## INTRODUCTORY SECTION <br> (unaditied

January 27, 2023

The Honorable President and Members of the Board of Education<br>Wayne Township Public School District<br>County of Passaic, New Jersey

Dear Board Members:
It is with pleasure that we submit the Annual Comprehensive Financial Report (ACFR) of the Township of Wayne Public Schools (the "District") for the fiscal year ended June 30, 2022. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The annual comprehensive financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditors' Report, the management's discussion and analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected financial and demographic information, financial trends and the fiscal capacity of the District, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, is included in the single audit section of this report.

## 1) REPORTING ENTITY AND ITS SERVICES:

The Township of Wayne Public Schools is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board ("GASB") in codification section 2100. All funds and the DistrictWide financial statements of the District are included in this report. The Township of Wayne Public Schools District and all its schools institute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels Pre-Kindergarten through 12 for the students residing in the Township of Wayne. These include regular, vocational, as well as special education for handicapped youngsters. The District pays tuition to charter schools for its students who elect to attend a charter school. The District completed the 2021-2022 fiscal year with an average daily enrollment of 7,517 students, a decrease of 5 students, or a decrease of $0.1 \%$, from the previous year's enrollment. This is consistent with the most recent demographic study conducted by the District for the update of the District's Long Range Facility Plan.

the Board of Education

2) ECONOMIC CONDITION AND OUTLOOK: Wayne Township is located approximately 20 miles from Manhattan and is considered part of the greater New York metropolitan region. The community has a land area of almost 26.6 square miles with a population density of 2,055 residents per square mile. The school district has benefited from a high property tax base due to the location of several corporate headquarters and large shopping centers within the community.

The Township is served by major highways such as Interstate Highways 80 and 287, U.S. Highways 46 and 202 and State Highway 23. This ideal location for distribution of products within the New York metropolitan area has earned the Township the term of "Optimum Point" among business circles. The Township also benefits from the services of New Jersey Transit, which provides passenger service. All major airports, Kennedy, LaGuardia, Newark and Teterboro, as well as the New York and New Jersey ports, are accessible to Wayne. The District continues to exhibit wealth and income levels that are well above State medians.

Once plagued by a steep downward trend of decreasing valuations, the tax base seems to have been stabilizing before the COVID-19 pandemic began. It is anticipated that total assessed valuations will be relatively stable over the next five (5) year period. Hopefully, after the COVID-19 pandemic subsides and the regional economy recovers, a stabilization in assessments will take firm hold and have a positive impact on the District's ability to develop school district budgets within the $2 \%$ tax levy cap.
3) DISTRICT GOALS AND INITIATIVES: The Wayne Township School District continues to rank high on State and National tests, scoring well above the State and Nation in S.A.T. and ACT scores, and has had numerous high school students recognized for their achievements in the National Merit Scholarship Program. The District continued to monitor its instructional programs, enhancing them where necessary, with the following major goals and initiatives:

Pandemic Recovery: To develop a recovery plan that is constructed around both academic and other nonacademic needs. In order to identify needs, the district will conduct a universal screening for all students and staff members, and then plan to deliver services, supports and accelerated learning opportunities throughout the school year.

Diversity, Equity, and Inclusion: To continue to assess our district through a diversity, equity, and inclusion lens and establish leadership teams at each of the schools as well as at the district level.

Planning for the Future: To assess the impact of anticipated enrollment changes and continue planning for facility needs for the next ten years in light of a substantial wave of anticipated housing construction. In addition, the District has several existing facilities needs that must be addressed, including roofing, curbing, windows, heating, handicapped accessibility, and other structures and building systems that may be coming to the end of their useful life.

The Honorable President and Members of
the Board of Education
Wayne Township Public School District

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.
5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by a vote of the Board of Education. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at line item accounts within each fund. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as restrictions, commitments and assignments of fund balance at June 30, 2022.
6) ACCOUNTING SYSTEM AND CONTROLS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.
7) OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Board appointed Nisivoccia, LLP of Mount Arlington, New Jersey to conduct its independent audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. The auditor's report on the basic financial statements, and specific required supplementary information is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

Wayne Township Public School District

8) AWARDS: The International Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This is the seventh consecutive year that the District applied and received this prestigious award. To be awarded this certificate, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States and applicable legal requirements.

The Certificate is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Program's requirements, and we are submitting it to ASBO to determine its eligibility for the fiscal year 2021-2022 certificate.
9) ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Wayne Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

## FINANCIAL SECTION

Independent Auditors' Report

The Honorable President and Members
of the Board of Education
Wayne Township Public School District
County of Passaic, New Jersey

## Report on the Audit of the Financial Statements

## Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Wayne Township School District (the "District"), in the County of Passaic, as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and, where applicable cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey (the "Office") and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

The Honorable President and Members
of the Board of Education
Wayne Township Public School District
Page 2

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards and audit requirements prescribed by the Office will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, Government Auditing Standards and audit requirements prescribed by the Office, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, which follows this report, the pension and post-retirement schedules in Exhibits L-1 through L-5 and the related notes, and the budgetary comparison information in Exhibits C-1 through C-3 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, are required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Honorable President and Members
of the Board of Education
Wayne Township Public School District
Page 3

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information schedules and the schedules of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; and New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information schedules and the schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 27, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering District's internal control over financial reporting and compliance.

## REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS

## WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022

This section of Wayne Township Public School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2022. Please read it in conjunction with the transmittal letter at the front of this report and the District's basic financial statements, which immediately follow this section.

## Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are District-wide financial statements that provide both short-term and longterm information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- Proprietary funds statements offer short- and long-term financial information about the activities the District operates like a business, such as food service, community education, the wrap around and extended day programs.
- Notes to Basic Financial Statements: Provide additional information essential to a full understanding of the district-wide and fund financial statements.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022 

## District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred inflows and outflows, and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how they have changed. Net position - the difference between the District's assets, deferred inflows and outflows, and liabilities - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's food service, community education, wrap around and extended day programs are included here.

## Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that is it properly using certain revenue (such as federal grants).

