January 19, 2021

Honorable President and Members of the Board of Education Mansfield Township School District County of Burlington Columbus, New Jersey

Dear Board Members/Citizens:

The Comprehensive Annual Financial Report (CAFR) of the Mansfield Township School District for the fiscal year ended June 30, 2020, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Mansfield Township School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the district as of June 30, 2020, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

The Comprehensive Annual Financial Report is presented in four sections as follows:

Introductory Section:

Section contains a Letter of Transmittal, Roster of Officials, Consultants and Advisors, and an Organizational Chart.

Financial Section:

Section contains the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements, Required Supplementary Information (RSI) and Other Supplementary Information.

Statistical Section:

Section contains selected financial trends, revenue and debt capacity, demographic, economic and other operating information, generally presented on a multi-year basis.

Single Audit Section:

The School District is required to undergo an annual Single Audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and New Jersey OMB's Circular 15-08 OMB, *"Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid"*. Information related to this Single Audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, if any, are included in the Single Audit Section of this report.

REPORTING ENTITY AND ITS SERVICES

The Mansfield Township School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standard Board (GASB) as established by NCGA Statement No. 3. All funds of the School District are included in this report. The School District has no component units.

The School District provides a full range of educational services appropriate to grade levels K through 6. These include regular instruction as well as special education for children with special needs. The School District's enrollment, as of October 15th, for the current and past nine fiscal years are detailed below:

	Student	Percent
Fiscal Year	Enrollment	<u>Change</u>
2019-2020	543	-2.86%
2018-2019	559	-8.51%
2017-2018	611	-7.42%
2016-2017	660	-10.93%
2015-2016	741	3.78%
2014-2015	714	-4.67%
2013-2014	749	4.17%
2012-2013	719	3.16%
2011-2012	697	1.75%
2010-2011	685	-0.29%

ECONOMIC CONDITION AND OUTLOOK

For the 2019-2020 school year, the Mansfield Township School District prioritized its budgetary resources toward maintaining superior educational programming, providing cutting-edge instructional

technology, and ensuring students and staff have access to materials and ancillary resources that support high quality instruction. A goal of the Board of Education was to continue lessening the burden of expenses created by material needs and routine school supplies; by taking a conservative approach to these needs and working with suppliers through competitive pricing, this goal was achieved.

MAJOR INITIATIVES

Professional development for certificated staff continues to be a focus. Highlights regarding PD include the continued work with toward the implementation of the New Jersey Student Learning Standards for Science, in-district literacy and mathematics coaching, shared training opportunities with our regional cohort of districts, weekly Professional Learning Community meetings focusing on a variety of topics (including assessment analysis, project-based learning, and teacher-Jed themes). There has also been an emphasis on remote Professional Development as well to save costs on travel off campus as well as substitutes within the District.

Grant funding will offer our district opportunities to offset local monies for the 2019-2020 school year. Out-of-district tuition payments are funded through the IDEA grant, while the district is able to fully implement a Reading Recovery program through the utilization of funds from NCLB Title 1. As our district is eligible for funding through the SRSA REAP grant, we are able to use funds otherwise not available to enhance professional development opportunities (for both faculty and administration) and secure materials for innovative programs.

INTERNAL ACCOUNTING CONTROLS

Management of the School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft and misuse and to ensure that adequate accounting data are completed to allow for the preparation of financial statement in conformity with general accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be delivered; and (2) the valuation of costs and benefits require estimates and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluations by the district management.

As part of the School District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

BUDGETARY CONTROLS

In addition to internal accounting controls, the School District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length

budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or included as re-appropriations of fund balance in the subsequent year.

ACCOUNTING SYSTEM AND REPORTS

The School District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The School District's accounting system is organized on the basis of funds. The funds are explained in "Notes to Financial Statements", Note 1.

FINANCIAL POLICIES

The intent of the School Board is to ensure that the School District manages its budget and finance in a fiscally prudent and responsible way by establishing financial policies for the Budget, Fund Balance and the maintenance of adequate reserves. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting, revenues except for certain grant revenues, are recognized when susceptible to accrual that is when they become measurable and available. Property taxes, interest and certain General Fund revenues are the significant revenue sources considered susceptible to accrual.

OTHER INFORMATION

INDEPENDENT AUDIT

State statutes require an annual audit by independent certified public accountants. The accounting firm of Holt McNally & Associates, Inc., was appointed by the Board of Education. In addition to meeting the requirements set forth in the State statutes, the audit was also designed to meet the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* The auditor's report on the basic financial statements and combining statements and related major fund supporting statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit section of this report.

ACKNOWLEDGEMENTS

We would like to express our appreciation to the members of the Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have accomplished without the efficient and dedicated services of our business office staff.

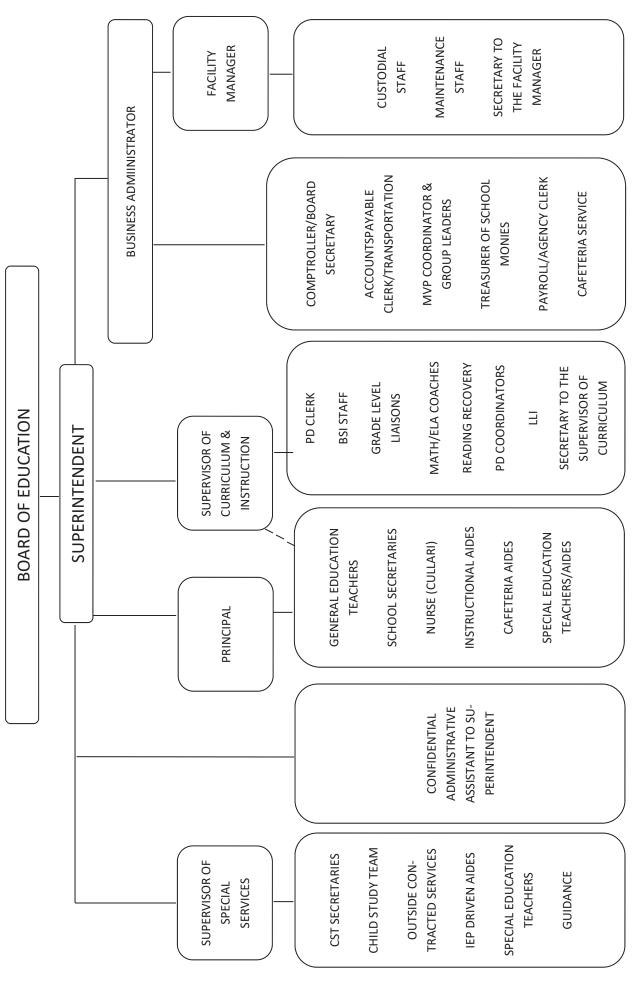

Respectfully submitted,

Tiffany Moutis, Superintendent

Danielle Morolda, School Business Administrator

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Mansfield Township School District County of Burlington Mansfield, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Mansfield Township School District, County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

618 Stokes Road, Medford, NJ 08055 **P:** 609.953.0612 • **F:** 609.257.0008 www.hmacpainc.com We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Mansfield Township School District, County of Burlington, State of New Jersey, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the schedules related to accounting and reporting for pensions & other post-employment benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mansfield Township School District's basic financial statements. The introductory section, combining and individual fund statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis, as required by the Division of Administration and Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* are also not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the

basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2021 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Respectfully Submitted,

HOLT MCNALLY & ASSOCIATES, INC.

