December 17, 2019

Honorable President and Members of the Board of Education Manalapan-Englishtown Regional School District County of Monmouth, New Jersey

Dear Board Members/Citizens:

It is with pleasure we submit the Comprehensive Annual Financial Report (CAFR) of the Manalapan-Englishtown Regional School District for the fiscal year ended June 30, 2019. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with Management of the District. To the best of our knowledge and belief, data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities, including the Management's Discussion and Analysis have been included.

The Comprehensive Annual Financial Report is presented in four sections as follows:

- The Introductory Section contains a Table of Contents, Letter of Transmittal, Roster of Officials, and an Organizational Chart of the School District;
- The Financial Section begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the School District's financial position and operating results, and other schedules providing detailed budgetary information;
- The Statistical Section includes selected economic and demographic information, financial trends, and the fiscal capacity of the School District, generally presented on a multi-year basis;
- The Single Audit Section The District is required to undergo an annual audit in conformity with the provisions of the Single Audit Act of 1996, OMB Circular Uniform Guidance and NJ OMB 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Information related to this single audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, if any, is included in the single audit section of this report.

SCHOOL DISTRICT ORGANIZATION

The Manalapan-Englishtown Regional School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards. All funds of the District are included in this report. The Manalapan-Englishtown Regional Board of Education and all its schools constitute the District's reporting entity. The District has maintained a high quality of education, even though it is one of the largest K-8 districts in Monmouth County.

The Manalapan-Englishtown Regional School District serves the children of the Township of Manalapan and the Borough of Englishtown. The District provides a full range of programs and services appropriate to grades Pre-K through 8. An early learning center (The John I. Dawes Early Learning Center) houses the pre-K and kindergarten programs. Three elementary schools (Clark Mills, Milford Brook, and Taylor Mills) house grades K-5. Lafayette Mills and Wemrock Brook house grades 1 through 5. The Pine Brook School houses grade 6. The Manalapan-Englishtown Middle School (MEMS) houses grades 7 and 8.

Supervising district-wide goals is a district superintendent, an assistant superintendent for curriculum and human resources, a business administrator, three district wide curriculum supervisors, a supervisor of special projects, a director of special education and a supervisor of special education. The Early Learning Center has its own principal and assistant principal. Each elementary has its own principal and one assistant principal. Pine Brook has one principal and one assistant principal. The middle school has one principal and two assistant principals.

The Board of Education, comprised of nine members, each elected to 3-year terms, meets on the first and third Tuesday of each month to determine district goals and priorities and conduct the business of the Board of Education. The Board of Education utilizes a committee structure as well as operates as a committee of the whole. All committee of the whole meetings are open to the public and begin at 7:30 p.m. and conclude at 11:30 p.m. unless the board passes a resolution to extend the meeting.

Ad-hoc advisory committees composed of representatives from the community; administration, PTA's, PTO's and Booster Club and the Township and Borough are sometimes formed to provide the Board of Education with information and input on specific issues. In the 2018-19 school year the Board of Education did not have a specific Ad-Hoc committee, although the district did seek input from community members and the PTA's regarding curriculum program offerings, a possible referendum and changes in transportation.

PTA's, PTO's and the Booster Club are highly active in the District and provide community support for a variety of programs and activities for the children.

To maintain communication with the various constituent groups, the District mainly utilizes its web site. The website is updated regularly with important information for parents, such as school closures, delayed openings, medical/health alerts, new curriculum initiatives, and more. Budget information, while available on the web site, is also presented to the township committee and borough council. The District also communicates with parents via Blackboard Mass Notifications, a system that provides both phone and e-mail contact options. The ability to contact the entire parent population within twenty minutes about changes in the school day, i.e., early closure, or to be able to update them in an emergency situation, is a vital component in insuring that our communication efforts are timely, accurate, and effective.

EDUCATIONAL PROGRAM

Each of the schools in the district follows the district-wide goals and educational approaches to the teaching of children, while maintaining a unique personality that makes up that particular school. The transition from the Common Core State Standards in Language Arts and Mathematics to the New Jersey Student Learning Standards began in 2015-16 and was completed by September of 2017.

In July 2019, the New Jersey Department of Education released its yearly Taxpayers' Guide to Education Spending for all school districts in the State. The guide compares districts with those who are similar in enrollment/configurations. The information on expenditures was taken from certified budgets on file with the State Department of Education. This reports shows that the district spends \$19,886 per pupil while the average costs for similar districts are \$21,817. Of the 74 K-8 school districts in the state with enrollments exceeding 751 children, Manalapan-Englishtown Regional ranked 23rd lowest in total budgetary cost per pupil.

The following table presents the actual historical pupil enrollment, as of October 15, for the school years 2009-10 through 2018-19.

Enrollment							
School Year	As of October 15						
2009-10	5,364						
2010-11	5,188						
2011-12	5,161						
2012-13	5,136						
2013-14	5,027						
2014-15	5,108						
2015-16	4,992						
2016-17	4,987						
2017-18	4,989						
2018-19	4,975						

ECONOMIC CONDITION AND OUTLOOK

Monmouth County is steeped in history from pre-revolutionary times to the present day. Rich in natural resources, Monmouth's deep forests, rolling countryside and miles of beautiful sandy beaches offer a perfect backdrop for the vast variety of recreational, cultural and leisure opportunities in the area. The County has horse country and thriving agricultural industry in the west, beaches and seaside resorts in the east, and a booming business community throughout. The Manalapan-Englishtown Regional School District serves students from a wide range of socioeconomic backgrounds.

Monmouth County is located in the center of the state approximately 47 miles south of New York City and 55 miles east of Philadelphia. Newark Liberty International Airport is just 40 minutes away. The public and private transportation systems include more than 2,600 miles of rails and roads, making the County accessible to virtually all of New Jersey as well as nearby New York and Philadelphia.

Because Monmouth County continues to be among the fastest growing in New Jersey, change is constant in the Manalapan-Englishtown Regional School District. Sales of both new and existing homes are occurring at a slow pace. Existing homes continue to stay on the market for a much longer period of time than a few years ago.

On Tuesday, January 17, 2012, Governor Christie signed into law A-4394/S-3148 (P.L. 2011, chapter 202), which established procedures for moving the date of a school district's annual school election from April to the General Election in November. Districts that choose to elect their school board members in November no longer have to submit their budgets for voter approval as long as it does not exceed the levy cap. Budgets that are in excess of the cap would still require voter approval. Once a school election is moved to November, no action can be taken (either by petition or resolution) to move the election back to April for four (4) years. Special Elections are still permitted in January, March, September and December should the need arise.

On Tuesday, January 17, 2012, the Manalapan-Englishtown Regional Board of Education passed a resolution moving the annual school board election to the General Election in November and effectively eliminated the requirement for voter approval of the district school budget as long as it does not exceed the levy cap. This election had to remain in effect for a minimum of four (4) years. There has not been any discussion regarding moving the annual school board election back to April.

