Honorable President and Members of the Board of Education Stow Creek Township School District Cumberland County, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Stow Creek Township School District for the fiscal year ended June 30, 2020 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly, the financial position and results of operations of the various funds of the District. All disclosures that we feel are necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), "Audits of States, Local Governments, and Non-Profit Organizations" and the State Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

Stow Creek Township School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement No. 14. The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the district is organized on a basis of governmental, business-type and fiduciary funds, which are all included in this report. The Stow Creek Township Board of Education and its one school constitute the District's reporting entity.

Stow Creek Township School District provides a full range of educational services appropriate for grade levels Pre-K through Eighth grade. These include regular education, as well as special education for handicapped students. Our students in grades 9-12 are sent to Cumberland Regional High. The Stow Creek Township School District completed the 2019-2020 fiscal year with an enrollment of 113 students, which was three less than the number of students as the prior year. The following changes in the student enrollment of the District over the last ten years show a leveling off for the later years.

Average Daily Enrollment

Fiscal <u>Year</u>	Student <u>Enrollment</u>	Percent <u>Change</u>
2019-20	113	3%
2018-19	116	5%
2017-18	110	(6)%
2016-17	117	4%
2015-16	112	0%
2014-15	112	(3)%
2013-14	116	(1)%
2012-13	117	0%
2011-12	117	(12)%
2010-11	133	(1)%

2. ECONOMIC CONDITION AND OUTLOOK:

Stow Creek Township continues to experience limited growth, as depicted in the enrollment statistics. Approximately three-quarters of the total area of the Township is considered prime farmland, which has been a significant factor in terms of Stow Creek's planned development, encouraging the retention of prime farmland for agricultural use.

Future development in Stow Creek is governed by natural or environmental factors, in addition to agricultural suitability of soils. The Township has no central sewer system and therefore, soil suitability for on-site waste disposal systems is crucial in terms of development potential. In addition, the recent upgrading of requirements by the New Jersey Department of Health, regarding on-site systems, mandates that areas with only slight limitations will be further restricted in density. Wetland regulations also impact on development potential. Several landowners have sold properties to NJ Fish and Wildlife Management and the State has also established a state park in the Township.

3. MAJOR INITIATIVES:

Bearing on the District's Future

The Greenwich-Stow Creek Partnership between Stow Creek and Greenwich Township is entering its thirteenth year. As the Partnership matures and continues to develop in new productive modes, Stow Creek Township School District foresees gaining increasingly more benefits from the economies of scale and opportunities generated by this alliance. It is anticipated that new and innovative uses of the partnership will allow the continued enhancement of the quality of instruction and the expansion of educational opportunities available to the children of both districts while at the same time maintaining fiscally prudent stewardship of taxpayers' dollars.

The new state commitment to the SFRA (Full Funding Formula) and its consequent reduction in Adjustment Aid for Stow Creek poses challenge to the district over the next five years and beyond. This reduction slashes available funding, but with taxation caps in place does not leave an avenue for relief without seriously cutting programs. Reduction in force has been necessary due to this squeeze of Aid reduction and tax cap. The Greenwich-Stow Creek Partnership Schools are exploring a possible merger in the future.

Stow Creek School District is continuing to use the economies of scale generated by its alliance with Greenwich Township in the Greenwich-Stow Creek Partnership Schools to enhance the quality of instruction and the educational opportunities available to the children of both districts while reducing costs.

Stow Creek School District partnered with Greenwich School district to secure a Preschool Education Expansion Aid (PEEA) grant to open a full-day, preschool for four year old district residents on January 2, 2019 and expanded it in September, 2019 to include three year olds. By this partnership and in collaboration with six other districts for various parts of the program, Stow Creek will be able to provide a high quality preschool for our students and provide them with all the social, educational and developmental benefits of such a program. Extensive professional development featuring cross-content and multi-year staff training this year will focus on the preschool curriculum and the changes necessary to Kindergarten and beyond to ensure a smooth and productive transition.

Stow Creek Township is continuing its major technology initiatives this year. After rewiring the school for faster Internet connection a few years ago, we are now planning to expand our One- to-One initiative to lower grade levels. The district has gone to completely digital textbooks in grades 5-8; this has the dual advantages of costs savings and considerably improved instructional materials in terms of interactivity, currency of information, motivation, and in particular enhanced and evolving differentiated instruction to the pupil level. The district has been able to secure self-paced, standards-based web-based programs such as IXL, Flocabulary and this year, had the opportunity to pilot Reading Plus. All of these programs have assisted in increasing student achievement. Due to the Adjustment Aid cuts our Technology teacher will not be able to work with our staff as an in-house technology infusion specialist as much as in recent years. The rents received from the cell tower erected on school property continue to help fund these educational technology advances.

With its 4-G capabilities the on-site tower has the extra advantage, in addition to the rent earned, of providing cost competition for internet service since previously only one internet provider operated in the district.

Stow Creek is also expanding the integrated, global computerized information system installed eight years ago. In addition to a complete Student Information System, Discipline system online, teacher lesson plans online, grade books, and teacher web-sites, we are utilizing a student statistics tool to drill down on the specific skills that our students need to improve their understanding of the subject area and a curriculum building tool to expedite our transition with the rest of New Jersey to the new State Educational Standards. We are also using this integrated system as the technology tool to go along with the Danielson teacher evaluation model for AchieveNJ. We are doing this in partnership with the six neighboring districts which make up the constituency of the local regional high school to allow us to reap considerable economies of scale in the required staff training.

As part of our Curriculum Revision Cycle carried out in concert with the other six constituent districts we updated our Math, Language Arts, Music, Social Studies and Science standards to the new New Jersey standards effective this September 2019. The district also adopted Dance and Theater curriculum for the first time this year. In the upper middle school grades this will be the focus of our professional development and staff training this year.

Stow Creek, on behalf of the partnership, is continuing to enter into other collaborative relationships with surrounding districts and businesses. We now share a World Languages teacher one period a day with Upper Deerfield, share CST services with Salem County Special Services', business administrator services, as well as, Business office services with Upper Deerfield School District, as well as, our numerous shared services with Greenwich in the partnership. By negotiating as one larger entity and sharing those services and costs with Greenwich, Stow Creek has negotiated better contract terms with our Student Information System provider, our outsourced IT provider and our automated telephone contact system provider, technology providers, textbook publishers and others.

In conclusion, the School District has committed itself to educational excellence and continued parsimony. The new collaborations are allowing Stow Creek to provide better and new educational services to our children and keep costs in check. Stow Creek is taking the steps necessary to keep up with today's changing economic and regulatory conditions and still provide a world-class education for the children of Stow Creek Township.

4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are being made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year end are either cancelled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2020.

6. ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

7. FINANCIAL INFORMATION AT FISCAL YEAR END:

As demonstrated by the various statements and schedules included in the financial statements section of the report, the District continues to meet its responsibility for sound financial management.

8. DEBT ADMINISTRATION:

As of June 30, 2020, the District does not have any debt, other \$105,977 in uncompensated absences. The amount available to authorize debt is \$3,484,566, as shown on Exhibit J-13.

9. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

10. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability, automobile liability, and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

11. OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nightlinger, Colavita and Volpa, PA. was appointed by the Board. In addition to meeting the requirements set forth in State statutes, the audit also was designed to meet the requirements of the Title 2 CFR 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey Treasury Circular 15-08 OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditor's report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's report related specifically to the single audit are included in the single audit section of this report.

12. ACKNOWLEDGMENTS:

Respectfully submitted,

We would like to express our appreciation to the members of the Stow Creek Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Stow Creek Township School District County of Cumberland, New Jersey 08302

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Stow Creek Township School District in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Stow Creek Township School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Stow Creek Township Board of Education in the County of Cumberland, State of New Jersey, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules related to accounting and reporting for pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Stow Creek Township School Board of Education's basic financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated December 21, 2020 on our consideration of the Stow Creek Township Board of Education's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Stow Creek Township Board of Education's of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governments Auditing Standards* in considering Stow Creek Township Board of Education's internal control over financial reporting and compliance.