Medford, New Jersey January 19, 2021

REQUIRED SUPPLEMENTARY INFORMATION - PART I

As management of the Mansfield Township School District, New Jersey (School District), we offer readers of the School District's financial statements this narrative overview and analysis of the School District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. Comparison to the prior year's activity is provided in this document. The basic financial statements are comprised of three components:

1) Government-Wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide the reader with a broad overview of the financial activities in a manner similar to a private-sector business. The government-wide financial statements include the statement of net position and the statement of net activities.

The *statement of net position* presents information about all of the School District's assets and liabilities. The difference between the assets plus deferred outflows or resources and liabilities plus deferred inflows of resources is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the School District changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in this statement even though the resulting cash flows may be recorded in a future period.

Both of the government-wide financial statements distinguish functions of the School District that are supported from taxes and intergovernmental revenues (*governmental activities*) and other functions that are intended to recover most of their costs from user fees and charges (*business-type activities*). Governmental activities consolidate governmental funds including the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund. Business-type activities reflect the Food Service Fund.

Fund Financial Statements

Fund financial statements are designed to demonstrate compliance with financial-related requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific objectives. All of the funds of the School District are divided into three categories: *governmental funds, proprietary funds* and *fiduciary funds*.

Governmental funds account for essentially the same information reported in the governmental activities of the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the financial requirements in the near term.

Overview of the Basic Financial Statements (continued)

Fund Financial Statements (continued)

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, a reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains four individual governmental funds. The major funds are the General Fund, the Special Revenue Fund, the Capital Projects Fund, and the Debt Service Fund. They are presented separately in the fund financial statements.

The School District adopts an annual appropriated budget for the General Fund, Special Revenue Fund and the Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with budgetary requirements.

Proprietary funds are used to present the same functions as the business-type activities presented in the government-wide financial statements. The School District maintains one type of proprietary fund – the Enterprise Fund. The fund financial statements of the enterprise fund provides the same information as the government-wide financial statements, only in more detail.

The School District's enterprise funds (Food Service Fund and MVP Fund) are listed individually and are considered to be major funds.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Financial Analysis of the School District as a Whole

Table 1 provides a summary of the School Districts net position for the fiscal years 2020 compared to fiscal year 2019.

Table 1Summary of Net Position

Governmental Activities

During the fiscal year 2020, the net position of governmental activities increased by \$1,117,601 or 25.7%.

The assets and deferred outflows of the primary government activities exceeded liabilities and deferred inflows by \$5,467,892, with an unrestricted deficit balance of \$2,595,295. The deficit in unrestricted net position is primarily due to accounting treatment for bonds payable, compensated absences payable, GASB 68 net pension liability, and the last two state aid payments. In addition, state statutes prohibit school districts from maintaining more than 2% of its adopted budget as unassigned fund balance.

The School District's governmental activities unrestricted net positon had GASB 68 pension not been implemented would have been as follows:

Table 3GASB 68 Effect on Unrestricted Net Position

Unrestricted Net Position (With GASB 68)	\$ (2,595,295)
Add back: PERS Pension Liability Less: Deferred Outflows related to pensions Add back: Deferred Inflows related to pensions	 2,502,882 (732,866) 1,117,146
Unrestricted Net Position (Without GASB 68)	\$ 291,867

Business-type Activities

During the fiscal year 2020, the net position of business-type activities increased by \$616.

The assets and deferred outflows of the business-type activities exceeded liabilities and deferred inflows by \$60,026.

General Fund Budgeting Highlights

Final budgeted revenues was \$11,290,918, which was equal to the original budget. Excluding nonbudgeted revenues, the School District's actual revenues exceeded budgeted revenues by \$131,919.

Final budgeted appropriations was \$12,414,210, which was an increase of \$1,718 from the original budget. The increase is due to prior year reserve for encumbrances, which increase the budget appropriations in the subsequent fiscal year's budget. Excluding nonbudgeted expenditures, the School District's budget appropriations exceeded actual expenditures by \$1,102,247.

The School District's general fund balance – budgetary basis (Exhibit C-1) was \$2,710,629 at June 30, 2020, an increase of \$149,686 from the prior year.

Governmental Funds

At the end of the current fiscal year, the School District's governmental funds reported a combined ending fund balance of \$2,653,477, an increase of \$144,705 from the prior year.

General fund - During the current fiscal year, the fund balance of the School District's general fund increased by \$144,822 or 5.77% to \$2,653,412 at June 30, 2020, compared to an increase of \$319,540 in fund balance in the prior fiscal year. The primary factor(s) affecting the change in fund balance of the general fund is as follows:

• Tax Levy Revenue increased by \$205,428 from the prior year

Special revenue fund – There was no change in the fund balance for the special revenue fund.

Capital projects fund - There was no change in the fund balance for the capital projects fund.

Debt service fund - During the current fiscal year, the fund balance of the School District's debt service fund decreased by \$117 or 64.3% to \$65 at June 30, 2020, compared to a decrease of \$115,710 in the prior fiscal year.

Proprietary Funds

Food service fund - During the current fiscal year, the net position of the School District's food service fund decreased by \$14,965 or 44.1% to \$18,973 at June 30, 2020, compared to an increase of \$2,084 in fund balance in the prior fiscal year.

MVP Program - During the current fiscal year, the net position of the School District's MVP Program fund increased by \$15,581 to \$41,053 at June 30, 2020, compared to an increase of \$30,588 in fund balance in the prior fiscal year.

Capital Assets

The School District's capital assets for its governmental and business-type activities as of June 30, 2020, totaled \$9,999,237 (net of accumulated depreciation). Capital assets includes land, construction in progress, land improvements, buildings and improvements and equipment The School Districts "Net Investment in Capital Assets" component of net position represents capital assets, net of accumulated depreciation less any outstanding debt associated with the capital assets. There was a net decrease in the School District's investment in capital assets for the current fiscal year in the amount of \$215,814. Table 4 shows fiscal 2020 balances compared to 2019.

