Honorable President and
Members of the Board of Education
Upper Deerfield Township School District
County of Cumberland, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Upper Deerfield Township School District for the fiscal year ended June 30, 2019, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Management's Discussion and Analysis and the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the State Treasury Circular 15-08-OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and questioned costs, is included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: The Upper Deerfield Township School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All major funds of the District are included in this report. The Upper Deerfield Township School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels PK through 8. These include regular, as well as special education for handicapped students. The following details the changes in the student enrollment of the District over the last ten years.

1) REPORTING ENTITY AND ITS SERVICES (CONT'D):

Average Daily Enrollment

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2018-19	858	-3.70%
2017-18	891	0.00%
2016-17	890	-1.77%
2015-16	906	-0.88%
2014-15	914	+1.44%
2013-14	901	+0.89%
2012-13	897	+4.30%
2011-12	859	-4.30%
2010-11	898	-3.50%
2009-10	943	+2.74%

2) ECONOMIC CONDITIONS AND OUTLOOK: Upper Deerfield Township's new development is slow. The economic condition of the community is anticipated to be steady. Existing businesses and industries appear stable.

3) MAJOR INITIATIVES:

Our Board of Education is challenged to be fiscally responsive to local taxpayers while maintaining quality educational programs to provide our students an opportunity to become competitive in their educational and career development. The State of New Jersey continues to remain in disagreement of the funding formula that was in place in 2008 and our district is one that has been underfunded since that time. There continues to be unfunded mandates that makes it increasingly difficult to meet the many challenges presented. As a district with many needs and growing diverse populations, we need to, at a minimum, maintain our existing program structure and move to address the unique needs of all individuals served. With no two students seen as alike and possessing differing abilities, it is necessary to move forward along the continuum and provide the best opportunities for each student in a universal manner to prepare them for life experiences beyond the academic setting.

In planning for the success of all students, we focus on the instructional practices that are most beneficial to our students and staff to foster an environment that promotes a quality education for all. We will continue to monitor our costs and review other areas for efficiency, reallocate resources and review all levels of services, including sharing resources where possible. The current resources in place along with additional supports to address achievement gaps between the total population and students with disabilities as well as well as achievement gaps between total population and economically disadvantaged students. This has led to the expansion of our preschool program to full day for four year old students and we are looking to expand to full day for three year old students.

Our need for our staff will be addressed through professional development opportunities that will provide evidence- based research practices geared toward literacy and mathematics. .Our district continues to implement many new curriculum initiatives as part of an overall curriculum evaluation plan. We are striving to close achievement gaps while increasing opportunities for student and parent involvement.

Evidence based research practices will continue to be implemented and these practices will be consistent with the Eight turnaround principles. These eight turnaround principles address the Common Core Standards, Instruction, Culture, Data, Family/Community, Time, Staffing, and Leadership and being congruent with these principles will enable us to maintain and expand programs to raise achievement. Our technology is being maintained and upgraded to remain in line with the testing requirements and educational software programs to assist students.

3) MAJOR INITIATIVES (CONT'D):

As our district engages in the challenging work to achieve the vision established by the Board of Education, we continue to set high academic and behavioral expectations for all students. Teachers engage in collaborative planning to create high student engagement, connect classroom learning and lessons to daily life by integrating components that will continue to be reviewed, revised, and refined during the planning and implementation process. In our district's vision, the focus is on the students being at the core of our business to promote the development of the whole student while providing them with the knowledge, skills, and integrity to meet life's challenges. Our programs are designed to fulfill their needs and enable our students to become productive in both the school and the community. All three schools of the Upper Deerfield Township School District are committed to creating a community of acceptance that provides children the opportunity for extraordinary educational experiences. An inclusive environment is promoted in our district as we find a fitting place for every child. In addition, we are committed to the continuum of placements for our students and are looking to provide programs in house that can meet the needs of students requiring additional support so they can remain in the community with their typically developing peers in our schools.

In planning for the success of all students, we focus on the instructional practices that are most beneficial to our students and staff to foster an environment that promotes a quality education for all. Our district continues to implement many new curriculum initiatives as part of an overall curriculum evaluation plan.

Once again in the classrooms this year there is an across-the-board initiative to enhance student engagement and responsibility for learning. The staff is committed to finding ways to continue to improve student learning as evidenced by the work of several Professional Learning Communities (PLC) focusing on this topic. Instructional practices have been implemented on all levels to improve Social Emotional Learning and Academic Achievement that is supported by our ever expanding technology initiatives. We are also focusing on the following:

- Attract, develop, retain and support caring, motivated, innovative, engaging, and professional faculty and staff.
- Remain vigilant on security and technology upgrades
- Improve facilities and grounds
- Plan to support the population growth and building needs by expanding an existing building or construction of a new building.
- Differentiate instruction based on student individual needs.
- Promote and maintain a safe learning environment.
- Identify and use multiple measures of student learning.
- Increase accountability for performance.
- Improve student achievement across all content areas.
- Improve student achievement across all student groups.
- Increase student engagement in learning.
- Increase student responsibility for learning.

In grades two through eight students have individual chromebooks while the pre-k through grade one students are working with iPads in the classroom and we are in the process of obtaining additional educational software to increase opportunities in the learning experiences for the students. For students lacking social skills in our three buildings each school has a dedicated artificial intelligent Robot who provides support in this area. There are also computer labs in each building for student and staff use. All students are exposed to a rich experience in visual and performing arts and vocal and instrumental music.

3) MAJOR INITIATIVES (CONT'D):

The structure and programming of our three schools are aligned well to provide diverse learning environments which actively engage students in critical thinking, strategic planning, hands-on learning and problem solving. Social Emotional Learning, Academic Assistance, Extra-Curricular Activities, and Community Based Supports are all programs offered to afford our students the opportunity to remain involved. These activities and programs ensure our students become active partners in their learning experience and equally accepting of their responsibility to challenge themselves to meet with success. As part of our program initiatives our schools will continue to and/or implement the following:

- iReady and other computer software programs to provide resources to our students.
- Response-to-Intervention (RTI), tiered instruction
- Multiple assessments (e.g., IEPs computer-adaptive, inventory of teachers use of authentic assessments)
- Administrative, support staff, and teacher performance evaluation systems that are aligned with NJ ACHIEVE
- Professional development that is focused on professional growth plans and action research.

