BOARD OF EDUCATION TUCKERTON BOROUGH SCHOOL DISTRICT MARINE STREET TUCKERTON, NEW JERSEY

January 22, 2021

Honorable President and Members of the Board of Education Tuckerton Borough School District Ocean County, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Tuckerton School District for the fiscal year ending June 30, 2020 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Tuckerton Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. "C.F.R., Part 200", "Audits of State and Local Governments", and the state Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. Reporting Entity and its Services: Tuckerton School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the District are included in this report. The Tuckerton Borough Board of Education constitutes the District's report entity. The District provides a full range of educational services appropriate to grade levels Pre-K through 6. These include regular, as well as special education for special needs children. The District completed the 2019-2020 fiscal year with an enrollment of 326 students. The following details the changes in the student enrollment over the past ten years.

AVERAGE DAILY ENROLLMENT

Fiscal Year	Student Enrollment	Percent Change
2019-2020	326	15.7%
2018-2019	285	1.00%
2017-2018	282	(2.19%)
2016-2017	288	(12.59%)
2015-2016	329	(1.5%)
2014-2015	334	2.09%
2013-2014	327	(1.2%)
2012-2013	331	(1.78%)
2011-2012	337	4.3%
2010-2011	323	5.5%
2009-2010	306	19.5%

- 2. <u>Economic Condition and Outlook</u>: Based upon the school district's Master Plan which was completed by University Associates in May of 1995, and the Long-Range Facilities Plan which was completed during the 2005-2006 school year, Tuckerton Borough is looked upon as one of the more desirable places to live in New Jersey. As a result, the Borough will continue to show some growth potential as a residential area. Local businesses may also prosper with the continued development of the Tuckerton Seaport. This project continues to evolve and should brighten the overall economic outlook of this area.
- 3. Major Initiatives: The Tuckerton Elementary School District continues to develop a comprehensive technology program that has been integrated into the instructional process. The district continues to expand and improve their wired and wireless computer capabilities throughout the building. During the summer of 2006 the computer lab was replaced with new 2.16GHz Intel Core 2 Duo Macintosh iMac computers. All classrooms continue to house at least 3-4 desktop computers and/or a bank of laptop computers for enhanced instruction. Infrastructure upgrades of additional Category 5 runs and improved Cisco switches were installed for the 2007-2008 school year. In addition, a Student Information System with grade book, report card, health, special education, and cafeteria modules and a spam tracker were installed while our content filtering appliance was replaced with a more robust unit. Also, during the summer of 2008 a portion of our access points were upgraded with Cisco 1252G units to enhance network connectivity.

During the 2008-2009 school year, office window computers were upgraded and additional 30 Macintosh Laptop computers were purchased. Two interactive whiteboards with enhanced sound systems were piloted successfully leading to the purchase of 11 more systems. All classrooms 1st through 6th grades house both whiteboards and sound systems. Interactive whiteboards offer teachers additional motivational technology tools including a wireless component that provides instant student feedback. For security purposes, an internal system of cameras was installed during the 2009-2010 school year.

A climate control system was installed over the summer of 2010 which will improve the efficiency of the heating and cooling system of the school. 4 additional white boards and 60 iPads were put into operation during the 2012-2013 school year. Also, the school's communication system was replaced as were all telephones in the building.

Additionally, a 16' movie screen and digital projector were installed in the gym/auditorium for use by teachers and administrators. All students in grades 3-6 have 1:1 Chromebooks for use in school. Additionally, there are 120+ iPads for student use in Preschool -2^{nd} grade.

4. <u>Internal Accounting Controls</u>: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are complied to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgements by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including the portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. <u>Budgetary Controls</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Projectlength budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2020.

6. <u>Accounting System and Reports</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Boards (GASB). The accounting system of the District is

organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

- 7. <u>Cash Management</u>: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 8. <u>Risk Management</u>: The Board carries various forms of insurance, including but not limited to general liability, hazard and theft insurance on property and contents, and fidelity bonds.
- 9. Other Information: Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Robert A. Hulsart and Company, CPA, was selected by the Board. In addition to meeting the requirements of Title 2 U.S. "C.F.R., Part 200" and State Treasury circular letter 15-08 OMB, the auditor's report on the general purpose financial statements and the combined and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.
- 10. Acknowledgements: We would like to express our appreciation to the members of the Tuckerton Borough School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully submitted,

auste Jaugani

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Tuckerton School District County of Ocean Tuckerton, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Tuckerton School District, in the County of Ocean, State of New Jersey, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Tuckerton School District, in the County of Ocean, State of New Jersey, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standard generally accepted in the United States of America. In our opinion, the accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules, and statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 160, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 22, 2021 on our consideration of the Tuckerton's Board of Education internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Tuckerton Board of Education's internal control over financial reporting and compliance.

Respectfully submitted,

REQUIRED SUPPLEMENTARY INFORMATION PART I

BOROUGH OF TUCKERTON

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

UNAUDITED

The discussion and analysis of Tuckerton School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; it should be read in conjunction with the Comprehensive Annual Financial Report's (CAFR) Letter of Transmittal which is found in the Introductory Section, and the School Board's financial statements found in the Financial Section and the notes thereto.

