Introductory Section

East Windsor Regional School District

November 26, 2019

Honorable President and Members of the Board of Education East Windsor Regional School District County of Mercer, New Jersey

Dear Board Members and Constituents:

We are pleased to submit the Comprehensive Annual Financial Report of the East Windsor Regional School District (hereafter the "District") for the fiscal year ending June 30, 2019. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the District. To the best of our knowledge, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and the results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The Introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The Financial section includes the independent Auditor's Report, Management Discussion and Analysis (MD&A) and the basic financial statements including the government-wide financial statements presented in conformity with Governmental Accounting Standards Board Statement No. 34. The basic financial statements also include individual fund financial statements, notes to the basic financial statements and required supplementary information (RSI) and other supplementary information. The Statistical section includes selected financial and demographic information presented on a multi-year basis and is unaudited. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996, Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance), and the New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments. Information related to this single audit, including the auditors' report on internal control and compliance with applicable laws and regulations and findings and questioned costs, are included in the Single Audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: East Windsor Regional School District is an independent reporting entity within the criteria adopted by the GASB. All funds and the government-wide financial statements of the District are included in this report. The East Windsor Regional Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular, vocational as well as special education for handicapped and preschool handicapped children. The District had 5,113 students enrolled on October 15, 2018. Enrollment is defined as students on roll (both full and shared time count as one) and students placed out of district including

Mercer County Special Services School District. The following details the changes in the student enrollment of the District over the last ten years.

ENROLLMENT

Fiscal Year	Student Enrollment	Percent Change
2009-10	5,029	+0.08%
2010-11	5,075	+0.91%
2011-12	5,072	- 0.06%
2012-13	5,072	+0.00%
2013-14	5,106	+0.67%
2014-15	5,019	-1.70%
2015-16	5,139	+2.39%
2016-17	5,221	+0.15%
2017-18	5,129	-0.17%
2018-19	5,113	-0.04%

- **2) ECONOMIC CONDITION AND OUTLOOK:** New residential development has leveled off. Commercial development continues to increase and is helping to add to the tax base.
- 3) MAJOR INITIATIVES: Expenditures made during the 2018-2019 school year were designed to support the District's mission, goals and instructional action plans as well as the state's core curriculum standards. The 2018-19 goals were:
 - Expanding and enhancing programs, services and rigor for all students, with increased attention on students not enrolled in support or advanced level programs.
 - Supporting foundational literacy skills of all students, with specific concentration on the achievement gap of current and former ELL and Special Education students.
 - Cultivate the development of students' fundamental social and emotional skills essential for success in life and impact on learning.
 - Analyze current curriculum and programs and develop a plan to ensure the district goal mission of preparing all students with the skills and awareness necessary to actively contribute as productive local and global citizens is being implemented and achieved.

Examples of additional resources acquired and services provided:

- New core textbooks and resources: local and global citizenship; Newsela, Band rom in the middle school
- Curriculum revisions and rewrites in many curricular areas;
- Additional electives in high school and middle school
- Expansion of individualized staff development opportunities to all teachers;
- Training to support general education teachers in implementing Wilson Foundations;
- Summer School for students with foundational literacy gaps for students in Grades K to 3;

- Tutoring for seniors in high school to assure graduation requirements were met;
- Establishing a College and Career Readiness program with advisors to support struggling high school students
- Additional novels and authentic literature to support literacy (grades 3 to 12);
- Laboratory Science equipment to support Next Gen Science Programs (grades 6 to 12);
- Additional chromebooks/ ipads to support instruction in all departments and grade levels;
- PSAT assessment funded for all 9 to 12 grade students;
- World Language Assessment for all 8th grade students and High school students;
- Assessment and Data System to support teachers in personalized learning.
- 4. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control over compliance, including that portion related to federal award and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations, contracts and grants.

5. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. The legal level of budgetary controls is established at the line item accounts within each fund. Annual appropriated budgets are adopted for the general fund, the special revenue fund and debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end either are canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as assigned fund balance at June 30, 2019.

6. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles as promulgated by the Government Accounting Standards Board (GASB).

The accounting system of the District is organized based on funds and government-wide financial statements. These funds and government-wide financial statements are explained in "Notes to the Basic Financial Statements," Note 1.

7. CASH MANAGEMENT: The investment policy of the District is regulated by state statute as detailed in "Notes to the Basic Financial Statements," Note 3. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. OTHER INFORMATION:

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm Wiss & Company, LLP was selected by the Board of Education. In addition to meeting the requirements set forth in state statues, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996, the Uniform Guidance and New Jersey Treasury Circular OMB 15-08. The auditors' report on the basic financial statements, required supplementary information and other supplementary information are included in the financial section of this report. The auditors' reports, related specifically to the single audit are included in the single audit section of this report.

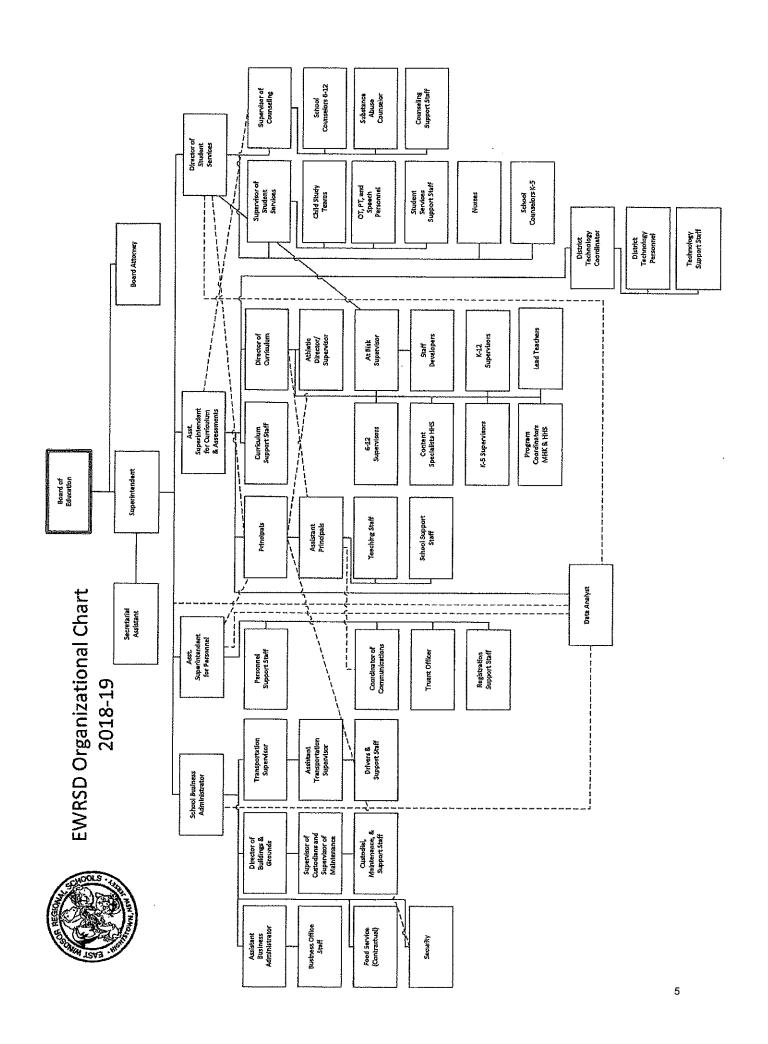

10. ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the East Windsor Regional School District for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully submitted,

Superintendent

Independent Auditors' Report

Honorable President and Members of the Board of Education East Windsor Regional School District Hightstown, New Jersey County of Mercer

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the East Windsor Regional School District, County of Mercer, New Jersey (the "District"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

8

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of the District's proportionate share of the net pension liability-PERS, schedule of District pension contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF, schedule of the State's proportionate share of the net OPEB liability associated with the District and changes in the total OPEB liability and related ratios - PERS and TPAF, and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements, long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, respectively, and the other information, such as the introductory and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, long-term debt schedules and the schedules of expenditures of

federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 26, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

East Windsor Regional School District Hightstown, New Jersey

Management's Discussion and Analysis Year Ended June 30, 2019

As management of the East Windsor Regional School District ("District"), we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the year ended June 30, 2019. We encourage readers to consider the information presented, in conjunction with additional information that we have furnished in our letter of transmittal.

Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments. Certain comparative information between the current fiscal year and the prior fiscal year is presented in the MD&A as required by GASB Statement No. 34.

Financial Highlights

Key financial highlights for fiscal 2019 are as follows:

- Total net position of the governmental activities and business-type activities is \$64,337,411 at June 30, 2019. It is comprised of both current and capital assets and deferred outflows of resources less deferred inflows of resources and current and outstanding long-term liabilities (Schedule A-1).
- General revenues accounted for \$114,986,233 of total revenue or 95 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$5,511,430 or 5 percent of total revenues of \$120,497,663 (Schedule A-2).
- The District had \$109,028,257 in governmental fund expenditures (Schedule B-2). Of that amount, the General Fund expenditures totaled \$103,732,955, including \$13,393,654 in State onbehalf TPAF pension and social security contributions. Grant-related expenditures in the special revenue fund totaled \$2,137,277. Business-type activities expenses were \$2,406,043 (Schedule B-5).
- The District maintains an internal service fund to provide service and fuel for the District's vehicles. This fund had \$428,953 in charges for services revenues and \$419,863 in expenses for supplies, fuel costs, and depreciation (Schedule B-5).
- The District transferred unrestricted funds during the year into restricted capital reserve in the amount of \$866,873 to fund future capital projects.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the East Windsor Regional School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred outflows of resources, deferred inflows of resources and liabilities of the District, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund and the special revenue fund and as supplementary information for the debt service fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 22-24 of this report.

Proprietary funds. The District maintains proprietary fund types in the form of enterprise funds and one internal service fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for the operations of its food service and Kid Care, each of which are considered major funds of the District. Enterprise funds provide the same type of information as the government-wide financial statements, only in more detail. The internal service fund provides services and fuel to the District's vehicles and limited other districts.

The proprietary fund financial statements can be found on pages 25-27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District uses agency funds to account for resources held for student activities and groups and payroll related liabilities. The District uses trust funds to account for unemployment compensation claims and its private-purpose scholarships. The fiduciary fund financial statements can be found on pages 28-29 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 30-69 of this report.

Other information. The required supplementary information and combining statements referred to earlier in connection with governmental funds and proprietary funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found on pages 70-95 of this report.

The School District as a Whole

The Statement of Net Position provides the perspective of the District as a whole. Net position may serve as an indicator of a government's financial position. However, as noted earlier, net position is not the primary basis for decision making for each budget cycle.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table provides a summary of net position relating to the District's governmental and business-type activities as of June 30, 2019 and 2018:

East Windsor Regional School District Net Position June 30,

2610

	2019		2018

Unrestricted (deficit)	(24,538,403)	2,382,596	(22,155,807)	(24,778,738)	1,993,734	(22,785,004)
Total net position	\$ 61,773,499	\$ 2,563,912	\$ 64,337,411	\$ 59,789,232	\$ 2,209,774	\$61,999,006

The largest portion of the District's net position is its net investment in capital assets, e.g. land, construction in progress, buildings and improvements, and furniture and equipment, less any related debt (general obligation bonds payable and capital leases) used to acquire those assets that are still outstanding, which amounts to \$75,555,266. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The net pension liability recorded as of June 30, 2019 is the result of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions and Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. The decrease of \$3,216,381 from the prior year relates to changes in the actuarial assumptions from the prior year and the pension funding status of the State of New Jersey.

Capital assets decreased due to current year depreciation exceeding expenses that were capitalized relating to various capital projects.

An additional portion of the District's net position (restricted) represents resources that are subject to external restrictions on how they may be used, which total \$10,652,757 at June 30, 2019. Restricted net position is a result of additional funds being deposited into the capital reserve and maintenance reserve with balances of \$5,993,934 and \$3,045,999, respectively at June 30, 2019. Furthermore, \$804,922 was restricted for subsequent year's expenditures from prior year excess fund balance, and \$807,902 was recognized as current year excess surplus to be utilized in the 2020-2021 budget. Lastly, \$285,195 is restricted for capital projects within the Capital Projects fund. The remaining balance of unrestricted net position may be used to meet the District's ongoing obligations to citizens and creditors.

Business-type assets increased by approximately \$300,000 resulting from increases from the prior year in the cash balances and accounts receivable in the food service enterprise fund and the Kid Care enterprise fund in the amounts of \$229,245 and \$92,426, respectively. The increases in cash were directly correlated to increased participation from the prior year in the food service enterprise fund federal reimbursable school lunch program and the reduction of expenses in the Kid Care enterprise fund after school program.

Overall the activity within the business-type activities increased approximately \$350,000. The increase in net position in the food service enterprise fund is attributed to increased revenue from the prior year. The increase in net position in the Kid Care enterprise fund was directly related to the District's reduction in expenses for the year ended June 30, 2019.

District activities. The key elements of the District's changes in net position for the years ended June 30, 2019 and 2018 are as follows:

East Windsor Regional School District Net Position Year Ended June 30.

The decrease in governmental activities revenues of approximately \$5.5 million is attributed to the decrease in revenue related to GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which required the District to record \$3.2 million in revenues, which were contributions made on behalf of the District by the State for post-employment health benefits, which was a decrease of approximately \$7.3 million. This decrease is offset by the decrease in the TPAF adjustment in regards to GASB 68 of \$7.9 million, an increase in the state aid, and by increases in the tax levy from the 2017/18 fiscal year of approximately \$1 million.

The decrease in instructional services expenses is mainly the result of the decrease in expenses related to GASB 75, offset by several factors, including the decreased allocation of TPAF Social Security and Pension expenses due to the GASB 68 valuation, and the increase in certain expenses due to the District receiving increases in state aid awarded to the District (Special Education Aid and Transportation Aid). The decrease in support services expenses is mainly the result of increases in depreciation expense, compensated absence expenses, offset by decreases in post-employment health benefits expenses.

The activity in the business-type funds improved during the 2019 fiscal year.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The District's fund balance amounts are classified as restricted, assigned or unassigned.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the General Fund, Special Revenue Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2019, and the increases and decreases in relation to the prior year:

Revenues Year Ended June 30, 2019

Revenue	Amount	Percent of Total	Increase (Decrease) from 2018	Percent of Increase (Decrease)
Local sources State sources Federal sources	\$ 68,872,581 37,546,828 2,207,442	63.4% 34.6% 2.0%	\$ 1,144,741 5,279,735 (122,320)	1.69% 16.36% -5.25%
Total	\$108,626,851	100.0%	\$ 6,302,156	6.16%

The increase in local sources is mainly related to the increase in the 2019 local tax levy.

