BRIAN WOLFERMAN
BUSINESS ADMINISTRATOR/BOARD SECRETARY

December 20, 2019

Honorable President and Members
of the Board of Education
Woodbridge School District
County of Middlesex, New Jersey

Dear Board Members:

The comprehensive annual financial report (CAFR) of the Woodbridge Township School District for the fiscal year ended June 30, 2019, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart, and a list of principal officials. The financial section includes the independent auditor's report, management's discussion and analysis, the basic financial statements, and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

1. **Reporting Entity and its Services:** Woodbridge School District is an independent reporting entity within the criteria adopted by the GASB in codification section 2100. All funds and account groups of the District are included in this report. The Woodbridge Township Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular as well as special education for handicapped youngsters. The District operated during the 2018-2019 fiscal year with an average daily enrollment (ADE) of 13,729 students. The following details the changes in the student enrollment of the district over the last four years.

Average Daily Enrollment

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2018-2019	13,729	0.43%
2017-2018	13,670	-0.42%
2016-2017	13,727	0.22%
2015-2016	13,697	0.82%

Major Initiatives:

1.) Curriculum: The Woodbridge Township School District continues to provide a challenging curriculum that prepares our students for success and significance in college and careers. We have supplemented our curriculum by expanding our Syracuse University and Middlesex County College dual-enrollment course offerings. We have expanded our course offerings in STEM classes. We refreshed our elementary math curriculum to align with the New Jersey Student Learning Standards. We also expanded our technology offerings at the middle and high school levels. Grade 8 students participate in a student 1:1 device initiative with an iPad. Grades 9-12 students now participate in a student 1:1 device initiative with a touchscreen Chromebook. We continue to expand our iTunes University courses to effectively engage students and improve learning. We are also developing digital curricula in the Google environment. We are proud of our commitment to our arts programs by providing additional funding to our fine arts and marching band programs at our three high schools.

2.) Technology: We remain committed to expanding our schools and curriculum to provide technology infused learning. Our district-wide fiber optic infrastructure project is nearing completion. Our goal is to connect all of our schools to our servers via district owned, high-speed fiber optics. We will be increasing our bandwidth exponentially while abandoning costly, inefficient copper phone lines. We continue to expand our technology in academic, non-academic and technology based courses. AP Computer Science, Video Game Design, and Computer Hardware are some new courses that we offer. Our advancing with Apple and Google Gurus courses offers students the opportunity to earn certifications from Apple and Google. We are especially proud of our new CAD lab at John F. Kennedy Memorial High School as well as the successful rollout of a 1:1 student device initiative in grades 8-12.

3.) School Safety: Realizing that our most important responsibility is to provide a safe learning environment for our students and staff, we have expanded and upgraded our security at all locations. These upgrades include; increasing police contact with schools, increasing the number of security cameras district-wide, improving our building screening capabilities, and increasing our security staff. Our school/police cooperation continues to ensure best practice safety protocols.

2. Management's Responsibility for Financial Reporting: The management of the school district is responsible for the preparation of the financial statements included within the CAFR and for their integrity and objectivity. In order to enable the District to fulfill its obligation for accurate and fair financial reporting, management is also responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognized that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

3. Budgetary Controls: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reserved fund balance at June 30, 2019.

4. Accounting System and Reports: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.
5. Financial Information at Fiscal Year-End: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. Information related to the District's financial statements and condition is found in the Financial Section and Statistical Section of this report.

The following schedule presents a summary of the general fund and special revenue fund for the fiscal year ended June 30, 2019 based on the budgetary basis and the percentages of increases in relation to prior year revenues.

Total	<u>256,422,477</u>	<u>100.00%</u>	<u>13,466,471</u>		

6. Cash Management: The Business Administrator/Board Secretary is authorized by Board of Education Policy #3290 to periodically invest funds in order to earn the maximum legal amount of interest. It is the responsibility of the Business Administrator/Board Secretary to prepare a monthly interest and investment report that is approved by the Board of Education at its regular public meeting.

The Board of Education, as required by the Governmental Unit Deposit Protection Act ("GUDPA"), only deposits funds in public depositories located in New Jersey. Prior to doing business with any banking institution, the institution provides a Notification of Eligibility which states that they are eligible to act as a depository of public funds.

7. Risk Management: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents fidelity bonds, health insurance benefit plan and workers' compensation fund. See Exhibit J-20 in the statistical section for details of the forms of insurance carried by the Board of Education for the 2018-2019 school year.

North American Insurance Management Corporation, 6 Dickinson Drive, Building 300, Suite 302, Chadds Ford, Pennsylvania, provided consultant services to the Board of Education for the following insurance: property and casualty, general liability, boiler, errors and omissions, vehicle, surety bonds, worker's compensation, and employee benefits liability. Additionally, North American Insurance Management Corporation assists the district's administration in the areas of casualty loss control, property loss control, and administration.

8. Other Information: State statute 18A:23-1 requires that the Board of Education has an annual audit performed at the end of each fiscal year. The audit shall include an audit of the books, accounts, and monies, as well as a verification of all cash and bank balances. The audit also includes monies derived from athletic events and the activities of any organization of public school pupils conducted under the auspices of the Board.