Upper Deerfield Township School District is reaching out into the community and continues to develop partnerships with various businesses and other districts to share services. This provides additional positive support in various ways and strengthens the educational effort of the school district. With this in mind, we continue to focus on these areas:

- Improve District's communication with parents and community.
- Upgrade technology for security and parental communication
- Solicit parental support for planning of programs and construction needs
- Promote parental and community support for student learning and achievement.
- Support active district/school and community partnerships.
- Access local talent and expertise to support district/school goals and objectives.

The initiatives of our district represent the type of reflection and discussions that our district set forth as a planning and decision- making guide to determine a path for success of students, teachers, families, and community. Planning ahead is important and discussions with our township regarding home construction and other development in the area keep us informed and knowledgeable of our needs as a school system. These initiatives reflect the commitment of the Upper Deerfield Township School District and the Upper Deerfield Township Community as a partnership investing in the education of the children in our district.

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as assignments of fund balance at June 30.

6) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect accounting principles generally accepted in the United States of America, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

7) FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with failed banking institutions in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The District carries various forms of insurance, including but not limited to workers compensation insurance, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, cyber liability, and fidelity bonds.

10) INDEPENDENT AUDIT: State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Bowman & Company LLP was selected by the District. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the State Treasury Circular 15-08-OMB, "*Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.*" The auditor's report on the basic financial statements, required supplemental information and supplemental information are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGEMENTS: The preparation of this report would not have been possible without the dedication and skill of the Business Office staff. We would also like to express our appreciation to the members of the Upper Deerfield Township School District Board of Education for their support in providing a sound financial operation.

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Upper Deerfield Township School District
Seabrook, New Jersey 08302

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Upper Deerfield Township School District, in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Upper Deerfield Township School District, in the County of Cumberland, State of New Jersey, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the School District's proportionate share of the net pension liability, schedule of the School District's pension contributions, and schedule of changes in the School District's total OPEB liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Upper Deerfield Township School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Office of School Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

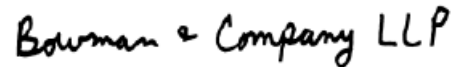

The accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2019 on our consideration of the Upper Deerfield Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Upper Deerfield Township School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Upper Deerfield Township School District's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Upper Deerfield Township School District
Seabrook, New Jersey 08302

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Upper Deerfield Township School District, in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 16, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Upper Deerfield Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Upper Deerfield Township School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Upper Deerfield Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and is described in the accompanying *Schedule of Findings and Questioned Costs* and *Independent Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance as Finding No. 2019-001*.

The Upper Deerfield Township School District's Response to Findings

The Upper Deerfield Township School District's response to the findings identified in our audit is described in the accompanying *Schedule of Findings and Questioned Costs*. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019
(Unaudited)

The Management's Discussion and Analysis (MD&A) of the Upper Deerfield Township School District's (District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2019 and 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements, and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- The total assets and deferred outflows of resources of the District exceeded its total liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$10,545,312.71 (net position).
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,644,879.94, a decrease of \$61,420.62 in comparison with the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations *in more detail* than the government-wide statements.
- *Governmental funds* statements tell how basic services like regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short* and *long-term* financial information about the activities the District operates *like businesses*, such as food services, community education and recreation, and joint pupil transportation.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Overview of the Financial Statements (Cont'd)

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by the private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets/deferred outflow of resources and liabilities/deferred inflow of resources – are one way to measure the District's financial health or position.

- Increase or decrease in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health or position of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided in two categories:

- *Governmental activities* – The basic services, such as instruction for regular and special education, maintenance and operations, transportation and administration are included as government activities. Property taxes, state aid and fund balance appropriated finance most of these activities.
- *Business-type activities* – The District charges fees to cover the costs of certain services such as food services, community education and recreation, and joint pupil transportation.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on the significant funds – not the District as a whole. Funds are used by the District to keep track of specific sources of funding and spending on particular programs:

- May distinguish state or federal grants.
- Funds for capital projects and long-term debt.

The District has three kinds of funds:

- *Governmental funds* – The District's basic services are included in governmental funds, which detail cash and other financial assets and also identify balances that remain at year-end. Governmental funds statements provide a short-term view to determine whether more or less financial resources can be spent in subsequent years.
- *Proprietary funds* – These funds represent charges or fees for such activities as food services, community education and recreation, and joint pupil transportation.

Overview of the Financial Statements (Cont'd)

Fund Financial Statements (Cont'd)

- *Fiduciary funds* – The District is the trustee for assets that belong to others. The student activities funds which include clubs, classes, athletics and scholarship funds are maintained in this fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. These funds are not included in the government-wide financial statements since the District is not permitted to use these assets in the District operation.
- *Notes to the Financial Statement* - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole (Cont'd)

Governmental-Type Activities

- There was a decrease of \$130,734.64 or 1.28% in governmental activities net position, mainly due to depreciation of capital assets.
- Property taxes increased \$122,574.00 or 1.66% from the prior year. Most of this increase is the product of funding general fund services and programs. Property taxes had increased by \$115,263.00 or 1.58% from the 16-17 to the 17-18 school year.
- Total Expenses (GASB level) decreased \$1,198,439.97 or 5.08% from the prior year.
 - TPAF/PERS Pension related expenses and revenues related to GASB 68, decreased by \$588,948.00 over the prior year (\$2,655,677.00 - \$3,244,625.00).
 - OPEB related expenses and revenues related to GASB 75, decreased by \$972,000.00 over the prior year (\$1,502,642.00 - \$2,474,642.00).
 - Health Benefits increased by \$27,111.07 over the prior year (\$2,168,570.23 - \$2,141,459.16).
 - General Fund Salaries increased by \$303,078.77 or 3.91% over the prior year (\$8,057,532.69 - \$7,754,453.92)

Business-Type Activities

- There was an increase of \$49,153.29 or 12.59% in business-type activities net position.
- Expenses for food service activities decreased by \$34,544.38 or 7.47%, revenues decreased by \$16,530.65 or 3.29%.
- Expenses for daycare activities services decreased by \$3,792.95, revenues decreased by \$10,705.95 due to decreased enrollment.

