4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control process is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District is also responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control process is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are being made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund.

Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2020.

6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 2.

7. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 3. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability, automobile liability, and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. GENERAL FUND BALANCE:

General Fund Balance (budgetary basis) of \$5,661,965 as of June 30, 2020, represents a 37% increase from June 30, 2019. Of the \$5,661,965, \$707,591 represents the unassigned portion of the District's fund balance and \$402,020 has been appropriated for the 2020/2021 school budget in order to maintain a stable tax levy. The remaining \$3,956,095 includes excess surplus and other restricted fund balance and represents 70% of the June 30, 2020 fund balance. General Fund Budget expenditures totaled \$40,682,736.

10. OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nightlinger, Colavita and Volpa, Pa. was appointed by the Board. In addition to meeting the requirements set forth in State statutes, the audit also was designed to meet the requirements of the Title 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey Treasury Circular 15-08 OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditor's report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's report related specifically to the single audit is included in the single audit section of this report.

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Penns Grove-Carneys Point Regional School District County of Salem, New Jersey 08069

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Penns Grove-Carneys Point Regional School District in the County of Salem, State of New Jersey, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Penn Grove-Carneys Point Regional School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Penns Grove-Carneys Point Regional Board of Education in the County of Salem, State of New Jersey, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules related to accounting and reporting for pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Penn Grove- Carneys Point regional School Board of Education's basic financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Penns Grove-Carneys Point Regional School District's basic financial statements. The School District's basic financial statements comprise three components:

- (1) District-wide financial statements
- (2) Fund financial statements
- (3) Notes to the basic financial statements themselves

District-wide financial statements – These financial statements are designed to provide readers with a broad overview of School District's finances, in a manner similar to a private-sector business. The statement of net position presents information on all of the Penns Grove-Carneys Point Regional School District's assets and liabilities, with the difference between the two reported as net position.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Penns Grove-Carneys Point Regional School District is improving or deteriorating.

The statement of activities presents information illustrating Penns Grove-Carneys Point Regional School District's net position change during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused sick leave).

Both of the district-wide financial statements distinguish functions of the Penns Grove-Carneys Point Regional School District that are principally supported by taxes and intergovernmental revenues (governmental activities from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Penns Grove-Carneys Point Regional School District include the education of students in grades K-12 at the Penns Grove-Carneys Point Regional School District's five schools. The business-type activities of the Penns Grove-Carneys Point Regional School District include a Food Service Program and an Academy Program.

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Penns Grove-Carneys Point Regional School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Penns Grove-Carneys Point Regional School district can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Most of the Penns Grove-Carneys Point Regional School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual basis of accounting, which measures cash and all other financial assets that can be readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Penns Grove-Carneys Point Regional School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

The Penns Grove-Carneys Point Regional School District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects fund, and debt service fund. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Also, the Penns Grove-Carneys Point Regional School District adopts an annual budget for its general fund and special revenue fund. Budgetary comparison schedules have been provided for both to demonstrate compliance with the budgets.

Proprietary Funds – The Penns Grove-Carneys Point Regional School District maintains two different types of proprietary funds. Enterprise funds, which are a proprietary fund type used to report an activity for which a fee is charged to external users for goods or services, are used to report the same functions presented as business-type activities in the district-wide financial statements. The Penns Grove-Carneys Point Regional School District uses enterprise funds to account for its food service program and its academy program. Proprietary funds provide the same type of information as district-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food service program and the academy program.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the Penns Grove-Carneys Point Regional School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the District-wide financial statements.

District-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Penns Grove-Carneys Point Regional School District, Governmental Activity assets exceeded liabilities by \$18,720,508 at the close of the most recent fiscal year.

The largest portion of the Penns Grove-Carneys Point Regional School District's net position reflects its investment in capital assets (i.e., land, buildings, and equipment) less any related debt used to acquire those assets to provide educational services to students; consequently, these assets are not available for future spending. Although the Penns Grove-Carneys Point Regional School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Penns Grove-Carneys Point Regional School District's net position represents resources that are subject to external restrictions on how they may be used.

There was an increase of \$521,175 in overall net position for the Penns Grove-Carneys Point Regional School District's business-type activities. This increase was due to an increases in Academy Fund of \$346,000 and Food Service Fund of \$175,175.

There was an increase of \$2,459,567 in overall net position for the Penns Grove-Carneys Point Regional School District's governmental activities. The increase is due to many contributing factors.

Governmental Activities – With regard to the increase in the Penns Grove-Carneys Point Regional School District's net position from Governmental activities, the key elements of the changes are as follows:

Property taxes increased by \$226,192 during the year. This 1.9% increase represents the overall increase in costs without sufficient offsetting revenue.

General Revenues increased by \$592,213 during the year. The increase was the result of more state and federal aid.

Special Items represents the cancellation of prior year tuition accounts receivable of \$151,900.

The overall \$1,040,082 decrease in expenses was attributable to various decreases in expenses, the largest of which was in unallocated benefits.

Business-type Activities – Business-type activities increased the Penns Grove-Carneys Point Regional School District's net position by \$521,185, as a result of operations.

