Honorable President and
Members of the Board of Education
City of Vineland School District
County of Cumberland, New Jersey

Dear Board Members:

The comprehensive annual financial report of the City of Vineland School District for the fiscal year ending June 30, 2019, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the City of Vineland Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City of Vineland School District. All disclosures necessary to enable the reader to obtain an understanding of the City of Vineland School District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the City of Vineland School District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The City of Vineland School District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act in accordance with the Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (The Uniform Guidance) and the State of New Jersey Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

REPORTING ENTITY AND ITS SERVICES:

The City of Vineland School District is an independent reporting entity within the criteria adopted by the GASB. All funds of the City of Vineland School District are included in this report. The City of Vineland Board of Education and all its schools constitute the City of Vineland School District's reporting entity.

The City of Vineland Education Foundation, Inc. (the foundation) is considered a component unit of the Vineland School District as defined in Governmental Accounting Standards Board. As a result, certain

financial information of the foundation is discreetly presented in the district's financial statements.

The City of Vineland School District provides a full range of educational services appropriate to grade levels preschool through 12.

INTERNAL ACCOUNTING CONTROLS:

Management of the City of Vineland School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City of Vineland School District are protected from loss, theft or misuse and to ensure statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the City of Vineland School District is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the City of Vineland School District management.

As part of the City of Vineland School District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the City of Vineland School District has complied with applicable laws and regulations.

BUDGETARY CONTROLS:

In addition to internal accounting controls, the City of Vineland School District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2019.

ACCOUNTING SYSTEM AND REPORT:

The City of Vineland School District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the City of Vineland School District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements".

FINANCIAL INFORMATION AT FISCAL YEAR END:

As demonstrated by the various statements and schedules included in the financial section of this report, the City of Vineland School District continues to meet its responsibility for sound financial management.

DEBT ADMINISTRATION:

As of June 30, 2019, the City of Vineland School District had no outstanding bonded debt.

CASH MANAGEMENT:

The investment policy of the City of Vineland School District is guided in large part by state statute as detailed in "Notes to the Financial Statements". The City of Vineland School District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and student accident insurance.

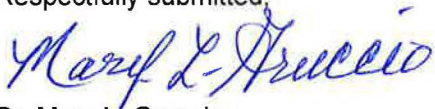

OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ford, Scott & Associates, L.L.C. was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act and the related Uniform Guidance and state Treasury Circular Letter 15-08 OMB. The auditor's report on the financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

