"Performance Excellence for Everyone"

84 Route 31, Flemington, New Jersey 08822-1239 (908) 782-5727 FAX (908) 284-7314 Secretary Jeffrey Moore, Ed.D. Superintendent Gymlyn Corbin, Business Administrator / Board

January 19, 2021

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District 84 Route 31 Flemington, NJ 08822

Dear Board Members:

The Comprehensive Annual Financial Report (CAFR) of the Hunterdon Central Regional High School District for the fiscal year ended June 30, 2020 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Hunterdon Central Regional High School Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the report of the independent auditors.

The Comprehensive Annual Financial Report is presented in four sections:

- <u>The Introductory section</u>: Introduces the reader to the report and includes this transmittal letter, a list of principal officials, consultants, and the District's organizational charts.
- <u>The Financial section</u>: Consists of the independent auditor's report, management's discussion and analysis, the basic financial statements, and combining and individual fund statements and schedules.
  - <u>The Statistical section</u>: Contains selected financial and demographic information, generally presented on a multi-year basis.
- <u>The Single Audit section</u>: Includes the auditor's report on the internal control structure, compliance with applicable laws and regulations, and findings and recommendations.

The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and State Treasury OMB Circular Letter 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Information related to this single audit, including the auditor's report on the internal control structure, compliance with applicable laws and regulations, and findings and recommendations are included in the Single Audit section of this report.

# DESCRIPTION OF THE DISTRICT

The Hunterdon Central Regional High School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds and account groups of the District are included in this report. The Hunterdon Central Regional High School Board of Education and its 9-12 comprehensive high school constitute the District's reporting entity.

The voters of the five constituent municipalities approved the formation of the Hunterdon Central Regional High School District on April 5, 1954.

Hunterdon Central Regional High School is located in Hunterdon County and serves the five municipalities of Delaware Township, East Amwell Township, Flemington Borough, Raritan Township, and Readington Township. One of the largest, campus-style high school districts in New Jersey, the school occupies a 72-acre campus and includes two general classroom buildings, an alternative education building, a music building, a 2,000-seat field house, and an instructional media center. A communications building houses a student-run FM radio station and cable television station.

# DISTRICT GOALS

The 2019-2020 District Goals are two-pronged, based on both educational and financial directives. Educational goals are:

- To maintain compliance with all mandated programs and initiatives of New Jersey Department of Education.
- To continue to evaluate and implement programs in support of the academic experience for all students.
- To plan and provide the necessary resources for the faculty/staff and students in preparation for college/career as designated in the New Jersey State Student Learning Standards.
- To sustain and enhance District facilities for safety, academic experiences, activities, and environmental purposes through ongoing maintenance and long-range capital plan.

The District Goal focuses on fiscal responsibility:

• To offer the community a fiscally responsible and respectful 2020-2021 budget with a 2% New Jersey state cap by implementing strategies to balance District needs while mitigating expenses to minimize future budget tax levy increases.

The District provides a full range of educational services for students in grade levels 9 through 12. These include regular as well as special education. Those students who have a desire for vocational training attend Hunterdon County Polytech, Hunterdon County Vocational, or Somerset County Vocational School.

The District completed the 2019-2020 fiscal year with an average enrollment of 2,631 students, which is 115 students less than the previous year's enrollment. The following table details the changes in student enrollment over the last ten years:

Fiscal Years	Student Enrollment (ADE)	Change	Percent Change
2019-2020	2,631	- 115	(4.19)
2018-2019	2,746	- 110	(3.85)
2017-2018	2,856	- 130	(4.35)
2016-2017	2,986	+ 50	1.7
2015-2016	2,936	+ 12	0.4
2014-2015	2,924	- 4	(0.1)
2013-2014	2,927	- 39	(1.3)
2012-2013	2,966	+ 68	2.4
2011-2012	2,898	- 13	(0.4)
2010-2011	2,911	- 75	(2.5)

#### ECONOMIC CONDITION AND OUTLOOK

Estimates of resident population for the District's five municipalities were 51,057 in 2018 and 51,085 in 2019. The most recent student census of sending districts shows enrollment declining by approximately 100 students per year for at least the next five years.

Total municipal tax ratables supporting the school district tax levy increased from \$8,646,592,319 in 2019 to \$8,704,001,023 in 2020. This reflects a 0.66% increase in existing property values.

# FACILITIES

The Board of Education strives to provide a safe, pleasant learning environment for students. A student and staff identification card system are in place. All buildings require card access for entry. A video surveillance system is in place at strategic locations around the campus. The District has a five-year Long-Range Facility Plan and a Maintenance Plan that are updated on an annual basis.

# **INTERNAL ACCOUNTING CONTROLS**

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP).

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal and State financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

# **BUDGETARY CONTROLS**

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipalities. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the total budget amount and included in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2020.

#### ACCOUNTING SYSTEM AND REPORTS

The District's accounting records reflect generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

# **INDEPENDENT AUDIT**

State statutes require an annual audit by independent Certified Public Accountants or Registered Municipal Accountants. BKC, CPAs, PC, a licensed certified public accounting firm, audited the District's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2020 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2019 are fairly represented in conformity with GAAP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB Circular Letter 15-08.

The auditor's report on the general-purpose financial statements and combining individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit section of this report.

# CASH MANAGEMENT

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA").

GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

#### **RISK MANAGEMENT**

The Board carries various forms of insurance including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. Where advantageous, the District participates in a joint insurance fund with other qualified New Jersey Districts. This joint insurance fund has saved the District in annual premiums and provides more control through the involvement in management of the fund.

# **ACKNOWLEDGEMENTS**

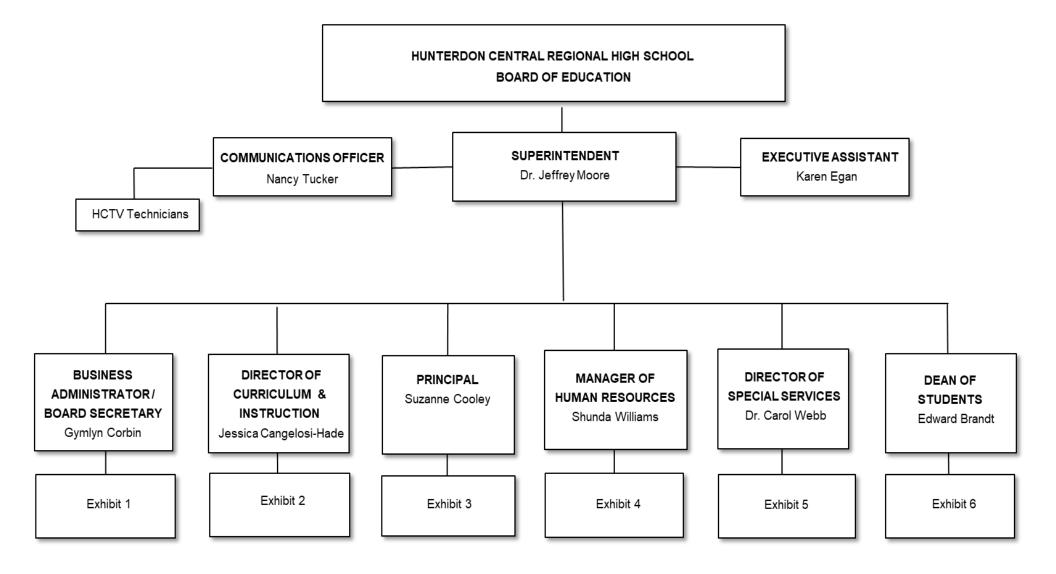

We would like to express our appreciation to the members of the Hunterdon Central Regional High School Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and, thereby, contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our Business Office staff.

