BOARD OF EDUCATION RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT

131 YAWPO AVENUE OAKLAND, NEW JERSEY 07436

RAMAPO HIGH SCHOOL Franklin Lakes, N.J. 07417 (201) 891-1500

(201) 416-8100 FAX (201) 416-8123 INDIAN HILLS HIGH SCHOOL Oakland, N.J. 07436 (201) 337-0100

November 11, 2019

Honorable President and Members of the Board of Education and Constituents Ramapo Indian Hills Regional High School District 131 Yawpo Avenue Oakland, New Jersey 07436

Dear Board Members and Constituents:

The comprehensive annual financial report of the Ramapo Indian Hills Regional High School District for the fiscal year ended June 30, 2019 is hereby submitted. Responsibility for the accuracy of the data and the completeness and fairness of the presentation including all disclosures rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Governmental Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Ramapo Indian Hills Regional High School's MD&A can be found immediately following the "Independent Auditor's Report".

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, and a list of principal officials. The financial section includes the independent auditor's report, management's discussion and analysis (MD&A), the basic financial statements including the government-wide financial statements presented in conformity with Governmental Accounting Standards Board Statement No. 34. The basic financial statements also include individual fund financial statements, notes to the financial statements and required supplemental information (RSI). The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (uniform Guidance) and the state Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments".

Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report

Reporting Entity and High School Services: The Ramapo Indian Hills Regional High School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board as established by GASB No. 14. All funds of the District are included in this report.

The District provides a full range of educational services appropriate to grade levels 9 through 12 for all students enrolled in the District. The District reported for the 2018-19 fiscal year an enrollment of 2,320 students, which is five (5) students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last nine (9) years and the projected enrollment for the next year:

Enrollment (October 15st of each year)

Fiscal Year	Student Enrollment	Percent Change
2019-2020	2,271 (projected)	(2.1%)
2018-2019	2,320	(.21%)
2017-2018	2,325	.7%
2016-2017	2,309	(.69%)
2015-2016	2,325	(.21%)
2014-2015	2,330	(.08%)
2013-2014	2,350	n/a
2012-2013	2,352	1.90%
2011-2012	2,308	(3.5%)
2010-2011	2,388	.9%

<u>Initiatives</u>: The District filed for and received a free energy audit from the State, which outlined various capital projects that be completed to save energy. The District also solicited a Request for Proposal for banking services, the results of which generated a greater return on investment. Continued progress was made to further automate manual processes, including the implementation of an on-line central document repository (Frontline Central) and automated time sheets.

<u>Capital Improvements:</u> During the Summer of 2018, the District replaced the visitor grandstands at Ramapo High School and the home and visitor grandstands at Indian Hills High School. In addition, several sections of foam roof at Indian Hills High School were re-coated. In April 2019, the Board awarded contracts for the replacement of artificial turf and track surfaces at both schools.

<u>District Curriculum Initiatives during the 2018-19 School Year</u>: The District has continued to follow the three-year curriculum renewal cycle during the 2018-2019 school year, where different content areas went through a curriculum evaluation, revision, implementation, or final revision phase depending on where they were in the cycle.

Family Consumer Science, Visual and Performing Arts, Business, and Social Studies went through the curriculum evaluation process during the 2018-2019 school year, with plans of revising curriculum in the summer of 2019 for implementation in September of 2019. All of the District's curriculum has been revised and approved in accordance with the New Jersey Student Learning Standards and follows the adoption dates established through the Quality Single Accountability Continuum (QSAC) for the NJ Department of Education.

Several courses have been researched, developed and / or revised throughout the 2018-2019 school year for implementation during the 2019-2020. The District's Application Development / iApps course in the Business department has been completely redesigned into two 2.5-credit courses (iApps 1 and iApps 2), which introduces students to programming through block coding and develops the students' skills and understandings to work with line by line coding by the end of the second course. The goal of this approach is to introduce more students to coding and prepare more students for working proficiently in a coding environment. The Applied Technology department researched and developed a second level robotics course as a follow-up to Robotics 1. The Mathematics department has coupled with Syracuse University Project Advance (dual enrollment) to offer Calculus III, and the Health and Physical Education department participated in self-defense professional development and implemented a self-defense unit for all seniors as part of the District's physical education program.

The District worked towards (and was awarded) the Future Ready Schools Bronze Tier Certification during the 2018-2019 school year. This includes meeting the necessary requirements and showing evidence in the areas of Education and Classroom Practice, Leadership, and Technology Support and Services. The District's Future Ready Schools Task Force focused on redesigning physical spaces, leveraging technology to personalize learning, differentiated instruction, interdisciplinary learning, and redesigning time. The District also continued to integrate initiatives that supported the 2018-2019 District goals in the areas of interdisciplinary learning, differentiated instruction, and wellness.

Relevant Financial Policies: The operations of the Ramapo Indian Hills Regional High School District are financed through a combination of local property taxes, state and federal aid and other local miscellaneous revenue. Property Taxes, the largest local revenue source (82%) for the District, have increased by roughly 2% each year over the past five years.

The second largest revenue source (approximately 15% of revenue) for the District is State and Federal aid/grants. Approximately \$6.8 million of the aid pertains to on-behalf payments made by the State for pension and social security, of those district employees enrolled in teachers' pension plan. The other significant sources of aid pertain to funding special education, security and transportation aid, extraordinary aid and additional nonpublic transportation aid.

<u>Economic Condition and Outlook:</u> The school district serves three (3) communities: Township of Wyckoff, Borough of Franklin Lakes and Borough of Oakland. All three towns are stable, vibrant, residential communities located less than 40 miles from New

York City. The locations of the towns afford residents employment opportunities throughout the deep and diverse New York City and northern New Jersey economies.

The school district is comprised of two high school buildings: Ramapo High School originally built in 1956 and Indian Hills High School built in 1964.

The District is in a strong economic position. For the current year the District ended with a total General Fund budgetary fund balance in excess of \$24 million, an amount that represents 39% of the General Fund's current year's expenditures. As a result of this surplus, the District was able to replenish \$8,317 to its Emergency Reserve Account, \$76,275 to its Maintenance Reserve Account and \$1,000,000 to Excess Surplus that will be utilized in the District's 2020-21 budget as an appropriated funding source. These amounts are in addition to the \$1,000,000 that has already been designated as a fund balance funding source for the 2019-2020 school year.

Internal Accounting Controls: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objects are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgements by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

<u>Budgetary Controls</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital projects fund. The final budget amount is amended for the fiscal year and reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as assignments of fund balance at June 30, 2019.

<u>Accounting System Reports</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements", Note 1.

<u>Long-Term Financial Planning:</u> Each year, as part of the annual budget development process, the administration sets forth the District's statement of priorities. This statement is used to document a District's initiatives, goals and priorities and how they relate to the budget process.

The following initiatives were outlined in the District's Statement of Priorities for the budget planning process:

- Maintain our School System
- Raising Standards and Expanding Opportunities
- Building Professionalism
- Protecting Our Investment
- Planning for the Future

In addition, the board annually adopts district goals. The goals presented often balance fiscal and program issues. Goals for 2018-19 are as follows –

- 1. Successfully negotiate successor agreements with the Ramapo Indian Hills Supervisors Association, Ramapo Indian Hills Administrators Association, and the Ramapo Indian Hills Education Association.
- 2. Expand opportunities for student achievement recognition and staff recognition throughout the year with the goal not only to offer congratulation for accomplishment but to provide inspiration for future goals.
- 3. Continue to explore and identify opportunities for shared services with other FLOW school districts as well as municipalities. Establish and Ad Hoc Committee to oversee this effort. Areas for consideration for this Committee may include fixed expenses, financial services, and potential personnel positions,
- 4. Prioritize Long-Range Facilities Plan projects with the goal of identifying capital reserves to be used to implement projects.

The budget process is a collaborative effort between District administrators, building principals and staff members with input from parents and community members as well. With the economic crisis in New Jersey, everything changed drastically for all school districts in our state. Budgeting is the process of allocating finite resources to the prioritized needs of our district.

Through the diligent efforts of our staff, the District continues to provide academic improvement programs such as tutorials, which were established in previous budgets. Curriculum development, data analysis and staff development continue to be ongoing and essential to the educational process for students.

Independent Audit: State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Lerch, Vinci & Higgins LLP, 17-17 Route 208 N., Fair Lawn, New Jersey, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirement of the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and State Treasury Circular Letter 15-08 OMB.

The auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

<u>Acknowledgements</u>: We would like to express our appreciation to the members of the Ramapo Indian Hills Regional High School District Board of Education for their concern in providing fiscal responsibility to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

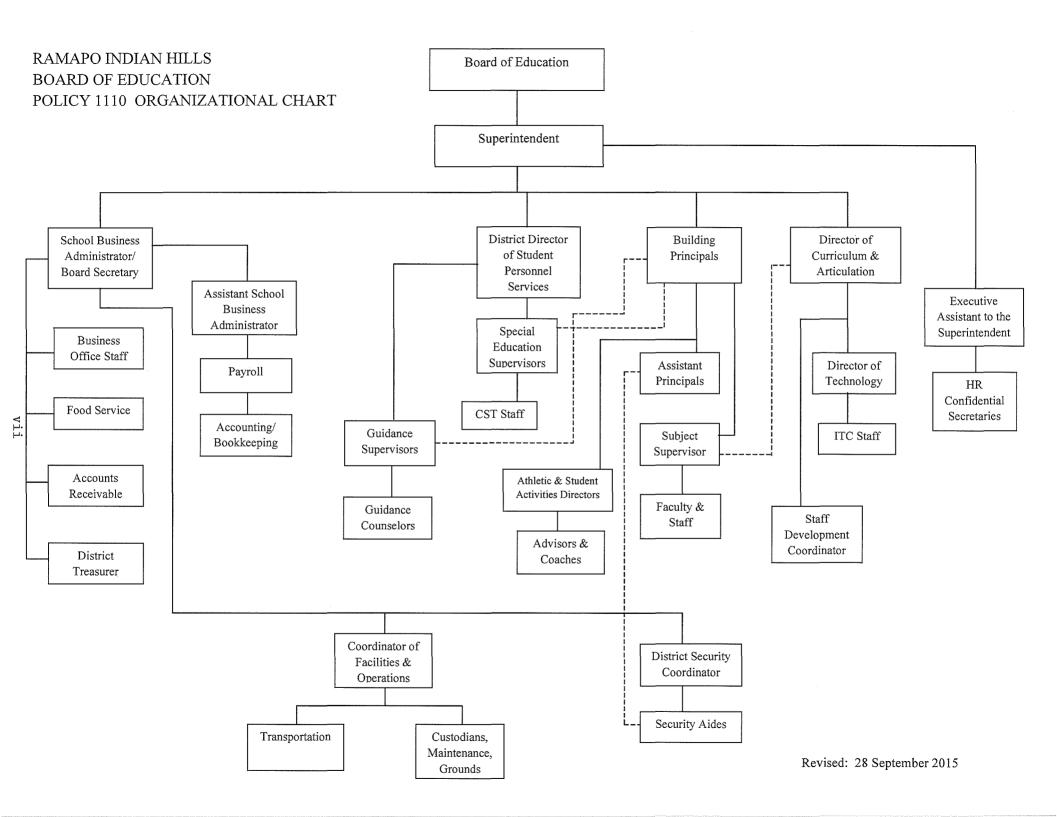

Respectfully submitted,

Beverly MacKay

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District, as of and for the fiscal year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension information and other postemployment benefits information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Ramapo Indian Hills Regional High School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, financial schedules, statistical section, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Ramapo Indian Hills Regional High School District.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated November 11, 2019 on our consideration of the Ramapo Indian Hills Regional High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Ramapo Indian Hills Regional High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

This section of the Ramapo Indian Hills Regional High School District's comprehensive annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2019. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain comparative information between the current year (2018-2019) and the prior year (2017-2018) is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-2019 fiscal year include the following:

- The assets and deferred outflows of resources of the Ramapo Indian Hills Regional High School District exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$57,286,806 (net position).
- Overall revenues were \$69,282,780. General revenues accounted for \$53,005,564 or 77% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$16,277,216 or 23% of total revenues.
- The school district had \$64,573,958 in expenses for governmental activities; only \$14,650,372 of these expenses were offset by program specific charges, grants or contributions. General revenues, (predominantly property taxes) of \$52,992,681 were adequate to provide for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$28,184,600.
- The General Fund (GAAP Basis) fund balance at June 30, 2019 was \$23,524,745 a decrease of \$756,503 when compared with the beginning balance at July 1, 2018 of \$24,281,248.

OVERVIEW OF THE FINANCIAL STATEMENTS

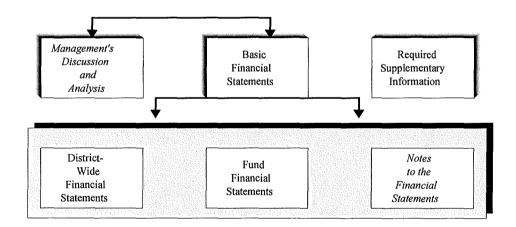

The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

• The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
 - The district governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
 - Proprietary funds statements offer short-term and long-term financial information about the activities the district operated like businesses.
 - Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The table below shows how the various parts of this annual report are arranged and related to one another.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

The major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain are detailed below. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Major Features of the District-Wide and Fund Financial Statements

	District-Wide	Fund 1	Financial Statements	
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as regular and special education and building maintenance	Activities the district operates similar to private businesses: Enterprise fund	Instances in which the district administers resources on behalf of someone else, such as Unemployment, Payroll Agency, and
Required financial statements	Statements of Net Position Statement of Activities	Balance Sheet Statement of Revenues, Expenditures and Changes in Fund Balances	Statement of Net Position Statement of Revenues, Expenses, and Changes in Fund Net Position Statement of Cash Flows	Student Activities Statements of Fiduciary Net Position Statement of Changes In Fiduciary Net Position
Accounting Basis and Measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources Focus
Type of asset/ deferred Outflows/inflows of resources/ liability information	All assets, deferred outflows/inflows of resources and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be utilized and liabilities that come due during the year or soon there after; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long- term	All assets and liabilities, both short-term and long-term funds do not currently contain capital assets.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and dedications during the year, regardless of when eash is received or paid.

District-wide financial statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows/inflows of resources and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources – is one way to measure the District's financial health or position.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

District-wide financial statements (continued)

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in two categories:

- Governmental activities Most of the District's basic services are included here, such as regular and special education, transportation, administration and plant operations and maintenance. Property taxes and state aids finance most of these activities.
- Business type activities These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The District's Food Service Fund and 1 to 1 Initiative (Laptop Insurance Program) Fund are included under this category.

Fund financial statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

The District has three kinds of funds:

- Governmental funds Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.
- Proprietary funds Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way in the fund financial statements as district-wide statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

Fund financial statements (continued)

Enterprise Funds — This fund is established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has two enterprise funds.

- Food Service (Cafeteria)
- 1 to 1 Initiative (Laptop Insurance Program)
- Fiduciary funds The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The first part of required supplementary information is concerning the District's budget process. The District adopts an annual expenditure budget for the general, special revenue and debt service funds. A budgetary comparison statement has been provided for these funds as required supplementary information. The required supplementary information can be found following the notes to the financial statements.

The District also presents required supplementary information regarding the accounting and reporting for pensions as required under GASB statement No. 68 and post-retirement medical benefits as required under GASB Statement 75. The required supplementary information can be found following the notes to the financial statements.

Combining statements and schedules are presented immediately following the required supplementary information.

DISTRICT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Ramapo Indian Hills Regional High School District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$57,286,806 as of June 30, 2019.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

By far the largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Statement of Net Position As of June 30, 2019 and 2018

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

Governmental Activities. The District's total governmental activities' revenues, which includes State and Federal grants, were \$67,643,053 for the fiscal year ended June 30, 2019, a decrease of \$2,170,122 or 3.1% over the previous year. Property taxes of \$51,429,501 represented 76% of revenues. Another significant portion of revenues came from State, Federal and Local aid; total State, Federal, Local and formula aid was \$14,390,605 (21%) of revenues. Miscellaneous income, which includes items such as rentals, prior year refunds, interest etc. generated \$1,558,608 (2%) of total revenues. The smallest component of revenues is charges for services, which includes tuition from other LEAs and individuals and transportation fees from individuals.

The total cost of all governmental activities programs and services was \$64,573,958. The District's expenses are predominantly related to educating and caring for students. Instruction totaled \$39,547,811 (61%) of total expenses. Support services totaled \$24,518,519 or 38% of total expenses. The remaining expenses relate to interest and other charges on long-term debt which were \$507,628, or less than 1% of total expenses.

Total governmental activities revenues, surpassed expenses, increasing net position \$3,069,095 over the previous year.

Total and Net Cost of Governmental Activities. The District's total cost of services was \$64,573,958. After applying program revenues, derived from charges for services of \$264,329 and operating and capital grants and contributions of \$14,386,043 the net cost of services of the District is \$49,923,586.

Total and Net Cost of Governmental Activities For the Fiscal Years Ended June 30, 2019 and 2018

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

Business-Type Activities – The District's total business-type activities revenues were \$1,639,727 for the year ended June 30, 2019. Charges for services accounted for more than 99% of total revenues for the year.

The total cost of all business-type activities programs and services was \$1,497,938. The District's expenses are related to Food Service programs provided to all students, teachers and administrators within the District as well as a 1 to 1 initiative (laptop insurance) program.

Total business-type activities revenues surpassed expenses increasing net position by \$141,789 over the previous year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$28,184,600. At June 30, 2018, the fund balance was \$25,714,765. This increase is predominately attributable to a minimal increase in spending due to careful monitoring of the District's expenditures and the reserving of funds needed to fund future anticipated costs.

Revenues for the District's governmental funds were \$62,831,924, while total expenses were \$60,362,089, thereby increasing fund balance by \$2,469,835.

General Fund - The General Fund is the chief operating fund of the District and includes the primary operations in providing educational services to students from grades 9-12 including pupil transportation activities and other support services.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

The following schedule presents a summary of General Fund Revenues.