The increase in state sources is mainly related to increase in on-behalf TPAF pension contributions made by the State on behalf of the District.

The decrease in federal sources is mainly due to the District receiving a decrease in NCLB/ESEA funds during the year ended June 30, 2019.

The following schedule presents a summary of General Fund, Special Revenue Fund and Debt Service Fund expenditures for the fiscal year ended June 30, 2019 and the increases and decreases in relation to the prior year:

Expenditures Year Ended June 30, 2019

Expenditures	Amount	Percent of Total	Increase (Decrease) from 2018	Percent of Increase (Decrease)
Current expenditures:				
Instruction	\$ 40,032,800	36.7%	\$ 1,657,710	4.3%
Support services	60,891,822	55.9%	4,214,628	7.4%
Capital outlay	4,945,610	4.5%	1,515,222	44.2%
Debt service	3,158,025	2.9%	(39,800)	(1.2)%
Total	\$109,028,257	100.0%	\$ 7,347,760	7.2 %

The increase in capital outlay expenditures resulted from the District utilizing more funds in the current year to close out several projects. All other fluctuations less than 10% are considered immaterial.

General Fund Budgeting Highlights (Schedule C-1)

The District's budget is prepared according to New Jersey statutes. The most significant budgeted fund is the General Fund. The largest difference to the budget from the revenue perspective was due to an increase in the local tax levy approved by the District in the current year. Additionally, the District received additional State Grant Funding in the current year.

Fiscal discipline freed up funds in some budget areas, allowing selected budgetary transfers to be made between budgetary line items and approved by the Board for various reasons including:

- Regular Programs Instruction Grades 1-5 Salaries of Teachers Due to an increase in the need for long-term replacement teachers and substitutes, the District transferred out approximately \$603,000 from this account.
- Regular Programs Undistributed Instruction Purchased Professional-Educational Services –
 Due to an increase in the need for long-term replacement teachers and substitutes, the District
 transferred in approximately \$575,000 to this account.
- Undistributed Expenditures Instruction Tuition to CSSD & Regional Day Schools Due to a decrease in the budgeted number of students attending CSSD and Regional Day Schools, the District transferred out approximately \$470,000 from this account.
- Undistributed Expenditures Instruction Tuition to Private Schools for the Disabled Within State Due to an increase in the budgeted number of students attending private schools for the disabled within state, the District transferred in approximately \$762,000 to this account.
- Undistributed Expenditures Student Transportation Services Contracted Services (Sp. Ed.) –
 Joint Agreements Due to an increase in the number of students attending out of district schools
 at an increased transportation rate, the District transferred in approximately \$494,000 to this
 account.
- Unallocated benefits Health Benefits Due to more favorable premium costs from State Health Benefits, the District transferred out \$1,359,748 from the health benefits account.
- Capital Outlay Facilities Acquisition and Construction Services Construction Services The
 increase in the budget was mainly due to the roll over of prior years encumbrances in the amount
 of \$1,289,302 and increased construction projects activity in the current year, resulting in a
 transfer of approximately \$1,075,000 to this account.

Capital Assets and Debt Administration

Capital Assets. At June 30, 2019, the District's governmental activities and business-type activities had capital assets of \$99,688,594 (net of accumulated depreciation), including land, construction in progress, school buildings and improvements, site and site improvements, machinery, equipment and vehicles.

The District's governmental activities and business-type activities capital assets, net of accumulated depreciation consisted of the following at June 30, 2019 and 2018:

	June 30		
	2019	2018	
Land	\$ 149,550	\$ 149,550	
Construction in progress	2,085,117	596,865	
Buildings and improvements	91,450,831	93,207,989	
Site and site improvements	2,919,212	3,242,797	
Machinery, equipment and vehicles	2,902,568	2,884,082	
Business-type	181,316	222,180	
Total capital assets, net	\$ 99,688,594	\$ 100,303,463	

More detailed information about the District's capital assets can be found in Note 4 to the basic financial statements.

Debt Administration and Long-term Liabilities. During the 2019 fiscal year, the District's governmental activities had outstanding long-term liabilities of \$49,609,200, of which \$3,344,833 was classified as the current portion.

At June 30, 2019 and 2018, the District's long-term liabilities consisted of:

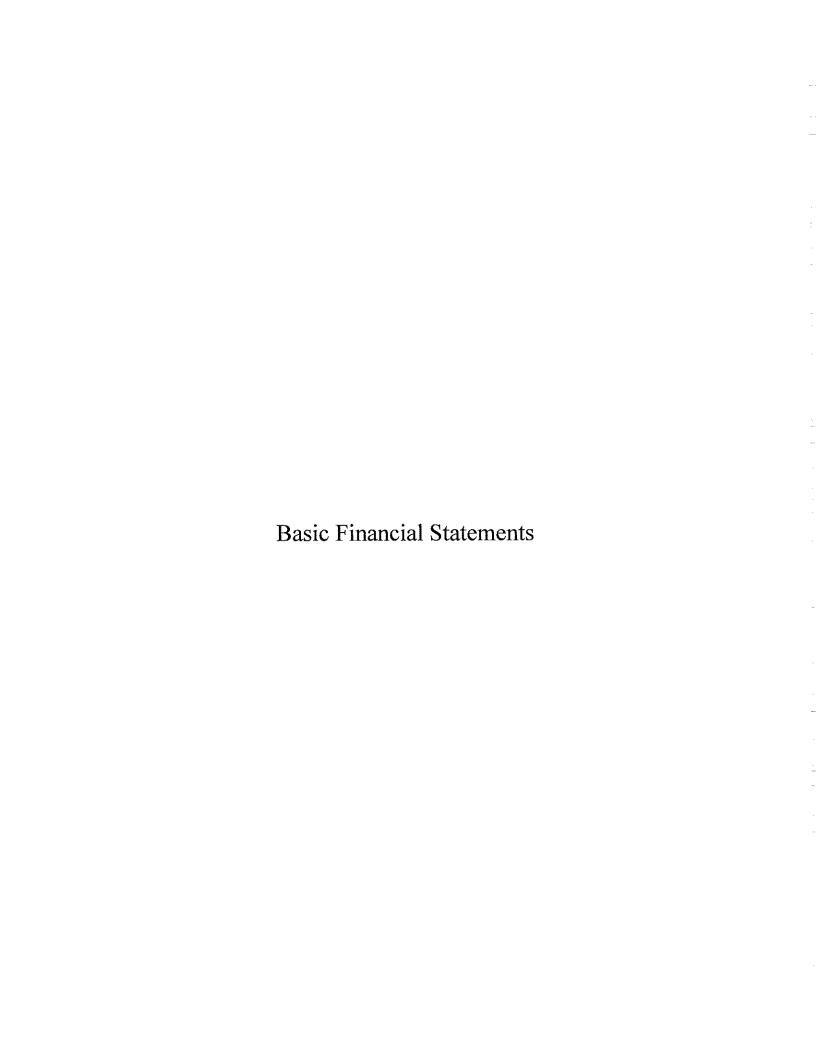

June 30		
2019	2018	
\$22,055,000	\$24,200,000	
23,415,195	26,631,576	
880,389	1,745,534	
1,240,422	1,282,291	
2,018,194	2,240,617	
\$49,609,200	\$56,100,018	
	\$22,055,000 23,415,195 880,389 1,240,422 2,018,194	

The District's net pension liability as of June 30, 2019 and 2018 was \$23,415,195 and \$26,631,576 respectively.

