for TPAF and 5.50% for DCRP of the employee's annual compensation for fiscal year 2019.

**D. Employee Retirement Systems and Pension Plans (Continued)**

**Employer and Employee Pension Contributions (Continued)**

PERS employers' and TPAF State's nonemployer contributions are based on actuarially determined amounts, which include the normal cost and unfunded accrued liability. For the fiscal year ended June 30, 2019 for TPAF, which is a cost sharing multiple employer defined benefit pension plan with a special funding situation, the State's annual pension contribution was less than this actuarial determined amount. For PERS, which is a cost sharing multiple employer defined benefit pension plan, the annual pension contributions were equal to the actuarial determined amounts. TPAF nonemployer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution. All PERS and DCRP contributions made by the Board for fiscal years 2019, 2018 and 2017 were equal to the required contributions.

During the fiscal years ended June 30, 2019, 2018 and 2017 the Board was required to contribute for PERS and DCRP and the State of New Jersey, as a nonemployer contributing entity, contributed for TPAF, respectively for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Year Ended <u>June 30,</u>	<u>PERS</u>	On-behalf <u>TPAF</u>	<u>DCRP</u>
2017	\$ 3,270,476	\$ 9,947,760	\$ 48,594
2018	3,219,317	13,128,500	46,596
2019	3,454,341	17,659,266	48,072

In addition for fiscal years 2019, 2018 and 2017 the District contributed \$22,759, \$67,325 and \$30,771, respectively for PERS and the State contributed \$11,861, \$14,503 and \$16,780, respectively for TPAF for Long Term Disability Insurance Premium (LTDD).

The PERS contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure. The on-behalf TPAF contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB Statement No. 85, *Omnibus 2017* (GASB No. 85). The DCRP contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure, as well as, the district-wide financial statements (accrual basis) as an expense.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$6,116,413 during the fiscal year ended June 30, 2019 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been recognized in the district-wide financial statements (accrual basis) and the governmental fund financial statements (modified accrual basis) as a revenue and expense/expenditure in accordance with GASB No. 85.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

**Public Employees Retirement System (PERS)**

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, (GASB No. 68) requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The employer allocation percentages presented are based on the ratio of the contributions as an individual employer to total contributions to the PERS during the measurement period July 1, 2017 through June 30, 2018. Employer allocation percentages have been rounded for presentation purposes.

**Public Employees Retirement System (PERS) (Continued)**

Although the NJ Division of Pensions and Benefits (“Division”) administers one cost-sharing multiple employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages are presented for each group. The allocation percentages for each group as of June 30, 2018 are based on the ratio of each employer’s contribution to total employer contributions of the group for the fiscal year ended June 30, 2018.

At June 30, 2019, the District reported in the statement of net position (accrual basis) a liability of \$68,378,235 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportionate share of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating governmental entities, actuarially determined. At June 30, 2018, the District’s proportionate share was .34728 percent, which was a decrease of .00023 percent from its proportionate share measured as of June 30, 2017 of .34751 percent.

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$3,865,741 for PERS. The pension contribution made by the District during the current 2018/2019 fiscal year is the contribution that is applied to the net pension liability reported at the end of the current fiscal year of June 30, 2019 with a measurement date of the prior fiscal year end of June 30, 2018. Since the State of New Jersey applies the current year pension contribution towards the calculation of the net pension liability reported at the end of the current fiscal year, which has a measurement date of the preceding fiscal year end, there is no deferred outflows of resources reported as of June 30, 2019 for contributions made subsequent to the measurement date. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to PERS pension from the following sources:

	<b><u>Deferred Outflows of Resources</u></b>	<b><u>Deferred Inflows of Resources</u></b>
Difference Between Expected and Actual Experience	\$ 1,303,983	\$ 352,580
Changes of Assumptions	11,267,601	21,863,724

2024	(1,576,930)
Thereafter	<u>-</u>
	<u>\$ (11,720,018)</u>

***Actuarial Assumptions***

The District's total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	<b><u>PERS</u></b>
Inflation Rate	2.25%
Salary Increases:	
Through 2026	1.65-4.15% Based on Age
Thereafter	2.65-5.15% Based on Age
Investment Rate of Return	7.00%
Mortality Rate Table	RP-2000

Assumptions for mortality improvements are based on Society of Actuaries Scale AA.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014.

