Payroll Account

The net salaries of all employees of the Board were deposited in the Payroll Account. Employees' payroll deductions and employer's share of fringe benefits were deposited in the payroll agency account.

All payrolls tested were approved by the Superintendent and were certified by the President of the Board and the Board Secretary/School Business Administrator.

The School Business Administrator completed and filed the required certification of compliance with federal and state law respecting the reporting of compensation for certain administrative employees.

Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made as of June 30, for goods not yet received or services not yet rendered and it was determined that no blanket purchase orders were included in the balance of the reserve for encumbrances. Also, unpaid purchase orders included in the balance of accounts payable were reviewed for propriety and to determine that goods were received and services were rendered, as of June 30.

Classification of Expenditures

The coding of expenditures was tested for proper classification in accordance with N.J.A.C. 6A:23A-16.2(f) as part of our test of transactions of randomly selected expenditure items. We also reviewed the coding of all expenditures included in our compliance and single audit testing procedures. In addition to randomly selecting a test sample, our sample selection included administrative coding classifications to determine overall reliability and compliance with NJAC 6A:23A-8.3. As a result of the procedures performed additional procedures were not deemed necessary to test the propriety of expenditure classification.

The Board has adopted the direct reimbursement method and has established an unemployment compensation insurance account. The financial transactions of this account are reported in the general fund.

Elementary and Secondary School Education Act (E.S.E.A.) as Amended by Every Student Succeeds Act (ESSA)

The E.S.E.A. financial exhibits are contained within the Special Revenue section of the ACFR. This section of the ACFR documents the financial position pertaining to projects under Titles I, II, III and IV of the Elementary and Secondary Education Act as amended and reauthorized.

Our examination of the E.S.E.A./E.S.S.A. funds on a test basis indicated that obligations and expenditures were incurred during the fiscal year or project period for which the project was approved.

Financial Planning, Accounting and Reporting (Continued)

Other Special Federal and/or State Projects

The district's Special Projects were approved as listed on Exhibit K-3 and Exhibit K-4 located in the ACFR.

Our examination of the Federal and State funds not a test basis indicated that obligations and expenditures were incurred during the fiscal year or project period for which the project was approved.

The financial exhibits contained herein represent a true statement of the financial position pertaining to the aforementioned special projects.

T.P.A.F. Reimbursements

Our audit procedures included a test of the semi-monthly reimbursement forms filed with the Department of Education for district employees who are members of the Teachers Pension and Annuity Fund. No exceptions were noted.

T.P.A.F Reimbursement to the State for Federal Salary Expenditures

The amount of expenditures charged to the current year's Final Reports for all federal awards for the school district to reimburse the State for the TPAF/FICA payments made by the State on-behalf of the school district for those employees whose salaries are identified as being paid from federal funds was made prior to the end of the 90 day grant liquidation period required by the Office of Grants Management. The expenditure was reviewed subsequent to the reimbursement and no exceptions were noted.

School Purchasing Programs

Contracts and Agreements Requiring Advertisement for Bids

The bid thresholds in accordance with N.J.S.A. 18A:18A-3 (as amended) and 18A:39-3 (public school student transportation) are \$32,000 and \$20,200 respectively for 2021-2022.

If the purchasing agent is qualified pursuant to subsection b of section 9 of P.L. 1971, c.198 (c.40A:11-9), the board of education may establish that the bid threshold may be up to \$44,000 in accordance with 18A:18A-2. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section. The Board designated the School Business Administrator as the qualified purchasing agent.

The School Business Administrator is a QPA and the Board by resolution has established the bid threshold be \$44,000.

The Board of Education has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Board Attorney's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed; however, to determine whether any clear-cut violations existed.

The results of our examination did not indicate any individual payments, contracts, or agreements which were made "for the performance of any work or the furnishing or hiring of any materials or supplies," in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A. 18A:18A-4.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 18A:18A-5.

School Purchasing Programs (Continued)

Contracts and Agreements Requiring Advertisement for Bids (Continued)

Finding 2022-1 — Our audit noted certain contract awards in excess of the bid threshold made through National Cooperative Purchasing programs were not supported by a cash savings analysis. In addition, we noted an instance where the pre-award intent to purchase advertisement was not published and an instance where a public works contract was awarded which is not permitted under a National Cooperative Purchasing program.

Recommendation – Contracts awarded under National Cooperative Purchasing programs be made in accordance with the procedures and requirements of State procurement guidelines.

The system of records did not provide for an accumulation of purchases for which the school board used contracts entered into by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained. Our examination did reveal, however, that purchases were made through the use of State contracts.

Food Service Fund

Public Health Emergency

In accordance with the Governor's Declaration of Emergency pertaining to the public health emergency all Public, Charter, Non-Public schools were ordered to close effective as of March 18, 2020 for an undetermined period to limit the spread of the virus. As a result, School Food Authorities (SFA) were required to institute alternate procedures to provide meals to Free and Reduced Price eligible students during the period of school closures. Governor Murphy's emergency declaration ended June 4, 2021; however, the United States Department of Agriculture's federal waiver continued through June 30, 2022. Food Service Agencies operated under this federal waiver.