General Fund Budgetary Highlights

The original and final budgetary basis anticipated revenue was \$14,016,490.00, and actual revenues were \$16,384,489.43.

During fiscal year 2019, the District budgeted \$7,050,930.00 and \$6,880,705.00 for property taxes (general tax levy) and state aid revenues, respectively. The District also received \$2,246,773.16 in On-Behalf payments from the State of New Jersey, which contributes to a favorable revenue variance for the fiscal year.

The original and final budgetary basis expenditures was \$15,118,877.60, and actual expenditures were \$16,405,297.14.

The District's expenditures also include \$2,246,773.16 of On-Behalf payments from the State of New Jersey, which contributes to an unfavorable expenditure variance for the fiscal year.

Financial Analysis of the Government's Funds

As stated earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,644,879.94, a decrease of \$61,420.62 in comparison with the prior year.

Of the combined ending fund balances of \$2,644,879.94, \$(381,026.52) constitutes unassigned fund balance (does not include final June State Aid Revenue). The remainder of fund balance is assigned or restricted to indicate that it is not available for new spending because it has already been committed. For example, to liquidate contracts and purchase orders of the prior period fund balance of \$201,703.48 is assigned.

The general fund is the main operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$(335,764.52) (does not include final June State Aid Revenue), while total fund balance was \$2,689,685.51.

Proprietary Funds - The District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position consisted of the following: \$253,032.21 for the food service program and \$134,277.19 for the daycare program. Other factors concerning the finance of this fund have already been addressed in the discussion of the District's business-type activities.

Capital Asset and Debt Administration

Capital Assets - The District's investment in capital assets for its governmental and business-type activities as of June 30, 2019 amounts to \$14,992,975.00 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings and improvements, and equipment.

There were no major capital asset events during the fiscal year.

Additional information on the District's capital assets can be found in the Notes to the Financial Statements.

Long-term Debt - At the end of the current fiscal year, the District had total bonded debt outstanding of \$1,165,000.00 (debt outstanding end of prior year was \$1,565,000.00). The entire District's bonded debt is governmental as opposed to business-type. The bonds have a final maturity date of February 1, 2022.

Economic Factors and Next Year's Budget

For the 2018-19 school year, the District was able to sustain its budget through property taxes, federal and state aid, and miscellaneous revenue sources.

One of the most important factors affecting the District's budget is state aid. The 2019-20 budget was adopted with a 1.60% tax levy increase; based in part on the state aid the District anticipates receiving. The anticipated state aid general fund amount is shown below.

Summary of budgeted state aid revenue anticipated - general fund

<u>Fiscal Year</u>	<u>Amount</u>	<u>Change</u>	
2019-2020	\$7,054,600	\$173,895	
2018-2019	6,880,705	403,843	
2017-2018	6,336,224	488	**
2016-2017	6,335,736	53,414	
2015-2016	6,282,322	-0-	
2014-2015	6,282,322		

** = awarded an additional \$140,638.00 after adoption of budget

Any reduction of state aid and increase in expenditures will put an additional burden on the taxpayers of Upper Deerfield Township.

 Reconciliation of the Statement of Revenues, Expenditures
 and Changes in Fund Balances of Governmental Funds
 to the Statement of Activities
 For the Fiscal Year Ended June 30, 2019

Total Net Change in Fund Balances - Governmental Funds	\$	(61,420.62)
--	----	-------------

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation Expense	\$	(560,186.63)	
Capital Outlays		<u>181,581.63</u>	(378,605.00)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.		400,000.00
---	--	------------

Governmental funds report School District pension contributions as expenditures. However in the statement of activities, the cost of pension benefits earned is reported as pension expense. This is the amount by which pension benefits earned exceeded the School District's pension contributions in the current period.		(131,009.00)
--	--	--------------

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).		<u>40,299.98</u>

UPPER DEERFIELD TOWNSHIP SCHOOL DISTRICT
Notes to Financial Statements
For the Fiscal Year Ended June 30, 2019

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Township of Upper Deerfield School District (the "School District") have been prepared to conform with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant of these policies.

Description of the Financial Reporting Entity

The School District is a Type II district located in the County of Cumberland, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education (the "Board"). The Board is comprised of seven members elected to three-year terms. These terms are staggered so that member's terms expire each year. The Superintendent is appointed by the Board to act as executive officer of the School District. The purpose of the School District is to educate students in grades Pre-K through 8 at its three schools. The School District has an approximate enrollment at June 30, 2019 of 858.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards*, is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The financial statements include all funds of the School District over which the Board exercises operating control.

Component Units

In evaluating how to define the School District for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statements No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, and GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*. Blended component units, although legally separate entities, are in-substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and / or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Component Units (Cont'd)**

Based upon the application of these criteria, the School District has no component units.

Government-wide and Fund Financial Statements

The School District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the School District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the School District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Internal service funds are aggregated and presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property taxes are recognized as revenues in the year for which they are levied. The Cumberland County Board of Taxation is responsible for the assessment of properties, and the respective municipal tax collector is responsible for the collection of property taxes. Assessments are certified and property taxes are levied on January 1. Property tax payments are due February 1, May 1, August 1 and November 1. Unpaid property taxes are considered delinquent the following January 1 and are then subject to municipal lien. In accordance with New Jersey State Statute, the School District is entitled to receive moneys under an established payment schedule, and any unpaid amount is considered as an accounts receivable. The governing body of each municipality is required to pay over to the School District, within forty (40) days after the beginning of the school year, twenty percent (20%) of the moneys from school tax due. Thereafter, but prior to the last day of the school year, the municipality must pay the balance of moneys from school tax due for school purposes in such amounts as requested, with certain limitations, from time to time by the School District, within thirty days after each request.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Measurable means that the amount of revenue can be determined. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, tuition, reimbursable-type grants, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the School District.

The School District reports the following major governmental funds:

General Fund - The general fund is the primary operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, ad valorem tax revenues, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings, and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes, serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, or from the general fund by way of transfers from capital outlay or the capital reserve account.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Proprietary funds are used to account for the School District's ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for internal service funds include salaries, benefits, administrative expenses, and claims paid. All items not meeting this definition are reported as nonoperating revenues and expenses.