More detailed information about the District's long-term liabilities and outstanding debt can be found in Note 5 to the basic financial statements.

Requests for Information

This financial report is designed to provide a general overview of the East Windsor Regional School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the School Business Administrator, 25A Leshin Lane, Hightstown, NJ, 08520.

Government-wide Financial Statements

The government-wide financial statements provide a financial overview of the District's operations. These financial statements present the financial position and operating results of all governmental activities and business-type activities as of and for the year ended June 30, 2019.

The reconciliation of the fund balances of governmental funds to the net position of governmental activities in the statement of activities is presented in an accompanying schedule (B-3).

East Windsor Regional School District Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

Year Ended June 30, 2019

Total net change in fund balances - governmental funds (from B-2)		\$ (401,406)
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital additions are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital asset additions in the period. Depreciation expense Capital asset additions	\$ (4,376,396) 3,842,471	(533,925)
Loss on disposal of capital assets		(40,080)
In the statement of activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. This represents the change from the prior year.		39,812
Governmental Funds report the effect of premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these transactions is as follows:		
Amortization of premium on bonds Amortization of deferred loss on defeasance	222,423 (94,944)	127,479
The Internal Service Fund is used by the District to service and charge the cost of fuel to other funds. The activity of this fund is included in the Statement of Activities.		
Change in net position Depreciation, included above	9,090 2,366	11,456
The obligations of capital leases and the repayment of the principal on long-term debt consumes the current financial resources of governmental funds. These transactions, however, have no effect on net position.		
Repayment of long-term debt Payments on capital leases	2,145,000 865,145	3,010,145
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid).		41,869
Certain expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds Pension expense		(271,083)

Notes to the Basic Financial Statements

Year ended June 30, 2019

1. Summary of Significant Accounting Policies

The financial statements of the East Windsor Regional School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are disclosed below:

A. Reporting Entity

The financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the East Windsor Regional School District. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

The District has no component units that are required to be included within the reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements. The New Jersey Department of Education (DOE) requires all funds be reported as major to promote consistency among school districts in the State of New Jersey.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenue to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, the net pension liability and capital leases, are recorded only when payment is due.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

Property taxes, interest, and state aid associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when the District receives cash.

The District has reported the following major governmental funds:

General Fund: The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay subfund.

Special Revenue Fund: The District maintains one special revenue fund, which includes the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes, other than debt service or capital projects.

Capital Projects Fund: The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure for capital outlays, including the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds and state aid that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund: The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned to an expenditure for the principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary funds:

Food Service Enterprise Fund: The food service enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. This fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students or other entities on a continuing basis are financed or recovered primarily through user charges.

Kid Care Enterprise Fund: This fund accounts for the revenues and expenses pertaining to the District's extended day care program.

Fueling Facility Internal Service Fund: The District's internal service fund provides services and fuel for the District's vehicles, and certain limited outside parties through shared service agreements.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

Additionally, the District reports the following fund types:

Fiduciary funds of the District include the unemployment compensation trust fund, private-purpose scholarship trust funds and agency funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the District.

Trust and Agency Funds: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

Trust Funds: The unemployment compensation and private-purpose scholarship funds are accounted for in essentially the same manner as governmental funds. The unemployment compensation fund is used to account for contributions from employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. The private-purpose scholarship fund is utilized to provide scholarships to students and to account for the related transactions.

Agency Funds (Payroll and Student Activity Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

As a general rule the effect of internal activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) fees charged to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District enterprise funds are charges for sales of food and tuition. Operating expenses for proprietary funds include the cost of sales, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports unearned revenue on its statement of net position and balance sheet. Unearned revenue arises when resources are received by the District before it has legal claim to them, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and statements of net position and revenue is recognized.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

Ad Valorem (Property) taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable."

The County Board of Taxation is responsible for the assessment of properties and the Township of East Windsor and Borough of Hightstown Tax Collectors are responsible for collection of taxes. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds and submitted to the county office. Budgets are prepared using the modified accrual basis of accounting and the special revenue fund uses a non-GAAP budget (budgetary basis). The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referred in N.J.A.C. 6A:23. All budget amendments must be approved by School Board resolution and certain others require approval by the County Superintendent of Schools. Budgetary transfers were made during the current year in accordance with statutory guidelines. The amendments made by the District were part of the normal course of operations.

The over-expenditures related to on-behalf payments in the general fund are due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition in the general fund of the last state aid payments for budgetary purposes and the treatment of encumbrances in the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, amounts on deposit, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at fair value in accordance with the GASB. The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments and are stated at cost. All other investments are stated at fair value.

F. Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

G. Inventories

Inventories that benefit future periods, other than those recorded in the proprietary fund, are recorded as an expenditure during the year of purchase.

Proprietary funds inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. At June 30, 2019, the unused Food Donation Program commodities of \$3,015 are reported as unearned revenue in the food service enterprise fund.

H. Capital Assets

Capital assets, which include land, construction in progress, site and site improvements, buildings and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or through estimation procedures performed by an independent appraisal company. Donated capital assets are valued at their acquisition value on the date of acquisition.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Capital assets, being depreciated, of the District are depreciated using the straight-line method. The following estimated useful lives are used to compute depreciation:

	<u>Years</u>
Machinery and equipment Buildings Building improvements Vehicles	2-20 40 20 5-10

I. Compensated Absences

A liability for compensated absences that is attributable to services already rendered and that are not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District uses the "vesting method" for estimating its accrued sick and vacation leave liability.

District employees earn vacation and sick leave in varying amounts under the District's existing collective bargaining agreements. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after one year of service.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2019, a liability existed for compensated absences in the government-wide financial statements in the amount of \$1,240,422 and no liability existed for compensated absences in the proprietary fund types.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense / expenditure) until then. The District has two items that qualify for reporting in this category, including deferred loss from the refunding of debt and deferred amounts related to pensions.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

K. Long-Term Obligations

In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

L. Deferred Loss on Defeasance of Debt

Deferred loss on defeasance of debt arising from the issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. As of June 30, 2019, the District has recorded an unamortized balance of \$820,255 as a deferred outflow of resources. Amortization expense for the year ended June 30, 2019 was \$94,944.

M. Unearned Revenue

Unearned revenue in the special revenue fund represents cash which has been received but not yet earned. Unearned revenue in the food service enterprise fund represents unused food donation commodities and student deposits made for the use of purchasing food in a future period. Unearned revenue in the general fund represents cash which has been received but not yet earned.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

N. Net Position

Net Position represents the difference between assets, deferred outflows of resources, deferred inflows of resources, and liabilities in the Government-wide financial statements. Net investment in capital assets is reported net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net positions are reported as restricted in the Government-wide and fund financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

O. Fund Balances

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

- 1) Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) Committed includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- 4) Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Interest is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

5) Unassigned - includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

Of the \$14,090,968 of fund balances in the General Fund, \$3,420,505 of encumbrances offset by (\$54,470) of an unassigned deficit is assigned to other purposes, \$804,922 has been classified as restricted excess surplus – prior year- designated for subsequent years expenditures, \$807,902 has been classified as restricted excess surplus – current year, \$8,994,075 has been classified as restricted for maintenance reserve and capital reserve in the amounts of \$3,045,999 and \$5,993,934, respectively, and \$72,176 is assigned to designated for subsequent year's expenditures.