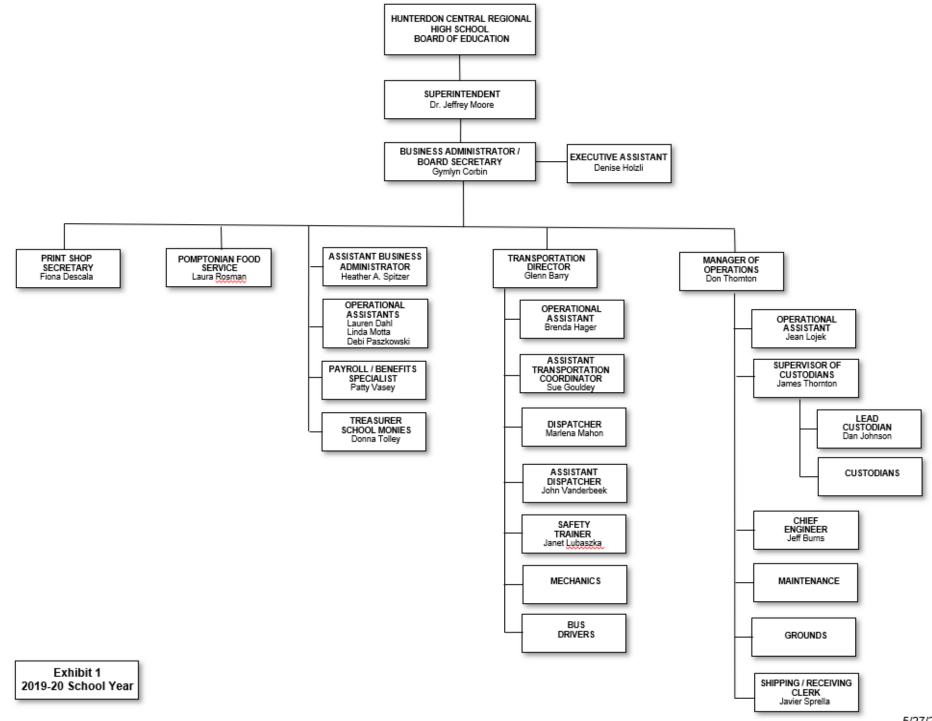

Respectfully submitted,

Dr. Jeffrey Moore Superintendent

mlyn Cordin

# **Independent Auditors' Report**

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the Hunterdon Central Regional High School District, (the District) in the County of Hunterdon, the State of New Jersey, as of and for the year ended June 30, 2020, and the related Notes to the Financial Statements, which collectively comprise the District's Basic Financial Statements as listed in the Table of Contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether do to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hunterdon Central Regional High School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison Schedules, Schedules Related to Accounting and Reporting for Pensions, and Schedules Related to Accounting and Reporting for Other Postemployment Employee Benefits listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

# Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's Basic Financial Statements. The introduction section, combining and individual non-major fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards and schedule of state awards required by New Jersey Department of the Treasury OMB 15-08 is also not a required part of the basic financial statements. The combining and individual non-major fund financial statements, Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual fund financial statements, Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introduction and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 19, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

BHC, CHAS, PC BKC, CPAS, PC

MU

Michael Holk, CPA, PSA NO. 20CS00265600

January 19, 2021 Flemington, New Jersey **REQUIRED SUPPLEMENTARY INFORMATION - PART I** 

The Hunterdon Central Regional High School District's (the School District) management's discussion and analysis is designed to provide an overview of the District's financial activities for the year ended June 30, 2020, identify changes in the District's financial position, identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

# **Financial Highlights**

Key financial highlights for fiscal year 2020 are as follows:

- In total, net position increased \$3,860,319 which represents a 5.50% increase from fiscal year 2019.
- General revenues accounted for \$80,789,754 in revenue or 90.65% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$8,334,729 or 9.35% to total revenues of \$89,124,483.
- Total assets of governmental activities increased by \$903,441 as cash and cash equivalents increased by \$2,207,469; receivables decreased by \$22,343 and capital assets decreased by \$1,281,685.
- The School District had \$84,726,956 in expenses; only \$8,334,729 of these expenses was offset by program specific charges for services, grants, or contributions. General revenues (primarily property taxes) of \$80,789,754 were adequate to provide for these programs.
- Among major funds, the general fund had \$69,549,533 in revenues and \$67,550,379 in expenditures. After accounting for other financing sources of \$211,625; the general fund's balance increased \$2,210,779 from fiscal year 2019. This increase was anticipated by the District and was the result of effective cost-cutting measures and revenues received in excess of anticipated amounts.

# Using this Generally Accepted Accounting Principles Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longerterm view of those finances. Fund financial statements provide the next level of detail. For Governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending.

The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of Hunterdon Central Regional High School District, the General fund is by far the most significant fund.

# **Reporting the School District as a Whole**

# **Statement of Net Position and the Statement of Activities**

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. No financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

#### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statement focus on the School District's most significant funds. The School District's major governmental funds are the general fund, special revenue fund, capital project fund and debt service fund.

#### **Governmental Funds**

The School District's activities are reported in governmental funds, which focus on how much money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds measure and report the operating results by measuring cash on hand and other assets that can easily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

#### The School District as a Whole

Table 1 provides a summary of the District's net position at June 30, 2020 with comparison to June 30, 2019.

# Table 2Changes in Net Position

#### **Governmental Activities**

New Jersey P.L. 2011, Chapter 202, which eliminated the annual school budget vote when within the tax levy cap and allowed school board member elections to be moved to the general election in November, was implemented by the District in fiscal year 2013. Local property taxes made up 68.27% of the total revenues for governmental activities for the District of \$82,231,162 for the year ended June 30, 2020. Federal, State, and local grants accounted for another 29.68% of revenue, while charges for services provided .94% and miscellaneous/other were 1.11%.

#### **Business-Type Activities**

Revenues for the District's business-type activities (food service program and a transportation service fund) were comprised of charges for services. Federal and State reimbursements were also received in the food service program.

# **Food Service**

- Food service expenditures and other financing uses exceeded revenues by \$74,118.
- Charges for services accounted for \$728,436 of revenue. These charges are the amounts paid by patrons for daily food services.
- Federal and State reimbursement for meals, including payments for free and reduced breakfasts and lunches and donated commodities, was \$150,899.

#### **Transportation Services**

Transportation service revenues for other local education agencies (LEAs) in the State exceeded expenditures and other financing uses by \$484,237. Other financing uses were for a transfer out to the general fund of \$211,625 and a refund of prior year revenue to other LEAs of \$521,262.

The Statement of Activities shows the cost of the program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3 provides a summary of the School District's cost of governmental services in fiscal year ending June 30, 2020 with comparisons to June 30, 2019.