This audit also includes a determination of the compliance and extent to which the school board has used contracts entered into by the State Division of Purchase and Property for the purchase of materials, supplies, or equipment for the school district. The annual audit shall only be performed by a registered municipal accountant or a certified public accountant who holds an uncanceled registration license as a public school accountant for the State of New Jersey.

For the fiscal year ending June 30, 2019, the annual audit was performed by the accounting firm of Hodulik & Morrison, P.A. a division of PKF O'Connor Davies LLP, Certified Public Accountants.

9. Acknowledgments: We would like to express our appreciation to the members of the Woodbridge School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the School Accountant and Board of Education office staff. We would also like to acknowledge the cooperation of Hodulik & Morrison, P.A. a division of PKF O'Connor Davies, LLP.

Respectfully submitted,

Brian Wolferman

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Woodbridge Township School District, County of Middlesex, New Jersey (the "District"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of the District's proportionate share of the net pension liability-PERS, schedule of District contributions-PERS, schedule of the State's proportionate share of the net pension liability associated with the District-TPAF, schedule of State's proportionate share of the OPEB liability associated with the District and budgetary comparison information as presented in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

**The Honorable President and Members
of the Board of Education
Woodbridge Township School District
Woodbridge, New Jersey**

Page 3

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, and are also not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

of the Board of Education
Woodbridge Township School District
Woodbridge, New Jersey**

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Woodbridge Township School District

Management's Discussion and Analysis Year Ended June 30, 2019

As management of the Woodbridge Township School District, we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented, in conjunction with additional information that we have furnished in our letter of transmittal.

Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Certain comparative information between the current fiscal year (2018-2019) and the prior fiscal year (2017-2018) is presented in the MD&A.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred outflows of resources, deferred inflows of resources and liabilities of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements can be found on pages 27 - 28 of this report.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund, special revenue fund, capital projects fund, debt service fund and permanent fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund, special revenue fund and debt service fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 31 - 33 of this report.

Proprietary funds. The District maintains two proprietary fund types. Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the operations of its food service program and its latchkey program, which are considered major funds of the District. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 35 - 37 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District uses agency funds to account for resources held for student activities and groups, and payroll related liabilities. The District also has an unemployment compensation fund and a private-purpose scholarship fund. The basic fiduciary fund financial statements can be found on pages 39 - 40 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 41 - 77 of this report.

Other information. The combining statements referred to earlier in connection with governmental funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found on pages 96 - 119 of this report.

Financial Highlights

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The following table provides a summary of net position relating to the District's governmental and business-type activities at June 30, 2019 and 2018:

Woodbridge Township School District

Key financial highlights for the 2018-2019 fiscal year include the following:

- Net position increased \$5,923,301.73 resulting from an increase in the local tax levy and as a result of funding for debt service state aid and continued fiscal constraint and control over expenditures.
- Consistent with the prior year, the State withheld the school district's fiscal 2018-2019 last two state aid payments until July 2019.

Significant changes to deferred outflows and deferred inflows of resources pertain primarily to the impact of the changes in the GASB 68 net pension liability calculation performed by the State of New Jersey. The changes in 2019 from the prior year resulted from changes in assumptions calculated by the actuary in conjunction with the net pension liability calculation for the measurement date of June 30, 2018 and rolled forward to June 30, 2019. The net pension liability associated with the District's governmental activities at June 30, 2019 amounted to \$41,780,401.00 also decreased in the amount of \$8,034,714.00 resulting from changes in the net pension calculation. Long-term liabilities increased by bonds issued in the amount of \$28,322,000.00, capital leases entered into in the amount of \$1,199,889.49 and an unamortized premium in the amount of \$425,900.34 on the bond issuance which took place during the fiscal year under audit. These amounts were offset by bond principal payments in the amount of \$3,190,000.00, capital lease payments of \$2,384,254.64 and current year amortization on bond premiums in the amount of \$282,355.27.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land, construction in progress, building and equipment) net of related debt. The balance of invested in capital assets, net of related debt is the carrying value of capital assets less the amount of the outstanding debt used to finance those assets.

An additional portion of the District's net position (restricted) represents resources that are subject to external restrictions on how they may be used, including funds reserved for emergency reserve and capital reserve.

The remaining deficit balance of unrestricted net position reflects long-term obligations, such as compensated absences and the net pension liability, not invested in capital assets. The deficit (negative) amount is mainly the result of liabilities for compensated absences and the net pension liability without an offsetting asset.

District activities. The key elements of the District's changes in net position for the years ended June 30, 2019 and 2018 are as follows:

Increase (Decrease) net position	5,923,301.73	4,556,402.39	422,419.25	(44,848.05)

Property tax revenue increased \$1,924,442.00 to fund increases to the budget. Included in the State Aid revenue amount is the amount paid by the State on-behalf of the District for TPAF Pension, TPAF Medical Cost and the Employer share of Social Security. This amounts to \$36.9 million in state aid. These amounts also are included in the expenses of the school district.