Financial Highlights

Key Financial highlights for the 2019-2020 fiscal year are as follows:

- General revenues accounted for \$6,231,657 in revenue. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$822,032.
- Total net position decreased by \$10,476.
- The School District had \$7,064,165 in expenses; only \$822,032 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$6,231,657 were adequate to provide for these programs.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Tuckerton School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole school district, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Tuckerton School District, the General Fund is the most significant fund, with the Special Revenue Fund and Capital Project's Fund also having significance.

The School Board's auditor has provided assurance in his Independent Auditor's Report, located immediately preceding this Management's Discussion and Analysis, that the Basic Financial Statements are fairly stated. A user of this report should read the Independent Auditor's Report carefully to ascertain the level of assurance being provided for each of the other parts of the Financial Section.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during the 2019-2020 fiscal year?" The Statement of Net Position and the Statement of Activities helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in the activities. This change in net position is important because it tells the reader that, for the school district as a whole, the financial positions of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental activities All of the School District's programs and services are reported here including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activities This service is provided on a charge for goods or services basis to recover
 all the expense of the goods or services provided. The Food Service Enterprise Fund is reported as a
 business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major (all) funds begins on exhibit A-1. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

Governmental Funds

The School District's activities are reported in Governmental Funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. The Governmental Fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental Fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and Governmental Funds is reconciled in the financial statements.

Enterprise Fund

The Enterprise Fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The School District as a Whole

Table 1 provides a summary of the School District's net position for the fiscal years ended 2020 and 2019.

Table 1

Business-Type Activities

Revenues for the District's business-type activities (food service program and aftercare program) were comprised of charges for services and federal and state reimbursements.

Aftercare expenses exceeded revenues by \$2,313.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Curriculum and staff development includes expenses related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District.

Other includes unallocated depreciation and amortization.

School Board Funds

The School Board uses funds to control and manage money for particular purposes. The Fund's basic financial statements allow the School Board to demonstrate its stewardship over and accountability for resources received from the Borough of Tuckerton's taxpayer's and other entities, including the State of New Jersey and the Federal Government. These statements also allow the reader to obtain more insight into the financial workings of the School Board, and assess further the School Board's overall financial health.

As the School Board completed the fiscal year ended June 30, 2020, it reported a combined net position balance of \$(1,924,716). The Reconciliation of the Statement of Revenue Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities presents the reader with a detailed explanation of the differences between the net change in fund balances and changes in net assets.

The School Board's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the School Board revises its budget as it attempts to take into consideration unexpected changes in revenue and expenditures.

Capital Assets

At June 30, 2020, the School Board had approximately \$4,886,487 invested in a broad range of capital assets, including land, buildings, furniture, vehicles, computers, instructional equipment and other equipment. This amount is net of accumulated depreciation to date. Table II below shows the net book value of capital assets at the end of the 2020 fiscal year.

	Governmental <u>Activities</u>	Business Type <u>Act</u> ivities
Table II		
Capital Assets at June 30, 2020		
Land	\$ 43,440	
Buildings	1,327,035	
Machinery and Equipment	222,797	<u>5,483</u>
Total	<u>\$ 1,593,272</u>	<u>5,483</u>

Debt Administration

At June 30, 2020, the School District had \$5,096,875 as outstanding debt. Of this amount \$91,950 is for compensated absences, and the balance \$3,800,000 for bonds for school construction, \$49,855 for a community disaster loan and \$1,155,070 for pension liability.