		Fiscal Year Ended une 30, 2019		Fiscal Year Ended one 30, 2018	Amount of Increase (Decrease)	Percent Change
Local Sources						
Property Tax Levy	\$	49,864,711	\$	48,842,210	\$ 1,022,501	2%
Tuition		186,494		178,065	8,429	5%
Transportation		77,835		68,067	9,768	14%
Interest		569,170		299,850	269,320	90%
Miscellaneous		956,301		1,367,553	(411,252)	-30%
State Sources		8,959,329		7,711,912	 1,247,417	16%
Total General Fund Revenues	<u>\$</u>	60,613,840	<u>\$_</u>	58,467,657	\$ 2,146,183	4%

Total General Fund Revenues increased by \$2,146,183 or 4% compared with the previous year. The onbehalf state revenues and property taxes were largely attributable for the increase, along with the cancellation of prior year accounts payable.

Local property taxes increased approximately 2% from the previous year. State aid revenues increased \$1,247,417 or 16% predominantly attributable to the increase in the State's contribution for on-behalf TPAF pension system accrued liability costs.

Miscellaneous revenues increased primarily due to reimbursements of utility expenses through E-Rate funding, as well as the aforementioned cancellation of prior year accounts payable.

Interest income revenues increased due to increased available cash balances as well as an increase in interest rates resulting from a change in official depositories.

Tuition revenues increased due to a change in enrollment of students received from outside the District.

The following schedule presents a summary of General Fund expenditures.

	Fiscal Year Ended June 30, 2019	Fiscal Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent Change
Instruction	\$ 33,794,349	\$ 32,469,223	\$ 1,325,126	4%
Support Services	21,865,839	21,039,132	826,707	4%
Debt Service	673,976	1,935,870	(1,261,894)	-65%
Capital Outlay	294,974	159,230	135,744	85%
Total Expenditures	\$ 56,629,138	\$ 55,603,455	\$ 1,025,683	2%

Total General Fund expenditures increased \$1,025,683 or 2% over the previous year.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

In 2018-2019 General Fund revenues and financing sources were less than expenditures and other financing uses by \$756,503. As a result, total fund balance decreased to \$23,524,745 at June 30, 2019. The unassigned fund balance increased from \$1,004,054 at June 30, 2018 to \$1,015,885 at June 30, 2019.

Special Revenue Fund - The Special Revenue Fund includes all restricted Federal, State and Local sources utilized in the operations of the district in providing educational services to students with special needs.

Revenues of the Special Revenue Fund were \$620,147 for the fiscal year ended June 30, 2019. Federal sources accounted for the majority of Special Revenue Fund's revenue, which represented 77% of the total revenue for the year.

Total Special Revenue Fund revenues increased \$86,834 or 16% from the previous year. Federal sources decreased \$10,211 or 2%, State sources decreased \$8,434 or 22% and local sources increased \$105,479.

Expenditures of the Special Revenue Fund were \$620,147 Instructional expenditures accounted for 91% of the expenditures for the fiscal year ended June 30, 2019.

Capital Projects Fund - The Capital Projects Fund revenues and other financing sources exceeded expenditures and other financing uses by \$3,226,338 resulting in a remaining fund balance of \$4,659,855 at June 30, 2019. The fund balance mostly represents the unexpended local share of capital projects approved by the Board.

Proprietary Funds

The District maintains an Enterprise Fund to account for activities, which are supported in part through user fees.

Enterprise Funds - The District uses Enterprise Funds to report activities related to the Food Services and 1 to 1 Initiative (Laptop Insurance) Programs. The District's Enterprise Funds provide the same type of information found in the district-wide financial statements, business-type activities, but in more detail. Factors concerning the finances of these Funds have already been addressed in the discussion of the District's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to New Jersey Department of Education guidelines, and is based on accounting for certain transactions on the basis of cash receipts, disbursements and encumbrances. The most significant budgetary fund is the General Fund.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into two categories

- Implementing budgets for specially funded projects, which include both federal and State grants, and reinstating prior year purchase orders being carried over.
- Increases in appropriations for the funding of capital projects approved in the Long-Range Facilities Plan.

CAPITAL ASSETS

The District's investment in capital assets for its governmental and business type activities as of June 30, 2019 amounts to \$59,865,608 (net of accumulated depreciation). The capital assets consist of land, land improvements, construction in progress, buildings, building improvements, computers, specialized machinery and various other types of equipment. Depreciation charges for fiscal year 2018-2019 amounted to \$2,418,028 for governmental activities and \$11,314 for business-type activities.

Capital Assets at June 30, 2019 and 2018 (Net of Accumulated Depreciation)

Additional information on the District's capital assets are presented in the "Notes to the Financial Statements" of this report.

LONG TERM LIABILITIES

At year end, the District's long-term liabilities consisted of compensated absences payable of \$1,389,238, lease purchase obligations of \$1,207,050 and bonds payable of \$16,271,535 and net pension liability of \$11,226,839.

Additional information of the District's long-term liabilities is presented in the "Notes to the Financial Statements" of this report.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2019

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Currently, the District is in good financial condition. Everyone associated with Ramapo Indian Hills Regional High School is grateful for the community support.

The School Funding and Reform Act (SFRA) was enacted in 2008 and established a statewide, weighted student funding formula. For reasons beyond our control, the aid amount to Ramapo Indian Hills School District has been significantly under-funded since 2011-12. If the district were to receive its full share of funding under the formula in 2018-19, it would be entitled to receive state categorical aid in the amount of \$3,146,112. Instead, the district received \$1,824,745. In addition, the district did not receive its full share of funding for excess special education costs through the State of New Jersey's extraordinary aid program. The total excess costs included in the district's extraordinary aid application were \$689,630. The District received funding in the amount of \$404,655. With respect to the categorical state aid and extraordinary aid, the district is being underfunded by the State in the amount of \$1,606,342. This shortfall is thereby absorbed by the taxpayers in all 3 communities and magnifies the over-reliance on property taxes to fund our local schools.

Many factors were considered by the District's administration during the process of developing the fiscal year 2018-2019 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs.

These indicators were considered when adopting the budget for fiscal year 2019-2020. Budgeted expenditures in the General Fund increased 8 percent to \$58,022,810 for fiscal year 2019-2020.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information contact the School Business Administrator, Ramapo Indian Hills Regional High School, 131 Yawpo Avenue, Oakland, NJ 07436.

RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES WITH THE DISTRICT-WIDE STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2019

\$ 2,469,835 Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2) Amounts reported for governmental activities in the statement of activities are different because: Capital outlay to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are allocated over their estimated useful lives as annual depreciation expense. \$ 1.842.978 Capital Outlay Depreciation Expense (2,418,028)(575,050)The issuance of long-term debt provides current financial resources to governmental funds while the repayment of principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Additionally, governmental funds report the effect of premiums, discounts and similar items when the debt is issued, whereas these amounts are deferred and amortized in the statement of activities. Principal Repayments: 1,100,000 General Obligations Bonds Lease Purchase Agreements 673,976 1,773,976 In the statement of activities, costs related to the issuance of long term debt are deferred and amortized over the term of the debt. In the governmental funds, the issuance costs are reported upon issuance of the debt. This amount represents the current year amortization of the costs related to the issuance of long term debt in previous years. Deferred Amount on Refunding of Debt (72,613)Original Issue Premium 27,494 (45,119)In the statement of activities, certain operating expenses - compensated absences and pension expense - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid): Net Increase in Compensated Absences (516,415)Increase in Pension Expense (40,423)(556,838)In the Statement of Activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The decrease in accrued interest is an addition in the reconciliation. 2,291 Change in Net Position of Governmental Activities (Exhibit A-2) 3,069,095

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Ramapo Indian Hills Regional High School District (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of nine elected officials from the Boroughs of Franklin Lakes and Oakland, and from the Township of Wyckoff. The Board is responsible for the fiscal control of the District. A superintendent of schools is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Ramapo Indian Hills Regional High School District this includes general operations, food service, 1 to 1 initiative for laptop initiative and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

B. New Accounting Standards

During fiscal year 2019, the District adopted the following GASB statements as required:

• GASB No. 88, Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement will improve financial reporting by providing users of financial statements with essential information that currently is not consistency provided. In addition, information about resources to liquidate debt and the risks associated with changes in terms association with debt will be disclosed.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

• GASB No. 84, *Fiduciary Activities*, will be effective with the fiscal year ending June 30, 2020. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement established criteria for identifying fiduciary activities of all state and local governments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. New Accounting Standards (Continued)

- GASB No. 87, *Leases*, will be effective with the fiscal year ending June 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.
- GASB No. 89, Accounting for Interest Costs Incurred Before the End of a Construction Period, will be effective beginning with the fiscal year ending June 30, 2020. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

C. Basis of Presentation - Financial Statements

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the District's enterprise funds. Fiduciary funds are excluded from the district-wide financial statements.

District-Wide Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation - Financial Statements (Continued)

Fund Financial Statements

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and the food service enterprise funds to be major funds.