The increase in business type revenues is the result of an increase in the daily sales and special function revenue for the food service program. Certain fluctuations in the revenues and expenses above are the result of changes in the allocation methods from year to year for employee benefits and on-behalf retiree pensions and medical costs.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The District's fund balance amounts are classified as either restricted, committed, assigned or unassigned.

General Fund

The general fund is the main operating fund of the District. Of the \$47,292,380.21 fund balance in the General Fund, \$20,179,793.86 is restricted as excess surplus – current year \$23,508,315.42 is restricted as excess surplus – prior year, and \$3,604,270.93 is unassigned. Fund balance in the General Fund increased by \$7,217,102.14 from the prior year.

Special Revenue Fund

The special revenue fund is used to track the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes, other than debt service or capital projects. Revenue and expenditures for the current fiscal year remained largely the same as the prior fiscal year. IDEA continues to be the largest grant in the special revenue fund, with expenditures in the current fiscal year of \$3,021,070.49.

Capital Projects Fund

The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure for capital outlays, including the acquisition or construction of major capital facilities and other assets (other than those financed by proprietary funds). There were expenditures of \$30,190,683.35 in the current fiscal year compared to expenditures of \$6,903,726.16 in the prior year. Total fund balance was \$20,126,708.57 and \$21,995,391.92 as of June 30, 2019 and 2018, respectively.

Debt Service Fund

The debt service fund accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds. The fund balance in the debt service fund is \$1.45. As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility of sound financial management.

Permanent Fund

The permanent fund accounts for a sum of equity used to permanently generate payments to maintain established financial obligations. The fund balance in the permanent fund is \$117,451.88.

The following schedule presents a summary of the General Fund, Special Revenue Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2019, and the increases in relation to the prior year:

<u>Revenue</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase from 2018</u>	<u>Percent of Increase</u>
Local sources	\$188,413,804.23	69.80%	\$ 4,548,158.91	2.47%
State sources	75,758,075.74	28.06%	12,993,525.91	20.70%
Federal sources	5,779,419.75	2.14%	(53,770.62)	-0.92%
Total	<u>\$269,951,299.72</u>	<u>100.00%</u>	<u>\$ 17,487,914.20</u>	<u>6.93%</u>

The increase in local sources was primarily the result of an increase in the local tax levy and an additional amount received from the Township in the debt service fund in the amount of \$1,172,224.00. The increase in state sources was mainly attributable to the increase in contributions for TPAF pension and retiree medical contributions the State pays on behalf of the District. The decrease in federal sources is the result of an decrease in IDEA funding.

The following schedule presents a summary of General Fund, Special Revenue Fund and Debt Service Fund expenditures for the fiscal year ended June 30, 2019 and the increases in relation to the prior year:

<u>Expenditures</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) From 2018</u>	<u>Percent of Increase (Decrease)</u>
Current expenditures:				
Instruction	\$ 102,400,383.10	38.96%	\$ 4,196,242.42	4.27%
Support services	149,761,235.71	56.98%	11,711,221.97	8.48%
Debt service:				
Principal	3,190,000.00	1.21%	60,000.00	1.92%
Interest and other charges	3,120,878.29	1.19%	1,064,372.03	51.76%
Capital outlay	4,360,514.89	1.66%	(959,956.17)	-18.04%
Total	<u>\$ 262,833,011.99</u>	<u>100.00%</u>	<u>\$ 16,071,880.25</u>	<u>6.51%</u>

The increase in instruction and support services is mainly the result of an increase in salaries and wages, the cost of benefits as well as an increase in on-behalf TPAF social security, pension and retiree medical contributions, which is also offset by a correlating revenue source. Overall, the District's expenditures increased 6.51%.

Business Type Activities. The focus of the District's business type activities is to provide information on near-term inflows, outflows, and balances of spendable resources related to the operations of its food service program.

The following schedule presents a summary of the Enterprise funds revenues for the fiscal year ended June 30, 2019, and the increases in relation to the prior year:

Revenue	Amount	Percent of Total	Increase (Decrease) from 2018	Percent of Increase (Decrease)
Local sources	\$ 3,327,463.13	52.43%	\$ 534,447.47	19.14%
State sources	59,419.07	0.94%	(3,964.64)	-6.25%
Federal sources	2,959,980.23	46.64%	(118,095.17)	-3.84%
Total	<u>\$ 6,346,862.43</u>	<u>100.00%</u>	<u>\$ 412,387.66</u>	<u>6.95%</u>

The increase in local sources is mainly attributable to an increase in daily sales revenue for the food service program. The decreases in state and federal sources is mainly attributable to the decreases in the state and federal school lunch program reimbursements.