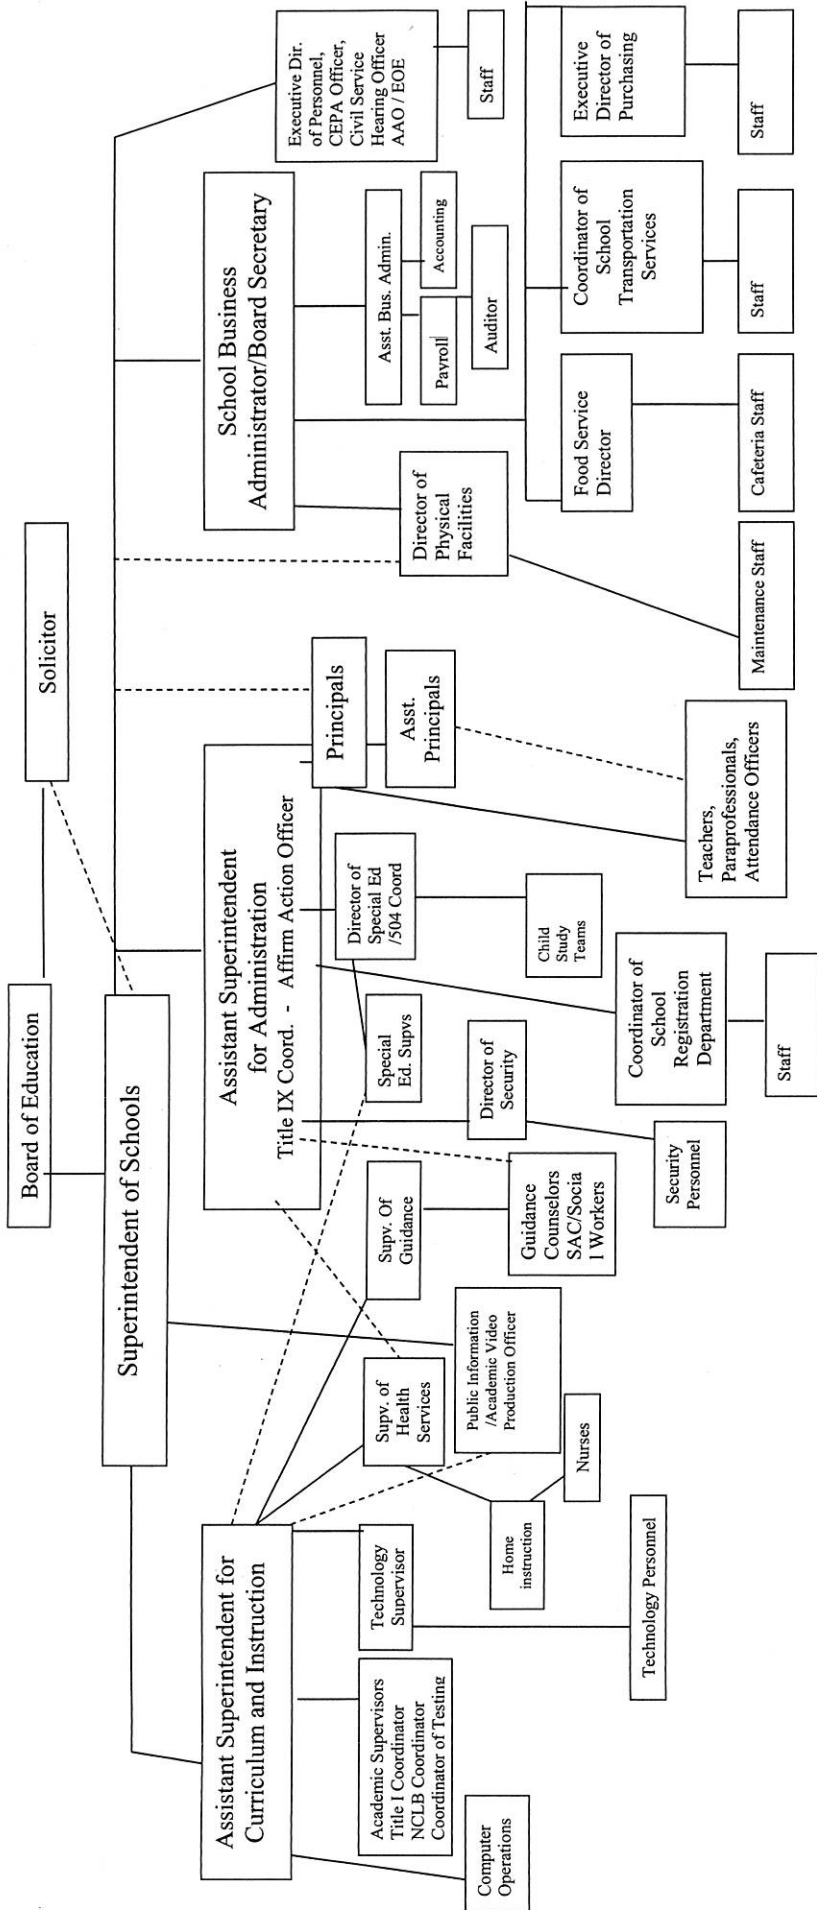

ACKNOWLEDGMENTS:

We would like to express our appreciation to the members of the City of Vineland School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Dr. Mary L. Gruccio
Superintendent of Schools

Independent Auditor's Report

Honorable President and
Members of the Board of Education
City of Vineland School District
County of Cumberland, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Vineland School District, in the County of Cumberland, New Jersey, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Vineland School District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Required Supplementary Information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Vineland School District's basic financial statements. The introductory section, combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal Awards, the schedule of state financial assistance as required by NJ OMB 15-08, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, the schedule of state financial assistance, and statistical information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, the schedule of expenditures of federal awards, and the schedule of state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2019 on our consideration of the City of Vineland School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Vineland School District's internal control over financial reporting and compliance.

**CITY OF VINELAND SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019
UNAUDITED**

The discussion and analysis of the City of Vineland School District's financial performance provides an overall review of the School District's financial activities for the year ended June 30, 2019. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2019 are as follows:

- In total, net position decreased \$3,180,499.24 which represents a 3 percent decrease from 2018.
- General revenues accounted for \$162,034,634.20 in revenue or 65 percent of all revenues. Program specific revenues in the form of charges for services and operating and capital grants and contributions accounted for 87,693,028.39 or 35 percent of total revenues of \$249,727,662.59.
- Total assets of governmental activities decreased by \$6,133,496.08, as cash and cash equivalents decreased by \$4,839,629.80, Internal Balances increased by \$445,442.96, receivables increased by \$703,476.36, and capital assets (net) decreased by \$854,826.61.
- The School District had \$259,067,293.84 in expenses; only \$93,862,049.44 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state aid) of \$162,024,745.16 and previous year's surplus funds were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$186,351,319.10 in revenues, \$193,212,806.20 in expenditures and net transfers from and to other funds in the amount of \$1,961,958.14. The General Fund's fund balance decreased \$4,899,528.96 from 2018. This increase was anticipated by the Board of Education.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Vineland School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of The City of Vineland School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District, as a whole looks at all financial transactions and ask the question, "How did we do financially during 2019?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in net position. This change is important because it tells the reader that, for the school district as a whole, the financial position of the School district have improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activity - This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund and Special Revenue Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net assets may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District's net position for 2019 and 2018.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$217,609,471.91 and expenditures were \$222,769,891.11. The net decrease in fund balance for the year was \$5,160,419.20.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the year ended June 30, 2019, and the amount and percentage of increases and decreases in relation to prior year revenues.