The School District reports the following major proprietary funds:

Enterprise Funds

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Community Education and Recreation Fund - This fund accounts for the financial transactions related to providing day care services for the School District students.

Internal Service Funds

Internal service funds are used to account for the financing of goods and services provided by one department to another on a cost reimbursement basis. The School District maintains one internal service fund for transportation.

Additionally, the School District reports the following fund types:

Fiduciary funds are used to account for assets held by the School District on behalf of outside related organizations or on behalf of other funds within the School District. The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds.

The School District maintains the following fiduciary funds:

Agency Funds - Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and / or other funds (i.e., payroll and student activities). The School District retains no equity interest in these funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District maintains the following agency funds: student activity fund and payroll fund.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

Private-Purpose Trust Funds - Private-purpose trust funds are used to account for the principal and income for all other trust arrangements that benefit individuals, private organizations, or other governments. The School District maintains the following private-purpose trust funds:

Seabrook Expendable Trust Fund - Revenues consist of distributions from the CF Seabrook Trust and interest income. Expenditures represent activities for students in accordance with the trust requirements.

New Jersey Unemployment Compensation Insurance Trust Fund - Revenues consist of contributions that have been included in the annual budget of the School District, employee payroll withholdings, and interest income. Expenditures represent claims incurred for unemployment.

As a general rule the effect of internal/interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

Budgets / Budgetary Control

Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds, and are submitted to the county office of education. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012, to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only, and the special revenue fund. N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on exhibit C-1, exhibit C-2, and exhibit I-3, includes all amendments to the adopted budget, if any.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Budgets / Budgetary Control (Cont'd)**

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting, as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule, to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances - governmental funds. Note that the School District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows the modified accrual basis of accounting, with the exception of the aforementioned revenue recognition policy for the one or more June state aid payments.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign a portion of the applicable appropriation, is utilized for budgetary control purposes. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, are reflected on the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments

Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Inventories**

Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in the governmental fund financial statements is recorded as expenditures when purchased rather than when consumed.

Inventories recorded on the government-wide financial statements and in the proprietary fund types are recorded as expenses when consumed rather than when purchased.

Tuition Receivable

Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Prepaid Expenses

Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2019. The School District had no prepaid expenses for the fiscal year ended June 30, 2019.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as expenditures in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Short-Term Interfund Receivables / Payables

Short-term interfund receivables / payables (internal balances) represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund within the School District, and that are due within one year. Such balances are eliminated in the statement of net position to minimize the grossing up of internal balances, thus leaving a net amount due between the governmental and business-type activities that are eliminated in the total government column. Balances with fiduciary activities are not considered to be internal balances; therefore, such balances appear on the statement of net position as accounts receivable or accounts payable.

Capital Assets

Capital assets represent the cumulative amount of capital assets owned by the School District. Purchased capital assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position and proprietary fund statement of net position. In the case of gifts or contributions, such capital assets are recorded at acquisition value at the time received.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Capital Assets (Cont'd)**

The School District's capitalization threshold is \$2,000.00. Other costs incurred for repairs and maintenance is expensed as incurred. All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	20 - 50 Years
Machinery and Equipment	5 - 10 Years

The School District does not possess any infrastructure assets.

Deferred Outflows and Deferred Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources, reported after total assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after total liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by the Governmental Accounting Standards Board (GASB) standards. The School District is required to report the following as deferred outflows of resources and deferred inflows of resources: defined benefit pension plans.

Tuition Payable

Tuition charges for the fiscal years ended June 30, 2019 and 2018 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

Accrued Salaries and Wages

Certain School District employees who provide services to the School District over the ten-month academic year have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Compensated Absences**

Compensated absences are payments to employees for accumulated time such as paid vacation, paid holidays, sick pay, and sabbatical leave. A liability for compensated absences that is attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The School District uses the vesting method to calculate the compensated absences amount. The entire compensated absence liability, including the employer's share of applicable taxes, is reported on the government-wide financial statements. The portion related to employees in the proprietary funds is recorded at the fund level. The current portion is the amount estimated to be used in the following fiscal year. Expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the governmental fund financial statements when due.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Net Position**

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned - The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position and standard operating procedures, approved by the Board of Education.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Fund Balance (Cont'd)**

Unassigned - The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures / expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Impact of Recently Issued Accounting Principles**Recently Issued Accounting Pronouncements**

The GASB has issued the following Statements that will become effective for the School District for fiscal years ending after June 30, 2019:

Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The Statement will become effective for the School District in the fiscal year ending June 30, 2020. Management is currently evaluating whether or not this Statement will have an impact on the basic financial statements of the School District.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled agency funds such as salary withholdings, and student activity funds, or funds that may pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized.

As of June 30, 2019, the School District's bank balances of \$4,904,878.35 were exposed to custodial credit risk as follows:

Insured by FDIC and GUDPA	\$ 3,706,888.13
Uninsured and Uncollateralized	<u>1,197,990.22</u>
Total	<u>\$ 4,904,878.35</u>

Note 3: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District by inclusion of amounts in previously adopted budgets, for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

Beginning Balance, July 1, 2018	\$ 609,707.00
Increased by:	
Capital Project Fund Balance - Canceled	\$ 30,507.08
Interest Earnings	<u>350.00</u>
	<u>30,857.08</u>
Ending Balance, June 30, 2019	<u>\$ 640,564.08</u>

The June 30, 2019 LRFP balance of local support costs of uncompleted projects at June 30, 2019 is \$1,450,160.00.

Note 4: ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2019 consisted of accounts (fees for services), and intergovernmental awards / grants. All receivables are considered collectible in full due to the stable condition of federal and state programs, the current fiscal year guarantee of federal funds, and the regulated budgetary control of governmental entities in New Jersey.

Accounts receivable as of fiscal year end for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

Compensated Absences - As previously stated, compensated absences will be paid from the fund from which the employees' salaries are paid. Refer to note 12 for a description of the School District's policy.

Net Pension Liability - For details on the net pension liability, refer to note 8. The School District's annual required contribution to the Public Employees' Retirement System is budgeted and paid from the general fund and internal service fund on an annual basis.

