Honorable President and
Members of the Board of Education
Town of Belvidere School District
Warren County, New Jersey

December 9, 2020

Dear Board Members:

The Comprehensive Annual Financial Report of the Belvidere School District for the fiscal year ended June 30, 2020 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Belvidere Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial report is presented in four sections: introductory, financial, statistical and single audit. The Introductory Section includes this transmittal letter, the District's organizational chart and a list of principal officials. The Financial Section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Uniform Guidance, "Audits of State and Local Governments" and the New Jersey Treasury Circular Letter 15-08 OMB. "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the Single Audit Section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

The Belvidere School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by GASB Statement No. 14. All funds and account groups of the District are included in this report. The Belvidere Board of Education and its three schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular and vocational, as well as special education for classified students. The District completed the 2019-20 fiscal year with an enrollment of 656 students, which is 29

students less than the previous year's enrollment. The following details the changes in student enrollment of the District over the last five years:

<u>Fiscal Year</u>	<u>Average Daily Enrollment</u>	<u>Percent Change</u>
2015-16	748	-3.23%
2016-17	735	-1.74%
2017-18	705	-2.72%
2018-19	685	-2.84%
2019-20	656	-4.23%

2. ECONOMIC CONDITION AND OUTLOOK:

The economic condition of the Belvidere area remained stable during the 2019-20 school year with little evidence of any single factor having a major impact on the District's programs. Residential development in the area has been minimal and declining enrollment may be a facility consideration in the future.

3. MAJOR INITIATIVES:

Budgetary constraints prevented any major new initiatives in 2019-20. The District was able to maintain all existing programs and staffing and to address all ongoing facility maintenance concerns through careful monitoring of the budget. The continuing escalation of salaries and fringe benefits, primarily health insurance, consume approximately 85% of all available funds. The District started a state funded preschool program January 2, 2019.

4. INTERNAL ACCOUNTING CONTROLS:

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulation related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's Single Audit described above, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the General Fund, and Special Revenue Fund. The final budget amount, as amended for the fiscal year, is reflected in the Financial Section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line-item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance totaling \$565,595 at June 30, 2020.

6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect Generally Accepted Accounting Principals, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds and account groups, as explained in Note 1 to the Financial Statements.

7. FINANCIAL INFORMATION AT FISCAL YEAR-END:

As demonstrated by the various statements and schedules included in the Financial Section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the General and Special Revenue Fund revenues and expenditures for the fiscal year ended June 30, 2020 and the amount and percentage changes in relation to the previous year (see Exhibit B-2):

Revenues:				
<u>Source</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase Amount</u>	<u>(Decrease) Percent</u>

Total	\$13,922,610	100.0%	\$ 56,235	-0.41%

8. DEBT ADMINISTRATION:

At June 30, 2020, the District had no outstanding bonded debt.

9. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in “Notes to the Financial Statements”, Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit deposit Protection Act, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

10. RISK MANAGEMENT:

The Belvidere Board of Education carries various forms of insurance, including comprehensive property, general liability, automotive, excess liability, workers compensation and fidelity bonds as detailed in Exhibit J-13 of the Statistical Section.

11. OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ardito & Co., LLP was selected by the Belvidere Board of Education to perform the audit. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Single Audit Act and the related Uniform Guidance and State Treasury Circular Letter 15-08. The auditor’s report on the general purpose financial statements and the combining and individual fund statements and schedules is included in the Financial section of this report. The auditor’s reports related specifically to the Single Audit are included in the Single Audit Section of this report.

12. ACKNOWLEDGEMENT:

We would like to express our appreciation to the members of the Belvidere Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the Town of Belvidere and the cluster townships and for their full support to the development and maintenance of our financial operation.

Respectfully submitted,

Christopher Carrubba

Independent Auditor's Report

Honorable President and
Members of the Board of Education
Belvidere School District
County of Warren
Belvidere, New Jersey 07823

Report on the Financial Statements

We have audited the accompanying financial statements of the government activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Belvidere School District Board of Education, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in ***Government Auditing Standards***, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

-Continued-

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Belvidere School District Board of Education, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 20, the spread of the COVID 19 coronavirus is affecting the United States and global economies and may have an impact on the District's subsequent operational and financial performance. At this point, the District cannot reasonably estimate the impact on its subsequent operations or financial results. The accompanying financial statements do not include any adjustments related to subsequent events. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension trend information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