<u>Revenue</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from 2018</u>	<u>Percent of Increase (Decrease)</u>
Local Sources	\$ 26,066,642.53	11.98%	\$ 365,191.06	1.42%
State Sources	183,321,158.19	84.24%	(14,199,228.34)	-7.19%
Federal Sources	8,221,671.19	3.78%	363,116.66	4.62%
Total	<u>\$ 217,609,471.91</u>	100.00%	<u>\$ (13,470,920.62)</u>	-1.15%

Local revenues increased by \$365,191.06. The increase in local revenue was predominately due to the increase in local tax levy.

The increase of \$363,116.66 in federal sources is attributed to the fact that the district expended more of its federal special revenue funding in 2019 as compared to 2018.

The decrease of \$14,199,228.34 in state sources revenue is attributed to the fact that the district received less in State Aid funding in 2019 relating to Capital Projects as compared to 2018.

The following schedule represents a summary of general fund and special revenue fund expenditures for the year ended June 30, 2019, and the percentage of increases and decreases in relation to prior year amounts:

<u>Expenditures</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from 2017</u>	<u>Percent of Increase (Decrease)</u>
Current expense:				
Instruction	\$ 72,081,745.53	32.36%	\$ 527,467.97	0.74%
Undistributed expenditures	143,551,169.70	64.44%	6,496,354.15	4.74%
Capital Outlay	7,136,975.88	3.20%	(16,224,456.33)	-69.45%
Total	<u>\$ 222,769,891.11</u>	100.00%	<u>\$ (9,200,634.21)</u>	-3.97%

Changes in expenditures were the results of varying factors.

Instruction increased due to a increase in expenses related to salaries and other purchased services.

Undistributed expenditures increased due to an increase in employee benefits and Student Transportation.

Capital outlay decreased due to completion of construction projects were underway in the prior year.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- Transfers were made to reflect the movement of teachers from one classification to another.
- Tuition costs for Disabled Students were less than originally anticipated.

Capital Assets

At the end of the year 2019, the School District had \$183,782,655.23 invested in land, building, furniture and equipment, and vehicles. Table 4 shows year 2019 balances compared to 2018.

**Table 4
Capital Assets (Net of Depreciation) at June 30,**

	2019	2018
Land	\$ 6,760,512.13	\$ 6,760,512.13
Construction in Progress	54,401,809.95	49,123,140.48

Total	\$ 183,782,655.23	\$ 184,714,283.28

Overall capital assets decreased \$931,628.05 from year 2018 to year 2019. The decrease in capital assets is due to depreciation charges being more than NJSDA capital expenditures made on behalf of the district. Please refer to Notes to the Financial Statements for more detailed information.

Debt Administration

At June 30, 2019, the School District had \$70,425,507.97 of outstanding debt.

Of this amount, \$6,664,971.97 is for compensated absences, \$704,232.00 is for Post-Employment Benefits, \$56,056,304.00 is for the Net PERS Pension Liability and \$7,000,000.00 is for the State Aid Loan.

For the Future

The City of Vineland School District is in good financial condition presently. The School District is proud of its community support of the public schools.

In conclusion, the City of Vineland School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the period.		
Depreciation Expense	(6,326,039.56)

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations and sick pay) and post employment benefits are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

Notes to the Financial Statements

**CITY OF VINELAND BOARD OF EDUCATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Vineland School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education (Board) of the City of Vineland School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in GAAP and used by the District are discussed below.

Description of the Reporting Entity - The City of Vineland School District (hereafter referred to as the "School District") is a Type II district located in the County of Cumberland, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three member's terms expire each year. The purpose of the School District is to educate students in grades Pre-School through 12.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial inter-dependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School District over which the Board exercises operating control.

The School District is not includable in any other reporting entity on the basis of such criteria.

Component Units - GASB Statement No. 14, The Financial Reporting Entity, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units. The financial reporting entity consists of the primary government, as well as its component unit the City of Vineland Education Foundation, Inc. (the Foundation).

The Foundation is a legally separate, not-for-profit organization which is considered a component unit of the District. The purpose of the City of Vineland Education Foundation Inc. is to improve the quality of education provided in the Vineland Public Schools including but not limited to the administration and funding of the Gaining Early Awareness & Readiness for Undergraduate Programs (GEAR UP). The Foundation offers students in the Vineland School District college scholarships to further their academic careers. The first scholarship was issued in September 2006 for the first of eight payment years to students. The Foundation has obtained tax-exempt status from the IRS.

The Foundation is a private not-for-profit organization that reports its financial results under Financial Accounting Standards Board (FASB) Statements. Most significant to the Foundation's operation and reporting model are FASB Statement No. 116 Accounting for Contributions Received and Contributions Made, and FASB Statement No. 117 Financial Reporting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the District's financial reporting entity for these differences.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Basis of Presentation - The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described in this note.