***Long-Term Expected Rate of Return***

In accordance with State statute, the long-term expected rate of return on plan investments (7% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and actuaries. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Risk Mitigation Strategies	5.00%	5.51%

**Teachers Pension and Annuity Fund (TPAF)**

GASB No. 68, requires participating employers in TPAF to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The non-employer allocation percentages presented are based on the ratio of the State's contributions made as an employer and non-employer adjusted for unpaid early retirement incentives to total contributions to TPAF during the fiscal year ended June 30, 2018. Non-employer allocation percentages have been rounded for presentation purposes.

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and non-employer contributions by the State. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For the fiscal year ended June 30, 2018, the State's pension contribution was less than the actuarial determined amount.

In accordance with GASB No. 68, the District is not required to recognize a net pension liability for TPAF. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 68 is zero percent and the State's proportionate share is 100% of the net pension liability attributable to the District for TPAF. Therefore, in addition, the District does not recognize any portion of the TPAF collective deferred outflows of resources and deferred inflows of resources.

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$32,279,331 for TPAF. This amount has been included in the district-wide statement of activities (accrual basis) as both a revenue and expense in accordance with GASB No. 85.

At June 30, 2019 the State's proportionate share of the net pension liability attributable to the District is \$553,709,568. The nonemployer allocation percentages are based on the ratio of the State's contributions made as an employer and nonemployer adjusted for unpaid early retirement incentives to total contributions to TPAF during the year ended June 30, 2018. At June 30, 2018, the State's share of the net pension liability attributable to the District was .87037 percent, which was a decrease of .01403 percent from its proportionate share measured as of June 30, 2017 of .88440 percent.

**Actuarial Assumptions**

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

	<u>TPAF</u>
Inflation Rate	2.25%
Salary Increases:	
2011-2026	1.55-4.55%
Thereafter	2.00-5.45%
Investment Rate of Return	7.00%
Mortality Rate Table	RP-2006

Assumptions for mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational bases based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

**Long-Term Expected Rate of Return**

In accordance with State statute, the long-term expected rate of return on plan investments (7% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and actuaries. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

**Board of Education Employees' Pension Fund of Essex County (ECPF)**

**Plan Description**

The Board of Education Employees' Pension Fund of Essex County (the "Plan"), is a multiple-employer contributory defined benefit pension plan that provides pension and life insurance benefits to employees of the Boards of Education within Essex County employed before July 1, 1981, except temporary employees and employees eligible for coverage under any New Jersey State administered pension plan created under New Jersey laws. The ECPF became effective April 16, 1929. The Plan provides for retirement, service, and non-service connected death and disability benefits for its members.

Pursuant to New Jersey Public Law enacted in 1980, members were given the option to transfer their membership in the plan to the New Jersey Public Employees Retirement System (PERS). Approximately 2,775 members, 58% of the membership, elected to transfer to PERS effective July 1, 1981. The Plan is closed to new entrants.

**Benefits Provided**

Participants are eligible for retirement benefits on or after their normal retirement age (defined as the 60<sup>th</sup> birthday or 5<sup>th</sup> anniversary of joining the Plan, if later), which is equal to 2% of the member's average compensation during the highest three consecutive years of service from the date of hire multiplied by the number of years of credited service. The maximum monthly benefit is the lesser of \$15,457 and 100% of the highest three year average salary, subject to service requirements. Normally, benefits are calculated with payments guaranteed for 10 years.

Participants' beneficiaries will be entitled to death benefits equal to the actuarial equivalent to the participant's retirement benefit earned to the date of death.