The District, along with all of the other public school systems in the state, will continue to face difficult economic situations in the future since the primary funding source is and will continue to be property tax revenue. The proposed budget for the fiscal year 2018-19 was approved on May 7, 2019. Overall tax

revenue for 2018-2019 was increased by 4.41%, but the increased expenditures from the growing cost of contractual salary increases, employee health care, increases in the contributions to the retirement system, and rising insurance premiums have outpaced the additional revenue. We recognize that the state is in a financial crisis and want to assure our residents that the Manalapan-Englishtown Regional School District is doing its part to maintain a responsible budget. The passage of school funding reform bill S2 has had a significant impact on the District's finances. The District will continue to investigate ways of addressing the anticipated significant reductions in state aid. The District's administration closely monitors the cost of operations and continues to look for new funding sources in order to maintain the quality education services that the district has been accustomed to providing. Manalapan-Englishtown Regional School District's PTA's donated generously during the 2018-2019 school year.

MAJOR INITIATIVES

The District has completed several phases of its One to One Digital Conversion Initiative. In September of 2015, the initiative was fully implemented. Every student in grades six through eight have a Chromebook for use both in and outside of school and each fifth grade class has been supplied with a Chromebook cart. During the 2018-2019 school year additional Chromebook carts were introduced in the fourth and third grades and as of September 2019 every class had a Chromebook cart.

The capital projects listed below are in various stages of implementation:

- Security System Upgrade
- Additional locker replacement at the Manalapan-Englishtown Middle School
- HVAC upgrades at the Manalapan-Englishtown Middle School were completed

INTERNAL CONTROLS

Management of the district is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the district are protected from loss, theft or misuse; and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally-accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the district management.

As part of the district's single audit, described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

BUDGETARY CONTROLS

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipalities. Annual appropriated budgets are adopted for the general fund, the special revenue funds, and the debt service fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record

outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year.

CASH MANAGEMENT

The investment policy of the District is guided in large part by state statute as detailed in Notes to the Basic Financial Statements, Note 3. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provision of the Governmental Unit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

RISK MANAGEMENT

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, fidelity bonds and worker's compensation. A schedule of insurance coverage is found in Exhibit J-20.

INDEPENDENT AUDIT

State statutes require an annual audit by independent certified public accountants. The accounting firm of Jump, Perry & Company. L.L.P. was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet requirements of the Single Audit Act of 1996, OMB Circular Uniform Guidance and NJ OMB 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". The auditors' report on the basic financial statements and specific required supplemental information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

ACKNOWLEDGMENTS

We would like to express our appreciation to the members of the Manalapan-Englishtown Regional School District for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

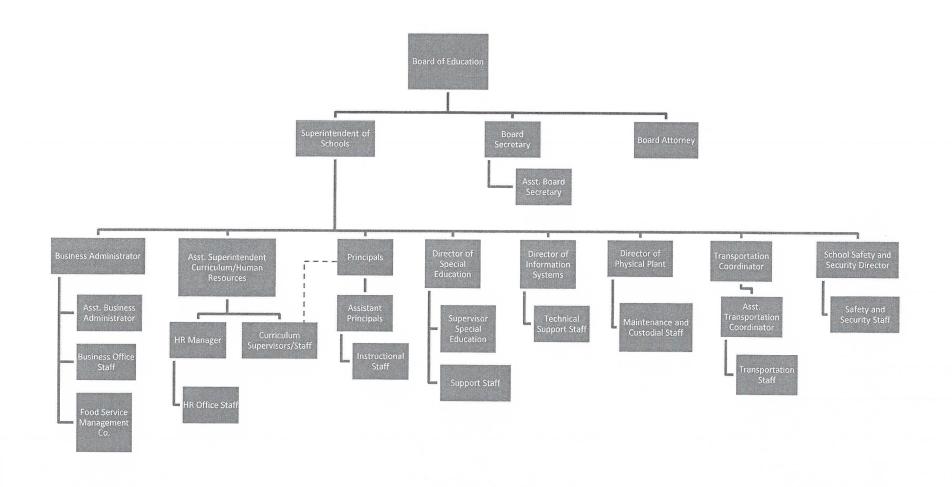

John J. Marciante, Jr., PH. D

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Manalapan-Englishtown Regional School District County of Monmouth Englishtown, New Jersey

Report of the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

BRICK OFFICE: 514 BRICK BOULEVARD · SUITE 3 · BRICK, NJ · 08723 · PHONE (732) 840-1600 · FAX (732) 840-8349

MANAHAWKIN OFFICE: 21 JENNINGS ROAD · MANAHAWKIN, NJ · 08050 · PHONE (609) 978-9500 · FAX (609) 978-9515

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey as of June 30, 2019 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, and the schedules related to accounting and reporting for pensions and post-retirement benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Manalapan-Englishtown Regional School District's basic financial statements. The introductory section, combining fund financial statements and schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and is also not a required part of the basic financial statements.

Other Information (continued)

The combining fund financial statements and schedules and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and schedules and the schedule of expenditures of federal and state awards are fairly stated, in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2019 on our consideration of the Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey internal control over financial reporting and compliance.

Respectfully Submitted,

REQUIRED SUPPLEMENTARY INFORMATION - PART I

Manalapan-Englishtown Regional School District

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2019

Unaudited

The discussion and analysis of Manalapan-Englishtown Regional School District's financial performance provides an overall review of the School Board's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the School Board's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School Board's financial performance.

Financial Highlights

Key financial highlights for June 30, 2019 are as follows:

Net position totaled \$35,740,660, which represents a 8.30 percent increase from June 30, 2018.

General revenues accounted for \$86,280,694 in revenue or 87.74 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$12,051,331 or 12.26 percent of total revenues of \$98,332,025.

Total assets increased by \$245,500 as current assets increased by \$2,975,100 and capital assets, net decreased by \$2,729,600.

The School Board had \$95,593,239 in expenses; only \$12,051,331 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$86,280,694 were adequate to provide for these programs.

Among major funds, the General Fund had \$90,773,813 in revenues and other financing sources and \$88,021,005 in expenditures and transfers. The General Fund's balance increased \$2,752,808 over June 30, 2018. The General Fund's balance is \$15,129,885.

Using this Comprehensive Annual Financial Report (CAFR)

The annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Manalapan-Englishtown Regional School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the School Board, presenting both an aggregate view of the School Board's finances and longer-term view of those finances. Fund financial statements provide the next level of detail. For government funds, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements also look at the School Board's most significant funds with all other non-major funds presented in total in one column. In the case of Manalapan-Englishtown Regional School District, the General Fund is by far the most significant.

Reporting the School Board as a Whole

Statement of Net Position and the Statement of Activities

The Statement of Net Position and Statement of Activities provide information about the activities of the entire School District and are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business.

These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into consideration all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. The change in net position is important because it informs the reader that, for the School District as a whole, the financial position of the School District has improved or worsened. The causes of the change may be the result of many factors, some financial and some not. Non-financial factors include, but are not limited to, the District's property tax base, current laws in New Jersey restricting revenue growth, facility conditions, and required educational programs. In the Statement of Net Position and the Statement of Activities, the School Board is divided into two kinds of activities:

Governmental Activities - All of the School Board's programs and services are reported here including, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Business-Type Activities - This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service Funds are reported as a business activity.

Reporting the School Board's Most Significant Funds

Fund Financial Statement

The Analysis of the School Board's major funds begins with Exhibit B-1. Fund financial reports provide detailed information about the School Board's major funds. The School Board's major governmental funds are the General Fund, Special Revenue Fund, and Debt Service Fund.

