Letter of Transmittal *For the Fiscal Year Ended June 30, 2021*

December 15, 2021

To the Citizens, President, and Board Members of the Morris Hills Regional District

As the Superintendent and the Business Administrator of the Morris Hills Regional District (the “District”), we are pleased to submit to you this Comprehensive Annual Financial Report (CAFR) issued by the District. This CAFR for the fiscal year ended June 30, 2021, was prepared in accordance with Generally Accepted Accounting Principles (GAAP) as applicable to governmental entities.

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm, Nisivoccia LLP, CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, (“Uniform Guidance”), and New Jersey OMB’s Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. The auditors’ report on the basic financial statements and specific required supplementary information is included in the financial section of the CAFR. The auditors’ reports related specifically to the single audit are included in the single audit section of this report.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District’s financial activities have been included.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This transmittal letter is designed to be read in conjunction with the MD&A. The MD&A section provides an overview of factors that impact the District’s financial position.

The CAFR is presented in four sections: introductory, financial, statistical and single audit.

- The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials.
- The financial section includes the Independent Auditors’ Report, the Management’s Discussion and Analysis, the basic financial statements and notes providing an overview of the District’s financial position and operating results, and supplementary schedules providing detailed budgetary information.
- The statistical section includes selected financial and demographic information, financial trends and the fiscal capacity of the District, generally presented on a multi- year basis.
- The District is required to undergo an annual single audit in conformity with the provisions of the Uniform Guidance, and New Jersey OMB’s Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, is included in the single audit section of this report.

MORRIS HILLS REGIONAL DISTRICT

Letter of Transmittal For the Fiscal Year Ended June 30, 2021

Profile of the Morris Hills Regional District

The Morris Hills Regional District is a comprehensive regional public school district that provides academic, technological, and vocational programs for grades 9, 10, 11 and 12 as well as adult education programs. The District serves the communities of Denville Township, Rockaway Borough, Rockaway Township, and Wharton Borough over approximately 58 square miles. The District also hosts two academy programs for the Morris County School of Technology (MCST) which services all Morris County students.

Population estimates for 2019 from the United States Census Bureau reflect a relatively small increase of 2.26% in total population for the four communities served as compared to the census in 2010. Rockaway Township, which represents 47% of the District's total population, saw the largest projected increase of 1,720 residents. Denville representing 29% of the serviced population saw a small projected decrease of 189. Rockaway Borough and Wharton Borough that are very similar in population and size, each representing approximately 11.5% of the population reflected a decline in projected population, 162 and 153 respectively.

Enrollment

The District's enrollment reported on the Application for State School Aid (ASSA) in October 2020 was 2,688 resident students compared to 2,602 resident students the prior year. Although resident students increased by 86 or more than 3.3% from prior year, the ASSA does not reflect students enrolled in the academy programs. On October 15, 2020 Morris Knolls enrolled 122 students in the Academy for the Performing Arts (APA) and Morris Hills enrolled 180 students in the Academy for Math, Science and Engineering (MSE). This was an increase of 59 students.

School Buildings and Capital Improvements

The District's buildings, Morris Hills High School and Morris Knolls High School were built in 1953 and 1964, respectively. Both buildings are exceptionally well maintained. However, after an energy audit, the District found that additional improvements could reduce operating costs. The District applied to the state for the approval of an energy savings improvement plan and received approval in January 2019. In April 2019, bonds were sold to support the improvements. The ESIP program is discussed in the Management's Discussion and Analysis section of this report. Annual deposits into the District's Capital Reserve have funded additional improvements to classroom lab and theater space, athletic fields, HVAC upgrades, fire alarm replacement and secure vestibules.

Curriculum Offerings

The District has enhanced program offerings that make it unique among other high schools in the state; in fact, school choice applications have grown drastically because of the enhanced opportunities available to students. In 2020 – 2021, applications for the school choice program continued to exceed available seats. Some of the unique offerings include:

- **AP Program**: The District offers 27 Advanced Placement options for students. AP offers students the opportunity to earn college credits while in high school, a major NJDOE initiative. The District has no minimum grade requirement to enter an AP course. In 2021, 78% of the students taking 1593 AP exams scored 3 or higher, scores high enough to earn college credit. 27% of exams taken earned a perfect score of 5.

MORRIS HILLS REGIONAL DISTRICT

- International Baccalaureate: The District is one of only 14 schools in New Jersey to offer the International Baccalaureate Diploma Program, an extremely competitive, internationally-recognized program for juniors and seniors. IB courses are as rigorous, if not more than AP courses and provide students the opportunity to earn college credit while in high school, a major NJDOE initiative. Our graduating classes in the IB Diploma Program continue to outperform graduates of established IB Programs around the world, including areas in which the United States is considered weak, such as world language.
- Magnet Program for Math and Science: We are in our eleventh year of offering a specialized program that emphasizes statistical analysis and scientific research, which includes coursework that is offered by no other high school in the state and typically seen only at the collegiate level. The Magnet Program utilizes the College Board's AP Capstone Program, combined with our specialized Magnet coursework, we offer a 3-year sequence in Research Methods and provides students with training and skills to conduct collegiate level research and advanced STEM coursework. The NJDOE has been emphasizing the incorporation of STEM into high school curriculum; the Magnet Program exemplifies the type of STEM curricula that is going on in the best schools in the country. The Magnet Program is part of the National Consortium for Secondary Stem Schools (NCSSSS), which requires that programs be aligned to the consortium's STEM standards.
- AVID Program: The District is in our ninth year of implementing the AVID Program (Advancement Via Individual Determination), a national and international program that helps students in the academic middle take more rigorous coursework and provides access to college for historically underrepresented groups. Teachers are trained in research-based instructional strategies to work with this population, and students are provided access to upper level coursework traditionally reserved for the academic elite.
- Gifted and Talented Program: Unlike many high schools in the state, that only offer "gifted" programs through honors and AP coursework, the District also address the other areas of giftedness that are recognized by the National Association for Gifted Children through seminars, pull out programs and a vast independent study program.
- Aviation and Aerospace Program: In the 2017-18 school year, the District partnered with the Aircraft Owners and Pilots Association (AOPA) and offered in 2020-2021 two career pathways (Pilot and Unmanned Aircraft Systems) in the aviation/aerospace industry. The program will afford students the opportunity to earn industry credentials while still in high school.
- School Choice Program: The District continued two school choice programs that began in 2011-2012. The first, an intradistrict school choice program allowed resident students to apply to either high school regardless of their address. Approximately 43 students participated in 2020-21. Also in 2011-2012, Morris Hills Regional District was approved by the New Jersey Department of Education as a Choice School District. There were 128 students enrolled in the District in the 2020-21 school year. Funding is received directly from the State of New Jersey for these students.
- General Education Program: Our general education program provides all students with access to a truly comprehensive curriculum, including technology education, computer science, world languages, the academic core, and visual and performing arts. Both high schools are consistently ranked in the top 100 high schools in the state.

MORRIS HILLS REGIONAL DISTRICT

Letter of Transmittal For the Fiscal Year Ended June 30, 2021

Economic Condition and Financial Outlook

The District relies on local property taxes and state aid to support its budget. In the 2020-2021 school year, the District saw a slight increase in state aid but the predominant source to support its budget is local property taxes.

New Jersey law limits the increase in New Jersey school districts' tax levies to 2% annually although adjustments are allowed for increased enrollments and increased pension and health benefit costs. If a district wishes to exceed the 2% limit for other reasons, a public vote is required. The Morris Hills Regional District Board of Education is committed to limiting tax increases and has sought alternate funding sources. In 2011 Morris Hills became a School Choice District, which created a new source of aid for the District. In 2018, the District modified its tuition agreement with the Morris County School of Technology and increased enrollment for the hosted programs. The District is also committed to sharing resources with our elementary school districts through shared services. There is a commitment from the elementary districts as well as the high school districts to continue these cost saving measures.

Internal Controls

Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). This internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District is also responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described above, testing is performed to determine the adequacy of the internal control, including that portion related to major federal and state award programs, as well as to determine that the District is in compliance with applicable laws, regulations, contracts and grants.

Accounting System and Budgetary Controls

The District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board ("GASB") in codification section 2100. All funds of the District are included in this report. The Morris Hills Regional District and all its schools constitute the District's reporting entity.

The District's accounting records include an expanded minimum chart of accounts using dimensions to define area and location. Board approval for budgetary transfers is required at the state minimum level, which is the dimension object within program. Additional approval from the New Jersey State Department of Education is required in the case of General Fund transfers from instructional to non-instructional accounts, any transfer to capital outlay from current expense except for equipment, transfers from unassigned fund balance, and all transfers that on a cumulative basis exceeds 10% of the advertised appropriation as established by the New Jersey Department of Education, Division of Finance.

MORRIS HILLS REGIONAL DISTRICT

Letter of Transmittal For the Fiscal Year Ended June 30, 2021

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either liquidated or are included as appropriations of fund balance in the subsequent fiscal year. Those amounts to be appropriated are reported as fund balance restrictions, commitments and assignments on June 30, 2021.

The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements", Note 1.

The District's budget is developed annually by the administration with input from all stakeholders in the District. Once compiled, it is presented to the District's Board of Education and the New Jersey Department of Education's Executive County Superintendent of Schools in March of each year. It is then advertised for public input and a budget hearing is scheduled. Public comment at the hearing may result in modifications. The final budget must be posted to the District's website forty-eight hours after the public hearing.

In addition to internal accounting controls, the District maintains budgetary controls. The objective of the controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by a vote of the Board of Education. Annual appropriated budgets are adopted for the general fund, special revenue fund and debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section of the report.

Major Initiatives For The Future

The District continues to invest in its facilities through the use of Capital Reserve funds. Ongoing upgrades for classroom HVAC units are planned for the next four years until all instructional spaces are air conditioned. Site improvements will continue with sidewalk and parking lot improvements.

Awards

The Association of School Business Officials International ("ASBO") awarded a Certificate of Achievement for Excellence in Financial Reporting to the Morris Hills Regional District for its Comprehensive Annual Financial Report ("CAFR") for the fiscal years ended June 30, 2012 through 2020. This program contributes to the enhancement of credibility of financial management, the adoption of accounting principles generally accepted in the United States of America, and sound budgetary and reporting purposes. In order to be awarded the Certificate of Excellence, the District must prepare the CAFR in a fashion that strictly conforms to generally accepted accounting principles and program requirements. The Certificate of Excellence is valid for a period of one year, and the District feels confident that it will continue to meet the program requirements and will apply for the award for the fiscal year ended June 30, 2021.

Independent Auditors' Report

The Honorable President and Members
of the Board of Education
Morris Hills Regional School District
County of Morris, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Morris Hills Regional School District (the "District") in the County of Morris as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Morris Hills Regional School District, in the County of Morris, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 19 to the basic financial statements, the District implemented Governmental Accounting Standards Board (“GASB”) Statement No. 84, *Fiduciary Activities*, during the fiscal year ended June 30, 2021. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, which follows this report, the pension and postemployment benefit schedules in Exhibits L-1 through L-5 and the related notes and the budgetary comparison information in Exhibits C-1 through C-3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The accompanying other supplementary schedules and the schedules of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and New Jersey’s OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and the other information, such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying other supplementary schedules and the schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary schedules and the schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying other information such as the introductory and statistical sections has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Morris Hills Regional School District
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021**

This section of Morris Hills Regional School District’s annual financial report presents its discussion and analysis of the District’s financial performance during the fiscal year ending June 30, 2021. Please read it in conjunction with the transmittal letter at the front of this report and the District’s basic financial statements, which immediately follow this section.

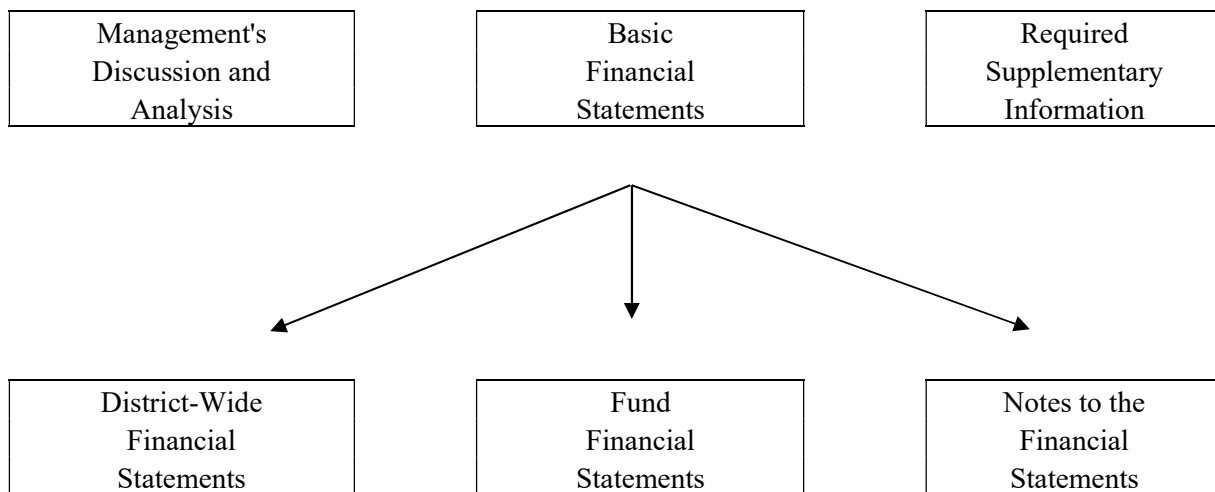

Overview of the Financial Statements

This annual report consists of three parts: management’s discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District’s operations in *more* detail than the District-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds statements* offer *short- and long-term* financial information about the activities the District operates like a business, such as food services, the academy for technology and shared services (special education and custodial).

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District’s budget for the fiscal year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District’s assets, deferred inflows and outflows, and liabilities. All of the current year’s revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District’s *net position* and how they have changed. Net position – the difference between the District’s assets, deferred inflows and outflows, and liabilities – is one way to measure the District’s financial health or *position*.

- Over time, increases or decreases in the District’s net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District’s overall health, you need to consider additional nonfinancial factors such as changes in the District’s property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District’s activities are divided into two categories:

- *Governmental activities*: Most of the District’s basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities*: The District charges fees to help it cover the costs of certain services it provides. The District’s food service, academy for technology, and shared services (special education, and custodial) are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District’s funds, focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenue (such as federal grants).

The District has two kinds of funds:

- *Governmental funds*: Most of the District’s basic services are included in governmental funds, which generally focus on {1} how cash and other financial assets that can readily be converted to cash flow in and out, and {2} the balances left at fiscal year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.
- *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District’s *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows.

Financial Analysis of the District as a Whole

Net Position. The Statement of Net Position provides one perspective of the District as a whole. Figure A-3 provides a summary of the District's net position as of June 30, 2021 and 2020. The District's *combined* net position was \$12,885,295 on June 30, 2021, \$5,085,084 or 65.19% more than it was the fiscal year before. The net position of the governmental activities increased by \$5,160,024 and the net position of the business-type activities decreased by \$74,940.

Financial Analysis of the District as a Whole

Figure A-4 represents the *Changes in Net Position*. Net investment in capital assets increased \$3,910,182 due to \$5,144,957 in capital assets additions and the retirement of \$2,140,000 of bonds payable and \$474,848 of capital leases payable, offset by \$3,514,153 of depreciation expense and amortized deferred amount on refunding of \$335,470. Restricted net position increased \$162,831 primarily due to the net increase in the debt service fund balance of \$132,124 which resulted from interest savings associated with the bond refunding. Unrestricted net position (deficit) decreased \$1,012,071 primarily due to the changes in deferred inflows and outflows related to pensions and a net increase in compensated absences, offset by decreases in the net pension liability, unamortized bond issuance premiums and accrued interest.

Governmental Activities

The financial position of the District improved significantly from the prior year. However, maintaining existing programs with increased enrollment, the provision of a multitude of special programs/services for disabled pupils and the cost of employee benefits has placed great demands on the District’s resources. As a result, careful management of expenses remains essential for the District to sustain its financial health. Increasing parental and student demands for new activities and programs must be evaluated thoroughly.

Figure A-5 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity’s net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District’s taxpayers by each of these functions.

Business-Type Activities

The net position of the District’s business-type activities decreased by \$74,940, which was comprised of a \$55,368 decrease in net position for the food service fund and a decrease in the net position of the academy for technology program of \$19,572. (Refer to Figure A-4). The decrease in the food service fund was attributable to the decrease in sales due to COVID-19. The decrease in the academy for technology was strictly associated with the annual depreciation of its capital assets.

Financial Analysis of the District’s Funds

The financial position of the District increased overall due to a slight increase in the capital projects fund primarily due to lower expenditures related to various projects as compared to prior year, and improvement in the general and debt service funds. Difficult economic times have had a direct impact upon the District’s revenue sources and planned expenditures. Ratables in the municipality remain more or less stable, thus generating concern for the local tax levy in the future.

**Morris Hills Regional School District
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021**

Financial Analysis of the District’s Funds

To maintain a stable financial position, the District must continue to practice sound fiscal management and carefully monitor expenditures.

The State imposes spending and tax levy limits on the District in its budget process. The financial condition has been directly affected in recent years by legislation titled “S1701” which reduced the amount of allowable General Fund unassigned fund balance to 2% of adjusted expenditures. At June 30, 2021 the District’s 2% limit is \$1,432,096 plus adjustments for additional State Aid of \$1,497,511, for a total of \$2,929,607 as allowable General Fund unassigned fund balance. However, since the District appropriated \$523,000 of fund balance as revenue in its 2021-2022 budget, only \$2,137,855 (or 1.46%) is unassigned at June 30, 2021 which was further reduced by \$790,315 to \$1,347,540 on the GAAP basis due to the June state aid payments which are not recognized until the fiscal year ended June 30, 2022.

General Fund Budgetary Highlights

Over the course of the fiscal year, the District revised the annual operating budget between budgetary line items for changes in school-based needs. The District’s fund balance increased \$602,347 during the fiscal year which included \$52,828 transferred from the Capital Projects Fund for unexpended balances on completed projects and \$3,425,358 transferred to the Capital Projects Fund for HVAC upgrades, fire alarm replacement, secure vestibules and Morris Hills High School’s library renovations.

Capital Asset and Long-term Liabilities Administration

The District’s capital assets (net of depreciation) increased \$1,630,804, or 2.99%, during the fiscal year. (More detailed information about the District’s capital assets is presented in Note 6 to the Basic Financial Statements).

The District invested \$5,144,957 in capital assets - \$5,016,957 from governmental activities (which includes \$3,352,580 from capital projects and \$1,664,377 from capital outlay for equipment purchases and facilities acquisition and construction services) and \$128,000 from business-type activities. The District incurred \$3,469,586 and \$44,567 of depreciation related to governmental and business-type capital assets, respectively.

For the Fiscal Year Ended June 30, 2021**

Long-term Liabilities

The District’s long-term liabilities decreased by \$1,517,448, or 2.82%, during the fiscal year. At fiscal year-end, the District had \$28,665,000 in bonds outstanding (\$20,695,000 refunding bonds and \$7,970,000 ESIP bonds), \$4,437,032 in compensated absences payable, \$2,571,597 in unamortized bond issuance premiums and \$16,634,776 in net pension liability as shown in Figure A-7. (More detailed information about the District’s long-term liabilities is presented in Note 8 to the Basic Financial Statements).

- Other long-term liabilities are comprised of unamortized bond issuance premiums, compensated absences payable and capital leases payable.
- \$2,140,000 of the District’s general obligation bonds were retired during the fiscal year and \$15,475,000 were defeased.
- The District issued \$17,615,000 of refunding school bonds during the fiscal year.
- The District’s liability for compensated absences increased by the net amount of \$145,535.
- Unamortized bond issuance premiums decreased by \$285,733.
- The District paid down \$474,848 of capital leases payable during the 2020-2021 fiscal year for the local share of the Morris Hills and Morris Knolls High Schools’ partial roof replacement, the Morris Hills High School’s HVAC and the Morris Knolls High School’s partial window replacement capital projects.

Factors Bearing on the District’s Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- Due to the pandemic, the District operated on a hybrid schedule. Students attended in person learning two or three times per week. The rest of the week was remote learning. Sports and student activities were limited.
- The District Food Service program operated under the Seamless Summer Option Program where meals were provided to students at no cost. Meals were provided for seven days and were picked up weekly at each school.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021**

Factors Bearing on the District's Future

- Meeting the need of increasing salary and health benefit costs continue to be a major budget concern to the District. Negotiated agreements in Morris County and its surrounding region have been close to 3%. The District's teachers bargaining unit has a contract agreement through June 2021. Health benefit costs continue to rise despite improved experience ratings.
- The District is committed to remaining within the 2% cap increase allowed on school levy and any allowable adjustments for enrollment or health care costs. State Aid is stable and the District will continue to monitor costs by implementing best practices which result in efficient operations including sharing services with our elementary districts.
- The District has an agreement with the Morris County School of Technology to host two academy programs in exchange for tuition. These students are not counted on the District's ASSA for state aid and instead are funded by tuition proceeds. These programs are operated in the financial records as a proprietary fund.
- In an effort to avoid raising taxes for capital improvements, the District has been funding a capital reserve account each year with unexpended fund balance and unanticipated revenue. Those funds are used in subsequent budgets for various capital projects.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Total Net Change in Fund Balances - Governmental Funds (from Exhibit B-2)		\$ 684,356
Amounts Reported for Governmental Activities in the Statement of Activities (Exhibit A-2) are Different Because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation differs from capital outlays.		
	Depreciation Expense	\$ (3,469,586)
	Capital Outlays	<u>5,016,957</u>
		1,547,371
Repayment of debt service principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.		2,400,000
In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when accrued, regardless of when due. In the governmental funds, interest is reported when due. When the accrued interest exceeds the interest paid, the difference is reduction in the reconciliation (-); when the interest paid exceeds the accrued interest, the difference is an addition to the reconciliation (+).		93,621
The governmental funds report the effect of bond issuance premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities (+)		285,733
The governmental funds report the effect of the deferred amount on refunding when debt is first issued, whereas this amount is deferred and amortized in the statement of activities (-)		(335,123)
Proceeds from debt issued for the advanced refunding less the amount of bonds defeased are not recorded in the Governmental Funds.	School Refunding Bonds Issued	(17,615,000)
	School Bonds Defeased	15,475,000
	Deferred Amount on Refunding	<u>1,879,653</u>
		(260,347)
Repayment of capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.		474,848
The net pension liability reported in the statement of activities does not require the use of current financial resources and is not reported as an expenditure in the Governmental Funds:		
Change in Net Pension Liability		642,402
Change in Deferred Outflows of Resources Related to Pensions		94,010
Change in Deferred Inflows of Resources Related to Pensions		(321,312)
In the statement of activities, certain operating expenditures, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).		<u>(145,535)</u>
Change in Net Position of Governmental Activities (Exhibit A-2)		<u>\$ 5,160,024</u>

MORRIS HILLS REGIONAL SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of Morris Hills Regional School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents. (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization. (3) The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Basis of Presentation:

District-Wide Financial Statements:

The statement of net position and the statement of activities present financial information about the District's governmental and business type activities. These statements include the financial activities of the overall government in its entirety. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business type activities are financed in part by fees charged to external parties.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

District-Wide Financial Statements: (Cont'd)

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds. Separate statements for each fund category – *governmental and proprietary* - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

General Fund: The General Fund is the general operating fund of the District and is used to account for and report all expendable financial resources not accounted for and reported in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. GAAP, as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expenses by Board resolution.

Special Revenue Fund: The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

The District reports the following governmental funds: (Cont'd)

Capital Projects Fund: The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, funds appropriated from the General Fund, and from aid provided by the state to offset the cost of approved capital projects.

Debt Service Fund: The Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest.

The District reports the following proprietary funds:

Enterprise (Food Service, Academy for Technology, and Shared Services) Funds: The Enterprise Funds account for all revenue and expenses pertaining to the Board's cafeteria, academy for technology and shared services (special education and custodial) operations. The food service, academy for technology and shared services (special education and custodial) funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

C. Measurement Focus and Basis of Accounting

The district-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus and Basis of Accounting (Cont'd)

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

It is the District's policy, that when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, to apply restricted resources first followed by unrestricted resources. Similarly, within unrestricted fund balance, it is the District's policy to apply committed resources first followed by assigned resources and then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budget for the fiscal year ended June 30, 2021 was submitted to the County office and was approved by a vote of the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2 (m) 1. All budget amendments/transfers must be made by School Board resolution. All budgeting amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the fiscal year).

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis except for student activities and scholarships. The grant accounting budgetary basis differs from GAAP in that it recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

D. Budgets/Budgetary Control: (Cont'd)

The General Fund budgetary revenue differs from GAAP revenue due to a difference in the recognition of the June State Aid payments for the current fiscal year. Since the State is recording the June State Aid payments in the subsequent fiscal year, the District cannot recognize these payments in the GAAP financial statements.

E. Cash and Cash Equivalents and Investments:

Cash and cash equivalents include petty cash and cash in banks. Certificates of deposit with maturities of one year or less when purchased are stated at cost.

The District generally records investments at fair value and records the unrealized gains and losses as part of investment income. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Government Units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

F. Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which are presented as internal balances.

G. Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

H. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as restricted, committed or assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2021.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

K. Capital Assets:

During the fiscal year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost, including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets are recorded at their acquisition value. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the district-wide statements and proprietary funds are as follows:

	<u>Estimated Useful Life</u>
Buildings and Building Improvements	40 years
Land Improvements	10 to 20 years
Machinery and Equipment	10 to 15 years
Computer and Related Technology	5 years
Vehicles	8 to 10 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures in the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

L. Long Term Liabilities:

In the District-wide and enterprise fund statements of net position, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise funds. Bond premiums and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

M. Accrued Salaries and Wages:

The District does not allow employees who provide services over the ten-month academic year the option to have their salaries evenly distributed during the entire twelve-month year; therefore, there are no accrued salaries and wages as of June 30, 2021.

N. Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by GASB. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

N. Compensated Absences: (Cont'd)

District employees are granted varying amounts of vacation and sick leave in accordance with the District's various employee contracts and agreements. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent fiscal years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the district-wide *Statement of Net Position*, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due beyond one year.

O. Unearned Revenue:

Unearned revenue in the general fund and special revenue funds represents cash which has been received but not yet earned. See Note 1(D) regarding the special revenue fund.

P. Fund Balance Appropriated:

General Fund: Of the \$7,576,912 General Fund balance at June 30, 2021, \$5,051,242 is restricted in the capital reserve account; \$305,010 is restricted in the maintenance reserve account; \$350,120 is restricted for unemployment compensation; \$523,000 is assigned and included as anticipated budget revenue for the fiscal year ending June 30, 2022; and \$1,347,540 is unassigned which is \$790,315 less on the GAAP basis than the calculated maximum unassigned fund balance (budgetary basis) due to the June state aid payments which are not recognized until the fiscal year ended June 30, 2022.

Special Revenue Fund: Of the \$616,001 Special Revenue Fund balance at June 30, 2021, \$361,996 is restricted for scholarships and \$254,005 is restricted for student activities.

Capital Projects Fund: The \$2,565,029 Capital Projects Fund balance at June 30, 2021 is committed.

Debt Service Fund: The Debt Service Fund balance at June 30, 2021 of \$189,332 is restricted, of which \$25,000 is included as anticipated budget revenue for the fiscal year ending June 30, 2022.

Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7 as amended, the designation for Restricted Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent fiscal year's budget. The District did not have excess surplus at June 30, 2021.

N.J.S.A. 18A:22-44.2 provides that in the event one or more state school aid payments are not made until the following school budget year, districts must record those state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the school district cannot recognize the June state aid payments on the GAAP financial statements until the fiscal year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the June state aid payments and not the fund balance reported on the fund statement which excludes the June state aid payments.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Q. Fund Balance Restrictions, Commitments and Assignments:

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. The committed fund balance classification includes amounts that can be used only for the specific purposes determined for a formal action of the District's highest level of decision-making authority. Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Unassigned fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classifications should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts has been restricted, committed or assigned.

Fund balance restrictions have been established in the General Fund for capital reserve and maintenance reserve accounts and unemployment compensation, in the Special Revenue Fund for student activities and scholarships and for the Debt Service Fund.

The District Board of Education has the responsibility to formally commit resources for specific purposes through a motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body. The Board of Education must also utilize a formal motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body in order to remove or change the commitment of resources. The District has \$2,565,029 of committed resources in the Capital Projects Fund at June 30, 2021.

The assignment of resources is generally made by the District Board of Education through a motion or a resolution passed by a majority of the Members of the Board of Education. These resources are intended to be used for a specific purpose. The process is not as restrictive as the commitment of resources and the Board of Education may allow an official of the District to assign resources through policies adopted by the Board of Education. The District has \$523,000 of assigned resources for subsequent fiscal year's expenditures in the General Fund at June 30, 2021.

R. Deficit Net Position:

The District has a \$24,271,803 deficit in unrestricted net position primarily due to the accrual of \$4,437,032 in compensated absences payable, \$240,514 in accrued interest payable, \$2,571,597 of unamortized bond premiums, deferred inflows related to pensions of \$7,698,775, and net pension liability of \$16,634,776, offset by deferred outflows related to pensions of \$4,068,146, deferred amount on debt refunding of \$3,016,080, and Governmental Funds unassigned, committed and assigned fund balances. The deficit balance does not indicate that the District is having financial difficulties and is a permitted practice under generally accepted accounting principles.

S. Net Position:

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources.

A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period. The District had deferred outflows of resources at June 30, 2021 related to pensions and for the deferred amount on refunding of debt related to the District's 2012 and 2020 refunding bonds.

MORRIS HILLS REGIONAL SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

S. Net Position: (Cont'd)

A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period. The District had deferred inflows of resources at June 30, 2021 related to pensions.

Net position is displayed in three components - net investment in capital assets; restricted and unrestricted.

The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position.

The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

T. Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest and tuition.

U. Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activities of the Enterprise Funds. For the School District, these revenues are sales for food service, tuition for the academy for technology and fees for shared services (special education and custodial). Operating expenses are necessary costs incurred to provide the services that are the primary activities of the Enterprise Funds.

V. Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

W. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of New Jersey Public Employees' Retirement System (PERS) and the State of New Jersey Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the PERS's and TPAF's net position have been determined on the same basis as they are reported by the PERS and the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Pension Plan investments are reported at fair value.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk – In accordance with its cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk – The Board limits its investments to those authorized in its cash management plan which are those permitted under state statute and are detailed on the following page.

Custodial Credit Risk – The District's policy with respect to custodial credit risk ensures that District funds are only deposited in financial institutions in which NJ school districts are permitted to invest their funds.

Deposits:

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

Deposits: (Cont'd)

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit, and

In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments:

New Jersey statutes permit the District to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located.
- (5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the "Local Authorities Fiscal Control Law", P.L. 1983, c.313 (C.40A:5A-1 et seq.). Other bonds or obligations having a maturity date not more than 397 days from the date of purchase may be approved by the Division of Investment in the Department of the Treasury for investment by local units;
- (6) Local government investment pools;
- (7) Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4); or

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Investments: (Cont'd)

New Jersey statutes permit the Board to purchase the following types of securities: (Cont'd)

- (8) Agreements for the repurchase of fully collateralized securities if:
 - (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection a. or are bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the requirements of the "Local Authorities Fiscal Control Law," P.L. 1983, c. 313 (C.40A:5A-1 et seq.);
 - (b) the custody of collateral is transferred to a third party;
 - (c) the maturity of the agreement is not more than 30 days;
 - (d) the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C.17:9-41); and
 - (e) a master repurchase agreement providing for the custody and security of collateral is executed; or

- (9) Deposit of funds in accordance with the following conditions:
 - (a) The funds are initially invested through a public depository as defined in section 1 of P.L. 1970, c. 236 (C.17:9-41) designated by the school district;
 - (b) The designated public depository arranges for the deposit of the funds in deposit accounts in one or more federally insured banks, savings banks or savings and loan associations or credit unions for the account of the school district;
 - (c) 100 percent of the principal and accrued interest of each deposit is insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund;
 - (d) The designated public depository acts as custodian for the school district with respect to these deposits; and
 - (e) On the same date that the school district's funds are deposited pursuant to subparagraph (b) of this paragraph, the designated public depository receives an amount of deposits from customers of other financial institutions, wherever located, equal to the amounts of funds initially invested by the school district through the designated public depository.

		\$ 361,996	\$ 254,005	\$ 9,697,211

During the period ended June 30, 2021, the District did not hold any investments. The carrying amount of the Board's cash and cash equivalents at June 30, 2021 was \$9,697,211 and the bank balance was \$9,861,680.

NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Board on September 25, 2000 by inclusion of \$1,000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at fiscal year-end of any unanticipated revenue or unexpended line item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1 (g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE 4. CAPITAL RESERVE ACCOUNT (Cont'd)

The activity of the capital reserve for the July 1, 2020 to June 30, 2021 fiscal year is as follows:

Beginning Balance, July 1, 2020	\$ 5,093,430
Interest Earnings	190
Increase by Board Resolution - June 21, 2021	4,600,000
Unexpended Funds Returned:	
Capital Projects Fund	52,828
Budgeted Withdrawals	(4,255,206)
Withdrawals by Board Resolution	<u>(440,000)</u>
Ending Balance, June 30, 2021	<u>\$ 5,051,242</u>

The balance in the capital reserve account at June 30, 2021 does not exceed the balance of local support costs of uncompleted capital projects in the District's Long Range Facilities Plan ("LRFP"). Withdrawals from the capital reserve were for use in DOE approved facilities projects, consistent with the District's LRFP.

NOTE 5. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account in the amount of \$200,000 was established by Board resolution on June 20, 2011. These funds may be used for specific activities necessary for the purpose of keeping a school facility open and safe for use or in its original condition, and for keeping its constituent buildings systems fully and efficiently functional and for keeping their warranties valid but cannot be used for routine or capital maintenance. The purpose of the reserve is to provide funds for anticipated expenditures required to maintain a building.

Pursuant to N.J.A.C. 6A:26A-4.2 funds may be deposited into the maintenance reserve account at any time by board resolution to meet the required maintenance of the District by transferring unassigned general fund balance or by transferring excess unassigned general fund balance that is anticipated to be deposited during the current fiscal year in the advertised recapitulation of balances of the subsequent fiscal year's budget that is certified for taxes. Funds may be withdrawn from the maintenance reserve account and appropriated into the required maintenance account lines at budget time or any time during the fiscal year by Board resolution for use on required maintenance activities by school facility as reported in the comprehensive maintenance plan.

Funds withdrawn from the maintenance reserve account are restricted to required maintenance appropriations and may not be transferred to any other line-item account. In any fiscal year that maintenance reserve account funds are withdrawn, unexpended required maintenance appropriations, up to the amount of maintenance reserve account funds withdrawn, shall be restored to the maintenance reserve account at fiscal year-end. At no time, shall the maintenance reserve account have a balance that exceeds four percent of the replacement cost of the current fiscal year of the District's school facilities. If the account exceeds this maximum amount at June 30, the excess shall be restricted and designated in the subsequent fiscal year's budget. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The activity of the maintenance reserve for the July 1, 2020 to June 30, 2021 fiscal year is as follows:

Beginning Balance, July 1, 2020	\$ 305,000
Interest Earnings	10
Increase by Board Resolution - June 21, 2021	300,000
Budgeted Withdrawals	(160,000)
Withdrawals by Board Resolution	<u>(140,000)</u>

NOTE 8. LONG-TERM LIABILITIES (Cont'd)

A. Bonds Payable: (Cont'd)

On March 28, 2012, the District issued \$28,230,000 of General Obligation Refunding School Bonds with interest rates ranging from 2.00%-5.00% to advance refund \$30,507,000 of the District's 2004 School Bonds with interest rates ranging from 3.50%-4.25% for the construction of renovations to the District's two high schools.

On July 16, 2020, the District issued refunding school bonds of \$17,615,000 with interest rates between 0.446% and 1.662% to refund \$15,475,000 of 2012 refunding school bonds with an interest rate of 5%. The bonds mature on October 1, 2020 through 2029 and are non-callable. The net proceeds from the issuance of the refunding bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the 2012 refunding bonds were called on October 1, 2020. The refunding met the requirements of an in-substance debt defeasance, and the school bonds were removed from the District's government-wide financial statements. As a result of the refunding, the District will realize total of \$1,674,167 in cash savings over the life of the bond issue.

The District had refunding bonds outstanding as of June 30, 2021 as follows:

<u>Purpose</u>	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Amount</u>

NOTE 8. LONG-TERM LIABILITIES (Cont'd)

A. Bonds Payable: (Cont'd)

On April 3, 2019, the District issued energy savings obligation refunding bonds of \$8,230,000 with interest rates ranging from 2.0% to 5.0%. The bonds mature on July 15, 2020 through 2039. The energy savings obligation refunding bonds were issued to fund the implementation of the District's energy savings improvement plan ("ESIP"), entailing various permitted energy conservation measures under the ESIP Law. This includes installation of interior and exterior lighting upgrades and replacements, lighting occupancy sensors, energy management systems, HVAC systems and control systems, building exterior weatherization improvements and small-scale solar PV systems.

The ESIP Law (P.L. 2009, c. 4) allowed the District to issue energy savings obligation refunding bonds without voter approval to fund certain improvements that result in reduced energy use, facilities for production of renewable energy or water conservation improvements (collectively, "ECMs"); provided that the value of the savings will cover the cost of the ECMs. The ESIP law provides, however, that notwithstanding any law to the contrary, energy savings obligation refunding bonds shall not be excepted from any budget or school levy limitation otherwise provided by law, and shall be funded through appropriations in the General Fund annual budget, on the basis that the costs of implemented energy conservation measures should be fully offset by energy savings to be generated by such measures (on both an annual and aggregate basis).

The District had ESIP bonds outstanding as of June 30, 2021 as follows:

<u>Purpose</u>	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Amount</u>
ESIP Bonds	7/15/2039	4.00%-5.00%	<u>\$ 7,970,000</u>

B. Bonds Authorized But Not Issued:

As of June 30, 2021, the Board had no bonds authorized but not issued.

C. Unamortized Bond Issuance Premiums:

The liability for unamortized bond issuance premiums of the governmental fund types is recorded in the current and long-term liabilities. The current portion of unamortized bond issuance premiums at June 30, 2021 is \$285,733 and the long-term portion is \$2,285,864.

D. Compensated Absences:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities and is liquidated by the General Fund. The current portion of compensated absences payable at June 30, 2021 is \$83,468 and the long-term portion is \$4,353,564.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees; however, there was no liability as of June 30, 2021.

E Net Pension Liability:

The Public Employees' Retirement System's (PERS) net pension liability of the governmental fund types is recorded in the current and long-term liabilities and will be liquidated by the General Fund. The current portion of the net pension liability at June 30, 2021 is \$-0- and the long-term portion is \$16,634,776. See Note 9 for further information on the PERS.

NOTE 9. PENSION PLANS

Substantially all of the Board's employees participate in one of the two contributory, defined benefit public employee retirement systems: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employee's Retirement System (PERS) of New Jersey; or the Defined Contribution Retirement Program (DCRP), a tax-qualified defined contribution money purchase pension plan under Internal Revenue Code (IRC) 401(a).

A. Public Employees' Retirement System (PERS)

Plan Description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about the PERS, please refer to the Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service. The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011

NOTE 9. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Benefits Provided (Cont'd)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 with 25 years or more of service credit before age 62 and Tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing members. The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years, beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. District contributions to PERS amounted to \$1,115,914 for fiscal year 2021.

The employee contribution rate was 7.50% effective July 1, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$16,634,776 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019 which was rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2020, the District's proportion was 0.102%, which was an increase of 0.0061% from its proportion measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the District recognized pension expense of \$700,812.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources on the following page.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

Amounts reported as deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts including changes in proportion and District contribution subsequent to the measurement date) related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Total
2021	\$ (2,087,360)
2022	(1,903,038)
2023	(1,087,538)

Actuarial Assumptions

The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019 which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00 – 6.00% based on years of service
Thereafter	3.00 – 7.00% based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee Mortality Table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and a 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

A. Public Employees' Retirement System (PERS) (Cont'd)

Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS' target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Markets Equity	13.50%	8.57%
Emerging Market Equity	5.50%	10.23%
Private Equity	13.00%	11.42%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Investment Grade Credit	8.00%	2.67%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Risk Mitigation Strategies	3.00%	3.40%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Plan Description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF), is a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The TPAF is administered by the State of New Jersey Division of Pensions and Benefits (the Division).

For additional information about the TPAF, please refer to the Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 with 25 years or more of service credit before age 62 and Tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for their respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing members. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For fiscal year 2021, the State's pension contribution was less than the actuarial determined amount.

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers, such as the District. This note discloses the portion of the State of New Jersey's total proportionate share of the net pension liability that is associated with the District. During the fiscal year ended 2021, the State of New Jersey contributed \$7,621,534 to the TPAF for normal pension benefits on behalf of the District, which is less than the contractually required contribution of \$10,796,995.

The employee contribution rate was 7.50% effective July 1, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the State's proportionate share of the net pension liability associated with the District was \$173,629,077. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019 which was rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2020, the District's proportion was 0.2637%, which was a decrease of 0.0009% from its proportion measured as of June 30, 2019.

District's Proportionate Share of the Net Pension Liability	\$ -0-
State's Proportionate Share of the Net Pension Liability Associated with the District	173,629,077
Total	\$ 173,629,077

For the fiscal year ended June 30, 2020, the State recognized pension expense on behalf of the District in the amount of \$10,796,995 and the District recognized pension expense and revenue for that same amount in the fiscal year ended June 30, 2021 financial statements.

Discount Rate – TPAF

The discount rate used to measure the total pension liability was 5.40% as of June 30, 2020. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.21% as of June 30, 2020 based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 78% of the actuarially determined contributions for the State. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062. Therefore, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through 2062, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

C. Defined Contribution Retirement Program (DCRP)

Prudential Financial jointly administers the DCRP investments with the NJ Division of Pensions and Benefits. If an employee is ineligible to enroll in the PERS or TPAF, the employee may be eligible to enroll in the DCRP. DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of 5.50% for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution.

For DCRP, the District recognized pension expense of \$37,251 for the fiscal year ended June 30, 2021. Employee contributions to DCRP amounted to \$50,588 for the fiscal year ended June 30, 2021.

NOTE 10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

State Health Benefit Program Fund – Local Education Retired (including Prescription Drug Program Fund)

General Information about the OPEB Plan

Plan Description and Benefits Provided

The District is in a "special funding situation", as described in GASB Codification Section P50, in that OPEB contributions and expenses are legally required to be made by and are the sole responsibility of the State of New Jersey, not the District.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefits for the State Health Benefit Local Education Retired Education Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in GASB Codification Section P50. The State Health Benefits Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Actuarial Assumptions and Other Inputs (Cont'd)

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018 and July 1, 2014 – June 30, 2018 for TPAF and PERS, respectively.

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2010 Healthy “Teachers” (TPAF/ABP), “General” (PERS), and “Safety” (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Post-retirement mortality rates were based on the Pub-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Disability mortality was based on the Pub-2010 “General” classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.7% and decreases to a 4.5% long term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal year 2020 is reflected. The assumed post-65 medical trend rate is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long term rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2019 and 2018 was 3.50% and 3.87%, respectively, a change of -.37%. This represents the municipal bond rate as chosen by the State of New Jersey Division of Pensions and Benefits. The source is the Bond Buyer Go 20-Bond Municipal bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2021, the District recognized OPEB expense of \$2,601,400 as determined by the State of New Jersey Division of Pensions and Benefits. This expense and the related offsetting revenue are for benefits provided by the State through a defined benefit OPEB plan that meets the criteria in GASB Codification Section P50, in which there is a special funding situation.

In accordance with GASB Codification Section P50, as the District's proportionate share of the OPEB liability is \$-0, there is no recognition of the allocation of the proportionate share of the deferred inflows and outflows of resources. At June 30, 2019, the State deferred outflows of resources and deferred inflows of resources related to OPEB attributable to the District is from the following sources:

NOTE 11. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The District has health benefits coverage for its employees under the State of New Jersey Employees' Health Benefit Plan.

Property and Liability Insurance

The Morris Hills Regional School District is a member of the New Jersey Schools Insurance Group (the "Group"). This public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. The Group is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Group are elected.

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, interest earned, reimbursements to the State for benefits paid and the ending balance of the District's restricted unemployment compensation fund balance in the General Fund for the current and previous two fiscal years.

NOTE 15. CONTINGENCIES

Litigation

The Board is periodically involved in claims and lawsuits arising in the normal course of business, including issues regarding special education. The Board does not believe that the ultimate outcome of these claims will have a material adverse effect on the District's financial position.

Grant Programs

The District participates in federally and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the District is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

Encumbrances

At June 30, 2021 there were \$295,425 of encumbrances in the Capital Projects governmental funds. The \$295,425 of fiscal year-end encumbrances in the Capital Projects Fund are included in the \$2,565,029 committed fund balance on a GAAP and budgetary basis at June 30, 2021.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
(Continued)

NOTE 16. ECONOMIC DEPENDENCY

The Board of Education receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Board of Education's programs and activities.

NOTE 17. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Borough of Wharton recognized revenue in the amount of \$595,790 from two payment in lieu of taxes ("PILOT") agreements. The taxes which would have been paid on these properties for 2020 without the abatements would have been \$996,764 of which \$244,302 would have been regional school taxes.

NOTE 18. TAX CALENDAR

Property taxes are levied by the District's constituent municipalities as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10.

Taxes are collected by the constituent municipalities and are remitted to the regional school district on a predetermined mutually agreed-upon schedule.

NOTE 19. PRIOR YEAR ADJUSTMENT

GASB 84, *Fiduciary Activities*, was implemented during the fiscal year ended June 30, 2021. As part of this implementation, the activity for the Unemployment Compensation Insurance and Flexible Spending Trust Funds which had previously been reported in the Fiduciary Funds is now reported in the General Fund. The Student Activities Fund (which includes Athletic Activities) and Scholarships are now reported in the Special Revenue Fund. The ending balances as of June 30, 2020 were restated due to this implementation as follows:

NOTE 20. SUBSEQUENT EVENTS

The COVID-19 outbreak in the United States and specifically in New Jersey has caused disruption of the District's normal financial operations. Though the impact on the District's operations cannot be reasonably estimated at this date, it is likely that there will be an impact on certain revenue in the General Fund other than state aid and the local tax levy. There have been additional operating expenses in the General Fund due to schools re-opening on a full-time basis.

Note A - Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

	General Fund	Special Revenue Fund
Sources/Inflows of Resources:		
Actual Amounts (Budgetary Basis) "Revenue" from the Budgetary Comparison Schedule	\$ 84,356,719	\$ 1,571,712
Difference - Budgetary to GAAP:		
Grant Accounting Budgetary Basis Differs from GAAP in that the Budgetary Basis Recognizes Encumbrances as Expenditures and Revenue whereas the GAAP Basis Does Not:		
Prior Year Encumbrances		2,880
Prior Year State Aid Payments Recognized for GAAP Statements, not Recognized for Budgetary Purposes	782,163	
Current Year State Aid Payments Recognized for Budgetary Purposes, not Recognized for GAAP Statements	(790,315)	
Total Revenues as Reported on the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds	\$ 84,348,567	\$ 1,574,592
Uses/Outflows of Resources:		
Actual Amounts (Budgetary Basis) "Total Outflows" from the Budgetary Comparison Schedule	\$ 80,373,690	\$ 1,641,777
Differences - Budgetary to GAAP:		
Encumbrances for Supplies and Equipment Ordered but Not Received are Reported in the Year the Order is Placed for Budgetary Purposes, not in the Year the Supplies are Received for GAAP Reporting Purposes.		
Prior Year Encumbrances		2,880
Total Expenditures as Reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds	\$ 80,373,690	\$ 1,644,657

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budget was submitted to the County office and was approved by a vote of the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

MORRIS HILLS REGIONAL SCHOOL DISTRICT
REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY COMPARISON SCHEDULE
NOTE TO RSI
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis except for student activities and scholarships. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the June state aid payments for the current year. Since the State is recording the June state aid payments in the subsequent fiscal year, the District cannot recognize these payments in the GAAP financial statements.

Morris Hills Regional School District Direct Debt			<u>28,665,000</u>
Total Direct and Overlapping Debt			<u><u>\$ 94,474,938</u></u>

a - For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the district's boundaries and dividing it by each unit's total equalized property value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by residents and businesses of Denville Township, Rockaway Borough, Rockaway Township and Wharton Borough. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

The Honorable President and Members
of the Board of Education
Morris Hills Regional School District
County of Morris, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey (the "Department"), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Morris Hills Regional School District, in the County of Morris (the "Board") as of, and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Honorable President and Members
of the Board of Education
Morris Hills Regional School District
Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Federal and State Program;
Report on Internal Control Over Compliance

Independent Auditors' Report

The Honorable President and Members
of the Board of Education
Morris Hills Regional School District
County of Morris, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Morris Hills Regional School District (the "District's") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the fiscal year ended June 30, 2021. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"); and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

The Honorable President and Members
of the Board of Education
Morris Hills Regional School District
Page 2

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJOMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance or NJOMB 15-08. Accordingly, this report is not suitable for any other purpose.

MORRIS HILLS REGIONAL SCHOOL DISTRICT
NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1. BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal and state awards include federal and state awards activity of the Board of Education, Morris Hills Regional School District under programs of the federal and state governments for the fiscal year ended June 30, 2021. The information in these schedules are presented in accordance with Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”) and New Jersey’s OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Because the schedules present only a selected portion of the operations of the District, they are not intended to and do not present the financial position, changes in net position or cash flows of the District.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the accompanying schedules of expenditures of federal and state awards are reported on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented on the accrual basis of accounting. These bases of accounting are described in Note 1 to the District’s basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3. INDIRECT COST RATE

The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund, special revenue fund and capital projects fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last two state aid payments in the current budget year, which is mandated pursuant to P.L. 2003, C.97 (A3521). For GAAP purposes, those payments are not recognized until the subsequent budget year due to the state deferral and recording of the last two state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Grant revenue in the capital projects fund is recognized on the budgetary basis in the fiscal year of award but is not recognized on the GAAP basis until expended and submitted for reimbursement.

NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
(Continued)

NOTE 4. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (Cont'd)

The net adjustment to reconcile revenue from the budgetary basis to the GAAP basis is \$(8,152) for the general fund and \$2,880 for the special revenue fund. See Note 1D for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general, special revenue and capital projects funds.

Awards and financial assistance revenue are reported on the Board's financial statements on the GAAP basis as presented below:

	Federal	State	Total
General Fund	\$ 6,172	\$ 22,320,691	\$ 22,326,863
Special Revenue Fund	1,087,257	360,279	1,447,536
Food Service Enterprise Fund	218,042	6,823	224,865
Total Financial Assistance	\$ 1,311,471	\$ 22,687,793	\$ 23,999,264

NOTE 5. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 6. OTHER

TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2021. Revenue and expenditures reported under the Federal Food Distribution Program represent current fiscal year value received and current fiscal year distributions, respectively.