The District has two kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on $\{1\}$ how cash and other financial assets that can readily be converted to cash flow in and out, and $\{2\}$ the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional longterm focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.

## WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2022

## Fund Financial Statements

- Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows.

Notes to the basic financial statements: The notes provide information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the fund financial statements.

## WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022

## Financial Analysis of the District as a Whole

Changes in Net Position: The District's total net position increased \$13,253,022 over the course of the 20212022 fiscal year. Net position invested in capital assets increased $\$ 4,603,993$, restricted net position decreased $\$ 1,729,493$ and unrestricted net position increased $\$ 10,378,522$. (See Figure A-3) Net position invested in capital assets increased primarily due to paydown of serial bonds and financed purchases principal and capital assets additions, offset by annual depreciation and capital assets disposals. Restricted net position decreased due to decreases in the Capital Reserve and excess surplus, offset by the increase in the Maintenance Reserve. Unrestricted net position increased mainly due to a decrease in the net pension liability and an increase in food service revenue offset by an increase in compensated absences, and changes in deferred outflows related to pensions and deferred inflows related to pensions.

The District's net position increased $\$ 13,253,022$ - an increase of $\$ 10,831,599$ from its governmental activities and an increase of $\$ 2,421,423$ from its business-type activities. (See Figure A-4)

Changes in Results of Operations: Revenues from governmental activities increased by $\$ 3,980,348$ mainly due to the increases in the local tax levy. Expenses from governmental activities increased by $\$ 2,009,218$ mainly due to increases in pupil and instruction-related services, maintenance and transportation.

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022 

## Governmental Activities

Net position from the District's governmental activities increased by $\$ 10,831,599$ during the fiscal year. However, maintaining existing programs, the provision of a multitude of special programs/services for students with special needs and the cost of employee benefits has placed great demands on the District's resources. As a result, careful management of expenses remains essential for the District to sustain its financial health. Increasing parental and student demands for new activities and programs must be evaluated thoroughly.

Figure A-5 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

|  | \$208,403,988 | \$205,444,970 | \$152,095,522 | \$150,223,390 |

## Business-Type Activities

The net position of the District's business-type activities increased by $\$ 2,421,423$ mainly due to an increase of $\$ 2,507,156$. The net position of the Food Service program increased $\$ 2,507,156$ which is attributable to increases in federal subsidy reimbursements as free meals were provided to all students from the District's participation in the Seamless Summer Option Program (SSO). The net position of the Extended Day program decreased $\$ 51,162$ due to changes in the net pension liability and deferred inflows and outflows associated with pension. The net position of the Community Education program increased $\$ 2,059$. The net position of the Wrap Around program decreased $\$ 36,630$ as that program has ceased its operations as of June 30, 2022. (Refer to Figure A-4).

## Financial Analysis of the District's Funds

Total fund balance in the District's Governmental Funds decreased $\$ 96,263$. The fund balance in the District's General Fund decreased $\$ 1,939,237$ on the GAAP basis during the fiscal year primarily due to a $\$ 1,200,000$ budgeted and $\$ 2,625,200$ Board withdrawal from Capital Reserve for capital projects. The fund balance in the District's Special Revenue Fund increased $\$ 10,880$ due to increases in student activities and scholarship funds. The fund balance in the District's Capital Projects Fund increased $\$ 1,832,094$ due to the $\$ 2,625,200$ transfer from Capital Reserve and $\$ 1,515,800$ Lease Proceeds for capital projects that had not been completed by June 30 .

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022 

## Financial Analysis of the District's Funds

The State imposes spending and tax levy limits on the District in its budget process. Legislation increased the amount of allowable General Fund unassigned fund balance from $2 \%$ to $4 \%$ of adjusted expenditures for June 30, 2022. At year end, the District's $4 \%$ limit is $\$ 7,012,036$ plus adjustments for certain additional unbudgeted State Aid of $\$ 2,282,349$, for a total of $\$ 9,294,385$ as the maximum General Fund unassigned fund balance.

## General Fund Budgetary Highlights

Over the course of the fiscal year, the District revised the annual operating budget between budgetary line items for changes in school-based needs.

## General Fund Budgetary Highlights

|  | Original <br> Budget |  |  | Final <br> Budget |  |
| :--- | ---: | :--- | :--- | :--- | :--- | Actual

- There were transfers of staff in regular and special education instruction within the District to ensure all staffing needs were met as result of normal staffing issues, as well as the result of the needs resulting from the COVID-19 pandemic. These budgetary transfers resulted in increases and decreases in certain accounts depending on the coverage needs.
- Student need for certain contracted services, i.e., aides and nursing were less than originally anticipated.
- During 21/22, the Board withdrew from the Maintenance Reserve to address various required maintenance needs throughout the District.
- Fluctuations in the costs of utilities occurred due to costs of commodities and usage being greater than projected.
- The District had various transportation needs arise throughout the year. To adequately address these needs, changes were made as to whether routes were maintained in house with District employees or were bid to outside vendors which resulted in various fluctuations in certain accounts depending on the needs.
- Social security contributions increased due to the increase in staffing needs.
- The actual rate that the Other Retirement Contribution-PERS payment was calculated at was higher than projected, thereby, resulting in a higher payment.
- The District's health benefit expenditures were less than budgeted due to the District's ability to negotiate a lower premium than originally projected.
- The District paid more in unused sick and other employee benefits to employees than originally anticipated. The numbers of individuals retiring increased throughout the year.