All of the fund balance in the Capital Projects Fund of \$285,195 is restricted for capital projects.

P. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Q. On-Behalf Payments

Revenues and expenditures of the general fund include payments made or reimbursed by the State of New Jersey for social security and post-retirement medical and pension contributions for certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. Additionally, revenues and expenses related to on-behalf pension contributions in the government-wide financial statements have been increased by \$5,939,081 to adjust for the full accrual basis expense incurred by the State of New Jersey during the most recent measurement period. The amounts are not required to be included in the District's annual budget.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

1. Summary of Significant Accounting Policies (continued)

R. Calculation of Excess Surplus

The designation for restricted fund balance - excess surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve fund balance of the General Fund at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The District has excess fund balance at June 30, 2019 in the amount of \$1,612,824. Of this amount, \$804,922 has been appropriated in the 2019/20 budget and the remaining \$807,902, which was generated during the 2019 fiscal year, will be appropriated in the 2020/21 budget.

S. GASB Pronouncements

Recently Issued and Adopted Accounting Principles

The GASB issued Statement No. 84, *Fiduciary Activities* in January 2017. This Statement establishes standards of accounting and financial reporting for fiduciary activities. The requirements of this Statement are effective for periods beginning after December 15, 2018. Management has not yet determined the impact of this Statement on the financial statements.

The GASB issued Statement No. 87, Leases in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after December 15, 2019. Management has not yet determined the impact of this Statement on the financial statements.

The GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements in April 2018. This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments. The requirements of this Statement are effective for periods beginning after June 15, 2018. Management has adopted this statement in the 2019 fiscal year and it was determined that it did not have an impact on its financial statements or disclosures.

T. Subsequent Events

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2019 and November 26, 2019, the date that the financial statements were available for issuance, for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, unamortized premiums, capital leases and compensated absences payable are not due and payable in the current period and therefore are not reported in the funds.

The details of this \$26,194,005 difference are as follows:

Bonds payable	\$ 22,055,000
Premium on bonds	2,018,194
Obligations under capital leases	880,389
Compensated absences payable	1,240,422
Net adjustment to reduce fund balance-total governmental funds to	
arrive at net position - governmental activities	\$ 26,194,005

3. Deposits and Investments

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

3. Deposits and Investments (continued)

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund and the New Jersey Asset and Rebate Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

The District's cash and cash equivalents are classified below to inform financial statement users about the extent to which the District's deposits and investments are exposed to custodial credit risk.

At June 30, 2019 the carrying amount of the District's deposits was \$19,868,530 and the bank balance was \$22,244,999. Of the bank balance, \$251,869 of the District's cash deposits on June 30, 2019 was secured by federal depository insurance. The New Jersey Governmental Unit Deposit Protection Act (GUDPA) covered the bank balance of \$21,352,967. \$640,163 held in the District's agency accounts are not covered by GUDPA.

GASB Statement No. 40, Deposit and Investment Risk Disclosures ("GASB 40") requires that the District disclose whether its deposits are exposed to custodial credit risk (risk that in the event of failure of the counterparty, the District would not be able to recover the value of its deposit or investment). Deposits are considered to be exposed to custodial credit risk if they are: uncollateralized (securities are not pledged to the depositor), collateralized with the securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution in the name of the District.

The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

3. Deposits and Investments (continued)

funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds and other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank, which have a maturity date not greater than twelve months from the date of purchase.
- c. New Jersey Cash Management Fund and New Jersey Asset and Rebate Management Fund.

The following presents the investments held in the Private-Purpose Scholarship Trust Fund at June 30, 2019:

	Fair	Investment Maturities
Investment Type	Value	Less than 1 year
Mutual Funds	\$37,941	\$37,941
Total investments	\$37,941	\$37,941

The investments in mutual funds are recorded as investments in the private-purpose scholarship trust fund.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles for governmental entities. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following table sets forth by level, within fair value hierarchy, the investment assets at fair value as of June 30, 2019:

	Assets at F	air Value
	As of June	30, 2019
	Level 1	<u>Total</u>
Mutual Funds	\$37,941	\$37,941
	\$37,941	\$37,941

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

3. Deposits and Investments (continued)

Custodial Credit Risk: All of the District's investments are uncollateralized. Pursuant to GASB 40, the NJCMF, which is a pooled investment, is exempt from custodial credit risk exposure. The District does not have a policy for custodial credit risk for its investment.

Credit Risk: The District does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government. The mutual funds are not rated by a rating agency.

Concentration of Credit Risk: The District places no limit on the amount the District may invest in any one issuer. At June 30, 2019, no more than 5% of the District's investments were in any one security.

Interest Rate Risk: The District does not have a policy to limit interest rate risk, however, its practice is typically to invest in investments with short maturities.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

4. Capital Assets

The following is a summarization of the governmental activities changes in capital assets for the fiscal year ended June 30, 2019:

	Beginning Balance	Increases	Transfers/ Dispositions	Ending Balance
Governmental activities				
Capital assets, not being depreciated				
Land	\$ 149,550			\$ 149,550
Construction in progress	596,866	\$ 2,085,117 \$	(596,866)	2,085,117
Total capital assets, not being depreciated	746,416	2,085,117	(596,866)	2,234,667
Capital assets, being depreciated				
Site and site improvements	5,906,680			5,906,680
Buildings and building improvements	148,418,153	1,277,888	596,866	150,292,907
Machinery, equipment, and vehicles	11,876,741	479,466	(400,788)	11,955,419
Machinery, equipment - Internal Service	67,380			67,380
Total capital assets being depreciated	166,268,954	1,757,354	196,078	168,222,386
Less accumulated depreciation for:				
Site and site improvements	2,663,884	323,585		2,987,469
Buildings and building improvements	55,210,164	3,631,911		58,842,075
Machinery, equipment, and vehicles	9,028,831	418,534	(360,708)	9,086,657
Machinery, equipment - Internal Service	31,208	2,366		33,574
Total accumulated depreciation	66,934,087	4,376,396	(360,708)	70,949,775
Total capital assets being depreciated, net	99,334,867	(2,619,042)	556,786	97,272,611
Governmental activities capital assets, net	\$ 100,081,283	\$ (533,925) \$	G (40,080)	\$ 99,507,278

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

4. Capital Assets (continued)

Depreciation expense was charged to governmental functions as follows:

Regular Instruction	\$ 1,792,590
Special Education Instruction	539,020
Other Special Instruction	213,980
Other Instruction	77,828

Less accumulated depreciation for:					
Equipment		907,586	\$	34,724	942,310
Total business-type activities					
capital assets, net	\$	216,040	\$	(34,724)	\$ 181,316

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

5. Long-Term Liabilities

During the fiscal year ended June 30, 2019, the following changes occurred in long-term liabilities:

	Beginning					Ending	Due within
	Balance	A	dditions	F	Reductions	Balance	One Year
Governmental activities:							
Compensated absences payable	\$ 1,282,291	\$	187,178	\$	229,047	\$ 1,240,422	\$ 62,021
Bonds payable	24,200,000				2,145,000	22,055,000	2,180,000
Premium on bonds	2,240,617				222,423	2,018,194	222,423
Obligations under capital leases	1,745,534				865,145	880,389	880,389
Subtotal	29,468,442		187,178		3,461,615	26,194,005	3,344,833
Net pension liability	26,631,576				3,216,381	23,415,195	
Total governmental activities							
long-term liabilities	\$ 56,100,018	\$	187,178	\$	6,677,996	\$ 49,609,200	\$ 3,344,833

The District expects to liquidate the balance in compensated absences with payments made from the District's general fund. Obligations under capital leases will be liquidated with payments from the general fund. Bonds payable will be liquidated with payments from the debt service fund. The net pension liability will be liquidated with payments from the general fund.