Summary of Capital Assets							
		June 30,		June 30,		Increase/	Percentage

	\$	9,999,237	\$	10,215,051	\$	(215,814)	-2.1%

Table 4Summary of Capital Assets

Depreciation expense for the year was \$351,858. Additional information on the School District's capital assets can be found in the notes to the basic financial statements (Note 5) of this report.

Debt Administration

Long-term debt – At the end of the current fiscal year, the School District had total bonded debt outstanding of \$3,610,000, which represents a decrease of \$1,090,000 from the prior year.

Additional information on the School District's long-term obligations can be found in the notes to the basic financial statements (Note 7) of this report.

MANSFIELD TOWNSHIP SCHOOL DISTRICT Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 (Unaudited) (Continued)

Factors on the School District's Future

The Mansfield Township School District has committed itself to strong financial controls. The School District spends a lot of time monitoring its budget, scrutinizing spending requests, and has been implementing even stronger internal controls. The School District commits itself to constantly reviewing the ways in which it conducts business, and making improvements whenever possible, in order to meet future challenges and maximize instructional spending.

Contacting the School Districts Financial Management

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Mansfield Township School District Business Office, 200 Mansfield Road East, Columbus, New Jersey, 08022, telephone number: (609) 298-2037.

Amounts reported for governmental activities in the statement of	Ŷ	1.1,700
activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. When capital outlays and other adjustments exceed depreciation, the difference is an addition in the reconciliation (+); when depreciation and other adjustments exceed capital outlays the difference is a reduction to the reconciliation (-)		
Capital Outlays\$ 135,681Depreciation Expense(345,537)	1	(209,856)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.	-	1,099,396
Governmental funds report School District pension contributions as expenditures. However in the statement of activities, the cost of pension benefits earned is reported as pension expense. This is the amount by which pension benefits earned exceeded the School District's pension contributions in the current period.		23,096
Governmental funds report the effect of premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these transactions is as follows:		
Amortization of Premium on Bonds 97,378		
Amortization of Loss on Bond Refunding (10,575)	<u> </u>	86,803
In the statement of activities, interest on long-term debt in the statement of activities is accrued,		
regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation (+)		14,222
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).		
position and is not reported in the statement of activities.		(40,765)
Change in Net Position of Governmental Activities	\$	1,117,601

MANSFIELD TOWNSHIP SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2020

Note 1. Summary of Significant Accounting Policies

The financial statements of the Board of Education of Mansfield Township School District (the 'District") have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of more significant accounting policies.

Reporting Entity

The Mansfield Township School District (hereafter referred to as the "District") is a Type II district located in the County of Burlington, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three members' terms expire each year. The purpose of the District is to educate students in grades kindergarten through sixth at its two schools. The District has an approximate enrollment at June 30, 2020 of 550 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District.

There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

Component Units

GASB Statement No.14. The Financial Reporting Entity, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units and GASB Statement No. 61, The Financial Reporting Entity: Omnis - an amendment of GASB Statements No. 14 and No. 34 and GASB 80, Blending Requirements for certain component units – an Amendment of GASB Statement No. 14 . The District had no component units as of for the year ended June 30, 2020.

Government-Wide Financial Statements

The District's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the District accompanied by a total column. Fiduciary activities of the District are not included in these statements.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets, deferred outflows of resources, liabilities, and

Note 1. Summary of Significant Accounting Policies (continued):

deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the District are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule (Exhibit B-3) is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The District has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. (The District's deferred outflows of resources and deferred inflows of resources are noncurrent.) The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recognized when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the District, are property tax and intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Proprietary Fund Financial Statements

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and for the non-major funds aggregated. A column representing internal service funds is also presented in these statements. However, internal service funds balances and activities have been combined with the governmental activities in the Government-Wide financial statements.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized

Note 1. Summary of Significant Accounting Policies (continued):

in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses are reported as non-operating expenses.

Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Net Position. The District's fiduciary funds are Agency Funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting as are the proprietary funds explained above.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

While government-wide and fund financial statements are presented separately, they are interrelated. The governmental activities column of the government wide statements incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the District's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. However, data from the fiduciary funds is not incorporated in the government-wide financial statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in the governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, charges for services, licenses, and interest on notes receivable associated with the current fiscal period are all considered to be susceptible to accrual and accordingly have been recognized as

Note 1. Summary of Significant Accounting Policies (continued):

revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available when cash is received.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Food Service Fund and the MVP program are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, employee salaries and benefits, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Internal service funds are used to account for those operations which provide benefits to other funds, departments, or agencies of the primary government and its component unit. Although internal service funds are reported as a proprietary fund in the fund financial statements, it is incorporated into governmental activities in the government-wide financial statements. The District does not maintain any internal service funds.

The District reports the following major governmental funds:

General Fund - The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey Department of Education the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, interest earnings and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt

Note 1. Summary of Significant Accounting Policies (continued):

Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the acquisition of construction of major capital facilities, other than those financed by proprietary funds. The financial resources are derived from New Jersey School Development Authority grants, temporary notes, capital leases, or serial bonds that are special authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following major proprietary funds:

Food Service Fund – This fund accounts for the revenues and expenses pertaining to the District's cafeteria operations.

MVP Program Fund – This fund accounts for the revenues and expenses pertaining to the District's aftercare program.

Additionally, the District reports the following major fiduciary funds:

Private Purpose Trust Funds - Private-purpose trust funds are used to account for the principal and income for trust arrangements that benefit individuals, private organizations, or other governments. The district currently maintains the following private purpose trust funds:

<u>Unemployment Trust Fund</u> – Revenues consist of employee payroll withholdings, interest income, and contributions through the annual budget process of the District. Expenditures consist of unemployment reimbursement claims.

Agency Funds - Agency funds are assets held by a governmental entity (either as trustee or as an agent) for other parties that cannot be used to finance the governmental entity's own operating programs. The district currently maintains Payroll and Student Activity Funds as Agency Funds.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds and internal service funds) are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Note 1. Summary of Significant Accounting Policies (continued):

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included in business-type activities column.

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the county office. In accordance with P.L.2011 c.202, which became effective January 17, 2012, the District eliminated the April annual voter referendum on budgets which met the statutory tax levy cap limitations and the board of education members are elected at the November general election. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2-2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23-2-11.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2, and Exhibit I-3, includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounts as presented in the General Fund Budgetary Comparison Schedules and the Special Revenue Fund Budgetary Comparison Schedule to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds. Note that the District does not report encumbrances outstanding at fiscal year-end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the last state aid payments.

Note 1. Summary of Significant Accounting Policies (continued):

Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as a reduction of the accounts receivables or as unearned revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

Cash and Cash Equivalents

Cash and Cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost.