Economic Factors and Next Year's Budget

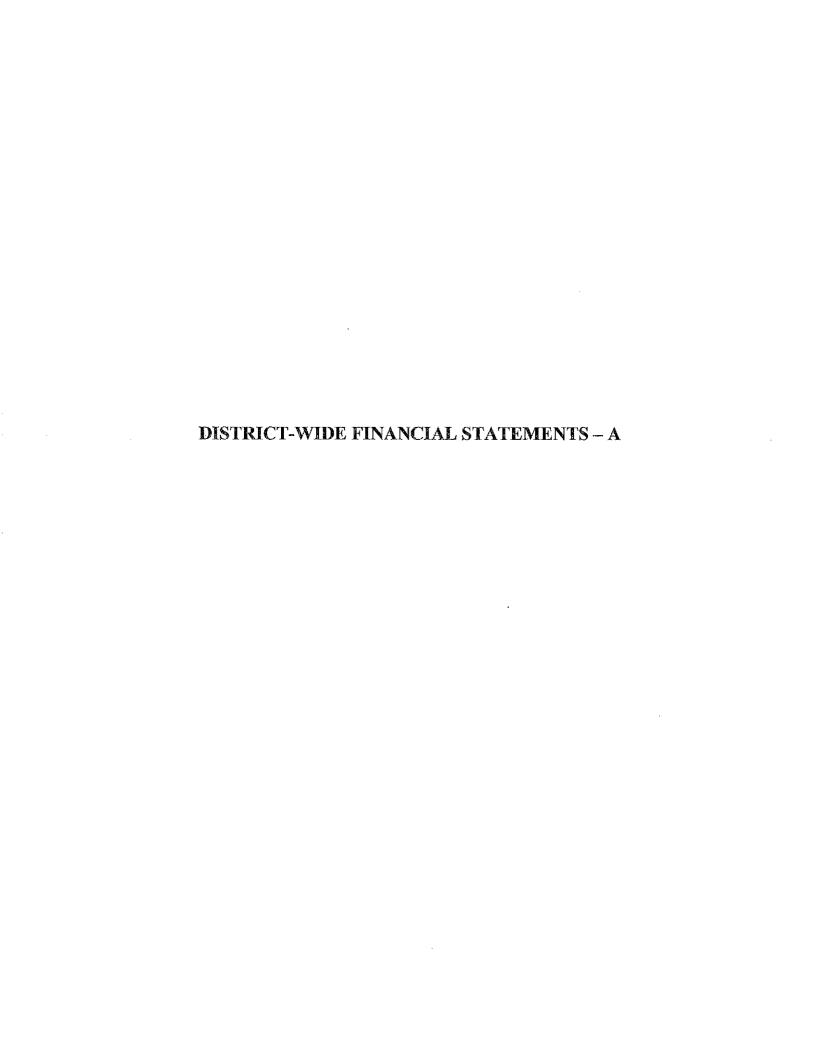

The Borough of Tuckerton is primarily a residential community, with few ratables. The majority of revenues needed to operate the District are derived from homeowners through property tax assessments and collections.

In conclusion, the Tuckerton School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information contact Janet Gangemi, School Business Administrator/Board Secretary at Tuckerton Board of Education, Marine Street, Tuckerton, NJ 08087.

BOARD OF EDUCATION

TUCKERTON SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2020

NOTE 1: Summary of Significant Accounting Policies

The financial statements of the Board of Education (Board) of the Tuckerton School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Tuckerton School District is a Type II district located in the County of Ocean, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the district is to educate students in grades K-6. The Tuckerton School District had an approximate enrollment at June 30, 2020 of 326 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Government Accounting and Financial Reporting Standards</u>, is whether:

- The organization is legally separate (can sue or be sued in their own name)
- The District holds the corporate powers of the organization
- The District appoints a voting majority of the organization's board
- The District is able to impose its will on the organization
- The organization has the potential to impose a financial/benefit/burden on the District
- There is a fiscal dependency by the organization on the District

B. Government-Wide Financial Statements

The School District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

B. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the School District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the School District segregates transaction related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Fiduciary funds are reported by fund type.

C. <u>Measurement Focus, Basis of Accounting and Financial Statement</u> Presentation

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Proprietary and fiduciary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. County tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met. The Unemployment Trust Fund recognizes employer and employee contributions in the period in which contributions are due.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to apply current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for long-term pension and compensated absences, which are reported as expenditures in the year due.

C. <u>Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)</u>

Major revenue sources susceptible to accrual includes Intergovernmental revenues, and the county tax levy. In general, other revenues are recognized when cash is received.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for food sales and for services provided to other governmental entities. Principles operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

D. Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental Fund Types

<u>General Fund</u>: The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund.

<u>Special Revenue Fund</u>: The District accounts for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally restricted to expenditures for specified purposes in the special revenue funds.

<u>Capital Projects Fund</u>: the capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

<u>Debt Service Fund</u>: The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Proprietary Fund Type

<u>Enterprise Fund</u>: To account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the District is that the costs of providing goods or services to the District on a continuing basis be financed or recovered primarily through user charges.

D. <u>Fund Accounting (Continued)</u>:

Fiduciary Fund Types

Agency Funds (Payroll and Student Activities Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations,

<u>Trust and Agency Funds</u>: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

Expendable Trust Fund: An expendable trust fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable trust funds account for assets where both the principal and interest may be spent. Expendable trust funds include Unemployment Compensation Insurance.

E. Basis of Accounting:

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recorded in the accounting period in which they are earned and expenses are recorded at the time liabilities are incurred.

F. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. Budgets are prepared using the modified accrual basis of accounting; the legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2020 were insignificant.

The Public School Education Act of 1975, limits the annual increase of any district's net current expense budget. The Commissioner of Education certifies the allowable amount for each district but may grant a higher level of increase if he determines that the sums so provided would be insufficient to meet the identified goals and needs of the district or that an anticipated enrollment increase requires additional funds.

The Commissioner must also review every proposed local school district budget for the next school year. He examines every item of appropriations for current expenses and budgeted capital outlay to determine their adequacy in relation to the identified needs and goals of the district. If, in his view, they are insufficient, the Commissioner must order remedial action. If necessary, he is authorized to order changes in the local district budget.

Once a budget is approved, it can be amended by transfers or additional appropriation of fund balances by approval of a majority of the members of the Board. Amendments are presented to the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law. Individual transfers were not material in relation to the original appropriations. All uncommitted budget appropriations lapse at year-end.

G. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

H. <u>Short-Term Interfund Receivables/Payables</u>:

Short-Term interfund receivables/payables represents amounts that are owed, other than charges for good or services rendered to/from a particular fund in the District and that are due within one year.

I. <u>Inventories and Prepaid Expenses</u>

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2020.

J. <u>Capital Assets and Depreciation</u>

The District's property, buildings and improvements, equipment, vehicles, furniture and fixtures with useful lives of five years or more are stated at historical or estimated historical cost and are reported in the government-wide financial statements. Proprietary Fund capital assets are reported in its respective fund.