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2022 

## Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- The COVID-19 pandemic has had an impact on the financial statements for the period ending June 2022 and will have a financial impact on operations in the period ending June 2023. The slow fall off in initial Federal support will cause continued pressure on the District's budget as new programing and staffing, which addresses the residual impact of the COVID-19 pandemic on student learning, will compete for limited revenue. Although pandemic related Federal and State resources have be made available, the likelihood that sufficient levels of aid to offset a majority of ongoing "costs" are unlikely.
- The continuation of the State imposed budget tax levy cap of $2 \%$ and the State's practice of providing for flat State Aid each year, continue to create budgetary challenges, limiting the District's ability to continue to improve upon and in some cases, maintain, its instructional range of programs and services. Fixed costs such as insurance as well as increases granted through negotiations generally exceed a $2 \%$ increase each year, requiring Districts to either continue to find efficiencies in current programs or eliminate programs, or try to identify other miscellaneous revenues to support the expenditure increases.
- The State legislation for pension and medical/dental benefit reforms (Chapters $78 \& 44$ ) continues through its implementation. Chapter 44 was implemented on January 1, 2022 and the district anticipates a decrease in overall employee contributions moving forward. The resulting decrease in employee contributions as a result of Chapter 44 and increased health benefits cost puts a huge strain on the district's ability to maintain programs under the $2 \%$ cap. The District, in an effort to control significant increases in employee health benefits, is moving to a State program effective July 1, 2022.
- At year end, the District was able to deposit $\$ 2,600,000$ into its capital reserve account for required future capital project work.
- The District, at year end, deposited $\$ 3,000,000$ into its maintenance reserve account for future required maintenance and repair work.

Amounts reported for Governmental Activities in the Statement of Net Position (A-1) are different because:
Total Fund Balances (From Above)
Capital Assets used in Governmental Activities are not financial resources and therefore are not reported in the Funds.
Certain Amounts Related to the Net Pension Liability are Deferred and Amortized in the Statement of
Activities and are not Reported in the Governmental Funds:
$\quad$ Deferred Outflows of Resources Related to Pensions
$\quad$ Deferred Inflows of Resources Related to Pensions
$63,354,456$
District contributions subsequent to the measurment date are not paid with current economic resources and are therefore not
reported as a liability in the funds, but are included in accounts payable in the Statement of Net Position.
Long-Term Liabilities, including Bonds Payable, Unamortized Bond Issuance Premiums, PERS Net
$\quad$ Pension Liability, Financed Purchases Payable and Compensated Absences Payable are not due and payable
in the current period and therefore are not reported as Liabilities in the Funds.
Interest on Long-Term Debt is not accrued in the Governmental Funds, but rather is recognized as an expenditure when due.
The Deferred Amount on Refunding is not reported as an expenditure in the Governmental Funds in the year of the expenditure.

Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2)

## Amounts Reported for Governmental Activities in the Statement of Activities (Exhibit A-2) are Different Because:

Capital outlays related to capital assets are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those asset
their estimated useful lives as depreciation expense. This is the amount by which depreciation and net disposals differ from capital outlays in the period. $\begin{array}{rrr}\text { posals differ from capital outlays in the period. } & \\ \quad \text { Depreciation expense } & \$ & (3,343,701) \\ \quad \text { Capital Asset Additions } & 4,394,549 \\ \text { Disposal of capital assets, net of accumulated depreciation } & (60,058) \\ \end{array}$

Financed Purchases entered into by the District are an other financing source in the governmental funds, but the acquisition increases long-term liabilities in the statement of net position and is not reported in the statement of activities.

Repayment of financed purchases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

Repayment of debt service principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. When the accrued interest exceeds the interest paid, the difference is a reduction in the reconciliation ( - ); when the interest paid exceeds the accrued interest, the difference is an addition to the reconciliation ( + ).

The net pension liability reported in the statement of activities does not require the use of current financial resources and is not reported as an expenditure in the Governmental Funds: Change in Net Pension Liability

Change in Deferred Outflows
Change in Deferred Inflows
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year.
In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used/(paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation $(-)$; when the paid amount exceeds the earned amount the difference is an addition to the reconciliation $(+)$.

The governmental funds report the effect of bond premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. $(+)$
The governmental funds report the effect of deferred amount on refunding when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. (-)

The Food Service Enterprise Fund received U.S.D.A. Commodities through the Food Distribution Program valued at $\$ 91,317$ and utilized U.S.D.A. Commodities valued at $\$ 94,289$.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of the Wayne Township School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

## A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents. (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization. (3). The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

## B. Basis of Presentation:

## District-Wide Financial Statements:

The statement of net position and the statement of activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the overall District in its entirety. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

District-Wide Financial Statements: (Cont'd)
Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses in the program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

## Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds. Separate statements for each fund category - governmental and proprietary - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:
General Fund: The General Fund is the general operating fund of the District and is used to account for and report all expendable financial resources not accounted for and reported in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by the NJDOE, the District includes budgeted capital outlay in this fund. GAAP, as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expenses by Board resolution.

Special Revenue Fund: The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

## B. Basis of Presentation: (Cont'd)

Capital Projects Fund: The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets or lease assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, funds appropriated from the General Fund, and from aid provided by the state to offset the cost of approved capital projects.

Debt Service Fund: The Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for principal and interest.

The District reports the following proprietary funds:
Enterprise Funds: The Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District's Enterprise Funds include the operations of its Food Service, Extended Day, Community Education, and Wrap Around programs. The Food Service and Extended Day programs are major funds, and the Community Education and Wrap Around are non-major funds.

## C. Measurement Focus and Basis of Accounting:

The District-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset or lease asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under financed purchases are reported as other financing sources.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus and Basis of Accounting: (Cont'd)

It is the District's policy, that when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, to apply restricted resources first followed by unrestricted resources. Similarly, within unrestricted fund balance, it is the District's policy to apply committed resources first followed by assigned resources and then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first supply cost-reimbursement grant resources to such programs, followed by general revenue.

## D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budget for the fiscal year ended June 30, 2022 was submitted to the County office and was approved by a vote of the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line-item accounts within each fund. Line-item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2 (m) 1. All budget amendments/transfers must be made by School Board resolution. All budgeting amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, except for the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis except for student activities and scholarships. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund revenue differs from GAAP revenue due to a difference in recognition of the June state aid payments for the current year. Since the State is recording the June state aid payments in the subsequent fiscal year, the District cannot recognize these payments in the GAAP financial statements.

The Capital Projects Fund budgetary revenue differs from GAAP revenue due to a difference in the recognition of the School Security grant. These grants are recognized on the budgetary basis in full when they are awarded but recognized on the GAAP basis only to the extent of expenditures which have been submitted for reimbursement.

## E. Cash and Cash Equivalents and Investments:

Cash and cash equivalents include petty cash and cash in banks. Certificates of deposit with maturities of one year or less when purchased are stated at cost.

The District generally records investments at fair value and records the unrealized gains and losses as part of investment income. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.
N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Government Units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

## F. Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

F. Interfund Transactions: (Cont'd)

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which are presented as internal balances.

## G. Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

## H. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as restricted, committed or assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

## I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

## J. Inventories and Prepaid Expenses:

Inventories which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise and general funds represent payments made to vendors for services that will benefit periods beyond June 30, 2022.

## K. Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost, including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets, donated works or art and similar items are valued at their acquisition cost. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

K. Capital Assets: (Cont'd)

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is $\$ 2,000$. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the District-wide statements and proprietary funds are as follows:

|  | Estimated Useful Life |
| :--- | :--- |
| Buildings | $20-50$ years |
| Building Improvements | 25 years |
| Land Improvements | 20 years |
| Machinery and Equipment | 10 to 20 years |
| Office and Computer Equipment | 5 to 10 years |
| Vehicles | 8 years |

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures in the governmental fund upon acquisition. Capital assets are not capitalized, and related depreciation is not reported in the fund financial statements.

## L. Lease Assets

Intangible right-to-use lease assets are assets which the District leases for a term of more than one year. The value of leases are determined by the net present value of the leases at the District's incremental borrowing rate at the time of the lease agreement, amortized over the term of the agreement.

## M. Long Term Liabilities:

In the District-wide and enterprise fund statements of net position, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise funds. Bond premiums and discounts are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## N. Accrued Salaries and Wages:

Certain District employees, who provide services to the District over the ten-month academic year have the option to have their salaries evenly distributed during the entire twelve-month year. New Jersey statutes require that these earned undisbursed amounts be retained in a separate bank account. As of June 30, 2022, the amount earned by these employees but not disbursed was $\$ 1,155,075$.

## O. Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by GASB. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

O. Compensated Absences: (Cont'd)

District employees are granted varying amounts of vacation, personal and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation and personal time. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the District-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components - the amount due within one year and the amount due beyond one year.
P. Lease Payable

In the district-wide financial statements, leases payable are reported as liabilities in the Statement of Net Position. In the governmental fund financial statements, the present value of lease payments is reported as other financing sources.

## Q. Unearned Revenue:

Unearned revenue in the special revenue fund represents cash which has been received but not yet earned. See Note 1(D) regarding the special revenue fund.

## R. Fund Balance Appropriated:

General Fund: Of the $\$ 19,846,814$ General Fund balance at June 30, 2022, $\$ 1,805,079$ is assigned for encumbrances; $\$ 7,469,318$ is restricted in the capital reserve account; $\$ 4,850,604$ is restricted in the maintenance reserve account; $\$ 560,734$ is restricted for unemployment compensation; and $\$ 5,161,079$ is unassigned which is $\$ 655,418$ less on the GAAP basis than the calculated maximum unassigned fund balance due to the June state aid payments that are not recognized until the fiscal year ending June 30, 2023.

Special Revenue Fund: The Special Revenue Fund balance at June 30, 2022 is $\$ 705,535$ and is restricted for student activities and scholarships.

Capital Projects Fund: The Capital Projects Fund balance of $\$ 4,239,177$ at June 30, 2022, is committed.

Debt Service Fund: The Debt Service Fund balance at June 30, 2022 is $\$-0-$
Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7 as amended, the designation for Restricted Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District has excess surplus as outlined above.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

## R. Fund Balance Appropriated: (Cont'd)

N.J.A.C. 6A:23A-8.5(j) provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payments on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the June state aid payments and not the fund balance reported on the fund statement which excludes the June state aid payments.

## S. Fund Balance Restrictions, Commitments and Assignments:

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. The committed fund balance classification includes amounts that can be used only for the specific purposes determined for a formal action of the District's highest level of decision-making authority.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed.

Unassigned fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classifications should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts have been restricted, committed or assigned.

Fund balance restrictions have been established for capital reserve, maintenance reserve, unemployment compensation, student activities and scholarships.

The District Board of Education has the responsibility to formally commit resources for specific purposes through a motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body. The Board of Education must also utilize a formal motion or a resolution passed by a majority of the Members of the Board of Education at a public meeting of that governing body in order to remove or change the commitment of resources. The District has committed resources in the Capital Projects Fund at June 30, 2022.

The assignment of resources is generally made by the District Board of Education through a motion or a resolution passed by a majority of the Members of the Board of Education. These resources are intended to be used for a specific purpose. The process is not as restrictive as the commitment of resources and the Board of Education may allow an official of the District to assign resources through policies adopted by the Board of Education. The District has assigned resources for encumbrances in the General Fund at June 30, 2022.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

## T. Deficit Net Position:

The District has a $\$ 39,732,868$ deficit in unrestricted net position in governmental activities, primarily due to the accrual of compensated absences payable, net pension liability and the related deferred inflows and outflows. The District also has a $\$ 774,075$ deficit in unrestricted net position in the Extended Day Program Enterprise Fund due to the accrual of net pension liability and the related deferred inflows and outflows. These deficit balances do not indicate that the District is having financial difficulties and is a permitted practice under generally accepted accounting principles.

## U. Net Position:

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources.

A deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period. The District had deferred outflows of resources at June 30, 2022 for the deferred amount on refunding of debt related to the District's 2012 refunding bonds and pensions. A deferred inflow of resources is an acquisition of net position by the District that is applicable to a future reporting period. The District had a deferred inflow of resources at June 30, 2022 for pensions.

Net position is displayed in three components - net investment in capital assets; restricted and unrestricted.
The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, lease assets, net of accumulated amortization reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position.

The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

## V. Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

V. Revenue - Exchange and Nonexchange Transactions: (Cont'd)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest and tuition.

## W. Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activities of the Enterprise Funds. For the School District, these revenues are charges for sales of food for food service and program fees for the community education, wrap around and extended day programs. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the Enterprise Funds.

## X. Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## Y. Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of New Jersey Public Employees' Retirement System (PERS) and the State of New Jersey Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the PERS's and TPAF's net position have been determined on the same basis as they are reported by the PERS and the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Pension Plan investments are reported at fair value.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the governmental fund statements and District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

## NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk - In accordance with its cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk - The Board limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed in the section of this note on Investments.

Custodial Credit Risk - The District's policy with respect to custodial credit risk ensures that District funds are only deposited in financial institutions in which NJ school districts are permitted to invest their funds.

## Deposits:

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal $5 \%$ of the average daily balance of public funds on deposit, and

In addition to the above collateral requirement, if public funds deposited exceed $75 \%$ of the capital funds of the depository, the depository must provide collateral having a market value at least equal to $100 \%$ of the amount exceeding $75 \%$.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than $\$ 25,000,000$.

Investments: (Cont'd)
(9) Deposit of funds in accordance with the following conditions:
(a) The funds are initially invested through a public depository as defined in section 1 of P.L. 1970, c. 236 (C.17:9-41) designated by the school district;
(b) The designated public depository arranges for the deposit of the funds in deposit accounts in one or more federally insured banks, savings banks or savings and loan associations or credit unions for the account of the school district;
(c) 100 percent of the principal and accrued interest of each deposit is insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund;
(d) The designated public depository acts as custodian for the school district with respect to these deposits; and
(e) On the same date that the school district's funds are deposited pursuant to subparagraph (b) of this paragraph, the designated public depository receives an amount of deposits from customers of other financial institutions, wherever located, equal to the amounts of funds initially invested by the school district through the designated public depository.

As of June 30, 2022, cash and cash equivalents and investments of the District consisted of the following:

|  | Cash and Cash Equivalents |  |  |  | Investment |  | Cash with <br> Fiscal <br> Agents |  | Total |  |

## NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Board for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A$5.1(\mathrm{~d}) 7$, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2021 to June 30, 2022 fiscal year is as follows:

Beginning Balance, July 1, 2021
Unexpended Balance Returned - Capital Projects Fund
Deposit by Board Resolution - June 2022

Withdrawals by Board Resolution
Budgeted Withdrawal from Capital Reserve
Transferred to Capital Projects Fund

Ending Balance, June 30, 2022

|  |  | $\$$ | $8,681,710$ |
| :---: | ---: | ---: | ---: |
| $\$$ | 12,808 <br> $2,600,000$ |  |  |

$(2,625,200)$
$(1,200,000)$

$$
(3,825,200)
$$

The balance in the capital reserve account at June 30, 2022 does not exceed the balance of local support costs of uncompleted capital projects in the District's Long Range Facilities Plan ("LRFP"). Withdrawals from the capital reserve were for use in DOE approved facilities projects, consistent with the District's LRFP.

## NOTE 5: TRANSFERS TO CAPITAL OUTLAY

During the fiscal year ended June 30, 2022, the District transferred $\$ 78,377$ to the capital outlay accounts for equipment and did not require approval from the County Superintendent.

## C. Financed Purchases Payable:

The District has financed purchases agreements for equipment, buses, chromebooks and turf fields valued at $\$ 8,738,304$, of which $\$ 4,675,097$ has matured and been repaid. The financed purchases agreements are for terms of four to five years. Additionally, the District entered into $\$ 11,065,064$ and $\$ 2,098,835$ financed purchase agreements with a term of fifteen years to fund the implementation of the District's Energy Savings Improvement Program (ESIP), entailing various permitted energy conservation measures under the ESIP Law, throughout the District. As of June 30, 2022, $\$ 4,641,786$ has matured and been repaid.
N.J.S.A. 18A:18A-4.6(c), Implementation of an energy savings improvement program by a board of education/board of trustees, provides the authority for public school districts/charter schools to finance an energy savings improvement program through a lease-purchase agreement or through the issuance of energy savings obligations. The ESIP law provides that the energy savings obligation shall be funded through appropriations in the General Fund annual budget, on the basis that cost of implemented energy conservation measures should be fully offset by energy savings to be generated by such measures (on both an annual and aggregate basis).

Benefits Provided: (Cont'd)
Service retirement benefits of $1 / 55^{\text {th }}$ of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of $1 / 60^{\text {th }}$ of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60 , to Tiers 3 and 4 with 25 or more years of service credit before age 62 and Tier 5 with 30 or more years of service credit before age 65 . Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

## Contributions

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing members. The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute $50 \%$ of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years, beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. District contributions to PERS amounted to $\$ 2,825,246$ for 2022.

The employee contribution rate was 7.50\% effective July 1, 2018.
Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of $\$ 28,578,952$ for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020 which was rolled forward to June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2021, the District's proportion was $0.241 \%$, which was a decrease of $0.004 \%$ from its proportion measured as of June 30, 2020 .

The amount reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date of $\$ 3,127,719$ will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Actuarial Assumptions

The total pension liability for the June 30 , 2021 measurement date was determined by an actuarial valuation as of July 1, 2020 which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions:

$$
\begin{array}{ll}
\text { Inflation Rate: } & \\
\quad \text { Price } & 2.75 \% \\
\text { Wage } & 3.25 \% \\
\text { Salary Increases: } & 2.00-6.00 \% \text { based on years of service } \\
\text { Through 2026 } & 3.00-7.00 \% \text { based on years of service } \\
\text { Thereafter } & 7.00 \%
\end{array}
$$

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee Mortality Table with an $82.2 \%$ adjustment for males and $101.4 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a $91.4 \%$ adjustment for males and a $99.7 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a $127.7 \%$ adjustment for males and $117.2 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

## Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments ( $7.00 \%$ at June 30, 2021) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS' target asset allocation as of June 30, 2021 are summarized in the following table:

| Asset Class | Target <br> Allocation | Long-Term <br> Expected Real <br> Rate of <br> Return |
| :--- | ---: | ---: | ---: |
| U.S. Equity | $27.00 \%$ | $8.09 \%$ |
| Non-U.S. Developed Market Equity | $13.50 \%$ | $8.71 \%$ |
| Emerging Markets Equity | $5.50 \%$ | $10.96 \%$ |
| Private Equity | $13.00 \%$ | $11.30 \%$ |
| Real Assets | $3.00 \%$ | $7.40 \%$ |
| Real Estate | $8.00 \%$ | $9.15 \%$ |
| High Yield | $2.00 \%$ | $3.75 \%$ |
| Private Credit | $8.00 \%$ | $7.60 \%$ |
| Investment Grade Credit | $8.00 \%$ | $1.68 \%$ |
| Cash Equivalents | $4.00 \%$ | $0.50 \%$ |
| U.S. Treasuries | $5.00 \%$ | $0.95 \%$ |
| Risk Management Strategies | $3.00 \%$ | $3.35 \%$ |

## Discount Rate

The discount rate used to measure the total pension liability was $7.00 \%$ as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based upon $100 \%$ of the actuarially determined contributions for the State employer and $100 \%$ of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

## Plan Description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF), is a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, by which the State of New Jersey (the State) is responsible to fund $100 \%$ of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The TPAF is administered by the State of New Jersey Division of Pensions and Benefits (the Division). For additional information about the TPAF, please refer to the Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

## Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for $2 \%$ of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

## NOTE 8. PENSION PLANS (Cont'd)

B. Teachers' Pension and Annuity Fund (TPAF) (Cont'd)<br>Benefits Provided (Cont'd)

The following represents the membership tiers for TPAF:
$\qquad$
1 Members who were enrolled prior to July 1, 2007
2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5 Members who were eligible to enroll on or after June 28, 2011
Service retirement benefits of $1 / 55^{\text {th }}$ of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of $1 / 60^{\text {th }}$ of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60 , to Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a members retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

## Contributions

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing members. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. For fiscal year 2022, the State's pension contribution was more than the actuarial determined amount.

## Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer. During the fiscal year ended 2022, the State of New Jersey contributed $\$ 26,562,951$ to the TPAF for normal pension benefits on behalf of the District, which is more than the contractually required contribution of $\$ 7,206,003$.

The employee contribution rate was 7.50\% effective July 1, 2018.

At June 30, 2022, the State's proportionate share of the net pension liability associated with the District was $\$ 306,241,756$. The net pension liability was measured as of June 30,2021 , and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020 which was rolled forward to June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2021, the District's proportion was $0.637 \%$, which was an increase of $0.003 \%$ from its proportion measured as of June 30, 2020.

## Actuarial Assumptions (Cont'd)

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a $93.9 \%$ adjustment for males and $85.3 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a $114.7 \%$ adjustment for males and a $99.6 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a $106.3 \%$ adjustment for males and $100.3 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2018.

## Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments ( $7.00 \%$ at June 30, 2021) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2021 are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
| :---: | :---: | :---: |

## Discount Rate - TPAF

The discount rate used to measure the total pension liability was $7.00 \%$ as of June 30,2021 . The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on $100 \%$ of the actuarially determined contributions for the State. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to projected benefit in determining the total pension liability.

## Sensitivity of the State's Proportionate Share of the Net Pension Liability Associated with the District to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability associated with the District as of June 30, 2021 calculated using the discount rate as disclosed above, as well as what the State's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

## Pension Plan Fiduciary Net Position- TPAF

Detailed information about the TPAF's fiduciary net position is available in the separately issued TPAF financial statements.

## C. Defined Contribution Retirement Program (DCRP)

Prudential Financial jointly administers the DCRP investments with the NJ Division of Pensions and Benefits. If an employee is ineligible to enroll in the PERS or TPAF, the employee may be eligible to enroll in the DCRP. DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

## NOTE 8. PENSION PLANS (Cont'd)

C. Defined Contribution Retirement Program (DCRP) (Cont'd)

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of $5.50 \%$ for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3\% employer contribution.

For DCRP, the District recognized pension expense of $\$ 125,261$ for the year ended June 30, 2022. Employee contributions to DCRP amounted to $\$ 172,483$ for the year ended June 30, 2022.

## NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The District has health benefits coverage for its employees under Aetna.

## Property and Liability Insurance

The Wayne Township Public Schools District is a member of the New Jersey Schools Insurance Group (the "Group"). This public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. The Group is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Group are elected.

There were no insurance settlements which exceeded insurance coverage in the past three years.

## NOTE 11. ECONOMIC DEPENDENCY

The Board of Education receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Board of Education's programs and activities.

## NOTE 12. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency.

The plan administrators are as follows:

| $\frac{403(b)}{}$ | $\underline{457}$ |
| :--- | :--- |
| AIG Valic | AIG Valic |
| AXA Equitable | AXA Equitable |
| Lincoln Investment Planning | Lincoln Investment Planning |
| IPX Vanguard |  |
| IPX Fidelity |  |
| NOTE 13. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS |  |

The following interfund balances remained on the balance sheet at June 30, 2022:

| Fund | Interfund <br> Receivable |  | Interfund Payable |  |
| :---: | :---: | :---: | :---: | :---: |
| General Fund | \$ | 560,376 |  |  |
| Special Revenue Fund |  |  | \$ | 560,376 |
|  | \$ | 560,376 | \$ | 560,376 |

The interfund payable from the Special Revenue Fund due to the General Fund is for cash flow purposes awaiting the collection of federal grants receivable. The District transferred $\$ 1,878$ of interest and $\$ 12,808$ of unexpended capital projects balances from the Capital Projects Fund to the General Fund and transferred $\$ 3,825,200$ from the General Fund Capital Reserve to the Capital Projects Fund for the local share of capital projects during the fiscal year.

## NOTE 14. CONTINGENCIES

## Litigation

The Board is periodically involved in claims and lawsuits, including personnel matters, arising in the normal course of business. The Board does not believe that the ultimate outcome of these claims will have a material adverse effect on the District's financial position.