Note 8: PENSION PLANS

A substantial number of the School District's employees participate in one of the following defined benefit pension plans: the Teachers' Pension and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), which are administered by the New Jersey Division of Pensions and Benefits (the "Division"). In addition, several School District employees participate in the Defined Contribution Retirement Program, which is a defined contribution pension plan. This Plan is administered by Prudential Financial for the Division. Each Plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements, required supplementary information and detailed information about the PERS and TPAF plan's fiduciary net position which can be obtained by writing to or at the following website:

Note 8: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Plan Descriptions**

Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund is a cost-sharing multiple-employer defined benefit pension plan, with a special funding situation, which was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66. The State of New Jersey (the "State") is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The TPAF's designated purpose is to provide retirement benefits, death, disability and medical benefits to certain qualified members. Membership in the TPAF is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, who have titles that are unclassified, professional and certified. The TPAF's Board of Trustees is primarily responsible for the administration of the TPAF.

Public Employees' Retirement System - The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan that was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A. The PERS' designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the PERS is mandatory for substantially all full-time employees of the School District, provided the employee is not required to be a member of another state-administered retirement system or other state pensions fund or local jurisdiction's pension fund. The PERS Board of Trustees is primarily responsible for the administration of the PERS.

Defined Contribution Retirement Program - The Defined Contribution Retirement Program is a multiple-employer defined contribution pension fund established on July 1, 2007 under the provisions of Chapter 92, P.L. 2007, and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et. seq.). The DCRP is a tax-qualified defined contribution money purchase pension plan under Internal Revenue Code (IRC) § 401(a) et seq., and is a "governmental plan" within the meaning of IRC § 414(d). The DCRP provides retirement benefits for eligible employees and their beneficiaries. Individuals covered under DCRP are employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees enrolled in New Jersey State Police Retirement System (SPRS) or the Police and Firemen's Retirement System (PFRS) after May 21, 2010, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000.00 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010 who do not work the minimum number of hours per week required for tiers 4 or 5 enrollment, but who earn salary of at least \$5,000.00 annually.

Vesting and Benefit Provisions

Teachers' Pension and Annuity Fund - The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Note 8: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Vesting and Benefit Provisions (Cont'd)**

Teachers' Pension and Annuity Fund (Cont'd) - The following represents the membership tiers for TPAF:

Tier Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 21, 2010
- 4 Members who were eligible to enroll after May 21, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier.

Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Public Employees' Retirement System - The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the PERS.

The membership tiers for PERS are the same as previously noted for TPAF.

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more service credit before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Defined Contribution Retirement Program - Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and nonforfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and nonforfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

Note 8: PENSION PLANS (CONT'D)**General Information About the Pension Plans (Cont'd)****Contributions**

Teachers' Pension and Annuity Fund - The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 7.50% in State fiscal year 2019. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State's contribution is based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability. For fiscal year 2018, the State's pension contribution was less than the actuarial determined amount.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, *Accounting and Financial Reporting for Pensions*.

The School District's contractually required contribution rate for the fiscal year ended June 30, 2019 was 14.43% of the School District's covered payroll, of which 0.00% of payroll was required from the School District and 100.00% of payroll was required from the State of New Jersey. The School District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2019 because of the 100.00% special funding situation with the State of New Jersey.

Based on the most recent TPAF measurement date of June 30, 2018, the State's contractually required contribution, on-behalf of the School District, to the pension plan for the fiscal year ended June 30, 2019 was \$917,887.00, and was paid by April 1, 2019. School District employee contributions to the Plan during the fiscal year ended June 30, 2019 were \$478,190.48.

Public Employees' Retirement System - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over seven years beginning in July 2012. The member contribution rate was 7.50% in State fiscal year 2019. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 366, P.L. 2001) was 10%. Employer contribution amounts are based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability.

The School District's contractually required contribution rate for the fiscal year ended June 30, 2019 was 14.44% of the School District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

Based on the most recent PERS measurement date of June 30, 2018, the School District's contractually required contribution to the pension plan for the fiscal year ended June 30, 2019 was \$272,717.00, and was paid by April 1, 2019. School District employee contributions to the Plan during the fiscal year ended June 30, 2019 were \$138,674.07.

Note 8: PENSION PLANS (CONT'D)**General Information About the Pension Plans (Cont'd)****Contributions (Cont'd)**

Defined Contribution Retirement Program - The contribution policy is set by N.J.S.A. 43:15C-3 and requires contributions by active members and contributing employers. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, Plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District contributes 3% of the employees' base salary, for each pay period, to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

For the fiscal year ended June 30, 2019, employee contributions totaled \$1,603.81, and the School District recognized pension expense, which equaled the required contributions, of \$880.49. There were no forfeitures during the fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Teachers' Pension and Annuity Fund - At June 30, 2019, the School District was not required to report a liability for its proportionate share of the net pension liability because of a 100% special funding situation by the State of New Jersey.

The State's proportionate share of net pension liability, attributable to the School District is as follows:

School District's Proportionate Share of Net Pension Liability	\$ -
State of New Jersey's Proportionate Share of Net Pension Liability Associated with the School District	<u>38,629,266.00</u>
	<u>\$ 38,629,266.00</u>

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2018. For the June 30, 2018 measurement date, the School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State of New Jersey, actuarially determined. At June 30, 2018, the School District proportion was 0.00% due to the 100% special funding situation with the State of New Jersey. For the June 30, 2018 measurement date, the State's proportionate share of the TPAF net pension liability associated with the School District was .0607207960%, which was an increase of .0031137524% from its proportion measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the School District recognized \$2,251,951.00 in pension expense and revenue, in the government-wide financial statements, for the State of New Jersey on-behalf TPAF pension contributions. This pension expense and revenue was based on the pension plans June 30, 2018 measurement date.

Public Employees' Retirement System - At June 30, 2019, the School District reported a liability of \$5,398,398.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2018. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. For the June 30, 2018 measurement date, the School District's proportion was .0274176464%, which was an increase of .0002411732% from its proportion measured as of June 30, 2017.

Note 8: PENSION PLANS (CONT'D)**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)**

Public Employees' Retirement System (Cont'd) - For the fiscal year ended June 30, 2019, the School District recognized pension expense of \$403,726.00, in the government-wide financial statements. This pension expense was based on the pension plans June 30, 2018 measurement date.

At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Expected and Actual Experience	\$ 102,948.00	\$ 27,836.00

For TPAF, pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant White Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Disability mortality rates were based on the RP-2006 Disabled Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

For PERS, preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Postretirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent modified 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

For TPAF and PERS, in accordance with State statute, the long-term expected rate of return on Plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Note 8: PENSION PLANS (CONT'D)

Actuarial Assumptions (Cont'd) - Best estimates of arithmetic rates of return for each major asset class included in TPAF's and PERS' target asset allocation as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Risk Mitigation Strategies	5.00%	5.51%
Cash Equivalents	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%

	<u>100.00%</u>	

Discount Rate - The discount rates used to measure the total pension liability at June 30, 2018 were 4.86% and 5.66% for TPAF and PERS, respectively. For TPAF and PERS, the respective single blended discount rates were based on the long-term expected rate of return on pension Plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rates assumed that contributions from Plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined amount for TPAF and PERS and the local employers contributed 100% of the actuarially determined amount for PERS. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make projected future benefit payments of current Plan members through 2040 for TPAF and 2046 for PERS. Therefore, the long-term expected rate of return on Plan investments was applied to projected benefit payments through 2040 for TPAF and 2046 for PERS, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Note 8: PENSION PLANS (CONT'D)**Sensitivity of School District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate**

Teachers' Pension and Annuity Fund (TPAF) - As previously mentioned, TPAF, has a special funding situation where the State pays 100% of the School District's annual required contribution. As such, the proportionate share of the net pension liability as of June 30, 2018, the Plan's measurement date, attributable to the School District is \$0, and the State of New Jersey's proportionate share of the net pension liability, attributable to the School District, using a discount rate of 4.86%, as well as using a discount rate that is 1% lower or 1% higher than the current rates used is as follows:

	TPAF		
	1% Decrease (3.86%)	Current Discount Rate (4.86%)	1% Increase (5.86%)
School District's Proportionate Share of the Net Pension Liability	\$ -	\$ -	\$ -
State of New Jersey's Proportionate Share of Net Pension Liability associated with the School District	<u>45,659,059.00</u>	<u>38,629,266.00</u>	<u>32,801,739.00</u>
	<u>\$ 45,659,059.00</u>	<u>\$ 38,629,266.00</u>	<u>\$ 32,801,739.00</u>

Public Employees' Retirement System (PERS) - The following presents the School District's proportionate share of the net pension liability at June 30, 2018, the Plan's measurement date, calculated using a discount rate of 5.66%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	PERS		
	1% Decrease (4.66%)	Current Discount Rate (5.66%)	1% Increase (6.66%)
School District's Proportionate Share of the Net Pension Liability	<u>\$ 6,787,863.00</u>	<u>\$ 5,398,398.00</u>	<u>\$ 4,232,725.00</u>

Pension Plan Fiduciary Net Position

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the respective fiduciary net position of the TPAF and PERS and additions to/deductions from TPAF and PERS' respective fiduciary net position have been determined on the same basis as they are reported by TPAF and PERS. Accordingly, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For additional information about TPAF and PERS, please refer to the Plan's Comprehensive Annual Financial Report (CAFR) which can be found at <https://www.nj.gov/treasury/pensions/financial-reports.shtml>.

Note 9: ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2019, the School District has recognized as revenues and expenditures on-behalf payments made by the State for normal costs and post-retirement medical costs related to TPAF, in the fund financial statements. The amounts recognized as revenues and expenditures in the fund financial statements for normal costs, non-contributory insurance, post-retirement medical costs, and long-term disability insurance were \$1,196,479.00, \$25,045.00, \$554,081.00, and \$1,037.00, respectively.

Note 10: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

New Jersey Unemployment Compensation Insurance - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of the activity of the School District's private-purpose trust fund for the unemployment claims for the current and previous two fiscal years:

<u>Fiscal Year</u> <u>Ended June 30,</u>	<u>School</u> <u>District</u> <u>Contributions</u>	<u>Employee</u> <u>Contributions</u>	<u>Interest</u> <u>Income</u>	<u>Claims</u> <u>Incurred</u>	<u>Ending</u> <u>Balance</u>

2018	-	25,635.86	221.76	56,941.45	134,887.34
2017	-	27,029.58	237.45	16,266.07	165,971.17

Joint Insurance Fund - The School District is a member of the Gloucester, Cumberland, Salem School Districts Joint Insurance Fund. The Fund provides its members with the following coverage:

Workers' Compensation including Employer's Liability
 General Liability including Police Professional and Employee Benefit Liability
 Automobile Liability, Blanket Crime including Public Employee Dishonesty
 Property Including Boiler and Machinery
 Public Officials and Employment Practices Liability
 Volunteer Directors and Officers Liability, Cyber Liability

Contributions to the Fund, including a reserve for contingencies, are payable in two installments and are based on actuarial assumptions determined by the Fund's actuary. The Commissioner of Banking and Insurance may order additional assessments to supplement the Fund's claim, loss retention, or administrative accounts to assure the payment of the Fund's obligations.

The School District's agreement with the Pool provides that the Pool will be self-sustaining through member premiums and will reinsure through the Municipal Excess Liability Joint Insurance Fund, which is an insurance pool formed by all the other joint insurance funds.

For more information regarding claims, coverages and deductibles, the Fund publishes its own financial report for the year ended December 31, 2018, which can be obtained from:

Gloucester, Cumberland, Salem School Districts Municipal Joint Insurance Fund
 P.O. Box 449
 Marlton, New Jersey 08053

Note 11: DEFERRED COMPENSATION

The School District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrator is GWN Marketing.

Note 12: COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. At June 30, 2019, the liability for compensated absences reported on the government-wide statement of net position and on the proprietary fund statement of net position was \$468,793.00 and \$0.00, respectively.

Note 13: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2019 is as follows:

<u>Fund</u>	<u>Interfunds Receivable</u>	<u>Interfunds Payable</u>
General	\$ 197,522.27	
Special Revenue		\$ 124,982.33
Capital Projects		65,430.04
Debt Service	1,162.22	705.79
Food Service		7,566.33
	<u>\$ 198,684.49</u>	<u>\$ 198,684.49</u>

The interfund receivables and payables above predominately resulted from payments made by certain funds on behalf of other funds. During the fiscal year 2020, the School District expects to liquidate such interfunds, depending upon the availability of cash flow.

Interest earnings of \$341.09 in the Capital Projects Fund was transferred to the Debt Service Fund. \$30,507.08 of Capital Projects Fund Balance was canceled and returned to the General Fund Reserve for Capital Reserve.

Note 14: CONTINGENCIES

Grantor Agencies - Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the School District expects such amount, if any, to be immaterial.

Litigation - The School District is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the School District, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

Note 15: CONCENTRATIONS

The School District depends on financial resources flowing from, or associated with, both the federal government and the State of New Jersey. As a result of this dependency, the School District is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations.

Note 16: DEFICIT FUND BALANCES

The School District has a deficit fund balance of \$335,764.52 in the general fund and \$45,262.00 in the special revenue fund as of June 30, 2019 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the general and special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unassigned general fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The School District deficit in the GAAP funds statements of \$381,026.52 is less than the June state aid payments

Note 17: TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

Upper Deerfield Township has entered into various property tax abatement agreements with properties having aggregate assessed valuations of \$12,352,800.00. Based on the School District's 2019 estimated tax rate of \$1.193, abated taxes totaled \$147,368.90.

Note 18: FUND BALANCES**RESTRICTED**

As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund

For Excess Surplus - In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance - excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2019 is \$691,922.47. Additionally, \$703,100.25 of excess fund balance generated during 2017-2018 has been restricted and designated for utilization in the 2019-2020 budget.

For Capital Reserve Account - As of June 30, 2019, the balance in the capital reserve account is \$640,564.08. These funds are restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan (LRFP).

For Maintenance Reserve Account - As of June 30, 2019, the balance in the maintenance reserve account is \$691,263.00. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701).

ASSIGNED

As stated in note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund

Other Purposes - As of June 30, 2019, the School District had \$201,703.48 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

For Subsequent Year's Expenditures - The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2020 \$96,896.75 of general fund balance at June 30, 2019.

Note 18: FUND BALANCES (CONT'D)**UNASSIGNED**

As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund - As of June 30, 2019, \$(335,764.52) of general fund balance was unassigned.

Special Revenue Fund - As of June 30, 2019, the fund balance of the special revenue fund was a deficit of \$45,262.00, thus resulting in the fund balance classification of unassigned. The deficit is a result from a delay in the payment of state aid until the following fiscal year. As stated in note 16, since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties. The unassigned deficit on the GAAP financial statements of \$45,262.00 is equal to the last state aid payment.

Note 19: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN****General Information about the OPEB Plan**

Plan Description and Benefits Provided - The State Health Benefit Local Education Retired Employees Plan (the "OPEB Plan") is a multiple-employer defined benefit OPEB plan, with a special funding situation, that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75 - *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions*. The OPEB Plan is administered by the State of New Jersey Division of Pensions and Benefits (the "Division") and is part of the New Jersey State Health Benefits Program (SHBP). The Division issues a publically available financial report that includes financial statements and required supplementary information which can be obtained by writing to or at the following website:

State of New Jersey
Division of Pensions and Benefits
P.O. Box 295
Trenton, New Jersey 08625-0295
<https://www.nj.gov/treasury/pensions/financial-reports.shtml>

The OPEB Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

Contributions - The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey (the "State") in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Note 19: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONT'D)**STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN (CONT'D)**

Employees Covered by Benefit Terms - At June 30, 2018, the OPEB Plan's Measurement date, the entire State Health Benefit Local Education Retired Employees OPEB Plan consisted of the following members.

Active Plan Members	217,131
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	145,050
Inactive Plan Members Entitled to but Not Yet Receiving Benefit Payments	<u>-</u>
	<u><u>362,181</u></u>

Total Non-Employer OPEB Liability

The State of New Jersey, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to the OPEB Plan for qualified retired TPAF, PERS, PFRS and ABP participants. The School District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the School District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

The State's proportionate share of the net OPEB liability associated with the School District as of June 30, 2019 was \$36,645,723.00. Since the OPEB liability associated with the School District is 100% attributable to the State, the OPEB liability will be referred to as the total Non-Employer OPEB Liability.

The total Non-Employer OPEB Liability was measured as of June 30, 2018, and was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. For the June 30, 2018 measurement date, the State's proportionate share of the Non-Employer OPEB Plan Liability associated with the School District was .0794731316%, which was a decrease of .0003595441% from its proportion measured as of June 30, 2017.

Actuarial Assumptions and Other Inputs - The actuarial assumptions and other inputs vary for each plan member depending on the pension plan in which the member is enrolled. The actuarial valuation at June 30, 2017 used the following actuarial assumptions, applied to all periods in the measurement:

Salary Increases -

	<u>TPAF/ABP (1)</u>	<u>PERS (2)</u>	<u>PFRS (2)</u>
Through 2026	1.55% - 4.55%	2.15% - 4.15%	2.10% - 8.98%
Thereafter	2.00% - 5.45%	3.15% - 5.15%	3.10% - 9.98%

(1) - Based on years of service

(2) - Based on age

Inflation Rate - 2.50%.

Note 19: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONT'D)**STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN (CONT'D)****Total Non-Employer OPEB Liability (Cont'd)**

Mortality Rates - Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

Experience Studies - The actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 - June 30, 2015, July 1, 2011 - June 30, 2014, and July 1, 2010 - June 30, 2013 for TPAF, PERS and PFRS, respectively. 100% of all retirees who currently have healthcare coverage were assumed to continue with that coverage. 100% of active members were considered to participate in the Plan upon retirement, having a coverage blend of 85% and 15% in PPO and HMO, respectively.

Health Care Trend Assumptions - For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate - The discount rate for June 30, 2018 was 3.87%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Changes in the Total Non-Employer OPEB Liability

The below table summarizes the State's proportionate share of the change in the Total Non-Employer OPEB Liability associated with the School District:

Balance at June 30, 2018		\$ 42,822,121.00
Changes for the Year:		
Service Cost	\$ 1,434,672.00	
Interest Cost	1,567,608.00	
Difference Between Expected and Actual Experience	(4,027,371.00)	
Changes in Assumptions	(4,205,280.00)	
Gross Benefit Payments	(979,894.00)	
Member Contributions	<u>33,867.00</u>	
Net Changes		<u>(6,176,398.00)</u>
Balance at June 30, 2019		<u>\$ 36,645,723.00</u>

There were no changes in benefit terms between the June 30, 2017 measurement date and the June 30, 2018 measurement date.

Differences between expected and actual experience reflect a decrease in liability from June 30, 2017 to June 30, 2018 is due to changes in the census, claims and premiums experience.

Note 19: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONT'D)**STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN (CONT'D)****Changes in the Total Non-Employer OPEB Liability (Cont'd)**

Changes of Assumptions reflect a decrease in the liability from June 30, 2017 to June 30, 2018 due to the increase in the assumed discount rate from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018; and a decrease in the assumed health care cost trend and excise tax assumptions.

Sensitivity of the Total Non-Employer OPEB Liability to Changes in the Discount Rate - The State's proportionate share of the total Non-Employer OPEB Liability as of June 30, 2018, associated with the School District, using a discount rate of 3.87%, as well as using a discount rate that is 1% lower or 1% higher than the current rate used is as follows:

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Total Non-Employer OPEB Liability

For the fiscal year ended June 30, 2019, the School District recognized \$1,502,642.00 in OPEB expense and revenue, in the government-wide financial statements, for the State's proportionate share of the OPEB Plan's OPEB Expense, associated with the School District. This expense and revenue was based on the OPEB Plan's June 30, 2018 measurement date.

In accordance with GASBS No. 75, the School District's proportionate share of the OPEB liability is zero. As such, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources by the School District. However, at June 30, 2019, the State's proportionate share of the total Non-Employer OPEB Liability's deferred outflows of resources and deferred inflows of resources, associated with School District, from the following sources are as follows:

Note 19: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONT'D)**STATE HEALTH BENEFIT LOCAL EDUCATION RETIRED EMPLOYEES PLAN (CONT'D)****OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Total Non-Employer OPEB Liability (Cont'd)**

Notes to Required Supplementary Information - Part IV
For the Fiscal Year Ended June 30, 2019

Changes of Benefit Terms - None

Differences Between Expected and Actual Experience - The decrease in liability from June 30, 2017 to June 30, 2018 is due to changes in the census, claims and premiums experience.

Changes of Assumptions - The decrease in the liability from June 30, 2017 to June 30, 2018 is due to the increase in the assumed discount rate from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018; and a decrease in the assumed health care cost trend and excise tax assumptions.

SINGLE AUDIT SECTION

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND
STATE OF NEW JERSEY CIRCULAR 15-08-OMB**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Upper Deerfield Township School District
Seabrook, New Jersey 08302

Report on Compliance for Each Major Federal and State Program

We have audited the Upper Deerfield Township School District's, in the County of Cumberland, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2019. The School District's major federal and state programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance, and State of New Jersey Circular 15-08-OMB, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Upper Deerfield Township School District's, in the County of Cumberland, State of New Jersey, compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Upper Deerfield Township School District, in the County of Cumberland, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the Upper Deerfield Township School District, in the County of Cumberland, State of New Jersey, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State of New Jersey Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Upper Deerfield Township School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State of New Jersey Circular 15-08-OMB. Accordingly, this report is not suitable for any other purpose.

UPPER DEERFIELD TOWNSHIP SCHOOL DISTRICT
Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2019

Note 1: BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal awards and state financial assistance (“the schedules”) include federal and state award activity of the Upper Deerfield Township School District (hereafter referred to as the “School District”). The School District is defined in note 1 to the School District’s basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules. Because these schedules present only a selected portion of the operations of the School District, it is not intended to and does not present the financial position and changes in operations of the School District.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedules are presented using the budgetary basis of accounting, with the following exception: programs recorded in the enterprise fund are presented using the accrual basis of accounting. These bases of accounting are described in note 1 to the School District’s basic financial statements. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Note 3: INDIRECT COST RATE

The School District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 4: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund, special revenue fund and proprietary fund (enterprise fund – food service) on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, payments are not recognized until the subsequent budget year due to the State deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more June state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

Note 4: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONT'D)

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is \$(40,917.00) for the general fund and \$(182,238.95) for the special revenue fund. See exhibit C-3, notes to required supplementary information, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Awards and financial assistance revenues reported in the School District's basic financial statements on a GAAP basis with a reconciliation to the budgetary basis reported on the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are presented as follows:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>

Note 5: RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 6: REIMBURSED AND ON-BEHALF PAYMENTS

During the fiscal year ended June 30, 2019, the School District was the recipient of federal and state assistance that represented either a reimbursement to the School District or payments made on-behalf of the School District. Revenues and expenditures reported under the federal food distribution program represent the current year value received and the current year distribution, respectively, of American-grown United States Department of Agriculture foods utilized in the School District's food service program. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year. Lastly, the School District has recognized as revenues and expenditures on-behalf payments made by the State for normal costs, non-contributory insurance, post-retirement medical costs, and long-term disability insurance related to TPAF members.

Section 2- Schedule of Financial Statement Findings

This section identifies the significant deficiencies, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with *Government Auditing Standards* and with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Finding No. 2019-001

Criteria or Specific Requirement

CFR Section 210.14 Resource Management (b) Net cash resources. The school food authority shall limit its net cash resources to an amount that does not exceed 3 months average expenditures for its nonprofit school food service or such other amount may be approved by the State agency in accordance with CFR Section 210.19(a).

Condition

The School District's Food Service Fund Net Cash Resources exceeded its three months average expenditures by \$49,594.04.

Context

Per the calculation of the Food Service Fund's Net Cash Resources, Net Cash Resources at June 30, 2019 were \$252,310.02 and its three months average expenditures were \$125,493.51, resulting in an average of \$126,816.51.

Effect

The School District is not in compliance with CFR section 210.14 and requirements as prescribed the Office of School Finance, Department of Education, State of New Jersey Audit Program.

Cause

The School District did not monitor the finances of its Food Service Fund to ensure its Net Cash Resources at the end of the fiscal year did not exceed the Fund's three months average expenditures.

Recommendation

That the School District develop a plan to reduce the Food Service Fund's Net Cash Resources below its three month average expenditures.

View of Responsible Officials and Planned Corrective Action

The responsible officials agree with the finding and will address the matter as part of their corrective action plan.
