Honorable President and  
Members of the Board of Education  
Maywood School District  
County of Bergen, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Maywood School District for the fiscal year ended June 30, 2022 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections; introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organization chart and a list of principal officials. The financial section includes the basic financial statements and required supplementary information, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The district is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 as amended in 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States and Local Governments, and Non-Profit Organizations", and the same New Jersey OMB 15-08 Circular, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid" and are not a required part of the basic financial statements. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

**REPORTING ENTITY AND ITS SERVICES:** Maywood School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds of the District are included in this report. The Maywood Board of Education and both of its schools constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels K through 8. These include regular and special education for handicapped youngsters. The District completed the 2021/2022 fiscal year with an average daily enrollment of 944 students, which is a decrease of 34 students over the previous year's average daily enrollment. The following details the changes in the student enrollment of the District over the last ten years:

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2021-2022		
2020-2021	944	-3.48%
2019-2020	978	-1.81%
2018-2019	996	1.94%
2017-2018	977	0.001%
2016-2017	976	0.93%
2015-2016	967	2.22%
2014-2015	945	-2.10%
2013-2014	965	1.26 %
2012-2013	953	4.27 %

## **ECONOMIC OUTLOOK AND MAJOR INITIATIVES:**

Maywood will continue its focus on technology through further investment in Chromebook and Promethean technology and online learning tools. The District will enhance its 1:1 program to include all grade levels and the infusion of a new platform within Savvas and Realize learning for mathematics. All teachers are fully linked with Google Classroom and Go Guardian for student support and will infuse the NWEA benchmark assessment and tracking software that will be utilized on a quarterly basis.. The district will continue to invest in a district technology coordinator that will assist with technology needs as well as data mining and professional development. Linked professional development sessions for district staff that will provide turnkey technology professional development will also fall within this domain. The district is also focusing its professional development initiatives on that of ELL training for regular education and special education staff as well as a district focus on that of mindfulness training for staff. The major technology thrust will also include a shift to the NWEA and IXL software programming along with the enhanced RTI and basic skills supplemental programs.

Curricular expansion includes the shift to a new math program series that aligns with our sending high school district as well as the adoption of a science textbook series to align with our Mystery Science and Lab Aids focus. The next major initiative that the district will begin is a referendum project that will focus on air conditioning, roofing, STEM and classroom expansion. This initiative will be linked to Becton's expansion that includes a grades 9-12 autistic program that will extend Maywood's K-8 program through high school grade levels.

**INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

**BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the General Fund, the Special Revenue Fund, and the Debt Service Fund. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2022.

**ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Government Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements" Note 1.

**CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in “Notes to the Financial Statements”, Note 1. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (“GUDPA”). GUDPA was enacted in 1970 to protect Government Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

**RISK MANAGEMENT:** The Board carried various forms of insurance, including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

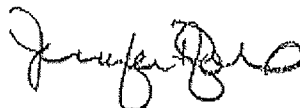

**OTHER INFORMATION:** Independent Audit - State statutes require an annual audit by independent certified public accountant or registered municipal accountants. The accounting firm of Lerch, Vinci & Bliss, LLP’s was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also designed to meet the requirements of the Single Audit Act of 1984 as amended in 1996 and the related OMB Circular A-133 and state Treasury Circular Letter 15-08 OMB. The auditor’s report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor’s reports related specifically to the single audit are included in the single audit section of this report.

**ACKNOWLEDGMENTS:** We would like to express our appreciation to the members of the Maywood School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and administrative staff.

Respectfully submitted,

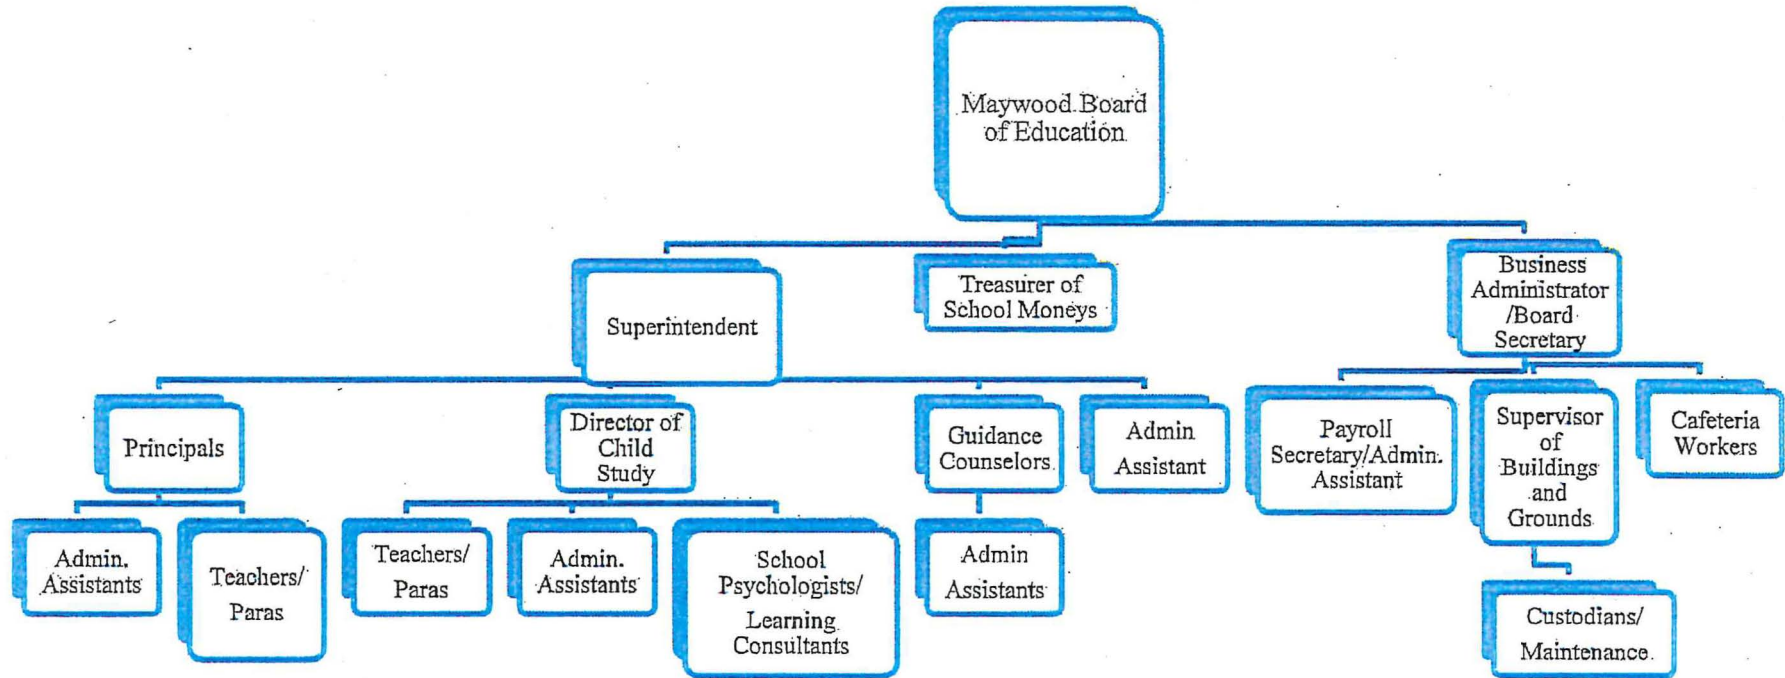

Michael Jordan  
Superintendent

**INDEPENDENT AUDITOR'S REPORT**

Honorable President and Members  
of the Board of Education  
Maywood Board of Education  
Maywood, New Jersey

**Report on the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Maywood Board of Education, as of and for the fiscal year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the Maywood Board of Education as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Maywood Board of Education and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Maywood Board of Education's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Maywood Board of Education's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Maywood Board of Education's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension information and other postemployment benefits information be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Maywood Board of Education's basic financial statements. The schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Maywood Board of Education. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, financial schedules and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated February 2, 2023 on our consideration of the Maywood Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Maywood Board of Education's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Maywood Board of Education's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# MAYWOOD BOARD OF EDUCATION

## Management Discussion and Analysis Fiscal Year Ended June 30, 2022

This section of Maywood School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2022. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2021-2022 fiscal year include the following:

The district wide assets and deferred outflows of resources of the Maywood School District exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$7,318,204 (net position).

Overall governmental activities revenues were \$26,881,890 which were \$433,058 more than expenses. General revenues of \$20,980,250 accounted for 78 percent of total revenues.

As of the close of the current fiscal year, the District's governmental funds reported combining ending fund balances of \$4,203,778. Of this amount, \$748,275 is available for spending at the District's discretion (unassigned fund balance) in the General Fund.

### OVERVIEW OF THE FINANCIAL STATEMENTS

- The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:
- The first two statements are district wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about the activities the district operated like businesses.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

- Fiduciary funds statements provide information about the financial relationships in which the district acts solely as a trustee or agent for the benefit of others to whom the resources belong. Currently, the District has no fiduciary funds.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

### District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how they have changed. Net position- the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources – is one way to measure the District's financial health or *position*.

## MAYWOOD BOARD OF EDUCATION

### Management Discussion and Analysis (continued) Fiscal Year Ended June 30, 2022

Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in two categories:

- Governmental activities – Most of the District's basic services are included here, such as regular and special education, transportation, administration and support services, which are supported by Local property taxes and State and Federal aid.
- Business type activities – These are activities for operations that are financed and operated in a manner similar to private business enterprises. The District's Food Service operations is included under this category.

#### Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law.
- The District establishes other funds in accordance with the State of New Jersey Uniform Chart of Accounts to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

The District has three kinds of funds:

- Governmental funds – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.

- Proprietary funds – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.

Enterprise Funds – this fund is established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has one enterprise fund for its food service (cafeteria) program.

### Management Discussion and Analysis (continued) Fiscal Year Ended June 30, 2022

#### Governmental Activities

The unique nature of property taxes in New Jersey creates the legal requirement to annually seek voter approval for District operations. Property taxes made up 76 percent of revenues for governmental activities for the Maywood School District in fiscal year 2022. The District's total governmental revenues were \$26,881,890 for the fiscal year ended June 30, 2022. State and local grants accounted for another 22 percent of revenue. The total cost of all programs and services was \$26,448,832. Instruction comprises 68 percent of District expenses.

#### Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services, federal and state reimbursements.

##### Food Service Program

- Food service revenues exceeded expenses by \$26,905.
- Revenues include federal and state reimbursement of lunches provided as part of the district's participation in the National School Lunch Program.

#### Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

## Management Discussion and Analysis (continued) Fiscal Year Ended June 30, 2022

### Governmental Activities (Continued)

Instruction expenses include activities directly dealing with the teaching of pupils and the interactions between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the District.

### The District's Funds

All governmental funds (i.e., general fund, special revenue fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$27,249,084 and expenditures were \$26,853,371. In addition, other financing sources amounted to \$119,844.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound fiscal management. The following schedule presents a summary of the governmental fund revenues for the fiscal years ended June 30, 2022 and 2021.

**General Fund Budgeting Highlights**

The District’s budget is prepared according to New Jersey law, and is based on accounting for certain transactions on the basis of cash receipts, disbursements and encumbrances. The most significant budgetary fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions were made to prevent over expenditures in specific line item accounts. Several of these revisions bear notation.

- Salary accounts were adjusted to reflect: changes in staff assignments; retirements, resignations and the resulting new hires; program adjustments necessitated by student population changes.
- Tuition for special education students is budgeted based on the existing and known incoming students at the time the budget is submitted. Students move into and out of the District during the summer as well as the school year, which necessitates transferring funds to the appropriate account to pay these special education costs.
- Property, liability, and medical insurances were renewed at higher rates than budgeted. This represents a national trend in all major areas of the insurance industry.
- TPAF, which is the state’s contribution to the pension fund and social security is neither a revenue item nor an expenditure item to the district but is required to be reflected in the financial statements.

## Management Discussion and Analysis (continued) Fiscal Year Ended June 30, 2022

### Capital Assets

At the end of fiscal year 2022, the District's Governmental Activities had \$14,868,617 (net) invested in land, construction in progress, buildings, furniture, equipment and vehicles. Table 4 shows fiscal year 2022 balances compared to 2021.

**Table 4**  
**Capital Assets (Net of Depreciation) at June 30**

	<u>2022</u>	<u>2021</u>

Machinery and Equipment	<u>625,987</u>	<u>516,825</u>
Total	<u>\$ 14,868,617</u>	<u>\$ 15,961,241</u>

Overall capital assets decreased by \$1,092,624 from fiscal year 2021 to fiscal year 2022. The decrease is attributable to the net effect of the depreciation of building and building improvements and machinery and equipment and acquisition of capital assets.

Additional information about the district's capital assets can be found in the notes of this report.

### Debt Administration

At June 30, 2022, the District had long-term debt and outstanding long-term liabilities in the amount of \$10,826,115. These liabilities include bonds payable, compensated absences payable, capital leases payable, and net pension liability.

**Table 5**

### **Management Discussion and Analysis (continued) Fiscal Year Ended June 30, 2022**

#### **For the Future**

The district will continue enhancing curriculum in line with current NJ Learning Standards and Science Standards. This will be achieved through continued participation in the tri-district curriculum consortium, as well as the Region V Consortium and Northern Valley Consortium.

Maywood will continue its focus on technology, through further investment in Chromebook and Smartboard technology and online learning tools.

The district will further explore revenue-generating opportunities and cost-savings measures, with focus on development of programs designed to educate students with multiple needs.

#### **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information contact the Business Office, Maywood Board of Education, 452 Maywood Avenue, Maywood, New Jersey 07607.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF  
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES  
WITH THE DISTRICT-WIDE STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**Total net change in fund balances - governmental funds (Exhibit B-2)** \$ 515,557

Amounts reported for governmental activities in the statement of activities are different because:

Governmental Funds report capital outlays as expenditures. However, in the statement of activities the costs of the assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeds capital outlays.

Depreciation Expense	\$ (1,299,557)	
Acquisition of Capital Assets	<u>206,933</u>	(1,092,624)

The issuance of long term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long term debt.

Debt Issuance		
Capital Financing Agreements	(119,844)	
Principal Repayments		
Capital Financing Agreements	150,607	
General Obligation Bonds	<u>540,000</u>	570,763

Governmental Funds report the effect of issuance costs, premiums and deferred amounts on refundings pertaining to bonds issued when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Amortization of Premium	26,742	
Amortization of Deferred Amount on Refunding	<u>(35,433)</u>	(8,691)

In the statement of activities, certain operating expenses - compensated absences and pension expense are measured by the amounts earned or accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid):

Decrease in Compensated Absences	11,763	
Decrease in Pension Expense	<u>429,048</u>	440,811

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Decrease in accrued interest		<u>7,242</u>

**NOTES TO THE FINANCIAL STATEMENTS**

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The Maywood Board of Education (the “Board” or the “District”) is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of seven elected officials and is responsible for the fiscal control of the District. A Superintendent of Schools is appointed by the Board and is responsible for the administrative control of the District. A School Business Administrator/Board Secretary is also appointed by the Board and oversees the business functions of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property. The Board currently operates a Pre-Kindergarten through grade eight (8) school district.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls. The Superintendent of Schools is the Chief Administrative Officer of the District who is responsible for general supervision of all schools, planning and operational functions of the District. The School Business Administrator/Board Secretary is the Chief Financial Officer and is responsible for budgeting, financial accounting and reporting and reports through the Superintendent of Schools to the Board.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Whatever Board of Education this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

**B. New Accounting Standards**

During fiscal year 2022, the District adopted the following GASB statements:

- GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.
- GASB Statement No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*. The objectives of this Statement is to improve financial reporting by providing users of financial statements with more relevant information about capital assets and the cost of borrowing for a reporting period. The resulting information also will enhance the comparability of information about capital assets and the cost of borrowing for a reporting period for both governmental activities and business-type activities.
- GASB Statement No. 92, *Omnibus 2020*. The objective of this Statement is to enhance comparability in the application of accounting and financial reporting requirements and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics.

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B. New Accounting Standards (Continued)**

- GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No.84, and a Supersession of GASB Statement No. 32*. The objective of this Statement is to provide more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans.
- GASB Statement No. 98, *The Annual Comprehensive Financial Report*. This Statement establishes the term *annual comprehensive financial report* and its acronym *ACFR*. That new term and acronym replace instances of *comprehensive annual financial report* and its acronym in generally accepted accounting principles for state and local governments.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB Statement No. 96, *Subscription – Based Information Technology Arrangements*, will be effective beginning with the fiscal year ending June 30, 2023. The objective of this Statement will be to improve financial reporting by establishing a definition for subscription-based information technology arrangements (SBITAs) and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. That definition and uniform guidance will result in greater consistency in practice. Establishing the capitalization criteria for implementation costs also will reduce diversity and improve comparability in financial reporting by governments. This Statement also will enhance the relevance and reliability of a government's financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and to disclose essential information about the arrangement. The disclosures will allow users to understand the scale and important aspects of a government's SBITA activities and evaluate a government's obligations and assets resulting from SBITAs.
- GASB Statement No. 99, *Omnibus 2022*, the section applicable to the District will be effective beginning with the fiscal year ending June 30, 2023. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.
- GASB Statement No. 100, *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62*, will be effective beginning with the fiscal year ending June 30, 2024. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.
- GASB Statement No. 101, *Compensated Absences*, will be effective beginning with the fiscal year ending June 30, 2025. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

**C. Basis of Presentation - Financial Statements**

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the District's enterprise funds. Fiduciary funds are excluded from the district-wide financial statements. Currently, the District has no fiduciary funds.

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Presentation - Financial Statements (Continued)**

**District-Wide Financial Statements**

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid, and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**Fund Financial Statements**

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and enterprise funds to be major funds.

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects and the child nutrition programs, student activity funds derived from athletic events or other activities of pupil organizations and private donations for scholarship awards.

The *capital projects fund* accounts for the proceeds from the sale of bonds, financing agreements and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Presentation - Financial Statements (Continued)**

The District reports the following major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for administrators, teachers and special events.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as “internal balances”.

**D. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt, acquisitions under financing agreements and leases payable for intangible right-to-use leased assets are reported as other financing sources.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the Board’s policy to use restricted resources first, then unrestricted resources as they are needed.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

***1. Cash, Cash Equivalents and Investments***

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

***2. Receivables***

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

***3. Inventories***

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories, exclusive of the federal commodities, are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased. The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by the USDA. It is valued at estimated market prices by the USDA. The amount of unused commodities inventory at year-end is reported as deferred inflows of resources.

***4. Capital Assets***

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building Improvements	20
Heavy Equipment	10
Office Equipment and Furniture	10
Computer Equipment	5

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

***5. Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Board has two items which arise only under the accrual basis of accounting that qualify for reporting in this category. One item is the deferred amount on refunding of debt which results from a debt refunding reported in the district-wide statement of net position. Deferred amounts on debt refunding result from the difference on the transaction when the debt's reacquisition price is greater than the carrying value of the refunded debt. These amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. These amounts are deferred and amortized over future years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one item which arises only under the accrual basis of accounting that qualifies for reporting in this category. The item that qualifies for reporting in this category are the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; and (4) changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized over future years.

***6. Compensated Absences***

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused vacation and sick leave benefits. A long-term liability of accumulated vacation and sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds accrue accumulated vacation and sick leave and salary related payments in the period that they are earned. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

***7. Pensions***

In the district-wide financial statements and proprietary fund types in the fund financial statements, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems sponsored and administered by the State of New Jersey and additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In the governmental fund financial statements, net pension liabilities represent amounts normally expected to be liquidated with expendable available financial resources for required pension contributions that are due and payable at year end. Pension expenditures are recognized based on contractual pension contributions that are required to be made to the pension plan during the fiscal year.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

***8. Financing Agreements***

Capital financing agreements and other financing agreements are financed purchase contracts that transfer ownership of the underlining assets or items (i.e. expendable supplies) to the District by the end of the agreement and do not contain termination options. Capital financing agreements and other financing agreements are recognized as long-term liabilities along with the related capital asset or expenses being financed, respectively, in the district-wide and proprietary fund type financial statements.

In the fund financial statements, capital financing agreements and other financing agreements are recognized as other financing sources at the face amount of the financed purchase contract. Assets and supplies financed under these agreements are reported as capital outlay or current expenditures, respectively.

***9. Long-Term Obligations***

In the district-wide financial statements, and proprietary fund types in the fund financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Differences resulting from debt refundings are reported as deferred outflows of resources. Bond premiums are deferred and amortized over the life of the bonds using the effective interest method. Differences resulting from debt refundings are also deferred and amortized over the life of the refunded bonds or new bonds whichever is less using the effective interest method. Bonds payable are reported with the unamortized bond premium. Bond issuance costs (other than for prepaid insurance) are treated as an expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

***10. Net Position/Fund Balance***

**District-Wide Statements**

In the district-wide statements, there are three classes of net position:

- **Net Investment in Capital Assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets or related debt also should be included.
- **Restricted Net Position** – reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** – any portion of net position not already classified as either net investment in capital assets or net position – restricted is classified as net position – unrestricted.

**Governmental Fund Statements**

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**10. Net Position/Fund Balance (Continued)**

**District-Wide Statements (Continued)**

**Restricted Fund Balance** – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Capital Reserve – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 2).

Capital Reserve - Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of capital reserve fund balance appropriated in the adopted 2022/2023 District budget certified for taxes.

Maintenance Reserve – This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education. (See Note 2).

Excess Surplus – This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2022 audited excess surplus that is required to be appropriated in the 2023/2034 original budget certified for taxes.

Excess Surplus – Designated for Subsequent Year's Expenditures - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2021 audited excess surplus that was appropriated in the 2022/2023 original budget certified for taxes.

Capital Projects – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

Unemployment Compensation Reserve – This restriction was created in accordance with R.S. 43:21-7.3 to reserve funds for unemployment compensation claims reimbursable to the State under the District's election for payment in lieu of contributions (benefit reimbursement method). (See Note 4A).

Student Activities – This restriction was created in accordance with NJAC 6A:23A-16.12 to represent the accumulation of funds derived from athletic events and other student organizations reserved for the payment of student group activities.

**Assigned Fund Balance** – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2022/2023 District budget certified for taxes.

Year-End Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**

***10. Net Position/Fund Balance (Continued)***

**Governmental Fund Statements (Continued)**

**Unassigned Fund Balance** – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

In the general operating fund and other governmental funds (special revenue, capital projects and debt service fund types), it is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted (i.e., committed, assigned or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

***11. Fund Balance Policies***

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Board of Education itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the school district that can, by adoption of a resolution or formal Board action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District has no committed fund balances at year end.

Amounts in the assigned fund balance classification are intended to be used by the Board of Education for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the School Business Administrator/Board Secretary to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**F. Revenues and Expenditures/Expenses**

***1. Program Revenues***

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, investment earnings and miscellaneous revenues.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**F. Revenues and Expenditures/Expenses (Continued)**

**2. *Property Taxes***

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1<sup>st</sup> in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual “in rem” tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

**3. *Tuition Revenues and Expenditures***

Tuition Revenues - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment.

Tuition Expenditures - The Maywood School District (Sending District) entered into an agreement with the Hackensack School District (Receiving District) regarding the appropriate tuition to be charged in future years 2010/11 through 2016/17 and to address issues regarding adjustments to tuition for school years 2007/08, 2010/11, 2012/13. There was no tuition agreement in effect between the Sending District and Receiving District for the 2017/18 school year. The Sending District's resident students continued to attend the Receiving District at the rate charged by the Receiving District to other board of educations.

The parties agreed that the retroactive adjustment owed by the sending District to the receiving District amounts to \$950,901 shall be paid over a 10 year period. As such the Maywood School District is obligated to pay the receiving District an amount equal to \$95,090 per annum for years 2012/2013 through 2021/22.

**4. *Proprietary Funds, Operating and Nonoperating Revenues and Expenses***

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges to customers for sales and services. Operating expenses for enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and State subsidies for the food service operation are considered nonoperating revenues.

**NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Information**

In accordance with the requirements of the New Jersey Department of Education (“the Department”), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Lease transactions are accounted for on the GAAP basis.

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**A. Budgetary Information (Continued)**

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent for review and approval prior to adoption. The annual budget is voted upon at the annual school election on the third Tuesday in April. Districts that have their school board members elected in November no longer have to submit their budgets that meet levy cap requirements for voter approval beginning with the 2012/2013 budget year. Only a school board decision to exceed the tax levy cap would require voter approval for the additional amount on the November ballot. The Board adopted a resolution to move its annual election to the date of the general elections in accordance with the law; therefore voter approval of the annual budget is not required.

Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2021/2022. Also, during 2021/2022 the Board increased the original budget by \$170,638. The increase was funded by the reappropriation of prior year general fund encumbrances, and additional grants awarded.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

**B. Capital Reserve**

A capital reserve account was established by the District. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

**MAYWOOD BOARD OF EDUCATION  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**B. Capital Reserve (Continued)**

The activity of the capital reserve for the fiscal year ended June 30, 2022 is as follows:

Balance, July 1, 2021	\$ 1,025,000
Decreased by:	
Withdrawals approved in District Budget	<u>25,000</u>
Balance, June 30, 2022	<u>\$ 1,000,000</u>

The June 30, 2022 LRFPS balance of local support costs of uncompleted Capital Projects is \$2,427,000.

The withdrawals from the capital reserve were for use in a department approved facilities project, consistent with the district’s Long Range Facilities Plan. \$20,000 of the capital reserve balance at June 30, 2022 was designated and appropriated for use in the 2022/23 original budget certified for taxes.

**C. Maintenance Reserve**

A maintenance reserve account was established by the District. The accumulation of funds will be used for required maintenance of school facilities expenditures in subsequent fiscal years. The maintenance reserve is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the maintenance reserve are restricted to required maintenance activities for a school facility as reported in the comprehensive maintenance plan. A District may appropriate funds into the maintenance reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the reserve cannot at any time exceed four percent of the replacement cost of the school district’s school facilities for the current year.

The activity of the maintenance reserve for the fiscal year ended June 30, 2022 is as follows:

Balance, July 1, 2021	\$ 250,000
Increased by:	
Deposits Approved by Board Resolution	<u>14,558</u>
	264,558
Decreased by:	
Withdrawals Approved by Board Resolution	<u>14,558</u>
Balance, June 30, 2022	<u>\$ 250,000</u>

The June 30, 2022 comprehensive maintenance plan indicated a maximum maintenance reserve amount of \$873,564.

**NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**D. Calculation of Excess Surplus**

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund fund balance in excess of 4% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The excess fund balance at June 30, 2022 is \$1,326,895. Of this amount, \$728,371 was designated and appropriated in the 2022/2023 original budget certified for taxes and the remaining amount of \$598,524 will be appropriated in the 2023/2024 original budget certified for taxes.

**NOTE 3 DETAILED NOTES ON ALL FUNDS**

**A. Cash Deposits and Investments**

**Cash Deposits**

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), National Credit Union Share Insurance Fund (NCUSIF), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC and NCUSIF.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. NCUSIF insures credit union accounts up to \$250,000 in the aggregate for each financial institution. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2022, the book value of the Board's deposits were \$4,729,741 and bank and brokerage firm balances of the Board's deposits amounted to \$4,863,941. The Board's deposits which are displayed on the various fund balance sheets as "cash and cash equivalents" are categorized as:

**Depository Account**

Insured	\$ 4,819,047
Uninsured and Collateralized	<u>44,894</u>
	<u>\$ 4,863,941</u>

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2021, none of the Board's bank balances were exposed to custodial credit risk.

**Investments**

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America; Government Money Market Mutual Funds; any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligations bear a fixed rate of interest not dependent on any index or other external factor; bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located; Bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the “Local Authorities Fiscal Control Law,” (C.40A:5A-1 et seq.); Other bonds or obligations having a maturity date not more than 397 days from the date of purchase may be approved by the Division of Investment in the Department of the Treasury for investment by school districts; Local Government investment pools; deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4); and agreements for the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2022, the Board had no outstanding investments.

**B. Receivables**

Receivables as of June 30, 2022 for the district’s individual major funds including the applicable allowances for uncollectible accounts, are as follows:

**NOTE 4 OTHER INFORMATION**

**A. Risk Management**

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Annual Comprehensive Financial Report.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

**NOTE 4 OTHER INFORMATION (Continued)**

**A. Risk Management (Continued)**

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District’s restricted fund balance for unemployment compensation claims in the General Fund for the current and previous two years:

Fiscal Year Ended <u>June 30,</u>	District <u>Contributions</u>	Employee <u>Contributions</u>	Amount <u>Reimbursed</u>	Ending <u>Balance</u>
2022	\$ 35,000	\$ 18,425	\$ 347	\$ 127,054
2021	None	19,511	12,627	105,796
2020	None	15,661	11,621	98,912

**B. Contingent Liabilities**

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

**Federal and State Awards** – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2022, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

**C. Federal Arbitrage Regulations**

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2022, the District has not estimated its arbitrage earnings due to the IRS, if any.

**D. Employee Retirement Systems and Pension Plans**

**Plan Descriptions and Benefits Provided**

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all Board employees who are eligible for pension coverage:

**Public Employees’ Retirement System (PERS)** – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees. PERS is a cost sharing multiple employer defined benefit pension plan. For additional information about PERS, please refer to the State Division of Pension and Benefits (Division’s) Annual Comprehensive Annual Financial Report (ACFR) which can be found at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<b>Tier</b>	<b>Definition</b>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55<sup>th</sup> of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60<sup>th</sup> of final average salary for each year of service credit is available to tier 4 members upon reached age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, tier 3 and 4 members with 25 or more years of service credit before age 62, and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least ten years of service credit and have not reached the service retirement age for the respective tier.

**Teachers’ Pension and Annuity Fund (TPAF)** – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees. TPAF is a cost sharing multiple- employer defined benefit pension plan with a special funding situation, which the State is responsible to fund 100% of local employer contributions, excluding any local employer early retirement incentive (ERI) contributions. For additional information about TPAF, please refer to the State Division of Pension and Benefits (Division’s) Annual Comprehensive Financial Report (ACFR) which can be found at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members’ beneficiaries are entitled to full interest credited to the members’ accounts.

Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement for his/her respective tier. Deferred retirement is available to members who have at least ten years of service credit and have not reached the service retirement age for the respective tier.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

**Defined Contribution Retirement Program (DCRP)** – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected and certain appointed officials, effective July 1, 2007 and employees enrolled in PERS or TPAF on or after July 1, 2007 who earn in excess of established annual maximum compensation limits (equivalent to annual maximum wage for social security deductions). This provision was extended by Chapter 1, P.L. 2010, effective May 21, 2010, to new employees (Tier 2) of the PFRS and new employees who would otherwise be eligible to participate in PERS or TPAF on or after November 2, 2008 and do not earn the minimum salary required for tier 3 enrollment or do not work the minimum required hours for tier 4 and tier 5 enrollments but earn a base salary of at least \$5,000 are eligible for participation in the DCRP. Membership is mandatory for such individuals with vesting occurring after one (1) year of membership. DCRP is a defined contribution pension plan.

**Other Pension Funds**

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits (“Division”), issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

**NOTE 4 OTHER INFORMATION (Continued)**

**D. Employee Retirement Systems and Pension Plans (Continued)**

**Plan Amendments**

The authority to amend the provisions of the above plans rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for TPAF and PERS, once a Target Funded Ratio (TFR) is met. The Pension Plan Design Committees will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation of final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committees will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a 30-year projection period.

**Measurement Focus and Basis of Accounting**

The financial statements of the retirement systems are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the pension trust funds. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

**Investment Valuation**

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of the retirement systems. Prudential retirement is the third-party administrator for the DCRP and provides record keeping, administrative services and investment options. Investment transactions are accounted for on a trade or investment date basis. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex-dividend date. The net increase or decrease in the fair value of investments includes the net realized and unrealized gains or losses on investments.

The State of New Jersey, Department of the Treasury, Division of Investment issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290 or at [www.state.nj.us/treasury/doinvest](http://www.state.nj.us/treasury/doinvest).

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 4 OTHER INFORMATION (Continued)**

**D. Employee Retirement Systems and Pension Plans (Continued)**

**Collective Net Pension Liability**

The collective net pension liability of the participating employers for local PERS at June 30, 2021 is \$12.0 billion and the plan fiduciary net position as a percentage of the total pension liability is 70.33%. The collective net pension liability of the State funded TPAF at June 30, 2021 is \$48.2 billion and the plan fiduciary net position as a percentage of total pension liability is 35.52%.

The total pension liabilities were determined based on actuarial valuations as of July 1, 2020 which were rolled forward to June 30, 2021.

**Actuarial Methods and Assumptions**

In the July 1, 2020 PERS and TPAF actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary’s report and are included here in this note to the financial statements. The pension systems selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 68. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

**Employer and Employee Pension Contributions**

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 7.50% for PERS, 7.50% for TPAF and 5.50% for DCRP of the employee’s annual compensation for fiscal year 2022.

PERS employers’ and TPAF State’s nonemployer contributions are based on actuarially determined amounts, which include the normal cost and unfunded accrued liability. For the fiscal year ended June 30, 2022 for TPAF, which is a cost sharing multiple employer defined benefit pension plan with a special funding situation, the State’s annual pension contribution was less than this actuarial determined amount. For local PERS, which is a cost sharing multiple employer defined benefit pension plan, the annual pension contributions were equal to the actuarial determined amounts. TPAF nonemployer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution. All PERS and DCRP contributions made by the Board for fiscal years 2022, 2021 and 2020 were equal to the required contributions.

During the fiscal years ended June 30, 2022, 2021 and 2020 the Board was required to contribute for PERS and DCRP and the State of New Jersey, as a nonemployer contributing entity, to contribute for TPAF, respectively for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Fiscal Year Ended <u>June 30,</u>	<u>PERS</u>	On-behalf <u>TPAF</u>	<u>DCRP</u>
2022	\$ 163,644	\$ 2,621,524	\$ 32,594
2021	157,354	1,773,833	22,969
2020	147,603	1,263,453	22,965

**D. Employee Retirement Systems and Pension Plans (Continued)**

**Employer and Employee Pension Contributions (Continued)**

In addition for fiscal years 2022, 2021 and 2020, the District contributed \$0, \$0 and \$634, respectively for PERS and the State contributed \$875, \$771 and \$730, respectively for TPAF for Long Term Disability Insurance Premium (LTDI).

The PERS contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure. The on-behalf TPAF contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB Statement No. 85, *Omnibus 2017* (GASB No. 85). The DCRP contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure, as well as, the district-wide financial statements (accrual basis) as an expense.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$534,608 during the fiscal year ended June 30, 2021 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been recognized in the district-wide financial statements (accrual basis) and the governmental fund financial statements (modified accrual basis) as a revenue and expense/expenditure in accordance with GASB No. 85.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

**Public Employees Retirement System (PERS)**

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, (GASB No. 68) requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The employer allocation percentages presented are based on the ratio of the contributions as an individual employer to total contributions to the PERS during the measurement period July 1, 2020 through June 30, 2021. Employer allocation percentages have been rounded for presentation purposes.

Although the NJ Division of Pensions and Benefits ("Division") administers one cost-sharing multiple employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages are presented for each group. The allocation percentages for each group as of June 30, 2021 are based on the ratio of each employer's contribution to total employer contributions of the group for the fiscal year ended June 30, 2021.

At June 30, 2022, the District reported in the statement of net position (accrual basis) a liability of \$1,655,351 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2020 and was determined by an actuarial valuation as of July 1, 2020. The District's proportionate share of the net pension liability was based on the ratio of the District's share of contributions to the pension plan relative to the total contributions of all participating governmental entities. At June 30, 2021, the District's proportionate share was 0.01397 percent, which was a decrease of .00120 percent from its proportionate share measured as of June 30, 2020 of .01517 percent.

For the fiscal year ended June 30, 2022, the District recognized in the district-wide statement of activities (accrual basis) pension benefit of \$265,405 for PERS. The pension contribution made by the District during the current 2021/2022 fiscal year is the contribution that is applied to the net pension liability reported at the end of the current fiscal year of June 30, 2022 with a measurement date of the prior fiscal year end of June 30, 2022. Since the State of New Jersey applies the current year pension contribution towards the calculation of the net pension liability reported at the end of the current fiscal year, which has a measurement date of the preceding fiscal year end, there is no deferred outflows of resources reported as of June 30, 2022 for contributions made subsequent to the measurement date. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to PERS pension from the following sources:

	<b><u>Deferred Outflows of Resources</u></b>	<b><u>Deferred Inflows of Resources</u></b>
Difference Between Expected and Actual Experience	\$ 26,107	\$ 11,850
Changes of Assumptions	8,621	589,316

*Actuarial Assumptions*

The District’s total pension liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	<u>PERS</u>
Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00-6.00% Based on Years of Service
Thereafter	3.00%-7.00% Based on Years of Service
Investment Rate of Return	7.00%

*Mortality Rates*

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

***Long-Term Expected Rate of Return***

In accordance with State statute, the long-term expected rate of return on plan investments (7% at June 30, 2021) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and actuaries. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the PERS target asset allocation as of June 30, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Risk Mitigation Strategies	3.00%	3.35%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	0.95%
Investment Grade Credit	8.00%	1.68%
US Equity	27.00%	8.09%
Non-US Developed Markets Equity	13.50%	8.71%
Emerging Markets Equity	5.50%	10.96%

***Discount Rate (Continued)***

The discount rate used to measure the total pension liability for PERS was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

***Sensitivity of Net Pension Liability***

The following presents the District’s proportionate share of the PERS net pension liability calculated using the discount rate of 7.00%, as well as what the District’s proportionate share of the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	<b>1% Decrease <u>6.00%</u></b>	<b>Current Discount Rate <u>7.00%</u></b>	<b>1% Increase <u>8.00%</u></b>
District's Proportionate Share of the PERS Net Pension Liability	<u>\$ 2,254,252</u>	<u>\$ 1,655,351</u>	<u>\$ 1,147,098</u>

The sensitivity analysis was based on the proportionate share of the District’s net pension liability as of the measurement date of June 30, 2020. A sensitivity analysis specific to the District’s net pension liability at June 30, 2021 was not provided by the pension system.

***Pension Plan Fiduciary Net Position***

Detailed information about the PERS pension plan’s fiduciary net position is available in the separately issued financial report from the State of New Jersey, Department of the Treasury, Division of Pension and Benefits. **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

**Teachers Pension and Annuity Fund (TPAF)**

GASB No. 68, requires participating employers in TPAF to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The non-employer allocation percentages presented are based on the ratio of the State's contributions made as an employee and non-employer adjusted for unpaid early retirement incentives to total contributions to TPAF during the measurement period July 1, 2020 through June 30, 2021. Non-employer allocation percentages have been rounded for presentation purposes.

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and non-employer contributions by the State. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For the fiscal year ended June 30, 2021, the State's pension contribution was less than the actuarial determined amount.

In accordance with GASB No. 68, the District is not required to recognize a net pension liability for TPAF. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 68 is zero percent and the State's proportionate share is 100% of the net pension liability attributable to the District for TPAF. Therefore, in addition, the District does not recognize any portion of the TPAF collective deferred outflows of resources and deferred inflows of resources.

For the fiscal year ended June 30, 2022, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$2,621,524 for TPAF. This amount has been included in the district-wide statement of activities (accrual basis) as both a revenue and expense in accordance with GASB No. 85.

At June 30, 2022 the State's proportionate share of the net pension liability attributable to the District is \$28,788,657. The net pension liability was measured as of June 30, 2021 and was determined by an actuarial valuation as of July 1, 20. The nonemployer allocation percentages are based on the ratio of the State's contributions made as a nonemployer attributable to the District adjusted for unpaid early retirement incentives relative to total contributions to TPAF during the year ended June 30, 2021. At June 30, 2021, the State's share of the net pension liability attributable to the District was .05988 percent, which was an increase of .00329 percent from its proportionate share measured as of June 30, 2020 of .05659 percent.

***Mortality Rates***

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

**E. Post-Retirement Medical Benefits**

The State of New Jersey sponsors and administers the post-retirement health benefit program plan for school districts.

As a result of implementing GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, the post-retirement health benefit program plan is reported in a Custodial Fund in the New Jersey Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. In addition, the plan is administered on a pay-as-you-go basis. Therefore, the plan has no assets accumulated in a qualified trust. In accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pension* (GASB No. 75), the plan is classified as a multiple-employer defined benefit OPEB plan with a special funding situation that is not administered through a trust that meets the criteria in paragraph 4 of GASB No. 75.

**Plan Description and Benefits Provided**

The State of New Jersey sponsors and administers the following post-retirement health benefit program plan covering certain local school district employees, including those Board employees and retirees eligible for coverage.

**State Health Benefit Program Fund – Local Education Retired Employees Plan** (including Prescription Drug Program Fund) – N.J.S.A. 52:14-17.32f provides medical coverage, prescription drug benefits and Medicare Part B reimbursement to qualified retired education employees and their covered dependents. The State of New Jersey provides employer-paid coverage to members of the TPAF who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of Chapter 126, P.L. 1992, the State also provides employer-paid coverage to members of the PERS and Alternate Benefits Program (ABP) who retire from a board of education or county college with 25 years of service or on a disability retirement if the member’s employer does not provide this coverage. Retirees who are not eligible for employer paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree’s annual retirement benefit and level of coverage.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

**Measurement Focus and Basis of Accounting**

The financial statements of the post-employment health benefit plan are prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, the Division adheres to reporting requirements established by the Governmental Accounting Standards Board (GASB).

The accrual basis of accounting is used for measuring financial position and changes in net position of the post-employment health benefit plan. Under this method, contributions are recorded in the accounting period in which they are legally due from the employer or plan member, and deductions are recorded at the time the liabilities are due and payable in accordance with the terms of each plan. The accounts of the Division are organized and operated on the basis of funds. All funds are accounted for using an economic resources measurement focus.

**Investment Valuation**

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

**Collective Net OPEB Liability**

The collective net OPEB liability of the State, as the non-employer contributing entity, of the plan at June 30, 2021 is \$60.0 billion, and the plan fiduciary net position as a percentage of the total OPEB liability is zero percent.

The total OPEB liabilities were determined based on actuarial valuations as of June 30, 2020 which were rolled forward to June 30, 2021.

**Actuarial Methods and Assumptions**

In the June 30, 2020 OPEB actuarial valuation, the actuarial assumptions and methods used in these valuations were described in the Actuarial Assumptions and Methods section of the Actuary's report and are included here in this note to the financial statements. The Plan selected economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB Statement No. 75. The Actuary provided guidance with respect to these assumptions, and it is their belief that the assumptions represent reasonable expectations of anticipated plan experience.

**NOTE 4 OTHER INFORMATION (Continued)**

**E. Post-Retirement Medical Benefits (Continued)**

**Post-Retirement Medical Benefits Contributions**

The funding policy of the OPEB plan is pay as you go basis; therefore, there is no prefunding of the liability. Contributions to pay for the health benefit premiums of participating employees in the OPEB plan are made by the State, as a non-employer contributing entity, under a special funding situation in accordance with State statutes as previously disclosed. The State as a non-employer contributing entity made contributions of \$1.23 billion to the OPEB plan in fiscal year 2021.

The State sets the contribution rate based on a pay as you go basis rather than the actuarial determined contribution amount actuarially determined in accordance with the parameters of GASB Statement 75. The actuarial determined contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and any unfunded actuarial liabilities (or funding excess) of the plan using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the Plan. The State's contributions, as a nonemployer contributing entity, to the State Health Benefits Program Fund – Local Education Retired Employees Plan for retirees' post-retirement benefits on behalf of the School District for the fiscal years ended June 30, 2022, 2021 and 2020 were \$612,494, \$555,892 and \$468,718, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund – Local Education Retired Employees Plan for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey. The on-behalf OPEB contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB No. 85.

**OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

GASB Statement No. 75 requires participating employers in the State Health Benefit Program Fund – Local Education Retired Employees Plan to recognize their proportionate share of the collective OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources and collective OPEB expense. The nonemployer allocation percentages presented are based on the ratio of the State's contributions made as a nonemployer toward the actuarially determined contribution amount to total contributions to the plan during the measurement period July 1, 2020 through June 30, 2021. Nonemployer allocation percentages have been rounded for presentation purposes.

In accordance with GASB No. 75, the District is not required to recognize an OPEB liability for the post-employment health benefit plan. The State of New Jersey, as a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to the plan on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 75 is zero percent and the State's proportionate share is 100% of the OPEB liability attributable to the District. Therefore, in addition, the District does not recognize any portion of the collective deferred outflows of resources and deferred inflows of resources related to the plan.

**OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)**

For the fiscal year ended June 30, 2022, the District recognized in the district-wide statement of activities (accrual basis) OPEB expense of \$2,189,414. This amount has been included in the district-wide statement of activities (accrual basis) as both a revenue and expense in accordance with GASB No. 85.

At June 30, 2022 the State’s proportionate share of the OPEB liability attributable to the District is \$31,352,932. The nonemployer allocation percentages are based on the ratio of the State’s proportionate share of the OPEB liability attributable to the District at June 30, 2021 to the total OPEB liability of the State Health Benefit Program Fund – Local Education Retired Employees Plan at June 30, 2021. At June 30, 2021 and 2020, the state’s share of the OPEB liability attributable to the District was 0.05 percent.

**Actuarial Assumptions**

The OPEB liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

**Actuarial Assumptions (Continued)**

Preretirement mortality rates were based on the Pub-2010 Health “Teachers” (TPAF) and “General” (PERS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 “General” classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2010 “General” (PERS) and “Teachers” (TPAF) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of the TPAF and PERS actuarial experience studies for the period July 1, 2015 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the plan upon retirement.

**Health Care Trend Assumptions**

For pre-Medicare medical benefits, the trend rate is initially 5.65% and decreases to a 4.50% long-term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2022 through 2023 are reflected. For PPO the trend is initially 5.74% in fiscal year 2024, increasing to 12.93% in fiscal year 2025 and decreases to 4.50% after 11 years. For HMO the trend is initially 6.01% in fiscal year 2024, increasing to 15.23% in fiscal year 2025 and decreases to 4.5% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.50% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%

**Discount Rate**

The discount rate for June 30, 2021 was 2.16%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

**Sensitivity of OPEB Liability**

*Sensitivity of the total OPEB liability to changes in the discount rate.* The following presents the State's proportionate share of the OPEB liability attributable to the District calculated using the discount rate of 2.16%; as well as what the State's proportionate share of the OPEB liability attributable to the District that would be if it were calculated using a discount rate that is 1-percentage-point lower (1.16 percent) or 1-percentage-point higher (3.16 percent) than the current rate:

	<b>1% Decrease <u>(1.16%)</u></b>	<b>Current Discount Rate <u>(2.16%)</u></b>	<b>1% Increase <u>(3.16%)</u></b>
State's Proportionate Share of the OPEB Liability Attributable to the District	<u>\$ 37,555,891</u>	<u>\$ 31,352,932</u>	<u>\$ 26,468,474</u>

*Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates.* The following presents the State's proportionate share of the OPEB liability attributable to the District calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<b>1% Decrease</b>	<b>Healthcare Cost Trend Rates</b>	<b>1% Increase</b>
State's Proportionate Share of the OPEB Liability Attributable to the District	<u>\$ 25,380,300</u>	<u>\$ 31,352,932</u>	<u>\$ 39,373,735</u>

The sensitivity analyses were based on the State's proportionate share of the OPEB liability attributable to the District at June 30, 2021. Sensitivity analyses specific to the State's proportionate share of the OPEB liability attributable to the District at June 30, 2021 were not provided by the pension system.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 5 INFECTIOUS DISEASE OUTBREAK – COVID-19 RECENT DEVELOPEMENTS**

The outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus, has been characterized as a pandemic (the “Pandemic”) by the World Health Organization and has been affecting many parts of the world, including the United States and the State of New Jersey. On January 31, 2020, the Secretary of the United States Health and Human Services Department declared a public health emergency for the United States and on March 13, 2020, the President of the United States declared the outbreak of COVID-19 in the United States a national emergency. Subsequently, the President’s Coronavirus Guidelines for America and the United States Centers for Disease Control and Prevention called upon Americans to take actions to slow the spread of COVID-19 in the United States. As governments monitor the outbreaks, they have taken various steps to control them through requiring social distancing, masks and business closures and limited openings. As the virus appears to be under control in many areas, many of these restrictions have been lifted although the situation is monitored, sometimes restrictions are reinstated. Several vaccines have been developed and have been administered. Mutant variants have emerged in various places around the world and now are prevalent in the United States. Certain workers are being required to be vaccinated. Companies have developed booster shots, and current vaccines have proven substantially effective against all currently know variants. New treatments are also being developed to avert the worst outcomes. The assessment of the impact of the virus and the ability to control it and its mutant strains is ongoing.

In the State, Governor Phil Murphy has issued multiple Executive Orders since March 16, 2020 including but not limited to aggressive social distancing measures, restrictions on local elections, restrictions on foreclosure and evictions, suspension of all elective surgeries, closing of schools and child care centers, the commandeering of property such as medical supplies, the cessation of all non-essential construction projects, extending insurance premium grace periods, the temporary reprieve to certain at-risk inmates and the extension of the permitted statutory grace period from May 11, 2020 to June 1, 2020 for quarterly property taxes due May 1, 2020. On June 4, 2021, the Governor signed legislation enabling the end of the public health emergency and keeping certain executive orders in place until January 1, 2022, though such executive orders may be modified or rescinded prior to that day by the Governor. The Board expects ongoing actions be taken by State, federal and local governments and private entities to mitigate the spread and impacts of COVID-19. The Pandemic has negatively affected travel, commerce, and financial markets globally, and may continue to negatively affect economic growth and financial markets worldwide. These negative impacts could reduce or negatively affect property values within the School District.

Since the pandemic began, the federal government had enacted rescue legislation to address the pandemic and alleviate its economic and health effects, including significant support for education. The legislation includes various forms of financial relief including direct stimulus payments and various other forms of economic relief, including extended unemployment benefits, continued eviction and foreclosure moratoriums, an increase in the child tax credit, an increase in food and housing aid, assistance grants to restaurants and bars, and other small business grants and loans. The Plan provides funding for state and local governments to offset costs to safely reopen schools during the COVID-19 pandemic and to subsidize COVID-19 testing and vaccination programs. Federal aid for public education has been provided under three 5 separate laws: The Coronavirus Aid, Relief, and Economic Security Act in March 2020 (CARES Act), and the Coronavirus Response and Relief Supplemental Appropriations Act in December 2020 (CRRSA) and the American Rescue Plan Act in March 2021 (ARP). The Elementary and Secondary School Emergency Relief (ESSER) Fund is the main source of funding for public elementary and secondary education under each law. The School District has been awarded up to \$2,113,380 to address certain expenses incurred as a result of the pandemic. Because of the evolving nature of the outbreak and federal, state and local responses, the Board cannot predict how the outbreak will impact the financial condition or operations of the Board, or if there will be any impact on the assessed values of property within the School District or deferral of tax payments to municipalities. The School District cannot predict costs associated with this or any other potential infectious disease outbreak including whether there will be any reduction in State funding or an increase in operational costs incurred to clean, sanitize and maintain its facilities either before or after an outbreak of an infectious disease. To date the School District has not been materially and adversely affected financially due to the virus.

**MAYWOOD BOARD OF EDUCATION  
 REQUIRED SUPPLEMENTARY INFORMATION  
 BUDGETARY COMPARISON SCHEDULE  
 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
 FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR’S REPORT**

Honorable President and Members  
of the Board of Trustees  
Maywood Board of Education  
Maywood, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities and each major fund of the Maywood Board of Education as of and for the fiscal year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the Maywood Board of Education’s basic financial statements and have issued our report thereon dated February 2, 2023.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Maywood Board of Education’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Maywood Board of Education’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Maywood Board of Education’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

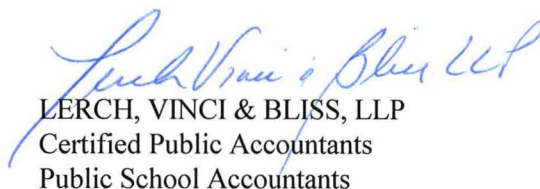

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

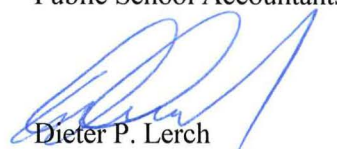

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Maywood Board of Education’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Maywood Board of Education’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Maywood Board of Education’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE U.S. UNIFORM  
GUIDANCE AND SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE AS REQUIRED BY  
NEW JERSEY OMB CIRCULAR 15-08  
INDEPENDENT AUDITOR'S REPORT**

Honorable President and Members  
of the Board of Education  
Maywood Board of Education  
Maywood, New Jersey

**Report on Compliance for Each Major Federal and State Program**

***Opinion on Each Major Federal and State Program***

We have audited the Maywood Board of Education's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) Compliance Supplement and the New Jersey OMB Circular 15-08 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Maywood Board of Education's major federal and state programs for the fiscal year ended June 30, 2022. The Maywood Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Maywood Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2022.

***Basis for Opinion on Each Major Federal and State Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey; audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and audit requirements of New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Our responsibilities under those standards, U.S. Uniform Guidance and New Jersey OMB Circular are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Maywood Board of Education and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the Maywood Board of Education's compliance with the compliance requirements referred to above.

## ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulation, rules, and provisions of contracts or grant agreements applicable to the Maywood Board of Education's federal and state programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Maywood Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, U.S. Uniform Guidance and New Jersey OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentation, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Maywood Board of Education's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, U.S. Uniform Guidance, and New Jersey OMB Circular 15-08, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Maywood Board of Education's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Maywood Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the U.S. Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of the Maywood Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of U.S. Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by U.S. Uniform Guidance and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08**

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund, of the Maywood Board of Education, as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board of Education’s basic financial statements. We have issued our report thereon dated February 2, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by the U.S. Uniform Guidance and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE SCHEDULES OF EXPENDITURES OF  
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 1 GENERAL**

The accompanying schedules present the activity of all federal and state financial assistance programs of the Maywood Board of Education. The Board of Education is defined in Note 1(A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

**NOTE 2 BASIS OF ACCOUNTING**

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (U.S. Uniform Guidance) and New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

**NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS**

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$509,826 for the general fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund		\$ 5,610,131	\$ 5,610,131
Special Revenue Fund	\$ 925,039	-	925,039
Food Service Fund	<u>365,606</u>	<u>8,131</u>	<u>373,737</u>
Total Financial Assistance	<u>\$ 1,290,645</u>	<u>\$ 5,618,262</u>	<u>\$ 6,908,907</u>

**MAYWOOD BOARD OF EDUCATION  
NOTES TO THE SCHEDULES OF EXPENDITURES OF  
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE  
FOR THE FISCAL YEAR ENDED JUNE 30, 2022**

**NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS**

Amounts reported in the accompanying schedules may not necessarily agree with the amounts reported in the related federal and state financial reports due to timing differences between the District's fiscal year and grant program years.

**NOTE 5 OTHER INFORMATION**

Revenues and expenditures reported under the Food Distribution Program as non-cash assistance represent current year value received and current year distributions, respectively. TPAF Social Security contributions in the amount of \$534,608 represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2022. The amount reported as TPAF Pension System Contributions in the amount of \$2,621,524, TPAF Post-Retirement Medical Benefits Contributions in the amount of \$612,494 and TPAF Long-Term Disability Insurance in the amount of \$875 represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2022.

**NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT**

On-behalf State Programs for TPAF Pension, Post-Retirement Medical Benefits and Long-Term Disability Insurance Contributions payments are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amount subject to State single audit and major program determination.

**NOTE 7 DE MINIMIS INDIRECT COST RATE**

The District has not elected to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.