Financial Analysis of the Government's Funds

As stated earlier, the Penns Grove-Carneys Point Regional School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund – The focus of the Penns Grove-Carneys Point Regional School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Penns Grove-Carneys Point Regional School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the current fiscal year, the Penns Grove-Carneys Point Regional School District's Fund Balance (budgetary basis) as of June 30, 2020 was \$5,661,965, an increase of \$1,525,681 from June 2020.

Of the \$5,661,965, \$402,020 has been assigned and appropriated in the 2020-21 school budget in order to maintain a stable tax levy; \$2,563,330 is restricted as Excess surplus, of which \$797,980 has been appropriated for the 2020-21 school budget; \$596,259 has been assigned for encumbrances, \$1,373,888 is restricted for capital reserve, of which \$600,000 has been assigned and appropriated in the 2020-21 school budget; \$18,877 is restricted as maintenance reserve and \$707,591 is unrestricted and unassigned.

The special revenue fund has a deficit at the end of the current fiscal year in the amount of \$62,413. The deficit was a result of the following: N.J.S.A. 18A:22-44.2 providing that in the event one or more June state school aid payments is not made until the following school budget year, districts must record the one or more June state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for Penns Grove-Carneys Point Regional School Districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the one or more June state aid payments in the subsequent fiscal year, the Penns Grove-Carneys Point Regional School District cannot recognize the one or more state aid payment on the GAAP financial statements until the year the State records the payable.

Governmental Fund (Cont'd)

Due to the timing difference of recording the one or more June state aid payments, the fund balance deficit does not alone indicate that the district is facing financial difficulties.

The capital projects fund had a budget basis unexpended balance of \$295,365 at the end of the current year ending June 30, 2020, of which \$0 represents the unearned portion of NJSDA grant approvals. There were 11 NJSDA grants approved during the 2014-15 school year to support various building renovations throughout the District.

Proprietary Funds – The Penns Grove-Carneys Point Regional School District's proprietary funds provide the same type of information found in the district-wide financial statements, but in more detail.

Unrestricted net position consisted of the following: a positive balance of \$617,371 in the food service program, and a \$705,084 balance for the academy program. Other factors concerning the finances of these two funds have already been addressed in the discussion of the Penns Grove-Carneys Point Regional School District's business-type activities. There was also a balance representing Investment in Capital Assets of \$218,579 in the Food Service Fund and \$16,177 in the Academy Program.

General Fund Budgetary Highlights

During the course of the 2020 fiscal year, the Penns Grove-Carneys Point Regional School District modified its general fund budget numerous times. The net change in the total budget modification primarily resulted from the rollover of the prior year's encumbrances in the amount of \$114,450 and budgeted withdrawals from the capital reserve of \$538,100.

The final budgetary basis revenue estimate was \$36,757,495.

During fiscal year 2020, the Penns Grove-Carneys Point Regional School District budgeted \$11,427,627 for property taxes (local tax levy) and \$24,145,309 for state aid revenues in the General fund, along with \$753,508 of property taxes and \$373,817 of state aid in the Debt Service Fund. Total Net Change in Fund Balances - Governmental Funds

\$ 1,437,791

Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:

Capital Outlays are reported in Governmental Funds as Expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as Depreciation Expense. This is the amount by which Capital Outlays exceeded depreciation in the period.

Depreciation Expense \$ (679,916)
Capital Outlays 681,010

1,094

Pension contributions are reported in governmental funds as expenditures. However, in the statement of Activities, the contributions are adjusted for actuarial valuation adjustments, including service and interest costs, administrative costs, investment returns, and experience/assumption. This is the amount by which net pension liability and deferred inflows/outflows related to pension charges during the period.

213,953

Repayment of Bond Principal is an Expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the statement of Net Position and is not reported in the Statement of Activities. Bond Principal Redeemed

945,000

In the Statement of Activities, interest on long-term debt is accrued, regardless of when it is due. In the governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation.

6,300

In the Statement of Activities, Amortization of the Deferred Amount on Debt Refunding is expensed, regardless of when the Debt was Refunded.