Governmental Funds

The School Board's activities are reported in governmental funds, which focus on how money flows into and out of the funds and balances left at year-end available for spending in the future years. These funds are reported using a modified accrual accounting method which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School Board's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The Enterprise Fund uses the same basis of accounting as business-type activities.

The School Board as a Whole

The Statement of Net Position provides the financial perspective of the School Board as a whole.

Table 1 provides a summary comparison of the School Board's net position for June 30, 2019 and 2018.

Table 1

The tax levy increase was due in general to cover increased costs in salaries and benefits, utilities and the debt service. The Federal and State aid-restricted decreased due to the amount in grants available.

Regular instructional costs increased due to contractual increases in salary and benefits as well as program maintenance and enhancements.

Other support services increased primarily due to the additional other purchased professional services from the Special Revenue Fund.

Sources of Revenue for Fiscal Year 2019

Expenses for Fiscal Year June 30, 2019

Business-Type Activities

Revenues for the District's business-type activities (food service program and child care) were comprised of charges for services.

Total Enterprise Fund expenses exceeded revenues by \$253,470.

Charges for services represent \$1,722,015 of revenue. This represents the amount paid by patrons for daily food service and child care.

Federal and state reimbursements for meals, including interest, payments for free and reduced lunches and donated commodities was \$468,088.

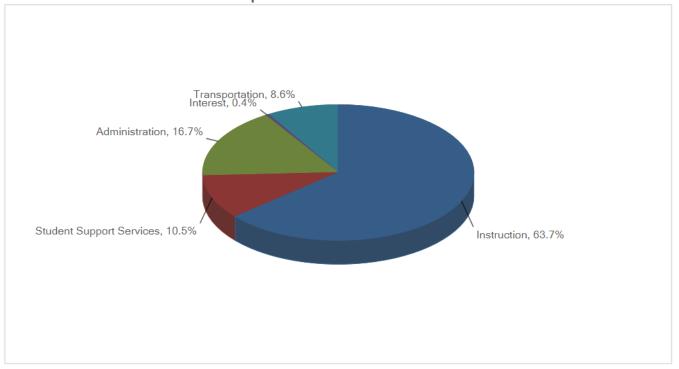

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total costs of services and the net cost of services. The net cost shows the financial burden that was placed on the School District's taxpayers by each of these functions.

<u>Table 3</u>

Expenses for Fiscal Year 2019

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Extracurricular activities includes expenses related to student activities provided by the District which are designed to provide opportunities for students to participate in school and public events for the purpose of motivation, enjoyment, skill improvement, school spirit and leadership. Approximately 90% of the student population participates in extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, to school curricular and athletic activities and field trips as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the District.

The School Board's Funds

The School Board uses funds to control and manage money for particular purposes. The Fund's basic financial statements allow the School Board to demonstrate its stewardship over and accountability for resources received from the Borough of Englishtown, State of New Jersey and other entities. These statements also allow the reader to obtain more insight into the financial workings of the School Board, and assess further the School Board's overall financial health.

As the School Board completed the fiscal year ended June 30, 2019, it reported a combined fund balance of \$15,129,885, which is an increase of \$2,737,004. The Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds, Exhibit B-2, presents the reader with a detailed explanation of the decrease in fund balance for the fiscal year.

The following schedule presents a summary of General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2019.

		2019		Increase/ (Decrease) from	Percent of Increase/

General Fund Budgeting Highlights

The School Board's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the School Board revises its budget as it attempts to take into consideration unexpected changes in revenue and expenditures.

A schedule showing the School Board's original and final budget compared with actual operating results is provided in Section C of the CAFR, entitled Budgetary Comparison Schedules. The School Board generally did better than had been budgeted in its General Fund since it practices conservative budgetary practices in which revenues are forecasted very conservatively and expenditures are budgeted with worst-case scenarios in mind.

The General Fund finished the fiscal year approximately \$6,542,972 better than had been budgeted in terms of expenditures. Revenue-wise, the General Fund fared about \$820,885 more than expected. Both these amounts have been adjusted for the non-budgeted amounts reflected in the comparison schedule for reimbursed TPAF social security contributions and on-behalf TPAF post-retirement medical contributions.

The General Fund has restricted a portion of its Fund Balance. The restricted Fund Balance items are as follows:

Excess Surplus - Designated for Subsequent Year	
Expenditures	\$ 3,902,873
Capital Reserve	1,116,772
Maintenance Reserve	1,615,796
Excess Surplus - Current Year	6,377,577

These restricted reserves are regulated as to their use by the State of New Jersey. Therefore, the Board places funds in the reserves in combination with the future financial needs of the District.

The expenditures were less due to cost containment by the Board even after the salary and benefit increases. General supplies were purchased at better prices than expected due to the school board joining other schools in cooperative bidding. The district also joined a co-op for energy consumption, which was done after the budget was struck. Through efforts made in finding jointures with other local districts, and increase students on district owned vehicles the district transportation costs were lowered for special needs students.

The revenue situation arose primarily because of tuition received from out of district students. The excesses will be carried forward into the beginning fund balance from the 2018-2019 fiscal year and will be used to reduce the local tax levy for the 2020-2021 fiscal year.

Capital Assets and Debt Administration

Capital Assets. At the end of the fiscal year June 30, 2019, the School Board had \$90,827,731 invested in land, buildings, and machinery and equipment.

Table 4

Capital Assets (Net of Depreciation) at June 30, 2019 and June 30, 2018

	Governmer	ntal Activities	Business-ty	pe Activities	Total		
	2019	2018	2019	2018	2019	2018

Machinery and Equipment	3,698,159	2,790,212	192,974	165,506	3,891,133	2,955,718	
Total	\$ 90,612,198	\$ 93,359,884	\$ 215,533	\$ 197,447	\$ 90,827,731	\$ 93,557,331	

During the current fiscal year, \$2,422,328 of capital assets were capitalized as additions. Increases in capital assets were offset by depreciation expense for the year.

Debt Administration. The District's long-term liabilities are as follows for the governmental and business-type activities:

	Jı	une 30, 2019	June 30, 2018		
Bonds Payable (net)	\$	30,145,000	\$	32,530,000	
Capital Leases payable		1,804,471		889,134	
Pension Liability-PERS		27,546,147		36,972,601	
Compensated Absences payable		2,371,155		2,504,008	
Total long-term liabilities	\$	61,866,773	\$	72,895,743	

For more detailed information, please refer to the Capital Assets and Long-term debt notes in the basic financial statements.

Economic Factors and Next Year's Budget

For the 2018-2019 school year, the School Board was able to sustain its budget through the local tax levy, state education aid and local revenue sources. Approximately 29.46% of the School Board's revenue is from federal, state and local aid (restricted and not restricted), while 70.54% of total revenue is from local sources.

The \$(47,596,808) in unrestricted net position for all governmental activities represents the accumulated results of all past years' operations. It means that if the School Board had to pay off all bills today, including all of the School Board's non-capital liabilities (compensated absences, etc.), the School Board would have that much in value.