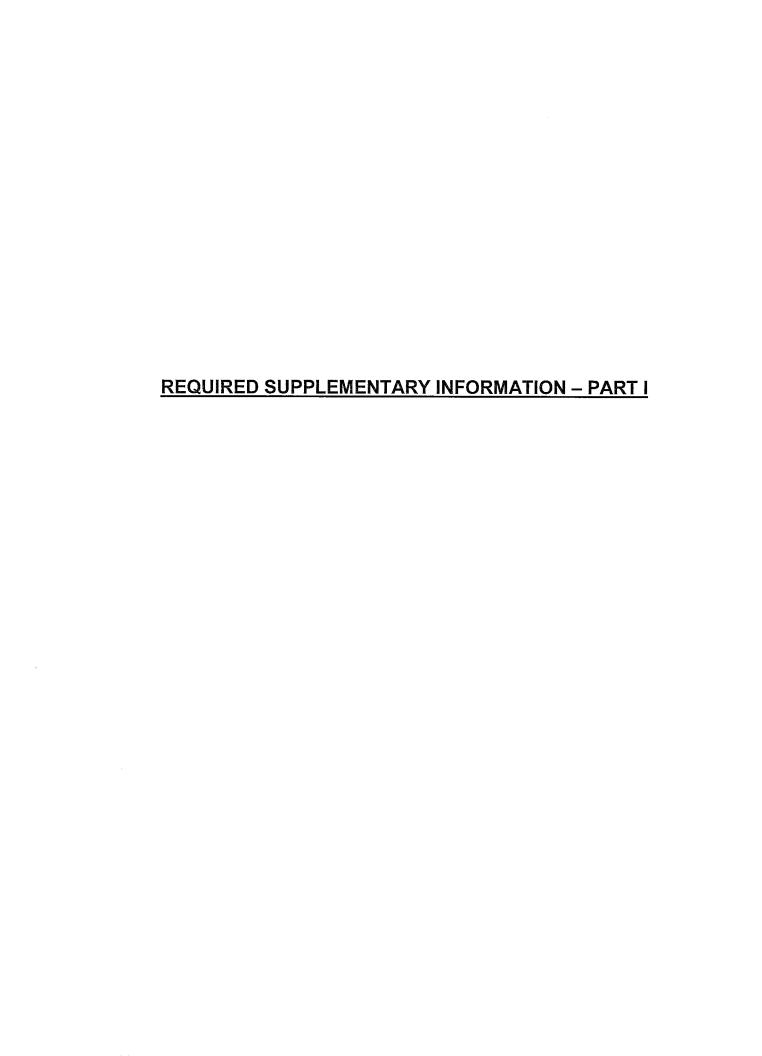

Respectfully submitted,

NIGHTLINGER, COLAVITA & VOLPA, P.A.

Raymond Colavita, C.P.A., R.M.A. Licensed Public School Accountant

Stow Creek Township School District Management Discussion and Analysis

(Unaudited)

This section of the Stow Creek Township School District's Comprehensive Annual Financial Report presents our discussion and analysis of the District's financial performance during the fiscal year ending on June 30, 2020. Comparative information between the current year (2019-20) and the prior year (2018-19) is required to be presented in the MD&A. The intent of the discussion and analysis is to look at the District's financial performance as a whole. Interested parties should review the basic financial statements and notes in concert with this document in order to enhance and clarify their understanding of the finances of the District.

Using the Comprehensive Annual Financial Report (CAFR)

The Comprehensive Annual Financial Report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information.

The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district-wide financial statements that provide both short-term and longterm information about the District's overall financial status and performance.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements, with the focus on operations.
- The governmental fund statements tell how basic services such as regular and special education were financed in the short-term, as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about activities the District operates like businesses.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include *notes* that explain various information in the statements and provide more detail. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

Key financial highlights for 2020 are as follows:

- The assets of the Stow Creek School District exceeded its liabilities at the close of the most recent fiscal year on June 30, 2020 by \$766,391.
- Total net position of governmental activities increased by \$283,989, comprised of changes in various assets and liabilities. The net position of Business-type Activities decreased by \$38.
- As of the close of the current fiscal year, the Township of Stow Creek School District's Governmental Funds reflected combined ending fund balances of \$845,925, which is a decrease of \$296,956 from the prior year.

- General revenues accounted for \$2,537,961, which was 79.6% percent of total revenues. Program
 specific revenues in the form of charges for services, operating grants and contributions accounted
 for \$652,315 or 20.4% percent to total revenues of \$3,190,276.
- The School District had \$2,906,325 in expenses, of which \$652,315 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily federal awards, state aid and property taxes) were adequate to provide for these programs, which include the Business-type Activities.
- The General Governmental Fund had \$2,644,869 in revenues, \$2,277,586 in expenditures and \$90,023 in other net financing uses transferred to the Food Service Enterprise Fund. The General Fund balance decreased \$277,260 over 2019. This decrease was anticipated by the Board of Education, although fund balance of \$175,471 was used to balance the budget, as shown on Exhibit C-1.

District-wide Financial Statements - Reporting the School District as a Whole

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets and liabilities – are one way to measure the District's overall financial position.

This change in net position is important because it tells the reader that, for the school district as a whole, the financial positions of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, which represent the district-wide financial statements, the School District is divided into two distinct kinds of activities:

- Governmental Activities All of the School District's programs and services are reported here
 including, but not limited to, instruction, support services, operation and maintenance of plant
 facilities, pupil transportation, extracurricular activities and internal service funds.
- Business Type Activities This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service and After School Child Care enterprise funds are reported as a business-type activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major (all) funds begins on page 22. Fund financial reports provide detailed information about these major funds. The School District uses numerous funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds.

The District may implement four types of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which
 generally focus on (1) how cash and other financial assets that can readily be converted to cash
 flow in and out and (2) the balances left at year end that are available for spending. Consequently,
 the governmental fund statements provide a detailed short-term view that helps the reader
 determine whether there are more or fewer financial resources that can be spent in the near future
 to finance the District's programs. Because this information does not encompass the additional
 long-term focus of the district-wide statements, additional information at the bottom of the
 governmental fund statements explains the relationship (or differences) between them.
- Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. The District's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flows.
- Internal service funds: (Also considered proprietary funds) are optional and utilized to report activities that provide supplies and services for other District programs and activities. The District currently does not have any internal service funds.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the student activity fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements, as these assets may not be used to finance the District's operations.

The School District as a Whole

Table 1 provides a comparative summary of the School District's net position for the years ended in 2020 and 2019.

Governmental Activities

The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the School District operations. The District's Property taxes made up 46.1% percent of the net revenues for governmental activities of \$2,512,835. Federal, state and local grants accounted for another 39.3% and other net revenues were 14.6%. The total cost of services, as shown below, was \$2,819,762. The net cost of all governmental programs and services, which excludes charges for services and operating grants, was \$2,228,846. Instruction comprises 29.6% of these net District expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows a comparison of the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Table 3

	Total Cost of Services 2020	Net Cost of Services 202	<u>0</u>	Total Cost of Services 2019		Net Cost of Services 2019
Instruction	\$ 847,542	\$ 659,789	\$	959,859	\$	810,089

Employee Benefits	1,116,099	783,984		1,090,513		763,003
Enterprise Funds	86,563	25,164		93,511		
Interest on Debt	739	739	_	739	_	739
Total Expenses	\$ 2,906,325	\$ 2,254,010	- - =	2,929,382	\$	2,308,313

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development. Curriculum and staff development expenses (included in support services) are related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

Co-curricular activities include instructional expenses related to student activities provided by the School district, which are designated to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District as well as internal service fund expenses.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition as well as internal service fund expenses.

Pupil transportation includes activities involved with the conveyance of students to and from school and other activities, as provided by state law, as well as internal service fund expenses.

Unallocated Depreciation reflects the cost of fixed assets spread over the estimated useful lives of the individual assets

Business-Type Activities

Revenues for the District's business-type activities (Food Service and After School Child Care Programs) were comprised of charges for services and federal and state reimbursements.

Expenditures exceeded Revenues by \$20,515 in the Food Service Fund and Expenditures exceeded Revenues by \$4,649 in the After School Childcare Program. The net deficit of \$25,164 was offset by a board subsidy of \$25,023 and interest of \$103. This resulted in a negative change in net position of \$38.

- Charges for services represent \$31,823 in the Food Service Fund and \$15,558 in the After School Childcare Program. This represents amount paid by patrons for daily food service activities and after school childcare.
- Federal and state reimbursements for meals, including payments for free and reduced lunches and donated commodities, were \$14,018.

The School District's Funds

Information about the School District's major funds starts on page 22. These funds are accounted for using the modified accrual basis of accounting. The governmental funds used (i.e., General Fund, Special Revenue Fund and Capital Project Fund presented in the fund-based statements) had total revenues of \$2,924,013, expenditures of \$2,602,034 and other net financing uses of \$25,023. The net financing sources represented a transfer of \$25,023 to the Food Service Fund. The net change in fund balance for the year was \$296,956. This demonstrates that the District was able to meet current operating costs with no urgent need for additional funds other than \$175,471 in surplus appropriated to balance the 2019-20 budget.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the Governmental Funds (excluding Capital Projects) for the fiscal year ended June 30, 2019, and the amount and percentage of increases and decreases in relation to prior year revenues.

Revenue	 Amount	Percent of Total	Increase/ (Decrease) from 2019	Percent Increase (Decrease)
Local Sources State Sources Federal Sources	\$ 1,550,901 1,292,506 80,606	53.04% \$ 44.20% 2.76%	352,437 74,928 (29,953)	29.41% 6.15% -27.09%
Total	\$ 2,924,013	100.00% \$	397,412	15.73%

The increase in Local sources is attributed to increases in the tax levy of \$58,049 and miscellaneous revenues of \$295,556, offset by a decrease in general fund transportation of \$1,168.

The increase in State sources is attributed to increases in Special Revenue Fund Grants of \$90,636 offset by a decrease in State Public School aid of \$15,708.

The above schedule includes the two last state aid payments for 2018-19 of \$76,845 received in July 2019 and does not include the two last state aid payments for 2019-2020 received in July 2020 in the amount of \$71,662.

The decrease in Federal sources is due to various decreases in the Special Revenue Fund Grants. In addition, the 2020 figures do not include deferred revenue in accordance with GAAP accounting.

The following schedule presents a summary of General Fund and Special Revenue Fund Expenditures for the fiscal year ended June 30, 2020 and the percentage of increases and decreases in relation to prior year amounts.

Expenditures	Amount	Percent of Total	Increase/ (Decrease) from 2019	Percent Increase (Decrease)
Current: Instruction	\$ 841,625	32.34% \$	(112,848)	-13.35%
Undistributed expenditures Capital Outlay	1,723,329 37,080	66.23% 1.43%	181,307 (22,660)	12.37% -3066.31%
Total	\$ 2,602,034	100.00% \$	45,799	1.98%

The decrease in Instructional Expenditures is attributed to decreases in Regular Instruction of \$148,335 and Other Instructional Expenses of \$5,548, offset by an increase of \$41,035 in Special Education Instruction Expenses.

The increase in Undistributed Expenditures was due to increases in Employee Benefits of \$113,197, Student Related costs of \$81,659 and Administration/Central Services costs of \$23,642, offset by a decrease in Transportation costs of \$31,293, Tuition of \$4,482 and Plant and Maintenance costs of \$1,416.

The decrease in Capital Outlay is attributed to an decrease in facility acquisition costs.

General Fund Budgeting Highlights

The School District's Budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of modified accrual and encumbrance accounting. The most significant budgeted fund is the General Fund.

During the course of the fiscal year 2020, the School District amended its General Fund budget as needed. The School District uses program-based budgeting. These budgeting systems are designed to tightly control total program budgets while providing flexibility for program management to address the following:

- Staffing changes based on student needs
- Additional costs for student transportation both in regular education and special education
- Changes in maintenance and operations
- Changes in appropriations to prevent budget overruns

While the District's final budget for the general fund anticipated that revenues, including surplus appropriated, would roughly equal expenditures, the actual results for the year show a decrease of \$272,077 as shown on Exhibit C-1.

- Actual revenues were \$302,131 more than expected, excluding on-behalf pension and social security reimbursements of \$327,547, due to the increased adjustment aid.
- Actual expenditures were \$178,212 less than expected. This excludes state on-behalf pension and social security reimbursements of \$327,547 and reflects favorable variances in most expenditure accounts.

Capital Assets

At the end of the fiscal year 2020, the School District had \$400,974 (net of accumulated depreciation) invested in land, buildings, furniture and equipment, and vehicles. Table 4 shows fiscal 2020 balances compared to 2019.

Table 4
Capital Assets (Net of Depreciation) at June 30

		2020	 2019
Land Improvements	\$	5,117	\$ 6,172
Building and Improvements Vehicles		190,658 178,433	160,615 203,264
Equipment		26,766	29,070
Totals	\$ =	400,974	\$ 399,121

Overall net Capital Assets increased by \$1,853 from fiscal year 2019 fiscal year 2020, representing a fixed asset addition of \$36,341 offset by depreciation expense of \$34,488.

Long-Term Debt:

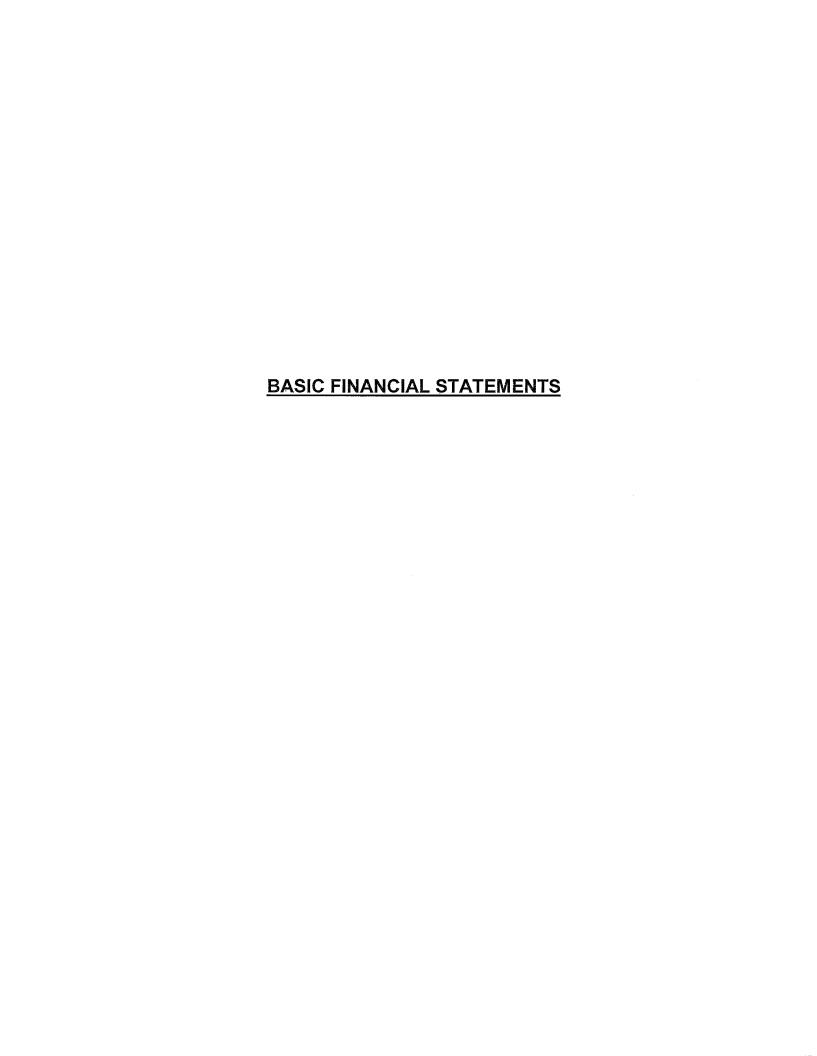

At year-end, the District had outstanding long-term debt of compensated absences of \$105,977. There was no other outstanding debt authorized or issued (Note 6 to the Financial Statements). The amount of debt available for authorization by statute is \$3,484,566, as shown on Exhibit J-13.

Factors Bearing on the District's Future

The Greenwich-Stow Creek Partnership between Stow Creek and Greenwich Township is entering its twelfth year. As the Partnership matures and continues to develop in new productive modes, Stow Creek Township School District foresees gaining increasingly more benefits from the economies of scale and opportunities generated by this alliance. It is anticipated that new and innovative uses of the partnership will allow the continued enhancement of the quality of instruction and the expansion of educational opportunities available to the children of both districts while at the same time maintaining fiscally prudent stewardship of taxpayers' dollars.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Cherie Bratty, School Business Administrator/Board Secretary, at Stow Creek Township School District, 11 Gum Tree Corner Road, Bridgeton, NJ 08302.

DISTRICT WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the District.

These statements include the financial activities of the overall District, except for fiduciary activities.

Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the District.

STOW CREEK TOWNSHIP BOARD OF EDUCATION RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2020

Total Net Change in Fund Balances - Governmental Funds (from B-2)		\$	296,956
Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period. Depreciation expense	\$	(33,941)	
Capital outlays		36,341	2,400
Pension contributions are reported in governmental funds as expenditures. However, In the statement of activities, the contributions are adjusted for actuarial valuation adjustments, including Service and interest cost, administrative costs, investment returns, and experience/assumption. This is the amount by which net pension liability and deferred inflows/outflows related to pension changed during the period.			
The issuance of long-term debt through bonds or leases provides current financial resources to the governmental funds, while the repayment of principal on long-term debt represents a use of resources in governmental funds. The payment of long-term debt principal is not a use of funds in the statement of activities.	ities.		-
Pension Expense recognized for GAAP but not for budgetary purposes.			11,190
In the Statement of Activities, certain operating expenses are measured by the amounts earned during the year, such as compensated absences. In the governmental funds, however,			
expenditures are reported when the corresponding financial resources are used or paid.			(26,557)

Change in Net Position of Governmental Activities (A-2)

NOTE 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

A. Reporting Entity:

The Stow Creek Township School District is a Type II district located in the County of Cumberland, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of seven members elected to three-year terms. These terms are staggered so that two or three members' terms expire each year. The purpose of the district is to educate students in grades PreK-8. The Stow Creek Township School District had an approximate enrollment at June 30, 2020 of 113 students.

Business Administrator/Board Secretary services are contracted with the Upper Deerfield School District including responsibility for the administrative control of the district.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- > the organization is legally separate (can sue or be sued in their own name)
- > the District holds the corporate powers of the organization
- > the District appoints a voting majority of the organization's board
- > the District is able to impose its will on the organization
- > the organization has the potential to impose a financial benefit/burden on the District
- > there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, as stipulated in GASB No. 114, the District has no component units.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation:

The District's basic financial statements consist of District-wide statements, including a statement of Net Position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

<u>District-wide Statements</u>: The statement of net position and the statements of activities display information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of net position presents the financial condition of the governmental and business-type activities of the District at the fiscal year end while the statement of activities presents a comparison between direct expenses and program revenues for each different business-type activity of the District and for each function of the District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses-expenses of the District related to the administration and support of the District's programs, such as personnel and accounting-are not allocated to programs.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

A. Basis of Presentation: (continued)

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state formula aid, are presented as general revenues.

<u>Fund Financial Statements</u>: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – *governmental, proprietary,* and *fiduciary* – are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting.

B. Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds and accounts are grouped in the financial statements in this report as follows:

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Fund Accounting: (continued)

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election. The district currently has no capital projects and, therefore, has not included a capital projects fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Permanent Fund - The Permanent Fund is used to account for resources that are legally restricted to the extent that only earnings and not principal may be used for purposes that support the District's programs, which are stipulated for the benefit of the School District or its students. The School District does not maintain a non-expendable scholarship fund that would require a permanent fund.

PROPRIETARY FUNDS

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District.

Enterprise Funds - The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises — where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The School District's Enterprise funds are as follows:

Food Service Fund - This fund accounts for the financial transactions of the food service operations of the District.

School Age Child Care Program - This fund accounts for the financial activity related to providing day care services to the students.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets.

Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Fund Accounting: (continued)

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund - Equipment

10 to 20 Years

FIDUCIARY FUNDS

Trust and Agency Funds - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. They account for assets where both the principal and interest may be spent. Expendable Trusts include Unemployment Compensation Insurance and scholarship funds, if any:

Nonexpendable Trust Fund - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. The District does not maintain a nonexpendable trust fund.

Agency Funds - Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds. This includes a Flexible Medical Spending Plan.

C. Basis of Accounting and Measurement Focus:

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

District-wide, Proprietary and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the enterprise fund and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of Unearned Revenue, and in the presentation of expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under the New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

C. Basis of Accounting and Measurement Focus: (continued)

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred. except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989. The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds, which are submitted to the county office. In accordance with P.L. 2011, c. 202, the School District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November of 2012 and to be held simultaneously with the general election. As a result, a vote is not required on the School District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2 (f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3. The Board of Education did not make any material supplemental budgetary appropriations during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis, which differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. Exhibit C-3 presents a reconciliation of the general fund and special revenue fund from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Encumbrance Accounting:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as Unearned Revenues at fiscal year-end. The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

F. Tuition Receivable:

Tuition charges, when applicable, are established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition Payable:

Tuition charges for the fiscal years 2017-18, 2018-2019, and 2019-20 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2020.

I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Assets, Liabilities and Equity:

<u>Transactions</u> - Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

<u>Inventories</u> - On District-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method and is expended when used. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2020.

At June 30, 2020, there was an ending inventory of \$3,270 in the Food Service Fund, of which \$0 was federal commodities.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

J. Assets, Liabilities and Equity: (continued)

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1986, as revised) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements. The District receives federal commodity food for meal service provided through a vended meal contract.

<u>Capital Assets</u> - General fixed assets acquired or constructed during the year are recorded at actual cost. Donated fixed assets are valued at their estimated fair market value on the date received. The general fixed assets acquired or constructed prior to June 30, 2020 are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. General fixed assets are reflected as expenditures in the applicable governmental funds, and the related assets are reported in the general fixed assets account group. Expenditures that enhance the asset or significantly extend the useful life of the asset are considered improvements and are added to the fixed asset's currently capitalized cost. The cost of normal repairs and maintenance are not capitalized. Assets in the general fixed assets account group are not depreciated.

Capital assets are depreciated in the district-wide financial statements using the straight-line method over the following estimated useful lives:

	Estim ated
Asset Class	Useful Lives
School Building	50
Building Improvements	20
Equipment	5-10

K. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences. The remainder of the compensated absences liability is reported in the district- wide statement of net position. In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

L. Unearned Revenue:

Unearned Revenue in the special revenue fund represents cash that has been received but not yet earned.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

M. Operating Revenues and Expenses:

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

N. Allocation of Indirect Expenses:

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are not reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

O. Extraordinary and Special Items:

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

P. Fund Equity:

Contributed capital represents fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

Q. Comparative Data/Reclassifications:

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain immaterial amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

R. Management Estimates:

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of revenues and expenditures/expenses during the reporting period. Accordingly, actual results could differ from those estimates.

S. Accrued Liabilities and Long-term Obligations:

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

T. Net Position:

Net Position represents the difference between assets and liabilities. Net Position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net Position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted Net Position are available.

U. Fund Balance Reserves:

The School District reserves those portions of fund balance, which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

V. Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned.

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or for the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year-end: property taxes available as an advance, interest, and tuition.

W. New Accounting Standards:

The School District has adopted the following GASB statements:

➤ GASB Statement - No. 95 – Postponement of the Effective Dates of Certain Authoritative Guidance: The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. The requirements of this Statement are effective immediately. Management is evaluating the potential impact of the adoption of GASB 95 on the School District's financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

W. New Accounting Standards (continued)

Other accounting standards that the School District is currently reviewing for applicability and potential impact on the financial statements include:

- ➤ GASB No. 84 Fiduciary Activities: The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of Statement will be effective for reporting periods beginning after December 15, 2019. The Board is evaluating the potential impact of the adoption of GASB 84 on the School District's financial statements.
- ➢ GASB No. 87 Leases: The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The requirements of Statement will be effective for reporting periods beginning after June 15, 2021. The Board is evaluating the potential impact of the adoption of GASB 87 on the School District's financial statements.
- ➤ GASB No. 89 Accounting for Interest Cost Incurred before the End of a Construction Period: The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Management is evaluating the potential impact of the adoption of GASB 89 on the School District's financial statements.
- ➤ GASB Statement No. 90 Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61: The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management is evaluating the potential impact of the adoption of GASB 90 on the School District's financial statements.
- ➤ GASB Statement No. 91 Conduit Debt Obligations: The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Management is evaluating the potential impact of the adoption of GASB 91 on the School District's financial statements.
- ➤ GASB Statement No. 92 Omnibus 2020: The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management is evaluating the potential impact of the adoption of GASB 92 on the School District's financial statements.
- ➤ GASB Statement No. 93 Replacement of Interbank Offered Rates: The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management is evaluating the potential impact of the adoption of GASB 93 on the School District's financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

W. New Accounting Standards (continued)

- ➤ GASB Statement No. 94 Public-Private and Public-Public Partnerships and Availability Payment Arrangements: The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. Management is evaluating the potential impact of the adoption of GASB 94 on the School District's financial statements.
- ➤ GASB Statement No. 96 Subscription-Based Information Technology Arrangements: This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. Management is evaluating the potential impact of the adoption of GASB 96 on the School District's financial statements.
- ➢ GASB Statement No. 97 Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32: The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans); and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans). The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management is evaluating the potential impact of the adoption of GASB 97 on the School District's financial statements.

X. Bond and Lease Acquisition Costs:

As part of any long-term Bond or lease agreement, providing for the use of school buildings, payments constituting professional fees will expensed when incurred in accordance with GASB Statement No. 65. There were no such bonds or leases for the year ended June 30, 2020.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Investments are stated at cost, or amortized cost, which approximates market. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity for any discount or premium. The Board classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONT'D)

Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statues require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments:

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds or other obligations of the Unites States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives, which have a maturity date no greater than twelve months from the date of purchase.
- c. Bonds of other obligations of the School District.

As of June 30, 2020, cash and cash equivalents in the fund financial statements of the District consisted of the following:

	•	Cash and Cash
		Equivalents
Checking accounts	\$	771,185
Total	\$	771,185

<u>Custodial Credit Risk</u> – Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 t seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA).

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONT'D)

Custodial Credit Risk Continued:

GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local government agencies. The program is administered by the Commissioner of the NJ Department of Banking and Insurance.

Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. As of June 30, 2020, the School District's bank balance of \$823,588 was subject to custodial credit risk as follows:

Insured	\$ 251,956
Uninsured and collateralized with	
securities held by pledging financial institutions	 571,413
	\$ 823,369

NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Township of Stow Creek Board of Education by inclusion of \$35,947 on June 30, 1998 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A.* 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2019 to June 30, 2020 fiscal year is as follows:

Beginning Balance, July 1, 2019	\$	140,958
Interest Earnings		250
Additions		277,422
Transfer to Capital Projects Fund		(65,000)
Withdrawal in Budget	_	
Ending Balance, June 30, 2020	\$_	353,630

The LRFP provides the balance of local support costs of uncompleted capital projects at June 30, 2020. There were no withdrawals from the capital reserve during fiscal year 2019-20.

NOTE 5. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account may be established by the District for the accumulation of funds for maintenance expenditures in subsequent fiscal years. This reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the maintenance reserve account are restricted to maintenance expenditures in the District's annual general fund budget certified for taxes. The balance at June 30, 2020 of \$114,400, is within the maximum allowed for the district. There was also \$70,582 appropriated in the 2020-21 budget.

NOTE 6. CAPITAL ASSETS

Capital Asset Activity for the Year Ended June 30, 2020 was as Follows:

	E	eginning Balance Iy 1, 2019		Additions	Adjustment/ Retirements	E	Ending Balance e 30, 2020
Governmental Activities: Capital Assets that are not Being Depreciated:		iy 1, 2019	-			Jun	e 30, 2020
Total Capital Assets not Being Depreciated							
Land Improvements Building and Building Improvements Vehicles Equipment	\$	73,284 375,123 442,644 124,092	\$	36,341		\$	73,284 411,464 442,644 124,092
Totals at Historical Cost		1,015,143		36,341			1,051,484
Less Accumulated Depreciation for : Land Improvements Building and Improvements Vehicles Equipment		(67,112) (214,508) (239,380) (98,315)		(1,055) (6,298) (24,831) (1,757)			(68,167) (220,806) (264,211) (100,072)
Total Accumulated Depreciation		(619,315)		(33,941)			(653,256)
Total Capital Assets being Depreciated, Net of Accumulated Depreciation		395,828	_	2,400			398,228
Government Activities Capital Assets, Net	\$	395,828	;	\$ 2,400		\$	398,228
		To A-1	-		-		To A-1
Business-type Activities - Equipment Less Accumulated Depreciation	\$	35,147 (31,854)		(547)		\$	35,147 (32,401)
Business-type Activities Capital Assets, Net	\$	3,293	_	\$ (547)		\$	2,746

The opening balance on the Statement of Net Position has been restated to reflect the Governmental Activity adjustment above.

Depreciation Expense was Charged to Governmental Functions as Follows:

Instruction	\$ 5,917
Administration	17
Maintenance	1,427
Transportation	 26,580
	\$ 33,941

NOTE 7. LONG-TERM OBLIGATIONS

During the fiscal year ended June 30, 2020, the following changes occurred in long-term obligations:

	Beginning Balance 7/1/2019	Additions	Reductions	Ending Balance 6/30/2020	Amounts Due within One Year	Long-term Portion
Governmental Activities:						
Capital Lease	\$	\$	\$	\$	\$	\$
Compensated Absences						
Payable	79,420	26,557		105,977	5,875	100,102
Net Pension Liability	346,094	_	19,811	326,283		326,283
Total Long-term Obligations	\$ 425,514	\$ 26,557	\$ 19,811	\$ 432,260	\$ 5,875	\$ 426,385

Bonds Authorized and Issued -- As of June 30, 2020, the District had no bonds authorized but not issued.

Capital Leases – As of June 30, 2020, the District had no capital leases.

NOTE 8. PENSION PLANS

Description of Plans - Eligible employees of the School District can be covered by Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), or Defined Contribution Retirement Program (DCRP). PERS and TPAF are administered by the New Jersey Division of Pension and Benefits (NJDPB) and the DCRP is jointly administered by Prudential and NJDPB. The NJDPB issues publicly available financial reports that include financial statements and required supplementary information for the systems. These reports may be obtained online at https://www.ni.gov/treasurv/pensions/financial-reports.shtml.

Public Employees' Retirement System

The PERS is a cost sharing multiple-employer defined benefit pension plan that was established in 1955. The PERS provides retirement, death and disability, and medical benefits to qualified members. The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A. All benefits vest after ten years of service, except for medical benefits that vest after 25 years of service or under the disability provisions of PERS.

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

The following represents the membership tiers for PERS:

NOTE 8. PENSION PLANS (CONTINUED)

Public Employees' Retirement System (Continued)

Tier	Definition
1	Members who are enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008.
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010.
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011.
5	Members who were eligible to enroll on or after June 28, 2011.

Contributions - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The PERS member total contribution rate as of July 1, 2019 was 7.5% of base salary. The District employees' contributions for the year ended June 30, 2020 were 13,748. Employers in PERS are required to contribute at an actuarially determined rate which includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. The PERS employer rate due in 2020 is 13.69% of covered payroll. The District is billed annually for its normal contribution plus any accrued liability. These contributions were paid by the District and equal to the required contributions for each year. The District's contributions to PERS for the years ended June 30, 2020, and 2019, were \$17,750 and \$17,591 respectively.

The total payroll for the year ended June 30, 2020 was \$1,362,333. Payroll covered by PERS was \$183,305 for fiscal year 2020.

Components of Net Pension Liability - At June 30, 2020, the District's proportionate share of the PERS net pension liability was \$326,283. The net pension liability was measured as of June 30, 2019. The District's proportion of the net pension liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2019. The District's proportion measured as of June 30, 2019 was 0.001811% which was an increase of 0.00005% from its proportion measured as of June 30, 2018.

Pension Expense and Deferred Outflows/Inflows of Resources - The District's 2020 PERS pension expense, with respect to GASB 68, was \$6,584. The District's 2020 deferred outflows of resources and deferred inflows of resources were from the following sources:

		Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	5,856	\$ 1,441
Changes of assumptions		32,581	113,252
Net difference between projected and actual earnings on pension plan investments		-	5,151
Changes in proportion		20,252	25,466
Contributions subsequent to the measurement date	_	17,750	
Total	\$_	76,439	\$ 145,310

NOTE 8. PENSION PLANS (CONTINUED)

Public Employees' Retirement System (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

_	PERS
\$	(24,673)
	(36,979)
	(19,986)
	(3,733)
	(1,250)
\$	(86,621)
	·

Additional Information - Collective Balances at June 30, 2020 and 2019 are as follows:

Year	 2020	 2019
Collective deferred outflows of resources	\$ 76,439	\$ 95,745
Collective deferred inflows of resources	\$ 145,310	\$ 155,995
Collective Net Pension Liability	\$ 326,283	\$ 346,094
District's Proportion	0.001811%	0.001758%

Actuarial Assumptions - The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	PERS
Investment Rate of Return	7.00%
Salary Scale (Based on Age):	
Through 2026	2.00% - 6.00%
Thereafter	3.00% - 7.00%
Inflation Rate – Price	2.75%
Inflation Rate – Wage	3.25%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

NOTE 8. PENSION PLANS (CONTINUED)

Public Employees' Retirement System (Continued)

Long-Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

PERS		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	3.00%	4.67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2.00%	5.37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
U.S. Equity	28.00%	8.26%
Non-U.S. Developed Markets Equity	12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%
Total	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

NOTE 8. PENSION PLANS (CONTINUED)

Public Employees' Retirement System (Continued)

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate - The following presents the collective net pension liability of the participating employers as of June 30, 2019, calculated using the discount rate as disclosed above, as well as what the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Discount	1% Increase
	(5.28%)	(6.28%)	(7.28%)
District's Proportionate Share of the			
Net Pension Liability	\$ 415,016	\$ 326,283	\$ 255,696

Teachers' Pension and Annuity Fund

The State of New Jersey Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special funding situation that was established in 1955. As under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier	Definition
1	Members who are enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008.
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010.
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011.
5	Members who were eligible to enroll on or after June 28, 2011.

Special Funding Situation - The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

NOTE 8. PENSION PLANS (CONTINUED)

Teachers' Pension and Annuity Fund (Continued)

Contributions - The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. The member contribution rate was 7.5% in as of July 1, 2019. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less that the actuarial determined amount. Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the District and all other related non-contributing employers. No normal or accrued liability contribution by the District has been required over several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, Accounting and Financial Reporting for Pensions. The District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2020 because of the 100% special funding situation with the State of New Jersey.

During the fiscal year ended June 30, 2020, the State of New Jersey contributed \$193,340 to the TPAF for pension contributions, \$71,726 for post-retirement benefits on behalf of the School, and \$38 for long-term disability. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$62,443 during the year ended June 30, 2020 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

Components of Net Pension Liability - At June 30, 2020, the District was not required to report a liability for its proportionate share of the net pension liability because of a 100% reduction for State of New Jersey pension support provided to the District.

Pension Expense - For the year ended June 30, 2020, the District recognized pension expense of \$302,809 and revenue of \$302,809 for support provided by the State.

Actuarial Assumptions - The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	TPAF
Investment Rate of Return	7.00%
Salary Scale (Based on Age):	
Through 2026	1.55% - 4.45%
Thereafter	2.75% - 5.65%
Inflation Rate – Price	2.75%
Inflation Rate – Wage	3.25%

NOTE 8. PENSION PLANS (CONTINUED)

Teachers' Pension and Annuity Fund (Continued)

Long-Term Expected Rate of Return - Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 are summarized in the following table:

TPAF				
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Risk Mitigation Strategies	3.00%	4.67%		
Cash Equivalents	5.00%	2.00%		
U.S. Treasuries	5.00%	2.68%		
Investment Grade Credit	10.00%	4.25%		
High Yield	2.00%	5.37%		
Private Credit	6.00%	7.92%		
Real Assets	2.50%	9.31%		
Real Estate	7.50%	8.33%		
U.S. Equity	28.00%	8.26%		
Non-U.S. Developed Markets Equity	12.50%	9.00%		
Emerging Markets Equity	6.50%	11.37%		
Private Equity	12.00%	10.85%		
Total	100.00%			

Discount Rate - The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate - The following presents the collective net pension liability of the participating employers as of June 30, 2020, calculated using the discount rate as disclosed above, as well as what the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or higher than the current rate:

-	1% Decrease (4.60%)	Current Discount (5.60%)	1% Increase (6.60%)
State's Share of the Net Pension Liability associated with the District	\$ 6,068,569	\$ 5,133,856	\$ 4,381,018
State's Share of the Net Pension Liability	\$ 72,544,649,801	\$ 61,519,112,443	\$ 52,371,397,951

NOTE 8. PENSION PLANS (CONTINUED)

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DCRP) is a multiple-employer defined contribution pension fund that was established in 2007 under the provisions of N.J.S.A 43:15C-1. The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and long-term disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et seq.

The following represents the individuals eligible for membership in the DCRP:

Eligibility

- 1. State or Local Officials who are elected or appointed on or after July 1, 2007
- 2. Employees enrolled in the PERS or TPAF on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits
- 3. Employees enrolled in the PFRS or SPRS after May 21, 2010, who earn salary in excess of established "maximum compensation" limits
- 4. Employees otherwise eligible to enroll in the PERS or TPAF on or after November 2, 2008, who do not earn the minimum annual salary for PERS or TPAF Tier 3 enrollment but who earn salary of at least \$5,000 annually
- 5. Employees otherwise eligible to enroll in the PERS or TPAF after May 21, 2010, who do not work the minimum number of hours per week required for PERS or TPAF Tier 4 or Tier 5 enrollment but who earn salary of at least \$5,000 annually

Contributions – The contribution policy is set by N.J.S.A 43:15C-3 and requires contributions by active members and contributing employers. Plan members are required to contribute 5.5% of their base salary and the District's employer match is an additional 3% contribution. For the year ended June 30, 2020, employee contributions totaled \$3,379 and the District's employer contribution, recognized in pension expense, was \$2,322. There were no forfeitures during the fiscal year.

Pension Plan Fiduciary Net Position - Detailed information about each pension plan's fiduciary net position is available in the separately issued New Jersey Division of Pension and Benefits financial report. Information on where to obtain the report is indicated at the beginning of this note.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

General Information about the OPEB Plan

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

Special Funding Situation

The participating local education employer allocations included in the supplemental schedule of special funding amounts by employer are provided as each local education employer is required to record in their financial statements, as an expense and corresponding revenue, their respective amount of total OPEB expense attributable to the State of New Jersey under the special funding situation and to include their respective amount of total OPEB liability in their notes to their financial statements. The total OPEB liability and service cost for each employer was determined separately based on actual data for each employer's participants.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Total OPEB Liability

The State of New Jersey's total OPEB liability, as of the measurement date of June 30, 2019, was \$41,729,081,045. Of this amount, the total OPEB liability attributable to the School District was \$4,700,807. The State of New Jersey's proportionate share of the total OPEB liability is 100%, including the proportion attributable to the School District of 0.01127%. The total OPEB liability for the School District measured as of June 30, 2019 is zero as a result of the Special Funding Situation with the State of New Jersey. The School District's proportionate share of the total OPEB liability measured as of June 30, 2019 is 0.00%. Accordingly, the School District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	TPAF/ABP	PERS	PFRS
Inflation Rate	2.50%	2.50%	2.50%
	Based on	Based on	Based on
Salary Increases:	Service Years	Age	Age
Through 2026	1.55% - 3.05%	2.00% - 6.00%	3.25% - 15.25% Applied to all
Thereafter	1.55% - 3.05%	3.00% - 7.00%	future years

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF, PERS and PFRS, respectively.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Discount rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Changes in the Total OPEB Liability

State of New Jersey	Total OPEB Liability
Balance as of June 30, 2018 Measurement Date	\$ 46,110,832,982
Changes for the year:	
Service Cost	1,734,404,850
Interest	1,827,787,206
Changes of Benefit Terms	
Differences between Expected and Actual	(7,323,140,818)
Changes of Assumptions	622,184,027
Benefit Payments	(1,280,958,373)
Contributions from Members	37,971,171
Net Changes	(4,381,751,937)
Balance as of June 30, 2019 Measurement Date	\$ 41,729,081,045

Sensitivity of Total Nonemployer OPEB Liability to changes in the discount rate:

The following presents the total nonemployer OPEB liability as of June 30, 2019, respectively, calculated using the discount rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

June 30, 2019				
At 1.00% Decrease	At Discount Rate	At 1.00% Increase		
2.50%	3.50%	4.50%		
\$ 49,298,534,898	41,729,081,045	35,716,321,820		

Sensitivity of Total Nonemployer OPEB Liability to changes in the healthcare trend rate:

The following presents the total nonemployer OPEB liability as of June 30, 2019, calculated using the healthcare trend rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a healthcare trend rate that is 1- percentage point lower or 1-percentage point higher than the current rate:

June 30, 2019				
Healthcare Cost				
	1.00% Decrease	Trend Rate	1.00% Increase	
\$	34,832,902,820	41,729,081,045	51,453,912,586	

NOTE 9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the School District recognized OPEB expense of \$167,018. The School District reported deferred outflows of resources and deferred inflows of resources from the following sources:

	_	Deferred Outflows of Resources	_	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$		\$	1,181,138
Changes of Assumptions				955,450
Net difference Between Projected and Actual Earnings on OPEB Plan Investments				
Changes in Proportion		752,291		18,622
Contributions Subsequent to the Measurement Date				
Total	\$_	752,291	\$ _	2,155,210

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows.

Measurement Period Ending June	
30,	OPEB
2020	\$ (189,775)
2021	(189,775)
2022	(189,775)
2023	(189,775)
2024	(189,775)
Thereafter	(454,044)
Total	\$ (1,402,919)

NOTE 10. COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the School District's personnel policies. Upon termination, employees are paid for accrued vacation. The School District's policy permits employees to accumulated unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreement with the various employee unions.

In the District Wide-Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components-the amount due within one year and the amount due in more than one year. The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2020, a liability existed for compensated absences in the General Fund of \$105,977 and none in the Food Service Fund.

NOTE 11. DEFERRED COMPENSATION

The Board offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrator is as follows:

Lincoln Investments GWN Marketing LSW

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior 2 years.

<u>Fiscal Year</u>	District <u>tributions</u>	<u>c</u>	Employee ontributions	<u> </u>	Amount <u>Reimbursed</u>	Ending <u>Balance</u>
2019-2020	\$	\$	1,834	\$	1,010	\$ 24,553
2018-2019			48		1,014	23,729
2017-2018			50			24,695

NOTE 13. INTERFUND RECEIVABLES AND PAYABLES

The following Interfund Balances remained on the balance sheet at June 30, 2020:

Fund	 .	Interfund Receivable	Interfund Payable
General Fund	\$	163,663	\$
Special Revenue			93,516
Food Service Fund			55,992
After School Childcare			12,534
Payroll Fund			1,621
Total	\$	163,663	\$ 163,663

NOTE 14. FUND BALANCE APPROPRIATED

General Fund - Of the \$906,551 General Fund balance at June 30, 2020, \$353,630 is restricted for Capital Reserve, of which \$0 has been assigned and appropriated as anticipated revenue in the year ending June 30, 2021; \$179,802 has been restricted for excess surplus, of which \$56,349 has been assigned and appropriated as anticipated revenue in the year ending June 30, 2021; \$114,400 is restricted for Maintenance Reserve, of which \$73,582 has been assigned and appropriated as anticipated revenue in the year ending June 30, 2021; \$0 has been assigned and appropriated as anticipated revenue for the year ending June 30, 2021; \$8,719 is assigned for encumbrances and \$250,000 is unreserved and undesignated.

Debt Service Fund - There was no undesignated Debt Service fund balance at June 30, 2020.

NOTE 15. LITIGATION

The District is from time to time involved in claims and lawsuits incidental to its operations. Per confirmation by the District's legal counsel, there are no pending litigations, claims, assessments of contingent liability against the District.

NOTE 16. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A.18A:7F-7, as amended by P.L. 2005, c.73(S1701), the designation for Reserved Fund Balance -- Excess Surplus is a required calculation pursuant to the New Jersey School Funding Reform Act of 2008 (SFRA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2020 is \$179,802, of which \$56,349 must be budgeted in the 2020-21 budget and \$123,453 must be budgeted in 2021-22.

NOTE 17. TAX ABATEMENT

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because NJSA 54:4-75 and NJSA 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district. For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at NJSA 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

NOTE 18. DEFICIT FUND BALANCES

The District had no deficit fund balance in the General Fund and a \$(17,623) deficit balance in the Special Revenue Fund as of June 30, 2020 as reported in the fund statements (modified accrual basis). P.L. 2003, c.97 provides that in the event a state school aid payment is not made until the following school year, districts must record the last state aid payment as revenue, for budgeted purposes only, in the current budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry i.e. if one government recognizes as asset, the other government recognizes a liability. Since the state is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the state records the payable. Due to the timing difference of recording the last state aid payment, the deficit in the Special Revenue Fund does not alone indicate that the district is facing financial difficulties. The deficit in the Special Revenue Fund is equal to the 19th and 20th state aid payments received in July 2020.

NOTE 19. RECEIVABLES

Receivables at June 30, 2020 consisted of accounts (fees) and intergovernmental grants. All receivables are considered collectible in full due to the stable condition of State programs and the current fiscal year guarantee of federal funds.

Receivables as of year-end for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

Receivables:		General Fund	Special Revenue Fund) —	Proprietary Funds	Total			
Intergovernmental Other	\$	125,284	25,147	\$	1,476 \$ 28,210	151,907 28,210			
Totals	\$	125,284	25,147	- - -	29,686 \$	180,117			

NOTE 20. OPERATING LEASES

As of the audit date, the District has commitments to lease two copiers under operating leases that expire in the 2024-25 school year. The District has the following lease payments remaining for their copiers:

Year Ending June 30,	Amount
2021	\$ 5,040
2022	5,040
2023	5,040
2024	5,040
2025	840
Total	\$ 21,000

The District also has a commitment to lease a postage meter under operating lease that expires in the 2024-25 school year. The District has the following lease payments remaining for the postage meter:

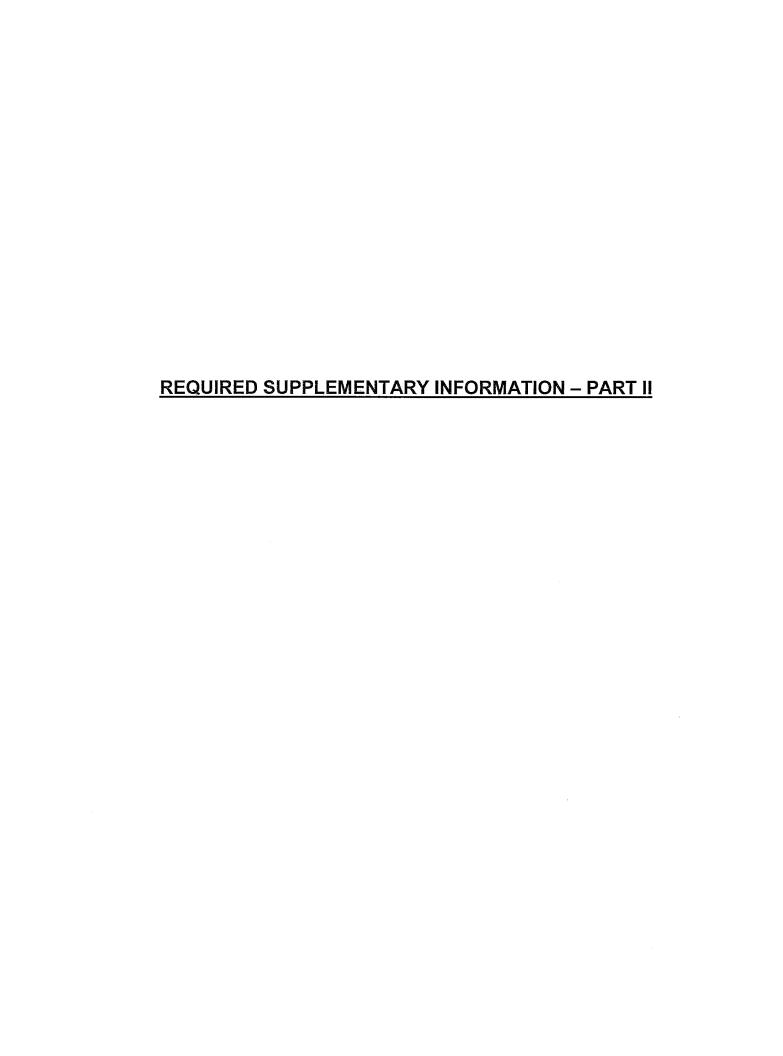

Year Ending June 30	0,	Amount
2021 2022 2023 2024 2025	\$	782 782 782 782 782
Total	\$_	3,908

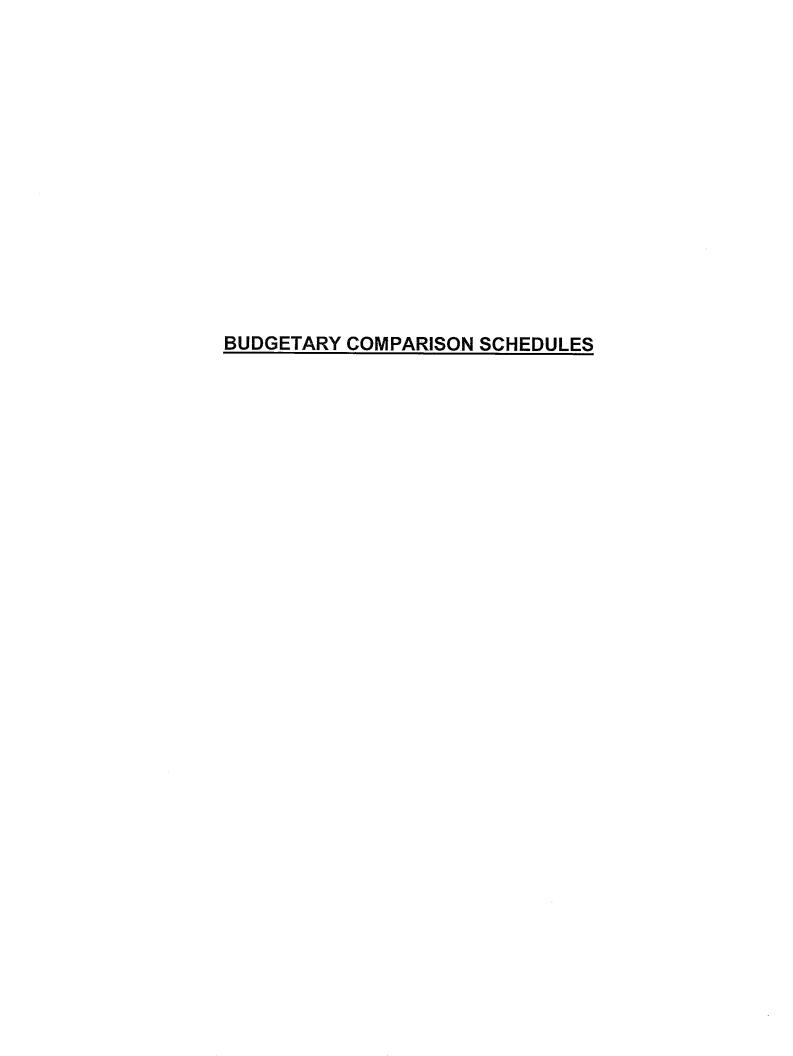

The total operating lease payments made during the year ended June 30, 2020 were \$5,616.