-Continued-

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Belvidere School District Board of Education's basic financial statements. The introductory section, combining and individual fund financial statements, statistical section, and schedule of state financial assistance, as required by New Jersey OMB's Circulars 15-08, ***Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid***, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statement information, and the schedule of state financial assistance, as required by New Jersey OMB's Circulars 15-08, ***Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid***, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual fund financial statement information, and schedule of state financial assistance, as required by New Jersey OMB's Circulars 15-08, ***Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid***, are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with ***Government Auditing Standards***, we have also issued our report dated December 9, 2020, on our consideration of the Town of Belvidere School District Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with ***Government Auditing Standards*** in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

TOWN OF BELVIDERE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
UNAUDITED

The discussion and analysis of Belvidere School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2020 are as follows:

- ◆ In total, Net Position increased \$62,010 which represents a 8.6% decrease from 2019.
- ◆ General revenues accounted for \$3,887,480 in revenue or 24.1% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$12,218,734 or 75.9% of total revenues of \$16,106,214.
- ◆ Total assets of governmental activities increased by \$85,336, as cash and cash equivalents increased by \$104,978, receivables increased by \$378,298, and capital assets decreased by \$401,796.
- ◆ The School District had \$16,044,204 in expenses; only \$12,218,734 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$3,887,480 were available to provide for these programs.
- ◆ Among major funds, the General Fund had \$13,783,738 in revenues and \$13,299,640 in expenditures. The General Fund's surplus balance increased \$480,098 over 2019, which compares favorably to the budgeted decrease of \$299,975.

Using this Generally Accepted Accounting Principals Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Belvidere School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail.

For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Belvidere School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's Net Position and changes in those assets. This change in Net Position is important because it tells the reader that, for the School District as a whole, the financial positions of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Nonfinancial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental activities--All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-type Activity--This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 9. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's Net Position for 2020 compared to 2019.

Governmental Activities

The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the School District operations. Property taxes made up 24.0% percent of revenues for governmental activities for the Belvidere School District for the fiscal year 2020.

Instruction comprises 57.3% of district expenses. Support services expenses make up 37.2% of the expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services compared to 2019. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Business-type activities includes expenses related to activities provided by the School District which are designed to provide for students to participate in food service.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District and unallocated depreciation.

The dependence upon tax revenues is apparent. Over 19.0% of instruction activities are supported through taxes and other general revenues; for all activities general revenue support is 35.1%. The community, as a whole, is the primary support for the Belvidere School District.

The School District's Funds

Information about the School District's major funds starts on page 24. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other sources of \$14,383,176 and expenditures of \$13,922,610. The General Fund's surplus balance increased \$480,098 over 2019, which compares favorably to the budgeted decrease of \$299,975.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal 2020 year, the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management.

For the General Fund, budget basis revenue and other financing sources, excluding on-behalf payments, was \$11,754,964, \$38,994 over original budgeted estimates of \$11,715,970. This difference was due primarily to additional tuition revenue.

General fund revenues exceeded expenditures by \$479,926. Again this surplus compares to a budgeted deficit of \$299,975, which was due to the budgeted use of surplus, and budgeted maintenance reserve withdrawals in the 2019-2020 budget. The budgeted deficit was reduced due to cost savings in the areas of instruction, maintenance, and benefits.

Overall general fund balance (budget basis) was \$1,627,906, and amounts ear-marked and reserved for future purposes were \$1,386,077, creating a surplus in unreserved fund balance of \$241,829. Management believes the district can maintain unreserved fund balances at or near the statutory maximum 2% level of \$241,829.

Capital Assets

At the end of the fiscal year 2020, the School District had \$1,088,776 invested in land, buildings, furniture and equipment, and vehicles. Table 4 shows fiscal 2020 balances compared to 2019.

**Table 4

Overall capital assets decreased \$400,535 from fiscal year 2019 to fiscal year 2020. The decrease was due entirely to depreciation expense.

Major capital improvements of \$00 were purchased during fiscal year 2020.

Debt Administration

At June 30, 2020, the School District had \$73,501 as outstanding long term debt. Of this amount, \$73,501 is for compensated absences.

At June 30, 2020, the School District's overall legal debt margin was \$7,541,771 and the unvoted debt margin was the same.

For the Future

The Belvidere School District is in sound financial condition presently. A concern is the potential for increased reliance on local property taxes with declining aid from the State of New Jersey.

It has been increasingly difficult to balance educational needs with increases in property tax rates and flat state aid. The Belvidere School District is primarily a residential community and the Warren County Seat, with very few ratables, thus the burden is focused on homeowners to bear the tax burden.