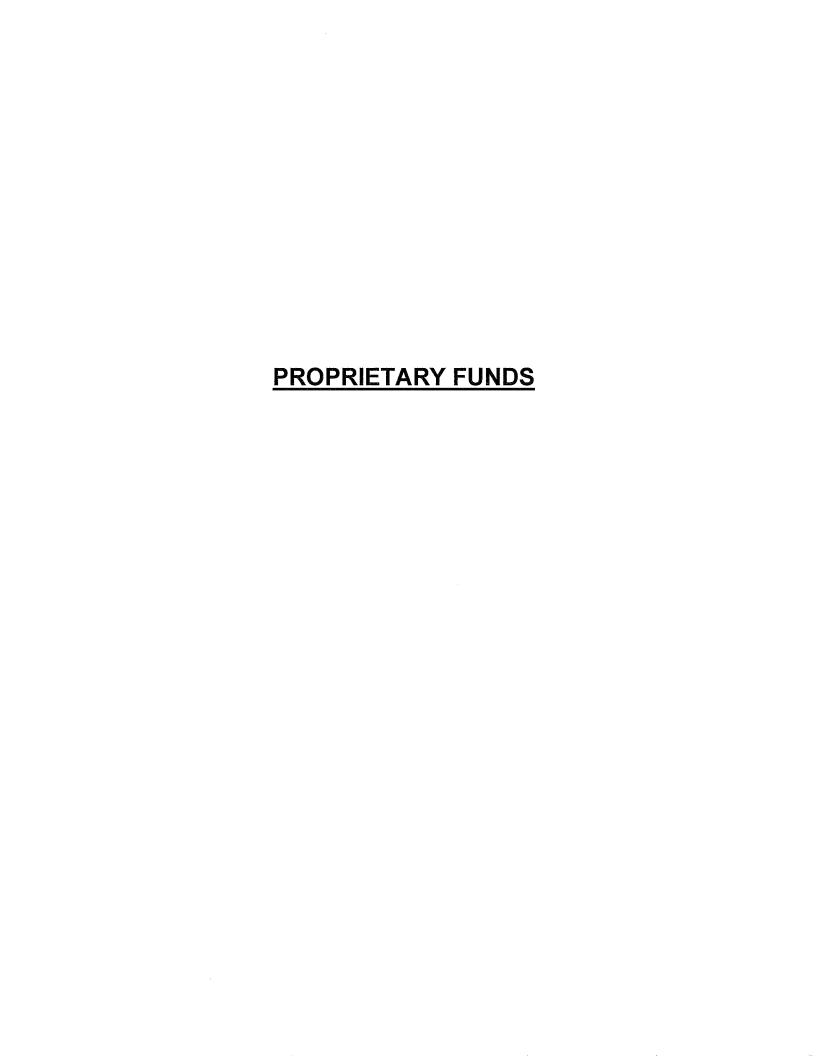

(20,210)

In the Statement of Activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation; when the paid amount exceeds the earned amount the difference is an addition to the reconciliation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Description of the Reporting Entity</u> – The Penns Grove-Carneys Point Regional School District (hereafter referred to as the "School District") is a Type II district located in the County of Salem, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three members' terms expire each year. The purpose of the School District is to educate students in grades K-12 at its five schools. The School District has an approximate enrollment at June 30, 2020 of 2,171.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is the degree of oversight responsibility maintained by the School Districts. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School District over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the School District is not includable in any other reporting entity on the basis of such criteria.

<u>Component Units</u> – GASB Statement No. 14, *The Financial Reporting Entity*, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, Determining *Whether Certain Organizations are Component Units*. The School District has determined that there are no component units as of the year end June 30, 2020.

Basis of Presentation – The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its business-type activities and enterprise funds, provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described in this note. The School District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

<u>Government-wide Financial Statements</u> – The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the School District that are governmental and those that are considered business-type activities. The statement of net position presents the financial condition of the governmental and business-type activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Government-wide Financial Statements (Cont'd)

Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

<u>Fund Financial Statements</u> – During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

<u>Governmental Funds</u> – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds.

<u>General Fund</u> – The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America, as they pertain to the governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the recourses in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings and the purchase of built-in equipment.

<u>Special Revenue Fund</u> - The special revenue fund is used to account for and report the proceeds of special revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Government-wide Financial Statements (Cont'd)

<u>Capital Projects Fund</u> - The capital projects fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey School Development Authority grants, temporary notes, or serial bonds which are specially authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u> - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

<u>Proprietary Funds</u> - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those found in the private sector.

Enterprise Funds - The enterprise funds are used to account for operations:

- That are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that the costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or
- 2. Where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The School Districts enterprise fund is:

<u>Food Service Fund</u> – This fund accounts for the financial transactions related to the food service operations of the School District.

<u>Academy Program</u> – This fund accounts for the financial transactions related to providing academic and technical needs for high school students

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (Net Position) is segregated into investment in capital assets, net of related debt, and unrestricted Net Position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment Vehicles

15 Years 4-6 Years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Internal Service Funds</u> - The Internal Service Fund is used by management to charge the necessary expenses to provide consultant services to the Food Services Program for Oldmans Township School District. The assets and liabilities of the combine service funds are included in business-type activities in the Statement of Net Position.

<u>Fiduciary Funds</u> - Fiduciary fund reporting focuses on Net Position and changes in Net Position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Pension trust funds are used to account for resources held in trust for employees and their beneficiaries based on defined benefit pension agreements, defined contribution agreements, other postemployment benefit agreements, and other employee benefit arrangements. Investment trust funds are used to report the external portion of an investment pool as defined in GASB Statement No. 31, Accounting and Financial Reporting for Certain External Investment Pools. Private-purpose trust funds are used to account for the principal and income for all other trust arrangements that benefit individuals, private organizations, or other governments. Agency funds are used to account for assets held by the School District in a trust capacity or as an agent for individuals, private organizations, other governments, and/or other funds (i.e., payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The School District has four fiduciary funds; an unemployment trust fund, a uniform fund, a student activity fund, and payroll fund.

<u>Measurement Focus</u> - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position. For the fund financial statements, all government funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet.

The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing sources) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation, with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

<u>Basis of Accounting</u> - Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

For fund financial statements, all governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds, like the government-wide financial statements, use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue and the presentation of expenses verse expenditures.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Recognition of Revenue - Revenue resulting from exchange transactions, which are defined as transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. For the governmental fund financial statements, which are prepared on the modified accrual basis, however, such revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days after fiscal year end. Revenue resulting from non-exchange transactions, which are defined as transactions in which the School District receives value without directly giving equal value in return, includes Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (property) taxes are susceptible to accrual. As under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year The School District records the entire approved tax levy as revenue (accrued) at the state of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of the restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used for the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. Restricted formula aids, which include *Preschool Education Aid*, are recorded in the special revenue fund in accordance with *The Audit Program* promulgated by the New Jersey Department of Education, which requires that these grants be realized in an amount equal to program expenditures.

