INTRODUCTORY SECTION

A K-12 LEARNING COMMUNITY STRIVING FOR A JUST WORLD

November 17, 2020

Honorable Chairperson and Members of the Board of Trustees 713 Washington Street Hoboken, NJ 07030 Commissioner
New Jersey Department of Education
100 Riverview Executive Plaza, CN-500
Trenton, New Jersey 08625-0500

Dear Board Members and Commissioner:

The comprehensive annual financial report of the Hoboken Charter School Local Educational Agency (LEA) for the fiscal year ended June 30, 2020, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Hoboken Charter School Board of Trustees. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the Charter School. All disclosures necessary to enable the reader to gain an understanding of the Charter School's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the Charter School's organizational chart and a list of principal officials. The financial section includes the general-purpose financial statements and schedules, as well as the auditor's report thereon. The Charter School is required to undergo an annual single audit in conformity with the Uniform Guidance and the provisions of New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws, and regulations and findings, and recommendations are included in the single audit section of this report.

1) <u>REPORTING ENTITY AND ITS SERVICES:</u> The Hoboken Charter School LEA is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) in codification section 2100. All funds and account groups of the Charter School are included in this report.

HOBOKEN CHARTER SCHOOL

The Charter School provides a full range of educational services appropriate to grade levels K through 12. That program includes regular education, special education, social, health, and nutrition services that support the total education of the students and their families. The Charter School completed the 2019-2020 fiscal year with an ADE enrollment of 297.1 which is a decrease from 2018-2019's total of 297.6 of (0.5) students. The ADE count has increased from 1988-1989 (121.1) to 2019-2020 (297.1).

2) **ECONOMIC CONDITIONS AND OUTLOOK:** The Hoboken Charter School has three locations in Hoboken. The Charter School has completed its twenty second year of operations. During the 2019-2020 school year, the school served approximately 298 students in grades K-12. K-8 is located at 713 Washington St. The High School is at two new locations: 360 First Street and 124 Grand Street (Multi Center).

Hoboken Charter School is a public school located in an urban city in New Jersey. The Charter School has successfully brought together families from the diverse communities in Hoboken, evident by a significant percentage of the students qualifying for free or reduced lunches. We have the unique challenge of bringing together a diverse group of families who traditionally have had limited contact with one another. As a community, Hoboken is also experiencing many of the pressures that are the consequence of an urban city in the process of change.

Growth

The Hoboken Charter School initially opened during the 1998-1999 school year and served students in grades preK-3 and 9-10. As stated above, the Charter School served students in grades K-12 during the 2019-2020 school year.

3) INTERNAL ACCOUNTING CONTROLS: Management of the Charter School is responsible for establishing and maintaining internal control designed to ensure that the assets of the Charter School are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the Charter School is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal control is also subject to periodic evaluation by the Charter School's management.

As part of the Charter School's single audit described earlier, tests are made to determine adequacy of internal controls, including the portion related to federal and state financial

HOBOKEN CHARTER SCHOOL

LOWER AND MIDDLE SCHOOL 713 WASHINGTON STREET | HOBOKEN, NJ 07030 | 201 963 0222 | 201 963 0880 FAX UPPER SCHOOL 360 1ST STREET | 2ND FLOOR | HOBOKEN, NJ 07030 | 201 963 3280 | 201 963 0695 FAX assistance programs, as well as to determine that the Charter School has complied with applicable laws and regulations.

4) **BUDGETARY CONTROLS:** In addition to internal accounting controls, the Charter School maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved the Board of Trustees. Annual appropriated budgets are adopted for the General Fund and the Special Revenue Fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. There were no open encumbrances at the end of the year.

- 5) ACCOUNTING SYSTEM AND REPORTS: The Charter School's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the Charter School is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.
- 6) FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the Charter School continues to meet its responsibility for sound financial management.
- 7) CASH MANAGEMENT: The investment policy of the Charter School is guided in large part by state statue as detailed in "Notes to the Financial Statements", Note 2. The Charter School has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Government Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 8) **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, hazard and theft insurance on property and contents, directors and officers insurance, and workman's compensation. A Schedule of Insurance coverage is found on Exhibit J-20.
- 9) **INDEPENDENT AUDIT:** State statues require and annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of McIntee Fusaro Del Corral, LLC was selected by the management team and approved by the Board of Trustees. In addition to meeting the requirements set forth in state statues, the audit also was designed to

meet the requirements of the Single Audit Act of 1996 and the Uniform Guidance and New Jersey OMB Circular 15-08. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10) **CHALLENGES:** As an entity in its twenty first year, the Hoboken Charter School has had to face numerous challenges ranging from issues related to the refinement of fiscal accountability systems, the evaluation, redesign and implementation of the overall educational programs, and facilities-related concerns. The School must continue to be fiscally prudent in the face of a changing environment. The change in facilities location has made unifying issues the most immediate challenge. HCS has met the past challenges head on and still ended up with ample fund and cash balances and will continue to do so in the future.

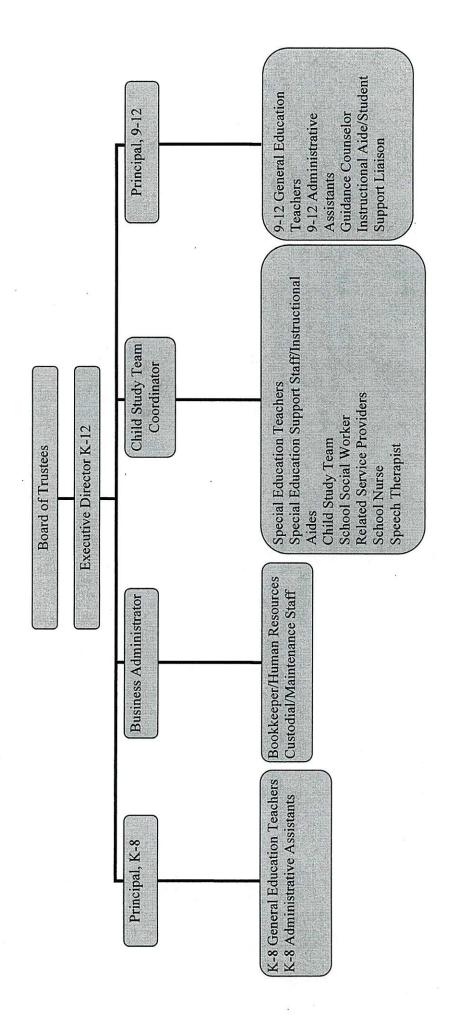

ACKNOWLEDGEMENTS: We would like to express our appreciation to the members of Hoboken Charter School Board of Trustees for their concern in providing fiscal and managerial accountability to the citizens and taxpayers whose funding flows to the Hoboken Charter School LEA and thereby contributing their full support to the development and maintenance of our financial operation. Also, special thanks should go to Darren J. Fusaro, CPA, CFE and Isabel Del Corral, CPA (McIntee Fusaro Del Corral, LLC), Charles De Meola, CPA (De Meola Zawacki Mingione & Co, LLC), and Deirdra Grode (Executive Director) who have helped provide sound fiscal advice and service to the school.

Respectfully submitted,

Steve Literati

Business Administrator/Board Secretary

FINANCIAL SECTION

Independent Auditors' Report

The Honorable President and Members of the Board of Trustees Hoboken Charter School County of Hudson Hoboken, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Hoboken Charter School (the "Charter School") in the County of Hudson, State of New Jersey, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the Unites States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Charter School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hoboken Charter School, in the County of Hudson, State of New Jersey as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, which follows this report, the pension and postemployment benefits schedules in Exhibits L-1 through L-3 and the related notes and the budgetary comparison information in Exhibits C-1 through C-3, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Charter School's basic financial statements. The accompanying supplementary information such as the combining and individual non-major fund financial statements and the schedules of expenditures of federal and state awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Guidance Requirements, Cost Principles, and Audit Requirements for Federal Awards;* and New Jersey Circular 15-08 OMB, *Single Audit Policy for Recipients of Federal Grants, and State Aid,* and other information, such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying other supplementary schedules such as the combining and individual non-major fund financial statements and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying other information such as the introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2020, on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hoboken Charter School's internal control over financial reporting and compliance.

Required Supplementary Information – Part I

Hoboken Charter School Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 (Unaudited)

Our discussion and analysis of Hoboken Charter School's financial performance provides an overview of the School's financial activities for the year ended June 30, 2020, which was the School's 22nd year of operations. Please read it in conjunction with the Independent Auditors' Report and the Charter School's financial statements, including the notes to the financial statements.

Financial Highlights

The Charter School's net position increased by \$503,507 and totaled \$1,770,899 as of June 30, 2020.

Total revenues on a budgetary basis (gross) for the year (both general and program-related) decreased by \$78,841 in fiscal year 2020 compared to fiscal year 2019, totaling \$5,198,916 for the year. General Revenues increased by \$7,932 compared to the prior fiscal year. Program revenues for fiscal year 2020 decreased from the previous year by \$70,909.

Total general expenses on a budgetary basis (gross) for the year decreased by \$364,243 compared to fiscal year 2019. The primary reason was decrease in salaries and materials and supplies.

Using this Annual Financial Report

This annual financial report consists of three parts: management's discussion and analysis (this section), the basis financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Charter School:

The first two statements are *entity-wide financial statements* that provide both short-term and long-term information about the Charter School's overall financial status.

The remaining statements are *fund financial statements* that focus on individual parts of the Charter School, reporting the Charter School's operations in more detail than the Charter School-Wide statements.

The governmental fund statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.

Proprietary funds statements offer short-term and long-term financial information about the activities the Charter School operates like a business, such as food services and enrichment programs.

Fiduciary funds statements provide information about the financial relationships in which the Charter School acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Entity-Wide Statements

The entity-wide statements report information about the Charter School as a whole using the accrual basis of accounting similar to the accounting used by private sector corporations. The statement of net position includes all of the Charter School's assets, deferred inflows and outflows, and liabilities. All of the current year's revenues and expenditures are accounted for in the statement of activities regardless of when cash is received or paid.

The two entity-wide statements report the Charter School's net position and changes in them. The change in net position provides the reader with a tool to assist in determining whether the School's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as student enrollment stability and facility conditions in arriving at a conclusion regarding the overall health of the Charter School.

In the entity-wide financial statements, the Charter School's activities are divided into two categories:

Governmental activities: Most of the Charter School's basic services are included here as regular and special education and administration. Charter School and State Aid fund most of these activities.

Business-Type activities: The Charter School charges fees to help it cover the costs of certain services it provides.

Fund Financial Statements

Our analysis of the Charter School's major funds and fund financial statements provides detailed information about the most significant funds – not the Charter School as a whole. The Charter School's funds use different accounting approaches as further described in the notes to the financial statements. Some funds are required by state law and bond covenants and other funds are established to control and manage money for particular purposes such as the proper use of Federal grant revenue.

The Charter School has three types of funds:

Governmental Funds

Most of the Charter School's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using the modified accrual method of accounting, which measures cash and other financial assets that can be converted readily to cash. The governmental fund statements provide a detailed short-term view of the Charter School's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources available to spend in the near future to finance the School's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Changes in Net Position) and governmental funds is reconciled in the basic financial statements.

Proprietary Funds

Services for which fees are charged are generally reported in Proprietary Funds. Proprietary Funds are reported in the same way as the entity-wide statements. The Charter School's Enterprise Funds are the same as its Business-type activities but provide more detail and additional information, such as cash flows.

Fiduciary Funds

The Charter School is a fiduciary for assets that belong to others such as the Payroll Agency Fund, Unemployment Compensation Fund, and Teachers' Pension and Annuity Fund. The charter School is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The Charter School's fiduciary activities are reported in a separate statement of Fiduciary Net Position. These activities are excluded from the Charter School's other financial statements because the assets cannot be utilized by the Charter School to finance operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the entity-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the fund financial statements.

General Fund Budget Information

The Charter School's budget is prepared on the modified accrual basis of accounting and has been enhanced by the usage of encumbrances. The tracking of expenses is focused at the Purchase Order level instead of the Invoice level. This method alerts management in a timely fashion as to when expenditures occur and how they affect the budget.

The most significant budgeted fund is the General Fund. The Charter School may amend its revenue and expenditure estimates periodically due to changing conditions. There were no significant variations between the original and final budgets. Net budget transfers totaled \$ -0-.

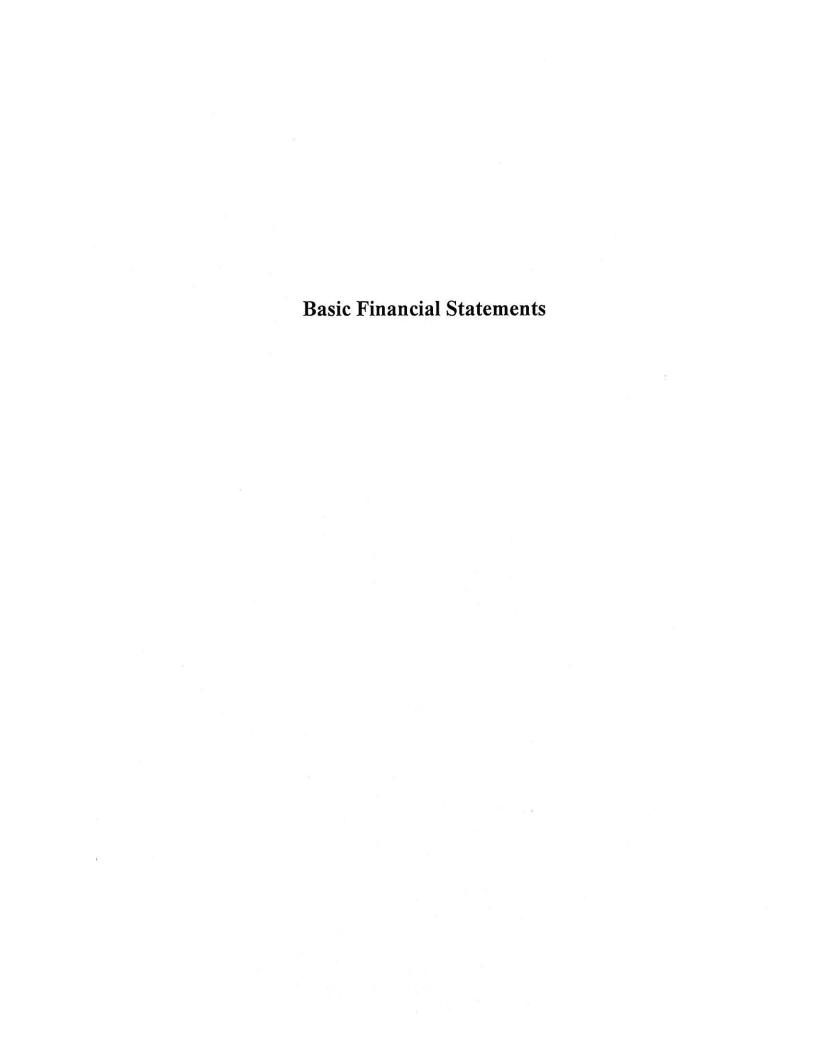

Factors Expected to Have an Effect on Future Operations

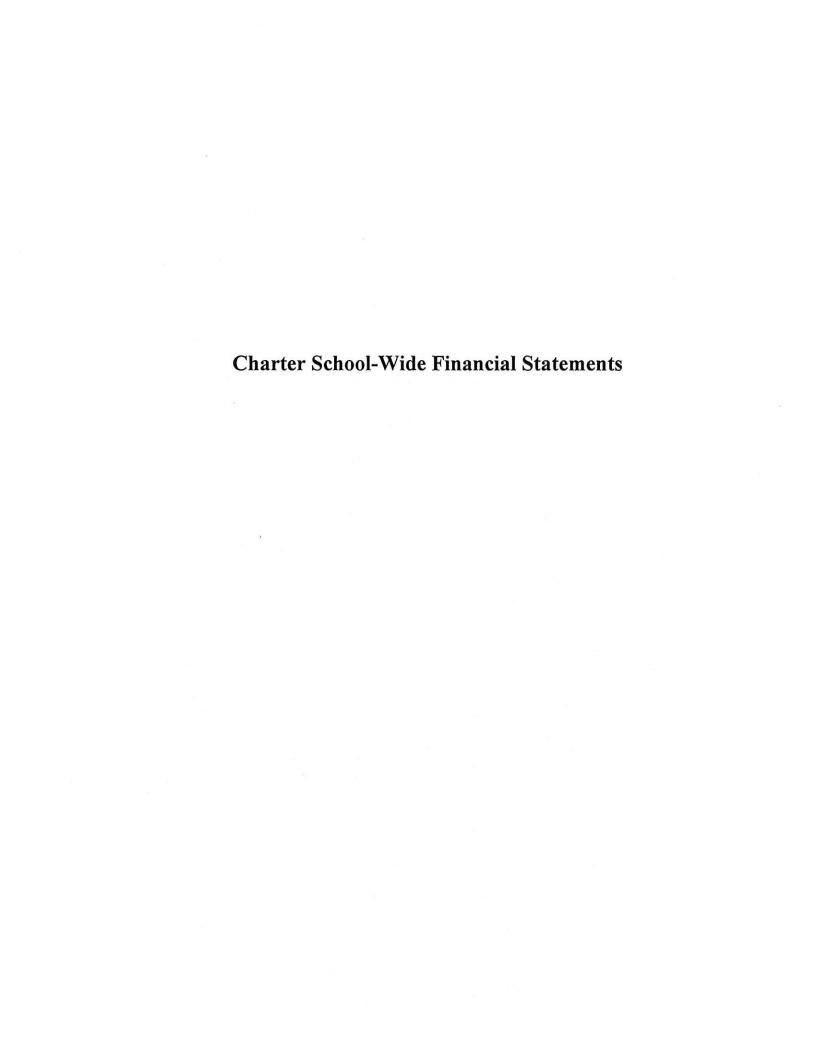

At the time these financial statements were prepared and audited, the Charter School was aware of existing circumstances that could significantly affect its financial health in the future.

The Charter School continues to work with its non-profit foundation, Friends of Hoboken Charter School ("Friends") which holds several fundraisers in support of the Charter School. In addition, Friends has purchased a building next door to the current location of the Charter School's elementary building. The new building will be renovated and the high school is expected to move in for the 2020/21 school year.

Contacting the Charter School's Financial Management

This financial report is designed to provide our fellow citizens, customers, investors and creditors with a general overview of the School's finances and to show the Charter School's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Charter School office at 201-963-0222.

Hoboken Charter School Notes to the Financial Statements June 30, 2020

Note A: Description of the Charter School and Reporting Entity

Hoboken Charter School ("Charter School") is an instrument of the State of New Jersey, established to function as an educational institution. The Board of Trustees (the "Board") consists of appointed officials and are responsible for the fiscal control of the Charter School. The Charter School is a not for profit entity organized under Internal Revenue Code Section 501(c)(3). The Charter School's mission is to provide a rigorous, world-class education to a base of diverse students through a curriculum that ensures active participation in academics, arts and service-learning. The Charter School had an enrollment at June 30, 2020 of 298 students in grades Kindergarten through Grade Twelve.

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and Schools by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significance) should be included in the financial reporting entity. The combined financial statements include all funds of the School over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the School is not includable in any other reporting entity on the basis of such criteria.

Note B: Summary of Significant Accounting Policies

The financial statements of the Charter School have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The GASB is the accepted standard-setting body responsible for establishing governmental accounting and financial reporting principles. The Charter School also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict or contradict GASB pronouncements. The most significant of the School's accounting policies are described below:

1. Basis of Presentation

The Charter School's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information. The statement of net position and the statement of activities display information about the Charter School as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

Government-Wide Financial Statements – The statement of net position presents the financial condition of the governmental and business-type activities of the Charter School at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Charter School's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, are clearly identifiable to a particular function.

Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes and compensated absences. Program revenues include (a) fees and charges paid by the recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Charter School.

Fund Financial Statements – The Charter School segregates transactions related to certain Charter School functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the Charter School's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey Charter Schools to treat each governmental fund in accordance with the opinion noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among Charter School financial reporting models.

The Charter School reports the following governmental funds:

General Fund – The General Fund is the general operating fund of the Charter School and is used to account for and report all expendable financial resources except those required to be accounted for in another fund.

Special Revenue Fund – The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government (other than major capital projects, or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

Capital Projects Fund – Not Applicable

Debt Service Fund - Not Applicable

The Charter School reports the following proprietary funds:

Enterprise Funds (Food Service and Enrichment Program) – The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the costs of providing services to the students on a continuing basis are financed or recovered primarily thorough user charges.

Additionally, the Charter School reports the following fund type:

Fiduciary Funds – The Fiduciary Funds are used to account for assets held by the Charter School on Behalf of others which includes Payroll Agency Fund and Unemployment Compensation Trust Fund.

2. Basis of Accounting and Measurement Focus

Government-Wide, Proprietary, and Fiduciary Fund Financial Statements The financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the enterprise fund and the fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon thereafter to be used to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred.

Charter School Aid is susceptible to accrual since under the New Jersey State Statute, each constituent school district is required to remit to the Charter School the entire balance of aid in the amount reported to each district by the State Department of Education. The Charter School is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

All governmental and business-type activities and enterprise funds of the charter School follow FASB Statements and interpretations issued on or before November 30, 1989, Accounting Principles board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. Charter Schools also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Board has elected not to follow FASB guidance issued subsequent to November 30, 1989.

3. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General and Special Revenue Funds. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)l. All budget amendments/transfers must be made by school board resolution. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end. The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

Exhibit C-3 represents a reconciliation of the General Fund revenues and Special Revenue Fund revenues and expenditures from budgetary basis of accounting as presented in the Budgetary Comparison Schedule – General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in Exhibit B-2.

4. Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as restricted. Committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the Charter School has received advances, are reflected in the balance sheet as deferred revenue at the year end. There were no encumbrances recorded as of June 30, 2020.

5. Cash and Cash Equivalents

Cash and cash equivalents include cash in banks. The Charter School has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Depository Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

6. Interfund Transactions

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

7. Accrued Salaries and Taxes

Certain Charter School employees who provide services to the Charter School over the ten month academic year have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that those earned, but undisbursed amounts be retained in a separate bank account.

8. Compensated Absences

The Charter School accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Employees are granted varying amounts of vacation and sick leave in accordance with the Charter School's policies and employee contracts. The Charter School's policy permits employees to accumulate unused sick leave and carry forward up to 20 days to subsequent years. Upon termination, employees forfeit all accrued benefits. Therefore, no accrual for compensated absences has been recorded.

9. Deferred Revenue

Deferred revenue represents cash that has been received but not yet earned.

10. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the reporting period. Actual results could differ from those estimates.

11. Fund Balance Appropriated

General Fund: of the \$1,698,860 General Fund balance at June 30, 2020, all is unassigned.

12. Allowance for Uncollectible Accounts

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

13. Deficit Net Position

The Charter School had an unrestricted net position of \$382,665 in governmental activities, which is due to unassigned General Fund Balance of \$1,698,860, \$87,095 of changes in pension assumptions, \$70,521 of changes in proportion of pensions, difference between expected and actual experience of \$15,655 offset by difference between projected and actual investment earnings on pension plan investments of \$13,768, difference between expected and actual experience of \$3,853, changes in pension assumptions of \$302,747, and changes in proportion in pensions of \$296,873 and net pension liability of \$872,225. This deficit does not indicate the Charter School is in financial difficulties and is a permitted practice under generally accepted accounting principles.

14. Net Position

Net Position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources.

A deferred outflow of resources is a consumption of net position by the Charter School that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net position by the Charter School that is applicable to a future reporting period. The Charter School had deferred outflows of resources at June 30, 2020 related to pensions.

The Charter School had deferred inflows of resources at June 30, 2020 related to pensions.

15. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and TPAF and additions to/deductions from PERS's and TPAF's net position have been determined on the same basis as they are reported by the PERS and the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

16. Revenue – Operating Revenue and Expenses

Operating revenue are those revenues that are generated directly from the primary activity of the Enterprise Fund. For the Charter School, these revenues are sales for Food Service and fees for the Enrichment Program. Operating expenses are necessary costs incurred to provide the service that is the primary activity of each Enterprise Fund.

17. Tax Abatement

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. The Charter School has not entered into any agreements and does not expect this Statement to impact its financial statements.

Note C: Cash and Cash Equivalents

Cash and cash equivalents include change funds and amounts in deposits.

1. Deposits

New Jersey statutes require that Charter Schools deposit public funds in institutions located in New Jersey which are insured by the Federal Deposit Insurance Corporation (FDIC), the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insure deposits made in public depositories. Charter Schools are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

Note D: Operating Lease

Lease for School Facilities

The Charter School has a lease with Friends of Hoboken Charter School (a related party) for classroom and administrative office space for facilities located at 711-713 Washington Street in Hoboken. The lease is for sixty months commencing on July 1, 2017 and expiring on June 30, 2022. An addendum to the lease was enacted in November 2019, whereby the Charter School agreed to pay additional rent up to \$500,000 for construction modifications to additional premises. This amount was paid to Friends of Hoboken Charter School during the fiscal year and has been recorded as Prepaid Expenses on the Statement of Net Position (A-1). Rent expense for the 2019/2020 school year was \$360,000.

The Charter School has two leases for classroom and administrative office space located at the Hoboken Multiservice Center, Hoboken, NJ and space located at 360 First Street, Hoboken, NJ. Both leases were renewed for one year and expire on June 30, 2021. Rent is payable in equal installments of \$1,684 and \$12,360, respectively. Rent expense, including common area charges, for the 2019/2020 school year was \$204,311.

The School leases other facilities for after school programs on a month to month basis. Rent expense for the 2019/2020 school year was \$680.

Future minimum rental payments are as follows:

2021	\$ 528,522
2023	360,000
	\$ 888,522

Note E: Pension Plans

Substantially all the Board's employees participate in one of the two contributory, defined benefit public employee systems: The Teachers' Pension and Annuity Fund (TPAF) or the Public Employee's Retirement System (PERS) of New Jersey; or the Defined Contribution Retirement Program (DCRP).

Public Employee's Retirement System (PERS)

1. Plan Description

The State of New Jersey Public Employee's Retirement System (PERS) is a cost sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at http://www.state.nj.us/treasury/pensions/financial-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1 2	Members who were enrolled prior to July 1, 2007 Members who were eligible to enroll on or after July 1, 2007 and prior to
3	November 2, 2008 Members who were eligible to enroll on or after November 2, 2008 and prior
4	to May 22, 2010 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62 and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

2. Contributions

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing members.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability is being paid by the employer in level annual payments over a period of 15 years, beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. Charter School contributions to PERS amounted to \$47,086 for fiscal year 2020.

The employee contribution rate was 7.50% effective July 1, 2019.

3. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Charter School reported a liability of \$872,225 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018 which was rolled forward to June 30, 2019. The Charter School's proportion of the net pension liability was based on a projection of the Charter School's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2019, the Charter School's proportion was .0048%, which was a decrease of .0009% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Charter School recognized pension income of \$44,475. At June 30, 2020, the Charter School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Ou	eferred tflows of esources	I	Deferred nflows of desources
Differences between expected and actual experience	\$	15,655	\$	3,853
Changes of assumptions		87,095		302,747
Net difference between projected and actual earnings on pension plan investme	nts	-0-		13,768
Changes in proportion		70,521		296,873
Charter School contribution subsequent to the measurement date		57,175	_	-0-
	<u>\$</u>	230,446	<u>\$</u>	617,241

\$57,175 reported as deferred outflows of resources related to pensions resulting from Charter School contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2020, the Plan measurement date is June 30, 2019), will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ended June 30,	Total
2020	\$ (25,186)
2021	(81,703)
2022	(72,956)
2023	(34,256)
2024	(3,517)
	\$ (217,618)

Additional Information

Collective balances at June 30, 2019 and 2018 are as follows:

	<u>2019</u>	<u>2018</u>
Collective deferred outflows of resources	\$ 3,660,314,627	\$ 6,415,820,851
Collective deferred inflows of resources	11,398,113,779	11,550,501,197
Collective net pension liability	18,143,832,155	19,689,501,539
Charter School's Portion of Net Pension Liability	872,225	1,129,297
Charter School's Portion	.00484%	.00573%

4. Actuarial Assumptions

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions:

Inflation Rate;	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00% - 6.00%
	based on years of service
Thereafter	3.00% - 7.00%
	based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and a 99.7% adjustment for females, and with future improvement from the base year 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

5. Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultations with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	<u>Allocation</u>	Rate of Return
Risk Mitigation Strategies	3.00%	4.67%
Cash Equivalents	5.00%	2.00%
U.S. Treasuries	5.00%	2.68%
Investment Grade Credit	10.00%	4.25%
High Yield	2.00%	5.37%
Private Credit	6.00%	7.92%
Real Assets	2.50%	9.31%
Real Estate	7.50%	8.33%
U.S. Equity	28.00%	8.26%
Non-U. S. Developed Markets Equi-	ty 12.50%	9.00%
Emerging Markets Equity	6.50%	11.37%
Private Equity	12.00%	10.85%

6. Discount Rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the state employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments as applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

7. Sensitivity of the Charter School's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Charter School's proportionate share of the net pension liability as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the Charter School's collective net pension liability would be if it were calculated using a discount rate that is 1-percentage- point higher than the current rate:

	Current		
	1% Decrease (5.28%)	Discount Rate (6.28%)	1% Increase (7.28%)
State's Proportionate Share of			
the Net Pension Liability	\$ 1,109,427	\$ 878,293	\$ 683,530

8. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial statements.

Teachers' Pension and Annuity Fund (TPAF)

1. Plan Description

The State of New Jersey Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey Division of Pensions and Benefits (the Division). For additional information about the TPAF, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at http://www.state.nj.us/treasury/pensions/financial-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier

Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

2. Contributions

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on the actuarily determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less than the actual determined amount.

3. Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers, such as the Charter School. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability

that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

4. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020 the State's proportionate share of the net pension liability associated with the Charter School was \$13,756,982. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018 which was rolled forward to June 30, 2019. The Charter School's net pension liability was based on a projection of the School's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2019, the Charter School's proportion was .0224%, which was an increase of .0005% from its proportion measured as of June 30, 2018.

Charter School's Proportionate Share of the Net Pension Liability	\$	-0-
State's Proportionate Share of the Net Pension Liability		
Associated with the Charter School	\$ 13,	756,982

For the year ended June 30, 2020, the Charter School recognized pension expense of \$811,424 and revenue of \$811,424 for support provided by the State.

The State reported collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) related to pensions from the following sources:

Amortization Period in Years	Deferred Outflows of Resources	Deferred Inflows of Resources
8.3	\$ 145,211,243	\$ -0-
8.3	150,939,884	-0-
8.29	907,352,137	-0-
8.5	-0-	7,323,009

Difference between projected and actual earnings on pension plan investments -2017	5	-0-	452,016,524
Difference between projected and actual earnings on pension plan investments -2018	5	-0-	288,091,115
Difference between projected and actual earnings on pension plan investments -2019	5	-0-	(144,882,771)
		<u>\$ 9,932,767,606</u>	\$ 17,539,845,423

\$-0- reported as deferred outflows of resources related to pensions resulting from Charter School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020 Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2020	\$ (272,405,510)
2021	(704,260,700)
2022	(630,562,767)
2023	(1,216,378,743)
2024	(2,381,316,232)
Thereafter	(2,402,153,865)
	\$ (7,607,077,817)

5. Actuarial Assumptions

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate:

Price 2.75% Wage 3.25%

Salary Increases:

Through 2026 1.55% - 4.55%

based on years of service

Thereafter 2.75% - 5.65%

based on years of service

Investment Rate of Return 7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment or males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

6. Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2019 are summarized in the following table:

	Long-Term
Target	Expected Real
Allocation	Rate of Return
3.00%	4.67%
5.00%	2.00%
5.00%	2.68%
10.00%	4.25%
2.00%	5.37%
6.00%	7.92%
2.50%	9.31%
7.50%	8.33%
28.00%	8.26%
12.50%	9.00%
6.50%	11.37%
12.00%	10.85%
	Allocation 3.00% 5.00% 5.00% 10.00% 2.00% 6.00% 2.50% 7.50% 28.00% 12.50% 6.50%

7. Discount Rate

The discount rate used to measure the total pension liability was 5.60% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 70% of the actuarially determined contributions for the state. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2054. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2054 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

8. Sensitivity of the Charter School's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's Proportionate share of the net pension liability associated with the Charter School as of June 30, 2019 calculated using the discount rate as disclosed above, as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Current				
	1% Decrease (4.60%)	Discount Rate (5.60%)	1% Increase (6.60%)		
State's Proportionate Share of	e 16 261 722	e 12 700 221	\$ 11,739,655		
the Net Pension Liability	\$ 16,261,723	\$ 13,790,221	\$ 11,739,033		

9. Pension Plan Fiduciary Net Position

Detailed Information about the TPAF's fiduciary net position is available in the separately issued TPAF financial statements.

Tax Deferred Annuity Plan

The School implemented a defined contribution tax deferred annuity plan which covers all employees of the School. This plan is funded solely through employee contributions deducted from their pay or from distributions from other qualified plans. The School has no obligation to contribute to this plan.

Defined Contribution Retirement Program (DCRP)

Prudential Financial jointly administers the DCRP investments with NJ division of Pensions and Benefits. If an employee is ineligible to enroll in the PERS or TPAF, the employee may be eligible to enroll in the DCRP. DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, NJ, 08625-0295.

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of 5.50% for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter92, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution. For DCRP, the Charter School recognized pension expense of \$-0- for the fiscal year ended June 30, 2019. Employee contributions to DCRP amounted to \$-0- for the fiscal year ended June 30, 2020.

Note F: General Information about the OPEB Plan

Plan Description and Benefits Provided

The State of New Jersey provides employer-paid coverage to members of the TPAF who retire from board of education or county college with 25 years of service or on disability retirement. Under the provision of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of PERS and Alternate Benefits Program (ABP) who retire from board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their

employees. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents. In Fiscal Year 2019, the State paid PRM benefits for 153,893 State and local retirees.

The State funds post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2019, the State contributed \$1.908 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The State's "pay-as-you-go" contributions have remained consistent with Fiscal Year 2018 amounts. The State has appropriated \$1.612 billion in Fiscal Year 2020 as the State's contribution to fund pay-as-you-go PRM costs.

In accordance with provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2019 total State OPEB liability to provide these benefits is \$76.0 billion, a decrease of \$14.5 billion or 16 percent from \$90.5 billion liability recorded in Fiscal Year 2018.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Total OPEB Liability

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in the NJ State https://www.nj.gov//treasury/omb/cafr.shtmlhml

Actuarial assumptions and other imputes. The total OPEB liability in the June 30, 2019 actuarial valuation reported by the State in the State's most recently issued CAFR was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Inflation 2.50%

Salary Increase 2.00% - 6.00% through 2026 and

3.00% - 7.00% thereafter

Discount Rate 3.87%

Healthcare Cost Trend Rates:

Medicare PPO 5.8% decreasing to 5% after 8 years HMO 5.8% decreasing to 5% after 8 years

Self-Insured PPO and HMO 4.5%

Prescription Drug Benefits 8.0% decreasing to 5% after 7 years

Medicare Advantage 4.50%

Retirees' Share of Benefits

Related Costs Projected health insurance premiums for

Retirees based on the retiree's annual Retirement benefit and level of coverage

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Actuarial assumptions used in the July 1, 2018 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Changes in the total OPEB Liability Reported by the State of New Jersey

Total OPEB Liability

Balance at June 30, 2018	\$ 3,186,856
Changes for the year:	
Service Cost	395,714
Interest	136,689
Differences Between Expected and Actual Experiences	(240,469)
Changes in Assumptions or Other Inputs	51,109
Contributions from Members	3,119
Benefit Payments	(105,223)
Net Changes	240,939
Balance at June 30, 2019	\$ 3,427,795

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the State for school board retirees, as well as what the State's total OPEB liability for school board would be if it were calculated using a discount rate that is 1-percentage-point lower of 1-percentage-point higher than the current discount rate.

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)	
Total OPEB Liability (School Retirees)	\$ 3,968,857	\$ 3,427,795	\$ 2,990,290	

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the State, as well as what the State's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Healthcare Cost <u>Trend Rates</u>	1% Increase
Total OPEB Liability (School Retirees)	\$ 2,882,741	\$ 3,427,795	\$ 4,126,990

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the Charter School recognized OPEB expense of \$447,947 determined by the State as the total OPEB liability for benefit provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in Paragraph 4 of GASB No. 75 and in which there is a special funding situation.

In accordance with GASB No. 75, the Charter School's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources. At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience - 2018 2019	\$ -0- -0-	\$ 2,071,704,933 4,697,268,753
		6,768,973,686
Changes of Assumptions - 2017 - 2018 - 2018	-0- -0- -0-	2,274,586,802 2,438,018,786 1,074,624,235
	0-	5,787,229,823
Total	\$ -0-	\$ 12,556,203,509

Amounts reported as deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB will be recognized in OPEB expense as follows:

Year Ended June 30:

2020	\$ 1,826,528,580
2021	1,826,528,580
2022	1,826,528,580
2023	1,826,528,580
2024	1,826,528,580
Thereafter	3,423,560,609
	\$ 12,556,203,509

Note G: Social Security Tax Reimbursement

In accordance with N.J.S.A. 18A:66-66 of the State of New Jersey reimbursed the Charter School \$179,079 during the year ended June 30, 2020 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been included in the basic financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure.

Note H: Risk Management

The Charter School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance

The Charter School maintains commercial insurance coverage for property, liability and student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance

The Charter School has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the Charter School is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Charter School is billed quarterly for amounts due to the State. The following table is a summary of the Charter School's contribution, employee contributions, reimbursements to the State for benefits paid and the ending balance of the Charter School's expendable trust fund for the current and previous two years:

Fiscal Year	Charter School Contributions	Employee Contributions	Amount Reimbursed	Ending Balance
2017-2018	24,816	13,414	-0-	1,048
2018-2019	25,671	12,077	-0-	5,238
2019-2020	26,051	15,952	-0-	5,240

Note I: Related Party

The Friends of Hoboken Charter School, Inc. ("The Friends") is a tax-exempt organization that was organized to support the Charter School in endeavors that are not funded by the local school districts and federal and state grants.

Note J: Economic Dependency

The Charter School receives a substantial amount of its support from state and local governments. A significant reduction in the level of support, if this were to occur, may have an effect on the School's programs and activities.

Note K: Commitments and Contingencies

Grant Programs – The Charter School participates in federally assisted grant programs. The programs are subject to program compliance audits by grantors or their representatives. The Charter School is potentially liable for expenditures which may be disallowed pursuant to terms of these grant agreements. Management is not aware of any material items of noncompliance which would result in disallowance of program expenditures.

Litigation – The Charter School is periodically involved in lawsuits and estimates that any potential claims against it resulting from such litigation and not covered by insurance would not materially adversely affect the financial position of the Charter School.

Note L: Explanation of Certain Differences Between Governmental Fund Statements and Charter School-Wide Statements

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and Charter School-Wide statements, certain financial transaction are treated differently. The basic financial statements contain full reconciliation of these items.

Note M: Loan Payable - Paycheck Protection Program

On June 10, 2020, the Charter School was granted a loan from Bank of America in the aggregate amount of \$529,439, pursuant to the Paycheck Protection Program ("PPP") under Division A, Title I of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), which was enacted March 27, 2020. The CARES Act provides for loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of qualifying businesses. The loan and accrued interest are forgivable after 24 weeks as long as the Charter School uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced if the borrower terminates employees or reduces salaries during the 24-week period.

The unforgiven portion of the PPP loan is payable over five years at an interest rate of 1% with a deferral of payments for the first six months. The Charter School intends to use the proceeds for purposes consistent with the PPP. While the Charter School currently believes that its use of loan proceeds will meet the conditions for forgiveness of the loan, there may be actions taken where the Charter School could be ineligible for forgiveness of the loan in whole or in part.

Note O: Evaluation of Subsequent Events

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which are likely to negatively impact operating results. The outbreak of the virus in the United States has caused business disruptions through mandated and voluntary closings of non-essential businesses and school districts. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. The related financial impact and duration cannot be reasonably estimated at this time.

The Charter School has evaluated subsequent events through November 17, 2020, the date that financial statements are available for issuance. Based on this evaluation, the Charter School has determined that no subsequent events have occurred that require adjustment to or disclosure in the basic financial statements.

Notes to Schedule:

Changes of Benefit Terms - None

Changes in Assumptions - None

The School Implemented GASB 75 in 6/30/18

This schedule is presented to illustrate the rquirement information for ten years. However, until a full ten year trend is complied, the School should present information for those years for which information is available.

I	Notes to t	the Requi	red Supple	ementar	y Inforn	nation – Pa	rt III

Hoboken Charter School Notes to Required Supplementary Information For the Year Ended June 30, 2020

Public Employees Retirement System (PERS)

Change in Benefit Terms:

None

Change in Assumptions:

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (3.87%) to the current measurement date (3.50%), resulting in a change in the discount rate from 5.66% as of June 30, 2018 to 6.28% as of June 30, 2019.

The long-term expected rate of return on pension plan investments remained at 7.00%.

The inflation rate increased from 2.25% and June 30, 2018 to 2.75% at June 30, 2019.

Mortality rates were based on the Pub-2010 General Below – Median Income Employee mortality tables with adjustments for males and females, and improvements from the base year of 2010 based on a generational basis.

Teachers Pension and Annuity Fund (TPAF)

Change in Benefit Terms:

None

Changes of Assumptions:

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (3.87%) to the current measurement date (3.50%), resulting in a change in the discount rate from 4.86% as of June 30, 2018 to 5.60% as of June 30, 2019.

Mortality rates were based on the Pub-2010 Teachers Above – Median Income Employee mortality table with adjustments for males and females, and with future improvements from the base year of 2010 on a generational basis.

STATISTICAL SECTION (Unaudited)

Hoboken Charter School Introduction to the Statistical Section	J series
Contents	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the district's financial performance and well-being have changed over time.	67 - 70
Revenue Capacity These schedules contain information the help the reader assess the district's most significant local revenue source, the property tax.	N/A
Debt Capacity These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.	N/A
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.	71 - 72
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.	73 - 74

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports (CAFR) for the relevant year. The school implemented GASB Statement 34 in the fiscal year ending June 30, 2004; schedules presenting school-wide information include information beginning in that year.

SINGLE AUDIT SECTION

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Independent Auditors' Report

The Honorable President and Members of the Board of Trustees Hoboken Charter School County of Hudson Hoboken, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey (the "Department"), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hoboken Charter School (the "Charter School"), in the County of Hudson, State of New Jersey, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report thereon dated November 17, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Charter School's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major State Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and New Jersey Circular 15-08 OMB

Independent Auditors' Report

The Honorable President and Members of the Board of Trustees Hoboken Charter School County of Hudson Hoboken, New Jersey

Report on Compliance for Each Major State Program

We have audited the Hoboken Charter School's (the "Charter School's") compliance with the types of compliance requirements described in the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Charter School's major state programs for the year ended June 30, 2020. The Charter School's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Charter School's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey Circular 15-08 OMB *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Those standards, the Uniform Guidance and New Jersey Circular 15-08 OMB require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Charter School's compliance.

Opinion on Each Major State Program

In our opinion, the Charter School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey Circular 15-08 OMB. Accordingly, this report is not suitable for any other purpose.

Hoboken Charter School Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance For the Year Ended June 30, 2020

Note 1: General

The accompanying schedules of expenditures of federal awards and state financial assistance include the federal and state award activity of the Board of Trustees, Hoboken Charter School. The Charter School is defined in Note 1 to the basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

Note 2: Basis of Accounting

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Charter School's basic financial statements. The information in these schedules are presented in accordance with the requirements of 2 CFR 200 – *Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. Expenditures of federal awards and state financial assistance are recognized following the cost principles of the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3: Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile revenue from the budgetary basis to the GAAP basis is \$-0- for the general fund and the special revenue fund. Revenue from Federal awards and State financial assistance is reported on the Charter School's basic financial statements on a GAAP basis as presented below:

	Federal	State	Total
General Fund	\$ -0-	\$ 5,643,939	\$ 5,643,939
Food Service Fund	9,780	281	10,061
Special Revenue Fund	161,348		161,348
Total Awards and Financial Assistance	<u>\$ 171,128</u>	\$ 5,644,220	<u>\$ 5,815,348</u>

Note 4: Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with amounts reported in the related federal and state financial reports.

Note 5: Other

The amount reported as TPAF Pension Contributions and TPAF Pension Contributions represents the amount paid by the state on behalf of the Charter School for the year ended June 30, 2020. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2020.

Note 6: On-Behalf Programs Not Subject to the State Single Audit

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contribution payments are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of state financial assistance reported in the Charter School's basic financial statements and the amount subject to State single audit and major program determination.
