"Building a Tradition of Excellence"

Asia Michael

Superintendent of Schools

February 25, 2022

Honorable President and Members of the Board of Education Township of Southampton School District County of Burlington Southampton, New Jersey

Dear Board Members/Citizens:

The Comprehensive Annual Financial Report (CAFR) of the Southampton Township School District for the fiscal year ended June 30, 2021, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Southampton Township School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the district as of June 30, 2021, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

The Comprehensive Annual Financial Report is presented in four sections as follows:

Introductory Section:

Section contains a Letter of Transmittal, Roster of Officials, Consultants and Advisors, and an Organizational Chart.

Financial Section:

Section contains the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements, Required Supplementary Information (RSI) and Other Supplementary Information.

Statistical Section:

Section contains selected financial trends, revenue and debt capacity, demographic, economic and other operating information, generally presented on a multi-year basis.

Single Audit Section:

The School District is required to undergo an annual Single Audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and New Jersey OMB's Circular 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". Information related to this Single Audit, including the independent auditor's report on the internal control and compliance with applicable laws, regulations, contracts and grants, along with findings and questioned costs, if any, are included in the Single Audit Section of this report.

REPORTING ENTITY AND ITS SERVICES

The Southampton Township School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standard Board (GASB) as established by NCGA Statement No. 3. All funds of the School District are included in this report. The School District has no component units.

The School District provides a full range of educational services appropriate to grade levels Pre-K through 8. Our Kindergarten students participate in a full-day program that is further enhanced by the presence of an instructional assistant in each classroom to assist the students, teacher, and supplement instructional activities. In addition, the school District operates a pre-school program for student's aged 3-5 who have special needs. A full array of support services including comprehensive special education programming, basic skills instruction, guidance services, and enrichment programs are available to our students. The School District's enrollment as of October 15th for the past ten fiscal years are detailed below.

	Student	Percent
Fiscal Year	Enrollment	<u>Change</u>
2020-2021	713	1.57%
2019-2020	702	-0.71%
2018-2019	707	-0.84%
2017-2018	713	0.56%
2016-2017	709	2.75%
2015-2016	690	-2.82%
2014-2015	710	-1.80%
2013-2014	723	-2.17%
2012-2013	739	-5.62%
2011-2012	783	-1.39%

ECONOMIC CONDITION AND OUTLOOK

The economic condition of Southampton Township continues to be stable. The ratables in the township are presently flat. No significant change in business or industrial growth is projected. Property values in the area during the past couple of years are slowly increasing after several years of a flat real estate market.

ECONOMIC CONDITION AND OUTLOOK (continued)

Residential development is presently almost at a standstill and thus is not impacting the resources of the School District. Presently, the majority of new housing can be characterized as high-end single family homes in a rural setting. There is potential for substantial residential development in the community.

Due to the legislation of S-2 being passed, the school district is presently subject to a substantial loss of state aid over the next several years with a 50% reduction projected. The loss of state aid will make it extremely challenging to maintain existing educational programming for students and nearly impossible to create new programming.

The concern pertaining to the reduction in state aid is clearly reflected in the Board of Education's and Superintendent of School's focus on planning and addressing this issue via a multi-year Board of Education Goal and the creation / participation in the "Support Our Students" (SOS) statewide coalition of school districts losing state aid.

MAJOR INITIATIVES

The Board of Education and administration have continued to be aggressively committed to upgrading and maintaining the school grounds and facilities.

Six (6) ROD4 grants approved via the School Development Authority were used to install air conditioning in all three schools as well as security enhancements, and replacement of the School #1 roof. These six (6) grants were approved to receive 40% state funding for each project.

The majority of the local share for School #1 re-roofing project was funded via the district's capital reserve account. The Board of Education placed some available fund balance in this account for four years to save for this project. The re-roofing of School #1 was completed in the summer of 2016.

After almost two years of planning and negotiation the school district entered into a Power Purchase Agreement (PPA) for a solar ground array with Marina Energy. Construction of the solar ground array was completed in February 2014. The PPA is projected to save the school district over one million dollars in electrical energy costs during the fifteen year agreement.

The solar project will also provide an excellent educational experience for the students and residents alike as a result of the landscaping that will occur as part of the buffering plan for the solar ground array. The landscaping will include wild grasses, wildflowers, and shrubbery. This area will be used for environmental education classes. The first phase of the buffering plan was planted in the spring of 2014. Phase two of this project was completed during the Spring of 2017.

As a result of the solar ground array, the district relocated two of the athletic fields closer to the buildings. Construction of the fields commenced during the Fall of 2015 after long and arduous negotiations with the owner of the solar ground array and the contractor who installed the solar array. The new fields were completed in spring 2016.

During the summer of 2020, the School # 1 playground was reconstructed. This involved the replacement of the old equipment with more modern and interactive pieces. This project was made possible in large part by a STAR grant in the amount of \$45,000.

The school district's focus on educational programming and educational achievement for the 2020-2021 school year are articulated in the three (3) goals that were developed with input from the teaching staff, Administrative Team, and Board of Education. The goals are as follows:

GOAL #1: The superintendent will lead the administrative team in developing a comprehensive action plan to enhance the school district's climate and culture and address identified issues of diversity and acceptance. During the 2020-2021 school year, the perspective of the School Climate Culture Committee will be utilized along with feedback from staff and students to create a climate and culture inclusive of all students with an emphasis on race, gender, class, and ability. The breadth of the work for this goal will center on professional development for staff and training for students in the area of restorative justice and equity. In addition, the "Wingman" program, designed to enhance student empathy, will be expanded to include lower elementary students. Training for the administrative team will pertain to cultural competence.

By June 2021, data and feedback collected will show a 10% increase in positive school climate ratings by students, staff, and parents, AND 85% of the students in the district will have participated in a restorative circle at least twice each month.

GOAL #2: The superintendent will lead the administrative team and lead teachers in developing an action plan to guide the on-going, district-wide Differentiated Instruction initiative in grades K-8. During the 2020-2021 school year, through training and observation feedback, teachers will be provided with support in order to modify the content, process, and product within their instructional plans. The "Southampton DI Digital Toolkit" will also serve as a resource for professional growth.

By the end of the 2020-2021 school year, there will be a 10% increase in the number of students scoring at or above proficiency in ELA and math across all subgroups, as measured by the 2021 state assessment.

GOAL #3: The superintendent will lead the administrative team in developing an action plan to provide the school community with the foundation for life-long social emotional learning. During the 2020-2021 school year, a multi-year plan will be developed and implemented to help staff and students embody the five SEL Core Competencies: self-management, social awareness, relationship skills, self-awareness, and responsible decision-making. An essential component of this goal will be the successful implementation of the shared MD program for grades 3-5. Training and professional development for students and staff will focus on building positive relationships in an inclusive environment and interacting with staff and the school community in a way that demonstrates cultural competence.

By June 2021, data will show an increase in students' ability to solve problems in peaceful ways, as evidenced by a 10% reduction in office referrals related to peer conflict AND a 10% decrease in founded HIBs based on the annual HIB report.

One of our major initiatives during the 2020-2021 school year was the implementation of our shared Multiple Disabled (MD) program for students in grades 3-5. By partnering with other schools in our region, we were able to bring out-of-district students back in district and save several thousand dollars a year. The coordination of the program with our regional partners, allows us to keep our students within our shared district through grade eight, which each partner serving a different grade band. This program was developed from the ground up. Funds were used to redesign the classroom space to accommodate the needs of the students in the program in our district, create and furnish a separate sensory room, purchase program

materials for varying abilities and student levels, contract a separate bus service, and for multiple staff members.

Another major initiative during the 2020-2021 was to provide social and emotional health supports for our entire school community. Going into the new school year, we found that our students, families, and staff were still struggling mentally, socially, and emotionally as a result of the pandemic. We purchased a social and emotional learning (SEL) program to help teachers provide support for students in this area. ESSER II funds were a huge help for us with SEL. We used ESSER II funds to hire a fourth school counselor, to contract the service of consultants to provide SEL training for teachers as well as mental health support for themselves, extended our summer learning programs, and provide a Remote Transition program to help our remote students re-acclimate to campus.

ESSER I funds were utilized to purchase necessary PPE as well as air purifiers. These items greatly help combat the spread of COVID-19 in our buildings. Funds were also used to hire a part-time custodian who helped with the increased cleaning necessary to help sanitize learning spaces and high touch areas throughout the building.

The curricula of the Southampton Township School District are aligned to and in accordance with the New Jersey Student Learning Standards. The school district utilizes a five year curriculum review matrix to ensure that every content area is reviewed, enhanced through revisions, monitored, and assessed within the approved cycle. The written curricula are developed in-district with the active participation of the teaching staff in collaboration with the Director of Curriculum and administrative team. The focus of the written curricula is to ensure that the various New Jersey Student Learning Standards are thoroughly addressed via classroom instruction. Careful consideration is given to grade level articulation, the scope and sequence of the curricula, and ensuring that selected textbooks and supplemental materials align with the standards.

All of the district's curricula is now available on-line via Atlas, a curriculum platform customized for school districts. Data entry of revised curricula commenced during the summer of 2016 and was completed by September 1, 2018. The state has since revised the standards in a number of content areas; the curricula will be revised this summer and fall to align with the new standards.

Enhancements to the school district's curricula continues to take place. Since the return from remote learning in the spring of 2020, we have converted a number of our instructional practices to electronic devices. The incorporation of instructional technology has occurred across all content areas in grades 2-5. Although there has not been an increase in instructional technology in grades K-1, the addition of resources has helped to enhance the curricula. Overall, we have incorporated revisions in the following areas:

K-8, Art K-8, Social Studies
K-5, S.T.E.P. K-8, Spanish
K-5, Library Grades 3-8, Health
K-8, Vocal Music Grades 3-6, Technology
K-5, Technology Grades 6-8 English Language Arts
K-5, Reading Grade 8, Algebra

K-8, Science Grade 8, I-STEAM, Design

Thinking

Southampton Township School District has continued to improve its educational technology over the past several years. All classrooms, computer labs, and offices have high speed Internet connectivity. The district

has three (3) I-STEAM labs, we are one-to-one in grades 3-8, and there are two mobile carts for each grade level in our K-2 building.

During the summer of 2020-2021 the district procured another 350 Chromebooks. With this procurement, a one-to-one initiative has been achieved with Chromebooks for grades 3-8, and the district is close to achieving one-to-one with electronic devices in grades K-2.

The school district has a Smart Board in every classroom, including our special area and POR classrooms, throughout the district. Smart Boards are highly motivating for students and provide them with a hands-on experience that enhances the learning experience for classroom instruction via a multi-sensory approach. In the summer of 2020-2021, six new SMARTBoards were purchased to begin the replacement of our older district models. This will be an ongoing project.

The school district utilizes Realtime as our Student Information System (SIS). Realtime enables the staff to track attendance, record and maintain grades, schedule teacher, student, and facility information, record discipline, maintain medical information, manage special education enrollment and Individualized Education Programs, and easily complete mandated New Jersey Department of Education reports.

Realtime is also used by administrators to conduct staff evaluations, which include pre-observation conferences, classroom observations, post-observation conferences, staff student growth objectives, staff professional development plans, and staff summative evaluations. Realtime is also used in the same capacity by the superintendent for administrator evaluations.

A Parent Portal is another prominent feature of Realtime. The Parent Portal functions as another means of communication between teachers and parents. Now all parents are able to access their child's school related data. Previously, only middle school parents had this opportunity. The data parents can view include grades, schedule, attendance, and school calendar information. In addition, parents are able to schedule desired times during parent-teacher conferences, view digital report cards when they are available, and view and sign off on important documents at the beginning of each school year. A new feature in 2020-2021 allows new families to register their student in our district.

The Board of Education developed three (3) goals that are the focus of the Board of Education's effort during the school year. These goals are developed collaboratively by the Board of Education members with input from the superintendent.

The Board of Education goals for 2020-2021 were as follows:

GOAL #1: The Board of Education, in consultation with the Superintendent, Business Administrator, and Administration Team will develop a comprehensive action plan to address the social and emotional health needs of the Southampton Township School Community for the 2021–2022 school year.

GOAL #2: The Board of Education, is excited to help transition the 2021–2022 administrative team comprised of familiar faces, but the majority in new roles, including the Superintendent. What is unchanged is the unified goal of serving the students and families of Southampton to the best to our collective abilities. The Board will continue to take advantage of opportunities to communicate and work together, while also keeping the community informed about the good work taking place each and every day in our schools.

GOAL #3: The Board of Education in consultation with the Superintendent, and Business Administrator will develop a comprehensive action plan to support the COVID-19 Pandemic School Reopening Plan. This action plan will include educating the school community on the COVID-19 Pandemic School Reopening Plan and ensuring compliance with all necessary local, state and federal health, safety and education guidelines. Detailed action plans will be shared with the public via the Board of Education agenda and community topic presentations at Board of Education meetings.

The school district's Governance Manual is an electronic format that is available on-line. The Board of Education has an annual maintenance contract with Strauss & Esmay, Inc. that provides policy and regulation updates, plus the on-line subscription.

INTERNAL ACCOUNTING CONTROLS

Management of the School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft and misuse and to ensure that adequate accounting data are completed to allow for the preparation of financial statement in conformity with general accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be delivered; and (2) the valuation of costs and benefits require estimates and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluations by the district management.

As part of the School District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

BUDGETARY CONTROLS

In addition to internal accounting controls, the School District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or included as re-appropriations of fund balance in the subsequent year.

ACCOUNTING SYSTEM AND REPORTS

The School District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The School District's accounting system is organized on the basis of funds. The funds are explained in "Notes to Financial Statements", Note 1.

OTHER INFORMATION

INDEPENDENT AUDIT

State statutes require an annual audit by independent certified public accountants. The accounting firm of Holt McNally & Associates, Inc., was appointed by the Board of Education. In addition to meeting the requirements set forth in the State statutes, the audit was also designed to meet the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditor's report on the basic financial statements and combining statements and related major fund supporting statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit section of this report.

ACKNOWLEDGEMENTS

We would like to express our appreciation to the members of the Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have accomplished without the efficient and dedicated services of our business office staff.

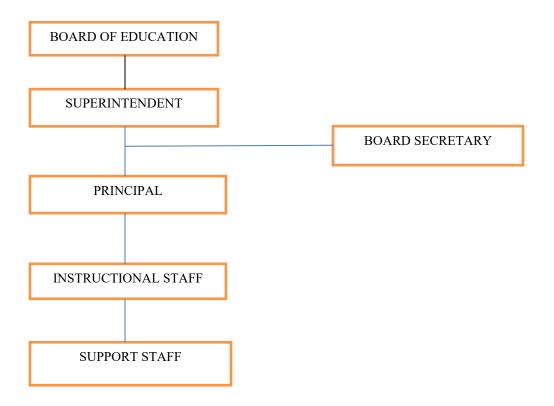

Respectfully submitted,

Asia Michael, Superintendent

Casey DeJoseph, School Business Administrator/Board Secretary

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Southampton Township School District County of Burlington Southampton, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Southampton Township School District, County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards and requirements require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

618 Stokes Road, Medford, NJ 08055

P: 609.953.0612 • **F:** 609.257.0008

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Southampton Township School District, County of Burlington, State of New Jersey, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, during the fiscal year ended June 30, 2021 the District adopted new accounting guidance, *GASB Statement No. 84, Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Prior Period Restatement

Due to the implementation of GASB Statement No. 84, fund balance as of June 30, 2020 on the statement of activities and the statement of revenues, expenditures, and changes in fund balances has been restated, as discussed in note 21 to the financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the schedules related to accounting and reporting for pensions & other post-employment benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Southampton Township School District's basic financial statements. The introductory section, combining and individual fund statements, long-term debt schedules and statistical section, are presented for purposes of additional analysis, as required by the Division of Administration and Finance,

Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying schedules of expenditures of federal awards and state financial assistance, as required by New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid are also not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 25, 2022 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Respectfully Submitted,

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited)

As management of the Southampton Township School District, New Jersey (School District), we offer readers of the School District's financial statements this narrative overview and analysis of the School District for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. Comparison to the prior year's activity is provided in this document. The basic financial statements are comprised of three components:

1) Government-Wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the financial activities in a manner similar to a private-sector business. The government-wide financial statements include the statement of net position and the statement of net activities.

The *statement of net position* presents information about all of the School District's assets and liabilities. The difference between the assets plus deferred outflows or resources and liabilities plus deferred inflows of resources is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the School District changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in this statement even though the resulting cash flows may be recorded in a future period.

Both of the government-wide financial statements distinguish functions of the School District that are supported from taxes and intergovernmental revenues (governmental activities) and other functions that are intended to recover most of their costs from user fees and charges (business-type activities). Governmental activities consolidate governmental funds including the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund. Business-type activities reflect the Food Service Fund.

Fund Financial Statements

Fund financial statements are designed to demonstrate compliance with financial-related requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific objectives. All of the funds of the School District are divided into two categories: governmental funds and proprietary funds.

Governmental funds account for essentially the same information reported in the governmental activities of the government-wide financial statements. However, unlike the government-wide financial statements,

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited) (Continued)

Overview of the Basic Financial Statements (continued)

Fund Financial Statements (continued)

the governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the financial requirements in the near term.

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, a reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains four individual governmental funds. The major funds are the General Fund, the Special Revenue Fund, the Capital Projects Fund, and the Debt Service Fund. They are presented separately in the fund financial statements.

The School District adopts an annual appropriated budget for the General Fund, Special Revenue Fund and the Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with budgetary requirements.

Proprietary funds are used to present the same functions as the business-type activities presented in the government-wide financial statements. The School District maintains one type of proprietary fund – the Enterprise Fund. The fund financial statements of the enterprise fund provides the same information as the government-wide financial statements, only in more detail.

The School District's one enterprise fund (Food Service Fund) is listed individually and is considered to be a major fund.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Financial Analysis of the School District as a Whole

Table 1 provides a summary of the School Districts net position for the fiscal years 2021 and 2020.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited) (Continued)

Governmental Activities

Governmental activities increased the net position of the School District by \$1,650,589 or 7.9% during the current fiscal year.

The assets and deferred outflows of the primary government activities exceeded liabilities and deferred inflows by \$22,567,320 with an unrestricted deficit balance of \$2,110,955. As mentioned earlier, deficit unrestricted net position are primarily due to accounting treatment for compensated absences payable, net pension liability and the last 2 state aid payments. The School District's governmental activities unrestricted net position had GASB 68 pension not been implemented would have been as follows:

Table 3

Unrestricted Net Position (With GASB 68)	\$ (2,110,955)
Add back: PERS Pension Liability Add back: Deferred Inflows related to pensions Less: Deferred Outflows related to pensions	 1,872,603 1,234,208 (500,776)
Unrestricted Net Position (Without GASB 68)	\$ 495,080

Business-type Activities

At the end of the current fiscal year, the School District's proprietary funds (Food Service Fund) reported an ending net position of \$115,427, a decrease of \$3,216 from the prior year.

General Fund Budgeting Highlights

Final budgeted revenues was \$13,921,355, which was equal to the original budget. Final budgeted appropriations was \$14,339,447, which was an increase of \$93,133 from the original budget. The difference is the combination of prior year reserve for encumbrances and a withdrawal from Maintenance Reserve.

Financial Analysis of the Government's Funds

Governmental Funds - At the end of the current fiscal year, the School District's governmental funds reported a combined ending fund balance of \$3,832,493, an increase of \$1,082,351 or 39.36% from the prior year fund balance in the amount of \$2,750,142.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited) (Continued)

Capital Assets

The School District's capital assets for its governmental and business-type activities as of June 30, 2021, totaled \$24,017,065 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements and equipment. There was a net decrease in the School District's investment in capital assets for the current fiscal year in the amount of \$191,761. Table 4 reflects the capital assets.

Depreciation Expense	\$	3,000	\$ 3,000

Additional information on the School District's capital assets can be found in the notes to the basic financial statements (Note 5) of this report.

Debt Administration

Long-term debt – At the end of the current fiscal year, the School District had total bonded debt outstanding of \$2,170,000, which is a decrease of \$550,000 from the prior year.

Additional information on the School District's long-term obligations can be found in the notes to the basic financial statements (Note 7) of this report.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021 (Unaudited) (Continued)

Factors on the School District's Future

The following factors were considered and incorporated into the preparation of the School District's budget for the 2021-22 fiscal year:

- State funding losses due to S-2 legislation
- Re-acclimation of staff and students to in-person instruction in the District
- Managing COVID-19 expenses

The Southampton Township Board of Education is in good financial condition presently. The School District is proud of its community support. As evidenced by the financial statement contained herein, the district exhibits fiscal restraint while continuing to provide an excellent educational program for its students.

A major concern is the lack of state and federal revenues, which have resulted in increased property taxes. The delay of payment into the next fiscal year of the June payment, now representing ten percent (10%) of total State aid is of great concern to the Board of Education. The State of New Jersey has continued to diminish its' share of funding for the Southampton Township School District. In fiscal year 1992, direct state aid was \$2,350,000, representing 36% of the \$6.7 million general operating budget. In fiscal year 2020 direct state aid was \$1,929,551 representing a mere 13.9% of the \$13.9 million general operating budget. Consequently, the lack of proportionate state support has shifted the burden to the taxpayers of the community with tax levy now representing 84.7% of the general operating budget versus 56% in fiscal year 1992.

In conclusion, the Southampton Township Board of Education has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

Contacting the School Districts Financial Management

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Southampton Township School District Business Administrator, Southampton, New Jersey 08088-8874.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Total Net Changes in Fund Balances - Governmental Funds (B-2)		\$ 1,082,351
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.		
Depreciation Expense \$ Capital Outlays	(415,390) 226,629	(188,761)
Governmental funds report School District pension contributions as expenditures. However in the statement of activities, the cost of pension benefits earned is reported as pension expense. This is the amount by which pension benefits earned exceeded the School District's pension contributions in		
the current period.		167,970
Repayment of long-term debt principal and obligation of lease purchase agreements are an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net		
position and is not reported in the statement of activities.		550,000
In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued		
interest is an addition in the reconciliation (+).		3,896
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount		
exceeds the earned amount the difference is an addition to the reconciliation (+).		35,133
Change in Net Position of Governmental Activities		\$ 1,650,589

Proprietary Funds

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The financial statements of the Southampton Township School District (the 'District') have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of more significant accounting policies.

Reporting Entity

The Southampton Township School District (hereafter referred to as the "District") is a Type II district located in the County of Burlington, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three members' terms expire each year. The purpose of the District is to educate students in grades kindergarten through eighth at its three schools. The District has an approximate enrollment at June 30, 2021 of 713 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District.

There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

Component Units

GASB Statement No.14. The Financial Reporting Entity, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units, GASB Statement No. 61, The Financial Reporting Entity: Omnis - an amendment of GASB Statements No. 14 and No. 34, GASB Statement No. 80, Blending Requirements for certain component units – and Amendment of GASB Statement No. 14 and GASB Statement No. 90, Majority Equity Interests – An amendment of GASB Statements No. 14 and No. 61. The District had no component units as of or for the year ended June 30, 2021.

Government-Wide Financial Statements

The District's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the District accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets, deferred outflows of resources, liabilities, and

Note 1. Summary of Significant Accounting Policies (continued):

deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the District are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule (Exhibit B-3) is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The District has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. (The District's deferred outflows of resources and deferred inflows of resources are noncurrent.) The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the District, are property tax and intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Proprietary Fund Financial Statements

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and for the non-major funds aggregated. A column representing internal service funds is also presented in these statements. However, internal service funds balances and activities have been combined with the governmental activities in the Government-Wide financial statements.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized

Note 1. Summary of Significant Accounting Policies (continued):

in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

While government-wide and fund financial statements are presented separately, they are interrelated. The governmental activities column of the government wide statements incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the District's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in the governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, charges for services, licenses, and interest on notes receivable associated with the current fiscal period are all considered to be susceptible to accrual and accordingly have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available when cash is received.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of

Note 1. Summary of Significant Accounting Policies (continued):

the Food Service Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, employee salaries and benefits, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Internal service funds are used to account for those operations which provide benefits to other funds, departments, or agencies of the primary government and its component unit. Although internal service funds are reported as a proprietary fund in the fund financial statements, it is incorporated into governmental activities in the government-wide financial statements. The District does not maintain any internal service funds.

The District reports the following major governmental funds:

General Fund - The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey Department of Education the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, interest earnings and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following major proprietary funds:

Food Service Fund – This fund accounts for the revenues and expenses pertaining to the District's cafeteria operations.

Note 1. Summary of Significant Accounting Policies (continued):

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds and internal service funds) are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the county office. In accordance with P.L.2011 c.202, which became effective January 17, 2012, the District eliminated the April annual voter referendum on budgets which met the statutory tax levy cap limitations and the board of education members are elected at the November general election. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2-2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23-2-11.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2, and Exhibit I-3, includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounts as presented in the General Fund Budgetary Comparison Schedules and the Special Revenue Fund Budgetary Comparison Schedule to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds. Note that the District does not report encumbrances outstanding at fiscal

Note 1. Summary of Significant Accounting Policies (continued):

year-end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the last state aid payments.

Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as a reduction of the accounts receivables or as unearned revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

Cash and Cash Equivalents

Cash and Cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost.

New Jersey School Districts are limited as to the types of investments and types of financial institutions they may invest in. *N.J.S.18A:20-37* provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A.17:9-41 et. Seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

Tuition Payable/Receivable

Tuition rates for the fiscal year end June 30, 2021 were established by the receiving district based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

Note 1. Summary of Significant Accounting Policies (continued):

Inventories

Inventories are valued at cost, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when consumed rather when purchased.

Interfund Receivables/Payables

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year. The amounts are eliminated in the governmental and business-type activities, which are presented as Internal Balances.

Capital Assets

Capital assets are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at estimated fair value at the date of donation. The District has established a threshold of \$2,000 for capitalization of depreciable assets.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the District are depreciated or amortized using the straight-line method over the following estimated lives:

Equipment & Vehicles	3-20 Years
Buildings	30-50 Years
Improvements	10-50 Years
Software	5 – 7 Years

Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absences liability is reported on the government-wide financial statements and proprietary fund financial statements. Compensated absences liability is not recorded in the governmental funds. Instead expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of resignations or retirements.

Note 1. Summary of Significant Accounting Policies (continued):

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measureable and the District is eligible to realize the revenue.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, government fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumption that affect certain reported amounts reported in the financial statements and accompanying note disclosures. Actual results could differ from those estimates.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Balance

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies governmental fund balances as follows:

- Non-spendable This classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Non-spendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- Restricted This classification includes amounts for which constraints have been placed on the use of the resources either externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Note 1. Summary of Significant Accounting Policies (continued):

- Committed This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The School Board did not have any committed resources as of June 30, 2021.
- Assigned This classification includes amounts that are constrained by the School District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the business administrator through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- <u>Unassigned</u> This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to consider restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, it is the District's policy to consider amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- <u>Net Investment in Capital Assets</u> This components represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.
- <u>Restricted</u> Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- <u>Unrestricted</u> Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

Note 1. Summary of Significant Accounting Policies (continued):

Impact of Recently Issued Accounting Principles

Adopted Accounting Pronouncements

The following GASB Statements became effective for the fiscal year ended June 30, 2021:

Statement No. 84, *Fiduciary Activities*. The Statement intends to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. To that end, Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments and clarifies whether and how business-type activities should report their fiduciary activities. Statement No. 84 is effective for reporting periods beginning after December 15, 2019.

Statement No. 90, Majority Equity Interests - an amendment of GASB Statements No. 14 and No. 61. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. Statement No. 90 is effective for reporting periods beginning after December 15, 2019.

Recently Issued Accounting Pronouncements

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 87, *Leases*. Statement No. 87 establishes a single approach to accounting for and reporting leases by state and local governments. The GASB based the new standard on the principle that leases are financing of the right to use an underlying asset. Statement No. 87 is effective for reporting periods beginning after June 15, 2021. Management has not yet determined the potential impact on the District's financial statements.

Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Note 1. Summary of Significant Accounting Policies (continued):

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2. Cash Deposits and Investments

Cash Deposits

<u>Custodial Credit Risk</u> – Custodial credit risk is the risk that, in the event of a bank failure, the Board's deposits may not be recovered. Although the Board does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 et seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of GUDPA. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Public fund owned by the Board in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, student activity may pass to the Board relative to the happening of a future condition. Such funds are shown as Uninsured and Uncollateralized in the schedule below. As of June 30, 2021, the District's bank balance of \$4,327,725 was exposed to custodial credit risk as follows:

Insured under FDIC and GUDPA	\$ 4,258,176
Uninsured and Uncollateralized	 69,549
	\$ 4,327,725

Investments

The School District has no investments at June 30, 2021.

Note 3. Reserve Accounts

A. Capital Reserve

A capital reserve account was established by the School District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant *N.J.S.A.19:60-2*. Pursuant to *N.J.A.C.6:23A-14.1(g)*, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Note 3. Reserve Accounts (continued):

The activity of the capital reserve for the July 1, 2020 to June 30, 2021 fiscal year is as follows:

Beginning Balance, July 1, 2020	\$ 1,032,101
Increased by:	
Interest Earnings	 8,778
Ending Balance, June 30, 2021	\$ 1,040,879

The June 30, 2021 balance did not exceed the LRFP balance of local support costs of uncompleted capital projects.

B. Maintenance Reserve Account

The District established a Maintenance Reserve Account for the accumulation of Funds for use as maintenance expenditures in subsequent fiscal years. The Maintenance Reserve Account is maintained in the general fund and its activity is included in the general fund annual budget. Funds placed in the maintenance reserve account are restricted to maintenance projects in the District's approved Maintenance Plan (M-1). A district may increase the balance in the maintenance reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year-end of any unanticipated revenue or unexpended line-item appropriation amounts, or both.

The activity of the maintenance reserve for the July 1, 2020 to June 30, 2021 fiscal year is as follows:

Beginning Balance, July 1, 2020	\$ 421,430
Increased by:	
Interest Earnings	5,201
Deposits approved by Board on June 28, 2021	 450,000
5 44	455,201
Decreased by:	
Budget Withdrawals	 (8,400)
Ending Balance, June 30, 2021	\$ 868,231

C. Emergency Reserve

An emergency reserve account was established for the accumulation of funds for use as emergency expenditures in subsequent fiscal years. The emergency reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The emergency reserve account is used to accumulate funds in accordance with N.J.S.A. 18A:7F-41c(1) to finance unanticipated general fund expenditures required for a thorough and efficient education.

Unanticipated means reasonably unforeseeable and shall not include additional costs caused by poor planning. The maximum balance permitted at any time in this reserve is the greater of \$250,000 or 1 percent of the general fund budget not to exceed \$1 million. Deposits may be made to the emergency

Note 3. Reserve Accounts (continued):

reserve account by board resolution at year end of any unanticipated revenue or unexpended line item appropriation or both. The department has defined year end for the purpose of depositing surplus into reserve accounts as an amount approved by the district board of education between June 1 and June 30.

Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of 4 percent.

Ending Balance, June 30, 2021 and 2020 \$

Note 4. Accounts Receivable

Accounts receivable at June 30, 2021 consisted of accounts and intergovernmental grants. All state and federal receivables are considered collectible in full due to the stable condition of state programs and the current fiscal year guarantee of federal funds. Accounts receivable as of fiscal year end for the School District's individual major funds, in the aggregate, are as follows:

	Governmental Funds								
			:	Special		Capital	Total		
	(General	R	Revenue		Projects	Go	vernmental

Note 6. Interfund Receivables, Payables and Transfers

Individual fund receivables/payables balances at June 30, 2021 are as follows:

Note 6. Interfund Receivables, Payables and Transfers (continued):

Fund	Interfund <u>Receivables</u>			Interfund <u>Payables</u>		
General Fund	\$	50,621	\$	477		
Special Revenue Fund		-		38,071		
Capital Projects Fund		477		-		
Food Service Fund		_		12,550		
	\$	51,098	\$	51,098		

The interfund receivables and payables above predominately resulted from payment made by certain funds on behalf of other funds. All interfund balances are expected to be repaid within one year.

A summary of interfund transfers is as follows:

Fund	<u>Tran</u>	Transfers Out			
General Fund Capital Projects Fund	\$	6,919	\$	- 6,919	
	\$	6,919	\$	6,919	

Note 7. Long-Term Obligations

During the fiscal year-ended June 30, 2021 the following changes occurred in long-term obligations:

		Balance					Balance		Balance ue Within
	<u>Jı</u>	ıly 1, 2020	Additions	R	eductions	Ju	ne 30, 2021	<u>C</u>	ne Year
Governmental Activities:									
General Obligation Bonds	\$	2,720,000	\$ -	\$	550,000	\$	2,170,000	\$	550,000
Compensated Absences		296,365	-		35,133		261,232		-
Net Pension Liability		1,887,049	\$ -		14,446		1,872,603		-
	\$	4,903,414	\$ -	\$	599,579	\$	4,303,835	\$	550,000

For governmental activities, the bonds payable are liquidated from the District's debt service fund. Compensated absences and capital leases are liquidated by the general fund.

A. Bonds Payable:

The voters of the municipality through referendums authorize bonds in accordance with State Law. All bonds are retired in serial installments within the statutory period of usefulness.

On September 1, 2014, the School District issued \$4,521,000 of General Obligation Bonds. The General Obligation Bonds were issued at interest rates varying from 2.125% to 2.250% and mature on September

Note 7. Long-Term Obligations (continued):

1, 2024. The purpose of the bonds is to fund capital improvement projects consisting of (i) the acquisition and installation of an air conditioning system at School #1 for use in educational spaces; (ii) the acquisition and installation of an air conditioning system at School #2 for use in educational spaces; (iii) the acquisition and installation of a generator at School #2 for emergency management use; (iv) the acquisition and installation of an air conditioning system at School #3 for use in educational spaces; (iv) the acquisition of all equipment and the completion of all work necessary or desirable to make said renovations and improvements compatible with existing facilities; and (v) the costs of issuance with respect to the Bonds (collectively, the "Project").

Principal and Interest due on the outstanding bonds is as follows:

Fiscal Year Ending			
<u>June 30,</u>	Principal Principal	<u>Interest</u>	<u>Total</u>
2022	\$ 550,000	\$ 41,606	\$ 591,606
2023	550,000	29,919	579,919
2024	550,000	17,888	567,888
2025	520,000	5,850	525,850
			_
	\$ 2,170,000	\$ 95,263	\$ 2,265,263

Bonds Authorized But Not Issued:

As of June 30, 2021, the District had no authorized but not issued bonds.

Note 8. Pension Plans

A. Public Employees' Retirement System (PERS)

Plan Description - The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's annual financial statements, which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Note 8. Pension Plans (continued):

A. Public Employees' Retirement System (PERS) (continued):

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for PERS is set by *N.J.S.A. 15A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2020, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Pension Liability, Pension Expense and Deferred Outflows/Inflows of Resources - At June 30, 2021, the School District reported a liability of \$1,872,603 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2019, to the measurement date of June 30, 2020. The School District's proportion of the net pension liability was based on the School District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020. The School District's proportion measured as of June 30, 2020, was 0.01148%, which was an increase of 0.00101% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2021, the School District recognized full accrual pension expense of \$(42,050) in the government-wide financial statements. This pension expense was based on the pension plans June 30, 2020 measurement date. At June 30, 2021 the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

Note 8. Pension Plans (continued):

A. Public Employees' Retirement System (PERS) (continued):

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between Expected and Actual Experience	\$	34,097	\$	6,622	
Changes of Assumptions		60,749		784,077	
Net Difference between Projected and Actual Earnings on Pension Plan Investments		64,007		-	
Changes in Proportion and Differences between District Contributions and Proportionate Share of Contributions		213,803		443,509	
School District Contributions Subsequent to Measurement Date		128,120			
	\$	500,776	\$	1,234,208	

\$128,120 reported as deferred outflows of resources resulting from school district contributions subsequent to the measurement date is based on the amount payable to the State due April 1, 2022 and will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	<u> </u>	<u>Amount</u>
2021	\$	(385,803)
2022		(367,529)
2023		(204,448)
2024		(33,212)
2025		129,440
	\$	(861,552)

The amortization of the above other deferred outflows of resources and deferred inflows of resources related to pensions will be over the following number of years:

Note 8. Pension Plans (continued):

A. Public Employees' Retirement System (PERS) (continued):

Actuarial Assumptions – The collective total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following assumptions:

Inflation

Price 2.75% Wage 3.25%

Salary Increases:

Through 2026 2.00 - 6.00% Based on Years of Service
Thereafter 3.00 - 7.00% Based on Years of Service

Investment Rate of Return 7.00%

Mortality Rate Table

Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2020

Period of Actuarial Experience Study upon which Actuarial Assumptions were Based

July 1, 2014 - June 30, 2018

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

Note 8. Pension Plans (continued):

A. Public Employees' Retirement System (PERS) (continued):

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	3.00%	3.40%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Investment Grade Credit	8.00%	2.67%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Markets Equity	13.50%	8.57%
Emerging Markets Equity	5.50%	10.23%
Private Equity	13.00%	11.42%

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net pension liability as of June 30, 2020, calculated using the discount rate of 7.00% as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease (6.00%)		Current Discount Rate (7.00%)		1% Increase (8.00%)
District's Proportionate Share					
of the Net Pension Liability	\$ 2,375,832	\$	1,872,603	\$	1,472,820

Note 8. Pension Plans (continued):

A. Public Employees' Retirement System (PERS) (continued):

Additional Information - The following is a summary of the collective balances of the local group at June 30, 2021 and 2020:

Balances at June 30, 2021 and June 30, 2020

	6/30/2021	6/30/2020
Actuarial valuation date (including roll forward)	June 30, 2020	June 30, 2019
Collective Deferred Outflows of Resources	\$ 2,347,583,337	\$ 3,149,522,616
Collective Deferred Inflows of Resources	7,849,949,467	7,645,087,574
Collective Net Pension Liability	16,435,616,426	18,143,832,135
District's portion of the Plan's total Net Pension Liability	0.01148%	0.01047%

B. Teachers' Pension and Annuity Fund (TPAF)

Plan Description - The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more

Note 8. Pension Plans (continued):

B. Teachers' Pension and Annuity Fund (TPAF) (continued):

years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions - The contribution policy for TPAF is set by *N.J.S.A 18A:66* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For fiscal year 2020, the State's pension contribution was less than the actuarial determined amount.

As mentioned previously, the employer contributions for local participating employers are legally required to be funded by the State in accordance with *N.J.S.A 18:66-33*. Therefore, the School District is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the School District does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers.

Pension Liability and Pension Expense - The State's proportionate share of the TPAF net pension liability, attributable to the School District as of June 30, 2020 was \$37,785,436. The School District's proportionate share was \$-0-.

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. The State's proportionate share of the net pension liability associated with the District was based on projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2020, the State proportionate share of the TPAF net pension liability attributable to the School District was 0.05738%, which was an increase of .00323% from its proportion measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the School District recognized \$2,349,659 in on-behalf pension expense and revenue in the government-wide financial statements, for the State of New Jersey on-behalf TPAF pension contributions. This pension expense and revenue was based on the pension plans June 30, 2020 measurement date.

Actuarial Assumptions – The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Note 8. Pension Plans (continued):

B. Teachers' Pension and Annuity Fund (TPAF) (continued):

Inflation

Price 2.75% Wage 3.25%

Salary Increases:

Through 2026 1.55 - 4.45% Based on Years of Service
Thereafter 2.75 - 5.65% Based on Years of Service

Investment Rate of Return 7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2020 are summarized in the following table:

Note 8. Pension Plans (continued):

B. Teachers' Pension and Annuity Fund (TPAF) (continued):

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	3.00%	3.40%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Investment Grade Credit	8.00%	2.67%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Markets Equity	13.50%	8.57%
Emerging Markets Equity	5.50%	10.23%
Private Equity	13.00%	11.42%

Discount Rate - The discount rate used to measure the total pension liability was 5.40% as of June 30, 2020. The single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 2.21% as of June 30, 2020, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 78% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2062 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the Net Pension Liability to Changes in the Discount Rate – As previously mentioned, TPAF has a special funding situation where the State pays 100% of the School District's annual required contribution. The following represents the State's proportionate share of the net pension liability, attributable to the School District calculated using the discount rate of 5.40% as well as what the State's proportionate share of the net pension liability, attributable to the School District's would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

Note 8. Pension Plans (continued):

B. Teachers' Pension and Annuity Fund (TPAF) (continued)

School District's Proportionate Share of the Net Pension Liability	1% Decrease (4.40%)	Di	Current scount Rate (5.40%)	1% Increase (6.40%)
State of New Jersey's Proportionate Share of Net Pension Liability associated with the School District	\$ -	\$	-	\$ -
	 44,383,414		37,785,436	 32,306,918
	\$ 44,383,414	\$	37,785,436	\$ 32,306,918

Pension Plan Fiduciary Net Position - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Additional Information – The following is a summary of the collective balances of the local group at June 30, 2020 and 2019:

Balances at June 30, 2021 and June 30, 2020

Actuarial valuation date (including roll forward)	6/30/2020	6/30/2019
Collective Deferred Outflows of Resources Collective Deferred Inflows of Resources Collective Net Pension Liability	\$ 9,626,548,228 14,591,988,841 65,993,498,688	\$ 10,129,162,237 17,736,240,054 61,519,112,443
District's portion of the Plan's total Net Pension Liability	0.05738%	0.05415%

C. Defined Contribution Plan (DCRP)

Plan Description - The Defined Contribution Retirement Program (DCRP) was established July 1, 2007, under the provisions of N.J.S.A. 43:15C-1 et seq. The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage

Individuals eligible for membership in the DCRP include:

• State or local officials who are elected or appointed on or after July 1, 2007;

Note 8. Pension Plans (continued):

C. Defined Contribution Plan (DCRP) (continued)

- Employees enrolled in the Public Employees' Retirement System (PERS) or Teachers' Pension and Annuity Fund (TPAF) on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits;
- Employees enrolled in the Police and Firemen's Retirement System (PFRS) or State Police Retirement System (SPRS) after May 21, 2010, who earn salary in excess of established "maximum compensation" limits;
- Employees otherwise eligible to enroll in the PERS or TPAF on or after November 2, 2008, who do not earn the minimum annual salary for PERS or TPAF Tier 3 enrollment but who earn salary of at least \$5,000 annually. The minimum salary in 2020 is \$8,300 and is subject to adjustment in future years.
- Employees otherwise eligible to enroll in the PERS or TPAF after May 21, 2010, who do not work the minimum number of hours per week required for PERS or TPAF Tier 4 or Tier 5 enrollment but who earn salary of at least \$5,000 annually. The minimum number is 35 hours per
- week for State employees, or 32 hours per week for local government or local educations employees

Contributions - The contribution policy is set by N.J.S.A. 43:15C-3 and requires active members and contribution employers. When enrolled in the DCRP, members are required to contribute 5.5% of their base salary to a tax-deferred investment account established with Prudential Financial, which jointly administers the DCRP investments with the Division of Pension and Benefits. Member contributions are matched by a 3% contribution from the School District.

For the year ended June 30, 2021, employee contributions totaled \$3,172, and the School District recognized an expense for payments made to the Defined Contribution Retirement program in the amount of \$1,730.

Note 9. Other Post-Retirement Benefits

General Information about the OPEB Plan

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more

Note 9. Other Post-Retirement Benefits (continued)

years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits is the responsibility of the individual local education employers.

Basis of Presentation

The Schedule presents the State of New Jersey's obligation under NJSA 52:14-17.32f. The Schedule does not purport to be a complete presentation of the financial position or changes in financial position of the State Health Benefit Local Education Retired Employees Plan or the State of New Jersey. The accompanying Schedule was prepared in accordance with U.S. generally accepted accounting principles.

Such preparation requires management of the State of New Jersey to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2020, was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Total Nonemployer OPEB Liability: \$ 67,809,962,608

Inflation Rate: 2.5%

	TPAF/ABP	PERS	PFRS
Salary Increases:			
Through 2026	1.55 - 4.45%	2.00 - 6.00%	3.25 - 15.25%
	based on years of	based on years of	based on years of
	service	service	service
Thereafter	1.55 - 4.45%	3.00 - 7.00%	Applied to all
	based on years of	based on years of	future years
	service	service	

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020.

Note 9. Other Post-Retirement Benefits (continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF, PERS and PFRS, respectively.

OPEB Obligation and OPEB Expense - The State's proportionate share of the total Other Post Employment Benefits Obligations, attributable to the School District as of June 30, 2020 was \$42,708,668. The School District's proportionate share was \$0.

The OPEB Obligation was measured as of June 30, 2020, and the total OPEB Obligation used to calculate the OPEB Obligation was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. The State's proportionate share of the OPEB Obligation associated with the District was based on projection of the State's long-term contributions to the OPEB plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2020, the State proportionate share of the OPEB Obligation attributable to the School District was 0.06298%, which was an increase of 0.000318% from its proportion measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the State of New Jersey recognized an OPEB expense in the amount of \$1,883,106 for the State's proportionate share of the OPEB expense attributable to the School District. This OPEB expense was based on the OPEB plans June 30, 2020 measurement date.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.6% and decreases to a 4.5% long-term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2021 through 2022 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.0% and decreases to a 4.5% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2020 was 2.21%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Total Nonemployer OPEB Liability to changes in discount rate

The following presents the total nonemployer OPEB liability as of June 30, 2020, calculated using the discount rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	June 30, 2020						
		At 1% Decrease (1.21%)		At Discount Rate (2.21%)		At 1% Increase (3.21%)	
State of New Jersey's Proportionate Share of Total OPEB Obligations Associated with the School District	oportionate Share of Total OPEB oligations Associated with		\$	42,708,668	\$ 35,844,464		
State of New Jersey's Total Non- employer Liability	\$	81,748,410,002	\$	67,809,962,608	\$	56,911,439,160	

Note 9. Other Post-Retirement Benefits (continued)

Sensitivity of Total Nonemployer OPEB Liability to changes in the healthcare trend rate

The following presents the total nonemployer OPEB liability as of June 30, 2020, calculated using the healthcare trend rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a healthcare trend rate that is 1- percentage point lower or 1-percentage point higher than the current rate:

		June 30, 2020					
		Healthcare Cost 1% Decrease Trend Rate *		1% Increase			
State of New Jersey's Proportionate Share of Total OPEB Obligations Associated with the School District		34,475,877	\$	42,708,668	\$	52,512,092	
State of New Jersey's Total Nonemployer OPEB Liability							
	\$	54,738,488,540	\$	67,809,962,608	\$	83,375,182,975	

^{*} See Healthcare Cost Trend Assumptions for details of rates.

Additional Information

Collective balances of the Local Group at June 30, 2020 are as follows:

	June 30, 2019
Active Plan Members	216,804
Inactive Plan Members or Beneficiaries	
Currently Receiving Benefits	149,304
	366,108

Changes in the Total OPEB Liability

The change in the State's Total OPEB liability for the fiscal year ended June 30, 2021 (measurement date June 30, 2020) is as follows:

Total OPEB Liability

Service Cost	\$ 1,790,973,822
Interest Cost	1,503,341,357
Difference Between Expected & Actual Experience	11,544,750,637
Changes of Assumptions	12,386,549,981
Contributions: Member	35,781,384
Gross Benefit Payments	(1,180,515,618)
Net Change in Total OPEB Liability	26,080,881,563
Total OPEB Liability (Beginning)	41,729,081,045
Total OPEB Liability (Ending)	\$ 67,809,962,608
Total Covered Employee Payroll	\$ 14,267,738,658
Net OPEB Liability as a Percentage of Payroll	475%

Note 10. On-Behalf Payments for Fringe Benefits and Salaries

As previously mentioned, the School District receives on-behalf payments from the State of New Jersey for normal costs and post-retirement medical costs related to the Teachers' Pension and Annuity Fund (TPAF) pension plan. The School District is not legally responsible for these contributions. The on-behalf payments are recorded as revenues and expenditures in the government-wide and general fund financial statements. For the fiscal year ended June 30, 2021, the on-behalf payments for pension, social security, post-retirement medical costs, and long-term disability were \$1,627,554, \$429,533, \$510,050 and \$1,376, respectively.

Note 11. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of School District contributions, reimbursements to the State for benefits paid and the ending balance of the School District's trust fund for the current and previous two years:

Fiscal Year	Employee cal Year Contributions		Interest <u>Earnings</u>		Amount <u>Reimbursed</u>		Ending <u>Balance</u>	
2020-2021	\$	14,715	\$ 1,523	\$	-	\$	74,815	
2019-2020		7,229	1,045		5,729		58,577	
2018-2019		11,500	-		32,097		56,032	

Note 12. Contingencies

State and Federal Grantor Agencies - The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2021 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying combined financial statements for such contingencies.

<u>Pending Litigation</u> – The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Districts' attorney that resolution of these matters will not have a material adverse effect on the financial condition of the District.

Note 13. Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

Note 14. Deferred Compensation

The District offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning
AXA Equitable
Valic Investments

Note 15. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amount of vacation and sick leave in accordance with the District's personnel policies. The District policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with Districts' agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types is recorded in the statement of net position under governmental activities. The current portion of the compensated absence balance is not considered material to the applicable funds total liabilities, and is therefore not shown separately from the long-term liability balance of compensated absences. The amount at June 30, 2021 is \$261,232.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2021 no liability existed for compensated absences in the proprietary fund types.

Note 16. Tax Abatements

As defined by the Governmental Accounting Standards Board (GASB) Statement No. 77, a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school

Note 16. Tax Abatements (continued)

district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

Note 17. Commitments

The School District has contractual commitments at June 30, 2021 to various vendors, which are recorded in the general fund as assigned to other purposes in the amount of \$96,234.

Note 18. Calculation of Excess Surplus

The designation for Restricted Fund Balance – Excess Surplus is a required calculation pursuant to N.J.S.A.18A:7F-7. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year-end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2021 was \$438,663.

Note 19. Fund Balance

General Fund – Of the \$3,622,838 General Fund fund balance at June 30, 2021, \$1,040,879 has been reserved in the Capital Reserve account; \$1 has been reserved in the Emergency Reserve account; \$868,231 has been reserved for the Maintenance Reserve account; \$74,815 is restricted for Unemployment Compensation; \$438,663 is restricted for excess surplus; \$300,000 is restricted for excess surplus – designated for subsequent year's expenditures; \$179,562 has been assigned as designated for subsequent year's expenditures; \$96,234 has been reserved for encumbrances; and \$624,453 is unassigned.

Special Revenue Fund – Of the \$11,563 Special Revenue Fund fund balance at June 30, 2021, \$8,714 is restricted for student activities and \$2,849 is restricted for scholarships.

Capital Projects Fund – Of the \$16,570 Capital Projects Fund fund balance at June 30, 2021, \$16,570 is restricted for capital projects.

Debt Service Fund – Of the \$181,522 Debt Service Fund fund balance at June 30, 2021, \$181,522 is restricted for debt service.

Note 20. Deficit in Net Position

Unrestricted Net Position – The School District had a deficit in unrestricted net position in the amount of \$(2,110,955) at June 30, 2021. The deficit is caused by the implementation of GASB 68 which requires the School District to report their proportionate share of the net pension liability for the Public Employee's Retirement System (PERS) as of June 30, 2021.

Note 21. Prior Period Adjustment/Restatement of Net Position and Fund Balance

During the year ended June 30, 2021 the District adopted GASB Statement No. 84, *Fiduciary Activities* (See Note 1). The District adjusted its beginning balances to reflect all newly adopted standards for its Restricted Net Position and Restricted Fund Balance for New Jersey Unemployment Trust Fund, Scholarships and Student Activities. The beginning balances as of July 1, 2020 were adjusted as follows:

Prior Period Adjustment to Net Position

Balance, July 1, 2020 prior to Adjustment	\$ 2	0,847,246
Add:		
New Jersey Unemployment Trust		58,577
Scholarship		1,731
Student Activities		9,177
Balance, July 1, 2020 Restated	\$ 2	0,916,731
Prior Period Adjustment to Fund Balance (General Fund)		
Balance, July 1, 2020 prior to Adjustment	\$	2,482,565
Add:		
New Jersey Unemployment Trust		58,577
Balance, July 1, 2020 Restated	\$	2,541,142
Prior Period Adjustment to Fund Balance (Special Revenue	Fund)
Balance, July 1, 2020 prior to Adjustment	\$	-
Add:		
Scholarship		1,731
Student Activities		9,177
Balance, July 1, 2020 Restated	\$	10,908

Note 22. Subsequent Events

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2021 and February 25, 2022, the date that the financial statements were available for issuance, for possible disclosure and recognition in the financial statements, and no items have come to the attention of the School District that would require disclosure.

The COVID-19 pandemic is ongoing. Because of the evolving nature of the outbreak and federal, state and local responses, it cannot be predicted how the outbreak will impact the financial condition or operations of the District, or if there will be any impact on the assessed values of property within the School District or deferral of tax payments to municipalities. To date the School District has not been materially and adversely affected financially due to the virus.

		YEAR	ENDED	DECEMBER 31,	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012

Real property is required to be assessed at some percentage of true value (fair or market value) established by each county board of taxation.

Reassessment occurs when ordered by the County Board of Taxation

a. Taxable Value of Machinery, Implements and Equipment of Telephone, Telegraph and Messenger System Companies

b. Tax rates are per \$100

Total Direct School Tax Rate is a combined total of Southampton Township Board of Education and Lenape Regional High School District as detailed in Exhibit J-7

SINGLE AUDIT SECTION

This page intentionally left blank.

EXHIBIT K-1

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Southampton Township School District County of Burlington Southampton, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Southampton Township School District (the "School District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated February 25, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

618 Stokes Road, Medford, NJ 08055

P: 609.953.0612 • **F:** 609.257.0008

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We also noted one immaterial instance of noncompliance that is not required to be reported under *Governmental Auditing Standards* and requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, that we reported to management in a separate Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance dated February 25, 2022.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully Submitted,

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08

Honorable President and Members of the Board of Education Southampton Township School District County of Burlington Southampton, New Jersey

Report on Compliance for Each Major State Program

We have audited the Southampton Township School District's (the "School District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major state programs for the fiscal year ended June 30, 2021. The School District's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid;* and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards, the Uniform Guidance and New Jersey OMB's Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

618 Stokes Road, Medford, NJ 08055

P: 609.953.0612 • **F:** 609.257.0008

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major State Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2021.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with Uniform Guidance and New Jersey OMB's Circular 15-08, which are described in the accompanying Schedule of Findings and Questioned Costs and Independent Auditor's Management Report on Administrative Findings – Financial Compliance and Performance as finding no. 2021-001. Our opinion on each major state program is not modified with respect to these matters.

The District's response to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB's Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over

compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB's Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Respectfully Submitted,

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Note 1. Basis of Presentation

The accompanying schedules of expenditures of federal awards and state financial assistance present the activity of all federal awards and state financial assistance programs of the Southampton Township School District. The School District is defined in Note 1 of the basic financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

Note 2. Summary of Significant Accounting Policies

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the following exception: programs recorded in the enterprise fund are presented using the accrual basis of accounting and programs recorded in the capital projects fund are presented using the modified accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and New Jersey OMB's Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The School District did not elect the 10-percent de deminimis indirect cost rate as discussed in 2 CFR 200.414.

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the School District for the year ended June 30, 2021. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2021.

Note 3. Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Note 3. Relationship to Basic Financial Statements (continued)

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A.* 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A.* 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is 15,900 for the general fund and \$35,794 for the special revenue fund. See Exhibit C-3 Note A of the basic financial statements, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance expenditures reported in the School District's basic financial statements on a GAAP basis are presented as follows:

Fund	<u>]</u>	<u>Federal</u>	State	<u>Total</u>
General Fund	\$	11,025	\$ 4,565,922	\$ 4,576,947
Special Revenue Fund		452,696	-	452,696
Food Service Fund		202,617	7,097	209,714
Total Awards & Financial Assistance	\$	666,338	\$ 4,573,019	\$ 5,239,357

Note 4. Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5. Federal and State Loans Outstanding

The Southampton Township School District had no loan balances outstanding at June 30, 2021.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT SCHEDULE OF FINDINGS & QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Section II - Financial Statement Findings - N/A

This section identifies the significant deficiencies, material weaknesses and instances of noncompliance related to the basic financial statements that are required to be reported in accordance with *Government Auditing Standards* and with audit requirements prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT SCHEDULE OF FINDINGS & QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Section III – Federal Awards & State Financial Assistance Findings & Questioned Costs

This section identifies the significant deficiencies, material weaknesses and instances of noncompliance, including questioned costs, related to the audit of major federal and state programs, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08.

FEDERAL AWARDS – N/A

STATE FINANCIAL ASSISTANCE

Finding 2021-001

Information on the State Program:

State Aid – Public

Criteria or specific requirement:

N.J.A.C. 6A:23A-16.10 prohibits a school district from incurring any obligation or approve any payment in excess of the amount appropriated by the district board of education in the applicable line item account or program category account.

Condition:

It was noted during our audit that the District incurred obligations in excess of the amount appropriated by the Board in the General Fund.

Questioned Costs:

None

Context:

As a result of required audit adjustments, budget appropriations for tuition were over-expended.

Effect or potential effect:

The District did not company with N.J.A.C. 6A:23A-16.10.

Cause:

The District did not properly record noncash state aid adjustments. An adjustment to record these items resulted in over-expenditures in the budget.

Recommendation:

That the District ensure that all noncash entries are recorded prior to year-end.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT SCHEDULE OF FINDINGS & QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Section III – Federal Awards & State Financial Assistance Findings & Questioned Costs (continued)

Finding 2021-001 (continued)

<u>View of responsible official:</u>
The responsible official agrees with this finding and will address the matter as part of their corrective action plan.

SOUTHAMPTON TOWNSHIP SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS AND QUESTIONED COSTS AS PREPARED BY MANAGEMENT FOR THE FISCAL YEAR ENDED JUNE 30, 2021

This section identifies the status of prior year findings related to the financial statements, federal awards and state financial assistance that are required to be reported in accordance with *Government Auditing Standards*, Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards* (Uniform Guidance), and New Jersey OMB's Circular 15-08.
