County of Hunterdon, New Jersey

Dear President and Members:

The Annual Comprehensive Financial Report of the Flemington-Raritan Regional School District for the fiscal year ending June 30, 2021 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Flemington-Raritan Regional Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the district. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Annual Comprehensive Financial Report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Management's Discussion and Analysis, the basic financial statements and required supplemental information, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey OMB Circular 15-08 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES:

The Flemington-Raritan Regional School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by National Council on Governmental Accounting (NCGA) Statement No. 3. The Flemington-Raritan Regional Board of Education and all its schools constitute the District's reporting entity.

The Flemington-Raritan Regional School District serves Flemington Borough and Raritan Township children providing a full range of educational services appropriate to grades PK through 8. The Flemington-Raritan School District has six schools that serve grades pre-kindergarten through eighth grade. Children attend one of four elementary schools for grades PK-4: Barley Sheaf Elementary School, Copper Hill Elementary School, Francis A. Desmares Elementary School, or Robert Hunter Elementary School. Reading-Fleming Intermediate School educates children in grades 5-6 while J.P. Case Middle School educates children in grades 7-8. These include regular as well as special education for handicapped children.¹ The community served by the district is ethnically, culturally, and linguistically diverse.

Our schools, though individualized to meet changing student needs, are part of a whole system of education. Flemington-Raritan Regional School District partners with our community to provide the highest quality education for students and continued professional development for staff. Flemington-Raritan Regional School District is a district with a common, clear mission and a strategic plan with specific goals and objectives. It is a district where public education is working for all children.

¹ Demographic Study for the Flemington-Raritan Regional School District, February, 2020. Prepared by Richard S. Grip.

Our parents hold high expectations for their children's personal and educational success. Parent and community involvement support and enhance classroom and district programs. We are proud to be a district that supports parental and community involvement in education.

The Flemington-Raritan Regional School District has an excellent reputation for maintaining high standards of instruction. The instructional program is based upon a comprehensive PK-8 curriculum supported by ongoing professional development opportunities for staff, high-quality instructional materials to engage students in learning, and support staff for additional support for students.

Instructionally the district provides school-based services designed to meet the needs of all students, including those requiring extended learning, special education, or English as a second language.

The following table presents the actual historical pupil enrollment, as of October 15, for the school years 2011-2012 through 2021-2022.

Fiscal Year	School Year Enrollment a/o October 15 Student Enrollment	Percent Change
2011-12	3,541	-2.1%
2012-13	3,505	-1.0%
2013-14	3,387	-3.4%
2014-15	3,344	-1.3%
2015-16	3,150	-5.8%
2016-17	3,077	-2.3%
2017-18	3,055	-0.7%
2018-19	3,087	+1.0%
2019-20	3,074	-0.4%
2020-21	2,969	-3.5%
2021-22	3016.5	+1.6%

The District's historical enrollment from 2011-2012 through 2020-21, a ten-year period, represents a steady decline. However, the 2021-2022 enrollment has increased by nearly 50 students to 3,016.5. An increase of 1.6%.

Enrollment Projections PK-8 enrollments were computed for a five-year period by the District's hired demographer. At the elementary level (grades PK-4), enrollments are projected to increase through 2022-23. Enrollment is projected to be 1,669 in 2024-25, which would be a gain of 28 students from the 2019-20 enrollment of 1,641. In the adjusted projections, enrollment is projected to be 1,746 in 2024-25, which would be a gain of 105 students from the 2019-20 enrollment. The largest enrollment gains are projected at Francis A. Desmares (+74) and Robert Hunter (+50). At RFIS (grades 5-6), enrollments are projected to remain relatively stable for the next two years in the baseline projections before increasing in the last three years of the projection period.

Flemington-Raritan Regional Schools has 20% free/reduced lunch 15.48% total special education and 15.22% Special Education without ESL students and 17.57% English Language Learners. Flemington-Raritan Regional School District has 370.3 staff members and operates on a \$64.4 million dollar budget.

2) ECONOMIC CONDITION AND OUTLOOK:

The Flemington Borough section of the Flemington-Raritan Regional School District continues to see housing development in the community. Because of limited open space, the Borough is not expected to grow significantly and the tax base is expected to remain relatively level. In Flemington, there is the potential for 381 multi-family units in three separate developments, all of which would be in the Desmares attendance area. Of the proposed new housing, the largest development, Courthouse Square, would involve the redevelopment of an area bordered by Main Street, Spring Street, Bloomfield Avenue, and Chorister Place, and is situated within the Union Hotel Redevelopment Area. The project would consist of a hotel, a mix of commercial and retail space, and 222 apartment units, of which 14 units will be set aside to meet affordable housing requirements. In Raritan, there is the potential for 640 new housing units, the majority of which are multi-family units. Four developments would be in the Desmares attendance area while two developments would be in the Barley Sheaf attendance area. The largest proposed development, The Enclave, will consist of 200 apartment units with primarily one- and two-bedrooms. We anticipate 8-14 students. Other proposed developments include Raritan Town Square, which will consist of 140 apartment units in which we

anticipate 18-22 students. The Pavilion at Raritan is also planned and will consist of 139 apartment units. We anticipate 8-14 students. Willows South will consist of 100 affordable rental apartment units with the expectation of 48-52 students. Hunterdon Creekside has 50 affordable apartments with four buildings on two streets, which brought 6 students. The smallest development, which is located at 307 Old York Road, will consist of 11 detached single-family homes. An estimate was made of the number of public school children that could potentially come from the proposed housing developments in Flemington and Raritan. In total, 325 public school children in grades K-8 are projected.

The District is monitoring the development of low-income housing. The District secured the services of a demographer who used the cohort-survival ration method, approved by the New Jersey Department of Education, to obtain statistical forecasting of enrollment, housing developments, and projections by elementary school, detailed housing analysis, race & poverty analysis, and housing turnover analysis. The analysis is assisting the Superintendent's Equity Ad Hoc Committee with data analysis for redistricting to occur spring of 2022.

Redistricting goals are as follows:

1. Eliminate the overcrowding at Francis A. Desmares Elementary School;
2. Fully utilize the capacity of Copper Hill Elementary School;
3. Soften the impact by phasing in redistricting;
4. Support families and students through the transition;
5. Maintain program consistency, enrollment balance, and funding equity in staffing among schools;
6. Attain minority representation of students within each school, including racial and ethnic balance that approximates the district's overall minority racial and ethnic representation.²

The Flemington-Raritan Regional School District serves Flemington Borough and Raritan Township children providing a full range of educational services appropriate to grades PK through 8. Located in Hunterdon County, Flemington Borough contains a land area of 1.08 square miles. In the 2020 Census, Flemington had 4,523 residents, which is 4,419.8 persons per square mile.

3) **MAJOR INITIATIVES:**

Financial Planning:

The Board of Education's policies relating to financial matters, reinforced by solid internal controls, have continued to lead the district to success in its central target: providing an excellent educational experience to every student, every day, at every opportunity. External evidence of the result of its practices was seen through the passing of the 2019 November Referendum. The district received a bond rating of AA from Standard & Poor's rating scale. The District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality.

Facility Planning:

Flemington-Raritan Regional School District has completed referendum projects on all six district buildings as a result of the passing of the 2019 November Referendum. With the imposition by the State of New Jersey of its so-called "2% general fund tax levy cap," the district avoids large swings in programs. Capital projects on long life cycles, such as facility roofs, must be planned for the long-term. The district successfully passed the November 2019 referendum to support HVAC, Security and Safety upgrades for district-wide improvements for all six buildings in Flemington-Raritan Regional School District. The maintenance improvements were no longer possible within the annual school budget. Projects are focused on safety and security initiated in the spring of 2020. The majority of all projects are completed with small punch list items being completed in the 2021-2022 school year.

Educational Program:

The Flemington-Raritan Regional School District serves the municipalities of Flemington and Raritan. In fulfilling its mission, the district has been successful in providing school facilities and an outstanding education for our student population. The taxpayers of Flemington Borough and Raritan Township realize a remarkable return on their investment. Students graduate from eighth grade to attend top high schools from the region. Many Flemington-Raritan Regional School District students continue their education after high school at top colleges in the nation.

Students in the Flemington-Raritan Regional School District have extraordinary opportunities to develop knowledge and skills in world languages, science, language arts, history, and mathematics. The district's vocal and instrumental music, fine arts, and theater programs publicly demonstrate exceptional results. The Flemington-Raritan Regional School District provides a broad array of co-curricular and athletic programs.

The core academic program, aligned with the New Jersey Student Learning Standards, consists of English language arts, mathematics, science, social studies, and world language. The English language arts program is integrated in its approach to early reading skill development, literature and writing.

The mathematics program integrates hands-on, discovery-based learning, problem solving, mathematical modeling, and exploration, with skill development, thereby making mathematical concepts easier to learn and remember. The science program is based upon national and local standards and is designed to promote inquiry and critical thinking through the study of naturally occurring phenomena.

The hands-on, minds on format engages students in problem-solving activities that foster scientific inquiry and understanding. Social studies deals with ancient civilizations, United States history, and world cultures to develop critical thinking about how historical events shape modern perceptions and civilizations. In the area of world language, students have a choice of learning communication and culture in Spanish or French. The comprehensive program promotes language fluency.

The Board of Education remains committed to Professional Development, Curriculum Development and Instructional Program/Technology as outlined below:

Professional Development

Instructional Programs/Technology

Title I federal funds were used to support the continued employment of a Bilingual Counselor shared between Robert Hunter and Francis A. Desmares schools during the 2020-2021 SY. The District also hired a consultant to work with our Robert Hunter teachers to support their implementation of our Balanced Literacy curriculum.

Other on-going District programs were maintained and/or expanded during the 2020-2021 school year. These programs included the following:

- The District is committed to maintaining reasonable class sizes at all grade levels.
- Intervention programs, such as Reading Recovery, Math Support, Reading Support, Special Education, ESL, Speech, OT/PT, etc., continued and were expanded as necessary to meet increasing demands.
- Gifted programs, including grades 3-8 Stretch, 3-6 Gifted Math, 7-8 Leveled Math, and 7-8 School-wide G&T Passages program were continued. For the second year, the District provided a high school level Geometry class for our most capable math students in grade 8.
- Our Chromebook 1:1 Program was expanded to include all students predominantly funded by NJ's Digital Divide Grant. Federal funds were also used to provide hotspots for economically disadvantaged students to support virtual and concurrent learning.
- Our District upgraded the available classroom technology to facilitate concurrent learning utilizing ESSER II federal funds. Specifically, classrooms were equipped with a sound bar, two microphones, an external webcam, and a second monitor to support the teachers' efforts at providing the highest quality virtual instruction possible.
- The District doubled the Internet capacity of our network and simultaneously created redundancy to improve our capacity and reliability. This expansion also included an upgrade to our WAN.
- The District also provided counseling services to assist students in growing socially and emotionally into productive learning community members. Small and large group counseling was provided on a variety of age-appropriate topics. In addition, counselors worked to assist students through transitions between grades, particularly as students prepared to enter high school.

4) INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse; and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally-accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The Concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open Encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2021.

6) ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7) CASH MANAGEMENT:

The investment policy of the District is guided in large part by the state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act. Based on the opinion of the Attorney General for the State of New Jersey, the district also invests in the MBIA-Cooperative Liquid Assets Securities System (CLASS) and the New Jersey Asset & Rebate Management public investment programs.

8) RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. A chart detailing the district insurance coverage and applicable limits is included in the statistical section.

9) OTHER INFORMATION:

Independent Audit

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Board's Finance Committee selected the accounting firm of Suplee, Clooney & Company to conduct the annual audit.

In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act as amended and the related Uniform Guidance and State Treasury Circular Letter 15-08. The auditor's report on the basic financial statements, combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

INDEPENDENT AUDITOR REPORT

Honorable President and Members
of the Board of Education
Flemington-Raritan Regional School District
County of Hunterdon
Flemington, New Jersey 08822

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Flemington-Raritan Regional School District, County of Hunterdon, New Jersey (the "District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and State of New Jersey *OMB Circular 15-08* "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

SUPLEE, CLOONEY & COMPANY

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the District as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information in Exhibit C-1 through C-3, the schedules related to accounting and reporting for pensions in Exhibit L-1 through L-4 and the schedules related to accounting and reporting for postretirement benefits other than pensions (OPEB) in Exhibit M-1 and M-2 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

SUPLEE, CLOONEY & COMPANY

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, data and schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by the Uniform Guidance, New Jersey's OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information, data and schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by the Uniform Guidance, New Jersey's OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. In our opinion, the combining and individual fund financial statements, and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information, such as the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 7, 2022 on our consideration of the Flemington-Raritan Regional School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Flemington-Raritan Regional School District's internal control over financial reporting and compliance.

Overview of the Financial Statements

This Annual Comprehensive Financial Report ("ACFR") consists of three parts: Management's Discussion and Analysis (this section), The Basic Financial Statements, and Required Supplementary Information. The Basic Financial Statements include two kinds of statements that present different views of the District, District-wide Financial Statements and Fund Financial Statements.

- District-wide Financial Statements provide both short-term and long-term information about the District's overall financial status.
- Major Fund Financial Statements report the District's operations in more detail than the District-wide statements on individual parts of the District, the Governmental Funds, and Proprietary Funds.
- Governmental Funds Statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- Proprietary Funds Statements offer short and long-term financial information about the activities the District operates like a business, which include food services.

The notes to financial statements are also included, which are an integral part of the financial statements. The information in the notes provides detailed data on the District's financial operations.

Required supplementary information further explains and supports the financial statements with a comparison of the District's budget for the year.

District-wide Financial Statements

The District-wide Financial Statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or disbursed.

The District-wide Financial Statements report the District's net position and how it has changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether its financial position has improved or diminished. The causes of this change may be a result of many factors, some financial and some not. Non-financial factors include the District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the District-wide Financial Statements, the District's activities are divided into two categories, governmental and business-type activities.

- Governmental activities - All of the District's programs and services are reported here including, but not limited to regular and special education instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities. Property taxes and state formula aid finance most of these activities.
- Business-type activities - These services are provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The District charges fees to help it cover the costs of certain services it provided. The food service account is reported as business activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on major funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (i.e., long-term debt) or to show that it is properly using certain restricted revenues (i.e., entitlement grants).

Fund Financial Statements (Continued)

The District maintains three financial funds:

- **Governmental Funds:** The District's activities reported in governmental funds focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting that measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the government-wide Statement of Net Position and Statement of Activities) and governmental funds statements is reconciled in the financial statements.

- **Proprietary Funds:** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide financial statements. The District's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flow.

Administrative and business expenses account for the costs of the Office of the Superintendent of Schools, the Business Office, and the Principal's Offices in all six school buildings. Maintenance and Operations account for the costs of keeping the school buildings and grounds safe, clean and in good operating condition, and includes all the utility costs related to the school facilities. Other costs include interest on long-term debt, unallocated depreciation expense and the costs of the business-type activities of the proprietary funds. It is important to note that depreciation expense on capital assets is included in expenses for the year under the GASB entity-wide reporting model; expenses therefore include \$2,617,556.54 for depreciation.

General Fund Budgeting Highlights

The District's budget is prepared according to New Jersey Statutes and is based on accounting for certain transactions on a basis of modified accrual and encumbrance accounting.

Over the course of the year, revisions were made by the District to the annual operating budget. Revisions in the budget were made to prevent over expenditures in specific line item accounts. The District also appropriated an additional \$182,000.00 of surplus during the year to cover excess special education costs.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Total net change in fund balances - governmental funds (from B-2)		(\$15,468,027.94)
<p>Amounts reported for governmental activities in the statement of activities (A-2) are different because:</p> <p>Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period</p>		
Depreciation expense		(2,597,537.37)
Capital outlays	19,052,975.76	
Capital outlays not capitalized	<u>(50,735.00)</u>	
		19,002,240.76
<p>Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net positions and is not reported in the statement of activities.</p>		
Payment of bonds payable		3,698,000.00
Payment of capital lease payable		321,537.46
<p>Proceeds from debt issues are a financing source in governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net positions.</p>		
Bond proceeds		
Deferred amortization on issuance of refunding bonds		61,926.00
<p>In the statement of activities, interest on long-term debt is accrued, regardless of when due. In governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation.</p>		
		206,394.37
<p>District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.</p>		
District pension contributions	467,056.00	
Less: Pension expense	<u>(333,694.00)</u>	
		133,362.00

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Flemington-Raritan Regional School District (the District) have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Reporting Entity

The Flemington-Raritan Regional School District is a Type II District located in Hunterdon County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "*Determining Whether Certain Organizations are Component Units*" (GASB 39) as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and that meet *all* of the following criteria should be discretely presented as component units. These criteria are:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization.
3. The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The operations of the District include four elementary schools, an intermediate school (Grades 5-6) and a middle school (Grades 7-8). There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation

The District's basic financial statements consist of District-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

District-Wide Statements: The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the overall Districts. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activity of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Net Position presents the financial condition of the governmental and business-type activity of the District at fiscal year end. The Statement of Activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as generally revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: The District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds. Separate statements are presented for each fund category – governmental and proprietary. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE as the oversight entity believes that the presentation of all funds as major is important for the public interest and to promote consistency among District financial reporting models.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental Fund Types

General Fund - The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by Board resolution; in certain instances, approval by the County Superintendent of Schools may also be required.

Special Revenue Fund - The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, funds appropriated from the General Fund, and from aid provided by the State to offset the cost of approved capital projects.

Debt Service Fund - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Proprietary Fund Types

Enterprise Fund - The enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Basis of Accounting – Measurement Focus

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Districtwide and Proprietary Fund Financial Statements: The Districtwide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures. Ad Val Orem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transactions can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office. In accordance with P.L. 2011, c. 202, which became effective January 17, 2012, the District elected to move the School Board election to the date of the November general election thereby eliminating the vote on the annual base budget unless required by the mandated State budget CAP. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(f)1. Expenditures may not legally exceed budgeted appropriations at the line item level. All budget amendments and transfers must be approved by School Board resolution. Budget amendments during the year ended June 30, 2021 totaled \$182,000 representing an additional appropriation of fund balance.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles (GAAP) with the exception of the legally mandated revenue recognition of deferred State Aid payments for budgetary purposes only and the accounting treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Interfunds

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

Inventories and Prepaid Expenses

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses, which benefit future period other than those recorded in the enterprise fund, are recorded as an expenditure in the year of purchase.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

The District has an established formal system of accounting for its capital assets. Capital Assets used for governmental purposes, which include land, buildings and improvements and furniture and equipment, are only reported in the district-wide financial statements. The District generally defines capital assets as assets with an initial cost of \$2,000.00 or more and an estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office & Computer Equipment	5-10
Instructional Equipment	10
Grounds Equipment	15

Compensated Absences

The District accounts for compensated absences (e.g., unused sick days) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave and vacation days that are expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the district-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds in the fund financial statements, a liability is reported only for to the extent of the amount actually due at year end as a result of employee resignations/retirements. Compensated absences are a reconciling item between the fund level and district-wide presentations.

Unearned Revenue

Unearned revenue in the special revenue and capital projects funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is an allowable practice under generally accepted accounting principles.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long term debt is recognized as a liability on the fund financial statements when due.

Net Position

GASB 63 provides guidance for reporting net position in the statement of financial position and related disclosures. Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance Restrictions

Under GASB 54, in the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation. The District reports the Capital Reserve, Maintenance Reserve, Unemployment Comensation, Student Activities and Excess Surplus as Restricted Fund Balance.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education. The District reports Capital Projects Fund encumbrance balances as committed fund balance.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator. The District reports Year End Encumbrances as Assigned Fund Balance.

Unassigned – is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the District, these revenues are sales in the Enterprise Funds. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting and Financial Reporting for Pensions

In the District-Wide Financial Statements for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's proportionate share of the New Jersey Public Employees Retirement System ("PERS") and the Teachers' Pension and Annuity Fund ("TPAF") and the additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they were reported by PERS and TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In the Governmental Fund Financial Statements, the year end net pension liability is not required to be reflected. Pension related revenues and expenditures are reflected based on amounts that are normally expected to be liquidated with available financial resources for required pension contributions. Expenditures for PERS are recognized based upon billings made by the State of New Jersey due April 1st of each fiscal year. TPAF contributions are paid on the District's behalf by the State of New Jersey. The governmental fund financial statements reflect both a revenue and expenses for this pension contribution.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has two items that qualify for reporting in this category, deferred amounts from a loss on refunding debt and deferred amounts related to pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the District has two items that qualify for reporting in this category, deferred amounts from a gain on refunding debt and deferred amounts related to pensions.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recently Adopted Accounting Pronouncements

Beginning with the year ended June 30, 2021, the District has implemented GASB Statement 84, *Fiduciary Activities*. The objective of this new Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. As a result of the implementation of this Statement, the New Jersey Department of Education has made the following determinations as to the reporting of certain funds which, in prior years, have been reported as Fiduciary Activities:

<u>Activity</u>	Prior to implementation of <u>GASB 84</u>	After Implementation of <u>GASB 84</u>
Student Activity Funds	Fiduciary Fund	Special Revenue Fund
Scholarship Funds*	Fiduciary Fund	Special Revenue Fund
Payroll Agency Funds	Fiduciary Fund	General Fund
State Unemployment Compensation Fund	Fiduciary Fund	General Fund

* in some cases where control of the scholarship award is not control in any way by the District these funds will still be reported in the Fiduciary Fund

See Note 20 for information of the restatement of balance resulting in the implementation of this new standard.

The District considers petty cash, change funds, cash in banks and short-term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at cost, which approximates market.

Deposits

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. All collateral must be deposited with the Federal Reserve Bank or a Banking Institution that is a member of the Federal Reserve System, and has capital funds of not less than \$25,000,000.00. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit.

As of June 30, 2021, cash and cash equivalents of the District consisted of the following:

<u>Fund Type</u>	<u>Bank Balance</u>	<u>Reconciling Items Reductions</u>	<u>Reconciled Balance</u>
Governmental	\$29,258,512.71	\$1,787,752.22	\$27,470,760.49

	<u>\$29,403,470.18</u>	<u>\$1,787,752.22</u>	<u>\$27,615,717.96</u>

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The District does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2021, based upon the coverage provided by FDIC and NJ GUDPA, no amount of the bank balance was exposed to custodial credit risk. Of the cash on balance in the bank \$250,000.00 was covered by Federal Depository Insurance and \$29,153,470.18 was covered by NJ GUDPA.

Significant Legislation

Pension Plan Design Changes

Effective June 28, 2011, P.L. 2011, c. 78, new members of TPAF and PERS, hired on or after June 28, 2011, will need 30 years of creditable service and have attained the age of 65 for receipt of the early retirement benefit without a reduction of 1/4 of 1% for each month that the member is under age 65. Beginning with the July 1, 2019 actuarial valuation (July 1, 2018 for PFRS), the UAAL will be amortized over a closed 30 year period until the remaining period reaches 20, when the amortization period will revert to an open-ended 20 year period.

COLA Suspension

The payment of automatic cost-of-living adjustment to current and future retirees and beneficiaries are suspended until reactivated as permitted by this law.

Vesting and Benefit Provisions - The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B and N.J.S.A. 18A:6C for TPAF. All benefits vest after ten years of service, except for post-retirement healthcare benefits that vest after 25 years of service.

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation.

Effective June 28, 2011, P.L. 2011, c. 78 provides for increases in the employee contribution rates: from 5.5% to 6.5% plus an additional 1% phased-in over 7 years beginning in the first year, meaning after 12 months, after the law's effective date for TPAF and PERS.

Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2020, the District's proportion was 0.0426944729 percent, which was a decrease of 0.0003539141 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$333,693.00 in the district-wide financial statements. This pension expense was based on the pension plans June 30, 2020 measurement date.