## Grant Programs

The District participates in federally and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the District is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

## NOTE 14. CONTINGENCIES (Cont'd)

## Encumbrances

At June 30, 2022, there were encumbrances as detailed below in the governmental funds. All of the governmental funds are considered to be major funds:

| Governmental Funds |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| General |  | Special <br> Revenue | Capital <br> Projects | Total |
| \$ 1,805,079 | \$ | 357,090 | \$ 3,236,141 | \$ 5,398,310 |

On the District's Governmental Funds Balance Sheet as of June 30, 2022, \$-0- is assigned for encumbrances in the Special Revenue Fund, which is $\$ 357,090$ less than the actual encumbrances on a budgetary basis. Encumbrances are not recognized on a GAAP basis and are reflected as either a reduction in grants receivable or an increase in unearned revenue. The $\$ 3,236,141$ year-end encumbrances in the Capital Projects Fund are included in the $\$ 4,638,589$ committed fund balance.

## NOTE 15. TAX CALENDAR

Property taxes are levied by the District's constituent municipalities as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of $\$ 10,000$ at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10.

Taxes are collected by the constituent municipality and is remitted to the School District on a predetermined mutually agreed-upon schedule.

## NOTE 16. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

## NOTE 16. TAX ABATEMENTS (Cont'd)

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Township of Wayne recognized revenue in the amount of $\$ 638,804$ from four payment in lieu of taxes ("PILOT") agreements. The taxes which would have been paid on these properties for 2021 without the abatement would have been $\$ 2,648,387$ of which $\$ 1,428,760$ would have been for the local school tax.

## NOTE 17. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account was established by Board resolution for the accumulation of funds for use as maintenance expenditures in subsequent fiscal years. These funds may be used for specific activities necessary for the purpose of keeping a school facility open and safe for use or in its original condition, and for keeping its constituent buildings systems fully and efficiently functional and for keeping their warranties valid but cannot be used for routine or capital maintenance. The purpose of the reserve is to provide funds for anticipated expenditures required to maintain a building.

Pursuant to N.J.A.C. 6A:26A-4.2 funds may be deposited into the maintenance reserve account at any time by board resolution to meet the required maintenance of the District by transferring unassigned general fund balance or by transferring excess unassigned general fund balance that is anticipated to be deposited during the current year in the advertised recapitulation of balances of the subsequent year's budget that is certified for taxes. Funds may be withdrawn from the maintenance reserve account and appropriated into the required maintenance account lines at budget time or any time during the year by Board resolution for use on required maintenance activities by school facility as reported in the comprehensive maintenance plan. Funds withdrawn from the maintenance reserve account are restricted to required maintenance appropriations and may not be transferred to any other line-item account. In any year that maintenance reserve account funds are withdrawn, unexpended required maintenance appropriations, up to the amount of maintenance reserve account funds withdrawn, shall be restored to the maintenance reserve account at year-end.

At no time, shall the maintenance reserve account have a balance that exceeds four percent of the replacement cost of the current year of the District's school facilities. If the account exceeds this maximum amount at June 30, the excess shall be restricted and designated in the subsequent year's budget. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The activity of the maintenance reserve for the July 1, 2021 to June 30, 2022 fiscal year is as follows:

| Beginning Balance, July 1, 2021 | $\$ 3,800,000$ |
| :--- | ---: |
| Deposit by Board Resolution - June 2022 | $3,000,000$ <br> $(1,949,396)$ <br> Withdrawals by Board Resolution <br> Ending Balance, June 30, 2022 |

## State Health Benefit Program Fund - Local Education Retired Employees Plan

General Information about the OPEB Plan

## Plan Description and Benefits Provided

The District is in a "special funding situation", as described in GASB Codification Section P50, in that OPEB contributions and expenses are legally required to be made by and are the sole responsibility of the State of New Jersey, not the District.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other postemployment (health) benefits for the State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other than Pensions. The State Health Benefits Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28,2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits is the responsibility of the individual education employers.

For additional information about the State Health Benefit Local Education Retired Education Plan, please refer to the Division's annual financial statements which can be found at https://www.state.nj.us/ treasury/pensions/gasb-notices-opeb.shtml.

Total Nonemployer OPEB Liability
The total nonemployer OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021.

Actuarial Assumptions and Other Inputs
The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 - June 30, 2018, July 1, 2014 - June 30, 2018 and July 1, 2013 - June 30, 2018 for TPAF, PERS and PFRS, respectively.

Mortality Rates
Pre-retirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Post-retirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees were based on the Pub-2010 "Safety" (PFRS), "General" (PERS) and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

Health Care Trend Assumptions
For pre-Medicare medical benefits, the trend rate is initially $5.65 \%$ and decreases to a $4.5 \%$ long term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal years 2022 through 2023 are reflected. For PPO the trend is initially $5.74 \%$ in fiscal year 2024, increasing to $12.93 \%$ in fiscal year 2025 and decreasing to $15.23 \%$ in fiscal year 2025 and decreasing to $4.5 \%$ after 11 years. For HMO the trend is initially $6.01 \%$ in fiscal year 2024, increasing to $15.23 \%$ in fiscal year 2025 and decreasing to $4.5 \%$ after 11 years. For prescription drug benefits, the initial trend rate is $6.75 \%$ and decreases to a $4.5 \%$ long term rate after seven years. For the Medicare Part B reimbursement, the trend rate is $5.0 \%$.

## Discount Rate

The discount rate for June 30, 2021 was $2.16 \%$. This represents the municipal bond rate as chosen by the State of New Jersey Division of Pensions and Benefits. The source is the Bond Buyer Go 20-Bond Municipal bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of $\mathrm{AA} / \mathrm{Aa}$ or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB
For the fiscal year ended June 30, 2022 the District recognized OPEB expense of $\$ 21,508,471$ as determined by the State of New Jersey Division of Pensions and Benefits. This expense and the related offsetting revenue are for benefits provided by the State through a defined benefit OPEB plan that meets the criteria in GASB Codification Section P50, in which there is a special funding situation.