Bonds Payable

Bonds are authorized in accordance with State law or by the voters of the municipalities through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds. The principal and interest of these bonds will be paid from the debt service fund as required by New Jersey statutes.

Bonds payable at June 30, 2019 are comprised of the following issues:

\$29,900,000, 2012 refunding bonds, due in annual installments ranging from \$1,770,000 to \$2,115,000 through March 1, 2029 at interest rates ranging from 4.00% to 5.00%. These bonds were issued to provide resources to refund a portion of the District's outstanding debt. As of June 30, 2019, no defeased debt remains outstanding.

\$3,280,000, 2015 refunding bonds, due in annual installments ranging from \$375,000 to \$410,000 through July 15, 2023 at an interest rate of 3.00%. These bonds were issued to provide resources to refund a portion of the District's outstanding debt. As of June 30, 2019, no defeased debt remains outstanding.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

5. Long-Term Liabilities (continued)

Principal and interest due on all bonds outstanding at June 30, 2019 are as follows:

	Pri	ncipal	Interest	Total
Fiscal year ending June 30:				
2020	\$ 2	,180,000	\$ 931,450	\$ 3,111,450
2021	2	,230,000	830,800	3,060,800
2022	2	,285,000	727,375	3,012,375
2023	2	,410,000	621,100	3,031,100
2024	2	,455,000	508,625	2,963,625
2025-2029	10	,495,000	 1,256,200	11,751,200
	\$ 22	,055,000	\$ 4,875,550	\$ 26,930,550

Bonds Authorized But Not Issued

As of June 30, 2019, the District had no authorized but not issued bonds.

Other Capital Leases

Governmental Funds

The District has a capital lease outstanding for the science lab and classroom renovations for the high school with an interest rate of 1.64% and a capital lease outstanding for equipment with an interest rate of 2.25%. The following is a schedule of the future minimum lease payments under these capital leases and the present value of the net future minimum lease payments at June 30, 2019:

Fiscal Year	Amounts			
Year Ending June 30:				
2020	\$	895,906		
Total minimum lease payment		895,906		
Less amount representing interest		(15,517)		
Present value of net future minimum lease payments	\$	880,389		

The assets acquired through capital leases are as follows at June 30, 2019:

Asset:	
Building and building improvements	\$ 3,419,534
Less accumulated depreciation	 (267,662)
Total	\$ 3,151,872

Notes to the Basic Financial Statements (continued)

6. Pension Plans

Description of Systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

Teachers' Pension and Annuity Fund

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Public Employee's Retirement System

The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65,

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

respectively with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase was phased in annually through July 2018 that brought the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for noncontributory death benefits and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

During the year ended June 30, 2019, the State of New Jersey contributed \$10,533,606 to the TPAF for post-retirement medical benefits and other pension costs on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$2,860,048 during the year ended June 30, 2019 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the government-wide and fund financial statements.

The Board's actuarially determined contributions to PERS for each of the years ended June 30, 2019, 2018, and 2017 was \$1,182,892, \$1,059,837, and \$1,054,737, respectively, equal to the required contributions for each year.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employee's Retirement System (PERS)

At June 30, 2019, the District reported a liability of \$23,415,195 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2017, which was rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 0.1189222327 percent, which was an increase of 0.0045175718 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized full accrual pension expense of \$1,453,975 in the government-wide financial statements. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources		Deferred Inflows Resources
Changes of assumptions	\$ 3,858,436	\$	7,486,934
Difference between expected and actual experience	446,531		120,736
Net difference between projected and actual earnings on			
pension plan investments			219,636
Changes in proportion and differences between District			
contributions and proportionate share of contributions	1,112,447		621,605
District contributions subsequent to the measurement date	 1,182,773		
	\$ 6,600,187	\$	8,448,911

\$1,182,773 is reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2020	\$ 316,006
2021	(132,877)
2022	(1,576,507)
2023	(1,293,114)
2024	 (345,005)
	\$ (3,031,497)

Additional Information

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.25%
Salary increase through 2026	1.65 - 4.15%
	based on age
Thereafter	2.65 - 5.15%
	based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified 2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expecting future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Risk mitigation strategies	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%
High yield	2.50%	6.82%
Global diversified credit	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%
Debt related private equity	2.00%	10.63%
Debt related real estate	1.00%	6.61%
Private real asset	2.50%	11.83%
Equity related real estate	6.25%	9.23%
U.S. Equity	30.00%	8.19%
Non-U.S. developed markets equity	11.50%	9.00%
Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%
	100.00%	

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

Discount rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018 and 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan member through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2018 calculated using the discount rate as disclosed on the previous page as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.66 percent) or 1-percentage-point higher (6.66 percent) than the current rate:

	At 1%		At current	At 1%
	decrease	đ	iscount rate	increase
	(4.66%)		(5.66%)	(6.66%)
State's proportionate share of the	 			
net pension liability associated with				
the District	\$ 29,441,910	\$	23,415,195	\$ 18,359,167

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report for the State of New Jersey Public Employees Retirement System.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

Additional Information

Collective balances of the local group at June 30, 2018 are as follows:

Deferred outflows of resources	\$ 4,684,852,302
Deferred inflows of resources	\$ 7,646,736,226
Net pension liability	\$ 19,689,501,539

District's Proportion 0.1189222327%

Collective pension expense for the Local Group for the measurement period ended June 30, 2018 is \$1,099,708,157.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined July 1, 2018, 2017, 2016, 2015, and 2014 is 5.63, 5.48, 5.57, 5.72, and 6.44 years, respectively.

Teachers Pensions and Annuity Fund (TPAF) - Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2018 was \$226,054,443. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2018, the State's proportionate share of the TPAF net pension liability associated with the District was 0.3553317756 percent, which was a decrease of 0.0143844646 from its proportion measured as of June 30, 2017.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

For the year ended June 30, 2019, the District recognized on-behalf pension expense and revenue in the government wide financial statements of \$13,178,184 for contributions incurred by the State.

Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.25%
Salary increases:	
2011-2026	1.55 - 4.55%
Thereafter	2.00 - 5.45%

7.00%

Investment rate of return

Mortality Rates

Pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant White Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Disability mortality rates were based on the RP-2006 Disabled Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Divisions of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage by adding expected inflation.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

6. Pension Plans (continued)

Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2018 are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Risk mitigation strategies	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%
High yield	2.50%	6.82%
Global diversified credit	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%
Debt related private equity	2.00%	10.63%
Debt related real estate	1.00%	6.61%
Private real asset	2.50%	11.83%
Equity related real estate	6.25%	9.23%
U.S. Equity	30.00%	8.19%
Non-U.S. developed markets equity	11.50%	9.00%
Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%
	100.00%	

Discount Rate

The discount rate used to measure the total pension liability was 4.86% as of June 30, 2018 and 4.25% as of June 30, 2017. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State contributed 50% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

Additional Information

Collective balances of the local group at June 30, 2018 are as follows:

Deferred outflows of resources	\$ 12,599,296,329
Deferred inflows of resources	\$ 16,171,861,734
Net pension liability	\$ 63,617,852,031
District's Proportion	0.3553317756%

Collective pension expense-Local Group for the plan for the measurement period ended June 30, 2018 is \$3,726,181,598.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2018, 2017, 2016, 2015, and 2014 is 8.29, 8.3, 8.3, and 8.5 years, respectively.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

7. Post-Retirement Benefits

Plan descriptions and benefits provided

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health benefits) for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers. The State Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SHBP. That report may be obtained by writing to Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.SA. 52:14-17.32f. According to N.J.SA. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L., 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage. In Fiscal Year 2018, the State paid PRM benefits for 148,401 State and local retirees.