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects and the child nutrition programs.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

The District reports the following non-major proprietary fund which is organized to be self-supporting through user charges:

The 1 to 1 initiative (laptop insurance program) fund accounts for the non-refundable deposits charged to students to repair and replenish the District's laptop computers provided to students as part of the 1 to 1 technology initiative program.

Additionally, the government reports the following fund types:

The *fiduciary trust funds* are used to account for resources legally held in trust for state unemployment insurance claims and for private donations for scholarship awards. All resources of the funds, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Basis of Presentation - Financial Statements</u> (Continued)

Fund Financial Statements (Continued)

The *fiduciary agency funds* account for assets held by the District as an agent for student activities and for payroll deductions and withholdings. The funds for the student activities fund are solely for noninstructional student activities that are supported and controlled by student organizations and clubs for which school administration does not have management involvement. The payroll funds are held to remit employee withholdings to respective state, federal and other agencies.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

Reclassifications

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting (Continued)

Property taxes, tuition, transportation fees, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

2. Receivables

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

3. Inventories

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

4. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

4. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

Assets	<u>Years</u>
Improvements Other than Buildings	20
Buildings	45
Building Improvements	20
Heavy Equipment	10
Office Equipment and Furniture	10
Computer Equipment	5

5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Board has two items which arise only under the accrual basis of accounting that qualify for reporting in this category. One item is the deferred amount on refunding of debt which results from the loss on a debt refunding reported in the district-wide statement of net position. Deferred amounts on debt refunding result from the loss on the transaction when the debt's reacquisition price is greater than the carrying value of the refunded debt. These amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. These amounts are deferred and amortized over future years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one type which arise only under the accrual basis of accounting that qualify for reporting in this category. The item that qualifies for reporting in this category are the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; and (4) changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized over future years.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

6. Compensated Absences

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused vacation, personal, and sick leave benefits. A long-term liability of accumulated vacation, personal and sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds do not permit the accrual of unused vacation and sick leave. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

7. Pensions

In the district-wide financial statements and proprietary fund types in the fund financial statements, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems sponsored and administered by the State of New Jersey and additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In the governmental fund financial statements, net pension liabilities represent amounts normally expected to be liquidated with expendable available financial resources for required pension contributions that are due and payable at year end. Pension expenditures are recognized based on contractual pension contributions that are required to be made to the pension plan during the fiscal year.

8. Long-Term Obligations

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Gains resulting from debt refundings are classified as deferred inflows of resources and losses are reported as deferred outflows of resources. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Gains and losses resulting from debt refundings are also deferred and amortized over the life of the refunded bonds or new bonds whichever is less using the effective interest method. Bonds payable are reported with the unamortized bond premium or discount. Bond issuance costs (other than for prepaid insurance) are treated as an expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)
- 9. Net Position/Fund Balance

District-Wide Statements

In the district-wide statements, there are three classes of net position:

- Net Investment in Capital Assets consists of net capital assets (cost less accumulated depreciation) reduced by
 outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets.
 Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or
 improvement of those assets or related debt also should be included.
- Restricted Net Position reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position any portion of net position not already classified as either net investment in capital assets or net position restricted is classified as net position unrestricted.

Governmental Fund Statements

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

<u>Restricted Fund Balance</u> – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Excess Surplus</u> – This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2019 audited excess surplus that is required to be appropriated in the 2020/2021 original budget certified for taxes.

<u>Excess Surplus – Designated for Subsequent Year's Budget</u> - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2018 audited excess surplus that was appropriated in the 2019/2020 original budget certified for taxes.

<u>Capital Reserve</u> – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 3b).

<u>Capital Reserve - Designated for Subsequent Year's Budget</u> - This designation was created to dedicate the portion of capital reserve fund balance appropriated in the adopted 2019/2020 District budget certified for taxes.

<u>Maintenance Reserve</u> – This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education. (See Note 3c).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)
- 9. Net Position/Fund Balance (Continued)

Governmental Fund Statements (Continued)

Restricted Fund Balance (Continued)

<u>Maintenance Reserve - Designated for Subsequent Year's Budget</u> – This designation was created to dedicate the portion of maintenance reserve fund balance appropriated in the adopted 2019/2020 District budget certified for taxes.

<u>Emergency Reserve</u> – This restriction was created in accordance with NJAC 6A:23A-14.4(A)1 to accumulate funds in accordance with State statute to finance unanticipated general fund expenditures required for a thorough and efficient education. (See Note3d).

<u>Capital Projects</u> – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

<u>Committed Fund Balance</u> – Amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

<u>Encumbrances</u> – Represents outstanding purchase orders at year end for contracts awarded by formal action of the Board of Trustee's for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

<u>Assigned Fund Balance</u> – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

<u>Encumbrances</u> – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

<u>Designated for Subsequent Year's Budget</u> – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2019/2020 District budget certified for taxes.

<u>Unassigned Fund Balance</u> – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

In the general operating fund and other governmental funds (capital projects and debt service fund types), it is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted (i.e., committed, assigned or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the government that can, by adoption of a resolution or formal Board action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the School Business Administrator/Board Secretary to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

F. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, investment earnings and miscellaneous revenues.

2. Property Taxes

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1st in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

3. Tuition Revenues and Expenditures

<u>Tuition Revenues</u> - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

<u>Tuition Expenditures</u> - Tuition charges for the fiscal years 2017-2018 and 2018-2019 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Revenues and Expenditures/Expenses (Continued)

4. Proprietary Funds, Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund and of the 1 to 1 initiative laptop insurance program enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 2 RECONCILIATION OF DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the district-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position—governmental activities as reported in the district-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details are as follows:

Bonds Payable	\$ 16,130,000
Issuance Premium (to be amortized as	
interest expense)	141,535
Lease Purchase Obligations	1,207,050
Compensated Absences	1,389,238
Net Pension Liability	11,226,839
Deferred Outflows of Resources - Net Pension Liability	(2,564,536)
Deffered Inflows of Resources - Net Pension Liability	4,516,169
Net Adjustment to Reduce Fund Balance - Total Governmental	
Funds to arrive at Net Position - Governmental Activities	\$ 32,046,295

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

In accordance with the requirements of the New Jersey Department of Education ("the Department"), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

A. Budgetary Information (Continued)

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent for review and approval prior to adoption. Prior to the 2012/2013 budget year, the annual budget was required to be voted upon at the annual school election held on the third Tuesday in April. On January 17, 2012, Chapter 202 of the Laws of P.L. 2011 was approved which established procedures for moving the date of a school district's annual school election from April to the general election in November. Under the new law, districts that have their school board members elected in November no longer have to submit their budgets that meet levy cap requirements for voter approval beginning with the 2012/2013 budget year. Only a school board decision to exceed the tax levy cap would require voter approval for the additional amount on the November ballot. On February 15, 2012, the Board adopted a resolution to move its annual election to the date of the general elections in accordance with the law; therefore voter approval of the annual budget is not required.

Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2018/2019. Also, during 2018/2019 the Board increased the original General Fund budget by \$5,811,597 and the Special Revenue budget by \$358,768. The increase was funded by additional surplus appropriated, grant awards and the reappropriation of prior year general fund encumbrances.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

B. Capital Reserve

A capital reserve account was established by the District. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2019 is as follows:

Balance, July 1, 2018		\$ 15,541,608
Increased by		
Interest Earnings	\$ 248,00)3
Return of Unexpended Funding from Capital Projects Fund	153,33	58
Deposits Approved by Board Resolution	3,581,2	12
Total Increases		3,982,573
		19,524,181
Withdrawals		
Approved by Board Resolutions		4,670,000
Balance, June 30, 2019		\$ 14,854,181

The withdrawals from the capital reserve were for use in a department approved facilities project, consistent with the district's Long Range Facilities Plan. \$3,100,000 of the capital reserve balance at June 30, 2019 was designated and appropriated for use in the 2019/2020 original budget certified for taxes.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

C. Maintenance Reserve

A maintenance reserve account was established by the District. The accumulation of funds will be used for required maintenance of school facilities expenditures in subsequent fiscal years. The maintenance reserve is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the maintenance reserve are restricted to required maintenance activities for a school facility as reported in the comprehensive maintenance plan. A District may appropriate funds into the maintenance reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the reserve cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the fiscal year ended June 30, 2019 is as follows:

Balance, July 1, 2018	\$ 4,142,713
Increased by Interest earnings	76,275
Balance, June 30, 2019	\$ 4,218,988

The June 30, 2019 comprehensive maintenance plan indicated a maximum maintenance reserve amount of \$5,609,547. The withdrawals from the maintenance reserve were for use in required maintenance activities for school facilities. \$250,000 of the maintenance reserve balance at June 30, 2019 was designated and appropriated for use in the 2019/2020 original budget certified for taxes.

D. Emergency Reserve

An emergency reserve account was established by the District. The accumulation of funds will be used to finance unanticipated General Fund current expenditures required for a thorough and efficient education in subsequent fiscal years.

Funds placed in the emergency reserve are restricted to finance reasonably unforeseeable costs and shall not include additional costs due to poor planning. A District may appropriate funds into the emergency reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of four percent or the withdrawal is included in the original budget certified for taxes to finance school security improvements to school facilities pursuant to 18A:7G-6(c)1. Pursuant to NJAC 6A:23A-14.4(A), the balance in the reserve cannot at any time exceed the greater of \$250,000 or one percent of the school district's General Fund budget as certified for taxes up to a maximum of \$1,000,000.

The activity of the emergency reserve for the fiscal year ended June 30, 2019 is as follows:

Balance, July 1, 2018	\$ 482,170
Increased by Interest Earnings	 8,317
Balance, June 30, 2019	\$ 490,487

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

E. Transfers to Capital Outlay

During the 2018/2019 school year, the district transferred \$4,670,000 to the Capital Projects Fund. The transfer was made from the capital reserve account to provide resources for various capital projects approved by the Board.

F. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund fund balance in excess of 2% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The excess fund balance at June 30, 2019 is \$2,000,000. Of this amount, \$1,000,000 was designated and appropriated in the 2019/2020 original budget certified for taxes and the remaining amount of \$1,000,000 will be appropriated in the 2020/2021 original budget certified for taxes.

NOTE 4 DETAILED NOTES ON ALL FUNDS

A. Cash Deposits and Investments

Cash Deposits

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), National Credit Union Share Insurance Fund (NCUSIF), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC and NCUSIF.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. NCUSIF insures credit union accounts up to \$250,000 in the aggregate for each financial institution. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2019, the book value of the Board's deposits were \$31,786,480 and bank and brokerage firm balances of the Board's deposits amounted to \$34,801,847. The Board's deposits which are displayed on the various fund balance sheets as "cash" are categorized as:

Depository Account

Insured	\$ 26,074,492
Uninsured and Collateralized	
Collateral held by pledging financial institution's trust	
department not in the Board's name	8,705,077
Cash with Fiscal Agent	 22,278
	\$ 34,801,847

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

A. Cash Deposits and Investments (Continued)

Cash Deposits (Continued)

<u>Custodial Credit Risk – Deposits</u> – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2019 the Board's bank balance of \$8,727,355 was exposed to custodial credit risk as follows:

Depository Account

Uninsured and Collateralized
Collateral held by pledging financial institution's trust department
not in the Board's name

\$ 8,727,355

Investments

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America; Government Money Market Mutual Funds; any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligations bear a fixed rate of interest not dependent on any index or other external factor; bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located; Bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the "Local Authorities Fiscal Control Law," (C.40A:5A-1 et seq.); Other bonds or obligations having a maturity date not more than 397 days from the date of purchase may be approved by the Division of Investment in the Department of the Treasury for investment by school districts; Local Government investment pools; deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4); and agreements for the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2019, the Board had no outstanding investments.

<u>Interest Rate Risk</u> – The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit Risk</u> – State law limits investments as noted above (N.J.S.A. 18A:20-37). The District does not have an investment policy that would further limit its investment choices.

Concentration of Credit Risk – The Board places no limit in the amount the District may invest in any one issuer.

Investment and interest earnings in the Capital Projects Fund are assigned to the General Fund in accordance with Board policy.

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

B. Receivables

Receivables as of June 30, 2019 for the district's individual major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>(</u>	<u>General</u>	Special <u>Revenue</u>	Capital Projects	<u>Total</u>
Receivables:					
Accounts	\$	97,241			\$ 97,241
Intergovernmental					
State		54,127		\$ 24,095	78,222
Federal		-	\$ 72,716	 	 72,716

Uncollectibles		-	_	-	_
Net Total Receivables	\$	151,368	\$ 72,716	\$ 24,095	\$ 248,179

C. Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue reported in the governmental funds were as follows:

General Fund	
Tuition Received in Advance	\$ 6,334
Special Revenue Fund	
Unencumbered Grant Draw Downs	116,867
Capital Projects Fund	
Unrealized School Facilities Grants	11,347
Total Unearned Revenue for Governmental Funds	\$ 134,548

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

Construction and Other Significant Commitments

The District has the following active construction projects as of June 30, 2019:

Project Title/Description	<u>.</u>	Spent-to-Date	Con	maining nmitment e 30, 2019
Capital Projects Fund Visitors Bleachers Replacement Project - IHHS Visitors Bleachers Replacement Project - RHS Bathroom Renovations - IHHS	\$	1,319,294 488,094 30,647	\$	26,924 15,361 132,353
			\$	174,638

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

E. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2019, is as follows:

Due To/From Other Funds

Receivable Fund	Payable Fund	Amount
General Fund General Fund	Student Activity Fund Payroll Agency Fund	\$ 114 1,146
		\$ 1,260

The above balances are the result of revenues earned or other financing sources received in one fund which are due to another fund and/or expenditures paid by one fund on behalf of another fund and/or to cover cash balances which were in an overdraft position.

The District expects all interfund balances to be liquidated within one year.

Interfund Transfers

	<u>Transfer In</u>					
		General		Capital		
		<u>Fund</u>	Pr	ojects Fund		<u>Total</u>
Transfer Out: General Fund			\$	5,020,000	\$	5,020,000

Total Transfers Out	\$	278,795	\$	5,020,000	\$	5,298,795

The above transfers are the result of revenues earned and/or other financing sources received in one fund to finance expenditures in another fund.

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

F. Leases

Operating Leases

The District leases copiers under noncancelable operating leases. Lease payments for the fiscal year ended June 30, 2019 were \$42,485. The future minimum lease payments for these operating leases are as follows:

Fiscal Year Ending June 30	Ī	Amount
2020	\$	44,382
2021		44,382
2022		44,382
2023		44,382
2024		29,588
Total	\$	207,116

Capital Leases

The District is leasing computer supplies totaling \$3,816,896 under capital leases. The leases are for terms of 3 to 5 years.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2019 were as follows:

Fiscal Year Ending June 30	Governmental <u>Activities</u>
2020 2021	\$ 673,975 533,075
Total minimum lease payments	\$ 1,207,050

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

G. Long-Term Debt

General Obligation Bonds

The Board issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities and other capital assets and other purposes permitted by statute. The full faith and credit of the Board are irrevocably pledged for the payment of the principal of the bonds and the interest thereon.

Bonds payable at June 30, 2019 are comprised of the following issues:

\$20,775,000, 2015 School Refunding Bonds, due in annual installments of \$1,130,000 to \$1,615,000 through June 1, 2031, interest at 2.50% to 3.00%

\$16,130,000

The Board's schedule of principal and interest for long-term debt issued and outstanding is as follows:

Governmental Activities:

Fiscal						
Year Ending		Serial Bonds				
<u>June 30,</u>		<u>Principal</u>		Interest		<u>Total</u>
2020	\$	1,130,000	\$	437,300	\$	1,567,300
2021		1,150,000		409,050		1,559,050
2022		1,190,000		380,300		1,570,300
2023		1,225,000		350,550		1,575,550
2024		1,270,000		319,925		1,589,925
2025-2029		6,995,000		1,088,825		8,083,825
2030-2031		3,170,000		143,550		3,313,550
Total	<u>\$</u>	16,130,000		3,129,500	<u>\$</u>	19,259,500

Statutory Borrowing Power

The Board's remaining borrowing power under N.J.S. 18A:24-19, as amended, at June 30, 2019 was as follows:

3% of Equalized Valuation Basis (Municipal)	\$ 345,122,441
Less: Net Debt	16,130,000
Remaining Borrowing Power	\$ 328,992,441

NOTE 4 DETAILED NOTES ON ALL FUNDS (Continued)

H. Other Long-Term Liabilities

Changes in Long-Term Liabilities

Long-term liability activity for the fiscal year ended June 30, 2019, was as follows:

					Due	
	Balance,			Balance,	Within	
	July 1, 2018	Additions	Reductions	June 30, 2019	One Year	
Governmental Activities:						
Bonds Payable	\$ 17,230,000		\$ (1,100,000)	\$ 16,130,000	\$ 1,130,000	
Add:						
Unamortized Premium	169,029		(27,494)	141,535	-	
Total Bonds Payable	17,399,029	-	(1,127,494)	16,271,535	1,130,000	
Lease Purchase Obligations	1,881,026		(673,976)	1,207,050	673,975	
Compensated Absences	872,823	\$ 516,415		1,389,238		
Net Pension Liability	13,938,824		(2,711,985)	11,226,839	<u></u>	
Governmental Activities						
Long-Term Liabilities	\$ 34,091,702	\$ 516,415	\$ (4,513,455)	\$ 30,094,662	\$ 1,803,975	

For the governmental activities, the liabilities for compensated absences, lease purchase obligations and net pension liability are generally liquidated by the general fund.

NOTE 5 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District is a member of the Northeast Bergen County School Board Insurance Group (NESBIG or Group). The Group is a risk sharing public entity pool, established for the purpose of insuring against worker's compensation claims.

The relationship between the Board and the insurance fund is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The Board is contractually obligated to make all annual and supplementary contributions to the fund, to report claims on a timely basis, cooperate with the management of the fund, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by the fund. Members have a contractual obligation to fund any deficit of the fund attributable to a membership year during which they were a member.

NOTE 5 OTHER INFORMATION (Continued)

A. Risk Management (Continued)

NESBIG provides its members with risk management services, including the defense of and settlement of claims and to establish reasonable and necessary loss reduction and prevention procedures to be followed by the members. Complete financial statements of the insurance fund are on file with the School's Business Administrator.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

Fiscal							
Year Ended	District	Employee Contributions		Amount Reimbursed		Ending <u>Balance</u>	
<u>June 30,</u>	Contributions						
2019	None	\$	61,282	\$	61,061	\$	975,077
2018	None		57,866		35,725		958,492
2017	None		56,123		39,595		927,395
201/	HOHE		20,123		37,373		

B. Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

<u>Federal and State Awards</u> – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2019, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

C. Federal Arbitrage Regulations

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2019, the District has not estimated its arbitrage earnings due to the IRS, if any.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans

Plan Descriptions and Benefits Provided

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all eligible Board employees who are eligible for pension coverage:

Public Employees' Retirement System (PERS) – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees. PERS is a cost sharing multiple employer defined benefit pension plan. For additional information about PERS, please refer to the State Division of Pension and Benefits (Division's) Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

Tier	Definition		
1	Members who were enrolled prior to July 1, 2007		
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008		
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010		
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011		
5	Members who were eligible to enroll on or after June 28, 2011		

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reached age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, tier 3 and 4 members with 25 or more years of service credit before age 62, and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least ten years of service credit and have not reached the service retirement age for the respective tier.

Teachers' Pension and Annuity Fund (TPAF) – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees. TPAF is a cost sharing multiple- employer defined benefit pension plan with a special funding situation, by which the State is responsible to fund 100% of local employer contributions, excluding any local employer early retirement incentive (ERI) contributions. For additional information about TPAF, please refer to the State Division of Pension and Benefits (Division's) Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Teachers' Pension and Annuity Fund (TPAF) (Continued)

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represent the membership tiers for TPAF:

Tier	Definition		
1	Members who were enrolled prior to July 1, 2007		
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008		
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010		
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011		
5	Members who were eligible to enroll on or after June 28, 2011		

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reached age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, tier 3 and 4 members with 25 or more years of service credit before age 62, and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement for his/her respective tier. Deferred retirement is available to members who have at least ten years of service credit and have not reached the service retirement age for the respective tier.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

Defined Contribution Retirement Program (DCRP) – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected and certain appointed officials, effective July 1, 2007 and employees enrolled in PERS on or after July 1, 2007 who earn in excess of established annual maximum compensation limits (equivalent to annual maximum wage for social security deductions). This provision was extended by Chapter 1, P.L. 2010, effective May 21, 2010, to new employees (Tier 2) of the PFRS and new employees who would otherwise be eligible to participate in PERS and do not earn the minimum salary required or do not work the minimum required hours but earn a base salary of at least \$5,000 are eligible for participation in the DCRP. Membership is mandatory for such individuals with vesting occurring after one (1) year of membership. DCRP is a defined contribution pension plan.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Other Pension Funds

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits ("Division"), issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Plan Amendments

The authority to amend the provisions of the above plans rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for TPAF and PERS, once a Target Funded Ratio (TFR) is met. The Pension Plan Design Committees will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation of final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committees will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a 30-year projection period.

Measurement Focus and Basis of Accounting

The financial statements of the retirement systems are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the pension trust funds. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Investment Valuation

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of the retirement systems. Prudential retirement is the third-party administrator for the DCRP and provides record keeping, administrative services and investment options. Investment transactions are accounted for on a trade or investment date basis. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the exdividend date. The net increase or decrease in the fair value of investments includes the net realized and unrealized gains or losses on investments.

The State of New Jersey, Department of the Treasury, Division of Investment issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290 or at www.state.nj.us/treasury/doinvest.

Collective Net Pension Liability

The collective net pension liability of the participating employers for local PERS at June 30, 2018 is \$19.7 billion and the plan fiduciary net position as a percentage of the total pension liability is 53.60%. The collective net pension liability of the State funded TPAF at June 30, 2018 is \$63.81 billion and the plan fiduciary net position as a percentage of total pension liability is 26.49%.

The total pension liabilities were determined based on actuarial valuations as of July 1, 2017 which were rolled forward to June 30, 2018.

Actuarial Methods and Assumptions

In the July 1, 2017 PERS and TPAF actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary's report and are included here in this note to the financial statements. The pension systems selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 68. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

Employer and Employee Pension Contributions

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan members and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.50% for PERS, 7.50% for TPAF and 5.50% for DCRP of the employee's annual compensation for fiscal year 2019.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Employer and Employee Pension Contributions (Continued)

PERS employers' and TPAF State's nonemployer contributions are based on actuarially determined amounts, which include the normal cost and unfunded accrued liability. For the fiscal year ended June 30, 2019 for TPAF, which is a cost sharing multiple employer defined benefit pension plan with a special funding situation, the State's annual pension contribution was less than this actuarial determined amount. For PERS, which is a cost sharing multiple employer defined benefit pension plan, the annual pension contributions were equal to the actuarial determined amounts. TPAF nonemployer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution. All PERS and DCRP contributions made by the Board for fiscal years 2019, 2018 and 2017 were equal to the required contributions.

During the fiscal years ended June 30, 2019, 2018 and 2017 the Board was required to contribute for PERS and DCRP and the State of New Jersey, as a nonemployer contributing entity, contributed for TPAF, respectively for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Fiscal Year Ended		(On-behalf	
<u>June 30,</u>	<u>PERS</u>		<u>TPAF</u>	<u>DCRP</u>
2019	\$ 567,159	\$	3,606,894	\$ 23,246
2018	554,713		2,770,085	24,983
2017	507,275		2,061,113	10,952

In addition for fiscal years 2019, 2018 and 2017 the District contributed \$2,628, \$9,264 and \$2,994, respectively for PERS and the State contributed \$3,624, \$4,218 and \$4,577 respectively for TPAF for Long Term Disability Insurance Premium (LTDI).

The PERS contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure. The on-behalf TPAF contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB Statement No. 85, *Omnibus 2017* (GASB No. 85). The DCRP contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure, as well as, the district-wide financial statements (accrual basis) as an expense.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$1,540,212 during the fiscal year ended June 30, 2019 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been recognized in the district-wide financial statements (accrual basis) and the governmental fund financial statements (modified accrual basis) as a revenue and expense/expenditure in accordance with GASB No. 85.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employees Retirement System (PERS)

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, (GASB No. 68) requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The employer allocation percentages presented are based on the ratio of the contributions as an individual employer to total contributions to the PERS during the measurement period July 1, 2017 through June 30, 2018. Employer allocation percentages have been rounded for presentation purposes.

Although the NJ Division of Pensions and Benefits ("Division") administers one cost-sharing multiple employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages are presented for each group. The allocation percentages for each group as of June 30, 2018 are based on the ratio of each employer's contribution to total employer contributions of the group for the fiscal year ended June 30, 2018.

At June 30, 2019, the District reported in the statement of net position (accrual basis) a liability of \$11,226,839 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating governmental entities, actuarially determined. At June 30, 2018, the District's proportionate share was .05702 percent, which was a decrease of 0.00285 percent from its proportionate share measured as of June 30, 2017 of 0.05987 percent.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Public Employees Retirement System (PERS) (Continued)

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$607,582 for PERS. The pension contribution made by the District during the current 2018/2019 fiscal year is the contribution that is applied to the net pension liability reported at the end of the current fiscal year of June 30, 2019 with a measurement date of the prior fiscal year end of June 30, 2018. Since the State of New Jersey applies the current year pension contribution towards the calculation of the net pension liability reported at the end of the current fiscal year, which has a measurement date of the preceding fiscal year end, there is no deferred outflows of resources reported as of June 30, 2019 for contributions made subsequent to the measurement date. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to PERS pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference Between Expected and				
Actual Experience	\$	214,098	\$	57,889
Changes of Assumptions		1,849,997		3,589,746
Net Difference Between Projected and Actual				
Earnings on Pension Plan Investments				105,308
Changes in Proportion and Differences Between				
Township Contributions and Proportionate Share				
of Contributions		500,441		763,226
	-			
Total	\$	2,564,536	\$	4,516,169

At June 30, 2019, the amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pension will be recognized in pension expense as follows:

Year	
Ending	
<u>June 30,</u>	<u>Total</u>
2019	\$ 71,042
2020	(166,000)
2021	(834,898)
2022	(733,751)
2023	(288,026)
Thereafter	 _
	\$ (1,951,633)

Actuarial Assumptions

The District's total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate

2.25%

Salary Increases:

Through 2026

1.65-4.15%

Based on Age

Thereafter

2.65-5.15%

Based on Age

Investment Rate of Return

7.00%

Mortality Rate Table

RP-2000

Assumptions for mortality improvements are based on Society of Actuaries Scale AA.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources **Related to Pensions (Continued)**

Public Employees Retirement System (PERS) (Continued)

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and actuaries. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2018 are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Risk Mitigation Strategies	5.00%	5.51%
Cash Equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%
Investment Grade Credit	10.00%	3.78%
US Equities	30.00%	8.19%
Non-US Developed Markets Equity	11.50%	9.00%
Emerging Market Equities	6.50%	11.64%
High Yield	2.50%	6.82%
Global Diversified Credit	5.00%	7.10%
Credit Oriented Hedge Funds	1.00%	6.60%
Debt Related Private Equity	2.00%	10.63%
Debt Related Real Estate	1.00%	6.61%
Private Real Estate	2.50%	11.83%
Equity Related Real Estate	6.25%	9.23%
Buyouts/Venture Capital	8.25%	13.08%

Discount Rate

The discount rate used to measure the total pension liabilities of the PERS plan was as follows:

Fiscal

<u>Year</u>	Measurement Date	Discount Rate
2019	June 30, 2018	5.66%
2018	June 30, 2017	5.00%

NOTE 5 OTHER INFORMATION (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Public Employees Retirement System (PERS) (Continued)

Discount Rate (Continued)

The following table represents the crossover period, if applicable, for the PERS defined benefit plan:

Period of Projected Benefit

Payments for which the Following

Rates were Applied:

Long-Term Expected Rate of Return

Through June 30, 2046

Municipal Bond Rate *

From July 1, 2046 and Thereafter

Sensitivity of Net Pension Liability

The following presents the District's proportionate share of the PERS net pension liability calculated using the discount rate of 5.66%, as well as what the District's proportionate share of the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.66 percent) or 1-percentage-point higher (6.66 percent) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
2018	(4.66%)	(5.66%)	(6.66%)
District's Proportionate Share of the PERS Net Pension Liability	\$ 14,116,456	\$ 11,226,839	\$ 8,802,635

The sensitivity analysis was based on the proportionate share of the District's net pension liability at June 30, 2018. A sensitivity analysis specific to the District's net pension liability at June 30, 2018 was not provided by the pension system.

Pension Plan Fiduciary Net Position

Detailed information about the PERS pension plan's fiduciary net position is available in the separately issued financial report from the State of New Jersey, Department of the Treasury, Division of Pension and Benefits. The financial report may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

^{*} The municipal bond return rate used is 3.87% as of the measurement date of June 30, 2018. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

NOTE 5 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Teachers Pension and Annuity Fund (TPAF)

GASB No. 68, requires participating employers in TPAF to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The non-employer allocation percentages presented are based on the ratio of the State's contributions made as an employee and non-employer adjusted for unpaid early retirement incentives to total contributions to TPAF during the fiscal year ended June 30, 2018. Non-employer allocation percentages have been rounded for presentation purposes.

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and non-employer contributions by the State. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For the fiscal year ended June 30, 2018, the State's pension contribution was less than the actuarial determined amount.

In accordance with GASB No. 68, the District is not required to recognize a net pension liability for TPAF. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 68 is zero percent and the State's proportionate share is 100% of the net pension liability attributable to the District for TPAF. Therefore, in addition, the District does not recognize any portion of the TPAF collective deferred outflows of resources and deferred inflows of resources.

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$6,810,869 for TPAF. This amount has been included in the district-wide statement of activities (accrual basis) as both a revenue and expense in accordance with GASB No. 85.

At June 30, 2019 the State's proportionate share of the net pension liability attributable to the District is \$116,831,527. The nonemployer allocation percentages are based on the ratio of the State's contributions made as an employer and nonemployer adjusted for unpaid early retirement incentives to total contributions to TPAF during the year ended June 30, 2018. At June 30, 2018, the State's share of the net pension liability attributable to the District was 0.18364 percent, which was an increase of 0.00040 percent from its proportionate share measured as of June 30, 2017 of 0.18324 percent.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Teachers Pension and Annuity Fund (TPAF) (Continued)

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate 2.25%

Salary Increases:

2011-2026 1.55-4.55%

Thereafter 2.00-5.45%

Investment Rate of Return 7.00%

Mortality Rate Table RP-2006

Assumptions for mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational bases based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Discount Rate

The discount rate used to measure the total pension liabilities of the TPAF plan was as follows:

Fiscal <u>Year</u>	Measurement Date	Discount Rate
2019	June 30, 2018	4.86%
2018	June 30, 2017	4.25%

The following table represents the crossover period, if applicable, for the TPAF defined benefit plan:

Period of Projected Benefit

Payments for which the Following

Rates were Applied:

Long-Term Expected Rate of Return Through June 30, 2040

Municipal Bond Rate * From July 1, 2040 and Thereafter

Sensitivity of Net Pension Liability

The following presents the State's proportionate share of the TPAF net pension liability attributable to the District calculated using the discount rate of 4.86%, as well as what the State's proportionate share of the TPAF net pension liability attributable to the District that would be if it were calculated using a discount rate that is 1-percentage-point lower 3.86 percent) or 1-percentage-point higher (5.86 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	<u>(3.86%)</u>	<u>(4.86%)</u>	<u>(5.86%)</u>
State's Proportionate Share of			
the TPAF Net Pension Liability			
Attributable to the District	\$ 138,799,519	\$ 116,831,527	\$ 98,734,200

The sensitivity analysis was based on the State's proportionate share of the net pension liability attributable to the District at June 30, 2018. A sensitivity analysis specific to the State's proportionate share of the net pension liability attributable to the District at June 30, 2018 was not provided by the pension system.

^{*} The municipal bond return rate used is 3.87% as of the measurement date of June 30, 2018. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Pension Plan Fiduciary Net Position

Detailed information about the TPAF pension plan's fiduciary net position is available in the separately issued financial report from the State of New Jersey, Department of the Treasury, Division of Pension and Benefits. The financial report may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

E. Post-Retirement Medical Benefits

The State of New Jersey sponsors and administers the post-retirement health benefit program plan for school districts.

As a result of implementing GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other than Pension Plans, the post-retirement health benefit program plan is reported in an Agency Fund in the New Jersey Comprehensive Annual Financial Report effective for the fiscal year ended June 30, 2018. Therefore, the plan has no assets accumulated in a trust. In accordance with GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pension (GASB No. 75), the plan is classified as a single employer defined benefit OPEB plan with a special funding situation that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75.

Plan Description and Benefits Provided

The State of New Jersey sponsors and administers the following post-retirement health benefit program plan covering certain local school district employees, including those Board employees and retirees eligible for coverage.

State Health Benefit Program Fund – Local Education Retired Employees Plan (including Prescription Drug Program Fund) – N.J.S.A. 52:14-17.32f provides medical coverage, prescription drug benefits and Medicare Part B reimbursement to qualified retired education employees and their covered dependents. The State of New Jersey provides employer-paid coverage to members of the TPAF who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of the PERS and Alternate Benefits Program (ABP) who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

NOTE 5 OTHER INFORMATION (Continued)

E. Post-Retirement Medical Benefits (Continued)

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Plan Membership

Membership of the defined benefit OPEB plan consisted of the following at June 30, 2017:

Active Plan Members	217,131
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	145,050
Inactive Plan Members Entitled to but not yet Receiving Benefits	
Total	362,181

Measurement Focus and Basis of Accounting

The financial statements of the post-employment health benefit plans are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the post-employment health benefit plans. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

Investment Valuation

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Collective Net OPEB Liability

The collective net OPEB liability of the State, as the non-employer contributing entity, of the plan at June 30, 2018 is \$46.1 billion, and the plan fiduciary net position as a percentage of the total OPEB liability is zero percent.

The total OPEB liabilities were determined based on actuarial valuations as of June 30, 2017 which were rolled forward to June 30, 2018.

NOTE 5 OTHER INFORMATION (Continued)

E. Post-Retirement Medical Benefits (Continued)

Actuarial Methods and Assumptions

In the June 30, 2017 OPEB actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary's report and are included here in this note to the financial statements. The Plan selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 75. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

Post-Retirement Medical Benefits Contributions

The funding policy of the OPEB plan is pay as you go basis; therefore, there is no prefunding of the liability. Contributions to pay for the health benefit premiums of participating employees in the OPEB plan are made by the State, as a non-employer contributing entity, under a special funding situation in accordance with State statutes as previously disclosed. The State as a non-employer contributing entity made contributions of \$1.23 billion to the OPEB plan in fiscal year 2018.

The State sets the contribution rate based on a pay as you go basis rather than the actuarial determined contribution an amount actuarially determined in accordance with the parameters of GASB Statement 75. The actuarial determined contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and any unfunded actuarial liabilities (or funding excess) of the plan using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the Plan. The State's contributions, as a nonemployer contributing entity, to the State Health Benefits Program Fund – Local Education Retired Employees Plan for retirees' post-retirement benefits on behalf of the School District for the fiscal years ended June 30, 2019, 2018 and 2017 were \$1,636,081, \$1,789,139 and \$1,717,376, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund – Local Education Retired Employees Plan for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey. The on-behalf OPEB contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB No. 85.

OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

GASB Statement No. 75 requires participating employers in the State Health Benefit Program Fund – Local Education Retired Employees Plan to recognize their proportionate share of the collective OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources and collective OPEB expense. The nonemployer allocation percentages presented are based on the ratio of the State's contributions made as a nonemployer toward the actuarially determined contribution amount to total contributions to the plan during the measurement period July 1, 2017 through June 30, 2018. Nonemployer allocation percentages have been rounded for presentation purposes.

In accordance with GASB No. 75, the District is not required to recognize an OPEB liability for the post-employment health benefit plan. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to the plan on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 75 is zero percent and the State's proportionate share is 100% of the OPEB liability attributable to the District. Therefore, in addition, the District does not recognize any portion of the collective deferred outflows of resources and deferred inflows of resources related to the plan.

NOTE 5 OTHER INFORMATION (Continued)

E. Post-Retirement Medical Benefits (Continued)

OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

For the fiscal year ended June 30, 2019, the District recognized in the district-wide statement of activities (accrual basis) OPEB expense of \$3,243,235. This amount has been included in the district-wide statement of activities (accrual basis) as a revenue and expense in accordance with GASB No. 85.

At June 30, 2019 the State's proportionate share of the OPEB liability attributable to the District is \$74,328,191. The nonemployer allocation percentages are based on the ratio of the State's proportionate share of the OPEB liability attributable to the District at June 30, 2018 to the total OPEB liability of the State Health Benefit Program Fund – Local Education Retired Employees Plan at June 30, 2018. At June 30, 2018, the state's share of the OPEB liability attributable to the District was 0.16119 percent, which was an increase of 0.00073 percent from its proportionate share measured as of June 30, 2017 of 0.16046 percent.

Actuarial Assumptions

The OPEB liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate 2.50%

Salary Increases *

Initial Fiscal Year Applied Through 2026

Rate 1.55% to 4.55% Rate Thereafter 2.00% to 5.45%

Mortality

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disable Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

Long-Term Rate of Return

1.00%

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the TPAF and PERS actuarial experience studies for the period July 1, 2012 to June 30, 2015 and July 1, 2011 to June 30, 2014, respectively.

Healthcare cost trend rates for pre-Medicare Preferred Provider Organization (PPO) medical benefits, this amount initially is 5.8 percent and decreases to a 5.0 percent long-term trend rate after eight years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5 percent. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8 percent and decreases to a 5.0 percent long-term trend rate after eight years. For prescription drug benefits, the initial trend rate is 8.0 percent and decreases to a 5.0 percent long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0 percent. This reflects the known underlying cost of the Part B premium. The Medicare Advantage trend rate is 4.5 percent and will continue in all future years.

^{*}Salary increases are based on the defined benefit plan that the individual is enrolled in and his or her year of service for TPAF or his or her age for PERS.

NOTE 5 OTHER INFORMATION (Continued)

E. Post-Retirement Medical Benefits (Continued)

OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Long-Term Expected Rate of Return

As the OPEB plan only invests in the State of New Jersey Cash Management Fund, the long-term expected rate of return on OPEB investments was based off the best-estimate ranges of future real rates of return (expected returns, net of OPEB plan investment expense and inflation) for cash equivalents, which is 1.00% as of June 30, 2018.

Discount Rate

The discount rate used to measure the total OPEB liabilities of the plan was as follows:

Fiscal <u>Year</u>	Measurement Date	Discount Rate
2019	June 30, 2018	3.87%
2018	June 30, 2017	3.58%

The discount rate represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Changes in the Total OPEB Liability

The change in the State's proportionate share of the OPEB liability attributable to the District for the fiscal year ended June 30, 2019 (measurement date June 30, 2018) is as follows:

Total OPEB

	Liability (State Share 100%)					
Balance, June 30, 2017 Measurement Date	\$	86,069,876				
Changes Recognized for the Fiscal Year:						
Service Cost		3,068,596				
Interest on the Total OPEB Liability		3,157,112				
Differences Between Expected and Actual Experience		(7,519,043)				
Changes of Assumptions		(8,529,532)				
Gross Benefit Payments		(1,987,509)				
Contributions from the Member		68,691				
Net Changes	\$	(11,741,685)				
Balance, June 30, 2018 Measurement Date	\$	74,328,191				

Changes of assumptions and other inputs reflect a change in the discount rate from 3.58 percent in 2017 to 3.87 percent in 2018.

The change in the total OPEB liability was based on the State's proportionate share of the OPEB liability attributable to the District at June 30, 2018. A change in the total OPEB liability specific to the State's proportionate share of the OPEB liability attributable to the District for the fiscal year ended June 30, 2018 was not provided by the pension system.

RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT GENERAL AND SPECIAL REVENUE FUNDS BUDGETARY COMPARISON SCHEDULES NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

		General <u>Fund</u>	Special Revenue <u>Fund</u>
Sources/inflows of resources			
Actual Revenues Budgetary Basis - Exhibits C-1 and C-2	\$	60,726,156	\$ 620,147
The State aid payments are recognized as revenue for budgetary purposes. This differs from GAAP which does not recognize this			
revenue until the subsequent year when the State recognizes the related expenditure.			
State Aid recognized for GAAP purposes not recognized for			
budgetary statements (2017/2018 Aid)		427,828	
State Aid recognized for budgetary purposes not			
recognized for GAAP statements (2018/2019 State Aid)		(540,144)	 -
Total Revenues as Reported on the Statement of Revenues, Expenditures			
and Changes in Fund Balances - Governmental Funds. (Exhibit B-2)	<u>\$</u>	60,613,840	\$ 620,147
Uses/outflows of resources			
Actual Expenditures Budgetary Basis - Exhibits C-1 and C-2	\$	56,629,138	\$ 620,147
Total Expenditures as Reported on the Statement of Revenues,			
Expenditures, and Changes in Fund Balances - Governmental Funds (Exhibit B-2)	\$	56,629,138	\$ 620,147

STATISTICAL SECTION

This part of the Ramapo Indian Hills Regional High School District's comprehensive annual financial repor presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Exhibits
Financial Trends	
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	J-1 to J-5
Revenue Capacity	
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	J-6 to J-9
Debt Capacity	
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	J-10 to J-13
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's finan-	

Operating Information

cial activities take place.

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs. J-16 to J-20

J-14 and J-15

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Beginning with Fiscal Year 2012, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This Statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Reclassification of prior year fund balance amounts to comply with Statement No. 54 is not required.

REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Ramapo Indian Hills Regional High School District Oakland, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of and for the fiscal year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Ramapo Indian Hills Regional High School District's basic financial statements and have issued our report thereon dated November 11, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Ramapo Indian Hills Regional High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control.

A <u>deficiency in internal control</u> exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A <u>material weakness</u> is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A <u>significant deficiency</u> is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Ramapo Indian Hills Regional High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u> and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Ramapo Indian Hills Regional High School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Ramapo Indian Hills Regional High School District Oakland, New Jersey

Report on Compliance for Each Major State Program

We have audited the Ramapo Indian Hills Regional High School District's compliance with the types of compliance requirements described in the New Jersey OMB Circular 15-08 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Ramapo Indian Hills Regional High School District's major state programs for the fiscal year ended June 30, 2019. The Ramapo Indian Hills Regional High School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of state statutes, regulations, and the terms and conditions of its state financial assistance applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Ramapo Indian Hills Regional High School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and New Jersey OMB Circular 15-08, <u>Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid</u>. Those standards and New Jersey Circular require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Ramapo Indian Hills Regional High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Ramapo Indian Hills Regional High School District's compliance.

Opinion on Each Major State Program

In our opinion, the Ramapo Indian Hills Regional High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the fiscal year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Ramapo Indian Hills Regional High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Ramapo Indian Hills Regional High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control over compliance.

A <u>deficiency in internal control over compliance</u> exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A <u>material weakness in internal control over compliance</u> is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A <u>significant deficiency in internal control over compliance</u> is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08

We have audited the financial statements of the Ramapo Indian Hills Regional High School District, as of and for the fiscal year ended June 30, 2019 and have issued our report thereon dated November 11, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2019

NOTE 1 GENERAL

The accompanying schedules present the activity of all federal and state financial assistance programs of the Ramapo Indian Hills Regional High School District. The Board of Education is defined in Note 1(A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. <u>Code of Federal Regulations</u> Part 200, <u>Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards</u> (U.S. Uniform Guidance) and New Jersey OMB Circular 15-08, "<u>Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid</u>". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$112,316 for the general fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

	Federal	<u>State</u>	<u>Total</u>
General Fund Special Revenue Fund	\$ 479,233	\$ 8,959,329 30,237	\$ 8,959,329 509,470
Total Financial Assistance	\$ 479,233	\$ 8,989,566	\$ 9,468,799

RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2019

NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules may not necessarily agree with the amounts reported in the related federal and state financial reports due to timing differences between the District's fiscal year and grant program years.

NOTE 5 OTHER INFORMATION

Revenues and expenditures reported under the Food Distribution Program as non-cash assistance represent current year value received and current year distributions, respectively. TPAF Social Security contributions in the amount of \$1,540,212 represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2019. The amount reported as TPAF Pension System Contributions in the amount of \$3,606,894, TPAF Post-Retirement Medical Benefits Contributions in the amount of \$1,636,081 and TPAF Long-Term Disability Insurance in the amount of \$3,624 represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2019.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension, Post-Retirement Medical Benefits and Long-Term Disability Insurance Contributions payments are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amount subject to State single audit and major program determination.

NOTE 7 DE MINIMIS INDIRECT COST RATE

The District has not elected to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.