NOTE 21. SUBSEQUENT EVENTS

There were no subsequent events affecting the District between June 30, 2020 and the Audit Report Date.

Total OPEB Liability as a Percentage of Covered-Employee Payroll		440.33%	472.38%	512.30%

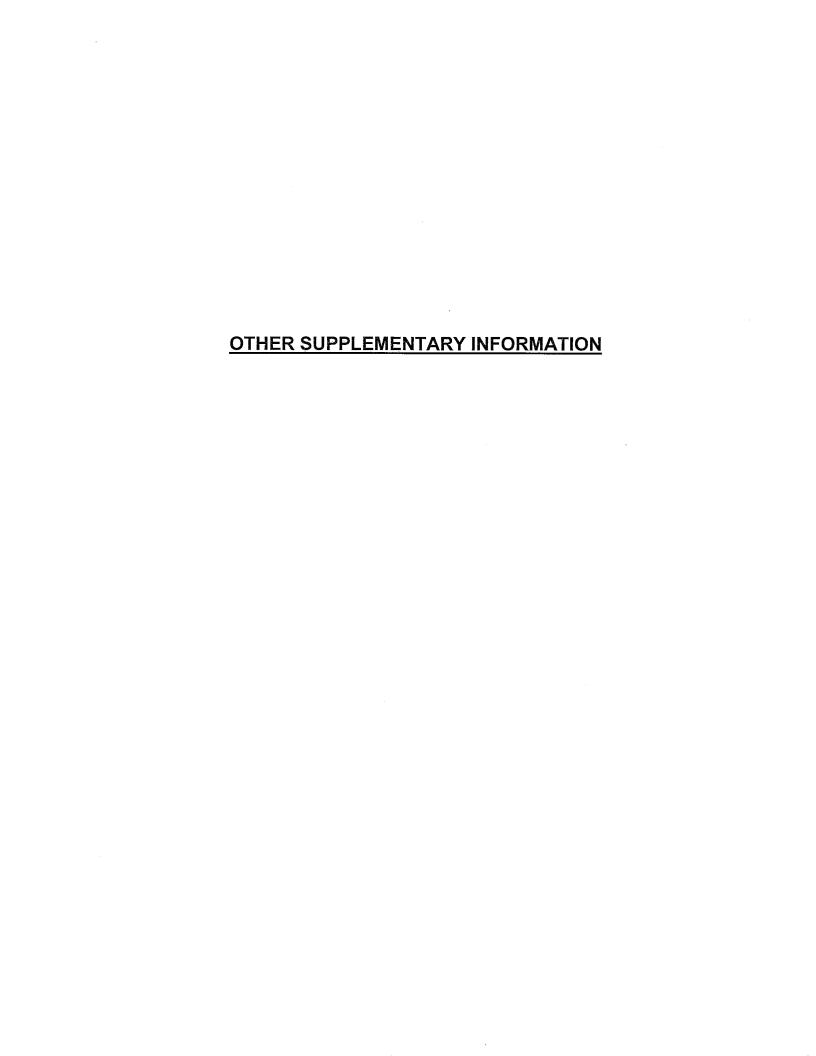

Notes to Schedule:

Changes of Benefit Terms: None

Differences Between Expected and Actual Experiences: The decrease in liability from June 30, 2017 to June 30, 2018 is due to changes in the census, claims and premiums experience. The decrease in liability from June 30, 2018 to June 30, 2019 is due to changes in the census, claims and premiums experience.

Changes in Assumptions: The decrease in the liability from June 30, 2017 to June 30, 2018 is due to the increase in the assumed discount rate from 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018; and a decrease in the assumed health care cost trend and excise tax assumptions. The decrease in the liability from June 30, 2018 to June 30, 2019 is due to the combined effect of the decrease in the assumed discount rate from 3.87% as of June 30, 2018 to 3.50% as of June 30, 2019; and changes in the trend, excise tax, updated decrements, future spouse election, PPO/HMO future retiree elections, salary scale and mortality assumptions.

Note: This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, this presentation will only include information for those years for which information is available.

Debt repaid with property taxes Township of Stow Creek	\$	110,000	100%	\$	110,000
Other debt County of Cumberland - Township's share Cumberland Regional School Debt		97,136,507 5,350,000	1.321% 6.928%		1,283,551 370,627
Subtotal, Overlapping Debt				•	1,764,178
Stow Creek Township School District Direct Debt					-
Total Direct and Overlapping Debt				\$	1,764,178

Sources: Stow Creek Township Finance Officer and Cumberland County Finance Office

Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Stow Creek. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Stow Creek Township School District County of Cumberland, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards. issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Stow Creek Township School District, in the County of Cumberland, State of New Jersey, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board of Education of the Stow Creek Township School District's basic financial statements, and have issued our report thereon dated December 21, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Stow Creek Township Board of Education's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Stow Creek Township Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Stow Creek Township Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during out audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Stow Creek Township Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, the Stow Creek Township Board of Education, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Respectfully submitted,

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members of the Board of Education Stow Creek Township School District County of Cumberland, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Stow Creek Township School District, in the County of Cumberland, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Stow Creek Township School District's major federal and state programs for the fiscal year ended June 30, 2020. The Stow Creek Township Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Stow Creek Township Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and as prescribed by the *Office of School Finance, Department of Education, State of New Jersey, and New Jersey Treasury Circular OMB 15-08*. Those standards, *Uniform Guidance and New Jersey OMB 15-08*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred.

An audit includes examining, on a test basis, evidence about the Stow Creek Township Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Stow Creek Township Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Board of Education of the Stow Creek Township School District, in the County of Cumberland, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Stow Creek Township School District's Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Stow Creek Township Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal or state program and to test and report on internal control over compliance in accordance with Uniform Guidance and New Jersey OMB Treasury 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Stow Creek Township School District Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance considered to be material weaknesses, as defined above or any instance of deficiency in internal control over compliance that we have to report to the Board of Education in a separate report entitled Auditors' Management Report on Administrative Findings - Financial, Compliance and Performance dated December 21, 2020. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and New Jersey Treasury Circular OMB 15-08. Accordingly, this report is not suitable for any other purpose.

This report is intended solely for the information and use of the management, the Stow Creek Township Board of Education, the New Jersey State Department of Education, other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Respectfully submitted.

STOW CREEK TOWNSHIP SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2020

NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Stow Creek Township School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules of expenditures of federal awards and state financial assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200- *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and New Jersey Treasury Circular OMB 15-08. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A.*, 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund, where applicable, also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A.* 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$5,183 for the general fund and (\$23,245) for the special revenue fund. See Note 1 (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:

STOW CREEK TOWNSHIP SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2020 (Continued)

		Federal	_	State	 Total
General Fund Special Revenue Fund Food Service Fund	\$	80,606 13,646	\$	1,096,554 195,952 372	1,096,554 276,558 14,018
Total Financial Assistance	\$_	94,252	\$_	1,292,878	\$ 1,387,130

NOTE 4: RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5: FEDERAL AND STATE LOANS OUTSTANDING

The Stow Creek School District had no federal or state loan balances outstanding at June 30, 2020.

NOTE 6: OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions, if any, represents the amount paid by the state on behalf of the district for the year ended June 30, 2020. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2020.

NOTE 7: MAJOR PROGRAM

Major programs are identified in the Summary of Auditor's Results section of the Schedule of Findings and Questioned Costs.

NOTE 8: SCHOOL-WIDE PROGRAM FUNDS

As the District's Federal Programs are on a targeted student group basis, there are no schoolwide programs in the District.

NOTE 9: ADJUSTMENT

There were six adjustments on Schedule A, Exhibit K-3 in the total amount of \$66,159 regarding prior year receivables. There was one immaterial adjustment on Schedule B, Exhibit K-4 in the amount of \$25 regarding a prior year receivable.