The School District's basic financial statements consist of government-wide statements, including a statement of Net Position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds and component units fiduciary in nature. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The statement of net position presents the financial condition of the governmental and business-type activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings, and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Permanent Fund - The permanent fund is used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the School District's programs, that is, for the benefit of the School District or its students as a whole. The School District maintains a Scholarship fund for the purpose of awarding scholarships to graduating seniors in the name of William Simpson.

Proprietary Funds - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those found in the private sector.

Enterprise Funds - The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that the costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges.

The School District's enterprise fund is:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net position) is segregated into investment in capital assets, net of related debt, and unrestricted net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment	15 Years
Trucks and Vehicles	8 Years

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Pension trust funds are used to account for resources held in trust for employees and their beneficiaries based on defined benefit pension agreements, defined contribution agreements, other postemployment benefit agreements, and other employee benefit arrangements. Investment trust funds are used to report the external portion of an investment pool as defined in GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. Private-purpose trust funds are used to account for the principal and income for all other trust arrangements that benefit individuals, private organizations, or other governments. Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and / or other funds (i.e., payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The School District has a private-purpose scholarship fund, a student activity fund, and a payroll fund fiduciary funds.

Measurement Focus - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position.

For the fund financial statements, all governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation, with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting - Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

For fund financial statements, all governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds, like the government-wide financial statements, use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue and the presentation of expenses versus expenditures.

Recognition of Revenue - Revenue resulting from exchange transactions, which are defined as transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. For the governmental fund financial statements, which are prepared on the modified accrual basis, however, such revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days after fiscal year end.

Revenue resulting from non-exchange transactions, which are defined as transactions in which the School District receives value without directly giving equal value in return, includes Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (property) taxes are susceptible to accrual. As under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The School District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of the restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. Restricted formula aids, which include Preschool Education Aid, are recorded in the

special revenue fund in accordance with The Audit Program promulgated by the New Jersey Department of Education, which requires that these grants be realized in an amount equal to program expenditures.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: tuition, grants, fees, and rentals.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as unearned revenue. The measurement focus of governmental fund financial statements is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets/Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the New Jersey Department of Education for approval. Budgets are prepared using the modified accrual basis of accounting. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with the statutes.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only, and the special revenue fund. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. The budget, as detailed on Exhibit C-1 and Exhibit C-2 includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting, as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule, to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances - governmental funds. Note that the School District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows the modified accrual basis of accounting, with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrance accounting, purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, are reflected on the balance sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Tuition Receivable - Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Tuition Payable - Tuition charges were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

Short-Term Interfund Receivables/Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the School District, and that are due within one year. These amounts are eliminated in the government wide financial statements, except for the net residual amounts due between governmental and business type activities, which are presented as interfunds receivable and / or interfunds payable on the statement of net position.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the governmental fund financial statements. Capital assets utilized by the proprietary funds, however, are reported both in the business-type activities column of the government-wide statement of net position and the proprietary fund statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000.00. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	
Land Improvements	20 Years
Buildings and Improvements	20-50 Years
Machinery & Equipment	5-20 Years

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In the proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and Public Employee Retirement System (PERS) and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the TPAF and PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position - Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. It is the School District's policy to apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Balance - The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

**CITY OF VINELAND BOARD OF EDUCATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019
(CONTINUED)**

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District’s highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned - The assigned fund balance classification includes amounts that are constrained by the School District’s intent to be used for specific purposes but are neither restricted nor committed.

Unassigned - The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, and then unassigned.

Operating and Non-Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for the food service program. Non-operating revenues principally consist of interest income earned on various interest-bearing accounts. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund.

Interfund Activity - Transfers between governmental and business-type activities on the government wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures / expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Accounting for Previous Abbott Districts - As a result of the May 21, 1998 Abbott v. Burke Supreme Court decision, each Abbott district was required by the 2001-2002 school year to implement whole school reform (WSR). WSR is a complete restructuring of an entire school, putting in place a series of programs and strategies that have been proven by research to be effective. Beginning with the 1999-2000 budget, Abbott districts were required to submit school-based budgets for their schools included in the first cohort for implementation of WSR in addition to their district-wide budgets for all appropriations. The Vineland Board of Education was considered an Abbott District. Beginning in fiscal year 2000, a "Blended Resource Fund (Fund 15), a sub-fund of the general fund, was created to allow budgeting of school-level appropriations and accounting for school-level expenditures. This has resulted in specific schedules in the annual Comprehensive Annual Financial Report (CAFR) which report on Fund 15 activity. For years subsequent to June 30, 2008 the State of New Jersey eliminated the Abbott District designation and changed the funding formula for State Aid to all New Jersey School Districts. This change did not have an effect on the reporting requirements of those Districts formerly known as Abbott.

Recent Accounting Pronouncements Not Yet Effective

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, "Fiduciary Activities". This statement is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the District's financial reporting.

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, "Leases". This statement is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the District's financial reporting.

In March 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 88 "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements". This statement, which is effective for fiscal periods after June 15, 2018, will not have any effect on the District's financial reporting.

In June 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 89, "Accounting for Interest Costs Incurred Before the End of a Construction Period". This statement, which is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the District's financial reporting.