**Contributions**

The Plan's contractually required contribution rate for the fiscal year ended June 30, 2018 was 103.14% of covered payroll, actuarially determined as an amount that is expected to finance costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Plan provisions and contribution requirements are established by contractually required provision. District contributions to the Plan amounted to \$243,749 for fiscal year 2019.

At June 30, 2019, the District reported in the statement of net position (accrual basis) a liability of \$2,253,102 for its proportionate share of the ECPF net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportionate share was 7.1694 percent, which was an increase of .1628 percent from its proportionate share measured as of June 30, 2017 of 7.0066.

**E. Post-Retirement Medical Benefits**

The State of New Jersey sponsors and administers the post-retirement health benefit program plan for school districts.

As a result of implementing GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, the post-retirement health benefit program plan is reported in an Agency Fund in the New Jersey Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. Therefore, the plan has no assets accumulated in a trust. In accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pension* (GASB No. 75), the plan is classified as a single employer defined benefit OPEB plan with a special funding situation that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75.

**Plan Description and Benefits Provided**

The State of New Jersey sponsors and administers the following post-retirement health benefit program plan covering certain local school district employees, including those Board employees and retirees eligible for coverage.

**State Health Benefit Program Fund – Local Education Retired Employees Plan** (including Prescription Drug Program Fund) – N.J.S.A. 52:14-17.32f provides medical coverage, prescription drug benefits and Medicare Part B reimbursement to qualified retired education employees and their covered dependents. The State of New Jersey provides employer-paid coverage to members of the TPAF who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of the PERS and Alternate Benefits Program (ABP) who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents.

**E. Post-Retirement Medical Benefits (Continued)**

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree’s annual retirement benefit and level of coverage.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

**Plan Membership**

Membership of the defined benefit OPEB plan consisted of the following at June 30, 2017:

Active Plan Members	217,131
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	145,050
Inactive Plan Members Entitled to but not yet Receiving Benefits	_____ -
<b>Total</b>	<b><u>362,181</u></b>

**Measurement Focus and Basis of Accounting**

The financial statements of the post-employment health benefit plans are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the post-employment health benefit plans. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

**Investment Valuation**

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

**Collective Net OPEB Liability**

The collective net OPEB liability of the State, as the non-employer contributing entity, of the plan at June 30, 2018 is \$46.1 billion, and the plan fiduciary net position as a percentage of the total OPEB liability is zero percent.

The total OPEB liabilities were determined based on actuarial valuations as of June 30, 2017 which were rolled forward to June 30, 2018.

**Actuarial Methods and Assumptions**

In the June 30, 2017 OPEB actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary's report and are included here in this note to the financial statements. The Plan selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 75. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

**Post-Retirement Medical Benefits Contributions**

The funding policy of the OPEB plan is pay as you go basis; therefore, there is no prefunding of the liability. Contributions to pay for the health benefit premiums of participating employees in the OPEB plan are made by the State, as a non-employer contributing entity, under a special funding situation in accordance with State statutes as previously disclosed. The State as a non-employer contributing entity made contributions of \$1.23 billion to the OPEB plan in fiscal year 2018.

The State sets the contribution rate based on a pay as you go basis rather than the actuarial determined contribution, an amount actuarially determined in accordance with the parameters of GASB Statement 75. The actuarial determined contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and any unfunded actuarial liabilities (or funding excess) of the plan using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the Plan. The State's contributions, as a nonemployer contributing entity, to the State Health Benefits Program Fund – Local Education Retired Employees Plan for retirees' post-retirement benefits on behalf of the School District for the fiscal years ended June 30, 2019, 2018 and 2017 were \$8,010,216, \$8,479,419 and \$8,288,746, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund – Local Education Retired Employees Plan for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey. The on-behalf OPEB contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB No. 85.

**OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

GASB Statement No. 75 requires participating employers in the State Health Benefit Program Fund – Local Education Retired Employees Plan to recognize their proportionate share of the collective OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources and collective OPEB expense. The nonemployer allocation percentages presented are based on the ratio of the State’s contributions made as a nonemployer toward the actuarially determined contribution amount to total contributions to the plan during the measurement period July 1, 2017 through June 30, 2018. Nonemployer allocation percentages have been rounded for presentation purposes.