Actuarial Assumptions (Continued)

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at both June 30, 2020 and June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.00% and 6.28% as of June 30, 2020 and June 30, 2019, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2021 was as follows:

Net Pension Liability:	
Districts proportionate share	-0-
State's proportionate share associated with the District	<u>\$163,439,056</u>
	<u>\$163,439,056</u>

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 which was rolled forward to June 30, 2020. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2020, the proportion of the TPAF net pension liability associated with the District was .2482035567% which was a decrease of .0006445121 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized on-behalf pension expense and revenue of \$10,163,336.00 in the government-wide financial statements for contributions provided by the State. This pension expense and revenue was based on the pension plans June 30, 2020 measurement date.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% and 7.00% at June 30, 2020 and June 30, 2019 respectively) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries.

The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Discount Rate

The discount rate used to measure the total pension liability was 5.40% and 5.60% as of June 30, 2020 and 2019, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% for both June 30, 2020 and 2019, and a municipal bond rate of 2.21% and 3.50% as of June 30, 2020 and 2019, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 78% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2062 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Because the District's proportionate share of the net pension liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

Plan Description and Benefits Provided

The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan, which is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Total Non-Employer OPEB Liability

The portion of the total Non-Employer OPEB Liability that was associated with the District at June 30, 2021 was as follows:

Total OPEB Liability:	
District's Proportionate Share	\$-0-
State's Proportionate Share associated with the District	148,141,783
	<u>\$148,141,783</u>

The total Non-Employer OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020.

The total Non-Employer OPEB liability was determined separately based on actual data of the District.

For the year ended June 30, 2021, the District recognized on-behalf post-employment expense and revenue of \$7,904,950 in the government-wide financial statements for contributions provided by the State. This expense and revenue was based on the plans June 30, 2020 measurement date.

At June 30, 2020, the District's proportion was .2184661034 percent, which was an increase of .0029097366 from its proportion measured as of June 30, 2019.

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS, TPAF/ABP and PFRS participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Consequently, the District did not recognize any portion of the collective Non-Employer OPEB liability on the Statement of Net Position.

The total Non-Employer OPEB liability that was associated with the District as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	<u>June 30, 2020</u>		
	<u>TPAF/ABP</u>	<u>PERS</u>	<u>PFRS</u>
Inflation – 2.5%

*- Based on Years of Service

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Actuarial Assumptions and Other Input (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies for the periods July 1, 2015— June 30, 2018, July 1, 2014 — June 30, 2018, and July 1, 2013 - June 30, 2018 for TPAF, PERS and PFRS, respectively.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.6% and decreases to a 4.5% long-term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2021 through 2022 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.0% and decreases to a 4.5% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2020 and June 30, 2019 was 2.21% and 3.50% respectively. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTE 9: CONTINGENCIES

The District receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 2020-2021 fiscal year were subject to the Uniform Guidance and New Jersey OMB Circular 15-08 which mandates that grant revenues and expenditures be audited in conjunction with the District's annual audit if expenditures for federal or state programs exceed \$750,000. Findings and questioned costs, if any, relative to federal and state financial assistance programs are discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. Further, the School Child Nutrition Program is a recipient of federal reimbursements and is subject to certain related federal regulations. These federal reimbursements are subject to subsequent audit and interpretation by the New Jersey Department of Education. The District management does not believe such an audit would result in material amounts of disallowed costs.

NOTE 10: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains insurance coverage covering each of those risks of loss. The administration believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded the insurance coverage in any of the past three fiscal years.

NOTE 10: RISK MANAGEMENT (CONTINUED)

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. Charges are applied to the Unemployment Compensation Claims Payable first, and any remaining charges are applied to the Unemployment Compensation budget appropriation. The following table is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the combined ending balance of the District's Unemployment Compensation Claims Payable and Unemployment Restricted Fund Balance for the current and previous two years:

<u>Fiscal Year</u>	<u>Interest Earnings</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2020-21	\$ 784.90	\$ 86,563.59	\$ 86,563.59	\$ 477,856.54
2019-20	3,642.41	107,707.94	50,859.84	477,071.64
2018-19	3,941.89	89,077.75	64,488.81	416,581.13

Health Benefits - The District provides health benefits to employees through an administrative services agreement administered by Horizon Blue Cross Blue Shield of New Jersey ("Horizon"). The incurred but not reported liability ("IBNR") actuarially computed by Horizon was \$1,961,974 at June 30, 2021. It was also noted that the entire IBNR is adjusted for changes in estimate at year end and such changes are reflected in the district's budget and the entire liability is treated as a liability for budgetary purposes.

NOTE 11: COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types are recorded in the district - wide statement of net position. As of June 30, 2021, a liability existed for compensated absences for governmental fund-types in the district-wide Statement of Net Position of \$1,157,624.85.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2021, no liability existed for compensated absences in the proprietary fund.

A capital reserve account was established by the District the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriations, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special election dates authorized by N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE 16: MAINTENANCE RESERVE ACCOUNT

In accordance with N.J.S.A. 18A:7G-13, a Maintenance reserve account was established by the District. The Maintenance reserve account is maintained in the general fund.

A district board of education or board of school estimate, as appropriate, may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes.

A district board of education or board of school estimate, as appropriate, may by resolution withdraw such funds from the maintenance reserve account and appropriate into the required maintenance account lines at budget time or any time during the year for use on required maintenance activities for a school facility as reported in the comprehensive maintenance plan pursuant to N.J.A.C. 6A:26A-4.

The district board of education shall ensure that the maintenance reserve account balance does not, at any time, exceed four percent of the replacement cost of the school district's school facilities for the current year. If the account exceeds this maximum amount at June 30, the district board of education shall reserve and designate such excess in the subsequent year's budget.

The activity of the maintenance reserve for the year ending June 30, 2021 is as follows:

NOTE 17: DEFERRED COMPENSATION

The District offers its employees a choice of the deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. Since the Board does not have any property or rights to the plan assets and no fiduciary relationship exists between the District and the deferred compensation plan, the plan assets are not included in the District's financial statements as of June 30, 2021.

NOTE 18: INVENTORY

Inventory in the Food Service Fund at June 30, 2021 consisted of the following:

Food and Supplies	<u>\$21,306.31</u>
-------------------	--------------------

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Act amendments of 1996) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

NOTE 19: TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable

(b) Rates for debt service are based on each year's requirements.

Debt outstanding data provided by the Municipal Chief Financial Officer.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Honorable President and Members
of the Board of Education
Flemington-Raritan Regional School District
County of Hunterdon
Flemington, New Jersey 08822

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the Flemington-Raritan Regional School District, in the County of Hunterdon, State of New Jersey (the "District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 7, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

SUPLEE, CLOONEY & COMPANY

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL
AND STATE FINANCIAL ASSISTANCE PROGRAMS AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE
UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08**

Honorable President and Members
of the Board of Education
Flemington-Raritan Regional School District
County of Hunterdon
Flemington, New Jersey 08822

Report on Compliance for Each Major Federal and State Program

We have audited the Flemington-Raritan Regional School District's, County of Hunterdon, New Jersey (the "District") compliance with the types of compliance requirements described in the federal *OMB Compliance Supplement* and the New Jersey *OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the Flemington-Raritan Regional School District's major federal and state programs for the year ended June 30, 2021. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (*Uniform Guidance*) and New Jersey *OMB Circular 15-08*. Those standards, the *Uniform Guidance* and New Jersey *OMB Circular 15-08* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance

SUPLEE, CLOONEY & COMPANY

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the *Uniform Guidance* and New Jersey OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *Uniform Guidance* and State of New Jersey OMB 15-08. Accordingly, this report is not suitable for any other purpose.

Flemington-Raritan Regional School District
Notes to the Schedules of Expenditures of Federal Awards
and State Financial Assistance
Year Ended June 30, 2021

NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Education, Flemington-Raritan Regional School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from the federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exceptions of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 of the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Uniform Guidance, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10 percent *de minimis* indirect cost rate as allowed under the Uniform Guidance.

NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedule (RSI) are presented for the general fund and special revenue fund to demonstrate finance-regulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.