In August 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 90, "Majority Equity Interest – an amendment of GASB Statement No. 14 and No. 61". This statement, which is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the District's financial reporting.

In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, "Conduit Debt Obligations". This statement is effective for fiscal periods beginning after December 15, 2020, will not have any effect on the District's financial reporting.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, athletic and student activity funds, or funds that may pass to the School District relative to the happening of a future condition. Such funds are shown as uninsured and uncollateralized in the schedule below.

As of June 30, 2019, the School District's bank balances of \$14,302,385.40 were exposed to custodial credit risk as follows:

Insured by FDIC	\$ 500,000.00
Collateralized by GUDPA	10,882,393.25
Uninsured & Uncollateralized	2,919,992.15
	\$ 14,302,385.40

Note 3: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District by inclusion of \$408,050.00 in the original 1992-93 annual capital outlay budget, which was certified for taxes, for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

There was no activity in the capital reserve for the July 1, 2018 to June 30, 2019 fiscal year.

Note 8: PENSION PLANS

A substantial number of the School District's employees participate in one of the following defined benefit pension plans: The Teachers' Pension and Annuity Fund and the Public Employees' Retirement System, which are administered by the New Jersey Division of Pensions and Benefits. In addition, several School District employees participate in the Defined Contribution Retirement Program, which is a defined contribution pension plan. This too is administered by the New Jersey Division of Pensions and Benefits. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund (TPAF) is a cost sharing contributory defined benefit pension plan which was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66. The TPAF provides retirement, death, and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 18A:66. The contribution requirements of plan members are determined by State statute. In accordance with Chapters 113, 114 and 115, P.L. 1997, plan members enrolled in the TPAF were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members were required to contribute 5.5% of their annual covered salary. For employees enrolled in the retirement system prior

to July 1, 2007, the increase is effective with the payroll period that begins immediately after July 1, 2007. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate will be increased to 6.5% plus an additional 1.0% phased-in over seven years beginning in the first year, the rate for 2018/2019 was 7.50%. The phase-in of the additional incremental member contribution amount will take place in July of each subsequent year. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, the statute also requires the return to the normal rate when such surplus pension assets no longer exist.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers.

The following payments were made by the state on behalf of the district for the last three years:

Year		
06/30/19	\$	18,851,387.00
06/30/18		16,438,040.00
06/30/17		14,043,070.00

During the fiscal year ended June 30, 2019, the State of New Jersey contributed \$18,851,387.00 to the TPAF for normal and post-retirement benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the District \$4,577,213.81 during the year ended June 30, 2019 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the financial statements, and the combining and individual fund statements and schedules as a revenue and expenditure.

Public Employees' Retirement System - The Public Employees' Retirement System (PERS) is a cost sharing multiple-employer defined benefit pension plan which was established as of January 1, 1955. The PERS provides retirement, death, and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employees' Retirement System were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. For employees enrolled in the retirement system prior to July 1, 2008, the increase is effective with the payroll period that begins immediately after July 1, 2007. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate will be increased to 6.5% plus an additional 1.0% phased-in over seven years beginning in the first year, the rate for 2018/2019 was 7.50%. The phase-in of the additional incremental member contribution amount will take place in July of each subsequent year. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, the statute also requires the return to the normal rate when such surplus pension assets no longer exist.

The School District is billed annually for its normal contribution plus any accrued liability. The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

Year		
06/30/19	\$	2,907,217.32
06/30/18		2,806,229.93

Defined Contribution Retirement Program - The Defined Contribution Retirement Program (DCRP) is a cost-sharing multiple-employer defined contribution pension fund which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et. seq.), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP. The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq. The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary.

Significant Legislation - Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Teacher's Pension and Annuity Fund (TPAF) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS and TPAF hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the systems is increased from age 63 to 65 for Tier 5 members.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years. For fiscal year 2014, the member contribution rates increased in October 2013. The phase-in of the additional incremental member contribution rates for PERS members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS and TPAF from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS and TPAF to $\frac{1}{60}$ th from $\frac{1}{55}$ th, and it provided that new members of PERS and TPAF have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS and TPAF will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. The law also requires the State to make its full pension contribution, defined as $\frac{1}{7}$ th of the required amount, beginning in fiscal years 2013.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS and TPAF with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

Note 9: PUBLIC EMPLOYEES' RETIREMENT SYSTEM NET PENSION LIABILITY

At June 30, 2019, the District reported a liability of \$56,056,304.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was 0.28470148910%, which was a decrease of 2.49% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$1,339,990.00. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,069,002.00	289044
Changes of assumptions	9,237,150.00	17,923,825.00
Net difference between projected and actual earnings on pension plan investments		525,810.00

District contributions subsequent to the measurement date		
Total	\$ 10,306,152.00	\$ 23,748,010.00

\$2,831,860.00 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (June 30, 2018) will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions, applied to all period in the measurement:

Inflation rate	2.25%
Salary increases:	
Through 2026	1.65% - 4.15% (based on age)
Thereafter	2.65% - 5.15% (based on age)
Investment rate of return:	7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflations. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$	-
State's proportionate share of the net position liability associated with the District		420,969,829.00
Total	\$	420,969,829.00

The net pension liability was measured as of June 30, 2018 and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2018, the District's proportion was 0.00%, which was no change from its proportion measured as of June 30, 2017.