In accordance with GASB No. 75, the District is not required to recognize an OPEB liability for the post-employment health benefit plan. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to the plan on behalf of the District. Accordingly, the District’s proportionate share percentage determined under Statement No. 75 is zero percent and the State’s proportionate share is 100% of the OPEB liability attributable to the District. Therefore, in addition, the District does not recognize any portion of the collective deferred outflows of resources and deferred inflows of resources related to the plan.

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) OPEB expense of \$17,235,679. This amount has been included in the district-wide statement of activities (accrual basis) as a revenue and expense in accordance with GASB No. 85.

At June 30, 2019 the State’s proportionate share of the OPEB liability attributable to the District is \$347,210,344. The nonemployer allocation percentages are based on the ratio of the State’s proportionate share of the OPEB liability attributable to the District at June 30, 2018 to the total OPEB liability of the State Health Benefit Program Fund – Local Education Retired Employees Plan at June 30, 2018. At June 30, 2018, the state’s share of the OPEB liability attributable to the District was .75299 percent, which was a decrease of .01218 percent from its proportionate share measured as of June 30, 2017 of .76517 percent.

**Actuarial Assumptions**

The OPEB liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate	2.50%
Salary Increases *	
Initial Fiscal Year Applied Through	2026
Rate	1.55% to 4.55%
Rate Thereafter	2.00% to 5.45%
Mortality	Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disable Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.
Long-Term Rate of Return	1.00%

\*Salary increases are based on the defined benefit plan that the individual is enrolled in and his or her year of service for TPAF or his or her age for PERS.

Healthcare cost trend rates for pre-Medicare Preferred Provider Organization (PPO) medical benefits, this amount initially is 5.8 percent and decreases to a 5.0 percent long-term trend rate after eight years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5 percent. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8 percent and decreases to a 5.0 percent long-term trend rate after eight years. For prescription drug benefits, the initial trend rate is 8.0 percent and decreases to a 5.0 percent long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0 percent. This reflects the known underlying cost of the Part B premium. The Medicare Advantage trend rate is 4.5 percent and will continue in all future years.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the TPAF and PERS actuarial experience studies for the period July 1, 2012 to June 30, 2015 and July 1, 2011 to June 30, 2014, respectively.

**Long-Term Expected Rate of Return**

As the OPEB plan only invests in the State of New Jersey Cash Management Fund, the long-term expected rate of return on OPEB investments was based off the best-estimate ranges of future real rates of return (expected returns, net of OPEB plan investment expense and inflation) for cash equivalents, which is 1.00% as of June 30, 2018.

**Discount Rate**

The discount rate used to measure the total OPEB liabilities of the plan was as follows:

<u>Fiscal Year</u>	<u>Measurement Date</u>	<u>Discount Rate</u>
2019	June 30, 2018	3.87%
2018	June 30, 2017	3.58%

The discount rate represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

**NOTE 5 OTHER INFORMATION (Continued)**

**G. Tax Abatements**

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential school tax revenue must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For East Orange Board of Education, the District's share of abated taxes resulting from the City having entered into a tax abatement agreement is indeterminate.

REQUIRED SUPPLEMENTARY INFORMATION  
BUDGETARY COMPARISON SCHEDULE  
NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Trustees
East Orange Board of Education
East Orange, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Orange Board of Education as of and for the fiscal year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the East Orange Board of Education's basic financial statements and have issued our report thereon dated November 26, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the East Orange Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the East Orange Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the East Orange Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the East Orange Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and which are described in the accompanying schedule of findings and questioned costs as items 2019-001 through 2019-003.

We also noted certain matters that are not required to be reported under Government Auditing Standards that we reported to management of the East Orange Board of Education in a separate report entitled, "Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance" dated November 26, 2019.