In conclusion, the Belvidere School District has committed itself to financial survival for many years. The School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020**

Total Net Change in Fund Balances - Governmental Funds (from B-2) \$ 460,566

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

	Depreciation Expense	\$ (400,535)	
	Capital Outlays	<u> -</u>	(400,535)

Pension contributions are reported in governmental funds as expenditures. However, in the statement of activities, the contributions are adjusted for actuarial valuation adjustments, including service and interest costs, administrative costs, investment returns, and experience/assumption. This is the amount by which net pension liability and deferred inflows/outflows related to pension changed during the period.

(1,123)

Repayment of long-term liabilities, such as compensated absences, is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

TOWN OF BELVIDERE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of the Town of Belvidere School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments (Statement No.34). This Statement provided the most significant change in financial reporting in over twenty years with a phased-in implementation period (based on amount of revenues) starting with fiscal years ending 2002 (for larger governments). The District was not required to implement the new model until the 2003-2004 school year.

In addition, the School District has implemented GASB Statement No.37, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus, Statement No.38, Certain Financial Statement Note Disclosures, Statement No.40, Deposit and Investment Risk Disclosures, an amendment of GASB Statement No.3, and Statement 44, Economic Condition Reporting: The Statistical Section (GASB 44), an amendment of NCGA Statement 1, Governmental Accounting and Financial Reporting Principles is found in the Introduction, a revised statistical section in the Outline of the CAFR, GASB Statement No. 45, Other Post-retirement Employee Benefits, GASB No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and GASB No. 63 and 65, Deferred Outflows and Inflows and Net Position, and Items Previously Reported as Assets and Liabilities, GASB No. 68, Accounting for Pensions, an amendment of GASB No. 27 and GASB No. 75, Accounting for OPEB. The implementation of these statements did not effect net position balances as previously reported for the fiscal year

A. Reporting Entity:

The Belvidere School District is a Type II district located in the County of Warren, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms and three sending district members appointed annually. The purpose of the district is to educate students in grades K-12. The Belvidere School District had an approximate enrollment at June 30, 2020, of 651 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards* , is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

B. Basis of Presentation, Basis of Accounting:

The School District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Basis of Presentation

District-wide Statements: The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activity of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees and charged to external parties. The statement of net position presents the financial condition of the governmental and business-type activity of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the School District.

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category—*governmental, proprietary, and fiduciary*—are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No.34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

GOVERNMENTAL FUNDS

The District reports the following governmental funds:

General Fund - The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation, Basis of Accounting (Continued):

GOVERNMENTAL FUNDS (Continued)

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

PROPRIETARY FUNDS

The District reports the following proprietary fund:

Enterprise (Food Service) Fund - The Enterprise Fund accounts for all revenues and expenses pertaining to the Board's cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges.

Additionally, the District reports the following fund type:

Fiduciary Funds - The Fiduciary Funds are used to account for assets held by the District on behalf of others and include the Student Activities Fund and Payroll Agency Fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

TOWN OF BELVIDERE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation, Basis of Accounting (Continued):

District-wide, Proprietary, and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the enterprise fund and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year.

The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an “accounts receivable”. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental and business-type activities and enterprise funds of the District follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

C. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue funds. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. All budget amendments/transfers must be approved by School Board resolution. In addition, transfers are also covered by changes in N.J.A.C. 6A:23A-2.3 that can require approval through the state department. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Budgets/Budgetary Control: - (Continued)

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

D. Encumbrance Accounting:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

E. Assets, Liabilities and Equity:

Cash and Cash Equivalents:

Cash and cash equivalents includes petty cash, change funds, amounts in deposits, money market accounts and short-term investments with original maturities of three months or less.

Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

 FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Equity (Continued):

Inventories:

Inventory purchases, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase. Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method.

Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

Capital Assets:

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The School District does not possess any infrastructure. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method under the half-year convention over the following estimated useful lives:

<u>Class</u>	<u>Estimated Useful Lives</u>
Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office and Computer Equipment	5-10
Instructional Equipment	10
Grounds Equipment	15

E. Assets, Liabilities and Equity (Continued):

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No.16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

TOWN OF BELVIDERE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Equity (Continued):

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after ten years of service and upon becoming eligible for retirement, generally twenty-five years of service.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave that is expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments. Salary related payments for the employer's share of social security and medicare taxes, as well as pension contributions, are included.

For the District-wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

Deferred Revenue:

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2020 operations, have been recorded as deferred revenue. Grants and entitlement received before the eligible requirements are met are also recorded as deferred revenue.