Note 11: POST-RETIREMENT BENEFITS

The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirement. In Fiscal Year 2018, the State paid PRM benefits for 148,401.00 State and local retirees.

The State funds post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2018, the State contributed \$1.909 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The increase in the State's pay-as-you-go contribution between Fiscal Year 2017 and Fiscal Year 2018 is attributed to rising health care costs, and increase in the number of participants qualifying for State-paid PRM benefits at retirement and larger fund balance utilization in Fiscal Year 2017 than in Fiscal Year 2018. The Fiscal Year 2019 Appropriations Act includes \$1.921 billion as the State's contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. As such, the Fiscal Year 2017 total State OPEB liability to provide these benefits has been re-measured to \$97.1 billion, an increase of \$60.6 billion or 166 percent from the previous year's \$36.5 billion liability booked in accordance with GASB Statement No. 45. For Fiscal Year 2018, the total OPEB liability for the State is \$90.5 billion, a decrease of \$6.6 billion or 7 percent from the re-measured total OPEB liability in Fiscal Year 2017.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 53, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Total OPEB Liability

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportional share percentage determined under paragraphs 193 and 203 through 205 of GASBS no. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education. Note that actual numbers will be published in the NJ State CAFR at <https://www.nj.gov/treasury/omb/cafr.shtml>.

Actuarial assumptions and other imputes:

The total OPEB liability in the June 30, 2018 actuarial valuation reported by the State in the State's most recently issued CAFR was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate: The discount rate basis under GASB 75 is required to be consistent with a 20-Year Municipal Bond Index. The Bond Buyer General Obligation 20-Bond Municipal Bond Index is used for the determination of the discount rate. The discount rate will be based on this index rate that is reported on the last Friday prior to the measurement date.

The discount rates as of June 30, 2016, 2017, and 2018 are 2.58%, 3.58%, and 3.87%, respectively.
Health Care Trend: For pre-Medicare PPO medical benefits, the initial amount is 5.8% and decreases to 5.0% long term trend rate after 8 years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For HMO medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after 8 years. For prescription drug benefits, the initial trend rate is 8% decreasing to a 5.0% long-term trend rate after 7 years.

Salary Scale: The salary scale assumptions in the calculation of Entry Age Normal (Level Percent) liability and normal costs will be consistent with the salary scale assumptions used in the pension plans and the calculation of the retiree health contributions for current and future retirees who are subject to Chapter 78. The PERS and TPAF pension actuarial reports are used for the fiscal year ending June 30, 2018.

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Bond Index.

Mortality rates were based on RP-2006 headcount-weighted mortality table for healthy and disabled lives with fully generational mortality improvement projections from the central year using Scale MP-2017.

Pre-retirement Healthy Mortality: RP-2006 headcount-weighted healthy employee male/female mortality table with fully generational mortality improvement projections from the central year using scale MP-2017.

Post-retirement Healthy Mortality: RP-2006 headcount-weighted healthy annuitant male/female mortality table with fully generational improvement projections from the central year using scale MP-2017.

Disabled Mortality: RP-2006 headcount-weighted disabled male/female mortality table with fully generational improvement projections from the central year using scale MP-2017.

Note 12: DEFERRED COMPENSATION

The School District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrators are as follows:

Ameriprise AXA Equitable Metlife State of New Jersey, Department of Treasury, Division of Pensions, Supplemental Annuity	GWN Marketing Security Benefit Lincoln Investment
-----------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------

Note 13: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability and surety bonds. During the fiscal year ended June 30, 2019 the District did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District’s expendable trust fund for the current and prior year:

Note 14: COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employees' unions.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. As of June 30, 2019, the liability for compensated absences in the governmental activities and proprietary fund types was \$6,416,051.83 and \$248,920.14, respectively.

Note 15: INTERFUND BALANCES AND TRANSFERS

The following interfund balances were recorded on the various balance sheets as June 30, 2019:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 6,140,190.89	\$ 21,917.09
Special Revenue Fund		4,034,569.73
Unemployment Fund		28,562.07
Enterprise Fund		2,055,142.00
Total	<u>\$ 6,140,190.89</u>	<u>\$ 6,140,190.89</u>

Interfunds were created throughout the year due to short term borrowings to cover cash flow needs in the various funds and to cover cash overdrafts for pooled funds. The governmental fund interfunds were eliminated in the governmental-wide statements.

Note 16: DEFICIT FUND BALANCES

The School District has a deficit in Unassigned Fund Balance of \$6,011,367.17 in the governmental funds as of June 30, 2019 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the general and special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unassigned general fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered a violation of New Jersey statute and regulation nor in need of corrective action. The School District deficit in the GAAP funds statements is equal to (or) is less than the June state aid payments.

Note 17: DEFICIT UNRESTRICTED NET POSITION

The School District had a deficit in unrestricted net position of \$83,838,054.10 as of June 30, 2019. This deficit was attributable to the Net Pension Liability, the liability for compensated absences as well as the June State Aid Payment as noted above.

Note 18: FUND BALANCES

NONSPENDABLE - As stated in note 1, the nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The nonspendable fund balances of the School District, as of June 30, 2019, are summarized as follows:

Permanent Fund - On December 1, 1978, the School District was the beneficiary of a distribution from an estate. In accordance with the terms of the distribution, the principal is to be invested and the income only, derived there from, is to be used solely for student scholarships. As of June 30, 2019, the nonspendable fund balance amount was \$26,867.83.

RESTRICTED - As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund –

For Excess Surplus - In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance - excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2019 is \$8,015,368.53. \$2,226,590.32 of excess fund balance generated during 2017-2018 has been restricted and designated for utilization in the 2019-2020 budget.

For Capital Reserve Account - As of June 30, 2019, the balance in the capital reserve account is \$0.00. These funds are restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan (LRFP).

For Maintenance Reserve Account - As of June 30, 2019, the balance in the maintenance reserve account is \$776.77. These funds are restricted for expenditures related to required maintenance of buildings and facilities.

UNASSIGNED - As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund and Special Revenue Fund- As of June 30, 2019, the general fund and special revenue fund balance unassigned classification contained deficits totaling \$6,573,914.14. As discussed in Note 16, this is a direct result of the delay in the June payments of state aid until the following fiscal year, is not considered a violation of New Jersey statute and regulation nor in need of corrective action.

Note 19: OTHER POSTEMPLOYMENT BENEFITS (OTHER THAN THOSE IN NOTE 11)

Plan Description - The District provides prescription drug, dental and vision care coverage to administrators, supervisors and key support staff of the school district. The employee must have at least twenty (20) years of service in the District and must retire from active service to receive the benefits. Plan members are not required to make any contributions to the plan. Coverage ends when the retiree reaches age 70 or dies, if earlier. Spouses and dependent children of participating retirees are also eligible for coverage. Spouses and eligible dependents that choose to continue the coverage after the retiree's death must pay the COBRA rate, which is based on the combined experience of both actives and retirees. The State of New Jersey and the District have the authority to change benefit levels. Any changes in benefits are subject to collective bargaining.

The plan type is a single employer, defined benefit OPEB plan.

Medical insurance and life insurance are provided through the state pension plan. This insurance is provided by the State of New Jersey and is therefore not an obligation of the District.

Funding Policy – As of July 1, 2019, no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75. Payments to the insurance company on behalf of retirees are made monthly during the fiscal year.

The School District presently funds its current retiree postemployment benefit costs on a “pay-as-you-go” basis. The School District's contributions to the Plan for the fiscal year ended June 30, 2019, 2018 and 2017 were \$27,344.00, \$27,344.00 and \$37,000.00, respectively.

Employees covered by benefit terms:

At June 30, 2019, 37 employees were covered by the benefit terms.

Total OPEB Liability

The District recognized \$704,232.00 of OPEB liability on the Statement of Net Position.

Actuarial assumptions and other imputes:

The total OPEB liability in the June 30, 2018 actuarial valuation reported was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

(1) Discount rate

3.0% compounded annually, net of investment expenses. This rate is based on the index rate for 20-year tax-exempt high-quality municipal bonds with average ratings of AA/Aa or higher.

(2) Mortality- The following RP-2014 Mortality Tables (Male/Female) are used:

- (a) Pre-retirement - RP-2014 Employee Mortality Table with a one-year age setback to reflect expected mortality improvement.
- (b) Post-retirement - RP-2014 Healthy Annuitant Mortality Table with a one year age setback to reflect expected mortality improvement.

(3) Disablement Rates - None.

Note 19: OTHER POSTEMPLOYMENT BENEFITS (OTHER THAN THOSE IN NOTE 11) - Continued

(4) Termination Rates - Sarason T-2 less deaths (per 1951 GAM table). Sample rates are as follows:

<u>Age</u>	<u>Male and Female</u>
25	5.29%
30	5.07%
35	4.70%
40	3.50%
45	1.77%
50	0.40%
55	0.00%
60	0.00%

(5) Plan Administrative Expenses

No administrative expense loading is used because administrative expenses are already incorporated into the healthcare premium rates.

(6) Retirement Ages

All eligible employees are assumed to retire at age 58 or 20 years of service, if later. Employees who have already met these requirements are assumed to retire on the valuation date.

(7) Marriage/Family

Based on the current retiree census, 80% of the active participants are assumed to be married at retirement and 5% are assumed to elect family coverage for dental benefits. Males are assumed to be three years older than females.

(8) Ages

Age nearest birthday as of the Valuation Date.

(9) Healthcare Cost Trend Rates

After the valuation date, all postemployment prescription drug rates are assumed to increase 9% in the first year with a 1 % decline in each subsequent year to an ultimate rate of 5% in the fifth year. Dental and vision care premiums are assumed to increase 3% per year.

(10) Benefit Accrual

All employees are assumed to earn a full year of service for benefit eligibility purposes in each future year.

(11) Current Average Monthly Premium Rates

	Flagship Dental	Premier Dental	RX	Vision Care
Single	\$ 27.26	\$ 34.04	\$ 248.92	\$ 7.46
Parent / Child	\$ 52.11	\$ 56.47	\$ 518.35	\$ 14.86
Parent / Children	\$ 87.19	\$ 108.92	\$ 518.35	\$ 14.86
Husband / Wife	\$ 52.11	\$ 56.47	\$ 518.35	\$ 14.86
Family	\$ 87.19	\$ 108.92	\$ 518.35	\$ 14.86

The premium rates do not change at age 65 because none of these coverages are subsidized by Medicare. All future retirees are assumed to elect the Premier Dental Plan.

(12) Election of Coverage

100% of eligible administrators, supervisors and eligible support staff under age 70 are assumed to elect the postemployment coverage provided by this plan, of which 5% are assumed to retire with at least 20 but less than 25 years of service and receive prescription drug coverage from this plan and not the State Health Benefits Plan (SHBP).

(13) Salary Scale

3.0% per year for illustrations of level percentage cost methods.

(14) Implicit Rate Subsidies

The health care premiums are the same for actives and retirees, in which case the actives are subsidizing the retirees, who have higher health care costs. The cost to the retirees was therefore assumed to be 154.0% of the premium rates that are charged by the insurer for prescription drug coverage and 126% for dental coverage. No implicit rate subsidies are applied to vision care coverage.

The assumptions listed above are based on the presumption that the plan will continue. The actuarial assumptions are selected based on a long-term perspective. The assumptions are estimates only and may be periodically reviewed and revised in light of developing experience.

PROPRIETARY FUND DETAIL STATEMENTS

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the district's board is that the costs of providing goods or services be financed through user charges.

Food Service Fund - This fund provides for the operation of food services in all schools within the school district.

**THIS SECTION HAS ALREADY BEEN INCLUDED IN STATEMENTS
B-4, B-5 AND B-6.**

FIDUCIARY FUNDS DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the school district for a specific purpose.

Unemployment Compensation Fund - This Trust Fund is an expendable trust fund and limits expenses set aside for this purpose in current and prior budgets and contributions from employee withholding in prior years.

Agency funds are used to account for assets held by the school district as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Fund - This agency fund is used to account for student funds held at the schools.

Payroll Fund - This agency fund is used to account for the payroll transactions of the school district.

Real property is required to be assessed at some percentage of true value (fair or market value) established by each county board of taxation.

Reassessment occurs when the County Board of Taxation requests Treasury to order a reassessment.

^a Commercial/Industrial/Pollution Exemptions are not segregated and therefore are being divided equally between these classes for all years shown

Independent Auditor's Report

The Honorable President and
Members of the Board of Education
City of Vineland School District
County of Cumberland, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Vineland School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City of Vineland School District's basic financial statements, and have issued our report thereon dated December 13, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Vineland School District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the City of Vineland School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Vineland School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Honorable President and
Members of the Board of Education
City of Vineland School District
County of Cumberland, New Jersey

Report on Compliance for Each Major Program

We have audited the City of Vineland School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* and the New Jersey *State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the City of Vineland School District's major federal and state programs for the year ended June 30, 2019. The City of Vineland School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Uniform Guidance and NJ OMB 15-08. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the City of Vineland School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the City of Vineland School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs as identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned costs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the City of Vineland School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Vineland School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJ OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and NJ OMB 15-08. Accordingly, this report is not suitable for any other purpose.

The accompanying Note to the Schedules of Expenditures of Awards and Financial Assistance are an integral part of this schedule.

**CITY OF VINELAND SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS
AND FINANCIAL ASSISTANCE
FOR THE YEAR ENDED JUNE 30, 2019**

NOTE 1. GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, City of Vineland School District. The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal and state assistance received directly from federal and state agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10% de minimis indirect cost rate.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of revenue recognition of the last two state aid payments in the current budget year, which is mandated pursuant to P.L. 2003,c.97.(A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$5,976.00) for the general fund and \$260,910.06 for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the GAAP basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Local</u>	<u>Total</u>
General Fund	\$ 468,160.41	\$ 159,902,223.81	\$	\$ 160,370,384.22
Special Revenue Fund	7,753,510.78	18,140,264.91	863,872.00	26,757,647.69
Capital Projects Fund		5,278,669.47		5,278,669.47
Food Service Fund	5,119,717.10	59,869.99		5,179,587.09
Total	<u>\$ 13,341,388.29</u>	<u>\$ 183,381,028.18</u>	<u>\$ 863,872.00</u>	<u>\$ 197,586,288.47</u>

The On-Behalf Pension Contributions made for the district by the State of New Jersey are recognized as revenue in the basic financial statements, but are not considered in the major program determination.