The following schedule presents a summary of the Enterprise fund operating expenses for the fiscal year ended June 30, 2019, and the increases and (decreases) in relation to the prior year:

Expenditures	Amount	Percent of Total	Increase (Decrease) From 2018	Percent of Increase (Decrease)
Cost of sales	\$ 1,985,223.16	33.51%	\$ (129,959.98)	-6.14%
Food costs - food distribution program	325,100.01	5.49%	(29,994.36)	-8.45%
District direct costs	671,122.09	11.33%	158,758.17	30.99%
General supplies	17,827.13	0.30%	10,849.63	155.49%
Miscellaneous costs	308,061.82	5.20%	(147,308.63)	-32.35%
General & administrative - fees	285,946.65	4.83%	7,205.73	2.59%
Salaries	2,145,402.41	36.21%	66,554.27	3.20%
Depreciation	185,759.91	3.14%	9,015.53	5.10%
	<u>\$ 5,924,443.18</u>	<u>100.00%</u>	<u>\$ (54,880)</u>	<u>-0.92%</u>

The decrease in expenditures is as a result of decrease in the participation of the student body in the breakfast and lunch programs with notable increase in such areas as district direct costs and salaries.

Total revenues from local sources increased from the prior year by \$534,447.47 or 19.14% as a result of an increase in daily sales, special functions and community service activities. Total operating expenses decreased from the prior year by \$54,880.00 or 0.92% due to the increase in other purchased services, supplies and materials expenditures.

The net position of the food service fund is comprised of net investment in capital assets of \$647,781.09 and unrestricted net position of \$722,950.72.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2019, the District's governmental activities had capital assets of \$140,925,989.88 (net of accumulated depreciation), including land, construction in progress, school buildings, machinery, equipment and vehicles.

The District's governmental funds' capital assets, net of depreciation consisted of the following at June 30, 2019 and 2018:

	June 30,	
	2019	2018
Land	\$ 5,868,569.00	\$ 5,868,569.00
Construction in progress	44,225,344.11	14,034,660.76
Buildings and building improvements	170,028,902.47	168,320,926.01
Machinery and equipment	31,804,956.64	29,661,627.72
Accumulated depreciation	(111,001,782.34)	(102,791,559.40)
Total capital assets, net	<u>\$ 140,925,989.88</u>	<u>\$ 115,094,224.09</u>

Debt Administration

During the 2019 fiscal year, the District had outstanding long-term liabilities of \$120,546,221.00 of which \$4,498,523.78 was classified as the current portion.

At June 30, 2019 and 2018, the District's governmental activities long-term liabilities consisted of:

	June 30	
	2019	2018
Bonds payable	\$ 109,962,000.00	\$ 84,830,000.00
Unamortized premium on bonds	3,558,163.93	3,414,618.86
Capital leases payable	886,479.88	2,070,845.03
Compensated absences payable	6,139,577.19	6,019,193.32
Total long-term liabilities	<u>\$ 120,546,221.00</u>	<u>\$ 96,334,657.21</u>

Governmental activities long-term liabilities decreased mainly due to the principal payments made on the bonds outstanding and capital leases in addition to the annual amortization of premiums on bonds. More detailed information about the District's long-term liabilities and outstanding debt can be found in Notes 5 to the basic financial statements.

General Fund Budgetary Highlights

The District budget is prepared according to New Jersey Law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

The most significant fund is General Fund. The District in 2018-2019 was able to increase expenditures for classroom instruction, while at the same time increasing its fund balance. The District was able to appropriate \$23,508,315.00 in fund balance for the 2019-2020 school year budget.

For the Future

The Board of Education and Administration are again committed to keeping the school budget at or below the 2% cap. This goal helps ensure that school based taxes are kept at a minimum.

The Administration and the Board are proud to announce that they kept the annual school budget at a 2% increase without eliminating staff or services in the 2018-2019 school year.

The Board of Education and Administration will continue to bring facilities projects to completion. A new Ross Street School #11 will be fully completed in the very near future, as well as an extensive renovation to our Woodbridge Middle School facility. Plans have begun for the construction of a new Avenel Street School #4/5, as well as additions to our Matthew Jago School #28 and Lafayette Estates School #25.

The "District Wide" Solar Initiative continues to prove its success by lowering our annual electric bills and generating solar renewable energy certificates.

The Board of Education and Administration will continue to work with the Municipality on improving our Community use/School use of athletic fields.

The District will continue to budget monies to add security cameras and other security related items at all schools to enhance and ensure the safety of students and staff at all schools.

The District will continue the implementation of new technology across both curriculum and security avenues while taking advantage of e-rate financing.

The Administration and Board of Education will continue to provide a quality education that is both fair and equitable to both the students and taxpayers in Woodbridge Township.

Requests for Information

Our financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the school district's finances and to show the district's accountability for the money it received. If you have questions about this report or wish to request additional financial information, contact Brian Wolferman, Business Administrator/Board Secretary, at Woodbridge Township Board of Education, PO Box 428 School Street, Woodbridge, New Jersey 07095.

The reconciliation of the fund balances of governmental funds to the net position of governmental activities in the statement of activities is presented in an accompanying schedule (B-3).

WOODBIDGE TOWNSHIP SCHOOL DISTRICT
Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances to the Statement of Activities

Year ended June 30, 2019

Total net change in fund balances - governmental funds (from B-2)			\$ 5,342,768.73
Amounts reported for governmental activities in the statement of activities (A-2) are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.			
	Depreciation expense	(8,210,222.94)	
	Capital additions	<u>34,041,988.73</u>	
			25,831,765.79
The issuance of long-term debt for general and refunding purposes provides current financial resources to governmental funds, however has no effect on net position.			
	Bonds issued	(28,322,000.00)	
	Capital lease issued	<u>(1,199,889.49)</u>	
			(29,521,889.49)
The repayment of the principal of long-term debt, including capital lease obligations, consumes the current financial resources of governmental funds. This transaction, however, has no effect on net position.			
	Payment of bond principal	3,190,000.00	
	Capital lease payment	<u>2,384,254.64</u>	
			5,574,254.64
Governmental funds report the effect of premiums and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences.			
	Premium on bonds	(425,900.34)	
	Adjustment to bond issuance costs	(48,190.82)	
	Amortization of premium on bonds	<u>282,355.27</u>	
			(191,735.89)
In the statement of activities, interest on long-term debt/capital leases is accrued, regardless of when due. In the governmental funds, interest is reported when due.			(229,705.18)
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid).			(120,383.87)
Certain expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds			
Pension expense			<u>(761,773.00)</u>
Change in net position of governmental activities (A-2)			<u>\$ 5,923,301.73</u>

1. Summary of Significant Accounting Policies

The Woodbridge Township School District (the "District") is a Type II District located in the County of Middlesex, State of New Jersey. The District functions independently through a nine-member Board of Education. The purpose of the District is to educate students K-12.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the Woodbridge Township School District in Woodbridge, New Jersey. The District receives funding from local, county, state, and federal government sources and must comply with the requirements of these funding source entities.

The District has no component units that are required to be included within the reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The New Jersey Department of Education (NJDOE) has elected to require New Jersey school districts to treat each governmental and proprietary fund as a major fund and each major individual fund is reported as separate columns in the fund financial statements. The NJDOE believes the presentation of all funds as major is important for public interest and to promote consistency among New Jersey School District financial reporting.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for reimbursement grants, the District considers revenues to be available if they are collected within eighteen months of the end of the current period.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, postemployment healthcare benefits and capital leases are recorded only when payment is due.

Property taxes, interest, and state and federal equalization monies associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when the District receives cash.

The District has reported the following major governmental funds:

General Fund: The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay subfund.

Special Revenue Fund: The District maintains one special revenue fund, which includes the proceeds of specific revenue sources (other than major capital projects) that are legally restricted or committed to expenditures for specified purposes. The revenue sources reported in the Special Revenue Fund include resources from the United States government, the State of New Jersey and some local organizations.

Capital Projects Fund: The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to an expenditure to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Debt Service Fund: The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for payments made for principal and interest on long-term general obligation debt of governmental funds.

Permanent Fund: The permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the District's programs.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

The District reports the following major proprietary funds:

Enterprise Fund (Food Service and Latchkey Program): The enterprise fund accounts for all revenues and expenses pertaining to the cafeteria and the latchkey program. The enterprise fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises.

The stated intent is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services on a continuing basis are financed or recovered primarily through user charges.

Additionally, the District reports the following fiduciary fund types:

Fiduciary Funds of the District include the unemployment compensation and private purpose scholarship trust funds and agency funds. The District's agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations. The following is a description of the fiduciary funds of the District.

Trust Funds: The unemployment compensation fund is used to account for contributions from the District and employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. Although there is no formal trust agreement, the State of New Jersey requires school districts to include the unemployment compensation trust as a private-purpose trust fund in the fiduciary fund. The principal and income deposited into this fund are for the sole benefit of specific individuals, former employees, and cannot be used to support the government's own programs. The management of the District is not involved in determining the amounts current employees contribute to the fund or amounts paid out by the fund. That determination is made by the State of New Jersey. Additionally, the unemployment compensation trust fund does not meet the criteria required to be included as an enterprise fund. One of the following criteria would need to be met for inclusion as an enterprise fund: the activity is financed with debt that is secured by a pledge of the revenues charged; laws or regulations require that the activity's cost be recovered with fees and charges, rather than with taxes or similar revenues; the pricing policies of the activity establish fees and charges designed to recover its costs.

1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

These criteria are not met as follows and therefore the unemployment compensation fund is recorded as a trust fund: there is no debt issued related to unemployment compensation claims; laws and regulations do not require that the activity's exceed employee contributions and those employee contributions costs be recovered with fees and charges, in fact, employer contributions greatly are raised through taxation; and lastly pricing policies are not established by the District as employee contributions to the activity are regulated by the State of New Jersey and contributions are raised through payroll taxes. The private purpose scholarship fund is utilized to provide scholarships to students and to account for the related transactions.

Agency Funds (Payroll and Student Activity Fund): The agency funds are used to account for the assets that the District holds on behalf of others as their agent. These are custodial in nature and do not involve measurement of results of operations.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements, however, interfund services provided and used are not eliminated in the process of consolidation.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District enterprise funds are charges for sales of food, charges to other funds and tuition. Operating expenses for proprietary funds include the cost of sales, administrative expenses, expenses for the payment of insurance claims and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District reports unearned revenue on its statements of net position. Unearned revenue also arises when resources are received by the District before it has legal claim to them, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and statement of net position and revenue is recognized.

1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Ad Valorem (Property) Taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable."

The County Board of Taxation is responsible for the assessment of properties and the Township Tax Collector is responsible for collection of taxes. Assessments are certified and taxes are levied on January 1; taxes are due February 1, May 1, August 1 and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the Middlesex County office of the DOE for approval. Budgets are prepared using the modified accrual basis of accounting and the special revenue fund uses a non-GAAP budget (budgetary basis). The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referred in N.J.A.C. 6A:23. All budget amendments must be approved by School Board resolution. Budgetary transfers were made during the current year in accordance with statutory guidelines. The amendments made by the District were part of the normal course of operations. The over-expenditure in the General Fund is due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last two state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

F. Inventories

Enterprise fund inventories are recorded at market value at the time of donation, which approximates current market value, using the first-in, first-out (FIFO) method. At June 30, 2019, the District had inventories in the Food Service Enterprise Fund of \$74,121.98.

G. Tuition

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined. Tuition charges for the 2018-19 fiscal year were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Capital Assets

Capital assets, which include land, construction in progress, property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000.00 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost through estimation procedures performed by an independent appraisal company.

Land was valued at assessed value based upon information received from the Township of Woodbridge. Donated capital assets are valued at their estimated fair market value on the date of donation.

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Property, plant and equipment of the District is depreciated using the straight line method. The following estimated useful lives are used to compute depreciation:

	<u>Years</u>
Buildings and Improvements	20-40
Furniture and Equipment	7-20
Vehicles	8

I. Compensated Absences

A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District uses the "vesting method" for estimating its accrued sick and vacation leave liability.

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies and collective bargaining agreements. In the event of termination, an employee is reimbursed for accumulated vacation time. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after one year of service.

The liability for vested compensated absences of the district is recorded in the government-wide financial statements and includes salary related payments.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2019, a liability existed for compensated absences in the government-wide financial statements in the amount of \$6,139,577.19 and no liability existed for compensated absences in the enterprise funds.

J. Unearned Revenue

Unearned revenue in the general and special revenue fund represents cash which has been received but not yet earned, and outstanding encumbrances in the special revenue fund. Unearned revenue in the other enterprise funds represents cash received in advance of the related services being provided.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has one item that qualifies for reporting in this category related to pensions. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amounts related to pensions.

L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as either capital projects fund or debt service fund expenditures.

M. Fund Balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories.

- 1) **Nonspendable** – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
- 2) **Restricted** - includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3) **Committed** - includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revises or changes the specified use by taking the same action (resolution) taken to originally commit these funds.

1. Summary of Significant Accounting Policies (continued)

M. Fund Balances (continued)

- 4) Assigned – amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Intent is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.
- 5) Unassigned - includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

Of the \$47,292,380.21 of fund balance in the General Fund, \$20,179,793.86 has been restricted for excess surplus – current year, \$23,508,315.42 has been restricted for excess surplus – prior year, and \$3,604,270.93 is classified as unassigned.

N. Net Position and Fund Balance / Restricted Assets

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* became effective for financial statements for periods beginning after December 15, 2011 and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The adoption of this statement resulted in a change in the presentation of the statement of net position to what is now referred to as the statement of net position and the term "net assets" is changed to "net position" throughout the financial statements. Net Position represents the difference between assets, deferred outflows, deferred inflows, and liabilities in the government-wide financial statements. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

O. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

P. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security contributions and pension contributions for certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the District's annual budget.

Q. Calculation of Excess Surplus

The designation for restricted fund balance-excess surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended New Jersey school districts are required to reserve fund balance in the general fund at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The District has excess fund balance at the end of the 2018-2019 fiscal year in the amount of \$43,688,109.28. Of this amount, \$23,508,315.42 has been appropriated in the 2019-2020 budget and the remaining \$20,179,793.86 will be appropriated in the 2020-2021 budget.

R. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, amounts on deposit and short-term investments with original maturities of three months or less.

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*. The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments and are stated at cost. All other investments are stated at fair value.

S. Tax Abatements

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated are authorized to enter into tax abatement agreements. Furthermore, if the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district. For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth. There have been no tax abatement agreements entered into by the Township that will materially affect the District.

T. Subsequent Events

Management has reviewed and evaluated all events and transactions from June 30, 2019 through December 20, 2019, the date that the financial statements were issued, for possible disclosure, and recognition in the accompanying financial statements, and no items have come to the attention of the District which would require disclosure or recognition.

2. Reconciliation of Government-wide and Fund Financial Statements

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, capital leases and compensated absences are not due and payable in the current period and therefore are not reported in the funds. The details of this \$120,546,221.00 difference are as follows:

Bonds payable	\$ 109,962,000.00
Capital leases payable	886,479.88
Unamortized premium on bonds	3,558,163.93
Compensated absences	6,139,577.19
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	<u>\$ 120,546,221.00</u>

3. Deposits and Investments

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at last equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund (NJCMF) and New Jersey Asset and Rebate Management Fund (NJARM).

