Hunterdon Central Regional High School

"Performance Excellence for Everyone"

84 Route 31, Flemington, New Jersey 08822-1239 (908) 782-5727 FAX (908) 284-7314

Jeffrey Moore, Ed.D. Superintendent Heather A. Spitzer, Business Administrator / Board Secretary

March 14, 2023

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District 84 Route 31 Flemington, NJ 08822

Dear Board Members:

The Annual Comprehensive Financial Report (ACFR) of the Hunterdon Central Regional High School District for the fiscal year ended June 30, 2022 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the Management of the Hunterdon Central Regional High School Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that Management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the report of the independent auditors.

The Annual Comprehensive Financial Report is presented in four sections:

- The Introductory Section: Introduces the reader to the report and includes this transmittal letter, a list of principal officials, consultants, and the District's organizational charts.
- The Financial Section: Consists of the independent auditor's report, Management's discussion and analysis, the basic financial statements, and combining and individual fund statements and schedules.
- The Statistical Section: Contains selected financial and demographic information, generally presented on a multi-year basis.
- The Single Audit: Includes the auditor's report on the internal control structure, compliance with applicable laws and regulations, and findings and recommendations.

The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and State Treasury OMB Circular Letter 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure, compliance with applicable laws and regulations, and findings and recommendations are included in the single audit section of this report.

DESCRIPTION OF THE DISTRICT

The Hunterdon Central Regional High School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds and account groups of the District are included in this report. The Hunterdon Central Regional High School Board of Education and its 9-12 comprehensive high school constitute the District's reporting entity.

The voters of the five constituent municipalities approved the formation of the Hunterdon Central Regional High School District on April 5, 1954.

Hunterdon Central Regional High School is located in Hunterdon County and serves the five municipalities of Delaware Township, East Amwell Township, Flemington Borough, Raritan Township, and Readington Township. One of the largest, campus-style high school districts in New Jersey, the school occupies a 72-acre campus and includes two general classroom buildings, an alternative education building, a music building, a 2,000-seat field house, and an instructional media center. A communications building houses a student-run FM radio station and cable television station.

DISTRICT GOALS

The 2021-2022 District Goals are two-pronged, based on both educational and financial directives. Educational goals are:

- To maintain compliance with all mandated programs and initiatives of New Jersey Department of Education.
- To continue to evaluate and implement programs in support of the academic experience for all students.
- To plan and provide the necessary resources for the faculty/staff and students in preparation for college/career as designated in the New Jersey State Student Learning Standards.
- To sustain and enhance District facilities for safety, academic experiences, activities, and environmental purposes through ongoing maintenance and long-range capital plan.

The District Goal focuses on fiscal responsibility:

 To offer the community a fiscally responsible and respectful 2021-2022 budget with a 2% New Jersey state cap by implementing strategies to balance District needs while mitigating expenses to minimize future budget tax levy increases.

The District provides a full range of educational services for students in grade levels 9 through 12. These include regular as well as special education. Those students who have a desire for vocational training attend Hunterdon County Polytech, Hunterdon County Vocational, or Somerset County Vocational School.

The District completed the 2021-2022 fiscal year with an average enrollment of 2,494 students, which is 48 students less than the previous year's enrollment. The following table details the changes in student enrollment over the last ten years:

| Fiscal Years | Student Enrollment (ADE) | Change | Percent Change |
|--------------|--------------------------|--------|----------------|
| 2021-2022 | 2,494 | (48) | (1.89)% |
| 2020-2021 | 2,542 | (89) | (3.38)% |
| 2019-2020 | 2,631 | (115) | (4.19)% |
| 2018-2019 | 2,746 | (110) | (3.85)% |
| 2017-2018 | 2,856 | (130) | (4.35)% |
| 2016-2017 | 2,986 | 50 | 1.70 % |
| 2015-2016 | 2,936 | 12 | 0.40 % |
| 2014-2015 | 2,924 | (4) | (0.10)% |
| 2013-2014 | 2,927 | (39) | (1.30)% |
| 2012-2013 | 2,966 | 68 | 2.40 % |

ECONOMIC CONDITION AND OUTLOOK

Estimates of resident population for the District's five municipalities were 52,905 in 2020 and 53,458 in 2021. The most recent student census of sending districts shows enrollment declining by approximately 100 students per year for at least the next five years.

Total municipal tax ratables supporting the school district tax levy increased from \$9,440,532,933 in 2021 to \$9,549,097,303 in 2022. This reflects a 1.15% increase in existing property values.

FACILITIES

The Board of Education strives to provide a safe, pleasant learning environment for students. A student and staff identification card system are in place. All buildings require card access for entry. A video surveillance system is in place at strategic locations around the campus. The District has a five-year Long-Range Facility Plan and a Maintenance Plan that are updated on an annual basis.

INTERNAL ACCOUNTING CONTROLS

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally-accepted accounting principles (GAAP).

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by Management.

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District's Management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal and State financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

BUDGETARY CONTROLS

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipalities. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the total budget amount and included in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2022.

ACCOUNTING SYSTEM AND REPORTS

The District's accounting records reflect generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

INDEPENDENT AUDIT

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. BKC, CPAs, PC, a licensed certified public accounting firm, audited the District's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by Management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2022 are fairly represented in conformity with GAAP. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB Circular Letter 15-08.

The auditor's report on the general-purpose financial statements and combining individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

CASH MANAGEMENT

The investment policy of the District is guided in large part by state statute as detailed in Notes to the Financial Statements, Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA).

GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

RISK MANAGEMENT

The Board carries various forms of insurance including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. Where advantageous, the District participates in a joint insurance fund with other qualified New Jersey Districts. This joint insurance fund has saved the District in annual premiums and provides more control through the involvement in management of the fund.

ACKNOWLEDGEMENTS

We would like to express our appreciation to the members of the Hunterdon Central Regional High School Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and, thereby, contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our Business Office staff.

Respectfully submitted,

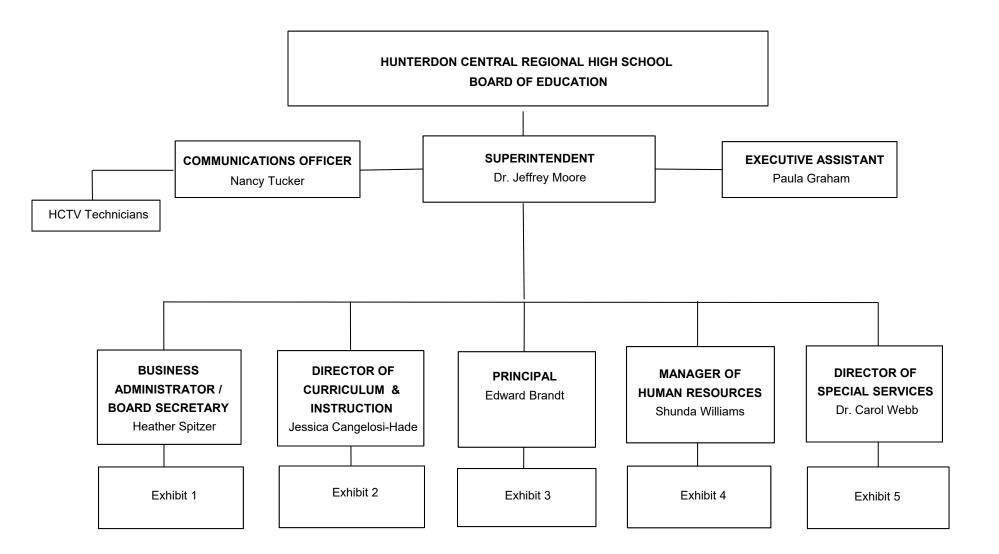

Dr. Jeffrey Moore

Superintendent

Independent Auditors' Report

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Hunterdon Central Regional High School District (the District) in the County of Hunterdon, as of and for the year ended June 30, 2022, and the related Notes to the Financial Statements, which collectively comprise the District's Basic Financial Statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedules, Schedules Related to Accounting and Reporting for Pensions, and Schedules Related to Accounting and Reporting for Other Postemployment Employee Benefits listed in the Table of Contents be presented to supplement the Basic Financial Statements. Such information is the responsibility of Management and, although not a part of the Basic Financial Statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the Basic Financial Statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of Management about the methods of preparing the information and comparing the information for consistency with Management's responses to our inquiries, the Basic Financial Statements, and other knowledge we obtained during our audit of the Basic Financial Statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's Basic Financial Statements. The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* and Schedule of Expenditures of State Financial Assistance required by New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* are also presented for purposes of additional analysis not a required part of the Basic Financial Statements.

Such information is the responsibility of Management and were derived from and relates directly to the underlying accounting and other records used to prepare the Basic Financial Statements. The information has been subjected to the auditing procedures applied in the audit of the Basic Financial Statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Basic Financial Statements or to the Basic Financial Statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are fairly stated, in all material respects, in relation to the Basic Financial Statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory, Combining and Individual Non-Major Fund Financial Schedules and Statistical Sections but does not include the Basic Financial Statements and our auditor's report thereon. Our opinion on the Basic Financial Statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the Basic Financial Statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the Basic Financial Statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 14, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION - PART I

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

The Hunterdon Central Regional High School District's (the School District) management's discussion and analysis is designed to provide an overview of the District's financial activities for the year ended June 30, 2022, identify changes in the District's financial position, identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

Financial Highlights

Key financial highlights for fiscal year 2022 are as follows:

- In total, net position increased \$5,664,012 which represents a 7.06% increase from fiscal year 2021.
- General revenues accounted for \$87,380,656 in revenue or 88.85% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$10,969,440 or 11.15% to total revenues of \$98,350,096.
- Total assets of governmental activities decreased by \$235,822 as cash and cash equivalents increased by \$1,207,113; receivables increased by \$352,204 and capital assets decreased by \$1,795,139.
- The School District had \$91,623,655 in expenses; only \$10,969,440 of these expenses was offset by program specific charges for services, grants, or contributions. General revenues (primarily property taxes) of \$87,380,656 were adequate to provide for these programs.
- Among major funds, the general fund had \$75,873,176 in revenues and \$74,599,689 in expenditures. After accounting for other financing sources of \$190,884; the general fund's balance increased \$1,464,371 from fiscal year 2021. This increase was anticipated by the District and was the result of effective cost-cutting measures and revenues received in excess of anticipated amounts.

Using this Annual Comprehensive Financial Report (ACFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For Governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending.

The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Hunterdon Central Regional High School District, the General fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2022?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. No financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statement focus on the School District's most significant funds. The School District's major governmental funds are the general fund, special revenue fund, capital project fund and debt service fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how much money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds measure and report the operating results by measuring cash on hand and other assets that can easily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

| Restricted | 25,666,833 | 25,627,590 | | 39,243 | 0.15% |
| Unrestricted | (3,631,719) | (8,964,182) | | 5,332,463 | 59.49% |
| Total net position | \$ 85,842,813 | \$ 80,178,801 | \$ | 5,664,012 | 7.06% |

Total assets on a government-wide basis decreased by \$32,570. Cash and cash equivalents increased by \$1,395,983, receivables and other assets increased by \$389,141 and capital assets decreased by \$1,817,694. Unrestricted net position, the part of net position that can be used to finance day to day activities without constraints established by grants or legal requirements, of the School District increased by \$5,332,463.

The negative balance in unrestricted net assets is the result of reporting required by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

Governmental Activities

New Jersey P.L. 2011, Chapter 202, which eliminated the annual school budget vote when within the tax levy cap and allowed school board member elections to be moved to the general election in November, was implemented by the District in fiscal year 2013. Local property taxes made up 65.09% of the total revenues and transfers in for governmental activities for the District of \$90,538,287 for the year ended June 30, 2022. Federal, State, and local grants accounted for another 32.49% of revenue, transfers in from other funds accounted for 0.21% while charges for services provided 1.79% and miscellaneous/other were 0.42%.

Business-Type Activities

Revenues for the District's business-type activities (food service program and a transportation service fund) were comprised of charges for services. Federal and State reimbursements were also received in the food service program.

Food Service

- Food service expenditures and other financing uses exceeded revenues by \$324,604.
- Charges for services accounted for \$360,070 of revenue. These charges are the amounts paid by patrons for daily food services.
- Federal and State reimbursement for meals, including payments for free and reduced breakfasts and lunches and donated commodities, was \$1,346,552.

Transportation Services

Transportation service expenditures and other financing uses for other local education agencies (LEAs) in the State exceeded revenues by \$173,446. Other financing uses were for a transfer out to the general fund of \$190,884 and a refund of prior year revenue to other LEAs of \$1,046,731.

The Statement of Activities shows the cost of the program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

Table 3 provides a summary of the School District's cost of governmental services in fiscal year ending June 30, 2022 with comparisons to June 30, 2021.

Table 3
Cost of Governmental Services

| | | Total Cost | tof | Serv | vices | Net Cost of Services | | | | |
|-------------------------------|---------------|------------|------------|---------------|------------|----------------------|---------------|------------|------------|--|
| | | 06/30/22 | | | 06/30/21 | | 06/30/22 | | 06/30/21 | |

| General & business | | | | | | | | | | |
| administration | | 2,686,102 | | | 2,515,951 | 2,680,557 | | | 2,510,458 | |
| School administration | | 2,286,212 | | 2,768,764 | | 2,274,671 | | | 2,768,764 | |
| Plant operations & | | | | | | | | | | |
| maintenance | | 6,644,478 | | 6,947,103 | | 6,509,270 | | | 6,899,733 | |
| Pupil transportation | | 4,538,723 | 723 | | 3,703,179 | | 4,138,871 | | 3,655,810 | |
| Interest on long-term debt | | 164,184 | | 139,466 | | 164,184 | | | 139,466 | |
| Total expenses | \$ 85,009,735 | | | \$ 87,925,495 | | \$ | \$ 81,940,746 | | 86,119,280 | |

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student. Pupil and instructional staff costs include the activities involved with assisting staff with content and the process of teaching to students. General administration, school administration and business include expenses associated with administrative and financial supervision of the District. Operation and maintenance of facility activities involve keeping the school grounds, buildings and equipment in an effective working condition. Pupil transportation includes activities involved with the conveyance of students, to and from school as well as to and from school activities, as prescribed by state law. Interest on long-term debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

The School District's Funds

School District's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$80,190,306 and expenditures of \$78,894,010 and other financing sources of \$190,884. The net positive change in fund balance of \$1,487,180 for the year was most significant in the General fund with an increase of \$1,464,371. This can be attributed in large part to effective cost-cutting measures initiated by the District and excess revenues received.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

General Fund Budgetary Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of the fiscal year 2022, the School District amended its general fund budget as needed. The School District uses program based budgeting, and the budgeting systems are designed to tightly control total program budgets and provide flexibility for program management. For the general fund, budgeted revenues were \$63,467,151 which was \$1,034,888 above original budgeted estimates of \$62,432,263. This difference was due primarily to realized tuition, miscellaneous and state aid revenues in excess of original budgets. The general fund revenues and other financing sources of the School District were more than expenditures and other financing uses by \$1,430,762.

Capital Assets

At the end of fiscal year 2022, the District had \$63,807,699 invested in land, buildings, furniture, equipment, and vehicles.

Table 4 provides a summary of the School District's capital assets net of depreciation at June 30, 2022 with comparisons to June 30, 2021.