In accordance with GASB Codification Section P50, as the District's proportionate share of the OPEB liability is $\$-0$-, there is no recognition of the allocation of the proportionate share of the deferred inflows and outflows of resources.

GAAP Revenues and Expenditures

Sources/Inflows of Resources
Actual Amounts (Budgetary Basis) "Revenue"
from the Budgetary Comparison Schedule
Difference - Budgetary to GAAP:
Grant Accounting Budgetary Basis Differs from GAAP in that the Budgetary Basis Recognizes Encumbrances as Expenditures and Revenue, Whereas the GAAP Basis does not:
Current Year Encumbrances
Cancellation of Prior Year Encumbrances
Prior Year Encumbrances
Prior Year State Aid Payments Recognized for GAAP Purposes, not Recognized for Budgetary Statements
Current Year State Aid Payments Recognized for Budgetary Purposes, not Recognized for GAAP Statements
Total Revenues as Reported on the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds

Uses/Outflows of Resources:
Actual Amounts (Budgetary Basis) "Total Outflows" from the Budgetary Comparison Schedule
Differences - Budgetary to GAAP
Encumbrances for Supplies and Equipment Ordered but Not Received are Reported in the Year the Order is Placed for Budgetary Purposes, but in the Year the Supplies are Received for Financial Reporting Purposes:

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT <br> REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE <br> NOTE TO RSI <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2022 <br> (Continued) 

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budget for the fiscal year ended June 30, 2022 was submitted to the County office and was approved by a vote of the Board of Education. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:202A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis except for student activities and scholarships. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not.

The General Fund budgetary revenue differs from the GAAP revenue due to a difference in the recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize these payments in the GAAP financial statements.

a - The District's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation Taxable.
b-Rates for debt service are based on each year's requirements.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculation.

a - For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the district's boundaries and dividing it by each unit's total equalized property value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Distric This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by residents and businesses of Wayne. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

Report on Internal Control Over Financial Reporting and<br>on Compliance and Other Matters Based on an Audit of Financial Statements<br>Performed in Accordance with Government Auditing Standards

Independent Auditors' Report
The Honorable President and Members
of the Board of Education
Wayne Township Public School District
County of Passaic, New Jersey
We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey (the "Office"), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Wayne Township School District (the "District"), in the County of Passaic, as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 27, 2023.

## Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected, and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

The Honorable President and Members of the Board of Education
Wayne Township Public School District
Page 2

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report on Compliance For Each Major Federal and State Program; <br> Report on Internal Control Over Compliance Required by the Uniform Guidance and NJOMB 15-08 

Independent Auditors' Report

The Honorable President and Members
of the Board of Education
Wayne Township Public School District
County of Passaic, New Jersey

## Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program
We have audited the Wayne Township School District's (the "District's") compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey State Aid/ Grant Compliance Supplement that could have a direct and material effect on each of the District's major federal and state programs for the fiscal year ended June 30, 2022. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2022.

## Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and New Jersey’s OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid. Our responsibilities under those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

The Honorable President and Members
of the Board of Education
Wayne Township Public School District
Page 2

## Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal and state programs.

## Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, the Uniform Guidance and New Jersey's OMB Circular 15-08, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey's OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

The Honorable President and Members of the Board of Education
Wayne Township Public School District

## Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance or New Jersey's OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

# WAYNE TOWNSHIP PUBLIC SCHOOL DISTRICT <br> NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS 

FOR THE FISCAL YEAR ENDED JUNE 30, 2022

## NOTE 1. BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal and state awards include federal and state awards activity of the Board of Education, Wayne Township Public Schools under programs of the federal and state governments for the fiscal year ended June 30, 2022. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance") and New Jersey's OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Because the schedules present only a selected portion of the operations of the District, they are not intended to and do not present the financial position, changes in net position or cash flows of the District.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the accompanying schedules of expenditures of federal and state awards are reported on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented on the accrual basis of accounting. These bases of accounting are described in Note 1 to the District's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

## NOTE 3. INDIRECT COST RATE

The District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

## NOTE 4. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes these payments are not recognized until the subsequent budget year due to the state deferral and recording of the June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Grant revenue in the capital projects fund is recognized on the budgetary basis in the fiscal year of award but is not recognized on the GAAP basis until expended and submitted for reimbursement.
(Continued)

## NOTE 4. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (Cont'd)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is $(\$ 108,909)$ for the general fund and $(\$ 334,573)$ for the special revenue fund, (of which $\$ 1,228$ is for local awards and is not included in the table below). See Note 1D for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenue are reported on the Board's financial statements on a GAAP basis as presented below:

|  | Federal |  | State |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| General Fund | \$ | 406,273 | \$ | 51,032,366 |  | 51,438,639 |
| Special Revenue Fund |  | 6,617,728 |  | 875,065 |  | 7,492,793 |
| Capital Projects Fund |  |  |  | 39,483 |  | 39,483 |
| Food Service Fund |  | 5,206,421 |  | 79,517 |  | 5,285,938 |
| Total Awards |  | 12,230,422 | \$ | 52,026,431 |  | 64,256,853 |

## NOTE 5. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

## NOTE 6. OTHER

Revenue and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. TPAF Social Security contributions represent the amount reimbursed by the State for the employers' share of social security contributions for TPAF members for the fiscal year ended June 30, 2022.

## NOTE 7. OTHER

During fiscal year 2022, the District had an active grant in the amount of $\$ 438,895$ from the Securing Our Children's Future Bond Act. As of June 30, 2022, the project is still in progress and $\$ 39,483$ of the grant funds have been expended and drawn down on the GAAP basis for this grant. In the Capital Projects Fund, the District realizes the full amount of the grant revenue on a budgetary basis in the year awarded and realizes the grant revenue on the GAAP basis as it is expended and submitted for reimbursement.

Expenditures, if any, reported under the NJ Schools Development Authority (NJSDA) on the Schedule of Expenditures of State Awards represents reimbursement request submitted to the NJSDA during the fiscal year.