The 2018-2019 budget was adopted in March 2018 based in part on the state education aid the School Board anticipated receiving. Due to the economic condition in the State of New Jersey funding from the State for the current year remained below the previous year. Any future increases based on the enrollment formula, originally formulated to allocate state education aid amongst school boards, will be minimal. Future decreases in local revenue and state education aid will place additional burden on the Borough of Englishtown for increased aid.

The School Board anticipates a slight increase in enrollment for the 2019-2020 fiscal year. If the School Board were to experience a significant increase in enrollment with no appreciable increase in state aid for future budgets, the School Board will be faced with the following alternatives: (a) reduce programs and services, (b) increase local tax levy or (c) seek alternative sources of funding.

Contacting the School Board's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School Board's finances and to show the School Board's accountability for the money it receives. If you have questions about this report or need additional information, you may contact the School Business Administrator/Board Secretary at Manalapan-Englishtown Regional School District, 54 Main Street, Englishtown, NJ, 07726.

MANALAPAN-ENGLISHTOWN REGIONAL SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2019

Total net change in fund balances - governmental funds (from B-2)	\$	2,737,004
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.	11 604	
· · · · · ·	71,684 03,426)	(4,068,258)
In the statement of activities, only the gain on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from a sale increase financial resources. Thus, the change in net assets will differ from the change in fund balance by the cost of the asset removed.		
Accumulated depreciation on capital assets sold or retired during the fiscal year ended June 30, 2019 Cost basis of capital assets sold or retired during the fiscal year ended June 30, 2019	-	-
In the Statement of Activities, the PERS pension expense is the amount paid plus net change in the Deferred Outflows, Deferred Inflows and pension liability as reported by the State of New Jersey.		801,075
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.		2,385,000
The issuance of bonds is revenue in the governmental funds, but increases long-term liabilities in the statement of net position and is not reported in the statement of activities.		-
In the Statement of Activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The change in accrued interest is an addition to the reconciliation.		16,228
In the Statement of Activities, the bond premium is reclassed as a liability. In the governmental funds, the payment is an expenditure.		583,119
In the Statement of Activities, the principal payments on capital leases are recorded as a reduction in the long-term liability. In the governmental funds, the payments is an expenditure. (Amount is net of payments included in capital outlay)		405,235
In the Statement of Activities, the fair market value of donated capital assets should be recognized as revenue in the period when all eligibility requirements are met (typically in the period when ownership is transferred). In the Governmental Funds, however, the fair market value of these donated assets are not reported as an increase in financial resources.		-
In the Statement of Activities, certain operating expenses, e.g., compensated absences (sick leave) and special termination benefits (early retirement incentive) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used, essentially, the amounts actually paid. When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.		132,853
Change in net position of governmental activities	\$	2,992,256

Notes to Financial Statements

For the Year Ended June 30, 2019

1. Description of the School District and Reporting Entity

Manalapan-Englishtown Regional School District ("District") is organized under the Constitution of the State of New Jersey. The District operates under a locally elected Board form of government consisting of nine members elected to three-year terms, which are staggered. The District provides educational services as authorized by state and federal guidelines.

The District serves an area of 32 square miles. It is located in Monmouth County and provides education for all of Manalapan-Englishtown Regional's students in grades K through 8. The District currently operates eight instructional buildings, a transportation depot, buildings and grounds office, and an administrative building. The District services approximately 5,000 students and is one of the largest K through 8 Districts in Monmouth County.

A. Reporting Entity

The Board of Education (Board) is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. The operations of the District include an early learning center, five elementary schools and two middle schools located in Manalapan and Englishtown, New Jersey.

In evaluating how to define the governmental reporting entity, the District follows the Governmental Accounting Standards, under which the financial statements include all the organizations, activities, functions and component units for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's Board and either (1) the District's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the District. On this basis, the District's financial reporting entity has no component units.

2. Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

District-wide Statements: The district-wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These statements report financial information of the District as a whole excluding the fiduciary activities. All interfund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities, generally supported through taxes and user fees, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The School District's basic financial statements requiring the reporting of deferred outflows, deferred inflows, and net position. The Statement of Net Position includes the reporting of assets, deferred outflows, liabilities and deferred inflows. The deferred outflows are reported under assets and deferred inflows are reported under liabilities on the Statement of Net Position. Items previously classified as assets and liabilities but not meeting that definition have then been reviewed for categorization as deferred outflows or deferred inflows. Items not classified as an asset, deferred outflows, liability or deferred inflows have been charged to the Statement of Activities in the current year.

The School District did have items that needed to be reviewed for proper classification on the Statement of Net Position. The District has Bond Costs which were being amortized. Following these new guidelines the Bond Costs have been classified as a Deferred Outflow.

The statement of net position presents the financial condition of the governmental and business-type activity of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the School District.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide detail of the governmental, proprietary and fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with Governmental Accounting Standards. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

<u>General Fund</u>: The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes in this fund budgeted Capital Outlay. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

<u>Special Revenue Fund</u>: The special revenue fund is used to account for the proceeds of specific revenue from state and federal Government, (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

<u>Capital Projects Fund</u>: The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u>: The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following proprietary fund:

<u>Enterprise Fund</u>: The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

Depreciation of all capital assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straightline method. The estimated useful lives are as follows:

Equipment 5-20 Years

Additionally, the District reports the following fund type:

<u>Fiduciary Funds</u>: The Fiduciary Funds are used to account for assets held by the District on behalf of others and includes the Student Activities Fund, Payroll Agency Fund, Unemployment Compensation Insurance Trust Fund and Private Purpose Trust Funds.

B. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting (Continued)

District-wide, proprietary, and fiduciary fund financial statements: The district-wide financial statements are prepared using the accrual basis of accounting. Governmental funds are accounted for using the "economic resources" measurement focus and the modified accrual basis of accounting; the enterprise fund and fiduciary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures. The tax revenues are recognized in the year for which they are levied (see Note 2.c.). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all requirements have been satisfied.

Governmental fund financial statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

C. Property Taxes

Ad Valorem (Property) Taxes are susceptible to accrual as per New Jersey State Statute whereby a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. On Tuesday, January 17, 2012, Governor Christie signed into law A-4394/S-3148 (P.L. 2011, chapter 202), which established procedures for moving the date of a school district's annual school election from April to the General Election in November. Districts that choose to elect their school board members in November no longer have to submit their budgets for voter approval as long as it does not exceed the levy cap. Budgets that are in excess of the cap would still require voter approval. Once a school election is moved to November, no action can be taken (either by petition or resolution) to move the election back to April for four (4) years. Special Elections are still permitted in January, March, September and December should the need arise.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

D. Budgets/Budgetary Control (Continued)

On Tuesday, January 17, 2012, the Manalapan-Englishtown Regional Board of Education passed a resolution moving the annual school board election to the General Election in November and effectively eliminated the requirement for voter approval of the district school budget as long as it does not exceed the levy cap. This election is still in effect.

The 2018-19 budget was approved by the county in April 2018. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C 6A:23:23-16.2(f).

All budget amendments must be approved by School Board resolution. Budget amendments were made during the year ended June 30, 2019.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

F. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

G. Interfund Activity

Transfers between governmental and business-type activities on the district-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position, except for amounts between governmental and business-type activities or governmental and agency funds, which are presented as internal balances.