New Jersey School Districts are limited as to the types of investments and types of financial institutions they may invest in. *N.J.S.18A:20-37* provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A.17:9-41 et. Seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

Tuition Payable/Receivable

Tuition rates for the fiscal year end June 30, 2020 were established by the receiving district based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

Note 1. Summary of Significant Accounting Policies (continued):

Inventories

Inventories are valued at cost, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when consumed rather when purchased.

Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year. The amounts are eliminated in the governmental and business-type activities, which are presented as Internal Balances. Balances with fiduciary funds are not considered Internal Balances; therefore those balances are reported on the Statement of Net Position.

Capital Assets

Capital assets are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at estimated fair value at the date of donation. The District has established a threshold of \$2,000 for capitalization of depreciable assets.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the District are depreciated or amortized using the straight-line method over the following estimated lives:

Equipment & Vehicles	3 – 20 Years
Buildings	30 – 50 Years
Improvements	10 – 50 Years
Software	5-7 Years

Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absences liability is reported on the government-wide financial statements and proprietary fund financial statements. Compensated absences liability is not recorded in the governmental funds. Instead expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of resignations or retirements.

Note 1. Summary of Significant Accounting Policies (continued):

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measureable and the District is eligible to realize the revenue.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, government fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumption that affect certain reported amounts reported in the financial statements and accompanying note disclosures. Actual results could differ from those estimates.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Balance

In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies governmental fund balances as follows:

- <u>Non-spendable</u> This classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Non-spendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- <u>Restricted</u> This classification includes amounts for which constraints have been placed on the use of the resources either externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Note 1. Summary of Significant Accounting Policies (continued):

- <u>Committed</u> This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The School Board did not have any committed resources as of June 30, 2020.
- <u>Assigned</u> This classification includes amounts that are constrained by the School District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the business administrator through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- <u>Unassigned</u> This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to consider restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, it is the District's policy to consider amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- <u>Net Investment in Capital Assets</u> This components represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.
- <u>Restricted</u> Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- <u>Unrestricted</u> Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

Note 1. Summary of Significant Accounting Policies (continued):

Impact of Recently Issued Accounting Principles

Adopted Accounting Pronouncements

The following GASB Statements became effective for the fiscal year ended June 30, 2020:

Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

Bond Premiums, Discounts and Issuance Costs

In the government-wide financial statements and in the proprietary fund financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when bonds are issued.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Loss on Refunding Debt

Deferred loss on refunding debt arising from the issuance of the refunding bonds is recorded as deferred outflows of resources. It is amortized in a systematic and rational manner over the shorter of the duration of the related debt or the new debt issues as a component of interest expense.

Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Note 1. Summary of Significant Accounting Policies (continued):

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2. Cash Deposits and Investments

Cash Deposits

<u>Custodial Credit Risk</u> – Custodial credit risk is the risk that, in the event of a bank failure, the Board's deposits may not be recovered. Although the Board does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 et seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of GUDPA. Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by FDIC. Public fund owned by the Board in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, student activity may pass to the Board relative to the happening of a future condition. Such funds are shown as Uninsured and Uncollateralized in the schedule below. As of June 30, 2020, the District's bank balance of \$2,858,621 was exposed to custodial credit risk as follows:

Insured under FDIC and GUDPA Uninsured and Uncollateralized	\$ 2,810,551 48,070
	\$ 2,858,621

Investments

The School District has no investments at June 30, 2020.

Note 3. Reserve Accounts

Capital Reserve

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Note 3. Reserve Accounts (Continued):

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant *N.J.S.A.19:60-2*. Pursuant to *N.J.A.C.6:23A-14.1(g)*, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Beginning Balance, July 1, 2019	\$ 77,628
Increased by:	
Interest Earnings	 157
Ending Balance, June 30, 2020	\$ 77,785

The June 30, 2020 balance did not exceed the LRFP balance of local support costs of uncompleted capital projects.

Maintenance Reserve

The School District established a maintenance reserve account for the accumulation of funds for use as required maintenance of a facility in subsequent fiscal years.

Funds placed in the maintenance reserve account are restricted to maintenance projects in the School District's approved Maintenance Plan (M-1). A School District may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year-end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. The balance in the account cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Beginning Balance, July 1, 2019	\$ 116,334
Increased by:	
Interest Earnings	 235
Ending Balance, June 30, 2020	\$ 116,569

Note 3. Reserve Accounts (Continued):

Emergency Reserve

The emergency reserve account is used to accumulate funds in accordance with *N.J.S.A.* 18A:7F-41c(1) to finance unanticipated general fund expenditures required for a thorough and efficient education. Unanticipated means reasonably unforeseeable and shall not include additional costs caused by poor planning. The maximum balance permitted at any time in this reserve is the greater of \$250,000 or 1 percent of the general fund budget not to exceed \$1 million. Deposits may be made to the emergency reserve account by board resolution at year end of any unanticipated revenue or unexpended line item appropriation or both. The department has defined year end for the purpose of depositing surplus into reserve accounts as an amount approved by the district board of education between June 1 and June 30.

Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of 4 percent.

The activity of the maintenance reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Balance, July 1, 2019 and June 30, 2020 \$ 50,000

Note 4. Accounts Receivable

Accounts receivable at June 30, 2020 consisted of accounts and intergovernmental grants. All state and federal receivables are considered collectible in full due to the stable condition of state programs and the current fiscal year guarantee of federal funds. Accounts receivable as of fiscal year end for the School District's individual major funds, in the aggregate, are as follows:

		Governme	ntal	Funds	Proprietary						
			1	Special		Total	1	Funds		Total	
	(General	Revenue		Governmental		Food Service		Busi	ness-Type

Note 6. Interfund Receivables, Payables and Transfers

Individual fund receivables/payables balances at June 30, 2020 are as follows:

Fund	Interfund <u>Receivables</u>		 nterfund ayables
General Fund	\$	11,824	\$ 11,489
Special Revenue Fund		-	1,651
Capital Projects Fund		-	90,635
Debt Service Fund		82,416	-
Food Service Fund		-	1,250
MVP Fund		11,489	-
Payroll Fund		-	2,823
Unemployment Fund		2,823	 704
	\$	108,552	\$ 108,552

The interfund receivables and payables above predominately resulted from payment made by certain funds on behalf of other funds. All interfund balances are expected to be repaid within one year.