Accrued Liabilities and Long-Term Obligations:

All payables, accrued liabilities and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Net Position:

Net Position represent the difference between assets and liabilities. Net Position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net Position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

TOWN OF BELVIDERE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Equity (Continued):

Fund Balance Reserves:

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

Revenues—Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest and tuition.

Operating Revenues and Expenses:

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses:

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense, that could not be attributed to a specific function, is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

 NOTES TO BASIC FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Equity (Continued):

Extraordinary and Special Items:

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Management Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual amounts could differ from those estimates.

NOTE 2: CASH AND CASH EQUIVALENTS

Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the district's accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the municipality would not be able to recover the value of its deposits or investment). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. At June 30, 2020, all of the district's deposits were collateralized by securities held in its name and, accordingly, not exposed to custodial credit risk. The district does not have a policy for custodial credit risk.

As of June 30, 2020, cash and cash equivalents of the District consisted of the following:

	<u>Cash and Cash Equivalents (A-1)</u>	<u>Cash and Cash Equivalents (B-7)</u>	Total
Checking	<u>\$ 1,178,323</u>	<u>\$499,494</u>	<u>\$ 1,677,817</u>

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 2: CASH AND CASH EQUIVALENTS (Continued)

The carrying amount of the Board’s cash and cash equivalents at June 30, 2020, was \$1,677,817 and the bank balance was \$1,961,552. All bank balances were covered by federal depository insurance and/or covered by a collateral pool maintained by the banks as required by New Jersey statutes. Of these bank balances, \$250,000 was covered by federal depository insurances and \$1,711,552 was covered by collateral pool.

NOTE 3: RECEIVABLES

Receivables at June 30, 2020, consisted of tuition accounts and intergovernmental. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables follows:

	<u>Governmental Fund Financial Statements</u>	<u>Government-Wide Financial Statements</u>
State Government	\$ 2,801	\$ 2,917
Federal Government	93,744	103,582

NOTE 4: INVENTORY

Inventory in the Food Service Fund at June 30, 2020 consisted of the following:

Food	\$ 5,262
Supplies	<u>3,567</u>
	<u><u>\$ 8,829</u></u>

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1996, as revised) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

NOTE 5: CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>

On January 11, 2001, the NJ State Department of Education announced that effective July 1, 2001, the capitalization threshold used by school districts in the State of New Jersey is increased to \$2,000. The previous threshold was \$500. Applying the higher capitalization threshold retroactively (removal of old assets from the General Fixed Assets Account Group) will be permitted by the State regulations in situations where (1) the assets have been fully depreciated, or (2) the assets have exceeded their useful lives. The retirement of machinery and equipment is due to the retroactive application of the higher threshold of equipment capitalization. That is, the District has removed from their records assets with a historical cost greater than \$500 but not greater than \$2,000 that were fully depreciated or had exceeded their useful lives.

Depreciation expense was charged to functions as follows:

Regular Instruction	\$ 265,555
Special Education	28,037
Support Services	37,250
General Administration	4,005
School Administration	15,621
Maintenance and Plant	50,067
Total	\$ 400,535

NOTE 6: LONG-TERM OBLIGATIONS

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds. The district has no bond obligations.

A. Long-Term Obligation Activity:

NOTE 7 PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or on the internet at <http://www.state.nj.us/treasury/pensions/annrpts.shtml>.

Teachers' Pension and Annuity Fund (TPAF) - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, 100% of employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Summary of Significant Accounting Policies - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The employer contributions for the district are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, the district (employer) is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the district (employer) does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the district. However, the state's portion of the net pension liability that was associated with the district was \$32,178,260 as measured on June 30, 2019 and \$34,767,525 measured on June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$1,897,960 and revenue of \$1,897,960 for support provided by the State. The measurement period for the pension expense and revenue reported in the district's financial statements (A-2) at June 30, 2020 is based upon changes in the collective net pension liability with a measurement period of June 30, 2018 through June 30, 2019. Accordingly, the pension expense and the related revenue associated with the support provided by the State is based upon the changes in the collective net pension liability between July 1, 2018 and June 30, 2019.

Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the district. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

Actuarial assumptions - The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation:	2.75%
Salary Increases:	
Through 2026	1.55-4.45%
Therafter	2.75-5.65%
Investment Rate of Return:	7.00%

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Pre-retirement, post-retirement and disabled mortality rates were based on the experience of TPAF members reflecting mortality improvement on a generational basis based on a 60-year average of Social Security data from 1953 to 2013.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.0% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019

Non-US developed markets Equ	12.50%	9.00%
Emerging markets equity	6.50%	11.37%
Private Equity	12.00%	10.85%

Discount rate - The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054.

Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the State's net pension liability to changes in the discount rate - Since the District has no proportionate share of the net pension liability because of the special funding situation, the district would not be sensitive to any changes in the discount rate. The following presents the State's net pension liability measured as of June 30, 2019, calculated using the discount rate shown above, as well as what the State's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Discount</u>	<u>1% Increase</u>
	<u>(4.60%)</u>	<u>Rate (5.60%)</u>	<u>(6.60%)</u>

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rpts-home.shtml>. The plan fiduciary net position as of June 30, 2019 was \$22,696,734,276

Amortization of Deferred Outflows and Inflows of Resources - Amount reported as deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) related to pensions will be recognized in the state's pension expense as follows:

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Summary of Significant Accounting Policies - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$2,561,641 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. The total pension liability for the June 30, 2018 valuation was determined by an experience study for the period July 1, 2014 to June 30, 2018. The District's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2019 and 2018. At June 30, 2019, the District's proportion was 0.01422% which was an increase of 0.00006% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$136,979. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Risk mitigation	3.00%	4.67%

Non-US developed markets Equ	12.50%	9.00%
Emerging markets equity	6.50%	11.37%
Private Equity	12.00%	10.85%

Discount rate - The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Defined Contribution Retirement Plan (DCRP) - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N. J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist.

PERS and TPAF Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ of 1% for each month that the member is under age 65. The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members. The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.

The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law. New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary. In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 (PERS) and N.J.S.A. 18:66 (TPAF) requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 6.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 6.5% and the PERS rate is 6.5% of covered payroll.

The PERS and TPAF amounts have been modified and included in the District-wide financial statements in accordance with GASB Statement No. 68.

NOTE 8: POST-RETIREMENT BENEFITS

Plan description and benefits provided

The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefit for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPES plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

NOTE 8: POST-RETIREMENT BENEFITS-(Continued)

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education.

Actuarial assumptions and other imputes The June 30, 2020 GASB 75 reporting is based on a measurement date of June 30, 2019. The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2018. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%		
Salary Increases Through 2026:	1.55-3.05%	TPAF	2.00-6.00% PERS Based on service year

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the board of education recognized OPEB expense of \$521,082 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the District's proportionate share of school retirees OPEB is zero, and there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources. At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee’s OPEB from the following sources:

NOTE 9: DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

- Equitable Life
- Pioneer Funds
- Kemper Funds
- Oppenheimer Funds
- Vanguard Funds
- Siracusa

NOTE 10: COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No.16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after ten years of service and upon becoming eligible for retirement, generally twenty-five years of service.

The District adopted a Separation Agreement dated April 17, 2002, that provides to qualified district personnel that resign by a specified date, a terminal remuneration package payable based upon accumulated sick days and payable over four (4) calendar years.

In the district-wide *Statement of Assets*, the liabilities whose average maturities are greater than one year should be reported in two components--the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2020, no liability existed for compensated absences in the proprietary fund types.

NOTE 11: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

NOTE 12: CONTINGENT LIABILITIES

GRANT PROGRAMS

The Board participates in state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The Board is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

LITIGATION

The Board is not involved in claims and lawsuits incidental to its operations.

NOTE 13: FUND BALANCE APPROPRIATED

General Fund (Exhibit B-1) - Of the \$1,333,067 General Fund fund balance at June 30, 2020, \$455,000 is reserved in the Maintenance Reserve Account, \$65,482 is reserved in the Capital Reserve Account, \$565,595 is reserved for encumbrances; \$300,000 has been appropriated and included as anticipated revenue as of June 30, 2021; and (\$53,010) is unreserved and undesignated.

NOTE 14: ACCRUED SALARIES AND WAGES

Certain District employees, who provide services to the District over the ten month academic year, have the option to have a percentage of their salary withheld, deposited in a trust account and disbursed over the summer months (summer pay plan). New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account. As of June 30, 2020, the amount earned by these employees but not disbursed was \$299,511 (Exhibit H-4).

NOTE 15: CALCULATION OF EXCESS SURPLUS

The designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2020 is \$0.