The District contracted with an outside service company to provide a report with a comprehensive detail of capital assets and depreciation. The report included capital assets purchased during the 2019-2020 fiscal year and prior with a historical cost of \$2,000 or more. Accumulated depreciation prior to fiscal year 2020, fiscal year 2020 depreciation expense, total accumulated depreciation and book values were also provided. The costs of normal maintenance and repairs that do not add to the asset value or materially extend the useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts. Estimated useful lives, in years, for depreciable assets are as follows:

Buildings and Improvements	20 - 50
Equipment and Vehicles	5 - 20
Furniture and Fixtures	5 - 20

The District is currently in the process of obtaining and installing software that will maintain proper capital asset and depreciation records.

Capital asset activity for the year ended June 30, 2020 was as follows:

J. Capital Assets and Depreciation (Continued)

Governmental Activities:	Balance <u>July 1, 2019</u>	<u>Adjustments</u>	Additions	Balance <u>June 30, 2020</u>

	<u>\$ 5,662</u>		<u>(179</u>)	<u> 5,483</u>

K. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types is recorded in the general long-term debt account group. The current portion of the compensated absence balance is not considered material to the applicable fund total liabilities, and therefore is not shown separately from the long-term liability balance of compensated absences.

L. <u>Deferred Revenue</u>

Deferred revenue in the special revenue fund represents cash, which has been received but not yet earned. See note 1(e) regarding the special revenue fund.

M. <u>Long-Term Obligations</u>

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

N. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Grants, entitlements, or shared revenues which are restricted for the acquisition or construction of capital assets are also recorded as contributed capital. Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

O. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

P. <u>Tuition Payable</u>

Tuition charges for the fiscal year 2019-2020 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Q. Net Position

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted – Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted – The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed — The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) if employed to previously commit those amounts.

Assigned – The assigned fund balance classification includes amounts that are constrained by the School District's intent to e used for specific purposes, but are neither restricted nor committed. Intent is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position and standard operating procedures, approved by the Board of Education.

Unassigned – The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order; committed, assigned, then unassigned.

NOTE 2: Cash and Cash Equivalents and Investments

Cash and cash equivalents for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

Investments are stated at cost, which approximates market. The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

NOTE 2: Cash and Cash Equivalents and Investments (Continued)

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000.000.

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home
 Loan Bank, Federal National Mortgage Agency or any United
 States Bank of Cooperatives which have a maturity date not greater
 than twelve months from the date of purchase.
- c. Bonds or other obligations of the school district.

All bank deposits and investments as of the balance sheet date are classified as to credit risk by the following two categories described below:

	2020
FDIC	\$ 250,000
GUPDA	1,876,725
	\$.2,216,725

As of June 30, 2020, cash and cash equivalents and investments of the District consisted of the following:

	Cash and Cash
Interest Bearing Checking Accounts	<u>Equivalents</u> \$ 2,059,908
Total	\$ 2,509,90 <u>8</u>

The carrying amount of the Board's cash, cash equivalents and investments at June 30, 2020 was \$2,509,908 and the bank balance was \$2,216,725. Of the bank balance \$250,000 was covered by federal depository insurance and \$1,876,725 was covered by a collateral pool maintained by the banks as required by New Jersey statutes.

NOTE 2: Cash and Cash Equivalents and Investments (Continued)

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a formal policy for custodial credit risk.

The District had no uninsured deposits.

NOTE 3: General Long-Term Debt

During the fiscal year ended June 30, 2020, the following changes occurred in liabilities reported in the general long-term debt account group:

Compensated	Balance <u>July 1, 2019</u>	Additions	<u>Deletions</u>	Balance June 30, 2020	Due Within One Year	Long-Term Portion
Absences Payable	\$ 79,015	12,935		91,950		91,950
Pension Liability	1,457,496	,	(302,426)	1,155,070		1,155,070
Loans Payable	49,855			49,855	9,971	39,884
Bonds Payable	4,075,000		(275,000)	3,800,000	275,000	3,525,000
	<u>\$ 5,661,366</u>	12,935	(<u>577,426</u>)	5,096,875	<u> 284,971</u>	<u>4,811,904</u>

A. Bonds Payable

	Principal	<u>Interest</u>	Total
Year Ending June 30,			
2021	\$ 275,000	123,395	398,395
2022	280,000	113,235	393,235
2023	285,000	102,800	387,800
2024	290,000	92,125	382,125
2025	295,000	81,066	376,066
2025-2029	860,000	311,875	1,171,875
2030-2034	1,035,000	164,313	1,199,313
2035-2037	<u>480,000</u>	<u>16,221</u>	496,221
	<u>\$3,800,000</u>	1,005,030	4,805,030

Bonds issued 10/1/92 for \$2,443,000 at 4.0% thru 4.62% interest, maturing 7/15/24 with a balance of \$700,000 at June 30, 2020.

Bonds issued 2/9/17 for \$3,386,000 at 2.75% thru 3.375% interest maturing 7/15/36 with a balance of \$3,100,000 at June 30, 2020.

NOTE 4: Pension Plans

<u>Description of Plans</u> — All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF) – The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) — The Public Employee's Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

<u>Vesting and Benefit Provisions</u> — The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other that the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by ½ of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the District's normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for TPAF and PERS were reduced.

<u>Contribution Requirements</u> – The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for both cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

Three-Y	l'ear	Trend :	lnformat	ion for	· PERS

6/30/19	74,246	100%	0
6/30/18	68,078	100%	0

Three-Year Trend Information for TPAF (Paid On-Behalf of the District)

	Annual	Percentage	Net
Year	Pension	of APC	Pension
Funding	Cost (APC)	Contributed	Obligation
6/30/20	\$ 619,147	100%	0
6/30/19	529,051	100%	0
6/30/18	445,350	100%	0

During the fiscal year ended June 30, 2020, the State of New Jersey contributed \$619,147 to the TPAF for normal and post-retirement benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$185,850 during the year ended June 30, 2020 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the general-purpose financial statements, and the combining and individual fund and account group statements and schedules as revenue and expenditure in accordance with GASB 24.

Public Employees' Retirement System (PERS)

Plan Description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

The vesting and benefit provisions are set by N.J.S.A. 43:15A, PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation

The schedule of employer allocations and the schedule of pension amounts by employer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PERS or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PERS or the participating employers. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PERS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Allocation Methodology and Reconciliation to Financial Statements

GASB Statement No. 68, Accounting and Financial Reporting for Pension, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The employer allocation percentages presented in the schedule of employer allocations and applied to amounts presented in the schedule of pension amounts by employer based on the ratio of the contributions of an individual employer to the total contributions to PERS during the measurement period July 1, 2018 through June 30, 2019. Employer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of pension amounts by employer may result in immaterial differences. Contributions from employers are recognized when due, based on statutory requirements.

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarially determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer allocations are applied to amounts presented in the schedule of pension amount by employer. The allocation percentages for each group of June 30, 2019 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal year ended June 30, 2019.

A special funding situation exists for certain Local employers of the Public Employees' Retirement System. The State of New Jersey, as a nonemployer, is required to pay the additional costs incurred by Local employers under Chapter 366, P.L. 2001. This legislation established the Prosecutors Part of the PERS which provides enhanced retirement benefits for Prosecutors enrolled in the PERS. The State is liable for the increased pension costs to a County that resulted from the enrollment of Prosecutors in the Prosecutors Part. The June 30, 2019 State special funding situation net pension liability amount of \$125.3 million is the accumulated difference between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The State special funding situation pension expense of \$132.2 million, for the fiscal year ending June 30, 2019, is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2019. The pension expense is deemed to be a State administrative expense due to the special funding situation.

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

For the year ended June 30, 2020, the District recognized pension expense of \$62,677. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Difference Between Expected and Actual Experience	\$ 20,732	5,103
Changes of Assumptions	115,338	400,921
Net Difference Between Projected and Actual Earnings		
on Pension Plan Investments		18,233
Changes in Proportion and Differences Between District		
Contributions and Proportionate Share of Contributions	202,122	196,589
District Contributions Subsequent to the Measurement		
Date	<u>62,677</u>	
Total	<u>\$ 400,869</u>	<u>620,846</u>

\$62,677 reported as deferred outflows of resources related to pensions resulting from school district, project contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2020, the plan measurement date is June 30, 2019) will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
<u>June 30,</u>	
2020	\$ (33,142)
2021	(107,514)
2022	(96,003)
2023	(45,079)
2024	(4,629)
	,
	\$ (286,367)

Additional Information

Collective balances at December 31, 2019 and 2018 are as follows:

	Dec. 31, 2019	Dec. 31, 2018
Collective Deferred Outflows of Resources	\$ 400,869	650,454
Collective Deferred Inflows of Resources	620,840	523,114
Collective Net Pension Liability	1,155,070	1,457,496
District's Proportion	.00637%	.00740%

Components of Net Pension Liability

The components of the collective net pension liability of the participating employers as of June 30, 2019 were as follows:

	2019		
	State	Local	Total
Total Pension Liability	\$ 29,512,766,255	41,491,463,886	71,004,230,141
Plan Fiduciary Net Position	6,500,345,915	23,347,631,751	29,847,977,666
Net Pension Liability	\$ 23,012,420,340	18,143,832,135	41,156,252,475
Plan Fiduciary Net Position as a Percentage of the Total	22.029/	56 279/	42.04%
Pension Liability	22.03%	56.27%	42.04%

The collective total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions:

Inflation Rate: Price Wage	2.75% 3.25%
Salary Increases: Through 2026	2.00% - 6.00% Based on years of service
Thereafter	3.00% – 7.00% Based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Medial Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

		Long-Term
		Expected
	Target	Real Rate
Asset Class	<u>Allocation</u>	of Return
Risk Mitigation Strategies	3.00%	4.67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2,00%	5,37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
US Equity	28.00%	8.26%
Non U.S. Developed Markets Equity	12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%

Discount Rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 70% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

		2019	
		At Current	
	At 1%	Discount	At 1%
	Decrease (5.28%)	Rate (6.28%)	<u>Increase (7.28%)</u>
School District's Proportionate Sl	hare		
Of the Net Pension Liability	<u>\$ 1,459,041</u>	<u>1,155,070</u>	<u>898,931</u>

Teachers Pensions and Annuity Fund (TPAF)

Plan Description

The State of New Jersey, Teacher's Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contribution, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, member's beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation

The Schedule of employers and nonemployer allocations and the schedule of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of TPAF and the State as an employer/nonemployer entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of TPAF or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of TPAF to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Allocation Methodology

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers in TPAF to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense. The employer and nonemployer allocation percentages presented in the schedule of employer and nonemployer allocation and applied to, presented in the schedule of pension amount by employer and nonemployer are based on the ration of the State's actual contributions made as an employer and nonemployer adjusted for unpaid early retirement incentives to total contributions to TPAF during the year ended June 30, 2019. Employer and nonemployer allocation percentages have been rounded for presentation purposes, therefore amounts presented in the schedule of pension amounts by employer and nonemployer may result in immaterial differences.

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. State legislation had modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, State's pension contribution was less than the actuarial determined amount.

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do no contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

Components of Net Pension Liability

The components of the net pension liability of the State as of June 30, 2019 and 2018 are as follows:

Total Pension Liability	\$ 84,215,846,719	2018 86,797,467,286
Plan Fiduciary Net Position	22,696,734,276	22,991,116,840
Net Pension Liability	\$ 61,519,112,443	63,806,350,446
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	26.95%	26.49%

State Proportionate Share of Net Pension Liability Attributable to District

		<u> 2018</u>
District's Liability	<u>\$ 11,115,465</u>	<u>11,402,069</u>
District's Proportion	.01807%	.01787%

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate:

Price 2.75% Wage 3.25%

Salary Increases:

Through 2026 1.55 - 4.45%

Based on years of service

Thereafter 2.75 - 5.65%

Based on years of service

Investment Rate of Return 7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 are summarized in the following table:

	Target	Long-Term Expected Real Rate
Asset Class	Allocation	of Return
Risk Mitigation Strategies	3.00%	4,67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2.00%	5.37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
US Equity	28.00%	8.26%
Non U.S. Developed Markets Equity	12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%

Discount Rate

The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 70% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the State as of June 30, 2019 calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

			2019	
			At Current	
	At 1%	o O	Discount	At 1%
	Decrease (4	1.60%)	Rate (5.60%)	Increase (6.60%)

Of the Net Pension Liability	\$	0	0	0
State of New Jersey's Proportiona	te Share			
Of the District's Net Pension				
Liability	13,10)7 <u>,593</u>	11,115,465	9,462,627
	<u>\$ 13,10</u>)7,5 <u>93</u>	11,115,465	<u>9,462,627</u>

NOTE 5: Post-Retirement Benefits

General Information about the OPEB Plan

Plan description and benefits provided

75.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefit for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other than Pension. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L., 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No.

NOTE 5: Post-Retirement Benefits (Continued)

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 20, 2018, with was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Total Nonemployer OPEB Liability \$41,729,081,045

Inflation rate 2.50%

	TPAF/ABP	PERS	PFRS
Salary Increases: Through 2026	1.55 – 3.05% based on service years	2.00% - 6.00% based on service years	3.25% - 15.25% based on service years
Thereafter	1.55 – 3.05% based on service years	3.00% - 7.00% based on service years	Applied to all future years

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF, PERS and PFRS, respectively.

(a) Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

(b) Discount Rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTE 5: <u>Post-Retirement Benefits (Continued)</u>

Changes in the State of New Jersey's proportionate share of the total Non-Employer OPEB Liability associated with the School District:

Balances at June 30, 2018	Total OPEB Liability \$ 11,032,828
Changes for the Year:	
Service Cost	413,756
Interest	437,012
Difference Between Expected and Actual Experience	(1,269,931)
Changes in Assumptions or Other Inputs	155,931
Benefit Payments	(321,032)
Member Contributions	9,516
Balance at June 30, 2019	<u>\$ 10,458,080</u>

There were no changes in benefit terms between the June 30, 2018 measurement date and the June 30, 2019 measurement date.

Changes of assumptions and other inputs reflect a change in the discount rate from 3.87% percent in 2018 to 3.50% percent in 2019.

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the State for school board retirees, as well as what the State's total OPEB liability for school board would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)
State of New Jersey's Proportionate Share			
Of the Total Non-Employer OPEB Liability	ty		
Associated with the School District	<u>\$ 12,355,125</u>	<u>10,458,080</u>	<u>8,951,171</u>

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the State, as well as what the State's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

		Healthcare Cost Trend	
	1% Decrease	Rates	1% Increase
State of New Jersey's Proportionate Share			
Of the Total Non-Employer OPEB Liabil	ity		
Associated with the School District	<u>\$ 8,616,992</u>	<u>10,458,080</u>	12,895,302

NOTE 5: Post-Retirement Benefits (Continued)

OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.

For the year ended June 30, 2019, the Board of Education recognized OPEB expense of \$405,649 determined by the State as the total OBEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the Tuckerton Board of Education proportionate share of school retirees OPEB is zero; there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows or resources. At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Difference Between Expected and Actual Experience	\$	2,627,726
Changes in Proportion	1,352,663	2,362
Changes of Assumptions or Other Inputs		2,125,628
Total	<u>\$1,352,663</u>	<u>4,755,716</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB will be recognized in OPEB expense as follows:

Year Ended June 30:	
2021	\$ (400,359)
2022	(400,359)
2023	(400,359)
2024	(400,359)
2025	(400,359)
Thereafter	(1,401,258)
	<u>\$ (3,403,053)</u>

NOTE 6: Contingent Liabilities

It is the opinion of the school board officials that there is no litigation threatened or pending that would materially affect the financial position of the school district.