As a result, School Food Authorities (SFA's) were required to provide meals in accordance with the regulations governing the National School Nutrition Seamless Summer Option (SSO). SFAs could also choose to participate in the National School Lunch Program utilizing standard counting and claiming practices.

SFAs were authorized to solicit and award emergency noncompetitive procurements and contracts with Food Service Management Companies in accordance with 2 CFR 200.320 and N.J.S.A. 18A:18A-7. The SFAs were also authorized to submit contract modifications to their existing Cost Reimbursable or Fixed Price contracts as necessary to ensure the feeding of all children throughout the ages of 18, as well as persons over 18 with disabilities as defined in the regulations.

SFAs were notified of the requirement to maintain and report separate meal count records and financial records of all applicable costs incurred in providing meals to all students during the emergency.

The school food service program was not selected as a major federal or state program. However, the program expenditures exceeded \$100,000 in federal support. Accordingly, we inquired of school management, or appropriate school food service personnel, as to whether the School Food Authority (SFA) had any Child Nutrition Program reimbursement overclaims or underclaims. Exceptions were not noted.

We also inquired of school management, or appropriate school food service personnel, as to whether the SFA's expenditures of school food service revenues were limited to allowable direct and indirect costs. Exceptions were not noted.

The Statement of Revenues, Expenses, and Changes in Fund Net Assets (ACFR Schedule B-5) does separate program and non-program revenue and program and non-program cost of goods sold.

We inquired of management about the public health emergency procedures/practices that the SFA instituted to provide meals to all students, maintenance of all applicable production records; meal counts; noncompetitive procurements; modification of existing contracts and applicable financial records to document the specific costs applicable to the emergency operations. We also inquired if the FSMC received a loan in accordance with the Payroll Protection Plan and whether the funds were used to pay for costs applicable to the Food Service Programs. We also inquired if the PPP loan was subsequently forgiven and the FSMC refunded or credited the applicable amounts to the SFA.

The financial transactions and records of the school food service fund were reviewed. Cash receipts and bank records were reviewed for timely deposit.

Food Service Fund (Continued)

The district utilized a food service management company (FSMC) and is depositing and expending program monies in accordance with N.J.S.A. 18A:17-34, and 19-1 through 19-4.1. Provisions of the FSMC Cost Reimbursable Fixed Price contract were reviewed and audited. The FSMC contract includes an operating results provision which guarantees that the food service program will return a profit of at least \$141,400. The operating results provision has been met. All vendor discounts, rebates, and credits from vendors and/or the FSMC were tracked and credited to the Food Service Account.

Expenditures were separately recorded as food, labor and other costs. Vendor invoices were reviewed, and costs verified. Inventory records on food and supply items were currently maintained and properly applied in determining the costs of food and supplies used.

The cash disbursements records reflected expenditures for program related goods and services. The appropriate revenue and expenditure records were maintained in order to substantiate the non-profit status of the school food service.

Net cash resources did not exceed three months average expenditures.

Applications for free and reduced price meals were reviewed for completeness and accuracy as part of our audit of the Application for State School Aid ("ASSA").

USDA Food Distribution Program (food and/or commodities) were received and a single inventory was maintained on a first-in, first-out basis.

Exhibits reflecting Child Nutrition Program operations are included in the section entitled Enterprise Funds, Section G of the ACFR.

Student Body Activities

The Board has a policy, which clearly established the regulation of student activity funds.

Cash receipts and disbursements records for the various schools were maintained in good condition.

Finding 2022-2 – Our audit of High School student activity account revealed certain monies collected from fund raising activities were not deposited in a timely manner.

Recommendation – Monies collected from fund raising activities in the High School student account be deposited in a timely manner.

Summer Enrichment Program

A formal cash receipts and cash disbursement journal was maintained for the summer enrichment program's financial transactions and were in good condition.

Application for State School Aid

Our audit procedures included a test of information reported in the October 15, 2021 Application for State School Aid (A.S.S.A.) for on-roll, private schools for the handicapped, low-income and limited English proficiency. We also performed a review of the district procedures related to its completion. The information on the A.S.S.A. was compared to the district workpapers with an isolated exception noted. The information that was included on the workpapers was verified without exceptions. The results of our procedures are presented in the Schedule of Audited Enrollments.

The District maintained workpapers on the prescribed state forms or their equivalent.

The District had adequate written procedures for the recording of student enrollment data.

Pupil Transportation

Our audit procedures included a test of on roll status reported in the 2021-2022 District Report of Transported Resident Students (DRTRS). The information that was included on the DRTRS was verified to the DRTRS Eligibility Summary Report with no exceptions. The results of our procedures are presented in the Schedule of Audited Enrollments.

Our procedures also included a review of transportation related contracts and purchases. Based on our review, the district complied with proper bidding procedures and award of contracts. No exceptions were noted in our review of transportation related purchases of goods and services.

Facilities and Capital Assets

The District had no State Schools Development Authority (SDA) grants during the 2022 fiscal year.

Testing for Lead of all Drinking Water in Educational Facilities

The school district submitted the annual Statement of Assurance to the Department of Education, pursuant to N.J.A.C. 6A:26-12.4(g).

Follow-up Prior Year Findings

In accordance with government standards, our procedures included a review of all prior year recommendations. Corrective action had been taken on all prior year findings.