The State's contributions to the Fund for TPAF retirees' post-retirement benefits on behalf of the District for the years ended June 30, 2019, 2018 and 2017 were \$3,283,646, \$3,461,761, and \$3,465,043 respectively, which equaled the required contributions for each year.

The State funds post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2018, the State contributed \$1.909 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The increase in the State's pay-as-you-go contribution between Fiscal Year 2017 and Fiscal Year 2018 is attributed to rising health care costs, an increase in the number of participants qualifying for State-paid PRM benefits at retirement and larger fund

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

7. Post-Retirement Benefits (continued)

balance utilization in Fiscal Year 2017 than in Fiscal Year 2018. The Fiscal Year 2019 Appropriations Act includes \$1.921 billion as the State's contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. As such, the Fiscal Year 2017 total State OPEB liability to provide these benefits has been remeasured to \$97.1 billion, an increase of \$60.6 billion or 166 percent from the previous year's \$36.5 billion liability booked in accordance with GASB Statement No. 45. For Fiscal Year 2018, the total OPEB liability for the state is \$90.5 billion, a decrease of \$6.6 billion or 7 percent from the re-measured total OPEB liability in Fiscal Year 2017.

Total OPEB Liability

The net OPEB liability from New Jersey's plan is \$46,110,832,982.

Changes in Total OPEB Liability

Below represents the changes in the District's total OPEB liability for the year ended June 30, 2018:

	Total	OPEB Liability
Beginning Total OPEB Liability, June 30, 2017	\$.	190,341,937
Charges for the year:		
Service cost		5,976,104
Interest		6,953,062
Difference between actual and expected		(16,200,825)
Changes in assumptions or other inputs		(18,821,503)
Member contributions		151,577
Benefit payments		(4,385,694)
Net changes		(26,327,279)
Ending Total OPEB Liability, June 30, 2018	\$	164,014,658

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

7. Post-Retirement Benefits (continued)

Employees covered by benefit terms

The following employees were covered by the benefit terms:

Local Education Group	June 30, 2018
Active Plan Members	217,131
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	145,050
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	
Total Plan Members	362,181

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective total OPEB liability on the Statement of Net Position. The State's proportionate share of the total OPEB liability associated with the District as of June 30, 2018 was \$164,014,658. Additional information can be obtained from the State of New Jersey's comprehensive annual financial report.

Actuarial assumptions and other inputs

The total nonemployer OPEB liability in the June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	TPAF	PERS
Inflation rate	2.50%	2.50%
Salary increase through 2026	1.55 - 4.55%	2.15 - 4.15%
-		based on age
Thereafter	2.00 - 5.45%	3.15 - 5.15%
		based on age

Mortality Rates

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year based on MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

7. Post-Retirement Benefits (continued)

Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the actual experience studies for the periods July 1, 2012 – June 30, 2015 and July 1, 2011 – June 30, 2014 for TPAF and PERS, respectively.

100% of all retirees who currently have health care coverage are assumed to continue with that coverage. 100% of all active members are considered to participate in the Plan upon retirement, having a coverage blend of 85% and 15% in PPO and HMO, respectively.

Discount Rate

The discount rate for June 30, 2018 and 2017 was 3.87% and 3.58%, respectively. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, this amount initially is 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

The following represents sensitivity of total non-employer OPEB liability to changes in the discount rate and health care cost rate

The following presents the total non-employer OPEB liability associated with the District as of June 30, 2018 calculated using a discount rate as disclosed above as well as what the total non-employer OPEB liability would be if it was calculated using a discount rate that is 1-percentage-point lower (2.87%) or 1-percentage-point higher (4.87%) than the current discount rate:

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized on-behalf OPEB expense and revenue in the government-wide financial statements of \$6,452,827 for OPEB expenses incurred by the State.

Collective balances of the Local Education Group at June 30, 2018 are as follows:

Deferred outflows of resources	\$ 1,377,313,892
Deferred inflows of resources	\$ 16,189,378,926
Collective OPEB Expense	\$ 2,129,660,368
District's Proportion	0.36%

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State, therefore, the District records an expense and corresponding revenue for its respective share of total OPEB expense and revenue attributable to the State of New Jersey.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

8. Interfund Receivables and Payables

The total interfund accounts receivable and payable for the District at June 30, 2019 are as follows:

	 nterfund eceivable	Interfund Payable		
General Fund	\$ 223,033		_	
Special Revenue Fund		\$	181,677	
Internal Service Fund - Fueling Facility			29,317	
Payroll Agency Fund			12,039	
	\$ 223,033	\$	223,033	

The interfund receivable in the General Fund of \$223,033 is comprised of an interfund payable from the special revenue fund in the amount of \$181,677, internal service fund – fueling facility in the amount of \$29,317, and payroll agency fund in the amount of \$12,039, which represent short-term loans to provide on funds with sufficient cash flow until cash is received for accounts receivable. All interfunds are expected to be repaid within one year.

9. Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

10. Contingent Liabilities

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable at June 30, 2019 may be impaired. In addition, the District received funding from the New Jersey Schools Development Authority (NJSDA), in connection with certain approved projects. The costs associated with the funding received from the NJSDA are subject to a final review of eligible costs and compliance by the New Jersey Department of Education and the NJSDA. To the extent that the District has not complied with the rules and regulations governing the NJSDA funds or has not met the final eligible costs requirement, refunds of any money received may be required.

In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations or final eligible cost requirements governing the respective grants or funding; therefore, no provisions have been recorded in the accompanying basic financial statements for such contingencies.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

10. Contingent Liabilities (continued)

The District is also involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the Board.

11. Risk Management

The District is exposed to various risks of loss related to torts; theft, damage, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters.

Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds and does not retain risk of loss. There have been no significant reductions in insurance coverage from the prior year and no settlements have exceeded insurance coverages over the past three years. A complete schedule of insurance coverage can be found in the statistical section of this report.

The District participates in the NJSBA Insurance Group and public entity risk pool. The risk pool provides its members with the following coverages:

Property – Blanket Building & Grounds Boiler and Machinery School Board Legal Liability General and Automobile Liability Workers' Compensation Crime Coverage

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

12. Deferred Compensation Plans

The Board offers its employees deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts unearned under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Aetna/ING Direc	American Century	Ameriprise Financial	AIM Investments
AXA Equitable	H.C. Copeland/Metlife #64	Fidelity	Valic
Janus Group	Lincoln Financial	Lincoln Investment	Prudential
NEA/Security Benefit	Oppenheimer	Metlife Annuity #78	Putnam
Travelers/Metlife #79	United Way	USAA Life	Vanguard
Great American/Galic	-		

Participant's rights under the plans are equal to those of general creditors in an amount equal to the fair market value of the deferred account of each participant. The District has no liability for losses under the plan.