NOTE 7: Equity Balance

At June 30, 2020, the General Fund equity balance was as follows:		
Excess Surplus	\$	169,480
Unassigned Fund Balance		250,000
Capital Reserve		729,660
Reserved for Encumbrances		189,464
Maintenance Reserve		560,550
Designated for Subsequent Years Expenditures Excess Surplus		119,764
Designated for Subsequent Years Expenditures - BOE		290
	\$ 2	2.019,208

Reserved excess surplus represents a calculation under N.J.S.A. 18A:7F-7 which identifies an amount of surplus under the statute which must be restricted for use in the next succeeding budget.

succeeding budget.

NOTE 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current year:

	District	Employee		Ending
Fiscal Year	Contributions	Contributions	<u>Reimbursed</u>	Balance
2017-2018	\$ 35	0	0	19,114
2018-2019	61	. 0	0	19,175
2019-2020	56	0	0	19,231

NOTE 9: <u>INTERFUND RECEIVABLES AND PAYABLES</u>

The following interfund balances existed at June 30, 2020.

	<u>Due To</u>	<u>Due From</u>
Capital Projects Fund	\$	25
Debt Service Fund	25	
	<u>\$ 25</u>	<u>25</u>

NOTE 10: FAIR VALUES OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Tuckerton Board of Education in estimating its fair value disclosures for financial instruments.

Cash and Cash Equivalents: The carrying amounts reported in the combined balance sheet for cash and cash equivalents are the fair values of those assets.

NOTE 11: FUND BALANCE APPROPRIATED

<u>General Fund</u> – Of the \$2,019,208 General Fund fund balance at June 30, 2020, \$189,464 is reserve for encumbrances; \$729,660 is Capital Reserve; \$560,550 is in Maintenance Reserve; \$120,054 is Designated for Subsequent Years Expenditures; \$169 is excess surplus; and \$250,000 is unassigned.

NOTE 12: ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the District's programs and activities.

NOTE 13: <u>DEFICIT FUND BALANCES</u>

The District has a deficit fund balance of \$74,078 in the Special Revenue Fund as of June 30, 2020 as reported in the fund statements (modified accrual basis). P.L. 2003, c.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school year budget. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the school district can not recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties.

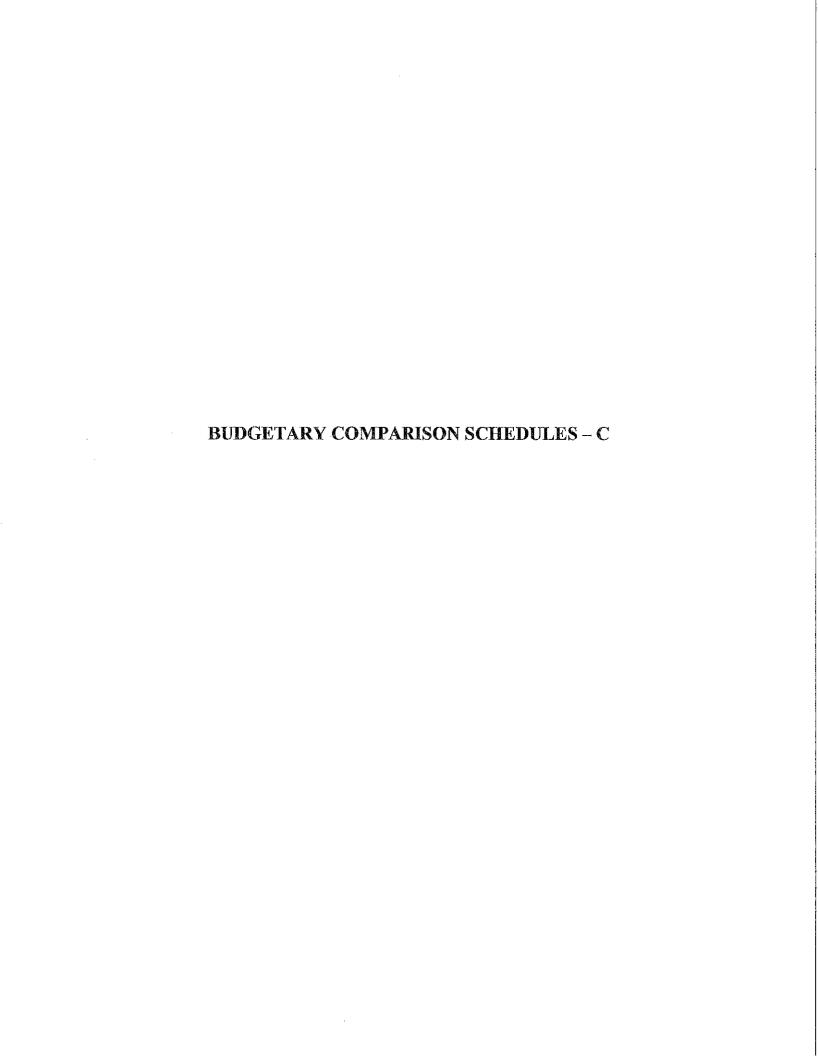

Pursuant to *N.J.S.A.* 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need or corrective action. The District deficit in the GAAP fund statements of \$74,078 is equal to the last state aid payment.

NOTE 14: COVID-19

The outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus, was first detected in China and has since spread to other countries, including the United States, and to each state within the United States, including New Jersey, has been declared a Public Health Emergency of International Concern by the World Health Organization. The outbreak of the disease has affected travel, commerce and financial markets globally and is widely expected to affect economic growth worldwide. The outbreak of COVID-19 across the United States has caused the federal government to declare a national state of emergency. The State has likewise declared a state of emergency. While the potential impact on the State cannot be predicted at this time, the continued spread of the outbreak could have a material adverse effect on the finances of the State and the Board of Education (collectively, the "Affected Entities").

The degree of any such impact to the Affected Entities' respective operations and finances, is extremely difficult to predict due to the dynamic nature of the COVID-19 outbreak, including uncertainties relating to its (i) duration, and (ii) severity, as well as with regard to what actions may be taken by governmental and other health care authorities to contain or mitigate its impact. The continued spread of the outbreak could have a material adverse effect on the Affected Entities and their respective economies.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

K-1

Honorable President and Members of the Board of Education Tuckerton School District County of Ocean Tuckerton, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Tuckerton Board of Education, County of Ocean, State of New Jersey as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Tuckerton Board of Education, County of Ocean, State of New Jersey's basic financial statements, and have issued our report thereon dated January 22, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Tuckerton Board of Education, County of Ocean, State of New Jersey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions of the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tuckerton Board of Education, County of Ocean, State of New Jersey's internal control. Accordingly, we do no express an opinion on the effectiveness of the Tuckerton Board of Education, County of Ocean, State of New Jersey's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Tuckerton Board of Education, County of Ocean, State of New Jersey's financial statements are free from material misstatement, we performed tests of it compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND SCHEDULES OF EXPENDITURE OF STATE FINANCIAL ASSISTANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08

K-2

Honorable President and Members of the Board of Education Tuckerton School District County of Ocean Tuckerton, New Jersey

Report on Compliance for Each Major State Program

We have audited the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement and the New Jersey OMB Circular 15-08 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's major state programs for the year ended June 30, 2020. The Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and prescribed by the Office of School Finance, Department of Education, State of New Jersey; Title 2 U.S. Code of Federal Regulations CFR) Part 160, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards and U.S. Uniform Guidance and New Jersey OMB's Circular 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's compliance.

Opinion on Each Major State Program

In our opinion, the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the U.S. Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board of Education of the Tuckerton School District, County of Ocean, State of New Jersey's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or, significant deficiencies. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the U.S. Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

ROBERT A. HULSART AND COMPANY

Robert A. Hulsart

Licensed Public School Accountant No. 322 Robert A. Hulsart and Company Wall Township, New Jersey

BOARD OF EDUCATION

K-5

TUCKERTON SCHOOL DISTRICT

NOTES TO SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE

JUNE 30, 2020

NOTE 1: GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Tuckerton School District. The Board of Education is defined in Note 1(A) to the Board's general-purpose financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal financial assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedule of financial assistance are presented using the modified accrual basis of accounting with the exception of programs recorded in the food service fund which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1(C) to the Board's general-purpose financial statements.

NOTE 3: RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The general-purpose financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payments in the current budget year, which is mandated pursuant to P.L. 2003, c.97. (A3521). For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

Awards and financial assistance revenues are reported in the Board's general-purpose financial statements on a GAAP basis as presented on the following page:

NOTE 3: Relationship to General Purpose Financial Statements (Continued)

State Assistance	General Fund	Special Revenue <u>Fund</u>	<u>Total</u>
Actual Amounts (Budgetary) "Revenues" from the Schedule of Expenditures of State Financial Assistance	\$ 2,985,350	703,120	3,688,470
Difference – Budget to "GAAP" Grant Accounting Budgetary Basis Differs from GAAP in that Encumbrances are Recognized as Expenditures and the Related Revenue is Recognized			
The Last State Aid Payment Is Recognized as Revenue for Budgetary Purposes, and Differs from GAAP Which does not Recognize This Revenue Until the Subsequent Year When the State Recognizes the Related Expense (GASB 33)	1,837	<u>(70,805)</u>	(68,968)
Expense (GNBE 55)	1,007	<u> (70,000)</u>	(00,200)
Total State Revenue as Reported on the Statement of Revenues, Expenditures and Changes in			
Fund Balances	<u>\$ 2,987,187</u>	<u>632,315</u>	3,619,502

NOTE 3: Relationship to General Purpose Financial Statements (Continued)

	General Fund	Special Revenue <u>Fund</u>	<u>Total</u>
Federal Assistance Actual Amounts (Budgetary) "Revenues" from the Schedule of Expenditures of Federal Awards	\$	162,203	162,203
Difference – Budget to "GAAP" Grant Accounting Budgetary Basis Differs from GAAP in that Encumbrances are Recognized as Expenditures, and the Related Revenue is Recognized		<u> </u>	
Total Federal Revenue as Reported on the Statement of Revenue, Expenditures, and Changes in Fund Balances	\$	<u>162,203</u>	<u>162,203</u>

NOTE 4: RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with these amounts reported in the related federal and state financial reports.

NOTE 5: OTHER

The amount reported as TPAF Pension Contributions represents the amount paid by the State on behalf of the District for the year ended June 30, 2020. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2020.