TOWN OF BELVIDERE SCHOOL DISTRICT
 NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 16: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District Board of Education on June 16, 2010, for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Beginning balance July 1, 2019	\$	65,482
Ending balance June 30, 2020	\$	65,482

NOTE 17: MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account was established by the School District Board of Education in fiscal year 2008, for the accumulation of funds for use in accordance with PL 2007 c.62 (A1). The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The activity of the maintenance reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Beginning balance July 1, 2019	\$	455,000
Ending balance June 30, 2020	\$	455,000

NOTE 18: INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables as of June 30, 2020, are as follows:

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 44,260	\$ 16,295
Enterprise Fund	16,295	44,260
	\$ 60,555	\$ 60,555

The general fund interfund payable of \$16,295 is due to the enterprise fund for federal/state lunch subsidies. The general fund receivable of \$44,260 is due to cash advances to the enterprise fund in anticipation of receipts in the subsequent year from participating school districts for child study team and administrative shared services.

NOTE 19: TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

NOTE 20: SUBSEQUENT EVENTS

The District's operations may be affected by the recent and ongoing outbreak of the coronavirus disease 2019 (COVID-19) which was declared a pandemic by the World Health Organization in March 2020 and continues subsequent to June 30, 2020. Additionally, New Jersey Governor Murphy has declared a state of emergency via Executive Order in response to the coronavirus outbreak. The ultimate disruption which may be caused by the outbreak is uncertain; however, it may result in a material adverse impact on the District's financial position, operations and cash flows. Possible effects may include, but are not limited to, disruption to the District's tax base revenue, absenteeism in the District's labor workforce, unavailability of supplies used in operations, and a decline in value of assets held by the District.

NOTE 21: DEFICIT FUND BALANCES

The District has a deficit fund balance (Exhibit B-1) of \$38,342 in the Special Revenue Fund as of June 30, 2020, as reported in the fund statements (modified accrual basis). P.L.2003, c.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No.33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability.

Since the State is recording the last state aid payment in the subsequent fiscal year, the school district can not recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficits do not alone indicate that the district is facing financial difficulties.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PART III
Pension and Other Post-Employment Benefits (OPEB) Schedules**

For the Fiscal Year Ended June 30, 2020

Teachers' Pension and Annuity Fund (TPAF)

Pension Schedules

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Changes of assumptions. Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

OPEB Schedules

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Changes of benefit terms. There were no changes of benefit terms.

Changes of assumptions. Changes of assumptions and other inputs reflects a change in the discount rate from 3.87 percent in 2018 to 3.50 percent in 2019.

Public Employees' Retirement System (PERS)

Pension Schedules

Changes of benefit terms. The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Changes of assumptions. Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019

OPEB Schedules

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Changes of benefit terms. There were no changes of benefit terms.

Changes of assumptions. Changes of assumptions and other inputs reflects a change in the discount rate from 3.87 percent in 2018 to 3.50 percent in 2019.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

^a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.

^b Rates for debt service are based on each year's requirements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

Honorable President and
 Members of the Board of Education
 Belvidere School District
 County of Warren
 Belvidere, New Jersey 07823

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Belvidere School District Board of Education in the County of Warren, State of New Jersey, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Belvidere School District Board of Education's basic financial statements, and have issued our report thereon dated December 9, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

-Continued-

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and for New Jersey Department of Education use, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Program and Report on Internal Control Over Compliance Required by New Jersey OMB Circular 15-08

Independent Auditor's Report

Honorable President and
 Members of the Board of Education
 Belvidere School District
 County of Warren
 Belvidere, New Jersey 07823

Report on Compliance for Each Major State Program

We have audited the Town of Belvidere School District Board of Education's compliance with the types of compliance requirements described in the New Jersey OMB State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the District's major state programs for the year ended June 30, 2020. The Town of Belvidere School District Board of Education's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; and New Jersey OMB's Circulars 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards and New Jersey OMB Circulars 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred.

An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

-Continued-

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major State Program

In our opinion, the Town of Belvidere School District Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Town of Belvidere School District Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Belvidere School District Board of Education's internal control over compliance.

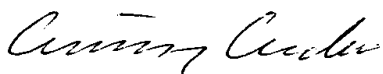

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB Circulars 15-08, and for New Jersey Department of Education use. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULES OF STATE FINANCIAL ASSISTANCE
JUNE 30, 2020

NOTE 1. GENERAL

The accompanying schedule of expenditures of state financial assistance includes state award activity of the Board of Education, Town of Belvidere School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All state awards received directly from state agencies, as well as state financial assistance passed through other government agencies is included on the schedule of expenditure of state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to *N.J.S.A.* 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with *N.J.S.A.* 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$172 for the general fund and (\$17,190) for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:
