Payroll Account and Position Control Roster

The net salaries of all employees of the Board were deposited in the Payroll Account. Employees' payroll deductions and employer's share of fringe benefits were deposited in the Payroll Agency Account.

All payrolls were approved by the Superintendent and were certified by the President of the Board and the Board Secretary/Business Administrator.

Reporting of employee compensation for income tax related purposes did comply with federal and state regulations regarding the compensation which is required to be reported.

The Position Control Roster was reviewed and compared to payroll records, employee benefit records and charges made to the general ledger to ensure proper and consistent financial reporting and that employee benefits are only offered to current employees.

Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made as of June 30 for goods not yet received or services yet received or services not yet rendered and it was determined that no blanket purchase orders were included in the balance of the reserves for encumbrances. Also, unpaid purchase orders included in the balance of accounts payable were reviewed for propriety and to determine that goods were received and services were rendered as of June 30.

Classification of Expenditures - General and Administrative

The coding of expenditures was tested for proper classification in accordance with *N.J.A.C. 6A:23A-16.2(f)* as part of our test of transactions of randomly selected expenditure items. We also reviewed the coding of all expenditures included in our compliance and single audit testing procedures. In addition to randomly selecting a test sample, our sample selection specifically targeted administrative coding classifications to determine overall reliability and compliance with *N.J.A.C. 6A:23A-8.3*. No errors were noted. As a result of the procedures performed, a transaction error rate of 0.00% was noted and no additional procedures were deemed necessary to test the propriety of expenditure classification.

Contracts and Agreements Requiring Advertisement for Bids

N.J.S.A. 18A:18A-2 contains definitions for terms used throughout N.J.S.A. 18A:18A-1 et seq. It includes as subsection (p) the term ‘competitive contracting’, which is defined as “the method described in N.J.S.A. 18A:18A-4.1 through 18A:18A-4.5 and in rules promulgated by DCA at N.J.A.C. 5:34-4 of contracting for specialized goods and services in which formal proposals are solicited from vendors; formal proposals are evaluated by the purchasing agent or counsel or school business administrator; and the board of education awards a contract to a vendor or vendors from among the formal proposals received.” Also, subsection (aa) defines the term ‘concession’ to exclude vending machines.

N.J.S.A. 18A:18A-3(a) sets forth the bid threshold and requires award by board resolution. There is a higher threshold when there is a “Qualified Purchasing Agent” (QPA) in the district as defined at N.J.A.C. 5:34-1.1 and certified upon approval of an application submitted to DCA. Pursuant to N.J.S.A. 18A:18A-3(b), the bid threshold may be adjusted by the Governor, in consultation with the Department of Treasury, every five years.

N.J.S.A. 18A:18A-4.4 provides boards of education the authority to pass a resolution authorizing the use of competitive contracting. “In order to initiate competitive contracting, the board of education shall pass a resolution authorizing the use of competitive contracting each time specialized goods or services enumerated in sections 45 of L. 1999, c.440 are desired to be contracted.”

Effective July 1, 2015 and thereafter, the bid thresholds in accordance with N.J.S.A. 18A:18A-2 and 18A:18A-3(a) are \$40,000 (with a Qualified Purchasing Agency) and \$29,000 (without a Qualified Purchasing Agent), respectively. The law regulating bidding for public school student transportation contracts under N.J.S.A. 18A:39-3 is currently \$19,000.

The board of education has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Solicitor's opinion should be sought before a commitment is made.

The results of our examination indicated that no individual payments, contracts, or agreements were made “for the performance of any work or the furnishing or hiring of any materials or supplies,” in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of *N.J.S.A.* 18A:18A-4, amended.

Resolutions were adopted authorizing the awarding of contract or agreements for "Professional Services" per *N.J.S.A.* 18A:18A-5.

COVID-19 Emergency

In accordance with the Governor's Declaration of Emergency pertaining to the COVID-19 virus, all Public, Charter, Non-Public schools were ordered to close effective as of March 18, 2020 for an undetermined period to limit the spread of the virus. As a result, School Food Authorities (SFA) were required to institute alternative procedures to provide meals to Free and Reduced Price eligible students during the period of school closures.

Therefore, SFAs were authorized to solicit and award emergency noncompetitive procurements and contracts with Food Service Management Companies in accordance with 2 CFR 200.320 and N.J.S.A. 18A:18A-7. The SFAs were also authorized to submit contract modifications to their existing Cost Reimbursable or Fixed Price contracts as necessary to ensure the feeding of Free and Reduced Price meal eligible students.

SFAs were notified of the requirement to maintain and report separate meal count records and financial records of all applicable costs incurred in providing meals to all Free and Reduced Price meal eligible students during the emergency.

The school food service program was not selected as a major federal and/or state program. However, the program expenditures exceeded \$100,000 in federal and/or state support. Accordingly, we inquired of school management, or appropriate school food service personnel, as to whether the SFA's expenditures of school food service revenues were limited to allowable direct and indirect costs. No exceptions were noted.

The financial transactions and statistical records of the school food services were maintained in satisfactory condition. The financial accounts, meal count records and eligibility applications were reviewed on a test-check basis.

Cash receipts and bank records were reviewed for timely deposit.

The District utilizes a food service management company (FSMC) and is depositing and expending program monies in accordance with N.J.S.A. 18A:17-34, and 19-1 through 19-4.1. Provisions of the FSMC cost reimbursable or fixed price contract/addendum were reviewed and audited. The District entered into a fixed price menu contract with the FSMC from September 1, 2019 to March 13, 2020. From March 14, 2020 to June 30, 2020 the District changed back to a cost plus a fixed fee contract. The FSMC contract includes an operating results provision which guarantees that the food service program will return a profit of at least \$10,000. The operating results provision has been met.

Expenditures were separately recorded as food, labor and other costs. Vendor invoices were reviewed and costs verified. Inventory records on food and supply items were currently maintained and properly applied in determining the cost of food and supplies used.

School Food Service, (continued)

The cash disbursements records reflected expenditures for program related goods and services. The appropriate revenue and expenditure records were maintained in order to substantiate the non-profit status of the school food service. Net cash resources did exceed three months average expenditures.

Time sheets were reviewed and labor costs verified. Payroll records were maintained on all School Food Services employees authorized by the board of education. No exceptions were noted.

The District is looking to purchase equipment to improve the food service program.

The number of meals claimed for reimbursement was compared to sales and meal count records. As part of the claims review process the Edit Check Worksheet was completed. Reimbursement claims were submitted/certified in a timely manner. No exceptions were noted.

Applications for free and reduced price meals were reviewed for completeness and accuracy. The number of free and reduced price meals claimed as served was compared to the number of valid applications and/or to the list of directly certified students on file, times the number of operating days, on a school by school basis. The free and reduced price meal and free milk policy was reviewed for uniform administration throughout the school system. Sites approved to participate in provisions I and II were examined for compliance with all counting and claiming requirements. The required verification procedures for free and reduced price applications were completed and available for review.

U.S.D.A. Food Distribution Program commodities were received and a single inventory was maintained on a first-in, first-out basis. No exceptions were noted.

The School District Food Service Management Company maintains the detailed revenue and expenditure information necessary in order to execute the USDA mandated Non-Program Food Revenue Tool at least annually.

The Statement of Revenues, Expenses and Changes in Net Assets (CAFR Schedule B-5) does not separate program and non-program revenue and program and non-program cost of goods sold. We also inquired of management about the emergency COVID-19 procedures/practices that the SFA instituted to provide meals to eligible students, maintenance of all applicable production records; meal counts; noncompetitive procurements; modification of existing contracts and applicable financial records to document the specific costs applicable to the emergency operations.

Exhibits reflecting Child Nutrition Program operations are included in the section entitled Enterprise Funds, Section G, of the CAFR.

Cash disbursements had proper signatures and supporting documentation.

Application for State School Aid

Our audit procedures included a test of information reported in the October 15, 2019 Application for State School Aid (A.S.S.A.) for on-roll, private schools for the handicapped, low-income and bilingual. We also performed a review of the district procedures related to its completion. The information on the A.S.S.A. was compared to the district workpapers and the information that was included on the workpapers was verified with the following exception.

Finding 2020-01: Three (3) students were incorrectly listed as reduced low income on the A.S.S.A. application when in fact their October 8, 2019 application had them as denied.

Recommendation: That school registers be updated for free and reduced lunch applications on a timely manner to reflect new eligibility determinations.

Management Response: The District will update the realtime system upon receipt of the new eligibility determinations despite the 30 opening day carryover provision. The new determination will supersede the carryover eligibility.

The results of our procedures are presented in the Schedule of Audited Enrollments.

The District maintained workpapers on the prescribed state forms or their equivalent.

The District written procedures appear to be adequate for the recording of student enrollment data.

Pupil Transportation

Our procedures also included a review of transportation related contracts and purchases. Based on our review, the district complied with proper bidding procedures and award of contracts. No exceptions were noted in our review of transportation related purchases of goods and services.

Facilities and Capital Assets

The general fixed assets records were updated for the additions and disposal of general fixed assets made during the year.

The general fixed asset records were updated for the additions and disposals of general fixed assets made during the year.

Facilities and Capital Assets, (continued)

Our procedures included a review of the SDA grant agreements, if any, for consistency with recording SDA revenue, transfer of local funds from the general fund, and awarding of contracts for eligible facilities construction.

Testing for Lead of All Drinking Water in Educational Facilities

The School District did submit the annual Statement of Assurance to the Department of Education, pursuant to N.J.A.C. 6A:26-12.4(g).

Follow-up on Prior Years' Findings

In accordance with government auditing standards, our procedures included a review of all prior year recommendations. Corrective action had been taken on all prior year findings.