Under the modified accrual basis the following revenue sources are considered to be both measurable and available at fiscal year end: tuition, grants, fees, and rentals.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as Unearned Revenue. The measurement focus of governmental fund financial statements is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

<u>Budgets/Budgetary Control</u> - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue and debt service funds and are submitted to the county office. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012, to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C.6A:23A-13.3.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Budgets/Budgetary Control (Cont'd)</u> - Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2, and I-3 includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in the fund balances — Governmental Funds. Note that the School District does not report encumbrances outstanding at fiscal year end as expenditures in the general fund since the general fund budget follows modified accrual basis of accounting, with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrances accounting, purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Encumbrances are a component of fund balance at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, are reflected in the balance sheet as Unearned Revenues at fiscal year end. The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

<u>Cash, Cash Equivalents and Investments</u> - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Cash, Cash Equivalents and Investments (Cont'd)</u> - School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. As of June 30, 2020, the District had no funds on deposit with the New Jersey Cash Management.

N.J.S.A. 17:9-41 et. seq. establishes requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in the 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

The School District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the Governmental Unit Deposit Protection Act and approves a list of authorized depository institutions based on an evaluation of solicited responses and presentation of GUDPA certifications provided by the financial institutions.

<u>Tuition Receivable</u> – Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

<u>Tuition Payable</u> – Tuition charges for the fiscal years ended June 30, 2020 and 2019 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

<u>Inventories</u> – Inventories are value at cost, which approximates market. The costs are determined on a first-in, first-out method. The cost of inventories in the governmental fund financial statements is recorded as expenditures when consumed rather than when purchased. Inventories recorded on the government-wide financial statements and in the proprietary fund types are recorded as expenditures when consumed rather than when purchased.

<u>Prepaid Expenses</u> – Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2020.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as an expenditure in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (non-allocation method). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Deferred Expenditures</u> – Deferred expenditures are disbursements that are made in one period, but are more accurately reflected as an expenditure/expense in the next fiscal period. Unlike prepaid expenses, deferred expenditures are not regularly recurring costs of operations.

<u>Short-Term Interfund Receivables/Payables</u> – Short-Term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the School District and that are due within one year. These amounts are eliminated in the governmental-wide financial statements, except for the net residual amounts due between governmental and business-type activities, which are presented as interfunds receivable and/or interfunds payable on the statement of net position.

<u>Capital Assets</u> — General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the governmental fund financial statements. Capital assets utilized by the proprietary funds, however, are reported in the business-type activities column of the government-wide statement of net position and the proprietary fund statement of net position. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000.00. The School District does not possess any infrastructure.

Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u> | Governmental Activities Estimated Lives | Business-Type Activities <u>Estimated Lives</u> |
|----------------------------|---|---|
| Land Improvements | 10-20 Years | N/A |
| Buildings and Improvements | 10-50 Years | N/A |
| Furniture and Equipment | 5-20 Years | 15 Years |
| Vehicles | 5-10 Years | 4-6 Years |

<u>Compensated Absences</u> – Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific even that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place. The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In the proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Unearned Revenue</u> – Unearned Revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Accrued Liabilities and Long-Term Obligations – All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the fund financial statements when due.

Interfund Activity – Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Net Position – Net Position represents the difference between assets and liabilities. Net Position invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. It is the School District's policy to apply restricted resources when an expense is incurred for purposes for which both are restricted and unrestricted Net Position is available.

<u>Fund Balances</u> – The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are ether not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted – The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fund Balances (Cont'd)

Committed – The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified used by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned – The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position, approved by the Board of Education.

Unassigned – The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the governmental fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditure is incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first.

Moreover, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, and then unassigned.

<u>Operating and Non-Operating Revenues and Expenses</u> – Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for the food service program. Non-operating revenues principally consist of federal and state grant funding and interest income earned on various interest-bearing accounts. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund.

<u>Estimates</u> – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Bond and Lease Acquisition Costs

As part of any long-term bond or lease agreement, providing for the use of school buildings, payments constituting professional lease acquisition and other related professional fees will expensed when incurred in accordance with GASB Statement No. 65. The prior year amount of unamortized debt issue cost has been restated, in accordance with GASB Statement No. 65. There were no such leases for the year ended June 30, 2020.

<u>Custodial Credit Risk Related to Deposits</u> – Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be recovered. Although the District does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 t seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local government agencies. The program is administered by the Commissioner of the NJ Department of Banking and Insurance. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Funds owned by the School District in excess of FDIC insured amounts are protected by GUDPA.

NOTE 3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District on October 2, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the amount cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE 3. CAPITAL RESERVE ACCOUNT (CONT'D)

NOTE 8. AMORTIZATION OF DEBT REFUNDING COST

The School District had previously elected to implement GASB Statement No. 65 and as a result, has reflected the Bond Debt Refunding Cost as a Deferred Outflow of Resources on the Statement of Net Position, net of the portion amortized, as a component of interest expense over the life of the debt. During the 2019-20 School Year, the final \$20,210 was amortized on the deferred loss from bond refunding. Therefore, there was no balance reflected in Deferred Outflows of Resources for debt refunding, as of June 30, 2020.

NOTE 10. PENSION PLANS

Description of Plans - Eligible employees of the School District can be covered by Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), or Defined Contribution Retirement Program (DCRP). PERS and TPAF are administered by the New Jersey Division of Pension and Benefits (NJDPB) and the DCRP is jointly administered by Prudential and NJDPB. The NJDPB issues publicly available financial reports that include financial statements and required supplementary information for the systems. These reports may be obtained online at https://www.nj.gov/treasury/pensions/financial-reports.shtml.

Public Employees' Retirement System

The PERS is a cost sharing multiple-employer defined benefit pension plan that was established in 1955. The PERS provides retirement, death and disability, and medical benefits to qualified members. The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A. All benefits vest after ten years of service, except for medical benefits that vest after 25 years of service or under the disability provisions of PERS.

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

The District employees' contributions for the year ended June 30, 2020 were 7,237. Employers in PERS are required to contribute at an actuarially determined rate which includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. The PERS employer rate due in 2020 is 13.69% of covered payroll. The District is billed annually for its normal contribution plus any accrued liability. These contributions were paid by the District and equal to the required contributions for each year. The District's contributions to PERS for the years ended June 30, 2020, and 2019, were \$542,908 and \$616,005 respectively.

This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

| | PERS |
|------------------------------|---------------|
| Investment Rate of Return | 7.00% |
| Salary Scale (Based on Age): | |
| Through 2026 | 2.00% - 6.00% |

| Inflation Rate – Price | 2.75% |
| Inflation Rate – Wage | 3.25% |

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019. The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Public Employees' Retirement System (Continued)

Long-Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

| PERS | | |
|-----------------------------------|----------------------|--|
| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
| Risk Mitigation Strategies | 3.00% | 4.67% |
| Cash Equivalents | 5.00% | 2.00% |

| Investment Grade Credit | 10.00% | 4.25% |
| High Yield | 2.00% | 5.37% |
| Private Credit | 6.00% | 7.92% |
| Real Assets | 2.50% | 9.31% |

| U.S. Equity | 28.00% | 8.26% |
| Non-U.S. Developed Markets Equity | 12.50% | 9.00% |

| Private Equity | 12.00% | 10.85% |
| Total | 100.00% | |
| | | |

Discount Rate - The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Teachers' Pension and Annuity Fund

The State of New Jersey Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special funding situation that was established in 1955. As under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

| Tier | Definition |
|------|---|
| 1 | Members who are enrolled prior to July 1, 2007. |
| 2 | Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008. |
| 3 | Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010. |
| 4 | Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011. |
| 5 | Members who were eligible to enroll on or after June 28, 2011. |

Special Funding Situation - The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employer must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

Contributions - The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. The member contribution rate was 7.5% in as of July 1, 2019. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less that the actuarial determined amount. Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the District and all other related non-contributing employers. No normal or accrued liability contribution by the District has been required over several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, Accounting and Financial Reporting for Pensions. The District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2020 because of the 100% special funding situation with the State of New Jersey.

During the fiscal year ended June 30, 2020, the State of New Jersey contributed \$3,236,583 to the TPAF for pension contributions, \$1,200,713 for post-retirement benefits on behalf of the School, and \$2,709 for long-term disability. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$ during the year ended June 30, 2020 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

Components of Net Pension Liability - At June 30, 2020, the District was not required to report a liability for its proportionate share of the net pension liability because of a 100% reduction for State of New Jersey pension support provided to the District.

Pension Expense - For the year ended June 30, 2020, the District recognized pension expense of \$5,281,385 and revenue of \$5,281,385 for support provided by the State.

Actuarial Assumptions - The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

| | TPAF |
|------------------------------|---------------|
| Investment Rate of Return | 7.00% |
| Salary Scale (Based on Age): | |
| Through 2026 | 1.55% - 4.45% |
| Thereafter | 2.75% - 5.65% |
| Inflation Rate – Price | 2.75% |
| Inflation Rate – Wage | 3.25% |

Long-Term Expected Rate of Return - Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 are summarized in the following table:

TPAF

| | | L |
|-----------------------------------|----------------------|--|

Discount Rate - The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate - The following presents the collective net pension liability of the participating employers as of June 30, 2020, calculated using the discount rate as disclosed above, as well as what the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DCRP) is a multiple-employer defined contribution pension fund that was established in 2007 under the provisions of N.J.S.A 43:15C-1. The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and long-term disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et seq.

The following represents the individuals eligible for membership in the DCRP:

Eligibility

- 1. State or Local Officials who are elected or appointed on or after July 1, 2007
- 2. Employees enrolled in the PERS or TPAF on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits
- 3. Employees enrolled in the PFRS or SPRS after May 21, 2010, who earn salary in excess of established "maximum compensation" limits
- 4. Employees otherwise eligible to enroll in the PERS or TPAF on or after November 2, 2008, who do not earn the minimum annual salary for PERS or TPAF Tier 3 enrollment but who earn salary of at least \$5,000 annually

Contributions – The contribution policy is set by N.J.S.A 43:15C-3 and requires contributions by active members and contributing employers. Plan members are required to contribute 5.5% of their base salary and the District's employer match is an additional 3% contribution. For the year ended June 30, 2020, employee contributions totaled \$16,895 and the District's employer contribution, recognized in pension expense, was \$9,215. There were no forfeitures during the fiscal year.

Pension Plan Fiduciary Net Position - Detailed information about each pension plan's fiduciary net position is available in the separately issued New Jersey Division of Pension and Benefits financial report. Information on where to obtain the report is indicated at the beginning of this note.

NOTE 11. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

General Information about the OPEB Plan

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14- 17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

Special Funding Situation

The participating local education employer allocations included in the supplemental schedule of special funding amounts by employer are provided as each local education employer is required to record in their financial statements, as an expense and corresponding revenue, their respective amount of total OPEB expense attributable to the State of New Jersey under the special funding situation and to include their respective amount of total OPEB liability in their notes to their financial statements. The total OPEB liability and service cost for each employer was determined separately based on actual data for each employer's participants.

NOTE 11. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Total OPEB Liability

The State of New Jersey's total OPEB liability, as of the measurement date of June 30, 2019, was \$41,729,081,045. Of this amount, the total OPEB liability attributable to the School District was \$75,891,598. The State of New Jersey's proportionate share of the total OPEB liability is 100%, including the proportion attributable to the School District of 0.18187%. The total OPEB liability for the School District measured as of June 30, 2019 is zero as a result of the Special Funding Situation with the State of New Jersey. The School District's proportionate share of the total OPEB liability measured as of June 30, 2019 is 0.00%. Accordingly, the School District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

| | TPAF/ABP | PERS | PFRS |
|-------------------|---------------------------|-----------------|----------------------------------|
| Inflation Rate | 2.50% | 2.50% | 2.50% |
| Salary Increases: | Based on Service Years | Based on Age | Based on Age |
| Through 2026 | 1.55% - 3.05% | 2.00% - 6.00% | 3.25% - 15.25% Applied to all |
| Thereafter | 1.55% - 3.05% | 3.00% - 7.00% | future years |

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF, PERS and PFRS, respectively.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

NOTE 11. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Discount rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTE 13. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> – The School District maintains commercial insurance coverage for property, liability, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of School District contributions, reimbursements to the State for benefits paid and the ending balance of the School District's expendable trust fund for the current and previous two fiscal years:

| _ | Fiscal Year Ended June 30 | r | Interest | School District Contributions | _ | Employee Contributions | Amount Reimbursed | | Ending Balance |

<u>Joint Insurance Pool</u> – The School District is a member of the Gloucester, Cumberland, Salem School Districts Joint Insurance Fund. The Fund provides the School District with the following coverage:

Property (Including Inland Marine and Automobile Physical Damage)
Boiler and Machinery
Educator's Legal Liability
Crime
Pollution Legal Liability
General and Automotive Liability
Workers' Compensation

Contributions to the Fund, including a reserve for contingencies, are payable in two installments and are based on actuarial assumptions determined by the Fund's actuary. The Commissioner of Insurance may order additional assessments to supplement the Fund's claim, loss retention, or administrative accounts to assure the payment of the Fund's obligations. As a participant in the Tri-County JIF, the reflective share of the combined fund balance or deficit is reported to the District each year, of which this amount is not reported in the Financial Statements of the District.

NOTE 14. DEFERRED COMPENSATION

The School District offers a choice of deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, which are administered by the employer, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency.

The below 403(b) service providers have been authorized by the School District:

Ameriprise Financial Services, Inc.
AXA Equitable Life Insurance Company
Fidelity Investments
ING Life Insurance and Annuity Company
Lincoln Investment Planning, Inc.
MetLife

NOTE 15. COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

All School District employees are entitled to twelve paid sick leave days per fiscal school year. Unused sick leave may be accumulated and carried forward to the subsequent years. All School District employees except non-instructional aides are entitled to three personal days which may be carried forward and accumulated to be paid at retirement. Vacation days not used during the year may not be accumulated and carried forward.

Benefits paid in any future year will be calculated according to formulas outlined in the School District's agreements with the various employee unions and included in the current years' budget.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. As of June 30, 2020, the liability for compensated absences in the governmental and proprietary fund types was \$966,088 and \$25,255, respectively.

NOTE 16. ARBITRAGE REBATE

The Tax Reform Act of 1986 placed restriction on investments of the proceeds of certain tax-exempt bonds issued after December 31, 1986. Specifically, investment earnings which are above arbitrage bond yield are required to be rebated to the United States Treasury Department within sixty days of the end of the fifth bond year. A bond year is defined as ending on the anniversary date of bond settlement.

The School District issued refunded bonds on February 22, 2005. Such bonds were dated March 22, 2005. The first required computation date of rebatable arbitrage in respect to the bonds is May 31, 2008 (the final maturity of the bonds) or earlier, the redemption date of the last outstanding bond. The School District also issued refunding bonds on February 22, 2005. Such bonds were dated March 22, 2005. The first required computation date of rebatable arbitrage in respect to the bonds is February 28, 2010 (the final maturity bonds) or if earlier, the redemption date of the last outstanding bond.

NOTE 17. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances are generated as a result of advances or deposits of one fund are made by and received by another fund. The following interfund balances were recorded on the various balance sheets as of June 30, 2020.

| Fund | nterfund eceivable | nterfund Payable |
|------------------|-----------------------|---------------------|
| General | \$ 536,299 | \$ 1,243,883 |
| Special Revenue | | 162,850 |
| Capital Projects | | 364,523 |
| Food Service | 567,283 | |
| Academy | 676,600 | |
| Payroll | | 8,926 |
| | \$ 1,780,182 | \$ 1,780,182 |

The interfund receivables and payables above predominately resulted from payments made by certain funds on behalf of other funds. During the fiscal year 2020, the District expects to liquidate such interfunds, depending upon the availability of cash flow.

NOTE 18. DEFICIT FUND BALANCES

The School District has an unassigned deficit of \$1,572,340 in the general fund and a deficit of \$62,413 in the special revenue fund, as of June 30, 2020 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payment as revenue for budget purposes only in the current school budget year. The statute provides legal authority for school districts to recognize the revenue in a current school budget year.

For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other governmental recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payment. Due to the timing difference of recording the June state aid payments, the general and special revenue fund balance deficit does not alone indicate that the district is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unassigned general fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The School District's general fund deficit is less than the June state aid payments received in July, 2020 and the School District's special revenue fund deficit in the GAAP funds statements of \$62,413 is the same as the June state aid payments received in July, 2020.

NONSPENDABLE

As stated in Note 1, the nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. There are no nonspendable fund balances of the School District, as of June 30, 2020.

NOTE 18. DEFICIT FUND BALANCES (CONT'D)

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund -

For Excess Surplus – In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance – excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budget fund balance in their subsequent years' budget. The excess fund balance at June 30, 2020 is \$2,563,330, of which \$797,980 was assigned for utilization in the 2020-21 budget and \$1,765,350 will be utilized in the 2021-22 budget.

For Capital Reserve Account – As of June 30, 2020, the balance in the capital reserve account is \$1,373,888, of which \$600,000 was assigned for utilization in the 2020-21 budget. These funds are restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan (LRFP). The maximum amount of Capital Reserve is \$25,757,944.

For Maintenance Reserve Account – As of June 30, 2020, the balance in the maintenance reserve account is \$18,877. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A 18:7G-9) as amended by P.L. 2004, c. 73 (S1710). The maximum allowable reserve balance is \$2,445,906.

<u>Capital Projects Fund</u> – As of June 30, 2020, the restricted fund balance amount was \$295,365. Budgets of district projects were approved and funded in prior years in part by the School Development Authority in the amount of \$13,509,588, Bond Proceeds of \$6,000,000 and \$600,000 from the Capital Reserve account.

<u>Debt Service Fund</u> – In accordance with N.J.S.A. 18A:7F-41(c) (2), the School District has a Debt fund balance in the amount of \$0, which is unassigned as of June 30, 2020.

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's intent to be used for specific purposes but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund -

<u>For Subsequent Year's Expenditures</u> – The School District has appropriated and included as anticipated revenue for the fiscal year ending June 30, 2020 \$402,020.

<u>Other Purposes</u> As of June 30, 2020, the School District had \$596,259 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

NOTE 18. DEFICIT FUND BALANCES (CONT'D)

<u>UNASSIGNED</u>

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

<u>General Fund</u> – As of June 30, 2020, the fund balance of the general fund was \$3,382,034, which includes an unassigned deficit of \$1,572,340. This was the result of the delay in the payment of state aid of \$2,279,931 until the following fiscal year. As stated in Note 18, since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid in the payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the general fund balance does not alone indicate that the School District is facing financial difficulties.

Special Revenue Fund – As of June 30, 2020, the fund balance of the special revenue fund was a deficit of \$62,413 thus resulting in the fund balance classification of unassigned. The deficit is a result from a delay in the payment of state aid until the following fiscal year. As stated in Note 18, since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties. The unassigned deficit on the GAAP financial statements of \$62,413 is the same as the last state aid payment.

NOTE 19. TAX ABATEMENT

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because NJSA 54:4-75 and NJSA 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at NJSA 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

NOTE 20: GRANT ANTICIPATION NOTE

The District entered into a short-term Grant Anticipation Note on July 11, 2019 in the amount of \$7,158,000. The interest rate on the note is 2.50% and there is a note premium of \$54,687.