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

Deposits (continued)

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

The District's cash and cash equivalents are classified below to inform financial statement users about the extent to which the District's deposits and investments are exposed to custodial credit risk.

Operating cash accounts are held in the District's name by several commercial banking institutions. At June 30, 2019, the District's carrying amount of deposits was \$75,397,500.20 and the bank balance was \$82,296,977.42. Of the bank balance, \$1,813,689.09 was secured by federal depository insurance and \$72,660,175.11 was covered by the New Jersey Governmental Unit Deposit Protection Act (GUDPA). \$7,823,113.22 held in the District's agency accounts are not covered by GUDPA.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the District's operating cash accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

Investments

New Jersey statutes permit the Board to purchase the following types of investments:

- a. Bonds and other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank which have a maturity date not greater than twelve months from the date of purchase.
- c. State of New Jersey Cash Management Fund (NJCMF) and New Jersey Asset and Rebate Management Fund (NJARM).
- d. Bonds or other obligations of the School District.

Custodial Credit Risk: The District does not have a policy for custodial credit risk.

Credit Risk: The District does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government.

Concentration of Credit Risk: The District places no limit on the amount the District may invest in any one issuer.

Interest Rate Risk: The District does not have a policy to limit interest rate risk.

5. Long-Term Liabilities (continued)

See Schedule I-1 for additional information regarding the District's bonds payable, including original amount of debt, interest rates and remaining maturities.

Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and accumulate for use in future years. Upon the attainment of specified years of service or upon reaching normal retirement age, employees become eligible to receive compensation for unused accumulated sick leave. The specific terms for eligibility and compensation are governed by the various collective bargaining agreements and employment contracts.

In the district-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

6. Pension Plans

Description of Systems

Substantially all of the District's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

Teachers' Pension and Annuity Fund

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage.

Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Public Employee's Retirement System

The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in over the next seven years that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

During the year ended June 30, 2019, the State of New Jersey contributed \$29,064,862.00 to the TPAF for normal costs of pension and post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$7,825,338.60 during the year ended June 30, 2019 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included as both revenues and expenditures in the government-wide and fund financial statements. The District's actuarially determined contributions to PERS for each of the years ended June 30, 2019, 2018 and 2017 were \$2,118,182.00, \$2,003,769.00, and \$1,885,069.00 respectively, equal to the required contributions for each year.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For the purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employee's Retirement System (PERS)

At June 30, 2019, the District reported a liability of \$41,780,401.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2017, which was rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 0.2121963383 percent, which was a decrease of 0.0018008065 from its proportion measured as of June 30, 2017.

Actuarial Assumptions

The collective total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.25%
Salary increases:	
Through 2026	1.65 - 4.15% based on age
Thereafter	2.65- 5.15% based on age
Investment rate of return	7.00%

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is unlikely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Mortality Rates

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Absolute return/risk mitigation	5.00%	5.51%
Cash equivalents	5.50%	1.00%
U.S. treasuries	3.00%	1.87%
Investment grade credit	10.00%	3.78%

Discount rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	At 1% Decrease (4.66%)	At Current Discount Rate (5.66%)	At 1% Increase (6.66%)
District's proportionate share of the net pension liability	\$52,534,040.00	\$41,780,401.00	\$32,758,785.00

Additional Information

Collective balances at June 30, 2018 are as follows:

Deferred outflows of resources	\$ 4,684,852,302.00
Deferred inflows of resources	\$ 7,646,736,226.00
Net pension liability	\$ 19,689,501,539.00
 District's Proportion	 0.2121963383%

Collective pension expense for the Local Group for the measurement period ended June 30, 2018 is \$1,099,708,157.00.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at June 30, 2018, 2017, 2016, 2015 and 2014 is 5.66, 5.48, 5.57, 5.72 and 6.44 years, respectively.

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2018 was \$633,718,600.00. The District's proportionate share was \$0.00.

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2018, the State's proportionate share of the TPAF net pension liability associated with the District was 0.9961332861 percent, which was an increase of 0.0071594460 from its proportion measured as of June 30, 2017.

6. Pension Plans (continued)

For the year ended June 30, 2019, the District recognized on-behalf pension expense and revenue in the government wide financial statements of \$9,804,206.00 for contributions incurred by the State.

Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.25%
Salary increases	
2011-2026	1.55 - 4.55%
Thereafter	2.00 - 5.45%
Investment rate of return	7.00%

Mortality Rates

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate

The discount rate used to measure the total pension liability was 4.86% as of June 30, 2018. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The state contributed 50% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

7. Post-Retirement Benefits

Plan Description

The District participates in the New Jersey State Health Benefits Program (the "SHBP"), a multiple-employer defined benefit postemployment healthcare plan administered by the State of New Jersey Division of Pension and Benefits. SHBP provide medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Health Benefits Program Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The State of New Jersey Division of Pension and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for SHBP. That report may be obtained by writing to Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295.

Funding Policy

P.L. 1987, c.384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62.

Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994. The State's contributions to the SHBP for post-retirement benefits on behalf of the District for the years ended June 30, 2019, 2018 and 2017 were \$9,063,624.00, \$9,704,664.00, and \$9,268,829.00, respectively, which equaled the regional contributions for each year.

As the employer contributions for local government education employers are legally required to be funded by the State, this constitutes a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity.

The State is also responsible for the cost attributable P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program (APB) who retired from a board of education or county college with 25 years of service.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et.seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

7. Post-Retirement Benefits (continued)

The State provides OPEB benefits through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Total OPEB Liability

The nonemployer OPEB liability from New Jersey's plan is \$46,110,832,982.00.

The following members were covered by the benefit terms:

Local Education	June 30, 2018
Active Plan Members	217,131
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	145,050
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	-
Total Plan Members	362,181

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. The State's proportionate share of the net OPEB liability associated with the District as of June 30, 2018 was \$407,412,687.00 or 0.88%. Additional information can be obtained from the State of New Jersey's comprehensive annual financial report.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Disability mortality was based on the RP-2014 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. The actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 – June 30, 2015, and July 1, 2011 – June 30, 2014 for TPAF and PERS, respectively.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) medical benefits, this amount liability is 5.9% and decreases to a 5.0% long-term trend rate after nine years. For self-insured post-65 PPO medical benefits, the trend rate is 4.5%. For health maintenance organization (HMO) medical benefits, the trend rate is initially 5.9% and decreases to a 5.0% long-term trend rate after nine years. For prescription drug benefits, the initial trend rate is 10.5% decreasing to a 5.0% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate

The discount rate for June 30, 2018 and 2017 was 3.87% and 3.58%, respectively. This represents the municipal bond return rate as chosen by the Division. Sources: Assessed value data used to estimate applicable percentages provided by the Middlesex County Board of Taxation; debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and the businesses of Woodbridge. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Independent Auditors' Report

**The Honorable President and Members
of the Board of Education
Woodbridge Township School District
County of Middlesex
Woodbridge, New Jersey**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Woodbridge Township School District, in the County of Middlesex, New Jersey (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 20, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

on Internal Control Over Compliance Required by the
Uniform Guidance and New Jersey OMB Circular 15-08**

Independent Auditors' Report

**The Honorable President and Members
of the Board of Education
Woodbridge Township School District
County of Middlesex, New Jersey**

Report on Compliance for Each Major Program Federal and State Program

We have audited the Woodbridge Township School District, in the County of Middlesex, New Jersey (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2019. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, the Uniform Guidance and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred.

An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Woodbridge Township School District

Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance

Year ended June 30, 2019

1. General

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all of all federal awards and state financial assistance programs of the District. The Board of Education is defined in Note 1 to the board's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

2. Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise funds, which are presented using the accrual basis of accounting and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These basis of accounting are described in Note 1 to the District's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200-*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented, or used in the preparation of, the basic financial statements.

3. Relationship to Basic Financial Statements

Amounts reported in the accompanying schedules agree with amounts reported in the District's basic financial statements. The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the fiscal year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

Federal Awards and State Financial Assistance

Year ended June 30, 2019

3. Relationship to Basic Financial Statements (Continued)

The general fund is presented in the accompanying schedules on the modified accrual basis of accounting with the exception of the revenue recognition of the last two state aid payments in the current year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of the last two state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$1,450,603 for the general fund. See note to required supplementary information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds (C-3). Federal and State award revenues are reported in the District's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 260,727.41	\$ 74,976,596.60	\$ 75,237,324.01
Special Revenue Fund	5,518,692.34	392,127.14	5,910,819.48
Debt Service Fund		389,352.00	389,352.00
Food Service Enterprise Fund	2,959,980.23	59,419.07	3,019,399.30
Total financial award revenues	<u>\$ 8,739,399.98</u>	<u>\$ 75,817,494.81</u>	<u>\$ 84,556,894.79</u>

4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Woodbridge Township School District

Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance

Year ended June 30, 2019

5. Other

Revenues and expenditures reported under the Food Donation Program represent current year value received and current year distributions, respectively. TPAF Social Security Contributions represent the amount reimbursed by the State for the employer's share of Social Security for TPAF members for the year ended June 30, 2019.

The post-retirement pension, medical and disability insurance benefits received on behalf of the District for the year ended June 30, 2019 amounted to \$29,064,862. Since on-behalf post retirement, medical and disability insurance benefits are paid by the State directly, these expenditures are not subject to a single audit in accordance with New Jersey OMB Circular 15-08, however they are reported on the Schedule of Expenditures of State Financial Assistance, as directed by the funding agency.

6. School-Wide Program Funds

School-wide programs are not separate federal programs as defined in OMB Uniform Guidance; amounts use in School-wide programs are included in the total expenditures of the program contributing funds in the Schedule of Expenditures of Federal awards. The following funds by program are included in School-wide programs in the District:

Program

Title I, Part A:	Improving Basic Programs Operated by Local Education Agencies
Title II, Part A:	Teacher and Principal Training and Recruiting
Title III:	Language
Title III:	Immigrant
Title IV, Part A:	Student Support and Academic Enrichment

7. Indirect Costs

The District did not use the 10% de minimis indirect cost rate.