H. Allowances for Uncollectible Accounts

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

I. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods are recorded as an expenditure during the year of purchase.

Inventories are valued at cost, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when consumed rather when purchased.

J. Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated acquisition value on the date received. The cost of normal maintenance and repairs is not capitalized. The School District does not possess any infrastructure. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

J. Capital Assets (Continued)

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method under the half-year convention over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
School Building	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office & Computer Equipment	5-10
Instructional Equipment	10
Grounds Equipment	15

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

K. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

L. Unearned Revenue

Unearned revenue in the general and special revenue funds represent cash which has been received but not yet earned.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due. The general fund is utilized to liquidate all long-term liabilities other than debt via annual budget appropriation.

N. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted in the District-wide financial when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Fund Balance Reserves

The Governmental Accounting Standards established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

- Nonspendable includes amounts that cannot be spent because they are either (a)
 not in spendable form or (b) legally or contractually required to be maintained
 intact. Assets included in this fund balance category include prepaid assets,
 inventories, long-term receivables, and corpus of any permanent funds.
- 2. Restricted includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- Committed includes amounts that can be spent only for the specific purposes determined by a formal action of the government's highest level of decision-making authority.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

O. Fund Balance Reserves (Continued)

- 4. Assigned amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the business administrator through the budgetary process.
- 5. Unassigned includes all spendable amounts not contained in the other classifications.

P. Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, and tuition.

Q. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

R. Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements

For the Year Ended June 30, 2019

2. Summary of Significant Accounting Policies (Continued)

S. Allocation of Indirect Expense

The District reports all direct expense by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the statement of activities. Employee benefits, including the employer's share of social security, workers' compensation, and medical, dental and prescription benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the statement of activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the statement of activities. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities.

T. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

3. Cash and Cash Equivalents and Investments

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:2037 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with GUDPA. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Notes to Financial Statements

For the Year Ended June 30, 2019

3. Cash and Cash Equivalents and Investments (Continued)

Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000. The District's cash and cash equivalents are classified below to inform financial statement users about the extent to which a government's deposits and investments are exposed to custodial credit risk. Pursuant to Governmental Accounting Standards, the District's operating cash accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. As of June 30, 2019, all of the District's deposits, except as noted below, were collateralized by securities held in its name and, accordingly, not exposed to custodial credit risk.

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

As of June 30, 2019, the carrying amount of the District's deposits for all funds was \$16,804,849 and the bank balance was \$17,516,210. All bank deposits, as of the balance sheet date are entirely insured or collateralized by a collateral pool maintained by public depositories as required by GUDPA.

Notes to Financial Statements

For the Year Ended June 30, 2019

3. Cash and Cash Equivalents and Investments (Continued)

Investments:

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives that have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the school district.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives that have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the school district.

As of June 30, 2019, the District's Cash and Cash Equivalents consisted of the following:

	Cash and Cash Equivalents
Checking Accounts Capital Reserve Change Funds	\$ 16,136,002 668,647 200
Totals	\$ <u>16,804,849</u>

The fiduciary funds had a balance of \$922,980 at June 30, 2019.

Custodial Credit Risk: Pursuant to Governmental Accounting Standards, the NJCMF, which is a pooled investment, is exempt from custodial credit risk disclosure. The District does not have a policy for custodial credit risk other than depositing all of its funds in banks covered by GUDPA.

Credit Risk: The District does not have an investment policy regarding the management of credit risk. Governmental Accounting Standards require that disclosure be made as to the credit rating of all debt security investments except for obligations of U.S. government or investments guaranteed by the U.S. government. The NJCMF is not rated by a rating agency.

Interest Rate Risk: The District does not have a policy to limit interest rate risk. The average maturity of the District's sole investment, the NJCMF, is less than one year.

Notes to Financial Statements

For the Year Ended June 30, 2019

4. Restricted Cash Reserves

A. Capital Reserve Account

A capital reserve account was established by the District during fiscal year 2001-2002 in which it deposited \$100,000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's Long Range Facilities Plan, ("LRFP"). Upon submission of the LRFP to the department, a district may deposit funds by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended lineitem appropriation amounts, or both. A district may also appropriate amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 01, 2018 to June 30, 2019 fiscal year is as follows:

Beginning balance, July 1, 2018 Add:	\$	1,187,944
Interest earnings		14,710
Transfer of unspent funds		94,118
Less:		
Board resolution		-
FY 2018-2019 Budgeted withdrawal	_	180,000
Ending Balance, June 30, 2019	\$	1,116,772

The June 30, 2009 LRFP balance of local support costs of uncompleted capital projects is \$3,978,750. There were no withdrawals from the capital reserve for DOE approved facilities projects.

B. Maintenance Reserve

A maintenance reserve account was established by the District during fiscal year 2007-2008 in which it deposited \$484,791 for the accumulation of funds for use as maintenance expenditures in subsequent fiscal years. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Notes to Financial Statements

For the Year Ended June 30, 2019

4. Restricted Cash Reserves (Continued)

B. Maintenance Reserve (Continued)

The maintenance reserve account is used to accumulate funds for the required maintenance of a facility in accordance with the EFCFA (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701). Districts may only increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes (N.J.A.C. 6A:23A-14.2) or by deposit of any unanticipated revenue or unexpended line-item appropriation by board resolution at the year end. The board resolution for deposit at year end into a maintenance reserve account must be made between June 1 and June 30 of the budget year. EFCFA requires that upon District completion of a school facilities project, the district must submit a plan for the maintenance of that facility.

The activity of the maintenance reserve for the July 01, 2018 to June 30, 2019 fiscal year is as follows:

Beginning balance, July 1, 2018 Add:	\$ 2,210,796
Deposits Interest Earned	500,000
Less:	
FY 2018-2019 Budgeted withdrawal Ending balance, June 30, 2019	\$ 1,095,000 1,615,796

5. Receivables

Receivables at June 30, 2019 consisted of accounts (rent and tuition), accrued interest, interfund, intergovernmental, and property taxes. All receivables are considered collectible in full. A summary of the principal items of governmental receivables follows:

		Governmental	District-Wide
	I	Fund Financial	Financial
		<u>Statements</u>	<u>Statements</u>
State Aid	\$	909,397	911,194
Federal Aid		328,768	352,299

Notes to Financial Statements

For the Year Ended June 30, 2019

6. Capital Assets (Continued)

Depreciation expense was charged to governmental functions as follows:

Regular instruction	\$ 3,610,892
Special school instruction	253,328
Student & instruction services	353,197
School administration	33,615
Plant operations & maintenance	257,712
Student transportation	 362,940
Total depreciation expense	\$ 4,871,684

7. Long-term Liabilities

During the fiscal year ended June 30, 2019 the following changes occurred in the non-current liabilities:

	Balance	Increase/	Balance	[Due within
	July 01, 2018	(Decrease)	June 30, 2019		one year
Bonds payable	\$ 32,530,000	\$ (2,385,000)	\$ 30,145,000	\$	2,495,000
Obligations under capital leases	889,134	915,337	1,804,471		333,780
Compensated absences payable	2,504,008	(132,853)	2,371,155		157,099
Pension liability - PERS	36,972,601	<u>(9,426,454)</u>	<u>27,546,147</u>		
•	\$ <u>72,895,743</u>	\$ <u>(11,028,970</u>)	\$ <u>61,866,773</u>	\$	2,985,879

For governmental activities, the bonds payable are liquidated from the School District's debt service fund. Obligations under capital leases, compensated absences payable and pension liability - PERS are liquidated by the general fund.