The summary of interfund transfers follows:

Fund	<u>Transfers In</u>		Transfers Out		
Capital Projects Fund Debt Service Fund	\$	- 183	\$	183 -	
	\$	183	\$	183	

Note 7. Long-Term Obligations

During the fiscal year-ended June 30, 2020 the following changes occurred in long-term obligations:

								Balance
		Balance				Balance	Ι	Due Within
	J	uly 1, 2019	Additions	Reductions	Jı	une 30, 2020		One Year
Governmental Activities:								
School Bonds	\$	4,700,000	\$ -	\$ 1,090,000	\$	3,610,000	\$	1,205,000
Capital Leases		21,859	-	9,396		12,463		9,904
Unamortized Bond Premiums		308,362	-	97,378		210,984		97,378
Compensated Absences		238,751	40,765	-		279,516		-
Net Pension Liability		2,730,247	-	227,365		2,502,882		-
	\$	7,999,219	\$ 40,765	\$ 1,424,139	\$	6,615,845	\$	1,312,282

Note 7. Long-Term Obligations (continued)

For governmental activities, the bonds payable are liquidated from the District's debt service fund. Compensated absences, capital leases, unamortized bond premiums, assessments and net pension liability are liquidated by the general fund.

A. Bonds Payable:

The voters of the municipality through referendums authorize bonds in accordance with State Law. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds. At June 30, 2020, bonds payable consisted of the following individual issues:

On August 10, 2010, the board of Education issued \$1,100,000 of Non-Callable bonds, with varying interest rates from 2.000% to 3.000%, to refund \$300,000 in Temporary Notes dated February 25, 2010 and maturing August 25, 2010, to finance remaining costs of the roof replacement of John Hydock Elementary School and to install solar panels on the new roof.

On August 31, 2016, the School District issued \$6,080,000 Refunding Bonds with varying interest rates from 2.00% to 4.00% to refund and redeem all of the School District's outstanding callable School Refunding Bonds, Series 2006, maturing on September 1 in the years 2017 through 2022.

Fiscal Year Ending June 30,	Principal	Interest	<u>Total</u>
2021 2022 2023	\$ 1,205,000 1,155,000 1,250,000	\$ 119,675 73,100 25,000	\$ 1,324,675 1,228,100 1,275,000
	\$ 3,610,000	\$ 217,775	\$ 3,827,775

Principal and Interest due on the outstanding bonds is as follows:

B. Capital Lease Payable

The School District is leasing capital items and equipment under capital leases. All capital leases are for terms of five to ten years. The following is a schedule of the remaining future minimum lease payments under these capital leases and the present value of the net minimum lease payments as of June 30, 2020.

Fiscal Year Ending June 30,	
2021	\$ 10,325
2022	 2,581
Total Minimum Lease Payments	12,906
Less: Amount Representing Interest	 (443)
Present Value of Minimum Lease Payments	\$ 12,463

Note 7. Long-Term Obligations (continued)

C. Bonds Authorized But Not Issued:

As of June 30, 2020, the District had no authorized but not issued bonds.

Note 8. Pension Plans

A. Public Employees' Retirement System (PERS)

Plan Description - The State of New Jersey, Public Employees' Retirement System (PERS) is a costsharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by *N.J.S.A.* 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

Tier

Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for PERS is set by *N.J.S.A. 15A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

Note 8. Pension Plans (continued)

A. Public Employees' Retirement System (PERS) (continued)

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Pension Liability, Pension Expense and Deferred Outflows/Inflows of Resources - At June 30, 2020, the School District reported a liability of \$2,502,882 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2018, to the measurement date of June 30, 2019. The School District's proportion of the net pension liability was based on the School District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2019. The School District's proportion measured as of June 30, 2019, was 0.013891%, which was an increase of 0.00002% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the School District recognized full accrual pension expense of \$112,018 in the government-wide financial statements. This pension expense was based on the pension plans June 30, 2019 measurement date. At June 30, 2020 the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

Note 8. Pension Plans (continued)

A. Public Employees' Retirement System (PERS) (continued)

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between Expected and Actual Experience	\$	44,923	\$	11,057	
Changes of Assumptions		249,922		868,743	
Net Difference between Projected and Actual Earnings on Pension Plan Investments		-		39,509	
Changes in Proportion and Differences between District Contributions and Proportionate Share of Contributions		285,317		197,837	
School District Contributions Subsequent to Measurement Date		152,704		-	
	\$	732,866	\$	1,117,146	

\$152,704 reported as deferred outflows of resources resulting from school district contributions subsequent to the measurement date is based on the amount payable to the State due April 1, 2021 and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>Dec 31.</u>	Amount	
2020	\$ (108,332)
2021	(147,752)
2022	(219,611)
2023	(51,426)
2024	(9,863)
	\$ (536,984	.)

The amortization of the above other deferred outflows of resources and deferred inflows of resources related to pensions will be over the following number of years:

June 30, 2019	5.21	5.21

Note 8. Pension Plans (continued)

A. Public Employees' Retirement System (PERS) (continued)

Actuarial Assumptions – The collective total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following assumptions:

Inflation Price Wage	2.75% 3.25%
Salary Increases: Through 2026 Thereafter	2.00 - 6.00% Based on Years of Service 3.00 - 7.00% Based on Years of Service
Investment Rate of Return	7.00%
Mortality Rate Table	Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2019
Period of Actuarial Experience Study upon which Actuarial Assumptions were Based	July 1, 2014 - June 30, 2018

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

I and Tam

Note 8. Pension Plans (continued)

A. Public Employees' Retirement System (PERS) (continued)

		Long-Term
	Target	Expected Real
Asset Class	<u>Allocation</u>	<u>Rate of Return</u>
Risk Mitigation Strategies	3.00%	4.67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2.00%	5.37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
U.S. Equity	28.00%	8.26%
Non-U.S. Developed Markets Equity	12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%
	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. The single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from plan members will be made based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net pension liability as of June 30, 2019, calculated using the discount rate of 6.28% as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1%	Current			1%
	Decrease (5.28%)	Discount Rate (6.28%)		Increase (7.28%)	
District's Proportionate Share					
of the Net Pension Liability \$	3,183,541	\$	2,502,882	\$	1,961,415

Note 8. Pension Plans (continued)

A. Public Employees' Retirement System (PERS) (continued)

Additional Information - The following is a summary of the collective balances of the local group at June 30, 2020 and 2019:

Balances at June 30, 2020 and June 30, 2019

	6/30/2020	6/30/2019
Actuarial valuation date (including roll forward)	June 30, 2019	June 30, 2018
Deferred Outflows of Resources	\$ 3,149,522,616	\$ 4,684,852,302
Deferred Inflows of Resources	7,645,087,574	7,646,736,226
Net Pension Liability	18,143,832,135	19,689,501,539
District's portion of the Plan's total Net Pension Liability	0.01389%	0.01387%

B. Teachers' Pension and Annuity Fund (TPAF)

Plan Description - The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier

<u>Definition</u>

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more

Note 8. Pension Plans (continued)

B. Teachers' Pension and Annuity Fund (TPAF) (continued)

years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for TPAF is set by *N.J.S.A 18A:66* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

As mentioned previously, the employer contributions for local participating employers are legally required to be funded by the State in accordance with *N.J.S.A 18:66-33*. Therefore, the School District is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the School District does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers.

Pension Liability and Pension Expense - The State's proportionate share of the TPAF net pension liability, attributable to the School District as of June 30, 2019 was \$25,397,132. The School District's proportionate share was \$-0-.

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. The State's proportionate share of the net pension liability associated with the District was based on projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2019, the State proportionate share of the TPAF net pension liability attributable to the School District was 0.041383%, which was a decrease of 0.00054% from its proportion measured as of June 30, 2018.

For the fiscal year ended June 30, 2020, the School District recognized \$1,497,991 in on-behalf pension expense and revenue in the government-wide financial statements, for the State of New Jersey on-behalf TPAF pension contributions. This pension expense and revenue was based on the pension plans June 30, 2019 measurement date.

Actuarial Assumptions – The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Note 8. Pension Plans (continued)

B. Teachers' Pension and Annuity Fund (TPAF) (continued)

Inflation	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00 - 6.00% Based on Years of Service
Thereafter	3.00 - 7.00% Based on Years of Service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 are summarized in the following table:

Long Term

Note 8. Pension Plans (continued)

B. Teachers' Pension and Annuity Fund (TPAF) (continued)

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Risk Mitigation Strategies	3.00%	4.67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2.00%	5.37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
U.S. Equity	28.00%	8.26%
Non-U.S. Developed Markets Equity	12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%
	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. The single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the Net Pension Liability to Changes in the Discount Rate – As previously mentioned, TPAF has a special funding situation where the State pays 100% of the School District's annual required contribution. The following represents the State's proportionate share of the net pension liability, attributable to the School District calculated using the discount rate of 5.60% as well as what the State's proportionate share of the net pension liability, attributable to the School District share of the net pension liability, attributable to the School District's would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

Note 8. Pension Plans (continued)

		1% Decrease <u>(4.60%)</u>		Decrease Discount Rate		1% Increase <u>(6.60%)</u>	
TPAF Employer Number - 3026's Proportionate Share of the Net Pension Liability	\$	-	\$	-	\$	-	
State of New Jersey's Proportionate Share of Net Pension Liability associated with the TPAF Employer Number - 3026		29,948,840		25,397,132		21,620,652	
	\$	29,948,840	\$	25,397,132	\$	21,620,652	

Pension Plan Fiduciary Net Position - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Additional Information – The following is a summary of the collective balances of the local group at June 30, 2019 and 2018:

	6/30/2020	<u>6/30/2019</u>
Collective Deferred Outflows of Resources	\$10,129,162,237	\$12,675,037,111
Collective Deferred Inflows of Resources	17,736,240,054	16,381,811,884

School District's Portion	0.04138%	0.04192%

C. Defined Contribution Plan (DCRP)

Plan Description - The Defined Contribution Retirement Program (DCRP) was established July 1, 2007, under the provisions of N.J.S.A. 43:15C-1 et seq. The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage

Individuals eligible for membership in the DCRP include:

- State or local officials who are elected or appointed on or after July 1, 2007;
- Employees enrolled in the Public Employees' Retirement System (PERS) or Teachers' Pension and Annuity Fund (TPAF) on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits;
- Employees enrolled in the Police and Firemen's Retirement System (PFRS) or State Police Retirement System (SPRS) after May 21, 2010, who earn salary in excess of established "maximum compensation" limits;

Note 8. Pension Plans (continued)

C. Defined Contribution Plan (DCRP) (continued)

- Employees otherwise eligible to enroll in the PERS or TPAF on or after November 2, 2008, who do not earn the minimum annual salary for PERS or TPAF Tier 3 enrollment but who earn salary of at least \$5,000 annually. The minimum salary in 2020 is \$8,300 and is subject to adjustment in future years.
- Employees otherwise eligible to enroll in the PERS or TPAF after May 21, 2010, who do not work the minimum number of hours per week required for PERS or TPAF Tier 4 or Tier 5 enrollment but who earn salary of at least \$5,000 annually. The minimum number is 35 hours per
- week for State employees, or 32 hours per week for local government or local educations employees

Contributions - The contribution policy is set by N.J.S.A. 43:15C-3 and requires active members and contribution employers. When enrolled in the DCRP, members are required to contribute 5.5% of their base salary to a tax-deferred investment account established with Prudential Financial, which jointly administers the DCRP investments with the Division of Pension and Benefits. Member contributions are matched by a 3% contribution from the School District.

For the year ended June 30, 2020, employee contributions totaled \$18,793, and the School District recognized an expense for payments made to the Defined Contribution Retirement program in the amount of 14,185.

Note 9. Other Post-Retirement Benefits

General Information about the OPEB Plan

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Note 9. Other Post-Retirement Benefits (continued):

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

Basis of Presentation

The Schedule presents the State of New Jersey's obligation under NJSA 52:14-17.32f. The Schedule does not purport to be a complete presentation of the financial position or changes in financial position of the State Health Benefit Local Education Retired Employees Plan or the State of New Jersey. The accompanying Schedule was prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the State of New Jersey to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The total nonemployer OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate:	2.5%
-----------------	------

	TPAF/ABP	PERS	PFRS
Salary Increases:			
Through 2026	1.55 - 3.05%	2.00 - 6.00%	3.25 - 15.25%
	based on years of	based on years of	based on years of
	service	service	service
Thereafter	1.55 - 3.05%	3.00 - 7.00%	Applied to all
	based on years of	based on years of	future years
	service	service	

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF, PERS and PFRS, respectively.

Note 9. Other Post-Retirement Benefits (continued):

OPEB Obligation and OPEB Expense - The State's proportionate share of the total Other Post Employment Benefits Obligations, attributable to the School District as of June 30, 2019 was \$17,276,183. The School District's proportionate share was \$0.

The OPEB Obligation was measured as of June 30, 2019, and the total OPEB Obligation used to calculate the OPEB Obligation was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. The State's proportionate share of the OPEB Obligation associated with the District was based on projection of the State's long-term contributions to the OPEB plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2019, the State proportionate share of the OPEB Obligation attributable to the School District was 0.04140%, which was a decrease of 0.00133% from its proportion measured as of June 30, 2018.

For the fiscal year ended June 30, 2020, the State of New Jersey recognized an OPEB expense in the amount of \$140,195 for the State's proportionate share of the OPEB expense attributable to the School District. This OPEB expense was based on the OPEB plans June 30, 2019 measurement date.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes taxexempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Total Nonemployer OPEB Liability to changes in discount rate

The following presents the total nonemployer OPEB liability as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	June 30, 2019						
	I	At 1% Decrease (2.50%)		At Discount Rate (3.50%)		At 1% Increase (4.50%)	
State of New Jersey's Proportionate Share of Total OPEB Obligations Associated with the School District	\$	20,409,999	\$	17,276,183	\$	14,786,851	
State of New Jersey's Total Non- employer Liability	\$	49,298,534,898	\$	41,729,081,045	\$	35,716,321,820	

9. Other Post-Retirement Benefits (continued):

Sensitivity of Total Nonemployer OPEB Liability to changes in the healthcare trend rate

The following presents the total nonemployer OPEB liability as of June 30, 2019, calculated using the healthcare trend rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a healthcare trend rate that is 1- percentage point lower or 1-percentage point higher than the current rate:

	 June 30, 2019										
	1% Decrease	Healthcare Cost Trend Rate *			1% Increase						
State of New Jersey's											
Proportionate Share of Total OPEB Obligations Associated with the School District	\$ 14,234,805	\$	17,276,183	\$	21,302,343						
State of New Jersey's Total Nonemployer OPEB Liability											
¥ 5 5	\$ 34,382,902,820	\$	41,729,081,045	\$	51,453,912,586						

* See Healthcare Cost Trend Assumptions for details of rates.

Additional Information

Collective balances of the Local Group at June 30, 2019 are as follows:

	Def	erred Outflows of Resources	Deferred Inflows of Resources			
Change in Proportion	\$	1,921,145,183	\$	(1,921,145,183)		
Differences between Expected						
& Actual Experience		-		(10,484,965,300)		
Change in Assumptions		-		(8,481,529,343)		
Contributions Made in Fiscal Year						
Year Ending 2020 After June 30,						
2019 Measurement Date **		TBD		-		
	\$	1,921,145,183	\$	(20,887,639,826)		

** Employer Contributions made after June 30, 2019 are reported as a deferred outflow of resources, but are not amortized in expense.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

9. Other Post-Retirement Benefits (continued):

Fiscal Year Ending June 30,	
2020	\$ (2,546,527,182)

2024	(2,546,527,182)
Thereafter	 (6,233,858,733)
	\$ (18,966,494,643)

Plan Membership

At June 30, 2018, the Program membership consisted of the following:

	June 30, 2018
Active Plan Members	216,892
Inactive Plan Members or Beneficiaries	
Currently Receiving Benefits	148,051
	364,943

Changes in the Total OPEB Liability

The change in the State's Total OPEB liability for the fiscal year ended June 30, 2020 (measurement date June 30, 2019) is as follows:

Total OPEB Liability

Service Cost	\$ 1,734,404,850
Interest Cost	1,827,787,206
Difference Between Expected & Actual Experience	(7,323,140,818)
Changes of Assumptions	622,184,027
Contributions: Member	37,971,171
Gross Benefit Payments	 (1,280,958,373)
Net Change in Total OPEB Liability	(4,381,751,937)
Total OPEB Liability (Beginning)	 46,110,832,982
Total OPEB Liability (Ending)	\$ 41,729,081,045
Total Covered Employee Payroll	\$ 13,929,083,479
Net OPEB Liability as a Percentage of Payroll	300%

Note 10. On-Behalf Payments for Fringe Benefits and Salaries

As previously mentioned, the School District receives on-behalf payments from the State of New Jersey for normal costs and post-retirement medical costs related to the Teachers' Pension and Annuity Fund (TPAF) pension plan. The School District is not legally responsible for these contributions. The on-behalf payments are recorded as revenues and expenditures in the government-wide and general fund financial statements. For the fiscal year ended June 30, 2020, the on-behalf payments for normal costs, post-retirement medical costs, social security, and long-term disability were \$980,417, \$363,717, \$358,748 and \$1,040, respectively.

Note 11. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of School District contributions, reimbursements to the State for benefits paid and the ending balance of the School District's trust fund for the current and previous two years:

Fiscal Year	ool District <u>tributions</u>	nployee t <u>ributions</u>	Interest <u>Earnings</u>	Amount eimbursed	Ending <u>Balance</u>
2019-2020	\$ 11,901	\$ -	\$ 40	\$ 17,209	10,438
2018-2019	8,888	-	40	13,484	15,706
2017-2018	25,000	-	62	36,256	20,262

Joint Insurance Pool – The School District participates in the School Alliance Insurance Fund and, public entity risk pool. The Fund provides its members with the following coverage's:

Property – Blanket Building & Grounds	General & Automobile Liability
Environmental Impairment Liability	Workers' Compensation
School Board Legal Liability	Excess Liability
Employers Liability	Comprehensive Crime Coverage

Note 12. Contingencies

<u>State and Federal Grantor Agencies</u> - The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2020 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying combined financial statements for such contingencies.

<u>**Pending Litigation**</u> – The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Districts' attorney that resolution of these matters will not have a material adverse effect on the financial condition of the District.

Note 13. Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

Note 14. Deferred Compensation

The District offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning AXA Equitable

Note 15. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amount of vacation and sick leave in accordance with the District's personnel policies. The District policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with Districts' agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2020, the liability for compensated absences reported on the government-wide and on the proprietary fund Statement of Net Position was \$279,516 and \$0, respectively.

Note 16. Tax Abatements

As defined by the Governmental Accounting Standards Board (GASB) Statement No. 77, a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

Note 17. Calculation of Excess Surplus

The designation for Restricted Fund Balance – Excess Surplus is a required calculation pursuant to N.J.S.A.18A:7F-7. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year-end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2020 was \$839,114.

Note 18. Fund Balance

General Fund – Of the \$2,653,412 General Fund fund balance at June 30, 2020, \$77,785 has been reserved in the Capital Reserve Account; \$116,569 has been restricted for the Maintenance Reserve Account; \$50,000 has been restricted for the Emergency Reserve Account; \$839,114 has been restricted for current year excess surplus; \$797,828 is restricted for prior year excess surplus – designated for subsequent year's expenditures; \$168,713 has been assigned as designated for subsequent year's expenditures; \$319,445 has been assigned to other purposes; and \$283,958 is unassigned.

Debt Service Fund – Of the \$65 Debt Service Fund fund balance at June 30, 2020, \$65 is restricted for future debt service payments.

Note 19. Deficit in Net Position

Unrestricted Net Position – The School District's governmental activities had a deficit in unrestricted net position in the amount of \$2,595,295. The primary causes of the deficit are the School District not recognizing the receivable for the last two state aid payments and the recording of the net pension liability for the Public Employees' Retirement System (PERS) as of June 30, 2020. This deficit in unrestricted net position for governmental activities does not indicate that the School District is facing financial difficulties.

Note 20. Prior Period Adjustment

Correction of an Error – In the fiscal year ended June 30, 2019, the District determined that funds were deposited and recognized as revenue in the MVP Fund in error. Net position as of July 1, 2019 has been adjusted as follows:

Net Position, as previous stated	MVP Fund \$ 59,142		Go \$	vernment-Wide Statement 93,080
Prior Period Adjustment		(33,670)		(33,670)
Net Position, as restated	\$	25,472	\$	59,410

Note 21. Subsequent Events

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2020 and January 19, 2021, the date that the financial statements were available for issuance, for possible disclosure and recognition in the financial statements, and no items other than the below have come to the attention of the School District that would require disclosure.

COVID - 19 – has caused considerable economic damage to the New Jersey economy. As a result, Governor Murphy decreased the originally appropriated school state aid by over \$335 million state wide for the 2020-2021 school year. The Mansfield Township School District's state aid was reduced by \$22,852. In order to make up for this decrease in aid, the School District will utilize \$22,852 of additional unassigned fund balance.

As the COVID-19 pandemic remains a fluid situation, outside of the reduction in state aid, it is not currently known what further economic challenges are ahead for local school districts.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable President and Members of the Board of Education Mansfield Township School District County of Burlington Mansfield, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Mansfield Township School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Mansfield Township School District's basic financial statements, and have issued our report thereon dated January 19, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Mansfield Township School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Mansfield Township School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as Finding No. 2020-001 that we consider to be a significant deficiency.

618 Stokes Road, Medford, NJ 08055 **P:** 609.953.0612 • **F:** 609.257.0008 www.hmacpainc.com

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mansfield Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey as Finding 2020-001.

The Mansfield Township School District's Response to Findings

The Mansfield Township School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

EXHIBIT K-2

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08

Honorable President and Members of the Board of Education Mansfield Township School District County of Burlington Mansfield, New Jersey

Report on Compliance for Each Major State Program

We have audited the Mansfield Township School District's compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major state programs for the fiscal year ended June 30, 2020. The Mansfield Township School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Mansfield Township School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*; and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards and New Jersey OMB's Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

618 Stokes Road, Medford, NJ 08055 **P:** 609.953.0612 • **F:** 609.257.0008 www.hmacpainc.com We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major State Program

In our opinion, the Mansfield Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with Uniform Guidance and New Jersey OMB's Circular 15-08, which are described in the accompanying Schedule of Findings and Questioned Costs and Independent Auditor's Management Report on Administrative Findings – Financial Compliance and Performance as finding no. 2020-001. Our opinion on each major state program is not modified with respect to these matters.

The District's response to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the Mansfield Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with New Jersey OMB's Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weaknesses.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not

be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs, as Finding No. 2020-001.

The Mansfield Township School District's response to the internal control over compliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The Mansfield Township School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB's Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Respectfully Submitted,

HOLT MCNALLY & ASSOCIATES, INC.

EXHIBIT K-4 SCHEDULE B

MANSFIELD TOWNSHIP SCHOOL DISTRICT NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Note 1. Basis of Presentation

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all federal awards and state financial assistance programs of the Mansfield Township School District. The School District is defined in Note 1 of the basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

Note 2. Summary of Significant Accounting Policies

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the following exception: programs recorded in the enterprise fund are presented using the accrual basis of accounting and programs recorded in the capital projects fund are presented using the modified accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The School District did not elect the 10-percent de deminimis indirect cost rate as discussed in 2 CFR 200.414.

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the School District for the year ended June 30, 2020. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2020.

Note 3. Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

MANSFIELD TOWNSHIP SCHOOL DISTRICT NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Note 3. Relationship to Basic Financial Statements (continued)

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A.* 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A.* 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(4,864) for the general fund and \$1,489 for the special revenue fund. See Exhibit C-3 Note A of the basic financial statements, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance expenditures reported in the School District's basic financial statements on a GAAP basis are presented as follows:

Fund	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ -	\$ 2,456,980	\$ 2,456,980
Special Revenue Fund	157,802	-	157,802
Debt Service Fund	-	33,544	33,544
Food Service Fund	 33,052	 1,514	 34,566
Total Awards & Financial Assistance	\$ 190,854	\$ 2,492,038	\$ 2,682,892

Note 4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5. Federal and State Loans Outstanding

The Mansfield Township School District had no loan balances outstanding at June 30, 2020.

MANSFIELD TOWNSHIP SCHOOL DISTRICT SCHEDULE OF FINDINGS & QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Section II – Financial Statement Findings

This section identifies the significant deficiencies, material weaknesses and instances of noncompliance related to the basic financial statements that are required to be reported in accordance with *Government Auditing Standards* and with audit requirements prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

Finding No. 2020-001:

Criteria or Specific Requirement:

N.J.A.C. 6A:23A-16.10 prohibits a school district from incurring any obligation or approve any payment in excess of the amount appropriated by the district board of education in the applicable line item account or program category account.

Condition:

It was noted during our audit that the District incurred obligations in excess of the amount appropriated by the Board in the General Fund and Debt Service Fund.

Context:

Payments were made in excess of budgeted amounts for tuition in the General Fund and interest in the Debt Service Fund.

Effect:

The District did not comply with N.J.A.C. 6A:23A-16.10.

Cause:

The District did not properly record noncash state aid adjustments. An adjustment to record these items resulted in over-expenditures in the budget.

Recommendation:

That the District ensure that all noncash entries are recorded prior to year-end.

View of Responsible Officials and Planned Corrective Action:

Responsible officials agree with this recommendation and will address the matter as part of their corrective action plan.

Section III – Federal Awards & State Financial Assistance Findings & Questioned Costs

This section identifies the significant deficiencies, material weaknesses and instances of noncompliance, including questioned costs, related to the audit of major federal and state programs, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB's Circular 15-08.

FEDERAL AWARDS

N/A – Federal single audit not required

STATE FINANCIAL ASSISTANCE

Finding 2020-001

Information on the State Program: State Aid - Public

Criteria or specific requirement:

N.J.A.C. 6A:23A-16.10 prohibits a school district from incurring any obligation or approve any payment in excess of the amount appropriated by the district board of education in the applicable line item account or program category account.

Condition:

It was noted during our audit that the District incurred obligations in excess of the amount appropriated by the Board in the General Fund and Debt Service Fund.

Questioned Costs: None

<u>Context:</u> As a result of required audit adjustments, budget appropriations for tuition were over-expended.

Effect or potential effect: The District did not company with N.J.A.C. 6A:23A-16.10.

Cause:

The District did not properly record noncash state aid adjustments. An adjustment to record these items resulted in over-expenditures in the budget.

<u>Recommendation:</u> That the District ensure that all noncash entries are recorded prior to year-end.