Table 3

#### **Cost of Governmental Services** Total Cost of Services Net Cost of Services 06/30/20 06/30/19 06/30/20 06/30/19 46,377,074 47,943,428 45,993,762 Instruction \$ \$ 47,554,406 Support services Tuition 3,575,792 3,170,053 3,026,822 2,621,521 Student & instructional staff 13,907,763 13,708,994 13,779,475 13,551,176 General & business administration 2,844,358 2,799,500 2,802,100 2,828,555 School administration 2,241,059 2,674,595 2,241,059 2,674,595 Plant operations & maintenance 6,059,349 6,284,256 5,954,785 6,187,323 4,227,569 Pupil transportation 3,776,368 3,488,262 3,932,426 Interest on long-term debt 210,824 262,391 210,824 262,391 Total expenses \$ 78,992,587 81,073,386 \$ 77,523,544 \$ 79,583,338

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student. Pupil and instructional staff costs include the activities involved with assisting staff with content and the process of teaching to students. General administration, school administration and business include expenses associated with administrative and financial supervision of the District. Operation and maintenance of facility activities involve keeping the school grounds, buildings and equipment in an effective working condition. Pupil transportation includes activities involved with the conveyance of students, to and from school as well as to and from school activities, as prescribed by state law. Interest on long-term debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

#### The School District's Funds

School District's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$72,413,805 and expenditures of \$70,414,754 and other financing sources of \$211,625. The net positive change in fund balance of \$2,210,676 for the year was most significant in the General fund with an increase of \$2,210,779. This can be attributed in large part to effective cost-cutting measures initiated by the District and excess revenues received.

#### **General Fund Budgetary Highlights**

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of the fiscal year 2020, the School District amended its general fund budget as needed. The School District uses program based budgeting, and the budgeting systems are designed to tightly control total program budgets and provide flexibility for program management. For the general fund, budgeted revenues were \$61,256,738 which was \$1,113,313 above original budgeted estimates of \$60,143,425. This difference was due primarily to realized tuition, miscellaneous and state aid revenues in excess of original budgets. The general fund revenues and other financing sources of the School District were more than expenditures and other financing uses by \$2,187,405.

#### **Capital Assets**

At the end of fiscal year 2020, the District had \$66,420,568 invested in land, buildings, furniture, equipment, and vehicles.

Table 4 provides a summary of the School District's capital assets net of depreciation at June 30, 2020 with comparisons to June 30, 2019.

	-	Asset	s at Year-End preciation)		
				Variance	;
	 06/30/20		06/30/19	 Dollars	%

Total	\$ 66,420,568	\$	67,723,368	\$ (1,302,800)	-1.92%

Table 4

Depreciation expense and asset disposals were more than capital additions in the current fiscal year by \$1,302,800. Additions to capital assets included a paving and drainage project as well as various building improvements.

#### **Debt and Long-term Liabilities**

At June 30, 2020, the School District had \$25,411,036 in long-term liabilities. At June 30, 2020, the School District's overall legal debt limit was \$284,300,763 and the legal borrowing margin was \$280,155,783.

Table 5 provides a summary of the District's outstanding long-term liabilities at June 30, 2020 with comparisons to June 30, 2019.

			Varianc	e

# Table 5Long-Term Liabilities at Year-End

# For the Future

The Hunterdon Central Regional High School District is in excellent financial condition. The major concerns for the future are looming reductions in State aid, unanticipated expenses associated with opening during a pandemic, and the financial impact of the new Educators Health Plan. Other challenges included the 2% tax levy budget cap, downward student population trends, and the reliance placed on local property taxes for the majority of school funding. The District also manages increasing costs of staff salaries and health benefits, out-of-district tuition, and transportation.

With the passage of restrictive State budget laws, emphasis will be placed on actively managing the District budget. This will be accomplished by continually reviewing operating expenses, searching out joint purchasing and shared services opportunities, maximizing revenue earnings, and building community and parental support for our educational programs.

In conclusion, Hunterdon Central Regional High School has always committed itself to financial excellence. Financial planning, budgeting, and internal control systems are reliable. The District plans to continue its sound fiscal management to meet future challenges.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, contact Gymlyn Corbin, School Business Administrator/Board Secretary at Hunterdon Central Regional High School, 84 Route 31, Flemington, New Jersey 08822. Please visit our website at www.hcrhs.org.

#### **DISTRICT-WIDE FINANCIAL STATEMENTS**

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District.

#### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2020

Total net changes in fund balances - governmental funds (from B-2)		\$	2,210,676
Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expenses. This is the amount by which depreciation exceeds capital outlays in the period:			
the period: Capital outlays Depreciation expense	\$ 2,863 (4,145	-	(1,281,685)
Repayment of debt principal and capital leases are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position and are not reported in the Statement of Activities:			(-,,)
Debt principal payments			1,965,000
Governmental funds report district pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.			212,600
Governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities:			
Amortization of bond premium			153,924

#### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities (continued) For the Fiscal Year Ended June 30, 2020

B-3 2 of 2

In the Statement of Activities, interest on long-term debt is accrued regardless of when due. In the governmental funds interest is reported when due. The accrued interest is a reconciling item.	\$ 16,375
In the Statement of Activities, compensated absences and early	
retirement benefits are measured by the amounts earned during the	
year. In the governmental funds, however, expenditures for these	
items are reported in the amount of financial resources used (paid).	
When the earned amount exceeds the paid amount, the difference is a	
reduction in the reconciliation; when the paid amount exceeds the	
earned amount, the difference is an addition to the reconciliation.	 173,310
Change in net position of governmental activities	\$ 3,450,200

NOTES TO FINANCIAL STATEMENTS

#### Note 1 - <u>Summary of significant accounting policies</u>

The financial statements of the Hunterdon Central Regional High School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local Governmental Units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The basic financial statements include:

A Management's Discussion and Analysis (MD&A) providing an analysis of the Districts over-all financial position and results of operations.

Basic financial statements prepared using full-accrual accounting for all of the District's activities.

#### A. Reporting entity

The District is a Type II District located in the County of Hunterdon, State of New Jersey. As a Type II District, the school district functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in Grades 9 to 12. The District serves the communities of Delaware Township, East Amwell Township, Borough of Flemington, Raritan Township, and Readington Township (the constituent districts). The District had an approximate enrollment at June 30, 2020 of 2,676 students.

The primary criterion for including activities within the District's reporting entity as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- 1. The organization is legally separate (can sue or be sued in their own name).
- 2. The District holds the corporate powers of the organization.
- 3. The District appoints a voting majority of the organization's Board.
- 4. The District is able to impose its will on the organization.
- 5. The organization has the potential to impose a financial benefit/burden on the District.
- 6. There is a fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The District has elected to treat all of its governmental funds as major funds and they are reported as separate columns in the fund financial statements.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and postemployment healthcare benefits, are recorded only when payment is due.

Note 1 - <u>Summary of significant accounting policies (continued)</u>

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Property taxes, tuition and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. As under New Jersey State Statute, a municipality is required to remit to its school district the entire property tax balance, in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be accounts receivable. All other revenue items are considered to be measurable and available only when the District receives cash.

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, and unrestricted state aids.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted, as they are needed.

The District reports the following major governmental funds:

*General Fund* - The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by Board Resolution.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

C. Measurement focus, basis of accounting, and financial statement presentation (continued) *Special Revenue Fund* - The District accounts for the proceeds of specific revenue sources from State and Federal Government (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes in the special revenue fund.

*Capital Projects Fund* - The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

*Debt Service Fund* - The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Additionally, the District reports the following fund types:

#### Proprietary Fund types

*Proprietary Fund* - The focus of proprietary fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District.