A. Bonds Payable

Bonds are authorized in accordance with State law by the voters of the District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds.

Principal and interest due on serial bonds outstanding is as follows:

Year ended			
June 30	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2020	\$ 2,495,000	\$ 1,244,550	\$ 3,739,550
2021	2,620,000	1,119,106	3,739,106
2022	2,755,000	984,781	3,739,781
2023	2,895,000	844,825	3,739,825
2024	3,090,000	713,400	3,803,400
2025-2029	16,290,000	1,679,000	17,969,000
	\$ <u>30,145,000</u>	\$ <u>6,585,662</u>	\$ 36,730,662

Notes to Financial Statements

For the Year Ended June 30, 2019

7. Long-term Liabilities (Continued)

B. Bonds Authorized But Not Issued

As of June 30, 2019, the District had no authorized but not issued bonds.

C. Capital Leases

The District is leasing buses and a roof lease/purchase totaling \$2,868,259, with a net book value of \$1,804,471 under capital leases. All capital leases are for terms of two to ten years. The following is a schedule of the future minimum lease payments under capital leases and the present value of the net minimum leases payments as of June 30, 2019:

Year ended June 30,	
2020	\$ 373,548

Amortization of the leased equipment under capital assets is included with depreciation expense.

8. Pension Plans

A. Public Employees' Retirement System (PERS)

Plan Description - The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/financial-reports.shtml.

The vesting and benefit provisions are set by *N.J.S.A. 43:15A*. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

Plan Description (Continued)

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2018, the State's pension contribution was less than the actuarial determined amount.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

Contributions (Continued)

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Pension Liability, Pension Expense and Deferred Outflows/Inflows of Resources - At

June 30, 2019, the School District reported a liability of \$27,546,147 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined using update procedure to roll forward the total pension liability from an actuarial valuation as of July 1, 2016, to the measurement date of June 30, 2018. The School District's proportion of the net pension liability was based on the School District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2018. The School District's proportion measured as of June 30, 2018, was .1399027135%, which was a decrease of .0189260644% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the School District recognized full accrual pension expense of \$1,995,901 in the government-wide financial statements consisting of employer contributions of \$1,391,580 and non-employer contributions of \$604,321. This pension expense was based on the pension plans June 30, 2018 measurement date. At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 525,309	\$ 142,037
Changes of assumptions	4,539,149	8,807,793
Net difference between projected and actual		
earnings on pension plan investments	-	258,384
Changes in proportion and differences between		
District contributions and proportionate share of		
contributions	690,275	4,789,748
District contributions subsequent to the		
measurement date	<u>1,408,621</u>	
Total	\$ 7,163,354	\$ 13,997,962

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

Pension Liability, Pension Expense and Deferred Outflows/Inflows of Resources (Continued)

\$1,408,621 reported as deferred outflows of resources resulting from school district contributions subsequent to the measurement date is estimated based on unadjusted 2018-2019 total salaries for PERS employees multiplied by an employer contribution rate. The payable is due on April 1, 2020 and will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June	30:	
2019	\$	380,325
2020		(526,567)
2021		(3,775,908)
2022		(3,273,017)
2023		(1,048,065)
Thereafter		<u> </u>
Total	\$	(8,243,232)

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

The amortization of the above other deferred outflows of resources and deferred inflows of resources related to pensions will be over the following number of years:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience		
Year of Pension Plan Deferral: June 30, 2014	-	-
June 30, 2015 June 30, 2016	5.72 5.57	-
June 30, 2017	5.48	-
June 30, 2018	-	5.63
Changes of Assumptions Year of Pension Plan Deferral:		
June 30, 2014	6.44	-
June 30, 2015 June 30, 2016	5.72 5.57	-
June 30, 2017	5.57	5.48
June 30, 2018	-	5.63
Net Difference between projected and		
Actual Earnings on Pension Plan Investments		
Year of Pension Plan Deferral:	F 00	5.00
June 30, 2014 June 30, 2015	5.00 5.00	5.00 5.00

June 30, 2017 June 30, 2018	5.00 5.00	5.00 5.00
•		

The previous amounts do not include employer specific deferred outflows of resources and deferred inflows of resources related to changes in proportion. These amounts should be recognized (amortized) by each employer over the average of the expected remaining service lives of all plan members, which is 5.63, 5.48, 5.57, 5.72 and 6.44 years for the 2018, 2017, 2016, 2015 and 2014 amounts, respectively.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

Actuarial Assumptions - The collective total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions:

Inflation Rate 2.25%

Salary Increases:

Through 2026 1.65% - 4.15% Based on Age Thereafter 2.65% - 5.15% Based on Age

Investment Rate of Return 7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. In addition the tables provide for future improvements in mortality form the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Postretirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranged of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

A. Public Employees' Retirement System (PERS) (Continued)

		Long-Term

Emerging Markets Equity	6.50 %	11.64 %
Buyouts/Venture Capital	8.25 %	13.08 %

Discount Rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2046, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Notes to Financial Statements

For the Year Ended June 30, 2019

A. Public Employees' Retirement System (PERS) (Continued)

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2018 calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1%	Current	1%
	Decrease (4.66%)	Discount Rate (5.66%)	Increase (6.66%)
District's proportionate share of the net			
pension liability	34,636,106	27,546,147	21,598,125

Additional Information - The following is a summary of the collective balances of the local group at June 30, 2019 and 2018:

	<u>6/30/19</u>	<u>6/30/18</u>
Collective Deferred Outflows of Resources	(2,961,883,924)	723,829,861
Collective Deferred Inflows of Resources Collective Net Pension Liability	- 19,689,501,539	- 23,278,401,588
School District's Portion	.1399027135%	.1588287779%

B. Teachers' Pension and Annuity (TPAF)

Plan Description - The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit plan with a special-funding situation, by which a State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/financial-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

B. Teachers' Pension and Annuity (TPAF) (Continued)

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for TPAF is set by *N.J.S.A.* 18A:66 and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2018, the State's pension contribution was less than the actuarial determined amount.

As mentioned previously, the employer contributions for local participating employers are legally required to be funded by the State in accordance with *N.J.S.A. 18A:66-33*. Therefore, the School District is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the School District does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the School District.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

B. Teachers' Pension and Annuity (TPAF) (Continued)

Pension Liability and Pension Expense - The State's proportionate share of the TPAF net pension liability, attributable to the School District as of June 30, 2018 was \$208,154,499. The School District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The State's proportionate share of the net pension liability associated with the District was based on projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2018, the State proportionate share of the TPAF net pension liability attributable to the School District was .3271951076%, which was an increase of .0054601788% from its proportion measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the State of New Jersey recognized a pension expense in the amount of \$6,484,635 for the State's proportionate share of the TPAF pension expense attributable to the School District. This pension expense was based on the pension plans June 30, 2018 measurement date.

Actuarial Assumptions - The collective total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation Rate 2.25%

Salary Increases:

2012-2021 Varies Based on Experience Varies Based on Experience

Investment Rate of Return 7.00%

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

B. Teachers' Pension and Annuity (TPAF) (Continued)

Long-term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranged of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2018 are summarized in the following table:

Long-Term

		Long-renn
		Expected Real
	Target	Rate of
Asset Class	<u>Allocation</u>	<u>Return</u>

Notes to Financial Statements

For the Year Ended June 30, 2019

8. Pension Plans (Continued)

B. Teachers' Pension and Annuity (TPAF) (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 4.86% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2018 calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1%	Current	1%
	Decrease (3.86%)	Discount Rate (4.86%)	Increase (5.86%)
State's proportionate share of the net			
pension liability	246,763,661	208,154,499	177,276,480

Pension Plan Fiduciary Net Position - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements

For the Year Ended June 30, 2019

9. Defined Contribution Retirement Plan (DCRP)

The Defined Contribution Retirement Plan is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A.43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

The District's contributions to the DCRP for June 30, 2019 were \$129,585. There was no liability for unpaid contributions at June 30, 2019.

10. Post-Retirement Benefits

General Information about the OPEB Plan

Plan description and benefits provided

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. The cost of these benefits is funded through contributions by the State in accordance with, P.L. 1994 c. 62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126 which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. (GASB Cod. Sec. 2300.106(g)

For the Year Ended June 30, 2019

10. Post-Retirement Benefits (Continued)

General Information about the OPEB Plan (Continued)

Plan description and benefits provided (Continued)

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75.

Employees covered by benefit terms

At June 30, 2017, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefit payments	145,050
Active plan members	217,131
Total	362.181

Total Nonemployer OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified returned PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASB 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education. Note that actual numbers will be published in the NJ State's CAFR (https://www.nj.gov/treasury/omb/publications/archives.shtml).

Notes to Financial Statements

For the Year Ended June 30, 2019

10. Post-Retirement Benefits (Continued)

Actuarial assumptions and other imputes

The total OPEB liability in the June 30, 2018 actuarial valuation reported by the State in the State's most recently issued CAFR was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation Rate	2.5%
Salary Increases through 2026	PERS 2.15%-4.15%
-	PFRS 2.1%-8.98%
	TPAF 1.55%-4.55%
Salary Increases after 2026	PERS 3.15%-5.15%
	PFRS 3.1%-9.98%
	TPAF 2.0%-5.45%
Discount Rate	3.58%
Healthcare Cost Trend Rates	4.5%-5.9%
Retirees' Share of Benefit Related Costs	1.5% of projected health insurance
	premiums for retirees

Preretirement mortality rates were based on the RP-2014 Headcount-weighted Healthy Employee Male/Female Mortality Table with Fully Generational Mortality Improvement projections from the central year using Scale MP-2017. Postretirement mortality rates were based on the RP-2014 Headcount-weighted Health Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. The disabled mortality was based on the RP-2014 Headcount-weighted Male/Female mortality table with fully generational improvement projects from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for PERS-June 30, 2014; TPAF-June 30, 2015 and PFRS-June 30, 2013.

Notes to Financial Statements

For the Year Ended June 30, 2019

10. Post-Retirement Benefits (Continued)

Changes in the Total OPEB Liability reported by the State of New Jersey

Balance at June 30, 2017	\$	53,639,841,858
Changes for the year: Service cost Interest on the total OPEB liability Differences Between Expected and Actual Experience Changes in assumptions Gross benefit payments by the state Contributions from members	_	1,984,642,729 1,970,236,232 (5,002,065,740) (5,291,448,855) (1,232,987,247) 42,614,005
Net changes	_	(7,529,008,876)
Balance at June 30, 2018	\$_	46,110,832,982

Discount rate

The discount rate was 3.58% percent in 2017 and 3.87% percent in 2018. This represents the municipal bond rate chosen by the State of New Jersey Division of Pension and Benefits. The source is the Bond Buyer Go 20-Bond municipal bond index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the June 30, 2018 total OPEB liability of the State for school board retirees, as well as the State's total OPEB liability for the school district calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1% Decrease (2.87%)	Current Discount Rate (3.87%)	1% Increase (4.87%)
Total OPEB Liability of the State for School Retirees	\$63,674,362,200	\$46,110,832,982	\$45,680,364,953
Total OPEB Liability of the State Associated with the School District for School Retirees	\$200,827,051	\$169,178,478	\$144,074,524

Notes to Financial Statements

For the Year Ended June 30, 2019

10. Post-Retirement Benefits (Continued)

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount is 5.8% and decreases to a 5.0% long term trend rate after nine years. For self-insured post 65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long term rate after eight years. For prescription drug benefits, the initial trend rate is 8% and decreases to 5.0% long term rate after seven years. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Sensitivity of the total OPEB liability to changes in the health care cost trend rates

The following presents the June 30, 2018 total OPEB liability of the State for school board retirees, as well as the State's total OPEB liability for the school district calculated using a health care cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	1% Increase			
Total OPEB Liability of the State for School Retirees	\$54,512,391,175	\$46,110,832,982	\$39,432,461,816		
Total OPEB Liability of the State Associated with the School District for School Retirees	\$139,132,380	\$169,178,478	\$209,078,596		

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the board of education recognized OPEB expense of \$2,941,420 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB 75 and in which there is a special funding situation.

In accordance with GASB 75, the Manalapan-Englishtown Regional School District's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources. At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB from the following sources:

Notes to Financial Statements

Notes to Financial Statements

For the Year Ended June 30, 2019

11. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASBS 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific even that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of sick leave in accordance with the districts personnel policy. Unused sick leave may be accumulated and carried forward to the subsequent years. Upon separation the District shall pay the employee for unused sick leave in accordance with the Districts' agreements with the various employees. Vacation days not used during the year may only be carried forward with approval from the Superintendent.

The liability for vested compensated absences of the governmental fund types is recorded in the Statement of Net Position.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees.

12. Deferred Compensation

The Board offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning, Inc. AXA/Equitable

13. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. There have been no significant reductions in insurance coverage from prior year and no settlements have exceeded insurance coverage's over the past three years.

Notes to Financial Statements

For the Year Ended June 30, 2019

13. Risk Management (Continued)

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's trust fund for the current and prior two years:

District Financial	District	Employee	Amount	Ending
<u>Year</u>	Contributions	Contributions	Reimbursed	<u>Balance</u>
2018-2019	\$ 7,475	164,566	114,348	\$ 760,165
2017-2018	65	80,933	70,469	702,472
2016-2017	64	80,933	60,121	691,943

14. Interfund Balances and Activity

The following interfund balances remained on the balance sheet at June 30, 2019:

	<u>nterfund</u>	<u>l</u>	<u>nterfund</u>	
<u>Fund</u>	<u>R</u>	<u>eceivable</u>	_	<u>Payable</u>
General Fund	\$	418,662	\$	-
Special Revenue Fund		-		117,821
Capital Projects Fund		-		-
Debt Service Fund		-		-
Enterprise Fund		-		291,509
Trust and Agency Fund				9,332
	\$	418,662	\$	418,662

The General Fund had to fund the Special Revenue Fund for shortages due to the delay in the District receiving State and Federal aid funds. All interfund balances are expected to be repaid within one year.

15. Inventory

Inventory in the Food Service Fund at June 30, 2019 consisted of the following:

Food	\$ 7,335
Supplies	6,577
Commodities	 5,320
	\$ 19,232

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1984) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

Notes to Financial Statements

For the Year Ended June 30, 2019

16. Contingent Liabilities

Grant Programs

The school district participates in federal awards and state financial assistance grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

The District is also involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the Board.

17. Fund Balances

General Fund - Of the \$15,129,885 General Fund balance at June 30, 2019, \$1,050,285 of encumbrances is assigned to other purposes, \$6,377,577 is restricted for excess surplus, \$3,902,873 is restricted for excess surplus designated for subsequent year's expenditures, \$500,950 is assigned to offset 2019-20 general fund expenditures, \$1,116,772 is restricted for capital reserve, \$1,615,796 is restricted for maintenance reserve, and \$565,632 is unreserved and undesignated.

18. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, c.73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2019 is \$6,377,577.

19. Uncertain Tax Positions

The school district had no unrecognized tax benefits at June 30, 2019. The school district files tax returns in the U.S. federal jurisdiction and various states. The school district has no open year prior to June 30, 2016.

20. Subsequent Events

Management has evaluated subsequent events through December 17, 2019, the date the financial statements were available to be issued.

Notes to Financial Statements

For the Year Ended June 30, 2019

21. Tax Abatement

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

22. Economic Dependency

Economic Dependency - The School District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the School District's programs and activities.

^{*} The schedule is presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend is compiled governments should present information for those years for which information is available.

Notes to Required Supplementary Information - Part III

For the Year Ended June 30, 2019

Notes for TPAF Pension Schedules

Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.25 %
Salary increases: 2011-2026	1.55 - 4.55 % based on age
Thereafter	2.00 - 5.45 % based on age
Investment rate of return	7.00 %

Pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from base year 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant White Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Disability Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Notes to OPEB Schedule

Benefit changes: None

Differences Between Expected and Actual Experiences: There is no change in the Total OPEB Liability from June 30, 2016 to June 30, 2017 due to differences in expected and actual experiences. The decrease in liability from June 30, 2017 to June 30, 2018 is due to changes in the census, claims and premiums experience.

Changes in assumptions: The increase in the liability from June 30, 2016 to June 30, 2017 is due to the decrease in the assumed discount rate from 2.85% as of June 30, 2016 to 3.58% as of June 30, 2017. The decrease in the liability from June 30, 2017 to June 30, 2018 is due to the increase in the assumed discount rate from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018; and a decrease in the assumed health care cost trend and excise tax assumptions.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculation.

- a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- **b** Rates for debt service are based on each year's requirements.

Manalapan-Englishtown School District Direct Debt			30,145,000
Total direct and overlapping debt			\$ 83,652,791

Sources: Manalapan Township Finance Officer, Englishtown Borough Finance Officer, Monmouth County Finance Office and Utility Authorities.

Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Marlboro. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Manalapan-Englishtown Regional School District County of Monmouth Englishtown, New Jersey 07728

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Manalapan-Englishtown Regional School District basic financial statements, and have issued our report thereon dated December 17, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Manalapan-Englishtown Regional School District in the County of Monmouth, State of New Jersey's internal control. Accordingly, we do not express an opinion on the effectiveness of the Manalapan-Englishtown Regional School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

BRICK OFFICE: 514 BRICK BOULEVARD · SUITE 3 · BRICK, NJ · 08723 · PHONE (732) 840-1600 · FAX (732) 840-8349

MANAHAWKIN OFFICE: 21 JENNINGS ROAD · MANAHAWKIN, NJ · 08050 · PHONE (609) 978-9500 · FAX (609) 978-9515

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Manalapan-Englishtown Regional School District financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully Submitted,

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08

Honorable President and Members of the Board of Education Manalapan-Englishtown Regional School District County of Monmouth Englishtown, New Jersey 07728

Report on Compliance for Each Major Federal and State Program

We have audited Manalapan-Englishtown Regional School District's compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey OMB Circular 15-08 that could have a direct and material effect on each of Manalapan-Englishtown Regional School District's major federal and state programs for the year ended June 30, 2019. Manalapan-Englishtown Regional School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Manalapan-Englishtown Regional School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, the Uniform Guidance and the New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Manalapan-Englishtown Regional School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Manalapan-Englishtown Regional School District's compliance.

BRICK OFFICE: 514 BRICK BOULEVARD · SUITE 3 · BRICK, NJ · 08723 · PHONE (732) 840-1600 · FAX (732) 840-8349

K-2

Opinion on Each Major Federal and State Program

In our opinion, Manalapan-Englishtown Regional School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Manalapan-Englishtown Regional School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Manalapan-Englishtown Regional School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the New Jersey OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Manalapan-Englishtown Regional School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

K-2

Report on Internal Control Over Compliance (continued)

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the New Jersey OMB 15-08. Accordingly, this report is not suitable for any other purpose.

Notes to Schedules of Awards and Financial Assistance

For the Year Ended June 30, 2019

General

The accompanying schedules of expenditures of federal and state awards present the activity of all federal and state award programs of the Manalapan-Englishtown Regional School District (District). The District is defined in Note 1 to the District's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies are included on the schedules of expenditures of federal and state awards.

2. Basis of Accounting

The accompanying schedules of expenditures of federal and state awards are presented using the modified accrual basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting, and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of the Uniform Guidance, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented, or used in the preparation of, the basic financial statements.

3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with or reconcile to amounts reported in the basic financial statements which present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements and schedules (RSI) are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the fiscal year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the last two state aid payments in the current year, which is mandated pursuant to NJSA 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of the last two state aid payments in the subsequent year. The Special Revenue Fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes the last two state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of the last two state aid payments in the subsequent year. The Special Revenue Fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes the last two state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

Notes to Schedules of Awards and Financial Assistance

For the Year Ended June 30, 2019

3. Relationship to Basic Financial Statements (Continued)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(6,419,066) for the General Fund and \$(11,307) for the Special Revenue Fund. See the Note to Required Supplementary Information (C-3) for a reconciliation of the budgetary basis to the GAAP basis of accounting for the General Fund and Special Revenue Fund. Financial award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

		<u>Federal</u>	<u>State</u>	<u>TPAF</u>	<u>Total</u>
General Fund	\$	52,423	\$ 25,075,772	\$ (9,432,018)	15,696,177
Special Revenue Fund		1,450,598	12,853	-	1,463,451
Debt Service Fund		-	417,132	-	417,132
Food Service Fund	_	434,213	22,887		457,100
Total awards and financial assistance	\$_	1,937,234	\$ <u>25,528,644</u>	\$ <u>(9,432,018</u>)	\$ <u>18,033,860</u>

4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. Other

Revenues and expenditures reported under the Food Donation Program represent current year value received and current year distributions respectively. TPAF Social Security and Post Retirement/Medical Benefits Contributions represent the amounts reimbursed by the State for the employer's share of social security contributions and Post Retirement/Medical Benefits for TPAF members for the year ended June 30, 2019.

The TPAF post retirement/medical benefits expenditures are not subject to New Jersey OMB Circular 15-08.

6. Indirect Costs

The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.