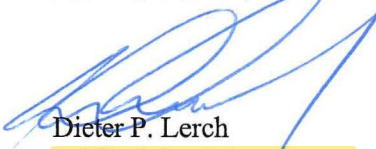

### East Orange Board of Education's Responses to Findings

The East Orange Board of Education's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The East Orange Board of Education's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the East Orange Board of Education's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the East Orange Board of Education's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT**

Honorable President and Members  
of the Board of Trustees  
East Orange Board of Education  
East Orange, New Jersey

**Report on Compliance for Each Major Federal and State Program**

We have audited the East Orange Board of Education's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement and the New Jersey OMB Circular 15-08 State Aid/ Grant Compliance Supplement that could have a direct and material effect on each of East Orange Board of Education's major federal and state programs for the fiscal year ended June 30, 2019. The East Orange Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of federal and state statutes, regulations, and the terms and conditions of its federal awards and state financial assistance applicable to its federal and state programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the East Orange Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, U.S. Uniform Guidance and New Jersey Circular require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the East Orange Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the East Orange Board of Education's compliance.

### ***Opinion on Each Major Federal and State Program***

In our opinion, the East Orange Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2019.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the U.S. Uniform Guidance and New Jersey OMB Circular 15-08 and which are described in the accompanying schedule of findings and questioned costs as items 2019-004 and 2019-005. Our opinion on each major federal and state program is not modified with respect to these matters.

The East Orange Board of Education's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The East Orange Board of Education's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control Over Compliance**

Management of the East Orange Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the East Orange Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the U.S. Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the East Orange Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of U.S. Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

**Report on Schedules of Expenditures of Federal Awards Required by the U.S. Uniform Guidance and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08**

We have audited the financial statements of the East Orange Board of Education, a component unit of the City of East Orange as of and for the fiscal year ended June 30, 2019 and have issued our report thereon dated November 26, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by the U.S. Uniform Guidance and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

**EAST ORANGE BOARD OF EDUCATION  
NOTES TO THE SCHEDULES OF EXPENDITURES OF  
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

**NOTE 1 GENERAL**

The accompanying schedules present the activity of all federal and state financial assistance programs of the East Orange Board of Education. The Board of Education is defined in Note 1(A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

**NOTE 2 BASIS OF ACCOUNTING**

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (U.S. Uniform Guidance) and New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

**NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS**

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$323,390 for the general fund and a decrease of \$37,159 for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 587,882	\$ 208,497,237	\$ 209,085,119

**Finding 2019-001**

We noted the financial transactions of an \$18.6 million Energy Savings Refunding Bond bank account with U.S. Bank were not being recorded in the District's accounting records. In addition, the payments made by the bank (fiscal agent) to vendors from these accounts were not included on the bills list and therefore not approved in the official minutes.

**Criteria or specific requirement:**

State Department of Education's GAAP Technical Accounting Manual

**Condition:**

The transactions relating to the energy savings improvement program bank account maintained by the fiscal agent were not reported on the District's accounting records or included in the Treasurer's report.

**Context**

The transactions related to the \$18.6 million energy savings improvement program bank account were not reflected in the District's records during the year and, therefore, were not included in the Treasurer's report.

**Effect**

Accounting records did not reflect all financial transactions of the District.

**Cause**

Unknown.

**Recommendation**

The District record all the transactions of its energy savings refunding bond bank account in their financial accounting records. In addition, payments to vendors be included on the bills list and be made part of the official minutes prior to the payment by the fiscal agent.

**Context**

Accounts payable totaling \$3.5 million were unrecorded in the General Fund consisting of charter schools (\$1.5 million), social security (\$1.1 million), tuition charges (\$660K) and pension charges (\$240K). In addition, certain encumbrances were deemed either misclassified or invalid in the General and Special Revenue Funds in the aggregate amount of \$1.2 million and \$427K, respectively. It was also noted that purchase orders classified as encumbrances in the General and Special Revenue Funds were reclassified to accounts payable, \$331,000 and \$1,500, respectively, in each fund and cancelled \$299,000 and \$417,000, respectively, in each fund.

**Effect**

The financial statement account balances for accounts payable and encumbrances payable may be misstated at year end. However, audit adjustments were made to properly reflect the financial account balances.