*Enterprise Fund* - The enterprise fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's enterprise fund is comprised of the food service fund and the transportation service fund.

All proprietary funds are accounted for on a current financial resource's measurement focus. This means that all assets and liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (total net position) segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

C. Measurement focus, basis of accounting, and financial statement presentation(continued) Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment Building improvements 12 Years45 Years

#### Fiduciary Fund types

*Trust and Agency Funds* - This fund is used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The following is a description of the trust and agency funds of the District:

*Unemployment Compensation Trust Fund* - This fund is used to account for the portion of employee deductions for unemployment compensation required to be deposited and accumulated for future unemployment claims under the Benefit Reimbursement Method.

*Private Purpose Scholarship Fund* - This fund is used to account for scholarship accounts donated to the District to be utilized for scholarship awards to qualifying students.

*Student Activities Agency Fund* - This fund is used to account for funds derived from athletic events or other activities of pupil organizations and accumulated for payment of student group activities.

*Miscellaneous Agency Fund* - This fund accounts for the expenditure and reimbursement for various activities of the District.

*Payroll Agency Fund* - This fund accounts for the withholding and remittance of employee salary deductions.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

#### D. Budgets/budgetary control

Annual appropriated budgets are prepared in the Spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the County office and, if necessary, are voted upon at the annual school election in November. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line-item accounts within each fund. Line-item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum Chart of Accounts referenced in N.J.A.C. 6:23-16.2(f)1. All budget amendments must be approved by School Board Resolution.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

#### E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

#### F. Tuition receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

#### G. Tuition payable

Tuition charges are based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

#### H. Short-term interfund receivable/payables

Short-term interfund receivables and payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

#### I. Inventories and prepaid items

Inventories and prepaid items, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditures during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the firstin-first-out (FIFO) method. The commodities inventory value at balance sheet date is reported as unearned revenue as title does not pass to the school district until the commodities are used. Prepaid items in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2020.

#### J. Capital assets

Capital assets, which include land, land improvements, buildings and improvements, vehicles and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All reported capital assets, except for land and construction in progress, of the District are depreciated using the straight-line method over the following estimated lives:

#### Note 1 - <u>Summary of significant accounting policies (continued)</u> J. Capital assets (continued)

Assets	Years
Buildings	40
Building improvements & portable classroom	20 - 40
Land improvements	15 - 20
Furniture	20
Musical instruments	15
Athletic equipment	10 - 15
Maintenance equipment	10 - 15
Audio visual equipment	7 - 10
Office equipment	5 - 10
Computer equipment	5 - 10
Vehicles	8

#### K. Compensated absences

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement Number 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the Districts' agreements with the various employee unions.

The liability for compensated absences was accrued using the vesting method, whereby the liability is calculated by vesting balances as of the balance sheet date for which a payment is probable. Salary related payments for the employer's share of Social Security and Medicare taxes are included.

For the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, in the fund financial statements, all of the compensated absences are considered long-term and therefore are not a fund liability. This represents a reconciling item between the fund and government-wide presentations.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

#### L. Unearned revenue

Unearned revenue in the general fund and special revenue fund represents cash, which has been received but not yet earned. See Note 1 (E) regarding the special revenue fund.

Unearned revenue in the enterprise fund includes United States government commodity inventories at year-end. The aid revenue associated with this commodity inventory is deferred until it is used in the operations of the food service fund. Prepaid lunch debit card revenue balances at year-end are also included in unearned revenue.

#### M. Long-term obligations

In the government-wide financial statements, and in internal service fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

#### N. Net position

Net position represents the difference between the sum of assets and deferred outflows of resources, and the sum of liabilities and deferred inflows of resources. In the government-wide financial statements, net position is classified into the following three components:

- *Net investment in Capital Assets* This component represents capital assets, less accumulated depreciation and net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.
- *Restricted* Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- *Unrestricted* Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

# Note 1 Summary of significant accounting policies (continued) O. Fund balances - governmental funds In the fund financial statements, governmental funds report the following classifications of fund balance:

- *Non-Spendable* includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- *Restricted* includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- *Committed* includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision-making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.
- *Assigned* includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.
- *Unassigned* includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the general fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balance are available, then the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

#### P. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates

#### Q. Allocation of indirect expenses

Certain expenses, which have not been charged to a specific function in the District's fund financial statements, have been allocated to the functions for the government-wide statements. Employee benefits, on-behalf TPAF Pension Contributions, reimbursed TPAF Social Security Contributions and compensated absences accruals have been allocated based on salaries by function. Depreciation expense which was not specifically identified by function has been allocated based on the current year expenses by function.

#### Note 1 - <u>Summary of significant accounting policies (continued)</u>

R. Deferred outflows/inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has one item that qualifies for reporting in this category, deferred amount on pension activity. In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amount on pension activity.

#### Note 2 - <u>Tax assessments and property taxes</u>

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Upon the filing of certified adopted budgets by the collecting municipality, the municipality's local school districts and the County, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in N.J.S.A. 54:4 et. seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1, respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date are subject to interest penalties of eight percent per annum on the first \$1,500 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500. Pursuant to Chapter 75, PL 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six percent of the amount of the delinquency. These interest and penalties are the highest permitted under the New Jersey statutes. Delinquent taxes are annually included in a tax sale in accordance with New Jersey statutes.

## Note 2 - <u>Tax assessments and property taxes (continued)</u> School taxes are guaranteed, as to amount of collection, by the collecting municipality (the collection agency) and are transmitted to the school district in accordance with the Schedule of Tax Installments as certified by the school district's Board of Education on an annual basis.

#### Note 3 - Deposits and investments

Cash, cash equivalents and investments - Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. All certificates of deposit are recorded as cash and cash equivalents regardless of the date of maturity. As of June 30, 2020, the District had no investments.

New Jersey Governmental Units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey Governmental Units. In addition, other state statutes permit investments in obligations issued by local authorities and other state agencies. The State of New Jersey does not place any limit on the amount that the District may invest with any one issuer.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of Governmental Units. The statute requires that no Governmental Unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. The District does not have a policy for custodial credit risk. New Jersey statutes require that cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds, employee's salary withholdings, or funds that may pass to the District relative to the happening of a future condition.

Note 3 -	<u>Deposits and investments (continued)</u> As of June 30, 2020, the District's bank balances of \$39,751,2 credit risk as follows:	07 were ex	posed	d to custodial
	Insured by the FDIC Insured by GUDPA Total		\$ \$	500,000 39,251,207 39,751,207
	Deposits at June 30, 2020 appear in the financial statements as	summarize	d bel	ow:

#### Note 5 - Long-term debt

Long-term liability activity for the year ended June 30, 2020 is as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
General obligation					
bonds payable	\$ 6,110,000	\$ -	\$ 1,965,000	\$ 4,145,000	\$ 2,035,000
Unamortized bond	240.264		1.50.004	104.440	1 50 00 1
premium PERS net pension	340,364	-	153,924	186,440	153,924
liability	21,141,299	-	2,416,223	18,725,076	-
Compensated					
absences payable	2,527,830	104,653	277,963	2,354,520	231,067
Total governmental activities long-term					
liabilities	\$ 30,119,493	\$ 104,653	\$ 4,813,110	\$ 25,411,036	\$ 2,419,991

Payments on the general obligation bonds are made in the debt service fund from property taxes and state aid. The compensated absences liability is paid in the current expenditures budget of the District's general fund and the other long-term debts are amortized over a determined period.

The annual requirements to amortize all general obligation bonds outstanding as of June 30, 2020 including interest payments are listed as follows:

Fiscal Year Ending June 30	Principal		Interest		Total
2021	\$ 2,035,000	\$	123,553	\$	2,158,553
2022	2,110,000		42,200		2,152,200
Total	\$ 4,145,000	\$	165,753	\$	4,310,753

*General Obligation Bonds* - General obligation school building bonds payable at June 30, 2020, with their outstanding balances are comprised of the following individual issues:

\$13,480,000 - 2011 general obligation refunding bonds, interest at 2.00% to 4.00%, due in annual installments beginning September 15, 2012 to September 15, 2021. \$4,145,000

The general obligation bonded debt of the District is limited by State law to 3% of the average equalized assessed values of the total taxable property in the District for the past three years. The legal debt limit at June 30, 2020 is \$284,300,783. General obligation debt at June 30, 2020 is \$4,145,000, resulting in a legal debt margin of \$280,155,783.

#### Note 6 - <u>Pension plans</u>

Description of systems

Substantially all of the Board's employees participate in one of the following defined benefit public employee retirement systems which have been established by State statute: The Teachers' Pension and Annuity Fund (TPAF), Public Employees' Retirement System (PERS) and the Defined Contribution Retirement Program (DCRP). The PERS and TPAF systems are sponsored and administered by the State of New Jersey. The DCRP system is administered by Prudential Financial for the Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers.

#### A. Public employees' retirement systems (PERS)

Plan description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at <u>www.state.nj.us/treasury/pensions.</u>

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after 10 years of service.

The following represents the membership tiers for PERS:

Tier	Definition
1	Members enrolled prior to July 1, 2007
2	Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members eligible to enroll on or after June 28, 2011

#### Note 6 - <u>Pension plans (continued)</u>

<u>A. Public employees' retirement systems (PERS) (continued)</u> Plan description (continued)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective Tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25-years of service. Deferred retirement is available to members who have at least 10-years of service credit and have not reached the service retirement age for the respective Tier.

#### Allocation methodology and reconciliation to financial statements

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the state and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and non-employer allocations are applied to amounts presented in the schedules of pension amounts by employer and non-employer. The allocation percentages for each group as of June 30, 2019 are based on the ratio of each employer's contributions to the group for the fiscal year ended June 30, 2019 measurement date. In accordance with Generally Accepted Accounting Principles, measurement for PERS pension in the District's financial statements is based upon the most recent available information which is for the state fiscal year ended June 30, 2019 measurement date.

#### Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued) Allocation methodology and reconciliation to financial statements (continued) GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense. The employer and nonemployer allocation percentages presented in the schedule of employer and nonemployer allocations and applied to amounts presented in the schedule of pension amounts by employer and nonemployer are based on the ratio of the contributions of an individual employer to the total contributions to PERS during the measurement period July 1, 2018 through June 30, 2019. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of pension amounts by employer and nonemployer may result in immaterial differences. Contributions from employers are recognized when due, based on statutory requirements.

#### Contributions

The contribution policy for PERS is set by N.J.S.A. 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the state. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the State fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in the State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The Actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15-years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The District's contractually required contribution rate for the year ended June 30, 2020 was 13.25% of the District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

The contribution rate was 7.50% of base salary effective July 1, 2018.

Note 6 -	<ul> <li><u>Pension plans (continued)</u></li> <li><u>A. Public employees' retirement systems (PERS) (continued)</u></li> <li><u>Collective net pension liability and actuarial information</u></li> <li>The District's proportionate share of the net pension liability for PERS as of the measurement date June 30, 2019:</li> </ul>

	Salary increases (based on years of service) Through 2026 Thereafter	2.00% - 6.00% 3.00% - 7.00%		
	Investment rate of return	7.00%		

Preretirement mortality rates were based on the Pub-10 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement is based on Scale MP-2019

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

#### A. Public employees' retirement systems (PERS) (continued)

Long-term expected rate of return

In accordance with state statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019 measurement date) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 measurement date are summarized in the following table:

I ong-Term

		Long-Term
	Target	Expected Rate
Asset Class	Allocations	of Return
Risk mitigation strategies	3.00%	4.67%
Cash equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment grade credit	10.00%	4.25%
High yield	2.00%	5.37%
Private credit	6.00%	7.92%
Real assets	2.50%	9.31%
Real estate	7.50%	8.33%
U.S. equity	28.00%	8.26%
Non-U.S. developed markets equity	12.50%	9.00%
Emerging markets equity	6.50%	11.37%
Private equity	12.00%	10.85%

#### Discount rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of actuarially determined contributions for the local employers.

#### Note 6 - <u>Pension plans (continued)</u>

### A. Public employees' retirement systems (PERS) (continued)

Discount rate (continued)

Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

#### Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the District's proportionate share of the collective net pension liability of as of June 30, 2019 measurement date, calculated using the discount rate as disclosed above, as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

District's proportionate share of the net pension liability

At current discount rate (6.28%)	- \$	18,725,076
At a 1% lower rate (5.28%)		23,817,360
At a 1% higher rate (7.28%)		14,674,137

Collective deferred outflows of resources and deferred inflows of resources

At the June 30, 2019 measurement date, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources		·	Deferred Inflows Resources
Differences between expected and actual experience	\$	336,091	\$	82,719
Changes of assumptions		1,869,768		6,499,415
Net difference between projected and actual earnings on				
pension plan investments		-		295,583
Changes in proportion and differences between District				
contributions and proportionate share of contributions		223,770		1,025,202
District contributions subsequent to the measurement date		1,010,850		-
Total	\$	3,440,479	\$	7,902,919

The amount reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e., for the school year ending June 30, 2020, the plan measurement date is June 30, 2019) of \$1,010,850 will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2020.

#### Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

<u>Collective deferred outflows of resources and deferred inflows of resources (continued)</u> The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) for the fiscal year ended June 30, 2019 measurement date:

	Beginning Balance		N	et Change in Activity	Ending Balance		
Deferred outflows of resources							
Differences between expected and actual							
experience	\$	403,168	\$	(67,077)	\$	336,091

plan investments		(198,306)		(97,277)		(295,583)	
Net of deferred outflows		· · · · · · · · · · · · · · · · · · ·	<b>.</b>		<b>_</b>		
net of deferred outflows	\$	(3,180,276)	\$	(1,491,582)	\$	(4,671,858)	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions (excluding employer specific amounts, deferrals from District contributions subsequent to the measurement date, and deferrals from change on proportion) will be recognized in pension expense as follows:

State Fiscal Year Ending June 30,	
2020	\$ (540,695)
2021	(1,754,004)
2022	(1,566,223)
2023	(735,423)
2024	 (75,513)
Total	\$ (4,671,858)

#### Note 6 - <u>Pension plans (continued)</u>

#### A. Public employees' retirement systems (PERS) (continued)

Pension expense

For the fiscal year ended June 30, 2020, the District recognized net pension expense of \$798,252, which represents the District's proportionate share of allocable plan pension expense of \$868,129 plus other adjustments to the net pension liability of \$57,169, less the net amortization of deferred amounts from changes in proportion of \$127,046. The components of allocable pension expense, which exclude amounts attributable to employer paid member contributions and pension expense related to specific liabilities of individual employers, for the District for the fiscal year ending June 30, 2019 measurement date are as follows:

Service cost	\$ 721,172
Interest on total pension liability	2,137,485
Member contributions	(496,724)
Administrative expense	13,157
Expected investment return net of investment expense	(1,326,292)
Pension expense related to specific liabilities of individual employers	(6,212)
Recognition of deferred inflows/outflows of resources	
Amortization of assumption changes or inputs	160,926
Amortization of expected versus actual experience	(491,851)
Amortization of projected versus actual investment	
earnings on pension plan investments	156,468
Pension expense	\$ 868,129

## B. Teachers' pension and annuity fund (TPAF)

### Plan description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a multipleemployer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at <u>www.state.nj.us/treasury/pensions</u>.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Note 6 -	Pensior	<u>n plans (continued)</u>						
	B. Teac	B. Teachers' pension and annuity fund (TPAF)						
	<u>Plan de</u>	scription						
	The fol	lowing represents the membership Tiers for TPAF:						
	Tier	Definition						
	1	Members enrolled prior to July 1, 2007						
	2	Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008						
	3	Members eligible to enroll on or after November 2, 2008 and prior to May 22,						
		2010						
	4	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011						

5 Members eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

#### **Contributions**

The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the State fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

#### Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued) Special funding situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the Notes to the Financial Statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the local participating employer as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the local participating employer.

During the state fiscal year ending June 30, 2019, the State of New Jersey contributed \$4,133,766 to the TPAF for normal pension benefits on behalf of the District.

The contribution rate was 7.50% of base salary effective July 1, 2018.

Collective net pension liability and actuarial information

The District's proportionate share of the net pension liability for TPAF for fiscal year ended June 30, 2019 measurement date is as follows:

District proportionate share of net pension liability Less: State proportionate share of net pension liability Net pension liability	\$ 172,725,957 46,550,801 \$ 126,175,156			
Proportionate share	<u>ه</u> (	0.2055942893%		
Plan fiduciary net position as a percentage of the total pension liability		26.95%		

Note 6 -	Pe	ensio	n	plans (	contin	ued)		
	_	_					•	

# B. Teachers' pension and annuity fund (TPAF) (continued)

Actuarial assumptions

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	
Price	2.75%
Wage	3.25%
Salary increases (based on years of service)	
Through 2026	1.55 - 4.55%
Thereafter	2.75 - 5.65%
Investment rate of return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

#### Long-term expected rate of return

In accordance with state statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019 measurement date) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 measurement date are summarized in the following table:

#### Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued) Long-term expected rate of return (continued)

		Long-Term
	Target	Expected Rate of
Asset Class	Allocations	Return
Risk mitigation strategies	3.00%	4.67%
Cash equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment grade credit	10.00%	4.25%
High yield	2.00%	5.37%
Private credit	6.00%	7.92%
Real assets	2.50%	9.31%
Real estate	7.50%	8.33%
U.S. equity	28.00%	8.26%
Non-U.S. developed markets equity	12.50%	9.00%
Emerging markets equity	6.50%	11.37%
Private equity	12.00%	10.85%

I an a Tama

#### Discount rate

The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

#### Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the net pension liability of the State as of June 30, 2019 measurement date calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

District's proportionate share of the net pension liability	
At current discount rate (5.60%)	\$ 126,175,156
At a 1% lower rate (4.60%)	148,788,436
At a 1% higher rate (6.60%)	107,413,274

Note 6 -	Pension plans (continued)		
	B. Teachers' pension and annuity fund (TPAF) (continued)		
	Pension expense		
	The components of allocable pension expense, which exclude pe	ension expe	ense related to
	specific liabilities of individual employers, for the District for the	fiscal year e	ended June 30,
	2019 measurement date are as follows:		
		Φ	2 0 (0 122
	Service cost	\$	3,860,133
	Τ , , , , , , , , , , , , , , , , , , ,		0 (17 502

Service cost	\$ 3,860,133
Interest on total pension liability	8,617,593
Member contributions	(1,735,480)

Amortization of projected versus actual investment	
earnings on pension plan investments	 694,628
Pension expense	\$ 7,442,148

#### C. Defined contribution retirement program

The Defined Contribution Retirement Program (DCRP) was established under the provisions Ch. 92, PL 2007 and expanded under the provisions of Ch. 89, PL 2008 and Ch. 1, PL 2010 to provide eligible members with a tax sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Employees eligible to enroll in the program include the following: First, employees enrolled in the Public Employees Retirement System (PERS) or Teachers Pension and Annuity Fund (TPAF) on or after July 1, 2007 who earn salary in excess of maximum compensation limits. Also, employees otherwise eligible to enroll in the TPAF and PERS who do not earn the minimum salary (\$8,400 in 2020) but who earn salary of at least \$5,000 annually are eligible to participate. The Program Administrator, Prudential Financial, makes information regarding the program available on its New Jersey Defined Contribution Program Web Site: www.prudential.com/njdcrp.

Contribution rates for DCRP provide for employee contributions of 5.50% of annual contractual compensation as defined. The District's contribution to the DCRP for fiscal year 2020 was \$23,629.

#### Note 6 - <u>Pension plans (continued)</u>

D. Other pension plan information

During the fiscal year ended June 30, 2020, the State of New Jersey contributed \$1,762,300 to the TPAF for postretirement medical benefits, \$83,646 for noncontributory insurance premiums, \$3,386 for long-term disability insurance and \$4,666,723 for normal costs and accrued liability costs on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$1,634,366 during the fiscal year ended June 30, 2020 for the employer's share of Social Security Contributions for TPAF members calculated on their base salaries. These amounts have been included in the financial statements and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB Statement 68.

#### Note 7 - <u>Postretirement benefits</u>

The State of New Jersey provides employer-paid coverage to members of the TPAF who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provision of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of PERS and Alternative Benefits Program (ABP) who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents. In fiscal year 2019, the State paid PRM benefits for 153,893 State and local retirees.

The State funds postretirement medical benefits on a pay-as-you-go basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For fiscal year 2019, the State contributed \$1.908 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The State's pay-as-you-go contributions have remained consistent with fiscal year 2019 amounts. The State has appropriated 1.612 billion in fiscal year 2020 as the State's contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective for fiscal year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The fiscal year 2019 total State OPEB liability to provide these benefits is \$76.0 billion, a decrease of \$14.5 billion or 16 percent from the \$90.5 billion liability recorded in fiscal year 2018.

#### Note 7 - <u>Postretirement benefits (continued)</u>

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75.

#### Total OPEB liability

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under Paragraphs 193 and 203 through 205 of GASB Statement No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the District. Note that actual numbers will be published in the NJ State CAFR at https://www.nj.gov/treasury/omb/cafr.shtml.

Under a special funding situation, the State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Therefore, the following OPEB liability note information is reported at the State's level and is not accrued by the District.

For purposes of reporting required GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the District's proportionate share of allocable OPEB liability and employer OPEB expense and related revenue as of June 30, 2019 measurement date is as follows:

State's proportionate share of the OPEB liability District's proportionate share of the State's OPEB liability	\$ 41,729,081,045 89,977,346
Employer OPEB expense and related revenue	1,998,560
Allocable proportionate percentage	0.2156226395%

## Note 7 - <u>Postretirement benefits (continued)</u>

Changes in the total OPEB liability

	Total OPEB			
		Liability		
Total OPEB liability at June 30, 2018	\$	99,417,053		
Service cost		3,554,116		
Interest cost		3,933,615		
Change of benefit terms		-		
Differences between expected and actual experiences		(15,588,846)		
Changes of assumptions		1,341,570		
Member contributions		81,874		
Gross benefit payments		(2,762,036)		
Total OPEB liability at June 30, 2019	\$	89,977,346		

There were no changes of the benefit terms from June 30, 2018 to June 30, 2019.

Changes of assumptions and other inputs reflect a change in the discount rate from 3.87% as of June 30, 2018 to 3.50% as of June 30, 2019.

The total non-employer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate

2.50%

	TPAF	PERS
	(based on years	(based on years
Salary increases	of service)	of service)
Through 2026	1.55% - 3.05%	2.00% - 6.00%
Thereafter	1.55% - 3.05%	3.00% - 7.00%

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP) and "General" (PERS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality table with fully generational mortality table with fully generational mortality are based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019

#### Note 7 - <u>Postretirement benefits (continued)</u>

Changes in the total OPEB liability (continued)

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 - June 30, 2018 and July 1, 2014 - June 30, 2018 for TPAF and PERS, respectively.

#### Health care trend assumptions

For Pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

#### Discount rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

#### Sensitivity of the total OPEB liability to changes in the discount rates

The following presents the total non-employer OPEB liability as of June 30, 2019 measurement date, using the District's allocable proportionate percentage, calculated using the discount rate as disclosed above as well as what the total non-employer OPEB liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

Total OPEB Liability (school retirees)	
At current discount rate (3.50%)	\$ 89,977,346
At a 1% lower rate (2.50%)	106,298,802
At a 1% higher rate (4.50%)	77,012,476

#### Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates

The following presents the total non-employer OPEB liability, as well as what the total nonemployer OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Total OPEB Liability (school retirees)	
Healthcare cost trend rate	\$ 89,977,346
At a 1% lower rate (1% decrease)	74,137,323
At a 1% higher rate (1% increase)	110,946,284

#### Note 7 - <u>Postretirement benefits (continued)</u>

<u>OPEB expense and deferred outflows of resources and deferred inflows of resources related</u> to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$1,998,560 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 and in which there is a special funding situation.

In accordance with GASB Statement No. 75, the District's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

#### Note 8 - <u>Deferred compensation</u>

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The Plan Administrators are as follows:

Ameriprise Financial Services Inc. AXA Equitable/Equivest Lincoln Investment Planning MetLife Resources Siracusa Benefits Programs Variable Annuity Life Insurance Co./AIG

#### Note 9 - Interfund receivables and payables

The composition of interfund balances as of June 30, 2020 is as follows:

	Re	ceivable	Р	ayable
Fund		Fund		Fund
General fund	\$	15,051	\$	-
Miscellaneous agency fund		-		15,051
Unemployment compensation fund		16,940		-
Payroll agency fund		-		16,940
Total	\$	31,991	\$	31,991

The balance due from the miscellaneous agency fund to the general fund of \$15,051 represents a loan from the general fund due to cash flow issues related to the delayed receipt of reimbursements from local government agencies. The balance due from the payroll agency fund to the unemployment compensation fund of \$16,940 represents employee withholdings for the unemployment trust not yet transferred at year-end.

#### Note 10 - Inventory

Inventory in the food service fund as of June 30, 2020 consisted of the following:

Food Supplies	\$ 32,761 8,074
Total	 40,835

#### Note 11 - <u>Contingent liabilities</u>

#### Litigation

The District is involved in various legal proceedings that are incidental to its operations. These legal proceedings are not likely to have a material adverse effect on the financial position of the District.

#### Grantor agencies

Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amount, if any, to be immaterial.

#### Note 12 - <u>Risk management</u>

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

*Property and Liability Insurance* - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. There was no significant reduction in insurance coverage from coverage of the prior year. The District did not have any insurance settlements which exceeded insurance coverage for the past three years. A complete Schedule of Insurance Coverage can be found in the Statistical Section of the Comprehensive Annual Financial Report.

*New Jersey Unemployment Compensation Insurance* - The District has elected to fund its NJ Unemployment Compensation Insurance under the Benefit Reimbursement Method. Under this plan, the District is required to reimburse the NJ unemployment trust fund for benefits paid to its former employees and charged to its account with the state. The District is billed quarterly for amounts due to the state. The following is a summary of District contributions, and interest earnings, employee contributions, reimbursements to the state for benefits paid and the ending balance of the District's unemployment trust fund:

Fiscal	Recei	vable	Iı	nterest	Employee		Amount			Ending	
Year	Canc	eled	Ea	Earnings		Deposits		Reimbursed		Balance	
2019 - 2020	\$	-	\$	3,892	\$	55,493	\$	(126,511)	\$	506,178	
2018 - 2019		-		3,547		55,552		(62,135)		573,304	
2017 - 2018		-		3,139		54,435		(56,302)		576,340	

#### Note 13 - <u>Reserve accounts</u>

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long-Range Facilities Plan (LRFP) and updated annually in the Quality Accountability Continuum (QSAC). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:26-9.1(d)1, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Districts are allowed as per N.J.S.A. 18A:7F-41(a) and 41(b) to deposit to the reserves by Board Resolution during the month of June for any unanticipated revenue and/or unexpended line-item appropriation amounts. Pursuant to this state statute, the District deposited \$3,798,425 to their capital reserve account and \$219,802 to their maintenance reserve account by Board Resolution in June 2020.

The following schedule is a summarization of the reserve accounts for the current fiscal year:

Reserve Type	Beginning Balance		District Contribution		Interest Earnings		 hdrawals of Return	Ending Balance		
Capital Maintenance	\$	18,540,773 2,909,718	\$	3,798,425 219,802	\$	177,201	\$ 2,370,973 219,802	\$	20,145,426 2,909,718	
Emergency Total	\$	213,900 21,664,391	\$	4,018,227	\$	177,201	\$ 21,184 2,611,959	\$	192,716 23,247,860	

The June 30, 2020 LRFP balance of local support costs of uncompleted capital projects exceeded the amount in capital reserve.

Note 14 -	<u>Fund balance - general fund</u> As described in Note 1 (O) fund balance may be restricted, committe analysis of the general fund balance on June 30, 2020 is as follows:	d or a	ssigned. An
	Restricted		
	Excess surplus - Designated for subsequent year's expenditures. Amount appropriated in the succeeding year's budget to reduce tax requirements.	\$	3,876,034
	Excess surplus - Represents amount in excess of allowable percentage of expenditures. In accordance with state statute, the excess surplus is designated for utilization in succeeding year's budgets.		3,820,000
	Capital reserve account - Represents funds restricted to capital projects		3,820,000
	in the Districts long range facilities plan.		20,145,426
	Maintenance reserve account - Represents funds restricted for required maintenance of school facilities.		2,909,718
	Emergency reserve account - Represents funds restricted to finance unanticipated general fund expenditures required for a thorough and efficient education.		192,716
	Committed		
	Year-end encumbrance - Represents fund balance assigned for purchase orders that have been issued but goods or services were not received as of June 30. Unassigned		3,949,732
	Undesignated - Represents fund balance which has not been restricted		
	or designated.		1,730,710
	Total fund balance - Budgetary basis (Exhibit C-1)		36,624,336
	Last state aid payments not recognized on GAAP basis		(527,523)
	Total fund balance - GAAP basis (Exhibit B-1)	\$	36,096,813

#### Note 15 - <u>Calculation of excess surplus</u>

In accordance with N.J.S.A. 18A:7F-7, as amended by PL 2004, Ch. 73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund, fund balance at the fiscal year end of June 30, if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2020 is \$3,820,000.

#### Note 16 - <u>Recent accounting pronouncements not yet effective</u>

The following is of recent accounting pronouncements which are not yet effective as of the year-end date of this report:

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, *Leases*. This statement is effective for reporting periods beginning after June 15, 2021 as amended by GASB Statement No. 95. The District is evaluating the effect of the pronouncement on financial reporting.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, *Fiduciary Activities*. This statement is effective for reporting periods beginning after December 15, 2019 as amended by GASB Statement No. 95. The District is evaluating the effect of the pronouncement on financial reporting.

In May 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement is effective for reporting periods beginning after June 15, 2022. The District is evaluating the effect of the pronouncement on financial reporting.

#### Note 17 - Deficit balance in unrestricted net position

The District is reporting a deficit balance in unrestricted net position for governmental activities as of June 30, 2020 of (\$12,913,420) on Schedule A-1 Statement of Net Position. The deficit balance is the result of reporting required by GASB Statement No. 68 *Accounting and Financial Reporting for Pensions* which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

#### Note 18 - <u>Risks and uncertainties</u>

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (The "COVID-19 outbreak") and the risks to the international community as a virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the District's financial condition, liquidity, and future results of operations.

#### Note 19 - Subsequent events

The District has evaluated subsequent events through January 19, 2021, which is the date the financial statements were available to be issued and no additional items were noted for disclosure.

**REQUIRED SUPPLEMENTARY INFORMATION - PART II** 

**BUDGETARY COMPARISON SCHEDULES** 

### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT General Fund Budgetary Comparison Schedule For the Fiscal Year Ended June 30, 2020

#### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Required Supplementary Information - Part III (Unaudited) June 30, 2020

- Note 1 <u>Special funding situation TPAF and other postretirement benefits</u> The participating employer allocations included in the supplemental Schedule of Employer Special Funding Allocations and the supplemental Schedule of Special Funding Amounts by Employer for each local employer are provided as each local employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the pension expense and other postretirement benefits (OPEB) expense allocated to the State of New Jersey (the State) under the special-funding situation and include their proportionate share of the net pension liability and OPEB liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on actual contributions made to the Teachers' Pension and Annuity Fund and for OPEB allocated to employers based upon covered payroll and adjusted by expected State Early Retirement Incentive contributions for the respective fiscal year.
- Note 2 <u>Changes in assumptions TPAF</u> The discount rate was 4.86% in State fiscal year 2018 and 5.60% in State fiscal year 2019. The inflation rate was 2.25% for State fiscal years 2018 and 2.75% in State fiscal year 2019.
- Note 3 <u>Changes in assumptions PERS</u> The discount rate was 5.66% in State fiscal year 2018 and 6.28% in State fiscal year 2019. The inflation rate was 2.25% for State fiscal year 2018 and 2.75% for State fiscal year 2019.
- Note 4 <u>Changes in assumptions other postretirement employee benefits</u> The other postretirement employee benefits discount rate decreased from 3.87% in State fiscal year 2018 to 3.50% in State fiscal year 2019. The inflation rate was 2.50% for State fiscal year 2018 and 2019.
- Note 5 <u>Changes in healthcare trend assumptions other postretirement employee benefits</u> For Pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.
- Note 6 <u>Changes in benefit term assumptions other postretirement employee benefits</u> There were no changes of the benefit terms from June 30, 2018 to June 30, 2019.

#### SPECIAL REVENUE FUND

The special revenue fund is used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted expenditures for specific purposes.

See independent auditors' report.

### **CAPITAL PROJECTS FUND**

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by proprietary funds.

(NOT APPLICABLE TO THIS REPORT)

#### **PROPRIETARY FUND**

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District's Board is that the costs of providing goods or services be financed through user charges.

See Statements B-4, B-5, and B-6

### FIDUCIARY FUNDS

Fiduciary funds are used to account for funds received by the School District as an agent for individuals, private organizations, other government and/or other funds.

Note: N.J.S.A. 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy when added to other components of the District's net budget may not exceed the pre-budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The District's basic tax rate is calculated from the A4F Form which is submitted with the budget and the net valuation taxable.

(b) Rates for debt service are based on each year's requirements.

- Note: N.J.S.A. 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy when added to other components of the District's net budget may not exceed the pre-budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.
  - (a) The District's basic tax rate is calculated from the A4F Form which is submitted with the budget and the net valuation taxable.
  - (b) Rates for debt service are based on each year's requirements.

Total direct and overlapping debt			\$ 181,404,064

- Sources: Assessed value data used to estimate applicable percentages provided by the County Board of Taxation. Debt outstanding data provided by each Governmental Unit.
  - Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the municipality. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping payment.
    - (a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another Governmental Unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

#### See independent auditors' report.

SINGLE AUDIT SECTION

K-1 1 of 2

#### Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and the aggregate remaining fund information of the Hunterdon Central Regional High School District, County of Hunterdon, the State of New Jersey (the District), as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 19, 2021.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hunterdon Central Regional High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

January 19, 2021 Flemington, New Jersey

#### Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance and New Jersey OMB Circular 15-08-OMB

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

#### Report on Compliance for Each Major Federal and State Program

We have audited the Hunterdon Central Regional High School District's, (the District), compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2020. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and QuestionedCosts.

#### Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey; and New Jersey OMB Circular 15-08. Those standards, the Uniform Guidance and the OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2020.

#### Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

#### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance For the Fiscal Year Ended June 30, 2020

#### Note 1 - General

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance present the activity of all federal awards and state financial assistance programs of the Hunterdon Central Regional School District. The District is defined in Note 1 (A) to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, is included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

#### Note 2 - Basis of accounting

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the District's basic financial statements.

#### Note 3 - <u>Relationship of financial statements</u>

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying Schedules on the Budgetary Basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$23,374 for the general fund and \$11,139 for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

#### HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance For the Fiscal Year Ended June 30, 2020

#### Note 3 - <u>Relationship of financial statements (continued)</u>

Financial assistance revenues are reported in the District's basic financial statements on a GAAP basis as follows:

K-5 2 of 2

	Local		]	Federal		State	Total
General fund	\$	-	\$	31,765	\$	14,235,903	\$ 14,267,668
Special revenue fund		23,706		672,932	731		697,369
Food service fund		-		145,808		5,091	150,899
Total awards and							
financial assistance	\$	23,706	\$	850,505	\$	14,241,725	\$ 15,115,936

# Note 4 - <u>Relationship to federal and state financial reports</u> Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

#### Note 5 - <u>Other</u>

Revenues and expenditures reported under the USDA Commodities Program represent current year distributions, respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the District for the year ended June 30, 2020. TPAF Social Security Contribution represents the amount reimbursed by the state for the employer's share of Social Security Contributions for TPAF members for the year ended June 30, 2020.

## Note 6 - <u>Indirect costs</u> The District has elected not to utilize the 10% de minimis indirect cost rate.