Table 4
Capital Assets at Year-End
(Net of Depreciation)

| | | | | | Variance | |
|--------------------------|----------|------------|----|------------|-------------------|--------|
| | 06/30/22 | | | 06/30/21 | Dollars | % |
| Land | \$ | 475,000 | \$ | 475,000 | \$ - | 0.00% |
| Construction in progress | | 2,615,331 | | 2,692,947 | (77,616) | -2.88% |
| Land improvements | | 4,646,502 | | 4,620,914 | 25,588 | 0.55% |
| Buildings & | | | | | | |
| improvements | | 52,088,060 | | 54,005,160 | (1,917,100) | -3.55% |
| Machinery & equipment | | 2,617,063 | | 2,639,904 | (22,841) | -0.87% |
| Vehicles | | 1,365,743 | | 1,191,468 | 174,275 | 14.63% |
| Total | \$ | 63,807,699 | \$ | 65,625,393 | \$ (1,817,694) | -2.77% |

Depreciation expense and asset disposals were more than capital additions in the current fiscal year by \$1,817,694. Additions to capital assets included various building improvements and purchase of transportation vehicles.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2022 Unaudited

Debt and Long-term Liabilities

At June 30, 2022, the School District had \$14,896,951 in long-term liabilities. At June 30, 2022, the School District's overall legal debt limit was \$294,136,729 and the legal borrowing margin was \$294,136,729.

Table 5 provides a summary of the District's outstanding long-term liabilities at June 30, 2022 with comparisons to June 30, 2021.

For the Future

The Hunterdon Central Regional High School District is in excellent financial condition. The major concerns for the future are unanticipated expenses associated with reopening after the pandemic, looming reductions in State aid, and the ongoing financial impact of the new Educators Health Plan. Other challenges included the 2% tax levy budget cap, downward student population trends, and the reliance placed on local property taxes for the majority of school funding. The District also manages increasing costs of staff salaries and health benefits, out-of-district tuition, and transportation.

With the passage of restrictive State budget laws, emphasis will be placed on actively managing the District budget. This will be accomplished by continually reviewing operating expenses, searching out joint purchasing and shared services opportunities, maximizing revenue earnings, and building community and parental support for our educational programs.

In conclusion, Hunterdon Central Regional High School has always committed itself to financial excellence. Financial planning, budgeting, and internal control systems are reliable. The District plans to continue its sound fiscal management to meet future challenges.

| Fund balances, June 30 | \$ 39,928,199 | \$ 1,070,512 | \$ - | \$ - | \$ 40,998,711 |

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2022

Total net changes in fund balances - governmental funds (from B-2)

\$ 1,487,180

Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expenses. This is the amount by which depreciation exceeds capital outlays in the period:

| Capital outlays | \$ 3,014,404 |
|----------------------|-----------------|
| Depreciation expense | (4,793,845) |
| Disposal of assets | (15,698) |

(1,795,139)

Repayment of debt principal and capital leases are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position and are not reported in the Statement of Activities:

Debt principal payments 2,110,000

Governmental funds report district pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

3,711,007

Governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities:

Amortization of bond premium

32,516

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities (continued) For the Fiscal Year Ended June 30, 2022

In the Statement of Activities, interest on long-term debt is accrued regardless of when due. In the governmental funds interest is reported when due. The accrued interest is a reconciling item.

\$ 24,617

In the Statement of Activities, compensated absences and early retirement benefits are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.

(57,327)

Change in net position of governmental activities

\$ 5,512,854

Note 1 - Summary of significant accounting policies

The financial statements of the Hunterdon Central Regional High School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local Governmental Units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The basic financial statements include:

A Management's Discussion and Analysis (MD&A) providing an analysis of the Districts over-all financial position and results of operations.

Basic financial statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting entity

The District is a Type II District located in the County of Hunterdon, State of New Jersey. As a Type II District, the school district functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in Grades 9 to 12. The District serves the communities of Delaware Township, East Amwell Township, Borough of Flemington, Raritan Township, and Readington Township (the constituent districts). The District had an approximate enrollment at June 30, 2022 of 2,554 students.

The primary criterion for including activities within the District's reporting entity as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- 1. The organization is legally separate (can sue or be sued in their own name).
- 2. The District holds the corporate powers of the organization.
- 3. The District appoints a voting majority of the organization's Board.
- 4. The District is able to impose its will on the organization.
- 5. The organization has the potential to impose a financial benefit/burden on the District.
- 6. There is a fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

Note 1 - Summary of significant accounting policies (continued)

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The District has elected to treat all of its governmental funds as major funds and they are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and postemployment healthcare benefits, are recorded only when payment is due.

Note 1 - <u>Summary of significant accounting policies (continued)</u>

C. Measurement focus, basis of accounting, and financial statement presentation (continued) Property taxes, tuition and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. As under New Jersey State Statute, a municipality is required to remit to its school district the entire property tax balance, in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be accounts receivable. All other revenue items are considered to be measurable and available only when the District receives cash.

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, and unrestricted state aids.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted, as they are needed.

The District reports the following major governmental funds:

General Fund - The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by Board Resolution.

Note 1 - Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued) As a result of implementing GASB Statement No. 84, *Fiduciary Activities*, amounts maintained for unemployment claims and payroll withholdings for employee salary deductions are included in the general fund. Amounts maintained for unemployment claims are used to account for the portion of employee deductions for unemployment compensation required to be deposited and accumulated for future unemployment claims under the Benefit Reimbursement Method.

Special Revenue Fund - The District accounts for the proceeds of specific revenue sources from State and Federal Government (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes in the special revenue fund. As a result of implementing GASB Statement No. 84, Fiduciary Activities, amounts maintained for student activities and private purpose scholarships are included in the special revenue fund. The amounts are considered to be restricted and available to use for specific expenditures. Amounts maintained for student activities are derived from athletic events or other activities of pupil organizations and accumulated for payment of student group activities. Amounts maintained for private purpose scholarship accounts are utilized for scholarship awards to qualifying students.

Capital Projects Fund - The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

The District did not utilize the capital projects fund during the fiscal year.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Additionally, the District reports the following fund types:

Proprietary Fund types

Proprietary Fund - The focus of proprietary fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District.

Note 1 - Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation(continued) Proprietary Fund types

Enterprise Fund - The enterprise fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's enterprise fund is comprised of the food service fund and the transportation service fund.

All proprietary funds are accounted for on a current financial resource's measurement focus. This means that all assets and liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (total net position) segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment 12 Years Building improvements 45 Years

Fiduciary Fund types

The District does not have funds that meet the criteria of a fiduciary fund as defined by GASB Statement No. 84, Fiduciary Activities.

D. Budgets/budgetary control

Annual appropriated budgets are prepared in the Spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the County office and, if necessary, are voted upon at the annual school election in November. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line-item accounts within each fund. Line-item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum Chart of Accounts referenced in N.J.A.C. 6:23-16.2(f)1. All budget amendments must be approved by School Board Resolution.

Note 1 - Summary of significant accounting policies (continued)

D. Budgets/budgetary control

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

F. Tuition receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition payable

Tuition charges are based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Short-term interfund receivable/payables

Short-term interfund receivables and payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

Note 1 - Summary of significant accounting policies (continued)

I. Inventories and prepaid items

Inventories and prepaid items, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditures during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. The commodities inventory value at balance sheet date is reported as unearned revenue as title does not pass to the school district until the commodities are used. Prepaid items in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2022.

J. Capital assets

Capital assets, which include land, land improvements, buildings and improvements, vehicles and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All reported capital assets, except for land and construction in progress, of the District are depreciated using the straight-line method over the following estimated lives:

| Assets | Years |
|--|---------|
| Buildings | 40 |
| Building improvements & portable classroom | 20 - 40 |
| Land improvements | 15 - 20 |
| Furniture | 20 |
| Musical instruments | 15 |
| Athletic equipment | 10 - 15 |
| Maintenance equipment | 10 - 15 |
| Audio visual equipment | 7 - 10 |
| Office equipment | 5 - 10 |
| Computer equipment | 5 - 10 |
| Vehicles | 8 |

K. Compensated absences

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by GASB Statement No. 16, *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Note 1 - Summary of significant accounting policies (continued)

K. Compensated absences (continued)

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the Districts' agreements with the various employee unions.

The liability for compensated absences was accrued using the vesting method, whereby the liability is calculated by vesting balances as of the balance sheet date for which a payment is probable. Salary related payments for the employer's share of Social Security and Medicare taxes are included.

For the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, in the fund financial statements, all of the compensated absences are considered long-term and therefore are not a fund liability. This represents a reconciling item between the fund and government-wide presentations.

L. Unearned revenue

Unearned revenue in the general fund and special revenue fund represents cash, which has been received but not yet earned. See Note 1 (E) regarding the special revenue fund.

Unearned revenue in the enterprise fund includes United States government commodity inventories at year-end. The aid revenue associated with this commodity inventory is deferred until it is used in the operations of the food service fund. Prepaid lunch debit card revenue balances at year-end are also included in unearned revenue.

M. Long-term obligations

In the government-wide financial statements, and in internal service fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

Note 1 - Summary of significant accounting policies (continued)

N. Net position

Net position represents the difference between the sum of assets and deferred outflows of resources, and the sum of liabilities and deferred inflows of resources. In the government-wide financial statements, net position is classified into the following three components:

- Net investment in Capital Assets This component represents capital assets, less accumulated depreciation and net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.
- Restricted Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- *Unrestricted* Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

O. Fund balances - governmental funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

- *Non-Spendable* includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- Committed includes amounts that can only be used for specific purposes.
 Committed fund balance is reported pursuant to resolutions passed by the Board of
 Education, the District's highest level of decision-making authority. Commitments
 may be modified or rescinded only through resolutions approved by the Board of
 Education.
- Assigned includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

Note 1 - Summary of significant accounting policies (continued)

O. Fund balances - governmental funds (continued)

• Unassigned - includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the general fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balance are available, then the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

P. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates

Q. Allocation of indirect expenses

Certain expenses, which have not been charged to a specific function in the District's fund financial statements, have been allocated to the functions for the government-wide statements. Employee benefits, on-behalf TPAF Pension Contributions, reimbursed TPAF Social Security Contributions and compensated absences accruals have been allocated based on salaries by function. Depreciation expense which was not specifically identified by function has been allocated based on the current year expenses by function.

R. Deferred outflows/inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has one item that qualifies for reporting in this category, deferred amount on pension activity. In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category, deferred amount on pension activity.

Note 2 - <u>Tax assessments and property taxes</u>

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Upon the filing of certified adopted budgets by the collecting municipality, the municipality's local school districts and the County, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in N.J.S.A. 54:4 et. seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1, respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

School taxes are guaranteed, as to amount of collection, by the collecting municipality (the collection agency) and are transmitted to the school district in accordance with the Schedule of Tax Installments as certified by the school district's Board of Education on an annual basis.

Note 3 - Deposits and investments

Cash, cash equivalents and investments - Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. All certificates of deposit are recorded as cash and cash equivalents regardless of the date of maturity. As of June 30, 2022, the District had no investments.

New Jersey Governmental Units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey Governmental Units. In addition, other state statutes permit investments in obligations issued by local authorities and other state agencies. The State of New Jersey does not place any limit on the amount that the District may invest with any one issuer.

Note 3 - Deposits and investments (continued)

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of Governmental Units. The statute requires that no Governmental Unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured.

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. The District does not have a policy for custodial credit risk. New Jersey statutes require that cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Unit Deposit Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds, employee's salary withholdings, or funds that may pass to the District relative to the happening of a future condition.

As of June 30, 2022, the District's bank balances of \$43,730,344 were exposed to custodial credit risk as follows:

| Insured by the FDIC | \$ 500,000 |
|---------------------|------------------|
| Insured by GUDPA | 43,230,344 |
| Total | \$ 43,730,344 |

Deposits at June 30, 2022 appear in the financial statements as summarized below:

| Cash and cash equivalents | \$ 41,855,398 |
|---|------------------|
| Ref. | |
| Unrestricted cash | |
| Governmental funds, Balance Sheet B-1 | \$ 14,123,821 |
| Enterprise funds, Statement of Net Position B-4 | 1,838,834 |
| Restricted cash | |
| Governmental funds, Balance Sheet B-1 | 25,892,743 |
| Total cash | \$ 41,855,398 |

Note 4 - <u>Capital assets</u> Capital asset activity for the fiscal year ended June 30, 2022 is as follows:

| | Beginning Balance | | | | | Ending Balance screases | | |
|---|----------------------|-------------------------|----|-------------------|----|-------------------------|-----|--------------|
| Governmental activities | | _ | | _ | | | | |
| Capital assets, not being depreciated | | | | | | | | |

| PERS net pension | | | | | | | | | |
| liability | | 17,284,866 | | - | | 4,734,741 | | 12,550,125 | - |
| Compensated | | | | | | | | | |
| absences payable | | 2,289,499 | | 57,327 | | - | | 2,346,826 | 122,823 |
| Total governmental | | | | _ | | | | | |
| activities long-term | | | | | | | | | |
| liabilities | \$_ | 21,716,881 | \$ | 57,327 | \$ | 6,877,257 | \$ | 14,896,951 | 122,823 |

The general obligation bonded debt of the District is limited by State law to 3% of the average equalized assessed values of the total taxable property in the District for the past three years. The legal debt limit at June 30, 2022 is \$294,136,729. General obligation debt at June 30, 2022 is \$0, resulting in a legal debt margin of \$294,136,729.

Note 6 - <u>Pension plans</u>

Description of systems

Substantially all of the Board's employees participate in one of the following defined benefit public employee retirement systems which have been established by State statute: The Teachers' Pension and Annuity Fund (TPAF), Public Employees' Retirement System (PERS) and the Defined Contribution Retirement Program (DCRP). The PERS and TPAF systems are sponsored and administered by the State of New Jersey. The DCRP system is administered by Prudential Financial for the Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers.

A. Public employees' retirement systems (PERS)

Plan description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports/shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after 10 years of service.

The following represents the membership tiers for PERS:

| <u>Tier</u> | Member Eligibility |
|-------------|---|
| 1 | Enrolled prior to July 1, 2007 |
| 2 | Enrolled on or after July 1, 2007 and prior to November 2, 2008 |
| 3 | Enrolled on or after November 2, 2008 and prior to May 22, 2010 |
| 4 | Enrolled on or after May 22, 2010 and prior to June 28, 2011 |
| 5 | Enrolled on or after June 28, 2011 |

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective Tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25-years of service. Deferred retirement is available to members who have at least 10-years of service credit and have not reached the service retirement age for the respective Tier.

Note 6 - Pension plans (continued)

A. Public employees' retirement systems (PERS) (continued)

Allocation methodology and reconciliation to financial statements

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the state and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedule of pension amounts by employer and nonemployer. The allocation percentages for each group as of June 30, 2021 measurement date are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal year ended June 30, 2021 measurement date.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense. The employer and nonemployer allocation percentages presented in the schedule of employer and nonemployer allocations and applied to amounts presented in the schedule of pension amounts by employer and nonemployer are based on the ratio of the contributions of an individual employer to the total contributions to PERS during the measurement period July 1, 2020 through June 30, 2021. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of pension amounts by employer and nonemployer may result in immaterial differences. Contributions from employers are recognized when due, based on statutory requirements.

Contributions

The contribution policy for PERS is set by N.J.S.A. 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the state. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for non-contributory group insurance benefits is based on actual claims paid. For the State fiscal year 2021, the State's pension contribution was less than the actuarial determined amount.

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Contributions (continued)

The employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in the State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The Actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15-years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The District's contractually required contribution rate for the year ended June 30, 2022 was 16.35% of the District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

The contribution rate was 7.50% of base salary effective July 1, 2018.

Collective net pension liability and actuarial information

The District's proportionate share of the net pension liability for PERS as of the measurement date June 30, 2021:

| Net pension liability | \$ 12,550,125 |
|-----------------------|------------------|
| Proportionate share | .1059395279% |

Plan fiduciary net position as a percentage of the total pension liability 70.33%

The total pension liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions:

| Inflation rate | 2.75% |
|----------------|-------|
| Wage | 3.25% |

Salary increases (based on years of service)

Through 2026 2.00% - 6.00% Thereafter 3.00% - 7.00%

Investment rate of return 7.00%

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Collective net pension liability and actuarial information (continued)

Preretirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long-term expected rate of return

In accordance with state statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2021 measurement date) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2021 measurement date are summarized in the following table:

| | | Long-Term |
|-----------------------------------|-------------|---------------|
| | Target | Expected Rate |
| Asset Class | Allocations | of Return |
| U.S. equity | 27.00% | 8.09% |
| Non-U.S. developed markets equity | 13.50% | 8.71% |
| Emerging markets equity | 5.50% | 10.96% |
| Private equity | 13.00% | 11.30% |
| Real assets | 3.00% | 7.40% |
| Real estate | 8.00% | 9.15% |
| High yield | 2.00% | 3.75% |
| Private credit | 8.00% | 7.60% |
| Investment grade credit | 8.00% | 1.68% |
| Cash equivalents | 4.00% | 0.50% |
| U.S. Treasuries | 5.00% | 0.95% |
| Risk mitigation strategies | 3.00% | 3.35% |

Note 6 - Pension plans (continued)

A. Public employees' retirement systems (PERS) (continued)

Discount rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of actuarially determined contributions for the local employers.

Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments and the municipal bone rate was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the collective net pension liability to changes in the discount rate

The following presents collective net pension liability of as of June 30, 2021 measurement date, calculated using the discount rate as disclosed above, as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

District's proportionate share of the net pension liability

| At current discount rate (7.00%) | \$ 12,550,125 |
|----------------------------------|------------------|
| At a 1% lower rate (6.00%) | 17,272,913 |
| At a 1% higher rate (8.00%) | 8,789,490 |

Collective deferred outflows of resources and deferred inflows of resources

At the June 30, 2021 measurement date, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

| | Deferred | | Deferred | |
|---|----------|-----------|----------|-----------|
| | C | Outflows | | Inflows |
| | of l | Resources | of | Resources |
| Differences between expected and actual experience | \$ | 197,932 | \$ | 89,844 |
| Changes of assumptions | | 65,361 | | 4,467,926 |
| Net difference between projected and actual earnings on | | | | |
| pension plan investments | | 312,637 | | 3,306,033 |
| Changes in proportion and differences between District | | | | |
| contributions and proportionate share of contributions | | 575,930 | | 514,241 |
| District contributions subsequent to the measurement | | | | |
| date | | 1,240,675 | | |
| Total | \$ | 2,392,535 | \$ | 8,378,044 |

The amount reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e., for the school year ending June 30, 2022, the plan measurement date is June 30, 2021) of \$1,240,675 will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2022.

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Collective deferred outflows of resources and deferred inflows of resources (continued)

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) for the fiscal year ended June 30, 2021 measurement date:

| | Begi | nning Balance | Net Change in Activity | | Ending Balance | | |
|---|------|---------------|------------------------|-------------|-------------------|-------------|--|
| Deferred outflows of resources | | | | <u> </u> | | | |
| Differences between expected and actual | | | | | | | |
| experience | \$ | 314,729 | \$ | (116,797) | \$ | 197,932 | |
| Changes of | | 560 541 | | (405.200) | | 65.261 | |
| assumptions Differences between | | 560,741 | | (495,380) | | 65,361 | |
| expected and actual | | | | | | | |
| experience | | 590,811 | | (590,811) | | - | |
| Deferred inflows of | | | | | | | |
| resources Differences between | | | | | | | |
| expected and actual | | | | | | | |
| experience | | (61,127) | | (28,717) | | (89,844) | |
| Changes of assumptions | | (7,237,337) | | 2,769,411 | | (4,467,926) | |
| Difference between | | (1,231,331) | | 2,709,411 | | (4,407,920) | |
| projected and actual | | | | | | | |
| earnings on pension | | | | (2.20(.022) | | (2.206.022) | |
| plan investments | | <u> </u> | | (3,306,033) | | (3,306,033) | |
| Net of deferred outflows | | (5,832,183) | \$ | (1,768,327) | \$ | (7,600,510) | |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions (excluding employer specific amounts, deferrals from District contributions subsequent to the measurement date, and deferrals from change on proportion) will be recognized in pension expense as follows:

State Fiscal Year Ending June 30,

| 2022 | \$ (2,961,283) |
|-------|----------------|
| 2023 | (2,114,349) |
| 2024 | (1,441,625) |
| 2025 | (1,083,674) |
| 2026 | 421 |
| Total | \$ (7,600,510) |

Note 6 - <u>Pension plans (continued)</u>

A. Public employees' retirement systems (PERS) (continued)

Pension expense (benefit)

For the fiscal year ended June 30, 2022, the District recognized net pension expense (benefit) of (\$1,894,402), which represents the District's proportionate share of allocable plan pension expense (benefit) of (\$1,713,837) plus other adjustments to the net pension liability of (\$81,153), plus the net amortization of deferred amounts from changes in proportion of (\$99,412). The components of allocable pension expense, which exclude amounts attributable to employer paid member contributions and pension expense related to specific liabilities of individual employers, for the District for the fiscal year ending June 30, 2021 measurement date are as follows:

| Service cost | \$ | 739,061 |
|---|----|-------------|
| Interest on total pension liability | | 2,904,320 |
| Benefit changes | | - |
| Member contributions | | (601,292) |
| Administrative expense | | 10,512 |
| Expected investment return net of investment expense | | (1,584,476) |
| Pension expense related to specific liabilities of individual employers | | (7,407) |
| Recognition (amortization) of deferred inflows/outflows of resources | | |
| Differences between projected and actual experience | | 81,379 |
| Changes of assumptions | | (2,204,577) |
| Difference between projected and actual investment earnings on | | |
| pension plan investments | | (1,051,357) |
| Pension expense (benefit) | \$ | (1,713,837) |

B. Teachers' pension and annuity fund (TPAF)

Plan description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Note 6 - Pension plans (continued)

B. Teachers' pension and annuity fund (TPAF)

Plan description

The following represents the membership Tiers for TPAF:

| Tier | Member Eligibility |
|------|---|
| 1 | Enrolled prior to July 1, 2007 |
| 2 | Enrolled on or after July 1, 2007 and prior to November 2, 2008 |
| 3 | Enrolled on or after November 2, 2008 and prior to May 22, 2010 |
| 4 | Enrolled on or after May 22, 2010 and prior to June 28, 2011 |
| 5 | Enrolled on or after June 28, 2011 |

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the State fiscal year 2021, the State's pension contribution was less than the actuarial determined amount.

Special funding situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the Notes to the Financial Statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Special funding situation (continued)

During the state fiscal year ending June 30, 2021, the State of New Jersey contributed \$6,145,697 to the TPAF for normal pension benefits on behalf of the District.

The contribution rate was 7.50% of base salary effective July 1, 2018.

Collective net pension liability and actuarial information

The District's proportionate share of the net pension liability for TPAF for fiscal year ended June 30, 2021 measurement date is as follows:

| District proportionate share of net pension liability | \$ 156,359,233 |
|--|-------------------|
| Less: State proportionate share of net pension liability | 55,538,821 |
| Net pension liability | \$ 100,820,412 |

Proportionate share .2097140217%

Plan fiduciary net position as a percentage of the total pension liability

35.52%

Actuarial assumptions

The total pension liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate

| Price | 2.75% |
|--|--------------|
| Wage | 3.25% |
| Salary increases (based on years of service) | |
| Through 2026 | 1.55 - 4.55% |
| Thereafter | 2.75 - 5.65% |
| Investment rate of return | 7.00% |

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Actuarial assumptions (continued)

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

Long-term expected rate of return

In accordance with state statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2021 measurement date) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2021 measurement date are summarized in the following table:

| | | Long-Term |
|-----------------------------------|-------------|------------------|
| | Target | Expected Rate of |
| Asset Class | Allocations | Return |
| U.S. equity | 27.00% | 8.09% |
| Non-U.S. developed markets equity | 13.50% | 8.71% |
| Emerging markets equity | 5.50% | 10.96% |

Discount rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of the actuarially determined contributions for the State. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments after that date in determining the total pension liability.

Note 6 - <u>Pension plans (continued)</u>

B. Teachers' pension and annuity fund (TPAF) (continued)

Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the net pension liability of the State as of June 30, 2021 measurement date calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

District's proportionate share of the net pension liability

| At current discount rate (7.00%) | \$ 100,820,412 |
|----------------------------------|-------------------|
| At a 1% lower rate (6.00%) | 119,287,388 |
| At a 1% higher rate (8.00%) | 85,309,312 |

Pension expense

The components of allocable pension expense, which exclude pension expense related to specific liabilities of individual employers, for the District for the fiscal year ended June 30, 2021 measurement date are as follows:

| Service cost | \$ 3,682,977 |
|---|-----------------|
| Interest on total pension liability | 9,829,100 |
| Benefit changes | - |
| Member contributions | (1,849,663) |
| Administrative expense | 18,928 |
| Expected investment return net of investment expense | (3,053,748) |
| Pension expense related to specific liabilities of individual employers | (844) |
| Recognition (amortization) of deferred inflows/outflows of resources | |
| Differences between projected and actual experience | 422,534 |
| Changes of assumptions | (4,723,823) |
| Difference between projected and actual investment earnings on | |
| pension plan investments | (1,953,112) |
| Pension expense | \$ 2,372,349 |

C. Defined contribution retirement program

The Defined Contribution Retirement Program (DCRP) was established under the provisions Ch. 92, PL 2007 and expanded under the provisions of Ch. 89, PL 2008 and Ch. 1, PL 2010 to provide eligible members with a tax sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Employees eligible to enroll in the program include the following: First, employees enrolled in the Public Employees Retirement System (PERS) or Teachers Pension and Annuity Fund (TPAF) on or after July 1, 2007 who earn salary in excess of maximum compensation limits. Also, employees otherwise eligible to enroll in the TPAF and PERS who do not earn the minimum salary (\$8,400 in 2022) but who earn salary of at least \$5,000 annually are eligible to participate. The Program Administrator, Prudential Financial, makes information regarding the program on New Jersey Defined Contribution Program its www.prudential.com/njdcrp.

Note 6 - <u>Pension plans (continued)</u>

C. Defined contribution retirement program (continued)

Contribution rates for DCRP provide for employee contributions of 5.50% of annual contractual compensation as defined. The District's contribution to the DCRP for fiscal year 2022 was \$23,812.

D. Other pension plan information

During the fiscal year ended June 30, 2022, the State of New Jersey contributed \$2,018,836 to the TPAF for postretirement medical benefits, \$120,213 for noncontributory insurance premiums, \$2,633 for long-term disability insurance and \$8,520,569 for normal costs and accrued liability costs on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$1,710,165 during the fiscal year ended June 30, 2022 for the employer's share of Social Security Contributions for TPAF members calculated on their base salaries. These amounts have been included in the financial statements and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB Statement 68.

Note 7 - Postretirement benefits

The State Health Benefit State Retired Employees Plan (State Retired OPEB Plan) is a single-employer defined benefit OPEB plan with a special funding situation. The State Retired OPEB Plan is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The State Retired OPEB Plan covers the State, State colleges and universities, the Palisades Interstate Park Commission, and the New Jersey Building Authority (referred to collectively as the employers) for which the State is legally obligated to pay for benefits. The State Retired OPEB Plan is treated as a cost-sharing multiple employer plan with a special funding situation for allocating the total OPEB liability and related OPEB amounts since each employer mentioned above is required to issue stand-alone financial statements. The State Retired OPEB Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and the covered dependents of the employees. The State also offers dental care to retirees, however, since dental benefits are completely paid for by the retirees, there is no OPEB liability for these benefits.

In accordance with N.J.S.A. 52:14-17.32, the State is required to pay the premiums or periodic charges for health benefits of State employees who retire with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Judicial Retirement System (JRS), the State Police Retirement System (SPRS), the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen's Retirement System (PFRS), and the Alternate Benefit Program (ABP). In addition, N.J.S.A. 52:14-17.26 provides that for purposes of the State Retired OPEB Plan, an employee of Rutgers, the State University of New Jersey, and New Jersey Institute of Technology shall be deemed to be an employee of the State. Further, P.L.1966, c.302, addresses the other State colleges and universities, whereas while these institutions were provided autonomy from the State, their employees retained any and all rights to health benefits within the State Retired OPEB Plan and are therefore classified as State employees.

Note 7 - <u>Postretirement benefits (continued)</u>

The State Health Benefit Local Education Retired Employees Plan (Local Education Retired OPEB Plan) is a multiple-employer defined benefit OPEB plan with a special funding situation. The Local Education Retired OPEB Plan is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Local Education Retired OPEB Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and the covered dependents of local education employees. The State also offers dental care to retirees, however, since dental benefits are completely paid for by the retirees, there is no OPEB liability for these benefits.

The employer contributions for the participating local education employers are legally required to be funded by the State in accordance with N.J.S.A. 52:14-17.32f. According to this law, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: TPAF, PERS, PFRS, or ABP.

Pursuant to P.L.2011, c.78, future retirees eligible for postemployment medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The State is legally required to pay for the OPEB benefit coverage for the participating local education employers. Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity. The State, as a non-employer contributing entity, reported a Fiscal Year 2021 total OPEB liability of \$60,007,650,970 for this special funding situation.

Additional information on Pensions and OPEB can be accessed at https://www.state.nj.us/treasury/taxation/payments-notices.shtml.

Total OPEB liability

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under Paragraphs 193 and 203 through 205 of GASB Statement No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the District.

Note 7 - <u>Postretirement benefits (continued)</u>

Total OPEB liability (continued)

Under a special funding situation, the State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Therefore, the following OPEB liability note information is reported at the State's level and is not accrued by the District.

For purposes of reporting required GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the District's proportionate share of allocable OPEB liability and employer OPEB expense and related revenue as of June 30, 2021 measurement date is as follows:

| State's proportionate share of the OPEB liability | \$ 60,007,650,970 |
|--|----------------------|
| District's proportionate share of the State's OPEB liability | 131,390,341 |
| Employer OPEB expense and related revenue | 7,206,550 |
| Allocable proportionate percentage | 0.2189559812% |

Total OPER

Changes in the total OPEB liability

| | I Otal Of LD |
|---|-------------------|
| | Liability |
| Total OPEB liability at June 30, 2020 | \$ 146,501,675 |
| Service cost | 6,566,636 |
| Interest cost | 3,408,404 |
| Change of benefit terms | (139,849) |
| Differences between expected and actual experiences | (22,478,420) |
| Changes of assumptions | 129,627 |
| Member contributions | 87,136 |
| Gross benefit payments | (2,684,868) |
| Total OPEB liability at June 30, 2021 | 131,390,341 |
| | |

There were no changes of the benefit terms from June 30, 2020 to June 30, 2021.

Changes of assumptions and other inputs reflect a change in the discount rate from 2.21% as of the June 30, 2020 plan measurement date to 2.16% as of the June 30, 2021 plan measurement date.

The total non-employer OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Note 7 - <u>Postretirement benefits (continued)</u> <u>Changes in the total OPEB liability (continued)</u> Inflation rate

2.50%

| | TPAF | PERS |
|------------------|--------------------|-----------------|
| | (based on years of | (based on years |
| Salary increases | service) | of service) |
| Through 2026 | 1.55% - 4.45% | 2.00% - 6.00% |
| Thereafter | 2.75% - 5.65% | 3.00% - 7.00% |

Preretirement mortality rates were based on the Pub-2010 Healthy Teachers (TPAF/ABP) and General (PERS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 General classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 General classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2010 Safety (PFRS), General (PERS), and Teachers (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 - June 30, 2018 and July 1, 2013 - June 30, 2018 for TPAF and PERS, respectively.

Health care trend assumptions

For Pre-Medicare medical benefits, the trend rate is initially 5.65% and decreases to a 4.50% long-term trend rate after seven years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rates for fiscal year 2022 through 2023 are reflected. For PPO the trend is initially 5.74% in fiscal year 2024, increasing to 12.93% in fiscal year 2025 and decreases to 4.50% after 11 years. For HMO the trend is initially 6.01% in fiscal year 2024, increasing to 15.23% in fiscal year 2025 and decreases to 4.5% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.50% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

Discount rate

The discount rate for June 30, 2021 was 2.16%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Note 7 - Postretirement benefits (continued)

Discount rates (continued)

Sensitivity of the total OPEB liability to changes in the discount rates

The following presents the total non-employer OPEB liability as of June 30, 2021 measurement date, using the District's allocable proportionate percentage, calculated using the discount rate as disclosed above as well as what the total non-employer OPEB liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

Total OPEB Liability (school retirees)

| At current discount rate (2.16%) | \$ 131,390,341 |
|----------------------------------|-------------------|
| At a 1% lower rate (1.16%) | 157,385,002 |
| At a 1% higher rate (3.16%) | 110,921,106 |

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates

The following presents the total non-employer OPEB liability, as well as what the total non-employer OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Total OPEB Liability (school retirees)

| Healthcare cost trend rate | \$ 131,390,341 |
|-----------------------------------|-------------------|
| At a 1% lower rate (1% decrease) | 106,360,908 |
| At a 1% higher rate (1% increase) | 165,003,020 |

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$7,206,550 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 and in which there is a special funding situation.

In accordance with GASB Statement No. 75, the District's proportionate share of school retirees OPEB is zero, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources.

Note 8 - <u>Deferred compensation</u>

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The Plan Administrators are as follows:

Ameriprise Financial Services Inc. AXA Equitable/Equivest

Lincoln Investment Planning

MetLife Resources

Siracusa Benefits Programs

Variable Annuity Life Insurance Co./AIG

Note 9 - Interfund receivables and payables

The special revenue fund had an interfund payable for \$308,967 due to the general fund for a loan as a result of cash flow issues relating to the delayed receipt of grant revenues.

Note 10 - <u>Inventory</u>

Inventory in the food service fund as of June 30, 2022 consisted of the following:

| Food | \$ 29,783 |
|----------|-----------|
| Supplies | 12,338 |
| Total | \$ 42,121 |

Note 11 - Contingent liabilities

Litigation

The District is involved in various legal proceedings that are incidental to its operations. These legal proceedings are not likely to have a material adverse effect on the financial position of the District.

Grantor agencies

Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the Grantor cannot be determined at this time, although the District expects such amount, if any, to be immaterial.

Note 12 - Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. There was no significant reduction in insurance coverage from coverage of the prior year. The District did not have any insurance settlements which exceeded insurance coverage for the past three years. A complete Schedule of Insurance Coverage can be found in the Statistical Section of the Annual Comprehensive Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its NJ Unemployment Compensation Insurance under the Benefit Reimbursement Method. Under this plan, the District is required to reimburse the NJ unemployment trust fund for benefits paid to its former employees and charged to its account with the state. The District is billed quarterly for amounts due to the state. The following is a summary of District contributions, and interest earnings, employee contributions, reimbursements to the state for benefits paid and the ending balance available for claims of the District's unemployment compensation insurance fund:

| | | | | | | | | | | Ending | | |

D., 1:...

Note 13 - Reserve accounts

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long-Range Facilities Plan (LRFP) and updated annually in the Quality Accountability Continuum (QSAC). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:26-9.1(d)1, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Note 13 - Reserve accounts (continued)

Districts are allowed as per N.J.S.A. 18A:7F-41(a) and 41(b) to deposit to the reserves by Board Resolution during the month of June for any unanticipated revenue and/or unexpended line-item appropriation amounts. Pursuant to this state statute, the District deposited \$3,811,233 to their capital reserve account and \$14,886 to their maintenance reserve account by Board Resolution in June 2022.

The following schedule is a summarization of the reserve accounts for the current fiscal year:

| Reserve |] | Beginning | | Beginning | | Beginning | | 0 0 | | 0 0 | | 0 0 | | District | I | nterest | W | ithdrawals | Ending |

Note 15 - Calculation of excess surplus

In accordance with N.J.S.A. 18A:7F-7, as amended by PL 2004, Ch. 73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund, fund balance at the fiscal year end of June 30, if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2022 is \$4,374,385.

Note 16 - Recent accounting pronouncements not yet effective

The following is of recent accounting pronouncements which are not yet effective as of the year-end date of this report:

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. This statement is effective for reporting periods beginning after December 15, 2023. The District is evaluating the effect of the pronouncement on financial reporting.

In May 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. This statement is effective for reporting periods beginning after June 15, 2022. The District is evaluating the effect of the pronouncement on financial reporting.

Note 17 - <u>Deficit balance in unrestricted net position</u>

The District is reporting a deficit balance in unrestricted net position for governmental activities as of June 30, 2022 of (\$5,550,582) on Schedule A-1 Statement of Net Position. The deficit balance is the result of reporting required by GASB Statement No. 68, Accounting and Financial Reporting for Pensions, which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

Note 18 - Risks and uncertainties

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (The COVID-19 outbreak) and the risks to the international community as a virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the District's financial condition, liquidity, and future results of operations.

Note 19 - Subsequent events

The District has evaluated subsequent events through March 14, 2023, which is the date the financial statements were available to be issued and no additional items were noted for disclosure.

HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Required Supplementary Information - Part III (Unaudited) June 30, 2022

Note 1 - Special funding situation - TPAF and other postretirement benefits

The participating employer allocations included in the supplemental Schedule of Employer Special Funding Allocations and the supplemental Schedule of Special Funding Amounts by Employer for each local employer are provided as each local employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the pension expense and other postretirement benefits (OPEB) expense allocated to the State of New Jersey (the State) under the special-funding situation and include their proportionate share of the net pension liability and OPEB liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on actual contributions made to the Teachers' Pension and Annuity Fund and for OPEB allocated to employers based upon covered payroll and adjusted by expected State Early Retirement Incentive contributions for the respective fiscal year.

Note 2 - Changes in assumptions - TPAF

The discount rate was 5.40% in State fiscal year 2020 and 7.00% in State fiscal year 2021. The inflation rate was 2.75% in State fiscal year 2020 and 2.75% in State fiscal year 2021.

Note 3 - <u>Changes in assumptions - PERS</u>

The discount rate was 7.00% in State fiscal year 2020 and 7.00% in State fiscal year 2021. The inflation rate was 2.75% for State fiscal year 2020 and 2.75% for State fiscal year 2021.

Note 4 - <u>Changes in assumptions - other postretirement employee benefits</u>

The other postretirement employee benefits discount rate decreased from 2.21% in State fiscal year 2020 to 2.16% in State fiscal year 2021. The inflation rate was 2.50% for State fiscal year 2020 and 2021

Note 5 - Changes in healthcare trend assumptions - other postretirement employee benefits

For pre-Medicare medical benefits, the trend rate is initially 5.65% and decreases to a 4.50% long-term trend rate after seven years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rates for fiscal year 2022 through 2023 are reflected. For PPO the trend is initially 5.74% in fiscal year 2024, increasing to 12.93% in fiscal year 2025 and decreases to 4.50% after 11 years. For HMO the trend is initially 6.01% in fiscal year 2024, increasing to 15.23% in fiscal year 2025 and decreases to 4.5% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.50% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

Note 6 - <u>Changes in benefit term assumptions - other postretirement employee benefits</u>
There was a decrease in liability from June 30, 2020 to June 30, 2021 due to employers adopting Chapter 44 provisions.

SPECIAL REVENUE FUND

The special revenue fund is used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted expenditures for specific purposes.

CAPITAL PROJECTS FUND

The capital projects fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by proprietary funds.

(NOT APPLICABLE TO THIS REPORT)

PROPRIETARY FUND

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District's Board is that the costs of providing goods or services be financed through user charges.

See Statements B-4, B-5, and B-6

FIDUCIARY FUNDS

Fiduciary funds are used to account for funds received by the School District as an agent for individuals, private organizations, other government and/or other funds.

(NOT APPLICABLE TO THIS REPORT)

LONG-TERM DEBT SCHEDULES

The long-term debt schedules are used to reflect the outstanding principal balances of the general long-term liabilities of the School District. This includes serial bonds outstanding, obligations under leases, and early retirement program.

Note: N.J.S.A. 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy when added to other components of the District's net budget may not exceed the pre-budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- (a) The District's basic tax rate is calculated from the A4F Form which is submitted with the budget and the net valuation taxable.
- (b) Rates for debt service are based on each year's requirements.
- * Revalued/Reassessed

Note: N.J.S.A. 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy when added to other components of the District's net budget may not exceed the pre-budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- (a) The District's basic tax rate is calculated from the A4F Form which is submitted with the budget and the net valuation taxable.
- (b) Rates for debt service are based on each year's requirements.
 - * Limited exemptions and abatements/revaluation

| Township of Readington | - | 33.79% | - |
| Total direct and overlapping debt | | | \$ 194,638,631 |

Sources: Assessed value data used to estimate applicable percentages provided by the County Board of Taxation. Debt outstanding data provided by each Governmental Unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the municipality. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping payment.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another Governmental Unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

See independent auditors' report.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS - PART I

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, and the aggregate remaining fund information of the Hunterdon Central Regional High School District (the District) in the County of Hunterdon, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 14, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hunterdon Central Regional High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance and the New Jersey OMB Circular 15-08

Honorable President and Members of the Board of Education Hunterdon Central Regional High School District Flemington, New Jersey

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited the Hunterdon Central Regional High School District's (the District) compliance with the types of compliance requirements as subject to audit in the OMB Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2022. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and New Jersey OMB's Circulars 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and the New Jersey OMB's Circulars 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the District's compliance with the compliance requirements referred
 to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance and the New Jersey
 OMB's Circulars 15-08, but not for the purpose of expressing an opinion on the effectiveness of
 the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

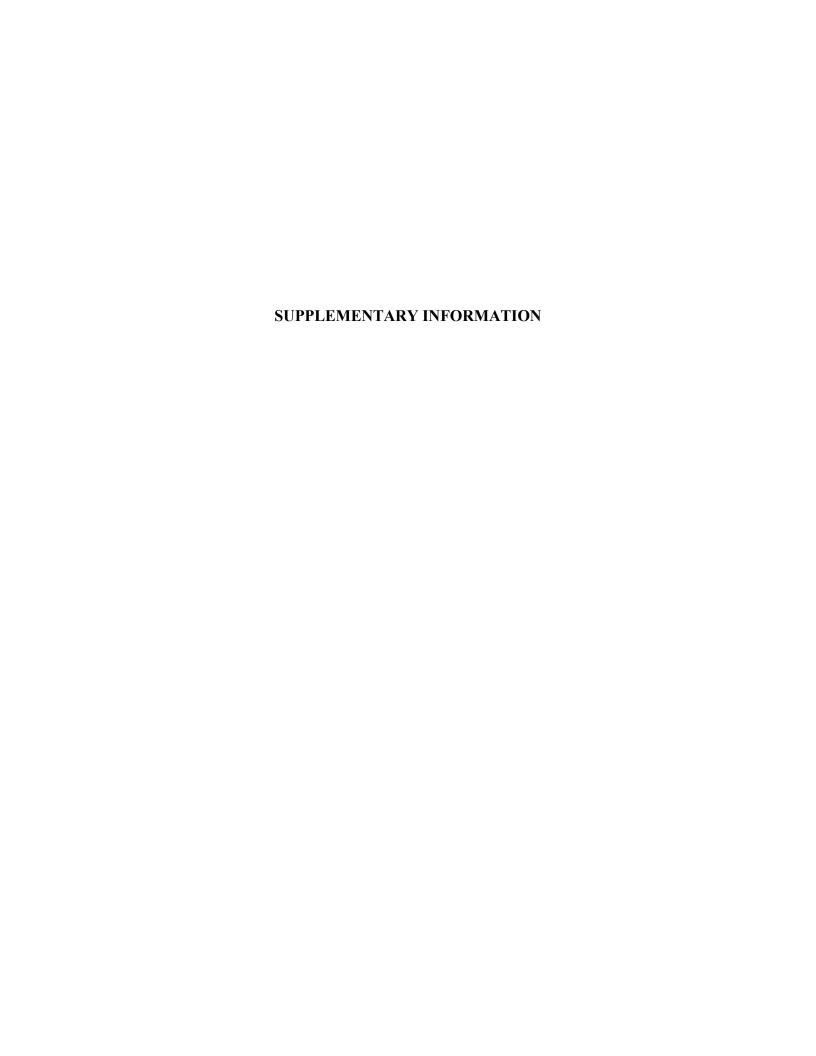

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance For the Fiscal Year Ended June 30, 2022

Note 1 - General

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance present the activity of all federal awards and state financial assistance programs of the Hunterdon Central Regional School District. The District is defined in Note 1 (A) to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, is included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

Note 2 - Basis of accounting

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the District's basic financial statements.

Note 3 - Relationship of financial statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying Schedules on the Budgetary Basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$33,609 for the general fund and \$0 for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

HUNTERDON CENTRAL REGIONAL HIGH SCHOOL DISTRICT Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance

For the Fiscal Year Ended June 30, 2022

Note 3 - Relationship of financial statements (continued)

Financial assistance revenues are reported in the District's basic financial statements on a GAAP basis as follows:

| | Federal | State | | Total | |
|----------------------|-----------------|-------|------------|-------|------------|
| General fund | \$ 29,844 | \$ | 18,358,602 | \$ | 18,388,446 |
| Special revenue fund | 1,292,523 | | 78,288 | | 1,370,811 |
| Food service fund | 1,321,763 | | 24,789 | | 1,346,552 |
| Total awards and | | | | | |
| financial assistance | \$ 2,644,130 | \$ | 18,461,679 | \$ | 21,105,809 |

Note 4 - Relationship to federal and state financial reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5 - Other

Revenues and expenditures reported under the USDA Commodities Program represent current year distributions, respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the District for the year ended June 30, 2022. TPAF Social Security Contribution represents the amount reimbursed by the state for the employer's share of Social Security Contributions for TPAF members for the year ended June 30, 2022.

Note 6 - Indirect costs

The District has elected not to utilize the 10% de minimis indirect cost rate.