13. Restricted Assets

The funds set aside for capital and maintenance reserve are classified as restricted assets (cash and cash equivalents) as they are restricted for use for future capital projects and maintenance requirements.

14. Maintenance Reserve Account

A maintenance reserve account was established by the District by way of a Board approved resolution on June 8, 2009 for the accumulation of funds for use as maintenance expenditures in subsequent fiscal years. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget. Funds placed in the maintenance reserve account are restricted to maintenance projects in the District's approved Comprehensive Maintenance Plan (CMP).

Upon submission of the CMP to the New Jersey Department of Education, the District may increase the balance in the maintenance reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line – item appropriation amounts, or both. The District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the account cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

14. Maintenance Reserve Account (continued)

The activity of the maintenance reserve for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

Beginning balance July 1, 2018	\$ 3,245,899
Withdrawals:	
Approved in 2018-19 budget	(200,000)
Deposits:	
Interest earned	 100
Ending balance, June 30, 2019	\$ 3,045,999

The balance in the maintenance reserve does not exceed four percent of the replacement cost of the school district's school facilities for the current year at June 30, 2019. The District has budgeted \$950,000 of the June 30, 2019 maintenance reserve balance in its 2019-20 fiscal year budget.

15. Capital Reserve Account

A capital reserve account was established by the District in July 1, 2001, by way of a Board resolution, and issued for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a District may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line – item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

15. Capital Reserve Account (continued)

The activity of the capital reserve for July 1, 2018 to June 30, 2019 fiscal year is as follows:

Beginning balance July 1, 2018	\$ 6,371,159
Withdrawals:	
Capital Outlay – Withdrawal	(1,248,578)
Deposits:	
Unspent capital outlay funds not utilized in 2018-19	4,380
Interest earned on capital reserve funds	100
Deposit into Capital Reserve (June 2019 Board Resolution)	866,873
Ending balance, June 30, 2019	\$ 5,993,934

The June 30, 2019 long-range facility plan (LRFP) balance of local support costs of uncompleted projects exceeds the amount set aside in the capital reserve. The District has budgeted \$1,250,000 of the June 30, 2019 capital reserve balance in its 2019-20 fiscal year budget.

16. Commitments

The District ahas contracts with several vendors for goods and services that have not been received as of June 30, 2019. These encumbrances, in the amount of \$3,420,505, are recorded as part of the assigned to other purposes on the general fund balance sheet.

17. Net Position - Net Investment in Capital Assets

Net investment in capital assets, Governmental Activities, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. The net investment in capital assets of \$75,373,950 indicated as part of the Governmental Activities net position is calculated as follows:

Capital assets, net of depreciation	\$ 99,507,278
Bonds payable (used to build or acquire capital assets)	(22,055,000)
Unamortized premium	(2,018,194)
Deferred loss on defeasance of debt	820,255
Capital lease	(880,389)
Total net investment in capital assets	\$ 75,373,950

Notes to the Basic Financial Statements (continued)

Year ended June 30, 2019

18. Tax Abatements

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreement will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provision at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

East Windsor Township provides for long-term tax exemptions, as authorized by New Jersey State Statutes. N.J.S.A. 40A:20-1 et seq. sets forth the criteria and mechanism by which property taxes can and are abated. The exemptions provided by East Windsor Township are for affordable housing projects and other permitted purposes. Taxes abated include municipal, local school and county taxes.

East Windsor Township recognized revenue of \$715,111 from the annual service charge in lieu of payment of taxes in 2018 and taxes in 2018 that otherwise would have been due on these long-term tax exemptions amount to \$555,448, based upon the assessed valuations of the long-term tax exemptions properties. A portion of the \$159,663 abatement would have been allocated to the District. Hightstown Borough does not currently have any such long-term tax exemptions in place.

The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

Covered payroll information is not presented since the Teachers' Pension and Annuity Fund is a special funding situation in which the District does not make contributions to this plan.

^{*} This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, governments should present information for those years for which information is available.

Budget to GAAP Reconciliation

Year ended June 30, 2019

	General Fund	Special Revenue Fund
Sources/inflows of resources		
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule (C-1, C-2)	\$ 103,797,792	\$ 2,242,379
Differences - Budgetary to GAAP:		
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.		
Prior year Current year (net of prior year cancellations)		103,505 (208,607)
State aid payments recognized for budgetary purposes, not recognized for GAAP statements.		
Prior year Current year	 1,656,902 (2,123,145)	 ***************************************
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds (B-2)	\$ 103,331,549	\$ 2,137,277
Uses/outflows of resources Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule (C-1, C-2)	\$ 103,732,955	\$ 2,242,379
Differences - Budgetary to GAAP:		
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		
Prior year Current year (net of prior year cancellations)		103,505 (208,607)
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental		
funds (B-2)	 103,732,955	\$ 2,137,277

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the district's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports (CAFR) for the relevant year.

GASB 54 was implemented in the 2011 fiscal year, which required the presentation of fund balances to be reported in different classifications from those presented in prior years (see footnote 1 in the basic financial statements). Prior years have not been restated above, nor are they required to be.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

Honorable President and Members of the Board of Education East Windsor Regional School District Hightstown, New Jersey County of Mercer

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Windsor Regional School District, in the County of Mercer, New Jersey (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 26, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

115

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Federal and State Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and New Jersey OMB Circular 15-08

Independent Auditors' Report

Honorable President and Members of the Board of Education East Windsor Regional School District Hightstown, New Jersey County of Mercer

Report on Compliance for Each Major Federal and State Program

We have audited the East Windsor Regional School District's, in the County of Mercer, New Jersey (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2019. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance) and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of*

117

Federal Grants, State Grants and State Aid. Those standards, the Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

118

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2019

1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all federal awards and state financial assistance of the District. The District is defined in Note 1 to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

2. Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Therefore, some amounts presented in these schedules may differ from amounts presented, or used in the preparation of, the basic financial statements.

3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the fiscal year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the two last state aid payments in the current year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of the last state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2019

3. Relationship to Basic Financial Statements (continued)

as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$466,243 for the general fund and \$105,102 for the special revenue fund. See note to Required Supplementary Information (C-3) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. The adjustment to reconcile from budgetary basis accounts receivable to GAAP basis accounts receivable is \$49,370 for the special revenue fund. This is a result of recognizing encumbrances as expenditures on the budgetary basis but not the GAAP basis. Financial award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>	State	Total
General Fund	\$ 129,583	\$ 37,411,024	\$ 37,540,607
Special Revenue Fund	2,077,859	24,097	2,101,956
Debt Service Fund		111,707	111,707
Food Service Enterprise Fund	1,205,499	24,257	1,229,756
Total award revenues	\$ 3,412,941	\$ 37,571,085	\$ 40,984,026

4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. Adjustments

The adjustments presented on schedule K-3 are the result of the cancellations of prior year encumbrances.

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance

Year ended June 30, 2019

6. Other

Revenues and expenditures reported under the Food Donation Program represent current year value received and current year distributions, respectively. TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of Social Security contributions for TPAF members for the year ended June 30, 2019.

The post retirement pension, disability insurance and medical benefits received on-behalf of the District for the year ended June 30, 2019 amounted to \$10,533,606. Since on-behalf post retirement pension, disability insurance and medical benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB Circular 15-08, however, they are required to be reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency.

7. Indirect Costs

The District did not elect to use the 10% de minimis indirect cost rate as allowed by the Uniform Guidance.