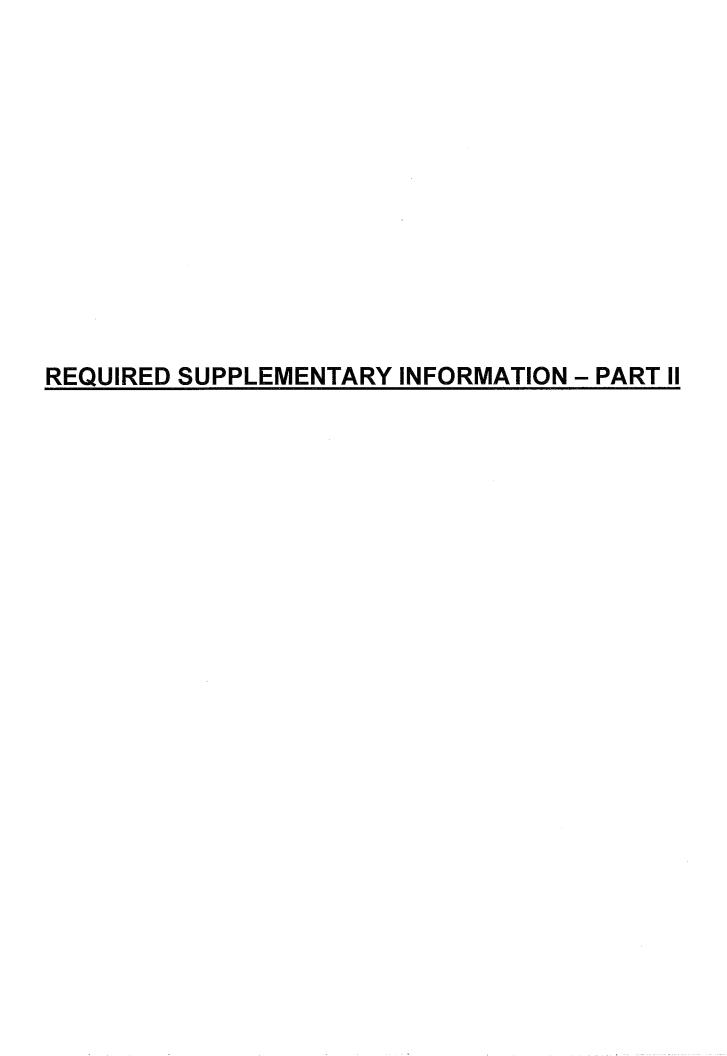

NOTE 21: LITIGATION

The School District is involved in one pending litigation matter, which has been assigned to the Board's insurance carrier. In addition, the Board is still aware of five Notice of Tort Claims and the outcome, or exposure to the Board, is still either unknown or potential losses, if any, would not be material to the financial statements.

NOTE 22: SUBSEQUENT EVENTS

The District entered into a short-term Grant Anticipation Note on July 9, 2020 in the amount of \$7,158,000. The interest rate on the note is 2.00% and there is a note premium of \$91,440.

The decrease in liability from June 30, 2018 to June 30, 2019 is due to changes in the census, claims and premiums experience.

Changes in Assumptions: The decrease in the liability from June 30, 2017 to June 30, 2018 is due to the increase in the assumed discount rate from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018; and a decrease in the assumed health care cost trend and excise tax assumptions. The decrease in the liability from June 30, 2018 to June 30, 2019 is due to the combined effect of the decrease in the assumed discount rate from 3.87% as of June 30, 2018 to 3.50% as of June 30, 2019; and changes in the trend, excise tax, updated decrements, future spouse election, PPO/HMO future retiree elections, salary scale and mortality assumptions.

Note: This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, this presentation will only include information for those years for which information is available.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Penns Grove-Carneys Point. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for paying the debt, of each overlapping.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's taxable value.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Penns Grove-Carneys Point Regional School District County of Salem, New Jersey 08079

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards. issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Penns Grove-Carneys Point Regional School District, in the County of Salem, State of New Jersey, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board of Education of the Penns Grove-Carneys Point Regional School District's basic financial statements, and have issued our report thereon dated December 22, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Penns Grove-Carneys Point Regional Board of Education's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Penns Grove-Carneys Point Regional Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Penns Grove-Carneys Point Regional Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Penns Grove-Carneys Point Regional Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance, or other matters that is required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and are described in the accompanying schedule of findings and questioned costs as items labeled finding 2020-1.

Penns Grove-Carneys Point Regional Board of Education's Response to Findings

Penns Grove-Carneys Point Regional Board of Education's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Their response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, the Penns Grove-Carneys Point Regional Board of Education, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Penns Grove-Carneys Point Regional School District County of Salem, New Jersey 08079

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Penns Grove-Carneys Point Regional School District, in the County of Salem, State of New Jersey, compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Penns Grove-Carneys Point Regional School District's major federal and state programs for the fiscal year ended June 30, 2020. The Penns Grove-Carneys Point Regional Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Penns Grove-Carneys Point Regional Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and New Jersey Treasury Circular OMB 15-08 Those standards, Uniform Guidance and New Jersey OMB 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred.

An audit includes examining, on a test basis, evidence about the Penns Grove-Carneys Point Regional Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of Penns Grove-Carneys Point Regional Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Board of Education of the Penns Grove-Carneys Point Regional School District, in the County of Salem, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Penns Grove-Carneys Point Regional School District's Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Penns Grove-Carneys Point Regional Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal or state program and to test and report on internal control over compliance in accordance with Uniform Guidance and New Jersey OMB Treasury 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Penns Grove-Carneys Point Regional School District Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify one deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as finding 2020-1, that we consider to be material weakness.

Penns Grove-Carneys Point Regional Board of Education's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Penns Grove-Carneys Point Regional Board of Education's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey Treasury Circular OMB 15-08. Accordingly, this report is not suitable for any other purpose.

This report is intended solely for the information and use of the audit committee, management, the Penns Grove-Carneys Point Regional Board of Education, the New Jersey State Department of Education, other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

PENNS GROVE-CARNEYS POINT REGIONAL SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2020

NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Penns Grove-Carneys Point Regional School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies are included on the schedules of expenditures of federal awards and state financial assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 2 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey Treasury Circular OMB 15-08. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A.*, 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A.*, 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$95,432) for the general fund and \$7,542 for the special revenue fund. See Note A (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:
