March 10, 2023

Honorable President and Members
of the Board of Education
South River School District
South River, NJ 08882

Dear Board Members:

The Annual Comprehensive Financial Report of the South River School District (the "District") for the fiscal year ended June 30, 2022 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the South River Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Annual Comprehensive Financial Report is presented in four sections: introductory, financial, statistical tables and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditors' report thereon. The statistical tables section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and in addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 *US Code of Federal Regulations* Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08. Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. **REPORTING ENTITY AND ITS SERVICES:** The District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB). All funds of the District are included in this report. The South River Board of Education and all its schools constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular, vocational as well as special education for disabled Pre-K youngsters. The District completed the 2022 fiscal year with an enrollment of 2,374 students as of June 30, 2022, which is 68 students more than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last seven years.

Average Daily Enrollment

<u>Fiscal Year</u> <u>Ending June 30,</u>	<u>Student</u> <u>Enrollment</u>	<u>Percent</u> <u>Increase/(Decrease)</u>
2022	2,394	3.82%
2021	2,306	(1.83%)
2020	2,349	3.85%
2019	2,262	3.15%
2018	2,193	(0.77%)
2017	2,210	(0.36%)
2016	2,218	(2.60%)

2. **ECONOMIC CONDITION AND OUTLOOK:** South River is a community that has little to no ratables to establish a firm tax base to support its education program. There is an attempt to revitalize the downtown district and there are several new housing developments that have been approved and will add not only to the tax base but, more importantly, to the educational costs. The town receives funds as a result of a shared Host Community Benefits program for the Edgeboro Landfill. Land available for additional industrial development is not plentiful.
3. **MAJOR INITIATIVES:** South River Public Schools continues to analyze standards and data related to student achievement. Our teaching staff has engaged in data review to determine standards students need additional support in mastering. We continue to provide staff training to support the diverse school community we serve. We have also expanded our STEM offerings by instituting a Virtual Reality programming course at the high school. Finally, we continue to expand our Pre School classes designed to engage South River's youngest learners.
4. **INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District's management.

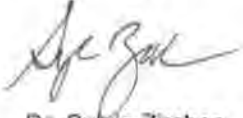

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, as well as to determine that the District has complied with applicable laws and regulations.

5. **BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. These amounts to be reappropriated are reported as reservations of fund balance at June 30, 2022.
6. **ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds as explained in the "Notes to the Financial Statements", Note 2.
7. **DEBT ADMINISTRATION:** The School District had outstanding debt as of June 30, 2022 of \$3,948,000.00. The remaining annual maturity schedule for principal as well as annual interest payments are detailed in the "Notes to Financial Statements", Note 8.
8. **FINANCIAL STATUS:** The Business Administrator and the Board of Education continue to guide the District with fiscal prudence while working within the limitations imposed by the state's 2% cap on the annual increase of the tax revenue collected from the Borough of South River. The business office utilizes purchasing co-operatives, state contracts and bids to purchase the materials needed to operate the District at the lowest possible price.
9. **OTHER INFORMATION:**

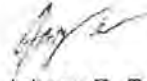

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. Gerard Stankiewicz, CPA, PSA of the accounting firm of Samuel Klein and Company, Certified Public Accountants, was selected by the Board's Finance Committee. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey OMB's Circular 15-08. The auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

10. **ACKNOWLEDGMENTS:** We would like to express our appreciation to the members of the South River Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

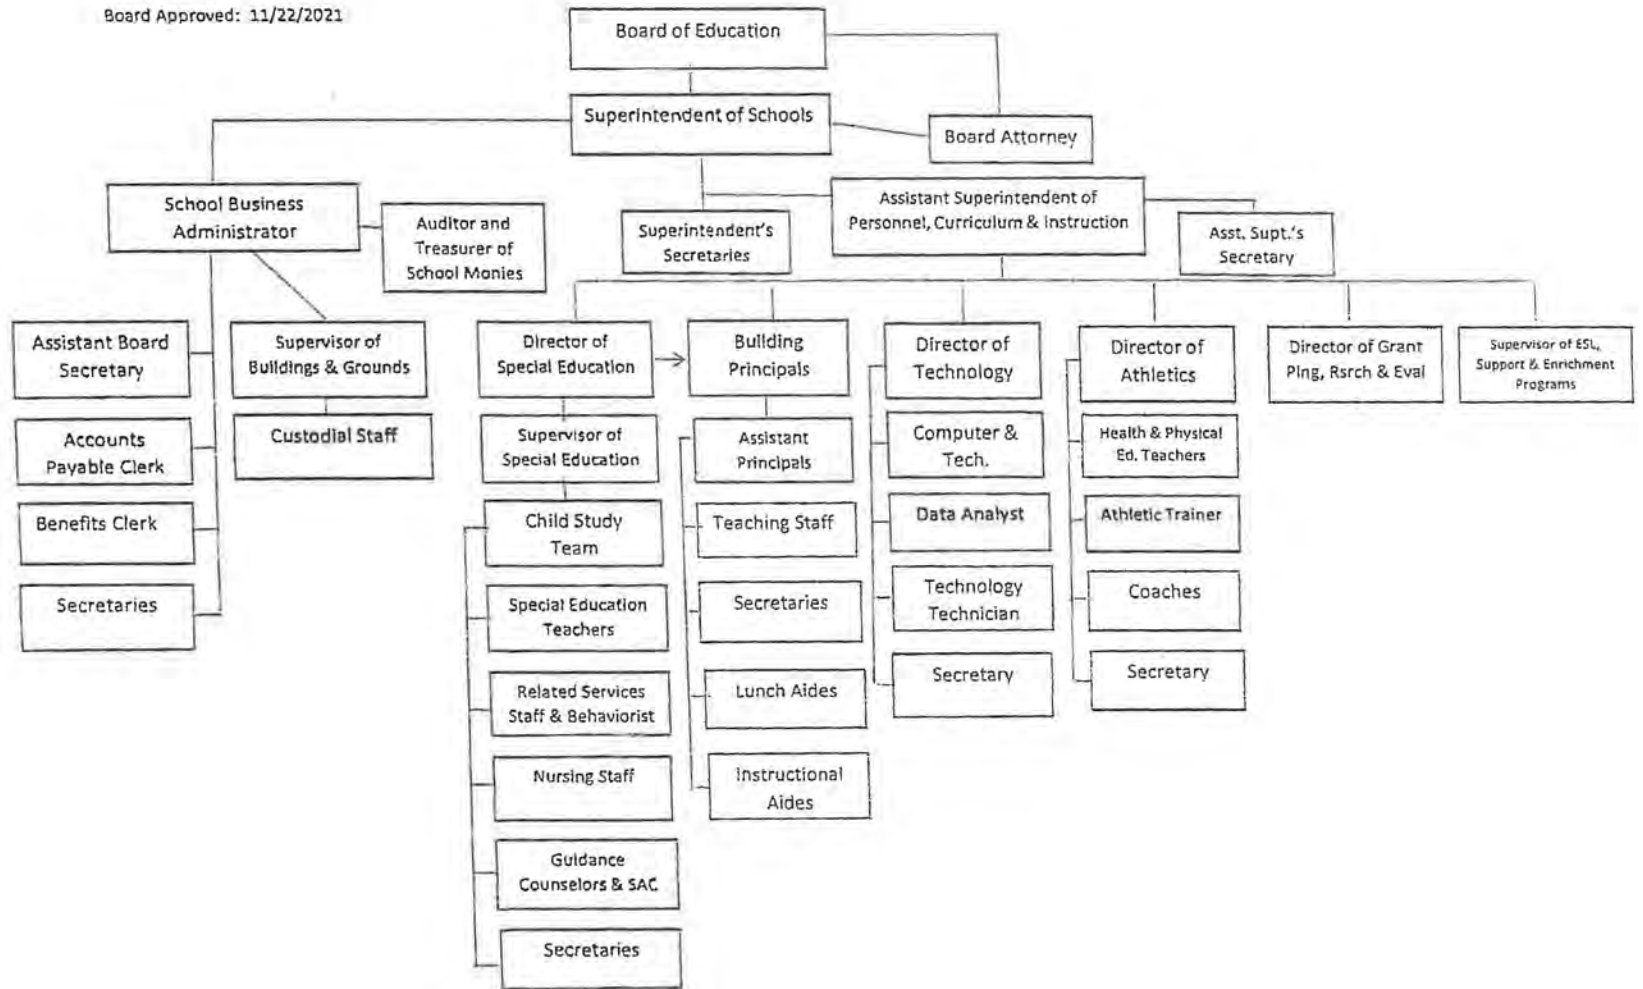

Dr. Sylvia Zircher

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board
South River Borough Board of Education
County of Middlesex
South River, New Jersey

Report on the Financial Statement

Opinions

We have audited the accompanying financial statements of the governmental activities, the business type activities each major fund and the aggregate remaining fund information of the Board of Education of the Borough of South River School District, County of Middlesex, State of New Jersey, as of and for the year ended June 30, 2022 and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities each major fund and the aggregate remaining fund information of the Board of Education of the South River Borough School District, as of June 30, 2022, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), and *audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for Audit of the Financial Statements section of our report. We are required to be independent of the Board of Education of the Borough of South River School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards* and auditing standards prescribed by the Office of School Finance, Department of Education, State of New Jersey, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis and Budgetary Comparison Information and schedule of the District's proportionate share of the net pension liability – PERS, schedule of District contributions, schedule of the State's proportionate share of the net pension liability associated with the District – TPAF, the District's proportionate share of the net OPEB Liability – PERS and TPAF and budgetary comparison information as identified in the table of contents be presented to supplement the basic financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of South River School District basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, and statistical section are presented for purposes of additional analysis, as required by the Division of Finance, Department of Education, State of New Jersey, and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Audits of States, Local Governments, and Non-Profit Organizations* and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and the other information such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Combining and Individual Fund Financial Statements and the Schedule of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Combining and Individual Fund Financial Statements, Long-term Debt Schedules and the Schedule of Expenditures of Federal Awards and State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information identified above has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 10, 2023, on our consideration of the Board of Education of the South River Borough School District internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the South River Borough School District's internal control over financial reporting and compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the South River Borough School District internal control over financial reporting compliance.

March 10, 2023

Honorable President and Members
of the Board of Education
South River School District
South River, NJ 08882

Dear Board Members:

Management's Discussion and Analysis

The discussion and analysis of South River School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999. Certain comparative information between the current year (2021-2022) and the prior year (2020-2021) is required to be presented in MD&A. The District has elected to prepare comparative data which includes prior year's financial statements.

Overview of Financial Statements

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This document also contains required and supplementary information and other information in addition to the basic financial statements themselves.

Financial Highlights

Key financial highlights for 2022 are as follows:

Government-Wide GASB #34

In total, net position totaled \$33,598,568 which represents a \$3,651,607 or 12.16% increase from 2021 net position as adjusted, which is attributed to a higher level of revenues and an increase in expenditures.

General revenues accounted for \$46,375,126 or 89.41% of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, accounted for \$5,493,736 or 10.59% of total revenues of \$51,868,862.

Government-Wide GASB #34 (Continued)

The District had \$50,043,249 in expenses; only \$7,291,903 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes and state aid) of \$46,375,126 were adequate to provide for these programs.

Basic Financial Statements

Total position of governmental activities increased by \$1,894,468 as cash and cash equivalents increased by \$1,177,567, receivables increased by \$936,531 and liabilities increased by \$219,630.

Among major funds, the General Fund had \$45,965,971 in revenues and \$44,076,361 in expenditures. The General Fund's fund balance increased \$1,889,610 over 2021, which was caused by an increase in revenue in excess of expenditures. The General Fund's fund balance is \$7,480,998.

Using this Annual Comprehensive Financial Report (ACFR)

The annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the District, presenting both an aggregate view of the District's finances and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the South River School District, the General Fund is by far the most significant.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

This document contains all funds used by the District to provide programs and activities, viewing the District as a whole and reports the culmination of all financial transactions. The report answers the question "How We Did Financially During Fiscal Year 2022". The Statement of Net Position and the Statement of Activities provides the summary. The statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. This change in net position is important because they report on whether the District's financial position has improved or diminished.

In the Statement of Net Position and the Statement of Activities, the District is divided into two kinds of activities:

Governmental activities — All of the District's programs and services are reported here including, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Business-Type Activities — This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service Enterprise Fund is reported as a business activity.

Reporting the District's Most Significant Funds,

Fund Financial Statement

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the general fund, special revenue fund, capital projects fund and debt service fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund, special revenue fund and debt service fund. Budgetary comparison statements have been provided as required supplementary information for the general fund, special revenue fund and debt service fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 28-29 of this report.

Proprietary Funds

The District maintains one proprietary fund type. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the operations of its food service program, child care initiative and Falcon Care.

The basic proprietary fund financial statements can be found on pages 31-33 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found on pages 34-89 of this report.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The Statement of Net Position provides the financial perspective of the District as a whole.

Table 1 provides a comparative summary of the School District's net position for 2022 and 2021.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the assets, deferred inflows and outflows and liabilities of the District, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flow. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The Government-wide financial statements can be found on pages 26-27 of this report.

The Statement of Net Position provides the financial perspective of the District as a whole. Table 1 provides a comparative summary of the School District's net position for 2022 and 2021.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$32,494,822 at the close of fiscal 2022. The following table provides a summary of net position at June 30, 2022 and 2021 relating to the District's governmental and business-type activities:

The District's combined net position were \$33,598,568 on June 30, 2022. This is an increase of \$3,657,607 or 12.22% from the prior year.

The largest portion of the District's net position is its net investment in capital assets (e.g., land, construction-in-progress, buildings and improvements, and machinery, equipment and vehicles), less any related debt (bonds payable) used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (namely, property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Capital assets, net decreased from the prior year due to the amount of new additions associated with the District's capital projects that were significantly less than the amount of depreciation on capital assets in the current year.

Long-term liabilities decreased due to the scheduled maturities of principal on debt.

Unrestricted net position – Governmental Activities increased by \$3,341,244 which was caused primarily by less operating expenditures.

Table 2 shows the comparative change in net position from fiscal year 2022 and 2021.

Governmental Activities

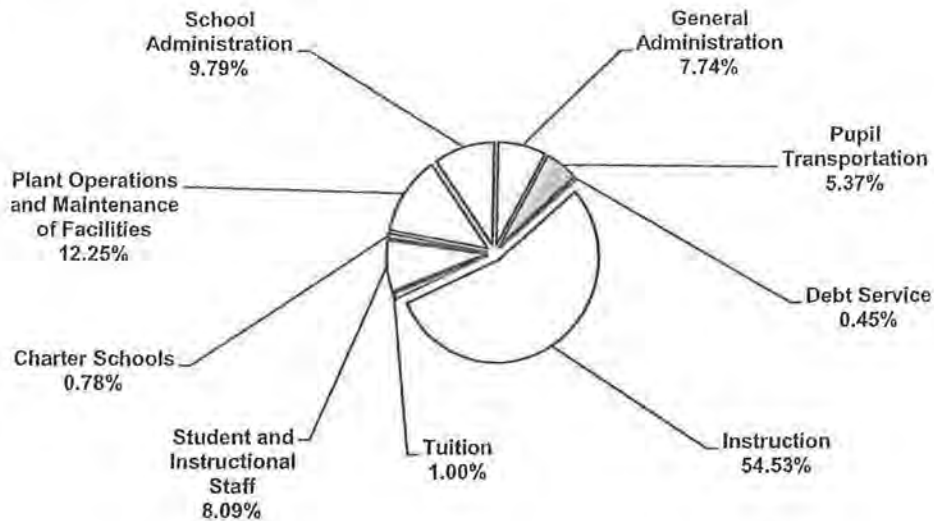

Revenue for Fiscal Year 2022

The total revenues of the governmental activities for the year ended June 30, 2022 were \$51,868,862. Property taxes as approved by the District made up \$18,166,716 or 35.02% of revenues for governmental activities for the fiscal year 2022. Federal, state and local grants accounted for \$27,361,757 or 52.75% and operating grants and contributions of \$5,493,736 or 10.59%.

Expenses for Fiscal Year 2022

The total cost of all programs and services was \$48,548,868. Instruction comprises 54.53% of the District's expenses.

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

Food service revenues exceeded expenses by \$316,362 as charges for services represent \$37,834 or 2.06% of revenue. This represents the amount paid by patrons for daily food service and catering.

Federal and state reimbursements for meals including payments for free and reduced lunches and donated commodities were \$1,798,167 or 98.94% of revenue.

Governmental Activities

The Comparative Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Extracurricular activities includes expenses related to student activities provided by the District which are designed to provide opportunities for students to participate in school and public events for the purpose of motivation, enjoyment, skill improvement, school spirit and leadership.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, to school curricular and athletic activities and field trips as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the District.

General Fund Budgetary Highlights

The District budget is prepared according to New Jersey Statutes. The most significant budgeted fund is the general fund. During the fiscal year, there were several differences between the original budget and the final amended budget as a result of transfers being applied to certain line items. These transfers were made between line items as part of the normal process as permitted by State guidelines. Readers should refer to Section C of the financial report for comparisons between actual and budgeted amounts.

Described below are explanations for variations in revenues and expenditures for certain lines where the modified budgeted amounts differ from the original budget by significant amounts. All other fluctuations were considered immaterial and no explanations were deemed required.

Revenues

- Actual miscellaneous revenue was in excess of the modified budgeted amount of \$15,000 by approximately \$826,795 as a result mostly of a refund of Tuition, Insurance proceeds and refund of prior year expenditures.

Expenditures

- Total regular programs – instruction final budget was less than the original budget by \$51,286 or .53%. Actual expenditures of \$9,197,934 represented 96.22% of budget. The decrease in the budget was caused by less of a need expenditures for undistributed instruction.
- Total special education – instruction final budget was higher than the original budget by \$8,107 or .17%. Actual expenditures of \$4,067,581 or 87.95% of budget. The increase in the budget was caused by more of a need expenditures for undistributed instruction.
- Total instructional expenditures final budget was less than the original budget by \$15,708 or .09%. Actual total instructional expenditures were \$14,901,659 or 94.06% of the budget. The decrease in the budget was caused by reduced need for teacher related salaries and purchased services.
- Total undistributed expenditures – other support extraordinary services final budget was lower than the original budget by \$66,081 or 14.14%. Expenditures were \$246,237 or 61.38% of final budget.
- Undistributed – tuition – final budget was less than the original by \$50,317, or 7.36%. Actual expenditures were \$485,661 or 76.66%.
- Total undistributed expenditures – related services – final budget was less than the original by \$107,130 or 31.21%. Actual expenditures net of on-behalf payments were \$18,947,559 or 89.65% of final budget.
- Total undistributed expenditures – other support students – student related services final budget was less than the original by \$164,891 or 31.21%. Actual expenditures were \$668,492 or 96.42% of final budget.

Expenditures (Continued)

- Total undistributed expenditures – other operation of maintenance and plant – final budget was higher than the original by \$14,711 or .29%. Actual expenditures were \$3,956,608 or 80.27% of final budget.
- Total undistributed expenditures – unallocated benefits final budget was less than the original by \$75,183 or 1.14%. Actual expenditures were \$6,149,994 or 95.05% of final budget.
- Undistributed – student transportation final budget was less than the original budget by \$93,027 or 4.90%. Actual expenditures of \$1,684,096 represented 93.18% of budget.
- The capital outlay portion of the budget was adjusted based on the needs of the District.
- The current expense portion of the budget as modified (final) was \$122,838 or 3.31% less than the adopted budget. Total expenditures net of on-behalf payment was \$33,849,218 or 91.54% of the budget.

The District's Funds

Information about the District's major funds starts on page 21. These funds are accounted for using the modified accrual basis of accounting. All governmental funds, except for capital projects, had total revenues of \$53,147,395 and expenditures of \$51,252,927.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a comparative summary of the revenues of the governmental funds exclusive of the capital projects fund for the fiscal year ended June 30, 2022, and the amount of increases and decreases in relation to prior year revenues.

Comparative Summary of Revenues

Revenue	2021-2022		2020-2021		Increase/ (Decrease) from 2020-2021 to 2021-2022
	Amount	Percent of Total	Amount	Percent of Total

The increase in Local Sources is attributed to an increase in miscellaneous revenue and tax levy.

The increase in State Sources is attributed to an increase in general fund state aid and in on-behalf payments.

The increase in Federal Sources is caused by the fact that more expenditures were incurred in 2022, mostly attributed to Covid Aid.

The following schedule presents a comparative summary of governmental fund expenditures exclusive of the capital projects fund for the fiscal year ended June 30, 2022, and the amount of increases and decreases in relation to prior year expenditures.

Comparative Summary of Expenditures

Expenditures	2021-2022		2020-2021		Increase/ (Decrease) from 2020-2021 to 2021-2022

The increase in Current – Instruction is attributed to the increased costs of salaries for teachers and the increased costs of other instructional programs and supplies.

The increase in Undistributed Expenditures relates to increases in special education tuition and health benefits and other employee benefits.

The increase in capital outlay is primarily due to a budgeted increase from the prior year.

General Fund Budgeting Highlights

The District's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of the fiscal year 2022, the District amended its general fund budget as needed. The District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management. Transfers from one program to another must be approved by the Business Administrator, Superintendent and Board of Education. Transfers were necessitated during the year were not significant in consideration of specific line items; however, a provision for unemployment was made for pending reduction of staff and retirement sick pay.

While the District final budget for the general fund anticipated that revenues and expenditures would roughly equal, the actual results for the year shows a surplus increase of \$1,889,610 caused primarily by an increase in miscellaneous revenue and lower level of expenditures.

Capital Assets

At the end of the fiscal year 2022, the School District had \$63,545,243 invested in land, buildings, furniture and equipment and vehicles. Table 4 shows fiscal 2022 balances compared to 2021.

Overall capital assets (net) decreased from 2021 to 2022. The decrease in capital assets is primarily due to annual depreciation was in excess of fixed asset additions.

Debt Administration

At the end of the fiscal year 2022 and 2021, the School District had outstanding debt as follows:

For the Future

The District is sufficiently funded to meet the educational and capital requirements.

The primary concern the District faces is the Borough of South River's inability to increase the tax base. The town is primarily residential with very few commercial ratables; thus the burden of taxes levied by the District falls squarely on the homeowners. The Borough of South River in January 2020 went through a reassessment of properties.

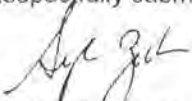

The Borough's tax base remains relatively flat and in light of the fact the town is at full build (which means there is no space available for future development which would increase the ratable base), the probability of a tax increase on the average homeowner next year is very likely. Additionally, the cost of two major bond issues, \$7.05 million in 2012 and \$2.4 million in 2015, cost the District nearly \$1 million per year for debt service.

In closing, the District's Board of Education practices long term financial planning. The District is proud of its system for budgeting and internal financial controls. Moreover, the Administration is determined to address the educational needs of the students while delivering a responsible budget to the taxpayers.

TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2022

Total Net Change in Fund Balances - Governmental Funds	\$ 1,894,467.96
Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciated expense. This is the amount by which capital outlays exceeded depreciation in the period.	
Capital outlays	\$ 1,451,658.39
Depreciation expense	(1,868,918.98)
Capital assets, other	<u>26,669.71</u>

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.	1,165,000.00
Governmental funds report lease principal payments as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as amortization expense. This is the amount by which amortization expense exceeded lease principle payments in the period:	
Amortization expense	\$ (169,700.00)
Lease principal payments	<u>171,578.41</u>
	1,878.41
Governmental funds report the effect of premiums and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the premiums on bonds.	
Amortization of premium	85,617.58
Governmental funds report the effect of defeasances and similar items when the debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This represents the following related to the deferred loss of refunding.	
Amortization of deferred loss	(30,622.78)
In the statement of activities, interest on long-term debt is accrued regardless of when due. In the governmental funds, interest is reported when due; when the accrued interest is decreased, the difference is a reduction in the reconciliation.	3,508.34
Net pension benefit related to PERS which is attributable to June 30, 2022 is not reported in governmental funds; however, it is reported in the statement of activities.	630,087.00
In the statement of activities, certain operating expenses, e.g. compensated absences (sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.	<u>(12,681.00)</u>

NOTES TO THE FINANCIAL STATEMENTS

SOUTH RIVER BOROUGH SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2022

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The South River Borough School District (the "District") is a Type II district located in the County of Middlesex, State of New Jersey. As a Type II district, the District functions independently through a Board of Education (the "Board"). The Board is comprised of nine (9) members elected to three-year staggered terms. The purpose of the District is to educate students in grades K-12. The District had an approximate enrollment at June 30, 2022 of 2,374 students.

A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the District's accounting policies are described below.

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

A. Basis of Presentation (Continued)

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

B. Fund Accounting (Continued)

1. Governmental Funds (Continued)

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment that are classified in the Capital Outlay subfund. The fund also includes payroll agency, payroll net, and unemployment reserve accounts.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund – The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes. The fund also includes scholarship accounts and student activity accounts.

Capital Projects Fund – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs. This fund is not applicable in this fiscal year.

B. **Fund Accounting (Continued)**

2. **Proprietary Fund Type**

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the District:

Enterprise Fund – The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on the statement of net position. Their reported fund equity (net position) is segregated into net investment in capital assets and unrestricted net position, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net position.

Depreciation of all exhaustive capital assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives of the equipment used in the operations of the Enterprise Funds are approximately 10 years.

3. **Noncurrent Debt**

Noncurrent liabilities expected to be financed from governmental funds are accounted for in the General Noncurrent Debt, not in the governmental funds. This includes the outstanding principal balance on capital leases.

C. Measurement Focus

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement on Net Position.

2. Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the statement of net position. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Fund equity (i.e., net position) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net position.

D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the winter of each year for the general, special revenue, and debt service funds. The budgets are approved and voted on by the Board of Education of the District, submitted to the County office for approval and if determined to be within the allowable tax levy cap and within the allowable appropriation cap, become effective upon the holding of a public hearing and final adoption by the District. In accordance with P.L. 2011, c.202, which became effective 17, 2012, the district elected to move the annual School Board election to the date of the November general election thereby eliminating the vote on the annual base budget. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year subject to the limitation of N.J.A.C 6A:23A-2.3 (et seq.). All budget amendments must be approved by School Board resolution and certain others require approved by the County Superintendent of Schools. Budgetary transfers were made during the current year in accordance with statutory guidelines. The amendments made by the District were part of the normal course of operations.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America (GAAP) with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The over-expenditures related to on-behalf payments in the general fund are due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures.

Refer to Exhibit C-3 for a reconciliation of the general fund revenue and special revenue fund revenue from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Assets, Liabilities and Equity

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Cash equivalents are defined as short-term, highly liquid securities that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with original maturities of three (3) months or less meet this definition. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

G. Assets, Liabilities and Equity (Continued)

2. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2022.

3. Allowance for Uncollectible Accounts

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

4. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

5. Tuition Payable

Tuition charges for the fiscal years 2020-2021 and 2021-2022 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

6. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

7. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,000.00. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

G. Assets, Liabilities and Equity (Continued)

7. Capital Assets (Continued)

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Asset Class</u>	<u>Estimated Lives</u>
School Buildings	50 years
Building Improvements	20 years
Electrical/Plumbing	30 years
Vehicles	8 years
Office and Computer Equipment	5-10 years
Instructional Equipment	10 years
Grounds Equipment	15 years
Food Service Equipment	7-20 years

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

9. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

9. Compensated Absences (Continued)

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

10. Accrued Liabilities and Noncurrent Obligations

All payables, accrued liabilities and noncurrent obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

11. Deferred Loss on Refunding of Debt

Deferred loss on refunding arising from the issuance of the refunding bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. (Refer to Note 8-C).

12. Net Position

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. Net Position represents the difference between assets, deferred outflows, deferred inflows and liabilities in the government-wide financial statements. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any noncurrent debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

G. Assets, Liabilities and Equity (Continued)

13. Unearned (Deferred) Revenue

Unearned revenue in the special revenue fund represents federal and state grants that have been received but not yet earned.

14. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

15. Fund Balance Reserves

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54") established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under GASB 54, fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five (5) categories, as defined below:

- a. Nonspendable – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, noncurrent receivables and corpus of any permanent funds.
- b. Restricted – includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers or through enabling legislation.
- c. Committed – includes amounts that can be used only for the specific purposes imposed by a formal action of the government's highest level of decision-making authority. The District's highest level of decision-making authority is the Board of Education (the "Board") and formal action is taken by resolution of the Board at publicly held meetings. Once committed, amounts cannot be used for other purposes unless the Board revised or changes the specified use by taking the same action (resolution) taken to originally commit these funds.
- d. Assigned – amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Interest is expressed by either the Board or Business Administrator, to whom the Board has delegated the authority to assign amounts to be used for specific purposes, including the encumbering of funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities and Equity (Continued)

15. Fund Balance Reserves (Continued)

- e. Unassigned – includes all spendable amounts not contained in the other classifications in the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund is the only fund that reports a position unassigned fund balance amount. In the other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. For the unrestricted fund balance, the District first spends committed funds, then assigned funds, and finally, unassigned funds.

16. Proprietary Funds Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the School District enterprise fund, (the Food Service) are charges to customers for sales of food service.

Operating expenses for enterprise funds include the cost of sales and services, administrative expense and depreciation on Capital Assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

17. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey for social security, post-retirement medical pension and contributions for the certified teachers and other members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the District's annual budget.

18. Non-Monetary Transactions

Commodities received under the Federal Food Distribution Program are received by the district and are recorded as nonoperating revenue when received in the food service enterprise fund at market value. The use of the commodities is included in cost of sales.

19. Allocation of Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is reported separately on the Statement of Activities. No expenses were allocated as "Indirect Expenses".

20. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

21. Accounting and Financial Reporting for Pensions

The District implemented GASB 68 which amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities.

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date—an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events.

22. Accounting and Financial Reporting for Other Post-Employment Benefits ("OPEB")

In 2018 the District implemented GASB #75 which addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, revenues and expense/expenditures. The Statement GASB #45 supersedes Accounting and Financial Reporting for Post-Employment Benefits with other than Pension.

The participating local education employer allocations included in the supplemental Schedule of special funding amounts by employer are provided as each local education employer is required to record in their financial statements, as an expense and corresponding revenue, their respective amount of total OPEB expense attributable to the State of New Jersey under the special funding situation and to include their respective amount of total OPEB liability in their notes to their financial statements.

23. GASB Statement No. 84 Fiduciary Activities

The District implemented GASB Statement No. 84 Fiduciary Activities on July 1, 2020. The objective of this Statement is to improve reporting of fiduciary activities for accounting and financial reporting purposes. This Statement establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify component units and postemployment benefit arrangements that are fiduciary activities. The District reclassified the payroll agency, payroll net and unemployment reserve accounts to the General Fund. The Special Revenue Fund was adjusted to include student activity and scholarship accounts. There was no adverse impact on the financial statements of the District.

24. GASB Statement No. 87 Leases

In June 2017 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases*. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The District policy for lease is that all assets are capitalized. The District amortization is based on the maturity schedule which approximates the useful life of an asset. The lease liability is calculated using future lease payments, discounted the interest rate the lessor charges the lessee. If the interest rate cannot be readily determined by the lessee, the District uses the estimated incremental borrowing rate.

25. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Other Accounting Standards

The District is currently reviewing the following for applicability and potential impact on the financial statements:

- *GASB Statement No. 91. Conduit Debt Obligations.* The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The District does not expect this Statement to impact its financial statements.

- *GASB Statement 92. Omnibus 2020.* The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.

Effective Date: The requirements of this Statement are effective as follows:

(a) The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.

(b) The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2021.

(c) The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2021.

(d) The requirements related to the measurement of liabilities (and assets, if any) associated with AROs in a government acquisition are effective for government acquisitions occurring in reporting periods beginning after June 15, 2020. Implementation has been postponed to June 15, 2021. The District does not expect this Statement to impact its financial statement.

- *GASB Statement 93. Replacement of Interbank Offered Rates.* The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) – most notably, the London Interbank Offered Rate (LIBOR).

Effective Date: The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged. The District does not expect this Statement to impact its financial statement.

- *GASB Statement 94. Public-Private and Public-Public Partnerships and Availability Payment Arrangements.* The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs).

Effective Date: The requirements of this Statement are effective for fiscal years beginning after June 15, 2022 and all PPPs should be recognized and measured using the facts and circumstances that exist at the beginning of the period of implementation (or if applicable to earlier periods, the beginning of the earliest period restated). Implementation has been postponed to June 15, 2021. The District does not expect this Statement to impact its financial statement.

- *GASB Statement 95. Postponement of the Effective Dates of Certain Authoritative Guidance.* The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2019 and later.

Effective Date: The requirements of this Statement are effective immediately. The District does not expect this Statement to impact its financial statement.

H. Other Accounting Standards (Continued)

- *GASB Statement 96. Subscription-Based Information Technology Arrangements.* This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended.

Effective Date: The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. Assets and liabilities resulting from SBITAs should be recognized and measured using the facts and circumstances that existed at the beginning of the fiscal year in which this Statement is implemented. Governments are permitted, but are not required, to include in the measurement of the subscription asset capitalizable outlays associated with the initial implementation stage and the operation and additional implementation stage incurred prior to the implementation of this Station.

- *GASB Statement 97. Certain Component Unit Criteria and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32.* The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would performs; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

Effective Date: The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021. For purposes of determining whether a primary government is financially accountable for a potential component unit, the requirements of this Statement that provide that for all other arrangements, the absence of a governing board be treated the same as the appointment of voting majority of a governing board if the primary government performs the duties that a governing board typically would perform, are effective for reporting periods beginning after June 15, 2021. Earlier application of those requirements is encouraged and permitted by requirement as specified within this Statement.

The Board considered the effective dates for the requirements of this Statement in light of the COVID-19 pandemic and in concert with Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*.

• *GASB Statement 99. Omnibus 2022.* The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The practice issues addressed by this Statement are as follows:

- Classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*.
- Clarification of provisions in Statement No. 87, *Leases*.
- Clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*.
- Clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*.
- *Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for accounting for the distribution benefits (SNAP).*
- Disclosures related to nonmonetary transactions.
- Terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*.
- Terminology used in Statement 53 to refer to resource flows statements.

Effective Date: The requirements of this Statement that are effective as follows:

- The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance.
- The requirements related to leases, PPPSs, and SBITAs are effective for fiscal years beginning after June 15, 2022 and all reporting periods thereafter.
- The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023 and all reporting periods thereafter.

- *GASB Statement 100. Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62.* The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes.

Effective Date: The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023 and all reporting periods thereafter. Earlier application is encouraged.

- *GASB Statement 101. Compensated Absences.* The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

Effective Date: The requirements of this Statement are effective for fiscal years beginning after December 15, 2023 and all reporting periods thereafter. Earlier application is encouraged.

I. Subsequent Events

Management has reviewed and evaluated all events and transactions from June 30, 2022 through March 10, 2023, the date that the financial statements are issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents includes petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less. Cash equivalents are defined as short-term, highly liquid securities that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with original maturities of three (3) months or less meet this definition.

Investments are stated at fair value, which is in excess of cost value. The District classifies securities that have original maturity date of more than three months from the date of purchase as investments. The District is in compliance with GASB Statement No. 3 as amended by GASB Statement No. 40.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey that are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the District to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- Government money market mutual funds.
- Any federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- Bonds or other obligations of the school district or local unit of which the school district is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury.
- Local government investment pools.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

Custodial Credit Risk – The District had no securities as of June 30, 2022 that could be categorized as an investment as defined by GASB No. 3 as amended by GASB No. 40.

New Jersey Cash Management Fund

All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis. As of June 30, 2022, the District had \$259,849.86 on deposit with the New Jersey Cash Management Fund.

4. RESERVE ACCOUNTS

A. CAPITAL RESERVE

A Capital Reserve Account was established by Board Resolution and Budget Appropriation in a prior year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The combined Capital Reserve Account balance at June 30, 2022 is \$1,187,490.22 and is reflected in the General Fund.

The cumulative activity of the capital reserve as of June 30, 2022 fiscal year is as follows:

Board Contributions:		
Prior to June 30, 2021	\$ 1,752,930.84	
During fiscal year ended June 30, 2022	<u>1,040,836.00</u>	\$ 2,793,766.84
Interest Earnings:

Balance at June 30, 2022		<u>\$ 1,187,490.22</u>

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A. 19:60-2*. Pursuant to *N.J.A.C. 6:23A-5.1(d) 7*, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

B. MAINTENANCE RESERVE

The School District established a maintenance reserve account for the accumulation of funds for use as required maintenance of a facility in subsequent fiscal years.

Funds placed in the maintenance reserve account are restricted to maintenance projects in the School District's approved Maintenance Plan (M-1). A School District may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at yearend of any unanticipated revenue or unexpended line-item appropriation amounts, or both. The balance in the account cannot at any time exceed four (4) percent of the replacement cost of the school district's school facilities for the current year.

The Bonds are general obligations of the Board and are secured by a pledge of the full faith and credit of the Board for the payment of the principal thereof and the interest thereon and, unless paid from other sources, the Bonds are payable from ad valorem taxes to be levied on all taxable real property in the school district, without limitation as to rate or amount. The Bonds are additionally secured by the provisions of the New Jersey School Bond Reserve Act.

The District, in conjunction with the issuance of the Bonds, has agreed to undertake and provide certain information to Bondholders on a continuing basis. The Securities and Exchange Commission ("SEC") Rule 15c2-12(b)(5) "Continuing Disclosure" requirements, which the District has adopted, requires that various financial information about the District and the Municipality be provided annually to various information repositories. This requirement has been complied with for the year ended June 30, 2022.

As of June 30, 2022 there were no bonds and notes authorized but not issued.

C. Defeasance

As a result of the accounting requirement under GASB#23/65, Accounting and Financial Reporting for Refunding of Debt Reported by Proprietary Activities, the recording of the transaction related to the new vs. old debt and related costs resulted in accounting losses which in conjunction with the premium will be amortized over the remaining life of the respective bond issues using the "straight-line".

D. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees earn sick leave at the rate of one day for each month of service. Upon departure from the district, teachers who have obtained tenure and ten month support staff who have completed three or more years of employment shall be paid for accumulated sick leave at the rate of ¼ of the unused accumulated sick leave multiplied by 1/200 of the last annual contracted salary. Twelve month employees who have completed three or more years of employment shall be paid at the rate of ¼ of the unused accumulated sick leave multiplied by 1/240 of the last annual contracted salary.

For teachers employed after September 1, 1981, the sick leave payment shall be limited to no more than \$15,000.00. For all support staff employed after September 1, 1981, the sick leave payment shall be limited to no more than \$15,000.00.

Twelve month employees earn vacation, the carryover of which is limited to August 31, of the year following the time earned.

D. Compensated Absences (Continued)

The liability for vested compensated absences of the governmental fund types is recorded in the statement of net position in the current and noncurrent liabilities. The current portion of the compensated absence balance of the governmental funds is shown separately from the noncurrent liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2022 no liability existed for compensated absences in the proprietary fund types.

E. Lease Obligations

In June 2017, the GASB issued GASB No. 87, Leases. This GASB increases the transparency and comparability of organizations by requiring the capitalization of substantially all leases on the statement of net position and disclosures of key information about leasing arrangements. Under this new guidance, at the lease commencement date, a lessee recognizes a right-of-use asset and lease obligation, which is initially measured at the present value of the future lease payments. For statement of activities purposes, a dual model was retained for lessees, requiring leases to be classified as either operating or finance leases. Under the operating lease model, lease expense is recognized on a straight-line basis over the lease term. Under the finance lease model, interest on the lease liability is recognized separately from amortization of the right-of-use assets.

The District adopted this new accounting standard on July 1, 2021 on a modified retrospective basis and applied the new standard to all leases through a cumulative-effect adjustment to beginning net position. As a result, comparative financial information has not been restated and continues to be reported under the accounting standards in effect for those periods. The District elected a package of practical expedients permitted under the transition guidance, which among other things, allows the carryforward of historical lease classification.

Right-of-use assets represent the District's right to use an underlying asset for the lease term and lease liabilities represent the District's obligation to make lease payments arising from the lease during the lease term. Right-of-use assets and lease liabilities are recognized at the commencement date based on the present value of the remaining future minimum lease payments during the lease term. The operating lease right-of-use assets also include lease payments made before commencement, lease incentives and are recorded net of impairment. Operating leases are expensed on a straight line basis over the lease term. Finance leases are recognized as a noncurrent asset and as a finance lease liability within accrued expenses and other liabilities and other noncurrent liabilities.

9. PENSION PLANS

Description of Plans: All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund that have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division of Pension issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund.

Teachers' Pension and Annuity Fund (TPAF)

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contribution, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to the Division's annual financial statements, which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 18A:66, TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts. The following represents the membership tiers for TPAF:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Public Employees' Retirement System (PERS)

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to the Division's annual financial statements, which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS. The following represents the membership tiers for PERS:

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Funding Policy: The contribution policy is set by New Jersey Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS are 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities total proportionate share of the net pension liability that is associated with the local participating employer.

During the year ended June 30, 2022 for TPAF, which is a cost sharing plan with special funding situations, the annual pension costs equals annual required contribution. For PERS, which is a cost sharing multi-employer pension plan, the annual pension costs differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger impact on future financial statements.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2021 *measurement date*) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2021 (*measurement date*) are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.0% as of June 30, 2021 (*measurement date*). The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the state employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of The Collective Net Pension Liability to Changes in the Discount Rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2021, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 -percentage point lower or 1 -percentage-point higher than the current rate:

Teachers Pensions and Annuity Fund (TPAF)

Data for the TPAF was abstracted from the State of New Jersey Teachers' Pension and Annuity Fund Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer and Nonemployer as of June 30, 2021 and June 30, 2020 Independent Auditor's Reports dated July 21, 2022 and June 11, 2021.

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2022 (*measurement date* of June 30, 2021) was as follows:

Teachers Pensions and Annuity Fund (TPAF) (Continued)

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The proportion of the TPAF net pension liability associated with the District is as follows:

	June 30, [Measurement Date]	
	2021	2020
District Proportionate Share	0.1368864674 %	0.1279482654 %
Difference - Increase	0.0089382020	

For the year ended June 30, 2022, the District recognized pension expense of \$1,548,501 for contributions provided by the State.

Actuarial Assumptions

The total pension liability for the June 30, 2021 *measurement date* was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	1.55% - 4.45% (based on years of service)
Thereafter	2.75% - 5.65% (based on years of service)
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2021) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2021 (*measurement date*) are summarized in the table as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 100% of the actuarially determined contributions for the state. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the proportionate share of the net pension liability associated with the District as of June 30, 2022 (*measurement date* June 30, 2021) calculated using the discount rate as disclosed above as well as what the State's proportionate share of the net pension liability associated with the District would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

10. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Data for the OPEB was abstracted from the State of New Jersey Local Education Retired Employees Plan as of June 30, 2021 and June 30, 2020 [*measurement dates*] Independent Auditor's Reports dated January 18, 2023 and January 21, 2022, respectively.

The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In fiscal year 2021 the State paid PRM benefits for 142,895 State and local retirees.

The State Health Benefit Local Education Retired Employees Plan (Local Education Retired OPEB Plan) is a multiple-employer defined benefit OPEB plan with a special funding situation. The Local Education Retired OPEB Plan is administered on a "pay-as-you-go" basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Local Education Retired OPEB Plan provides medical, prescription drug and Medicare Part B reimbursement to retirees and the covered dependents of Local Education employees. The State also offers dental care to retirees, however, since dental benefits are completely paid for by the retirees, there is no OPEB liability for these benefits.

The employer contributions for the participating local education employers are legally required to be funded by the State in accordance with NJSA 52:14-17.32f. According to this law, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: TPAF, PERS, PFRS, or ABP.

Pursuant to P.L.2011, c.78, future retirees eligible for postemployment medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The State is legally required to pay for the OPEB benefit coverage for the participating local education employers. Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. The State, as a nonemployer contributing entity, reported a fiscal year 2021 total OPEB liability of \$67,809,962,608 for this special funding situation.

At June 30, 2020 the following employees (*statewide*) were covered by the benefit terms:

Active Plan Members	213,901
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	150,247
Inactive Plan Members or Beneficiaries Not Yet Receiving Benefits	<u>None</u>
Total Plan Members	<u><u>364,148</u></u>

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASB No. 75 is zero percent.

The District is required to record in their financial statements, as an expense and corresponding revenue, their respective amount of total OPEB expense attributable to the State of New Jersey under the special funding situation. Accordingly, the District did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. The following OPEB liability note information is reported at the State's level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in the NJ State's ACFR: (<https://www.nj.gov/treasury/omb/fr.shtml>).

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2021 [*measurement date*] was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

	TPAF/ABP	PERS
	<i>(based on service years)</i>	<i>(based on service years)</i>
Salary increases:		
through 2026	1.55 - 4.45%	2.00 - 6.00%
Thereafter	2.75 - 5.65%	3.00 - 7.00%

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2010 "Safety" (PFRS), "General" (PERS), and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018, July 1, 2014 – June 30, 2018, and July 1, 2013 – June 30, 2018 for TPAF and PERS, respectively.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.65% and decreases to a 4.5% long-term trend rate after seven (7) years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal years 2022 through 2023 are reflected. For PPO the trend is initially 5.74% in fiscal year 2024, increasing to 12.93% in fiscal year 2025 and decreases to 4.5% after 11 years. For HMO the trend is initially 6.01% in fiscal year 2024, increasing to 15.23% in fiscal year 2025 and decreases to 4.5% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.5% long-term trend rate after seven (7) years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2021 was 2.16%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance: The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance: The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

Health Benefits: The Board of Education has procured medical insurance coverage for its employees under a monthly per employee premium (traditional plan).

Other Coverage: The Board has contracted with a commercial insurance company to provide coverage for various losses. The coverages are subject to various deductibles and coverage limits based on the type of policy coverage included. The coverages and its limits are detailed in the statistical section. The Board also maintains surety bond coverage on key financial employees.

17. DEFICIT FUND BALANCES – SPECIAL REVENUE FUND

The District had no deficit fund balance in the Special Revenue Fund as of June 30, 2022 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last two (2) state aid payments in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties.

Pursuant to N.J.S.A. 18A:22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. There is no deficit in the Special Revenue Fund as of June 30, 2022 due to the fact that the expenditures did not exceed the recognizable revenue (under GAAP).

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED JUNE 30, 2022

18. CONTINGENT LIABILITIES

- A. **Grant Programs** – The school district participates in state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of those grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.
- B. **Pending Litigation** - As of the date of this report, in the opinion of the Board Attorney and management, there was no litigation pending of which, in the event of an adverse or unfavorable outcome, would materially impair the financial position of the District.
- C. **Contractual Commitments** – The District has no contractual commitments at June 30, 2022.

19. ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the District's programs and activities.

20. NET POSITION – NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. The net investments in capital assets of \$29,365,152.92 and \$359,631.79 are calculated as follows:

	Amount	
	Governmental	Business-Type
Capital assets, net of depreciation	\$ 33,596,890.37	\$ 598,603.22
Bonds payable (<i>used to build or acquire capital assets</i>)	(3,948,000.00)	
Deferred loss on defeasance of debt	102,925.90	
Unamortized deferred premium	(264,621.13)	
Lease payable	(122,042.22)	(238,971.43)
	\$ 29,365,152.92	\$ 359,631.79

21. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

YEAR ENDED JUNE 30, 2022

21. TAX ABATEMENTS (CONTINUED)

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provision at N.J.S.A.18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Borough of South River provides for long-term tax exemptions, as authorized by New Jersey State Statutes. N.J.S.A. 40A:20-1 et seq. sets forth the criteria and mechanism by which property taxes can and are abated. The exemptions provided by the Borough of South River are for two (2) senior citizen housing projects and religious entities. Taxes abated include municipal, local school and county taxes.

The Borough of South River recognized revenue of \$83,412.90 from the annual service charge in lieu of payment of taxes in 2022 and taxes in 2022 that otherwise would have been due on these long-term tax exemptions amounted to \$249,009.70 based upon the assessed valuation of the long-term tax exemption properties. A portion of the \$165,596.80 tax abatement would have been allocated to the District.

22. SUBSEQUENT EVENT: COVID-19 CORONAVIRUS PANDEMIC

The COVID-19 Coronavirus outbreak in the United States has caused the Governor of the State of New Jersey to mandate closures and a curfew for all nonessential citizens and businesses. The management of the District (which is essential) has evaluated the impact of the situation and has determined that overall there is no adverse impact on its June 30, 2022 financial statements (*audited*). Financial impact for year ending June 30, 2023 is uncertain at this time. A significant portion of the revenue to support the District operations is state aid and taxation; however, the outcome is uncertain at this time. It is not known at this time if there are any federal or state funds available for impact relief.

23. PRIOR PERIOD ADJUSTMENT GASB STATEMENT No. 87

The District implemented GASB No. 87 related to former lease accounting being reclassified into the Governmental Funds. The reclassification was reflected as a prior period adjustment to the Statement of Activities (A-2), effective July 1, 2021, and no retroactive restatement of financial was done since financial statements are not comparative. The reclassification involved liabilities, capital (fixed) assets and fund balance with minimal adverse impact on the financial position of the District.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- b Rates for debt service are based on each year's requirements.

Sources: Assessed value data used to estimate applicable percentages provided by the Middlesex County Board of Taxation.
 Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of South River Borough. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

^a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

**INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Honorable President and Members
of the Board of Education
Borough of South River Board of Education
County of Middlesex, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance Department, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of South River Board of Education, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Borough of South River Board of Education's basic financial statements, and have issued our report thereon dated March 10, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the South River Borough School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the South River Borough School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that may not have been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education of the Borough of South River School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB 15-08

Honorable President and Members
of the Board of Education
Borough of South River Board of Education
County of Middlesex, New Jersey

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited the Borough of South River Board of Education, State of New Jersey's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement and New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Borough of South River Board of Education, State of New Jersey's major federal and state programs for the year ended June 30, 2022. The Borough of South River Board of Education, State of New Jersey's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Borough of South River Board of Education, State of New Jersey complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Our responsibilities under those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Borough of South River Board of Education, State of New Jersey and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the Borough of South River Board of Education, State of New Jersey's compliance with the compliance requirements referred to above.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
AND STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB 15-08 (CONTINUED)**

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Borough of South River Board of Education, State of New Jersey's federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Borough of South River Board of Education, State of New Jersey's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and New Jersey OMB 15-08 will always detect material noncompliance when it exists. The risk of not detecting noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Borough of South River Board of Education, State of New Jersey's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and New Jersey OMB 15-08, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a best basis, evidence regarding the Borough of South River Board of Education, State of New Jersey's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Borough of South River Board of Education, State of New Jersey's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Borough of South River Board of Education, State of New Jersey's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
AND STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB 15-08 (CONTINUED)**

Other Matters

The results of our auditing procedures disclosed no instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and New Jersey OMB 15-08.

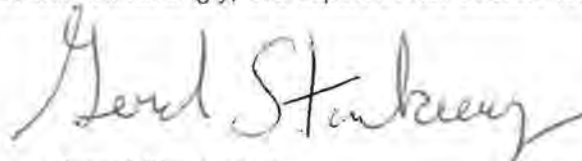

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB 15-08. Accordingly, this report is not suitable for any other purpose.

BOARD OF EDUCATION
BOROUGH OF SOUTH RIVER SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
YEAR ENDED JUNE 30, 2022

1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Borough of South River School District. The information in this Schedule is presented in accordance with the requirements of Title 2, *US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and NJOMB 15-08. The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules or expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this Schedule is presented in accordance with the requirements of Title 2, *US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) and NJOMB 15-08. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last two (2) state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last two (2) state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

BOARD OF EDUCATION
BOROUGH OF SOUTH RIVER SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE (CONTINUED)
YEAR ENDED JUNE 30, 2022

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONTINUED)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$333,600.00 for the General Fund. See Note 1 (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 259,869.45	\$ 28,043,870.65	\$ 28,303,740.10
Special Revenue Fund	3,720,898.76	1,935,054.87	5,655,953.63
Food Service Fund	<u>1,770,123.08</u>	<u>28,043.74</u>	<u>1,798,166.82</u>
	<u>\$ 5,750,891.29</u>	<u>\$ 30,006,969.26</u>	<u>\$ 35,757,860.55</u>

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. FEDERAL AND STATE LOANS OUTSTANDING

The District had no loans outstanding payable to federal or state entities at June 30, 2022.

6. OTHER

The amount reported as TPAF Pension Contributions and Post Retirement Medical Contributions represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2022. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share social security contributions for TPAF members for the year ended June 30, 2022.

The State of New Jersey also makes TPAF post-retirement medical and pension contribution expenditures on-behalf of the District. These expenditures are not subject to New Jersey OMB Circular 15-08 because the contributions are made by the State directly and do not have any compliance related requirements, and therefore have not been included on the Schedule of State Awards, as directed by the funding agency.

7. INDIRECT COSTS

The District did not use the 10% di minimus indirect cost rate.
